

# Ashy Drongo

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

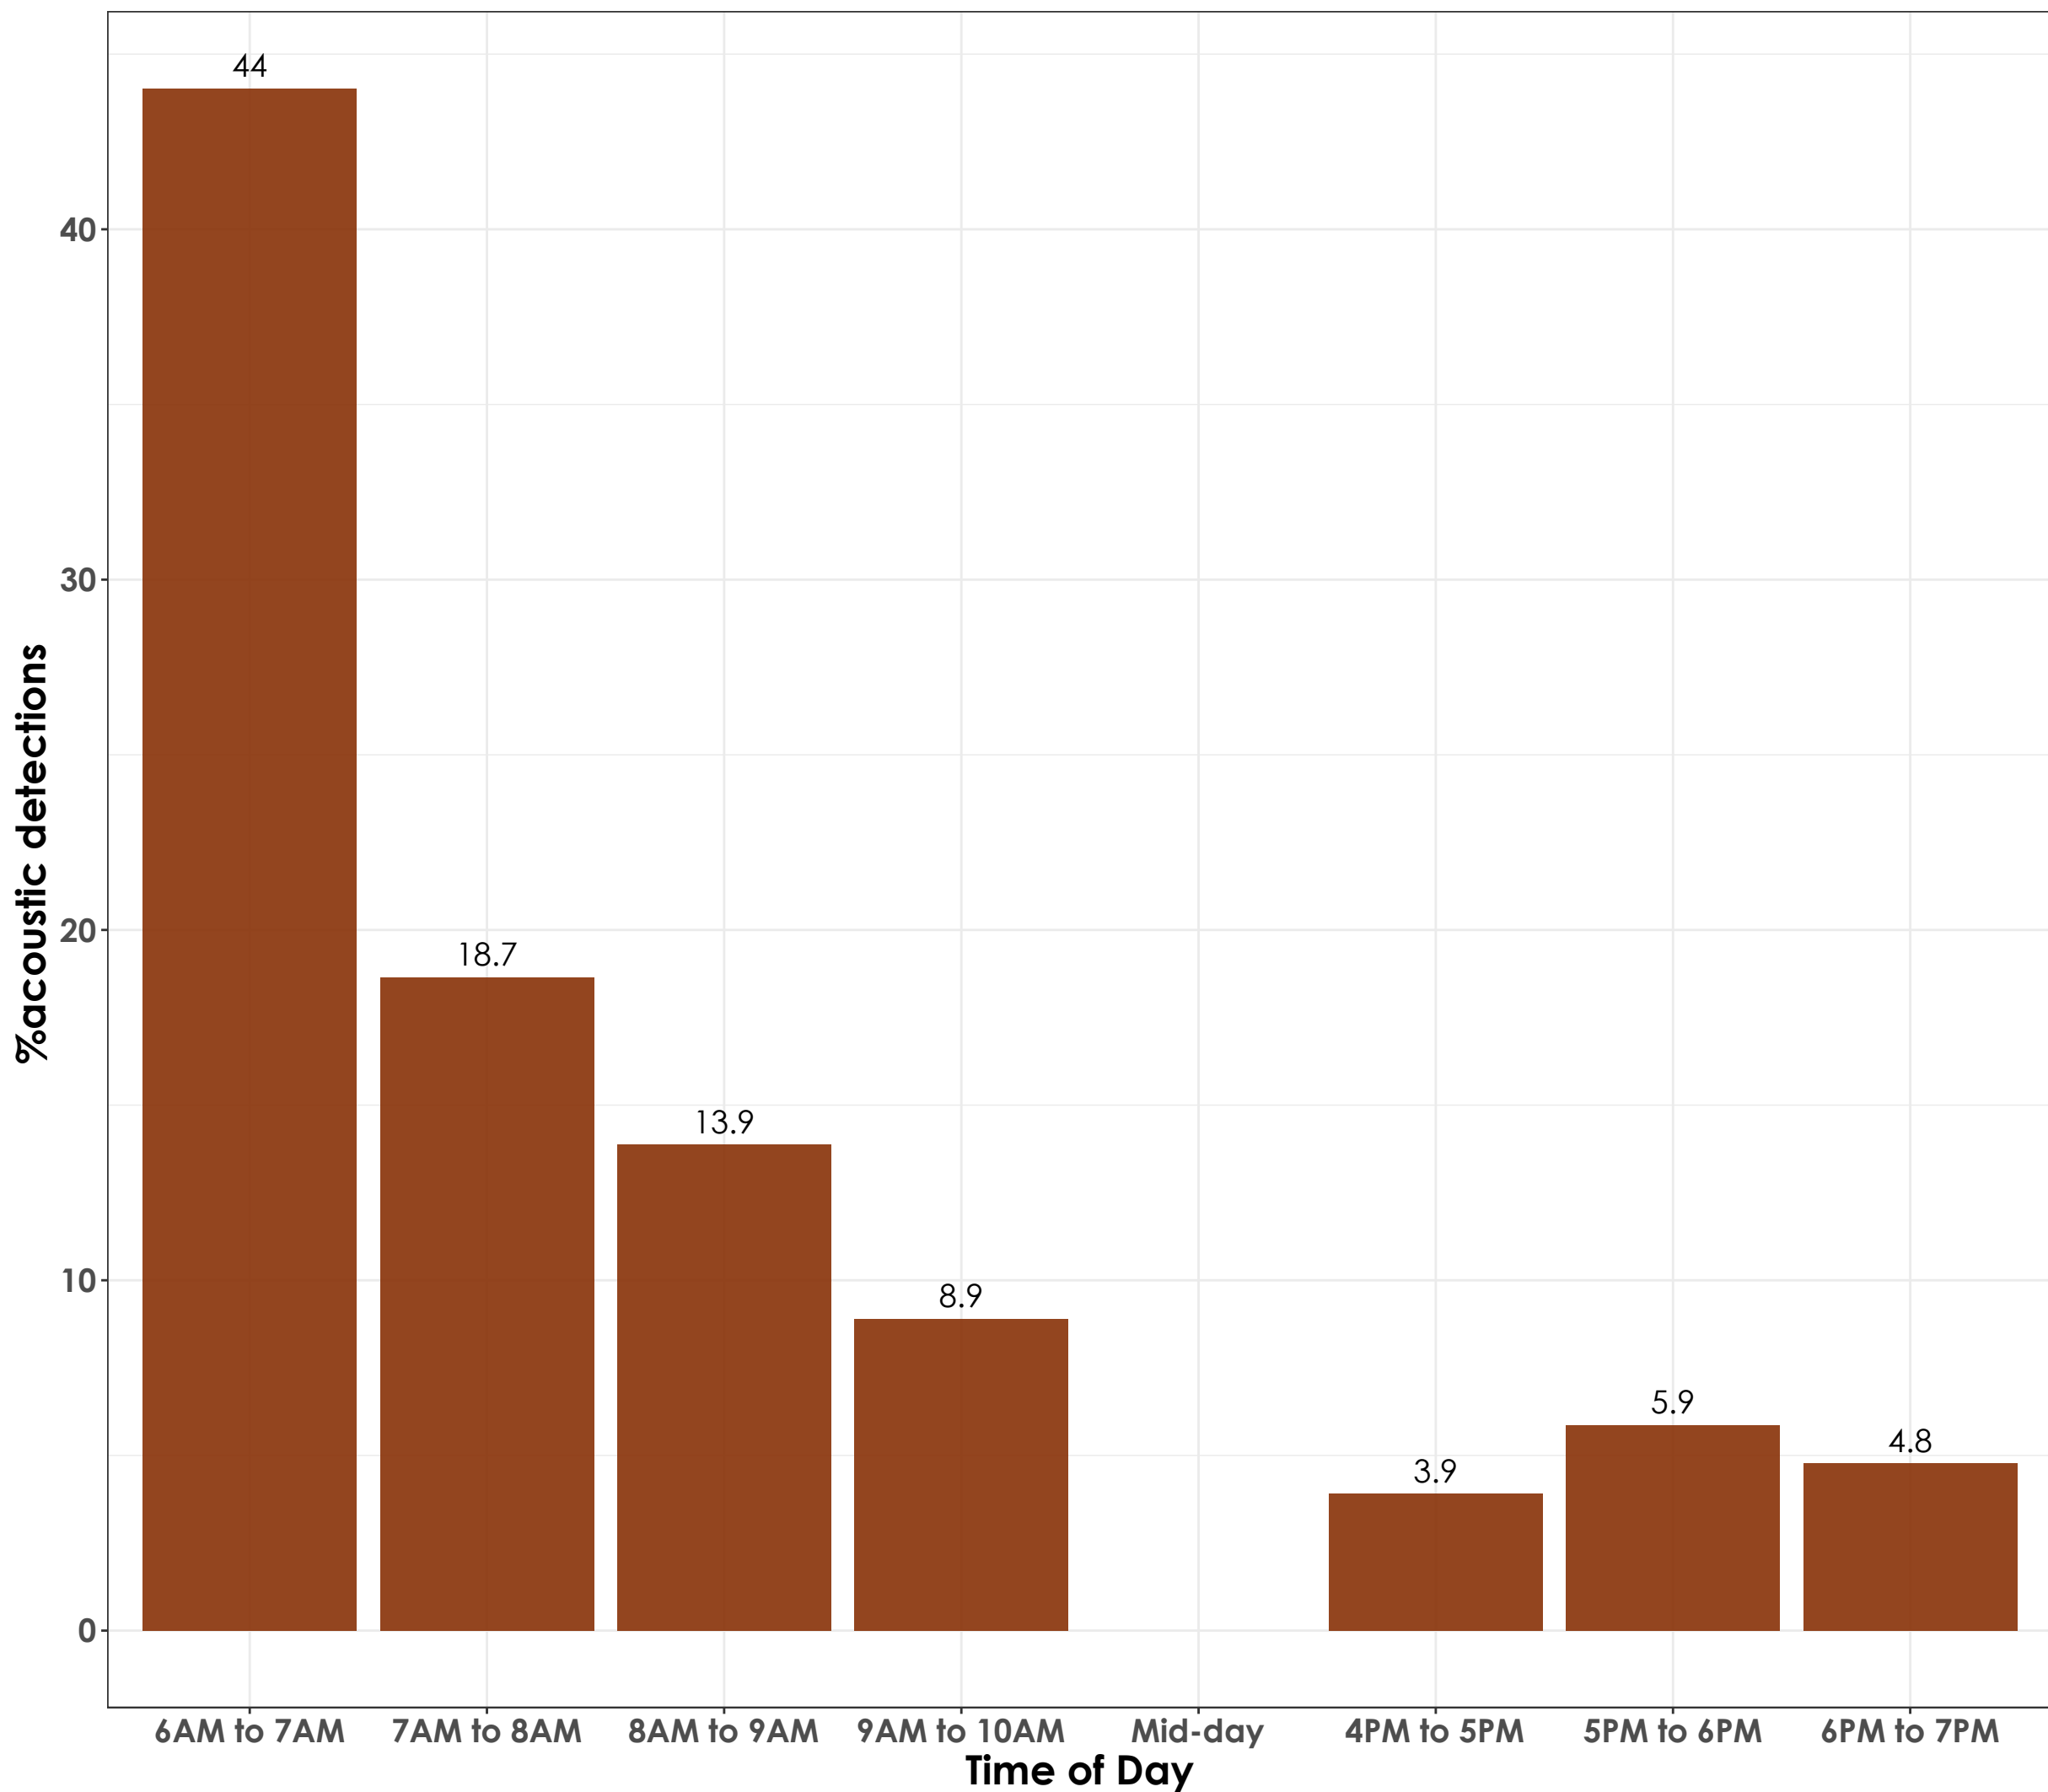

# Crimson-backed Sunbird

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

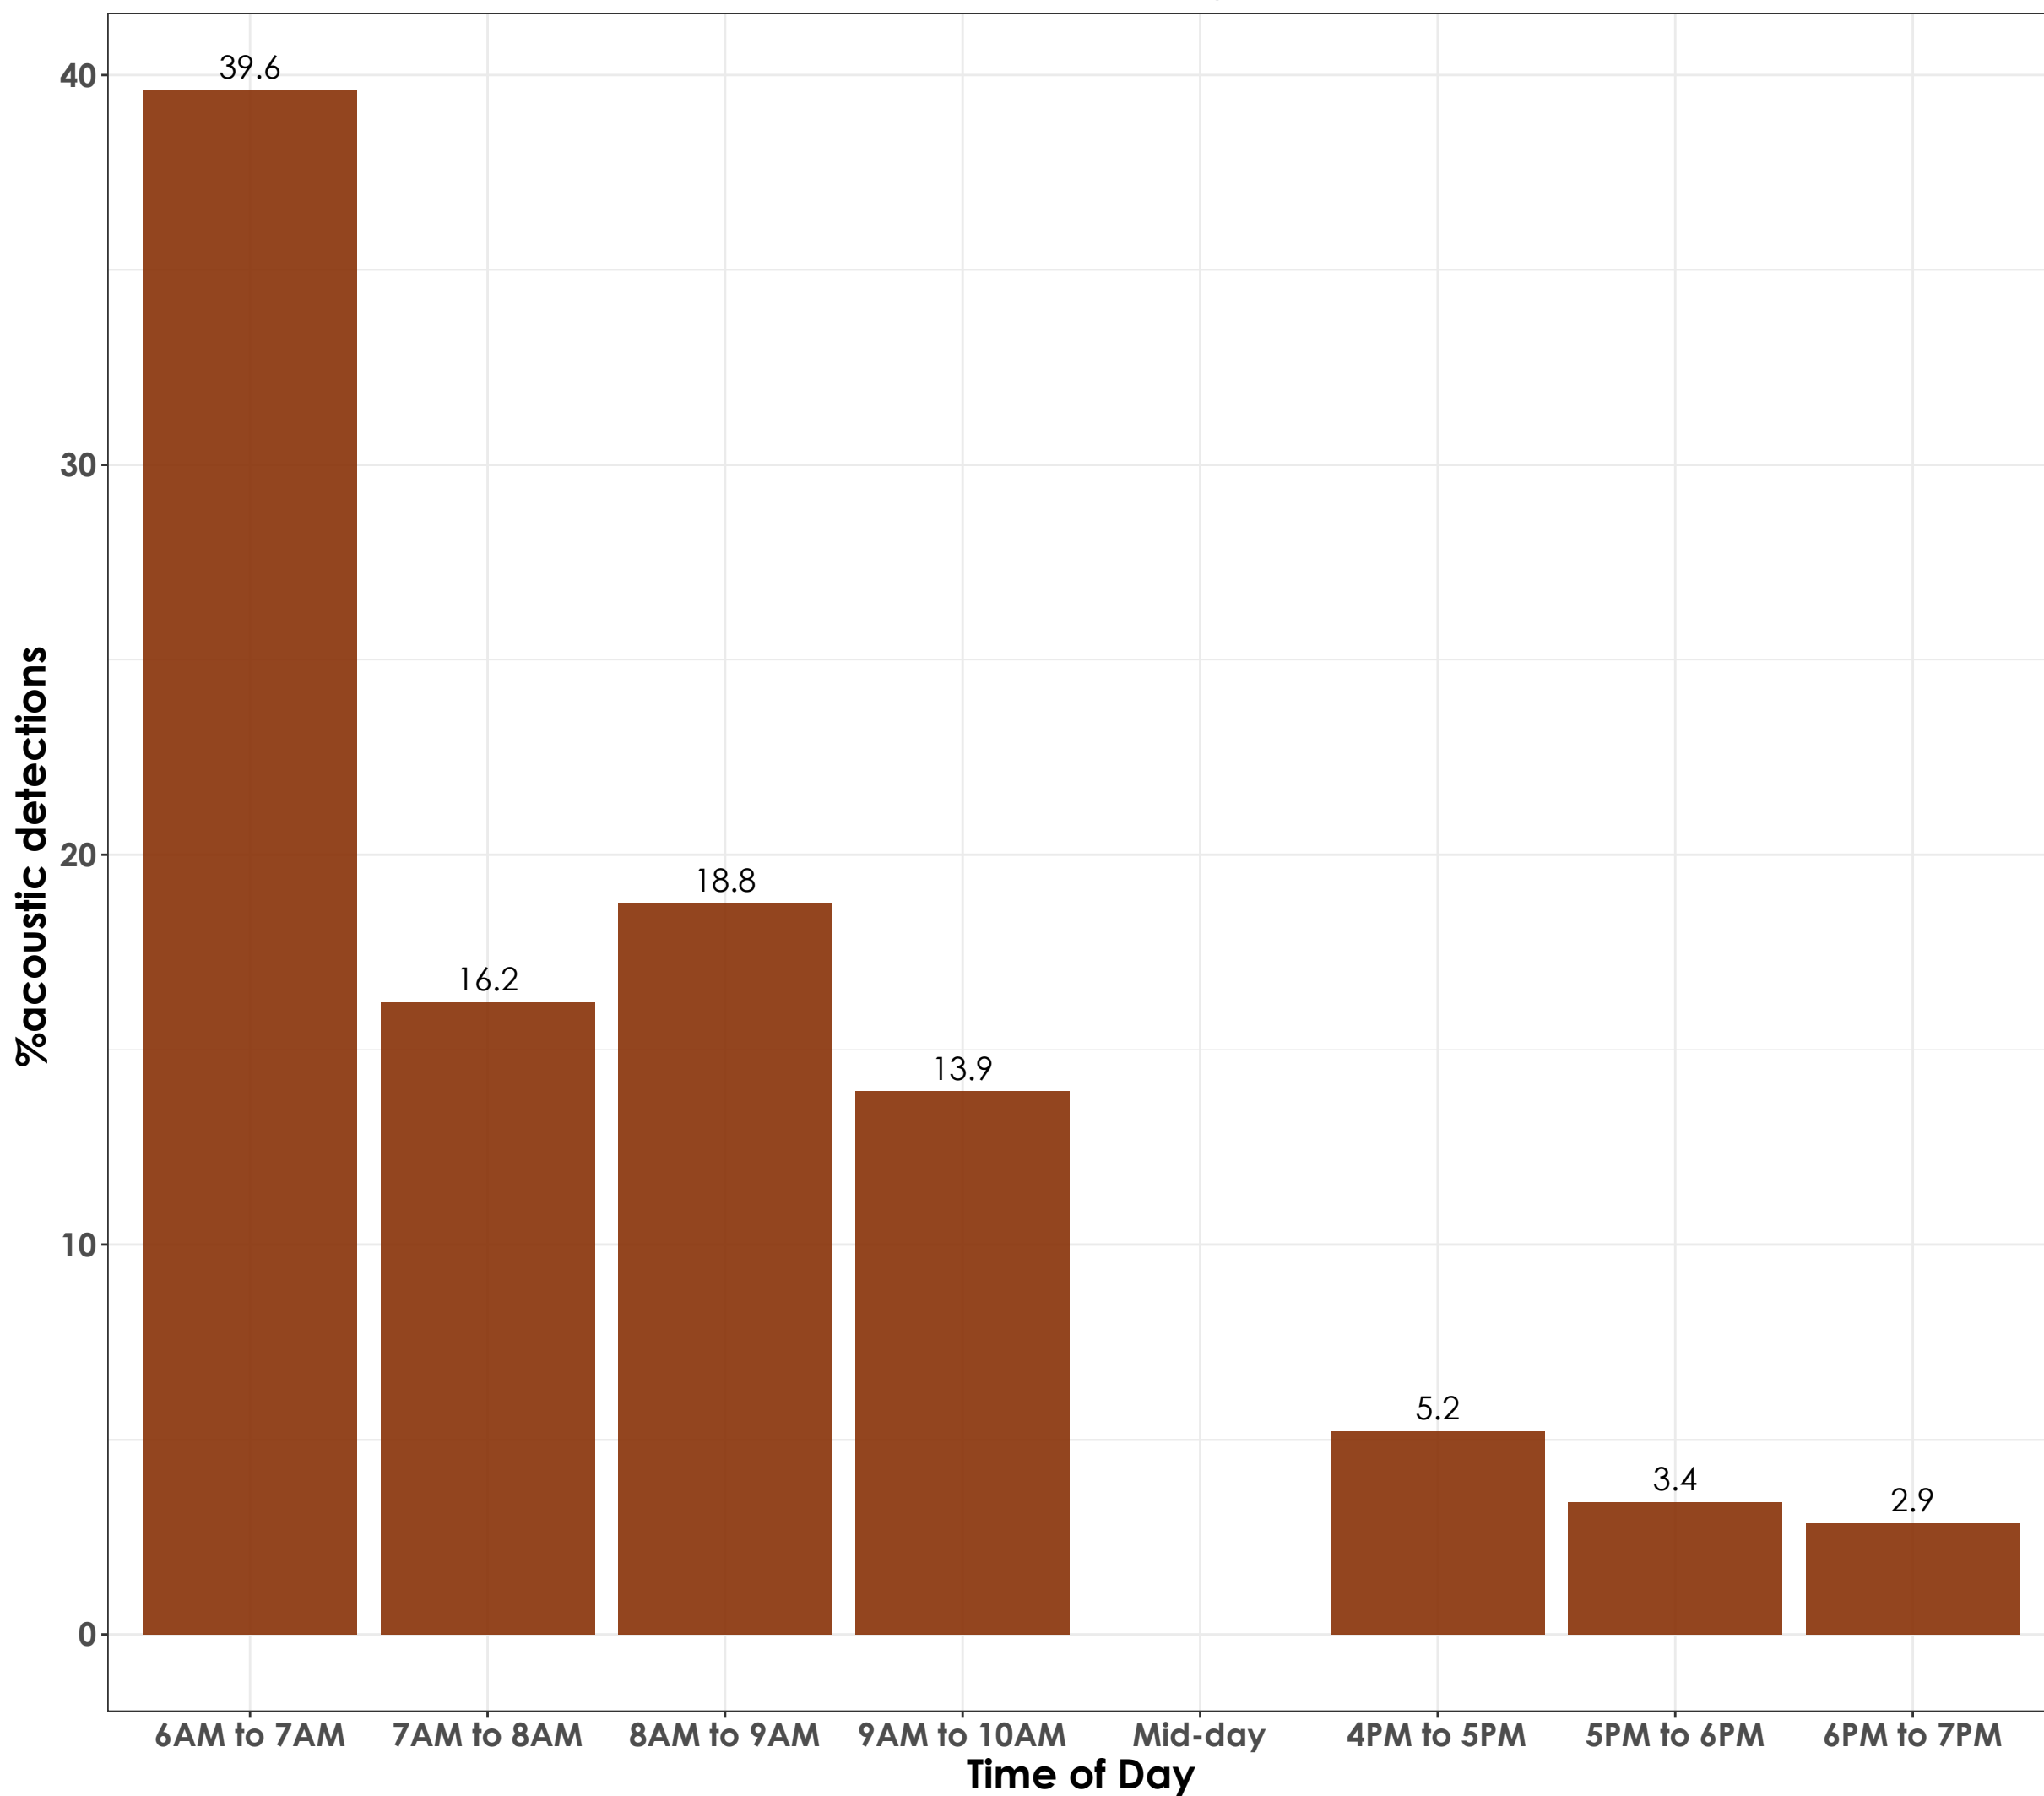

