

Ashy Drongo

Each bar represents the % of detections across dawn and dusk

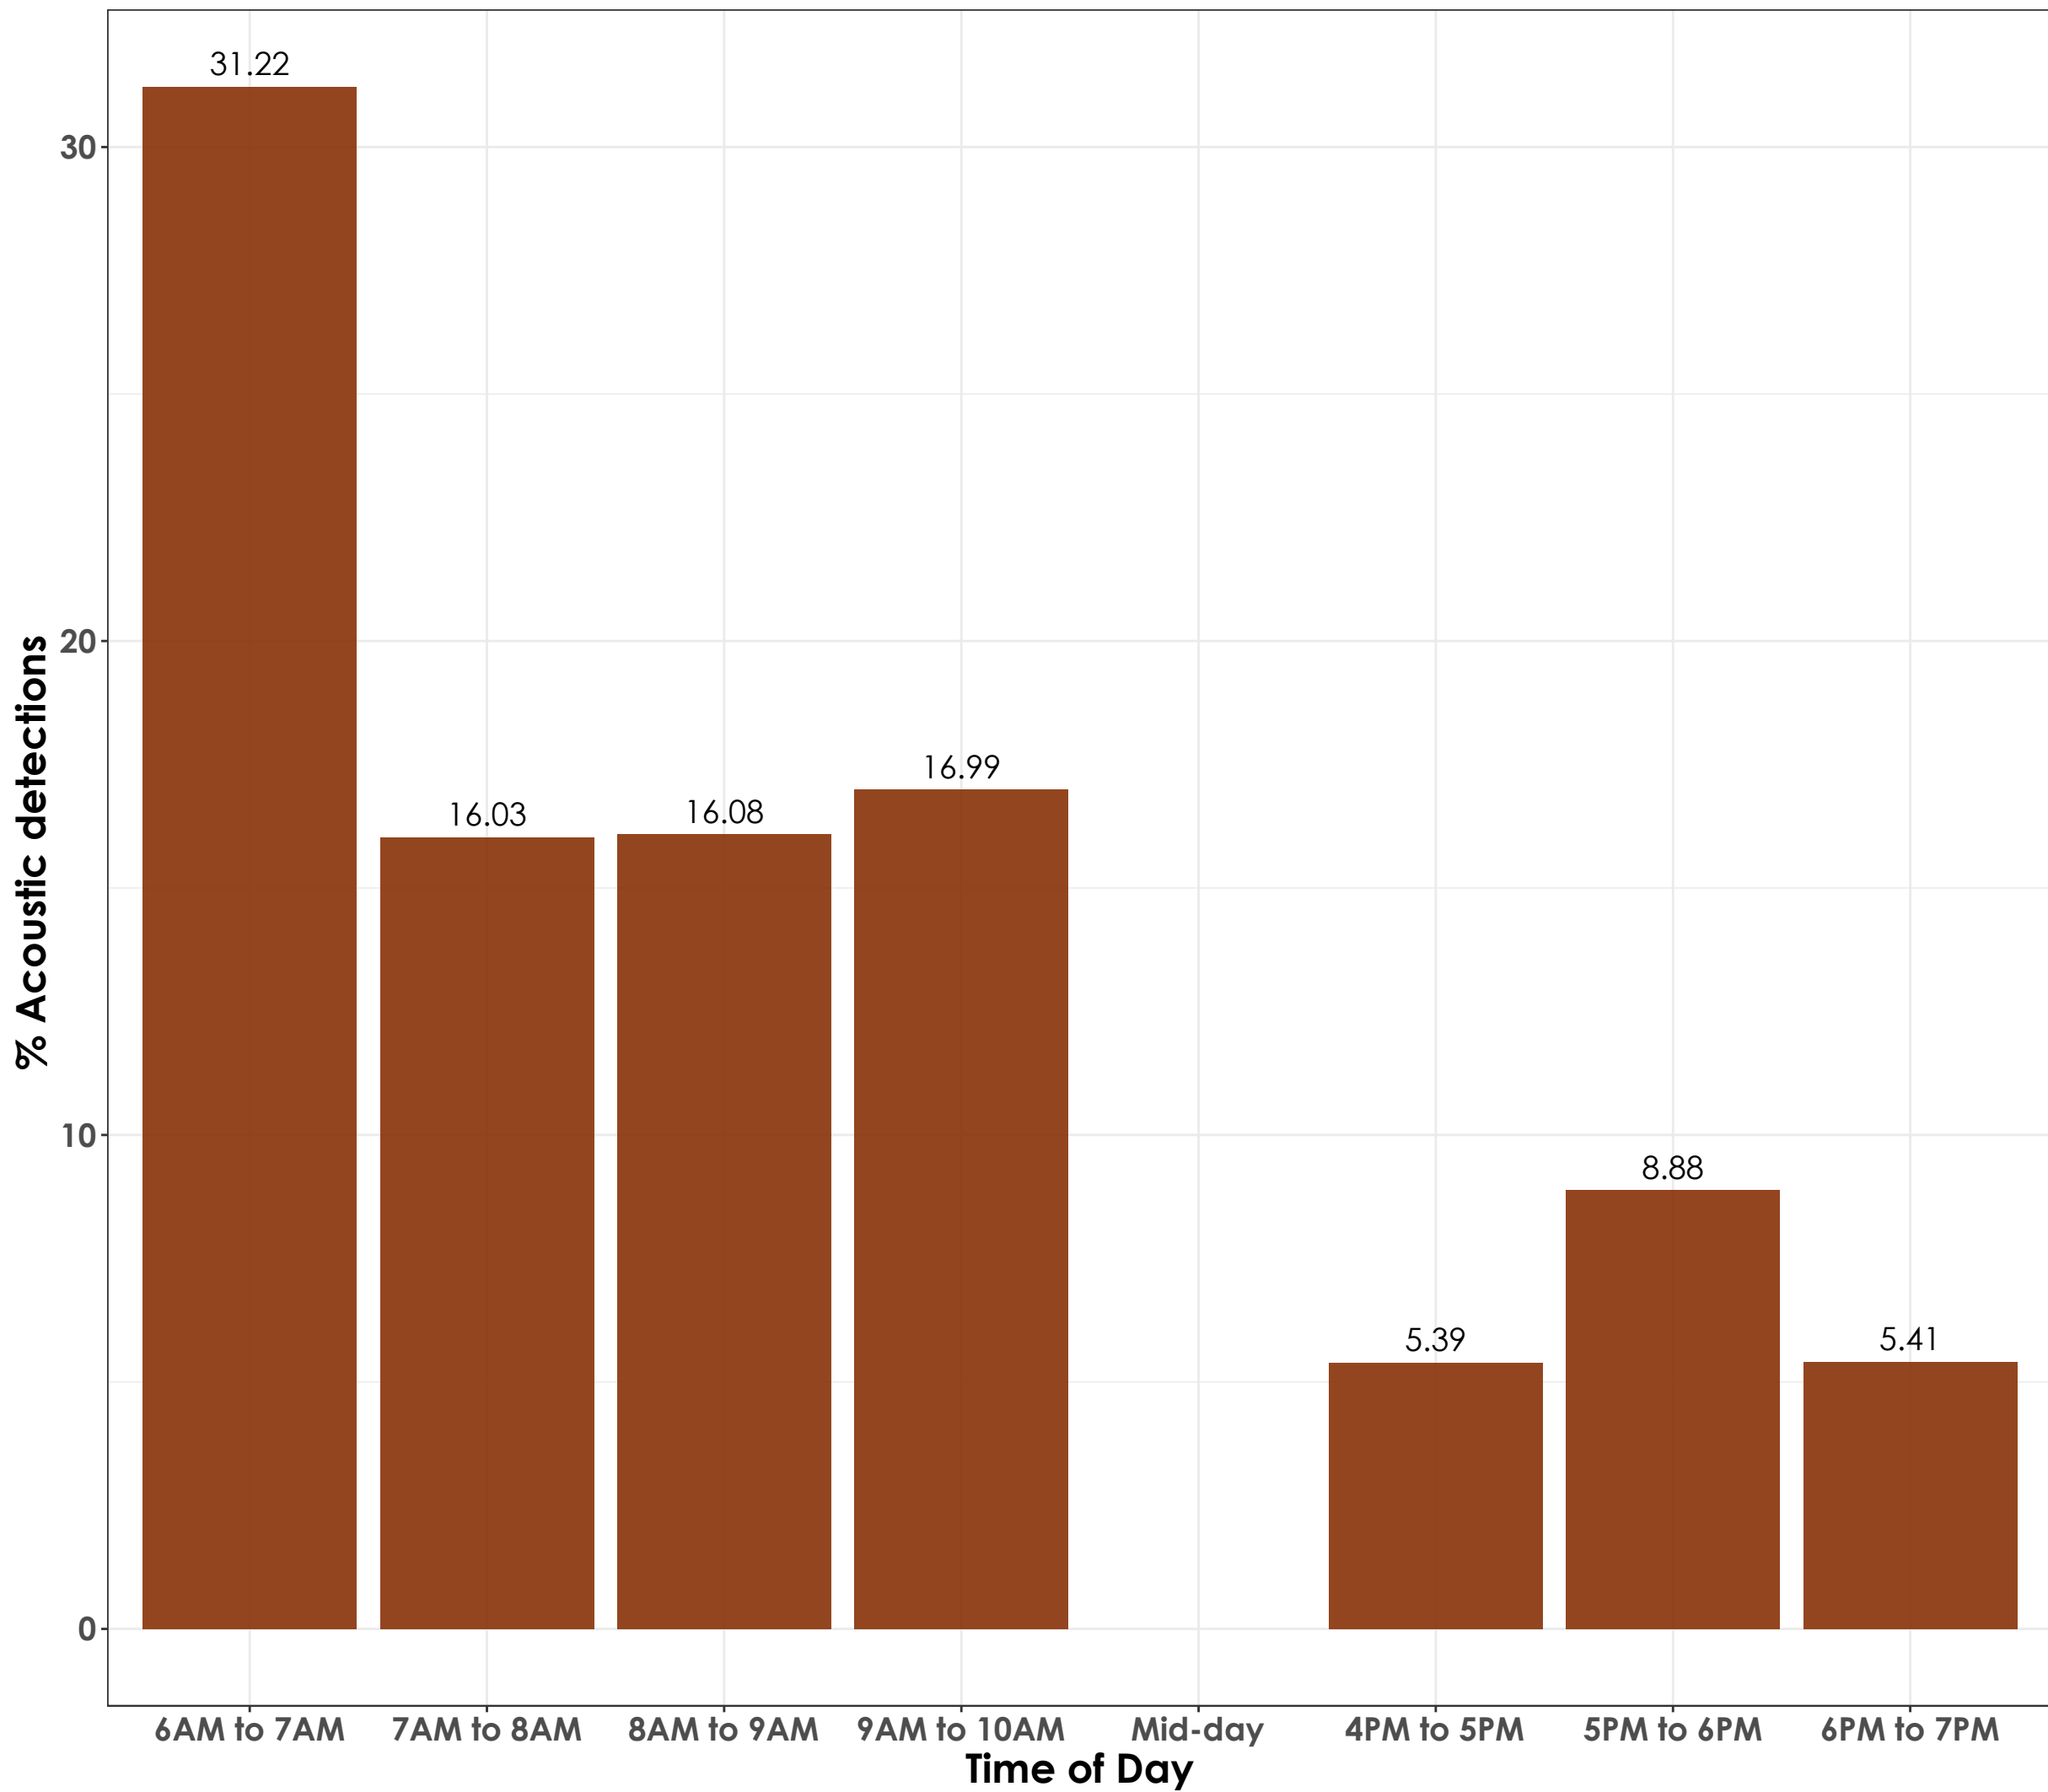

Crimson-backed Sunbird

Each bar represents the % of detections across dawn and dusk

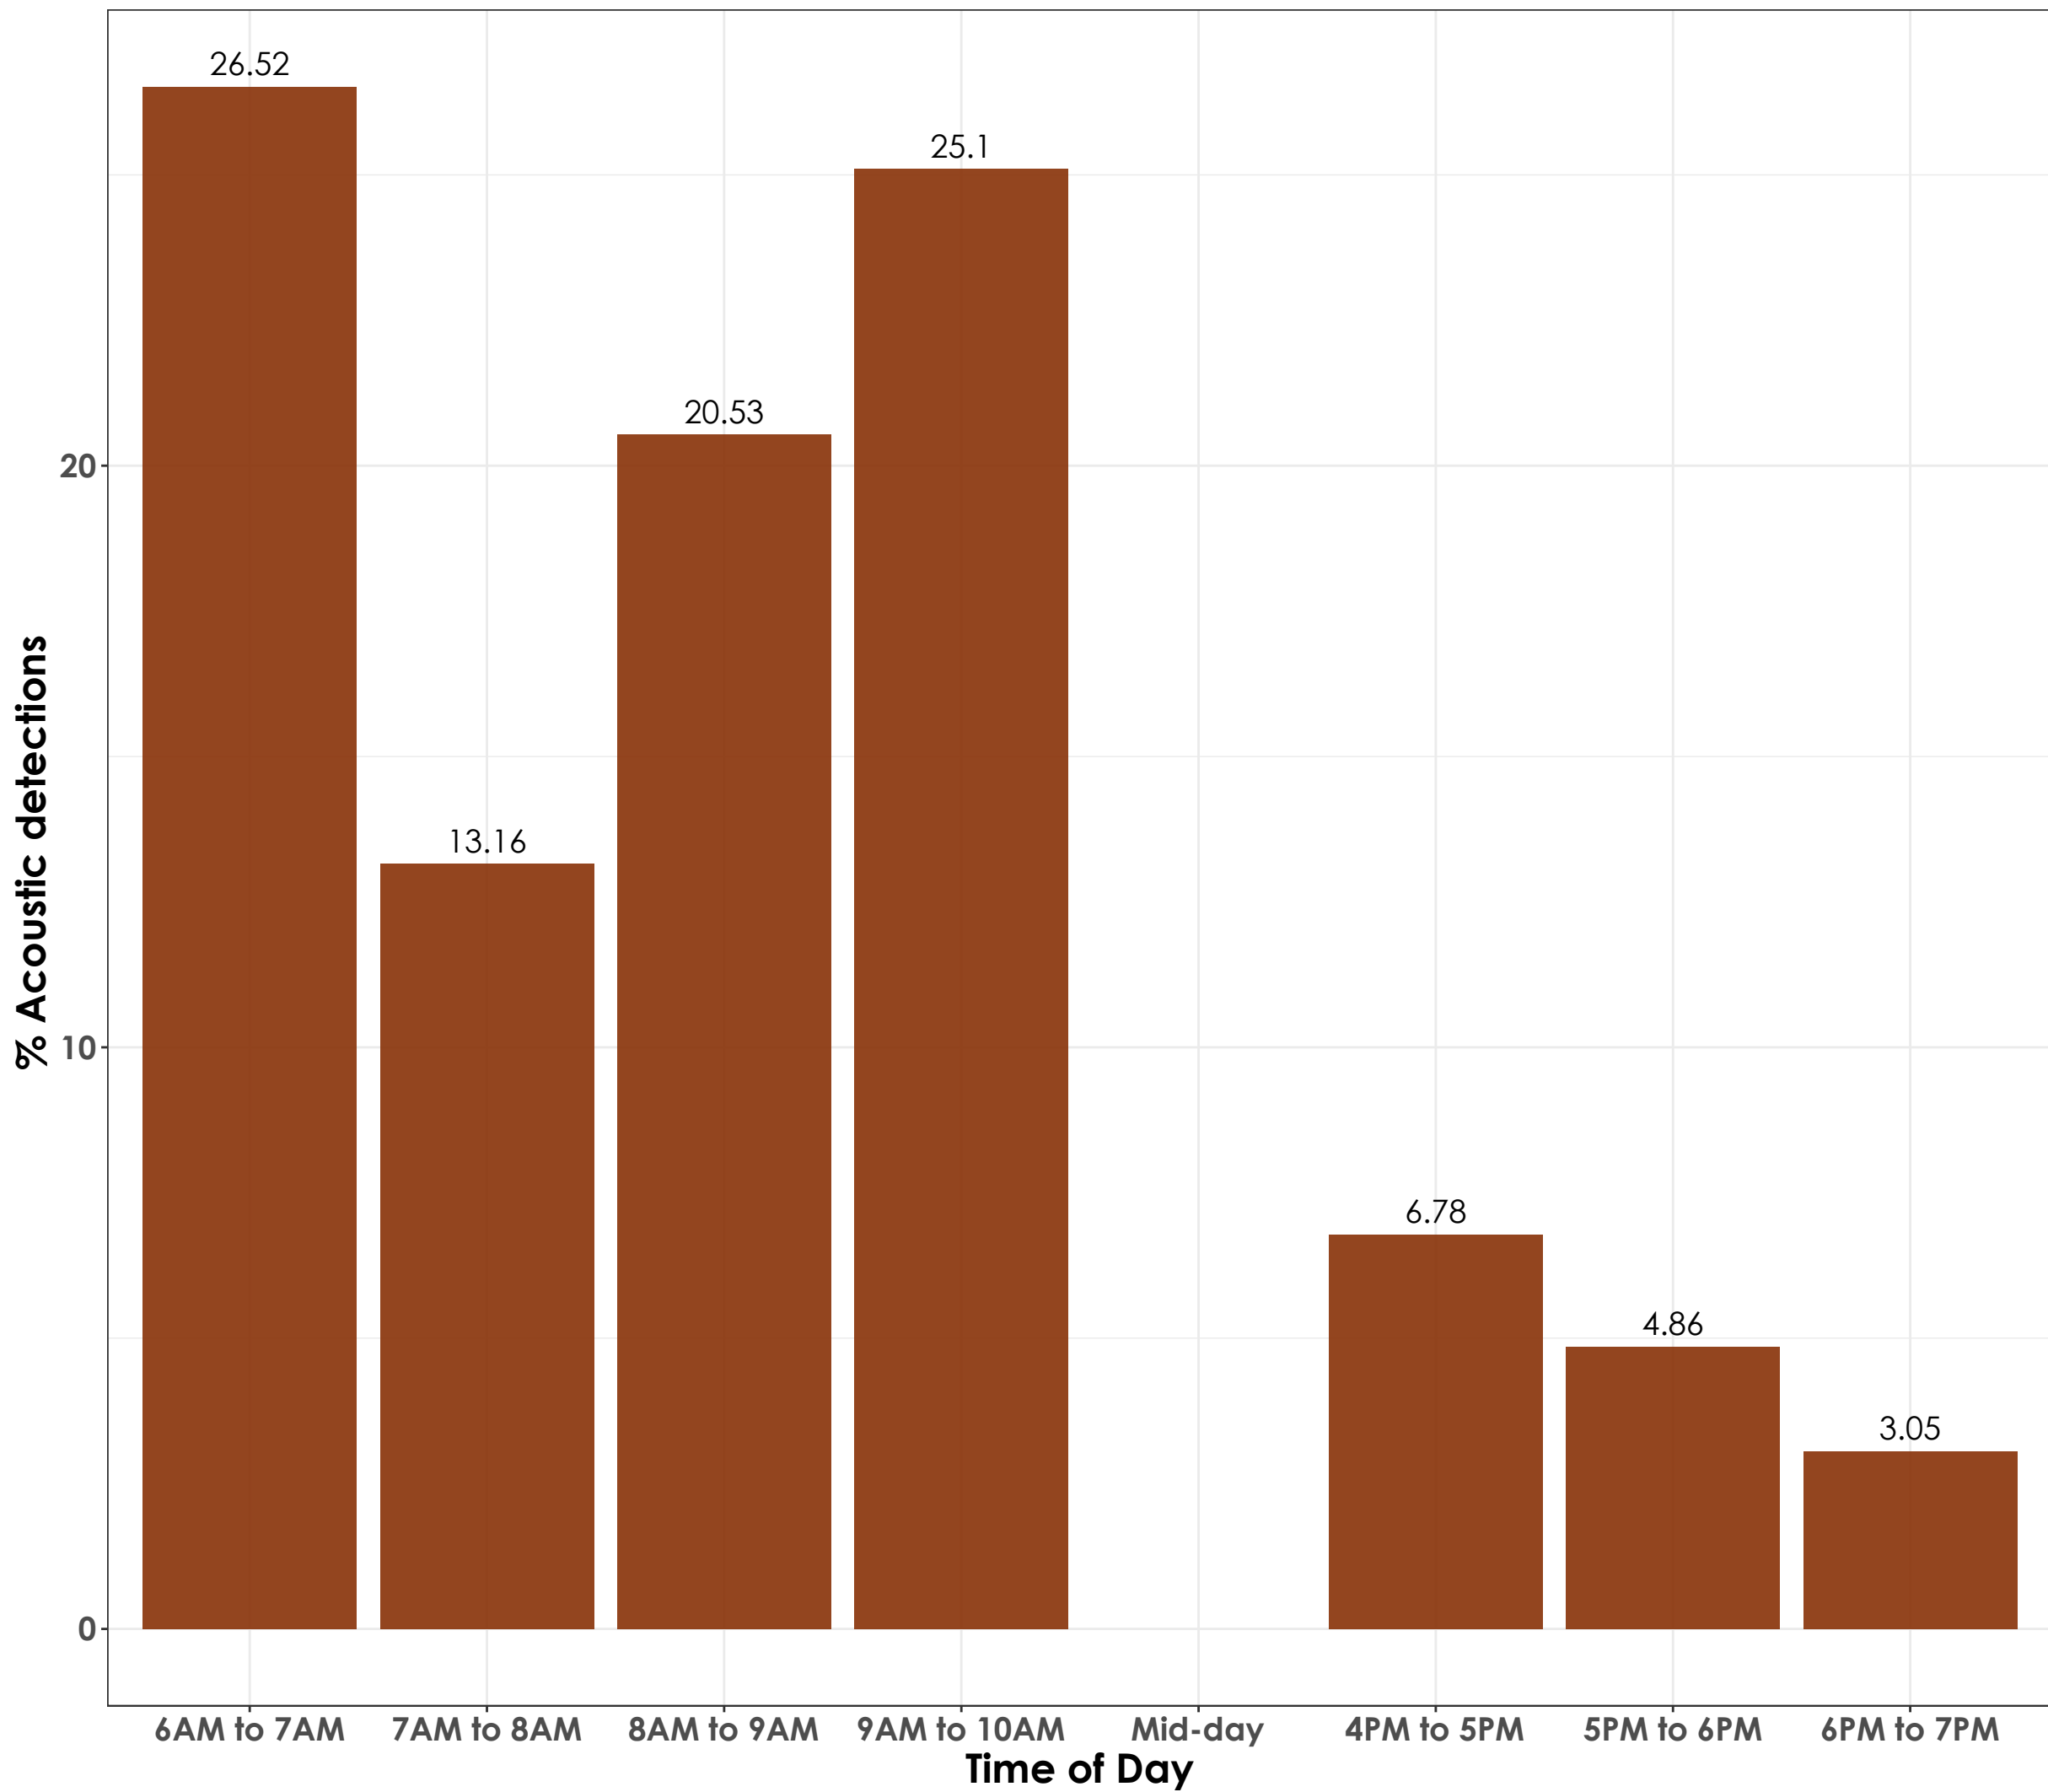

Gray Junglefowl

Each bar represents the % of detections across dawn and dusk

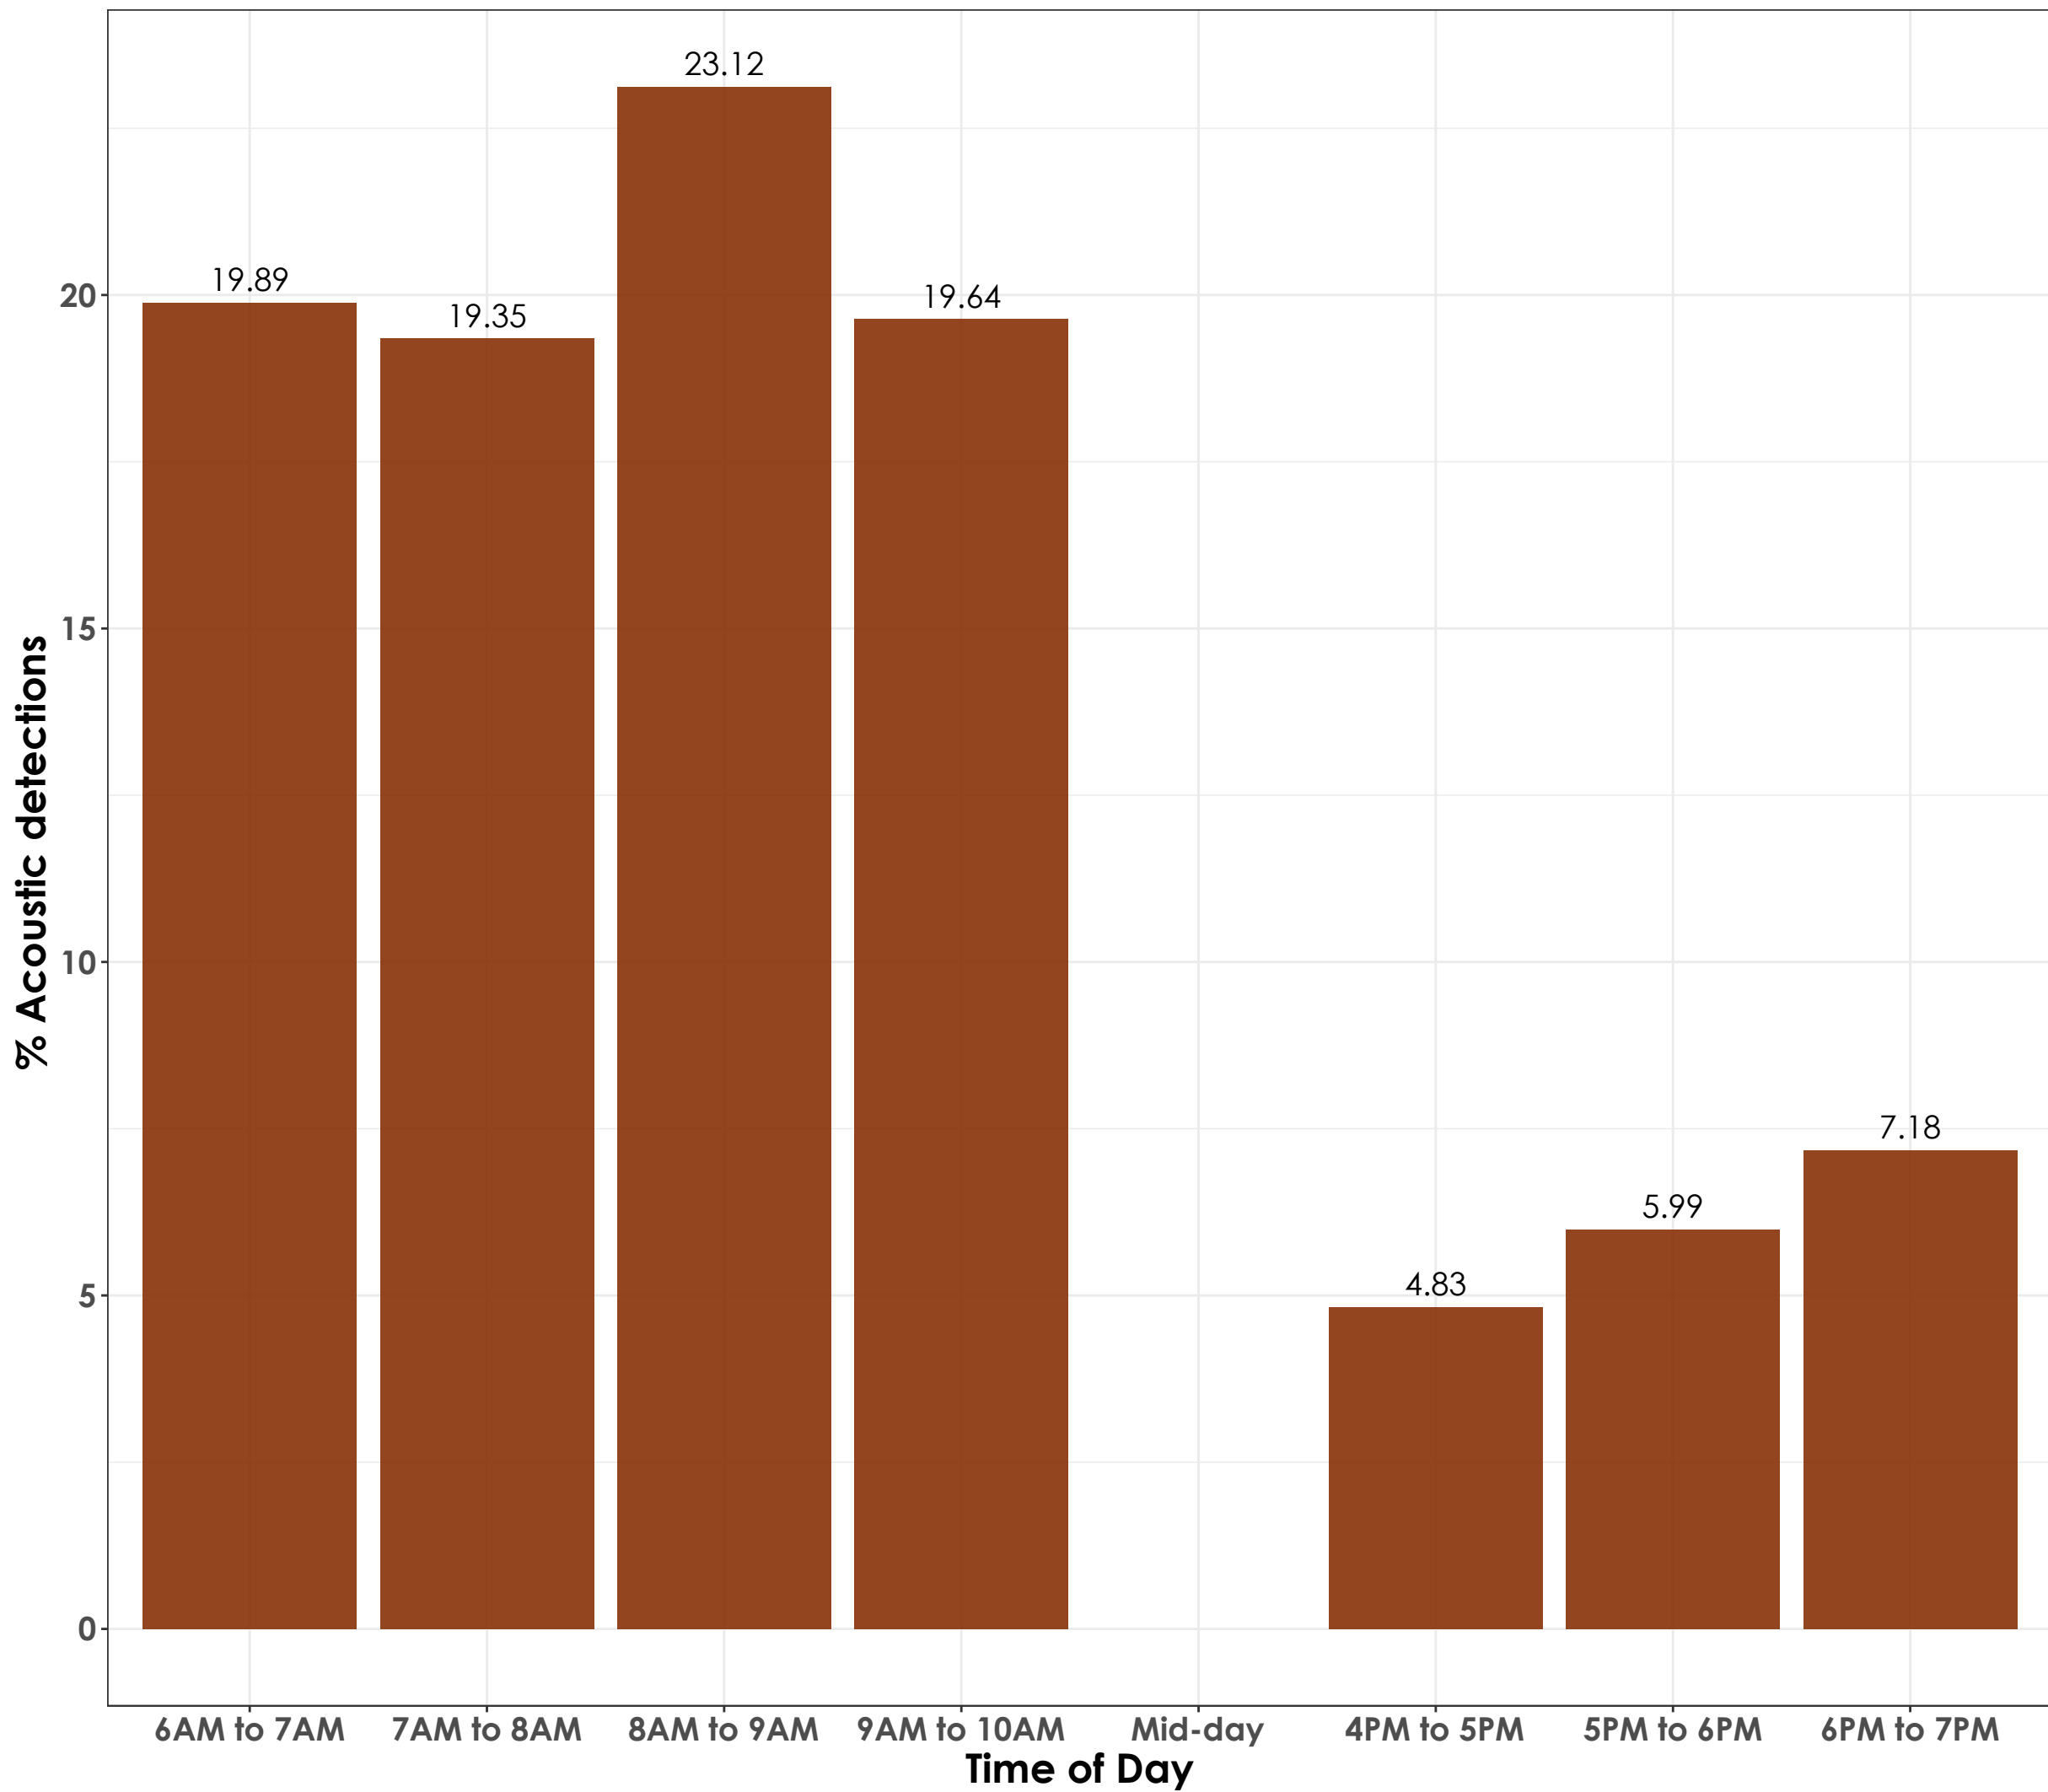

Greater Racket-tailed Drongo

Each bar represents the % of detections across dawn and dusk

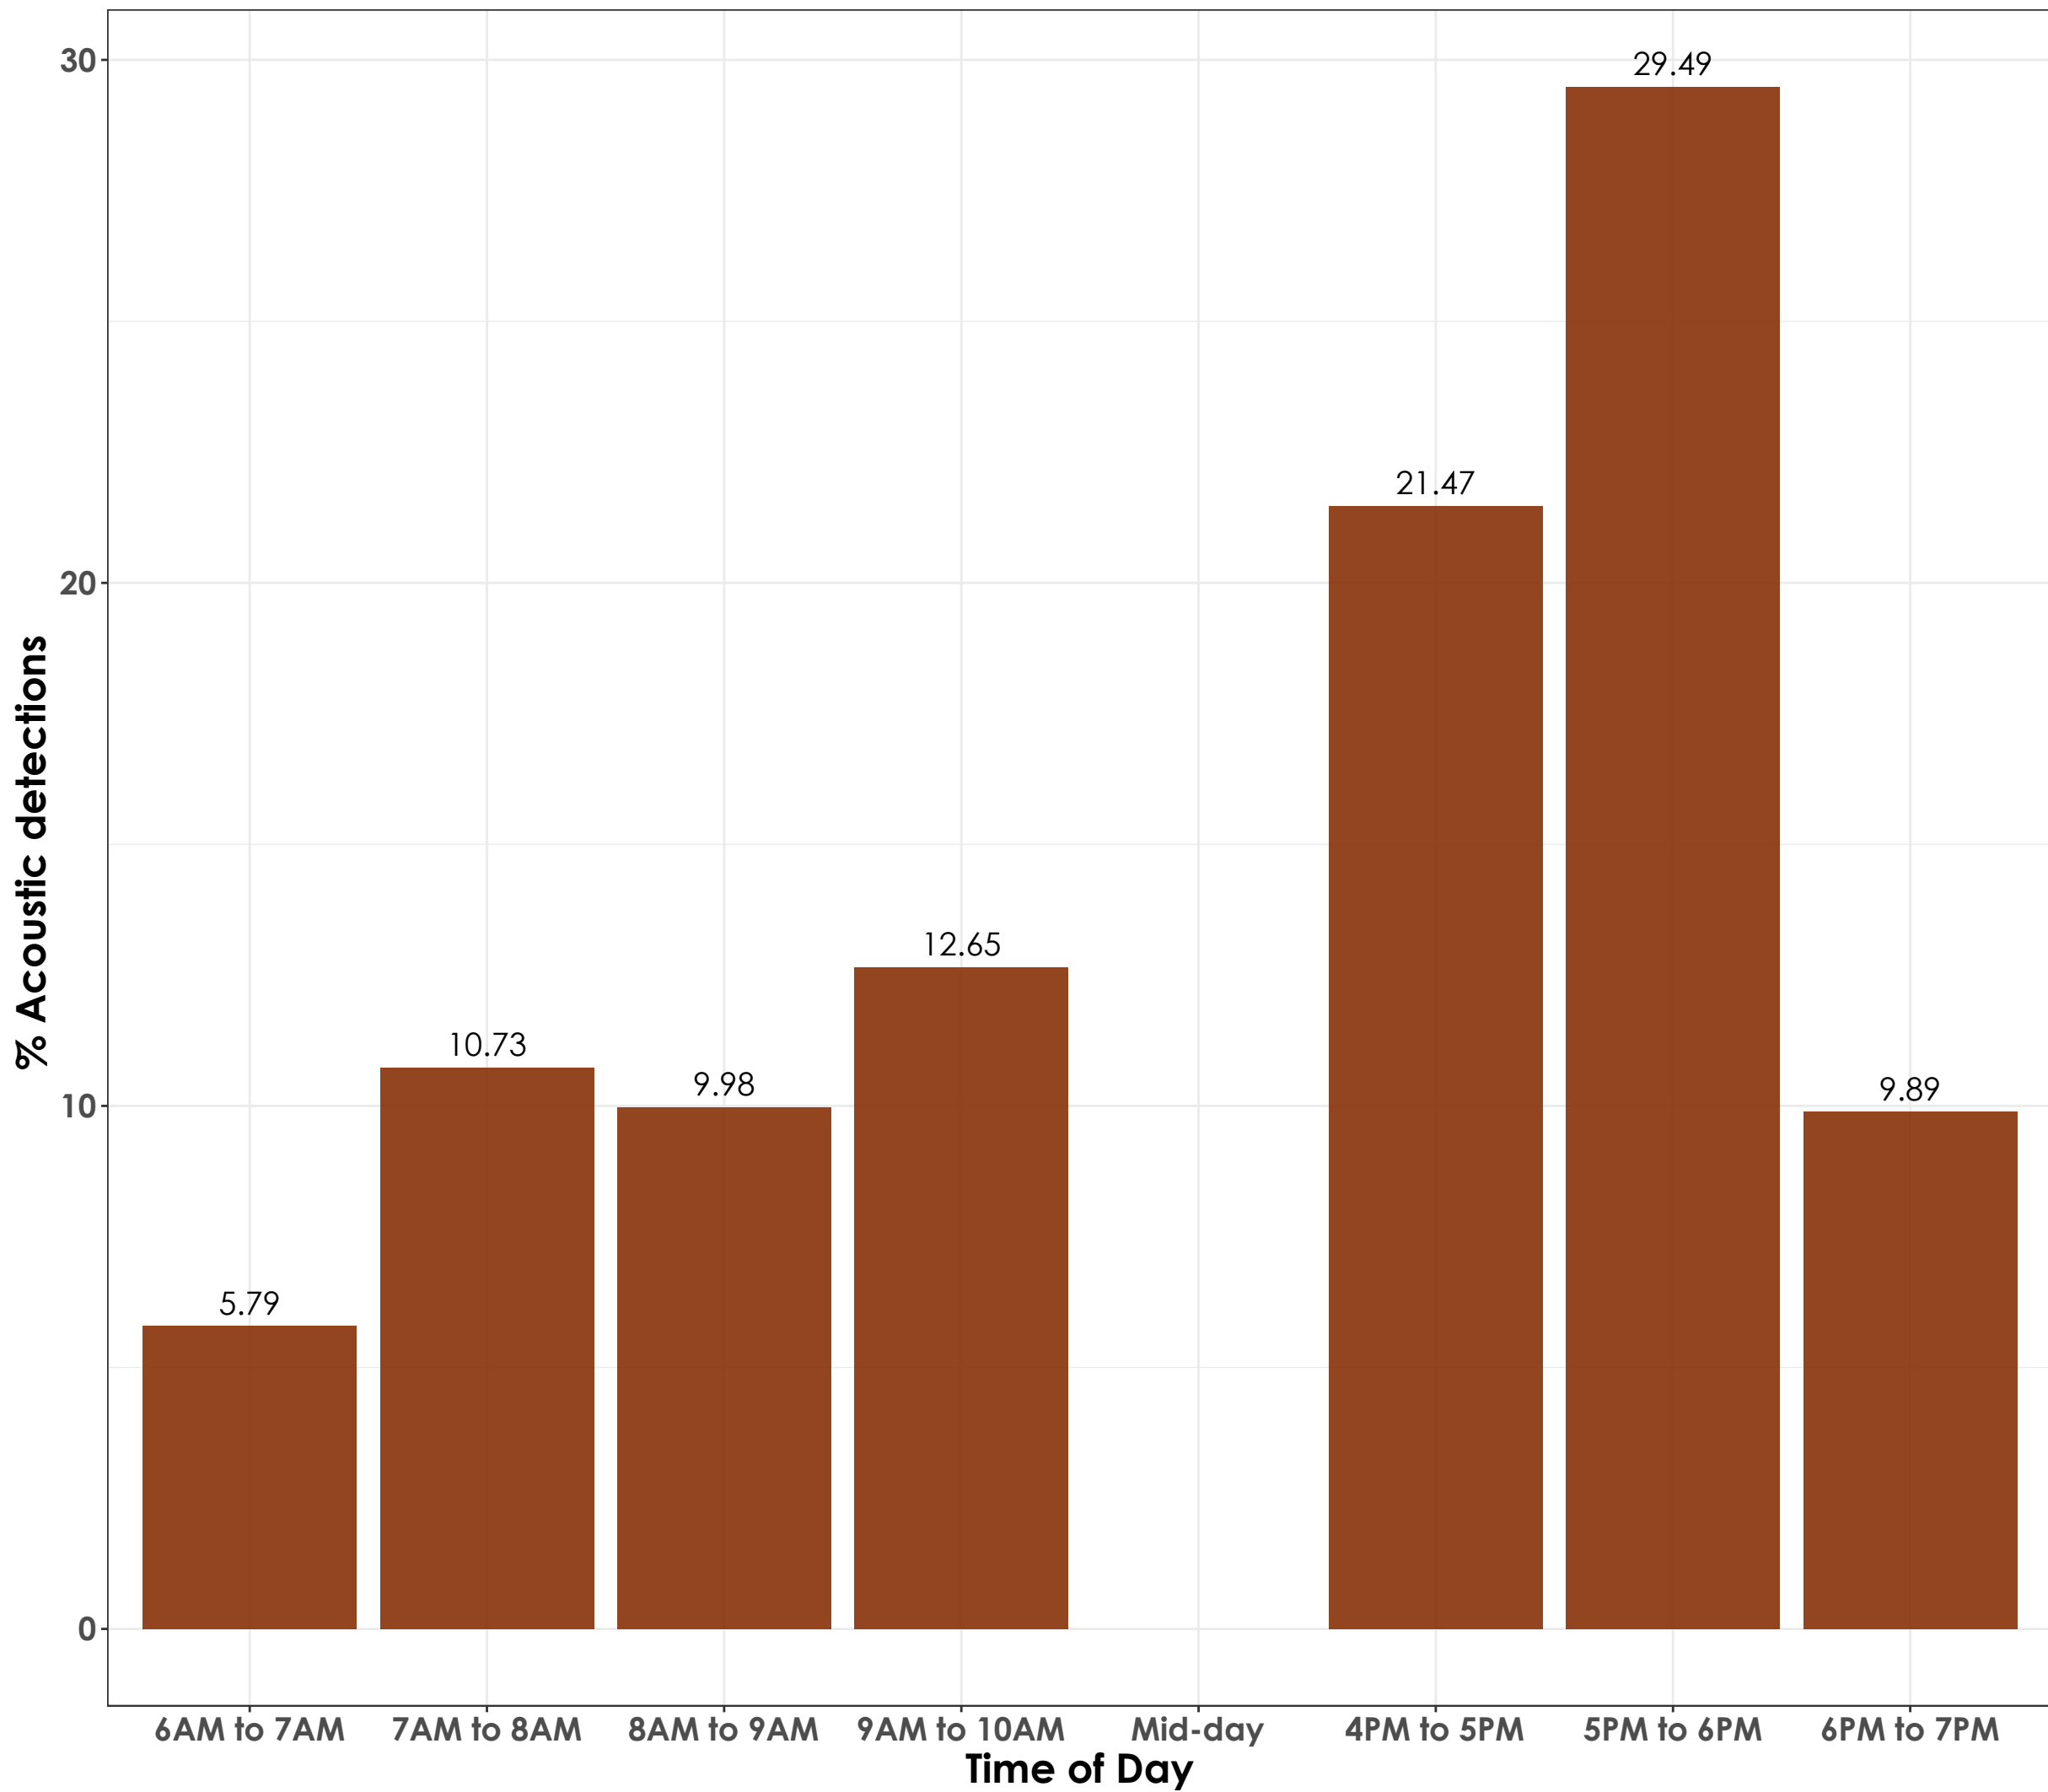

Indian Scimitar-Babbler

Each bar represents the % of detections across dawn and dusk

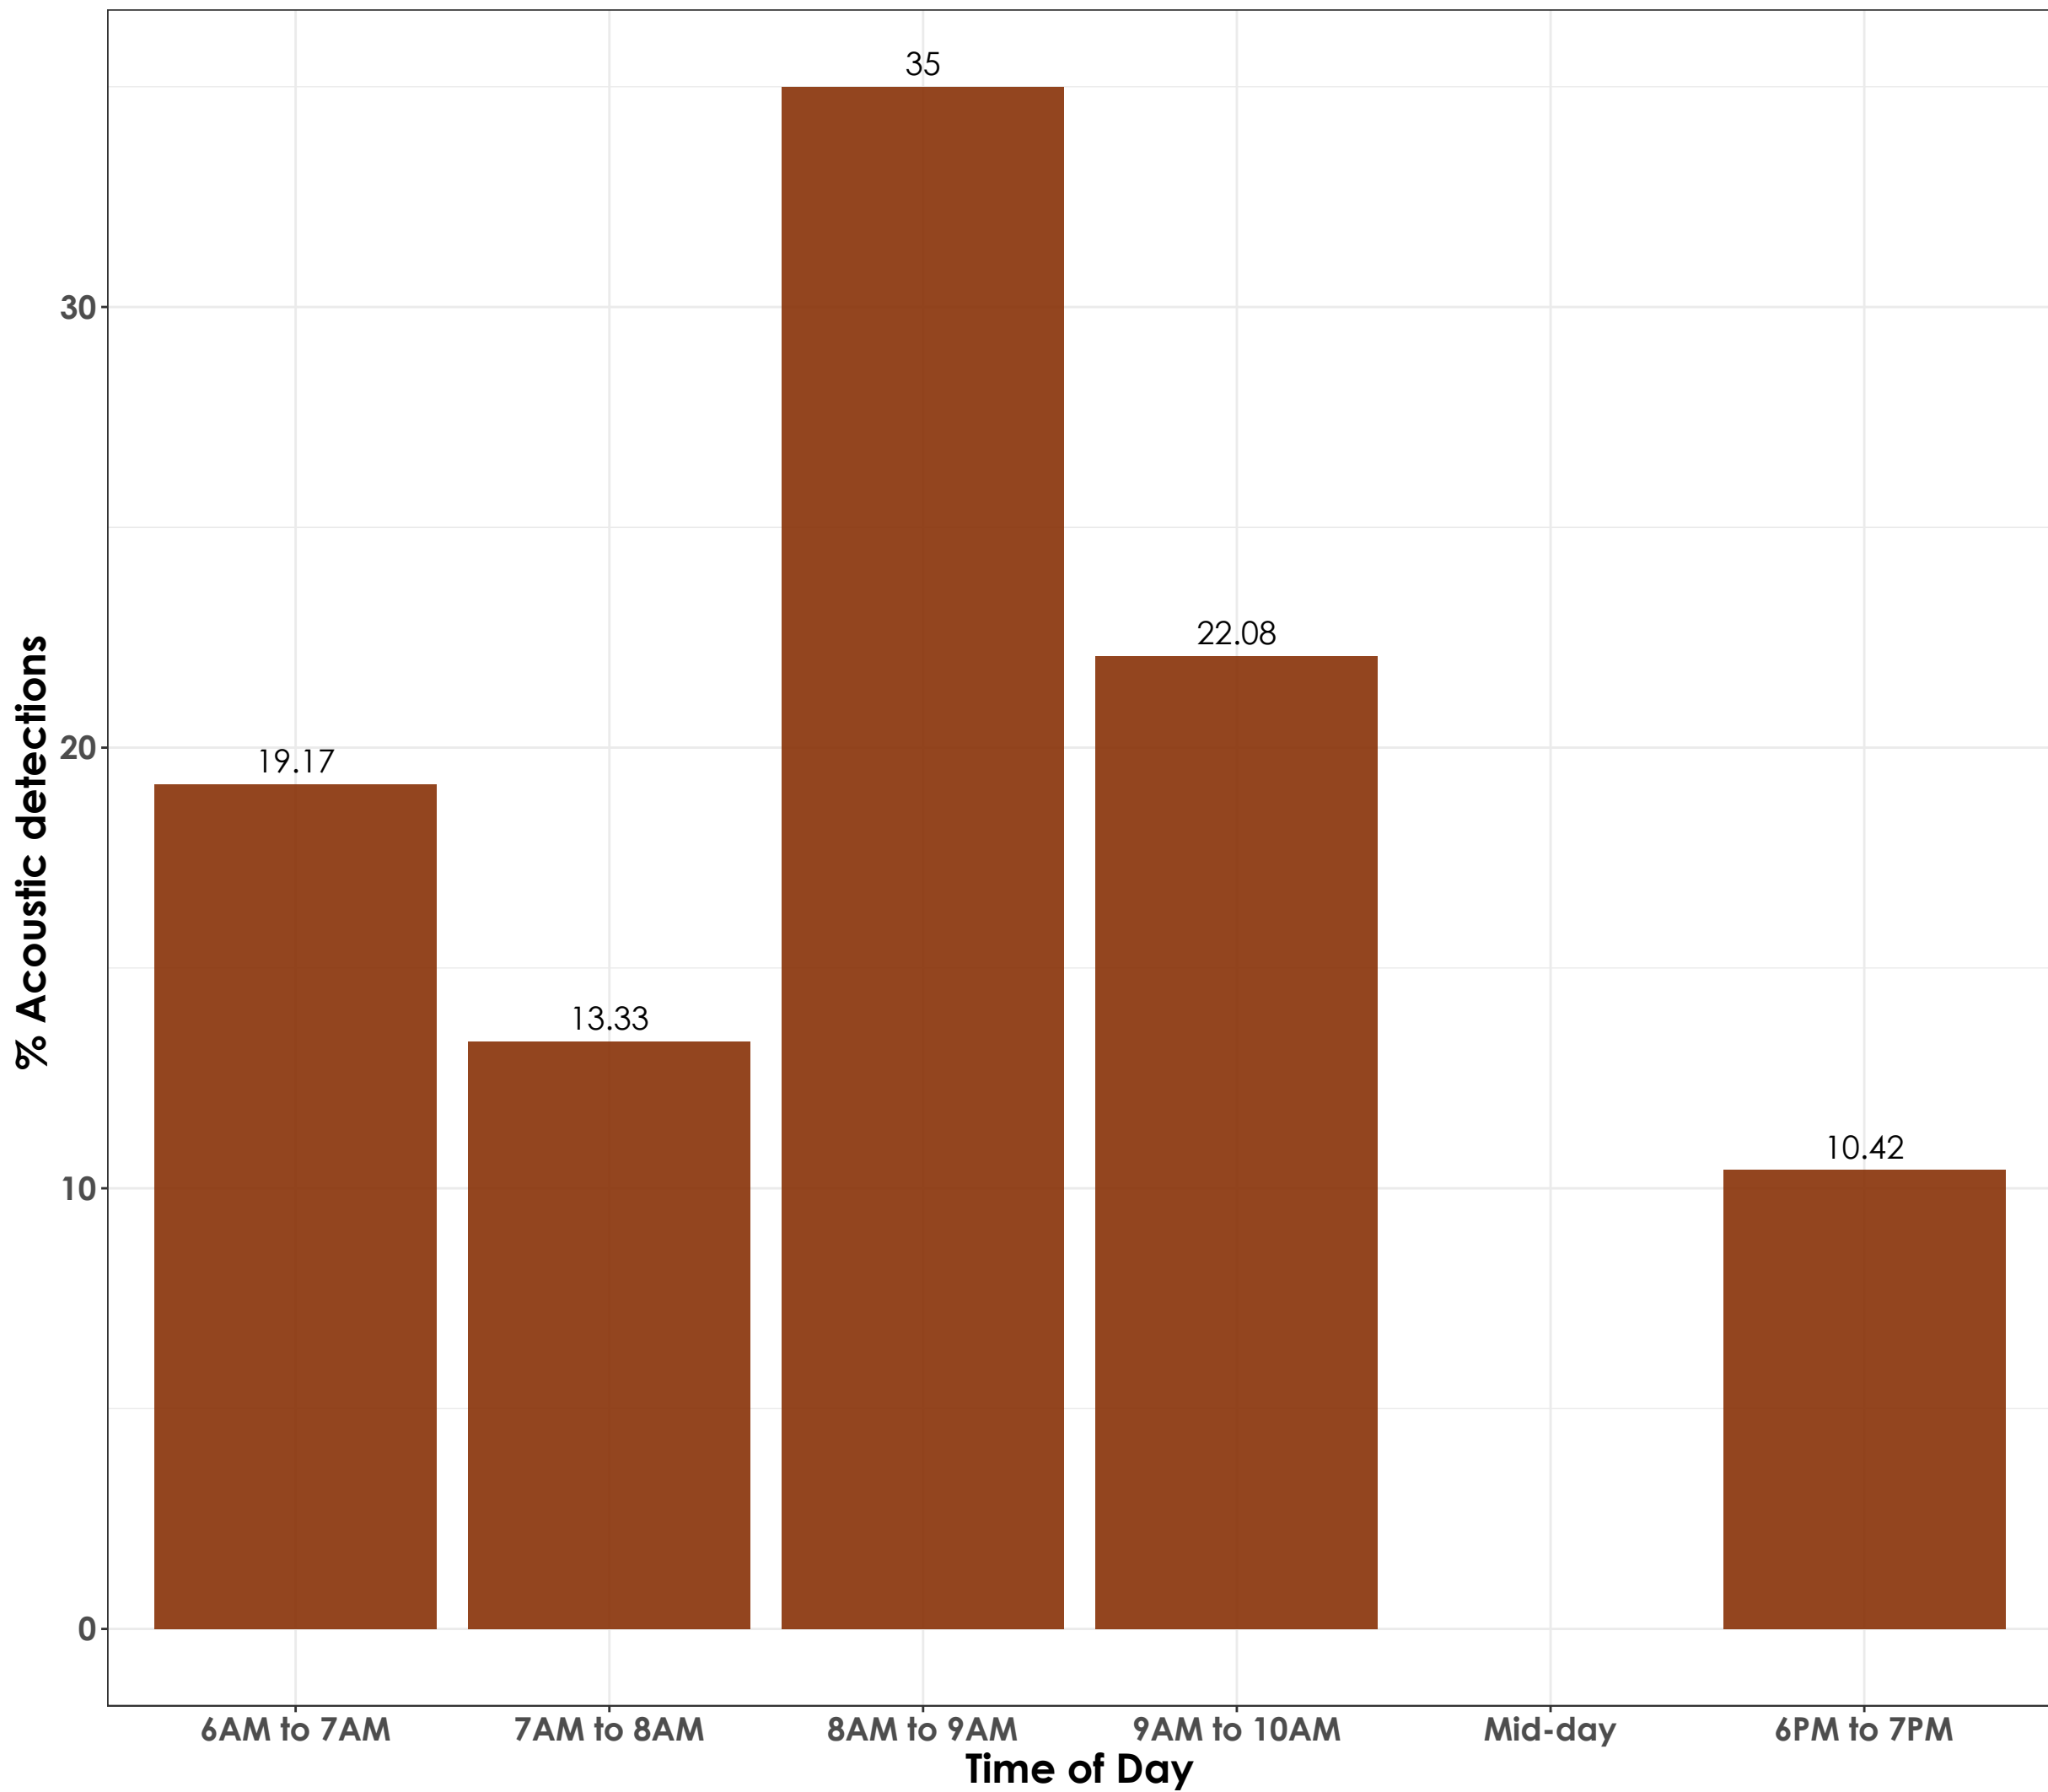

Malabar Gray Hornbill

Each bar represents the % of detections across dawn and dusk

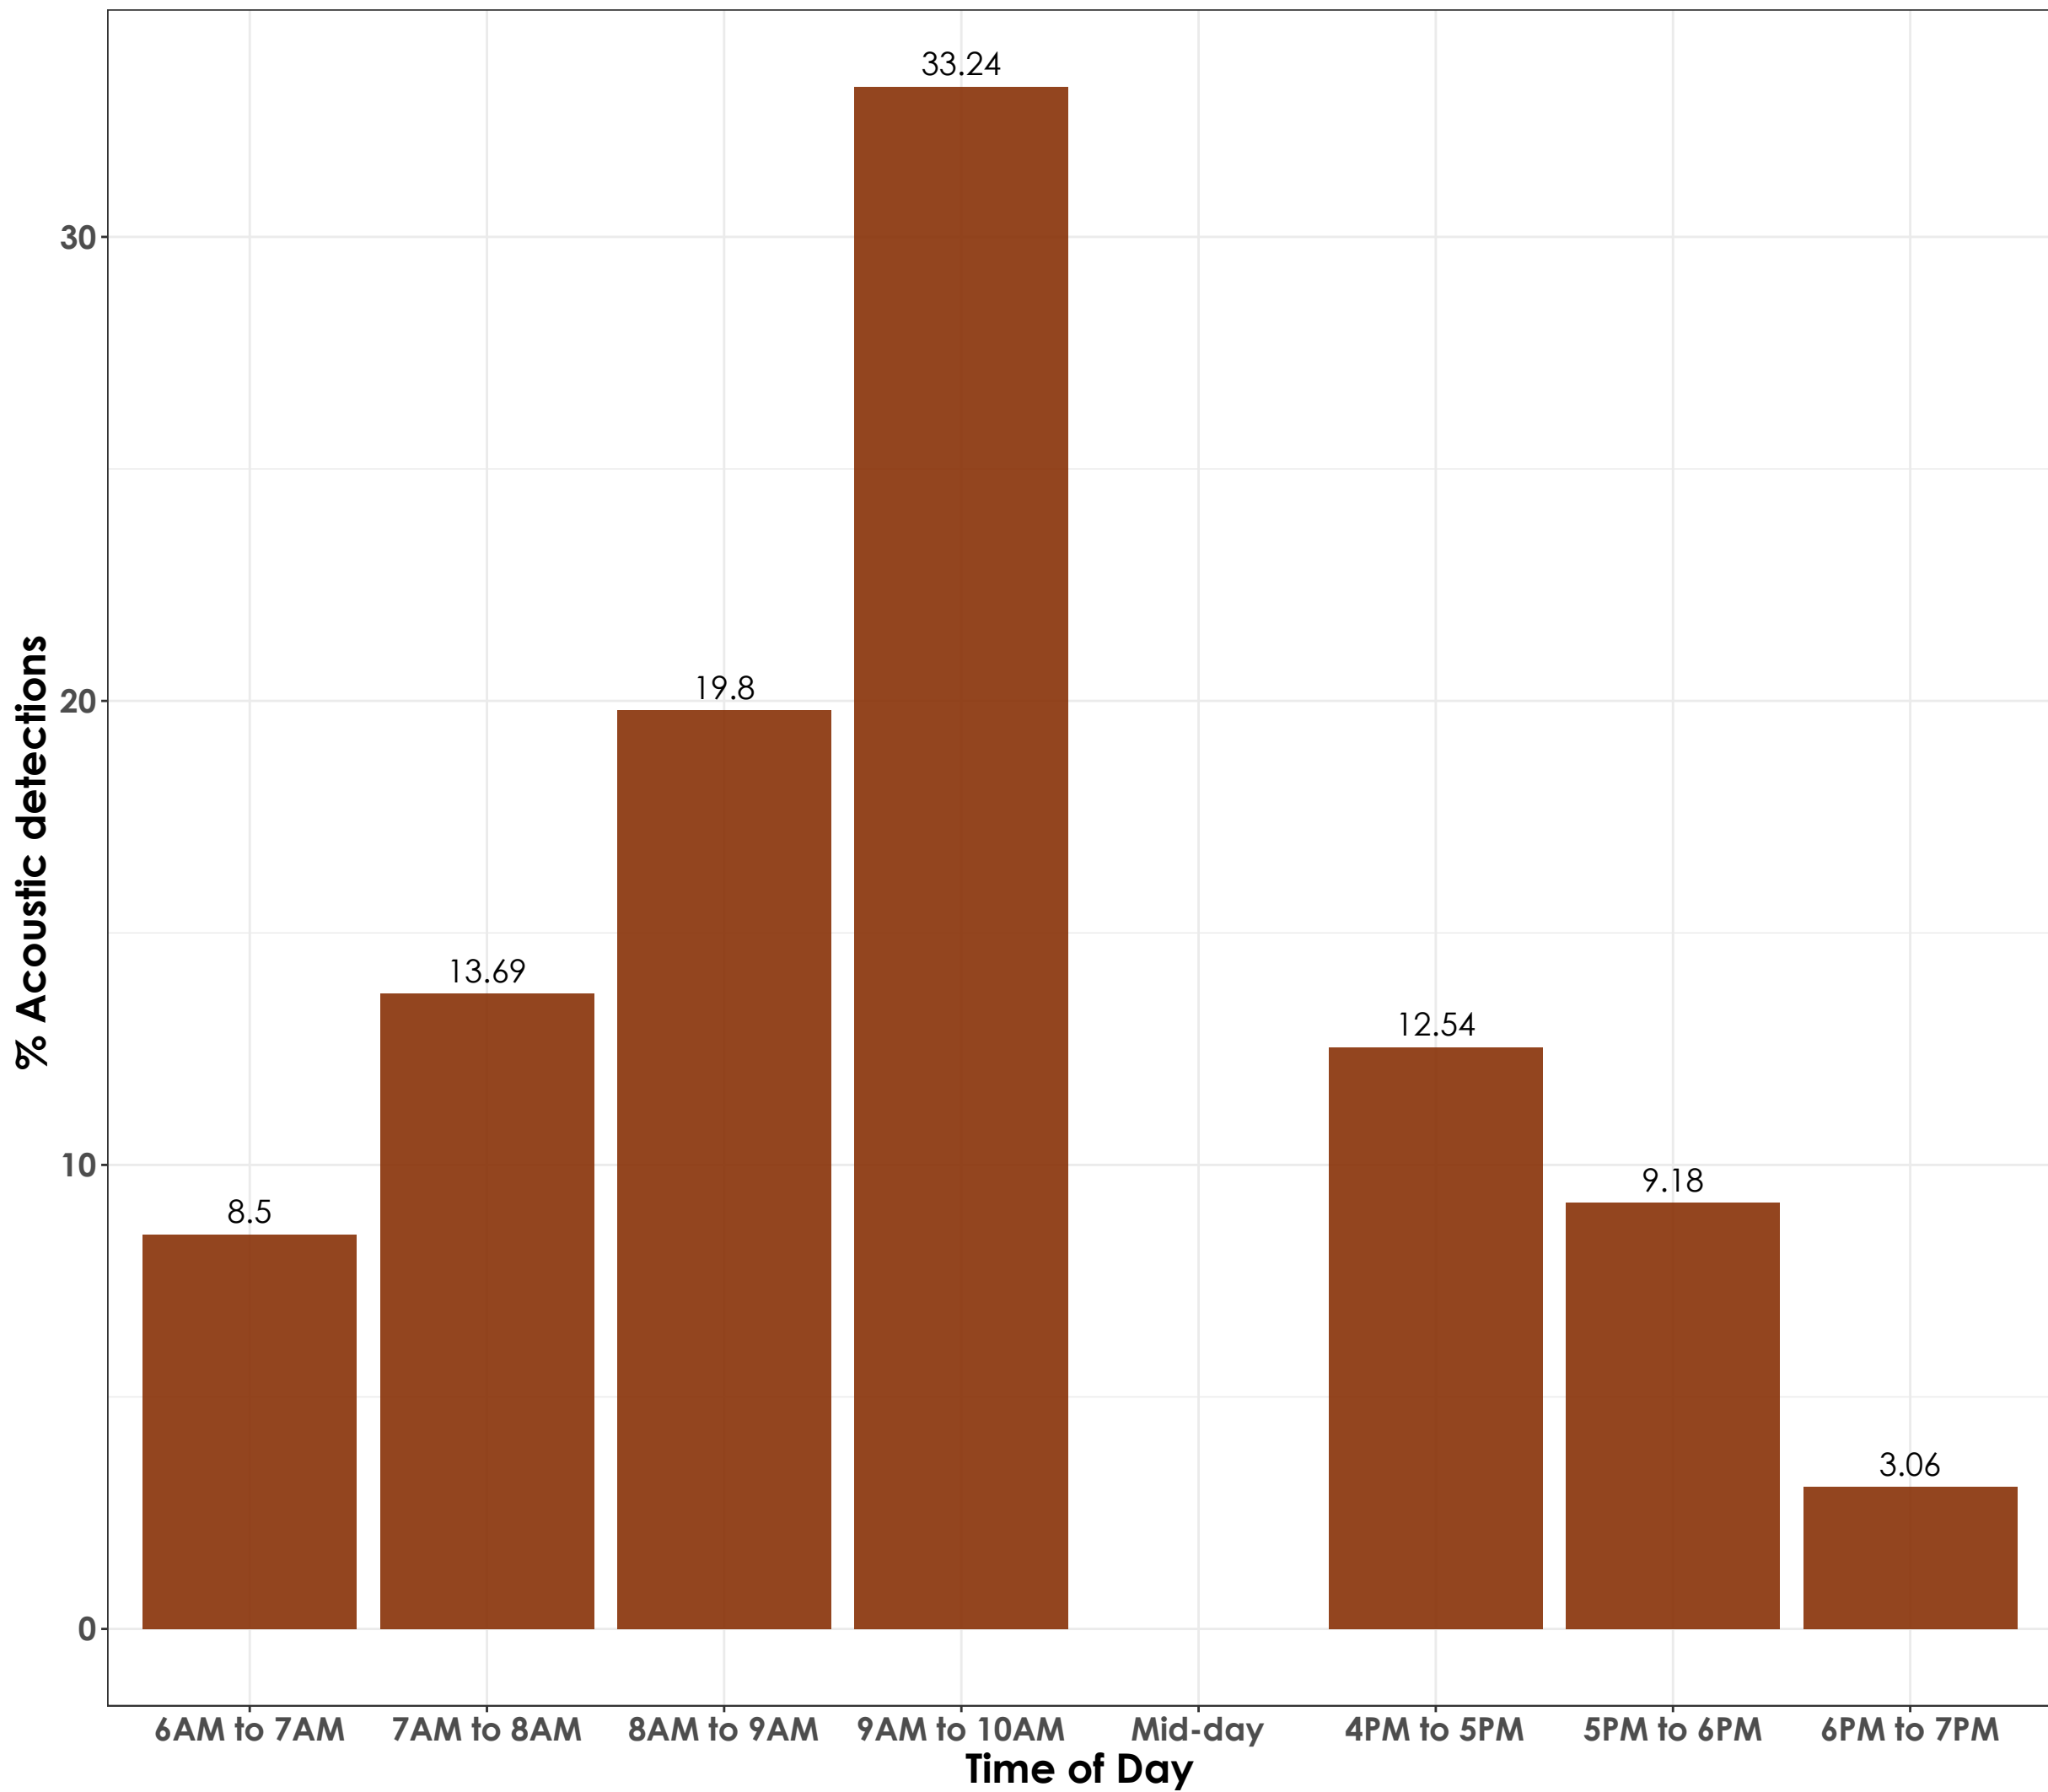

Oriental Magpie-Robin

Each bar represents the % of detections across dawn and dusk

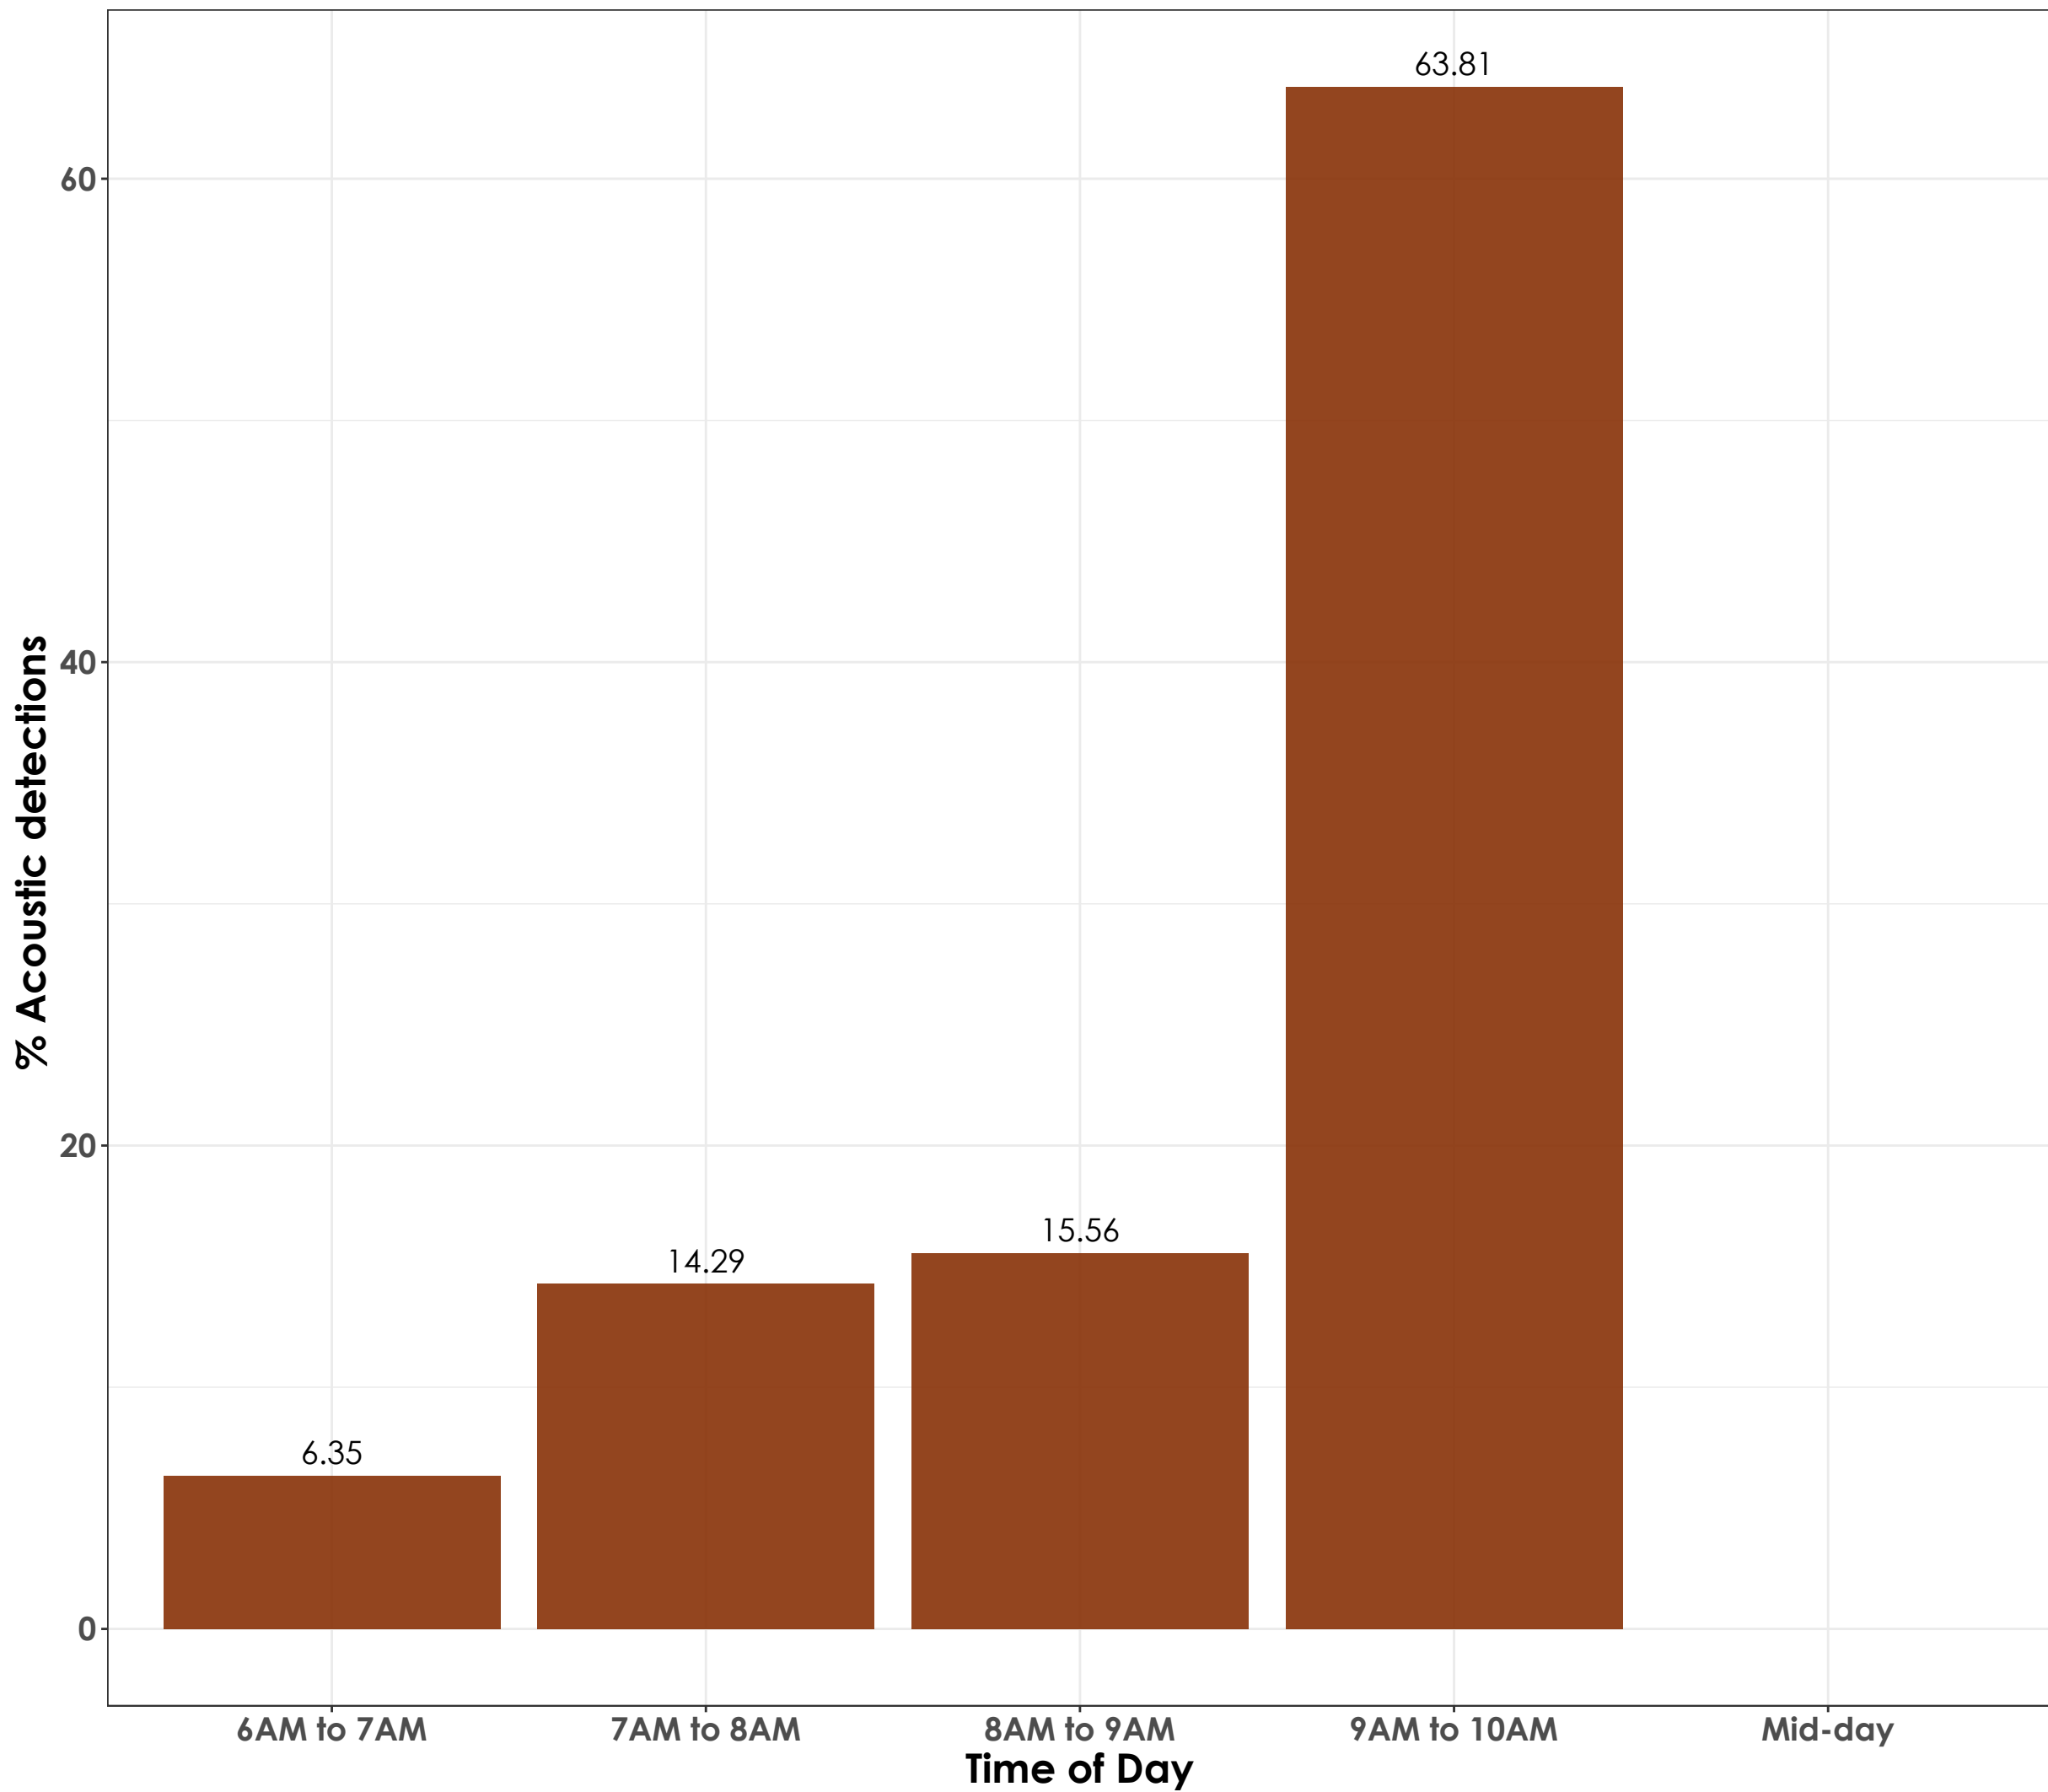

Nilgiri Flowerpecker

Each bar represents the % of detections across dawn and dusk

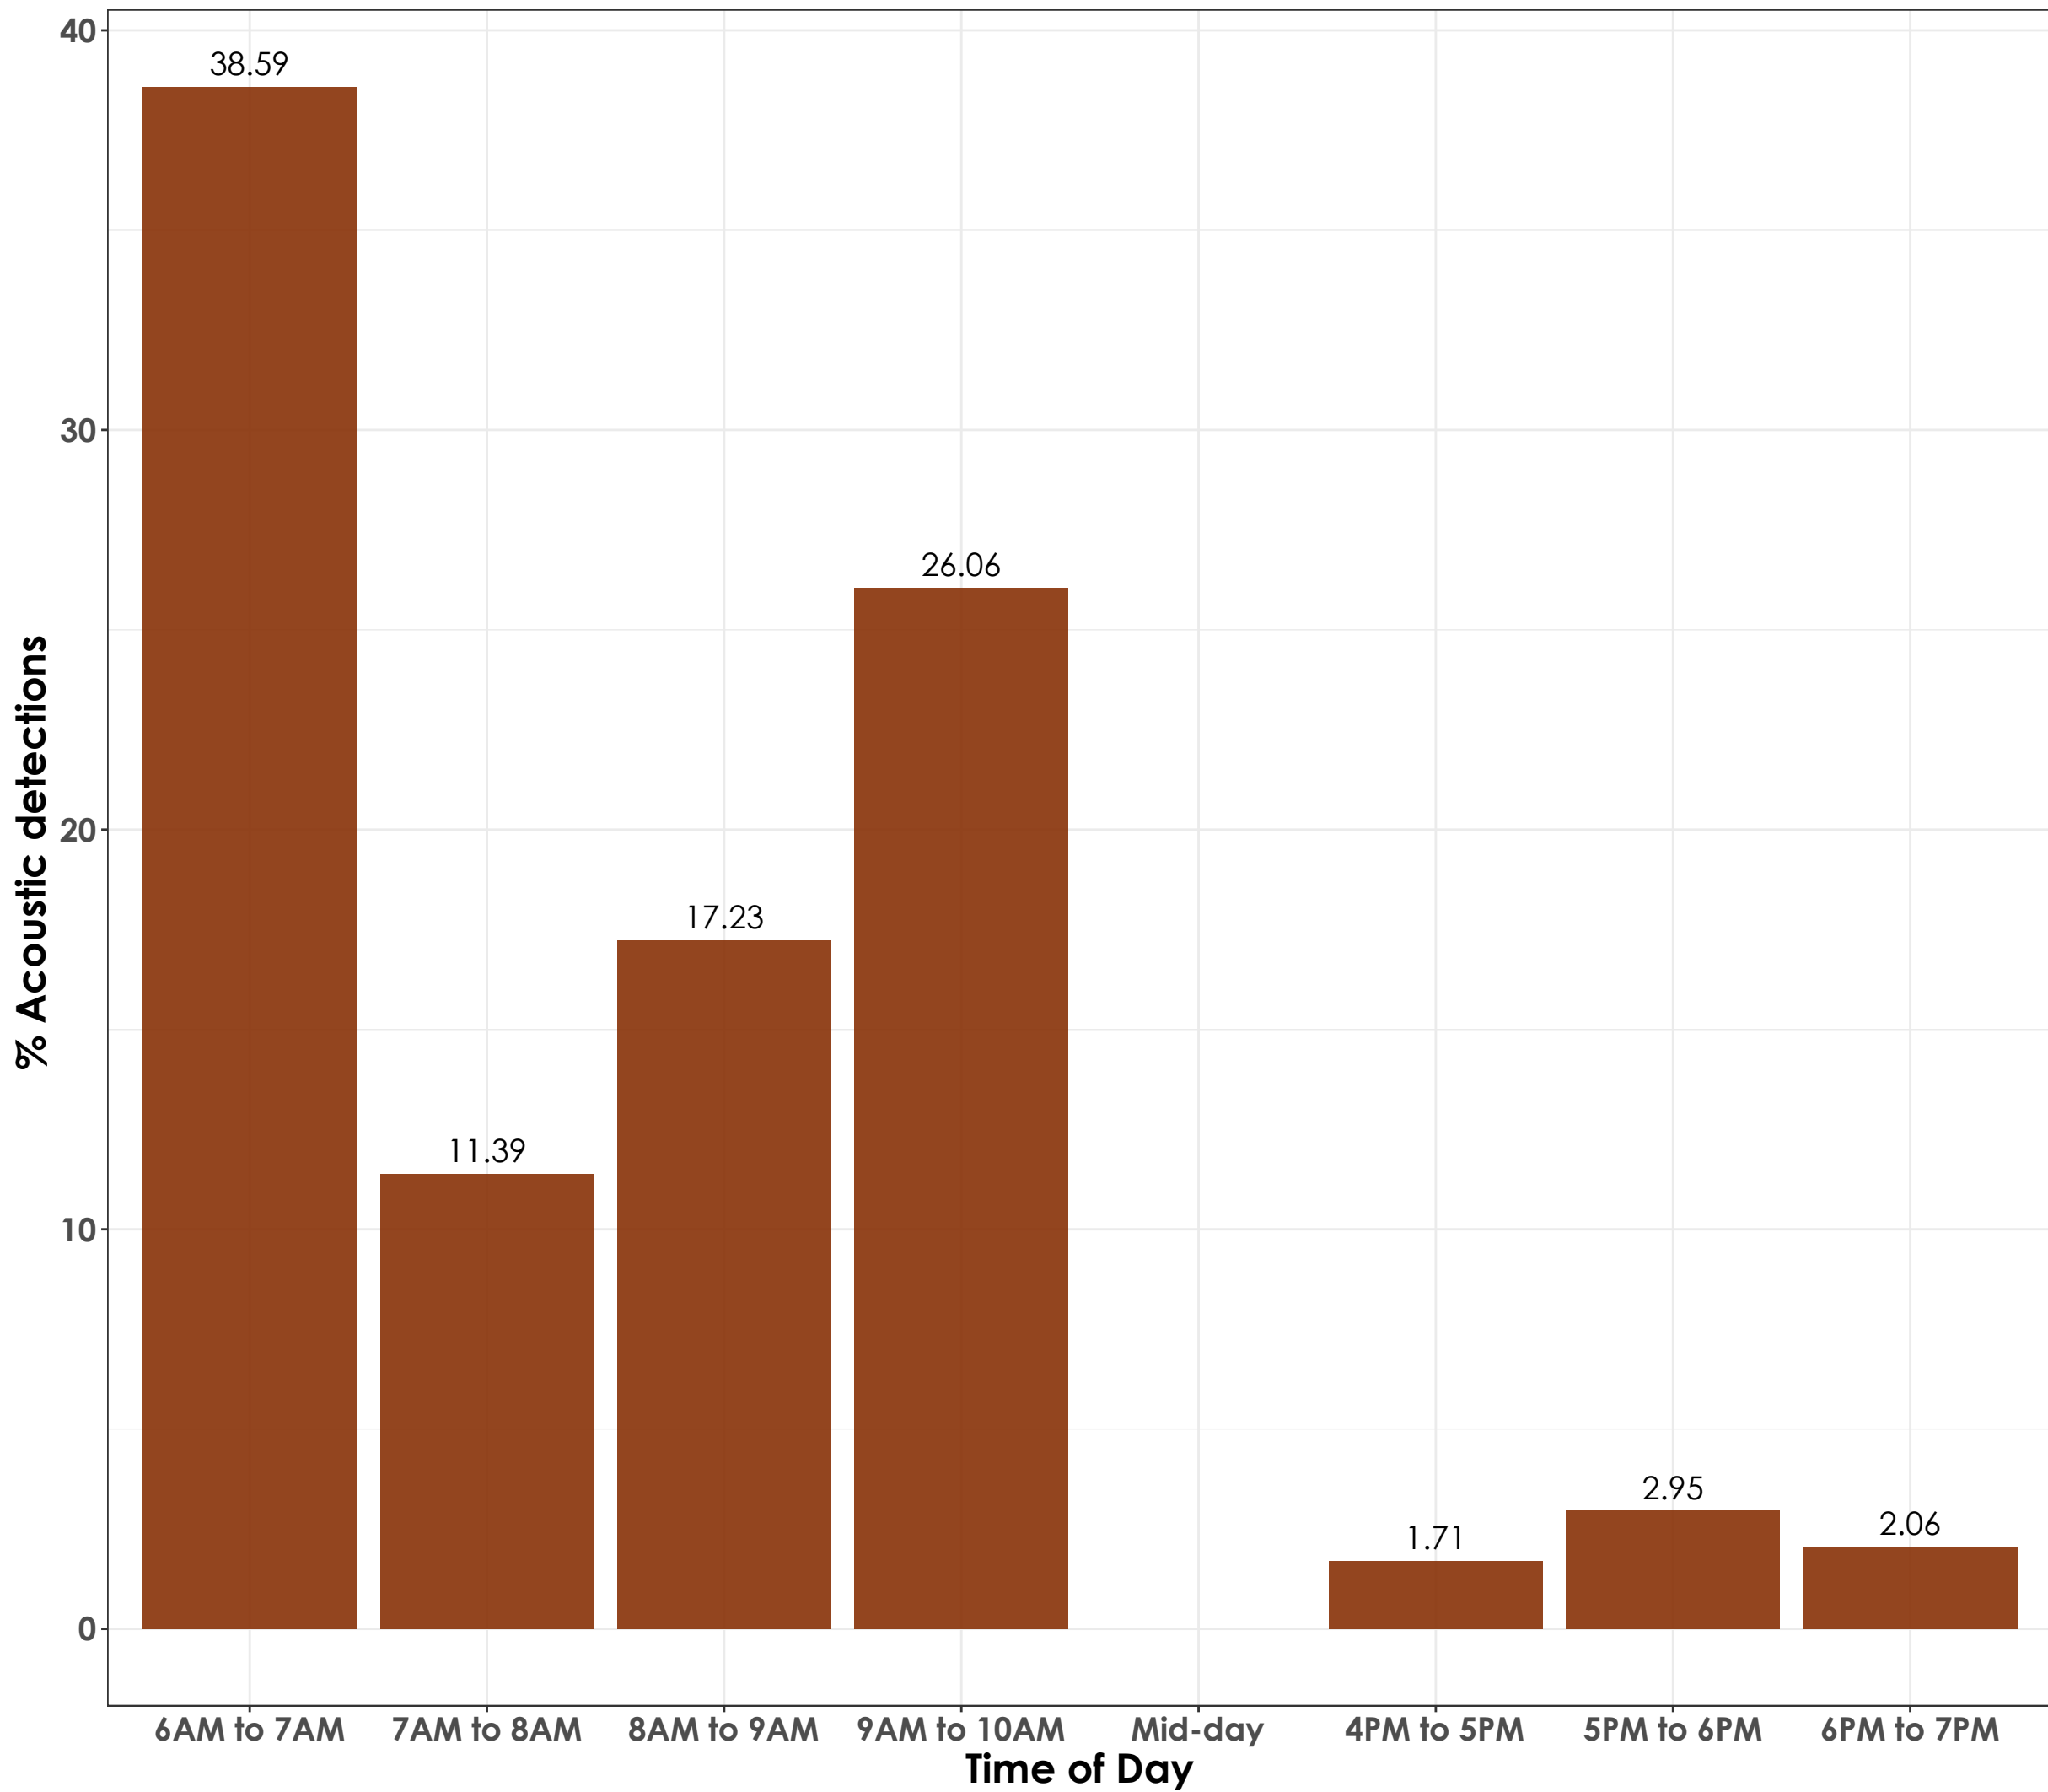

Purple Sunbird

Each bar represents the % of detections across dawn and dusk