# Gray Junglefowl

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

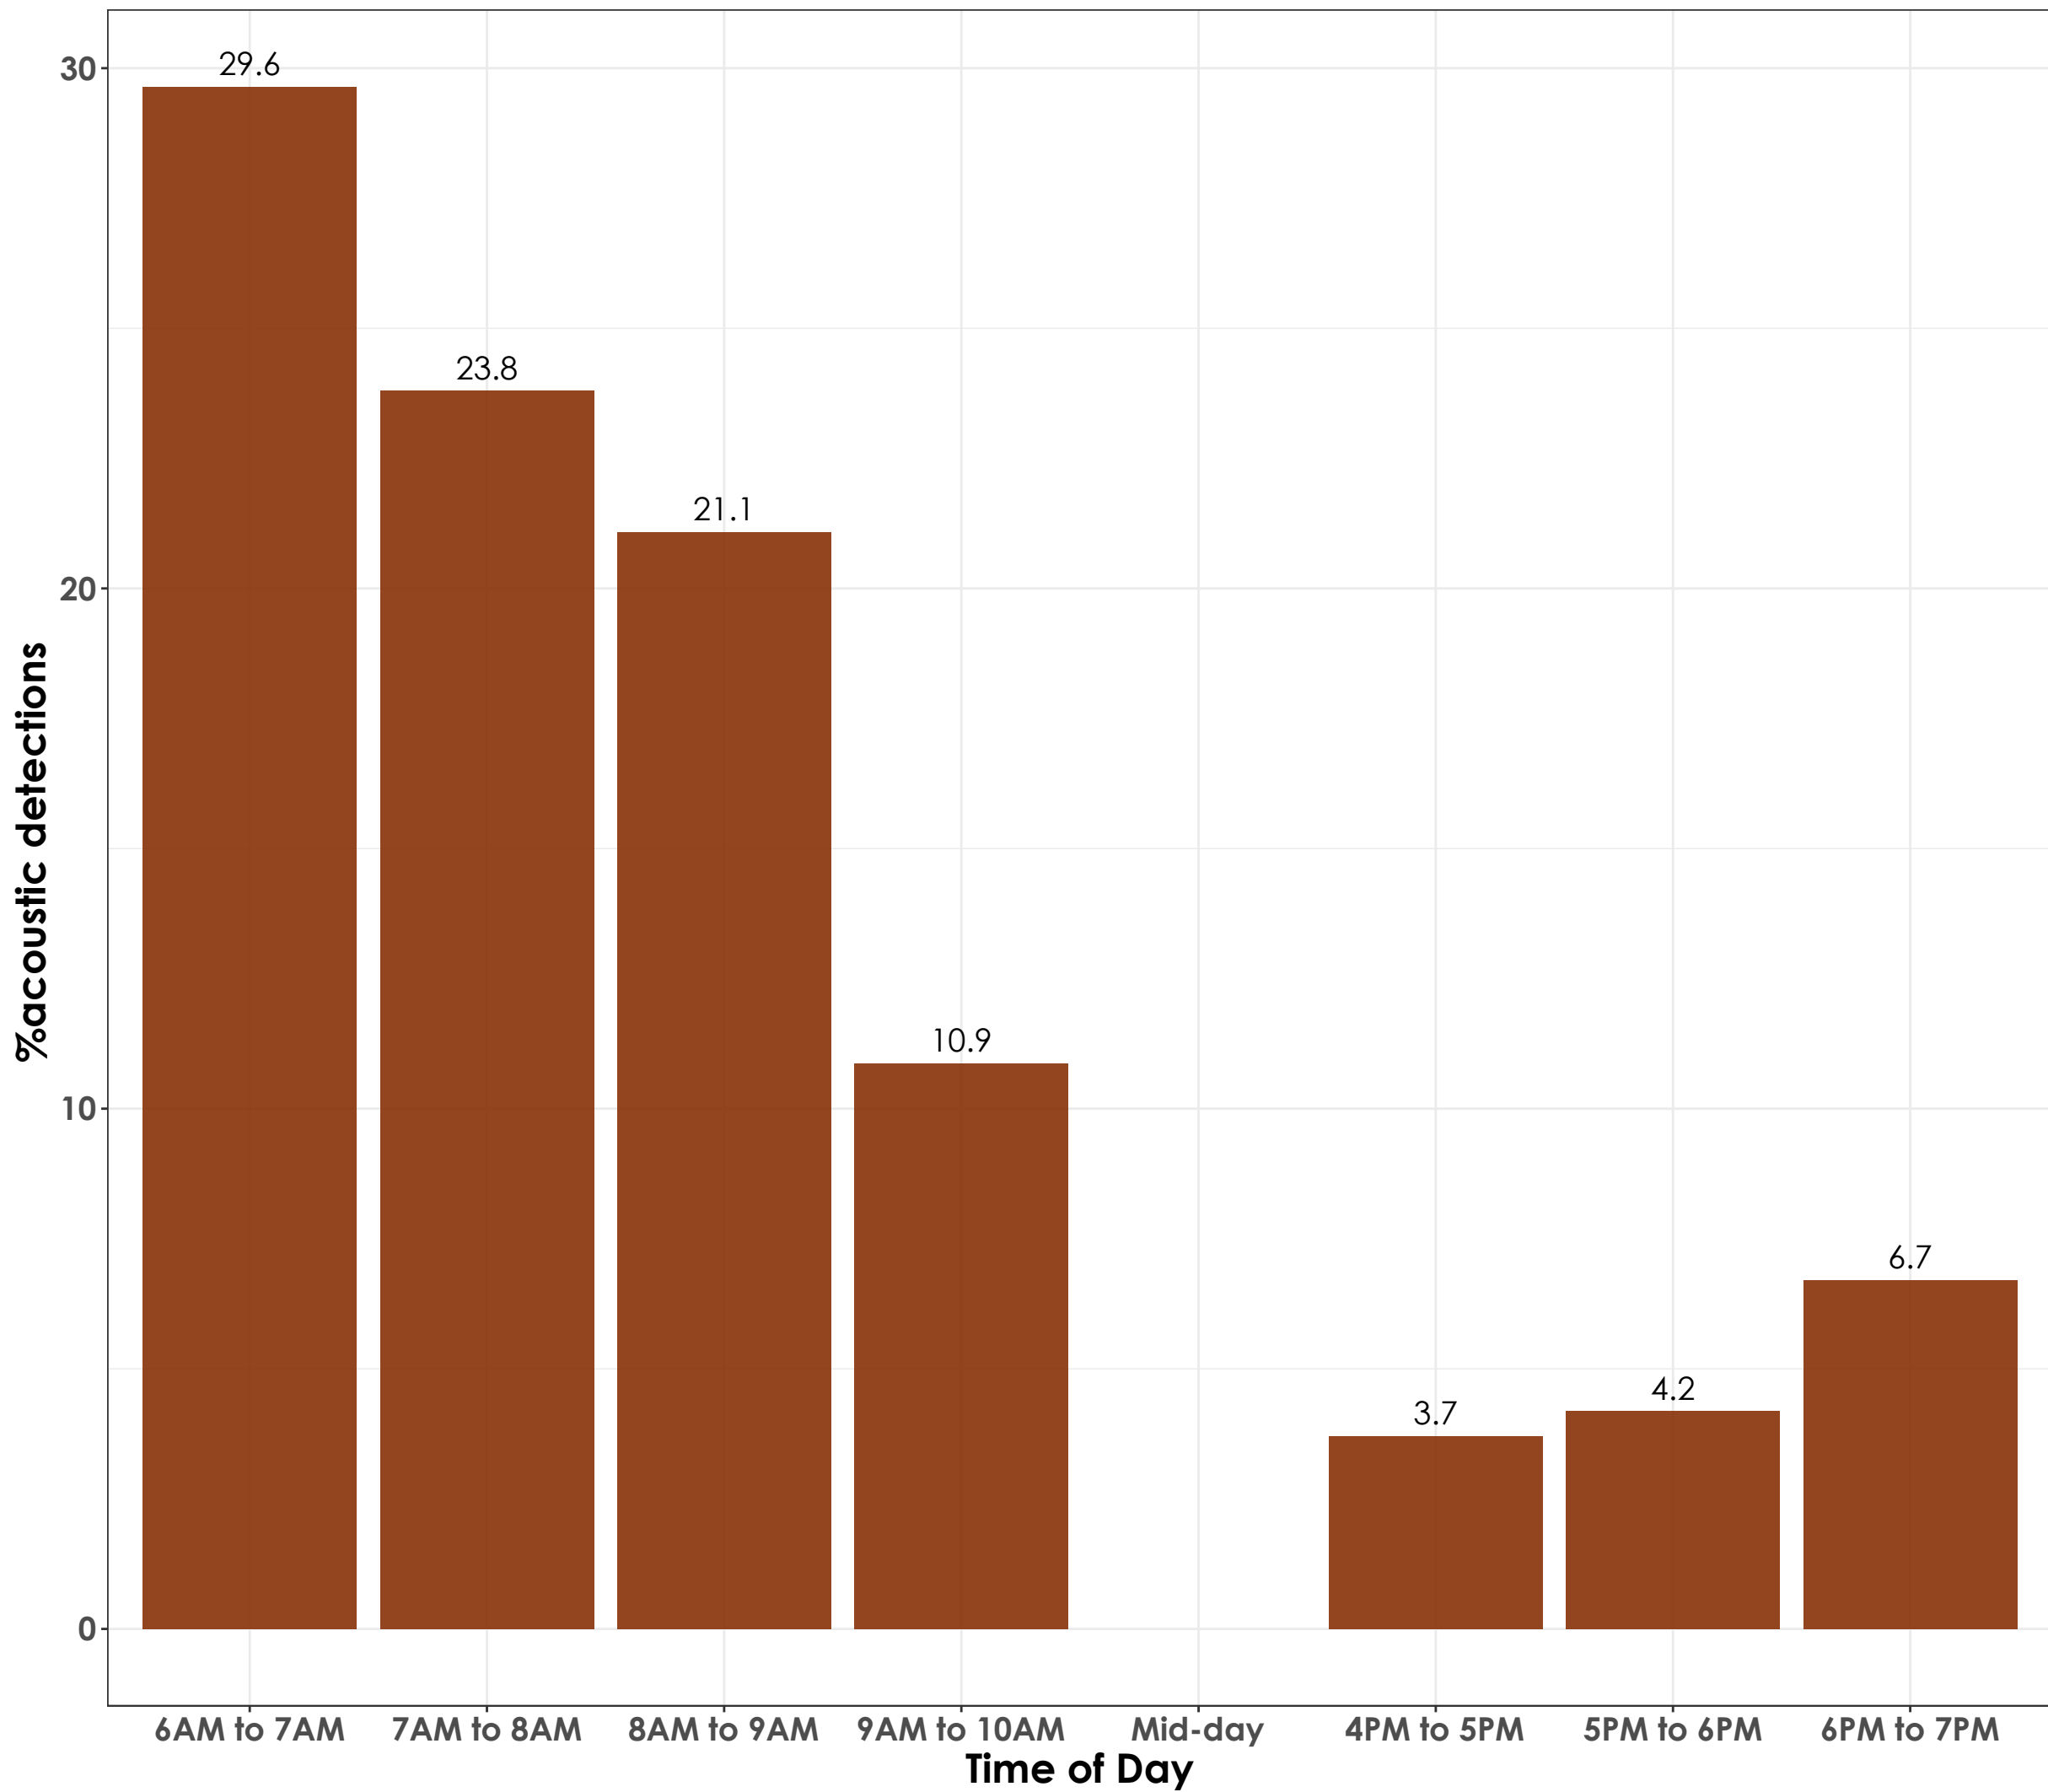

# Greater Racket-tailed Drongo

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

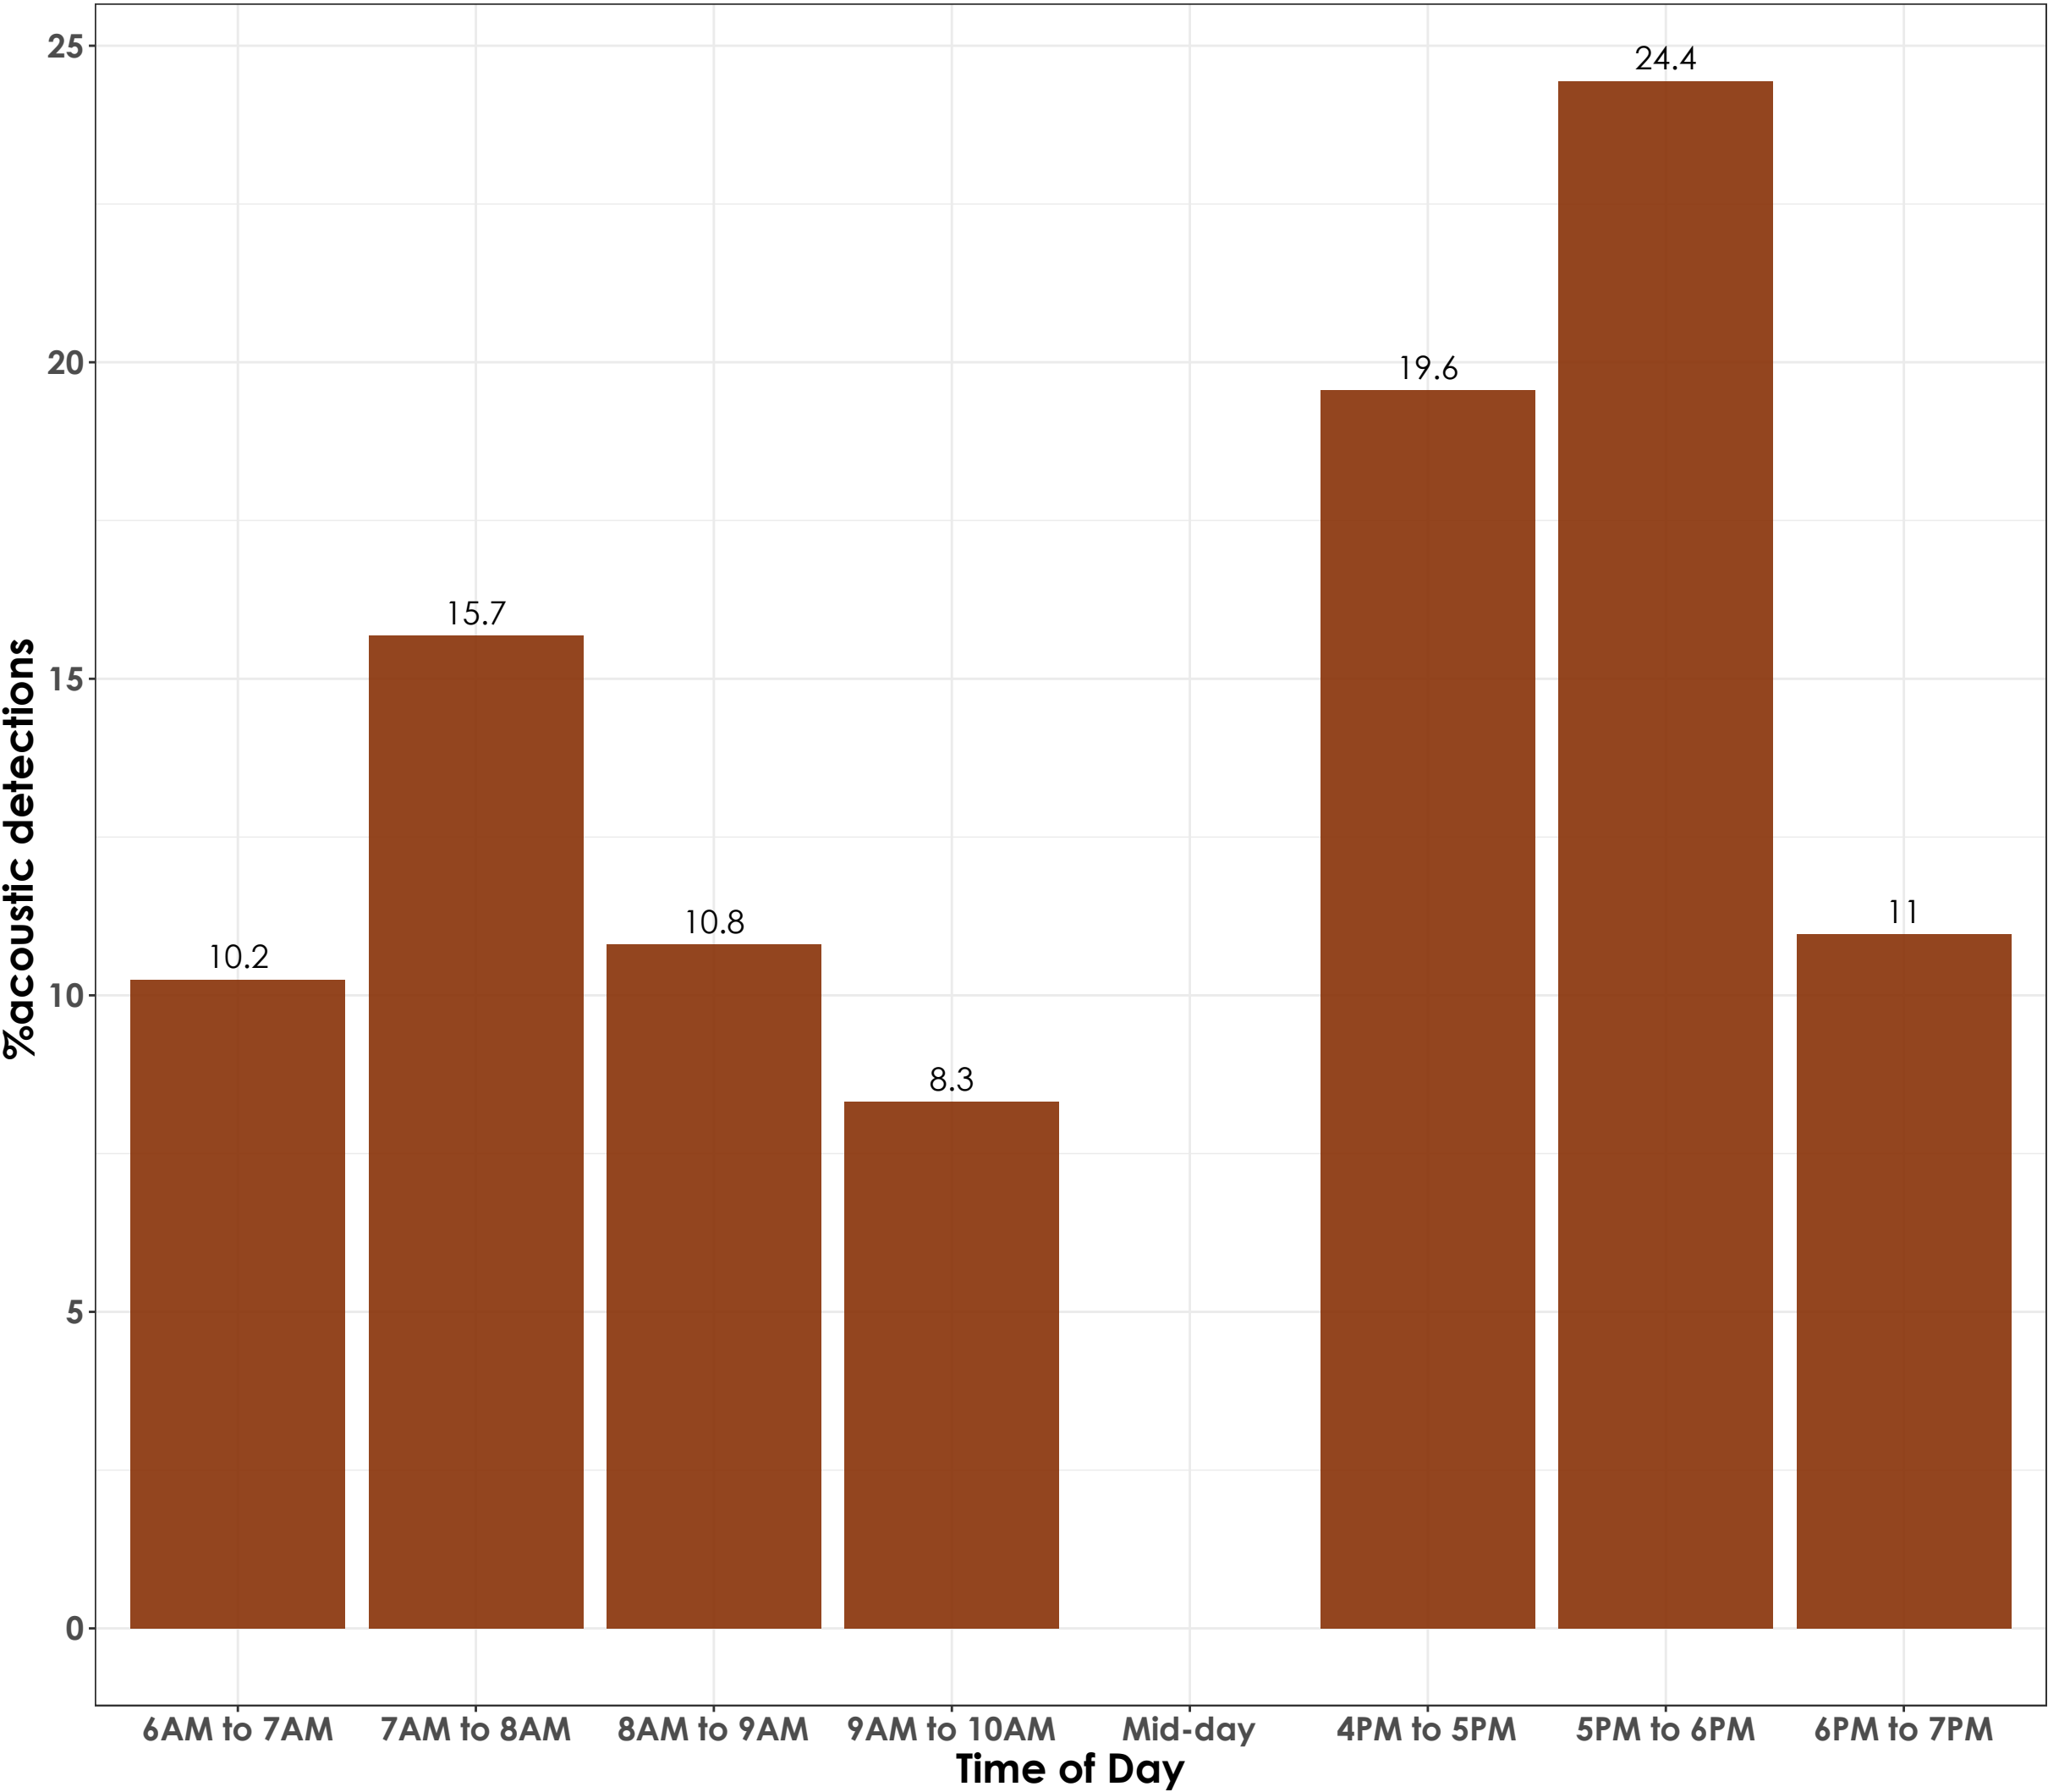