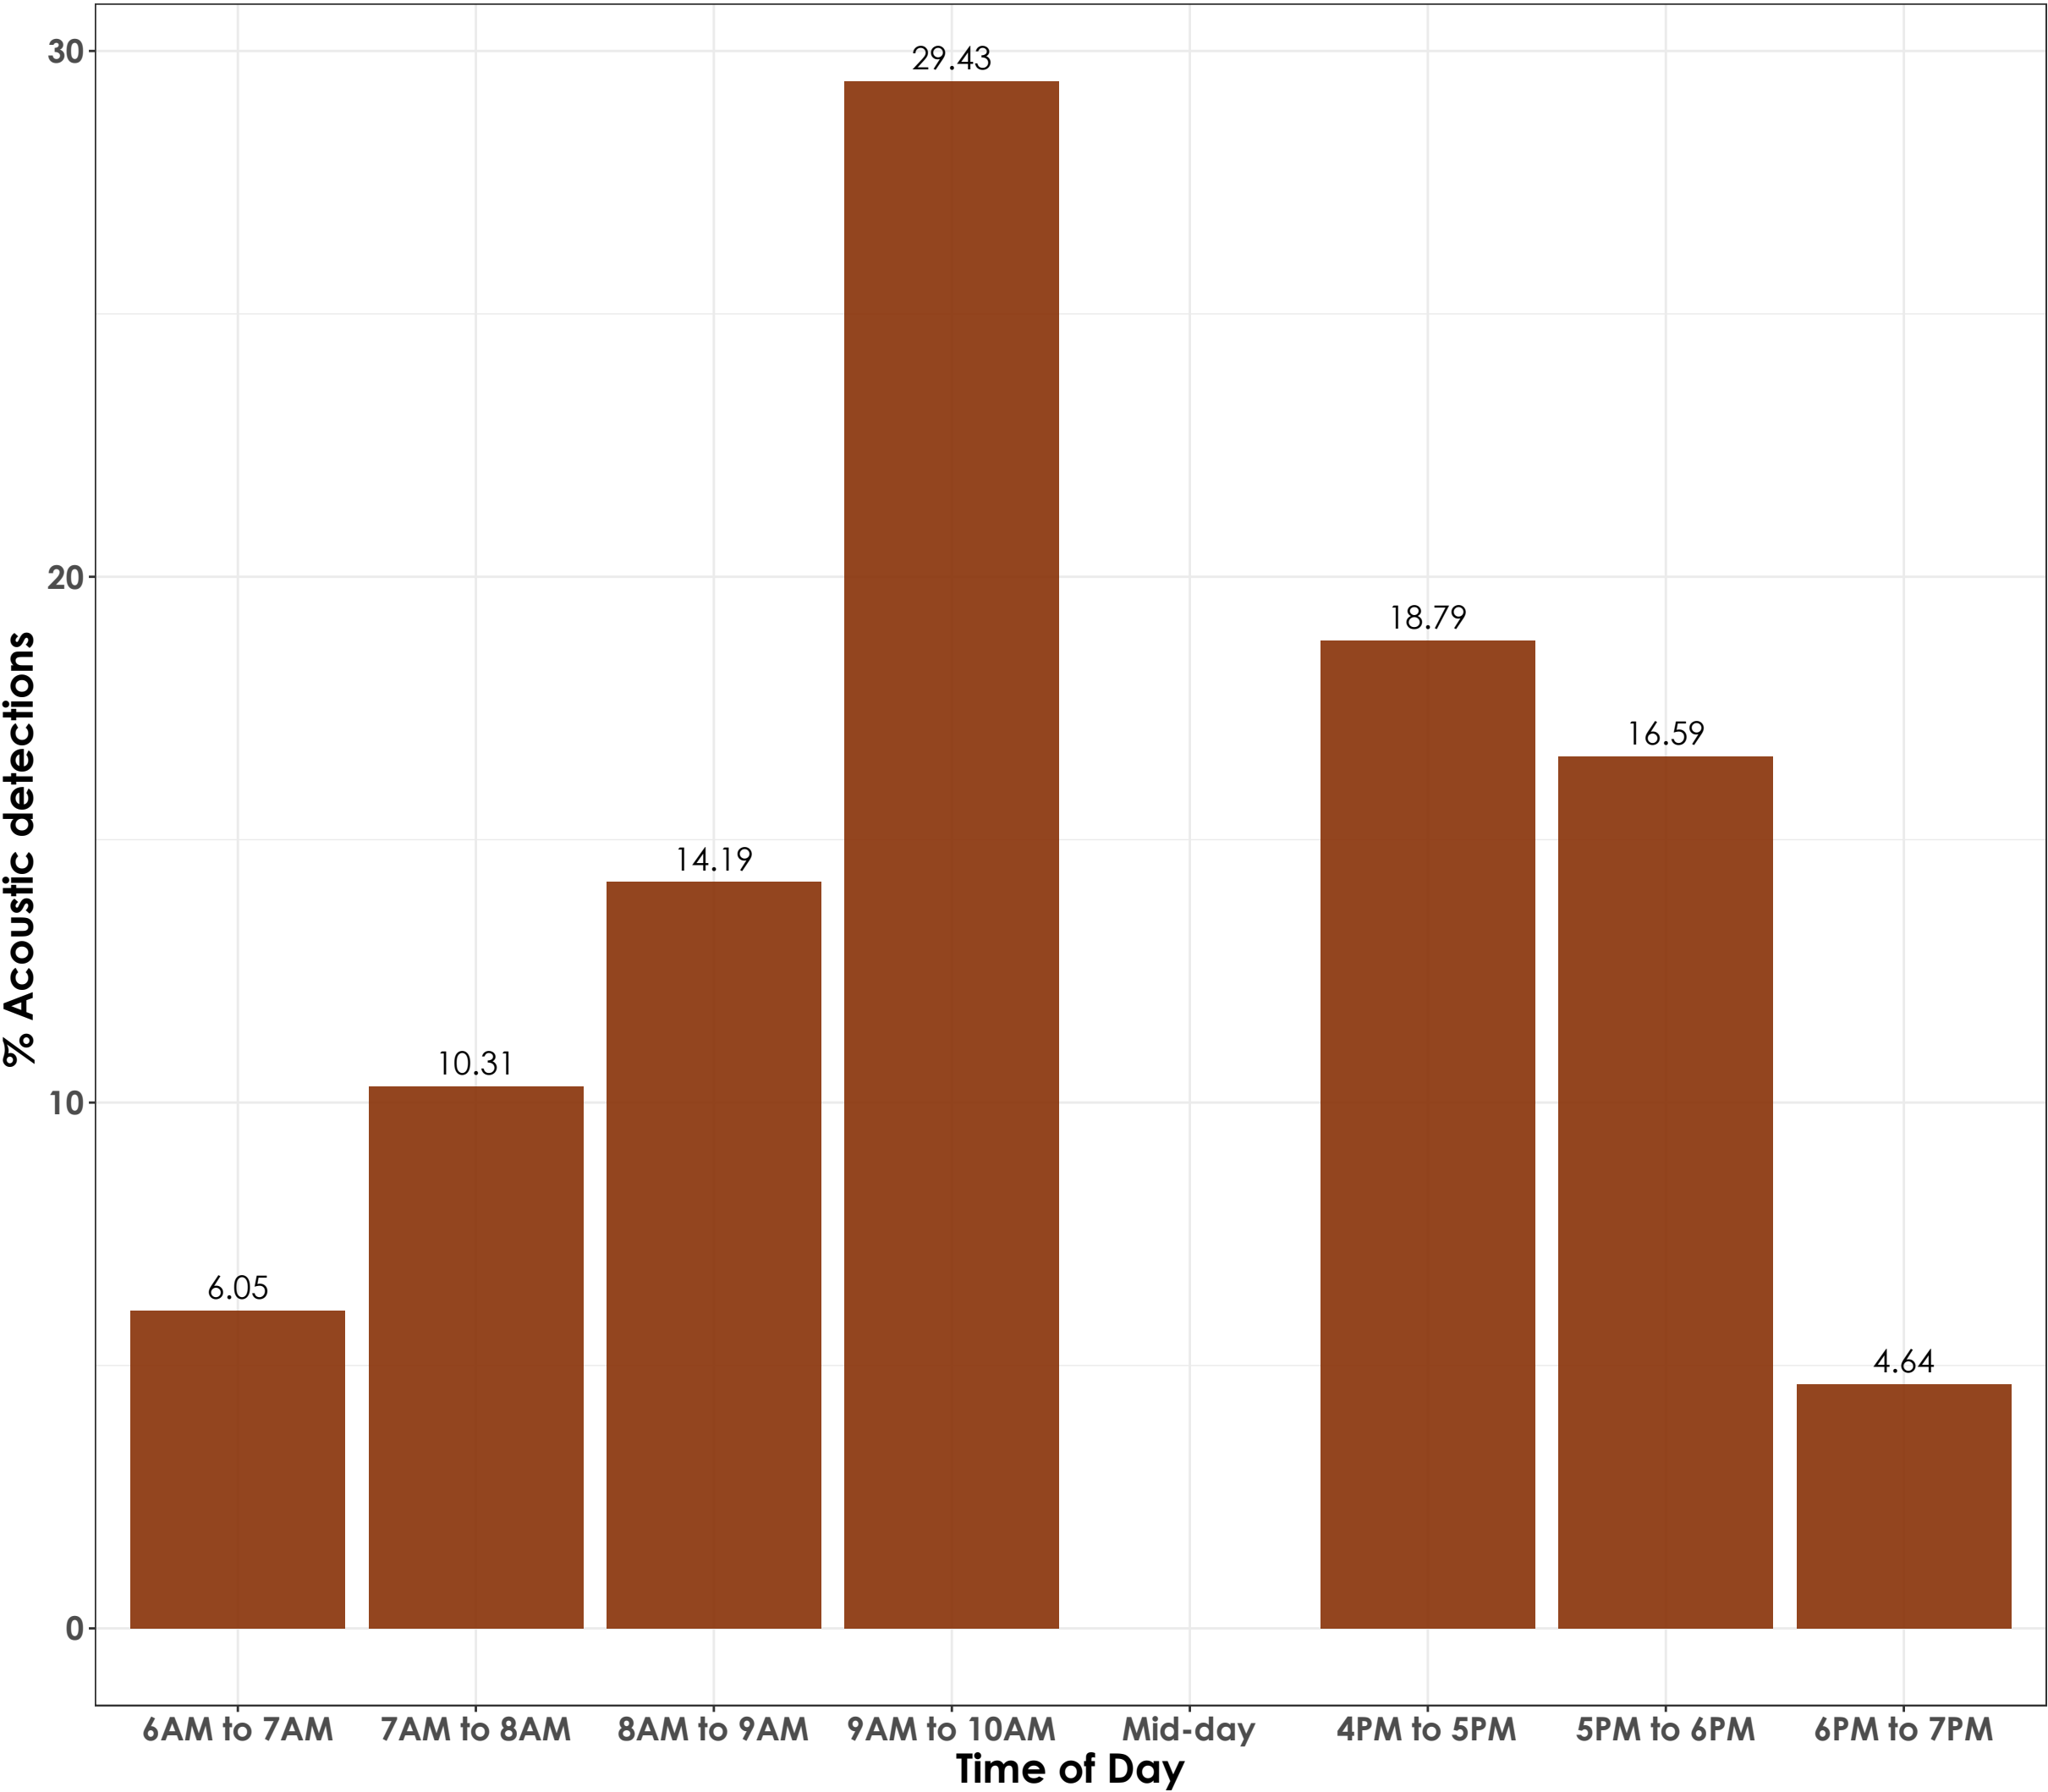

Puff-throated Babbler

Each bar represents the % of detections across dawn and dusk

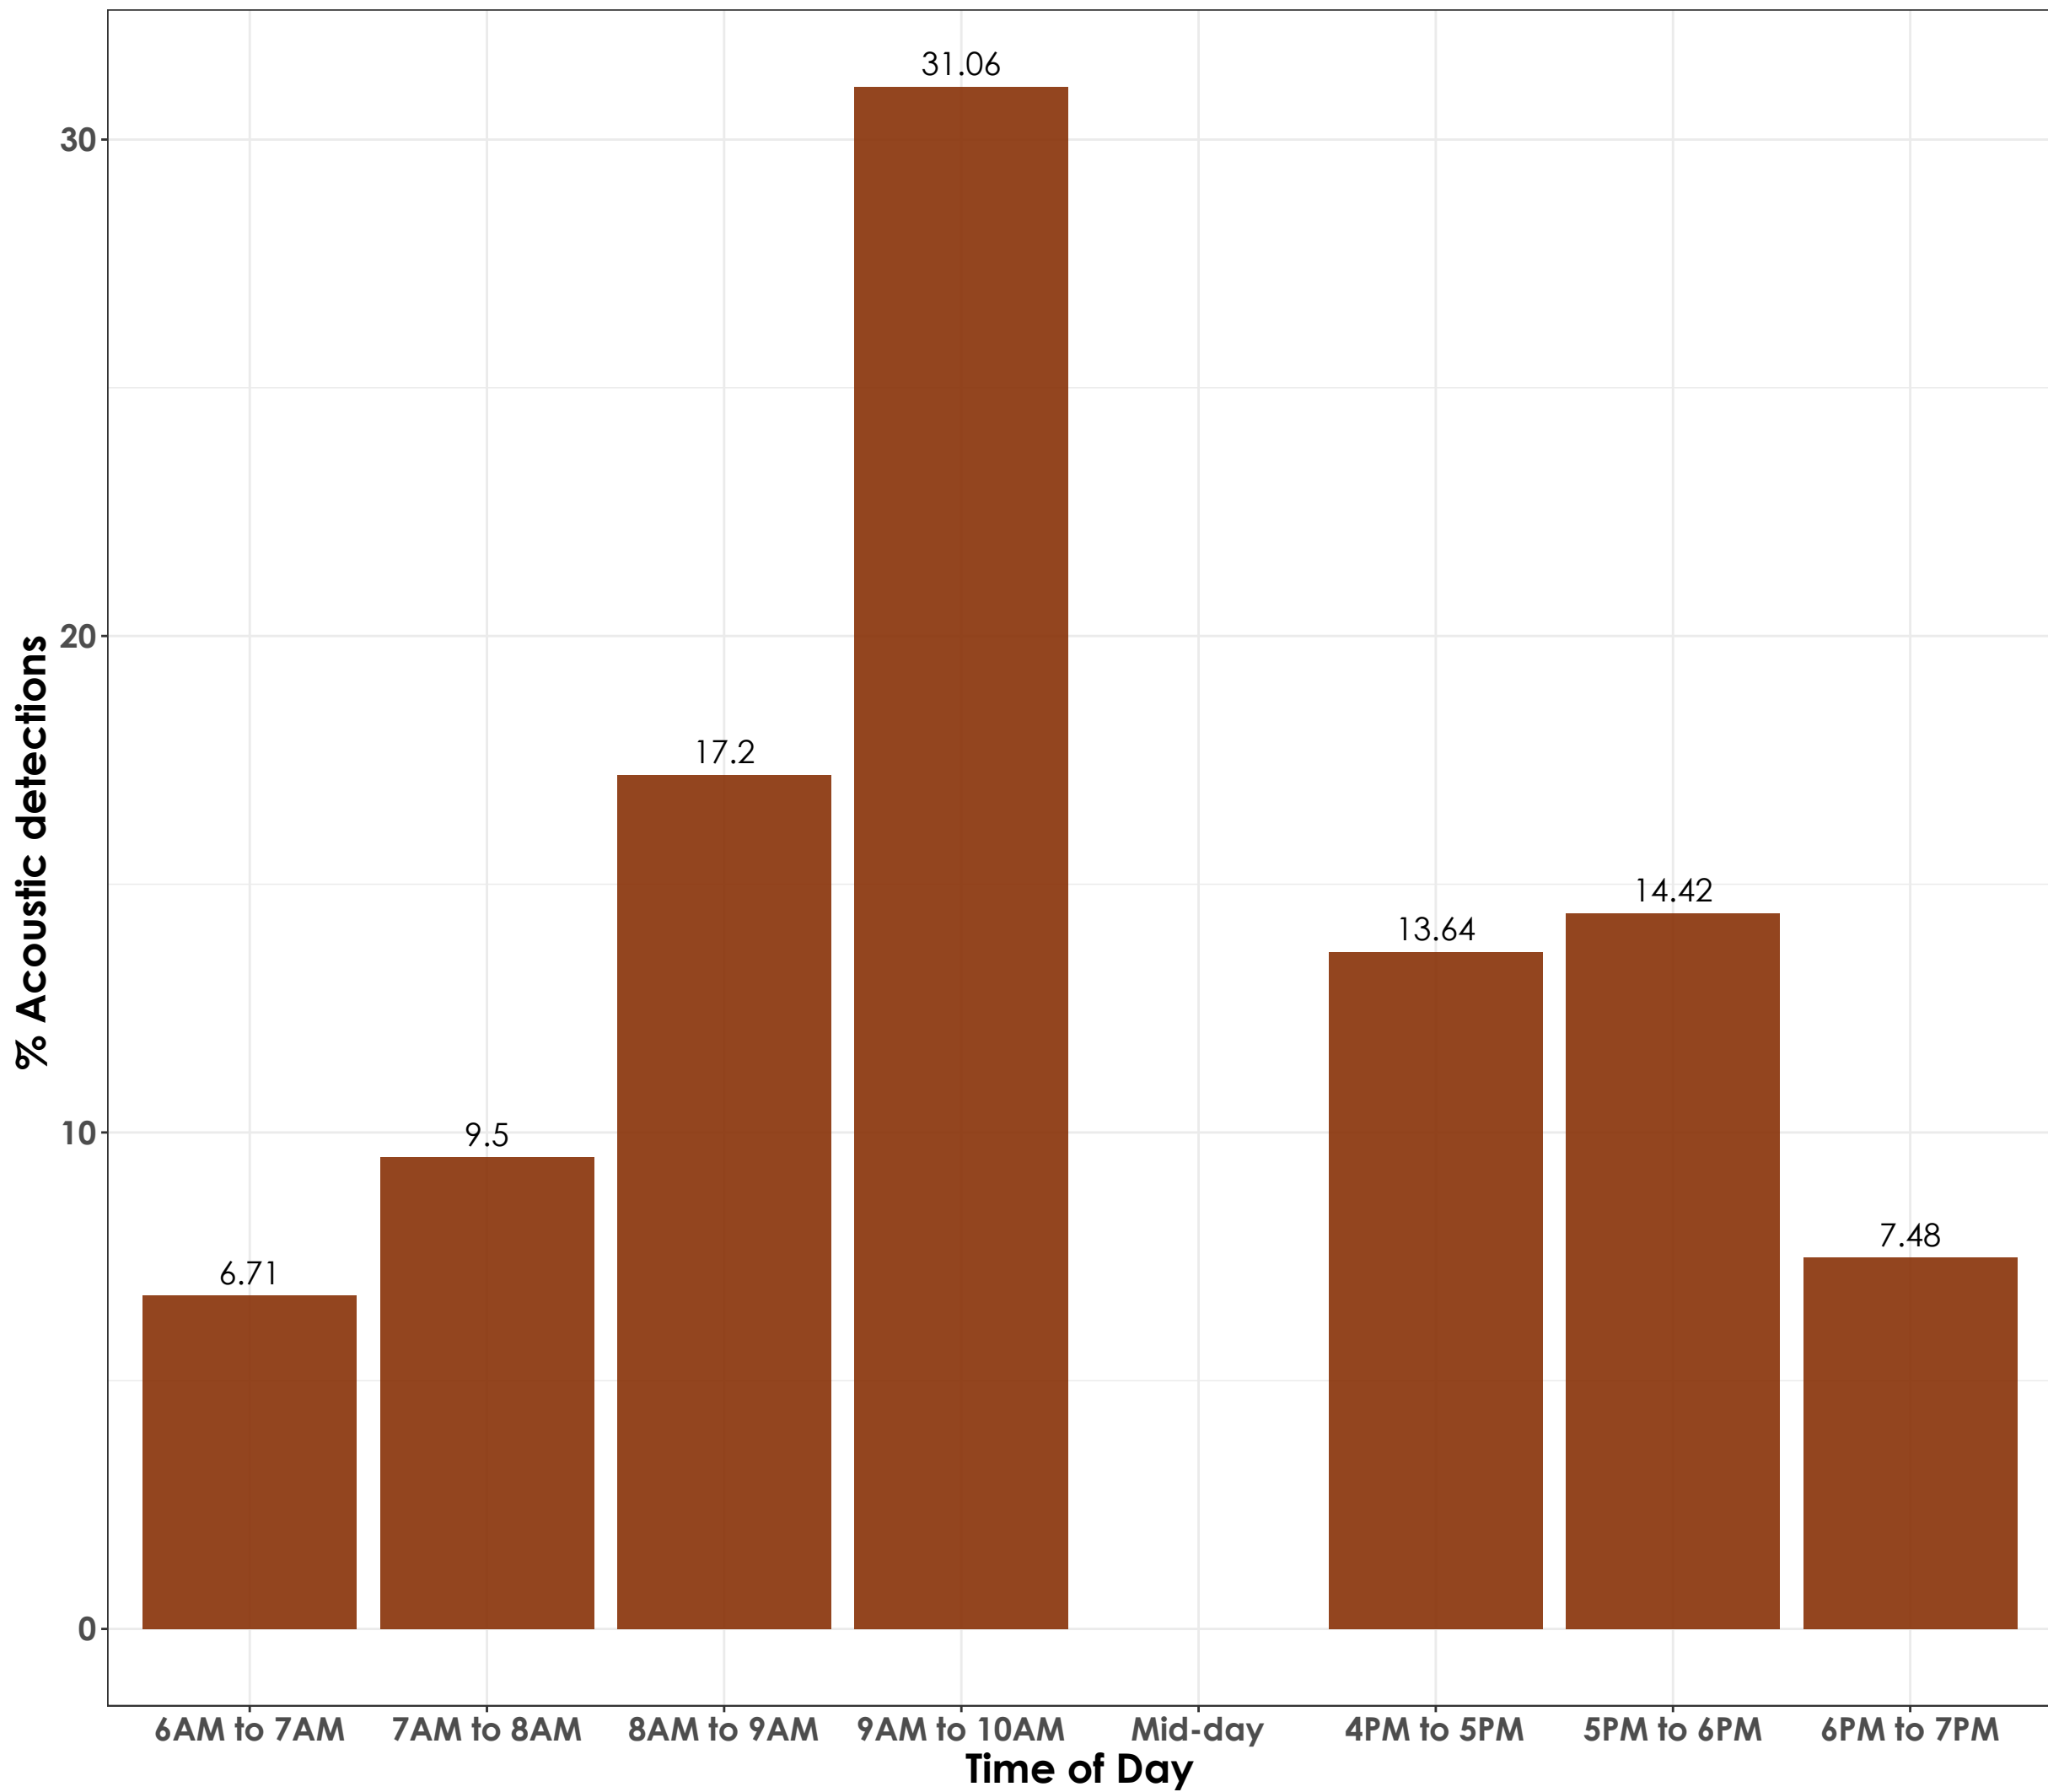

Square-tailed Bulbul

Each bar represents the % of detections across dawn and dusk

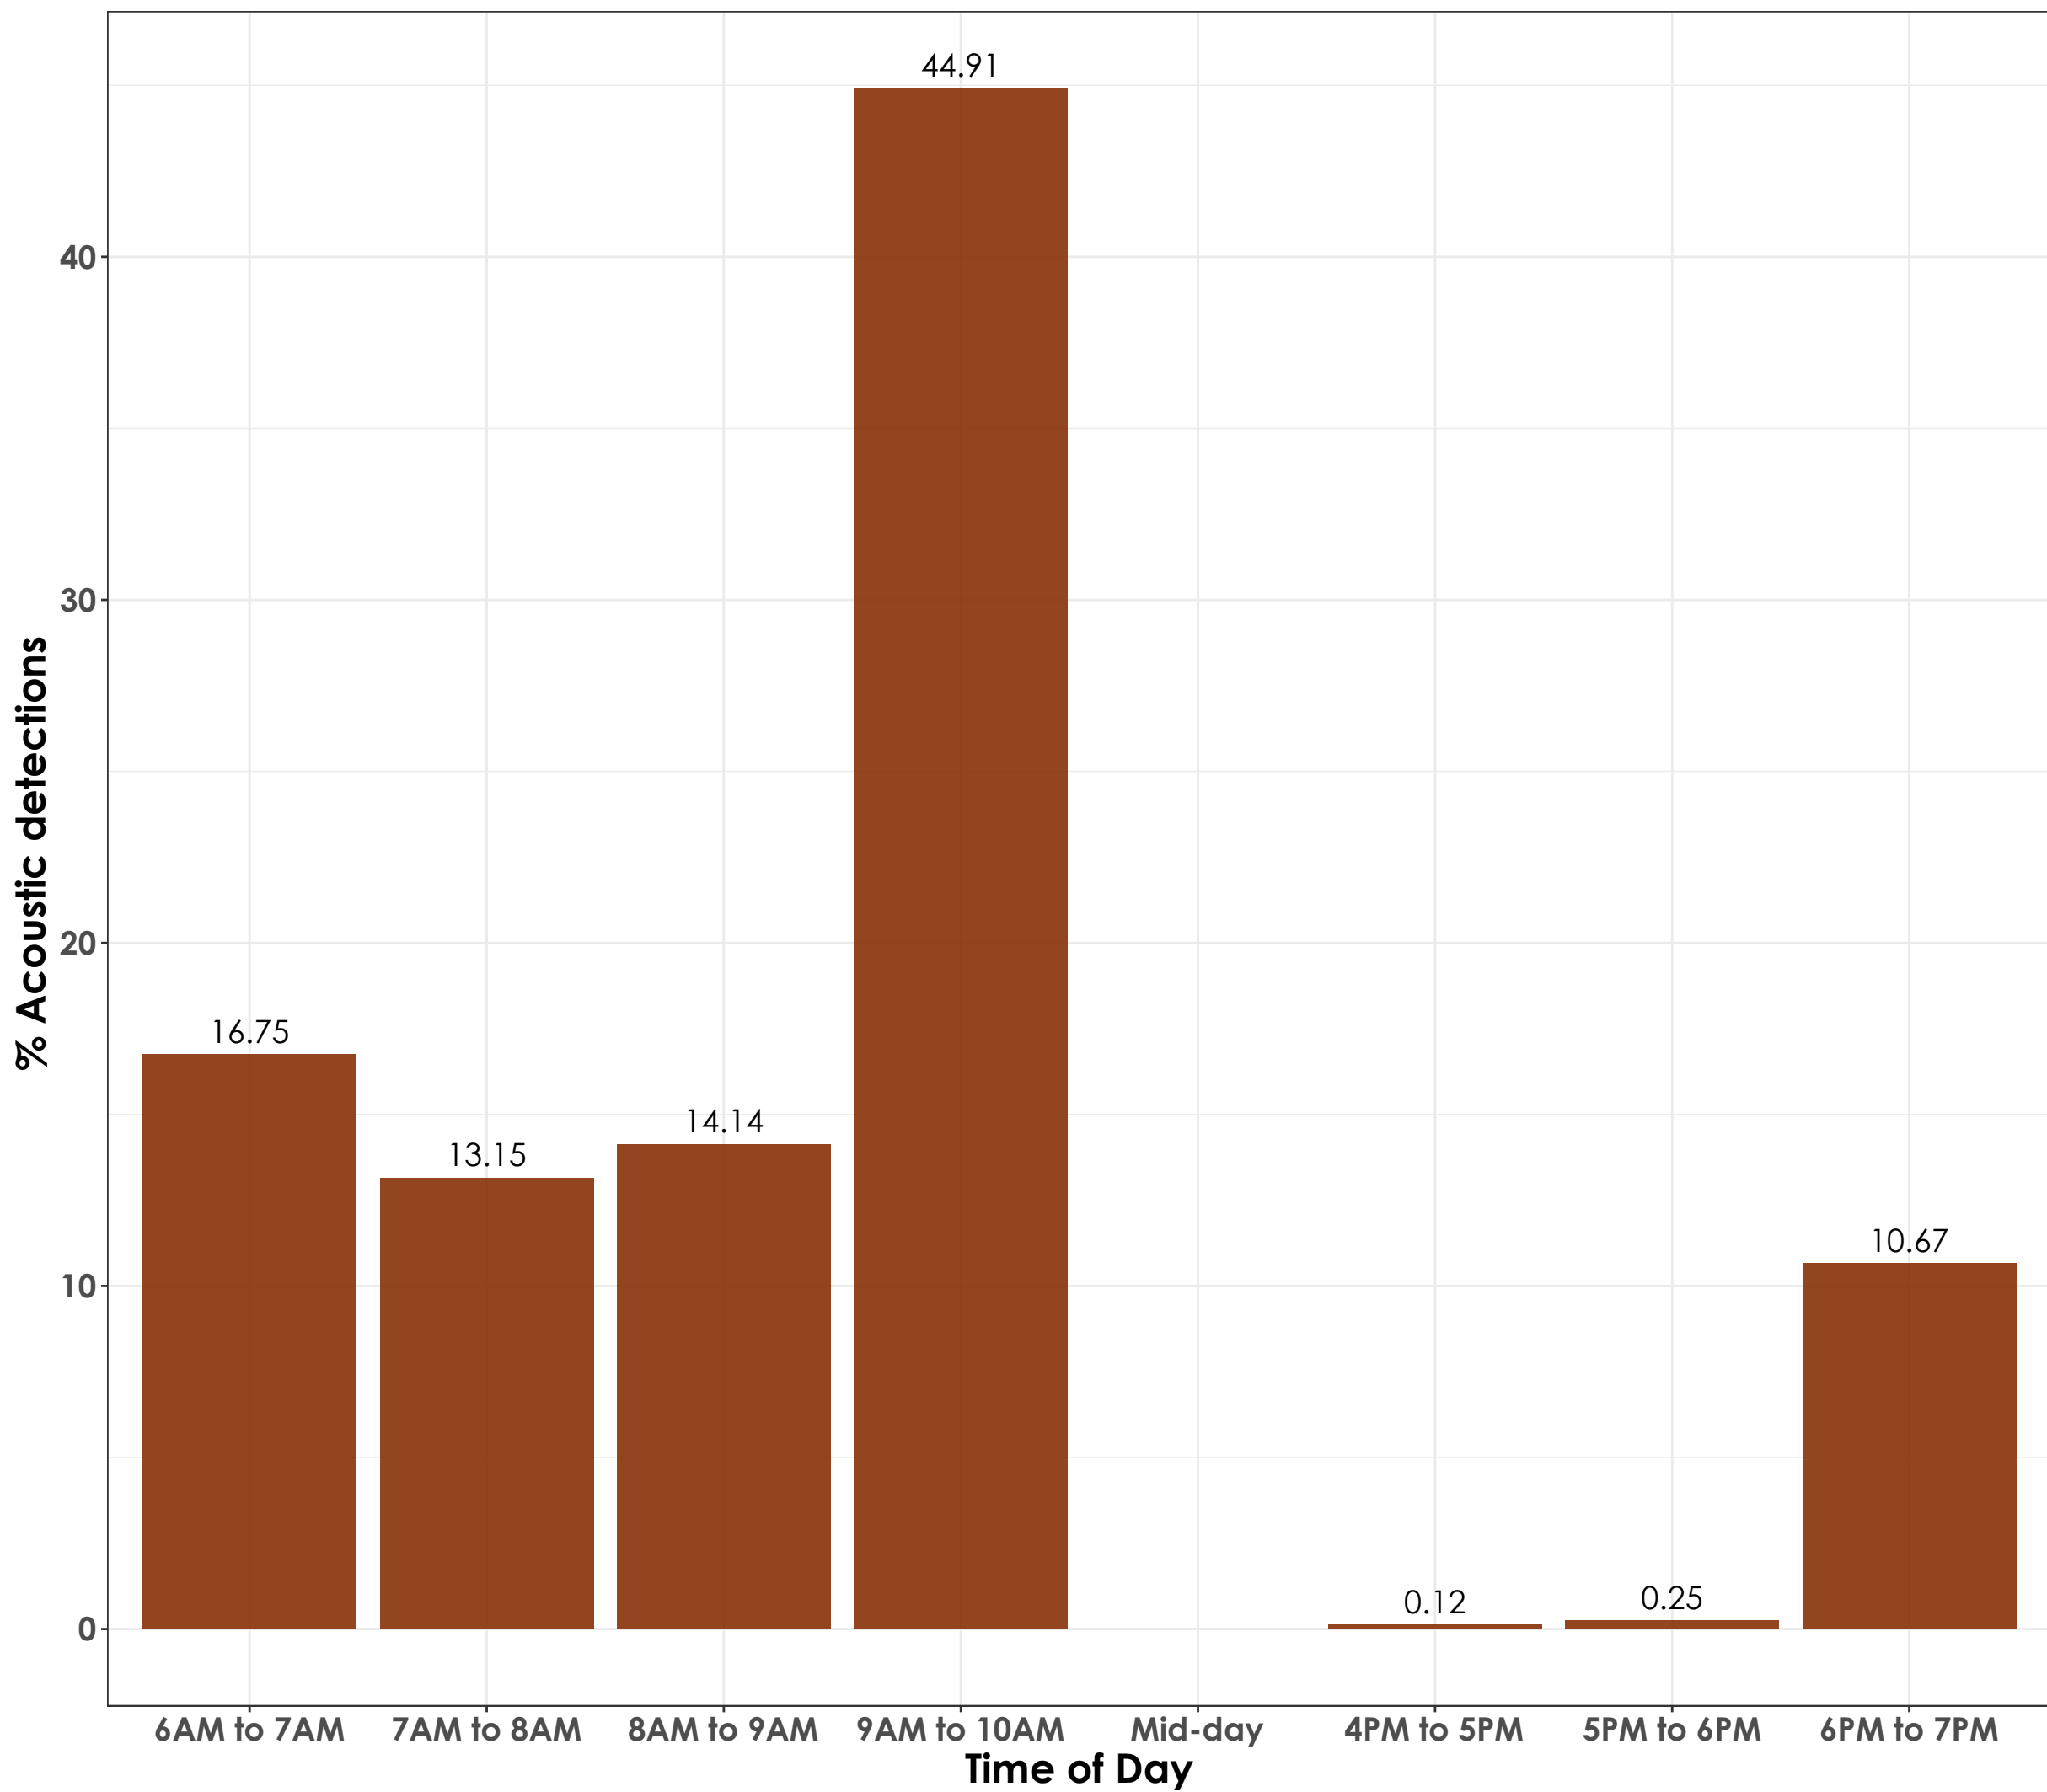

White-cheeked Barbet

Each bar represents the % of detections across dawn and dusk

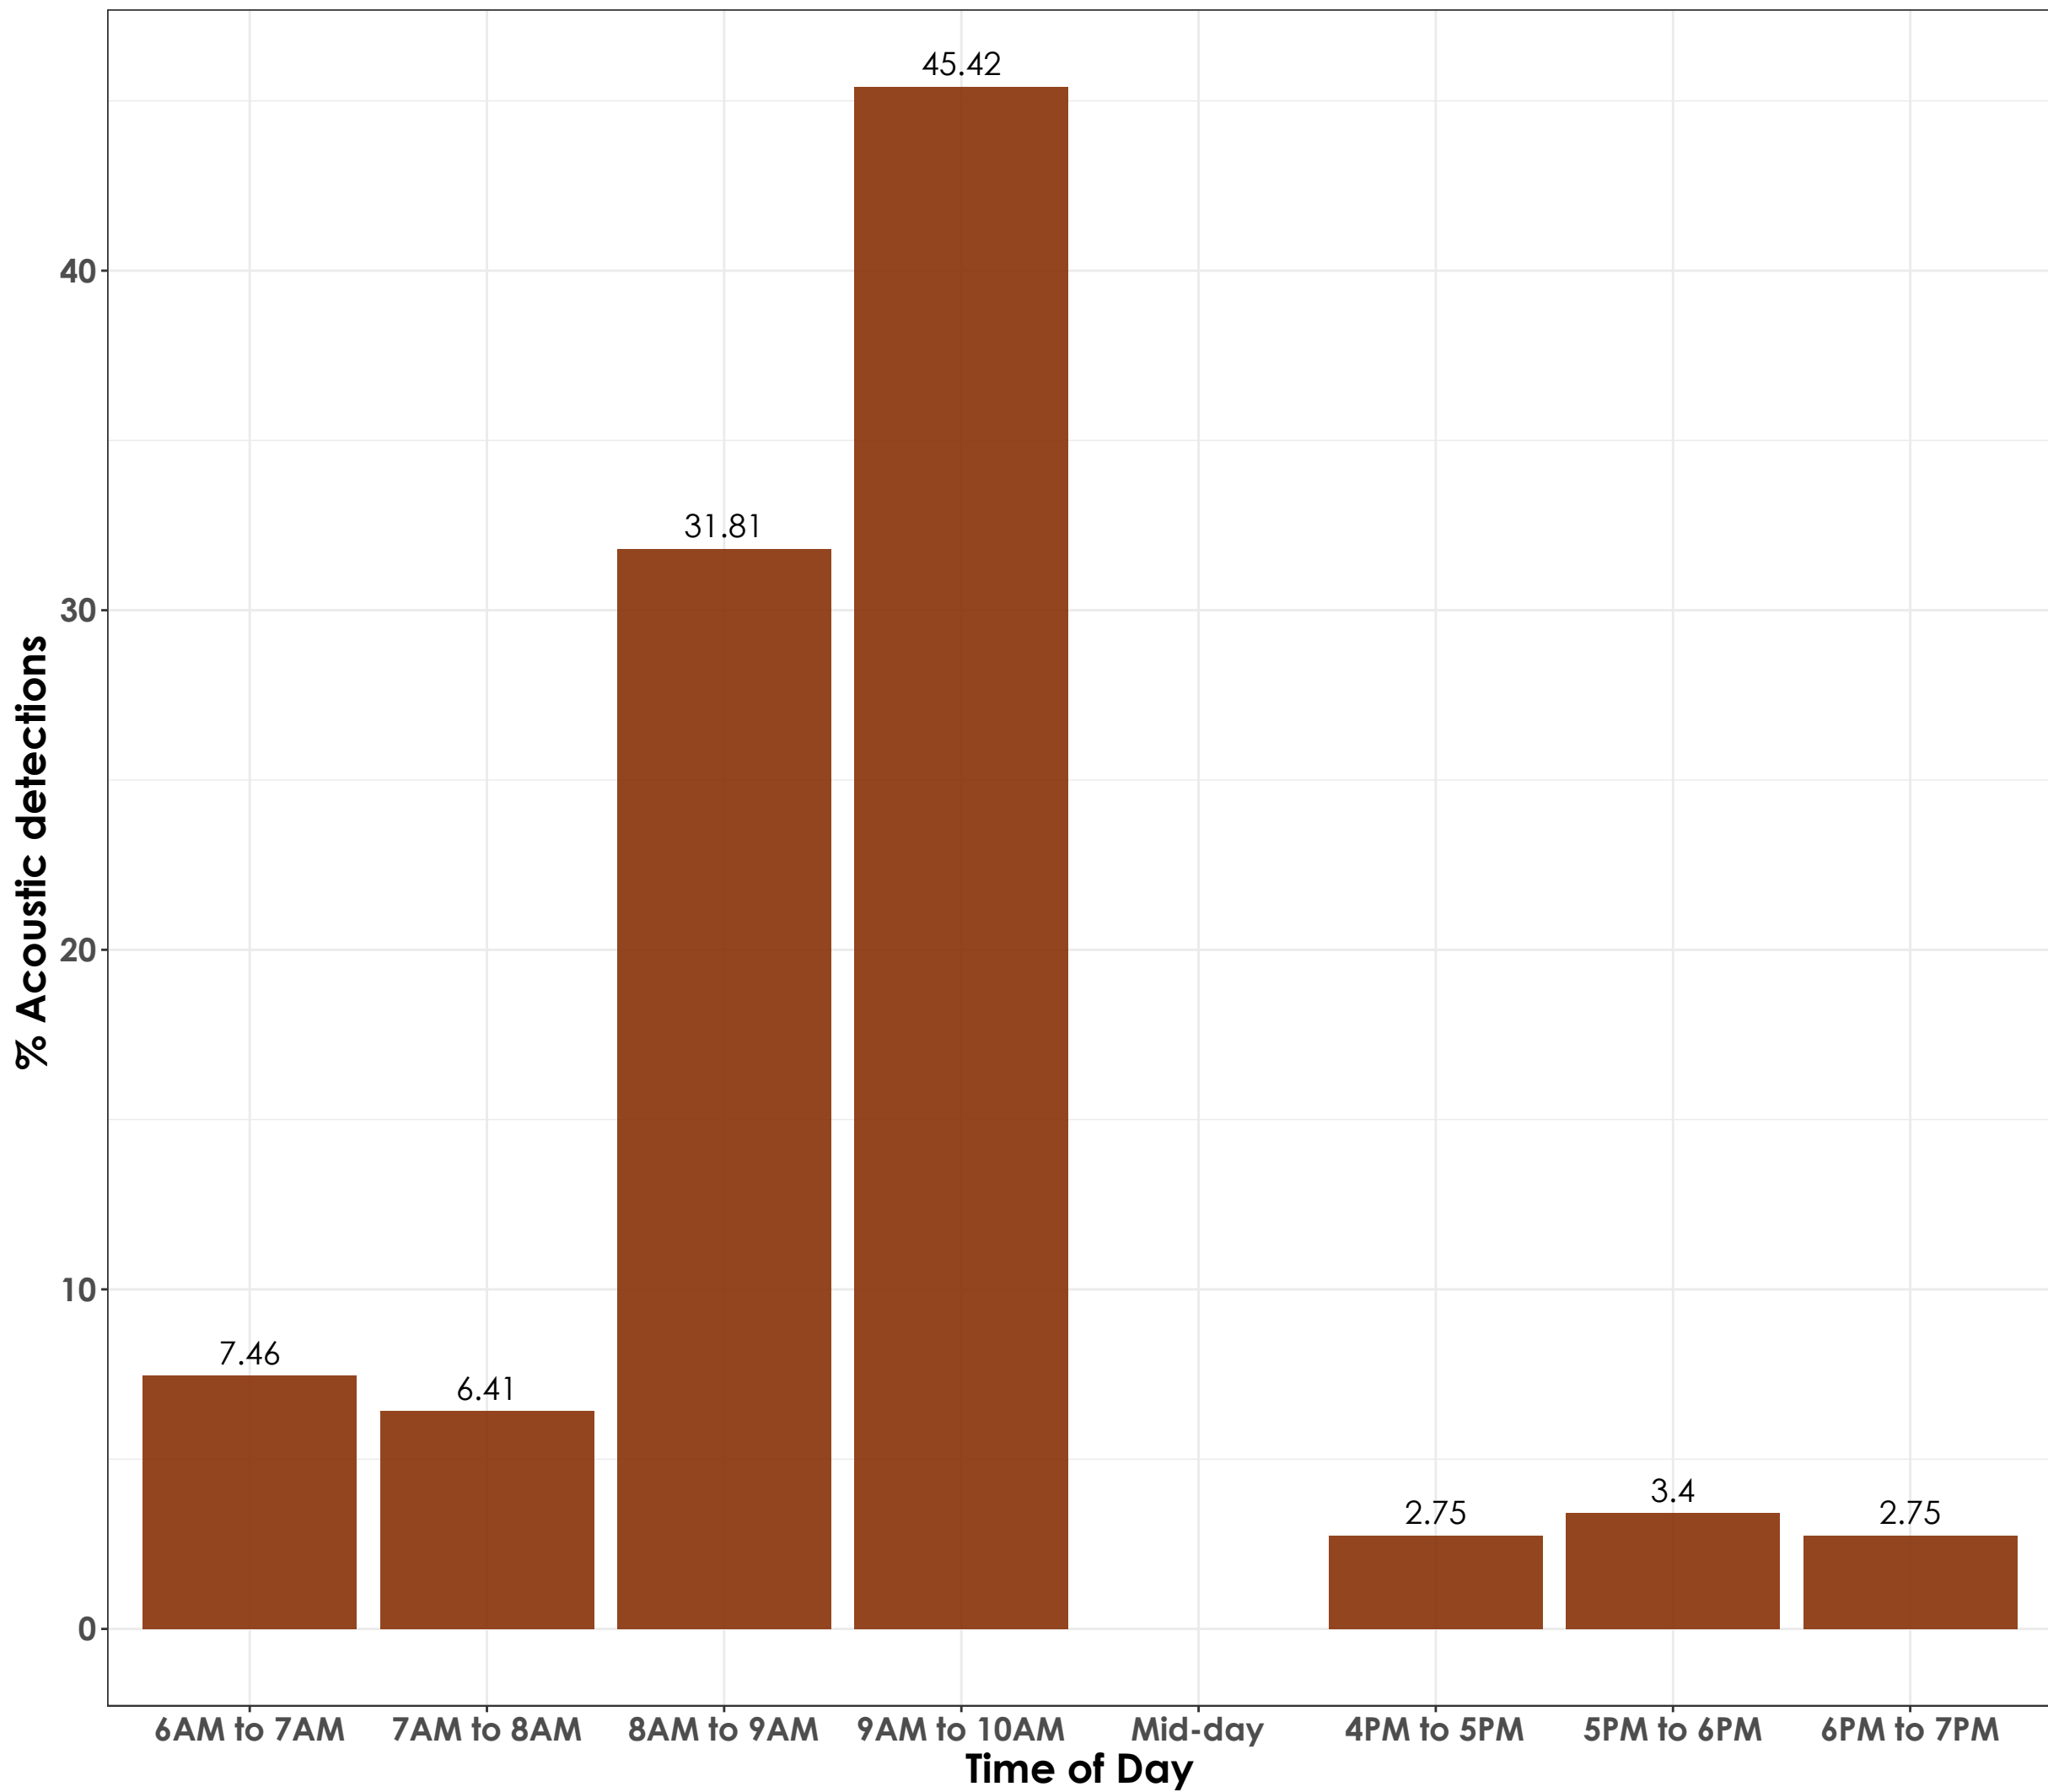

Common lora

Each bar represents the % of detections across dawn and dusk

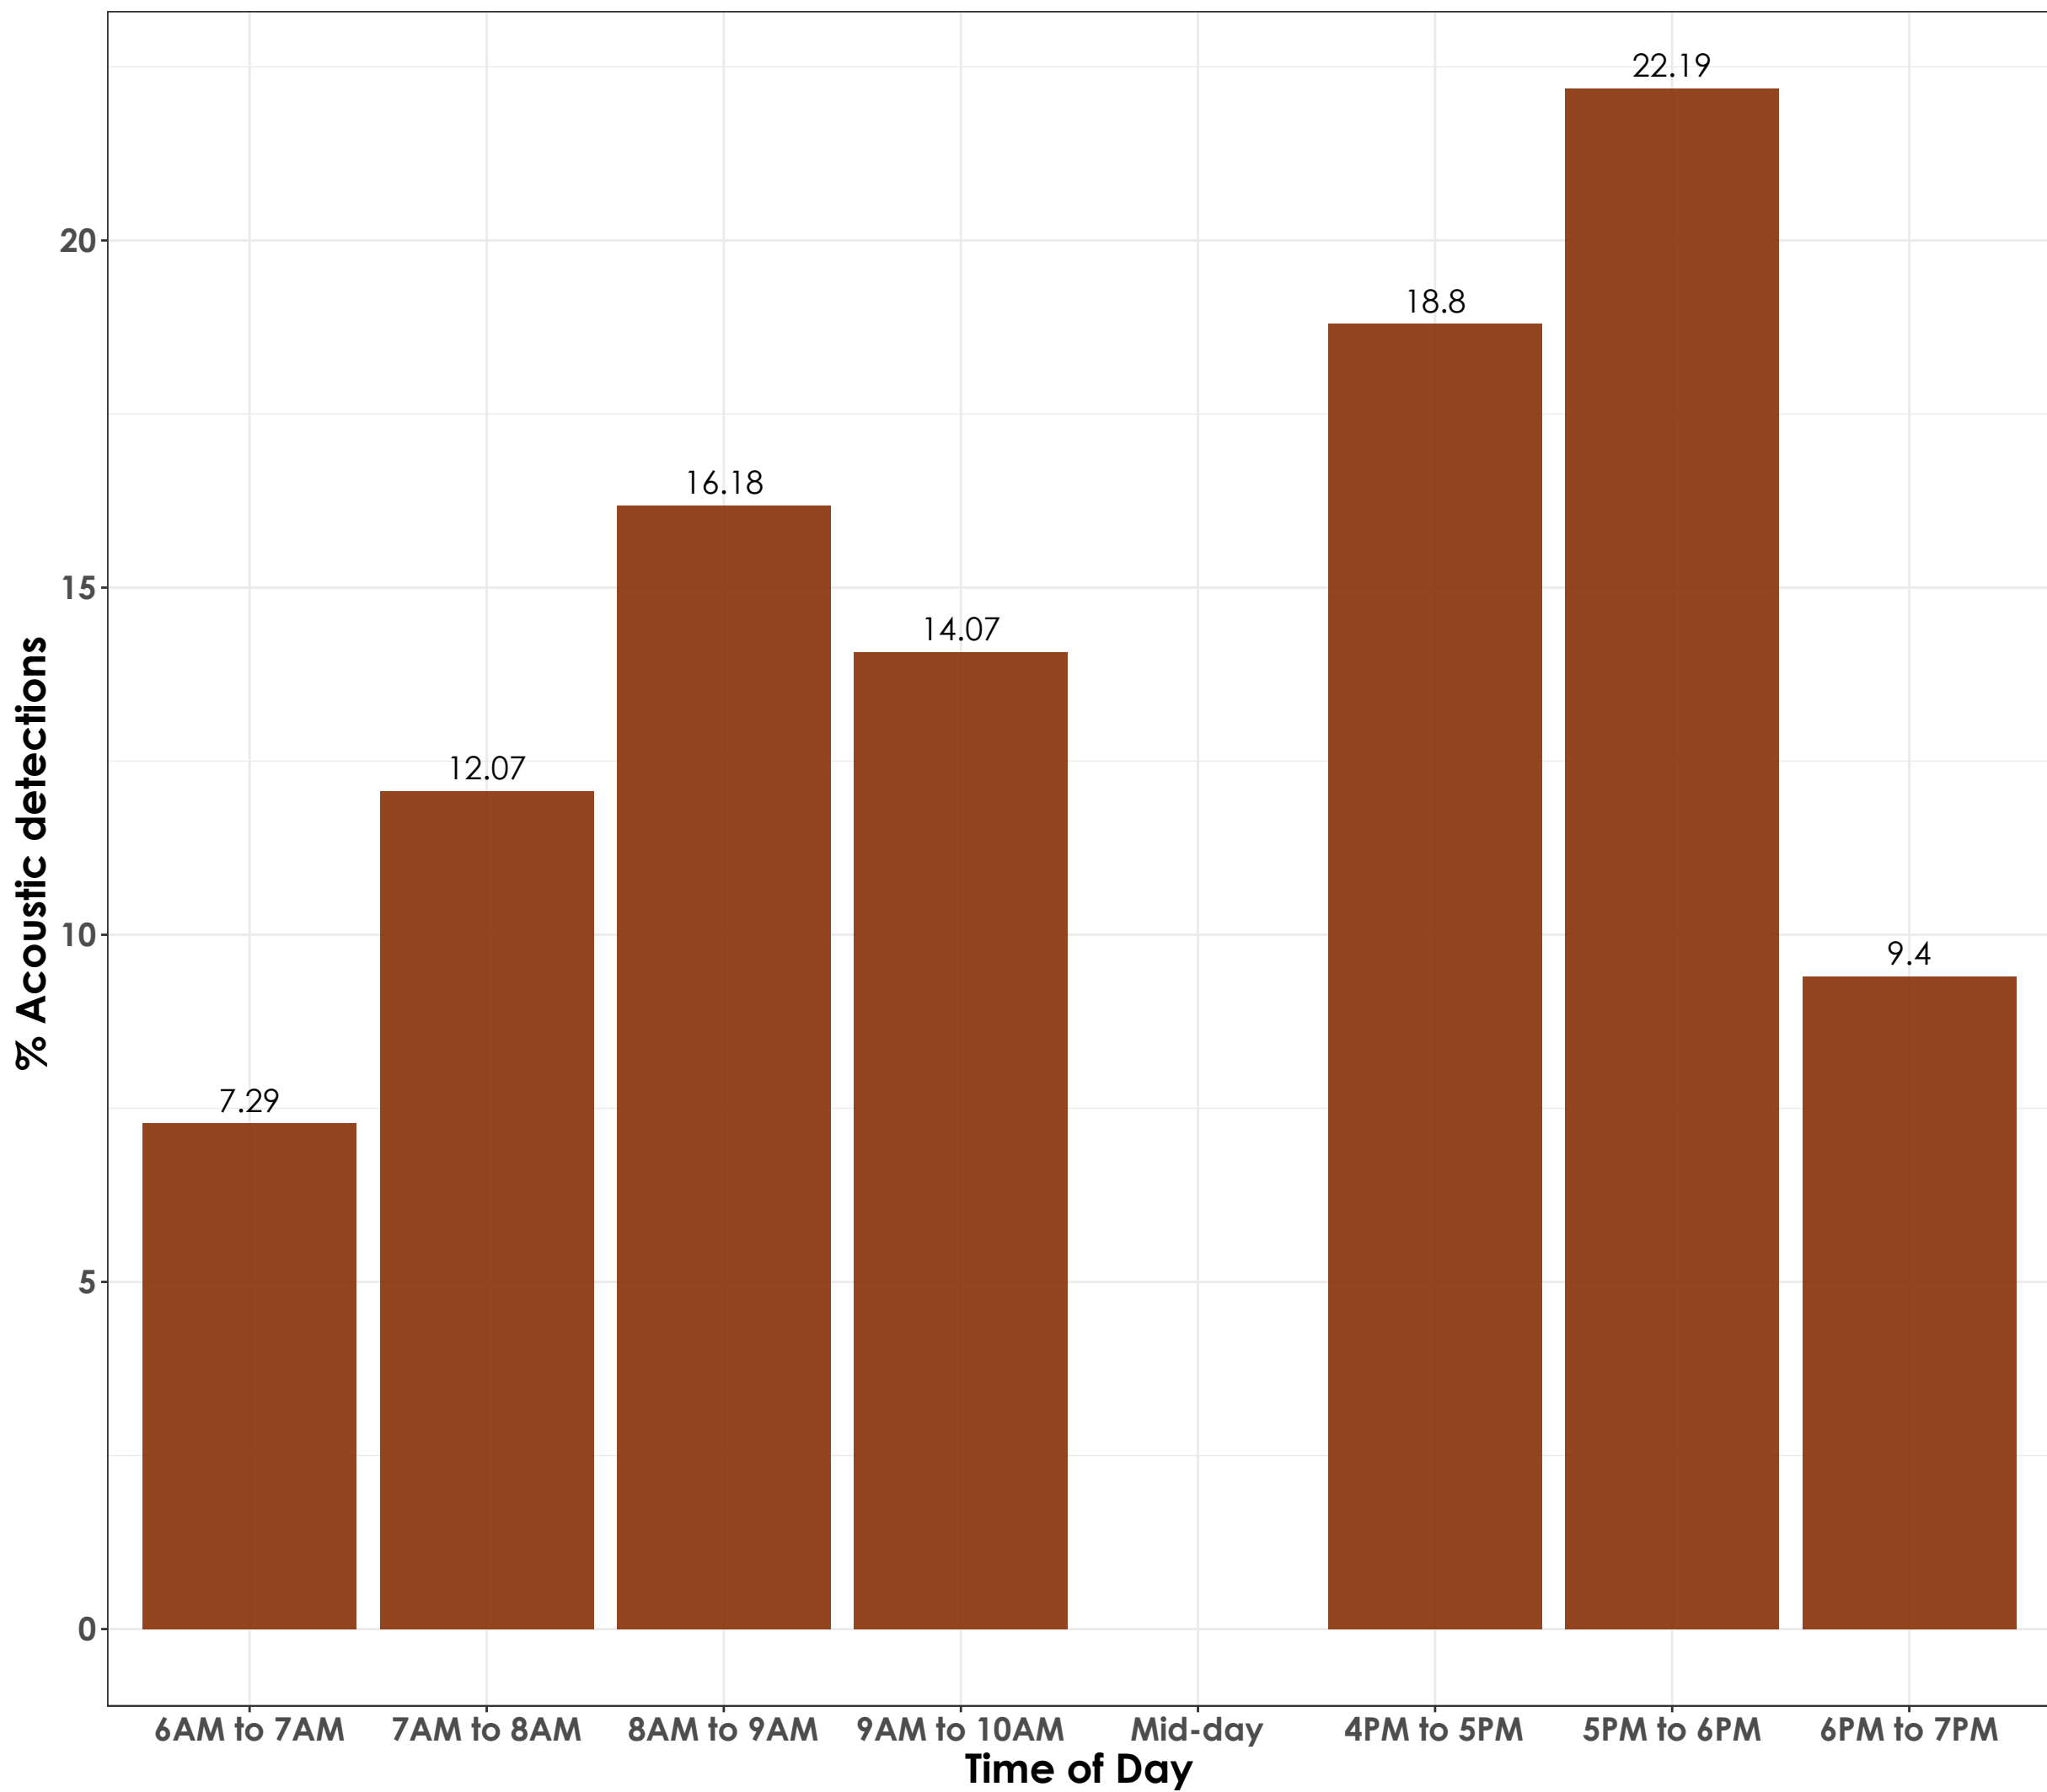

Common Tailorbird

Each bar represents the % of detections across dawn and dusk

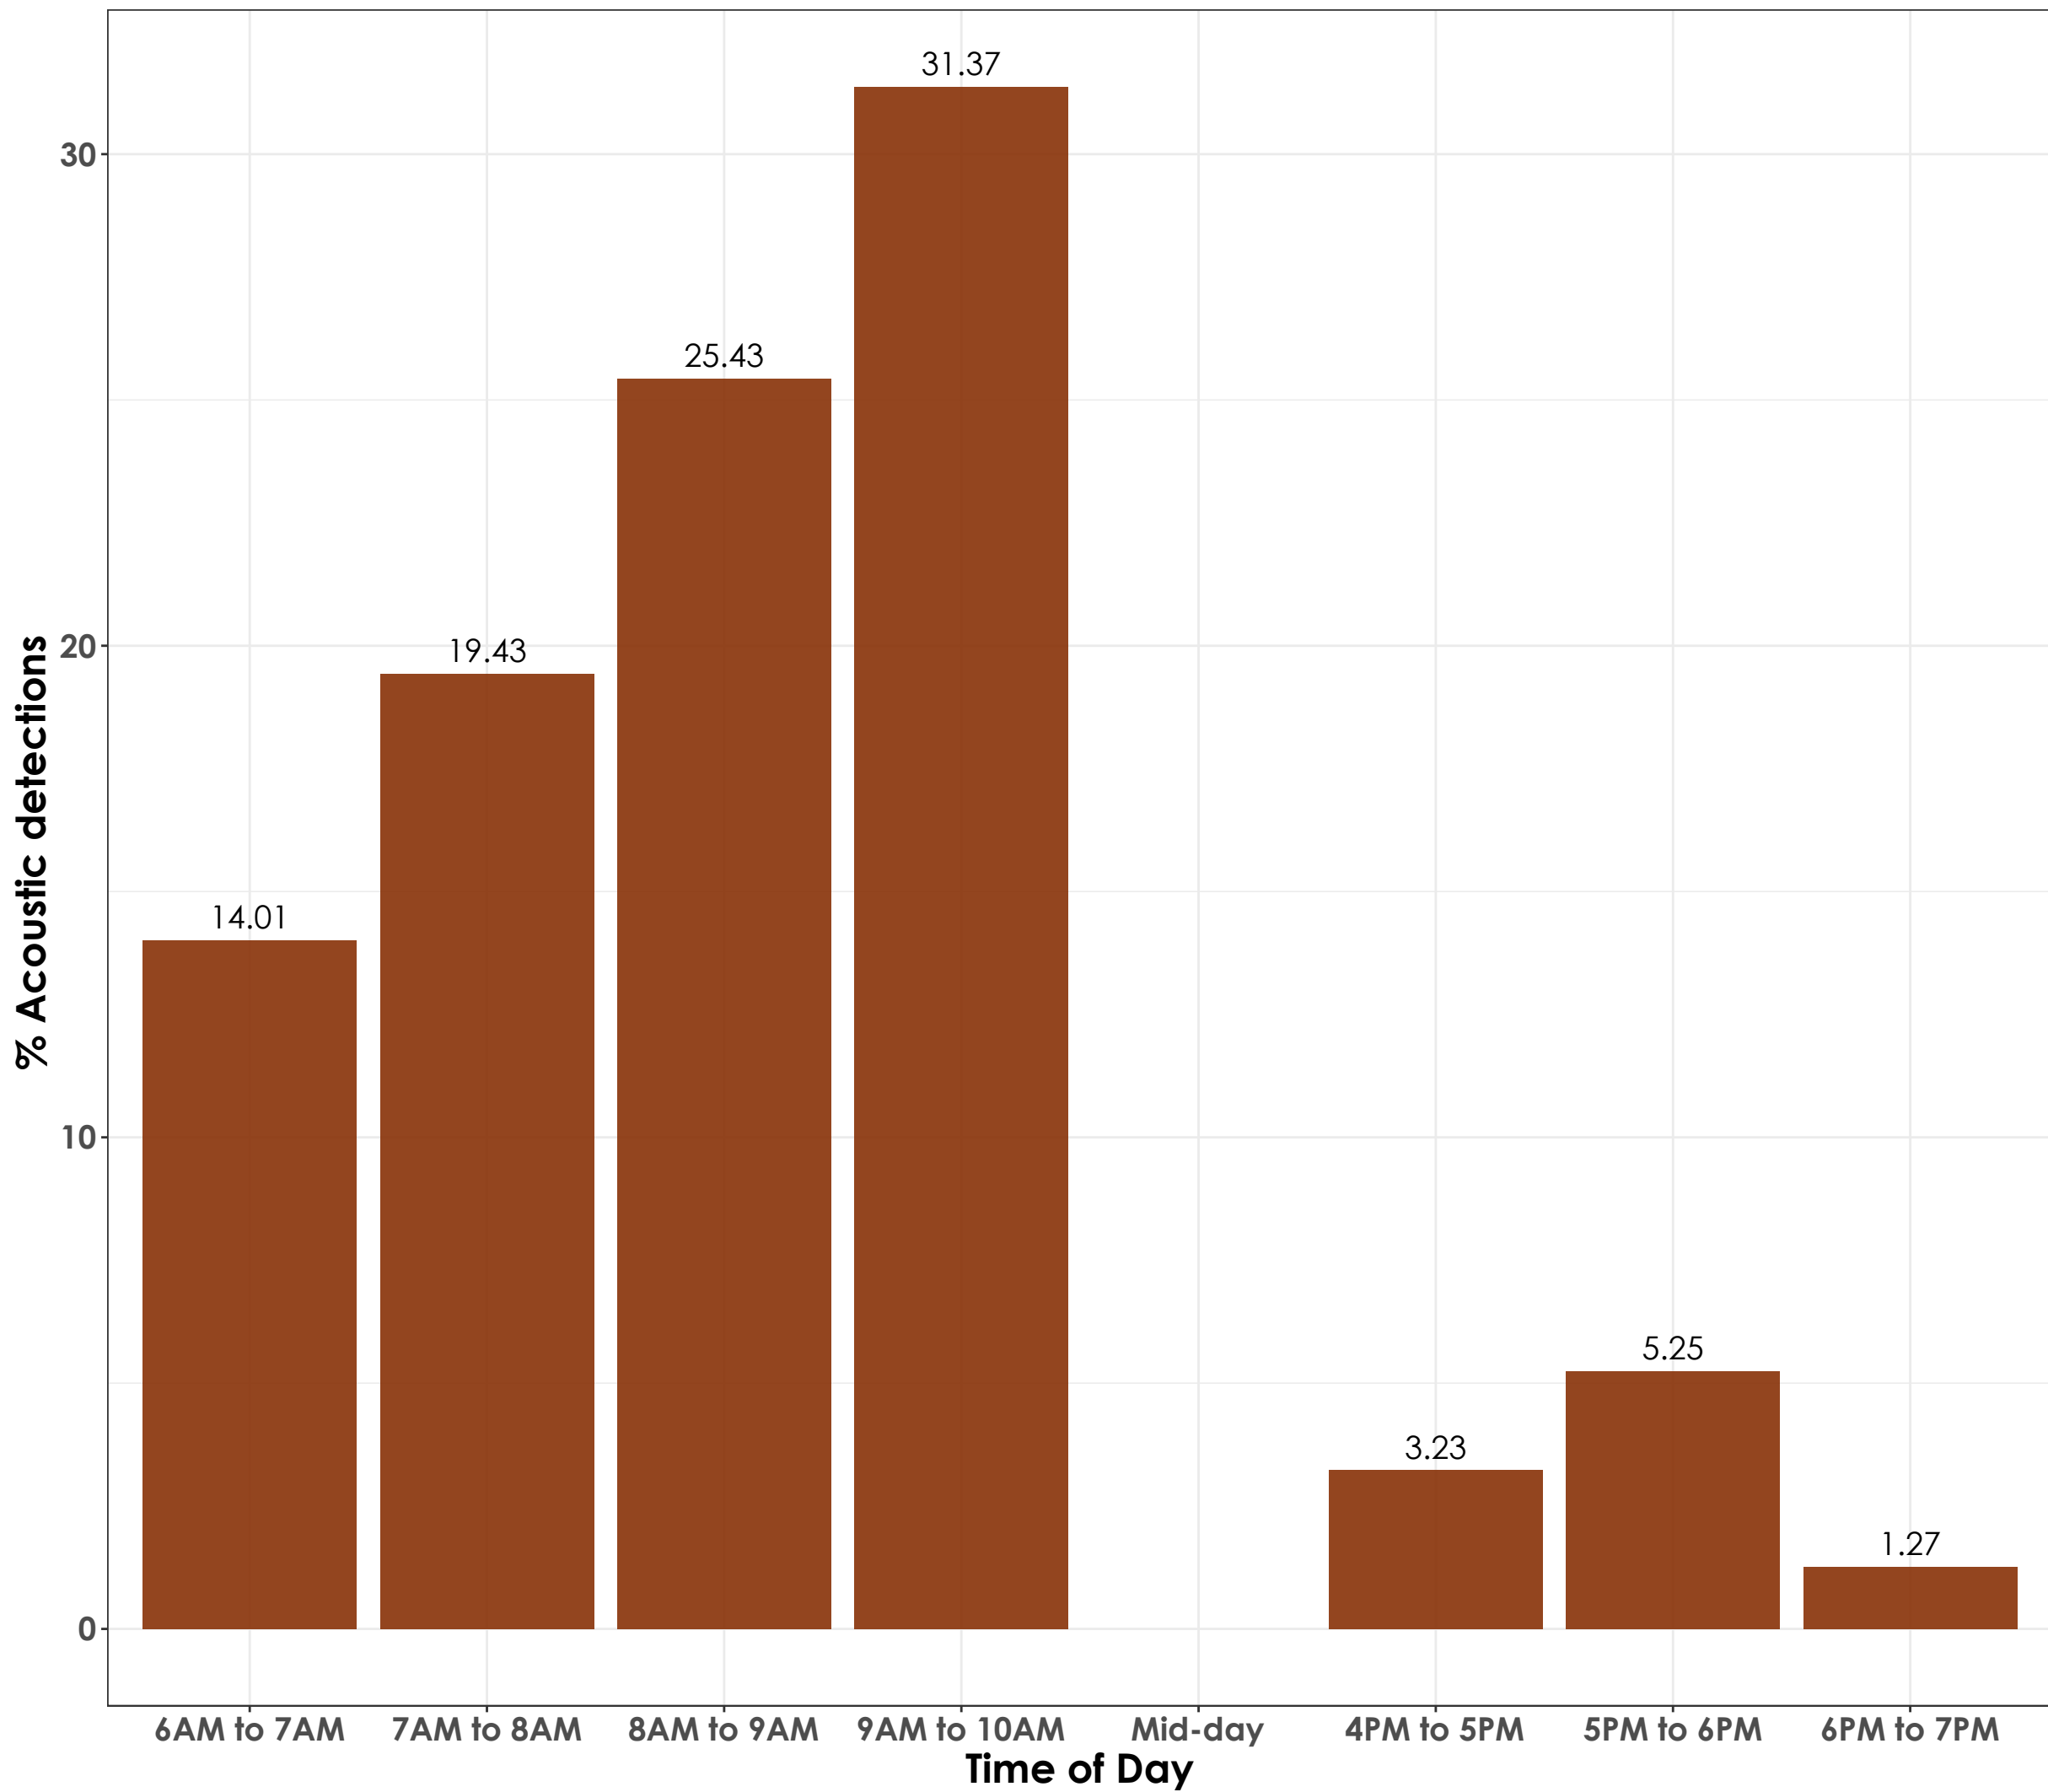

Large-billed Crow

Each bar represents the % of detections across dawn and dusk

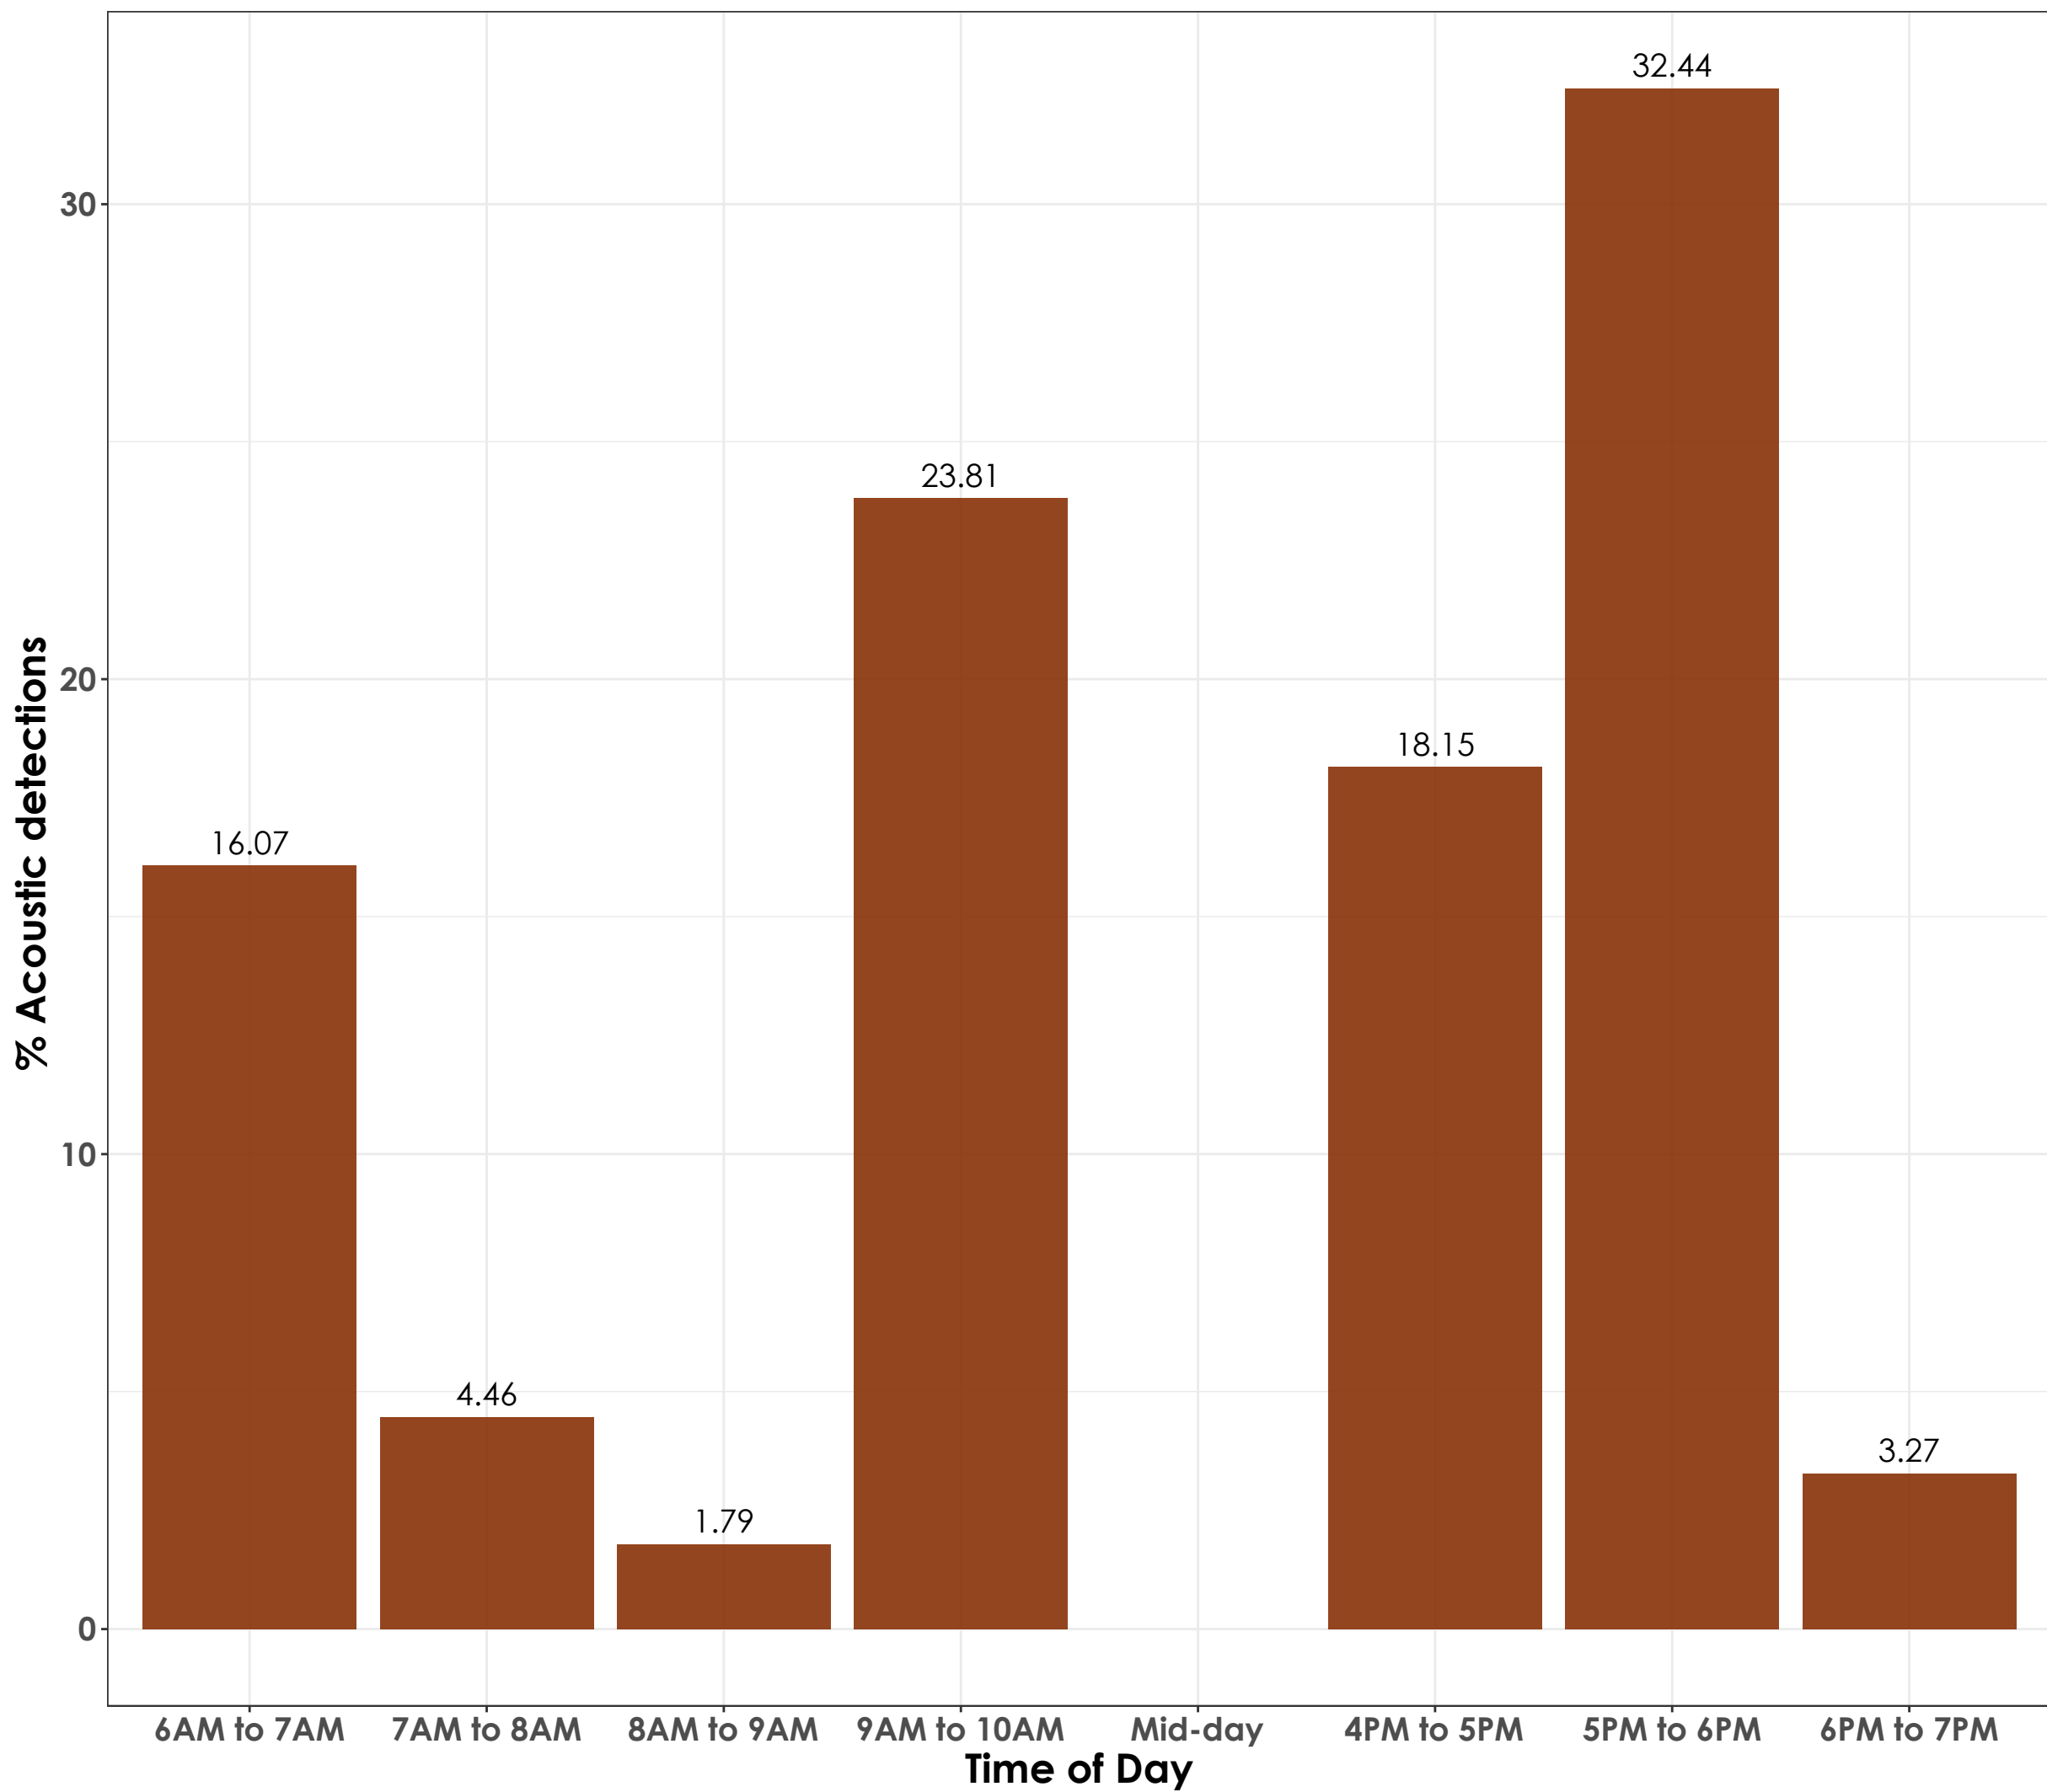

Velvet-fronted Nuthatch

Each bar represents the % of detections across dawn and dusk

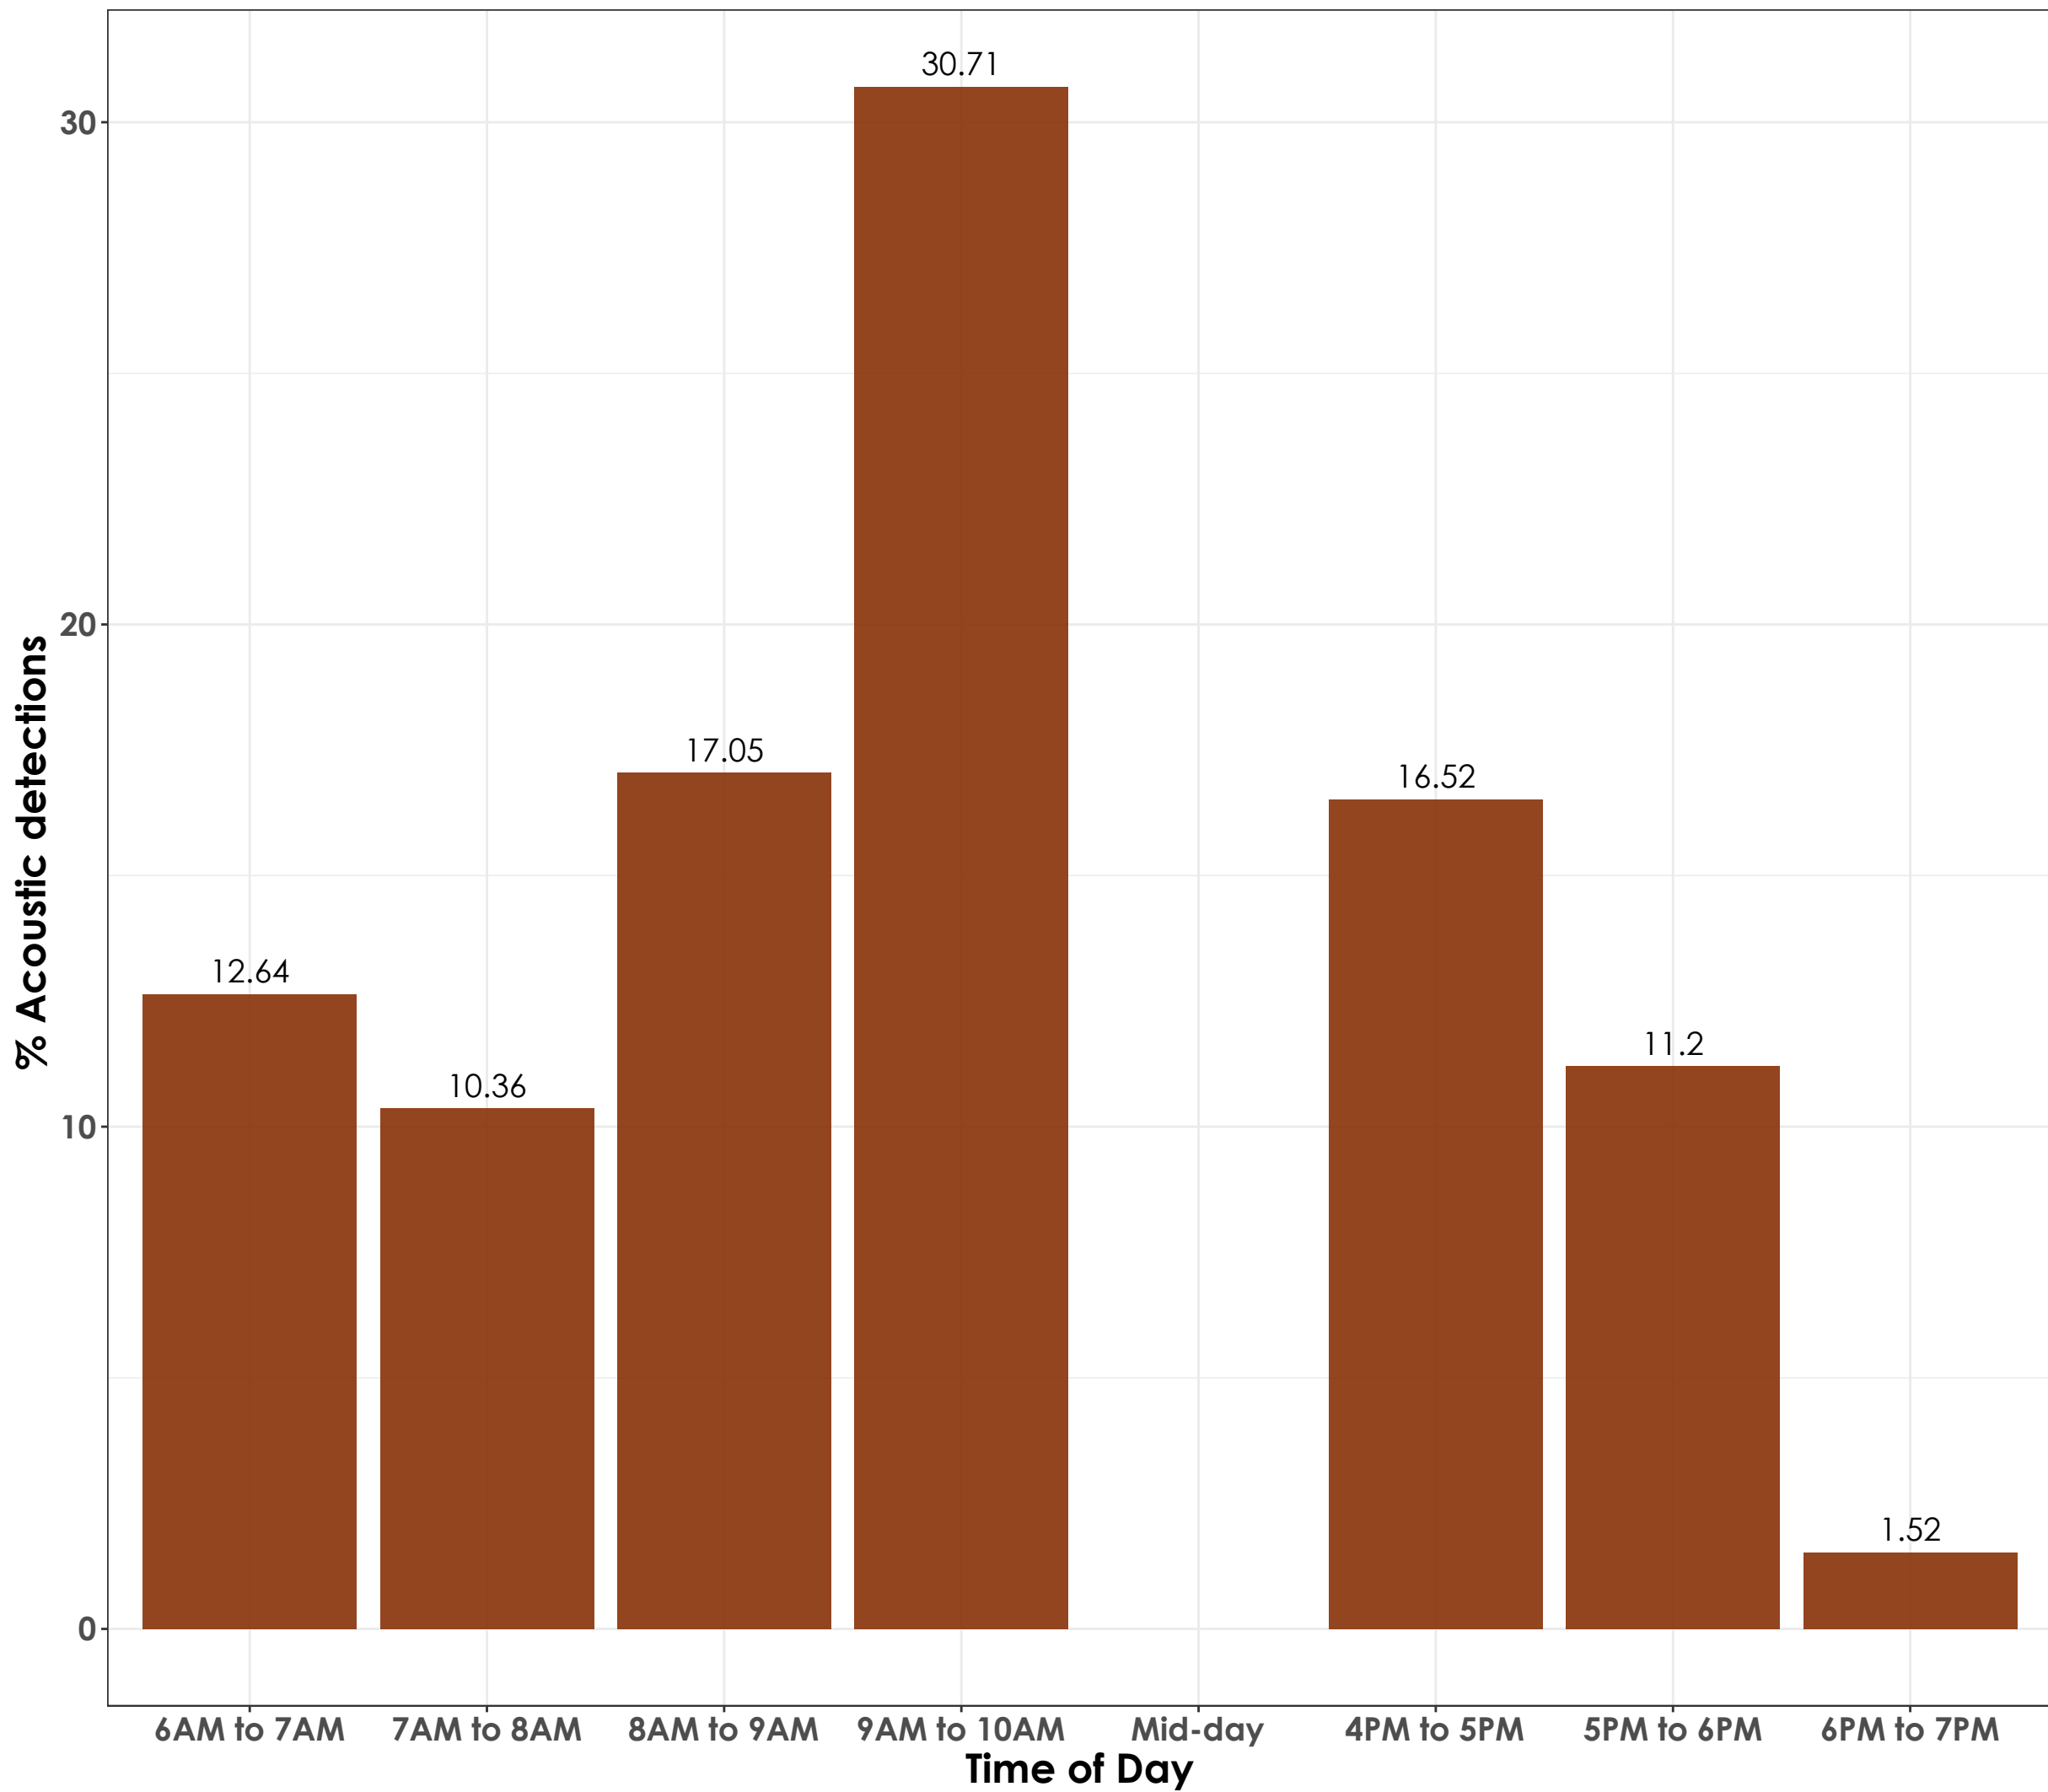

White-bellied Treepie

Each bar represents the % of detections across dawn and dusk

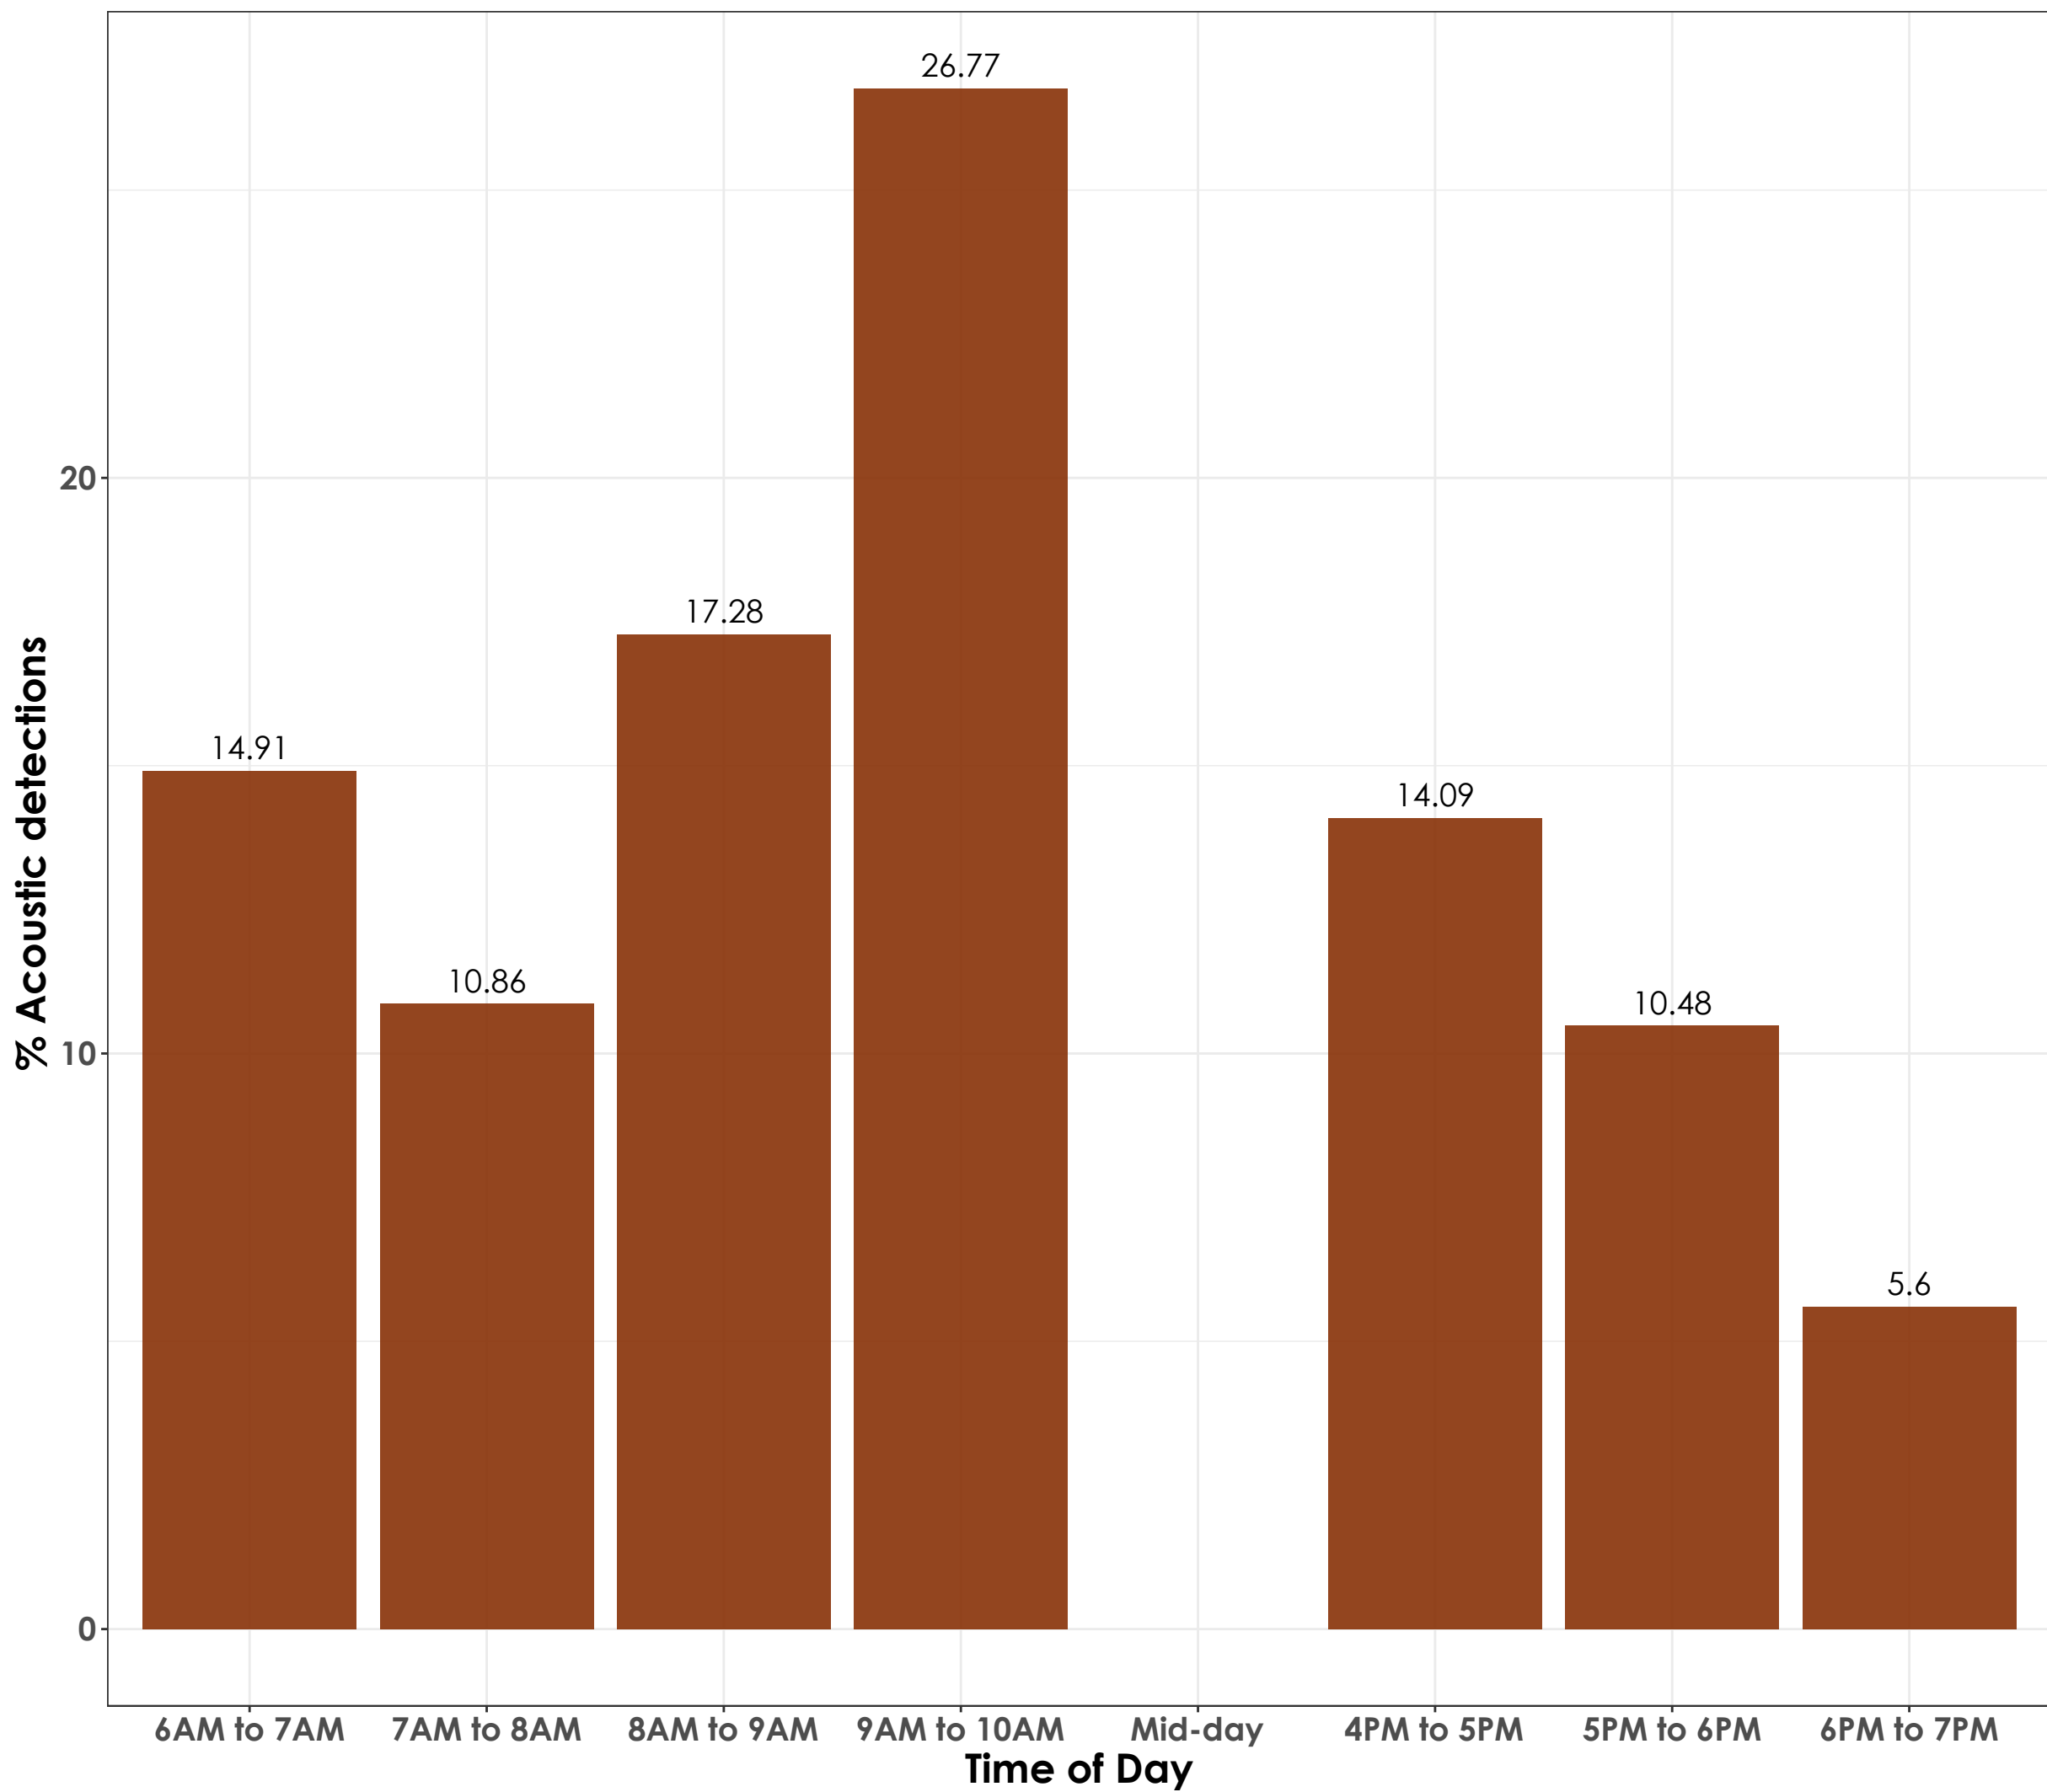