# Indian Scimitar-Babbler

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

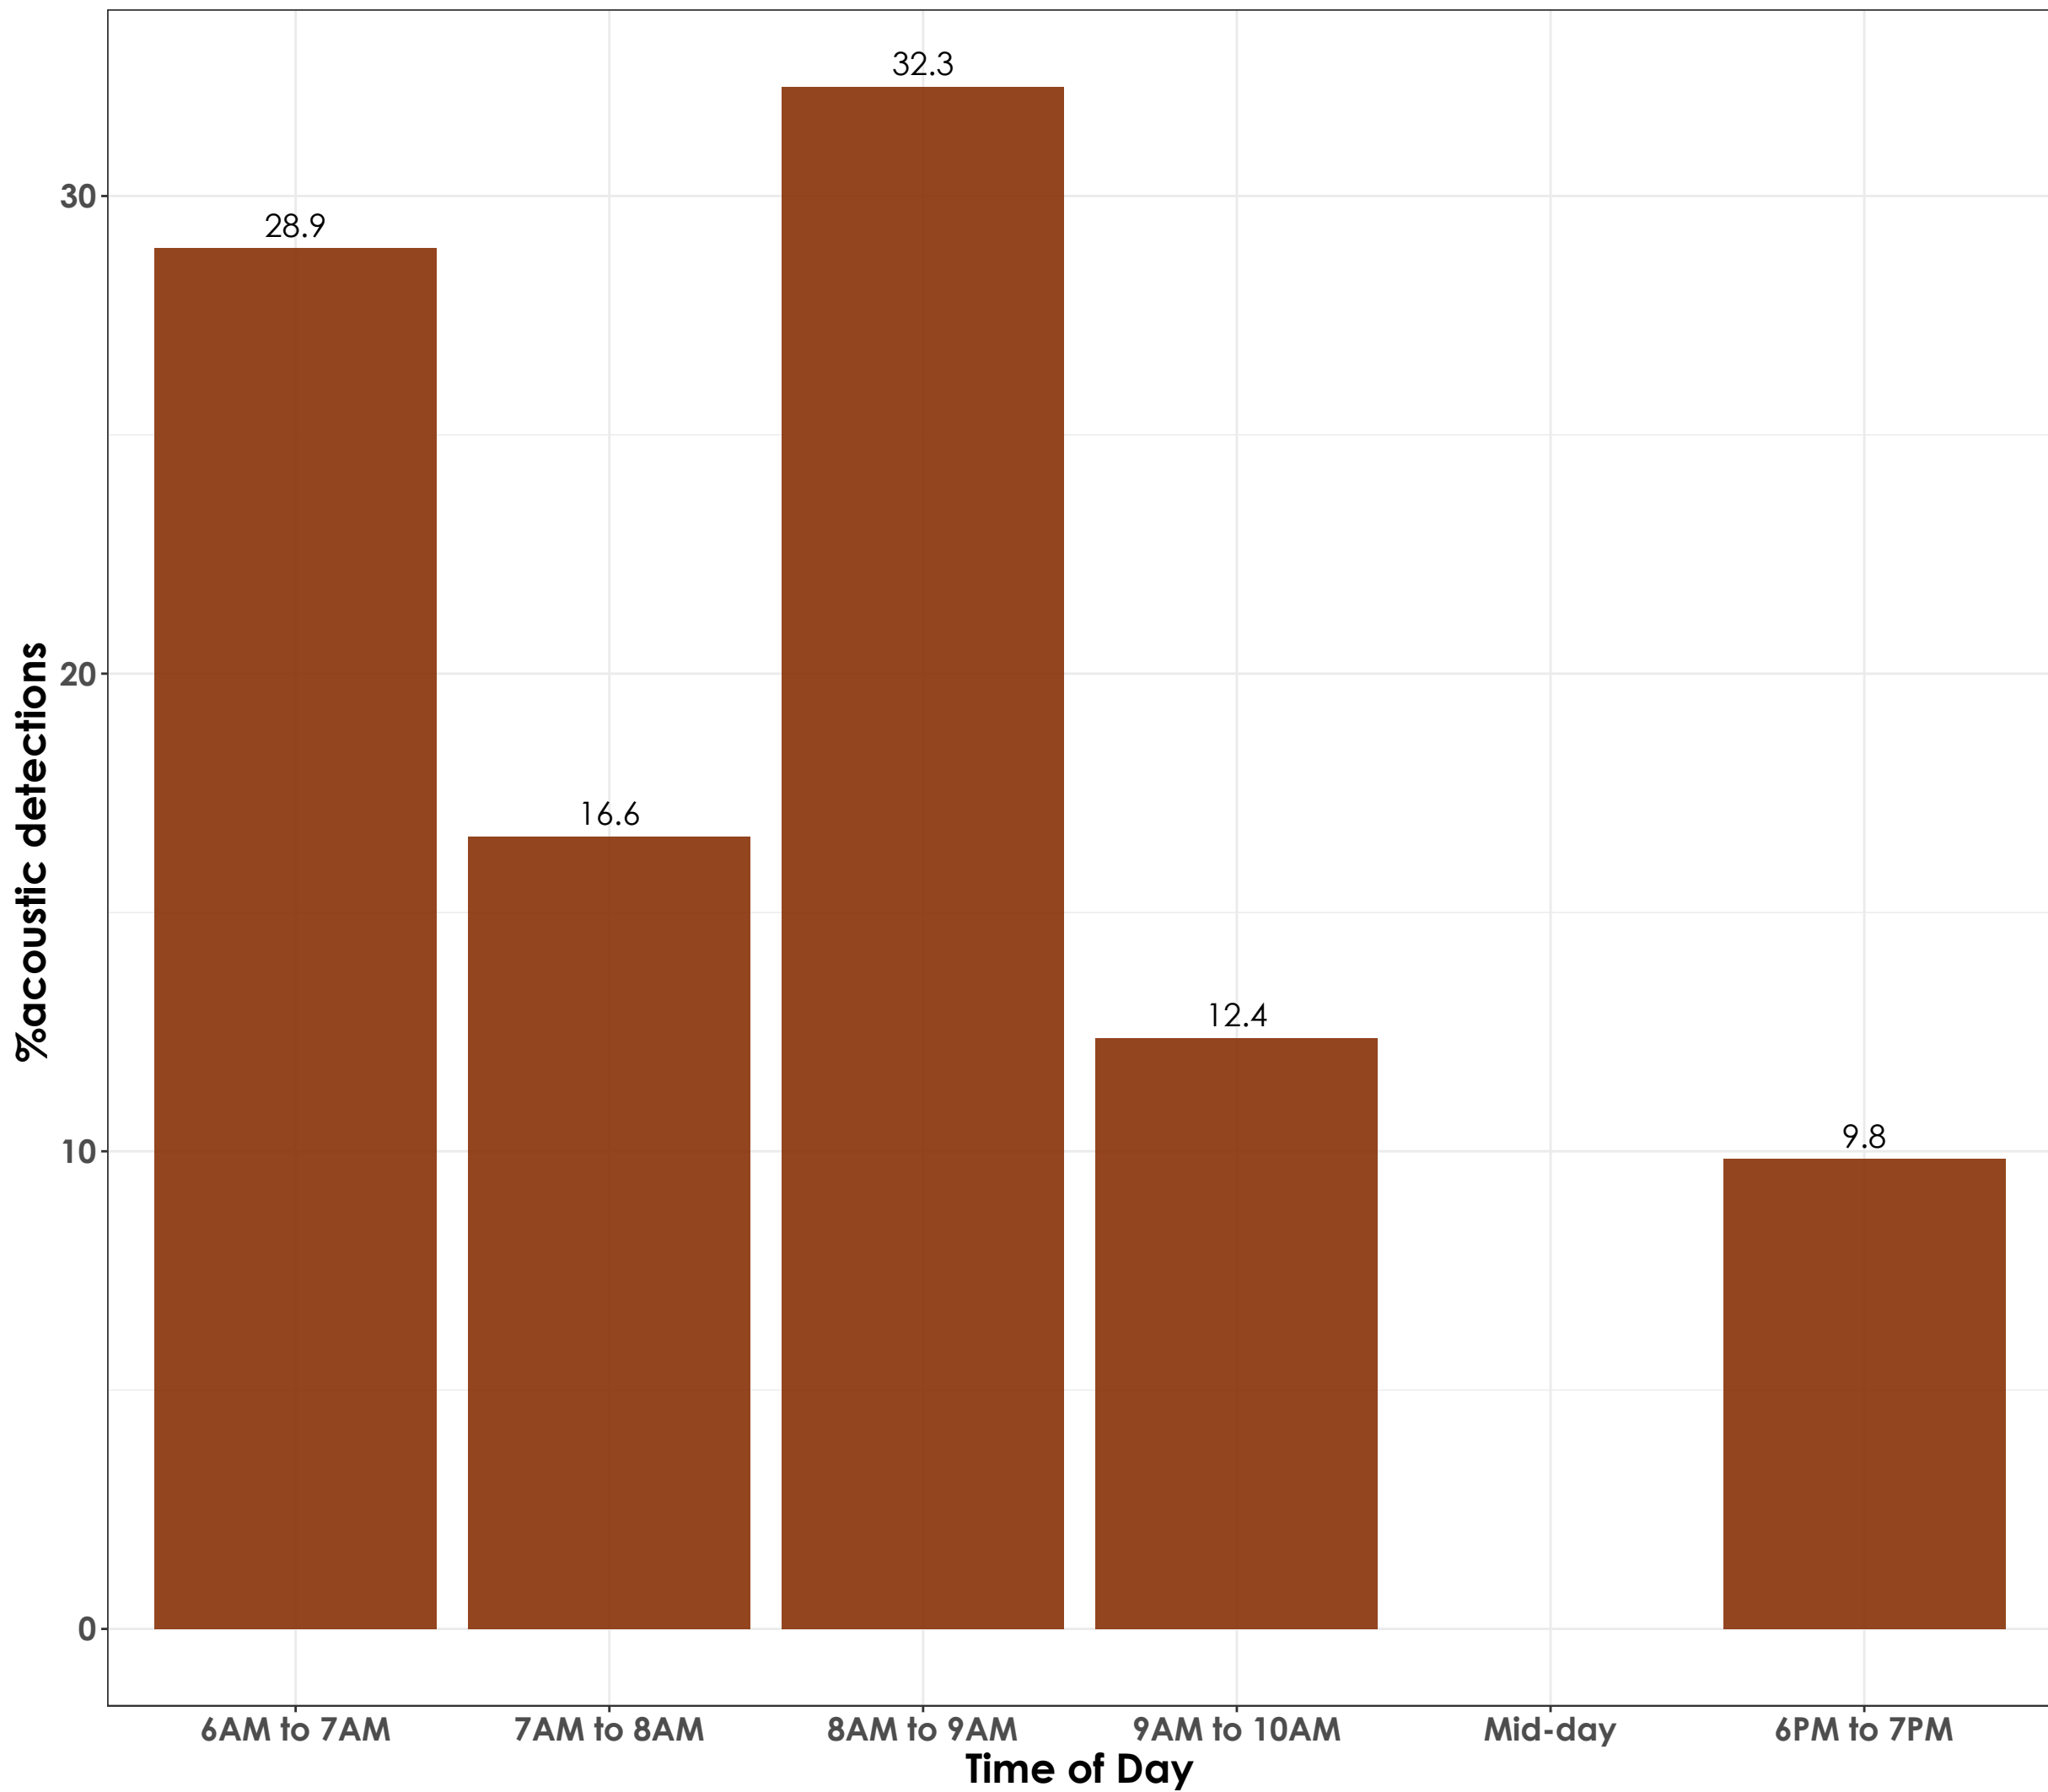

# Malabar Gray Hornbill

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