Yellow-browed Bulbul

Each bar represents the % of detections across dawn and dusk

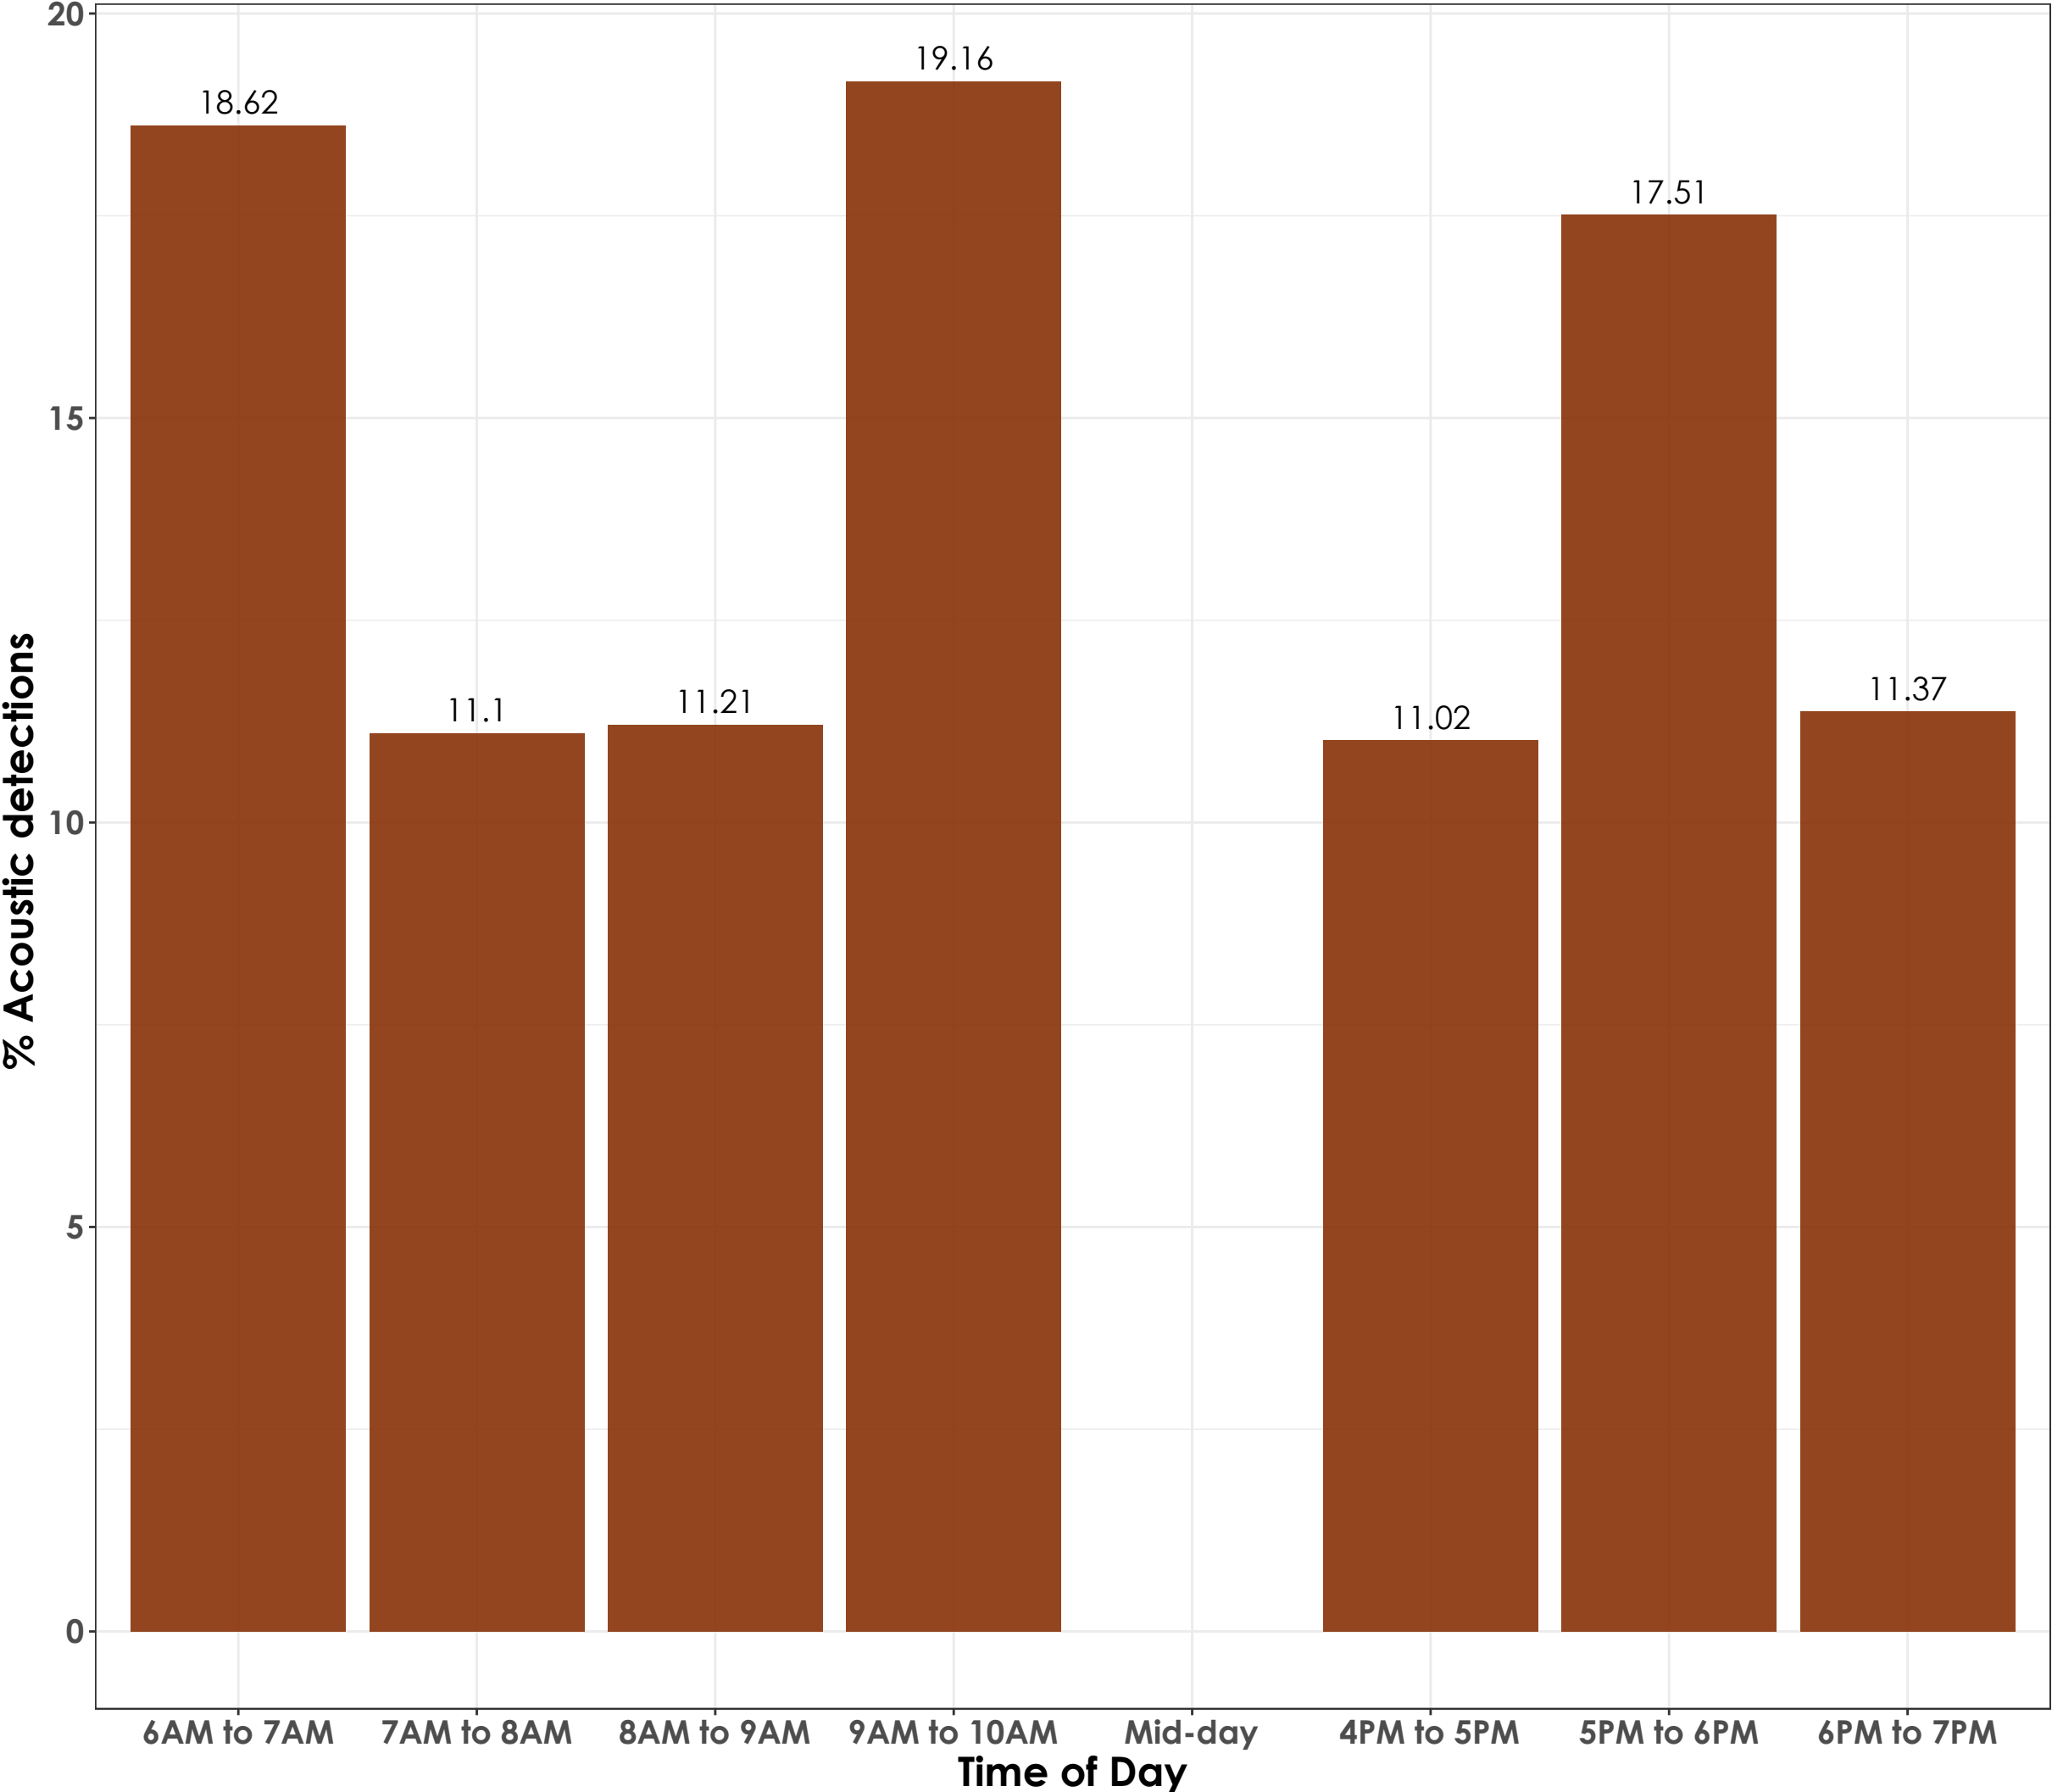

Indian White-eye

Each bar represents the % of detections across dawn and dusk

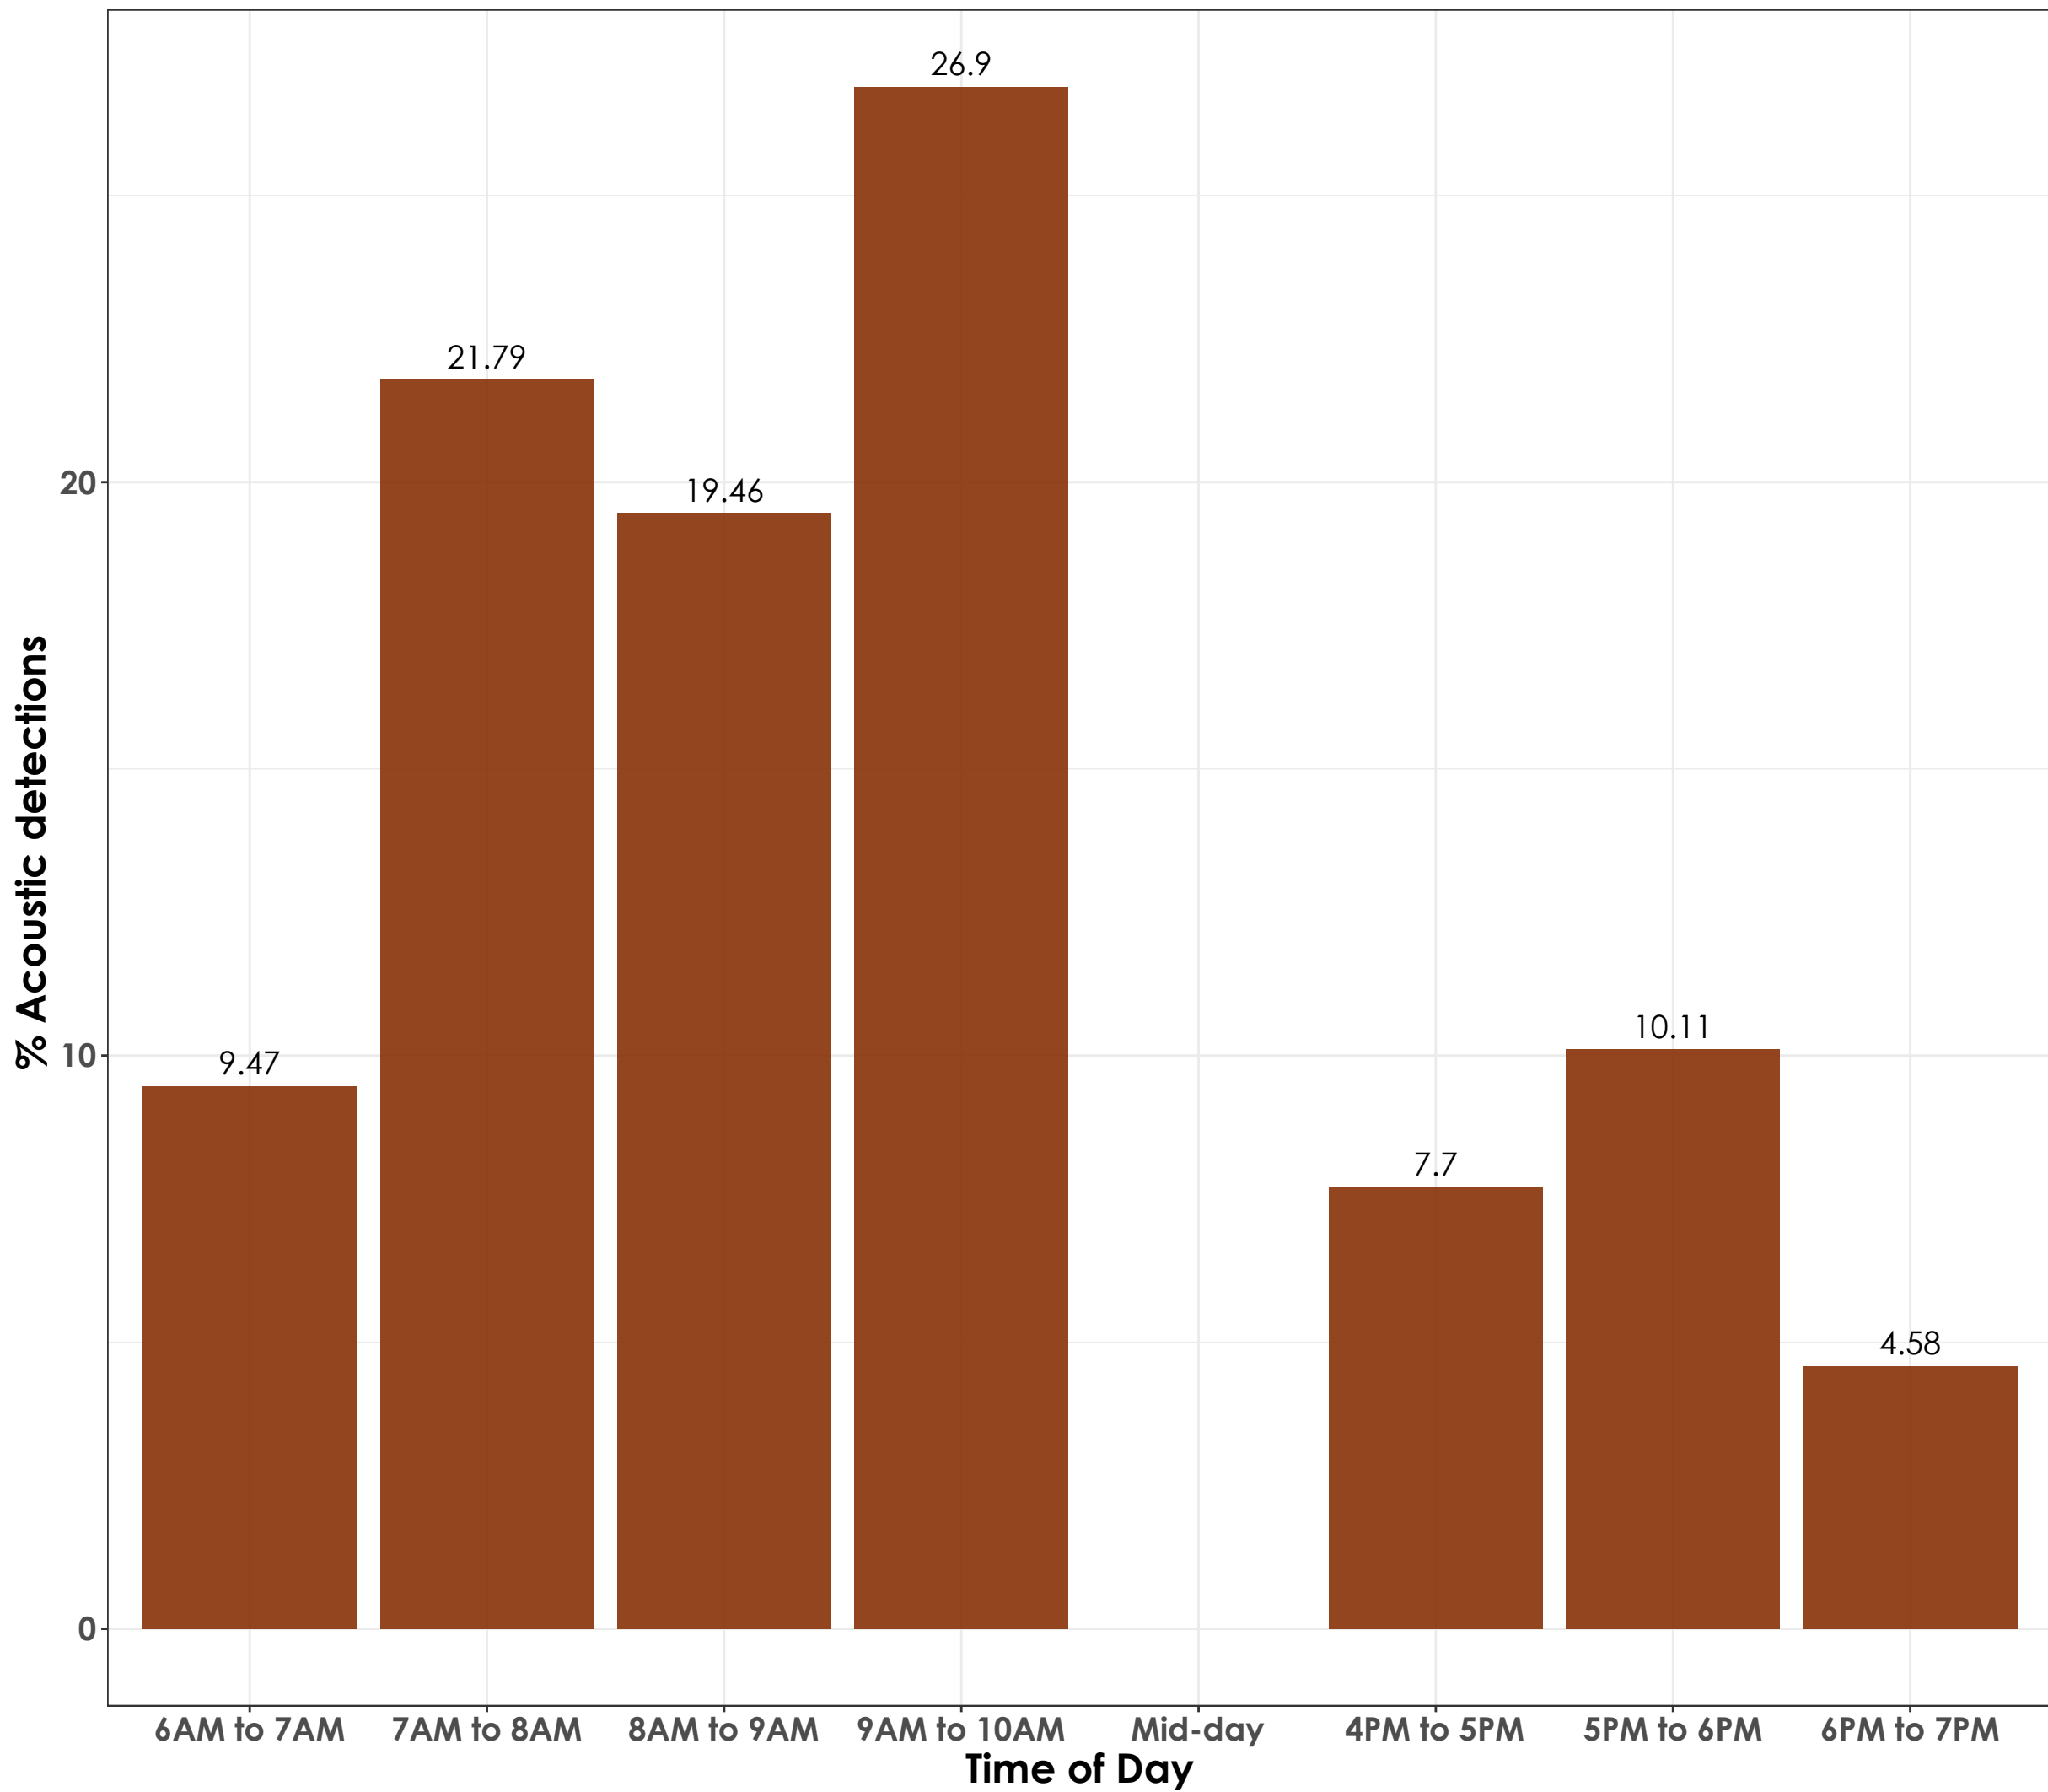

Malabar Whistling-Thrush

Each bar represents the % of detections across dawn and dusk

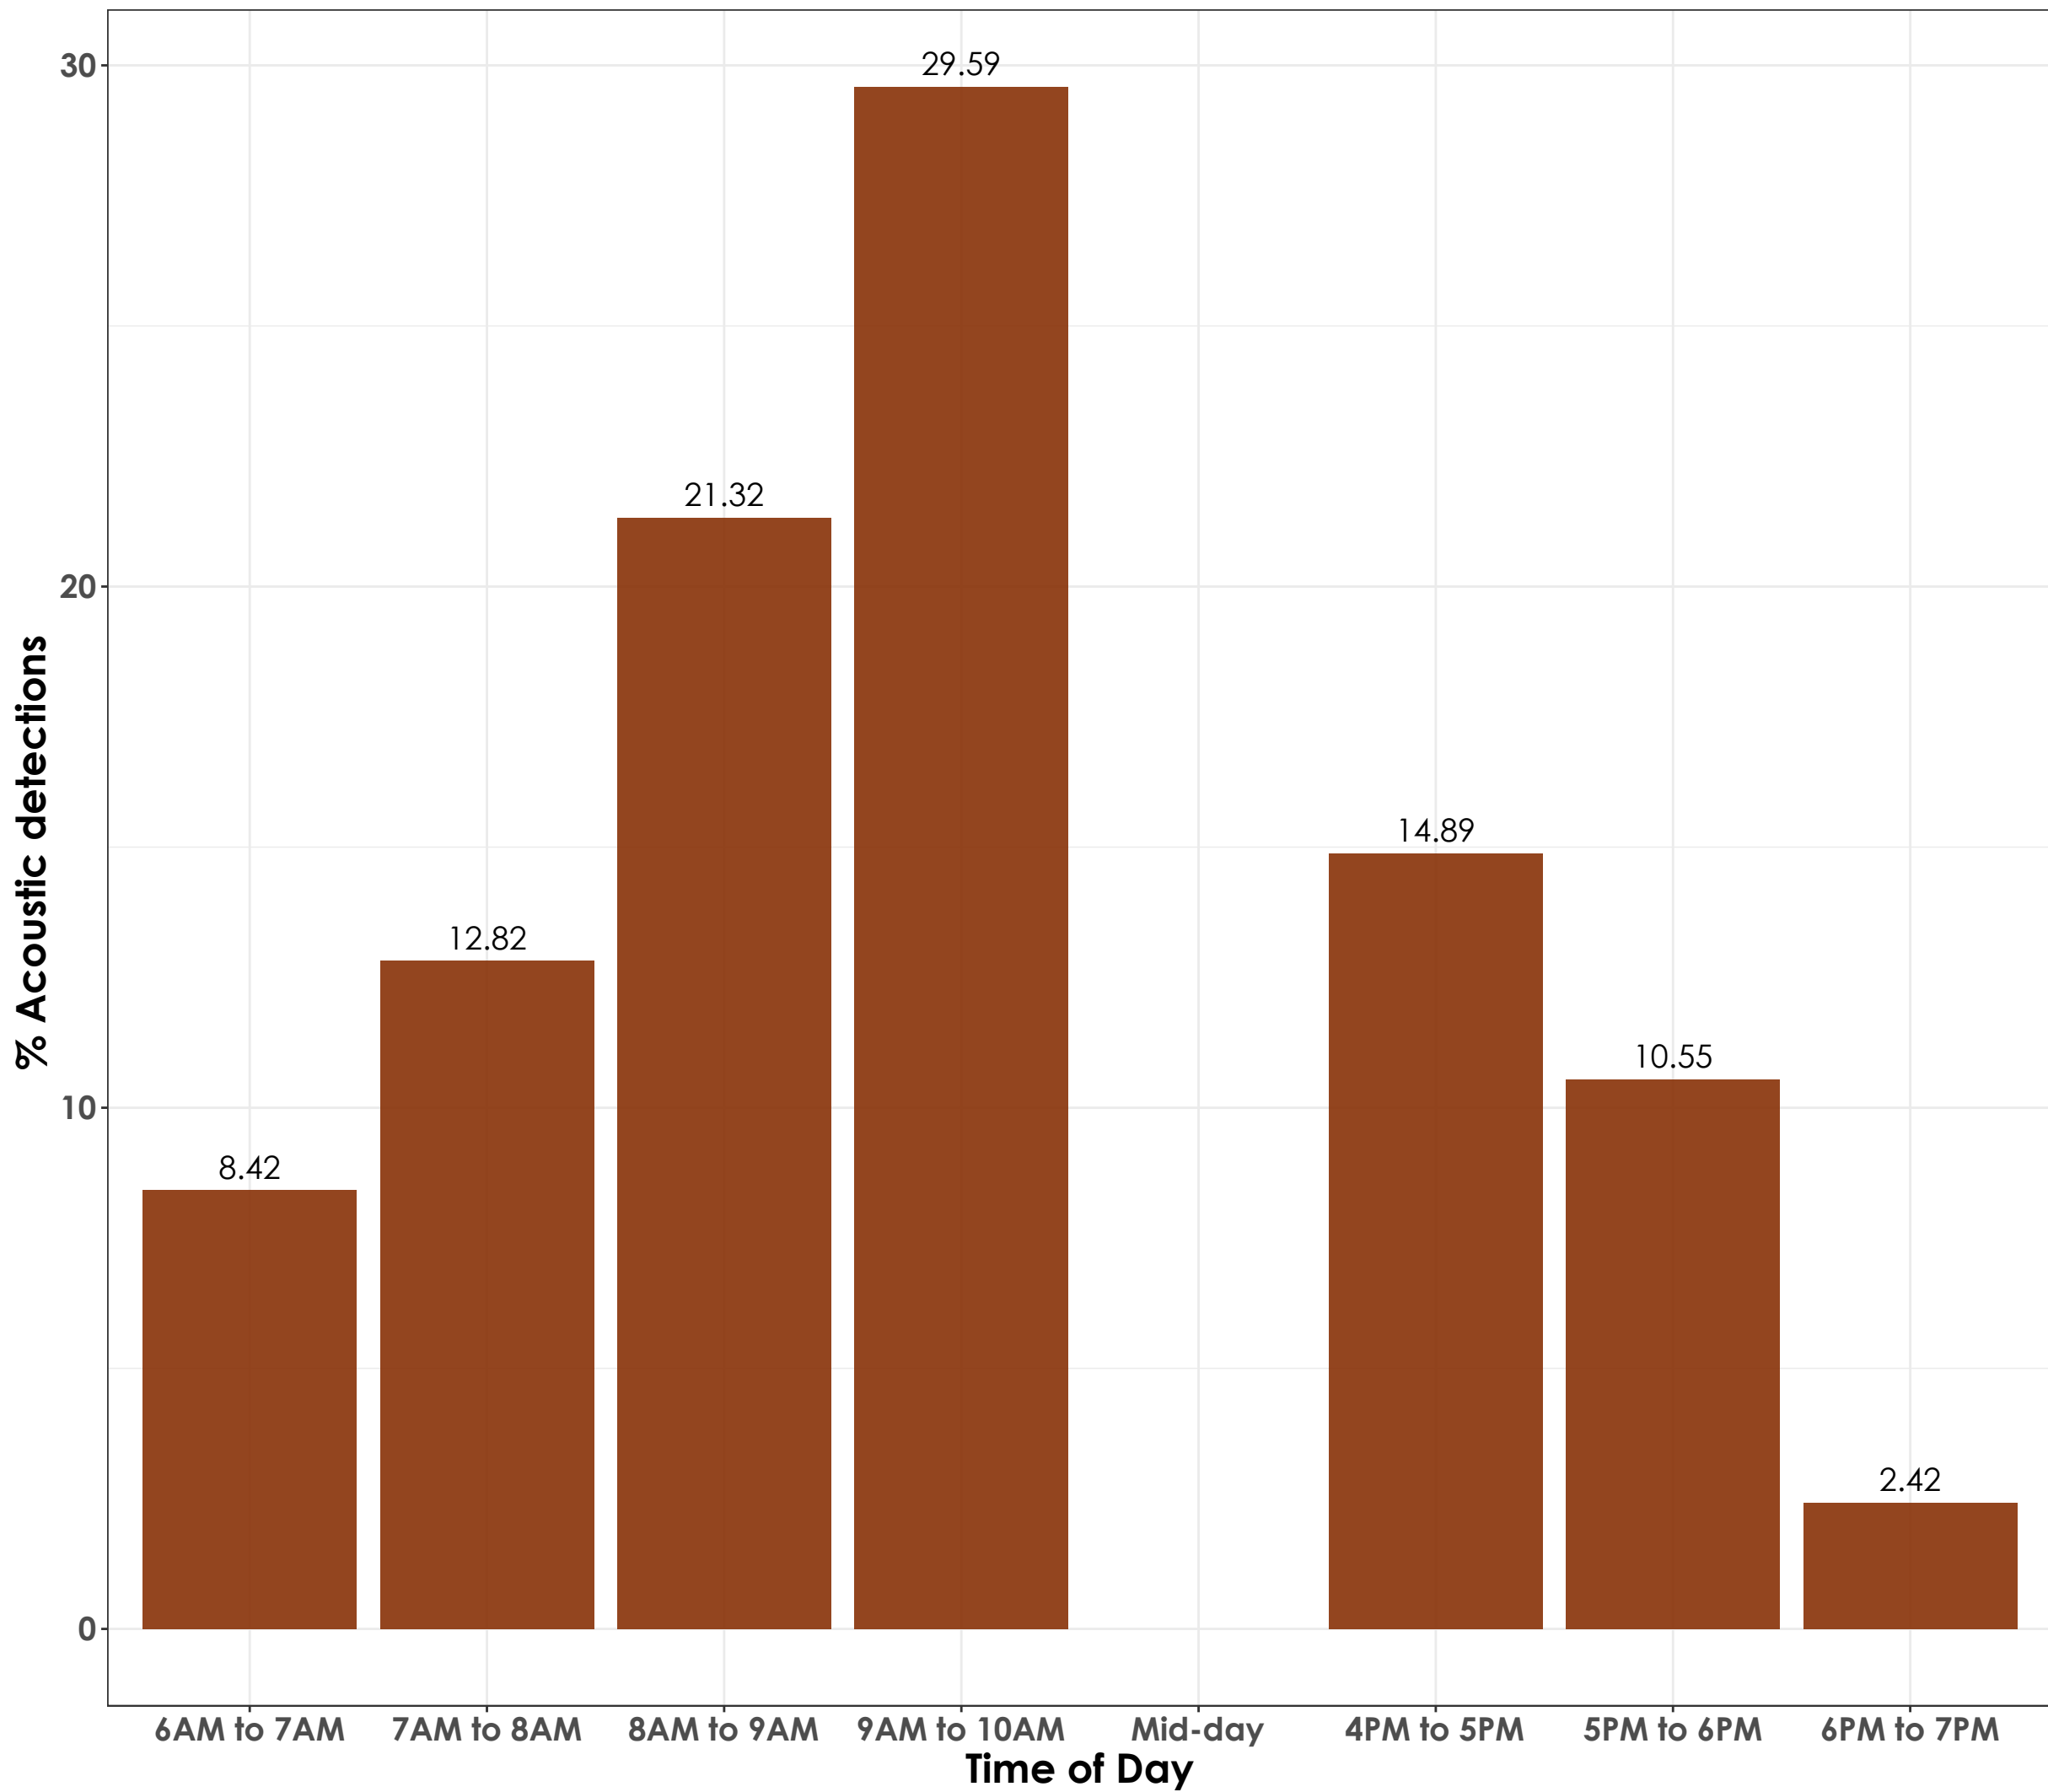

Orange-headed Thrush

Each bar represents the % of detections across dawn and dusk

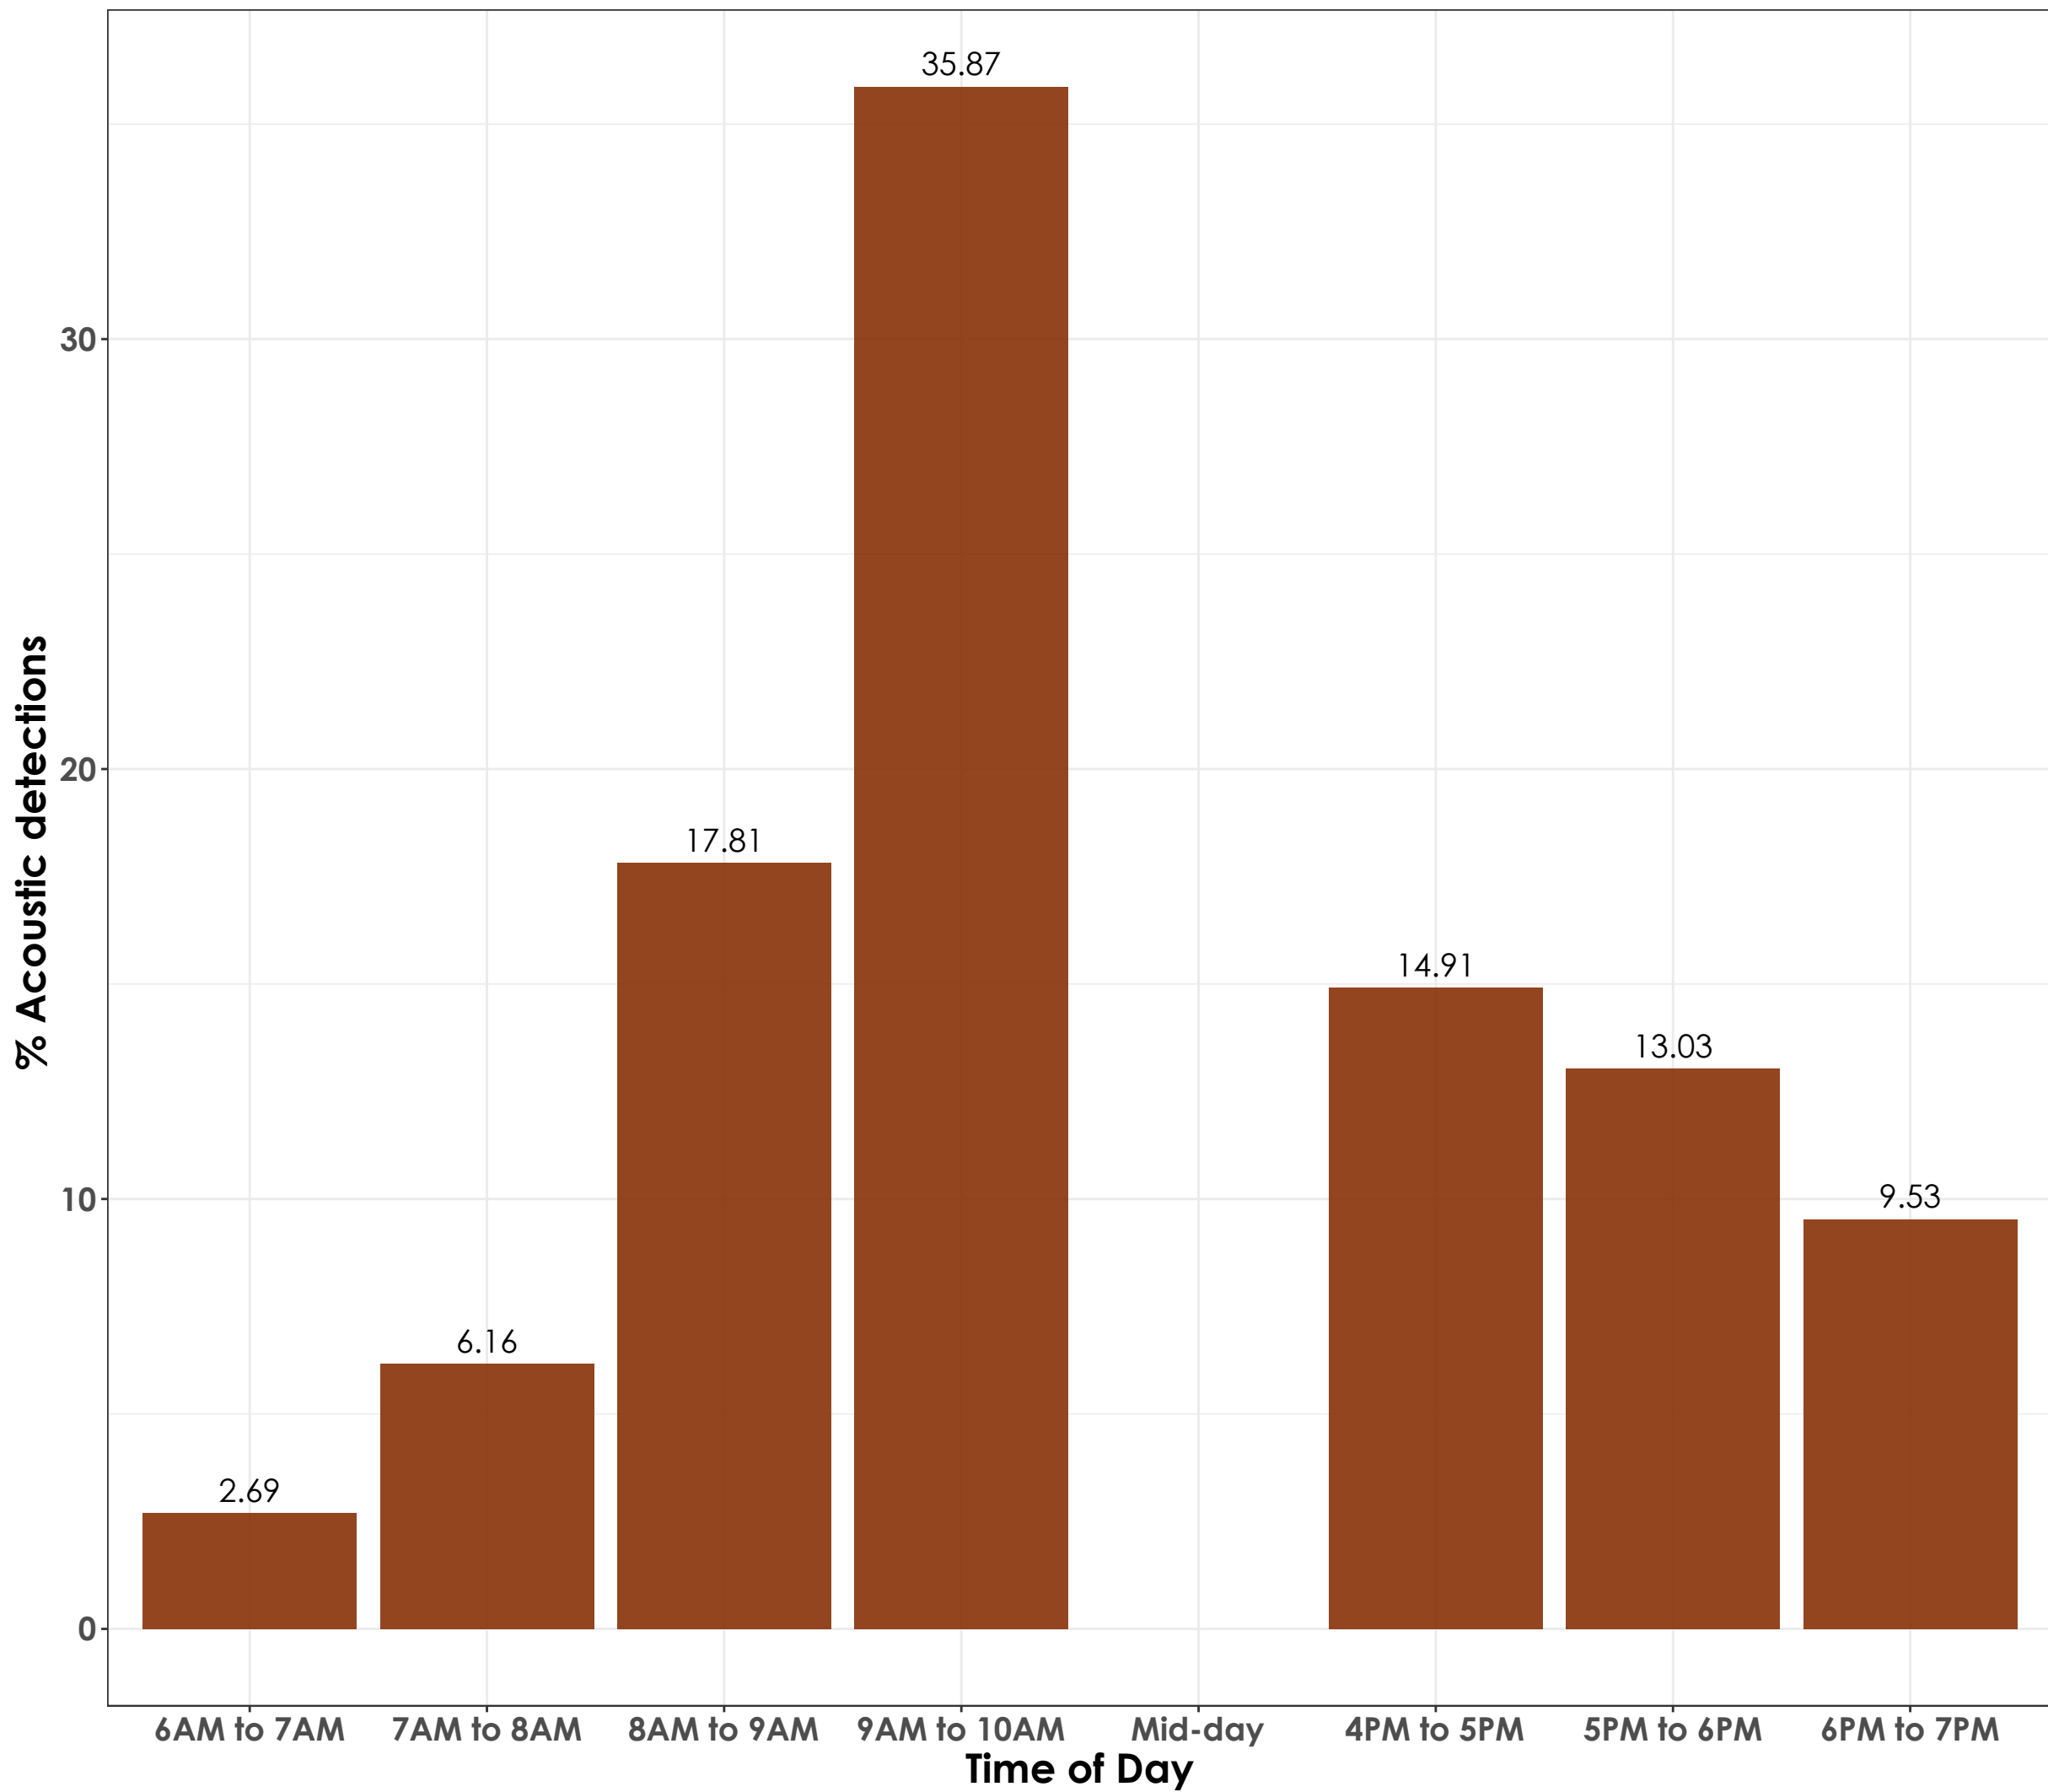

Red-whiskered Bulbul

Each bar represents the % of detections across dawn and dusk

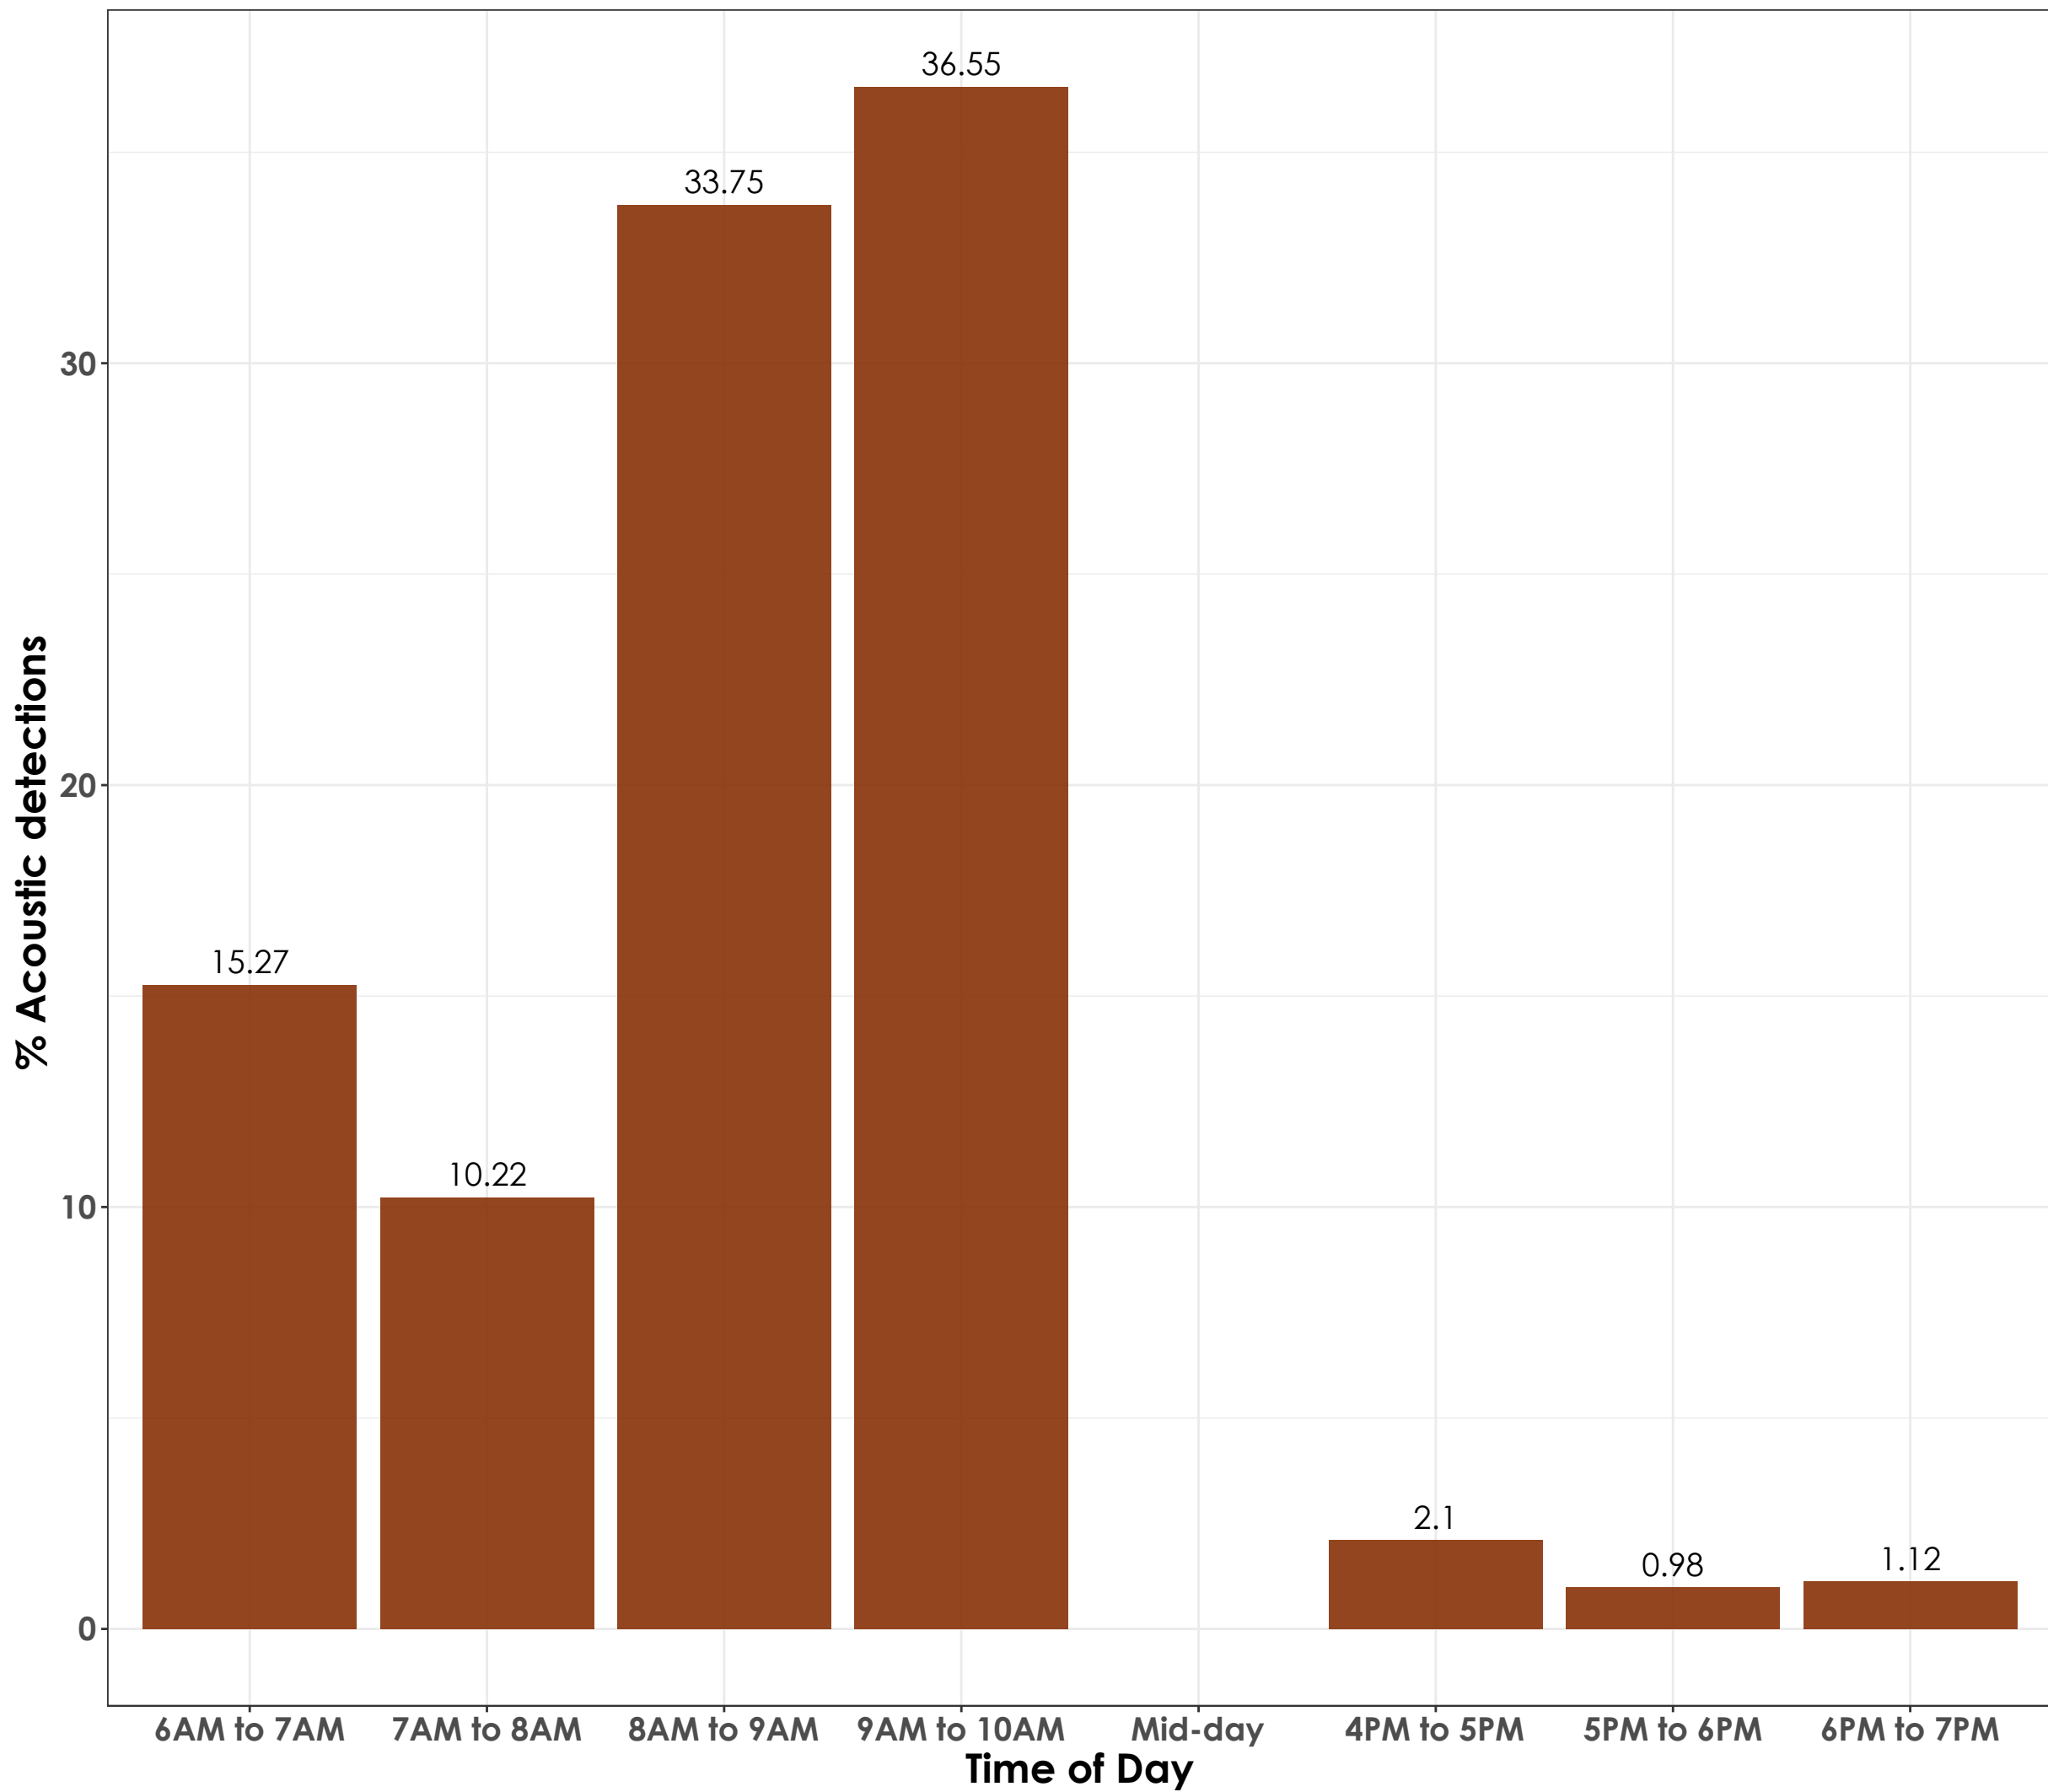

Vernal Hanging-Parrot

Each bar represents the % of detections across dawn and dusk

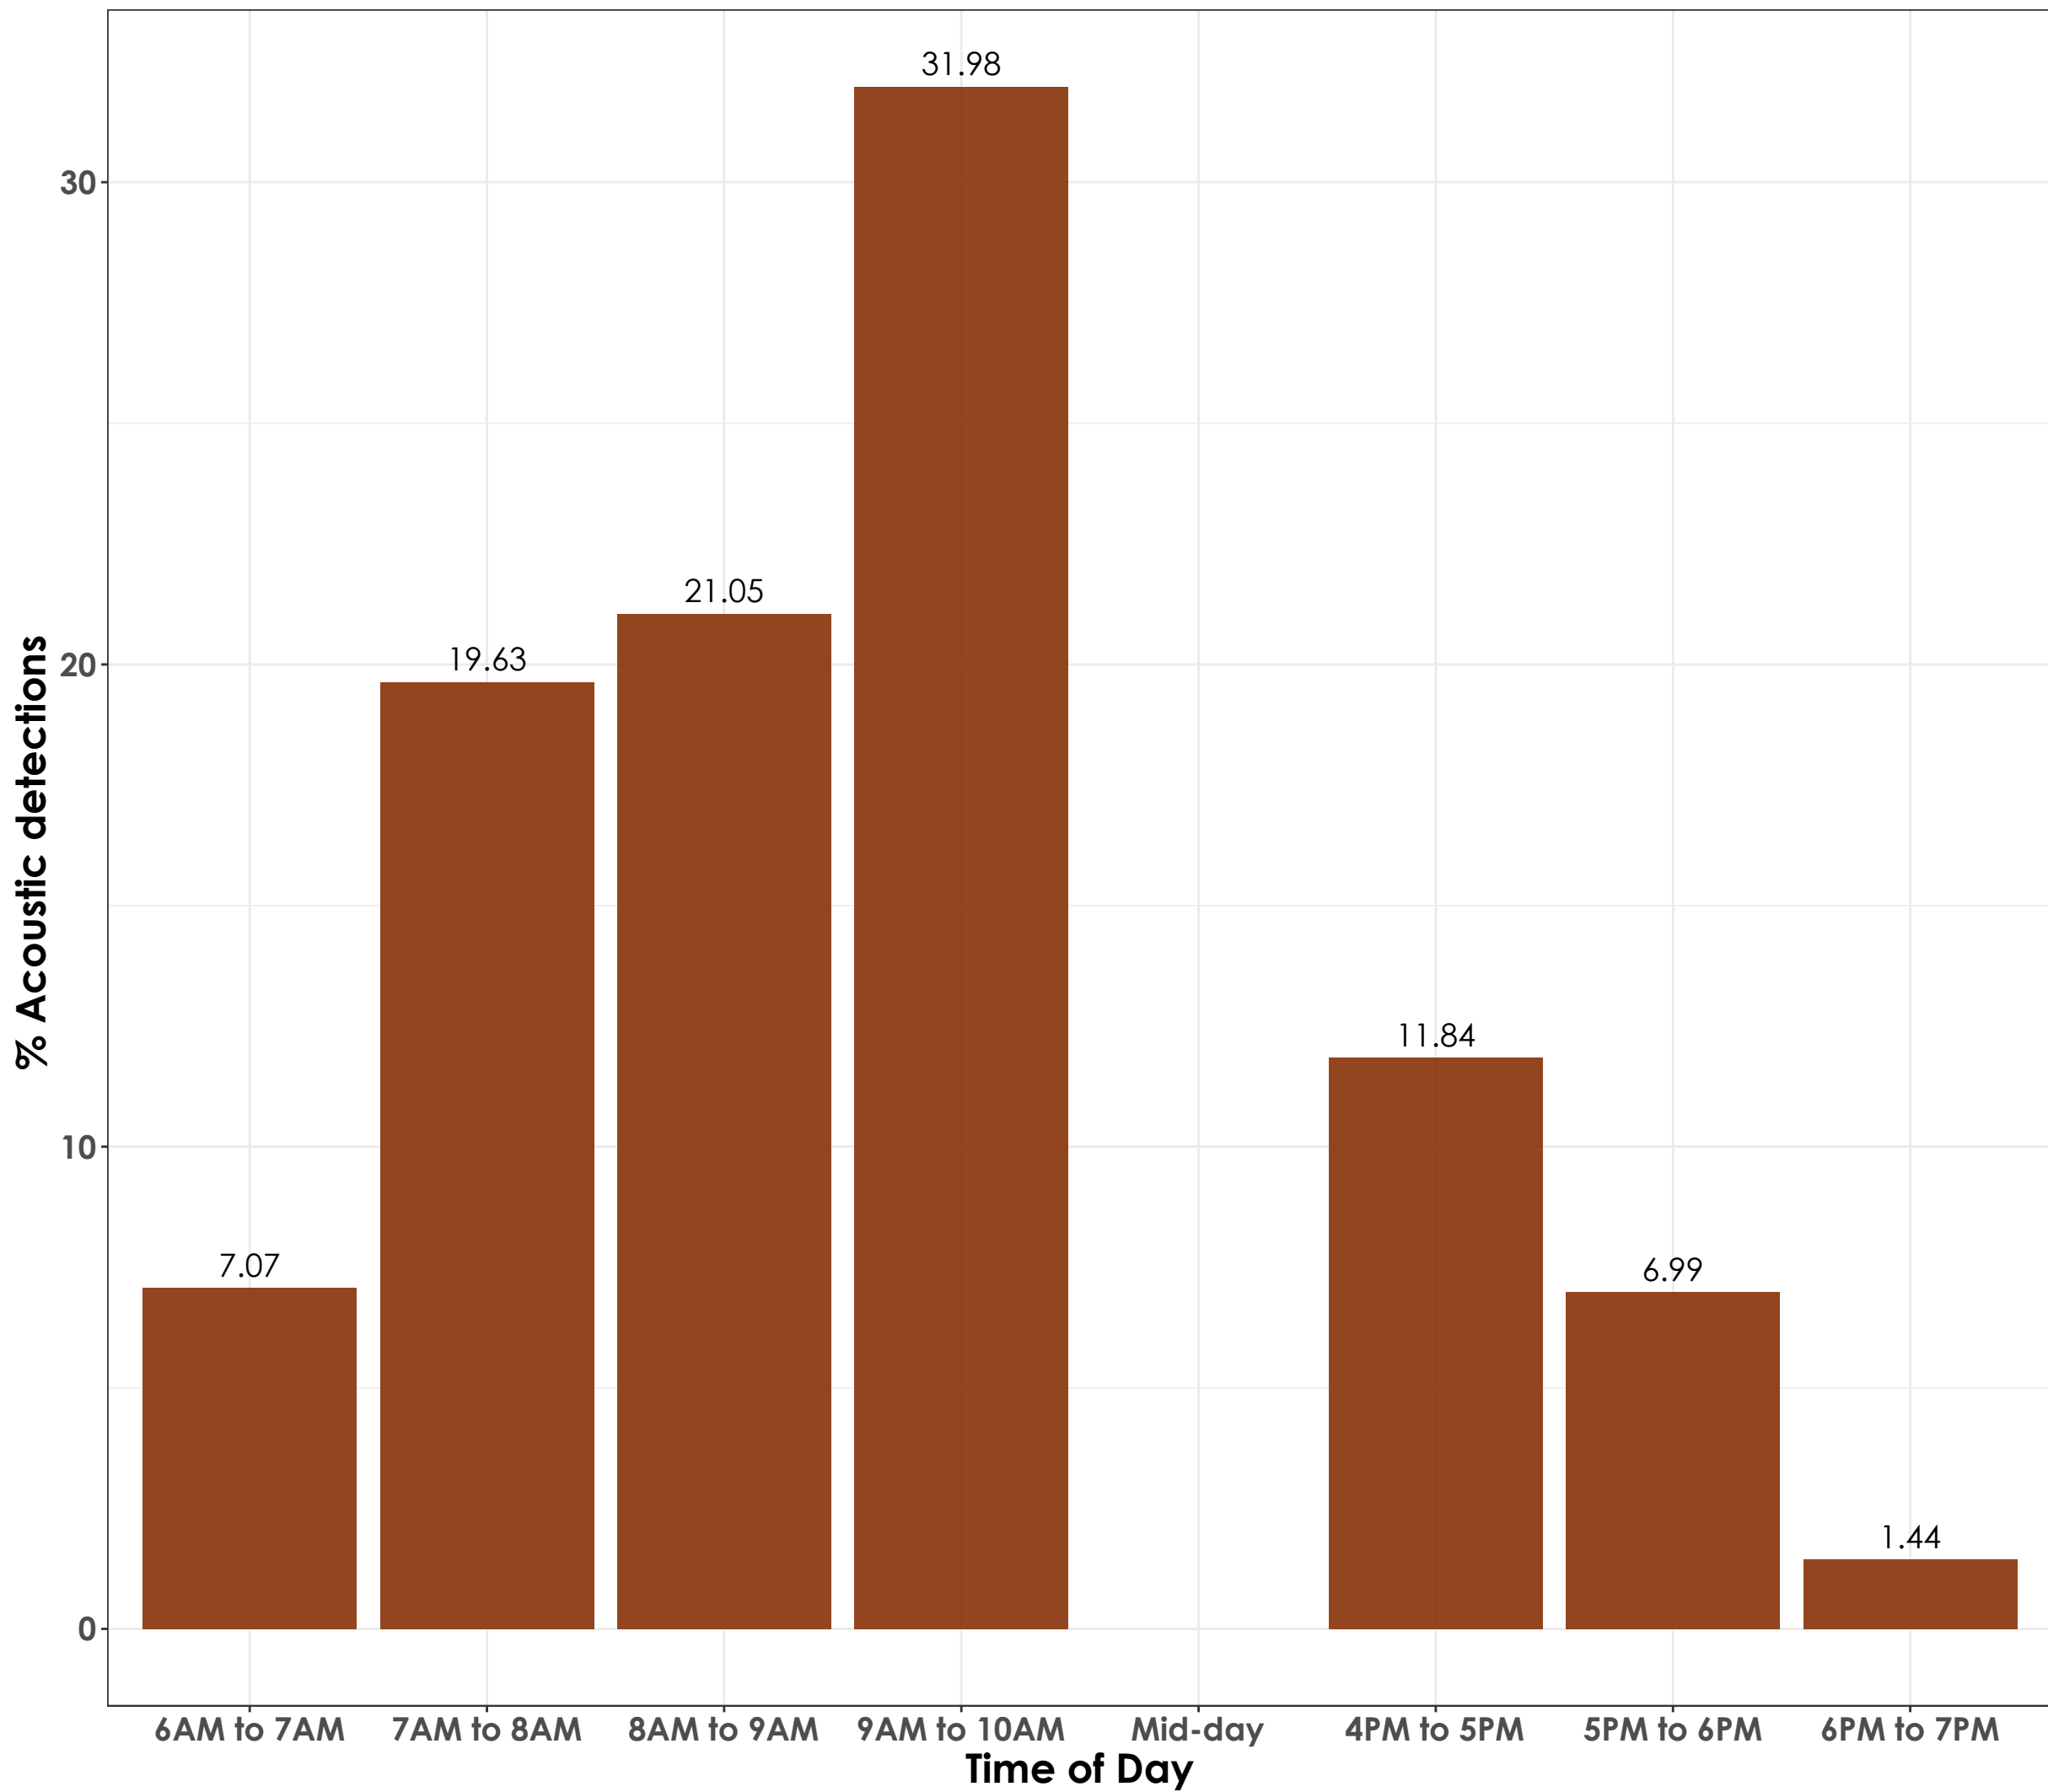

Greater Coucal

Each bar represents the % of detections across dawn and dusk

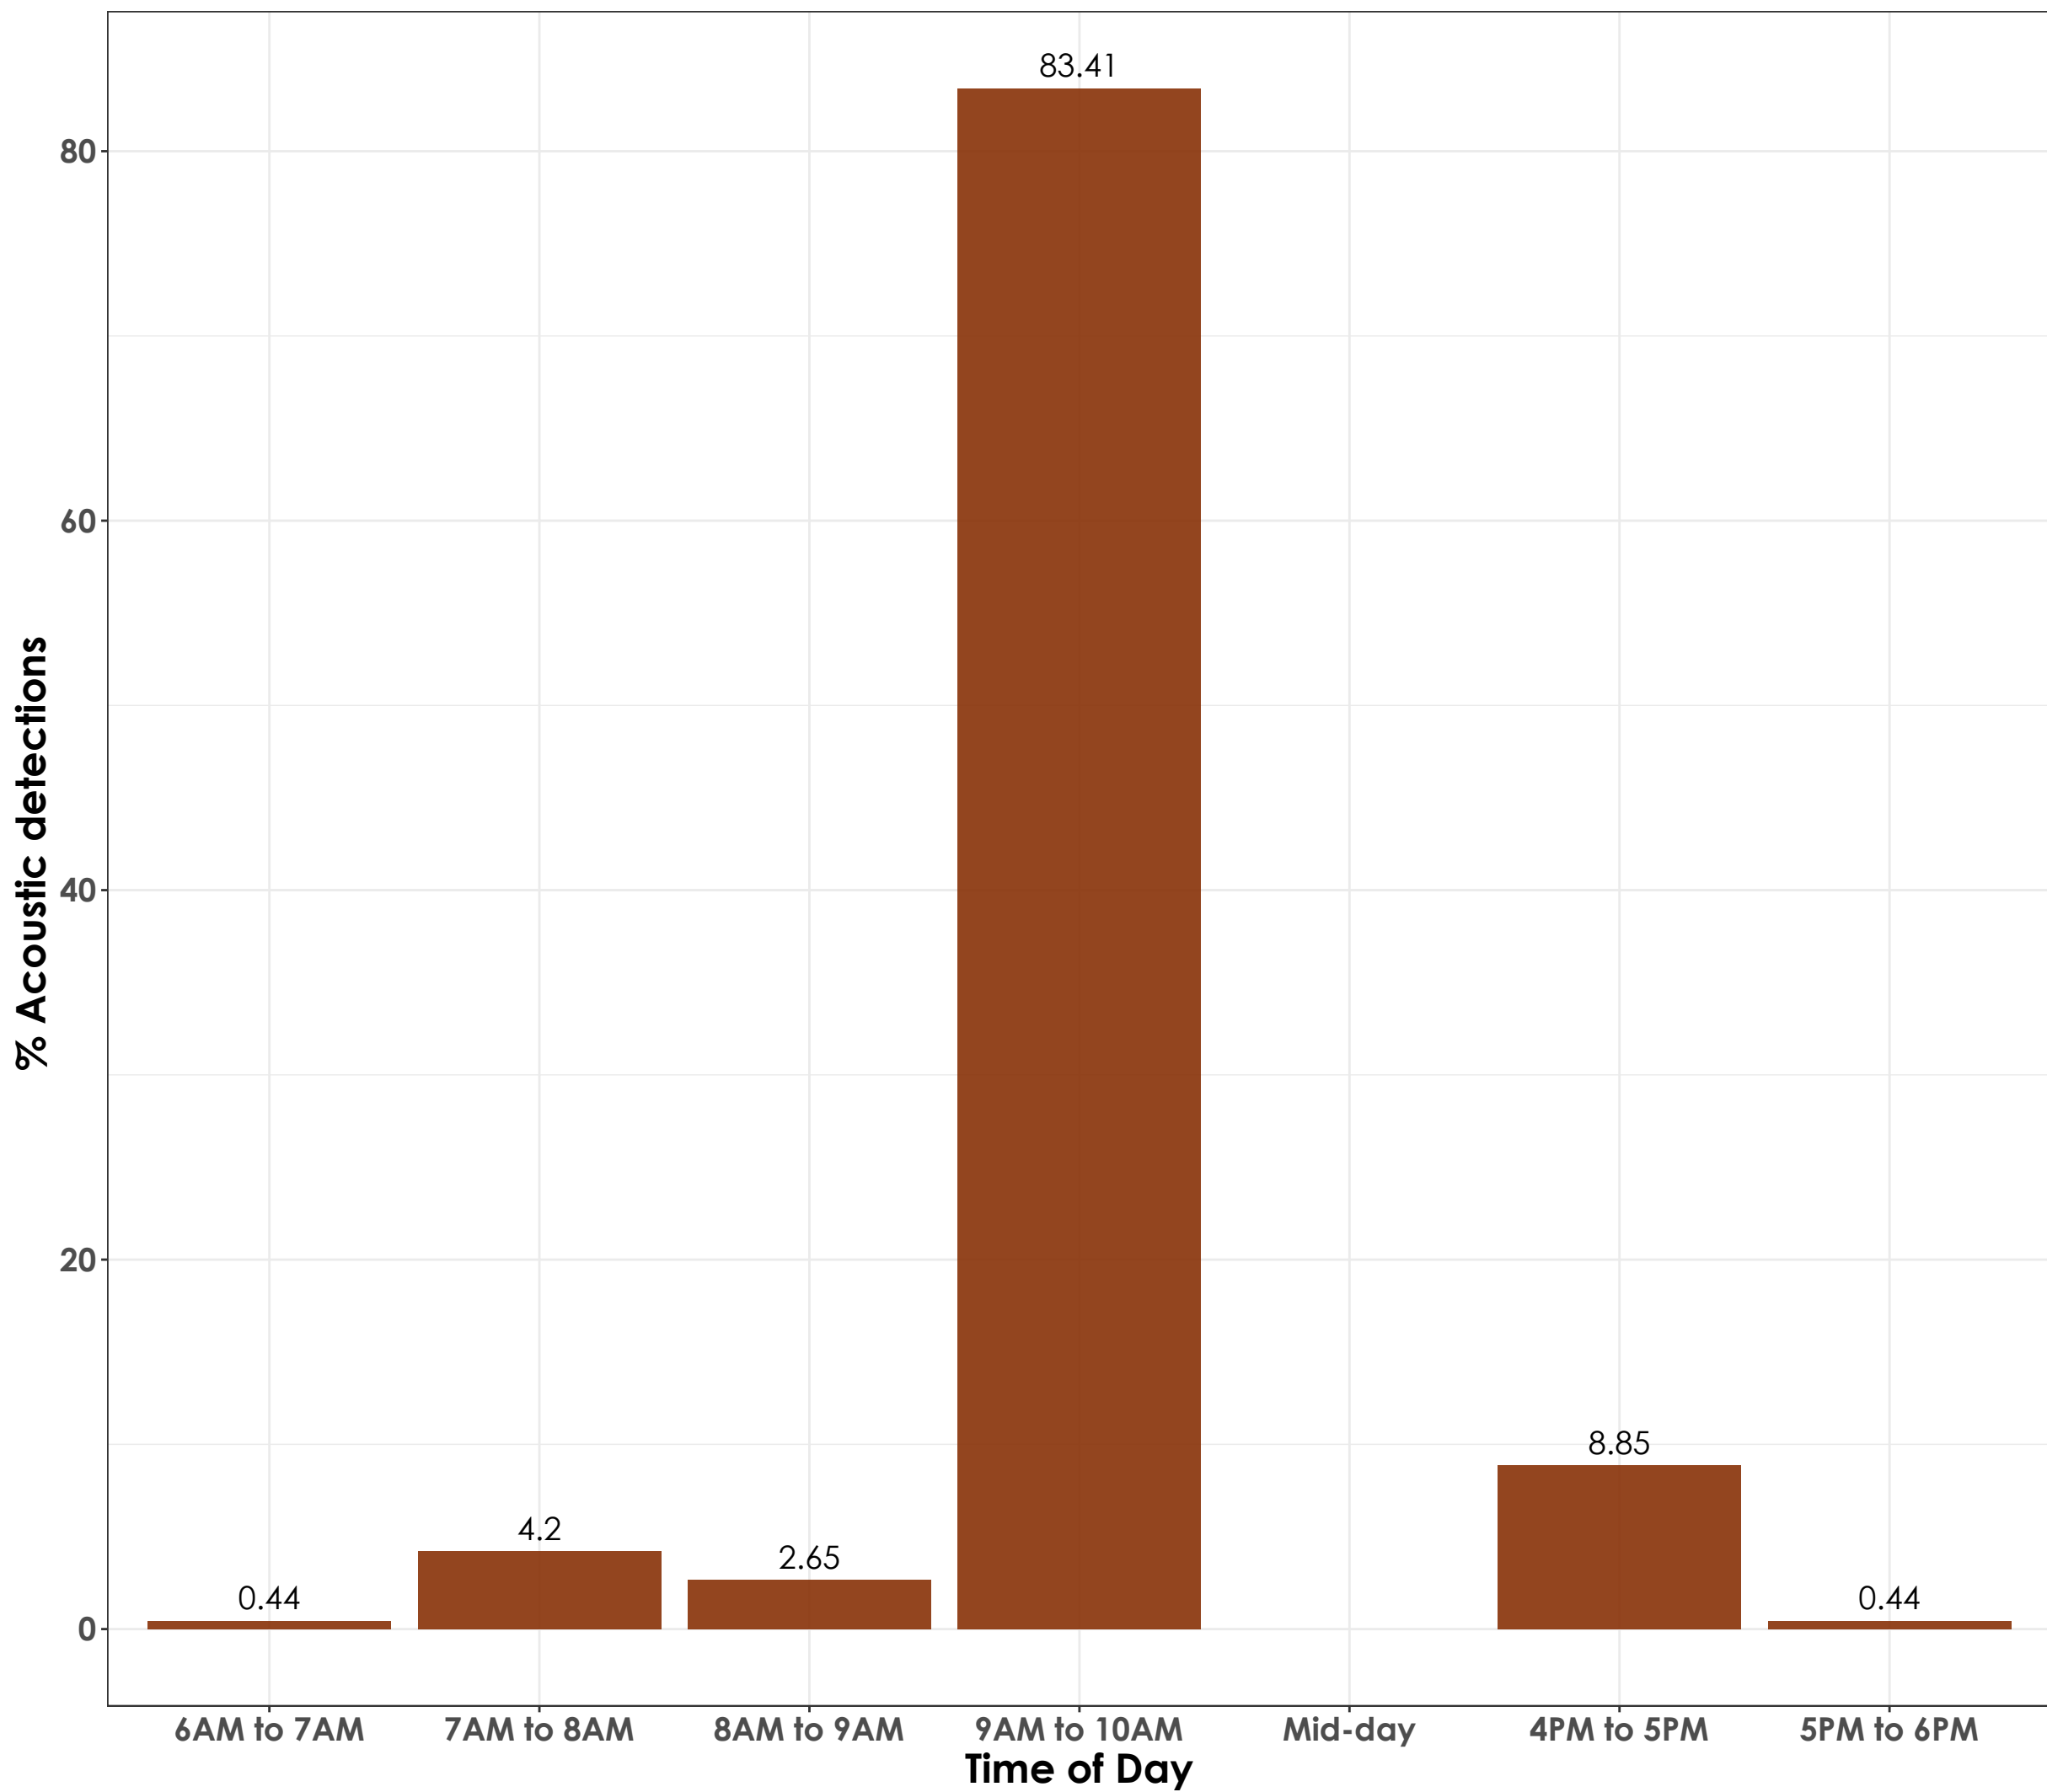

Greenish Warbler

Each bar represents the % of detections across dawn and dusk

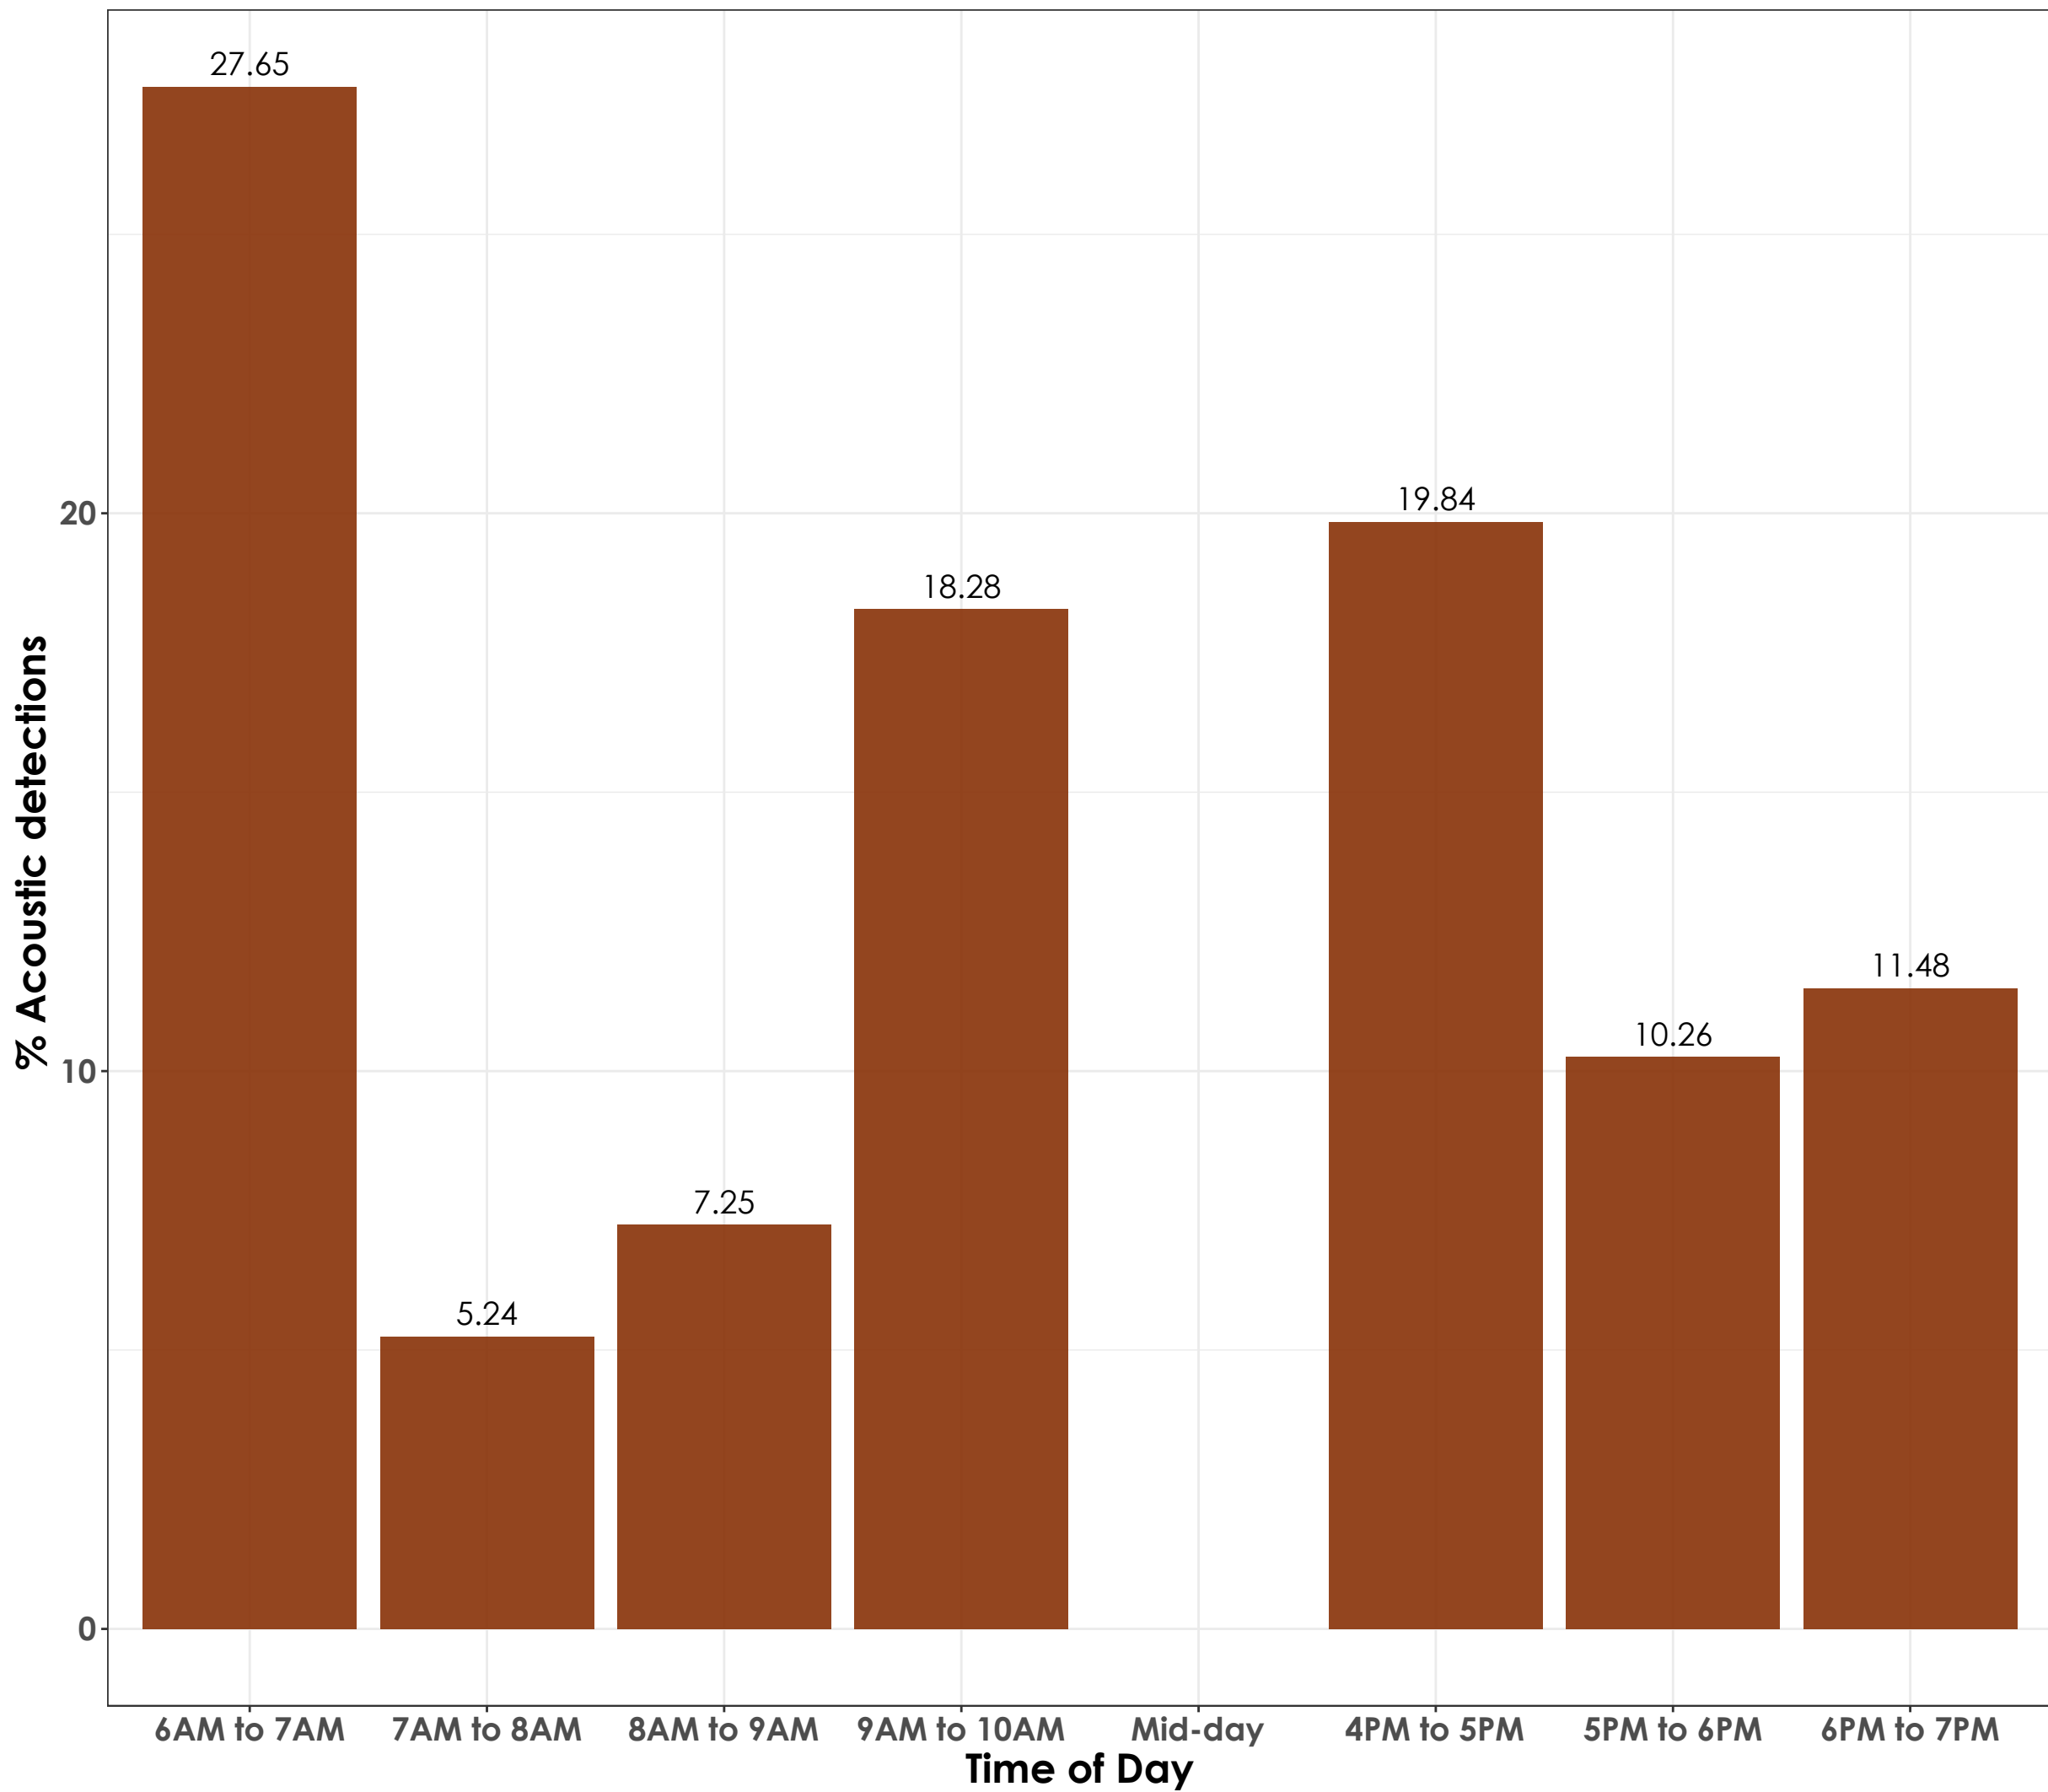

Crested Serpent-Eagle

Each bar represents the % of detections across dawn and dusk