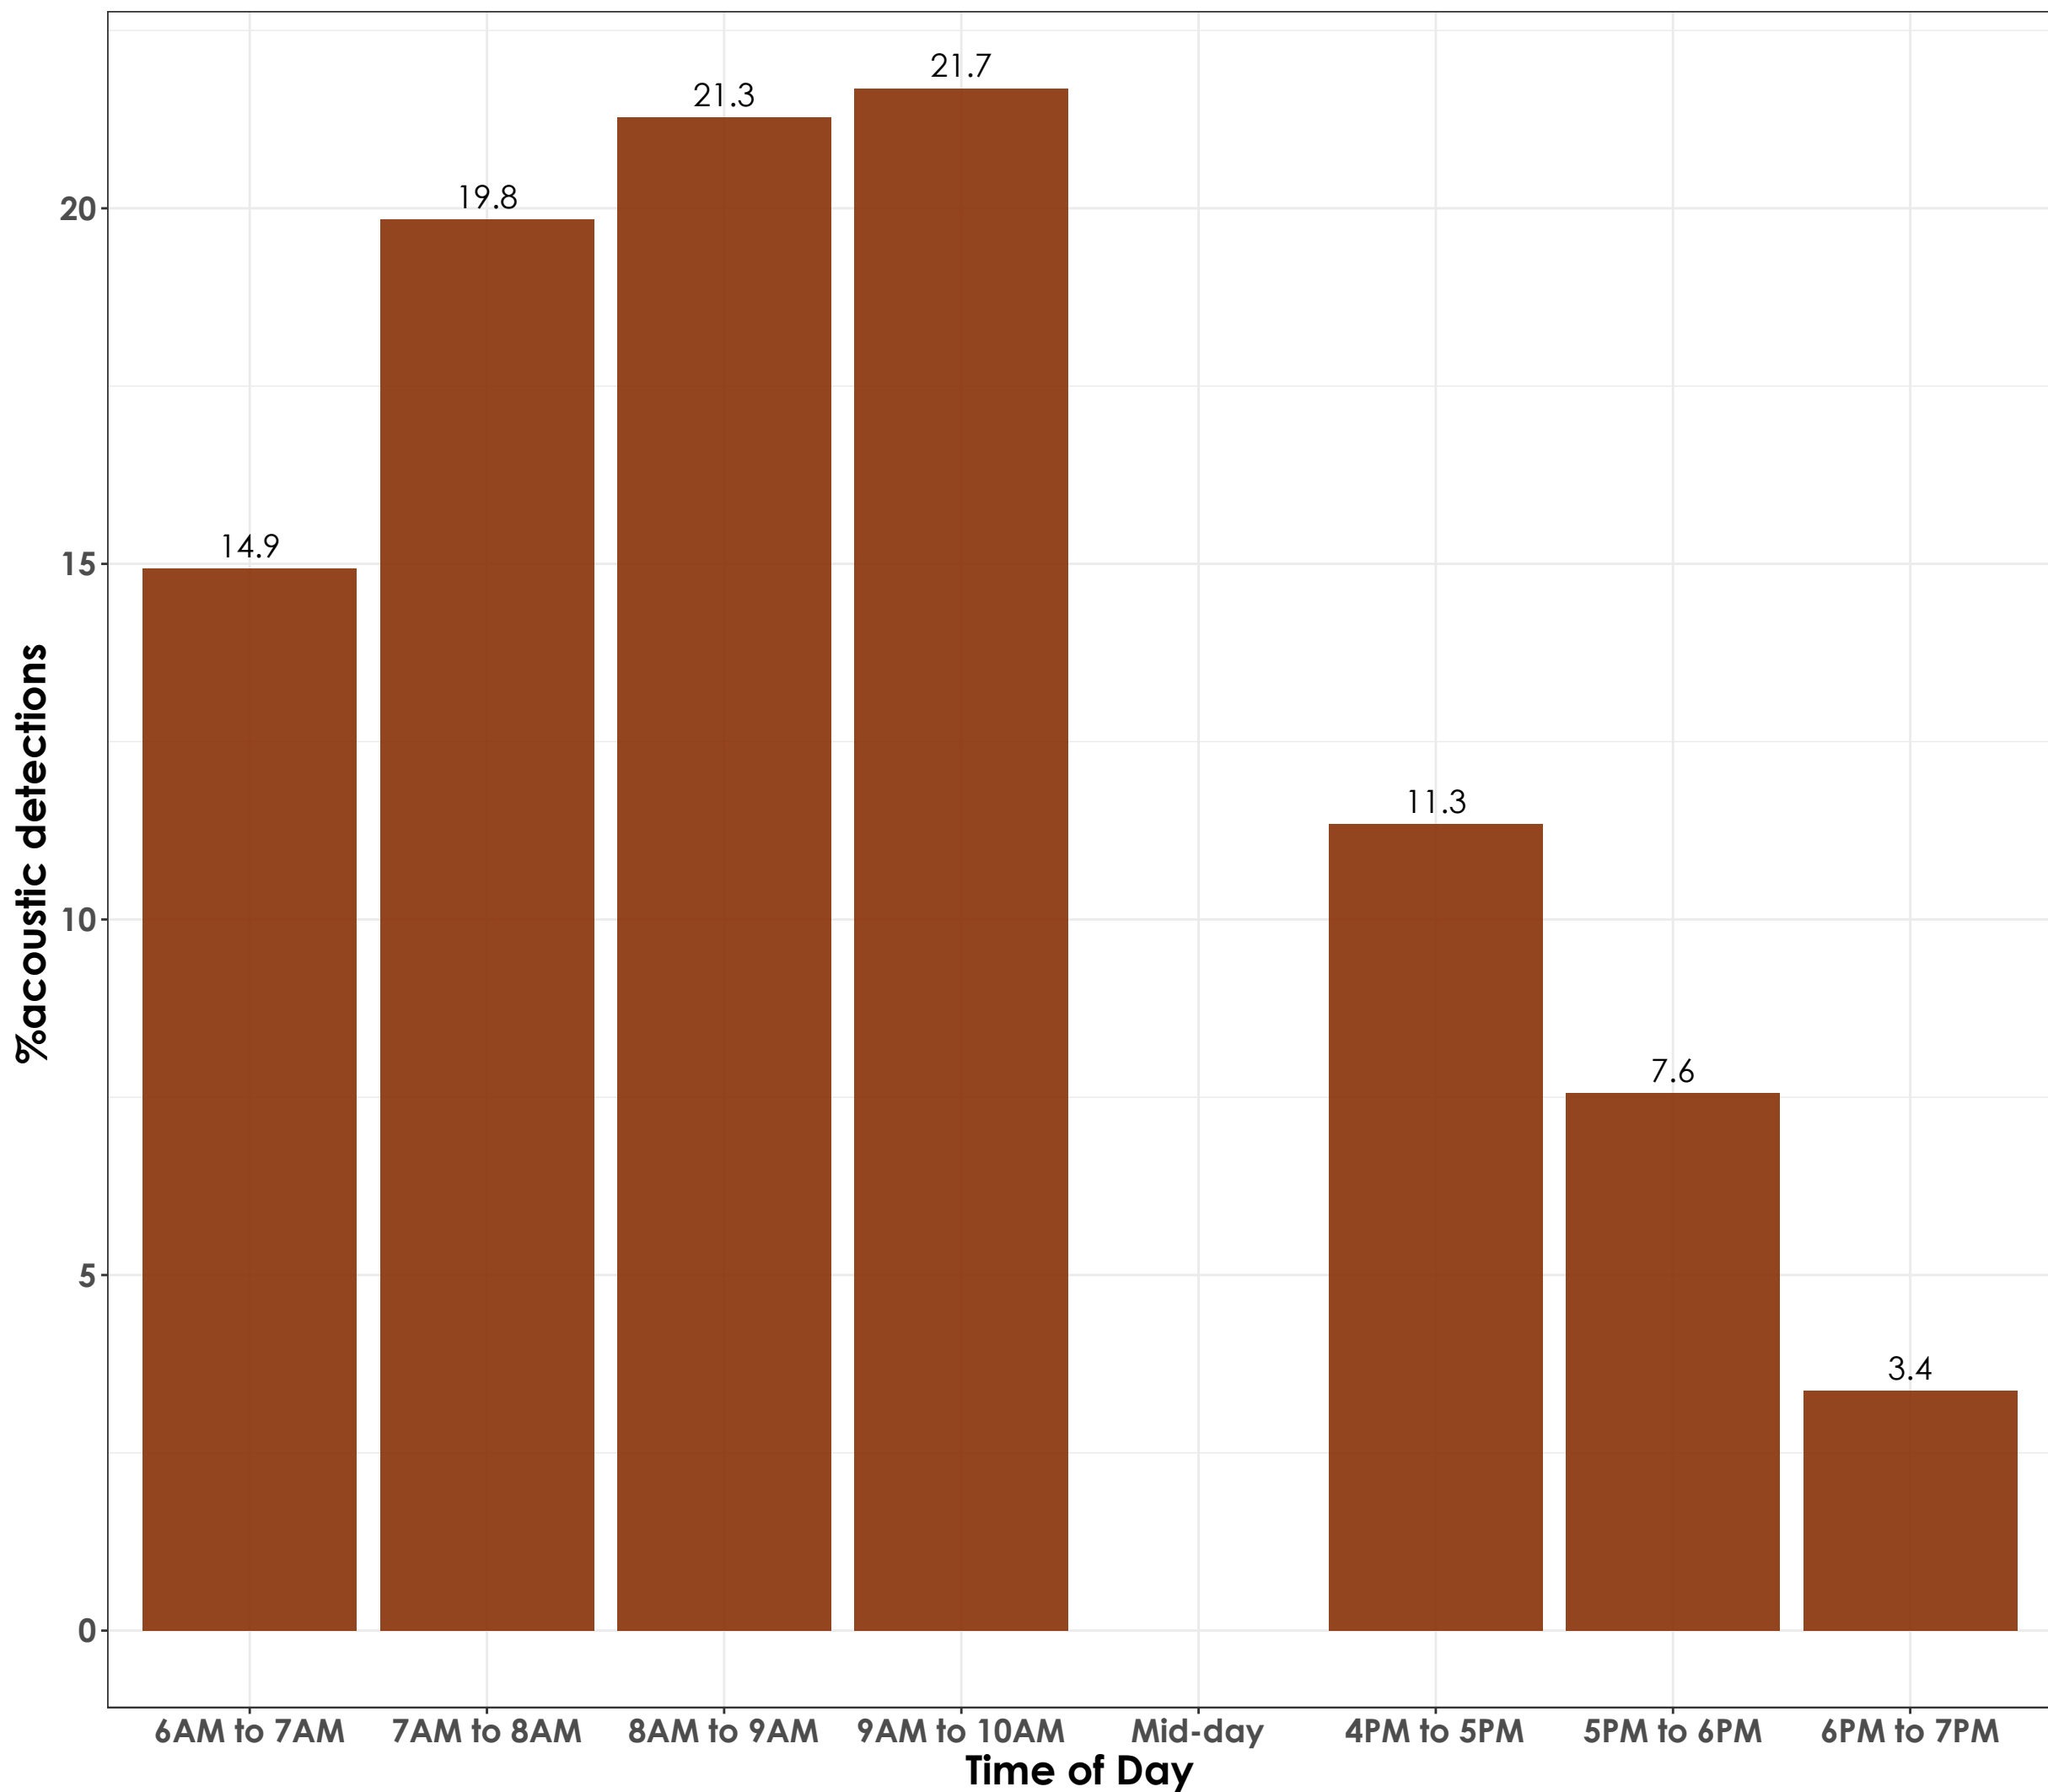

# Oriental Magpie-Robin

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Nilgiri Flowerpecker

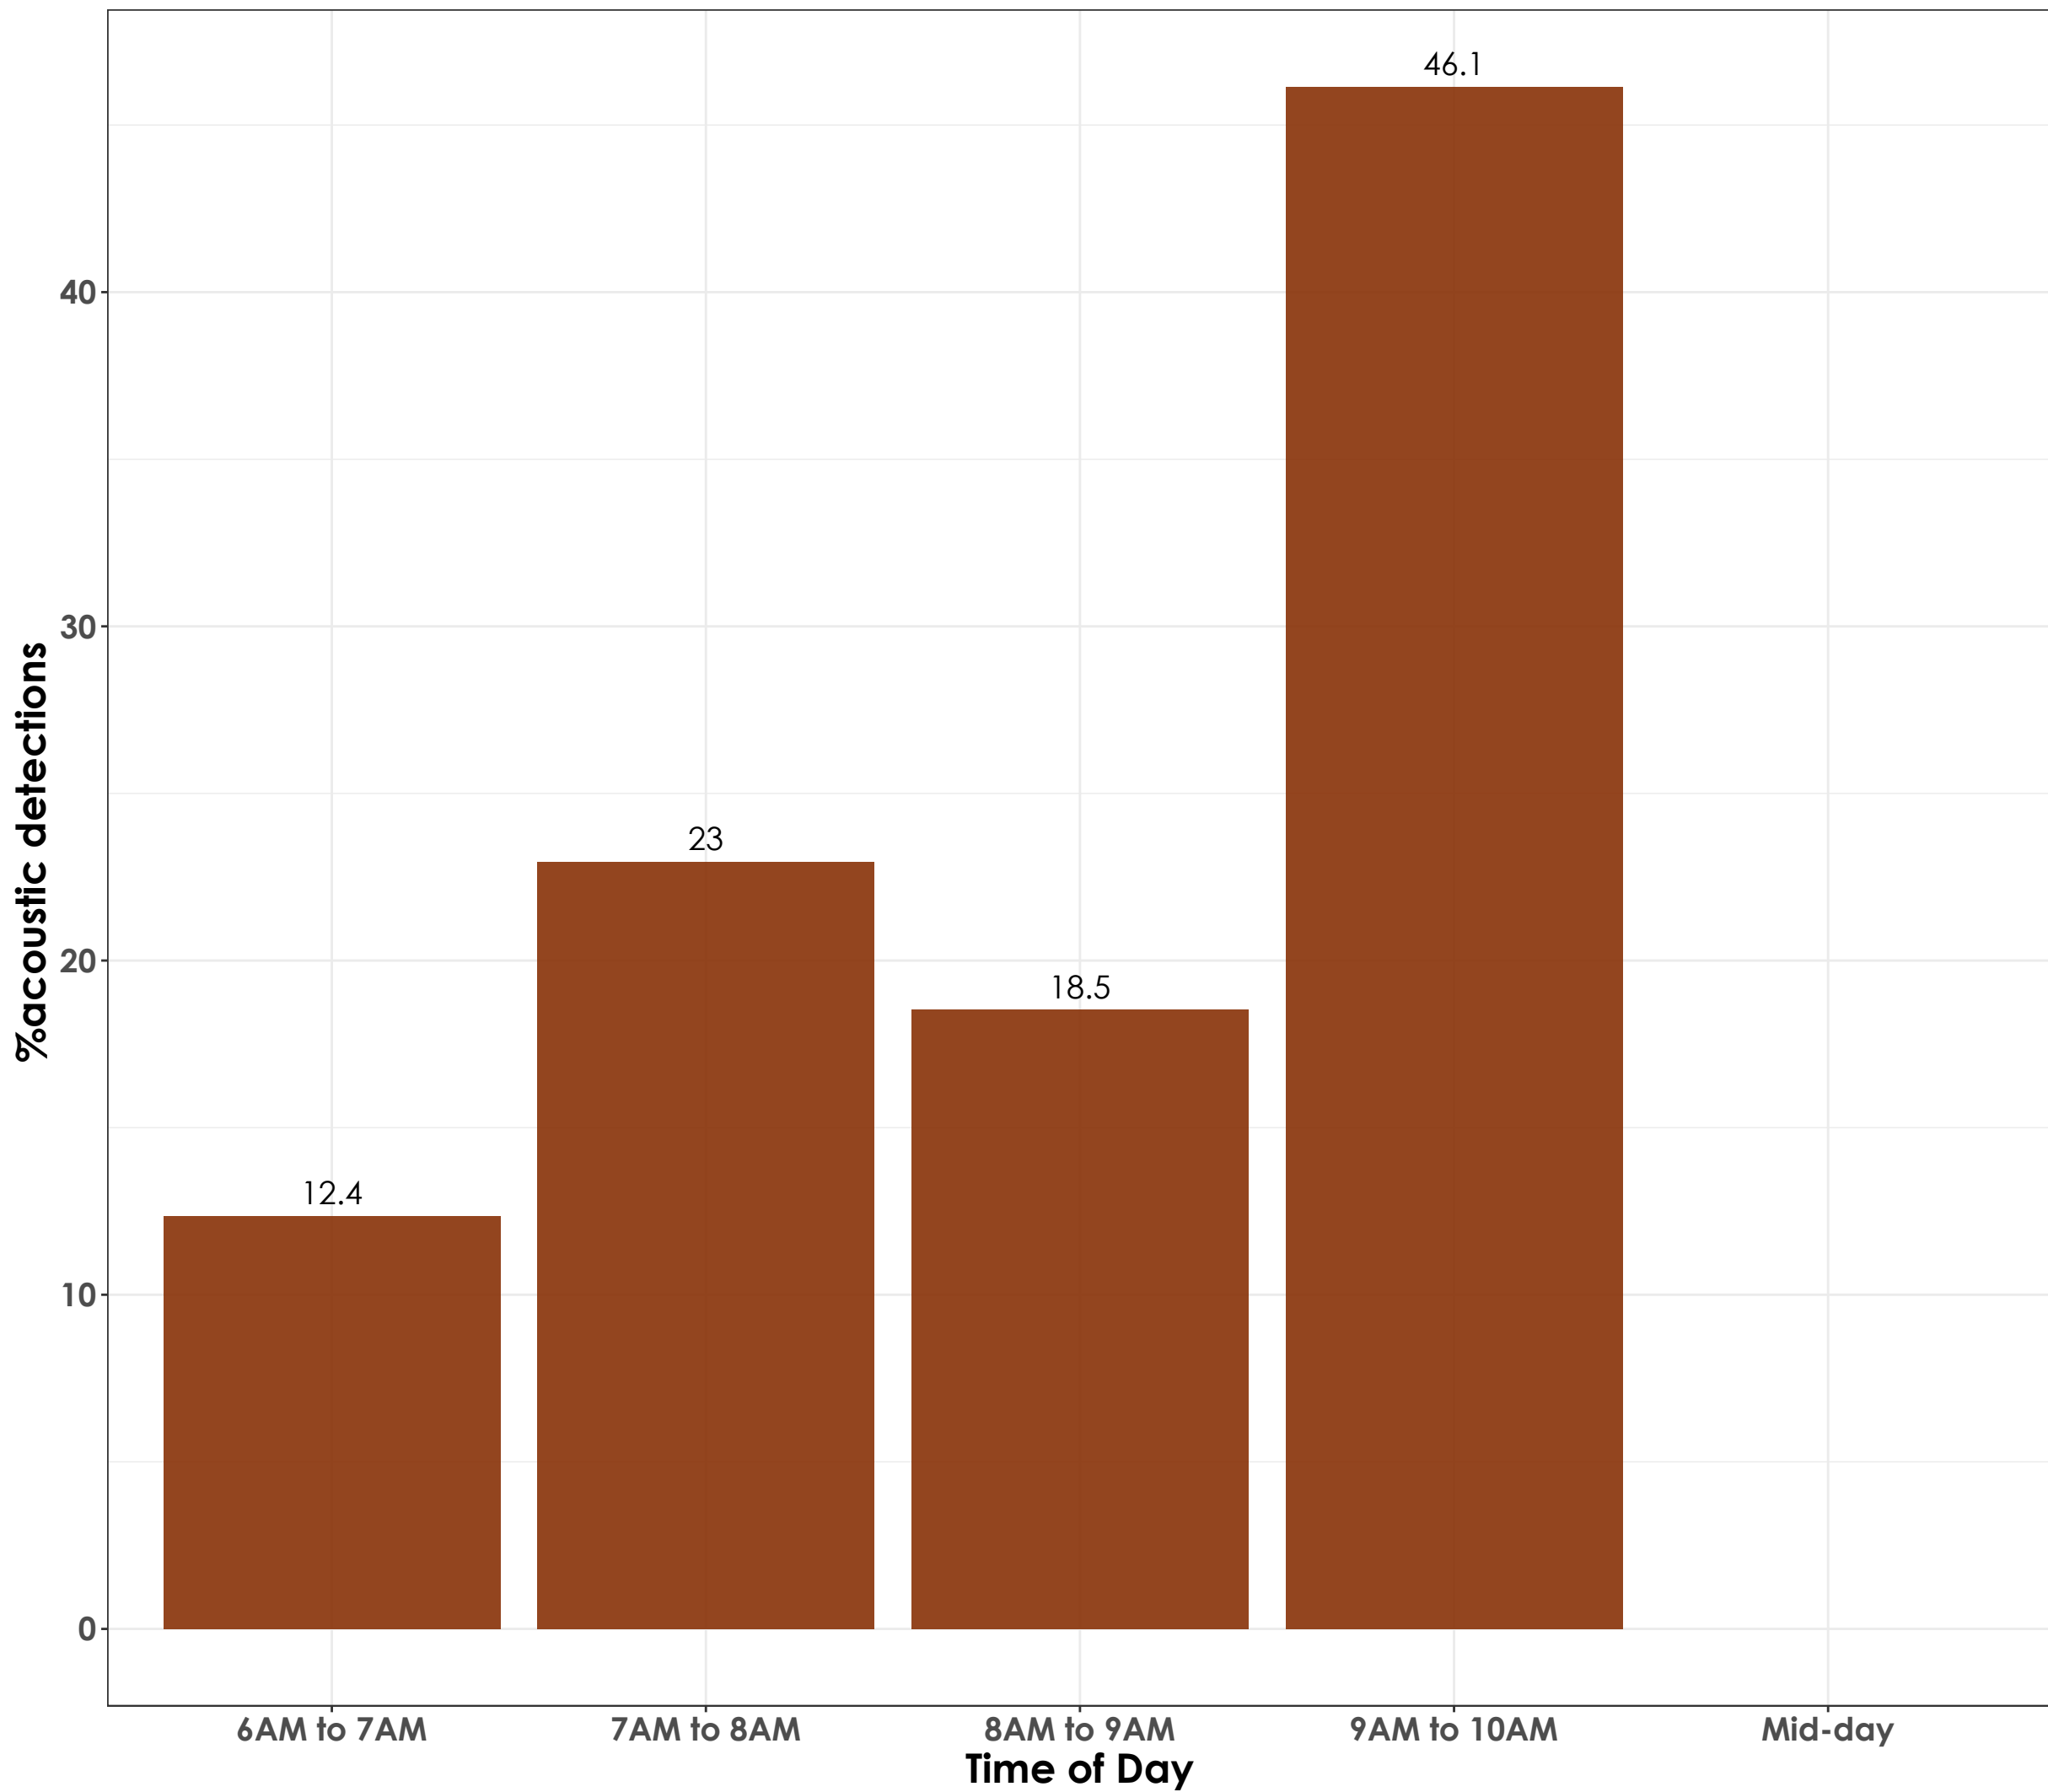

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