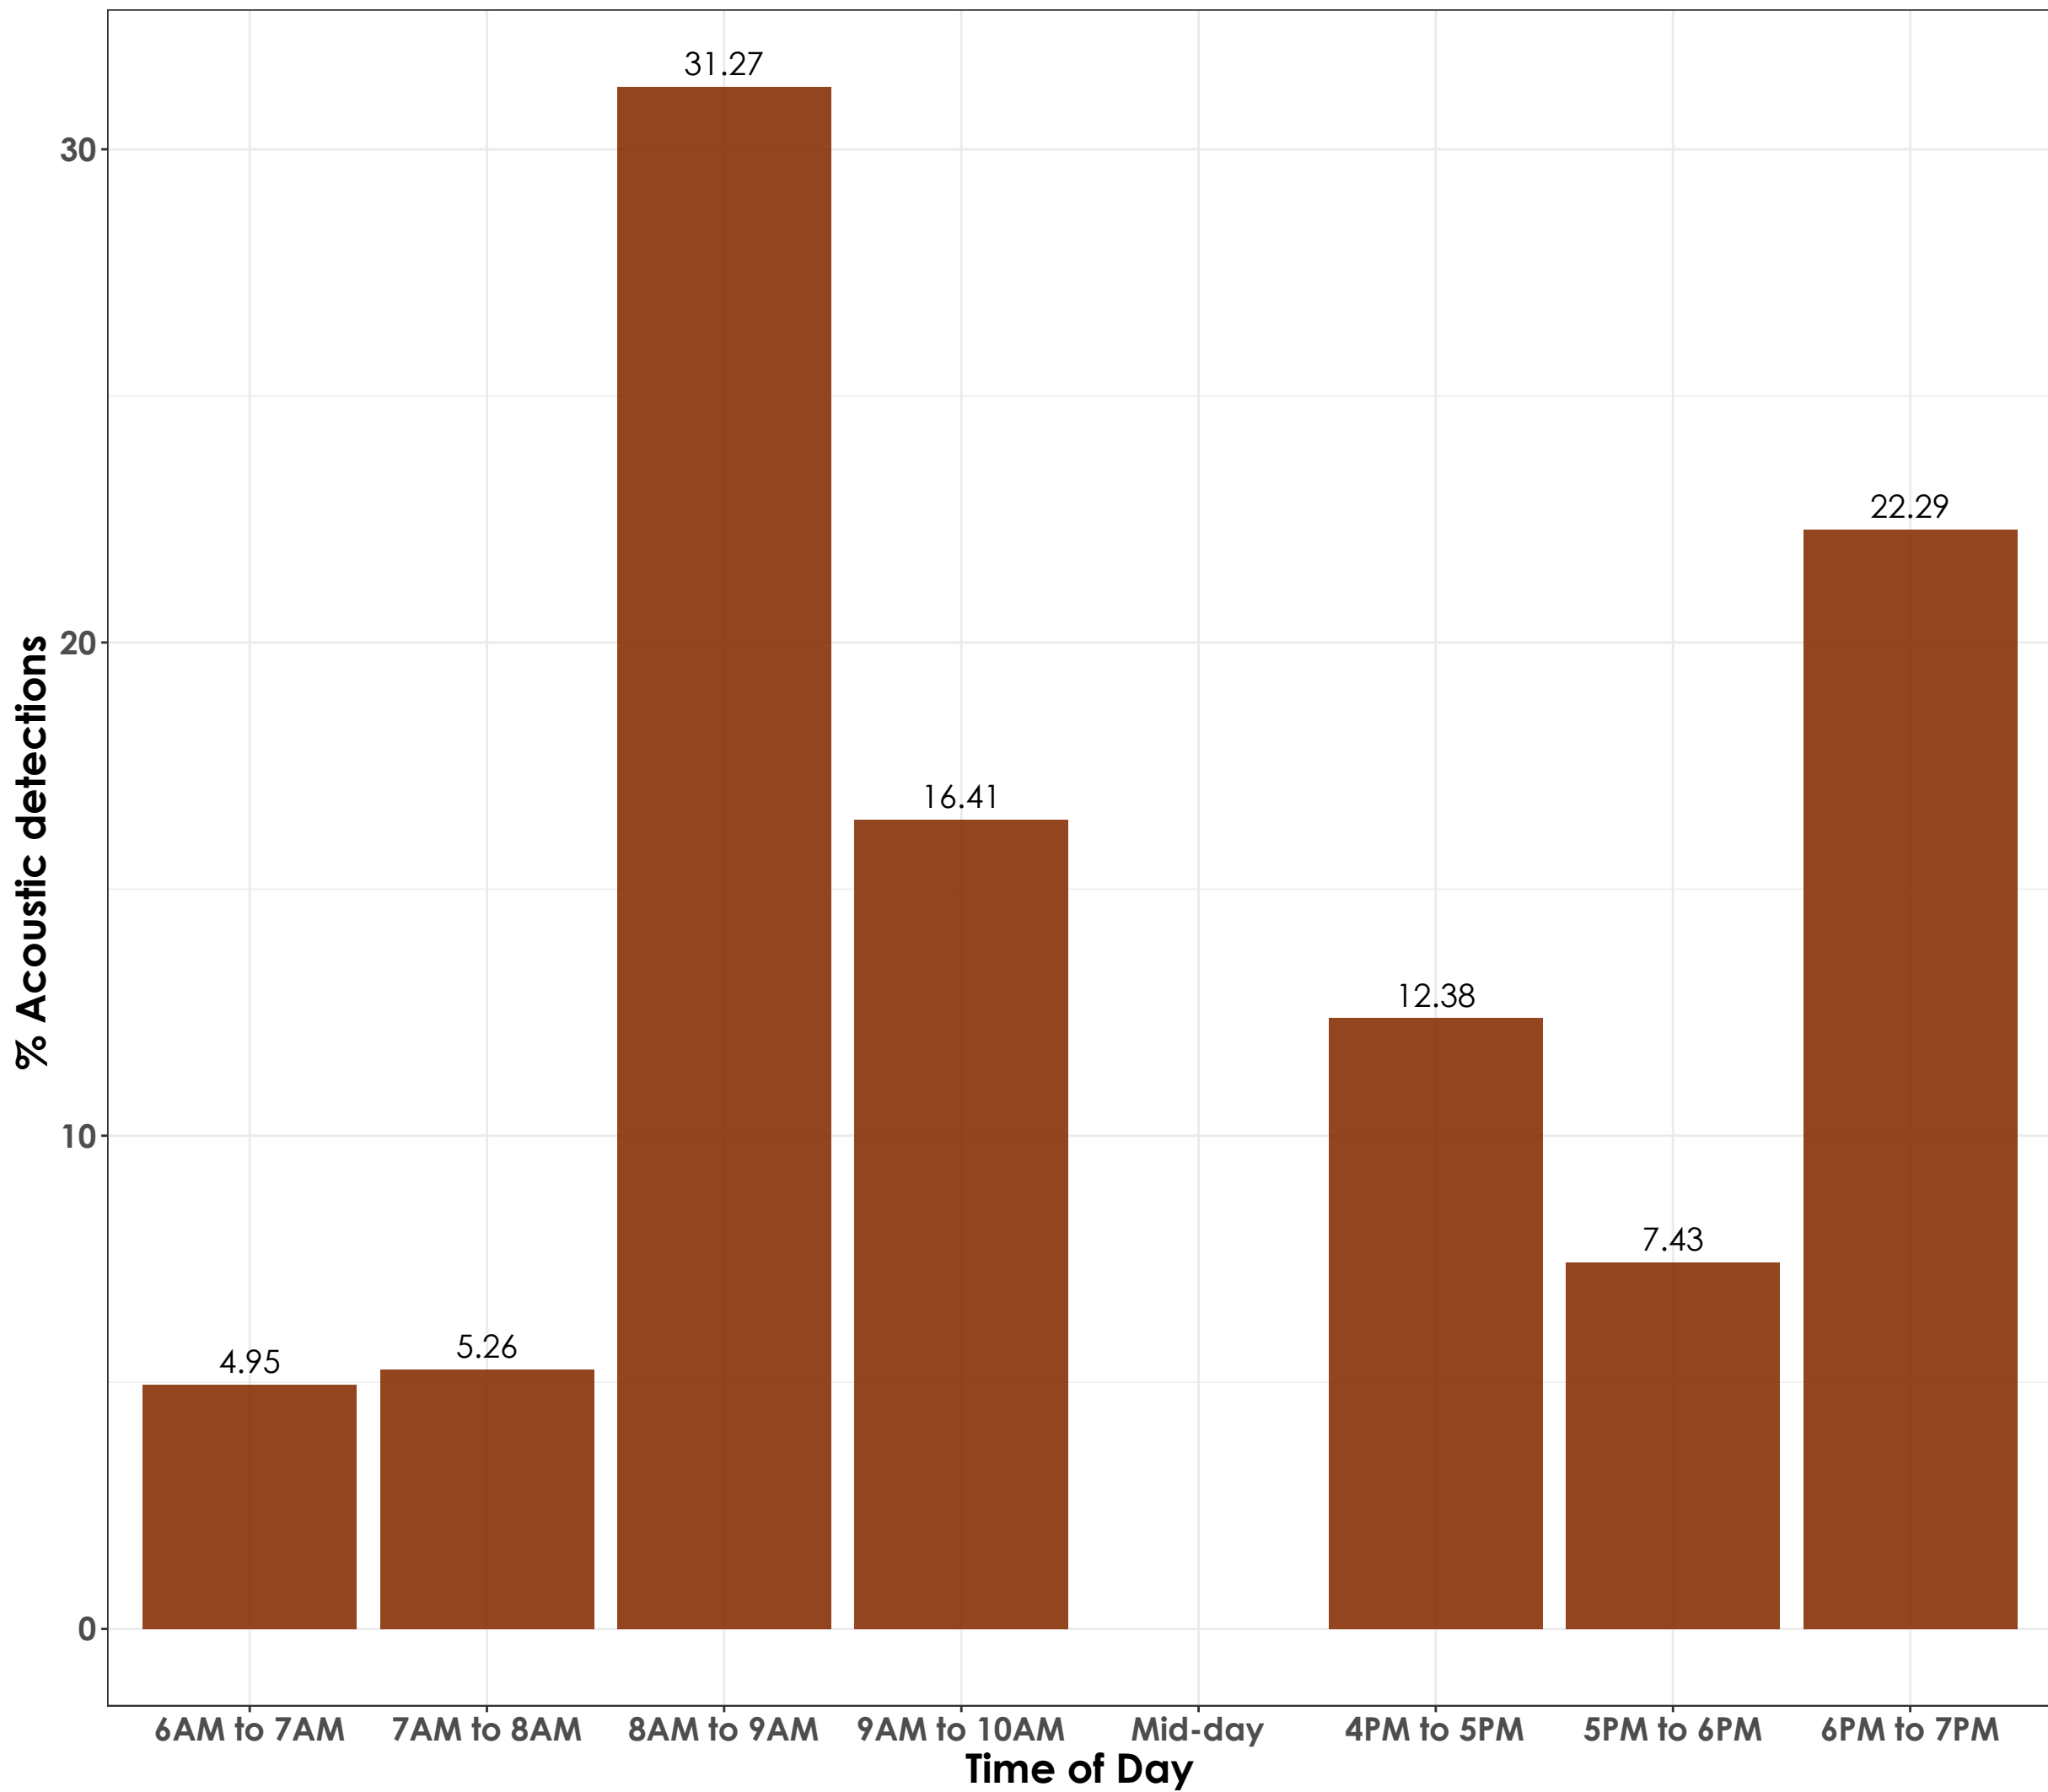

White-bellied Blue Flycatcher

Each bar represents the % of detections across dawn and dusk

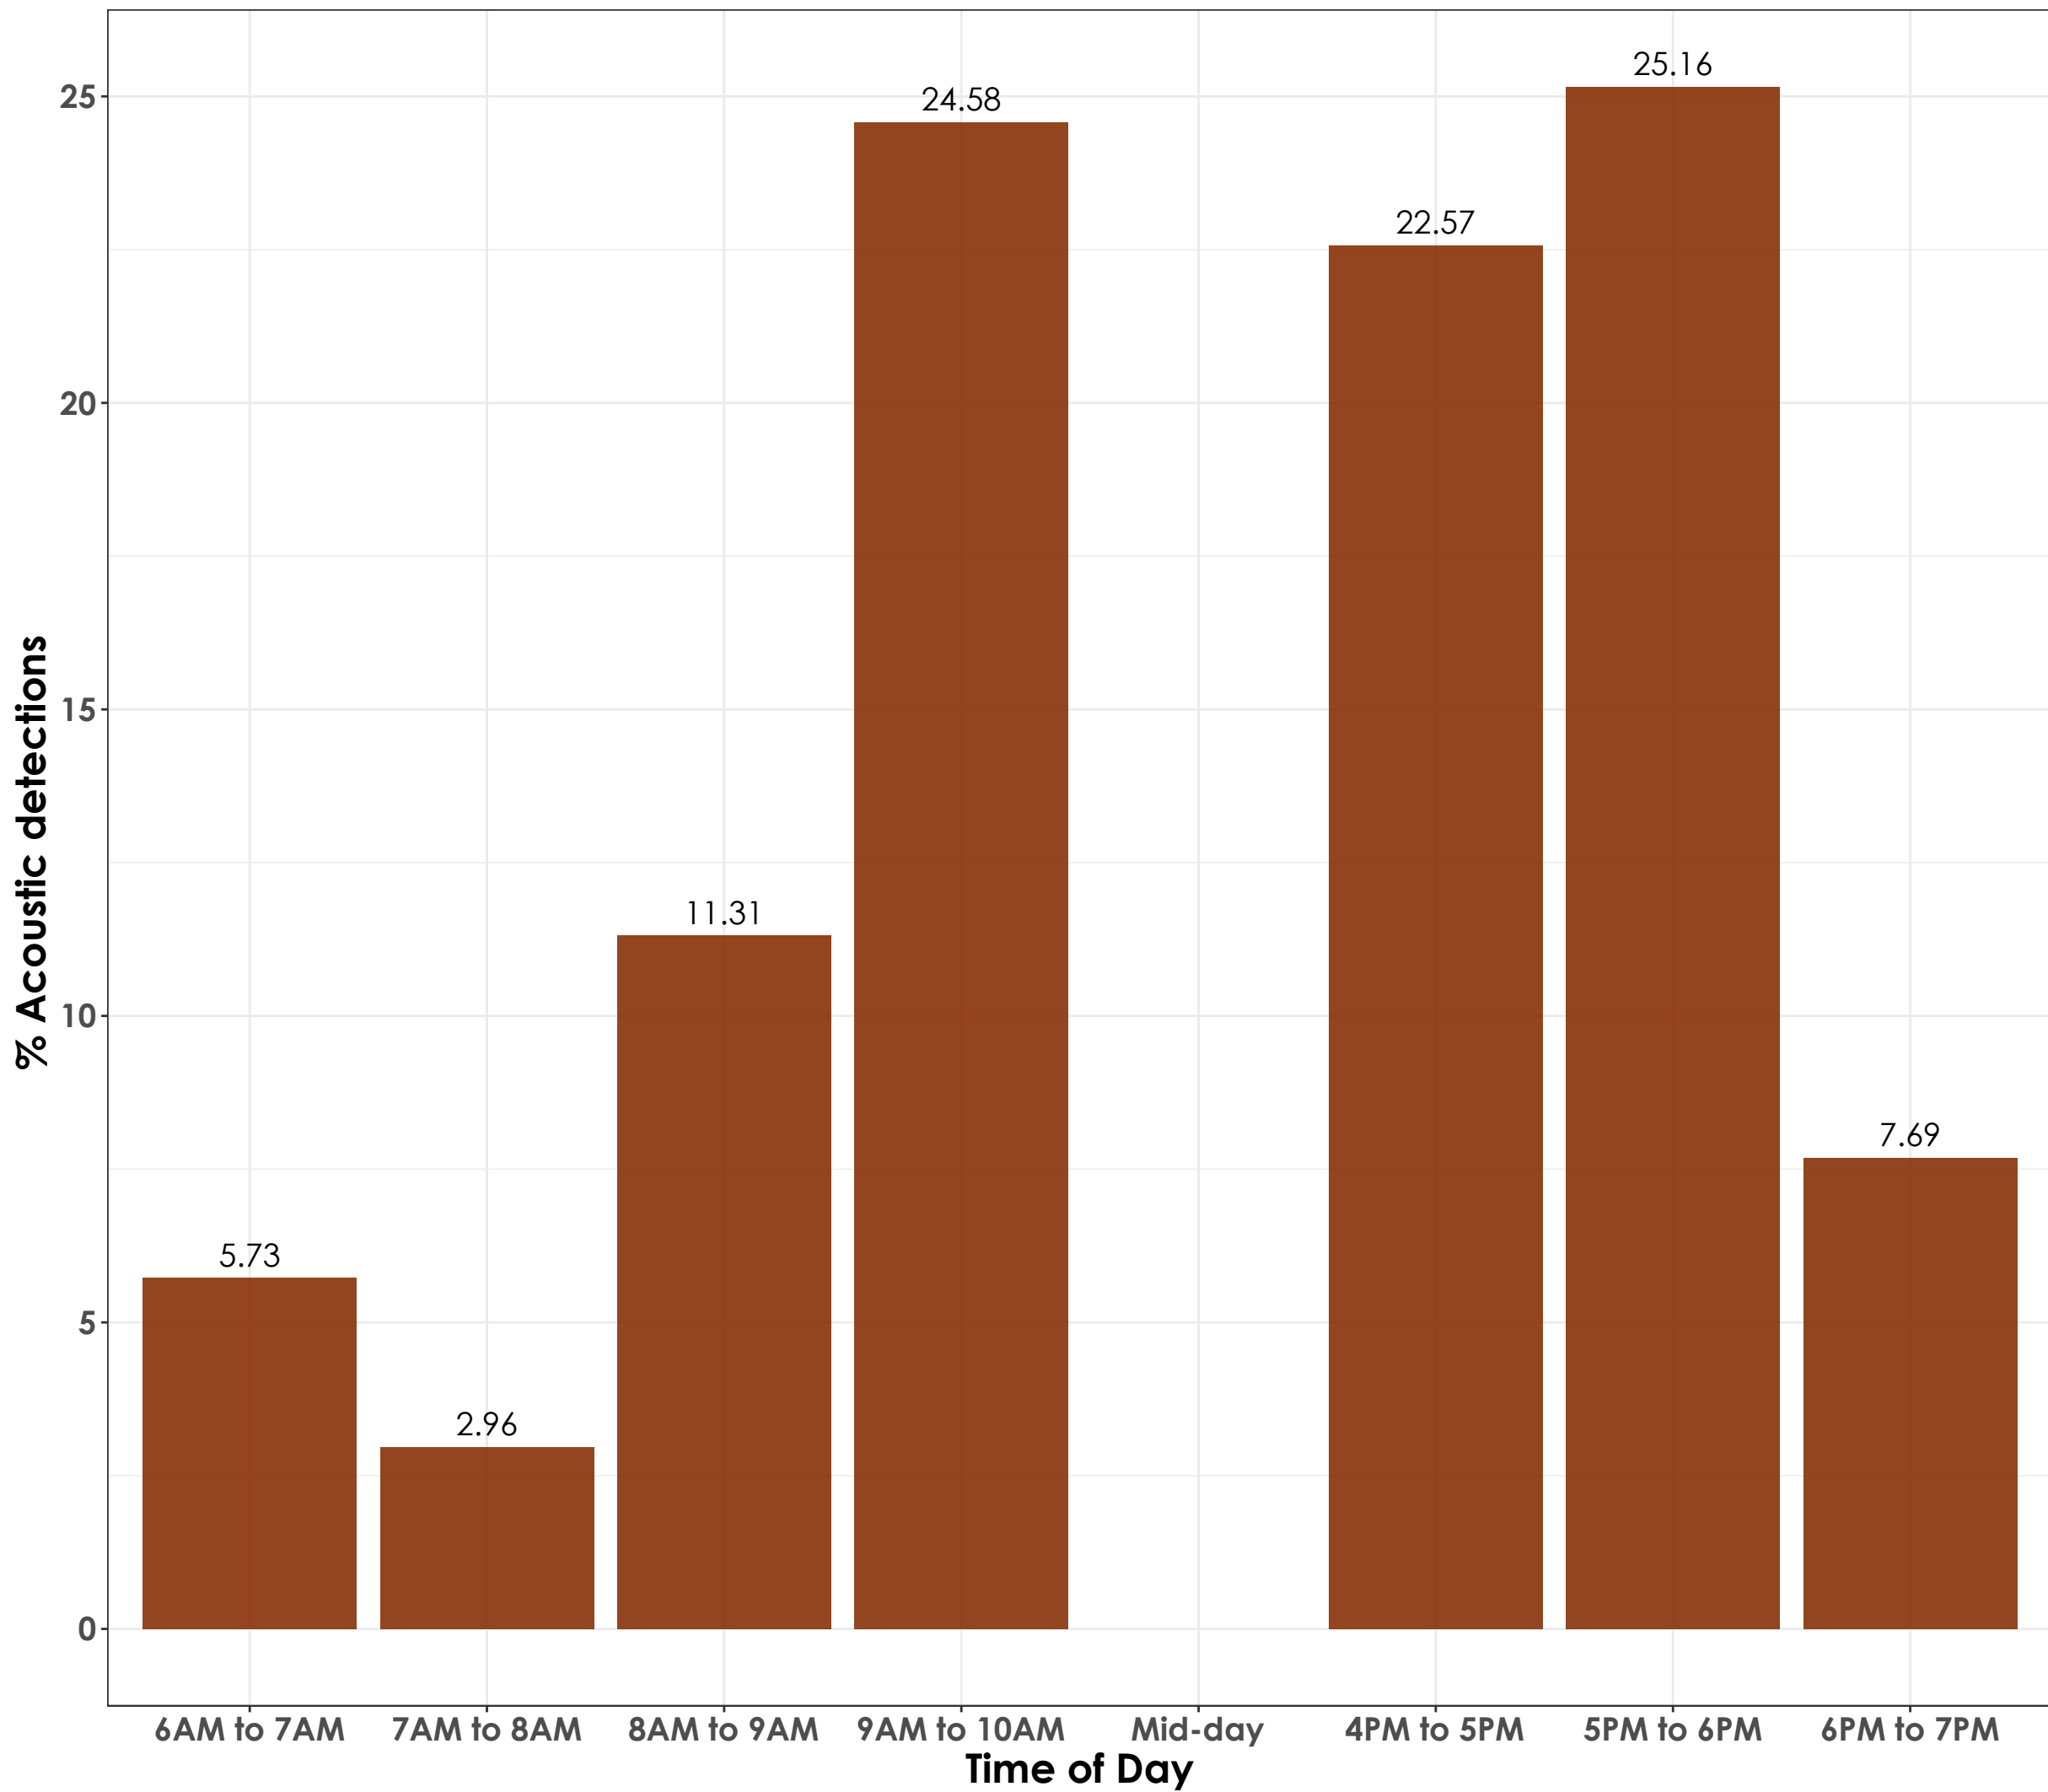

Indian Peafowl

Each bar represents the % of detections across dawn and dusk

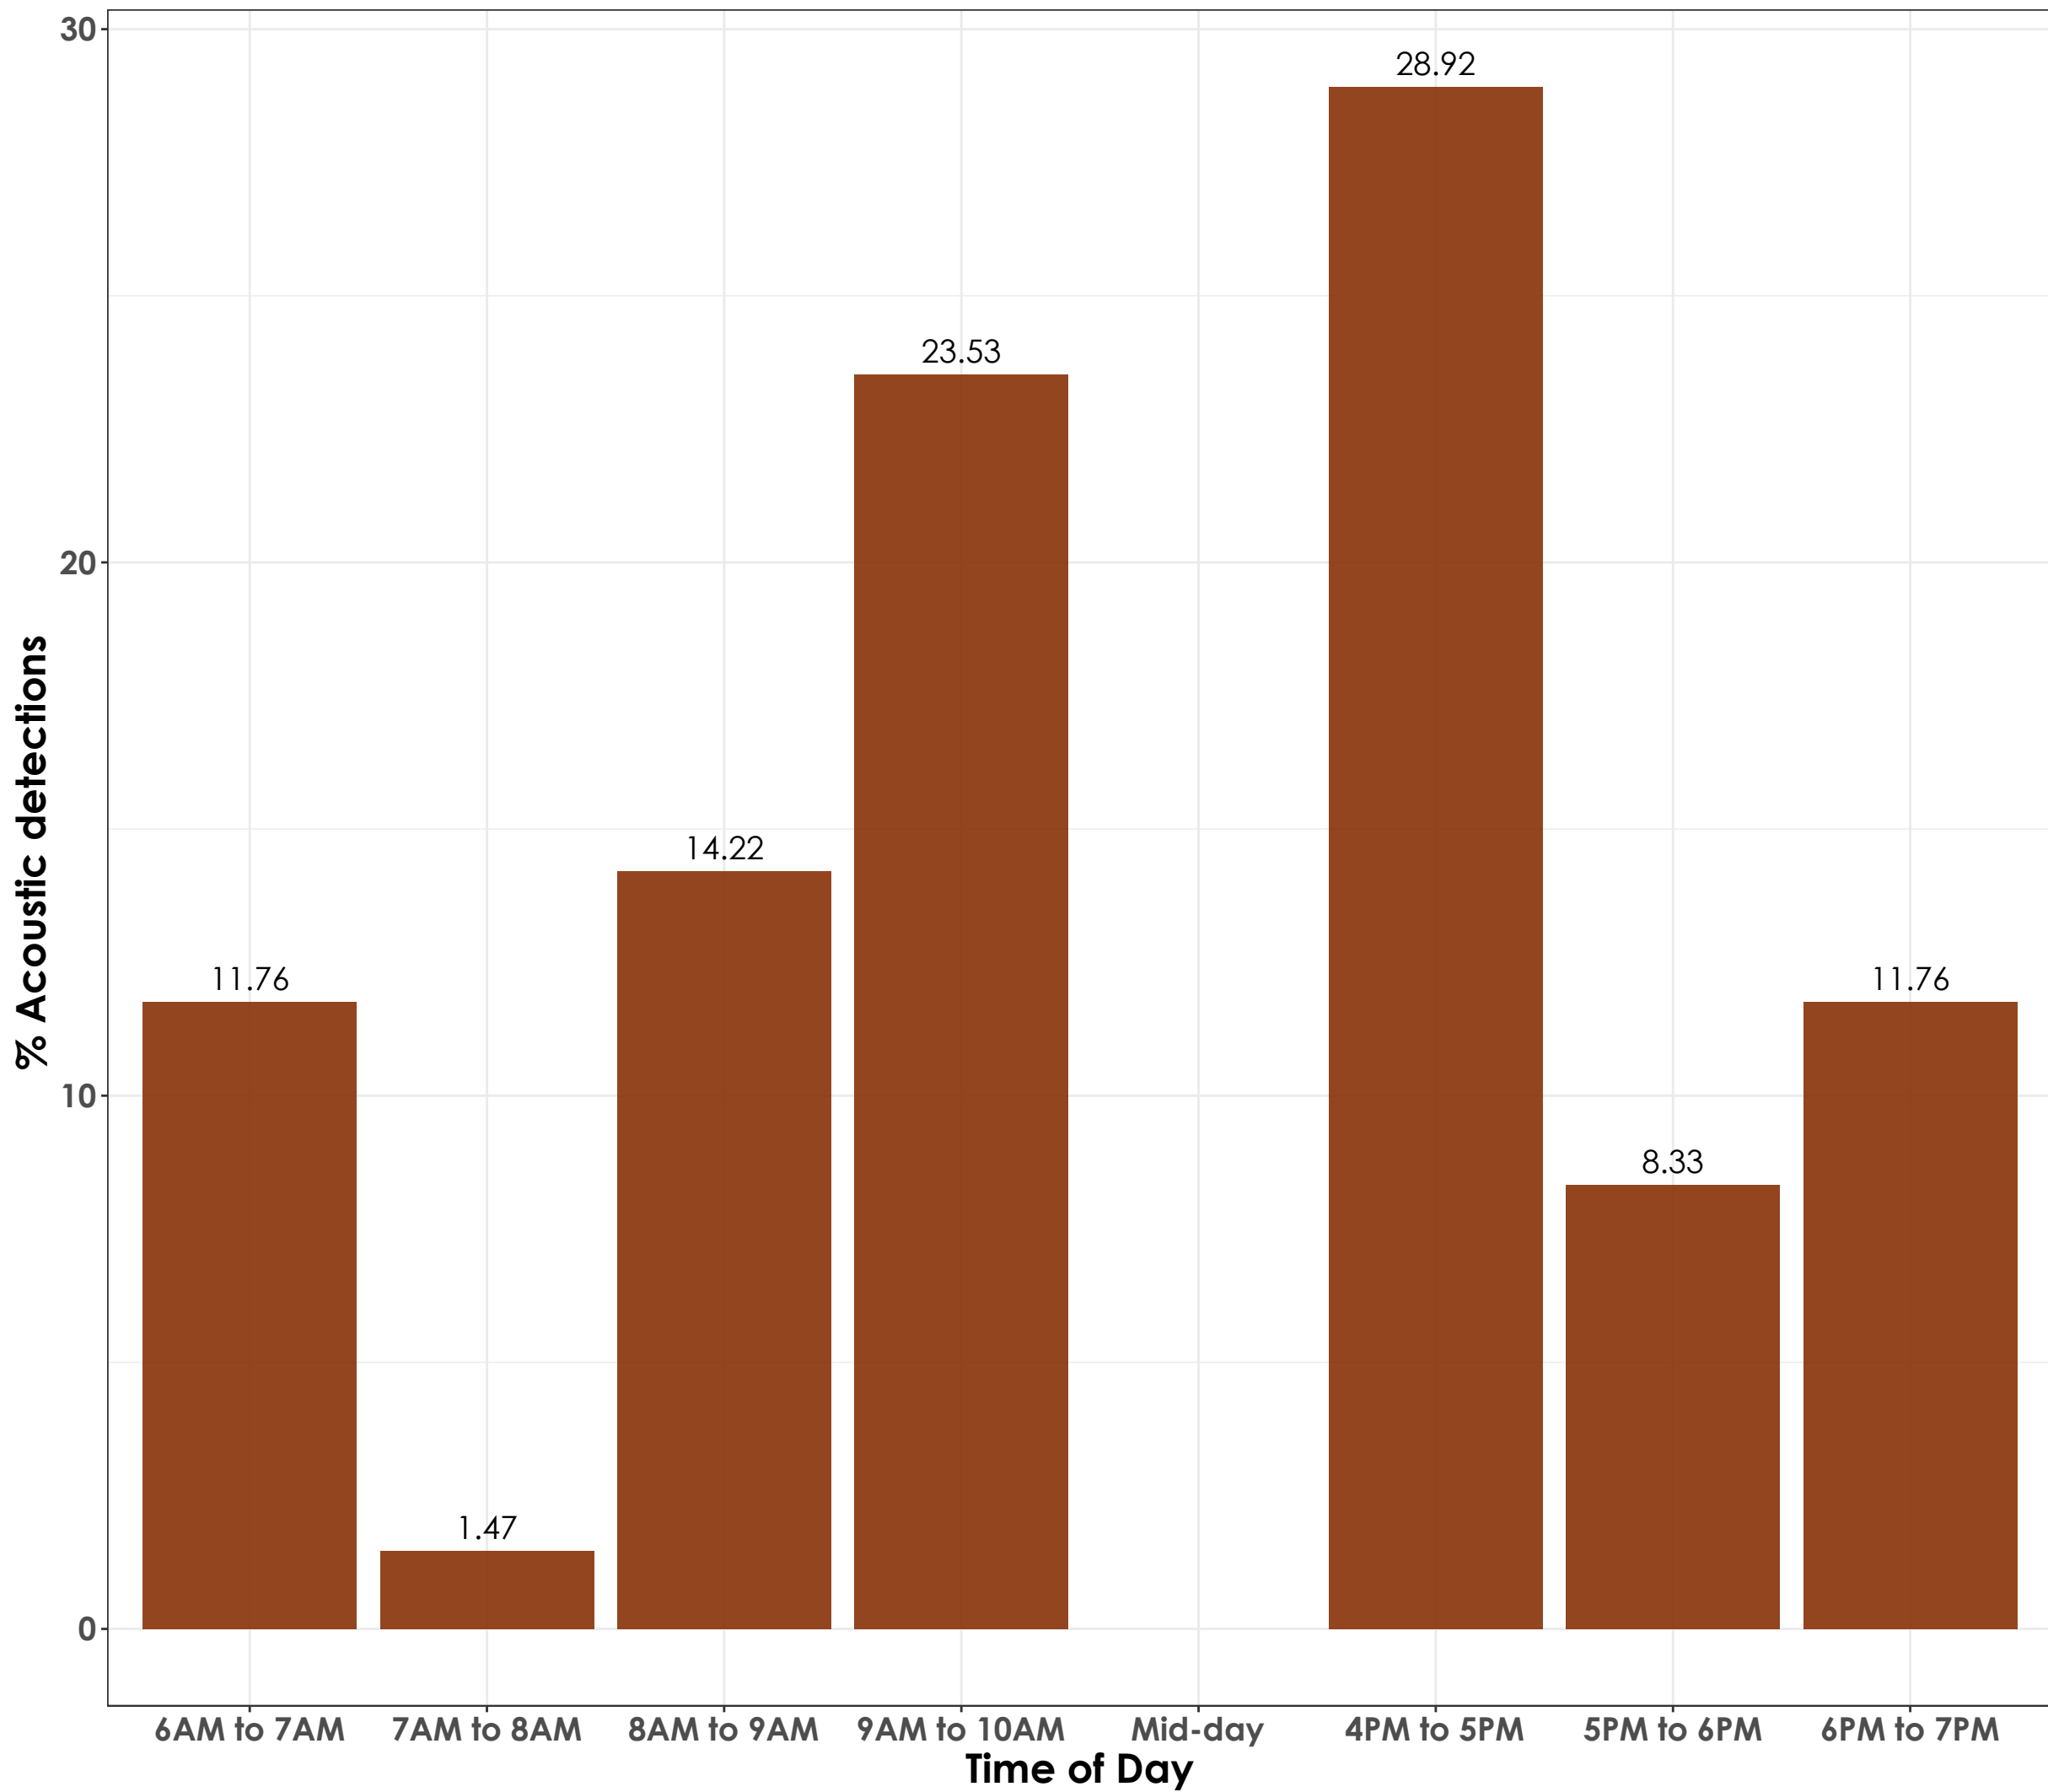

Malabar Barbet

Each bar represents the % of detections across dawn and dusk

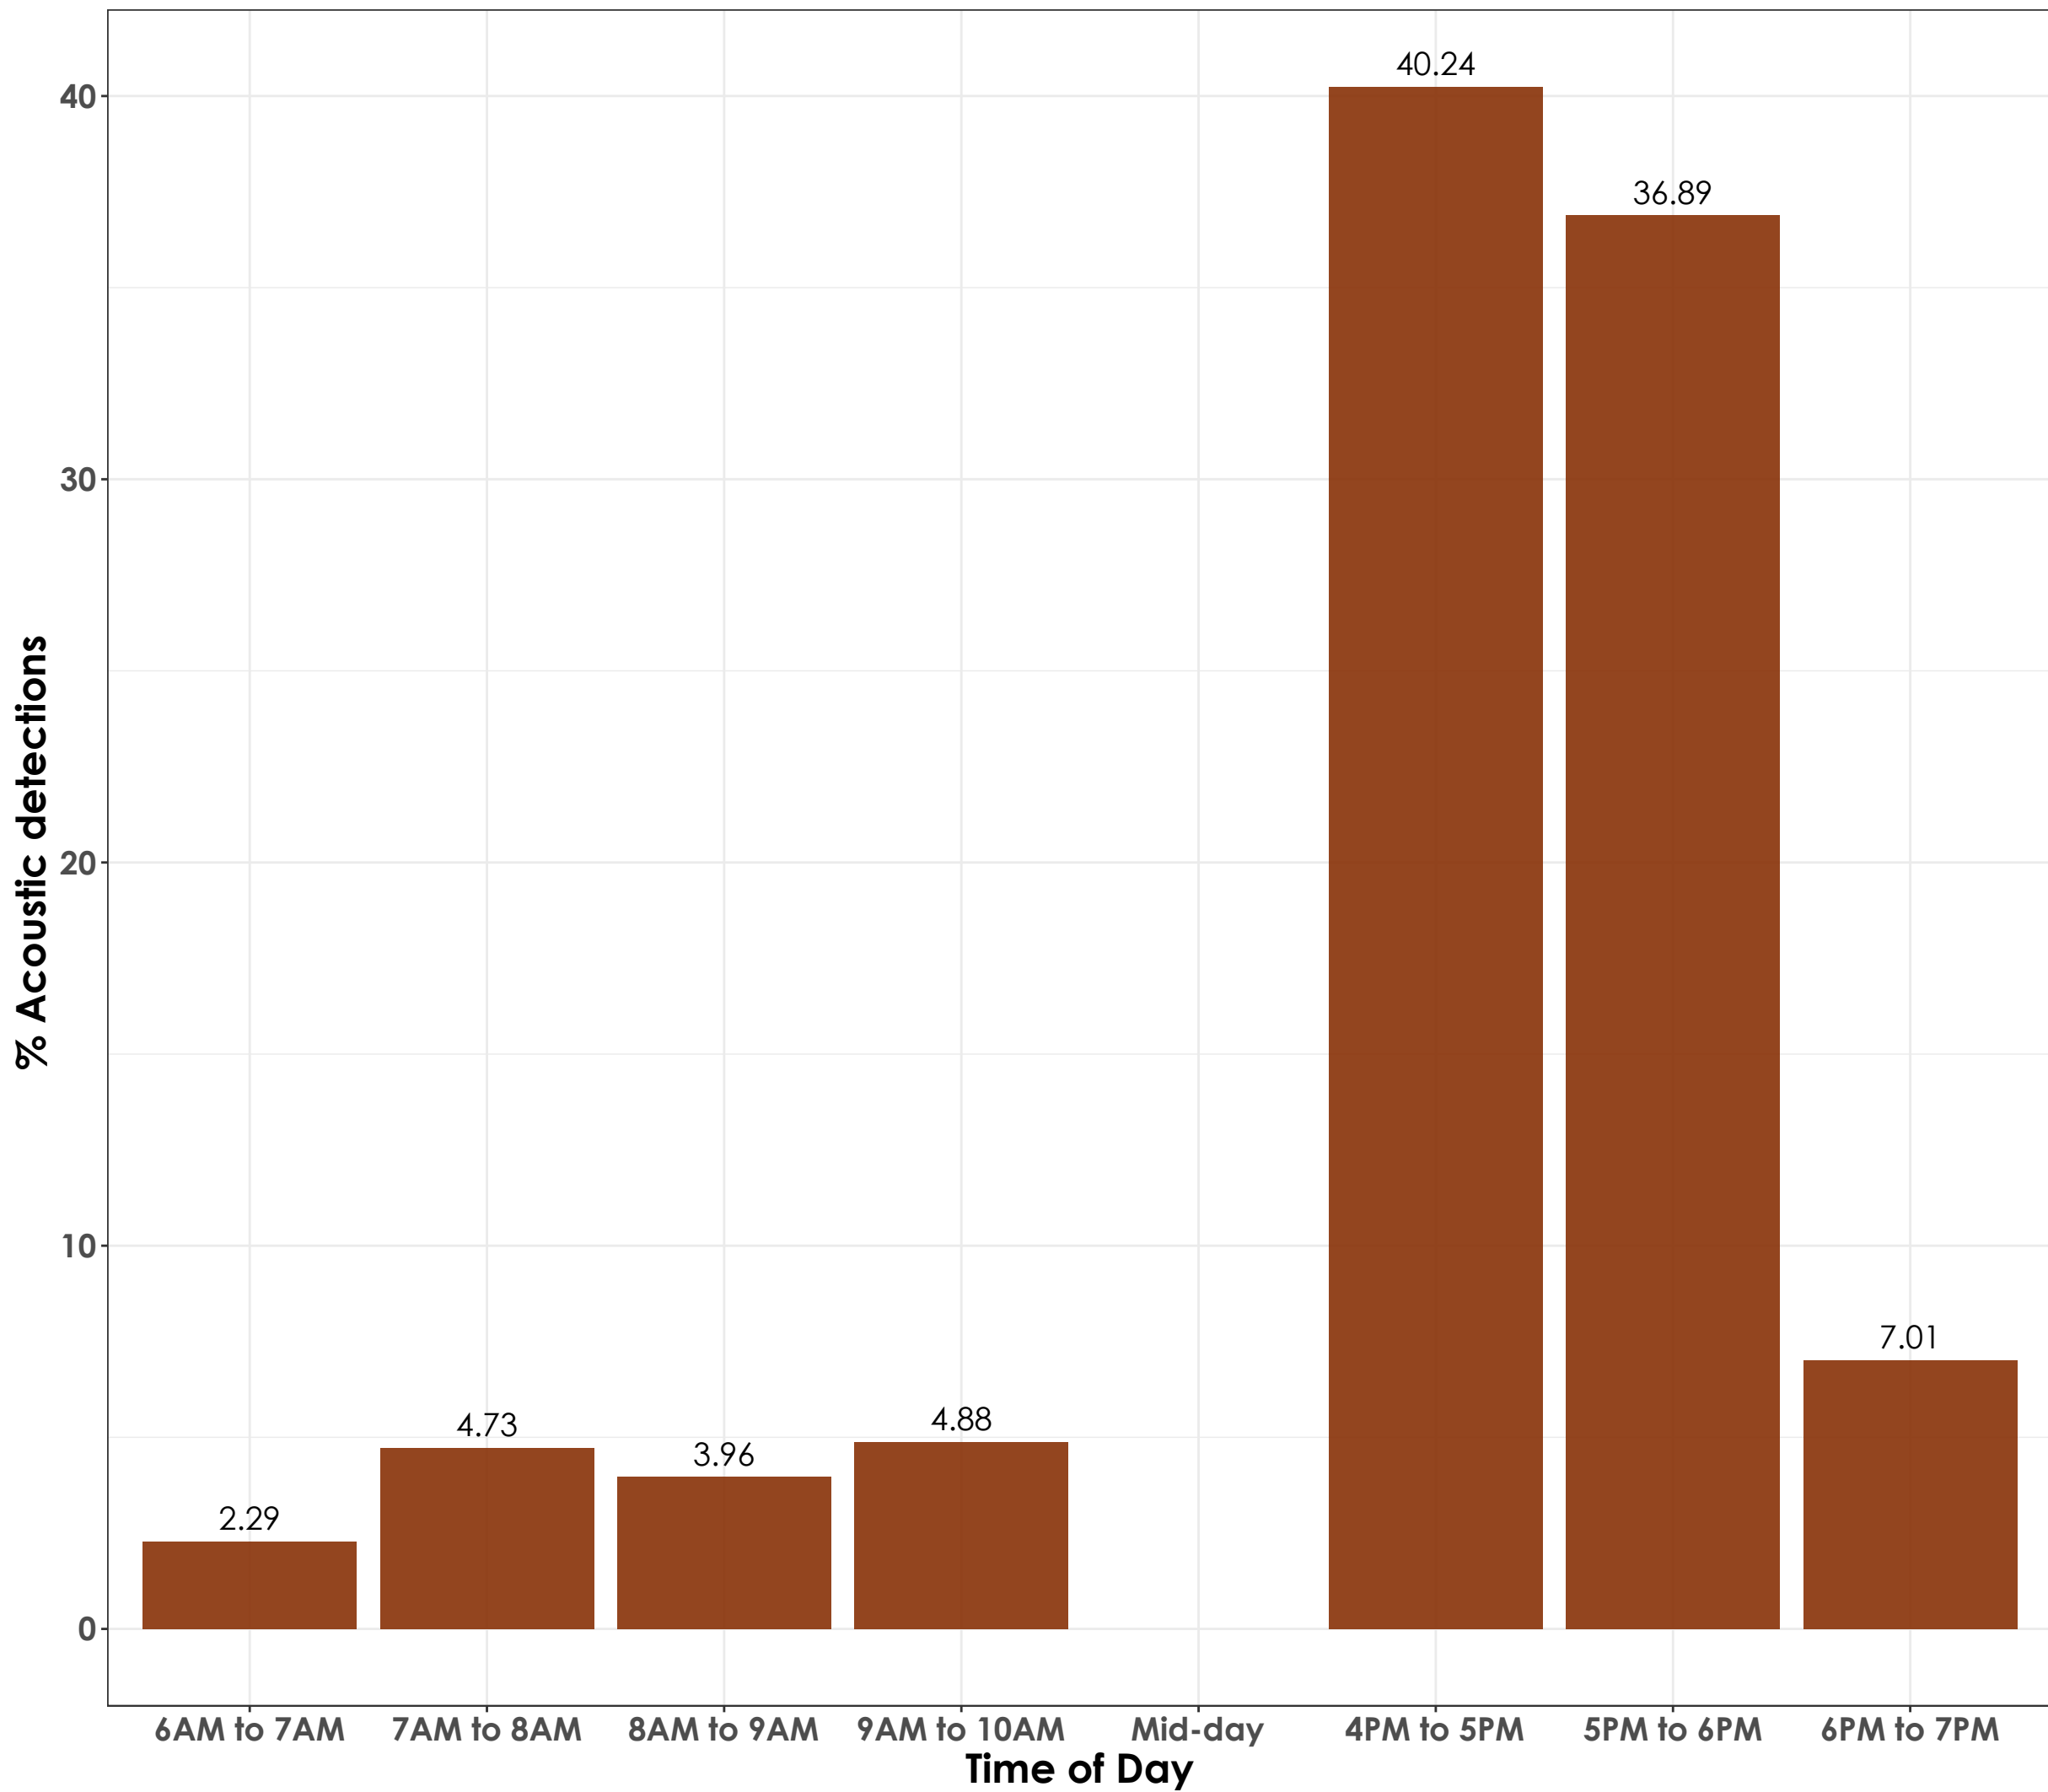

Bronzed Drongo

Each bar represents the % of detections across dawn and dusk

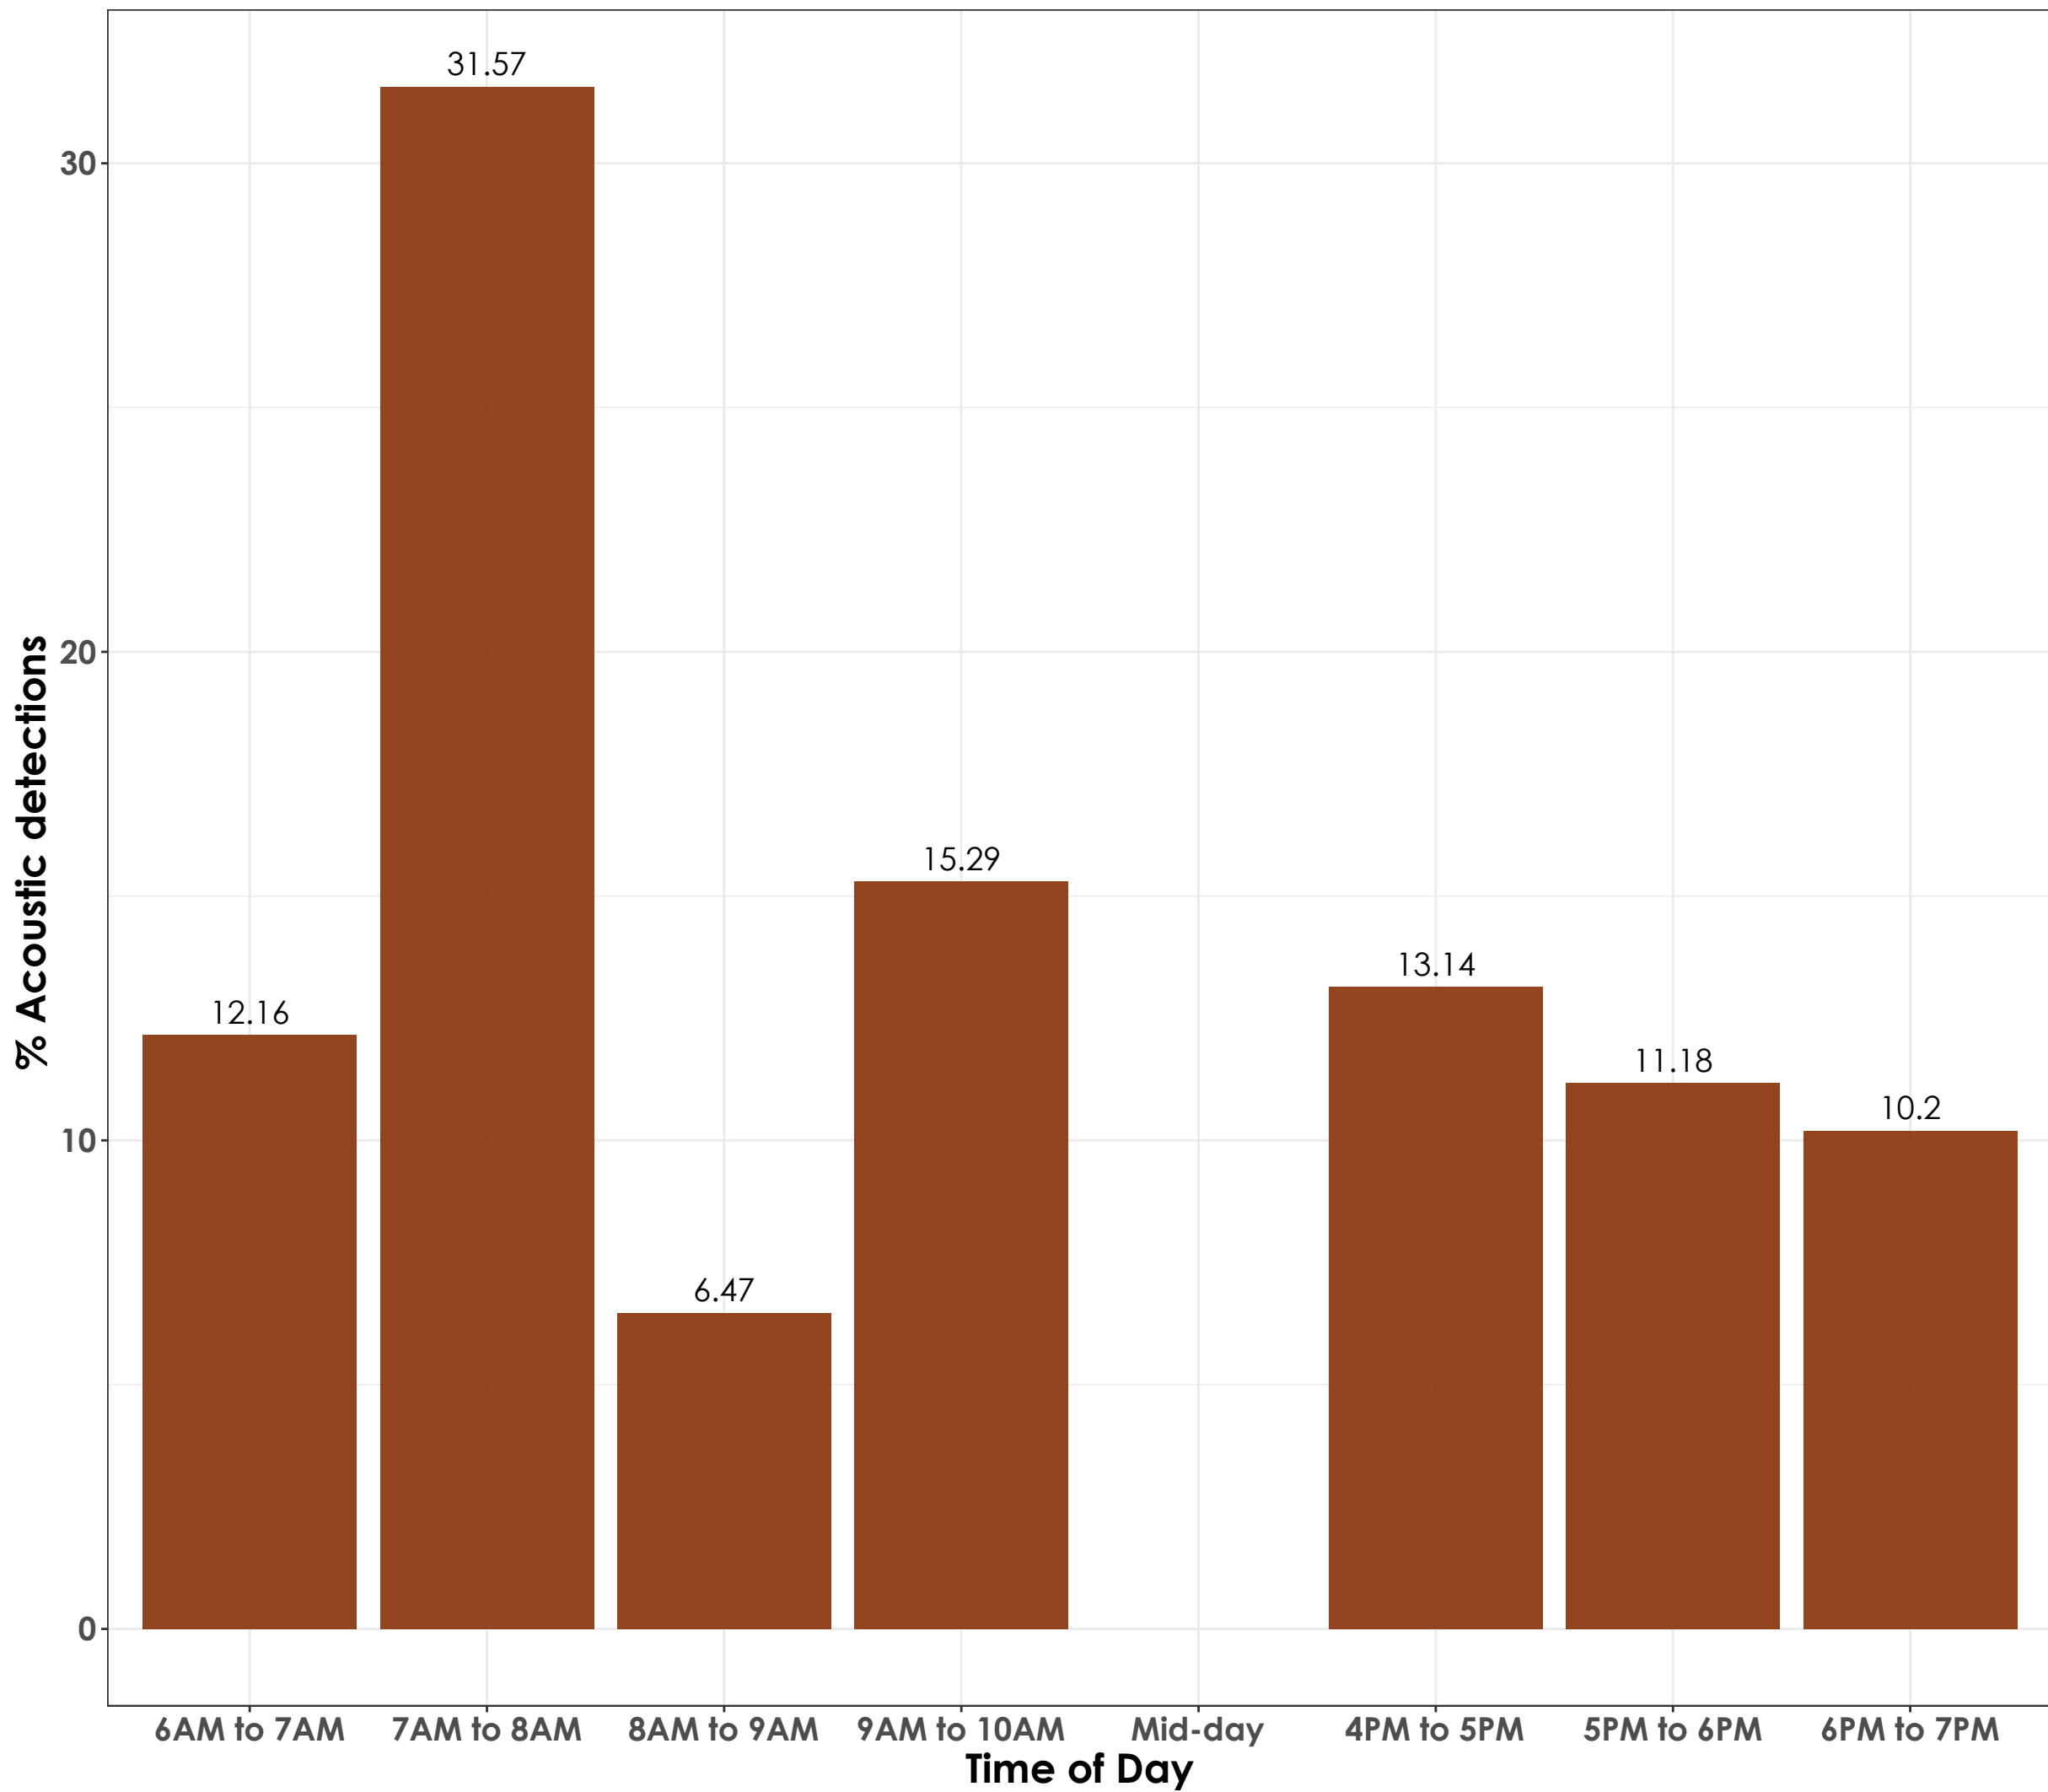

Dark-fronted Babbler

Each bar represents the % of detections across dawn and dusk

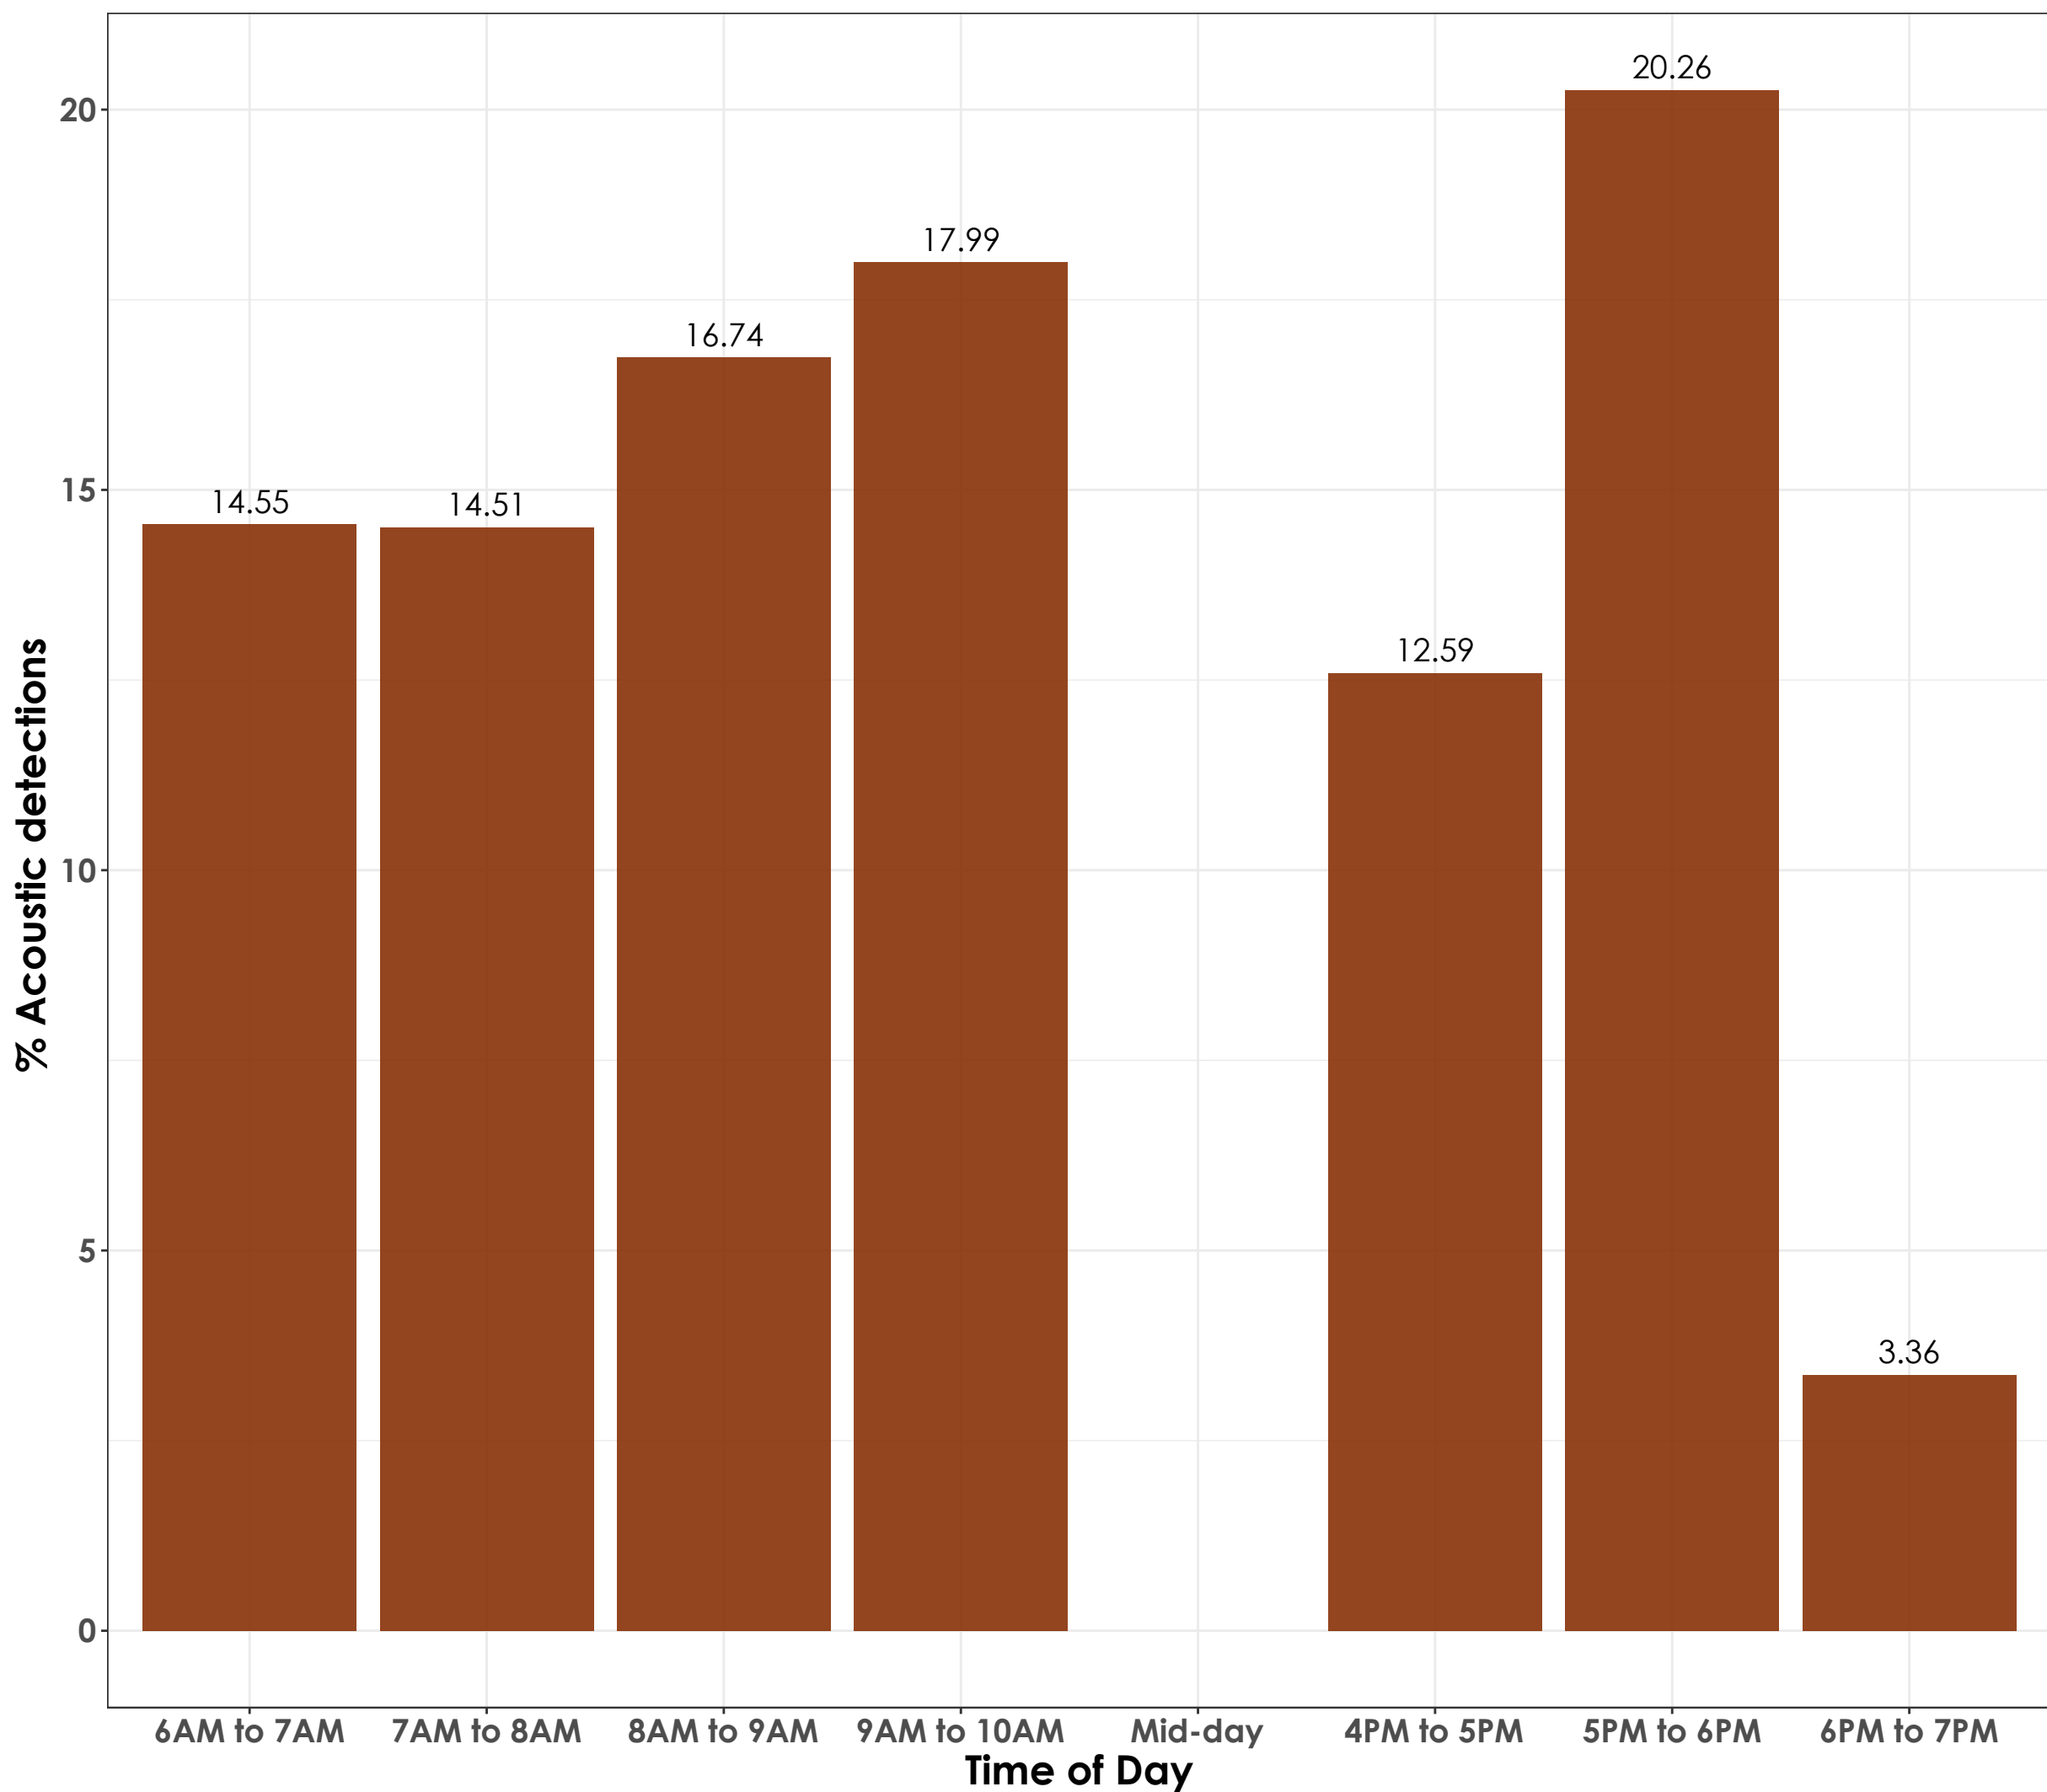

Great Hornbill

Each bar represents the % of detections across dawn and dusk

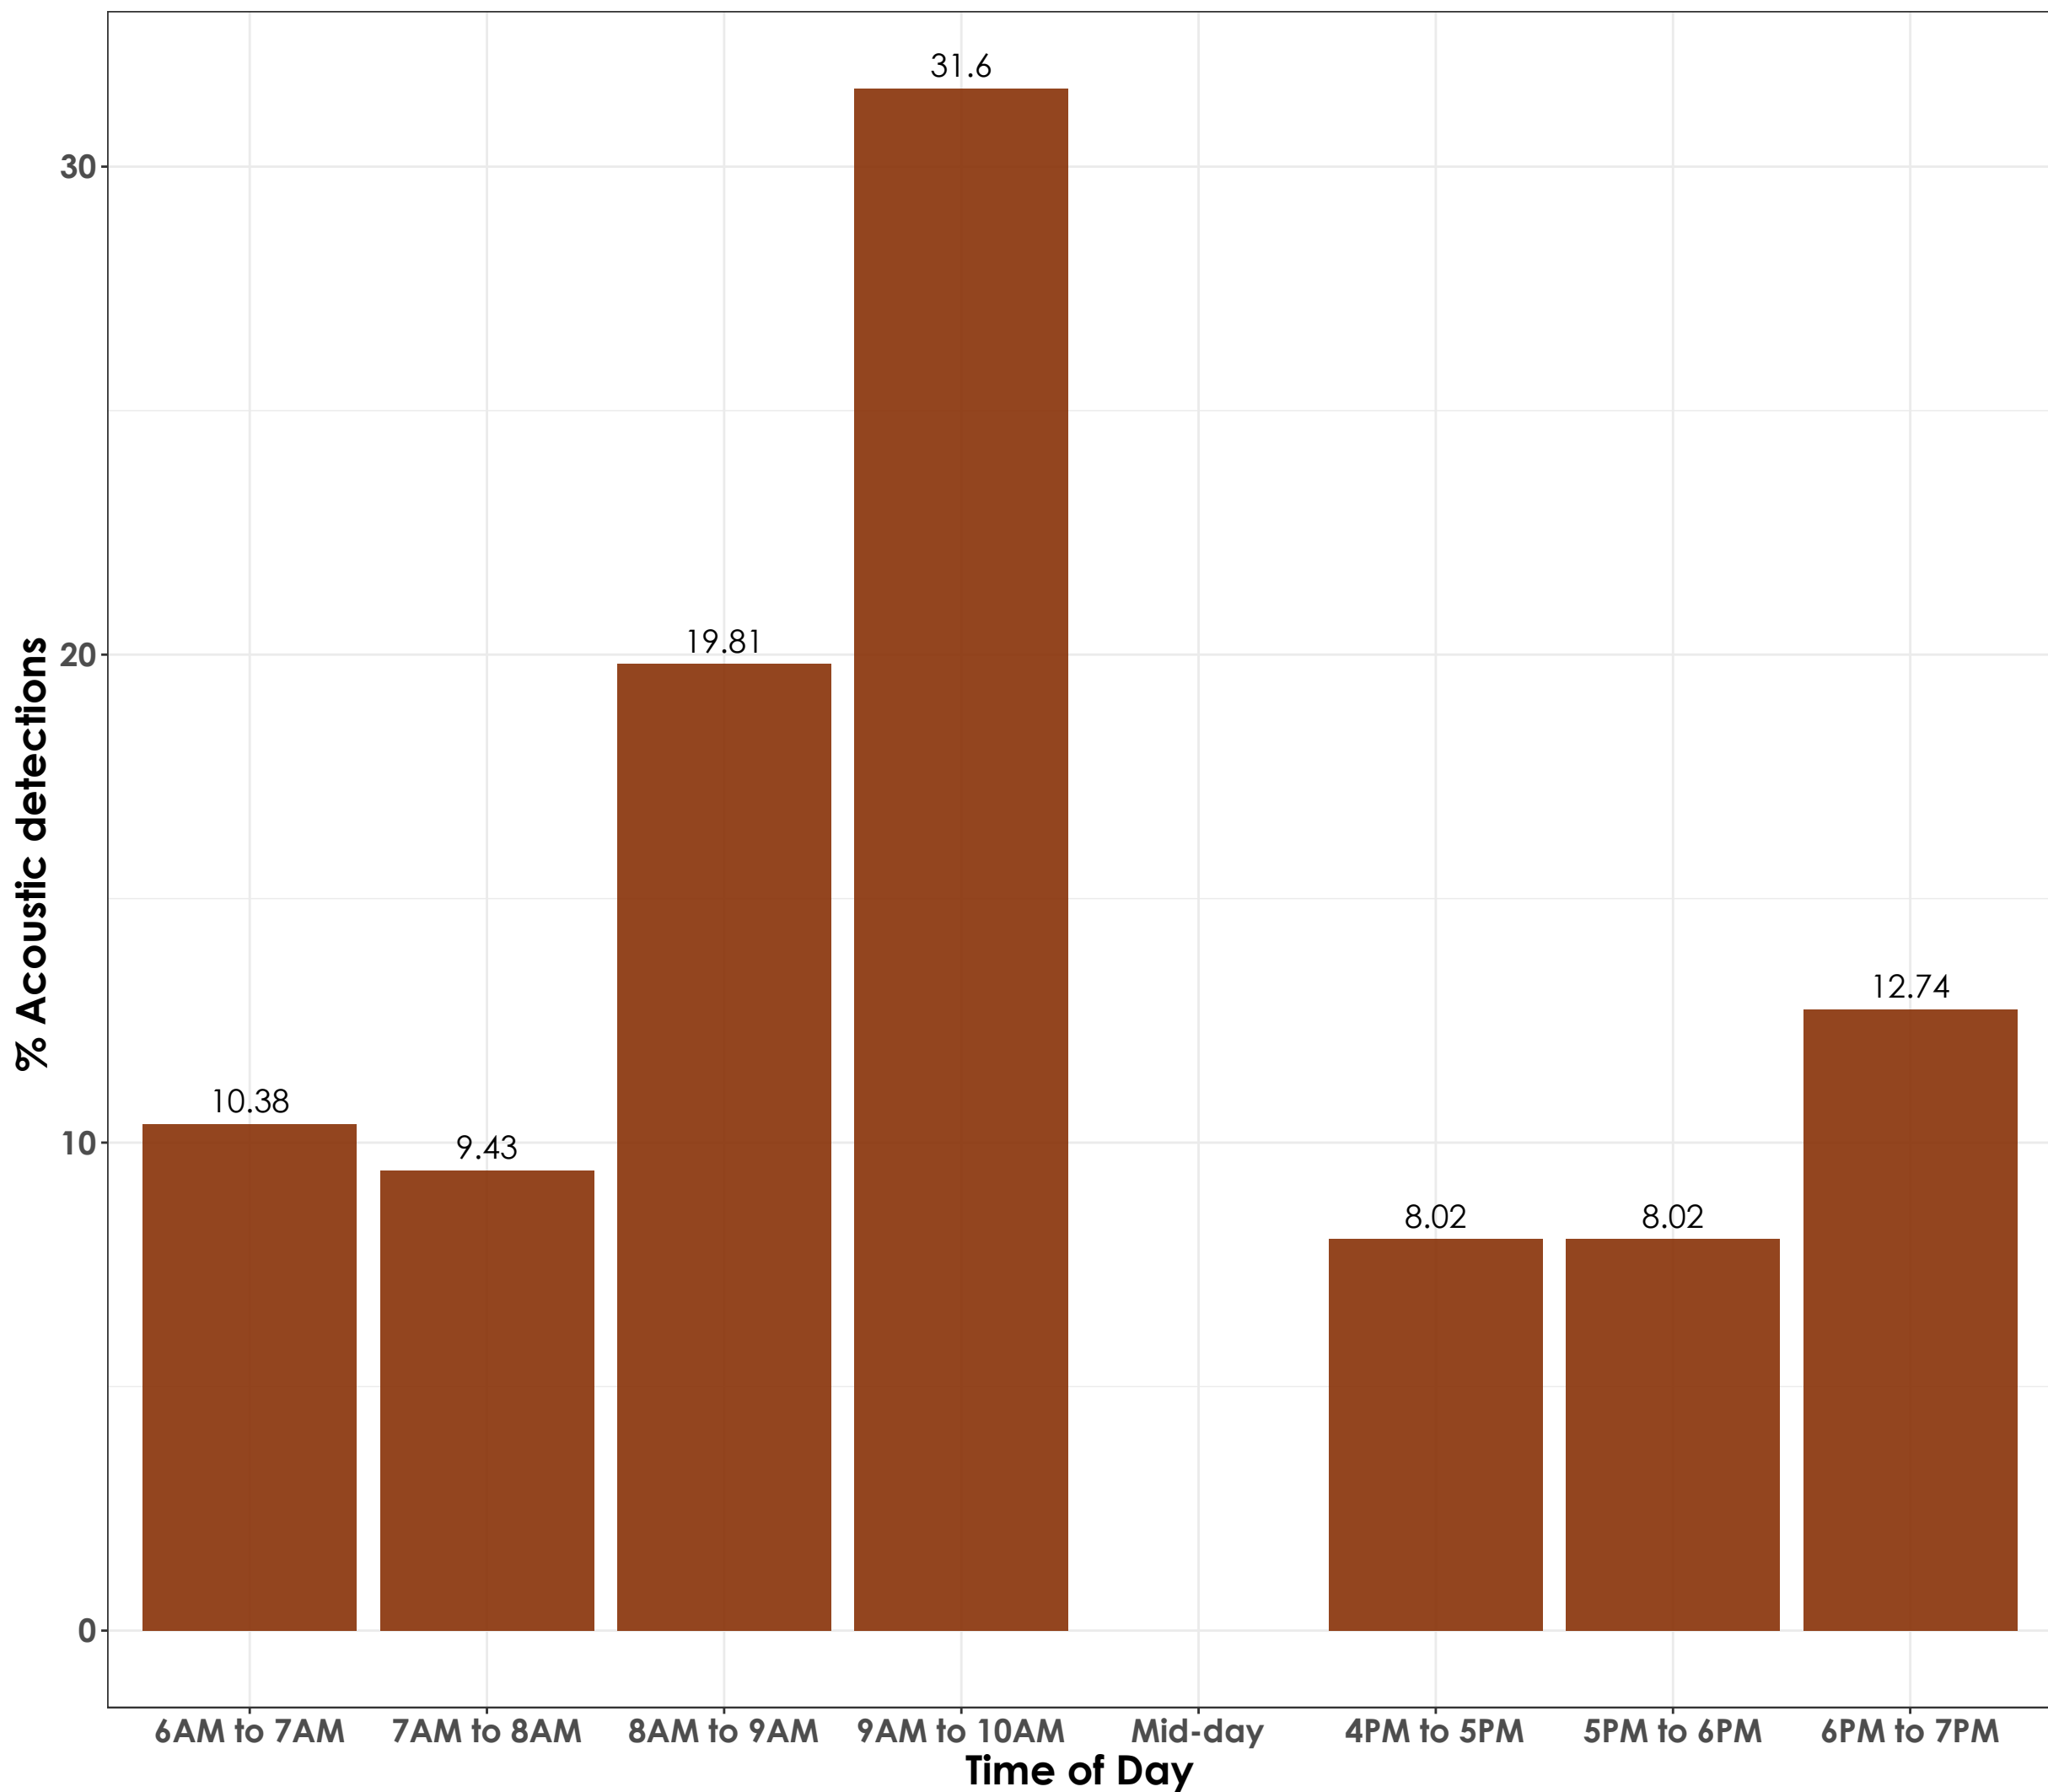

Mountain Imperial-Pigeon

Each bar represents the % of detections across dawn and dusk

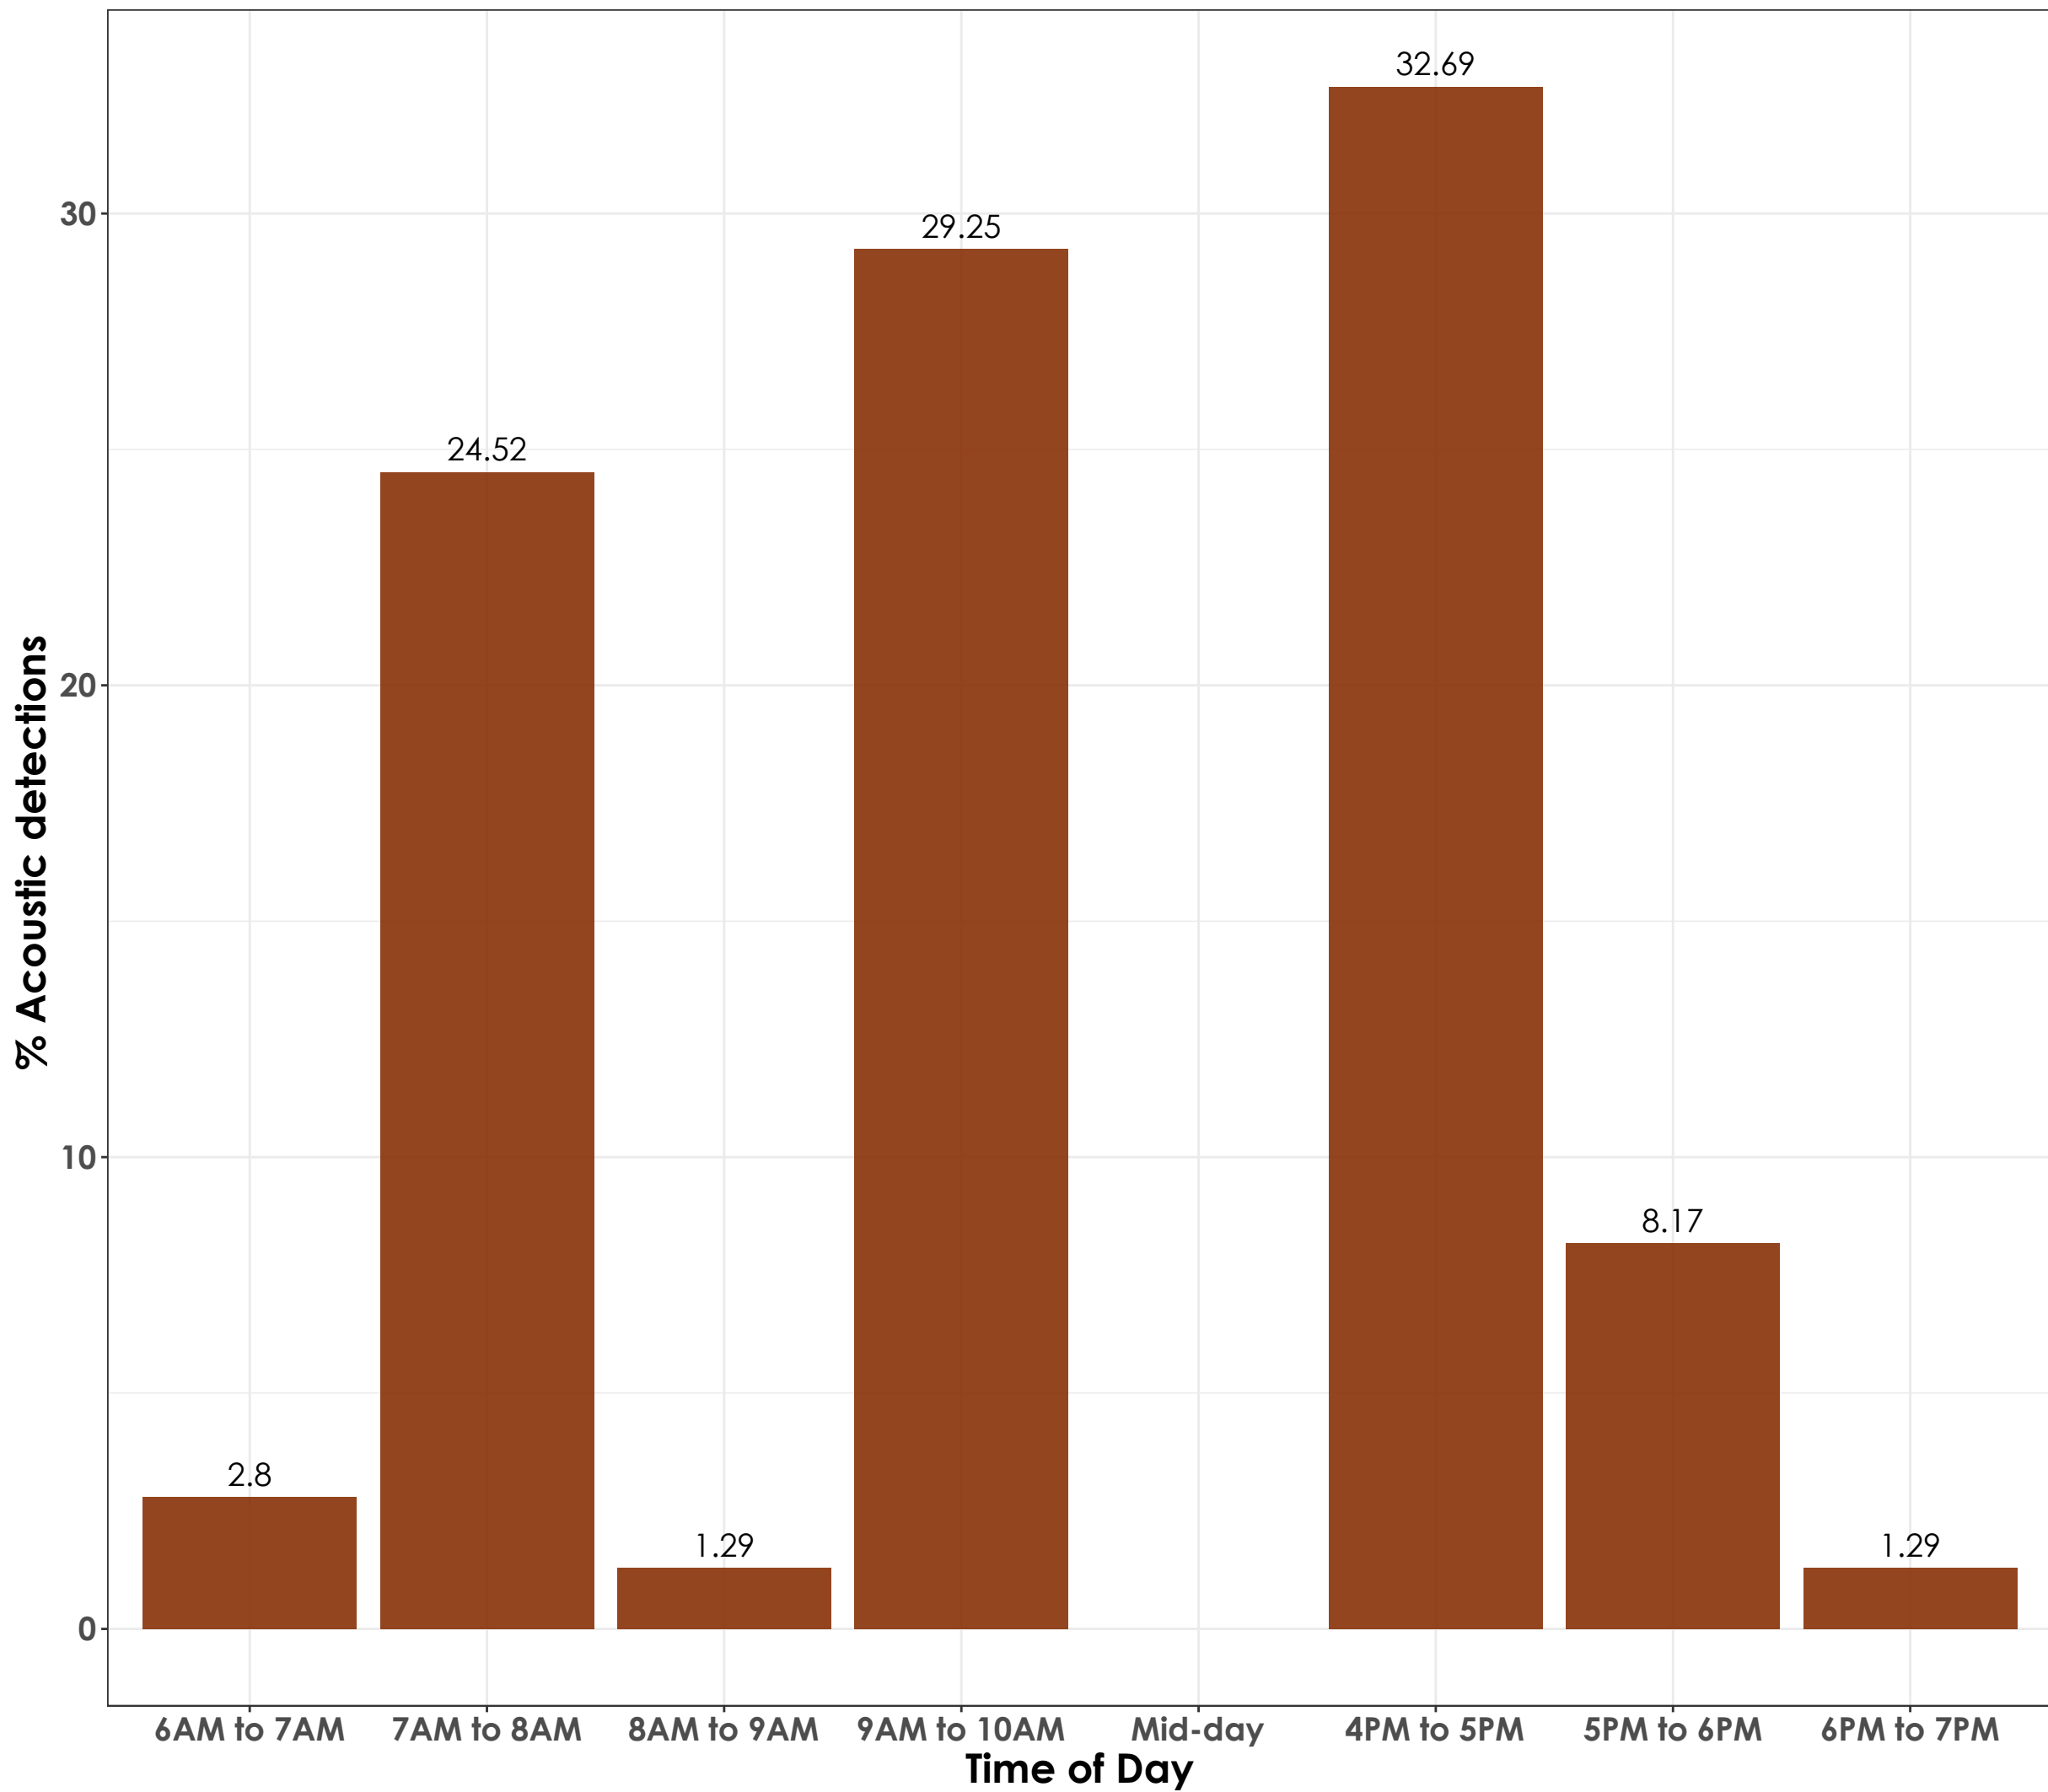

Speckled Piculet

Each bar represents the % of detections across dawn and dusk

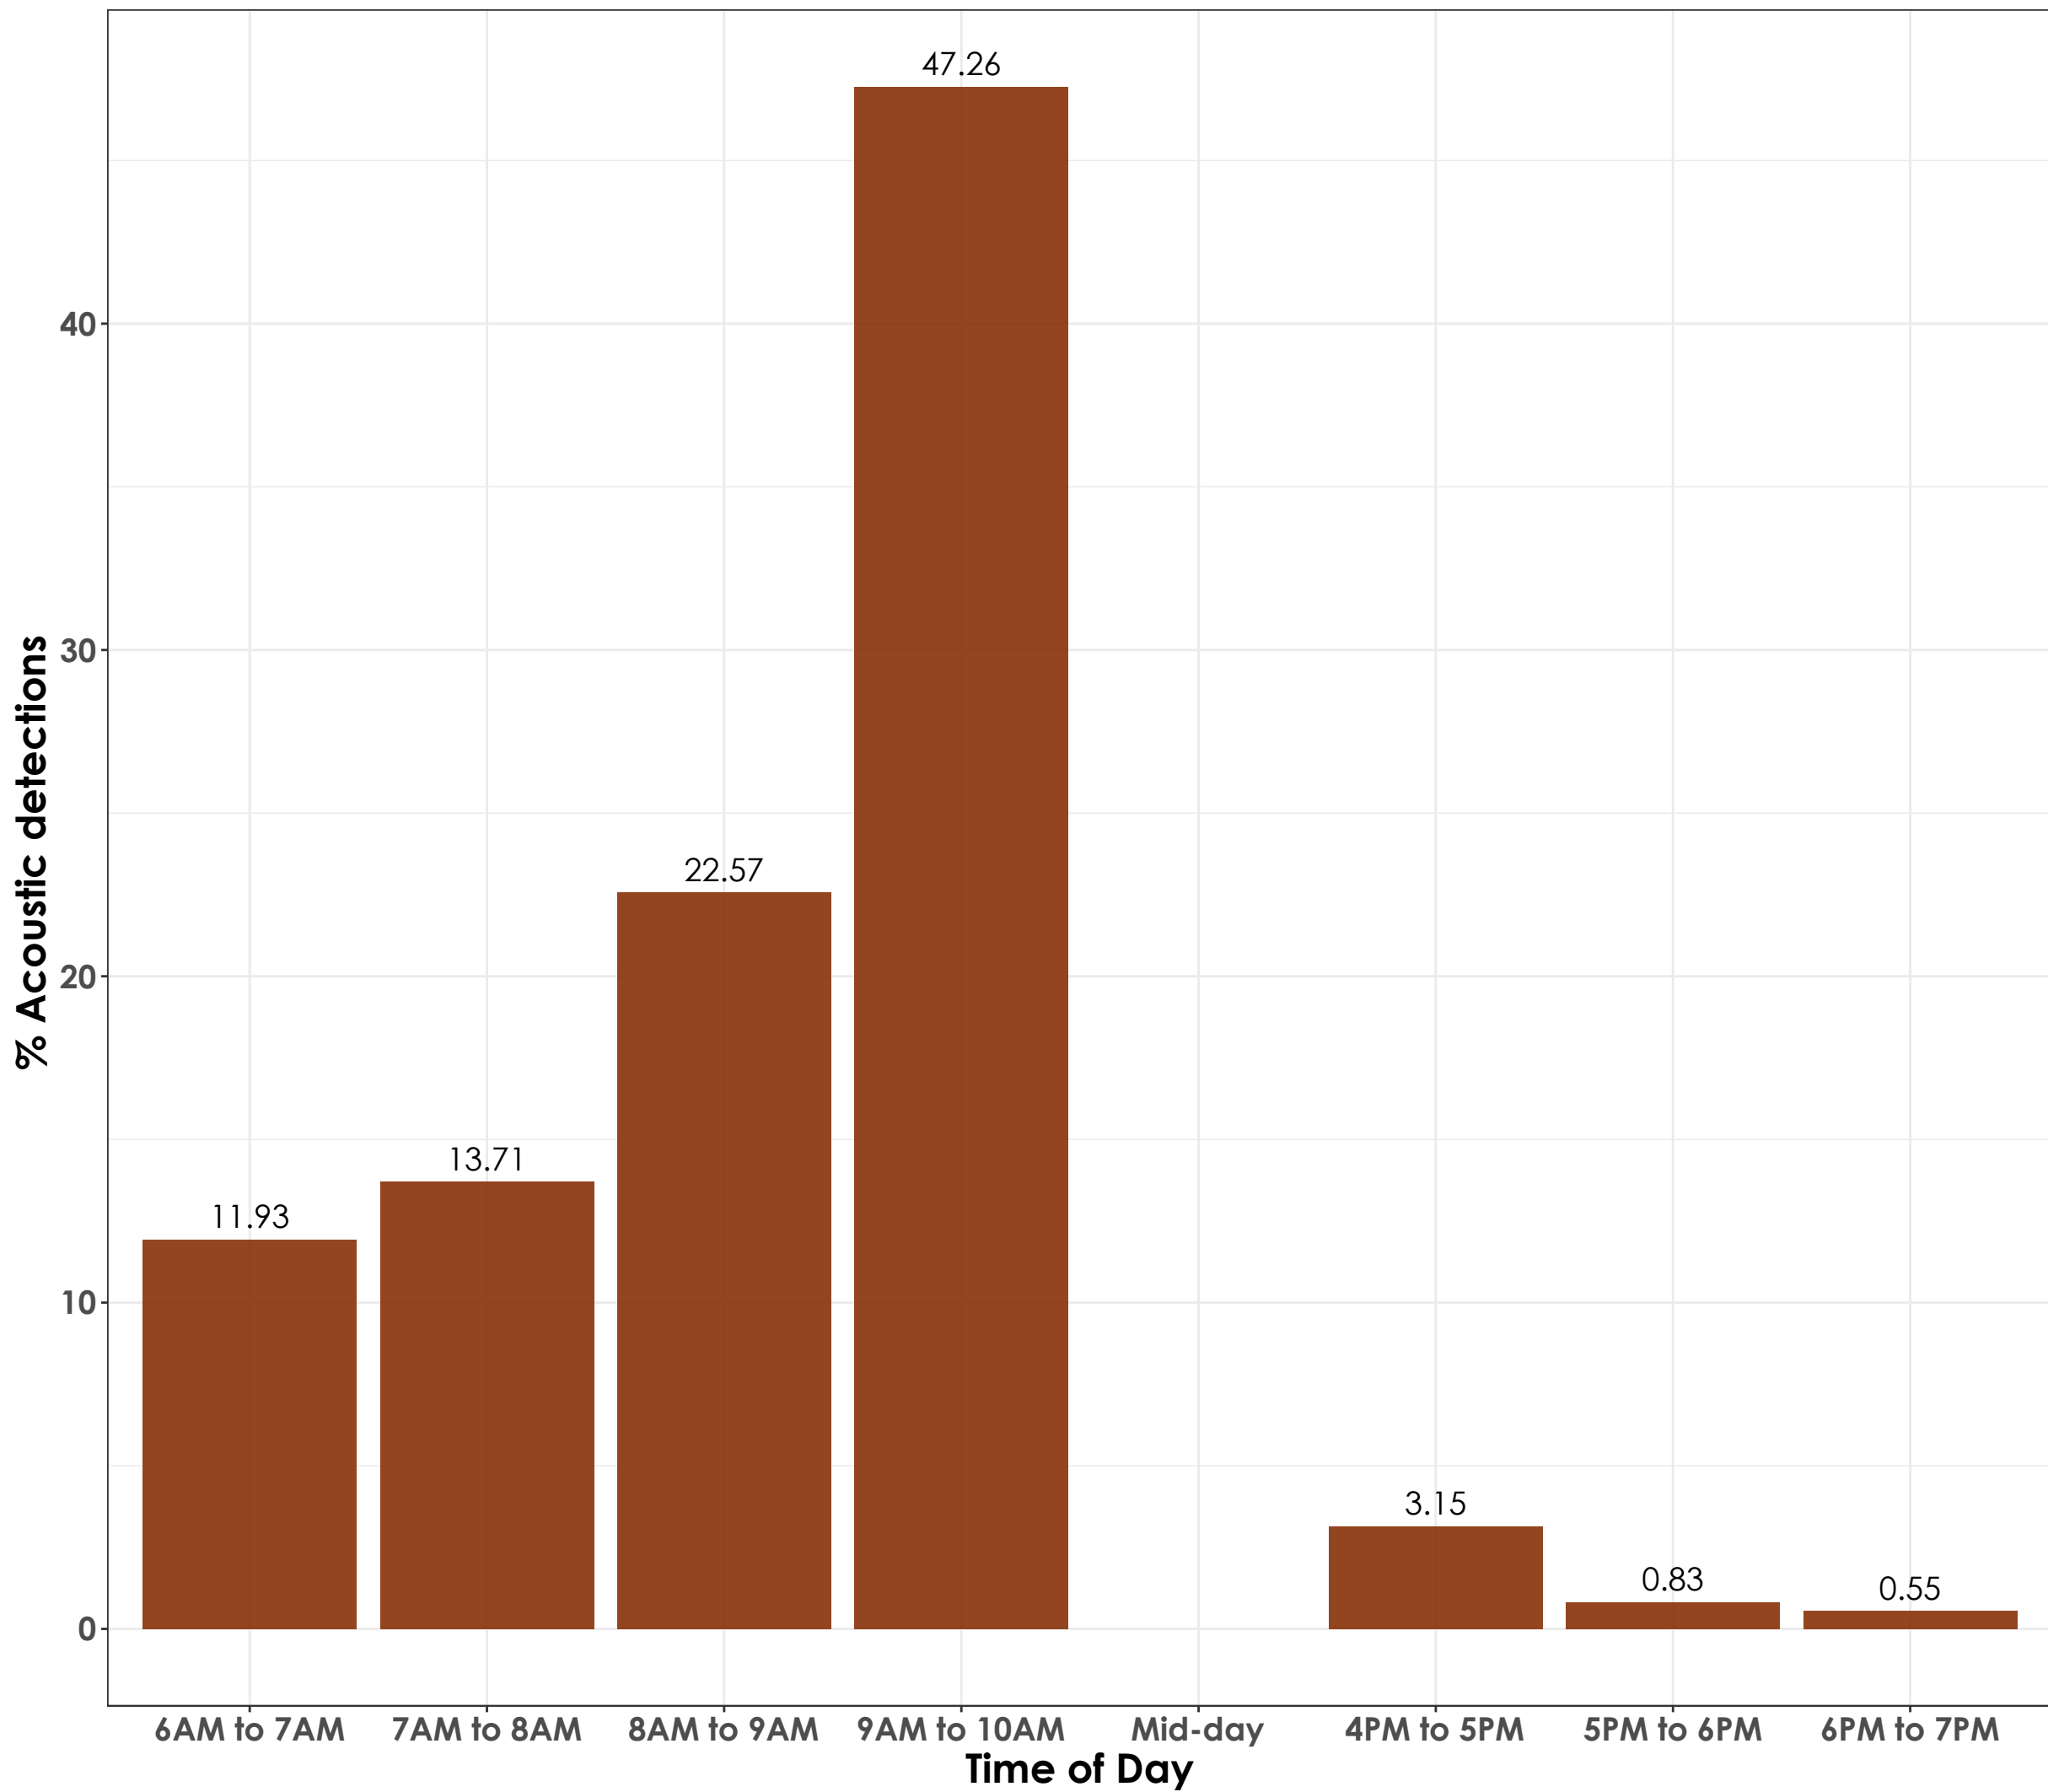

Brown-breasted Flycatcher

Each bar represents the % of detections across dawn and dusk

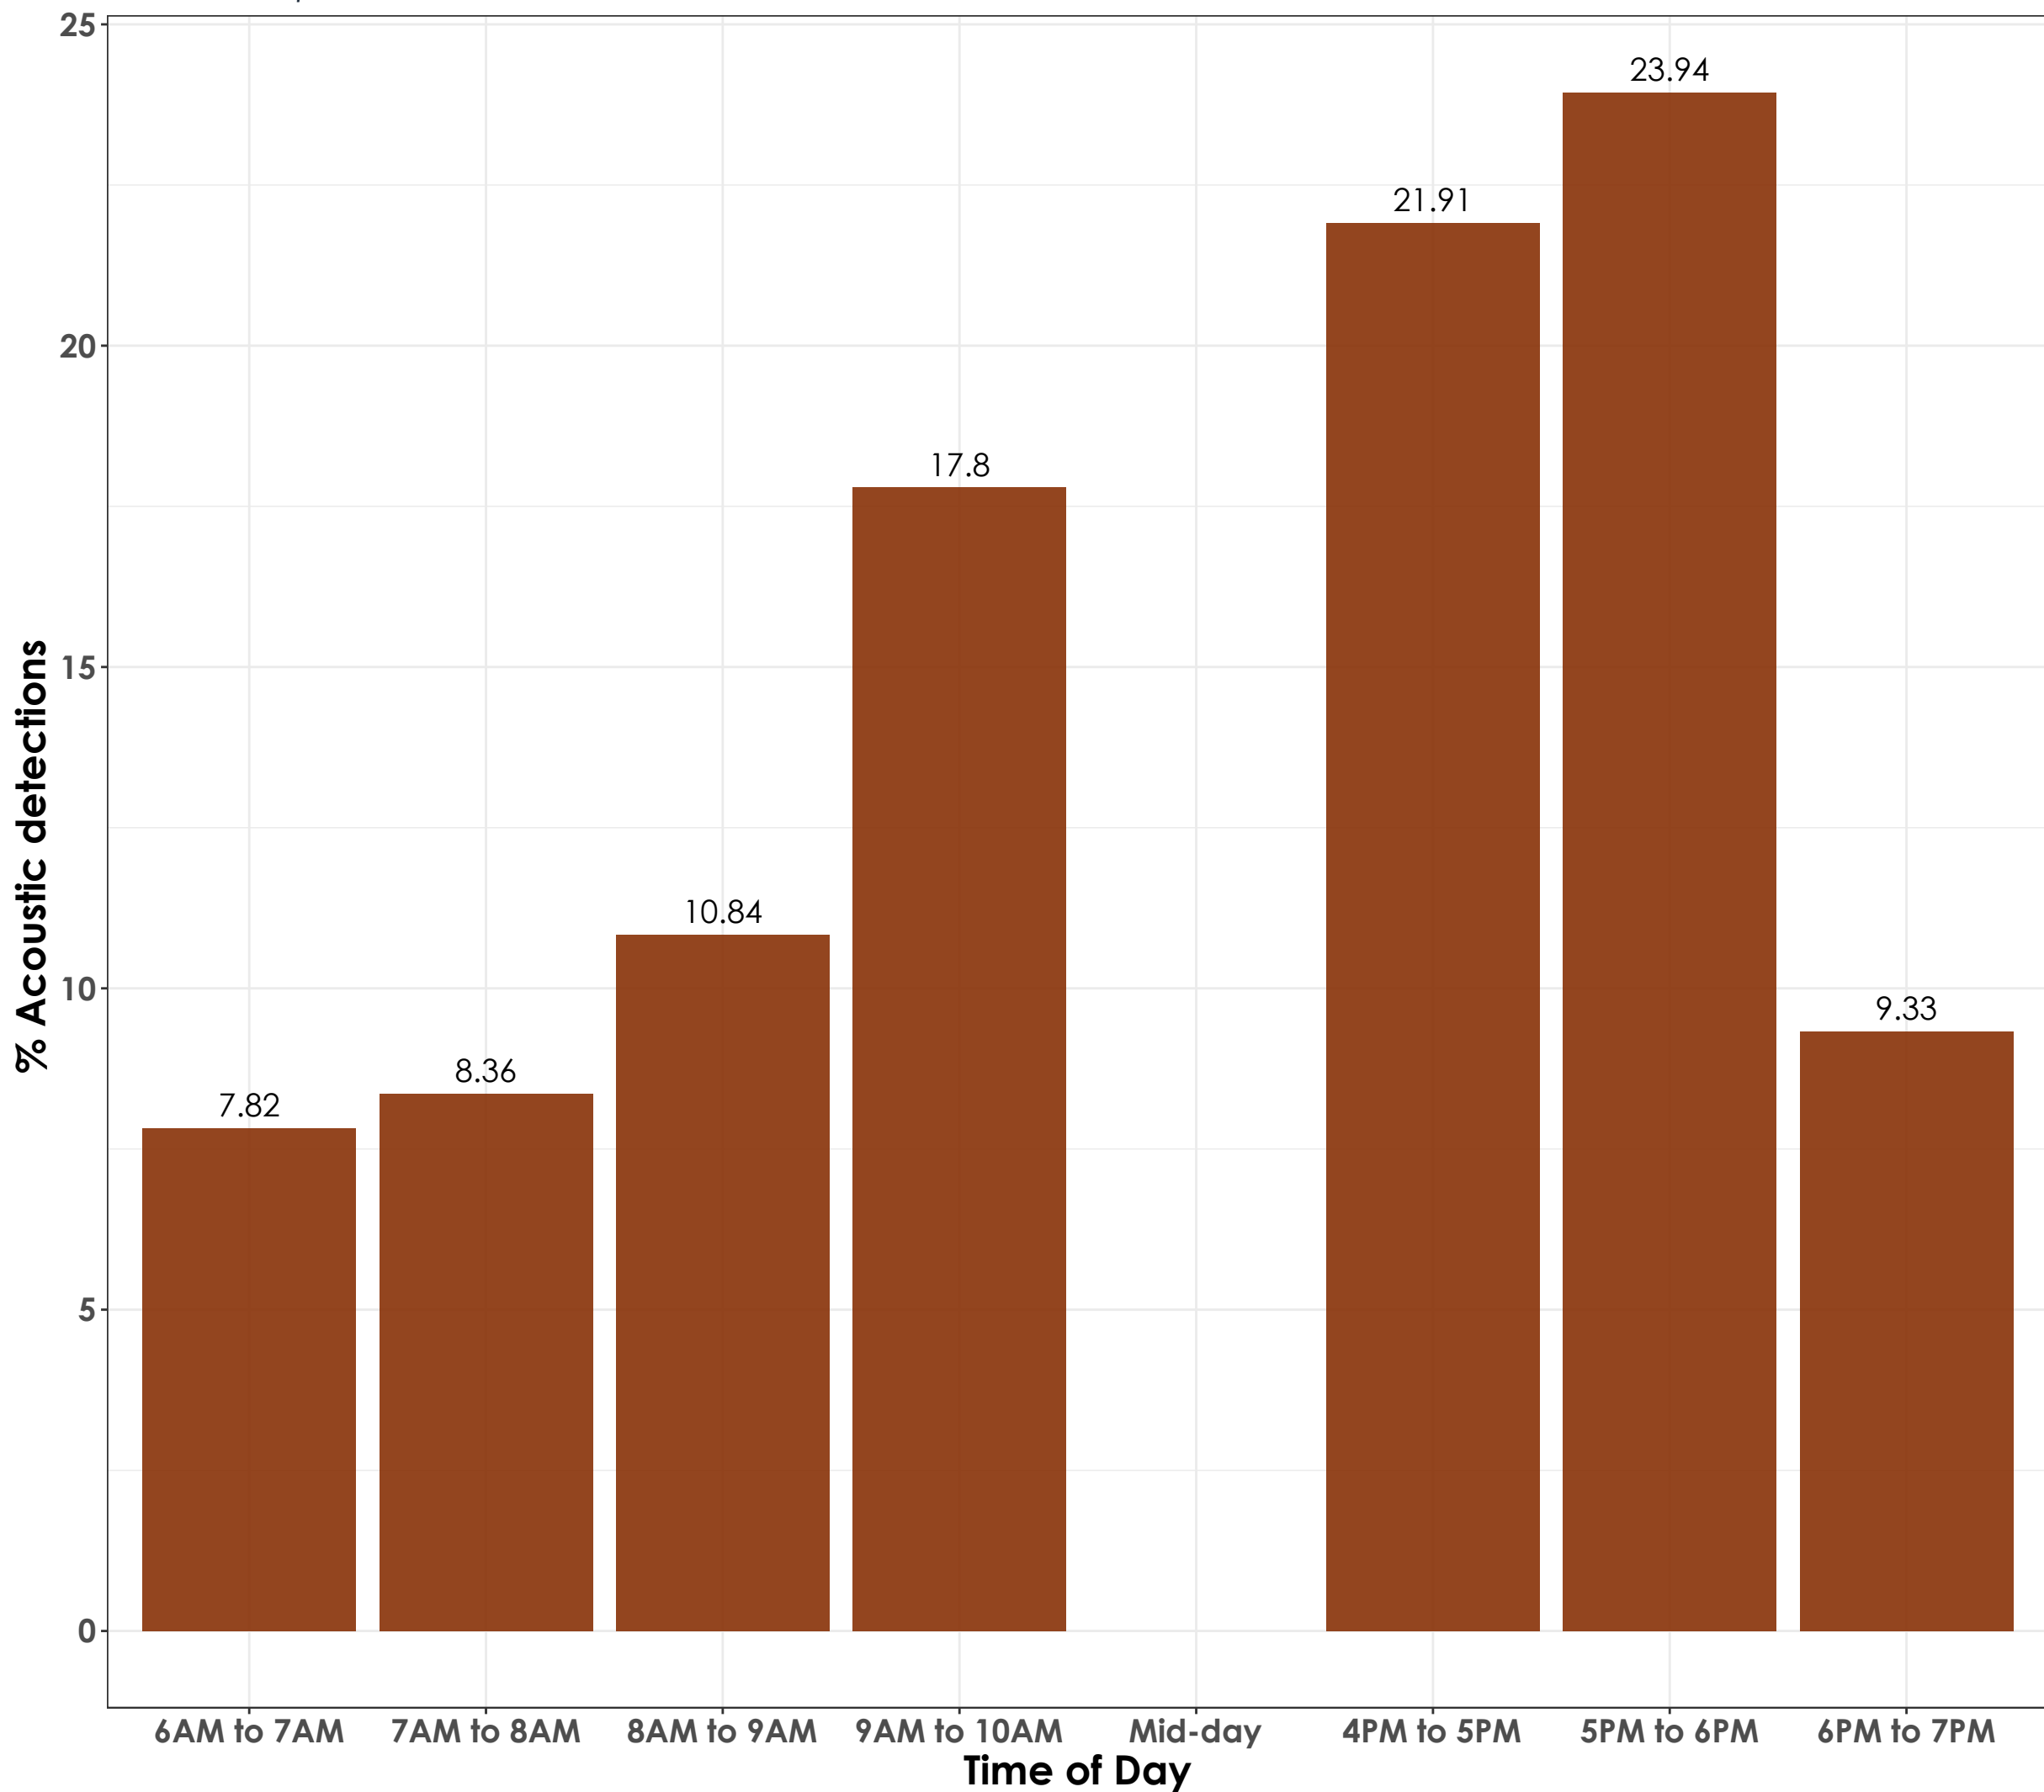

Large-billed Leaf Warbler

Each bar represents the % of detections across dawn and dusk

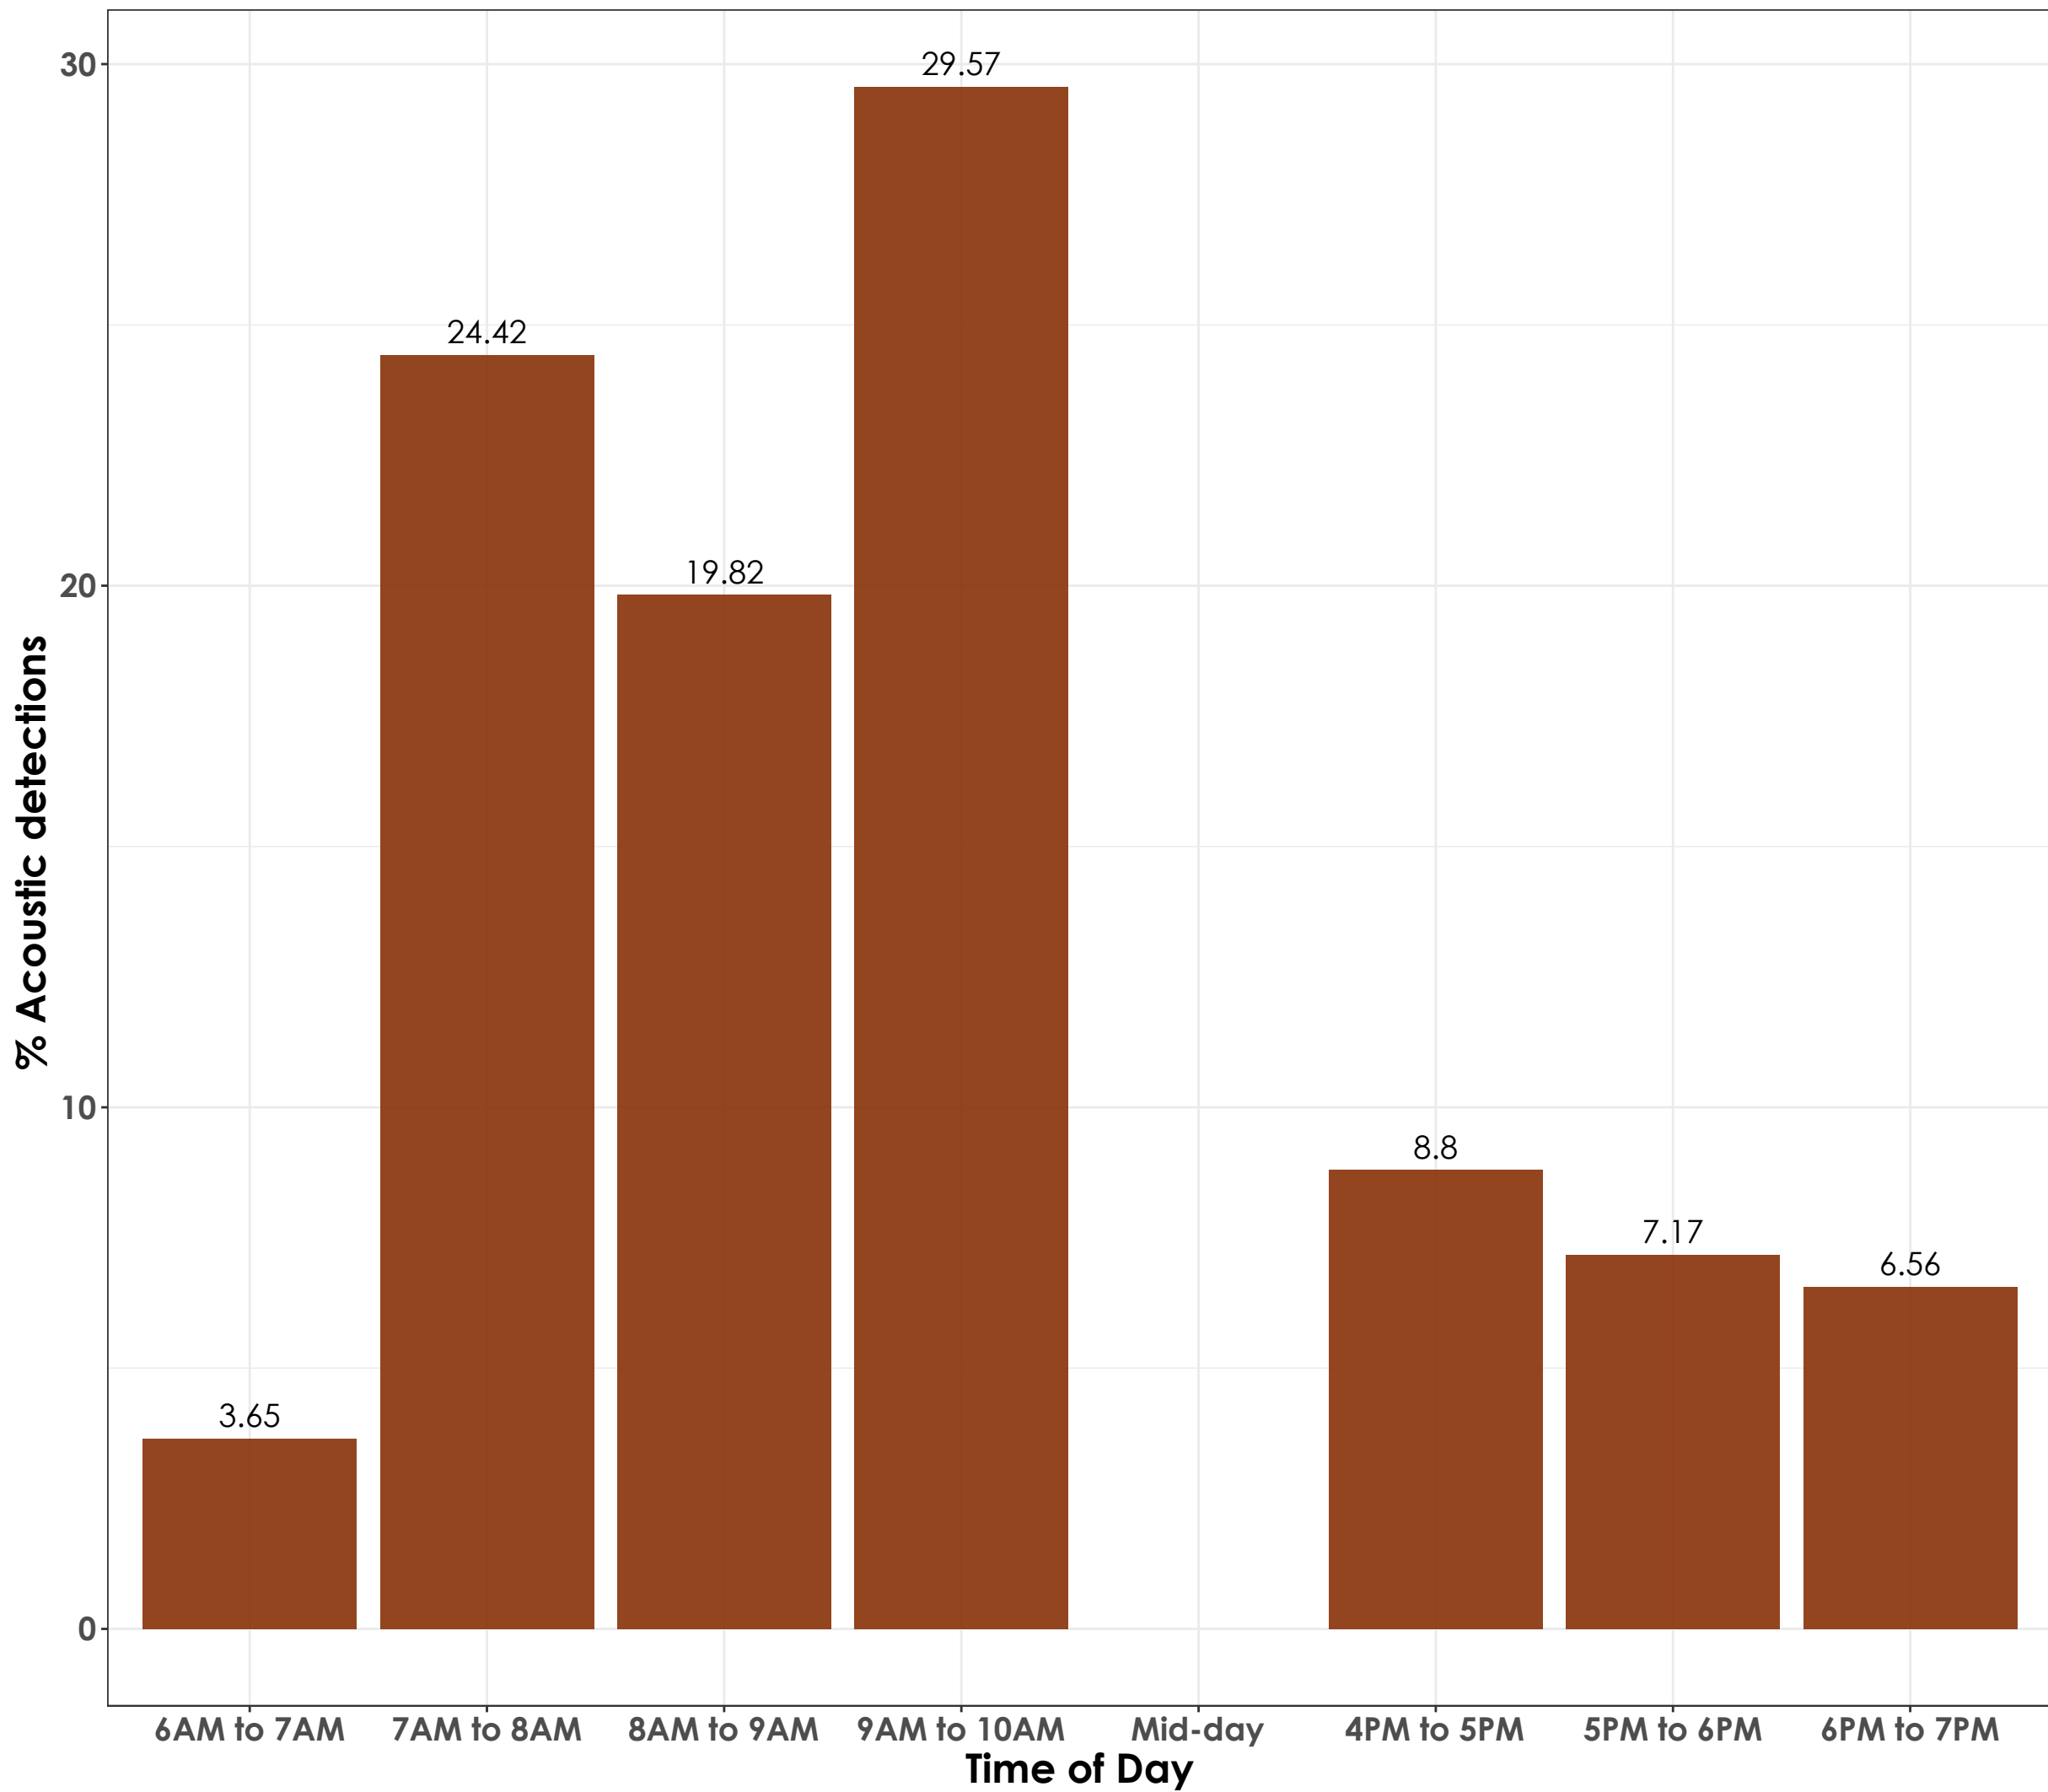

Southern Hill Myna

Each bar represents the % of detections across dawn and dusk

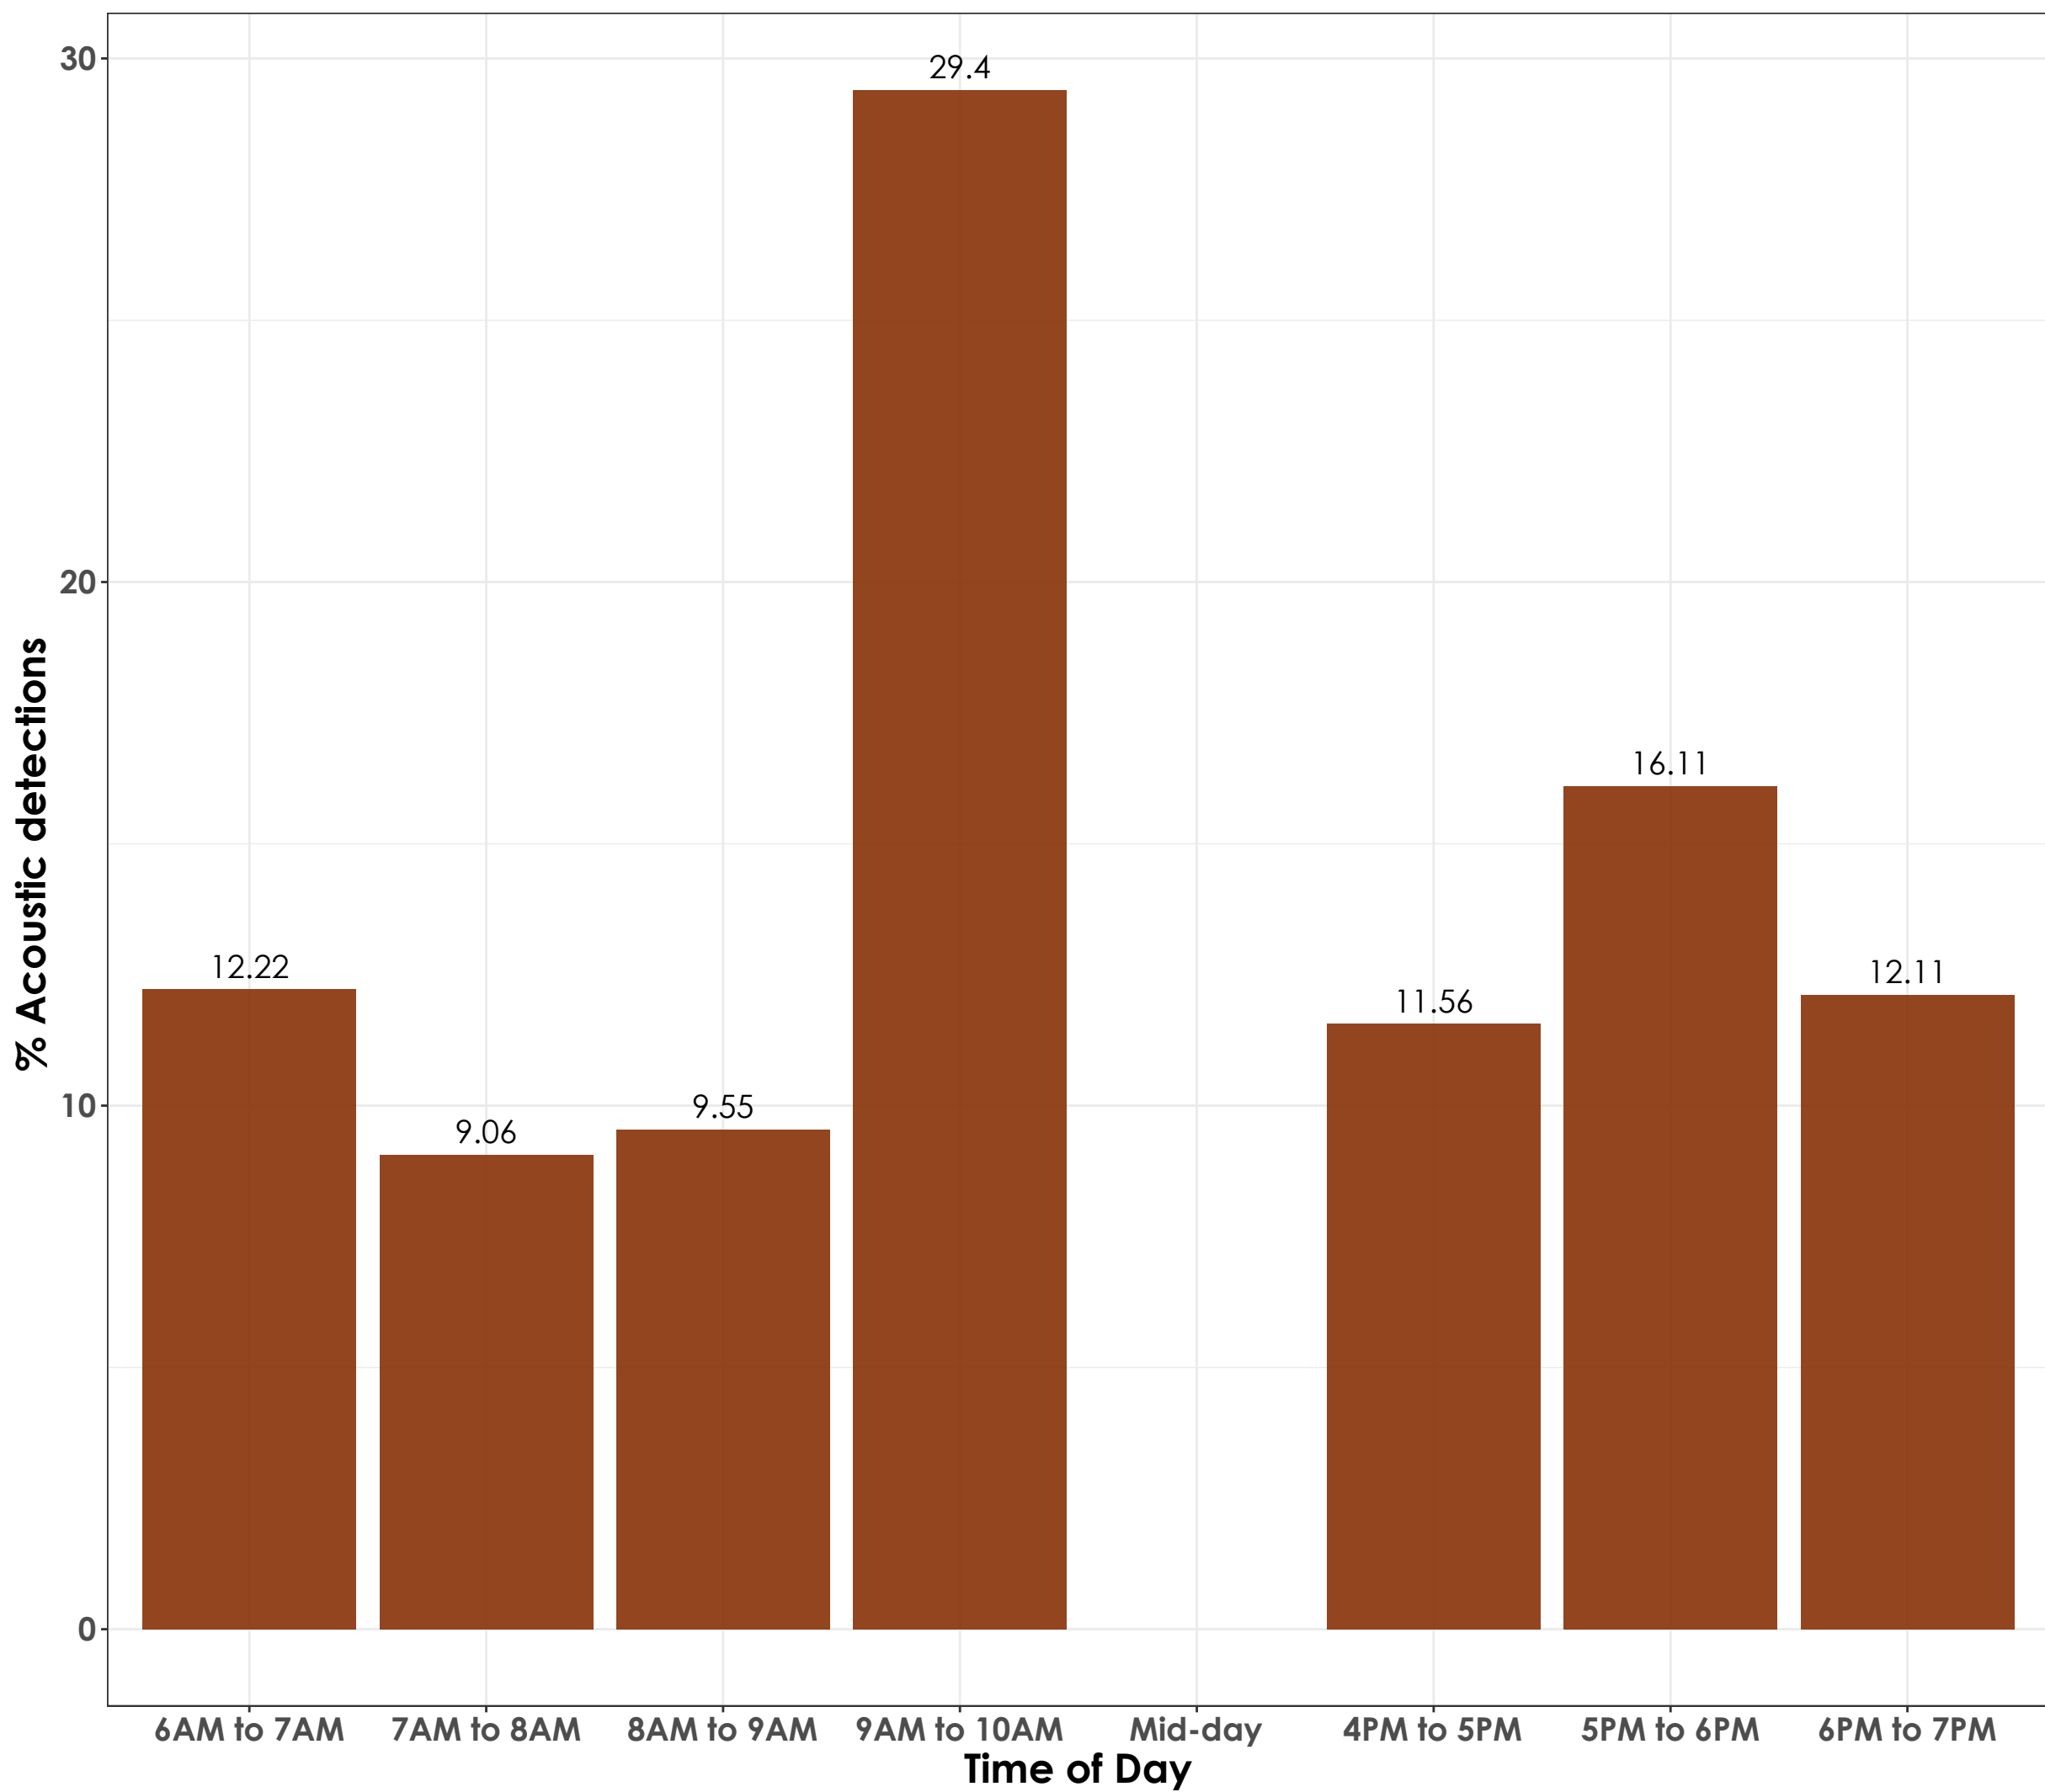

Spotted Dove

Each bar represents the % of detections across dawn and dusk

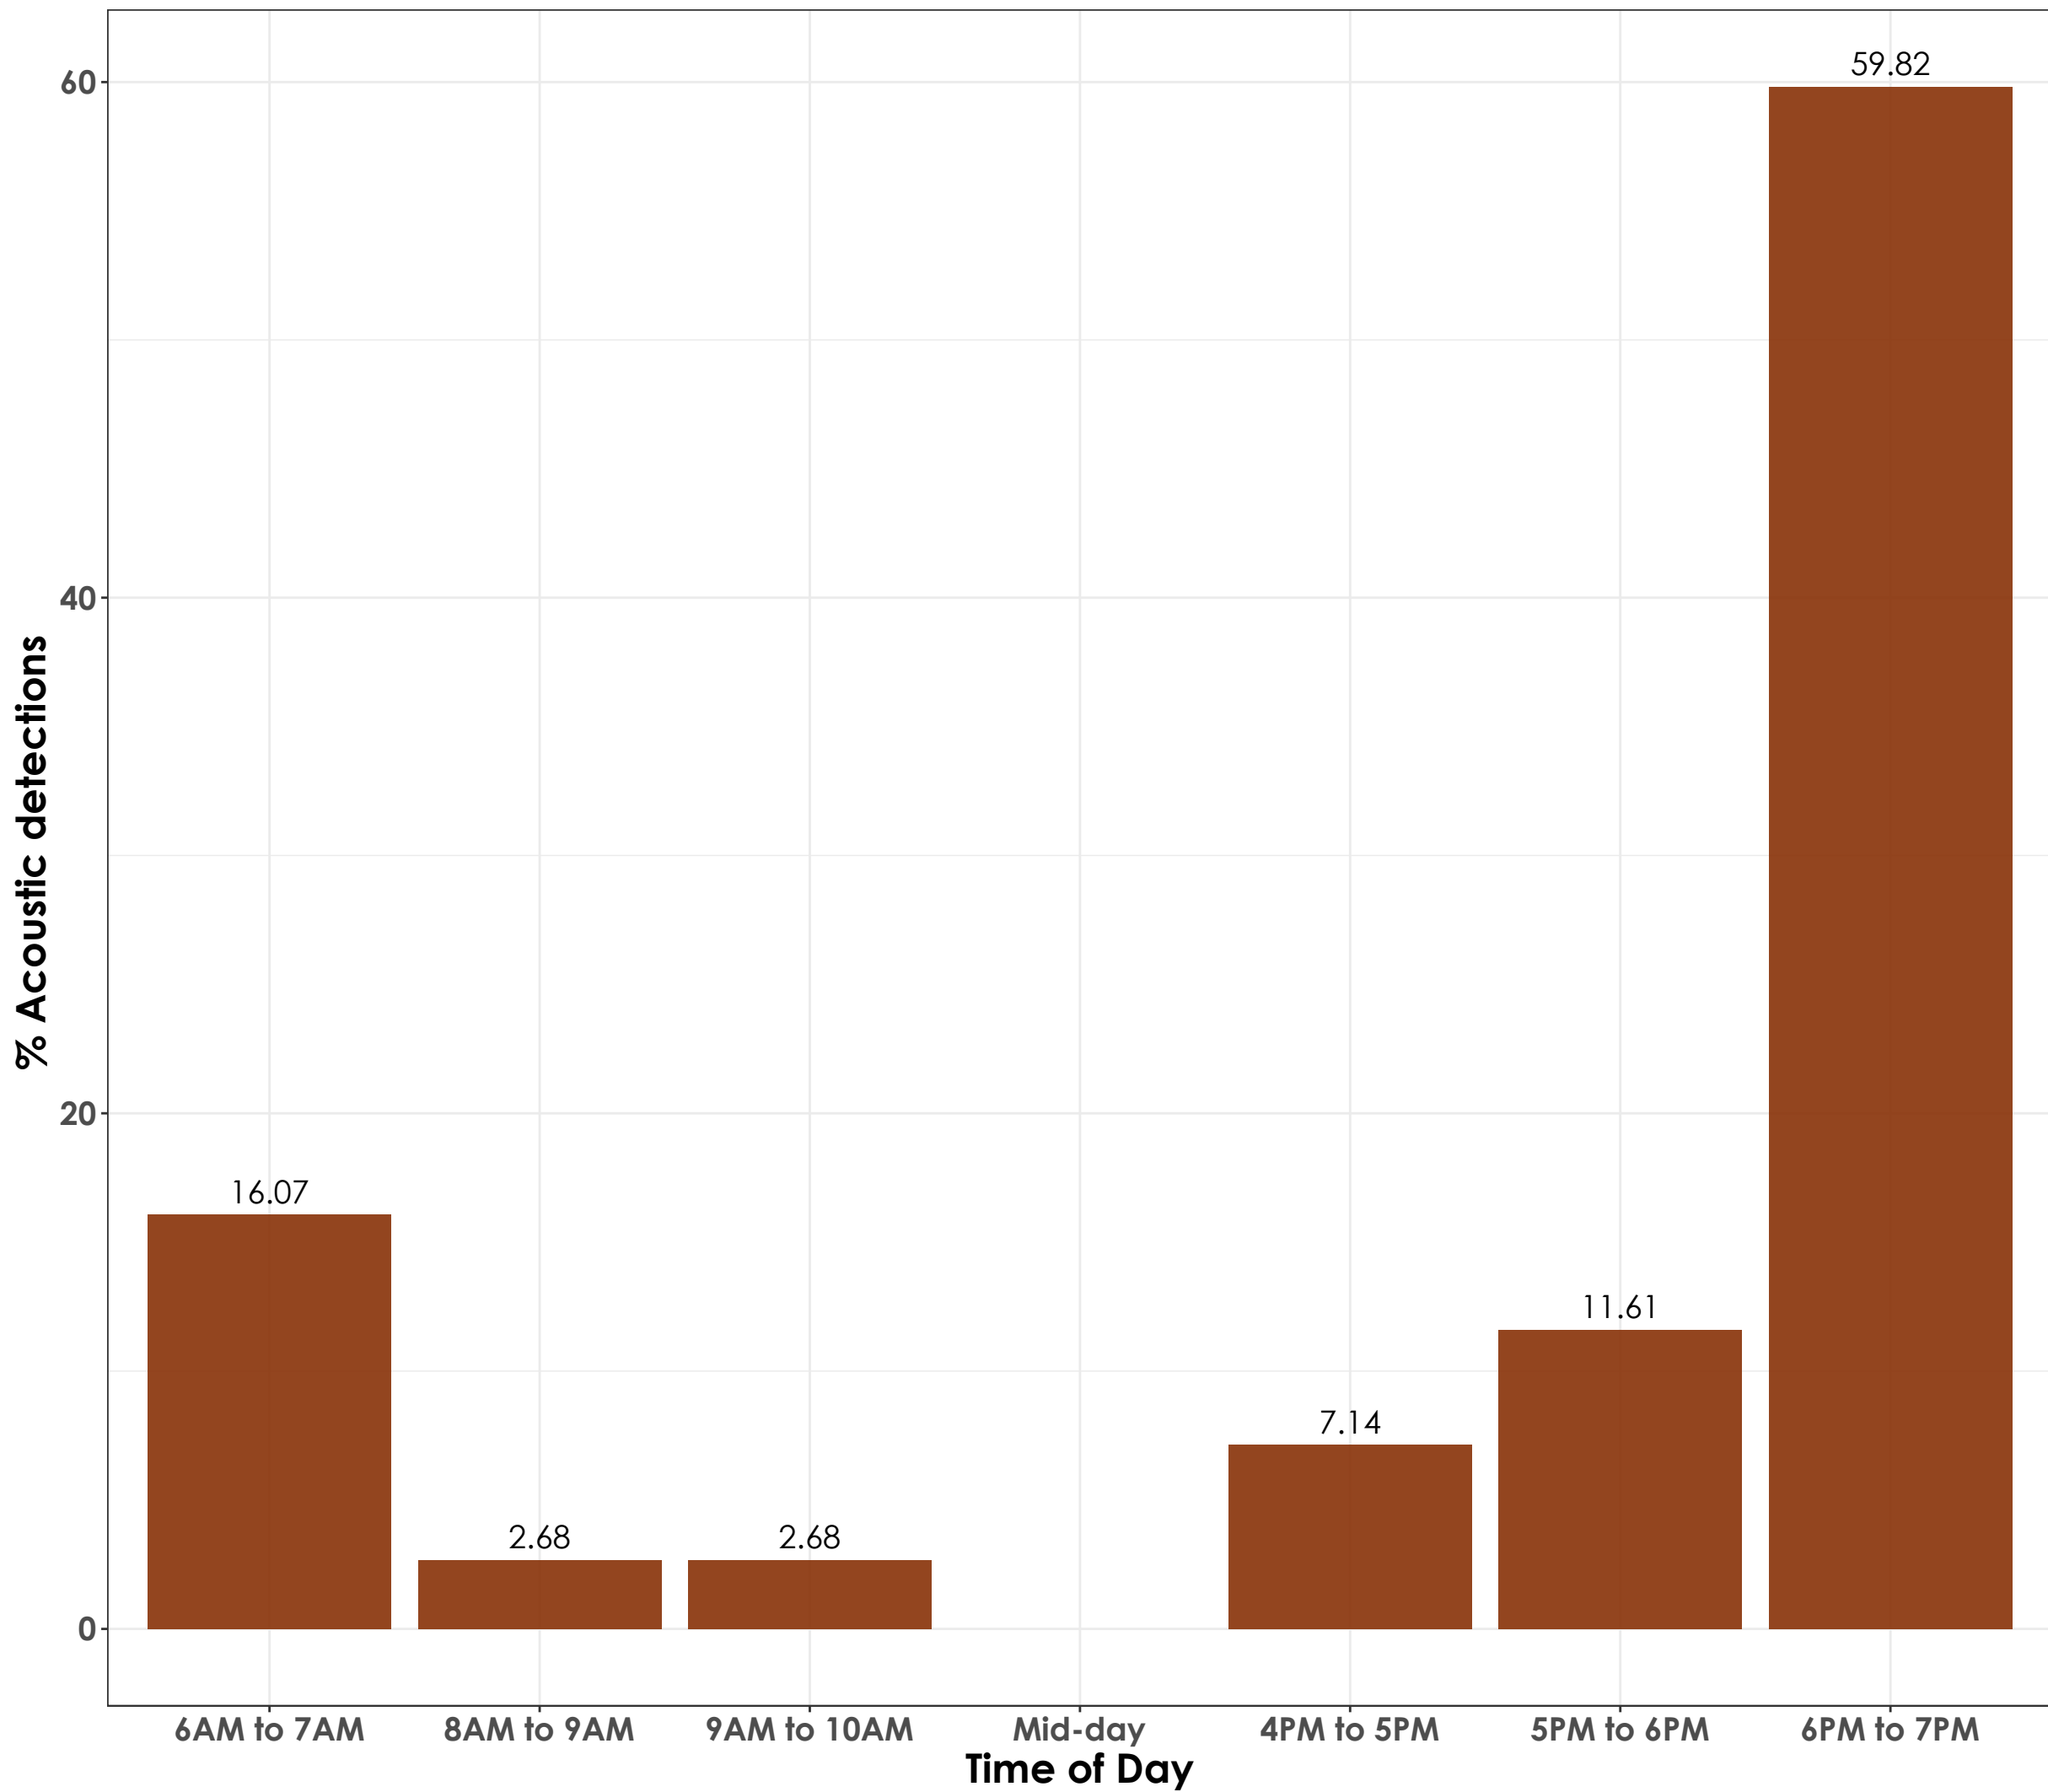

Asian Fairy-bluebird

Each bar represents the % of detections across dawn and dusk

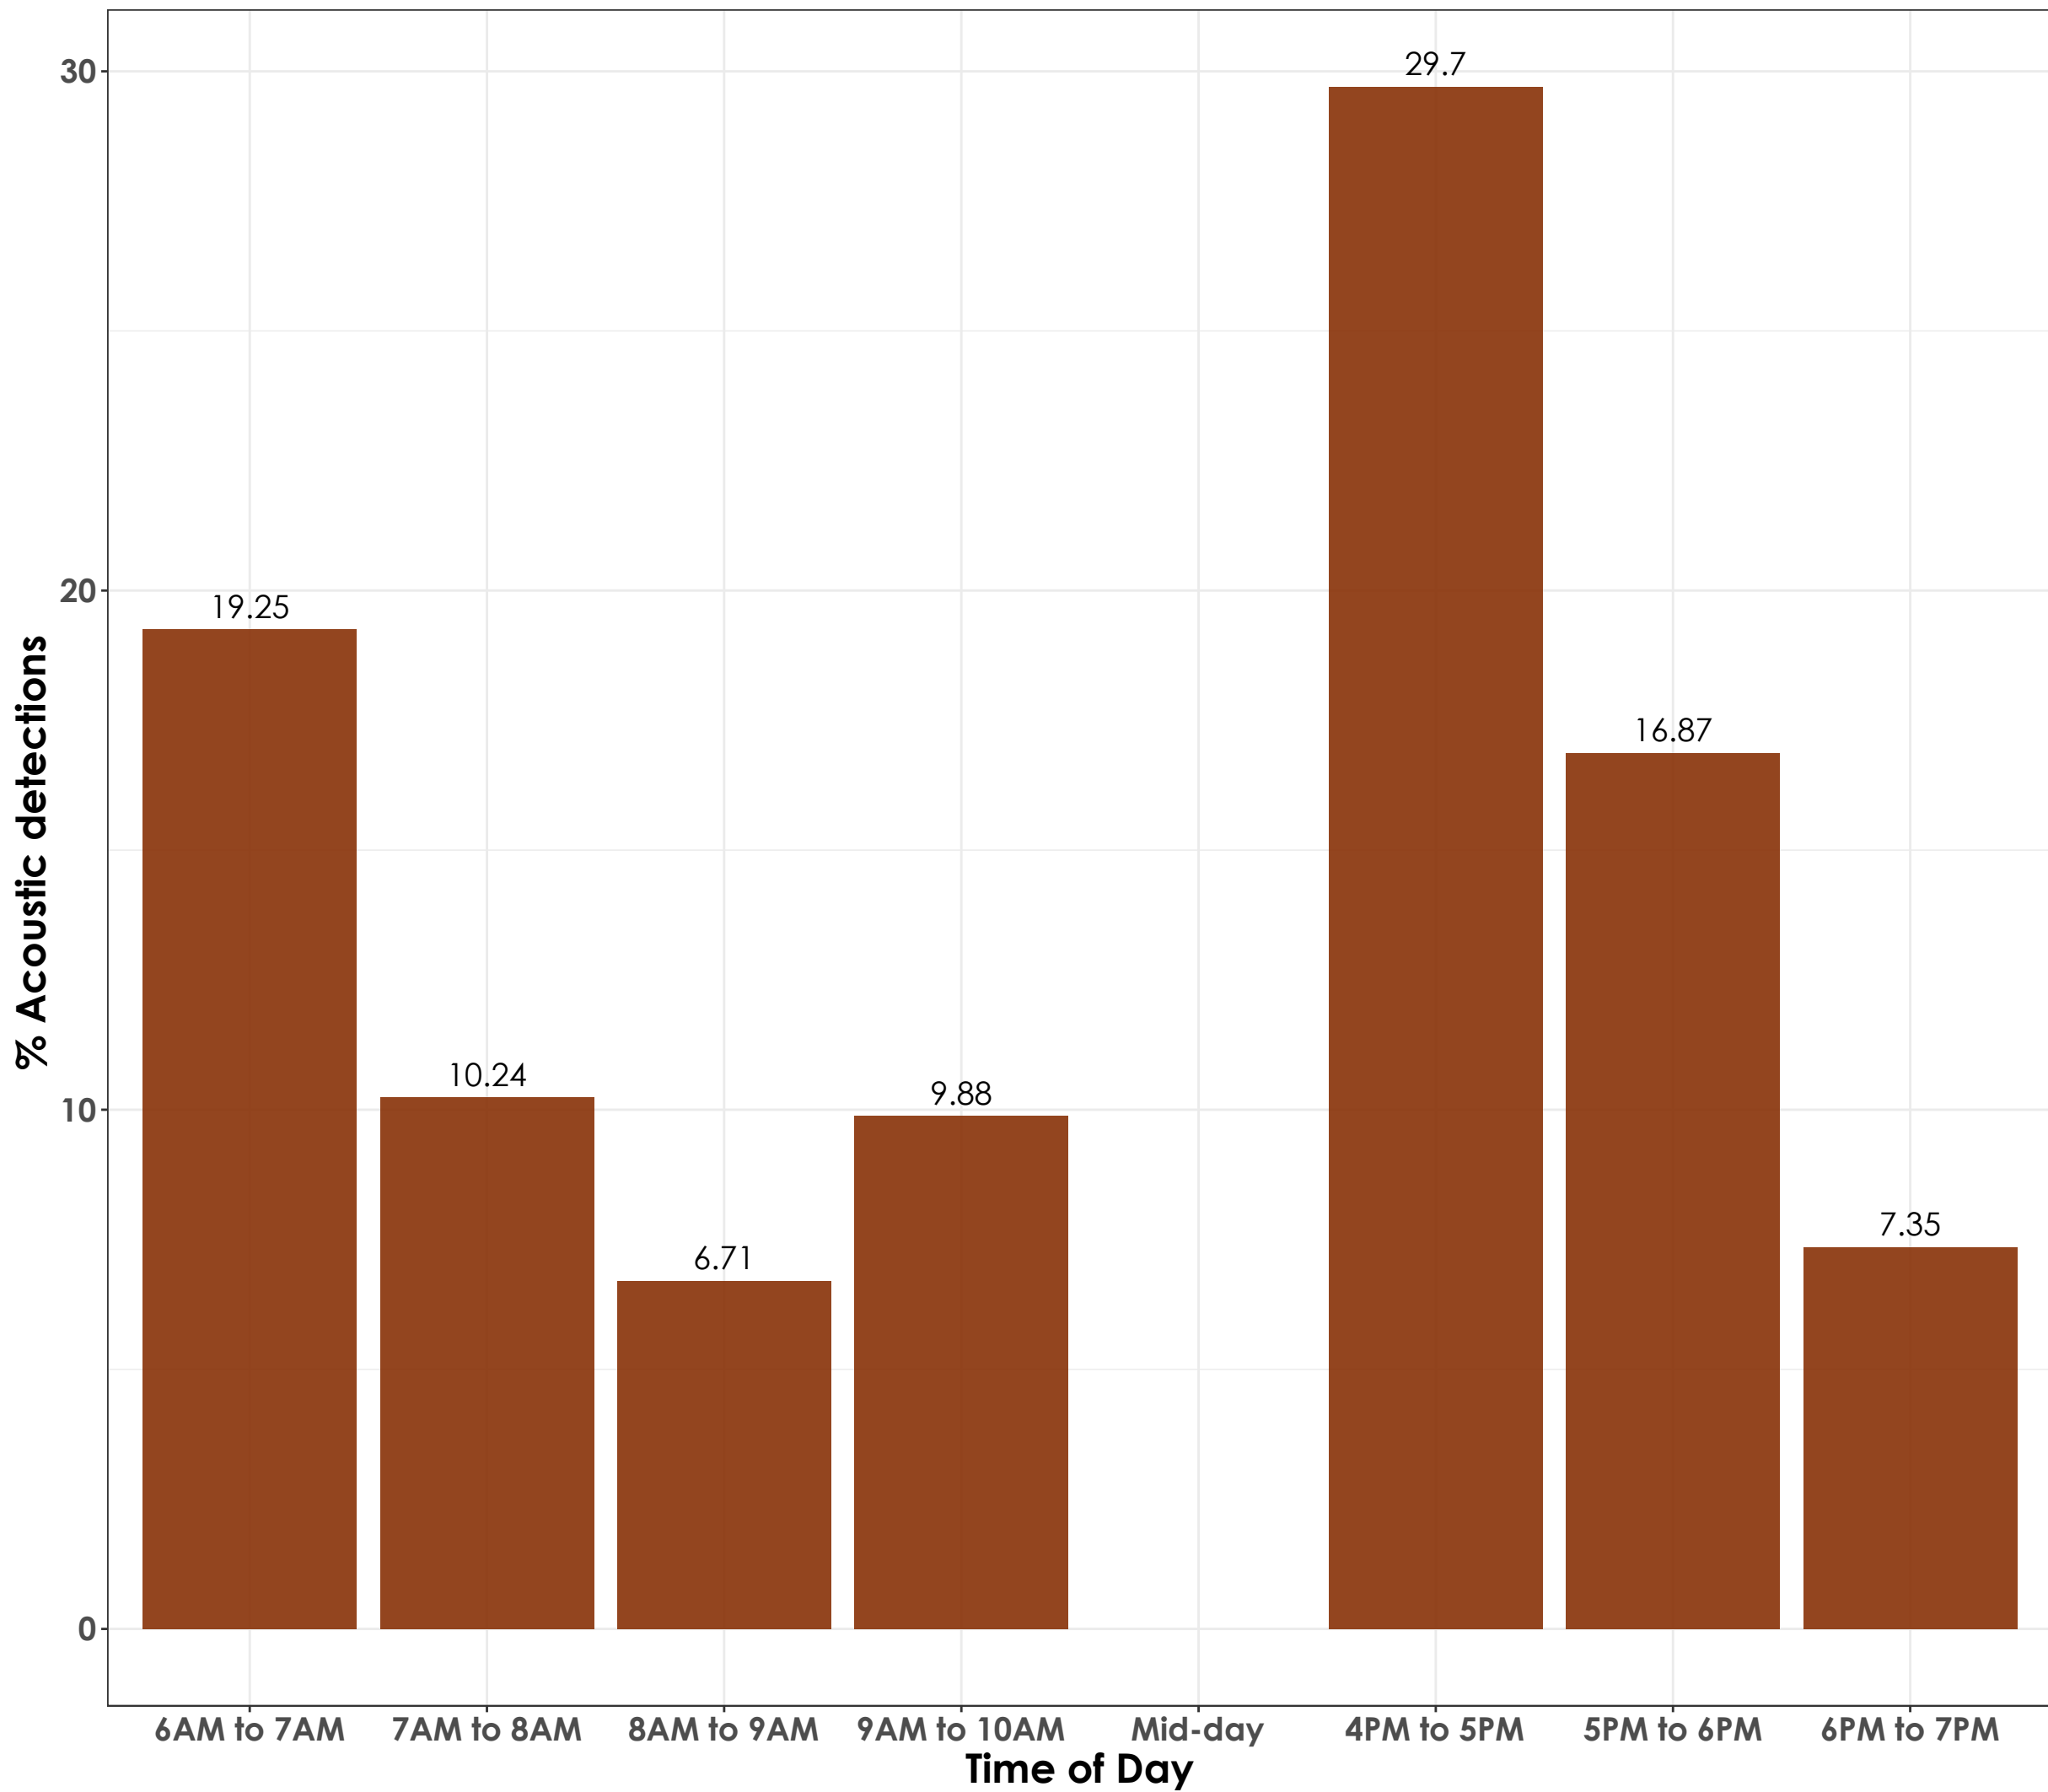

Indian Pitta

Each bar represents the % of detections across dawn and dusk

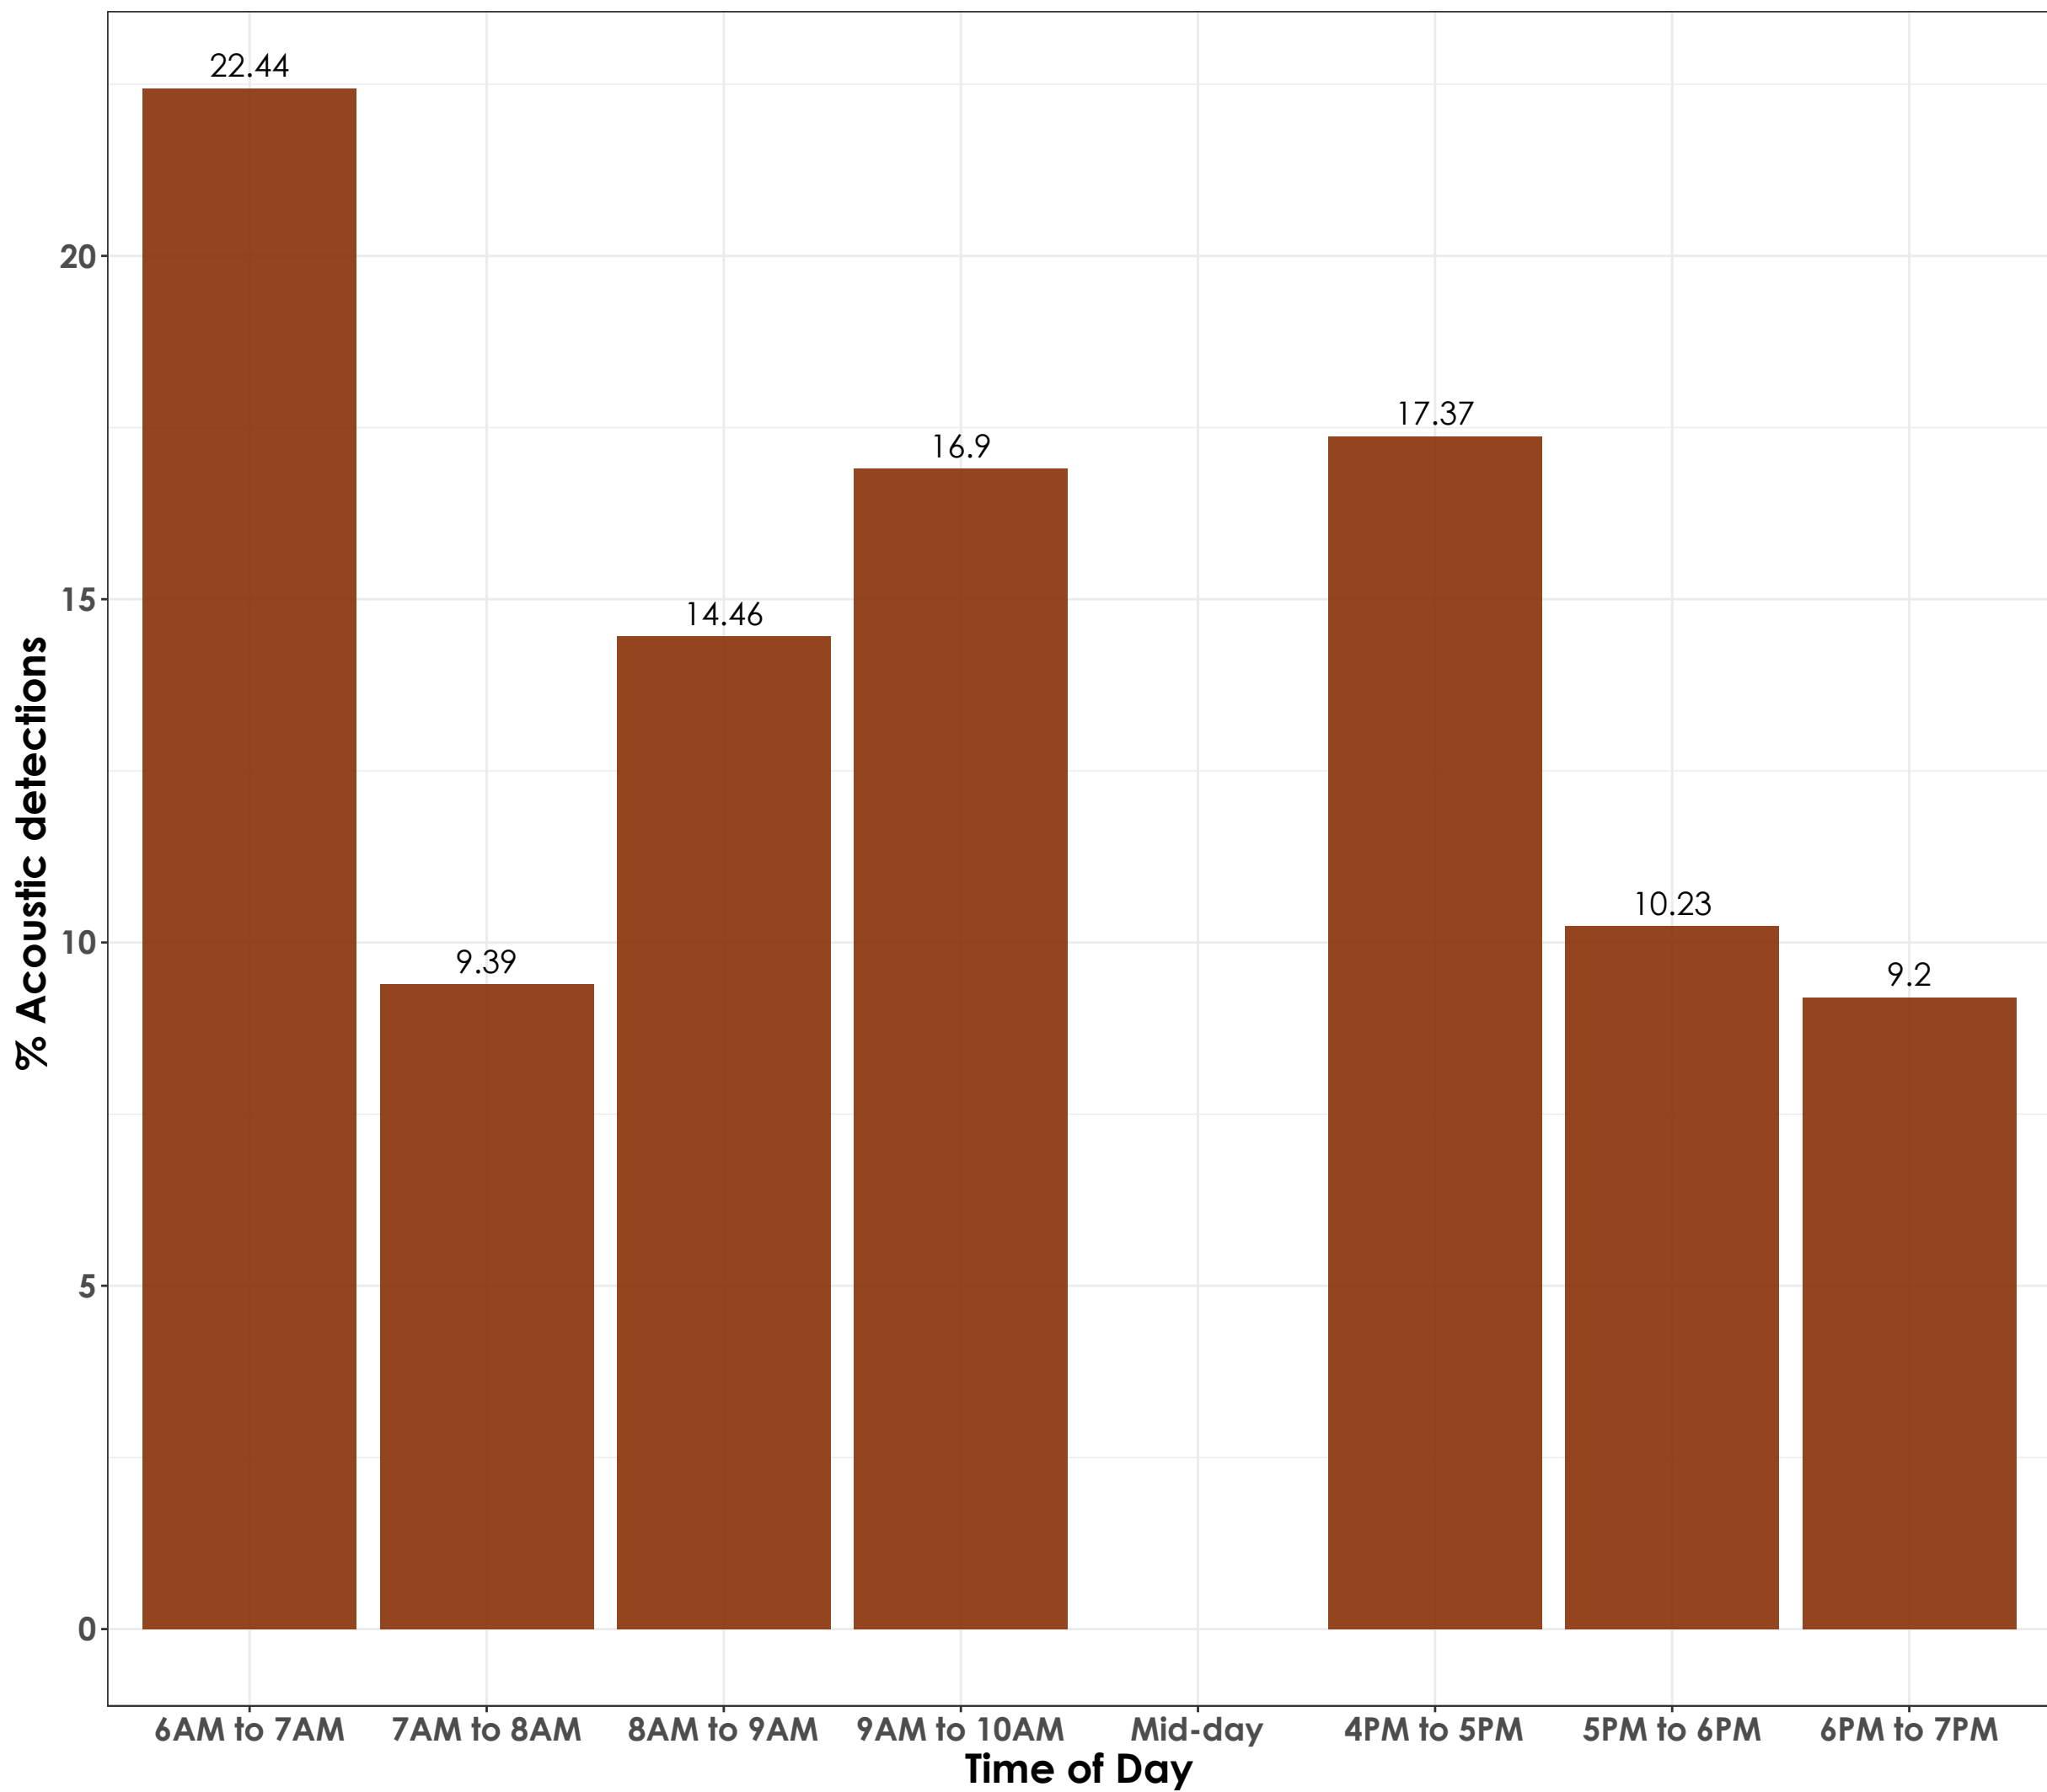

Asian Emerald Dove

Each bar represents the % of detections across dawn and dusk

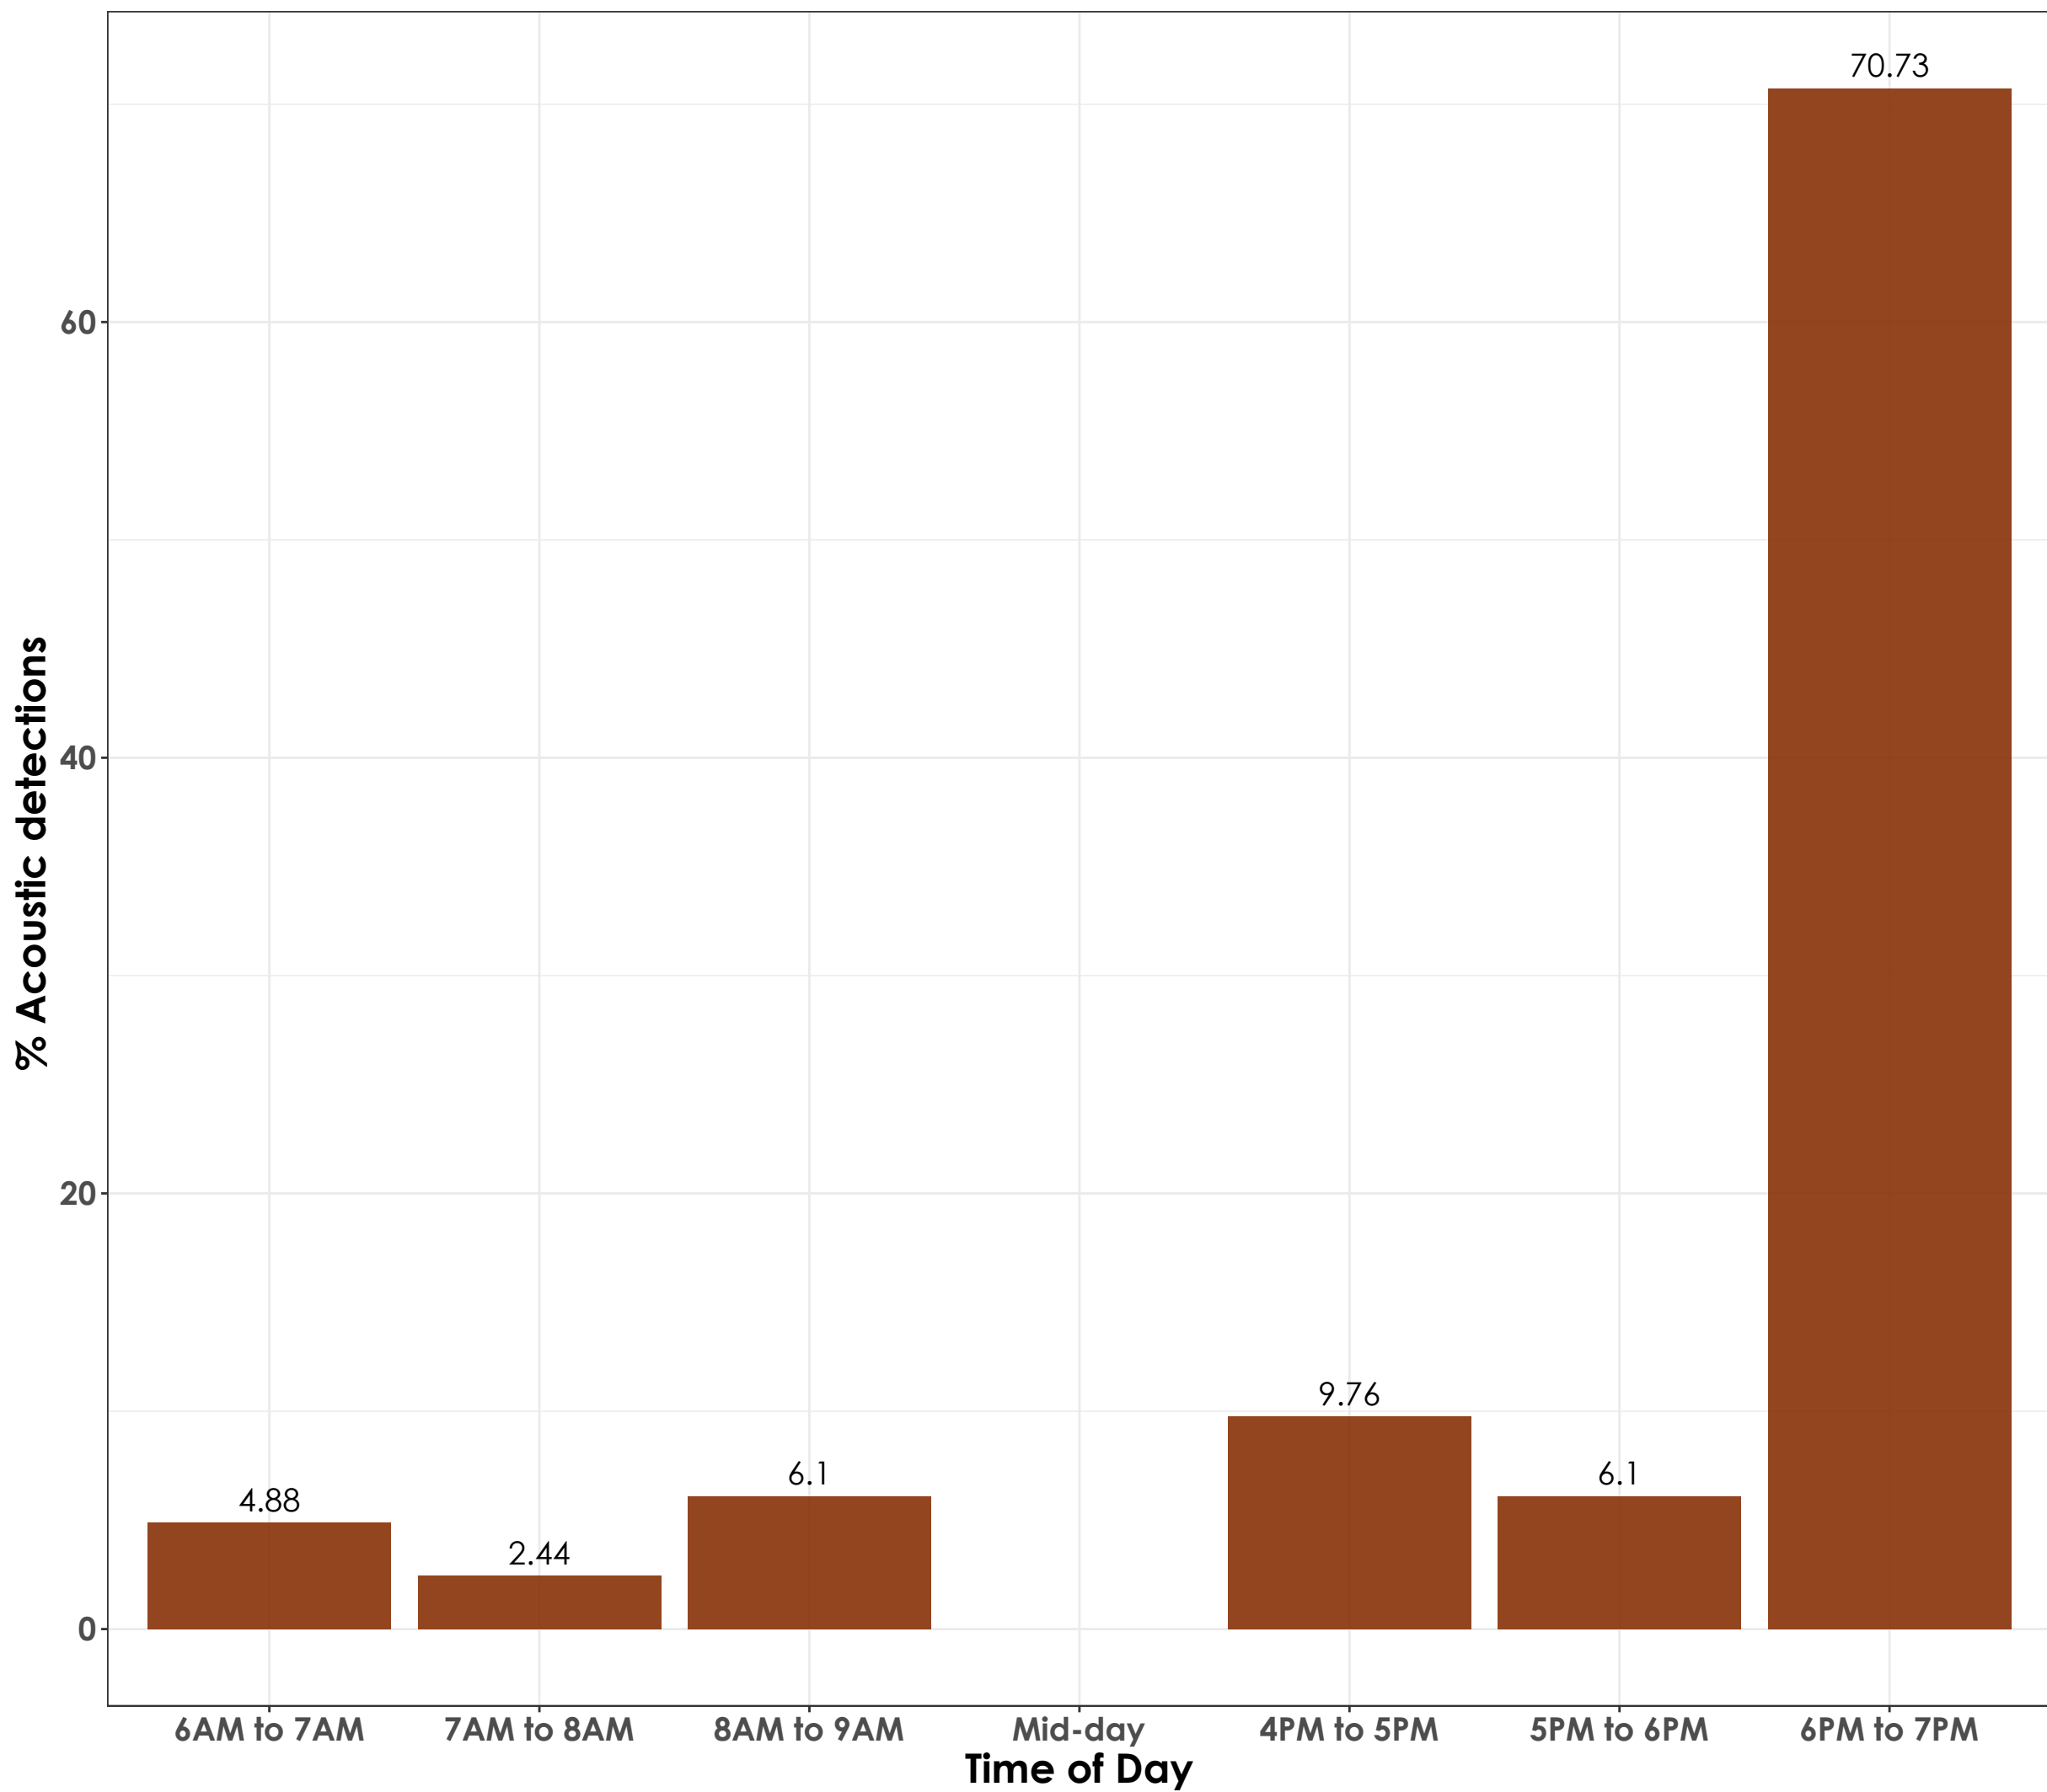

Black-naped Monarch

Each bar represents the % of detections across dawn and dusk

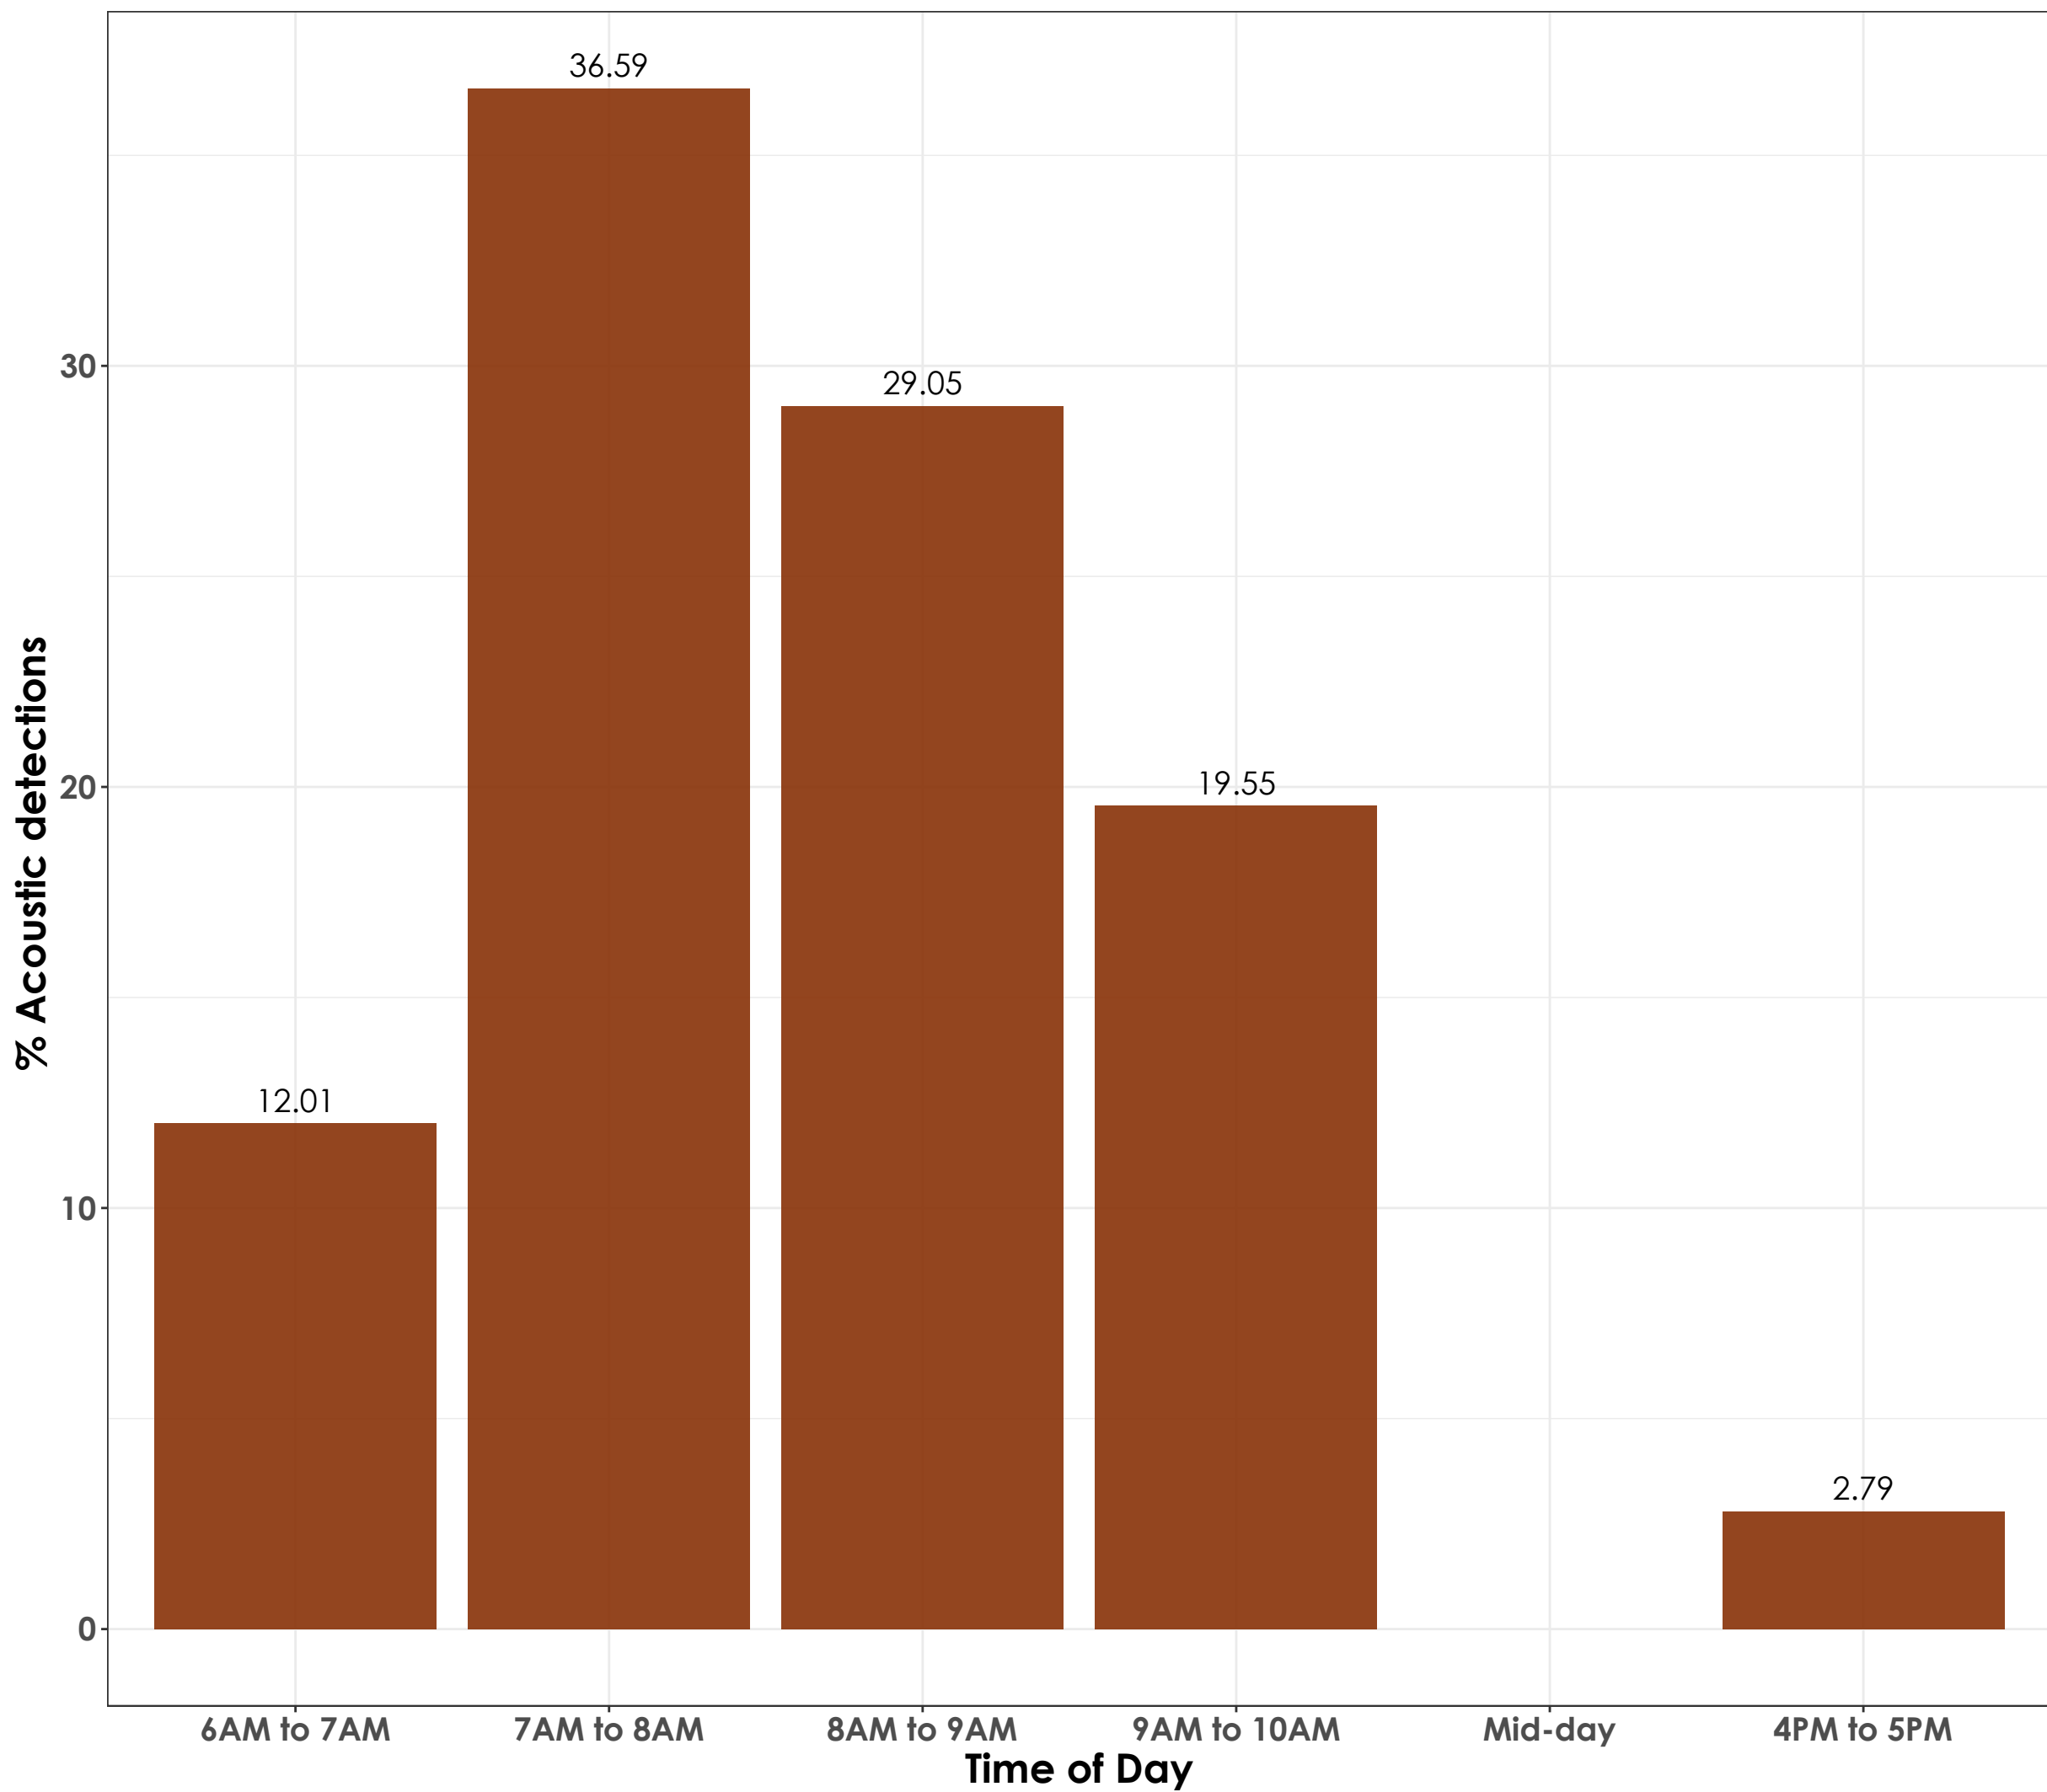

Spot-bellied Eagle-Owl

Each bar represents the % of detections across dawn and dusk