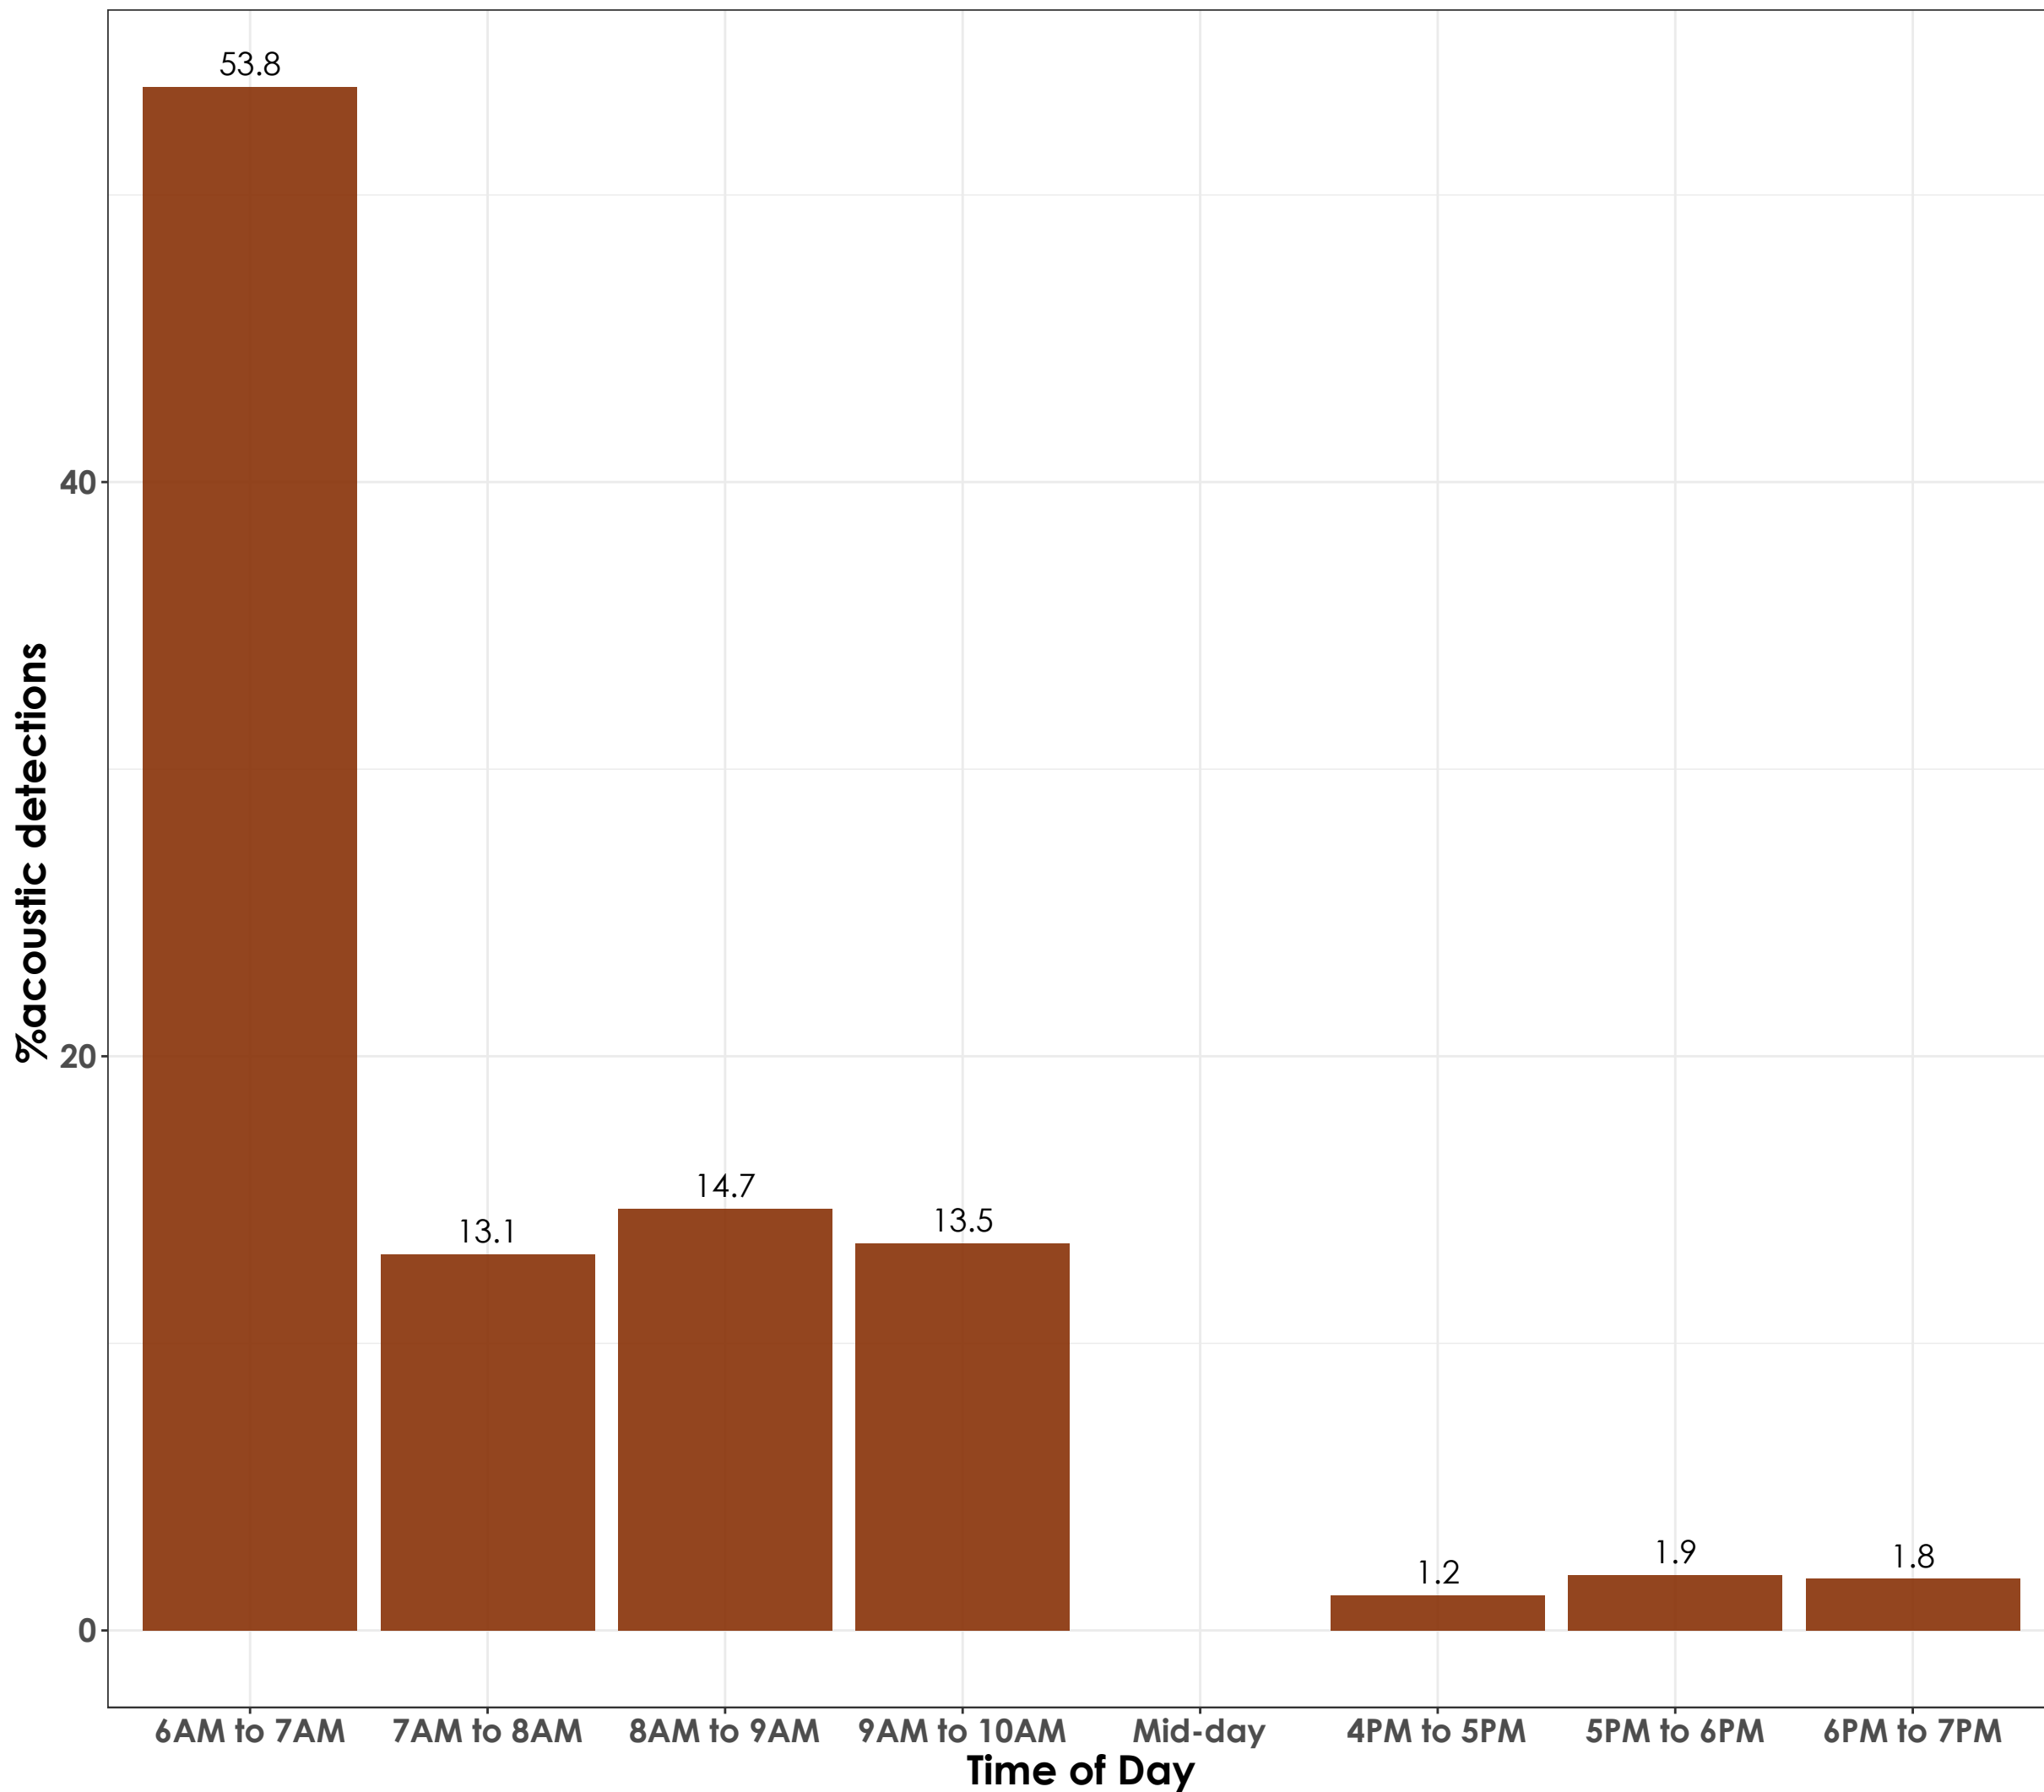

# Purple Sunbird

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

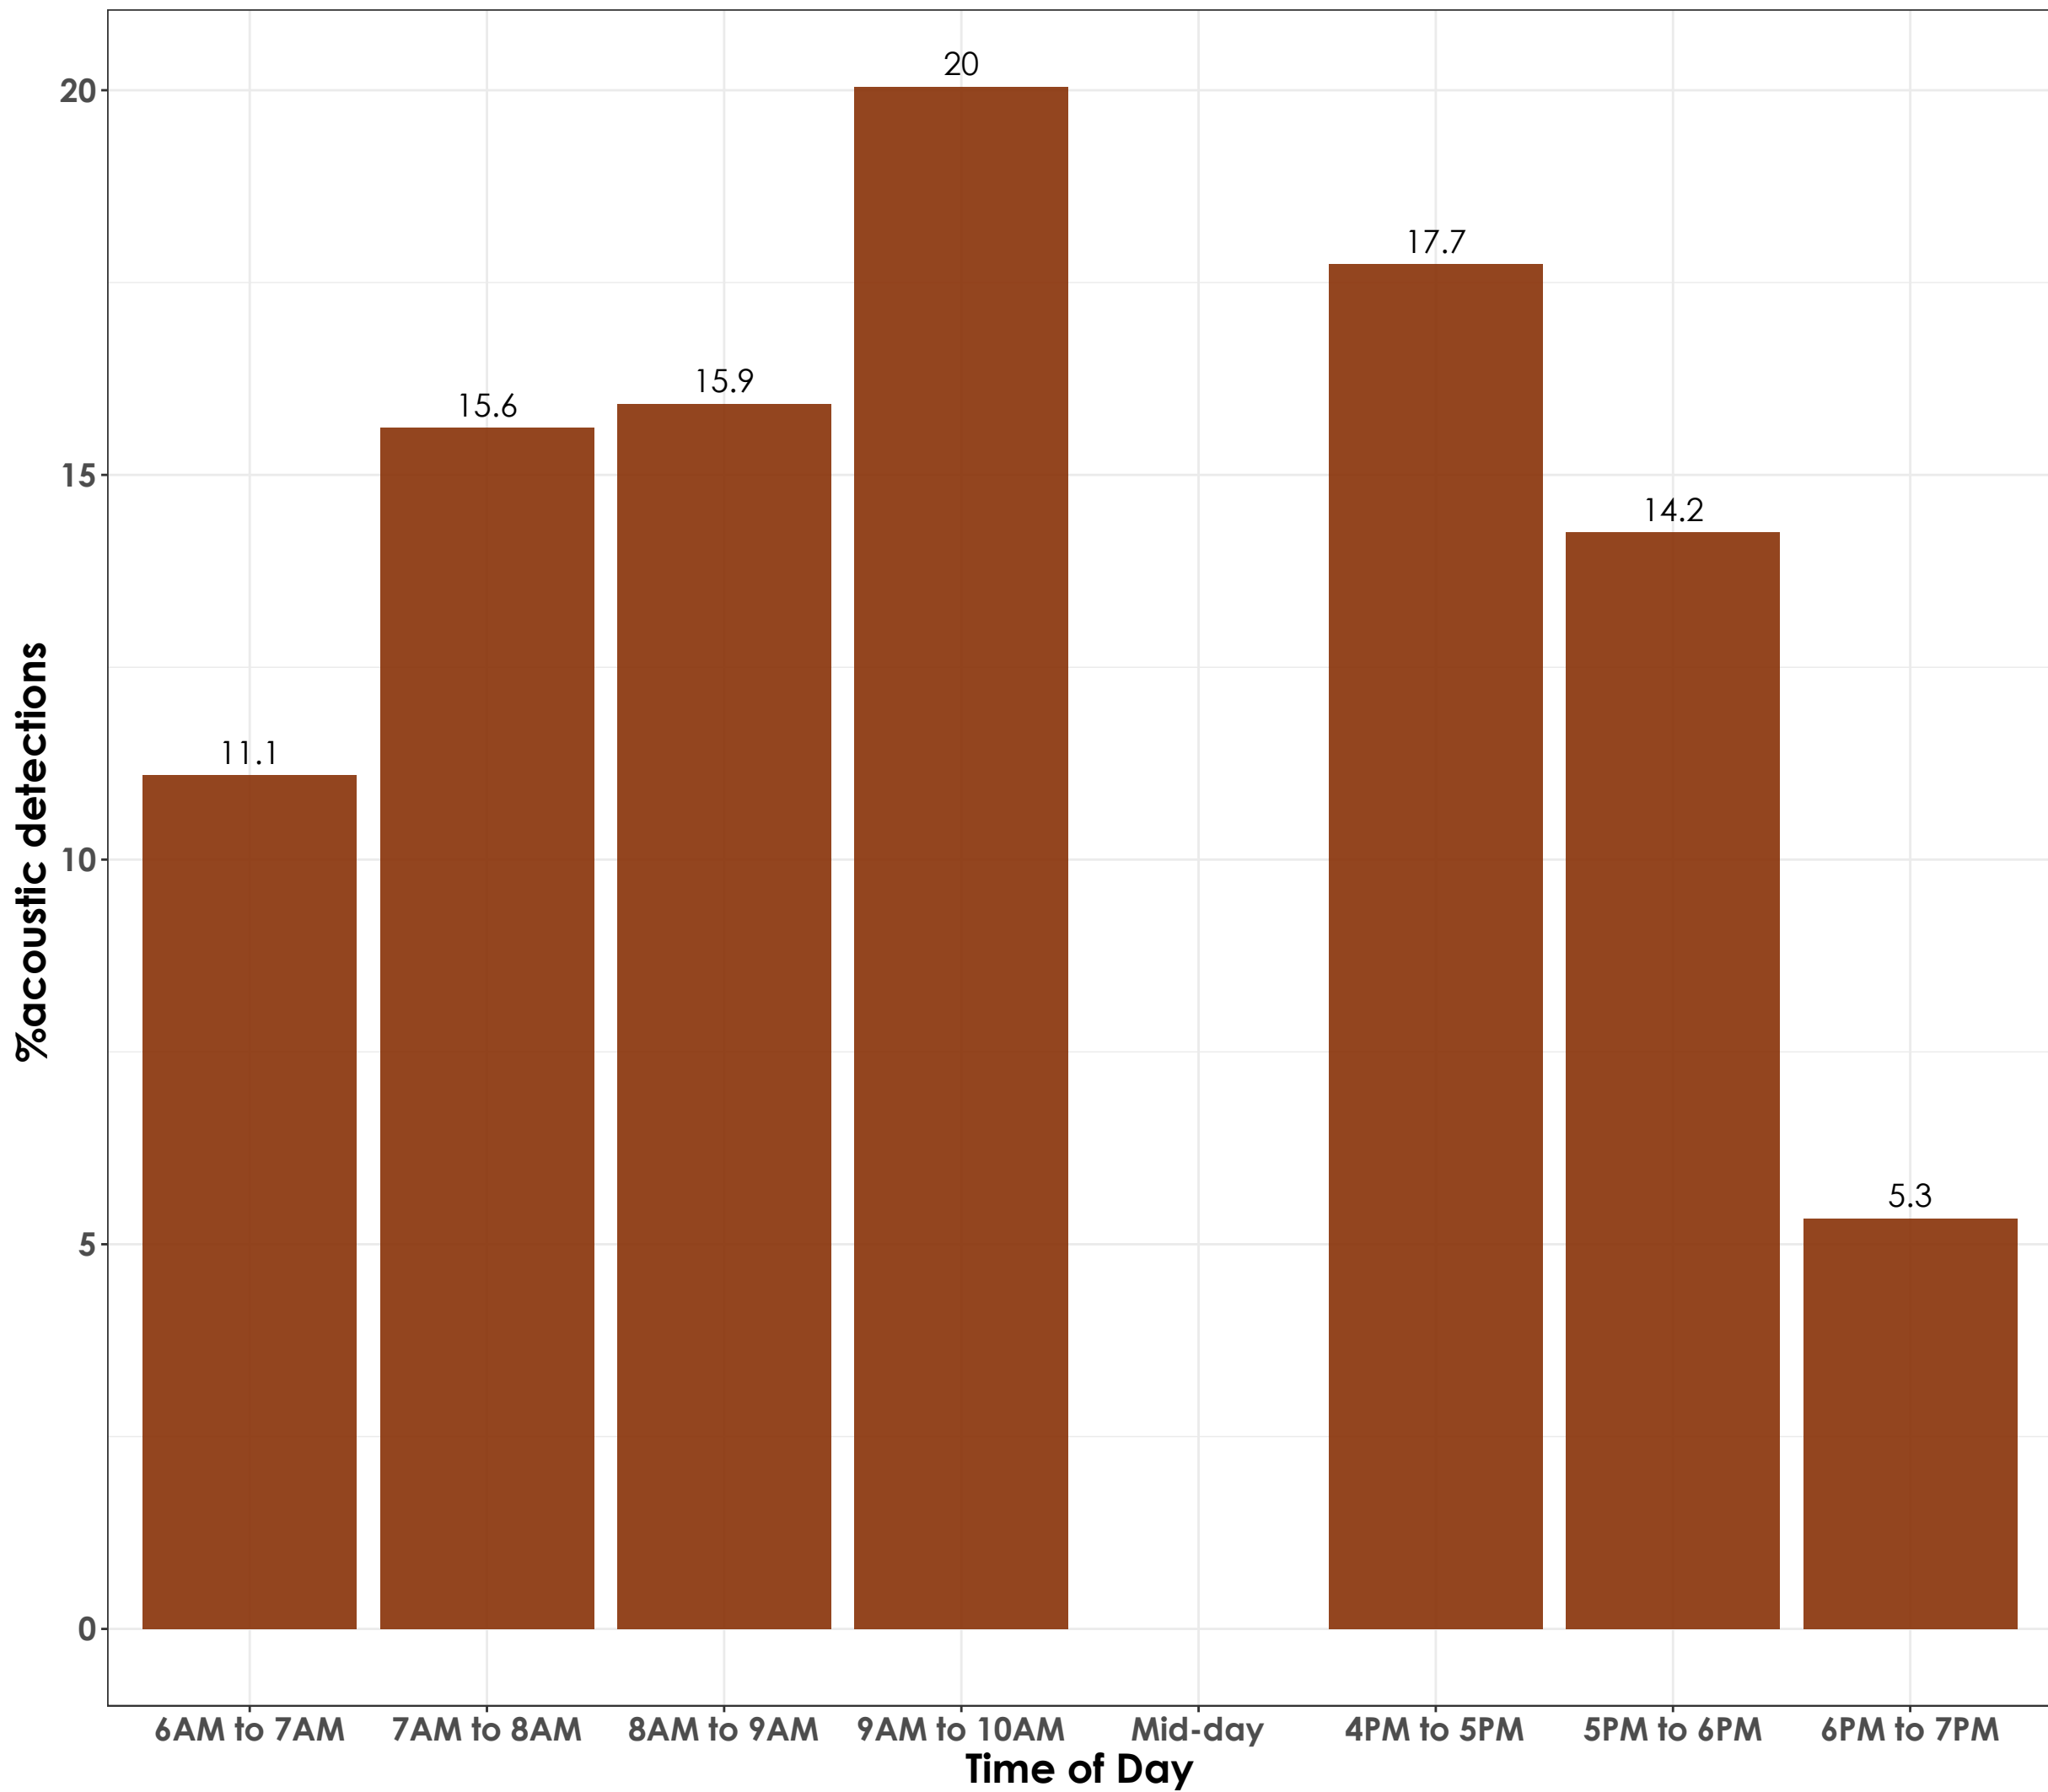

# Puff-throated Babbler

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

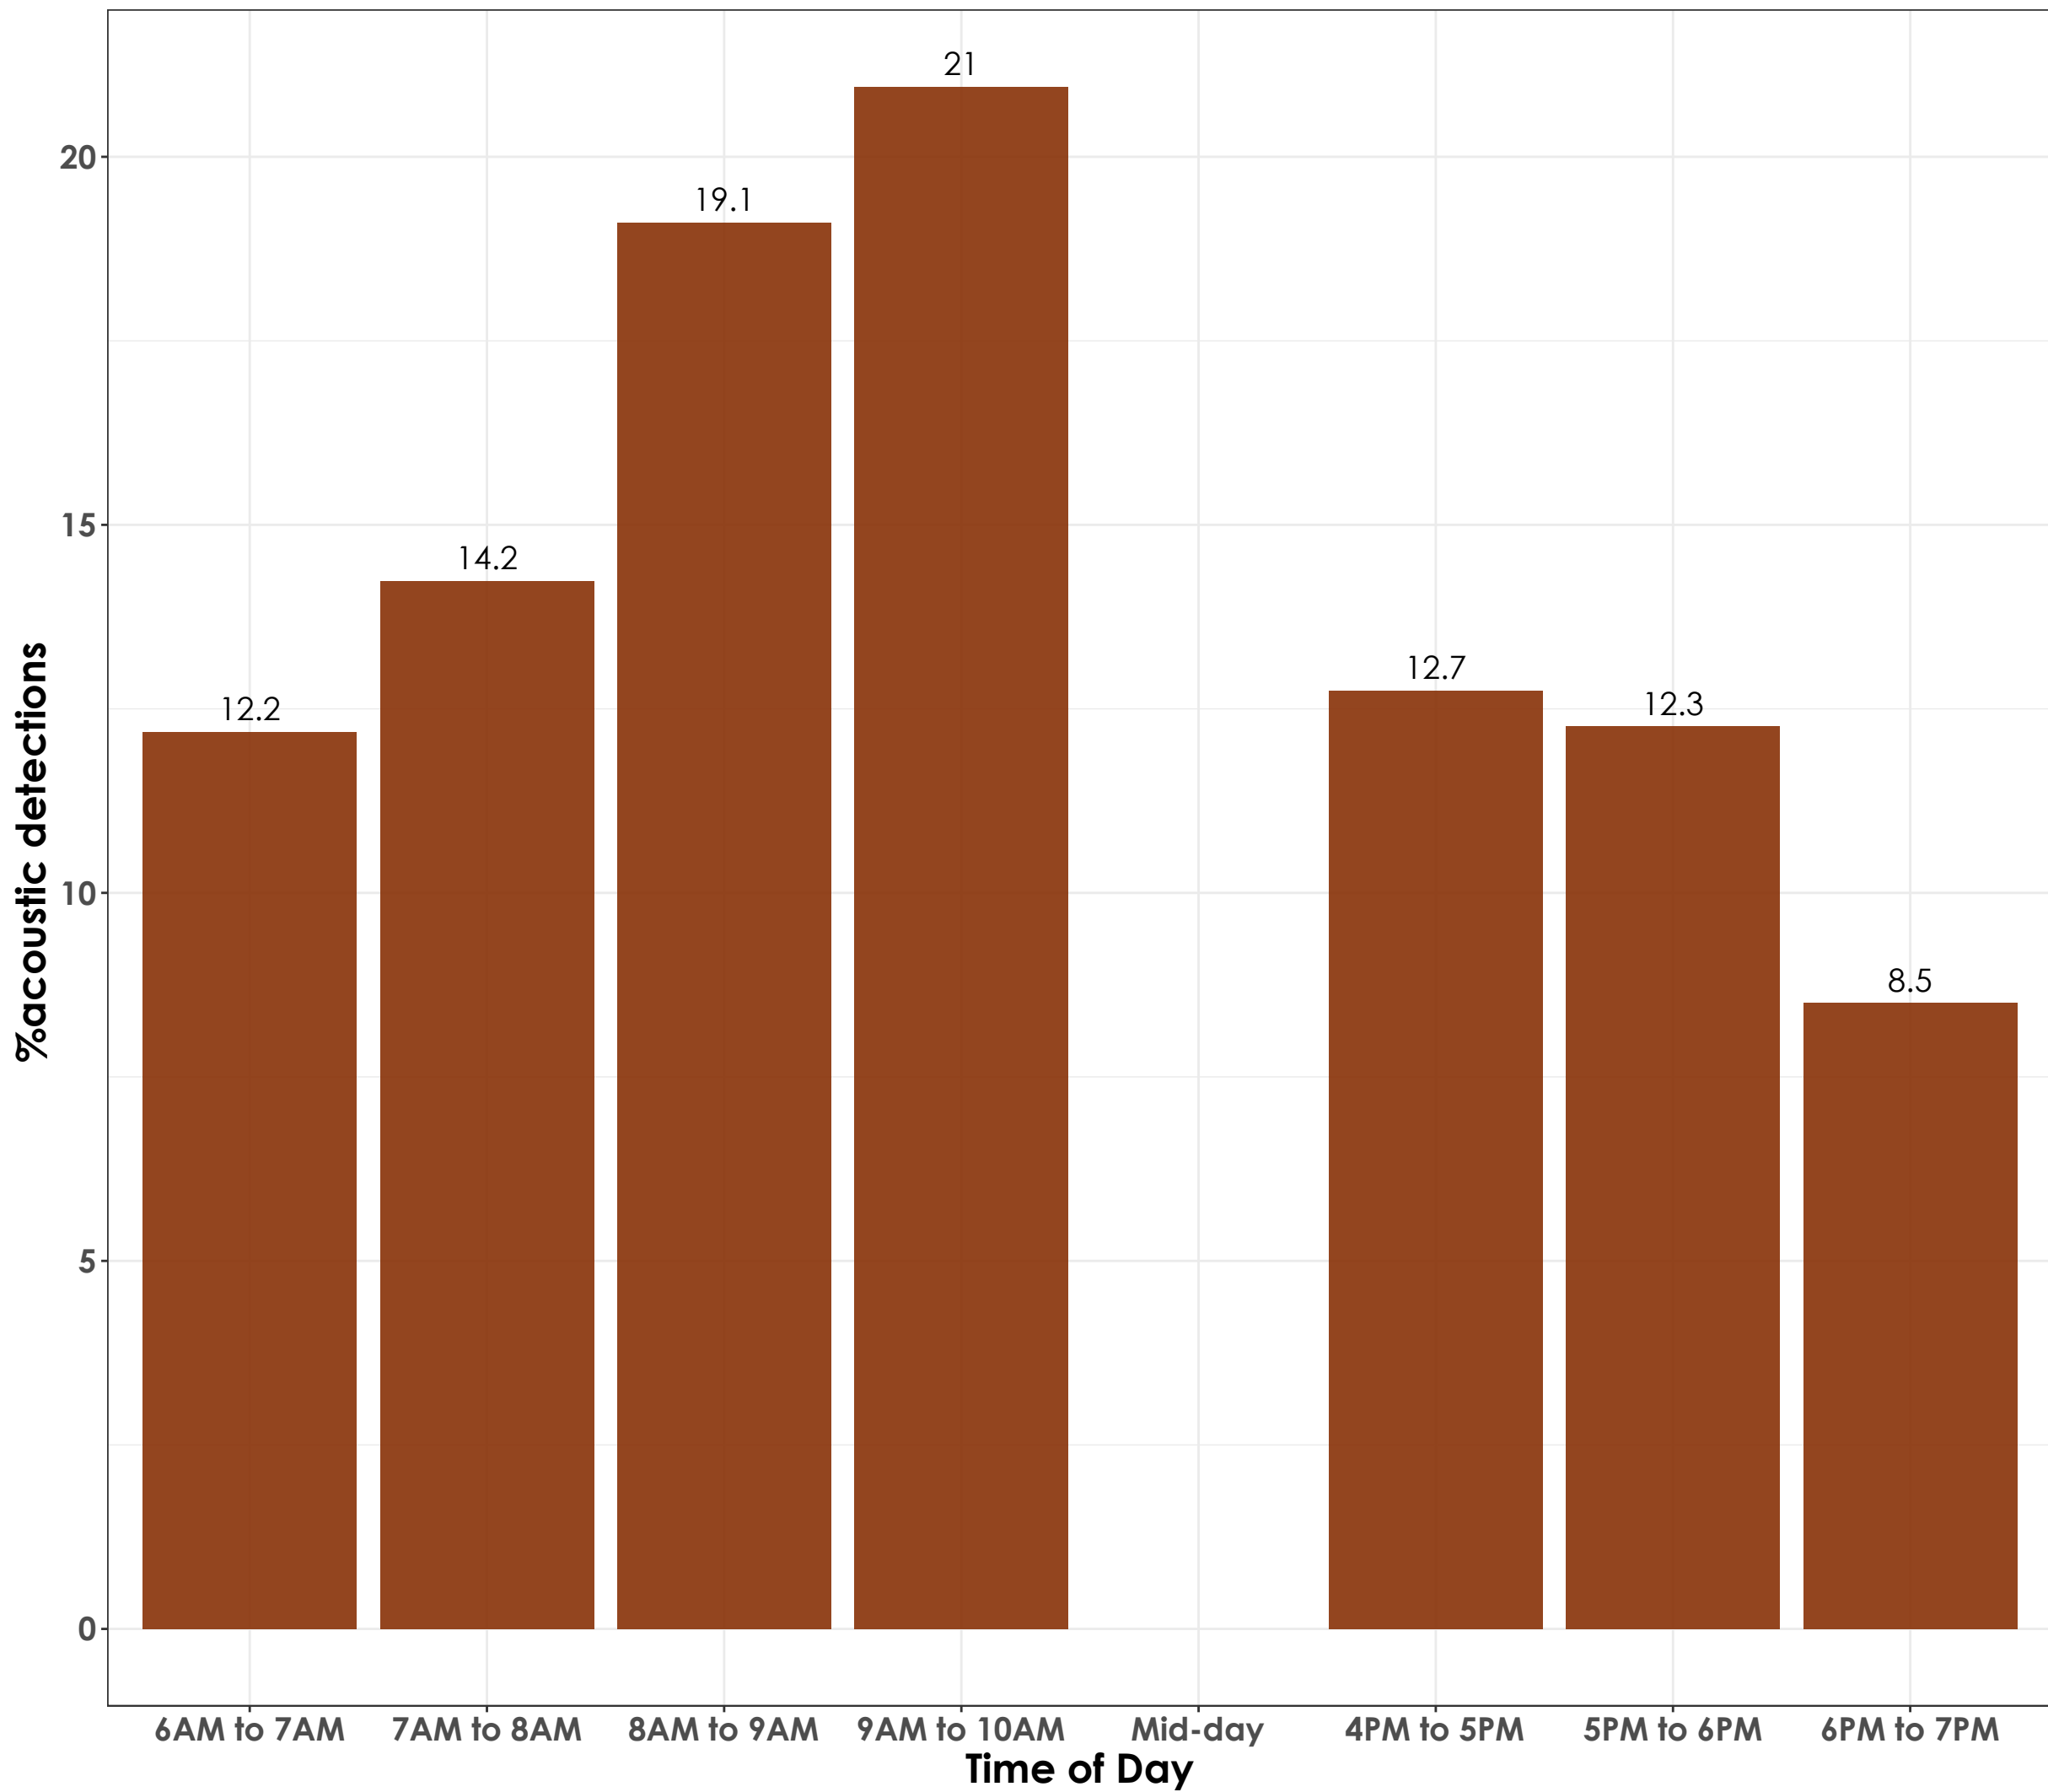

# Square-tailed Bulbul

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

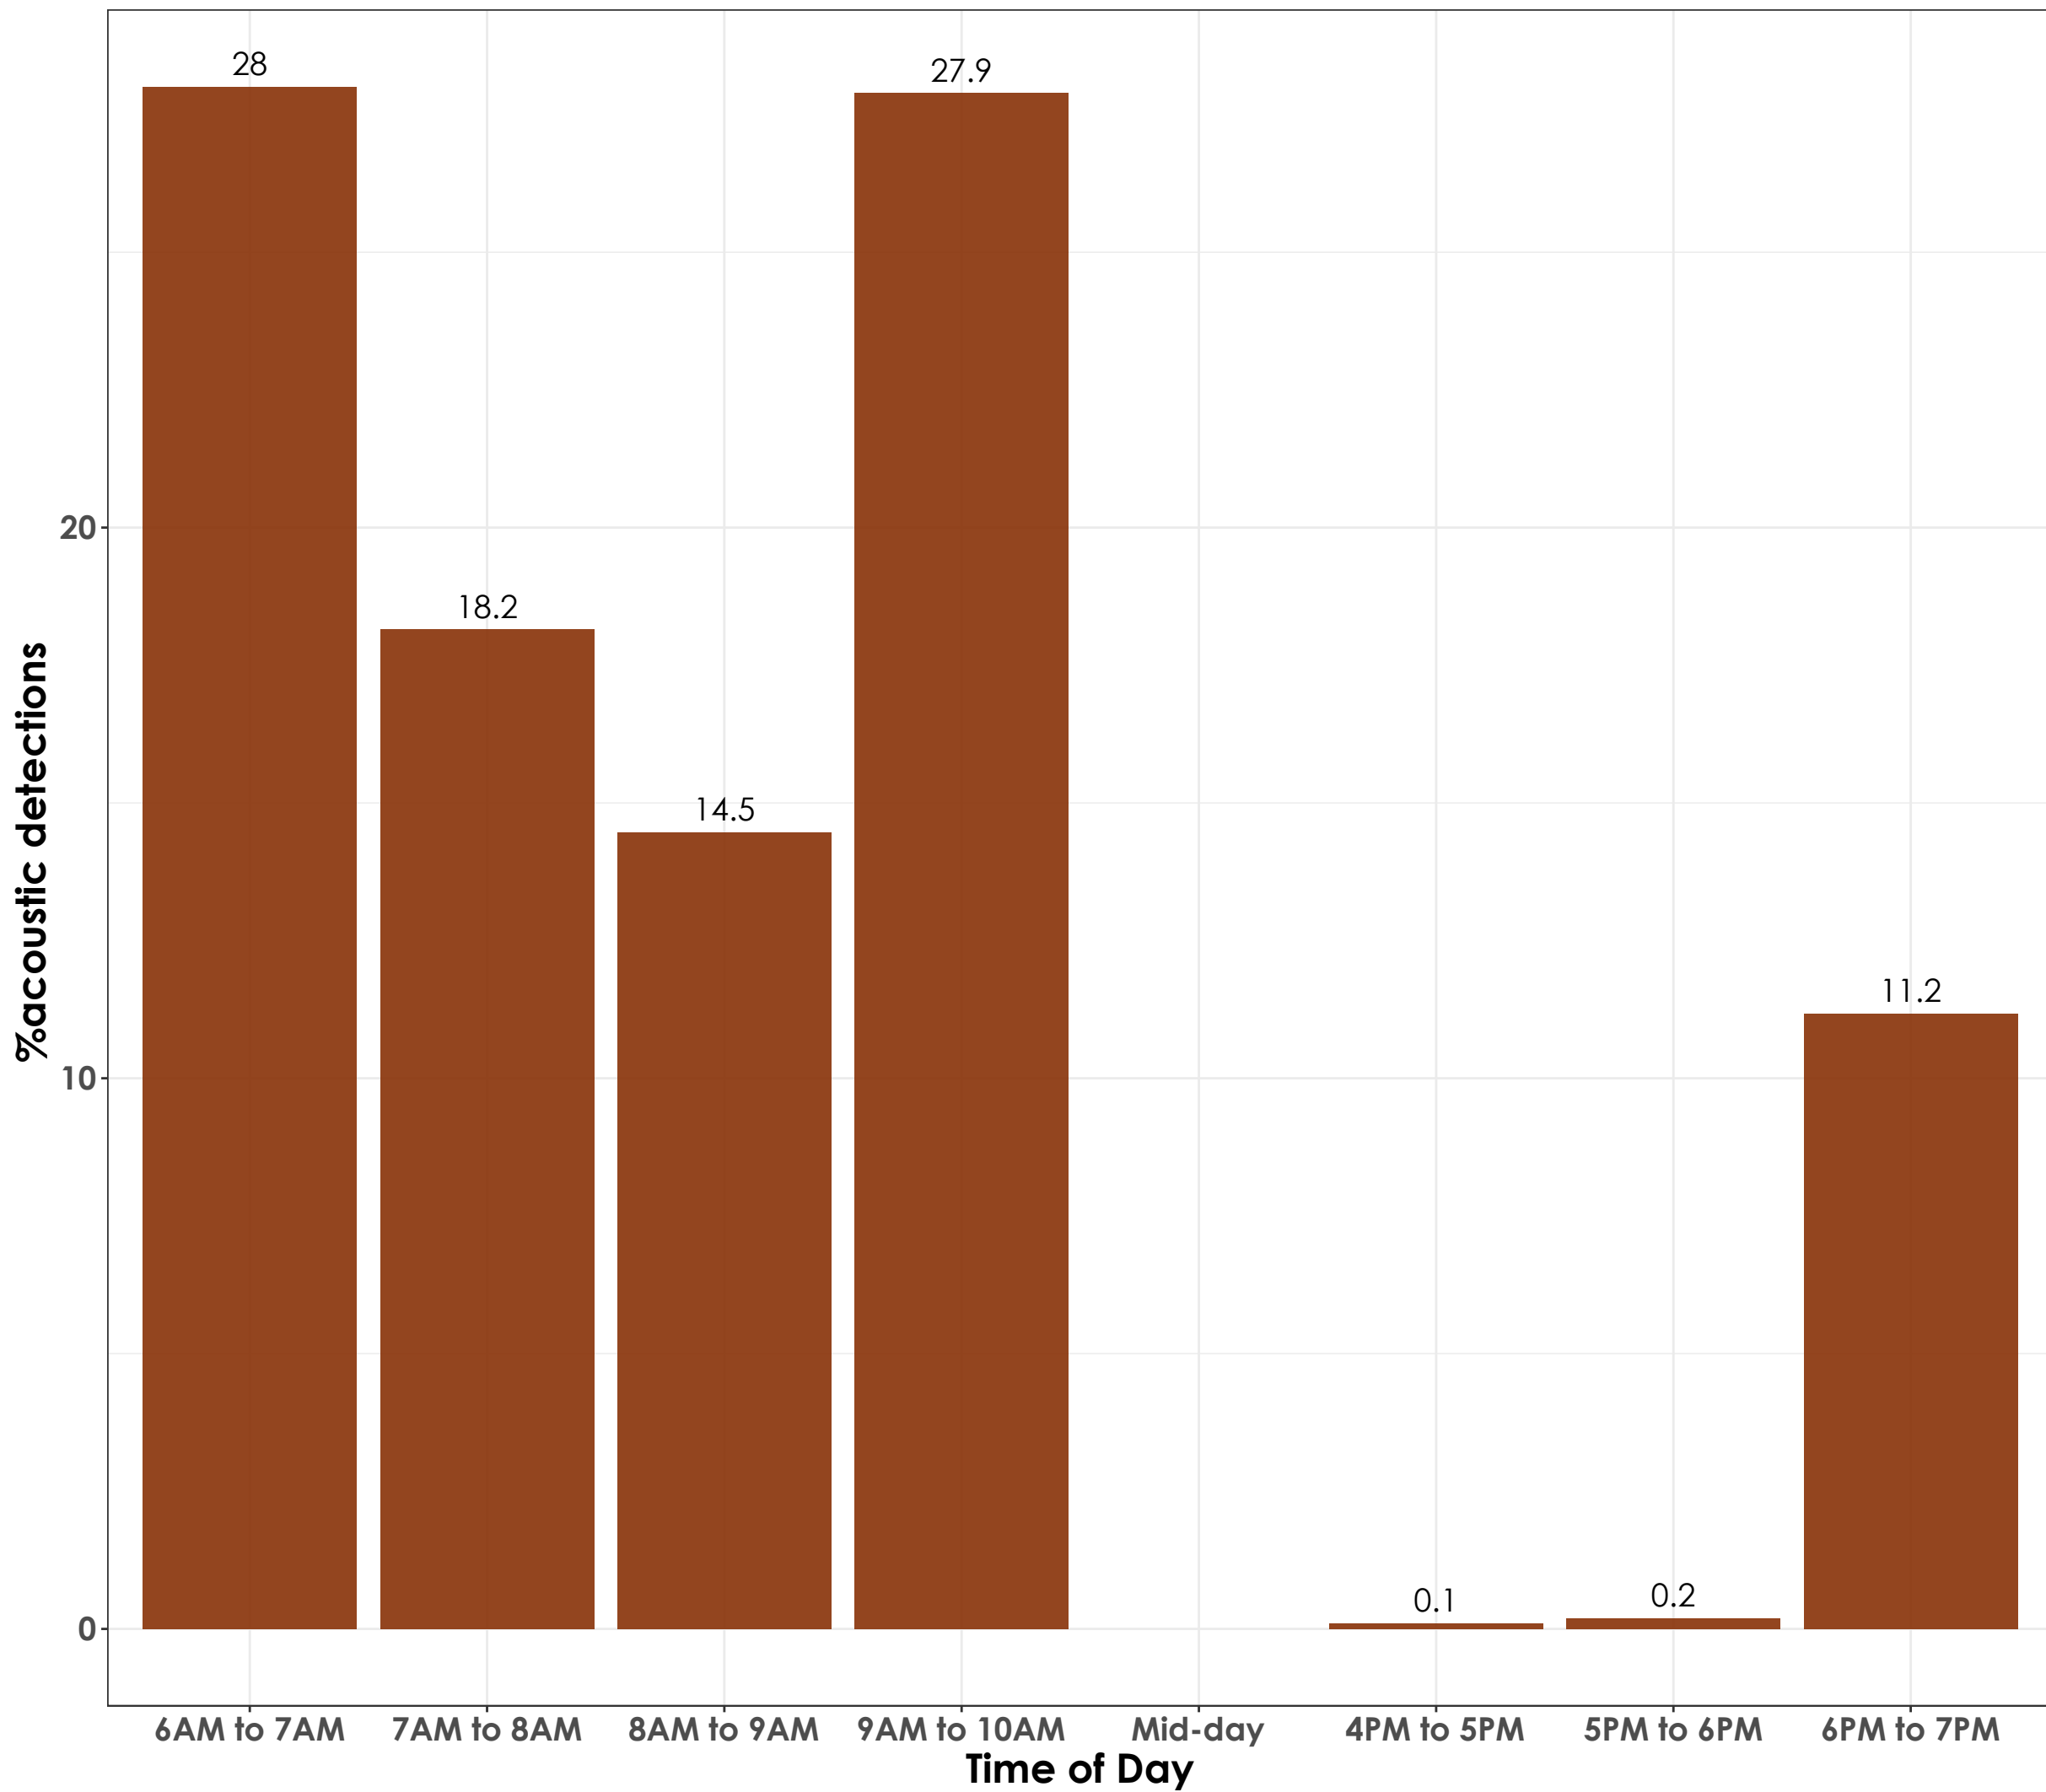

# White-cheeked Barbet

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