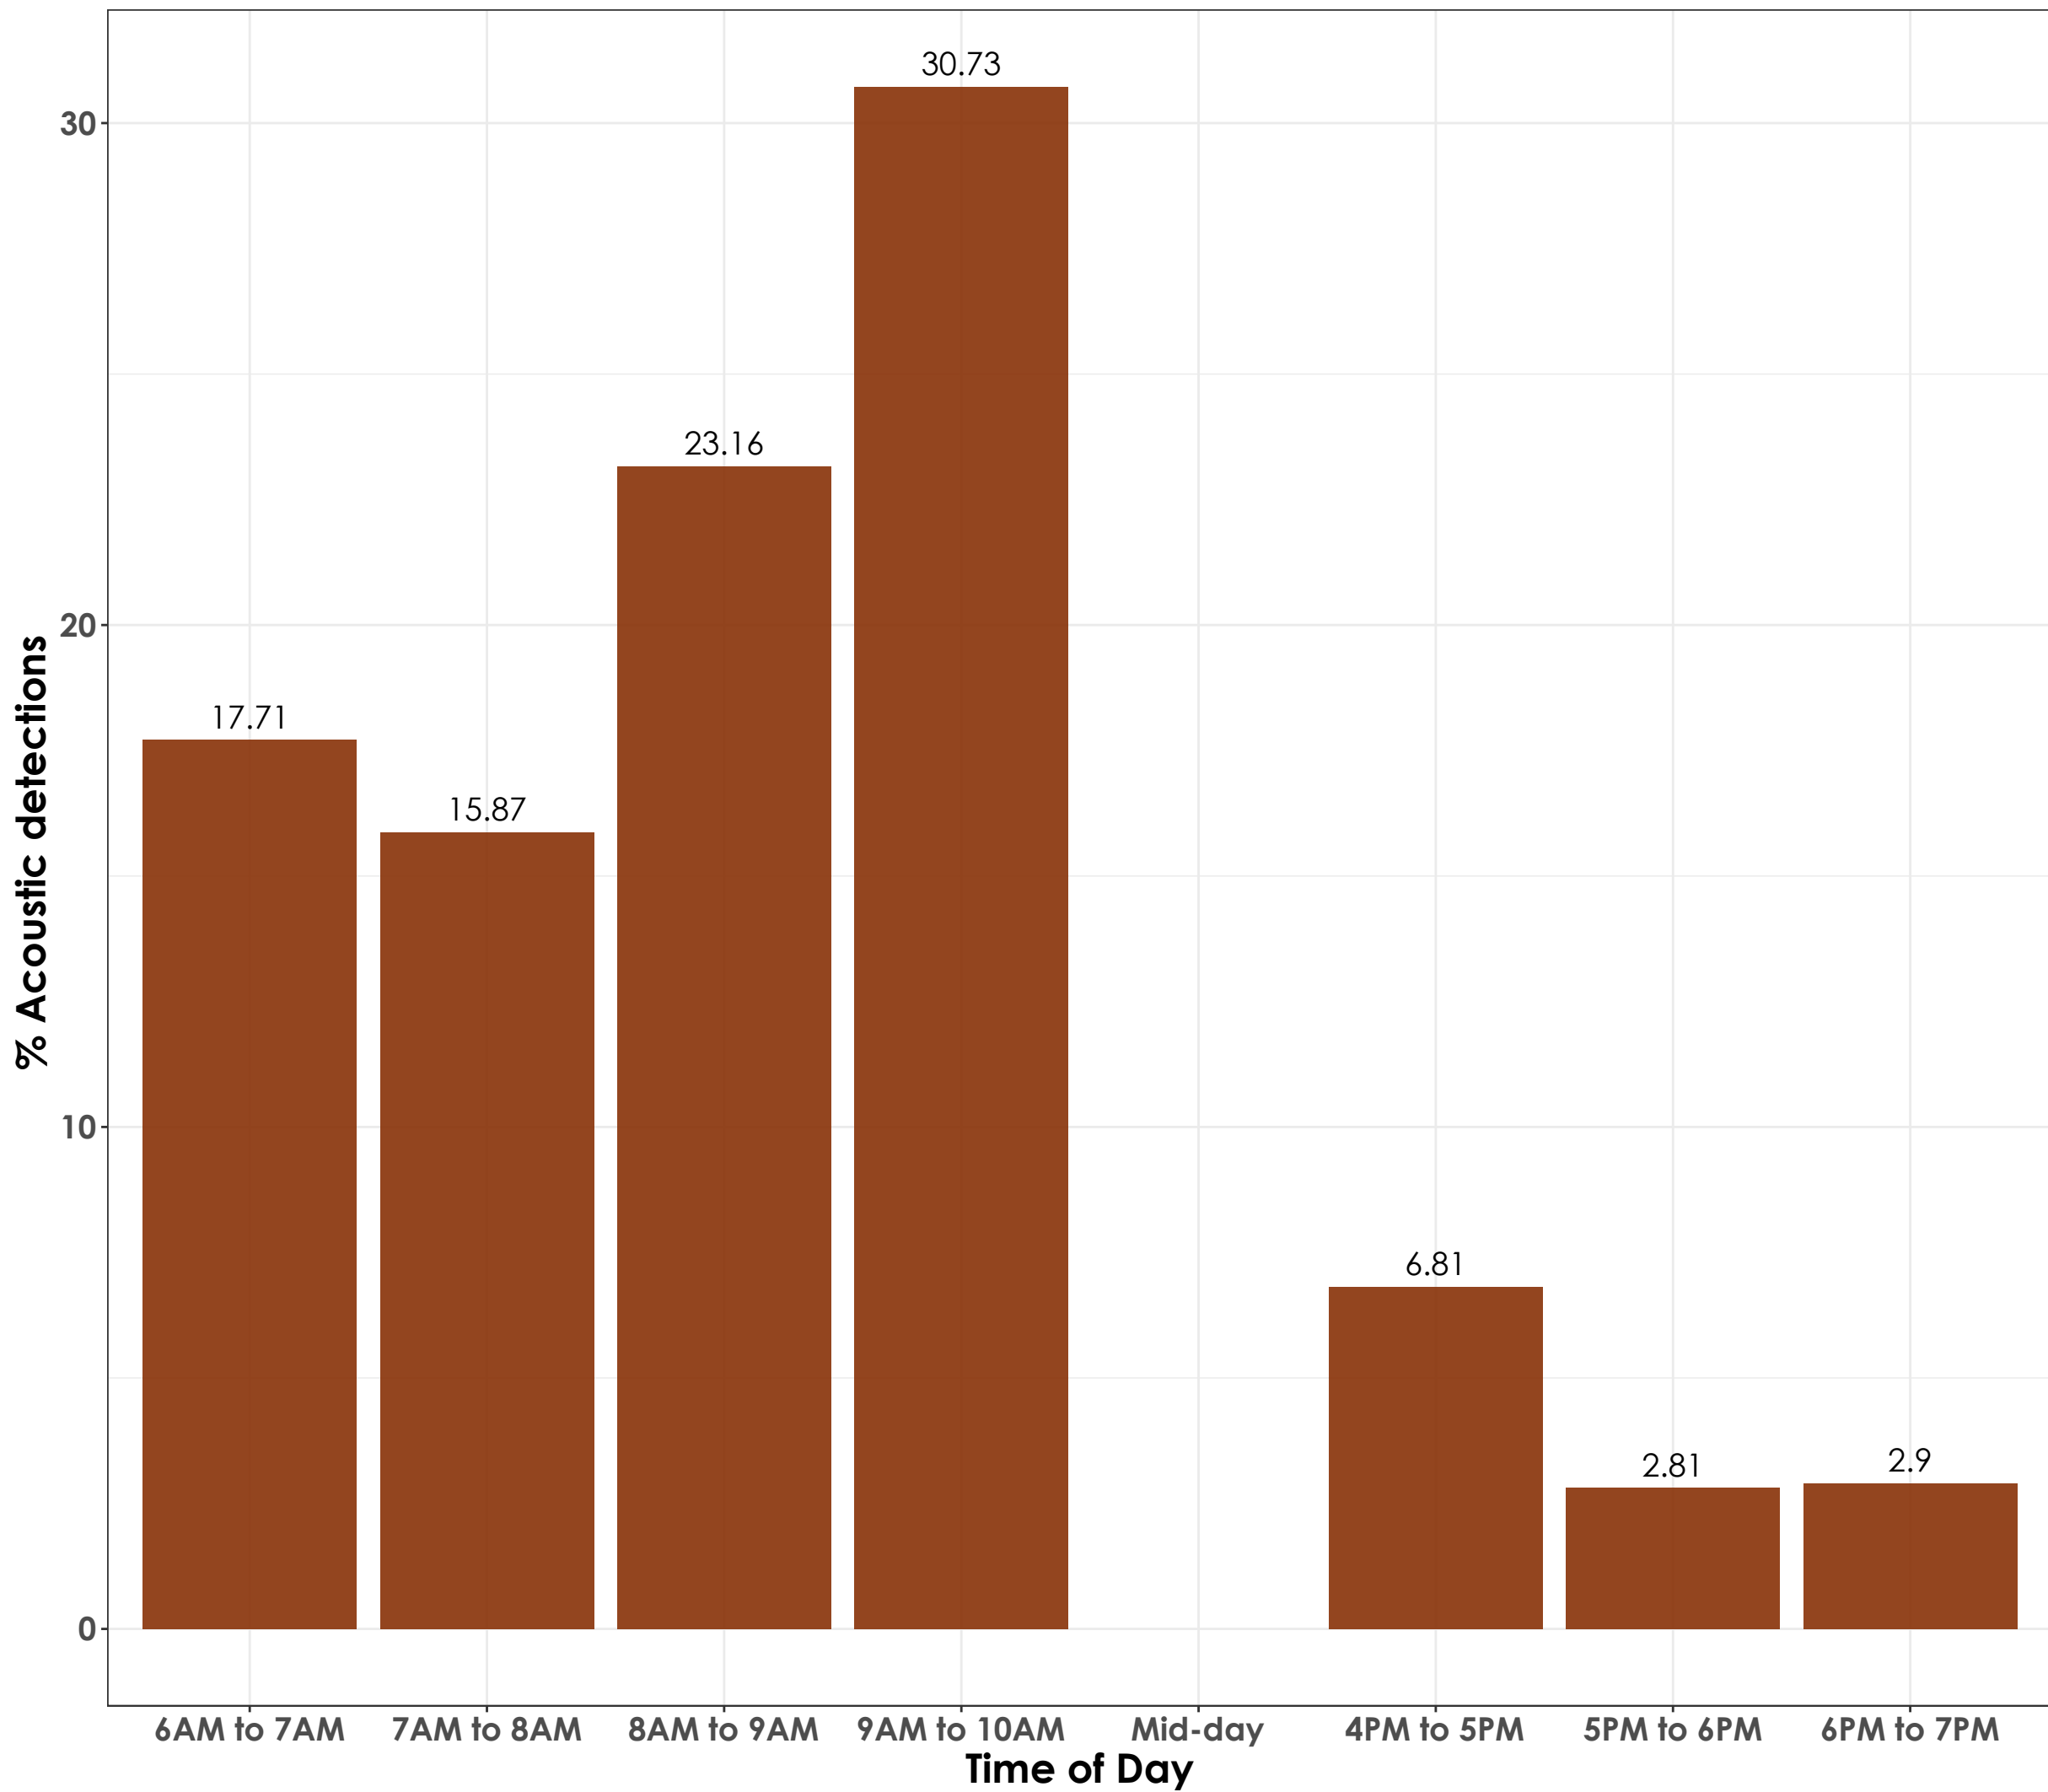

White-throated Kingfisher

Each bar represents the % of detections across dawn and dusk

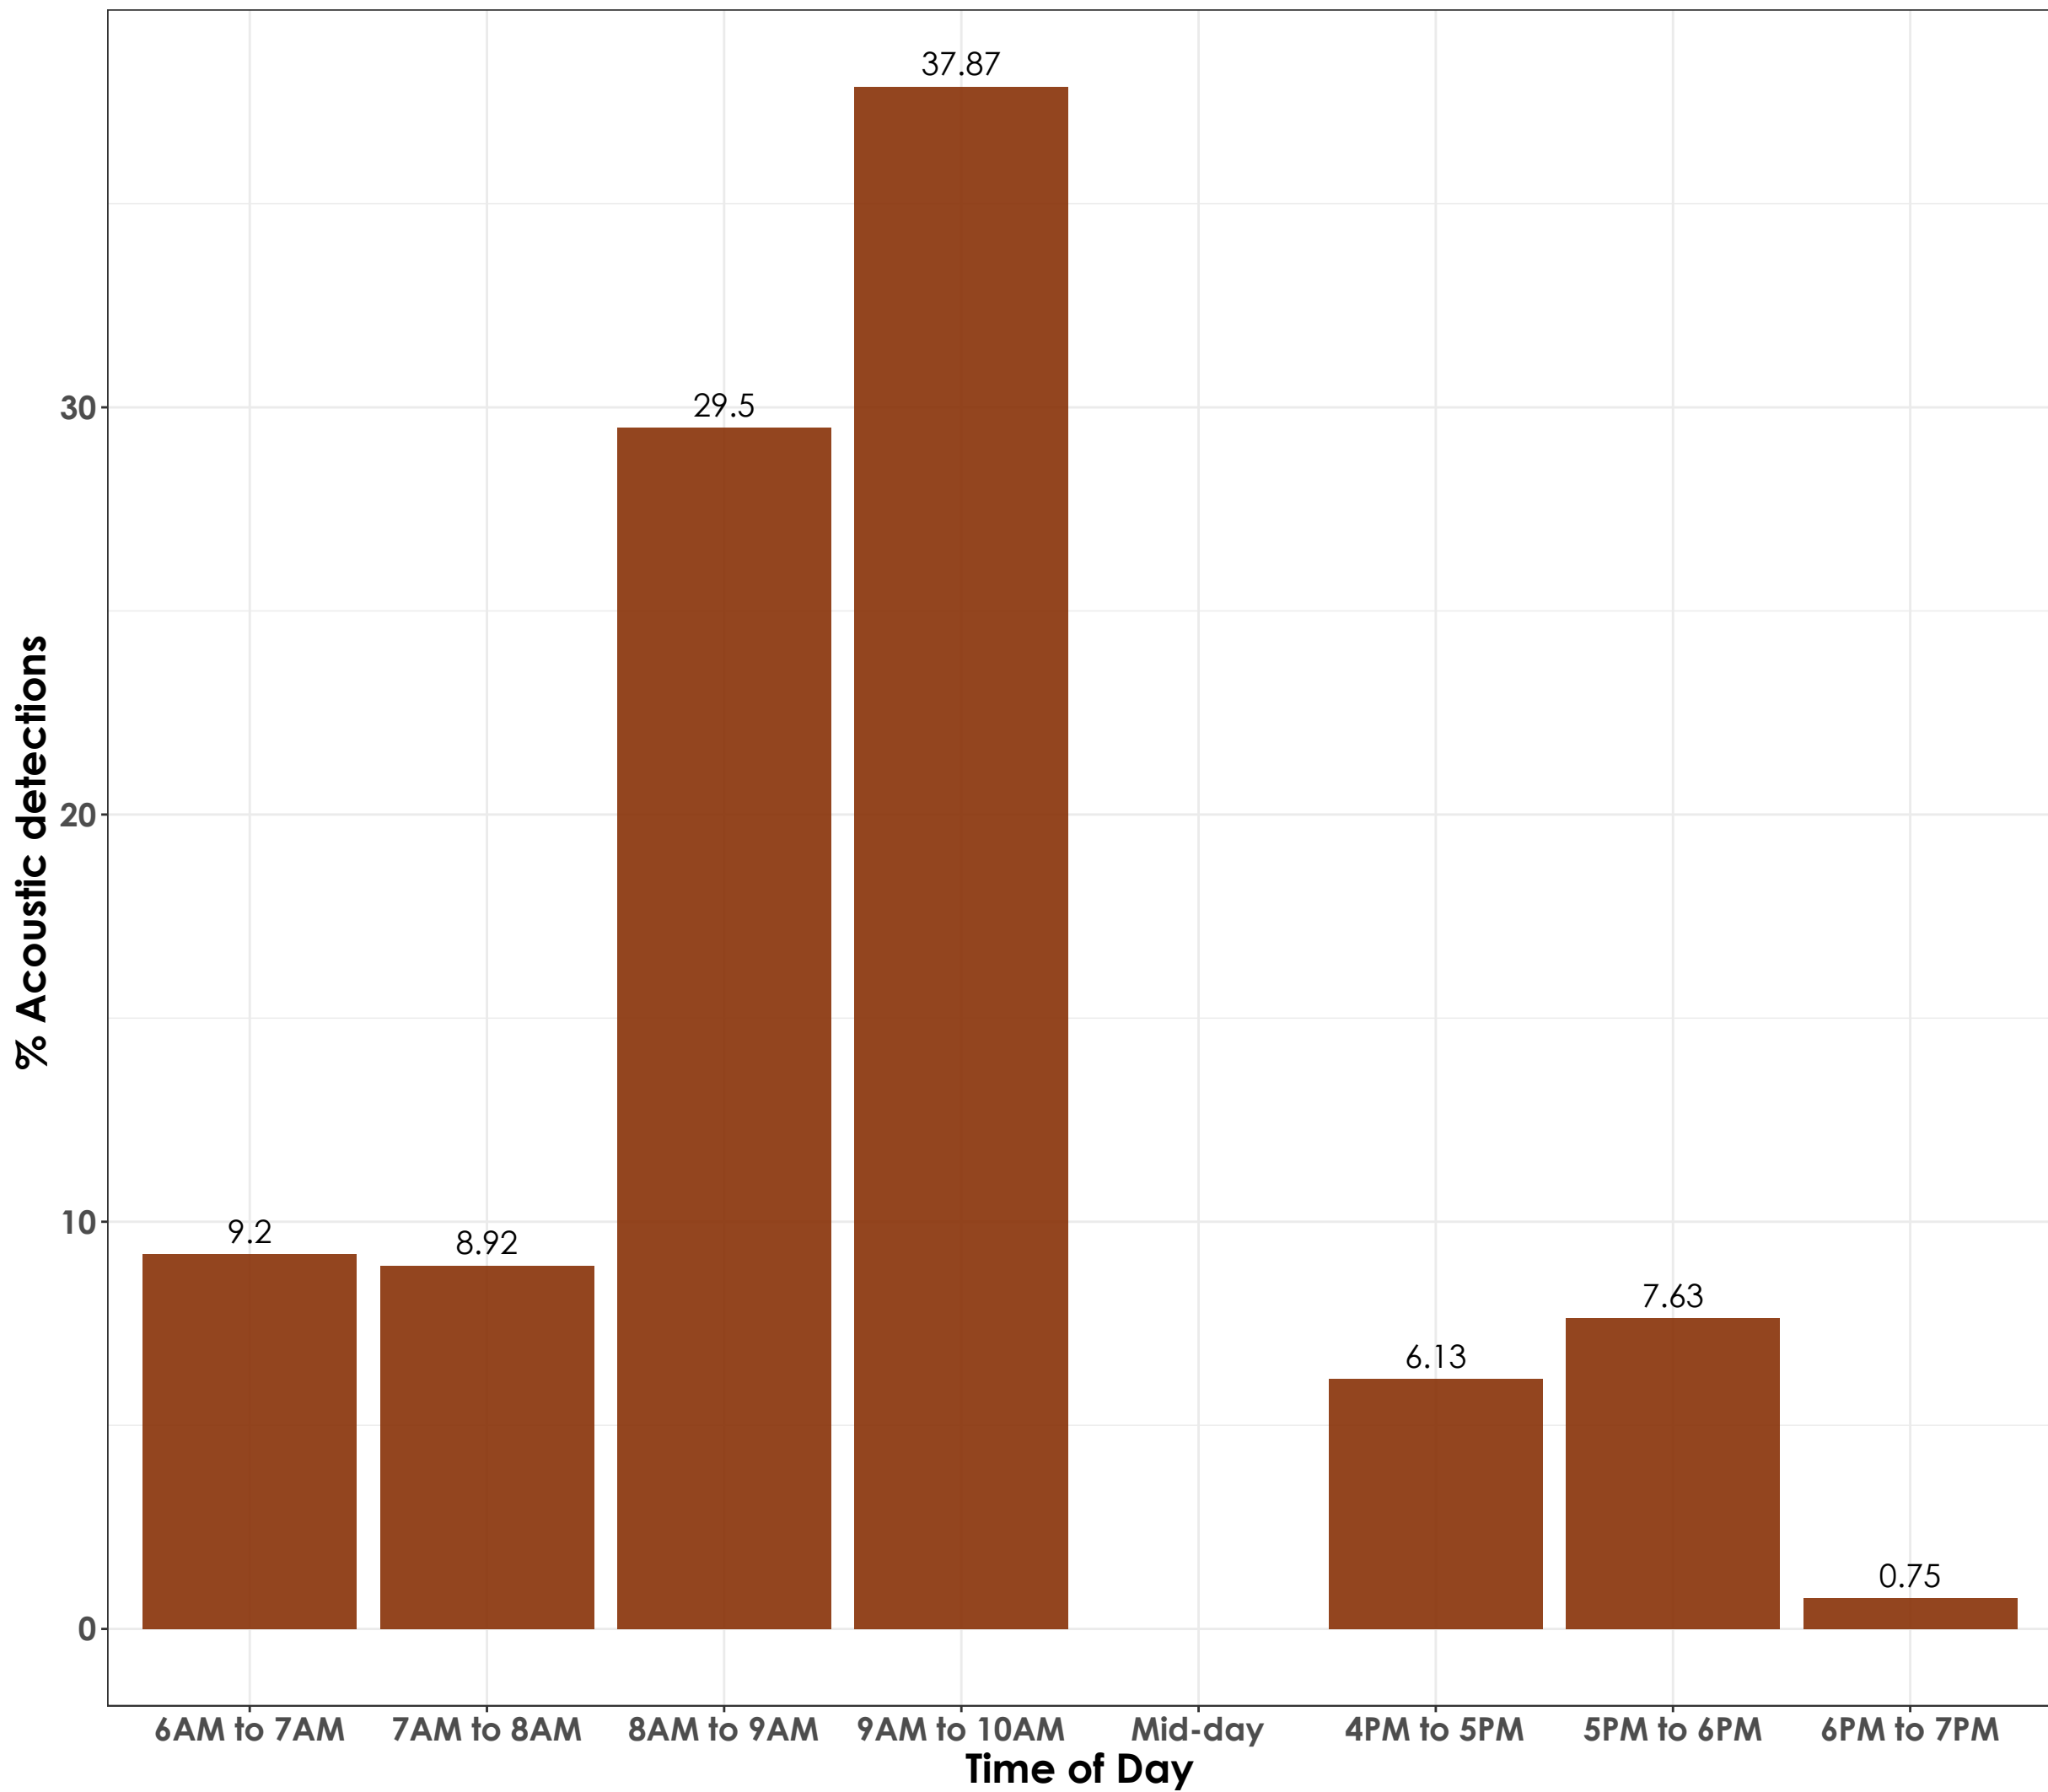

Brown-cheeked Fulvetta

Each bar represents the % of detections across dawn and dusk

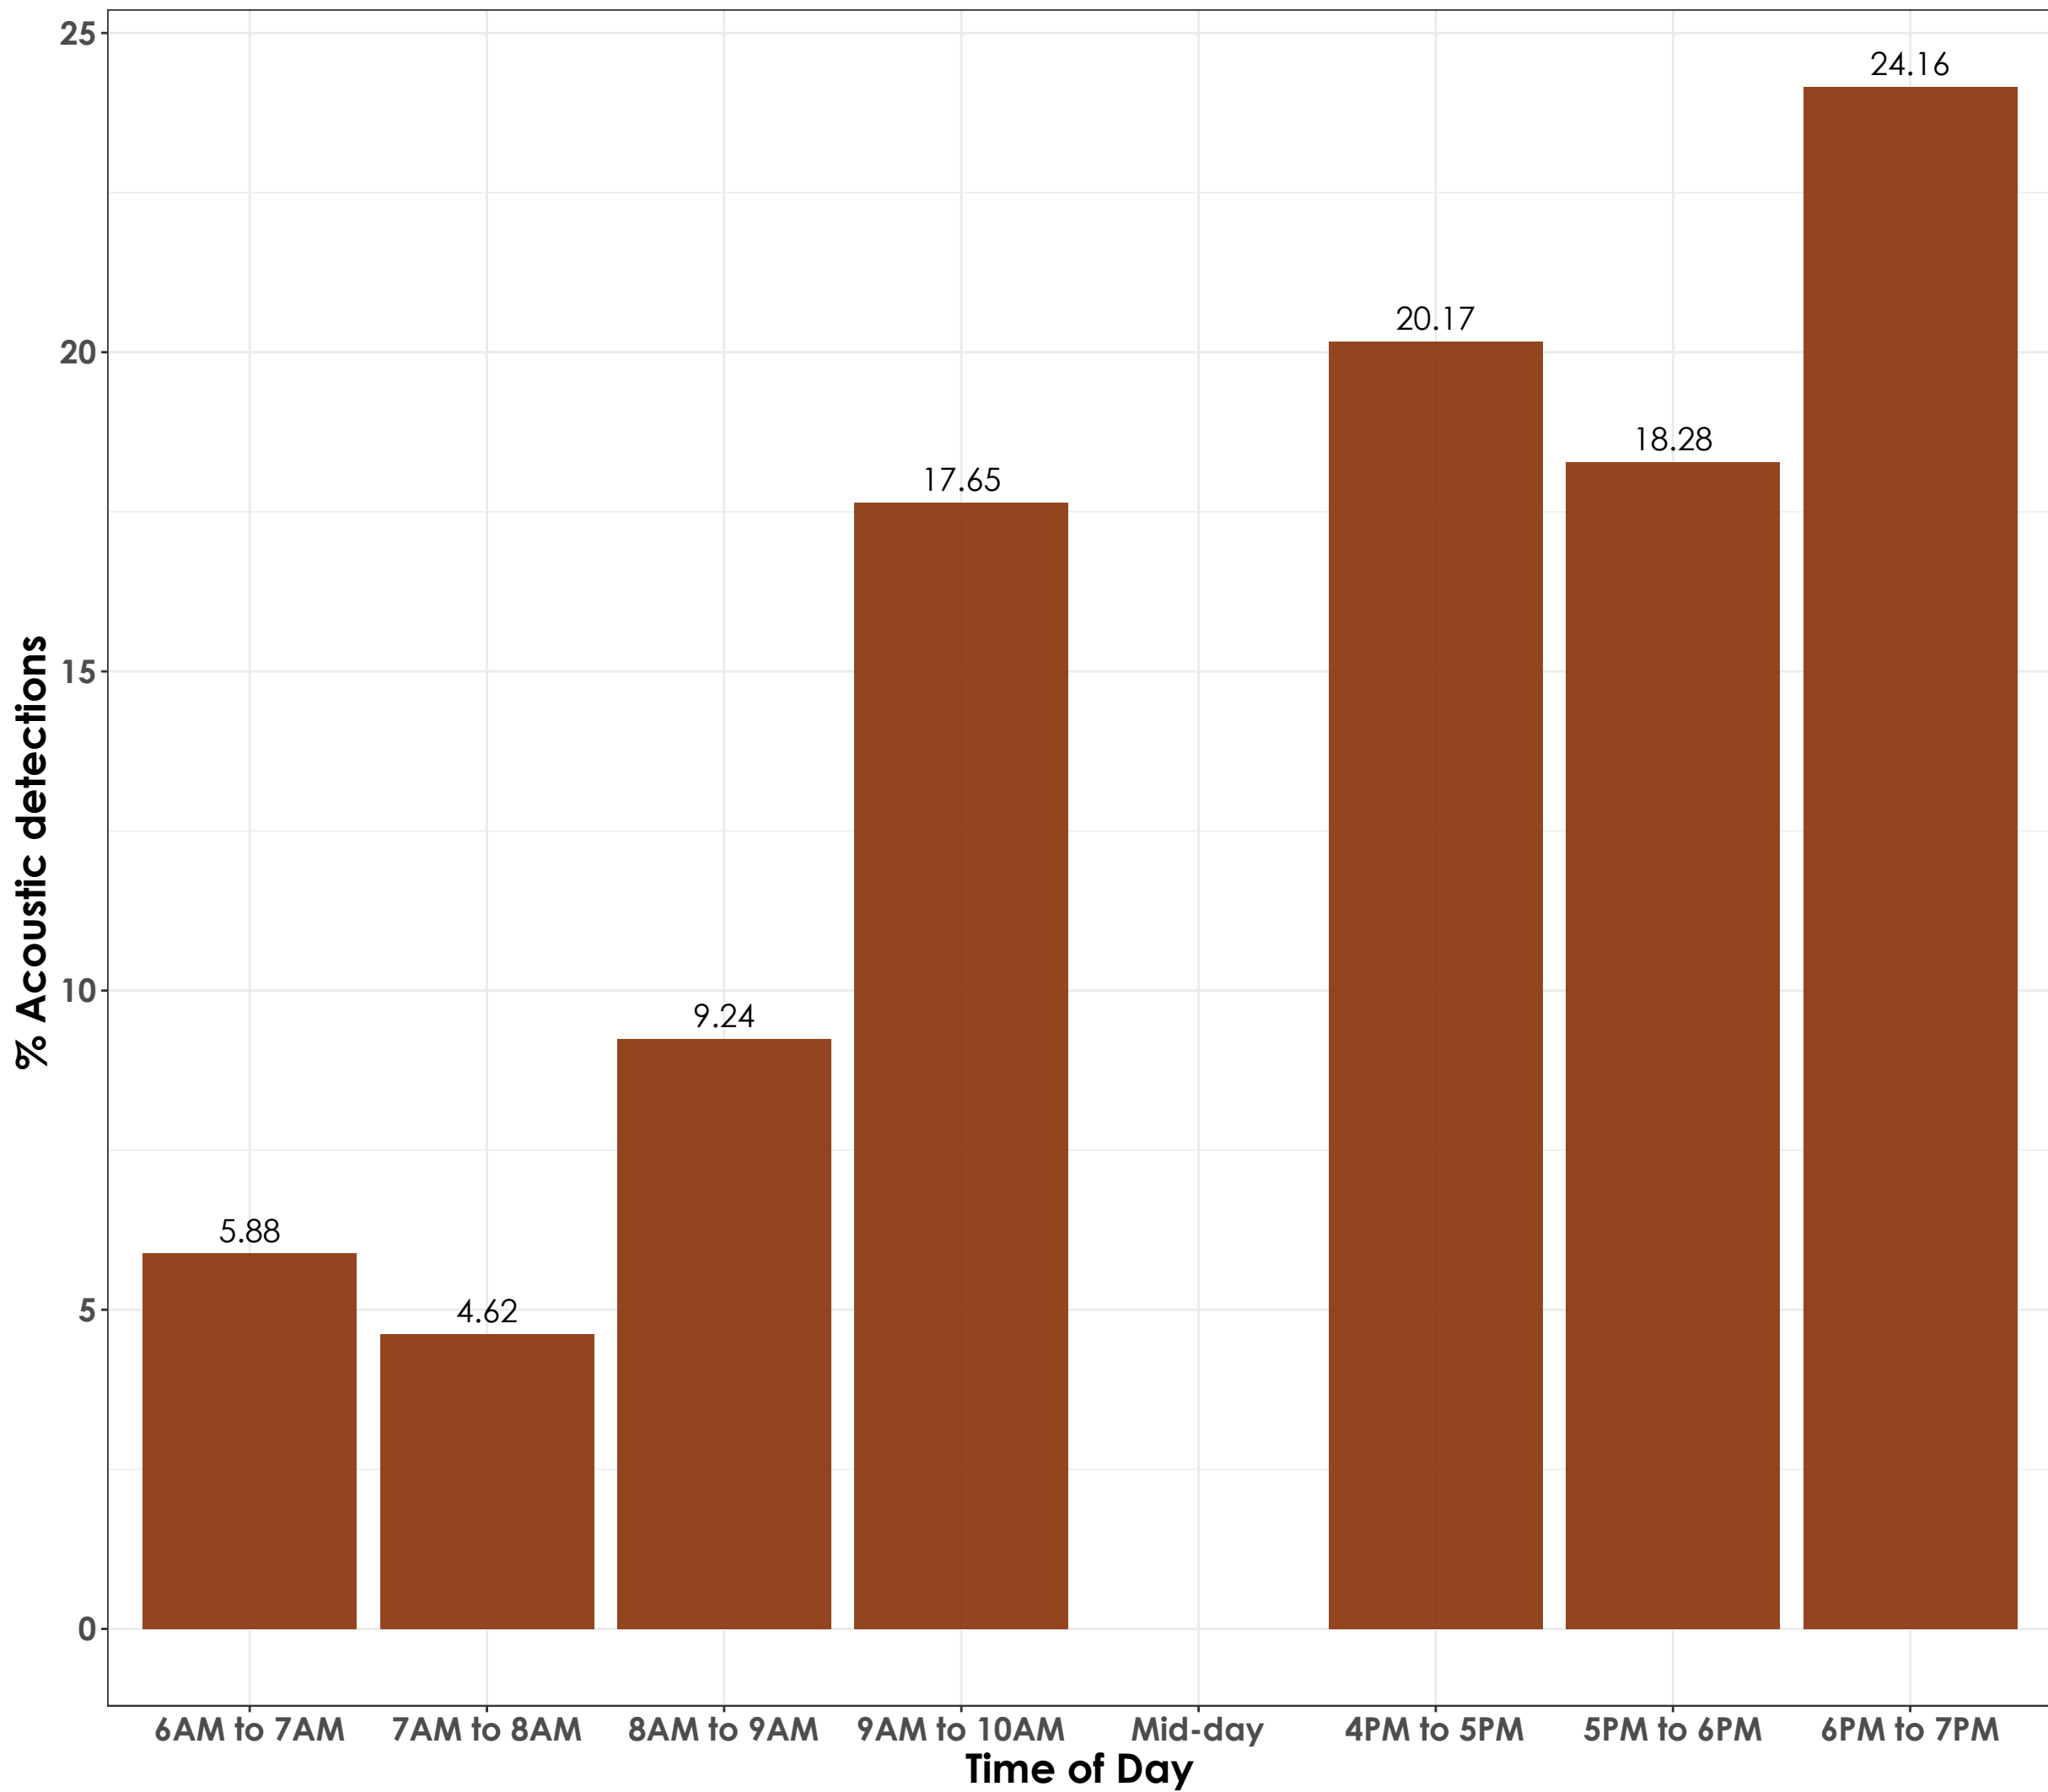

Orange Minivet

Each bar represents the % of detections across dawn and dusk

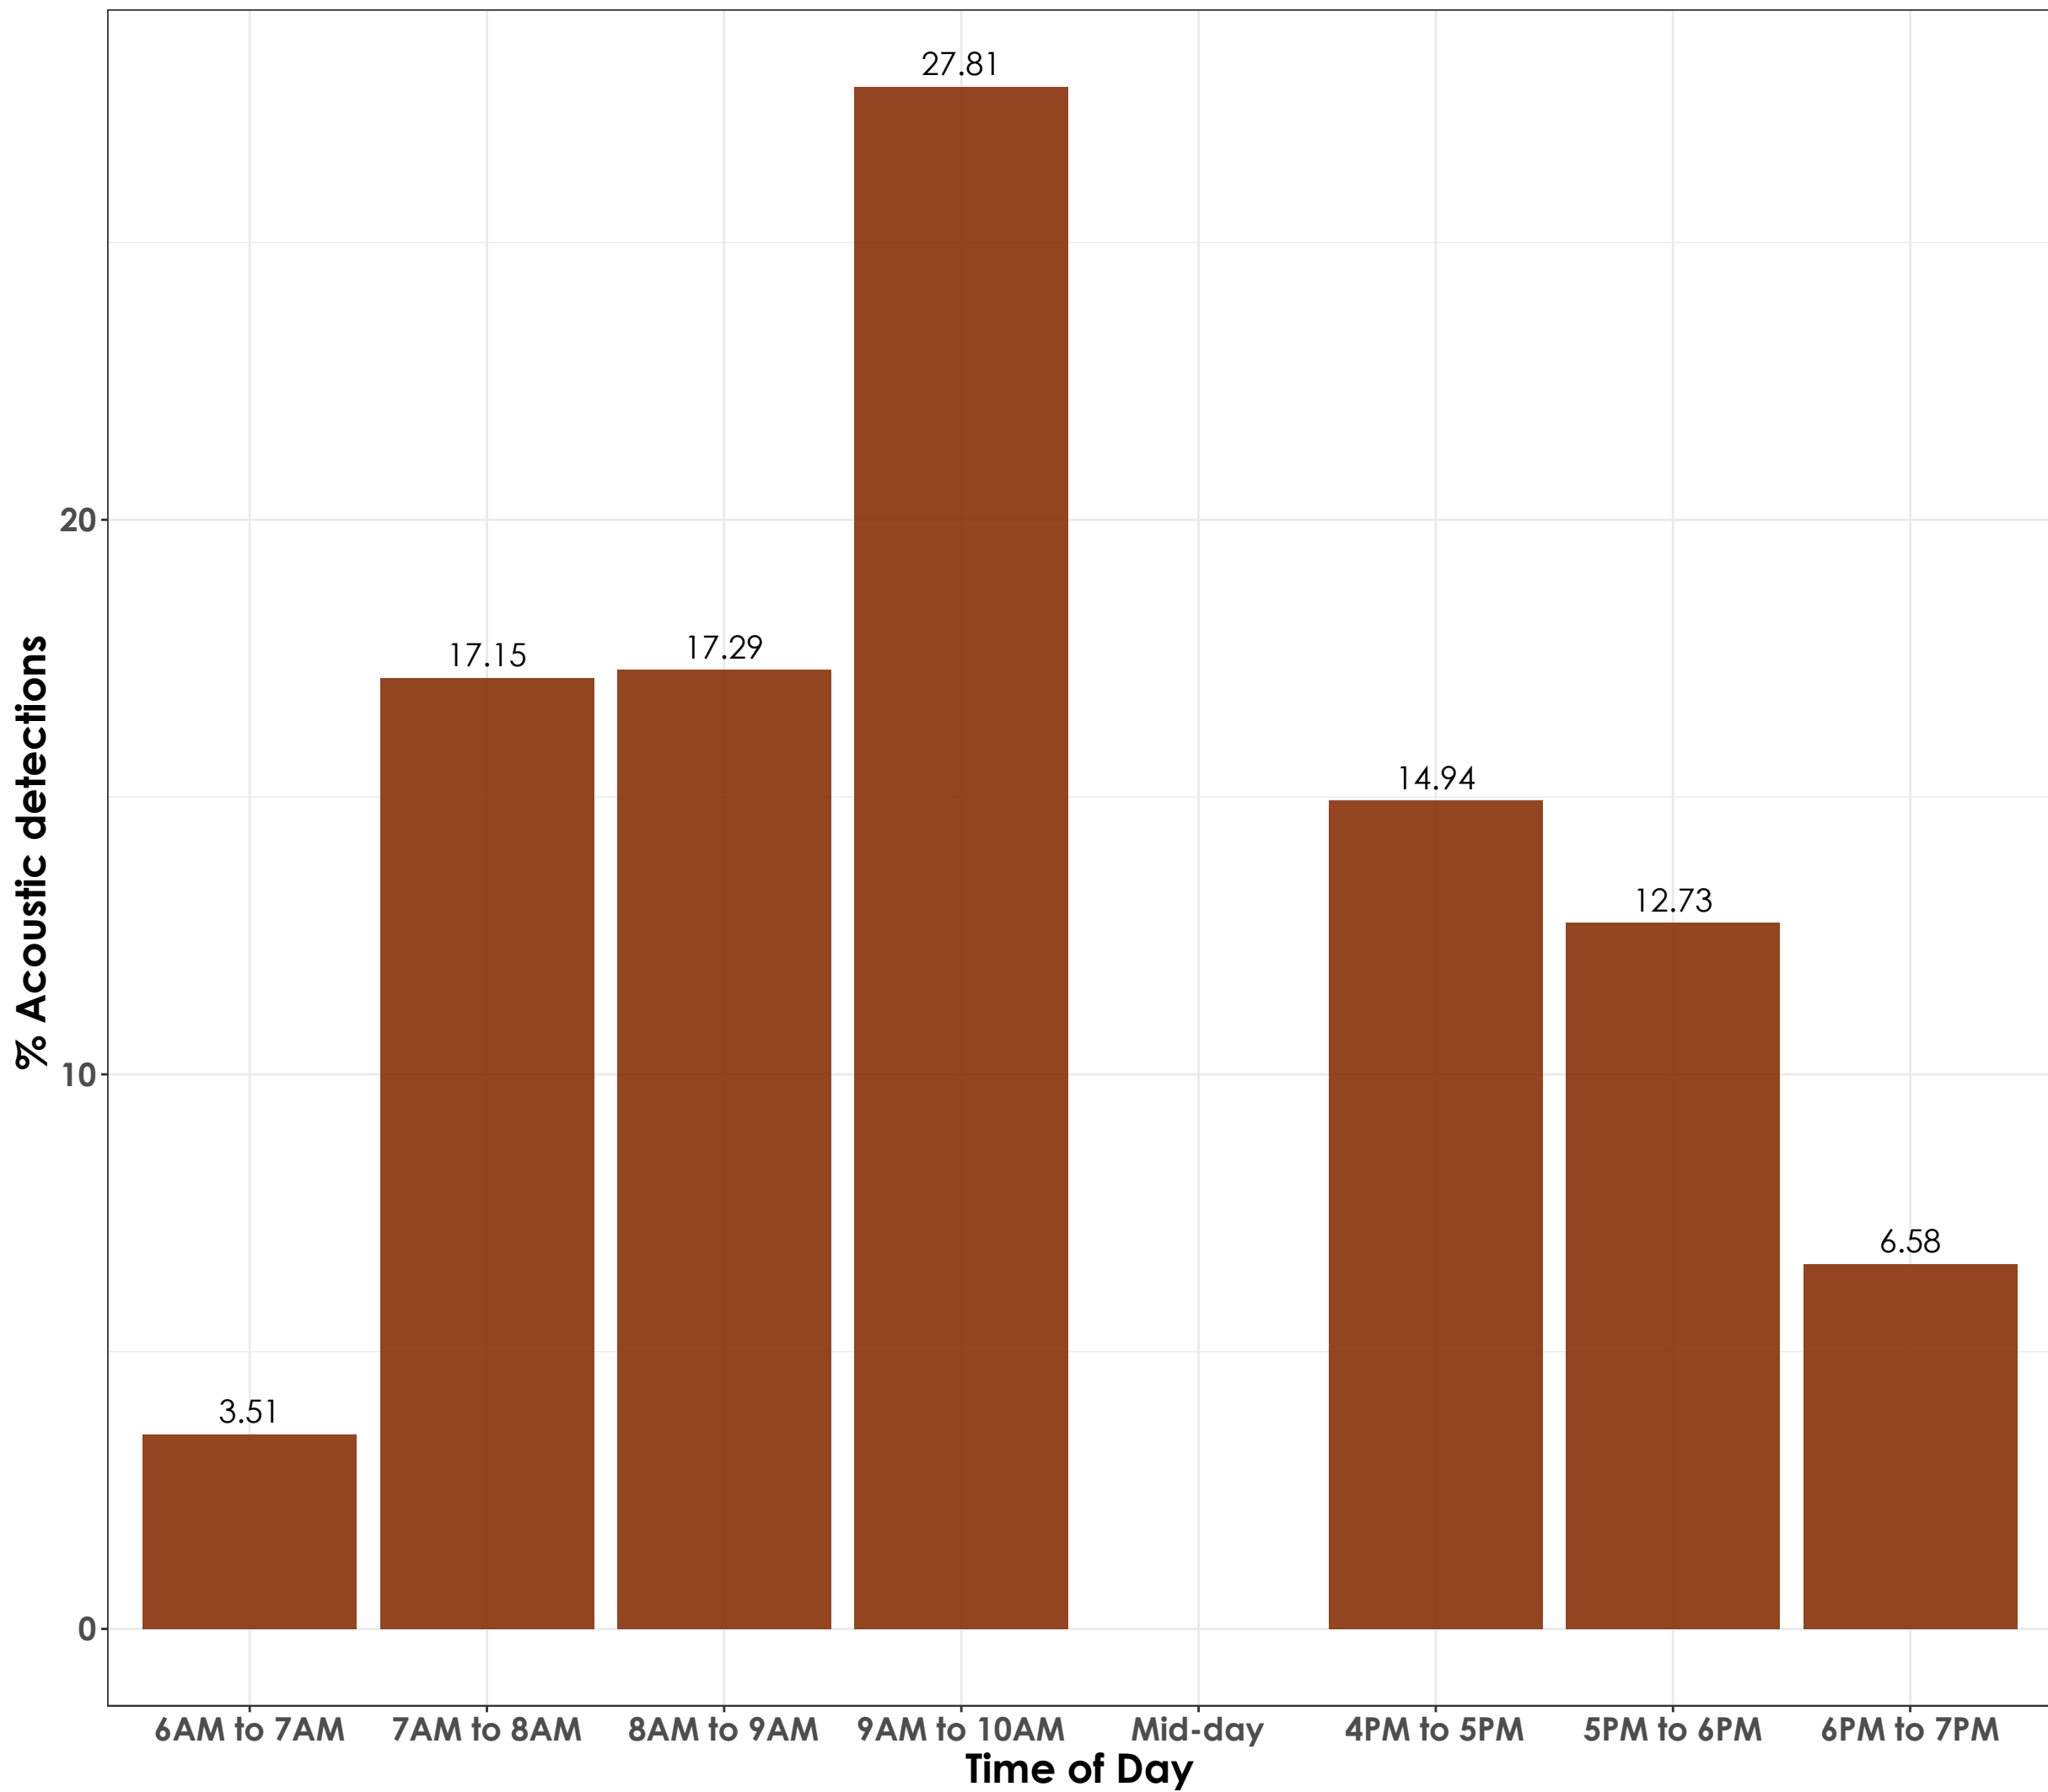

Greater Flameback

Each bar represents the % of detections across dawn and dusk

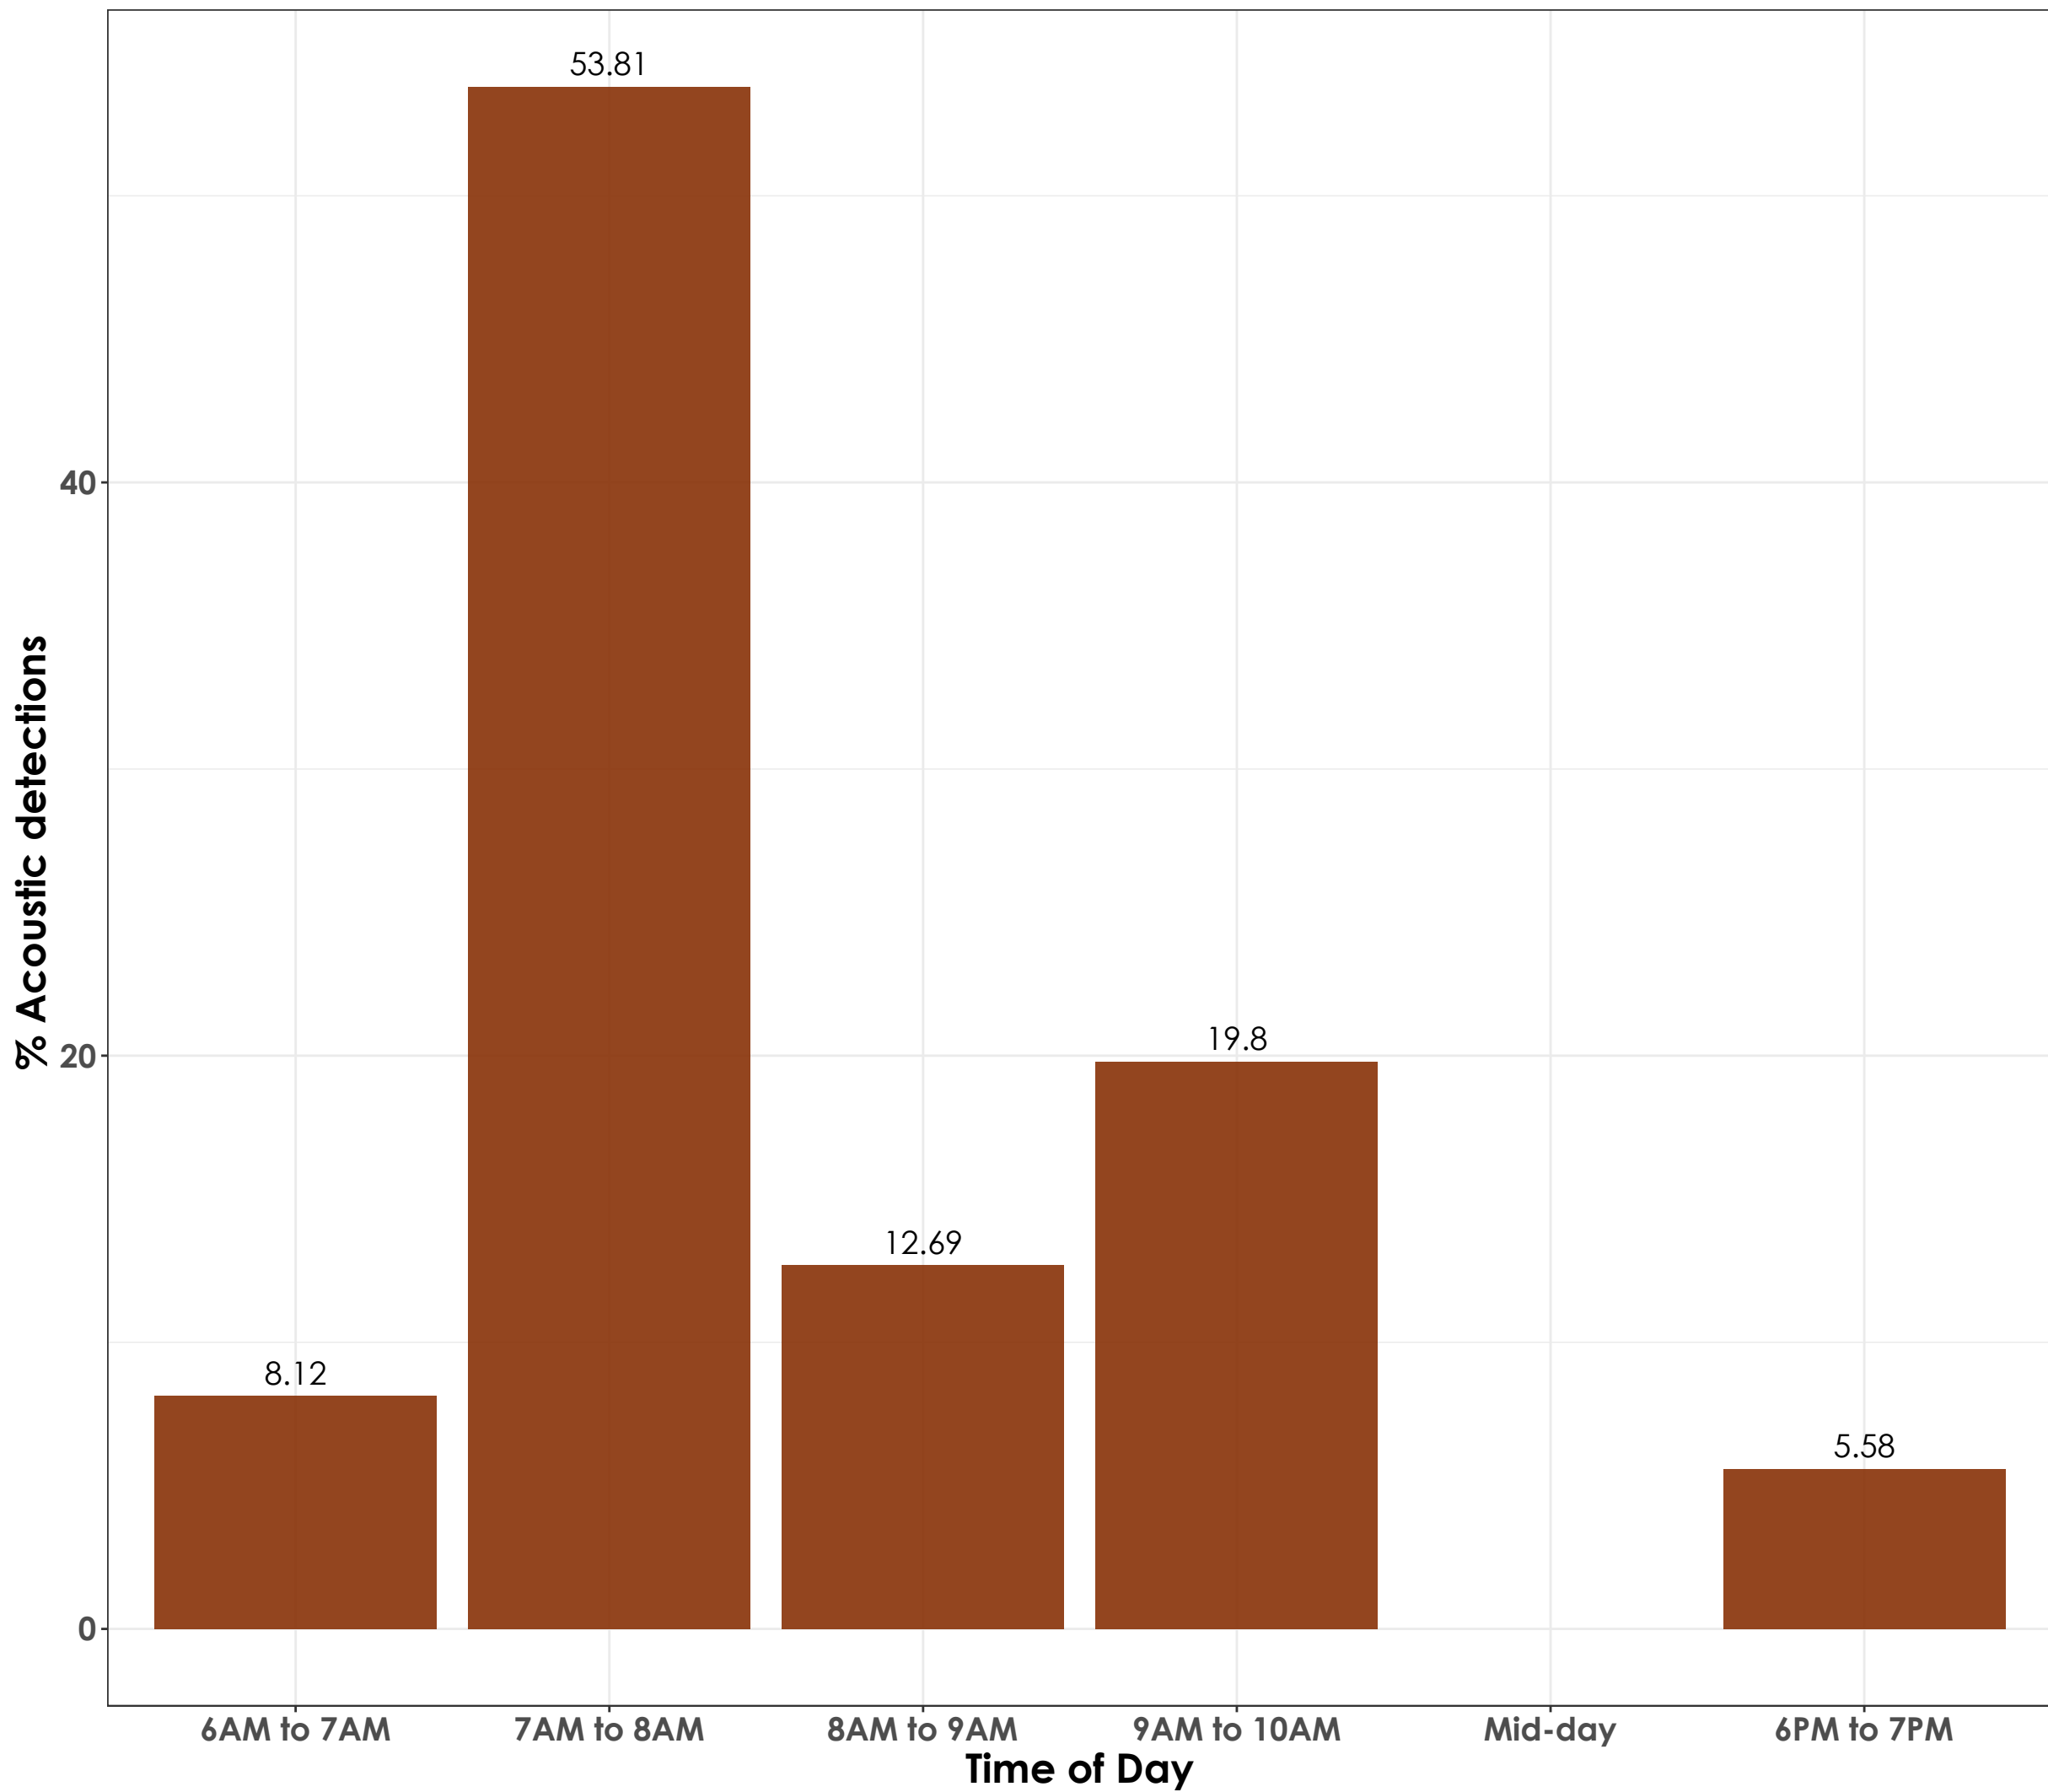

Blyth's Reed Warbler

Each bar represents the % of detections across dawn and dusk

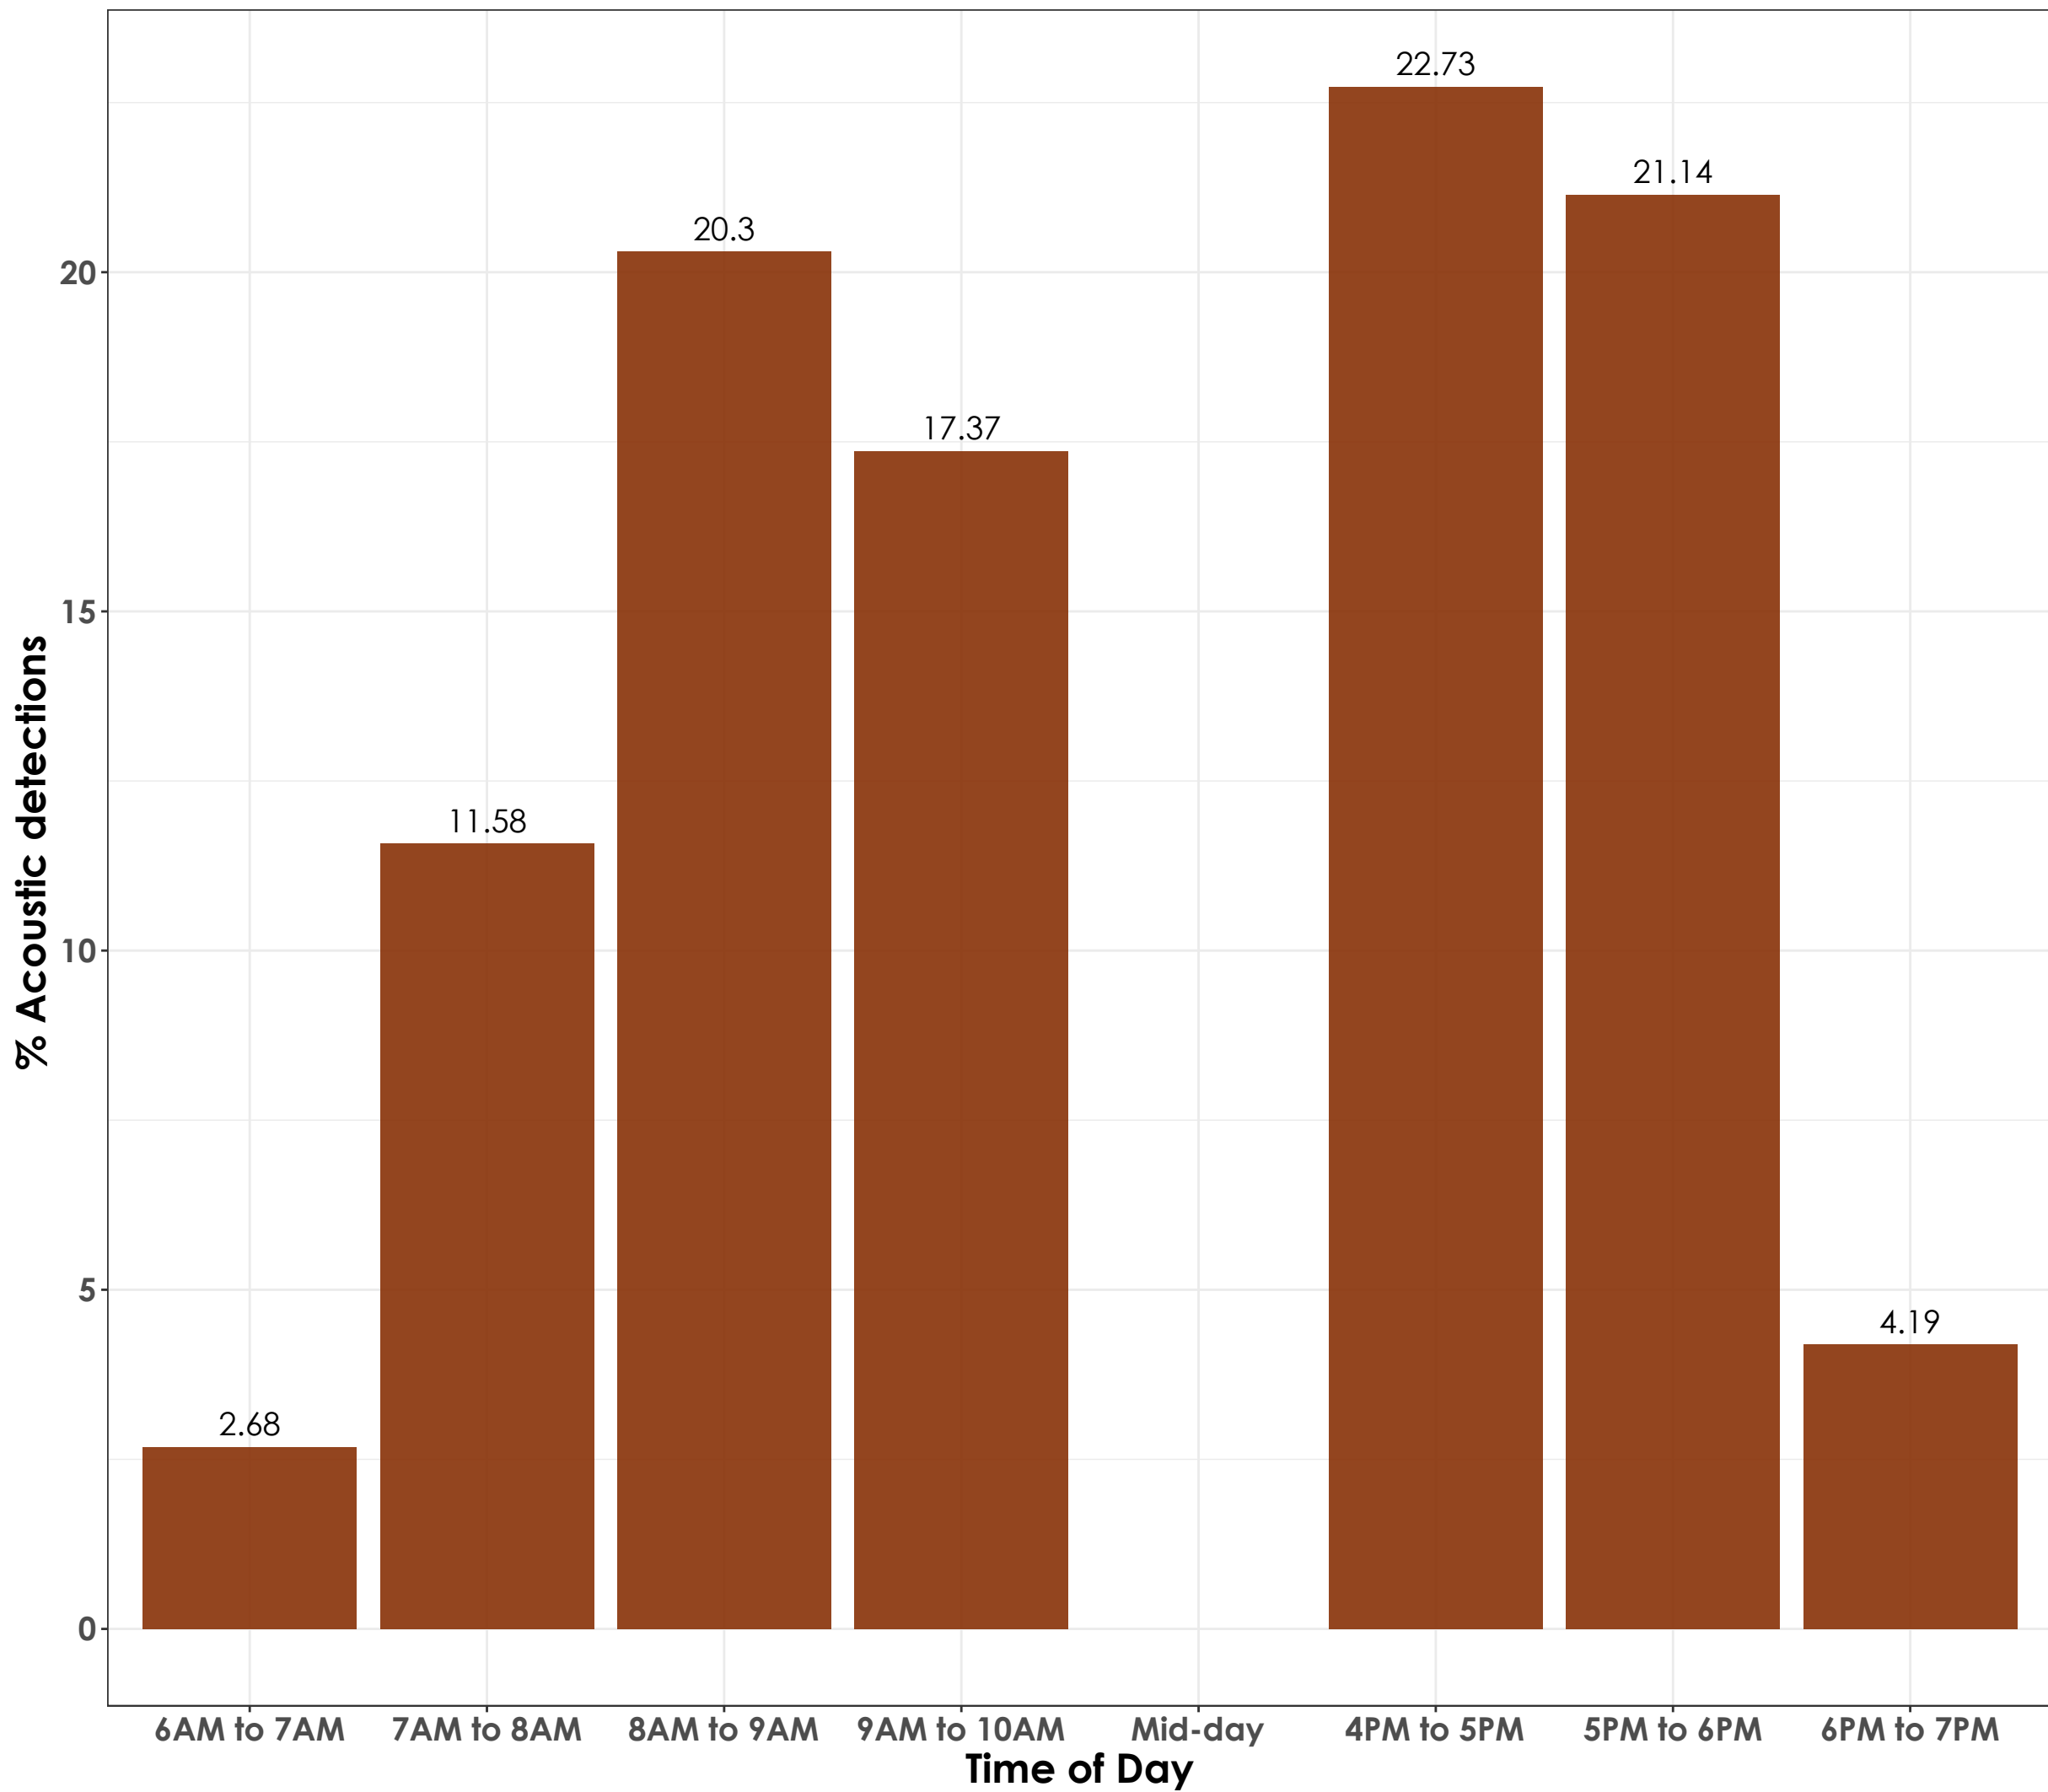

Malabar Trogon

Each bar represents the % of detections across dawn and dusk

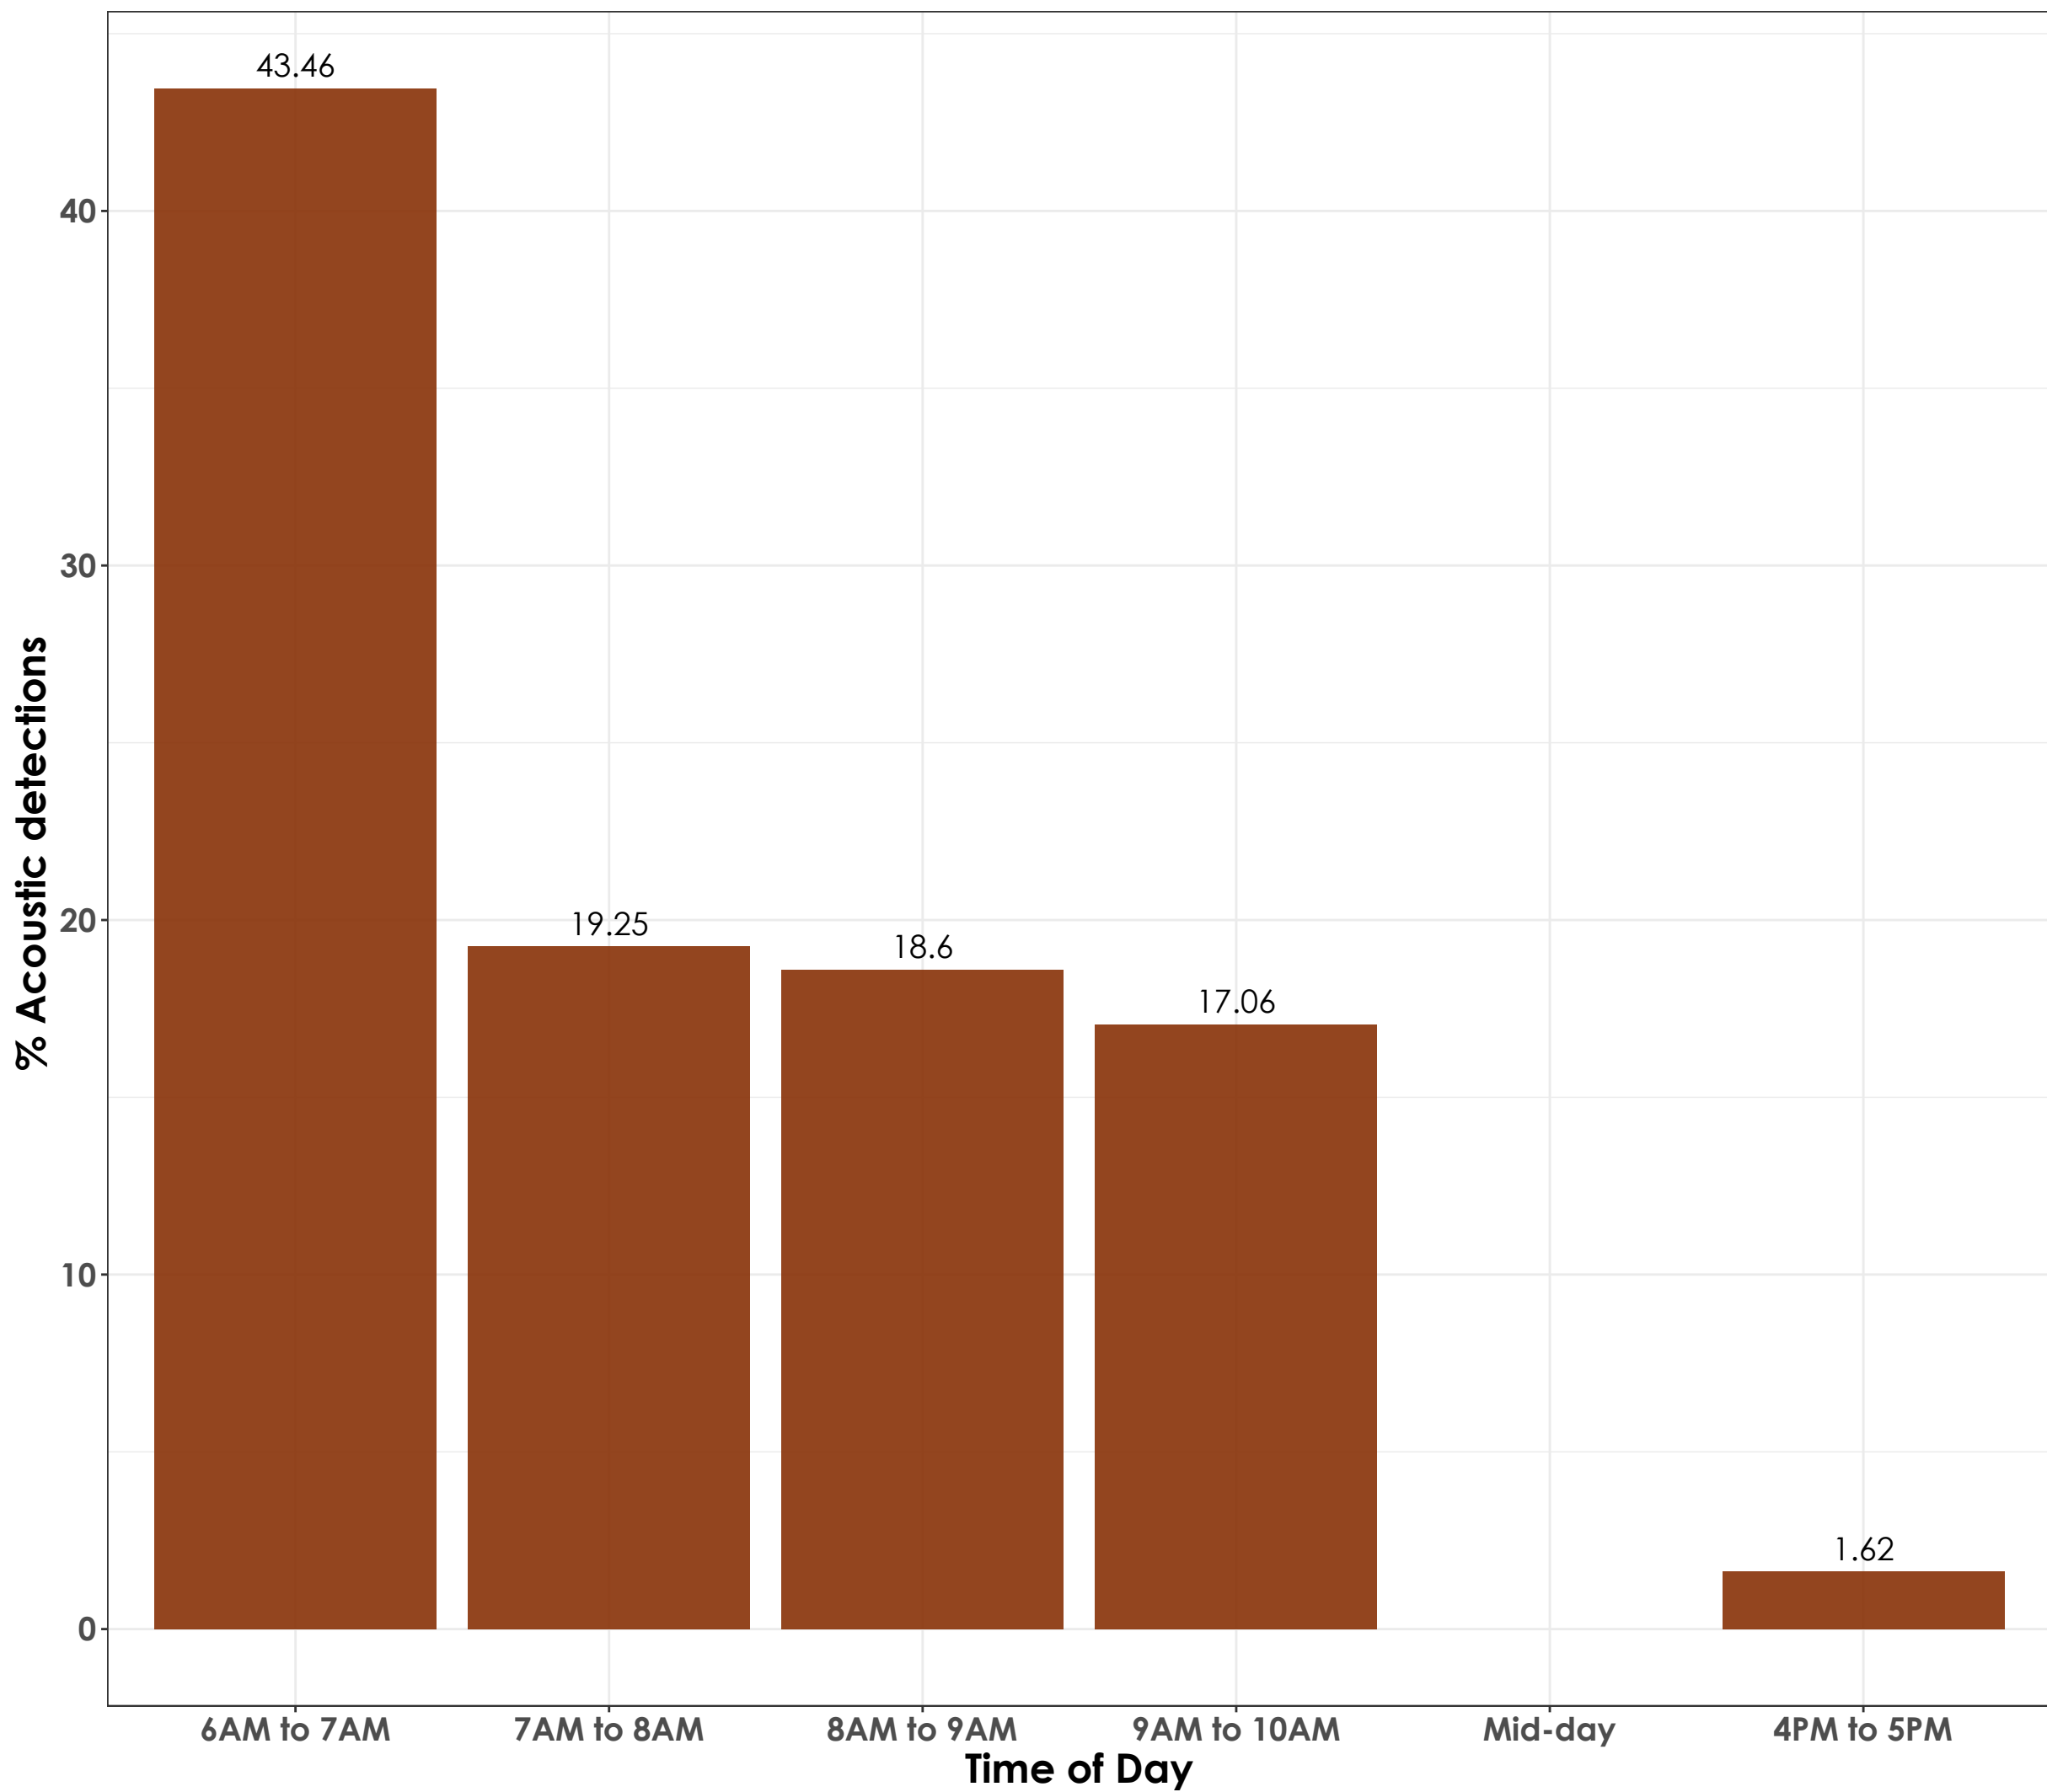

Plum-headed Parakeet

Each bar represents the % of detections across dawn and dusk

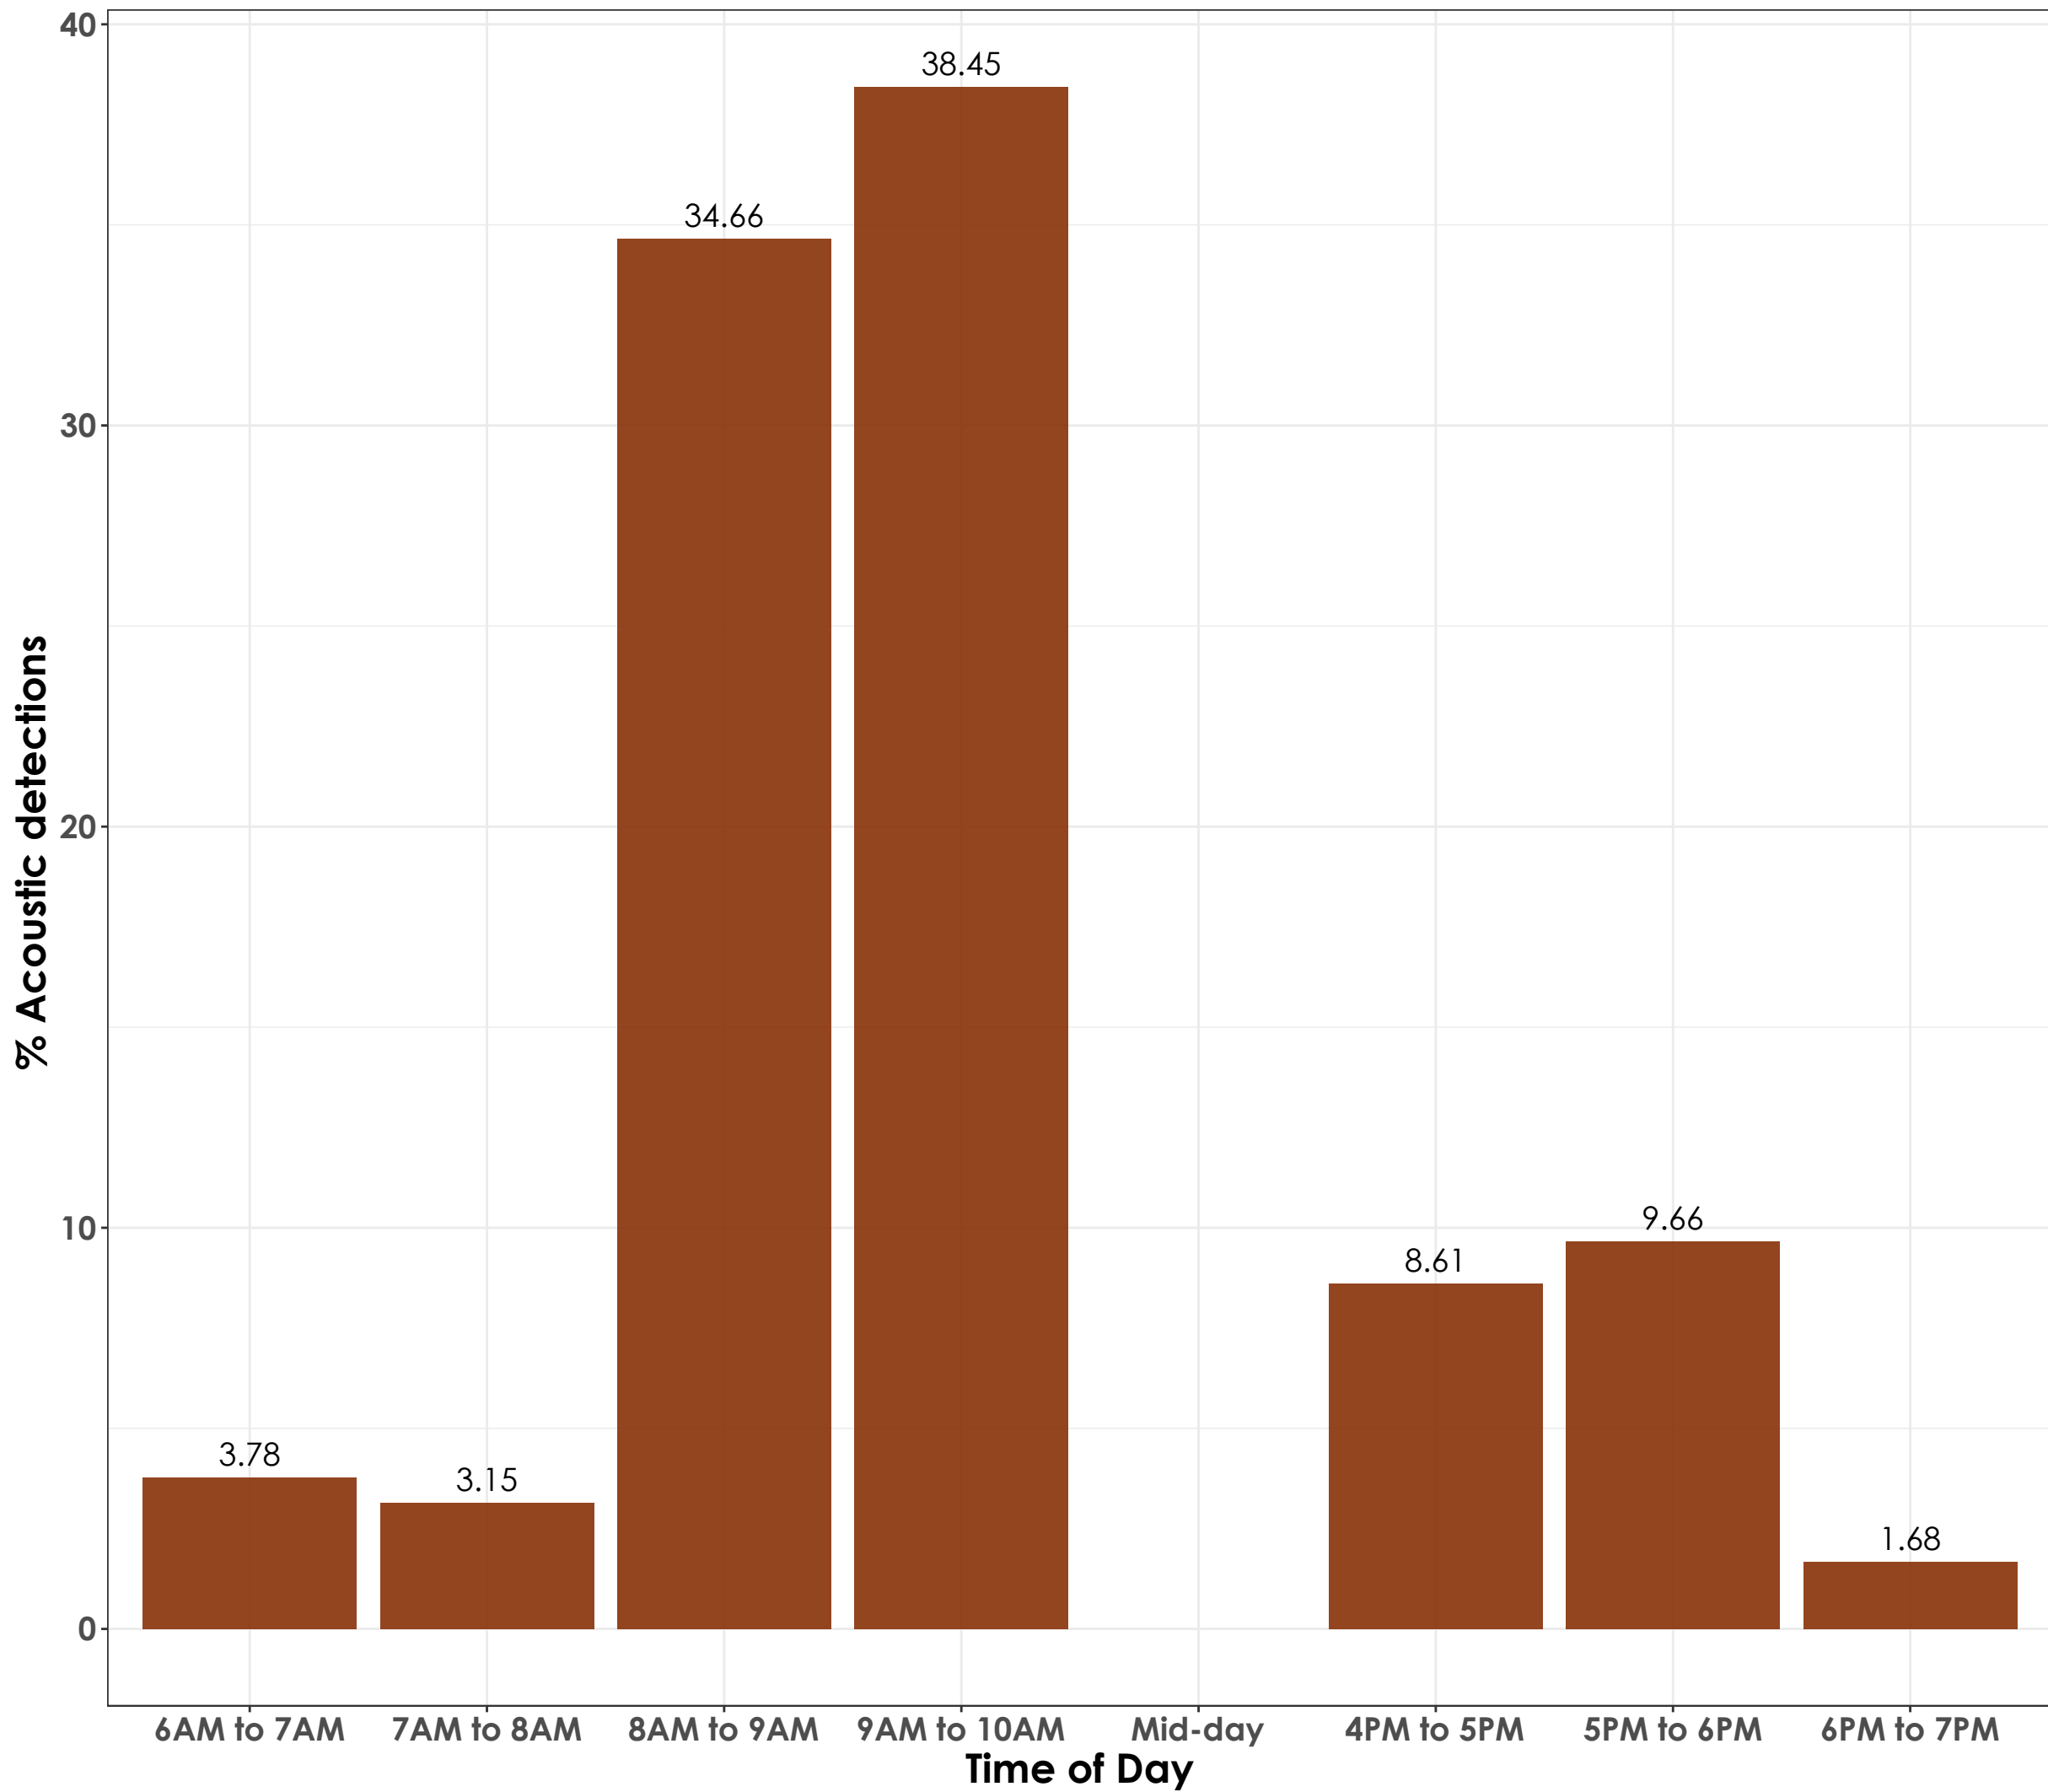

Gray-headed Canary-Flycatcher

Each bar represents the % of detections across dawn and dusk

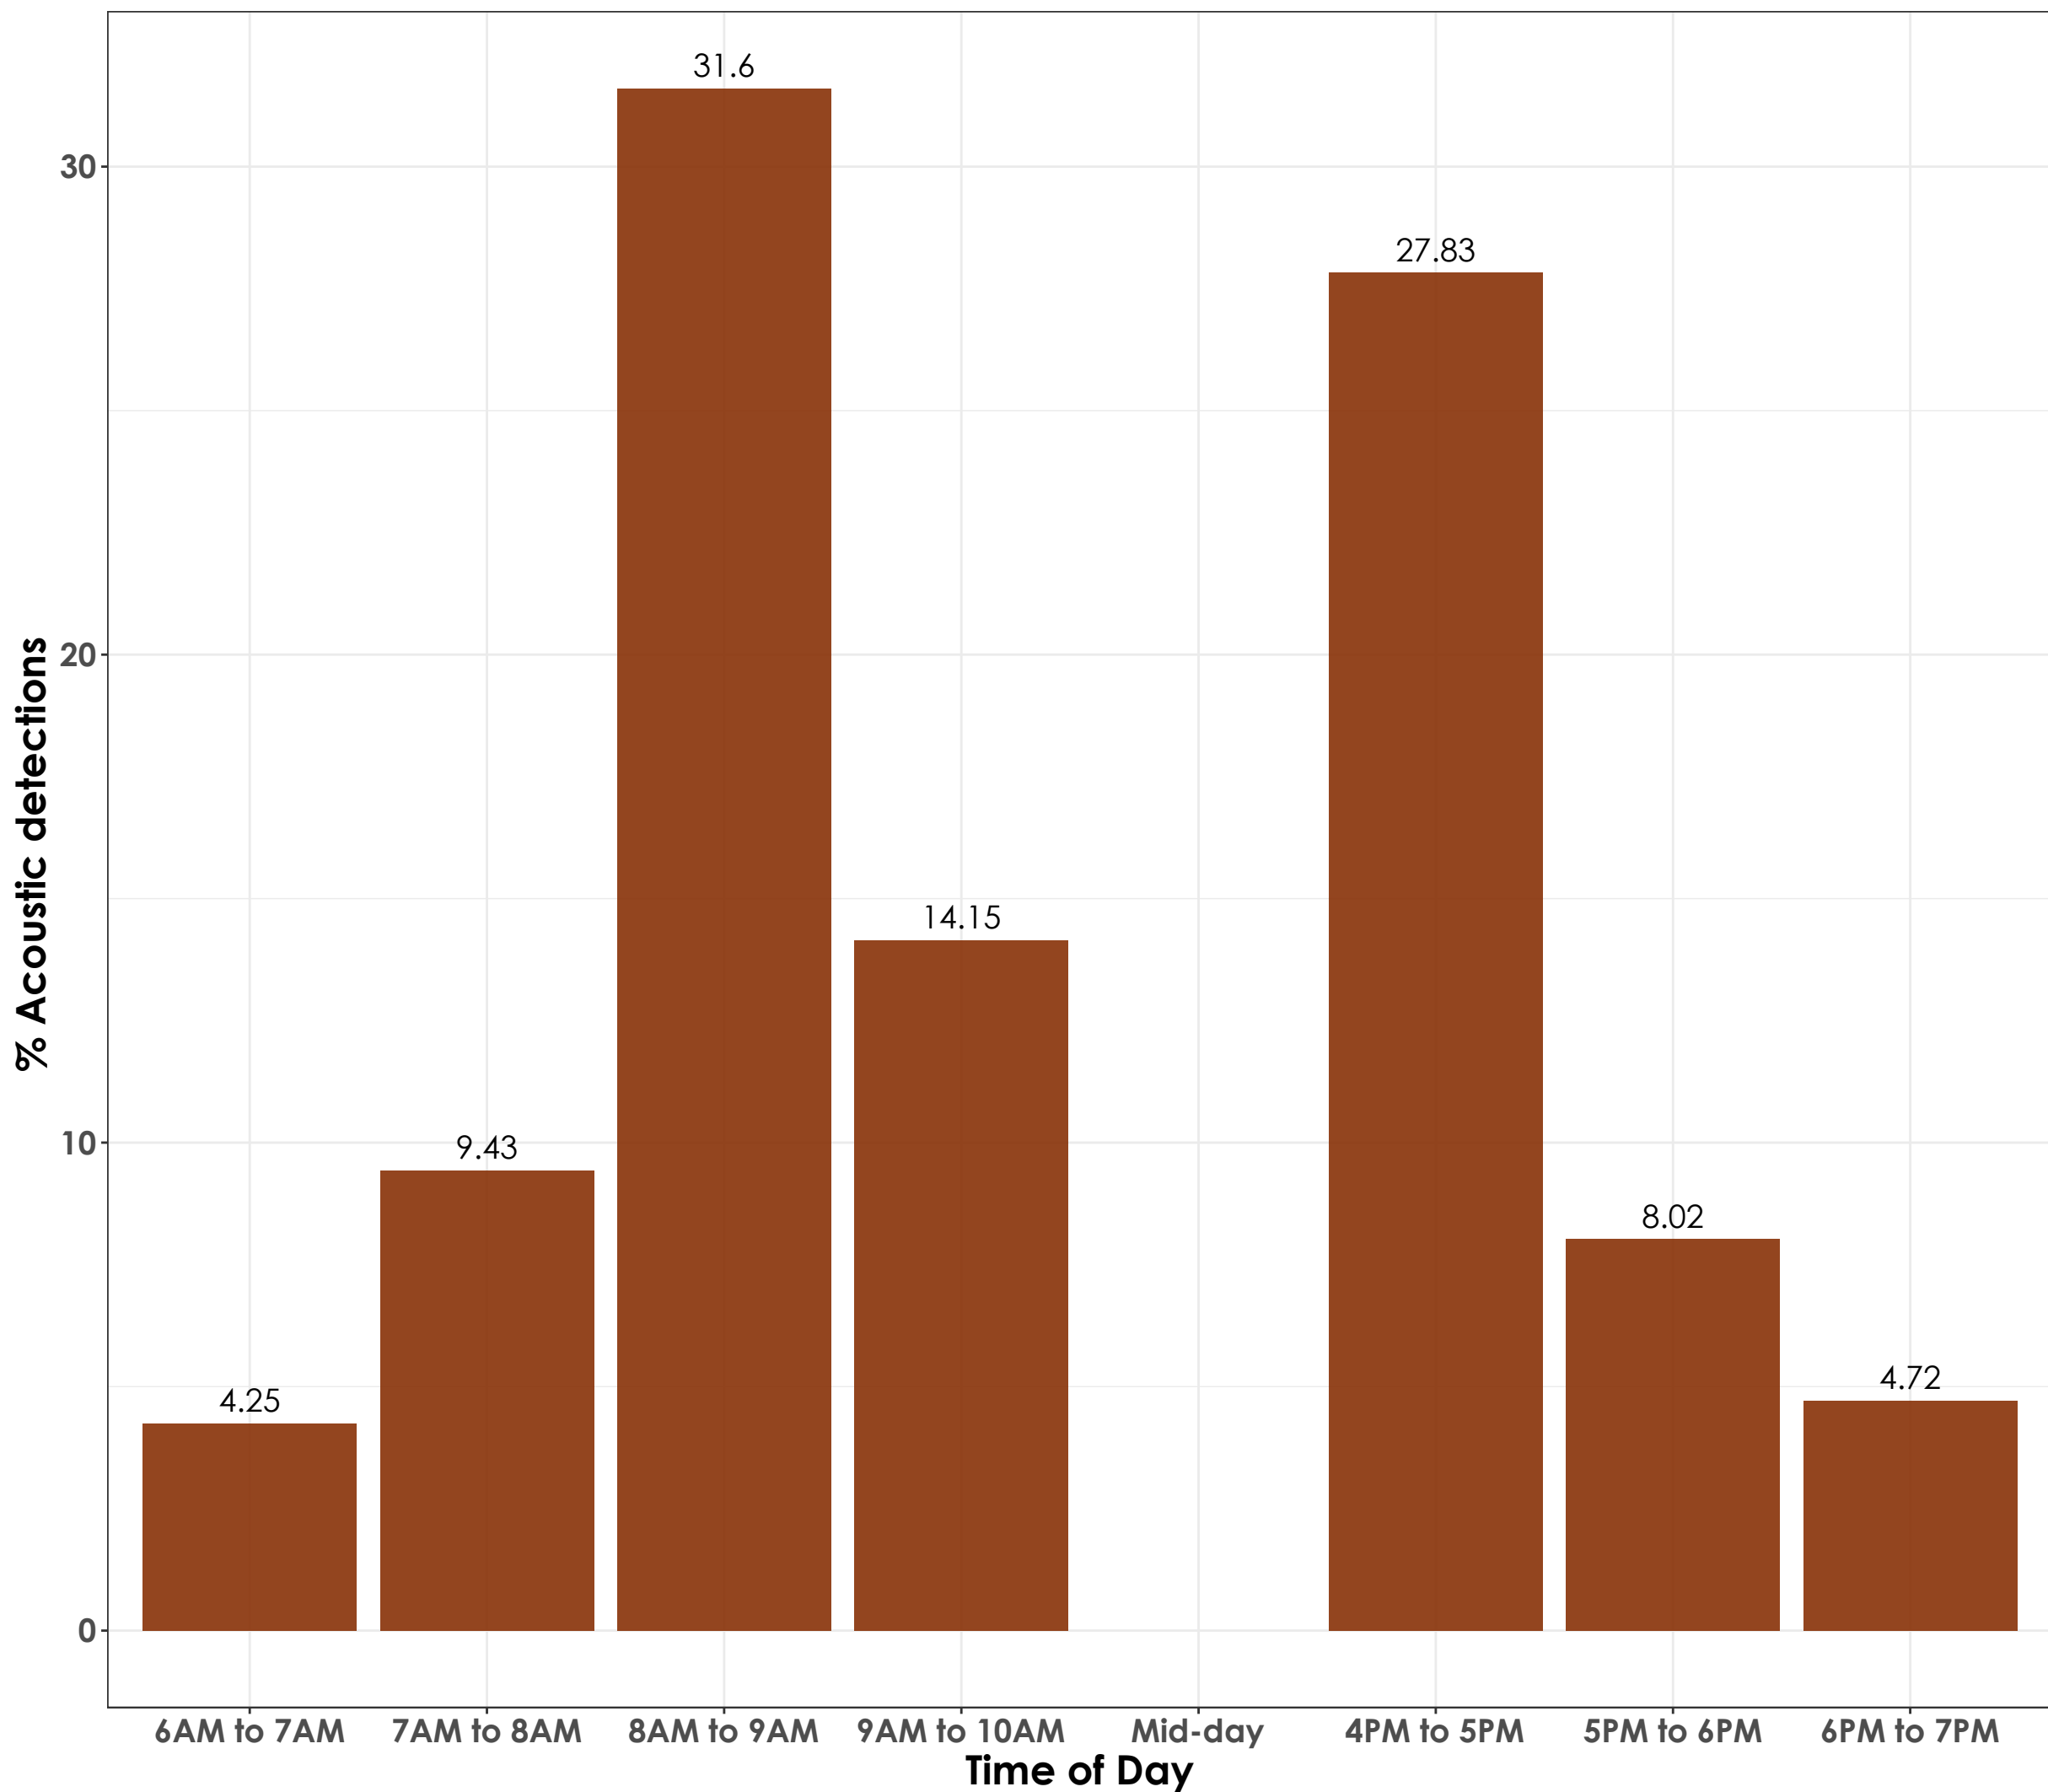