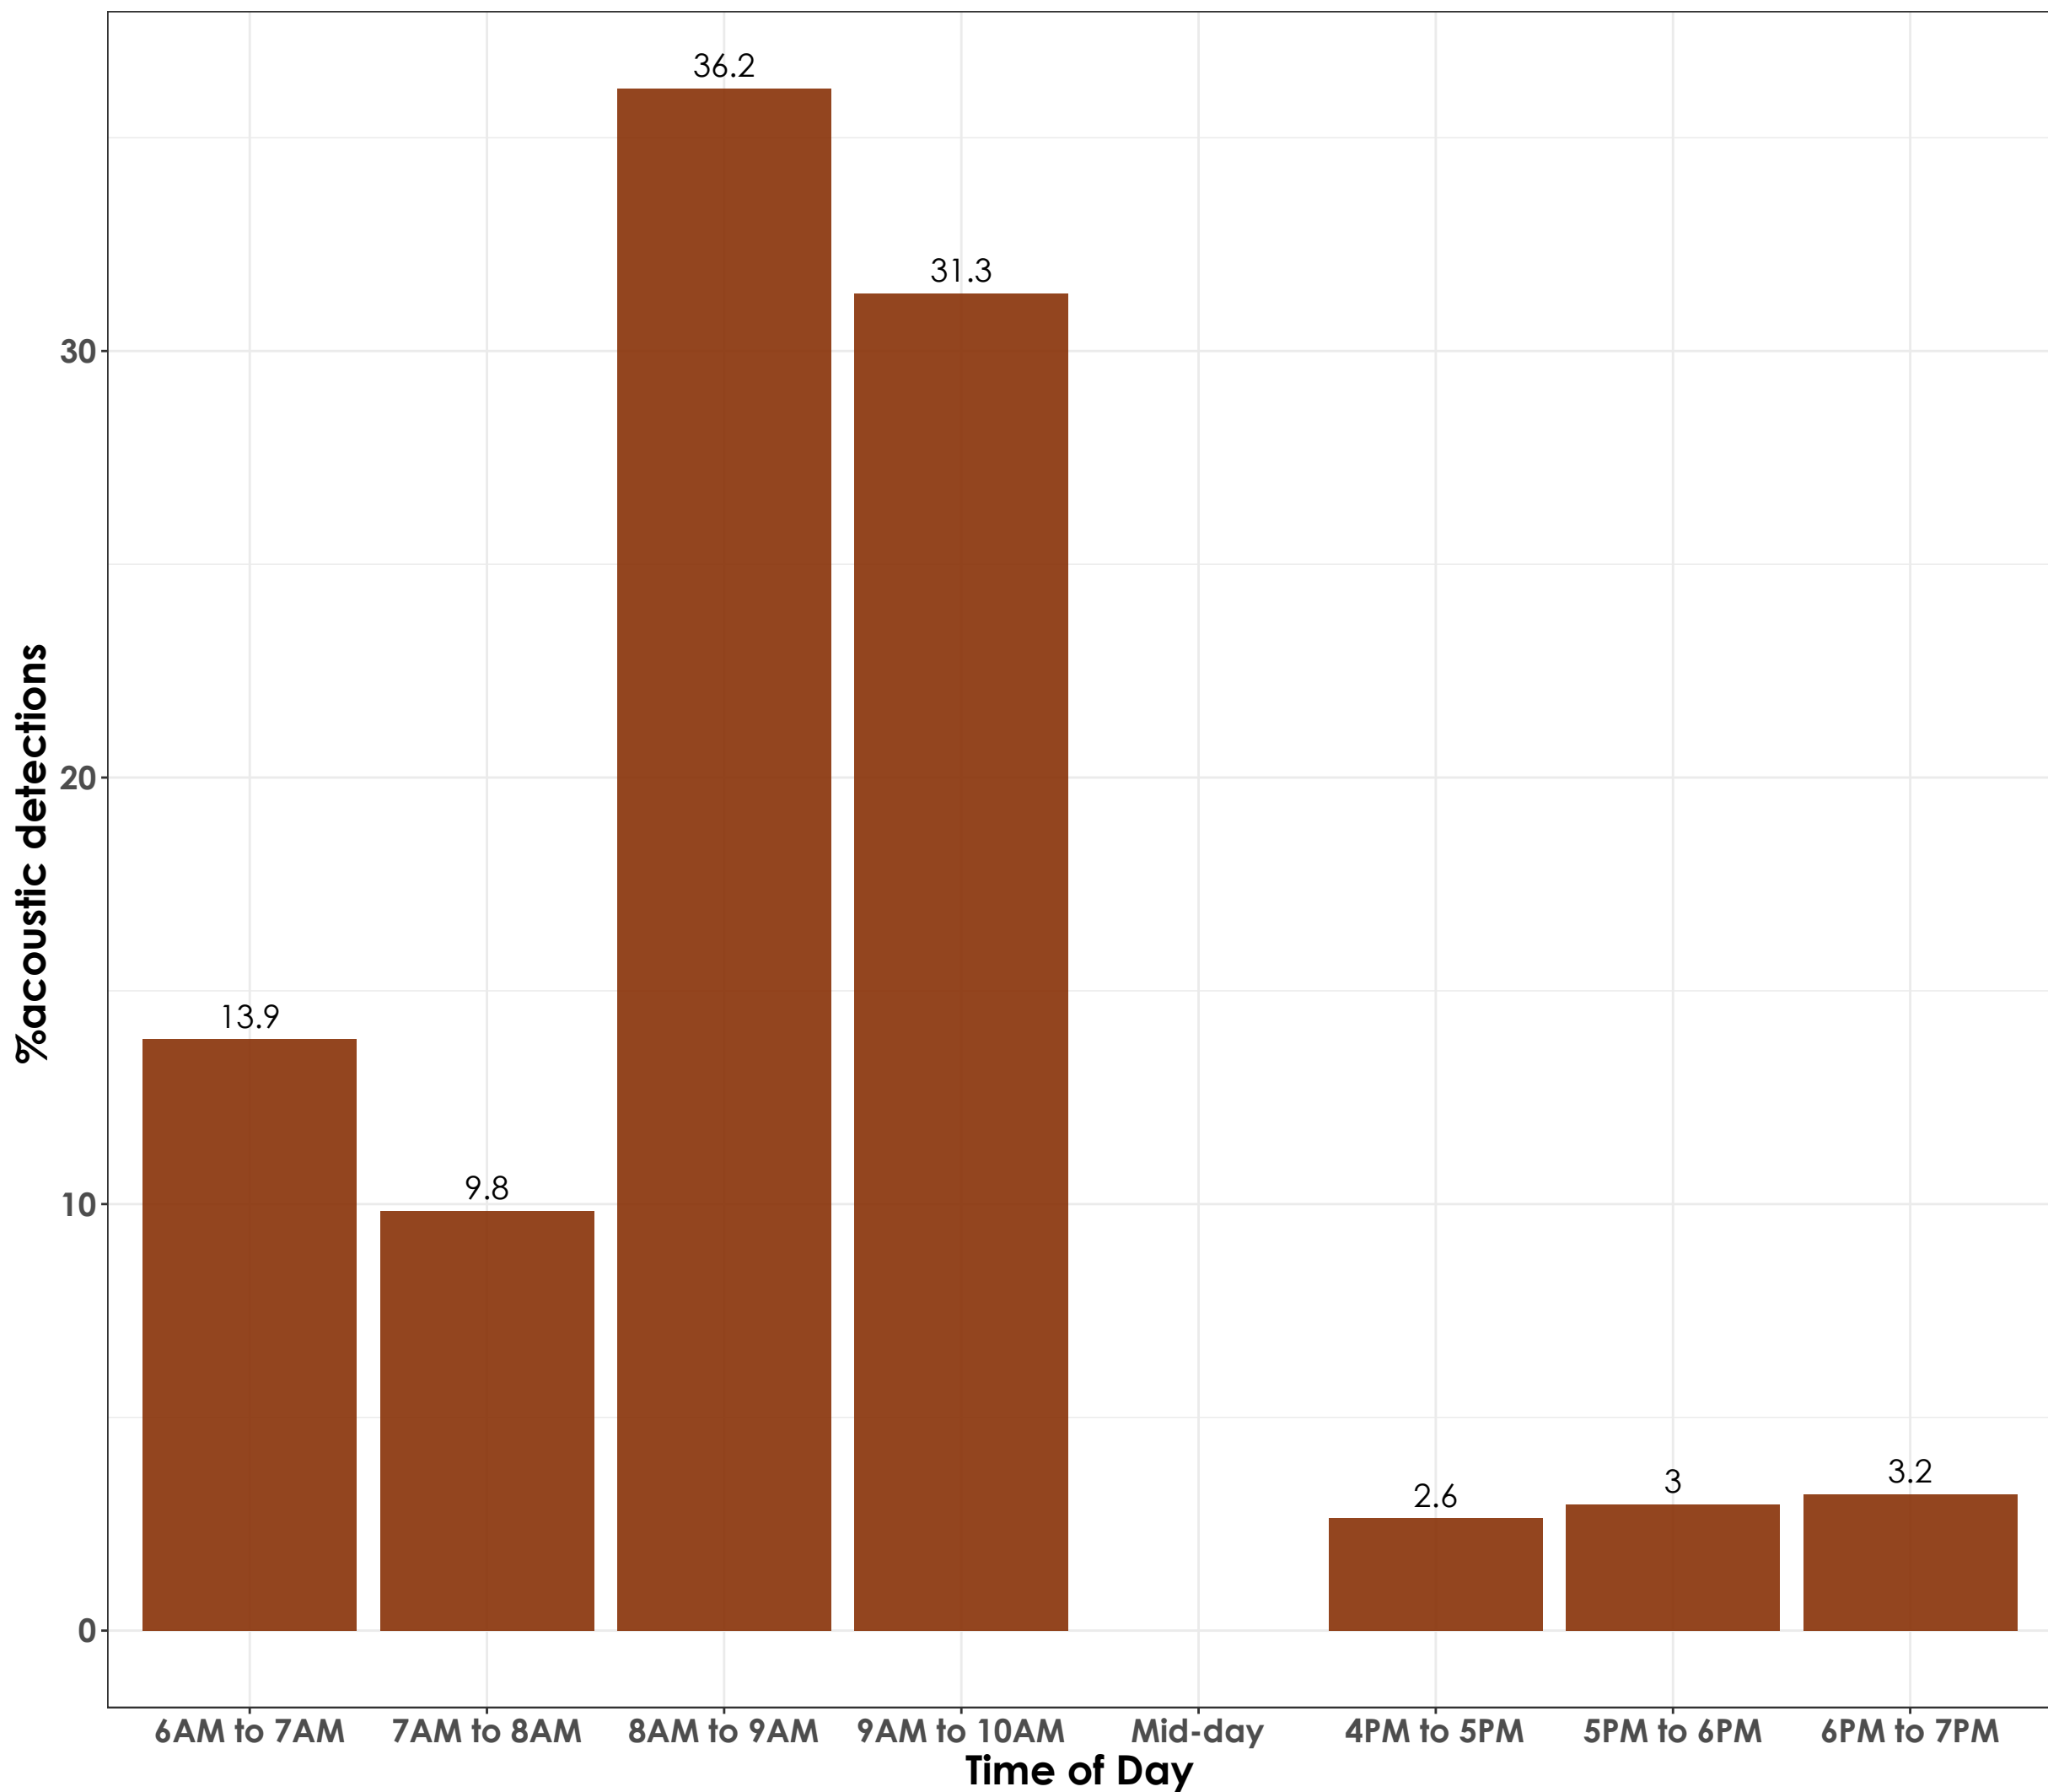

## Common Iora

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

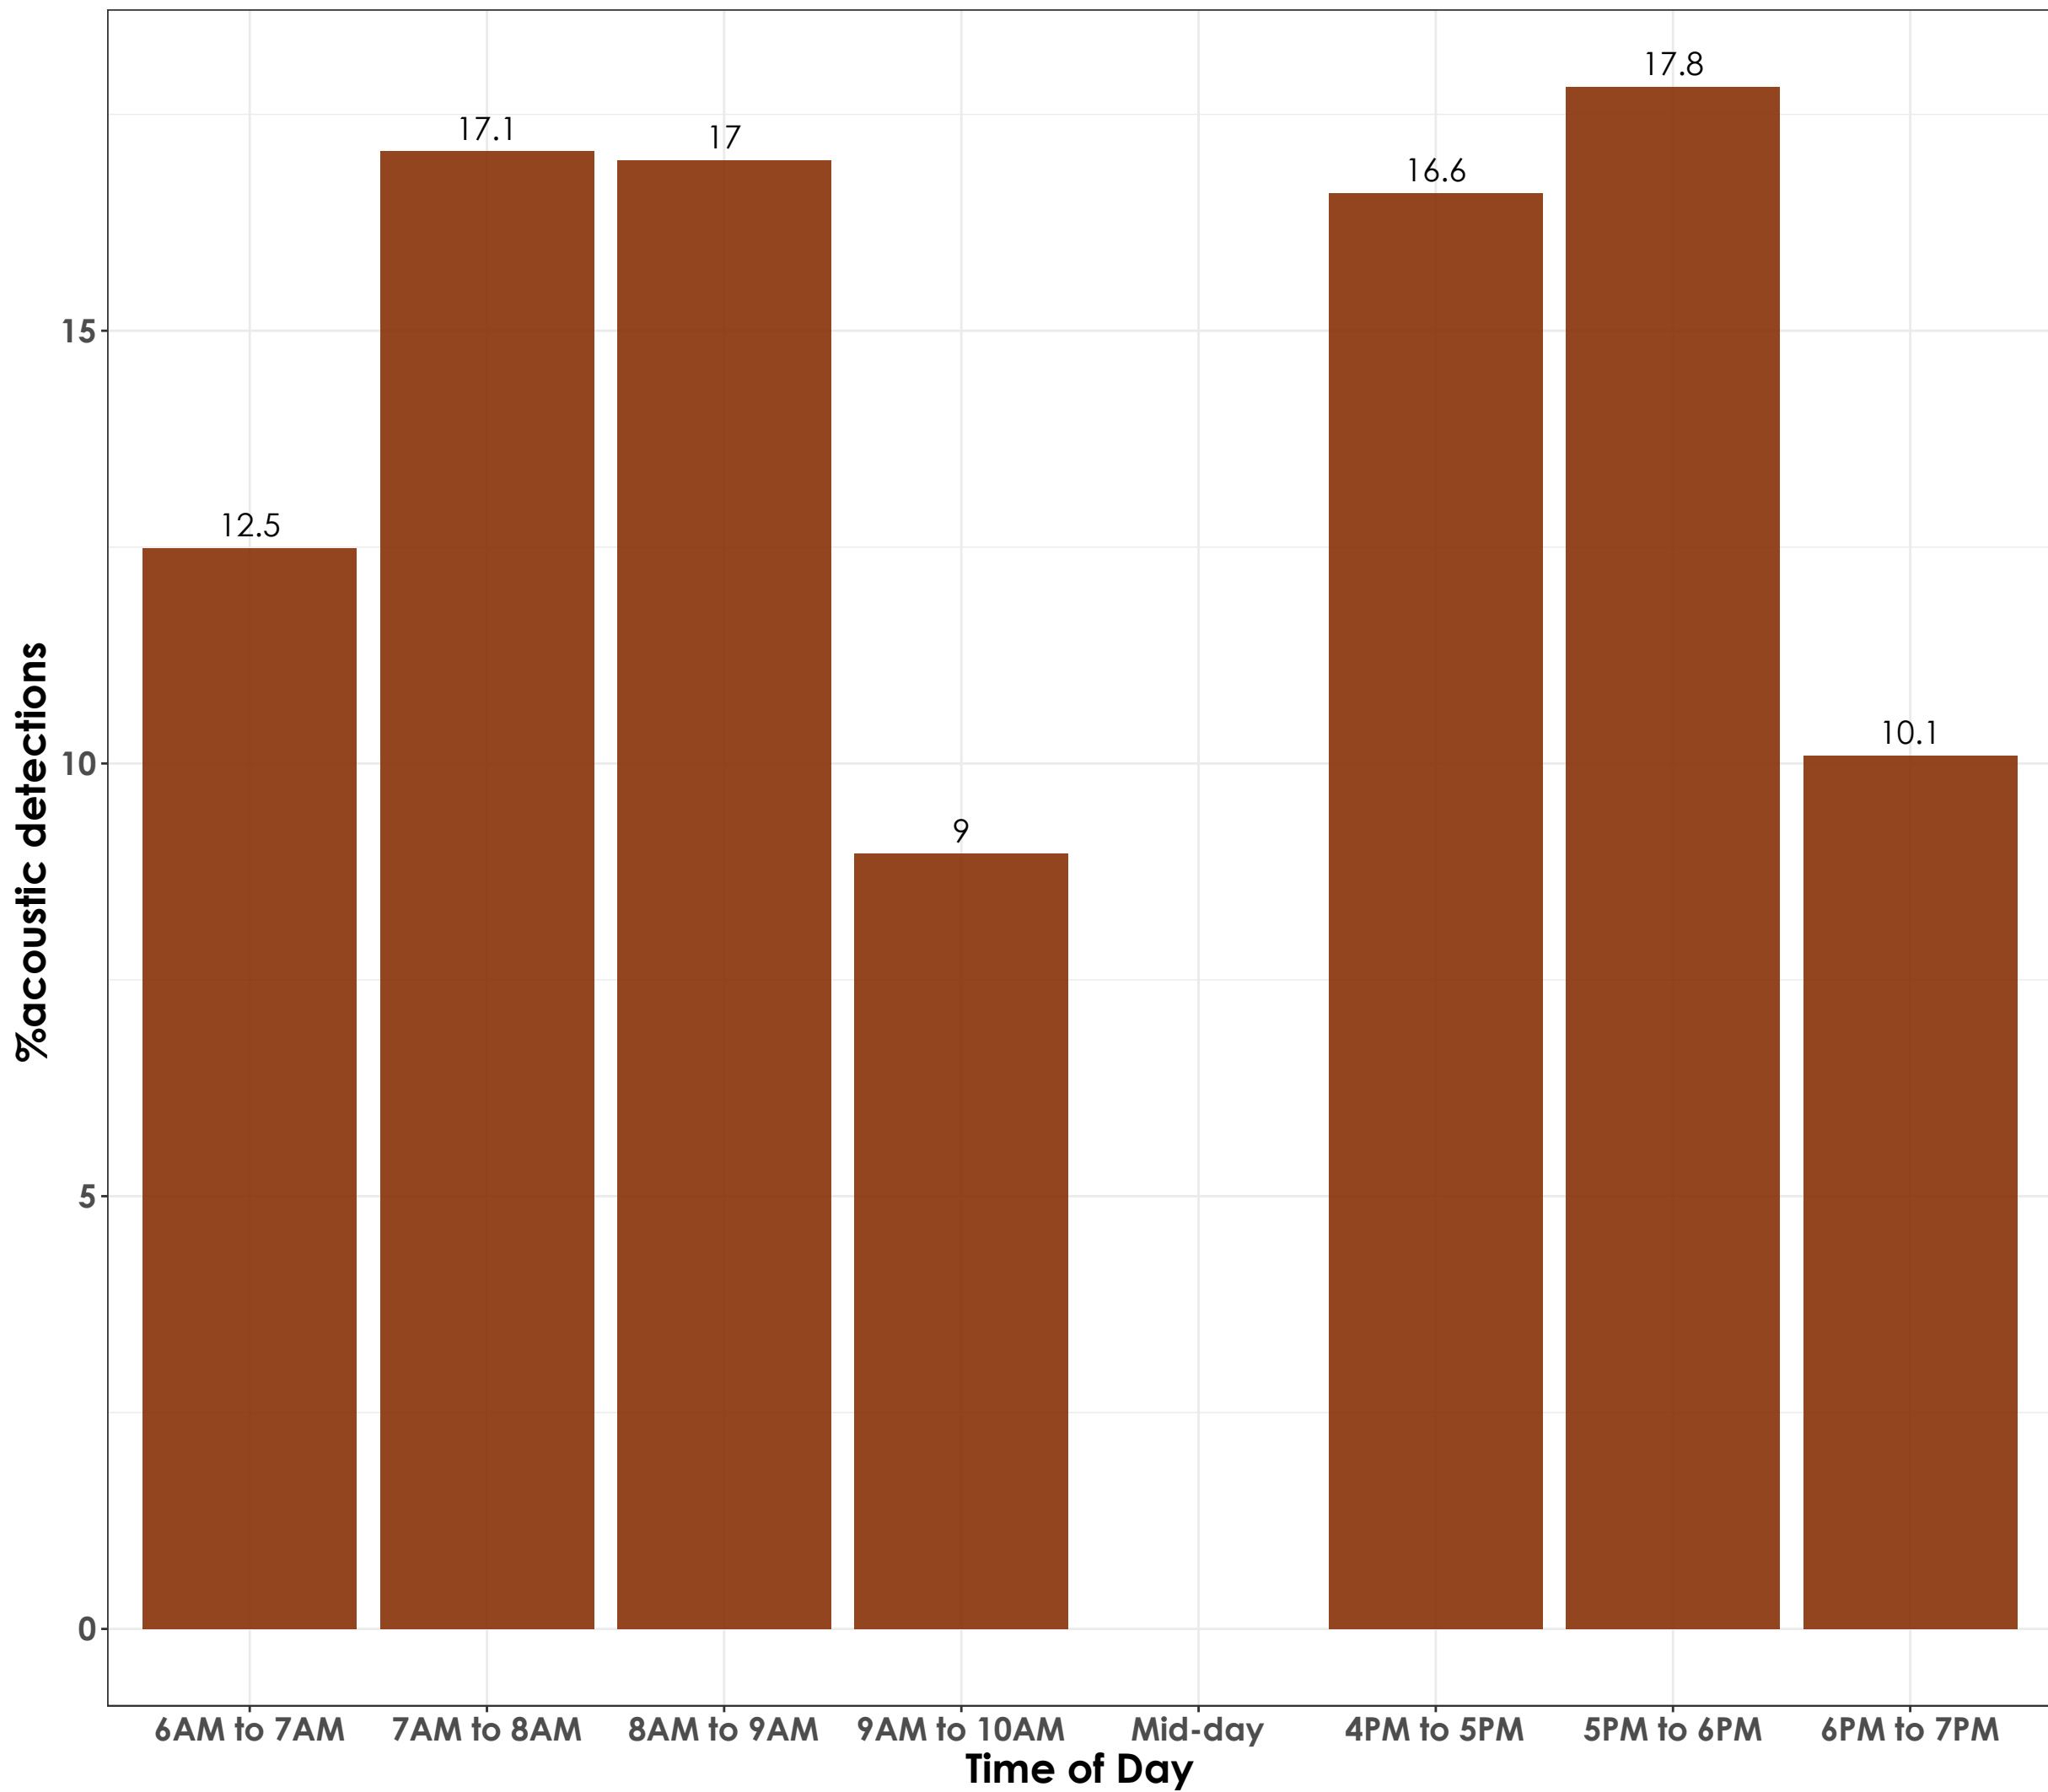

# Common Tailorbird

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