Malabar Parakeet

Each bar represents the % of detections across dawn and dusk

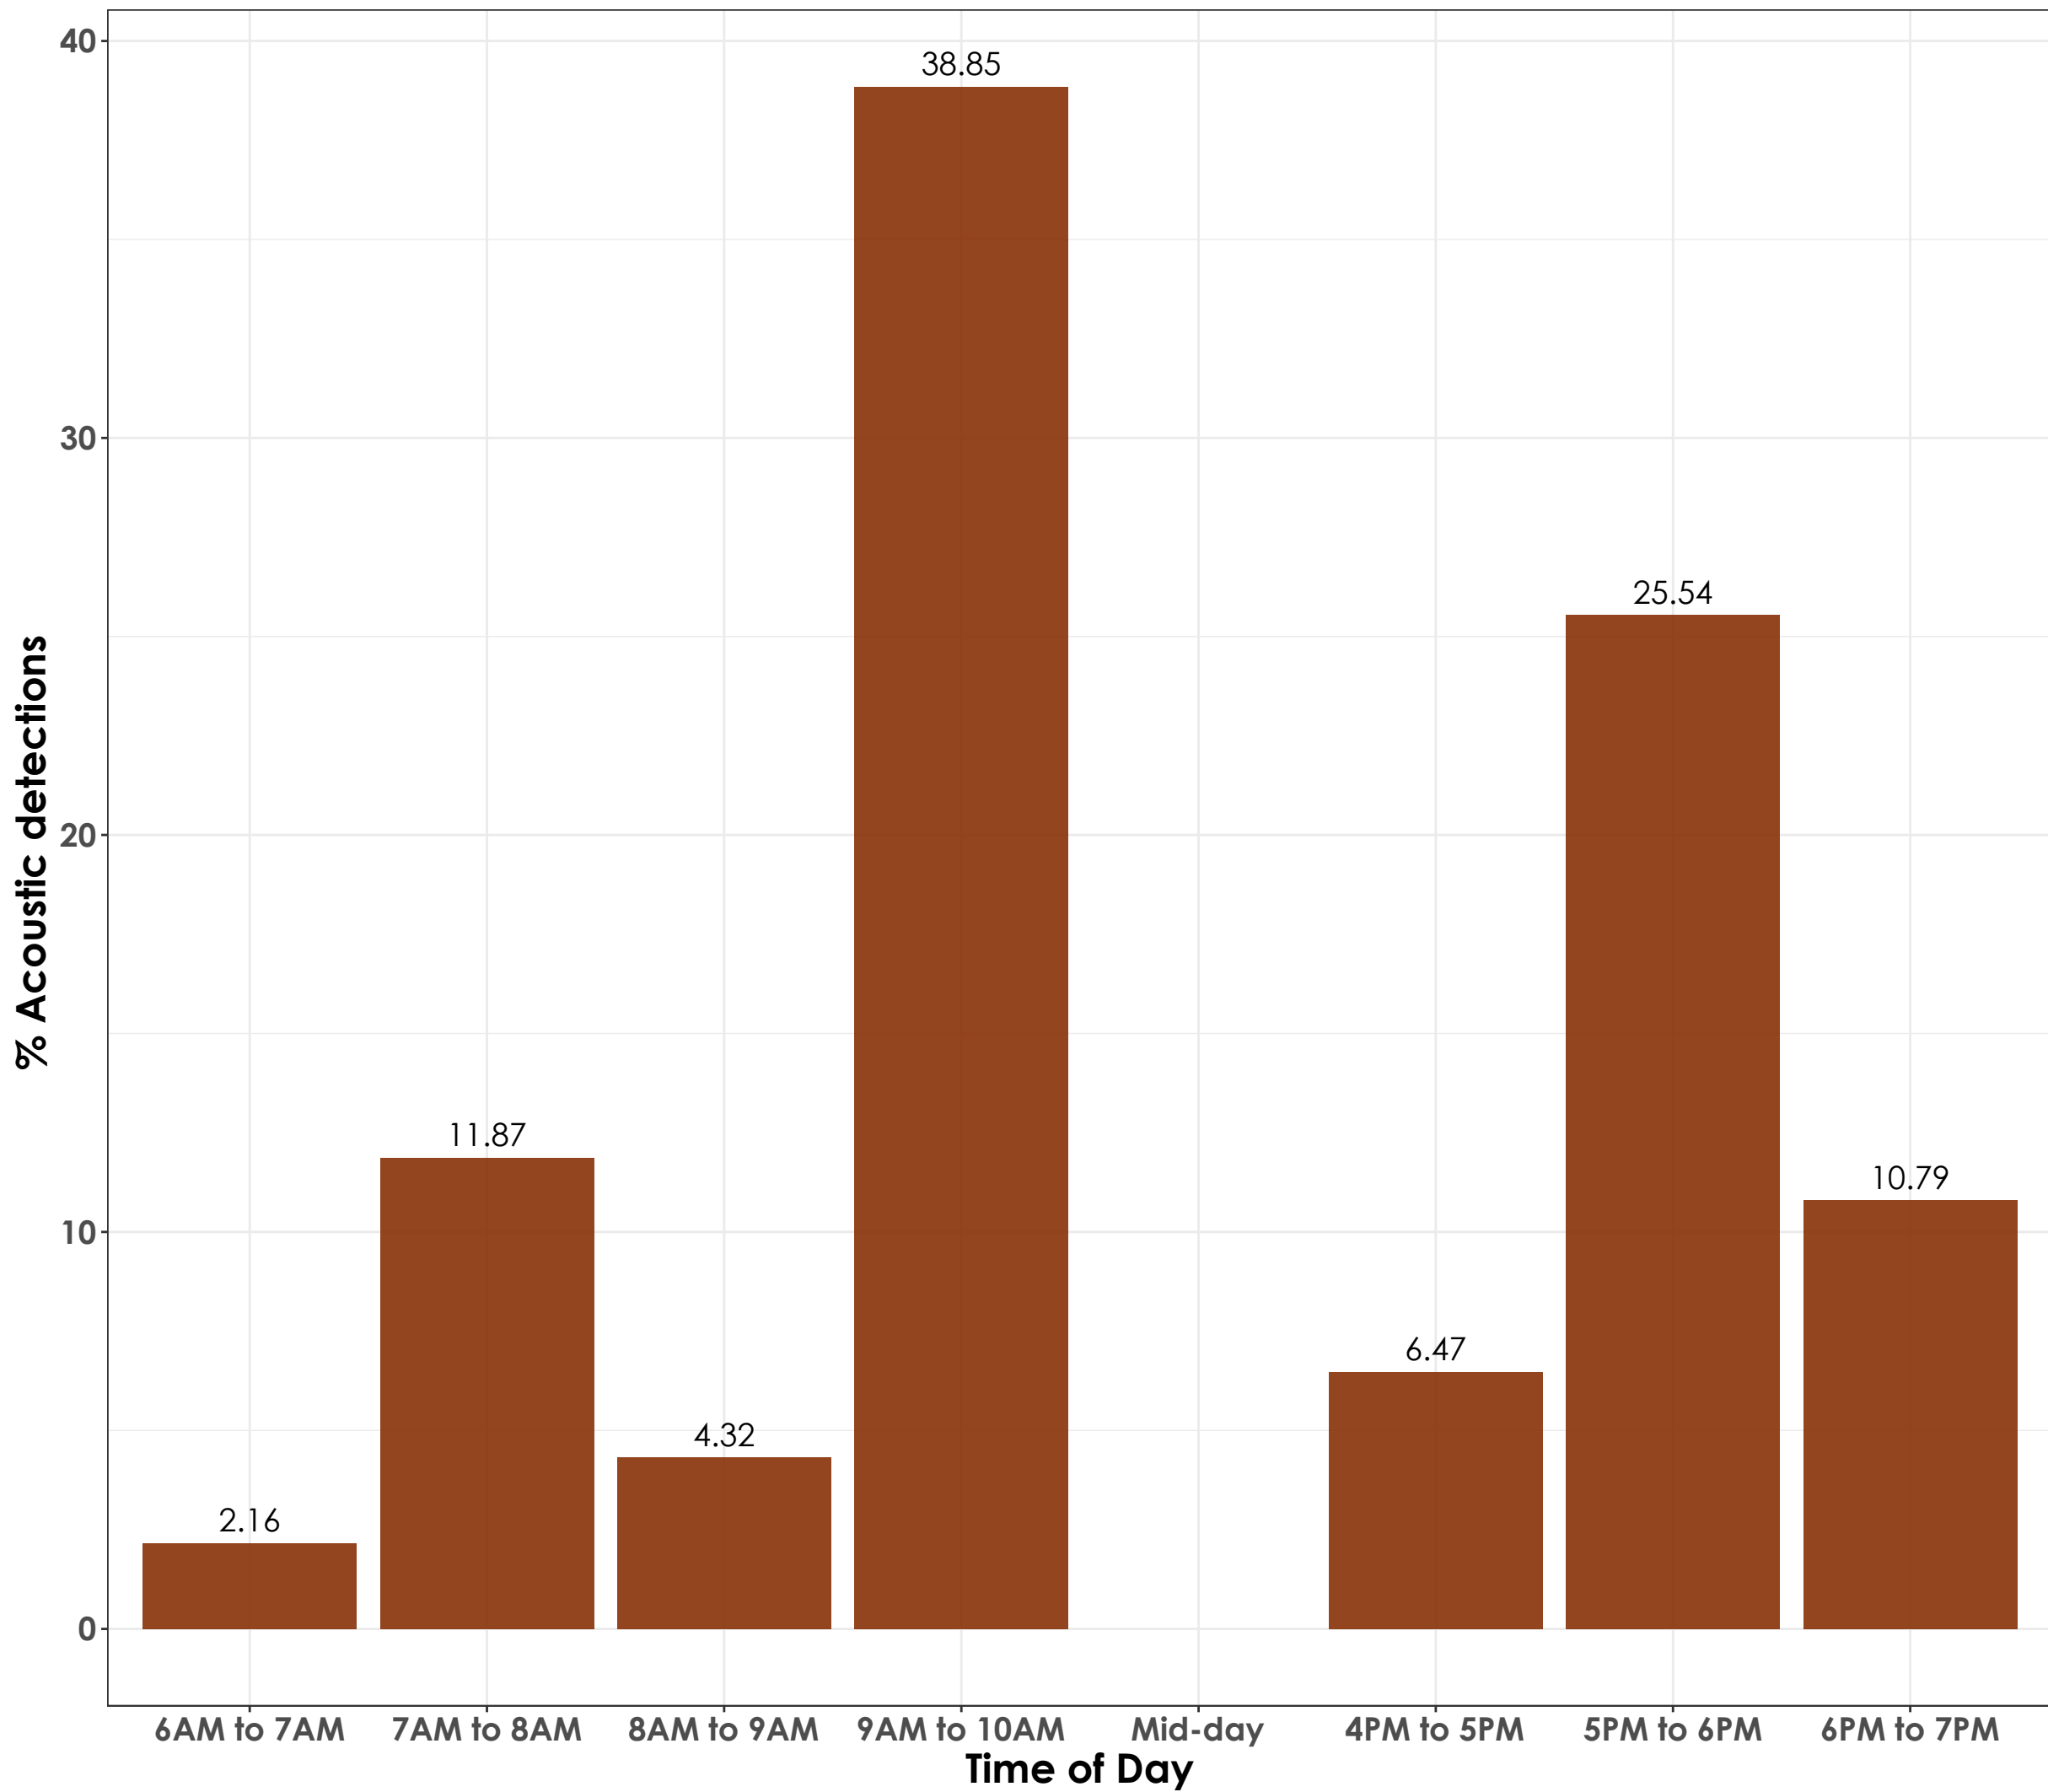

Streak-throated Woodpecker

Each bar represents the % of detections across dawn and dusk

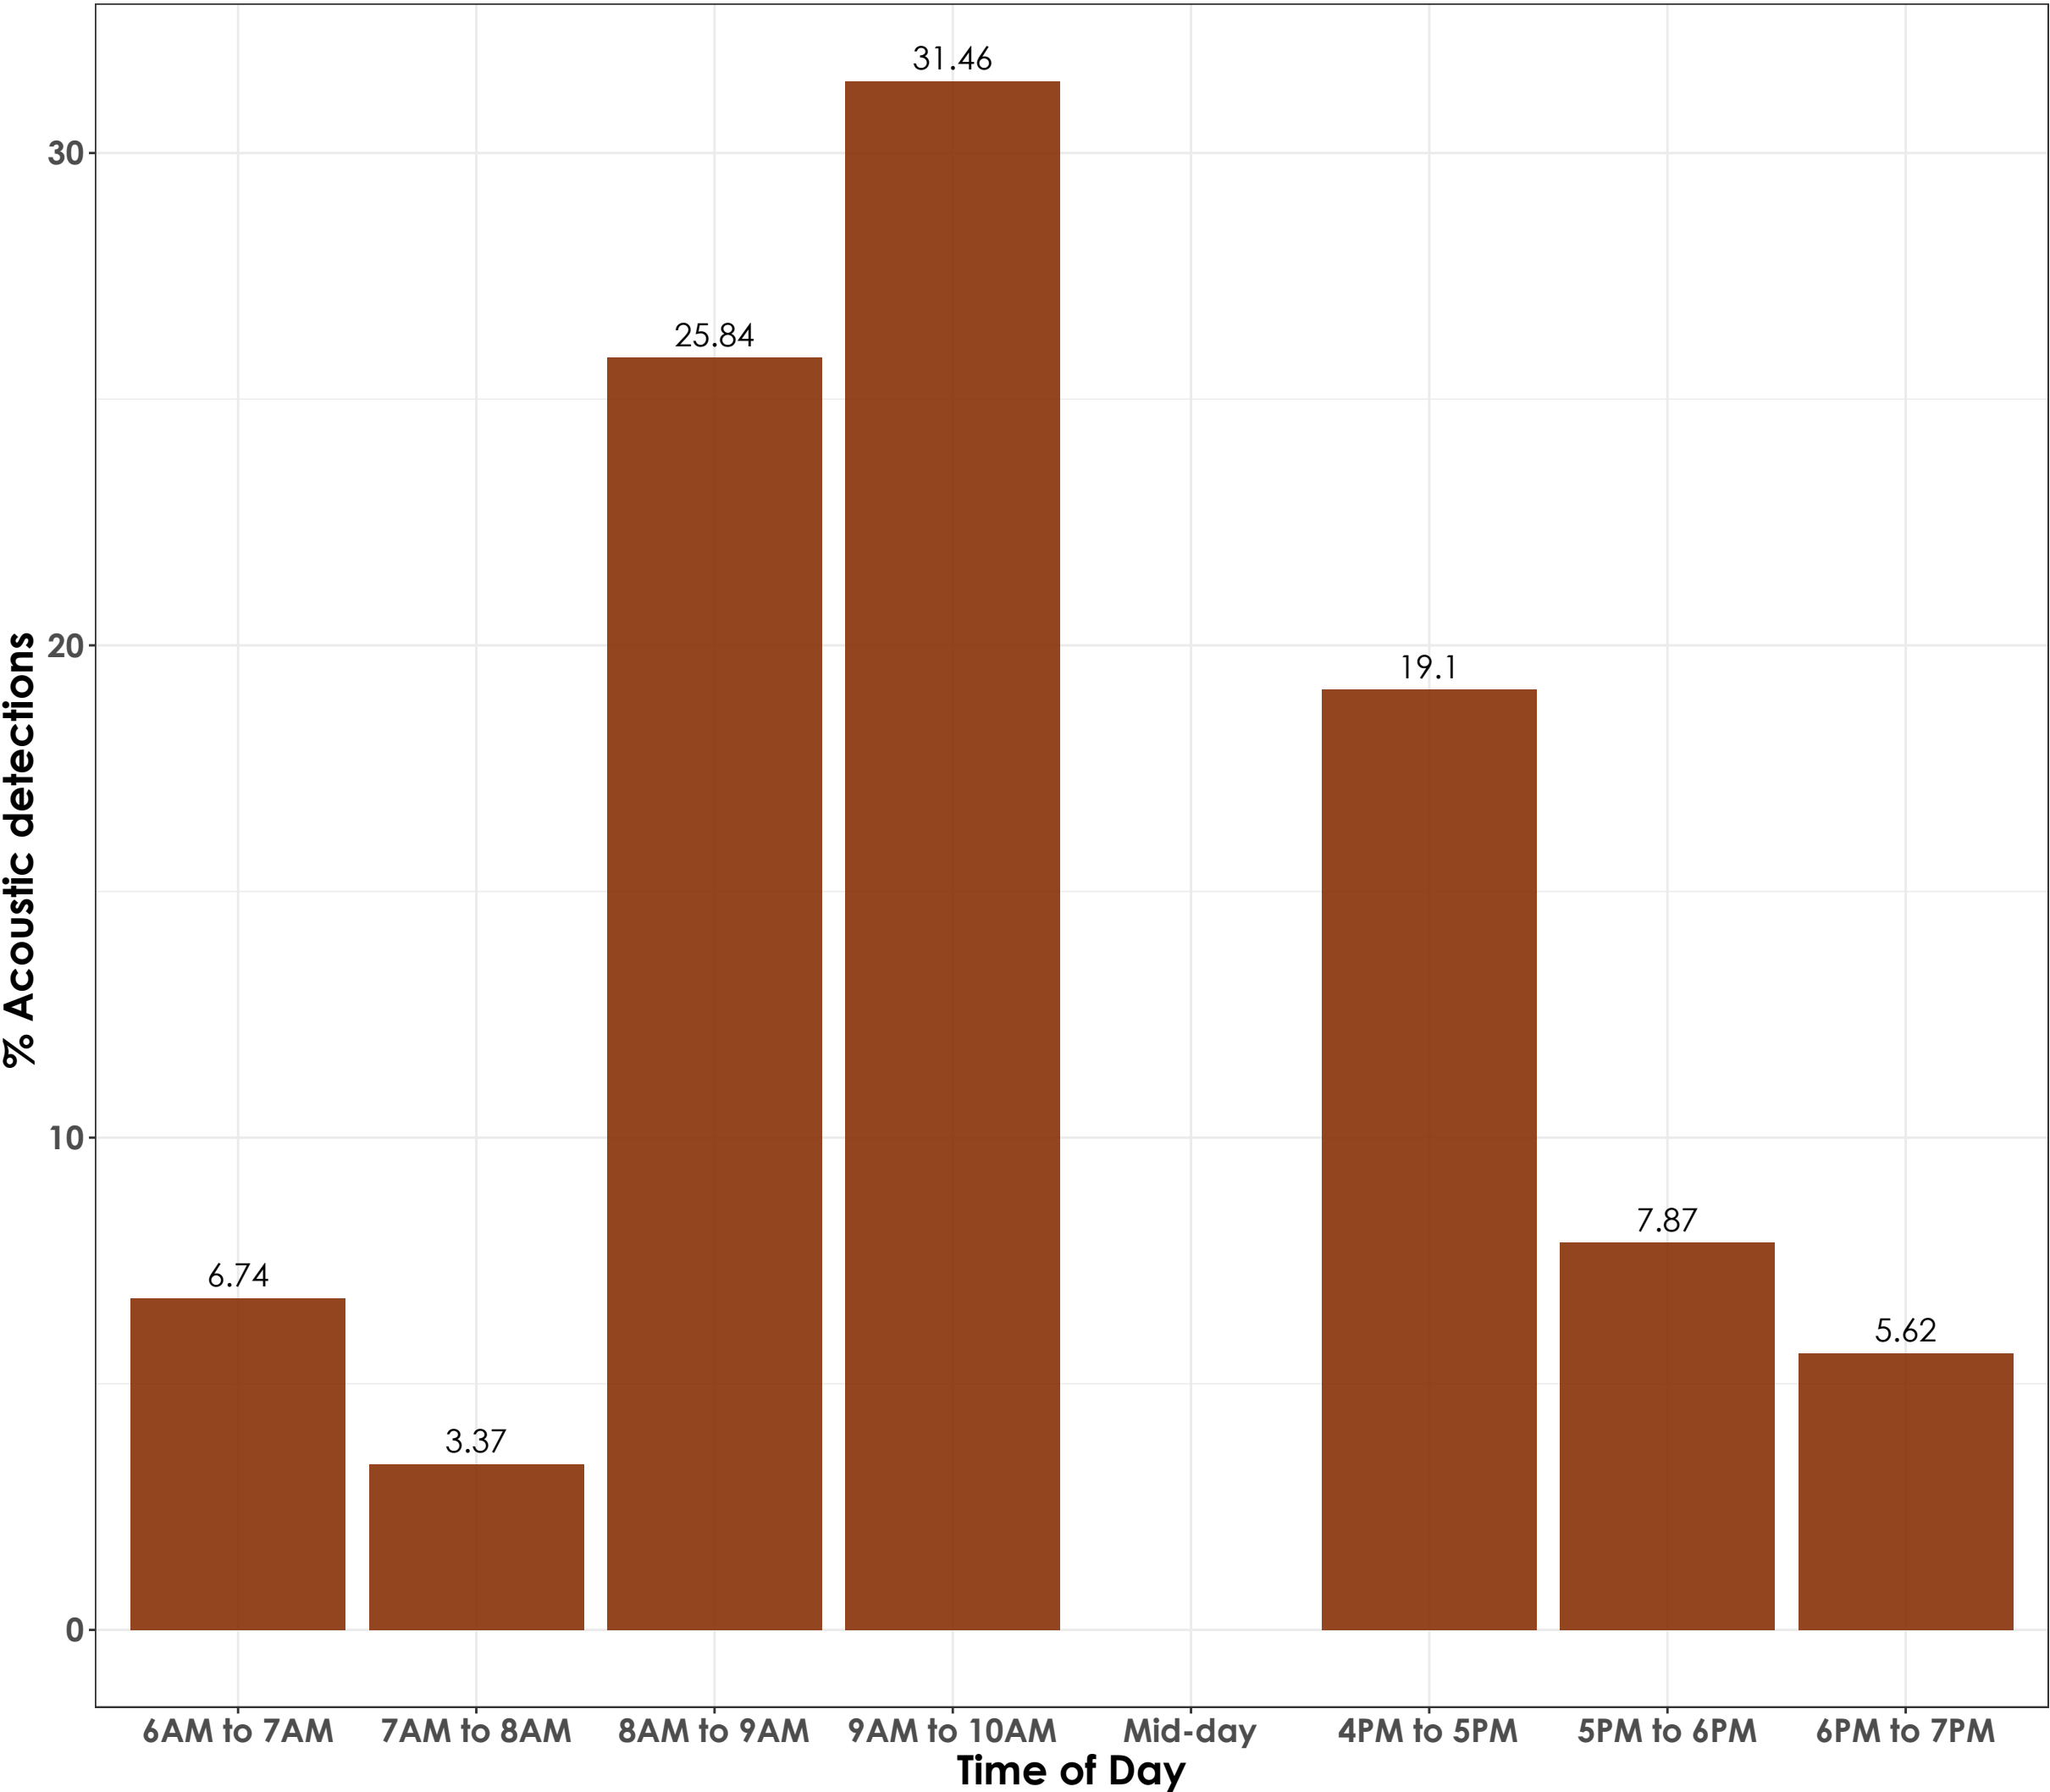

Indian Yellow Tit

Each bar represents the % of detections across dawn and dusk

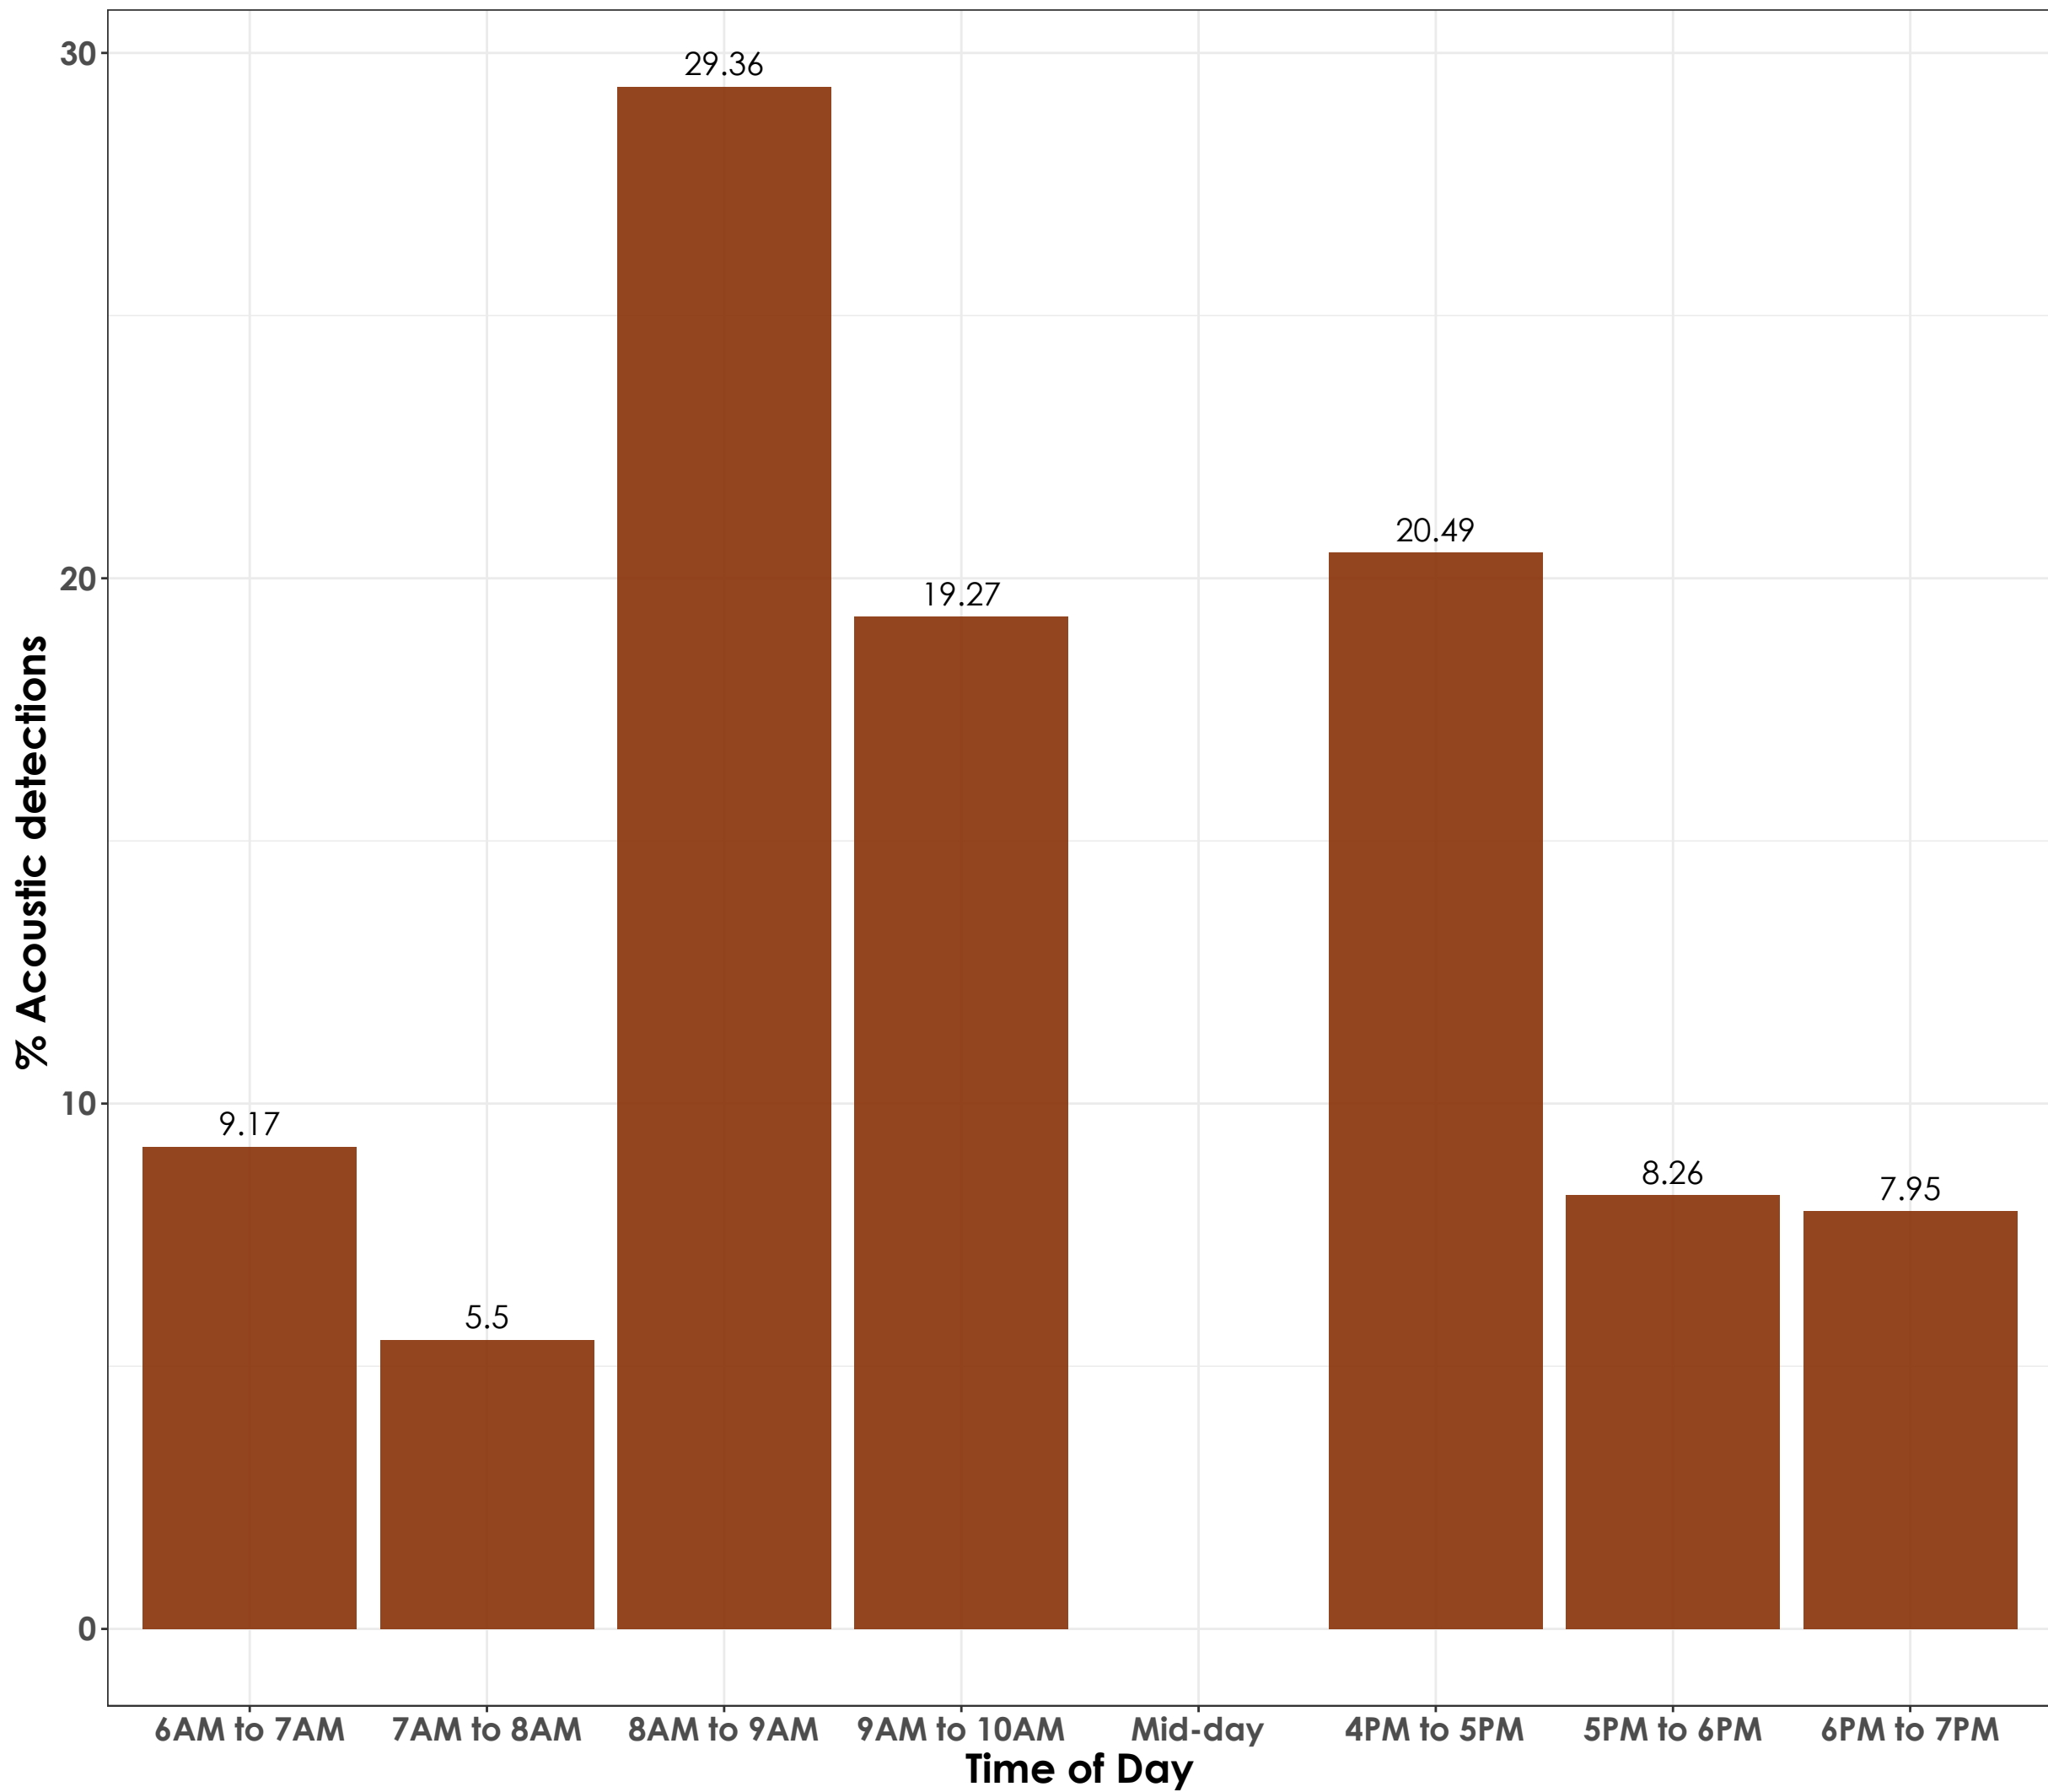

Indian Paradise-Flycatcher

Each bar represents the % of detections across dawn and dusk

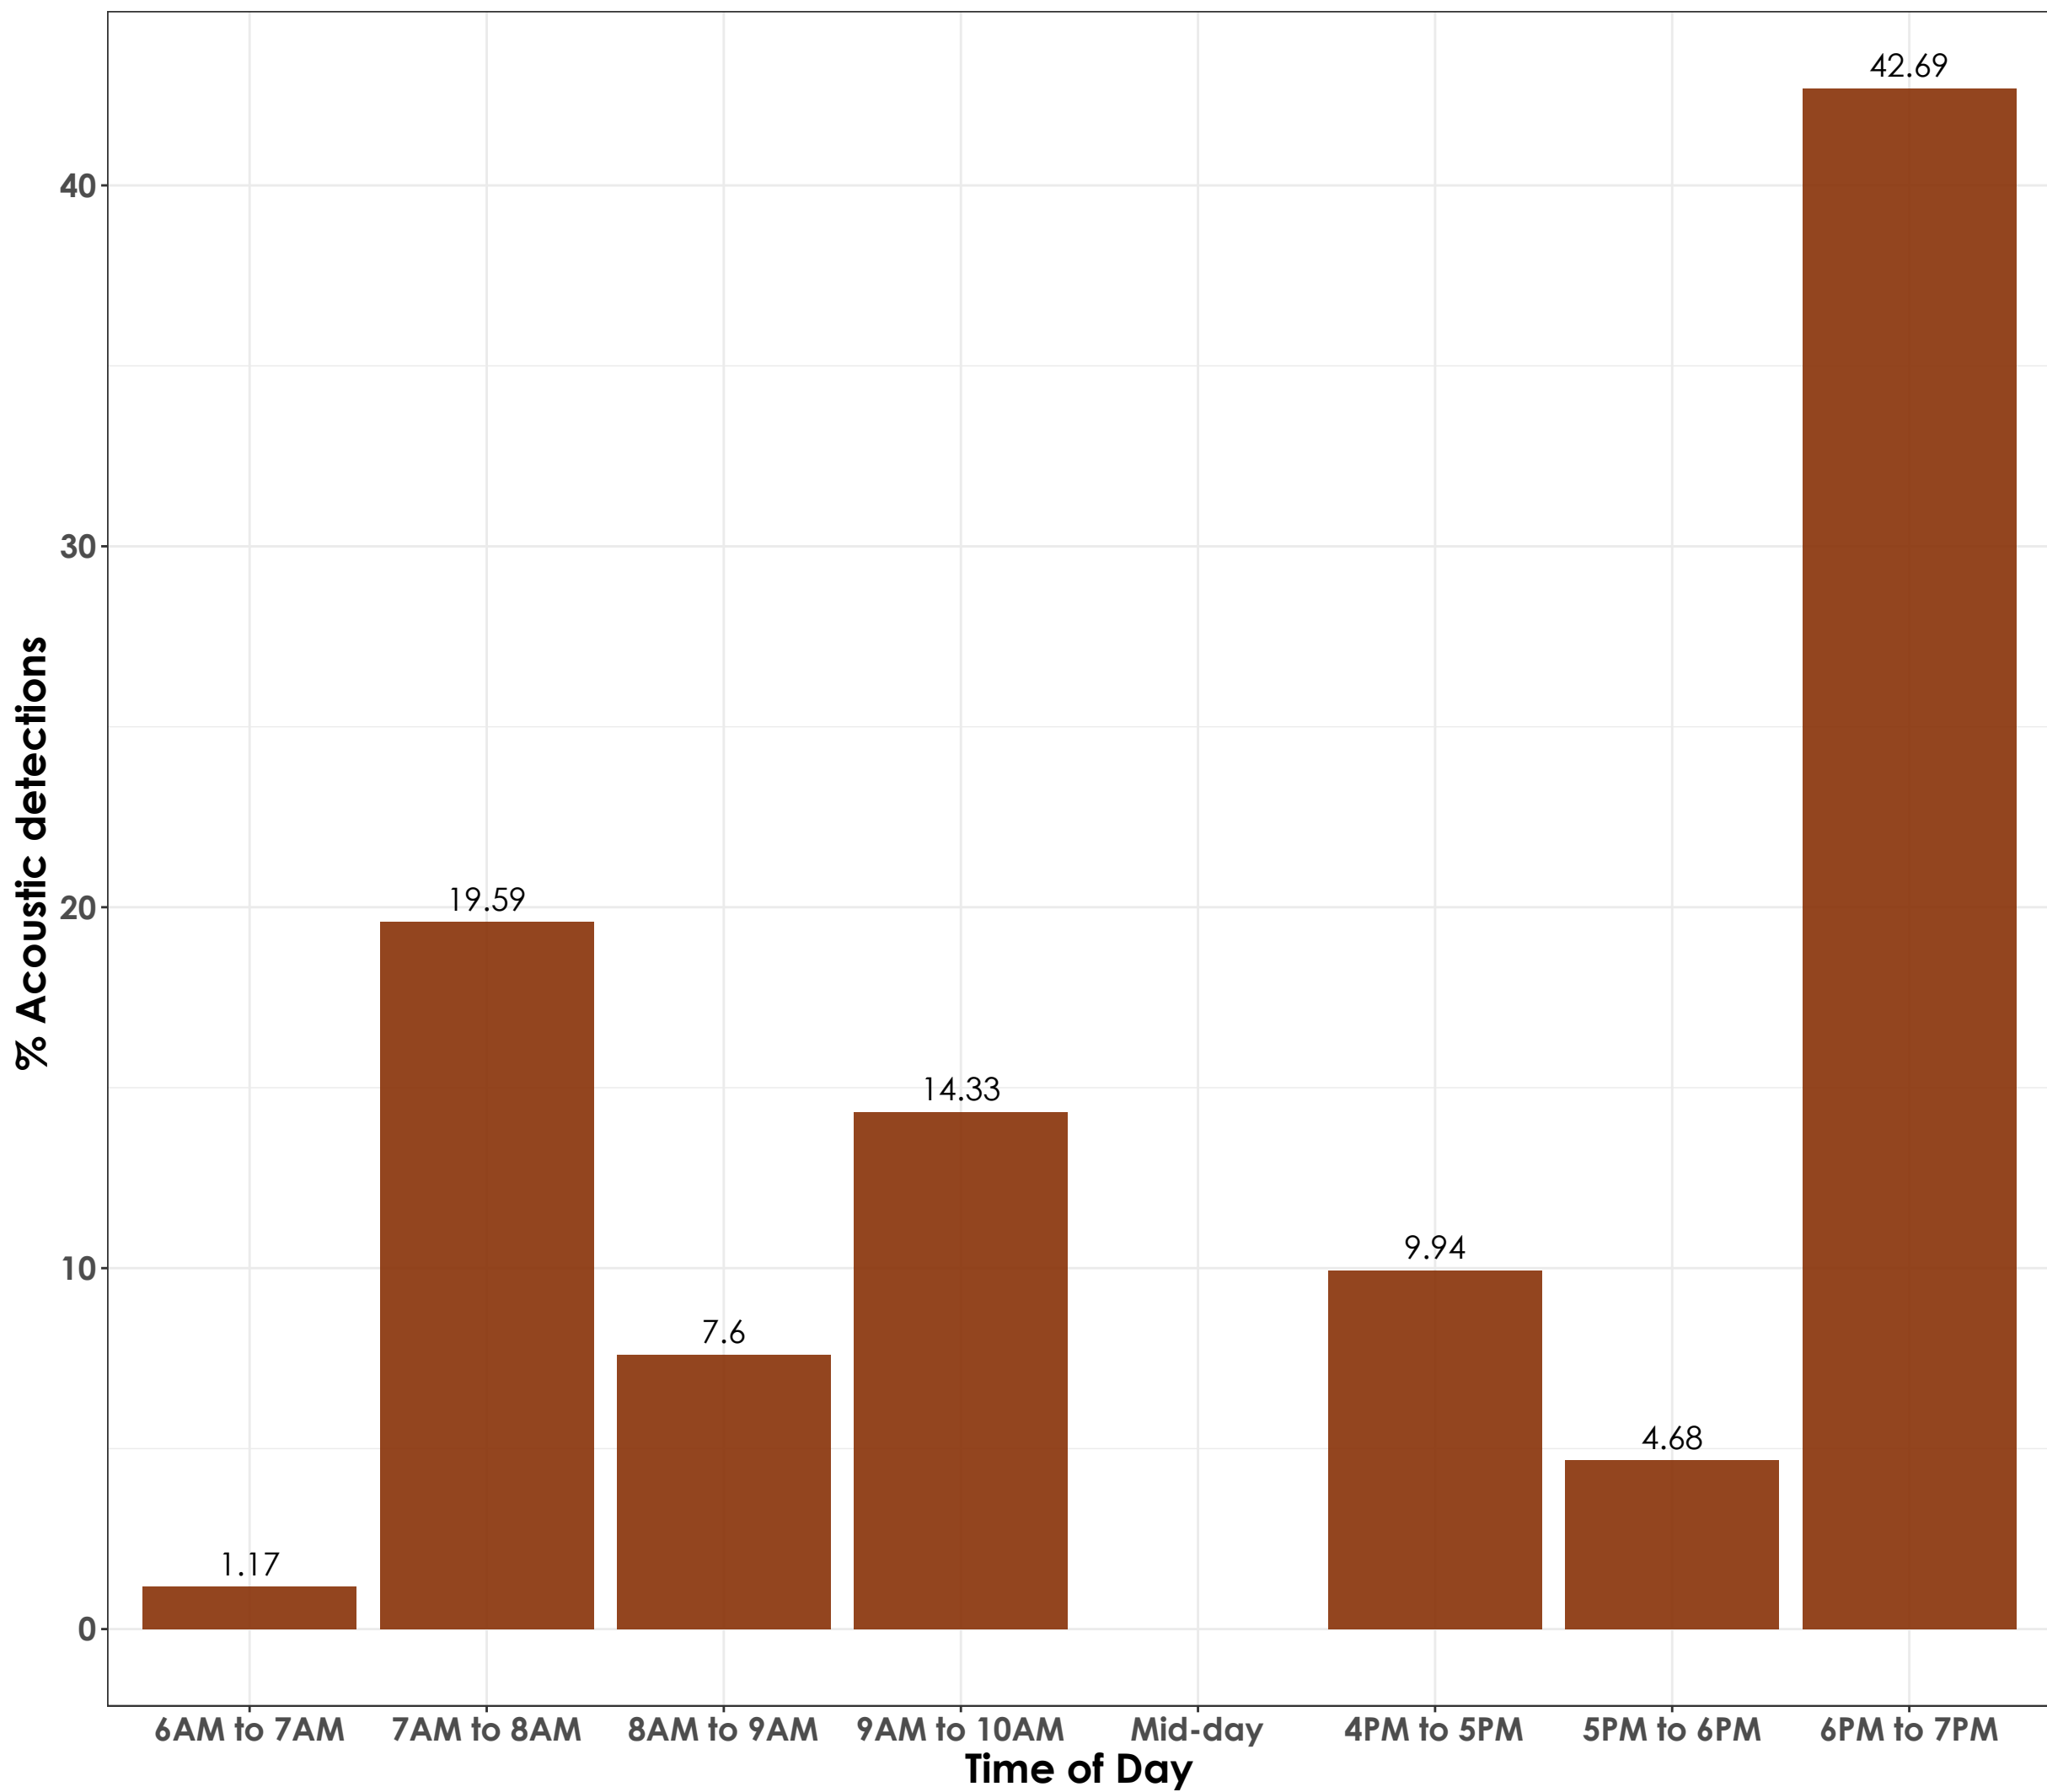

Bar-winged Flycatcher-shrike

Each bar represents the % of detections across dawn and dusk

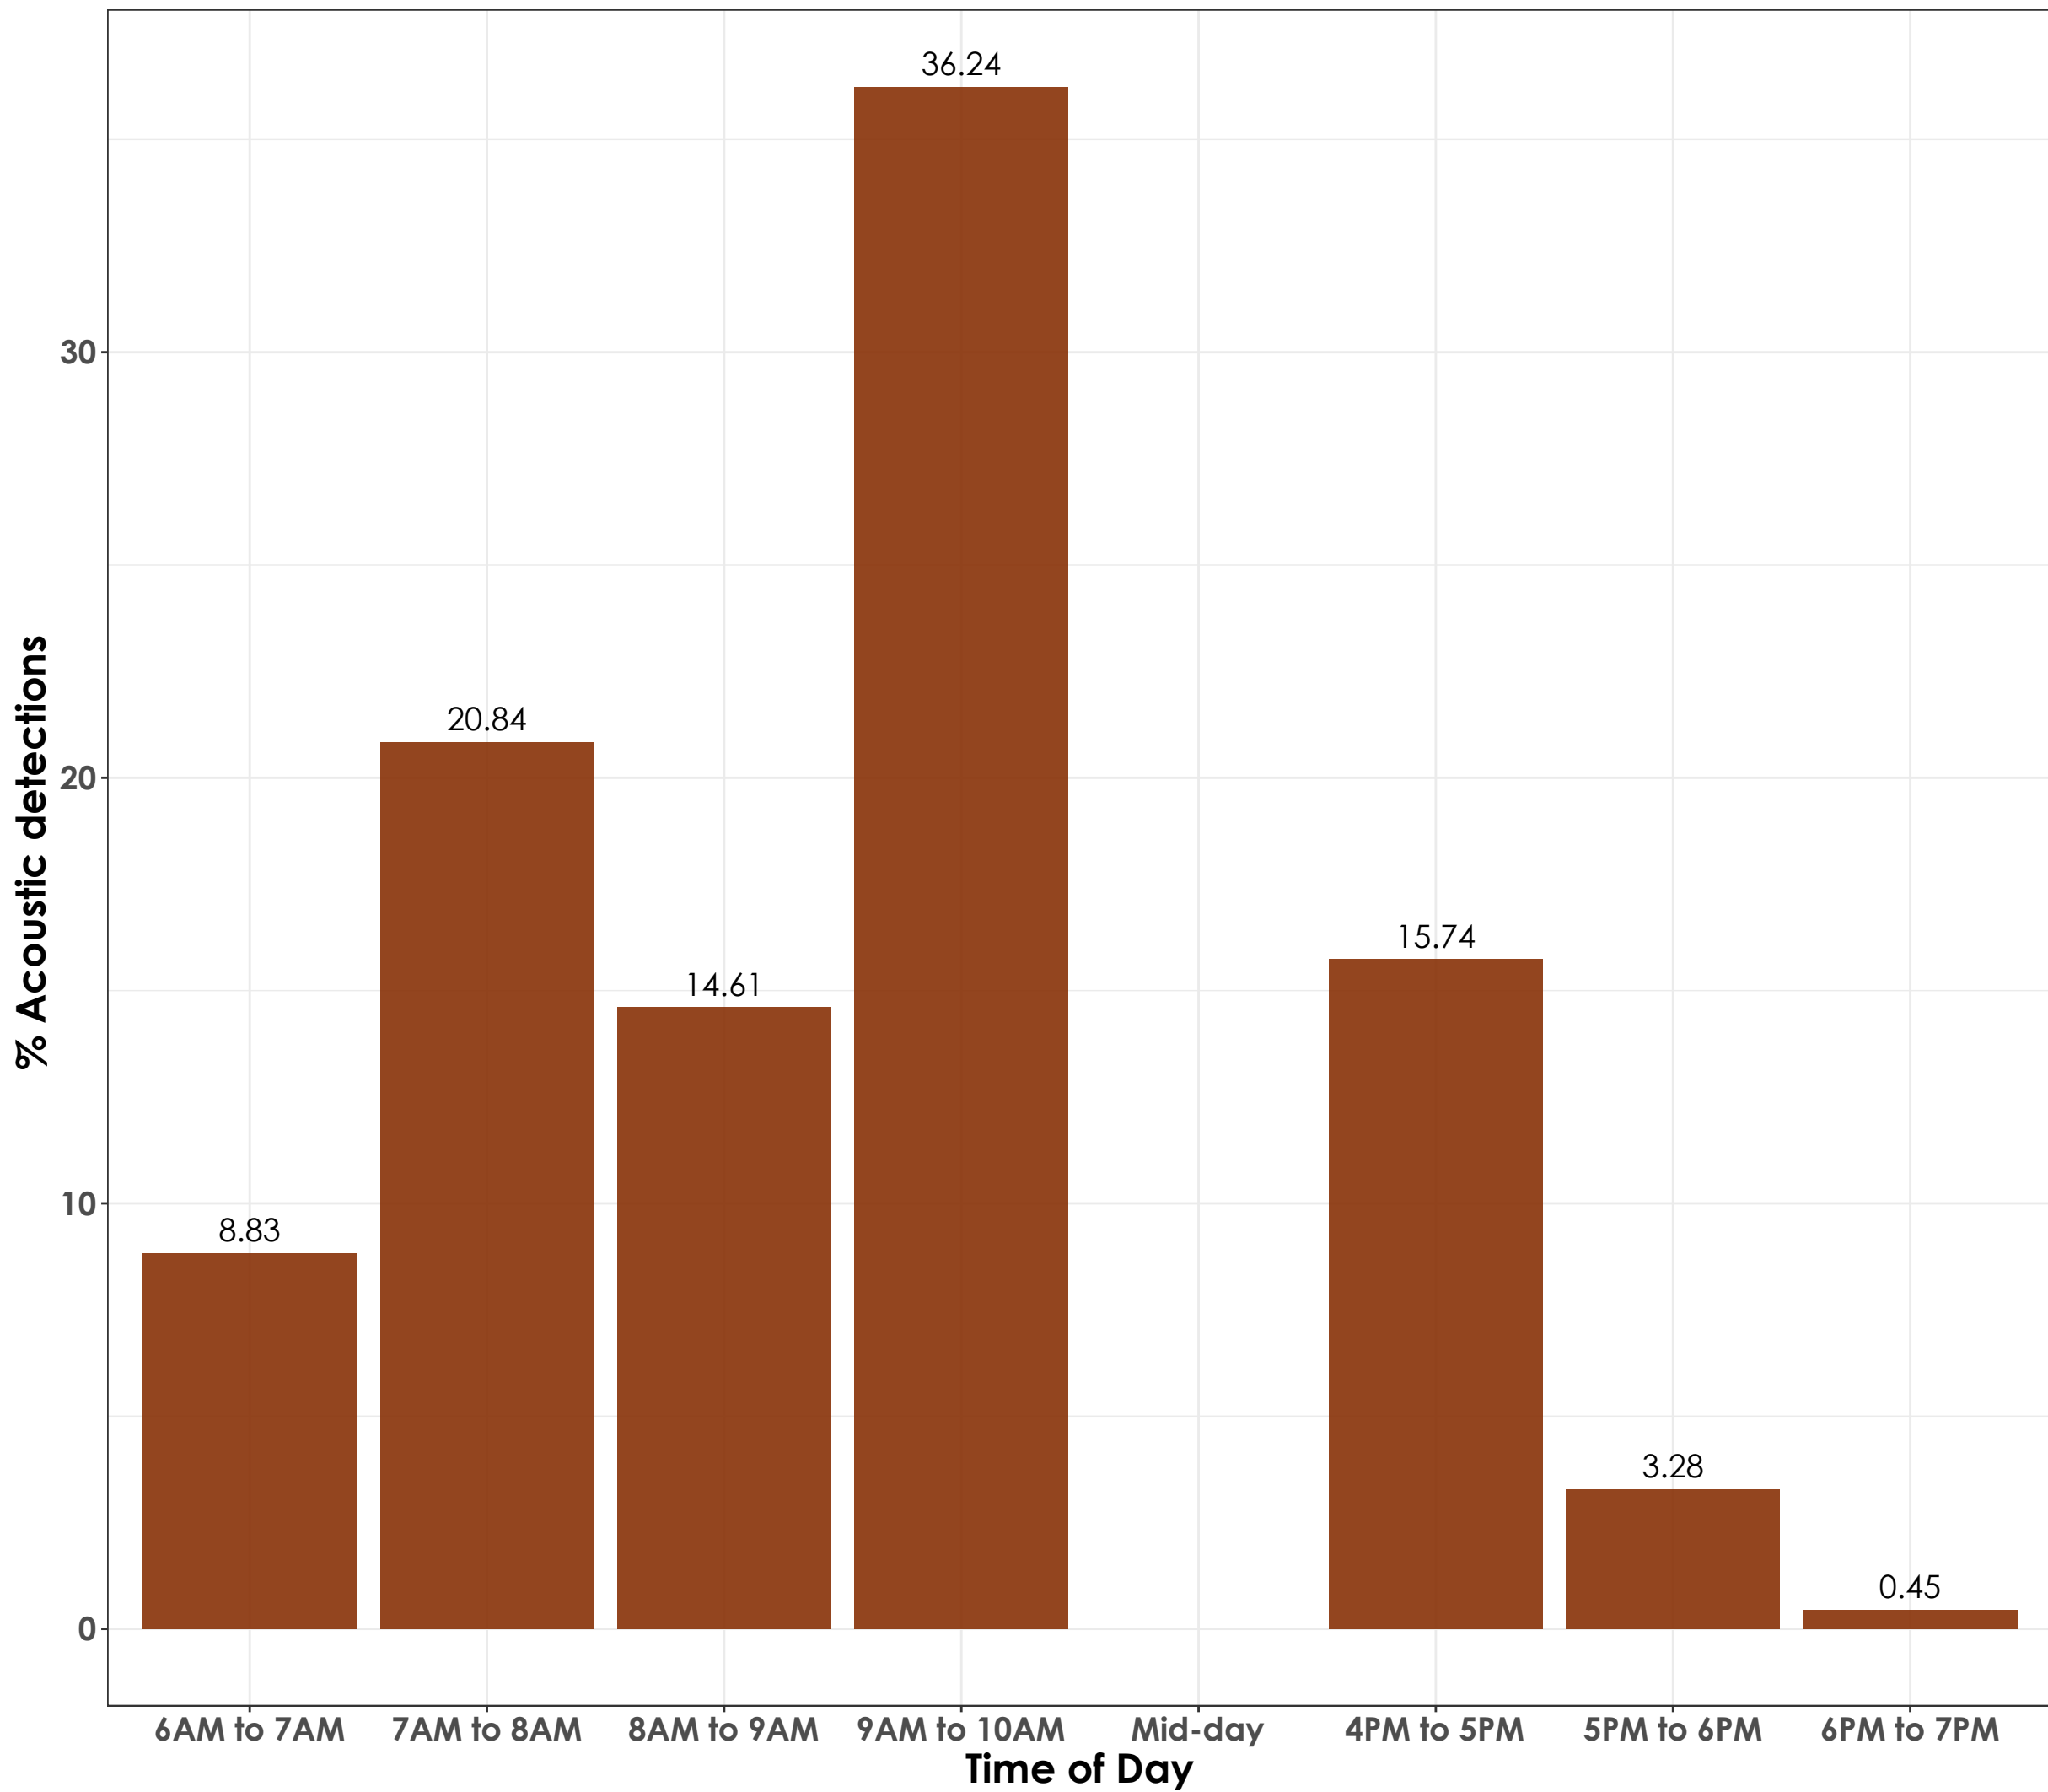

Black-and-orange Flycatcher

Each bar represents the % of detections across dawn and dusk

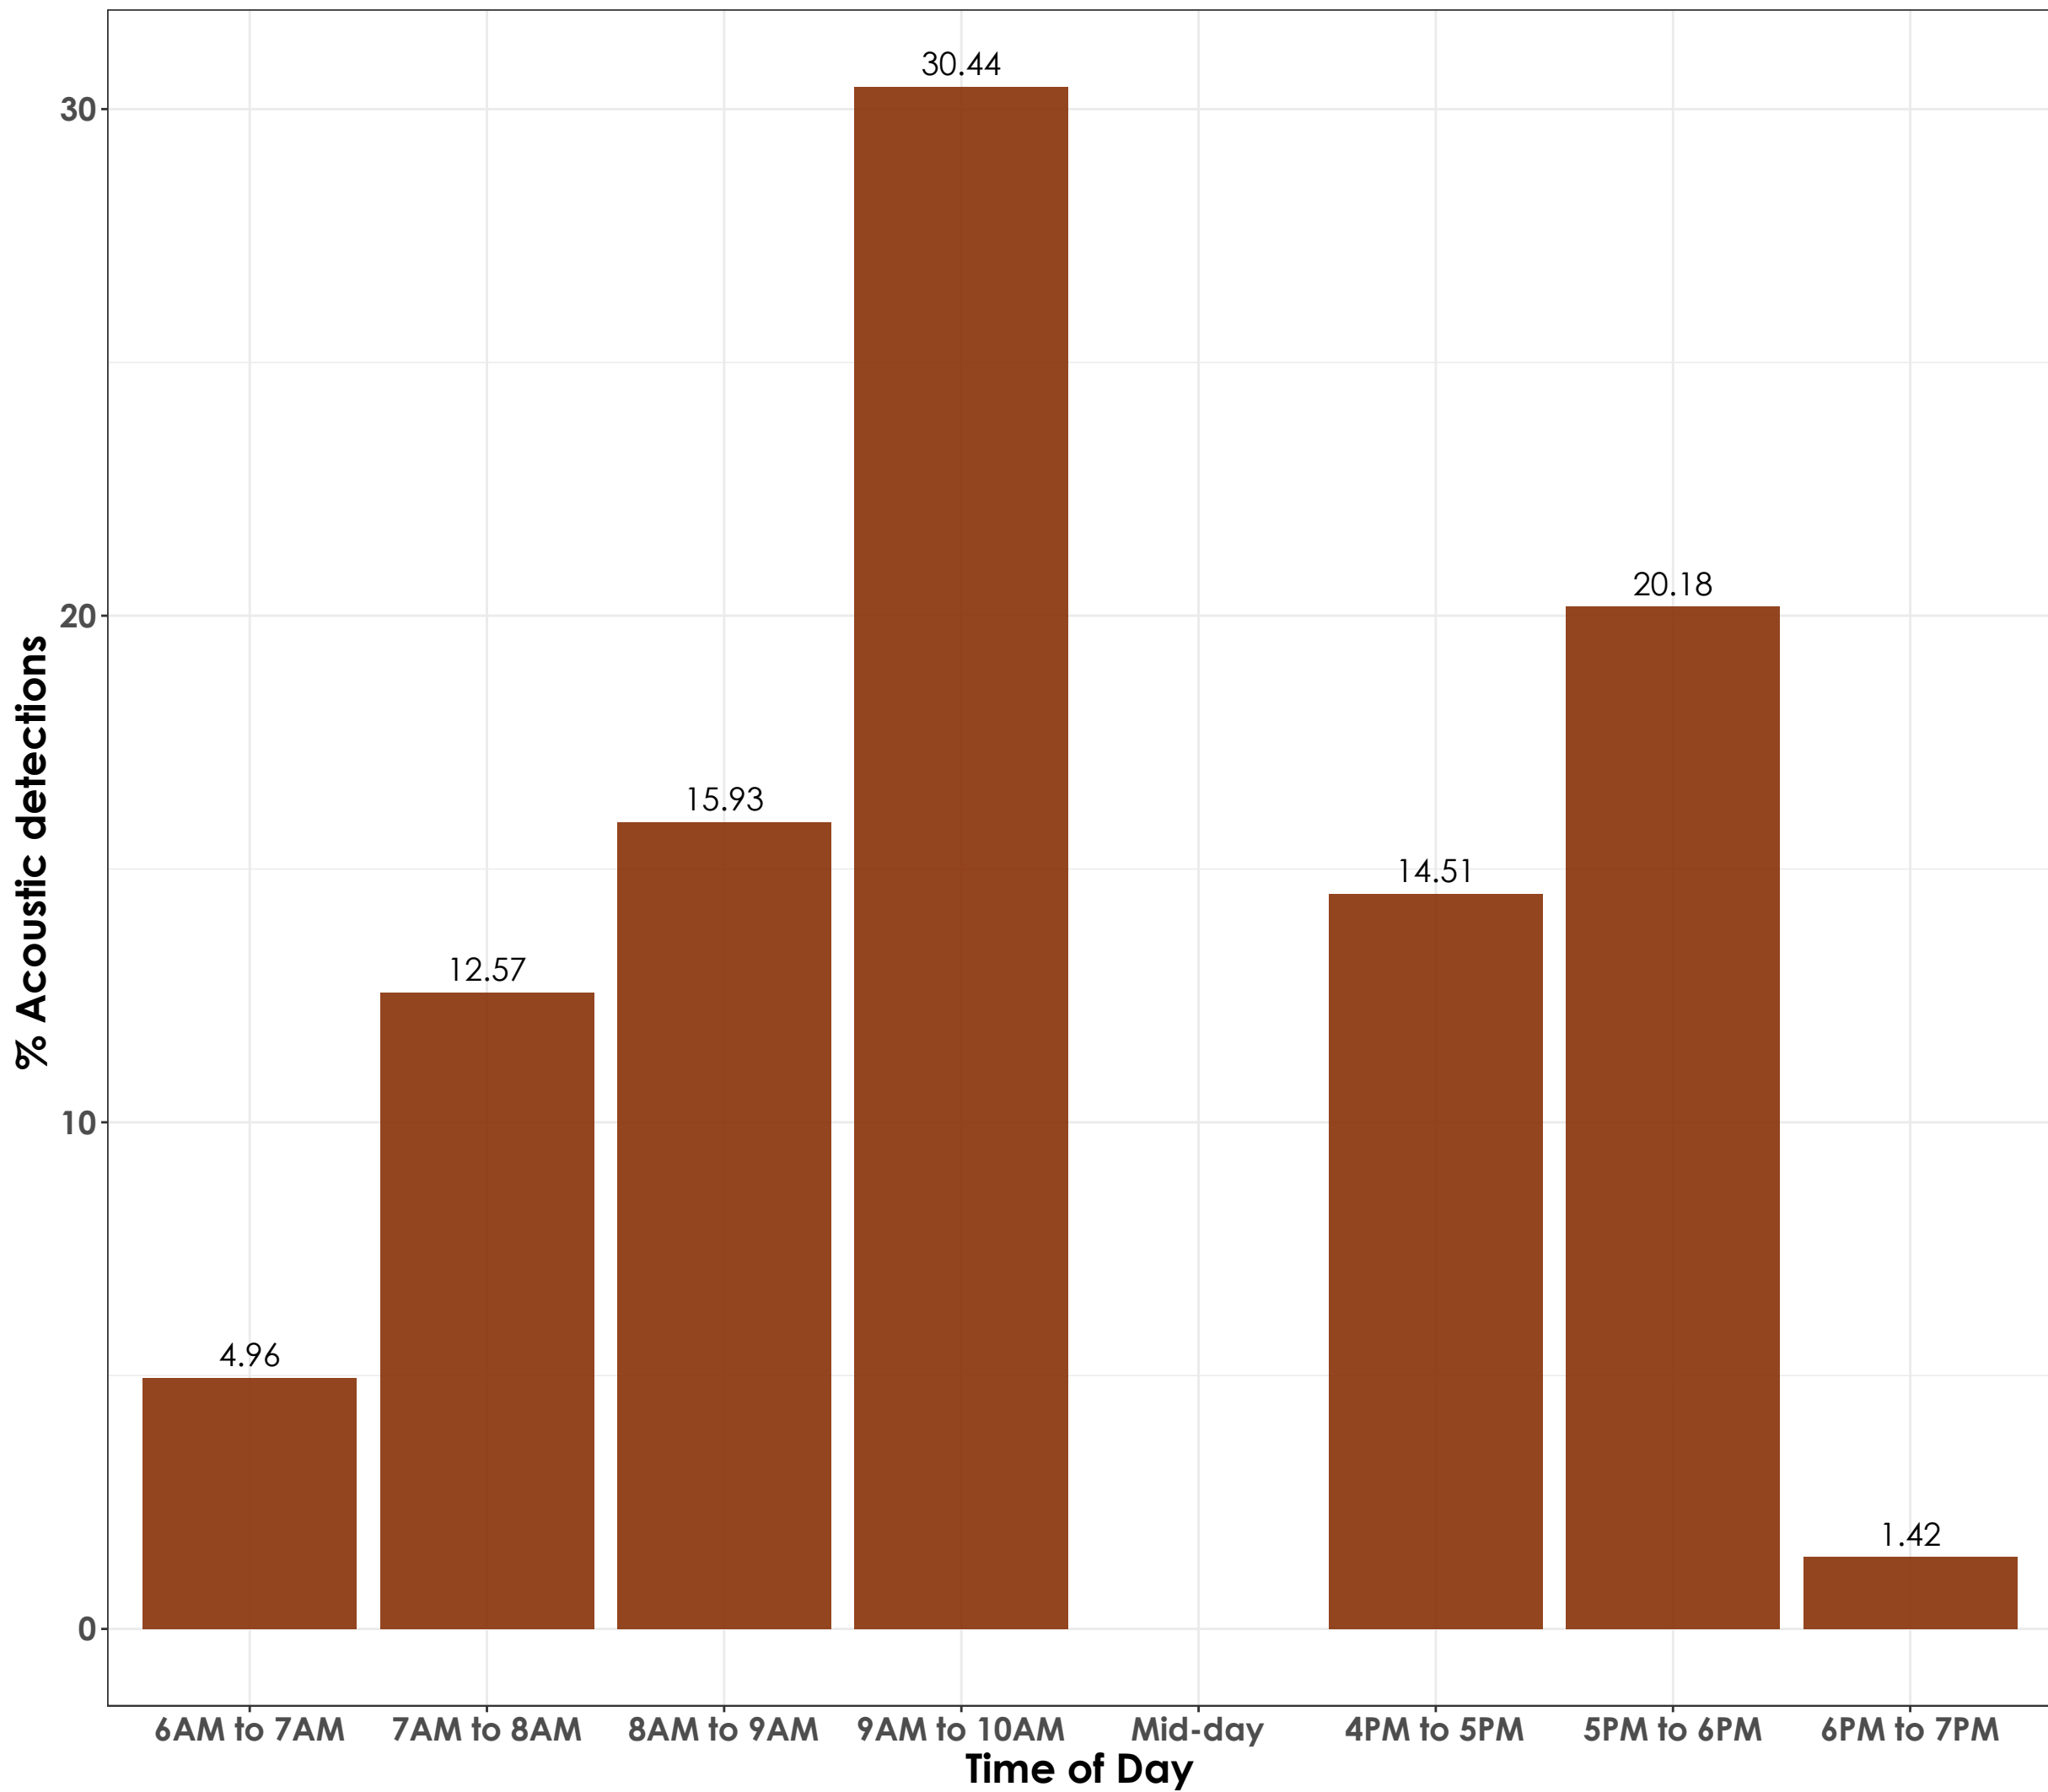

Green Warbler

Each bar represents the % of detections across dawn and dusk

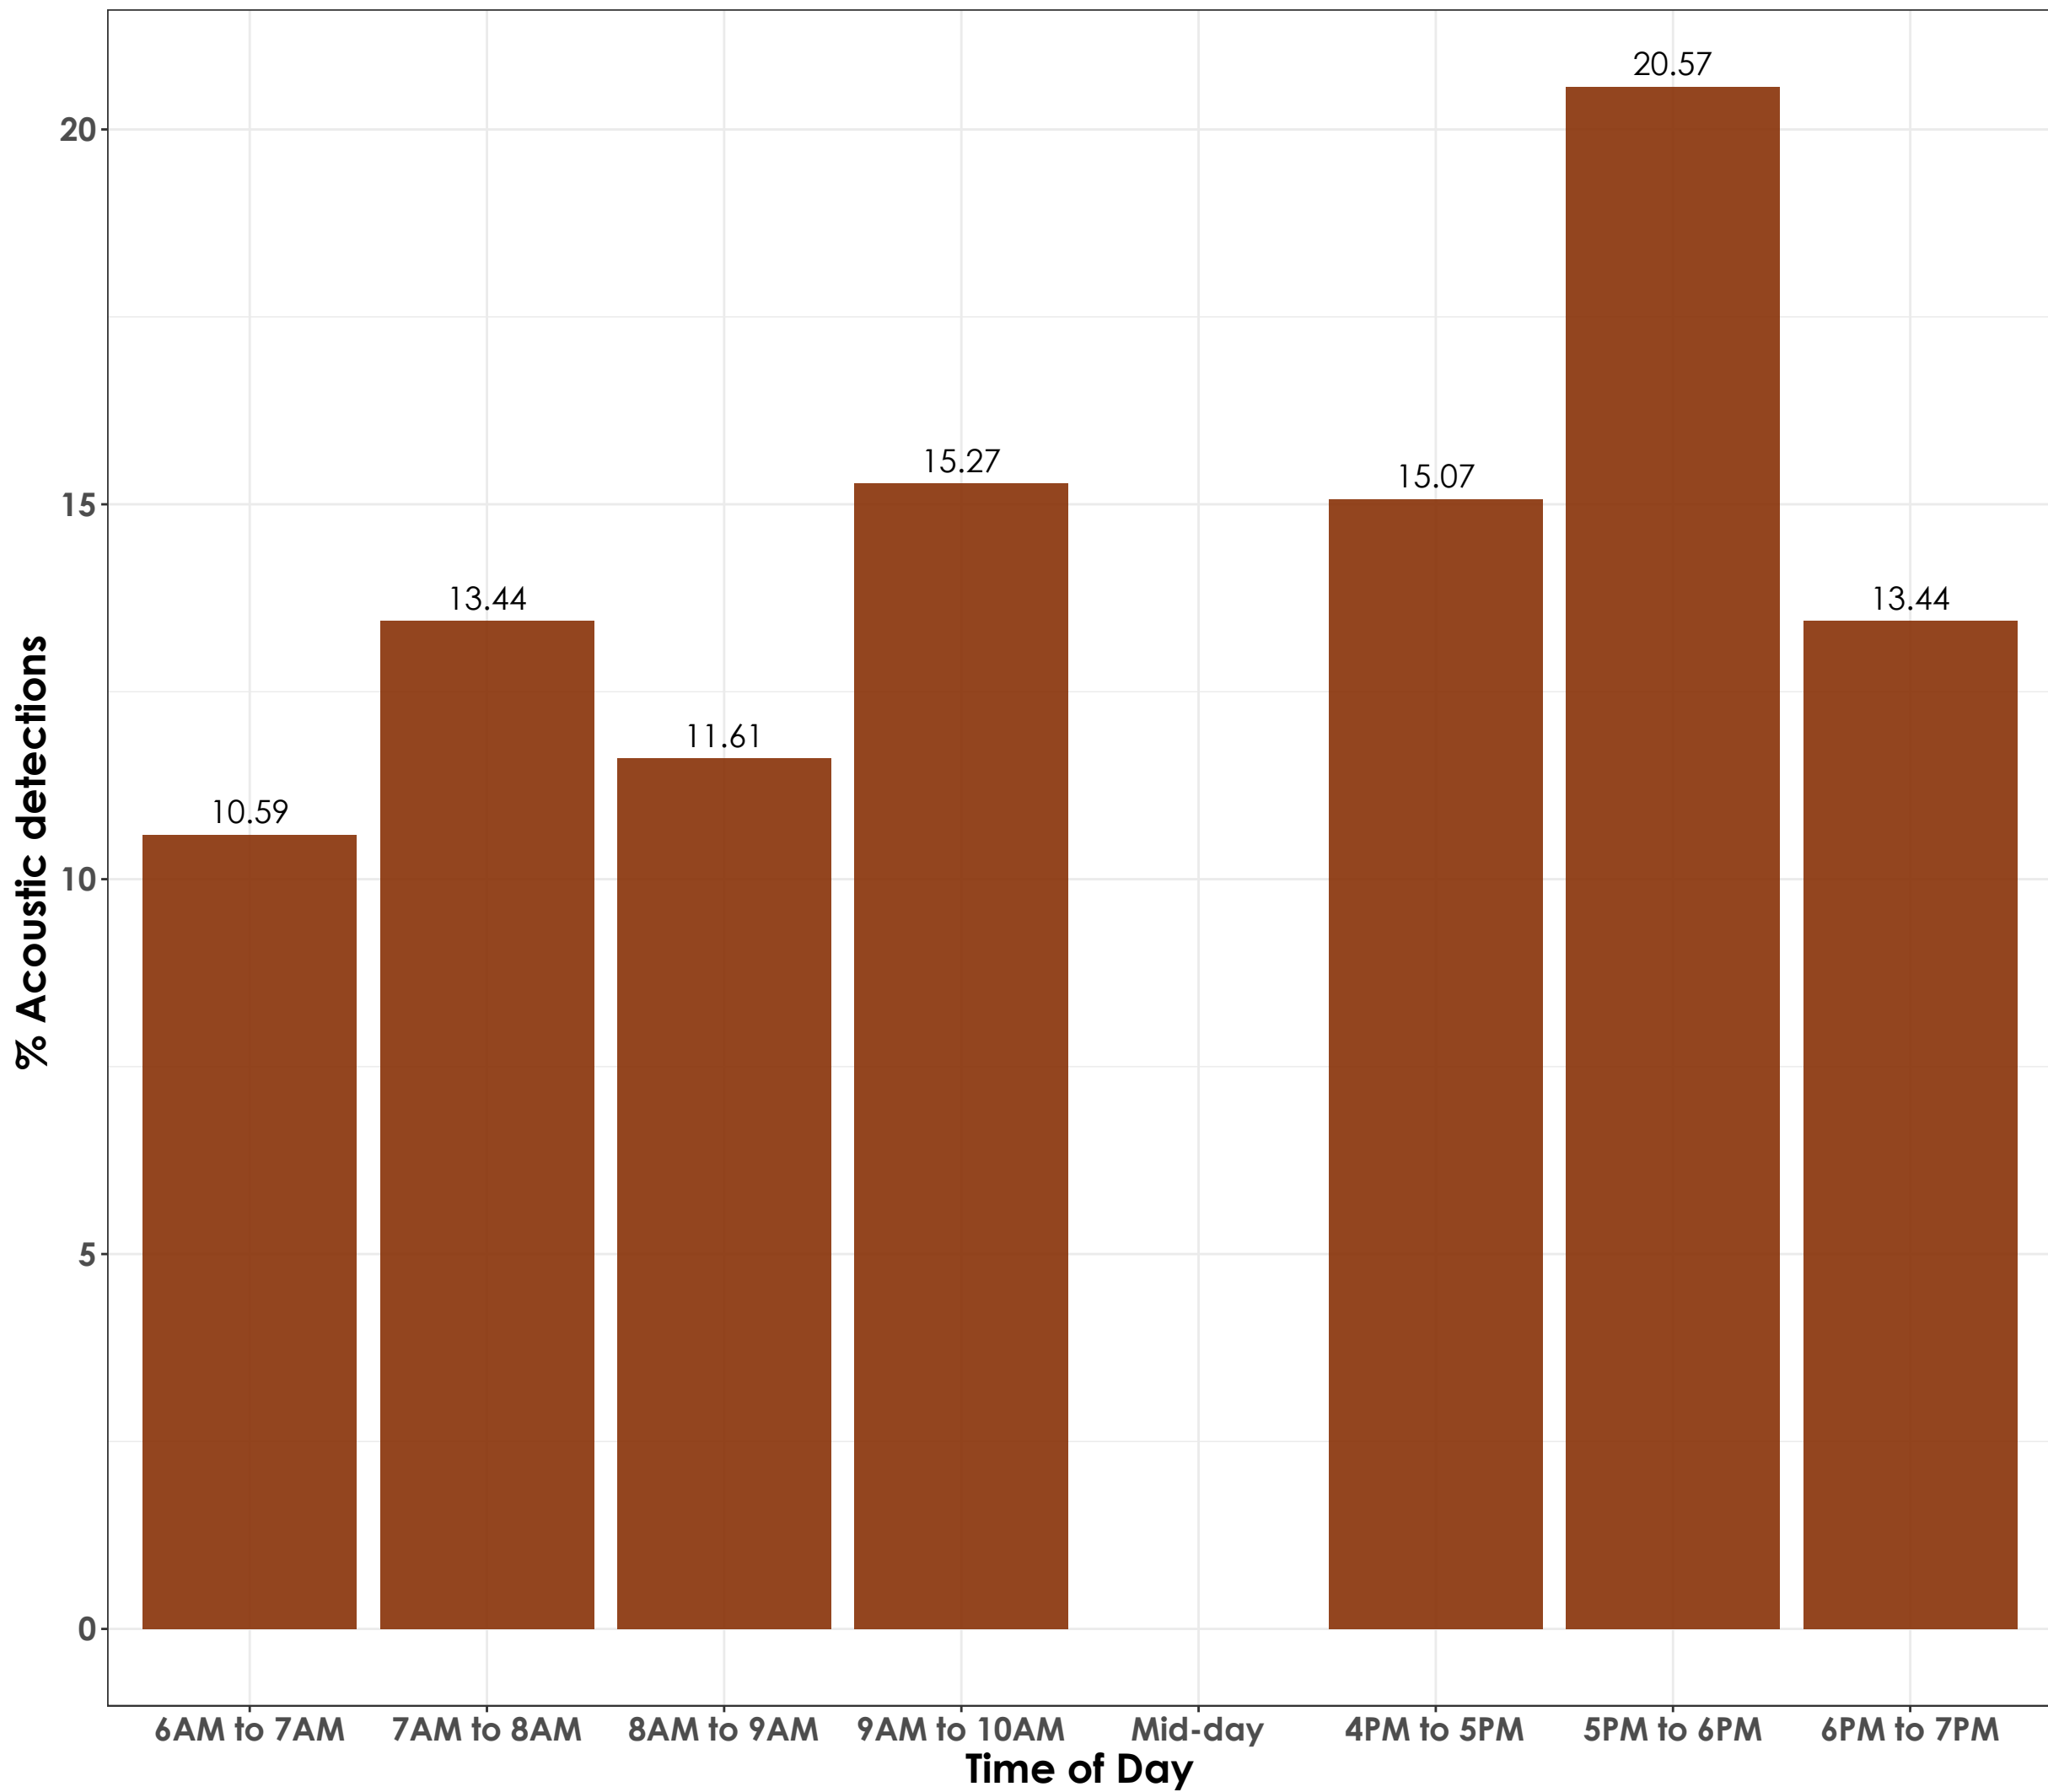

Chestnut-headed Bee-eater

Each bar represents the % of detections across dawn and dusk

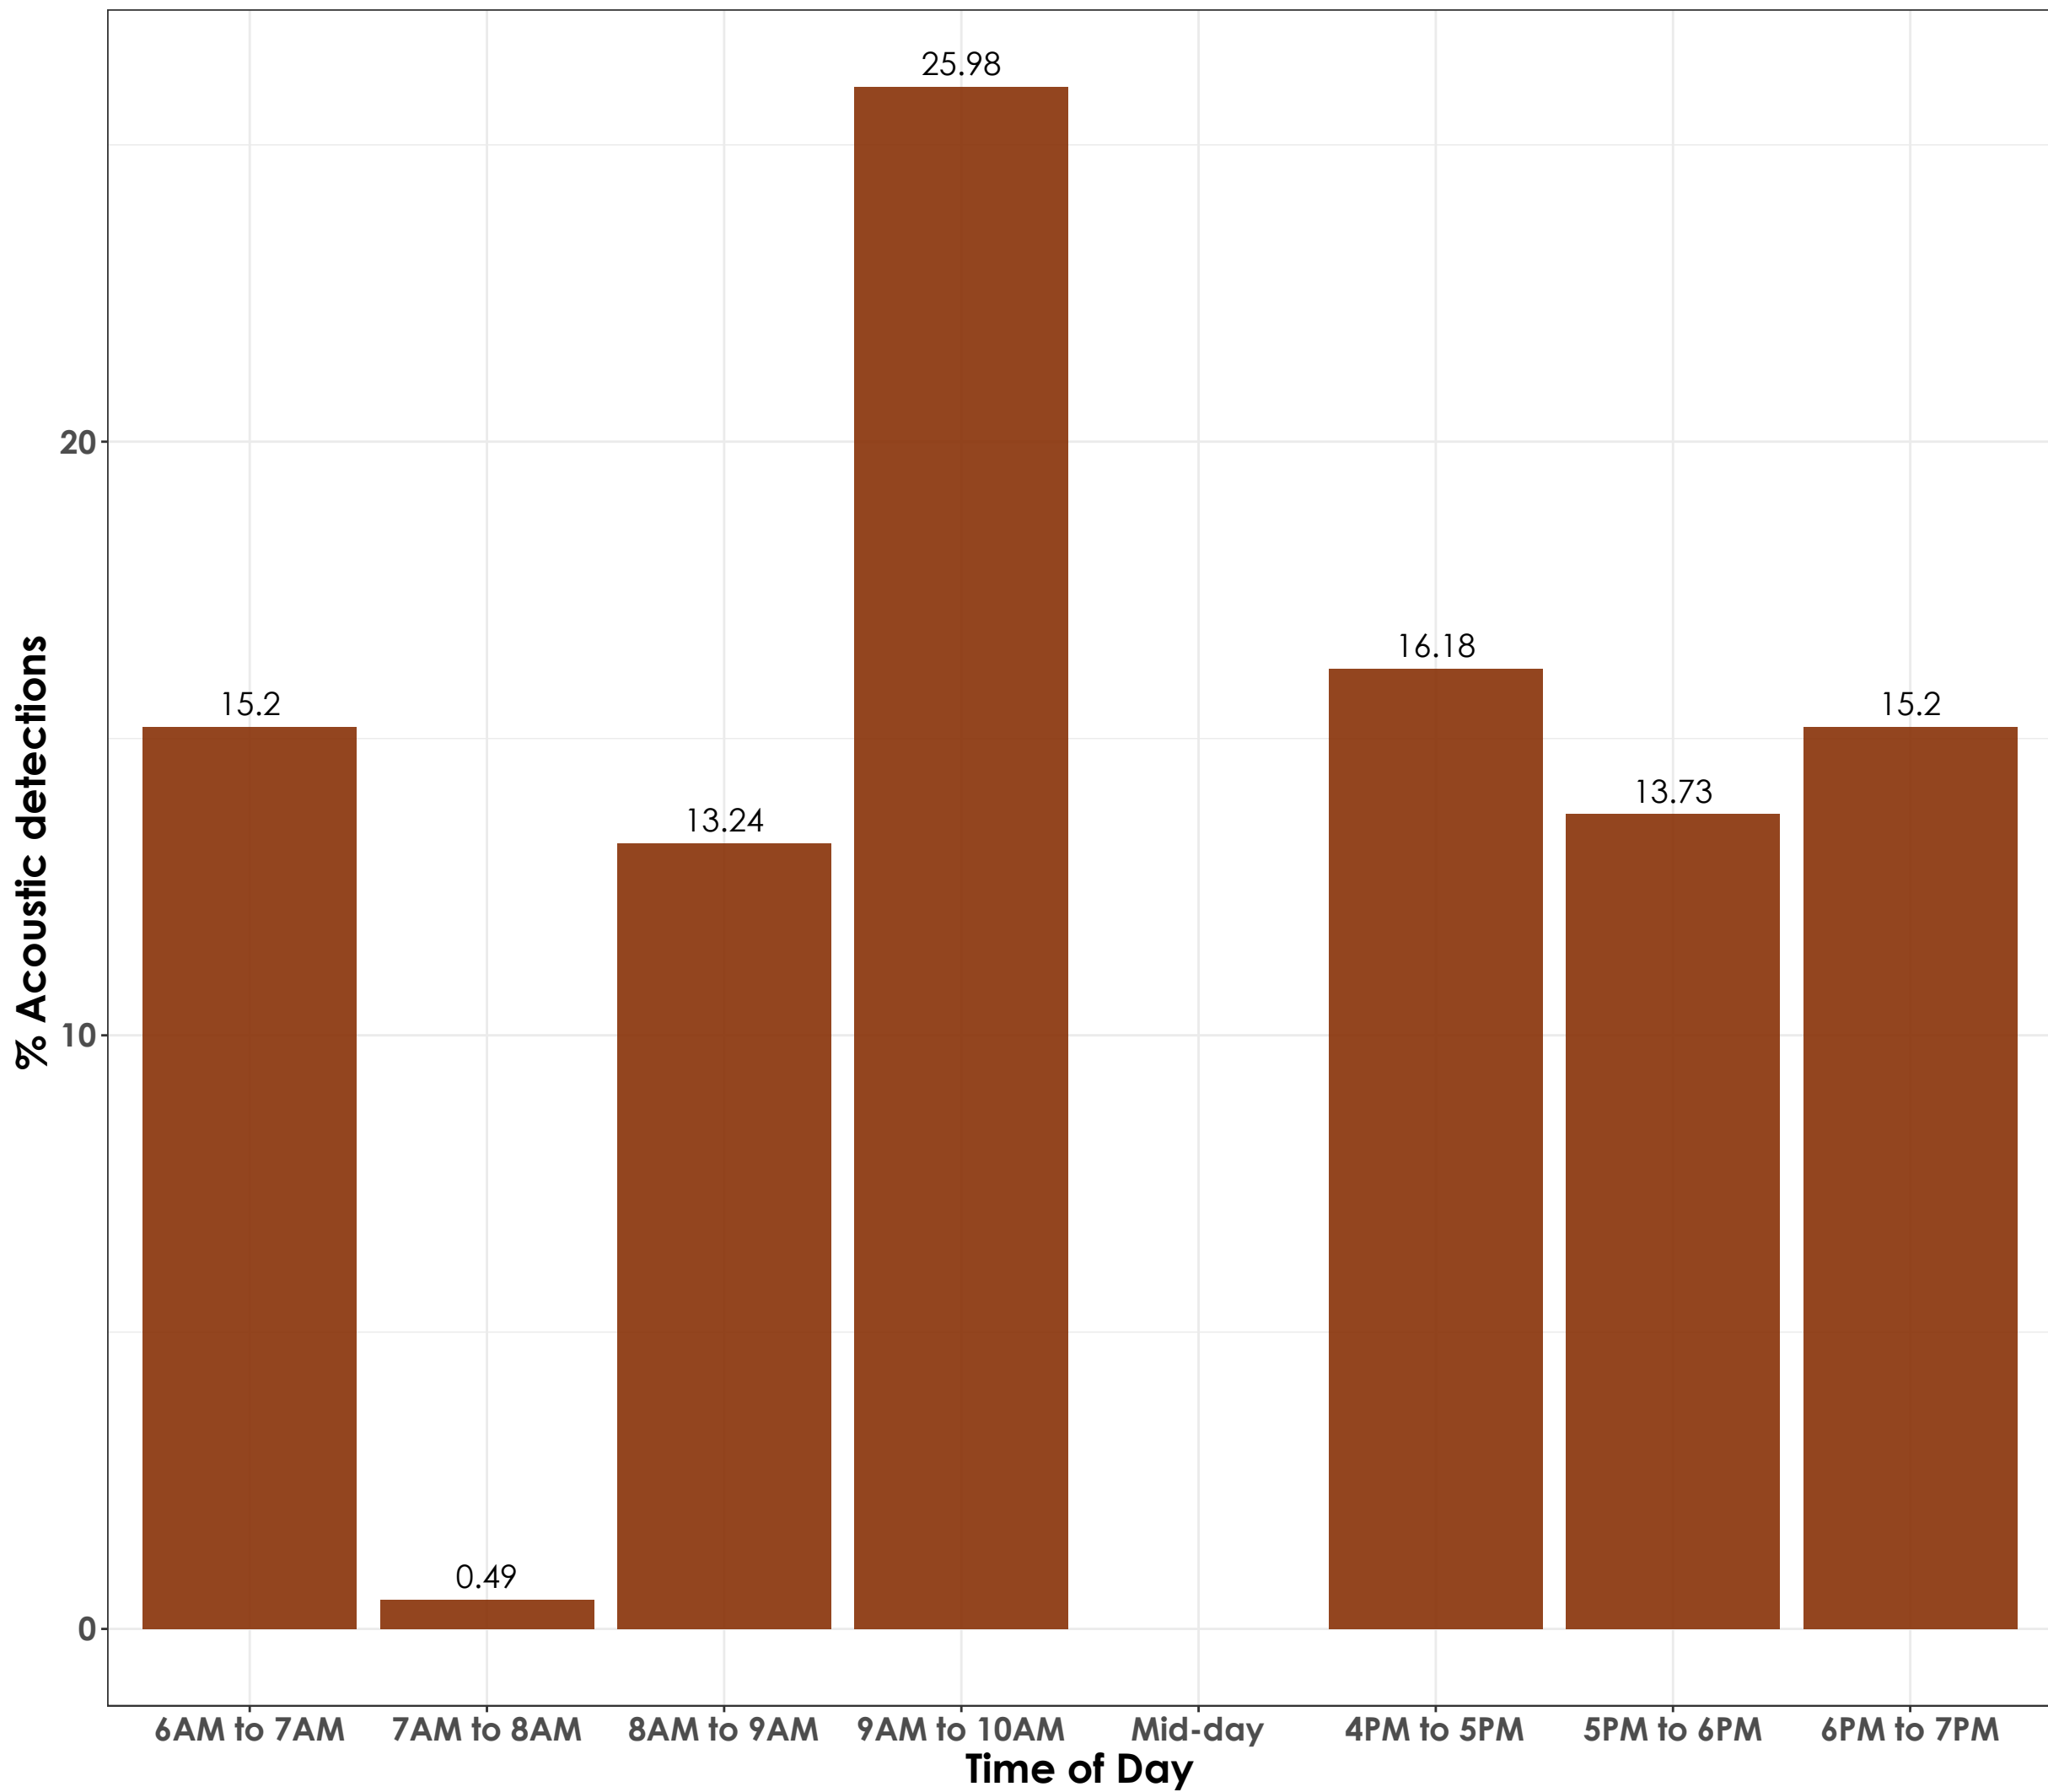

Indian Blue Robin

Each bar represents the % of detections across dawn and dusk

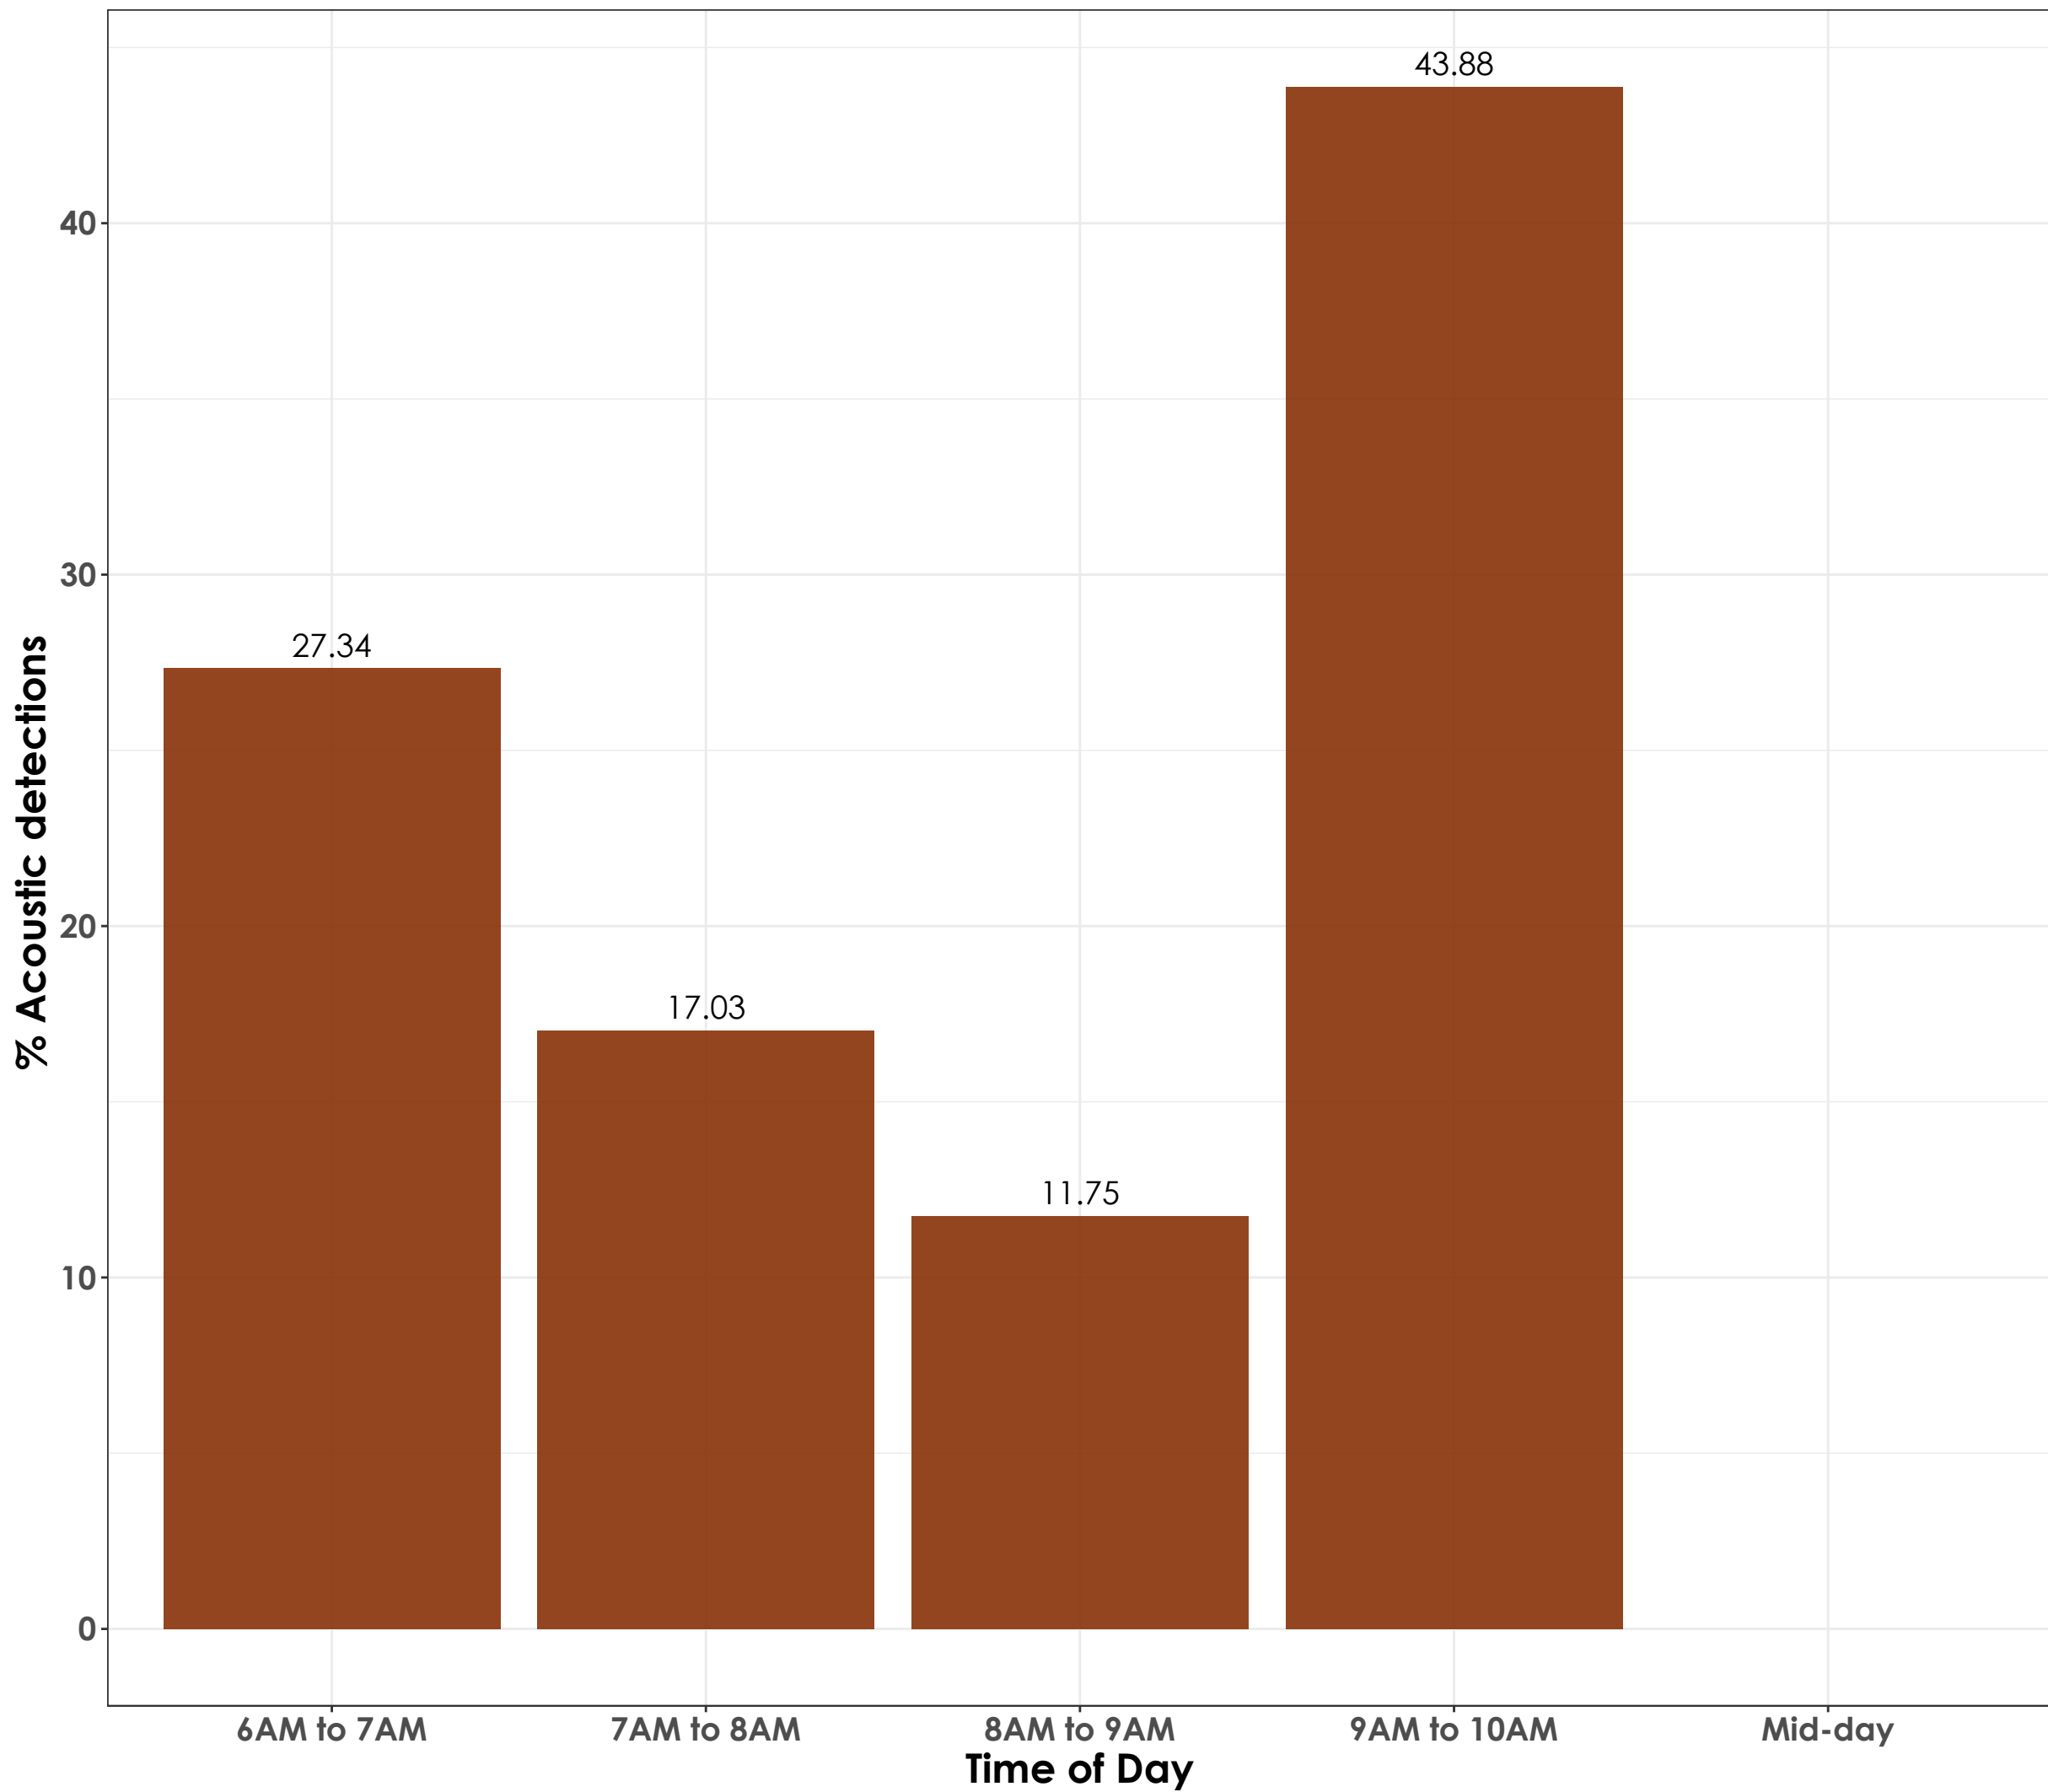

Asian Brown Flycatcher

Each bar represents the % of detections across dawn and dusk

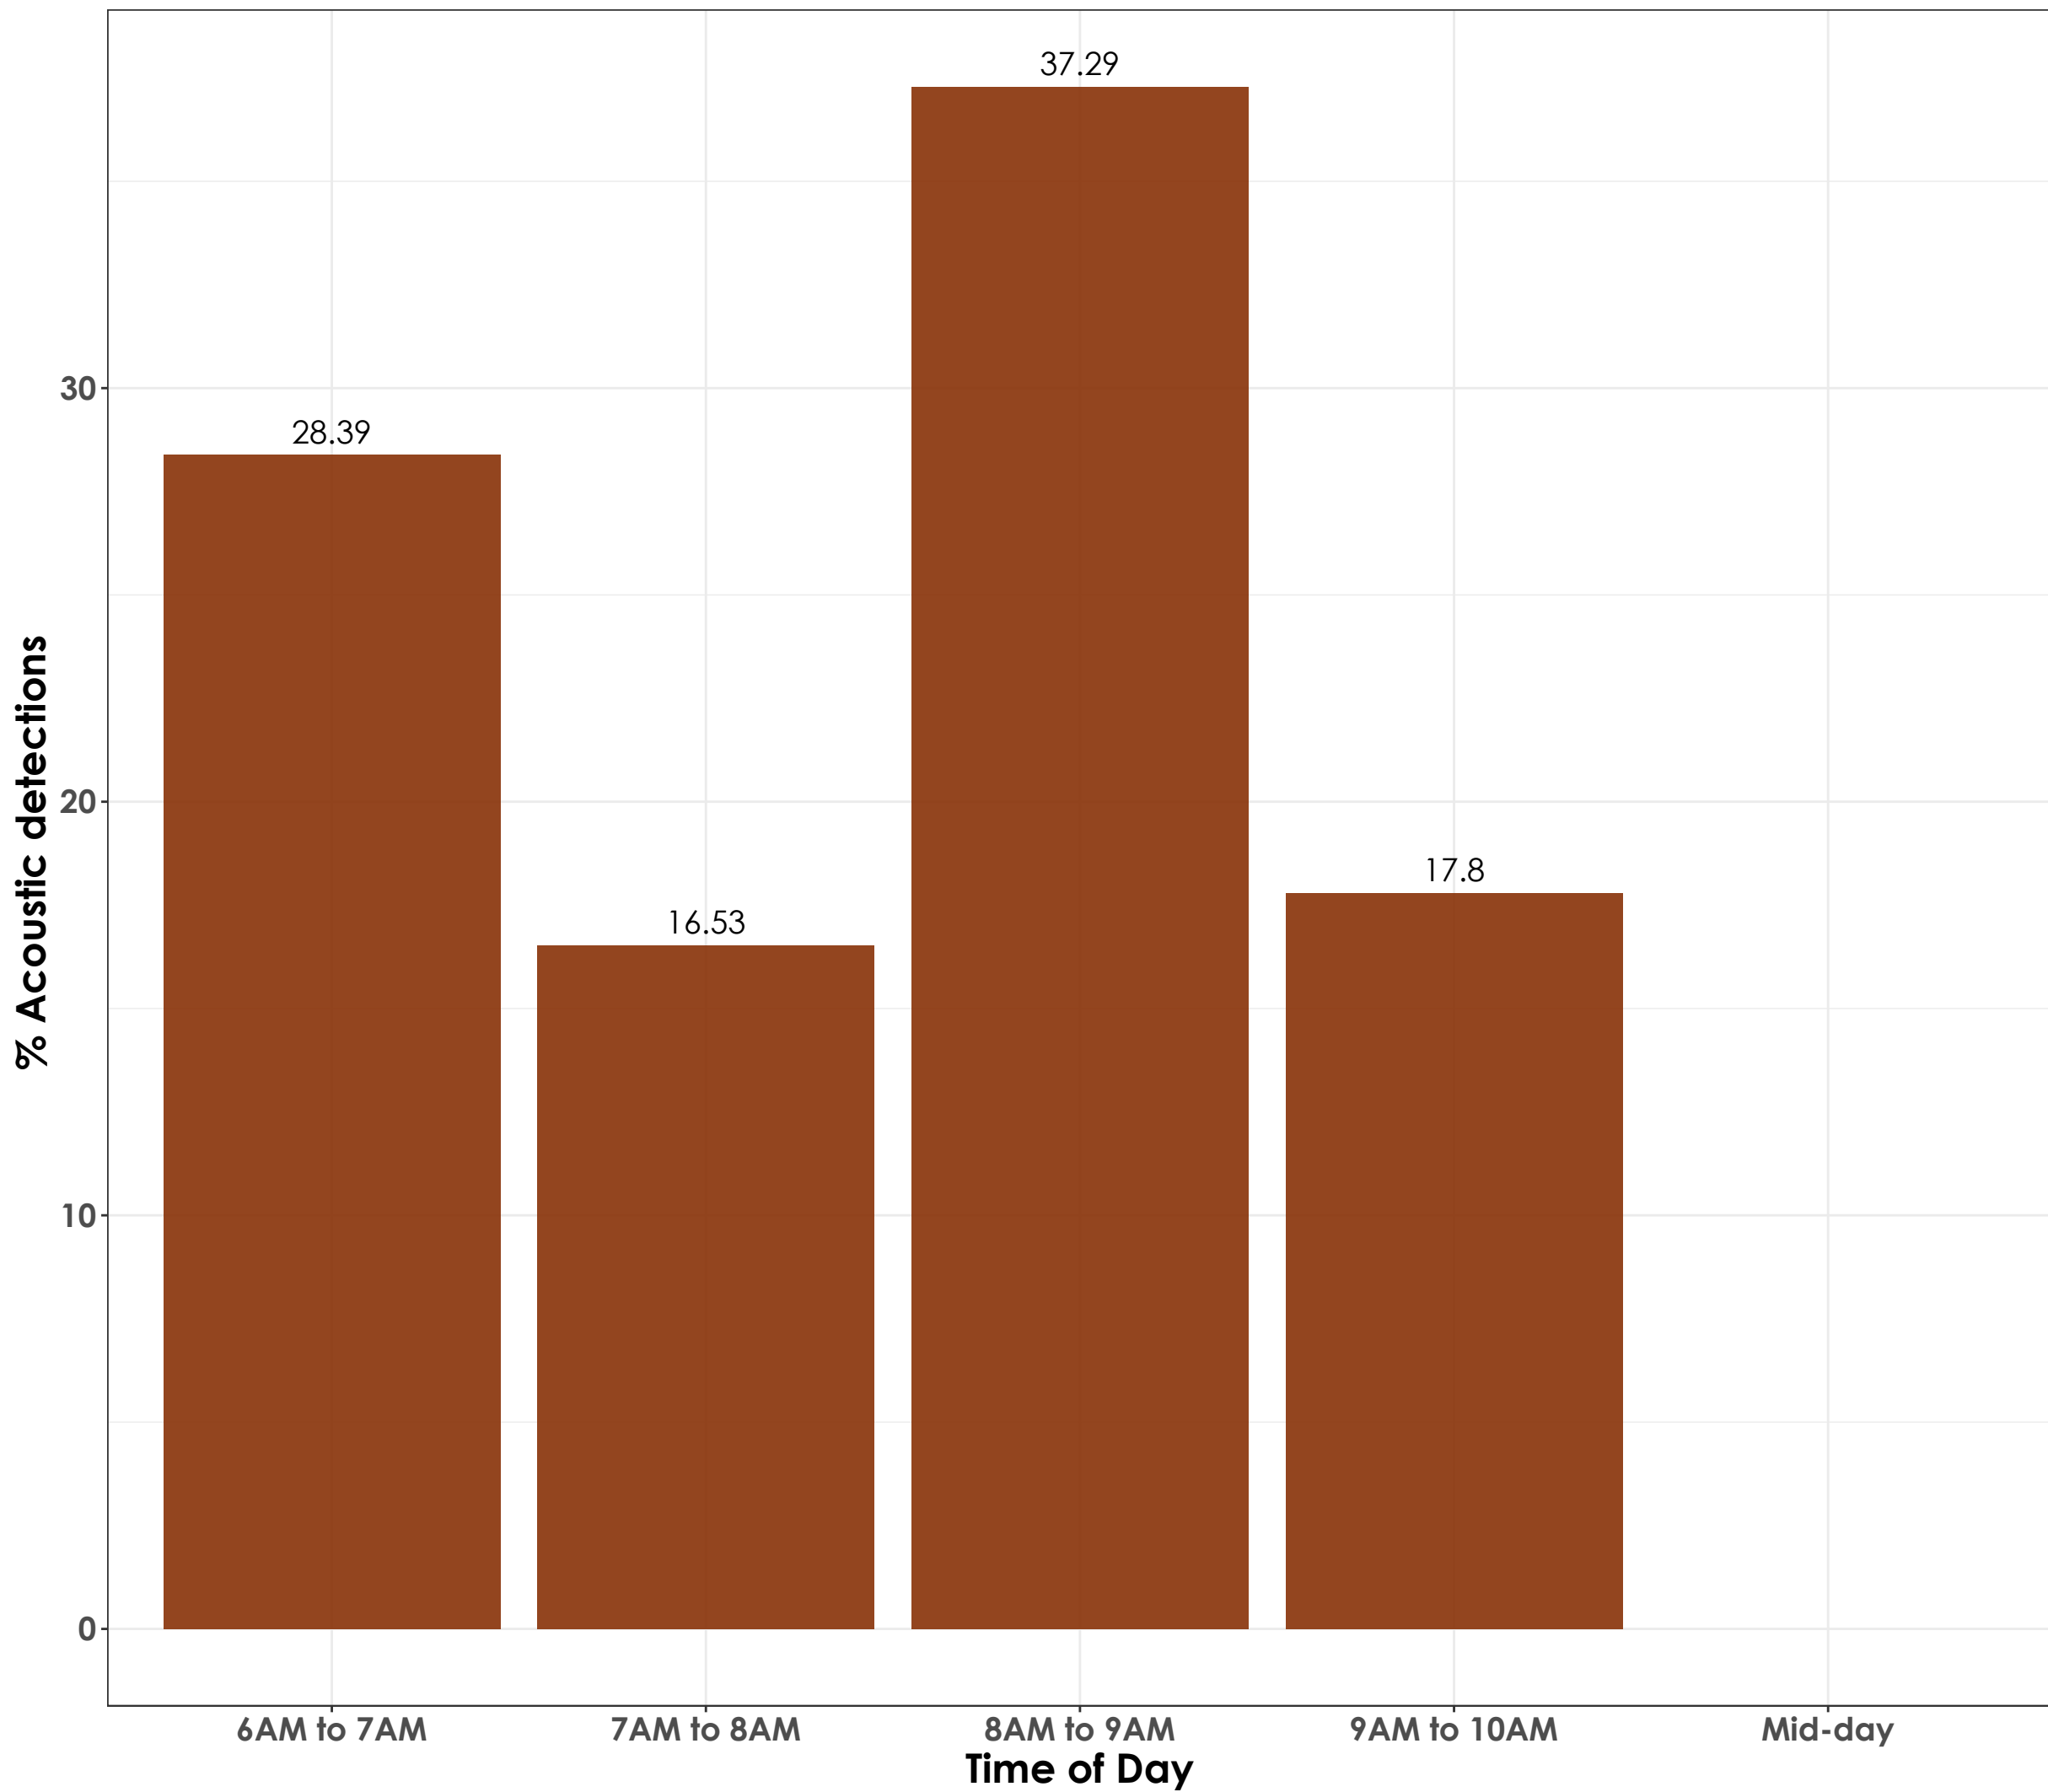

Little Spiderhunter

Each bar represents the % of detections across dawn and dusk

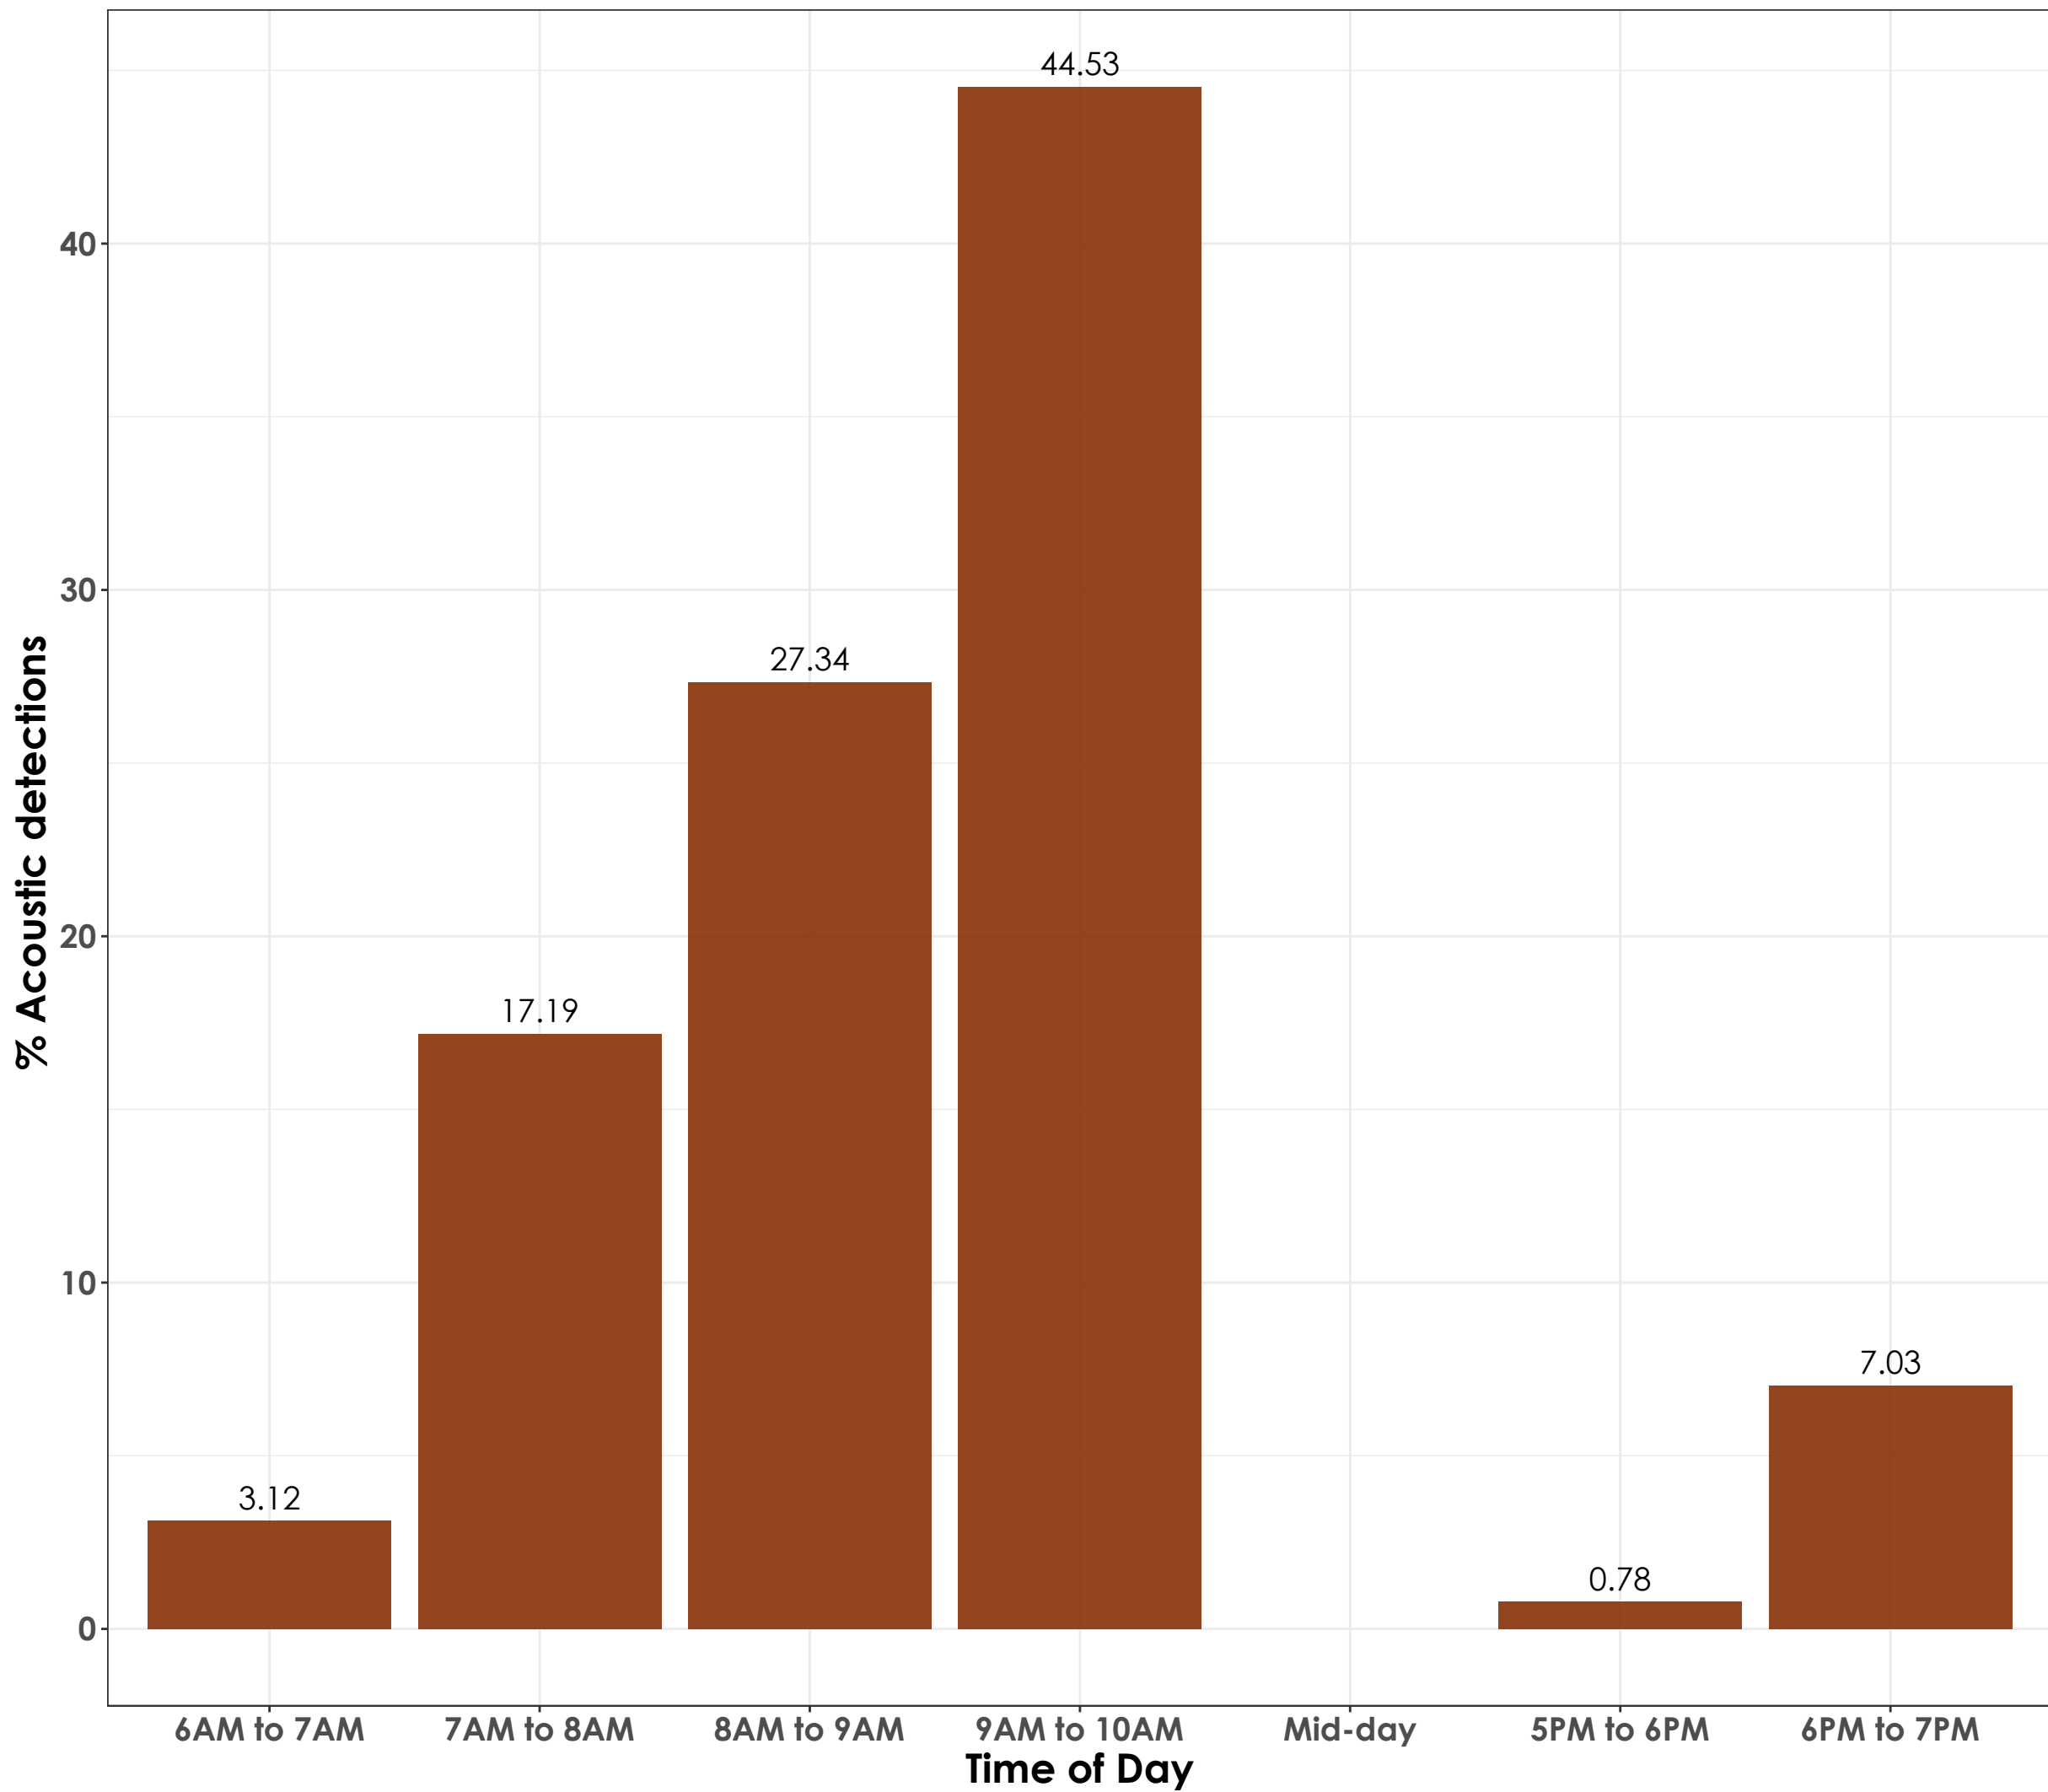

Indian Blackbird

Each bar represents the % of detections across dawn and dusk

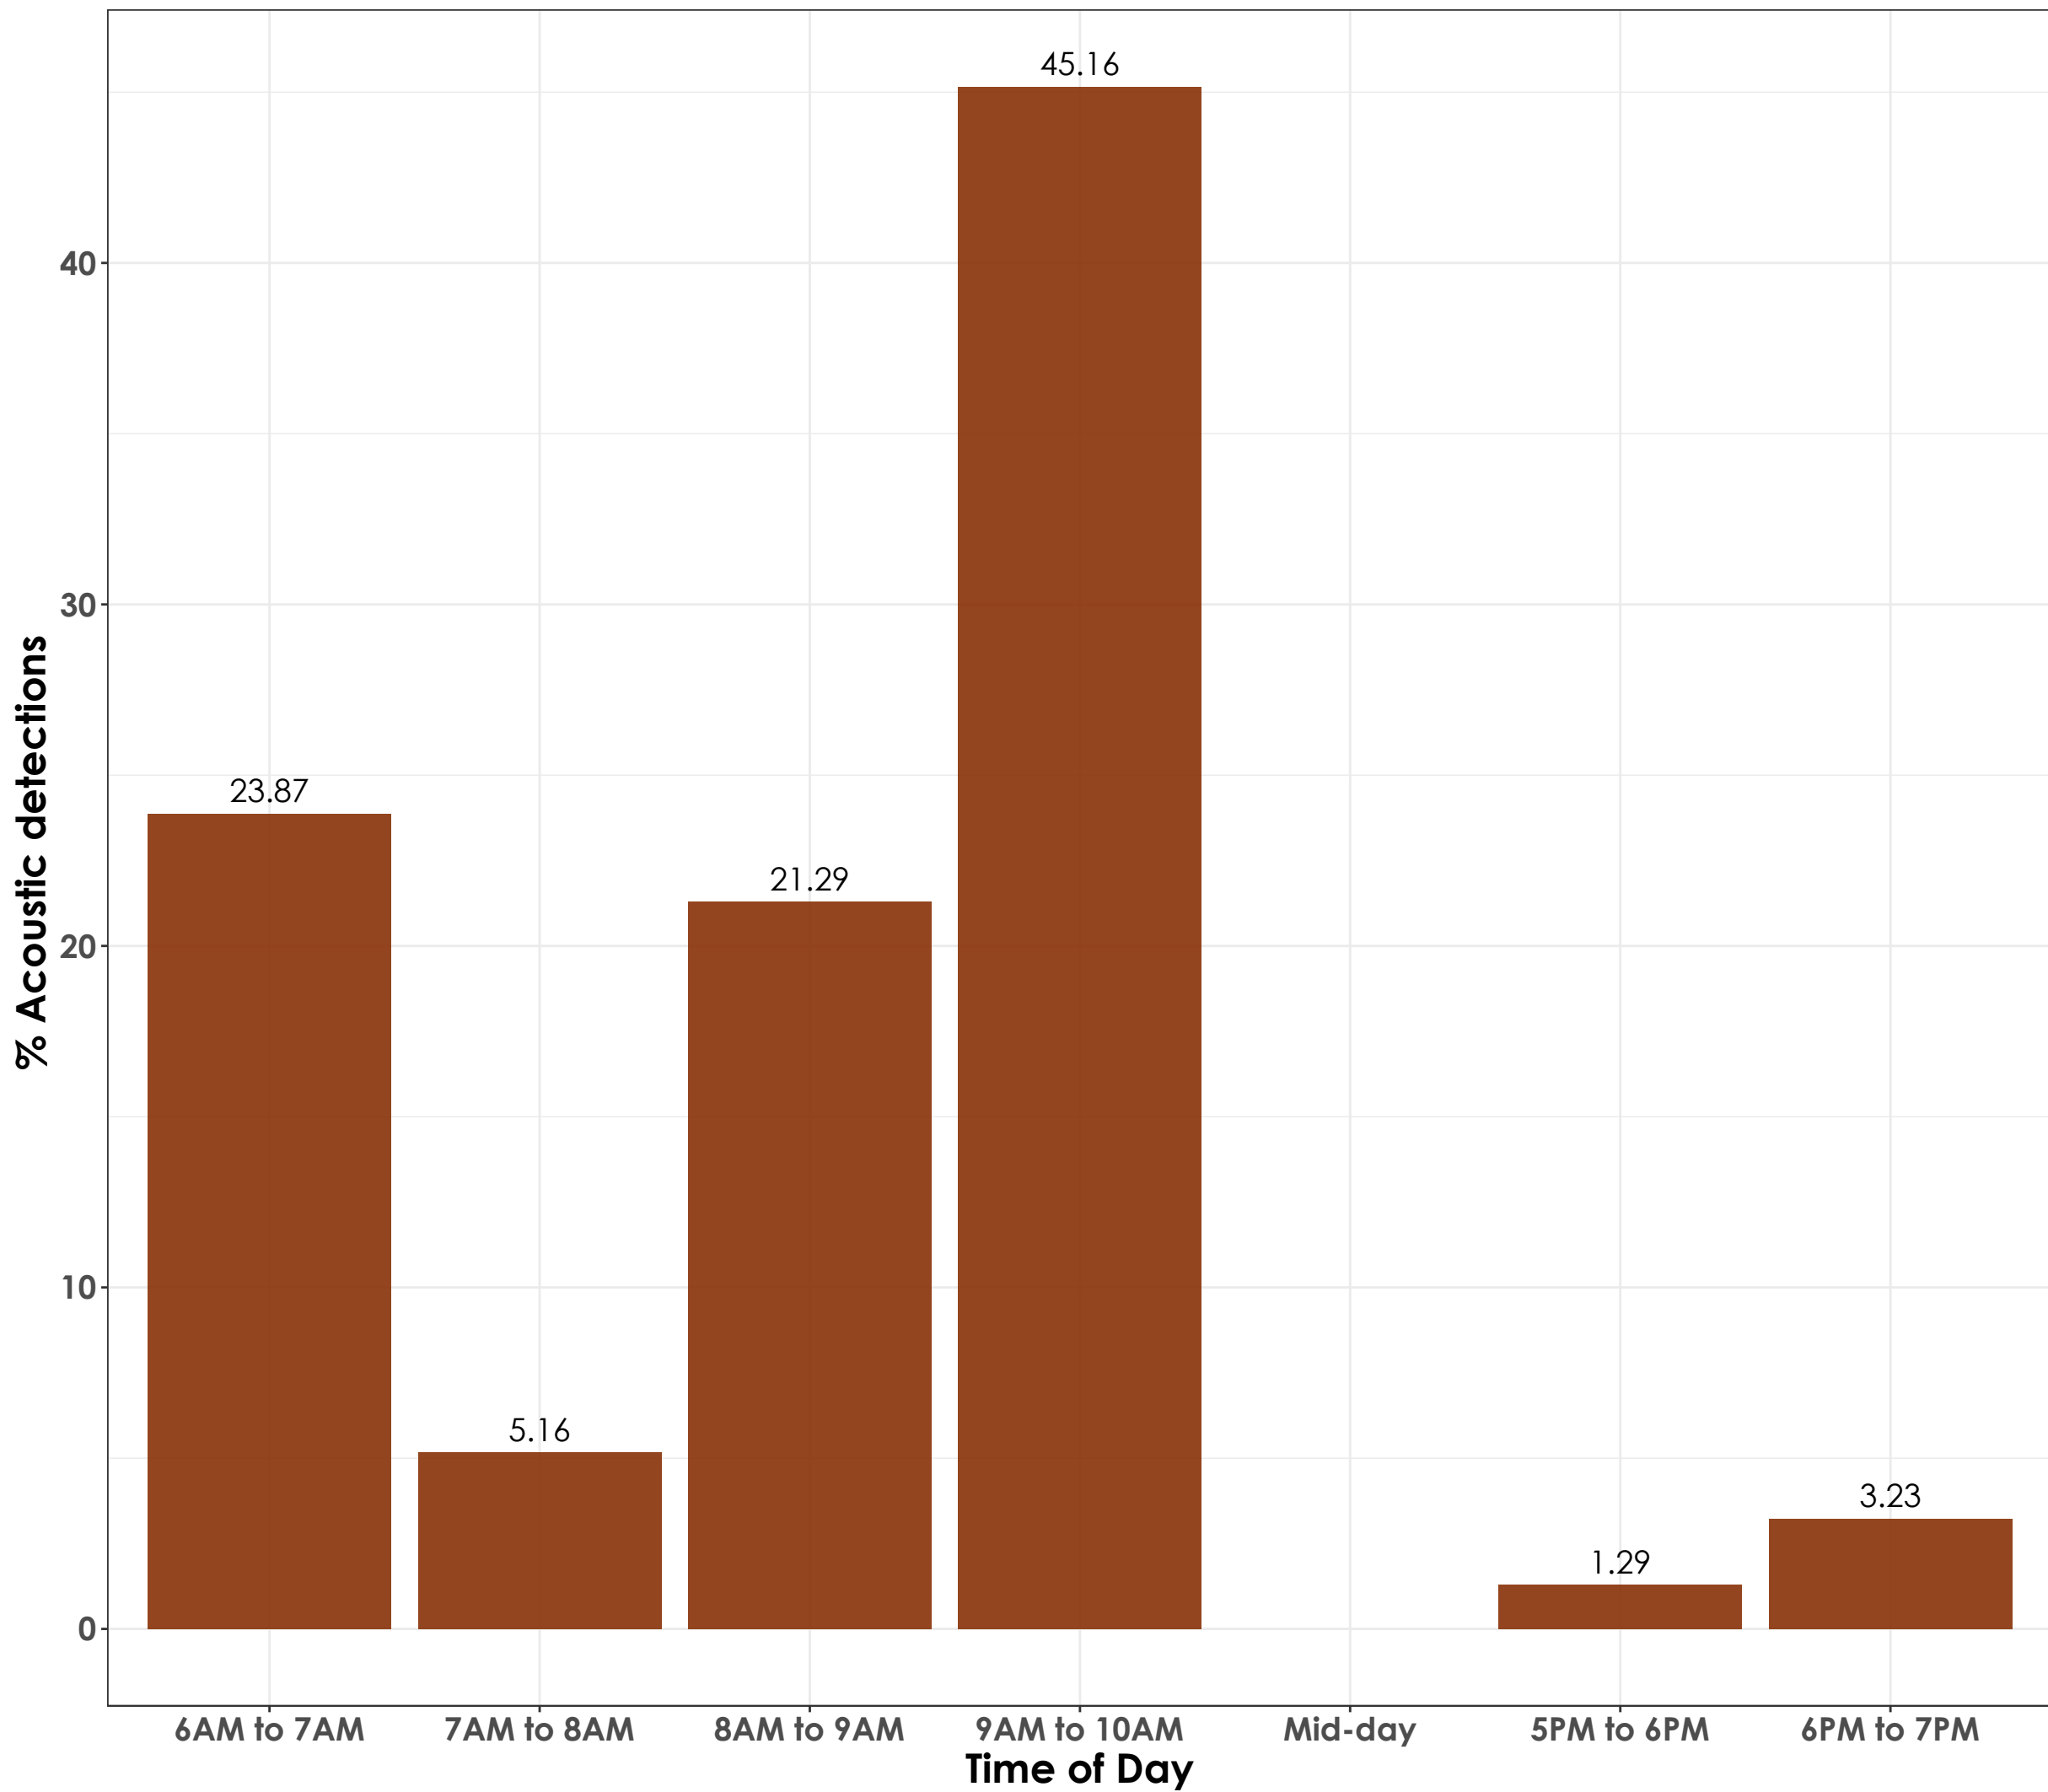

Rufous Babbler

Each bar represents the % of detections across dawn and dusk

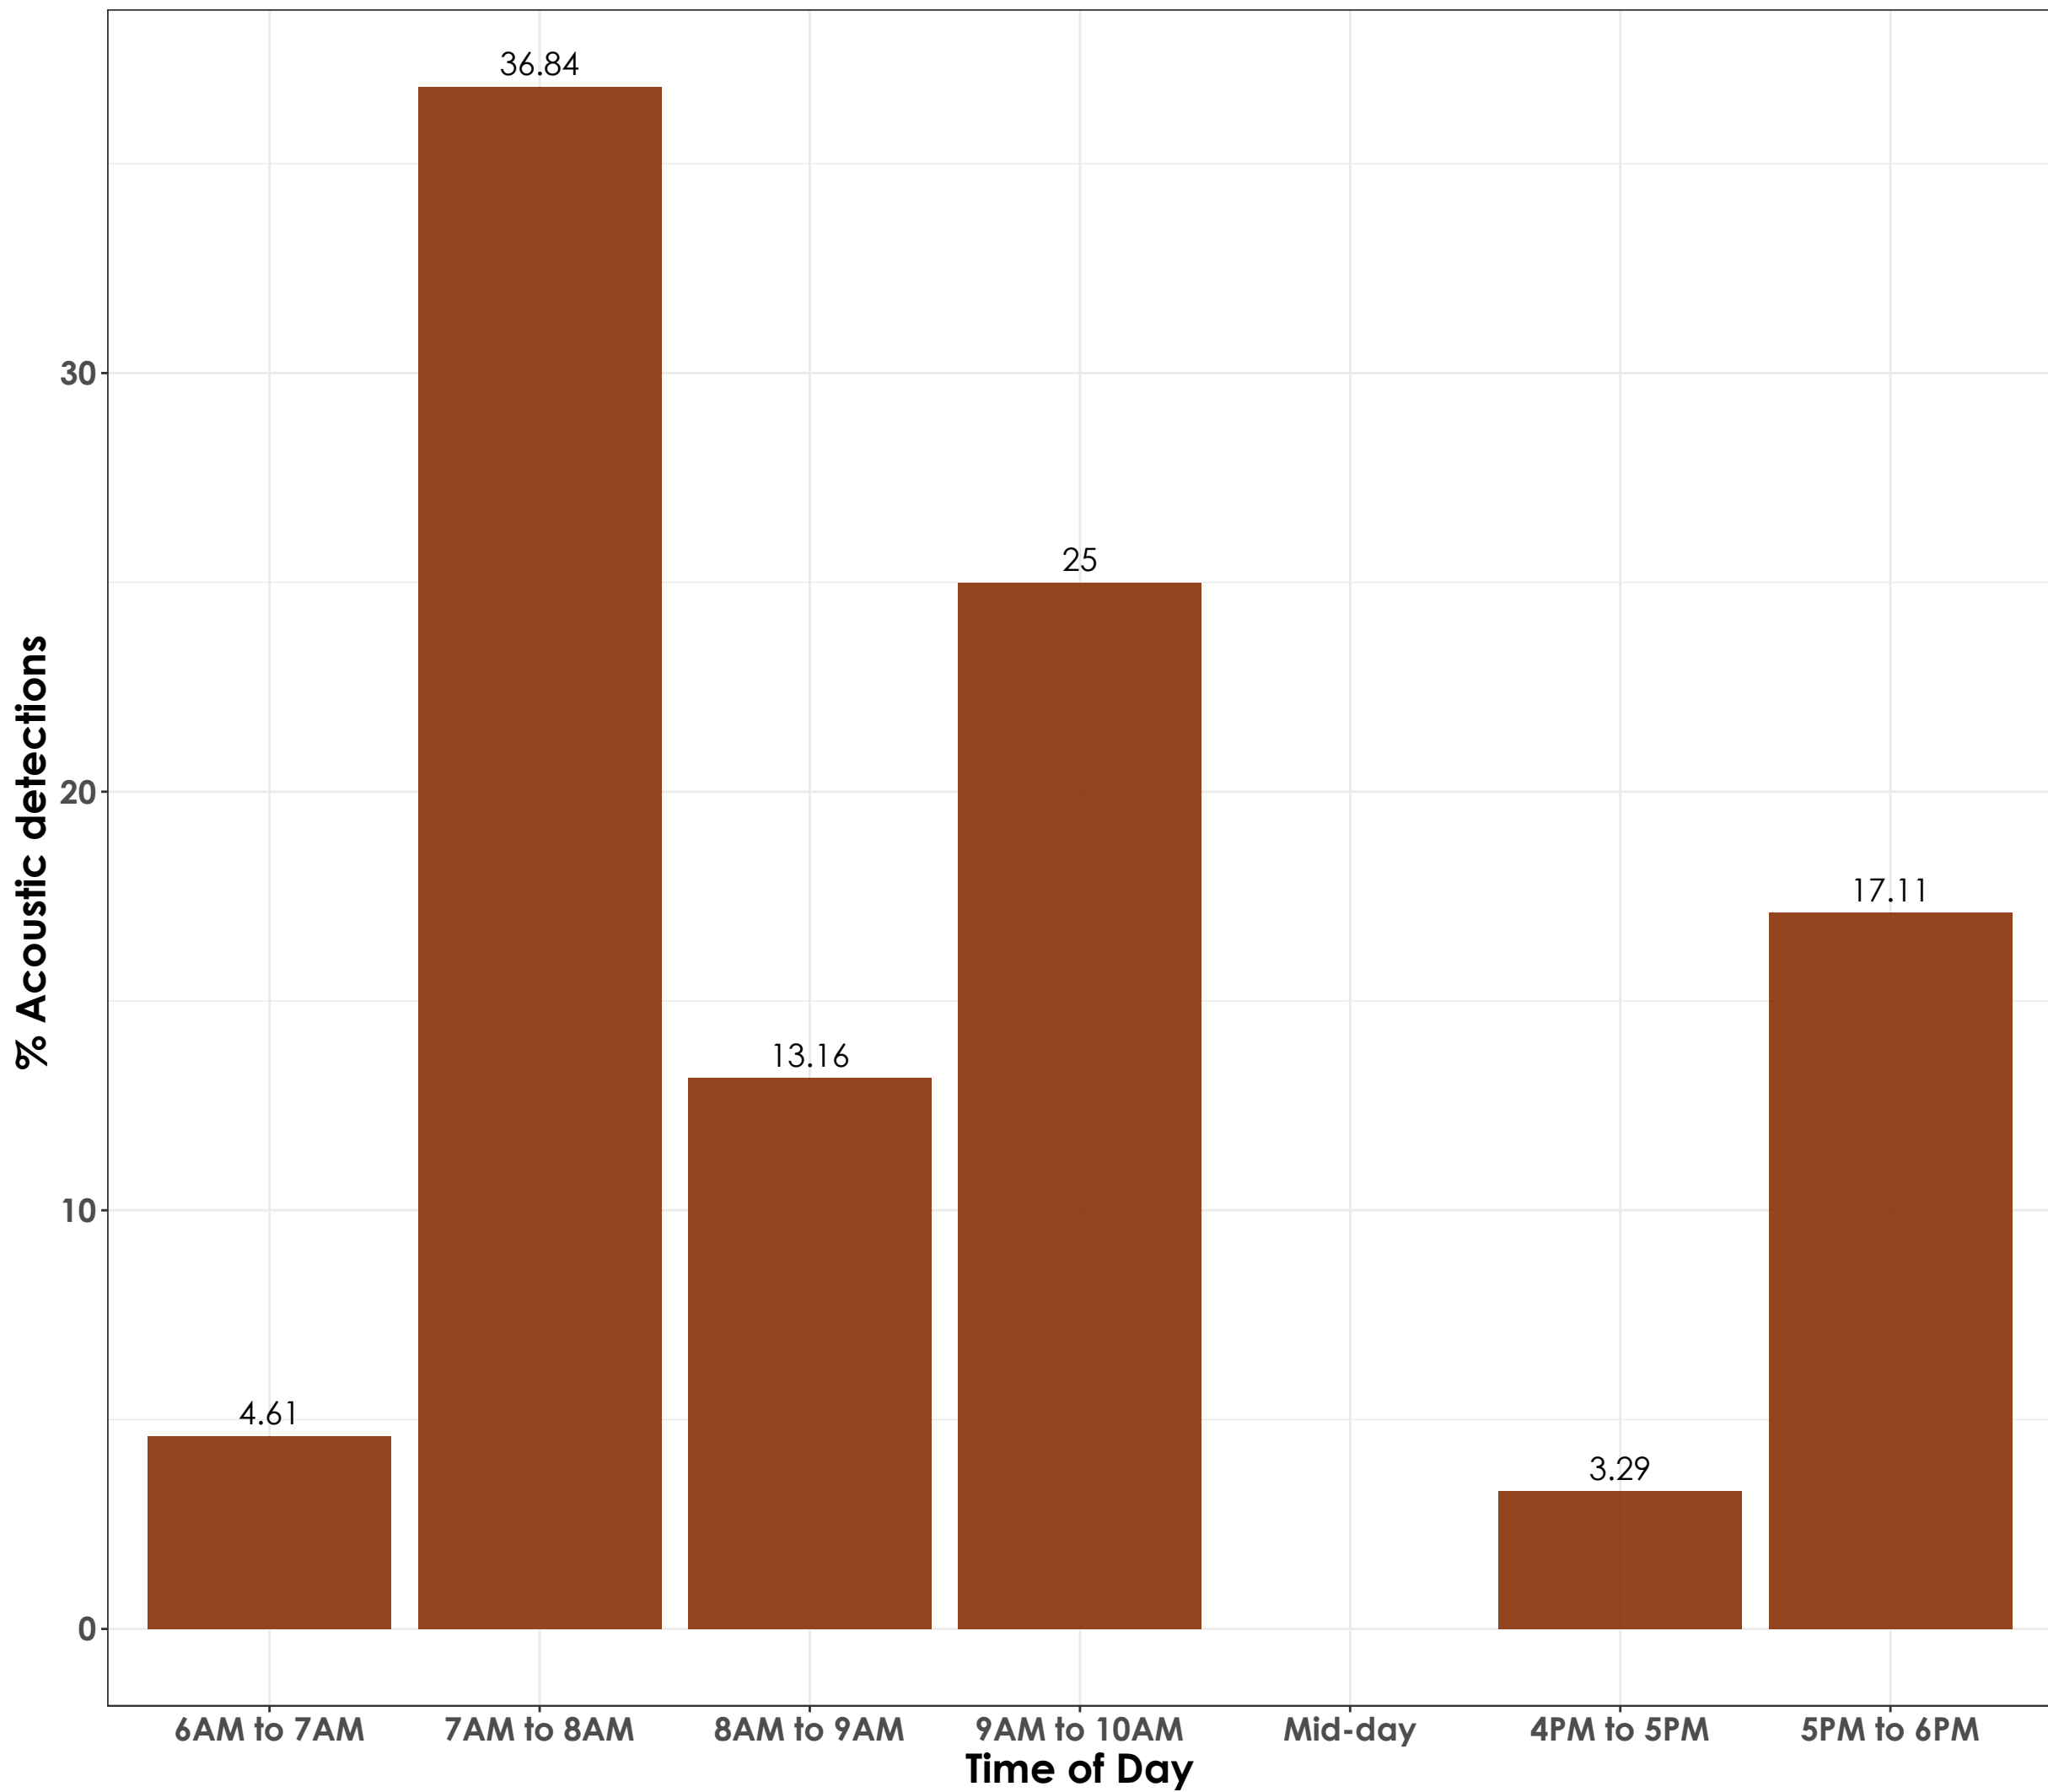

Malabar Woodshrike

Each bar represents the % of detections across dawn and dusk

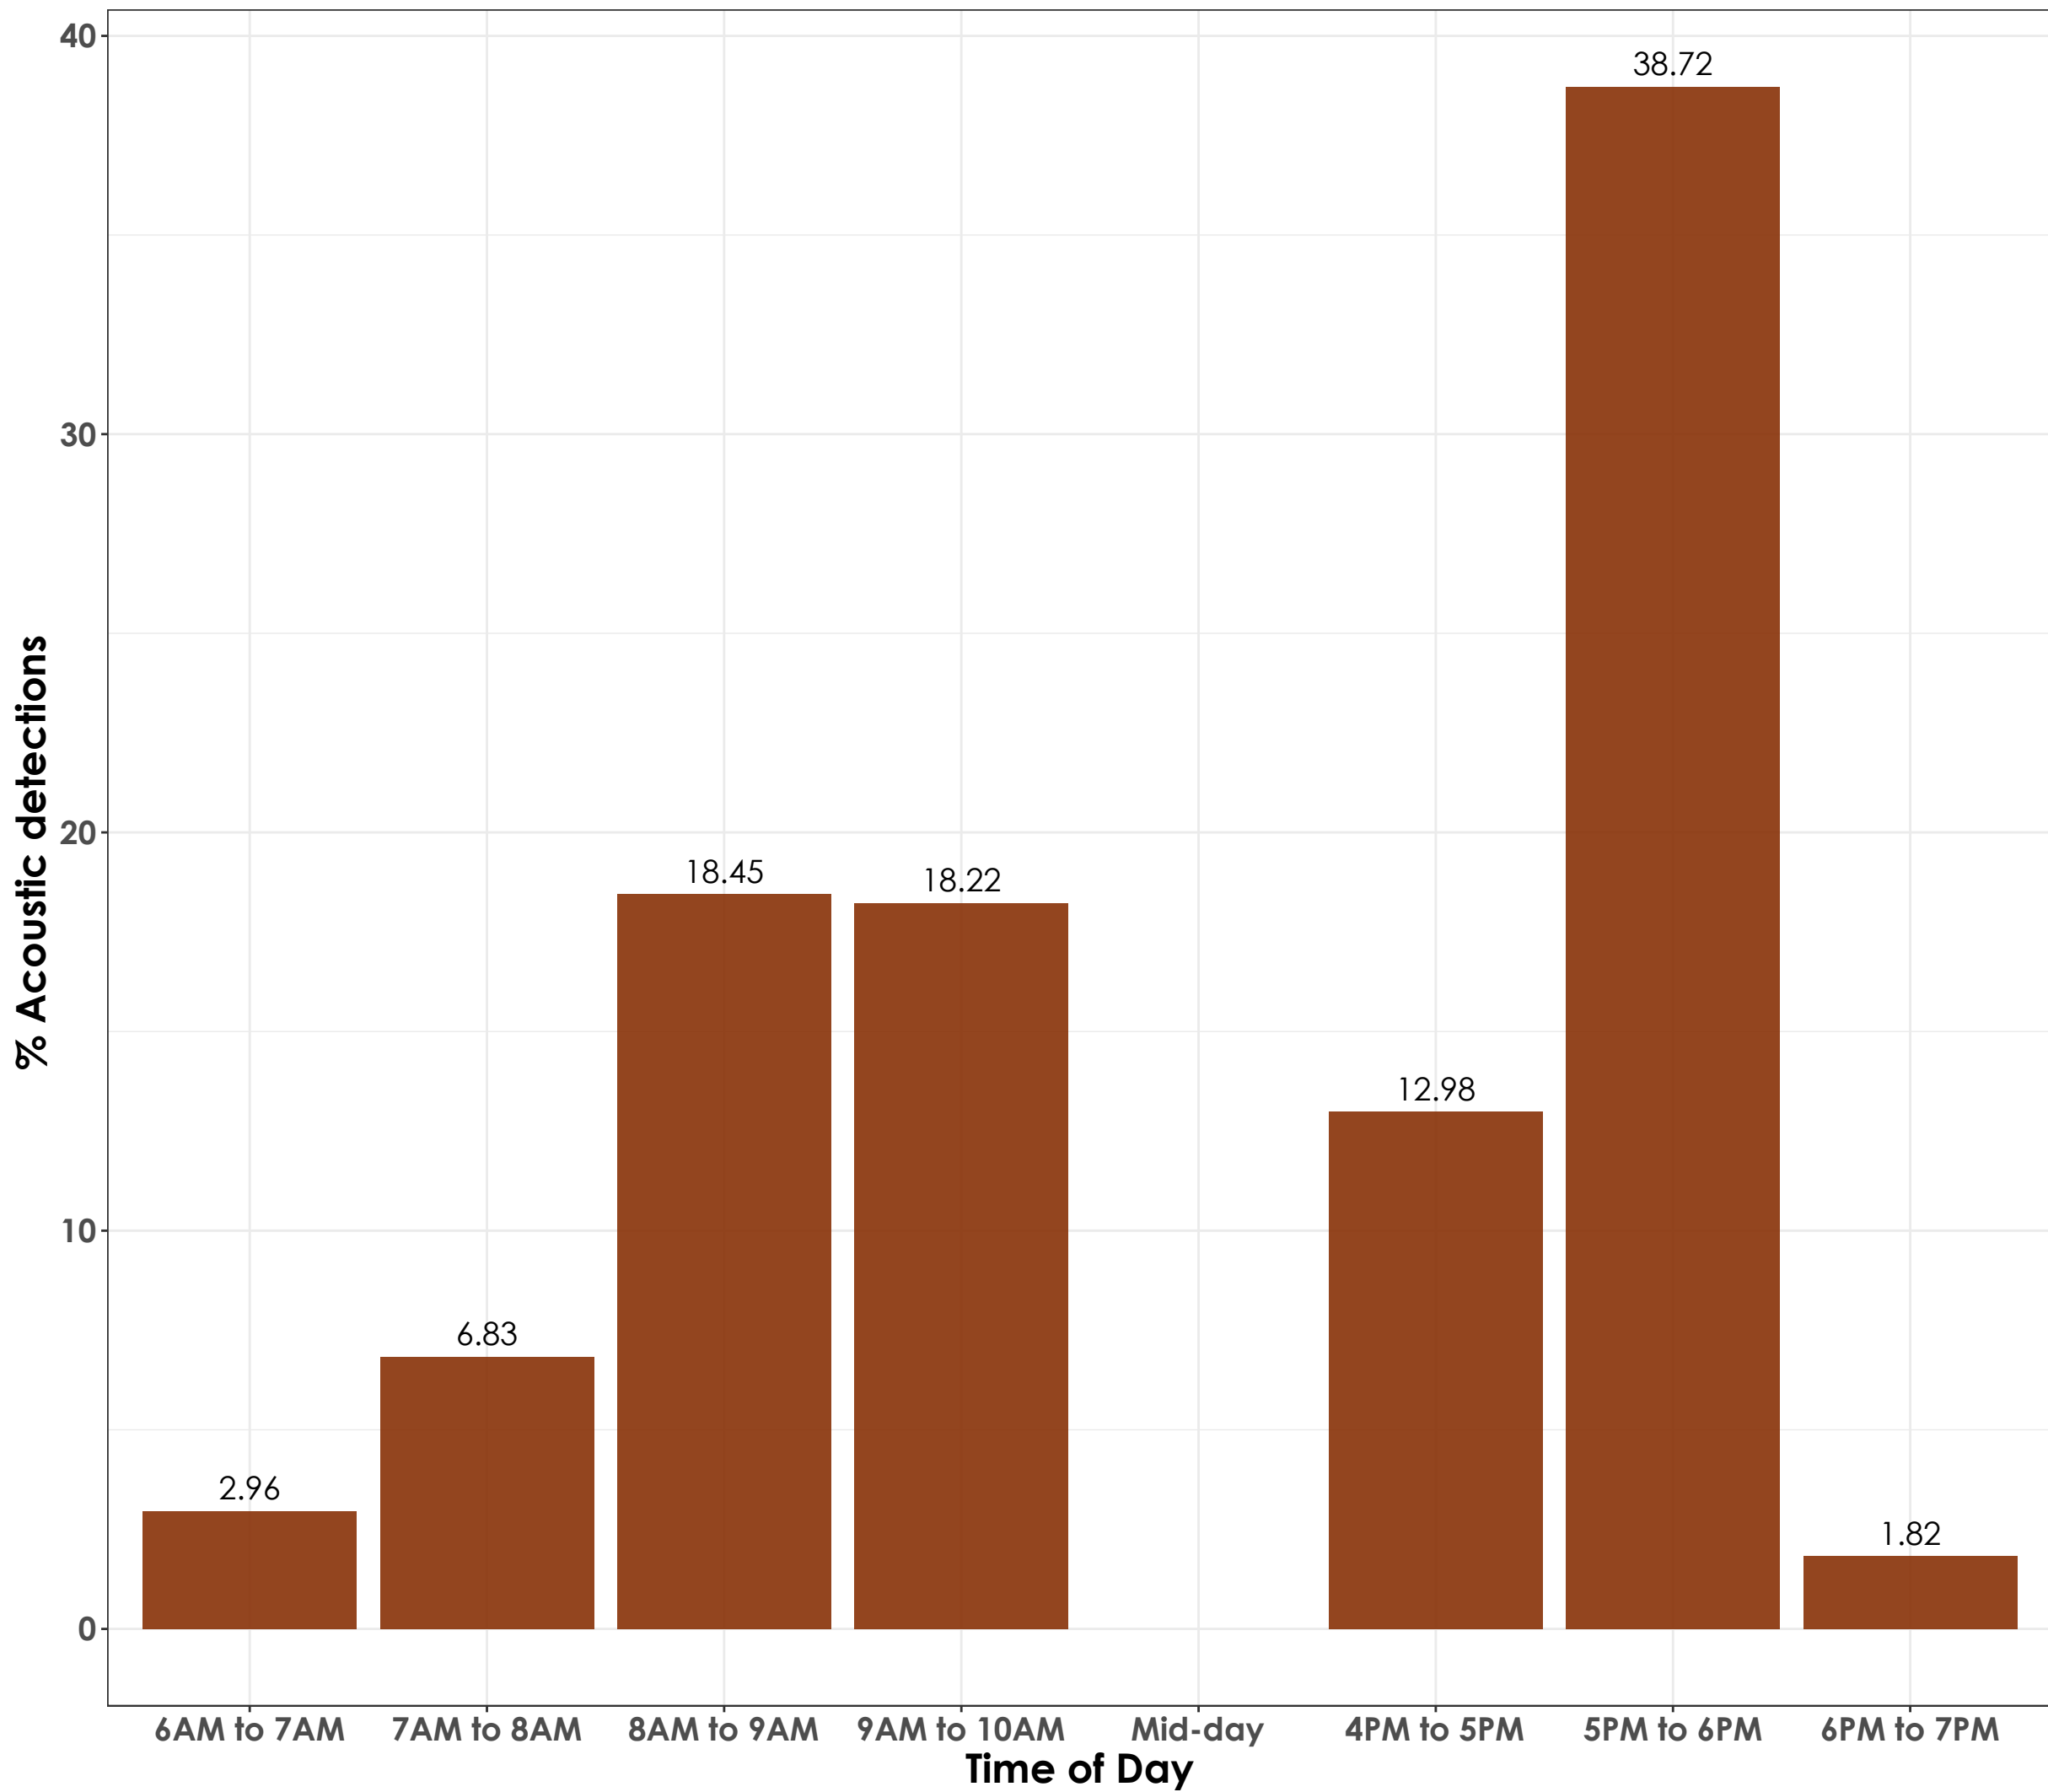

Black-rumped Flameback

Each bar represents the % of detections across dawn and dusk

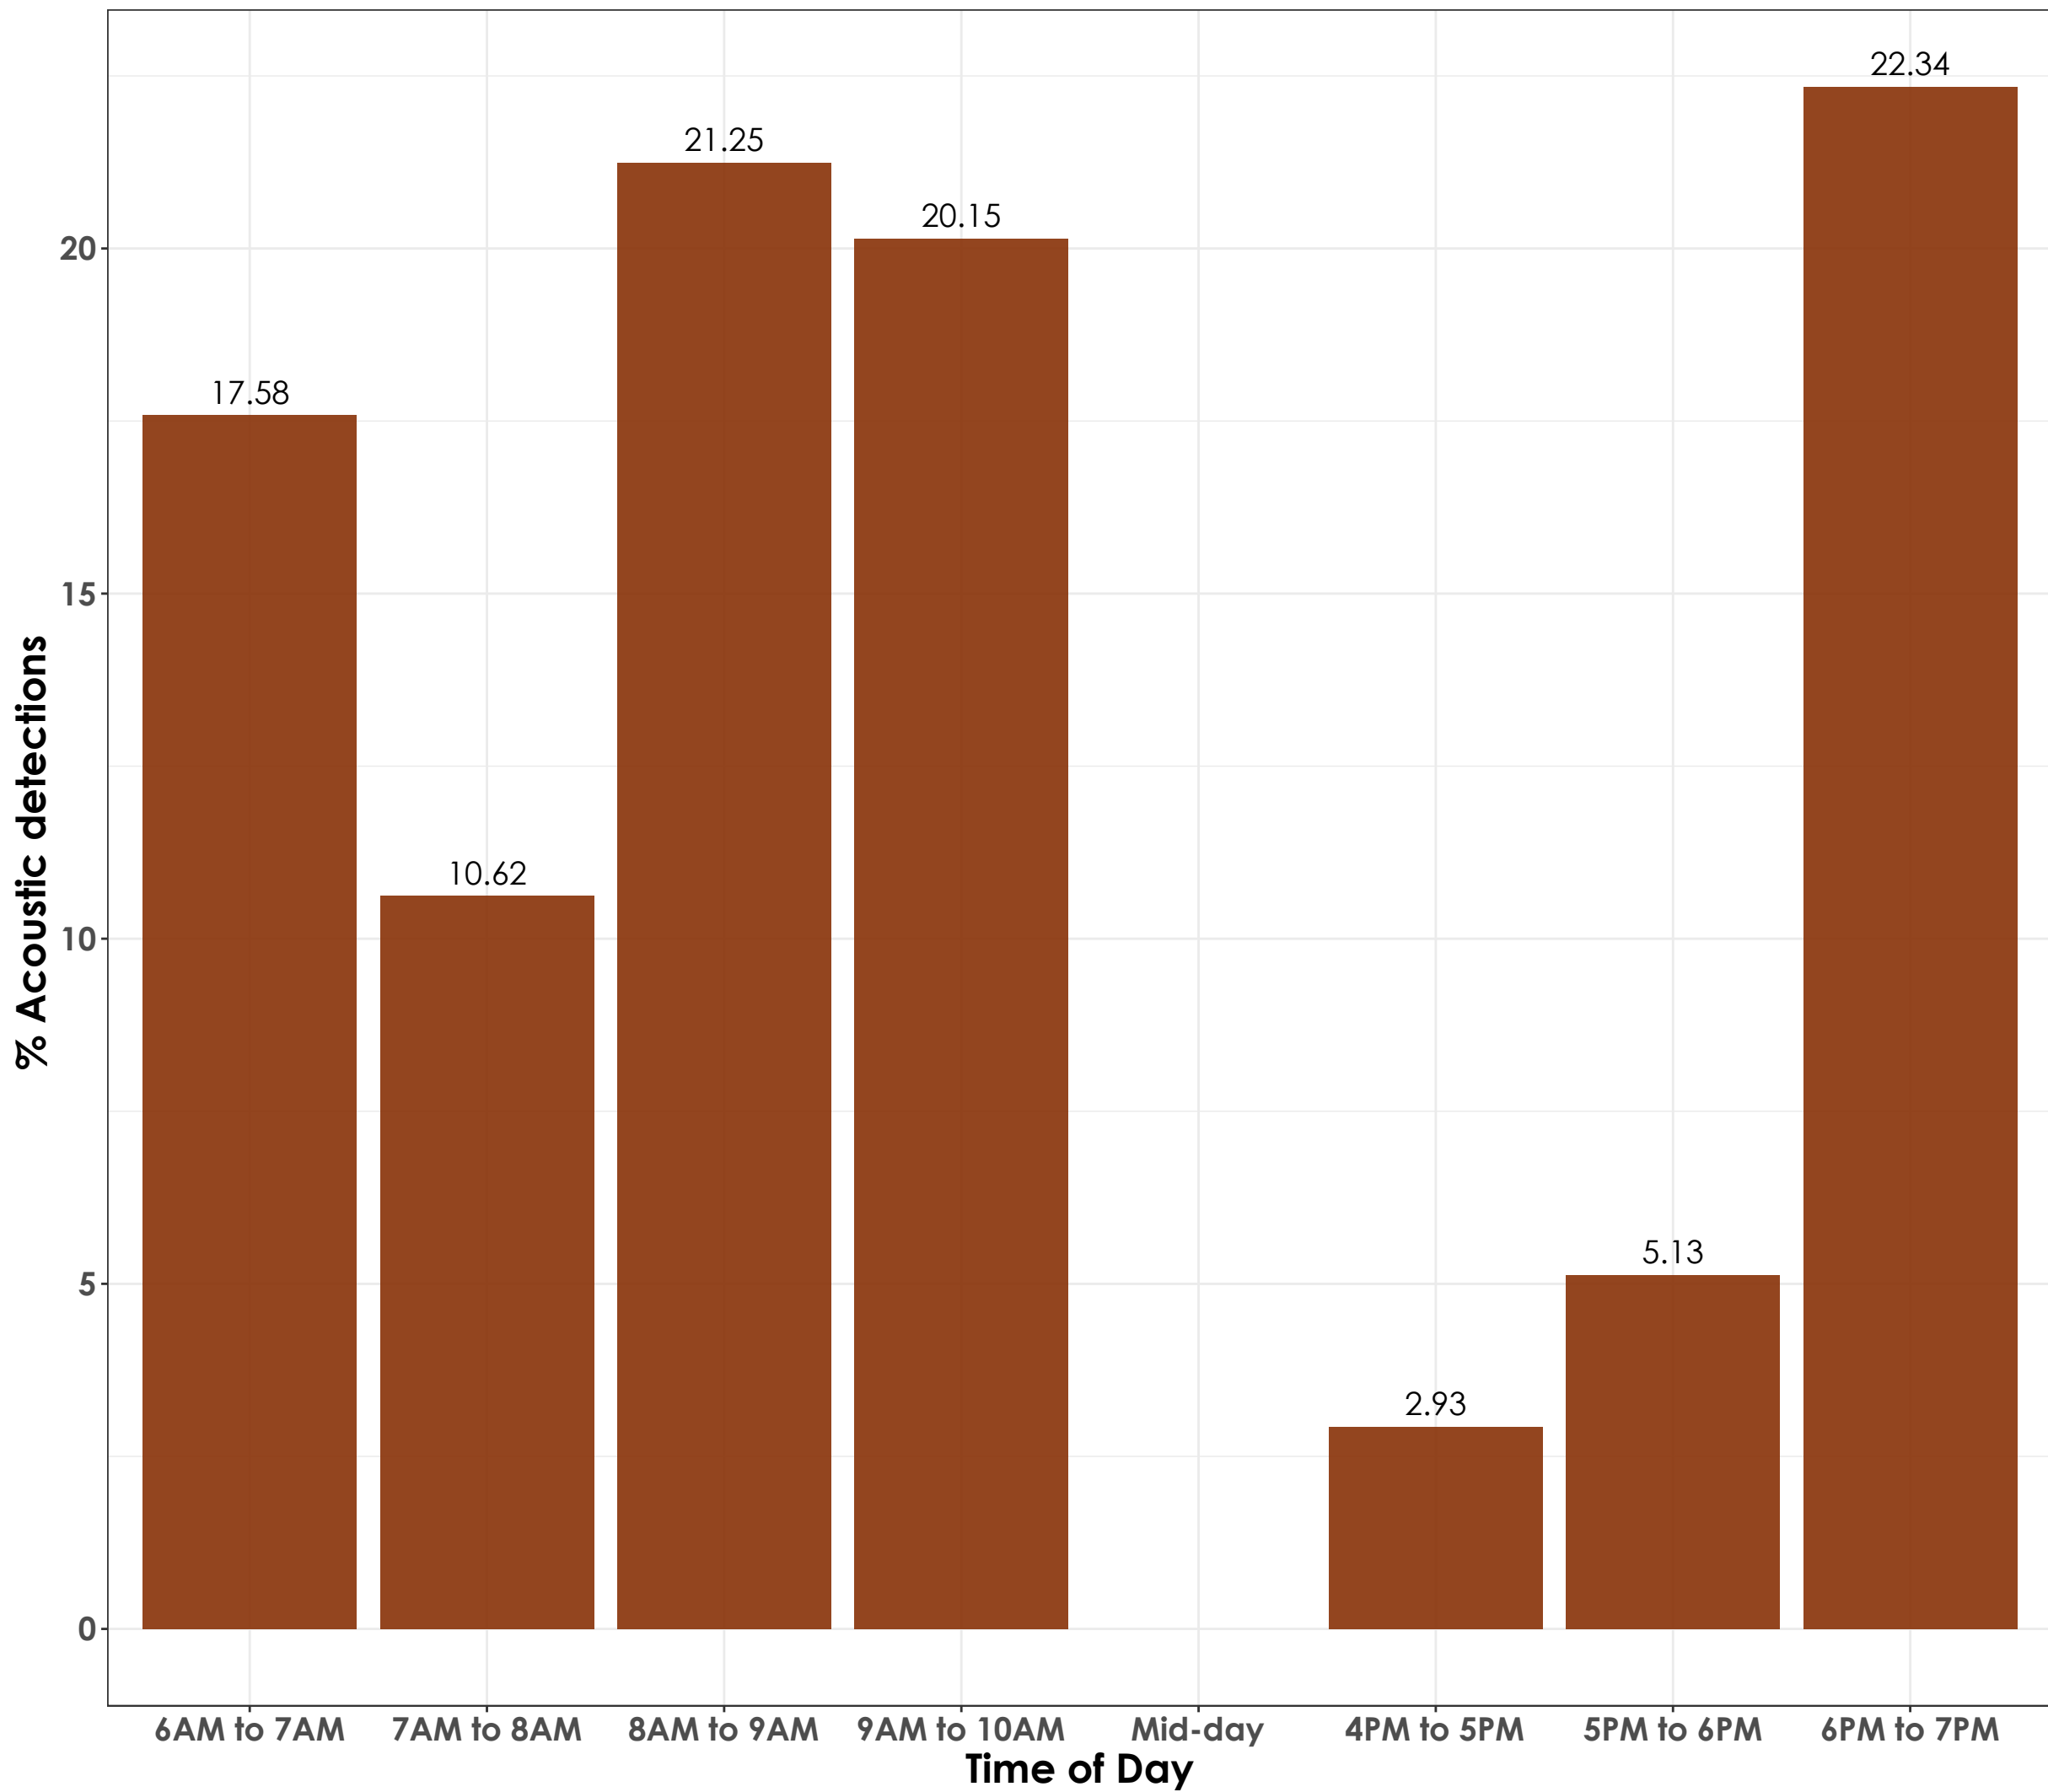

House Crow

Each bar represents the % of detections across dawn and dusk

Golden-fronted Leafbird

Each bar represents the % of detections across dawn and dusk

Red Spurfowl

Each bar represents the % of detections across dawn and dusk