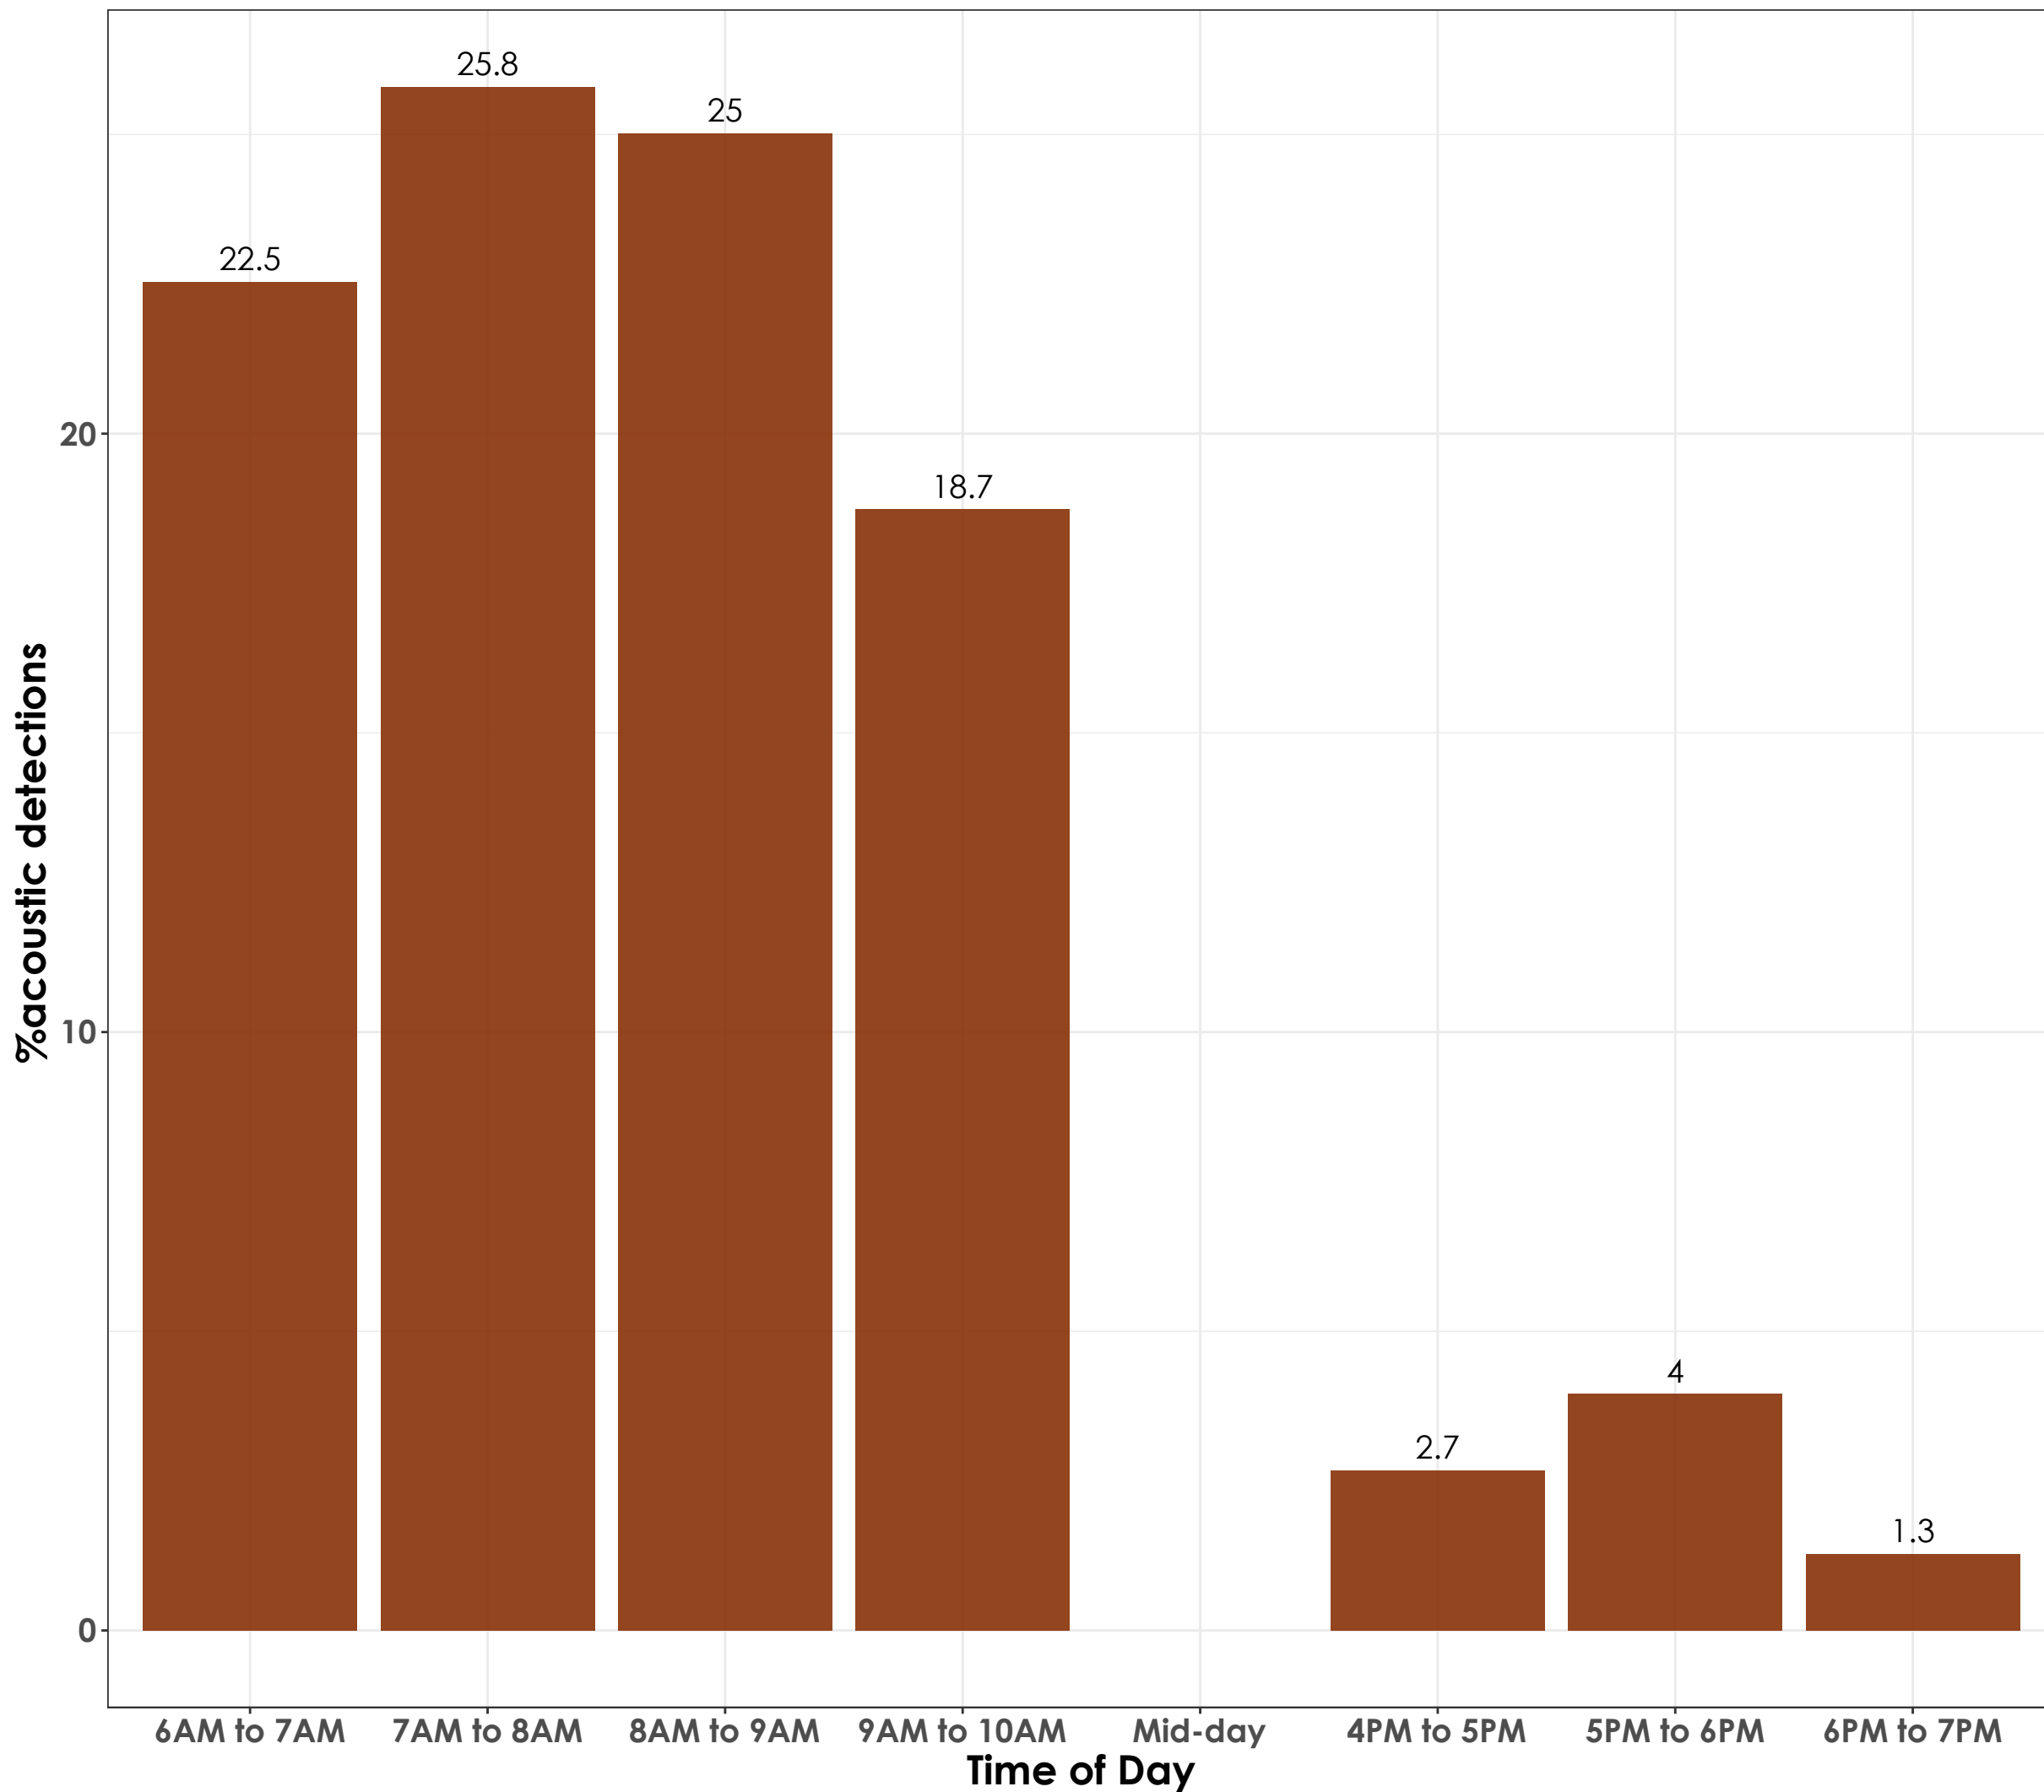

# Large-billed Crow

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Velvet-fronted Nuthatch

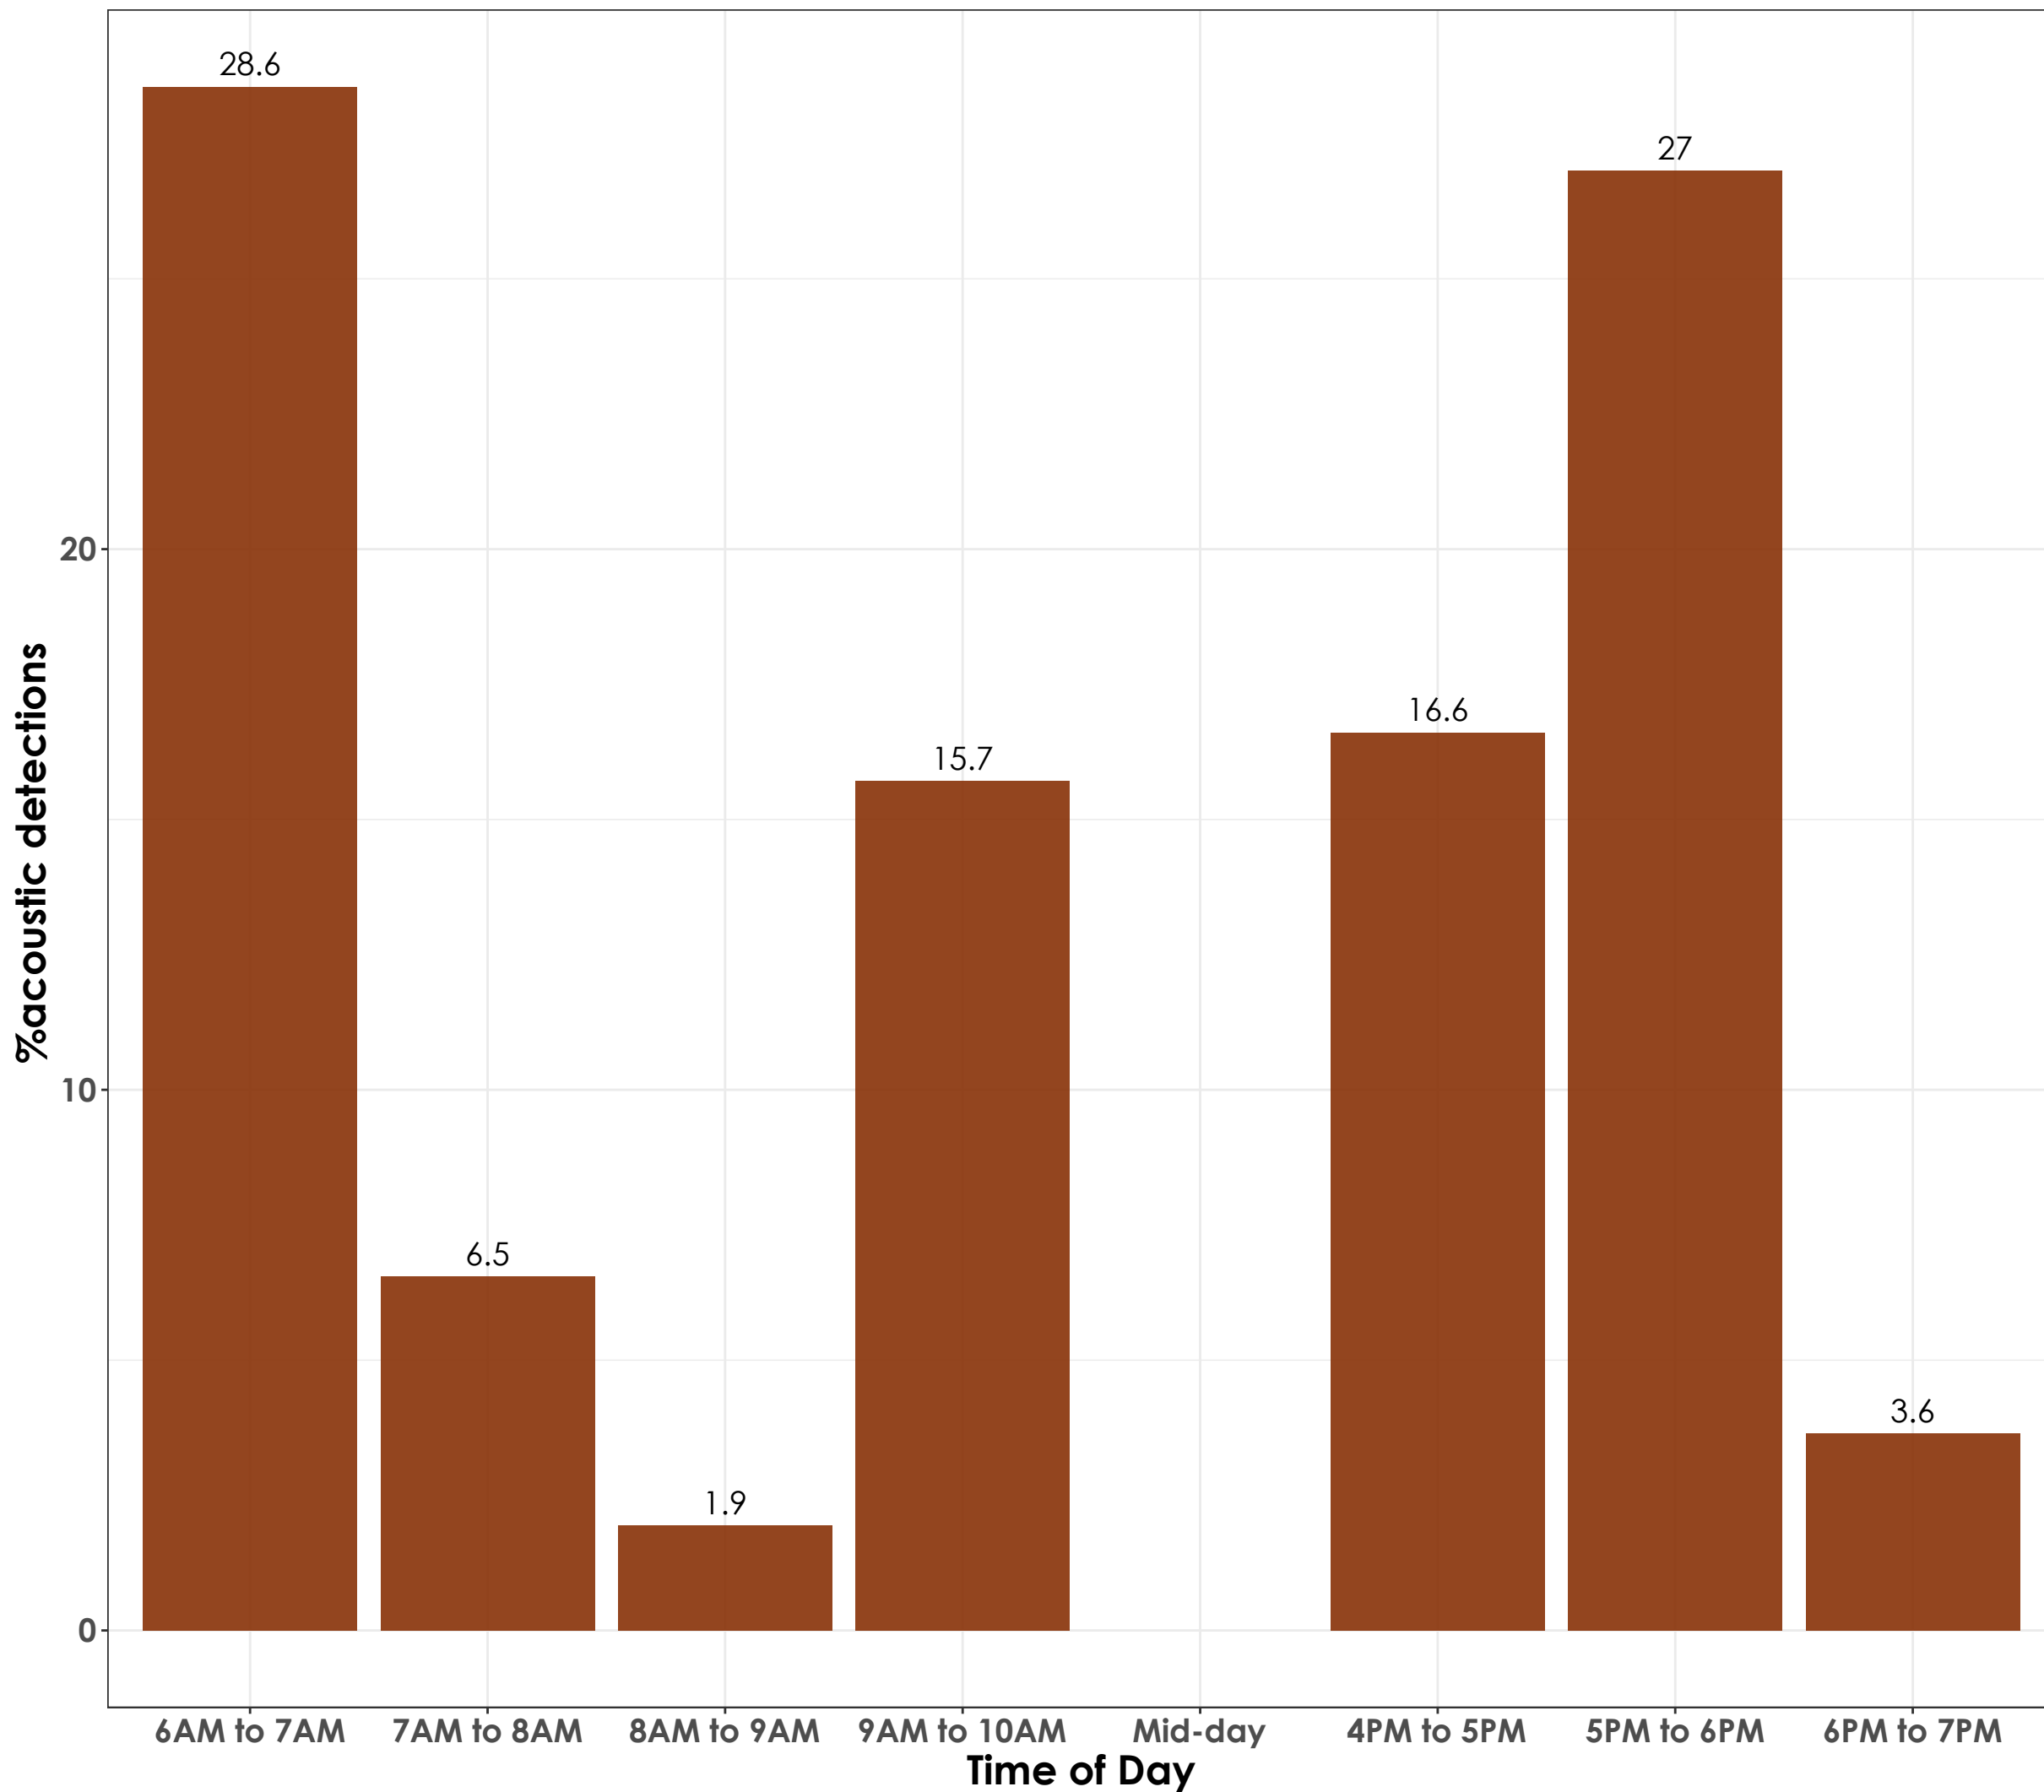

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

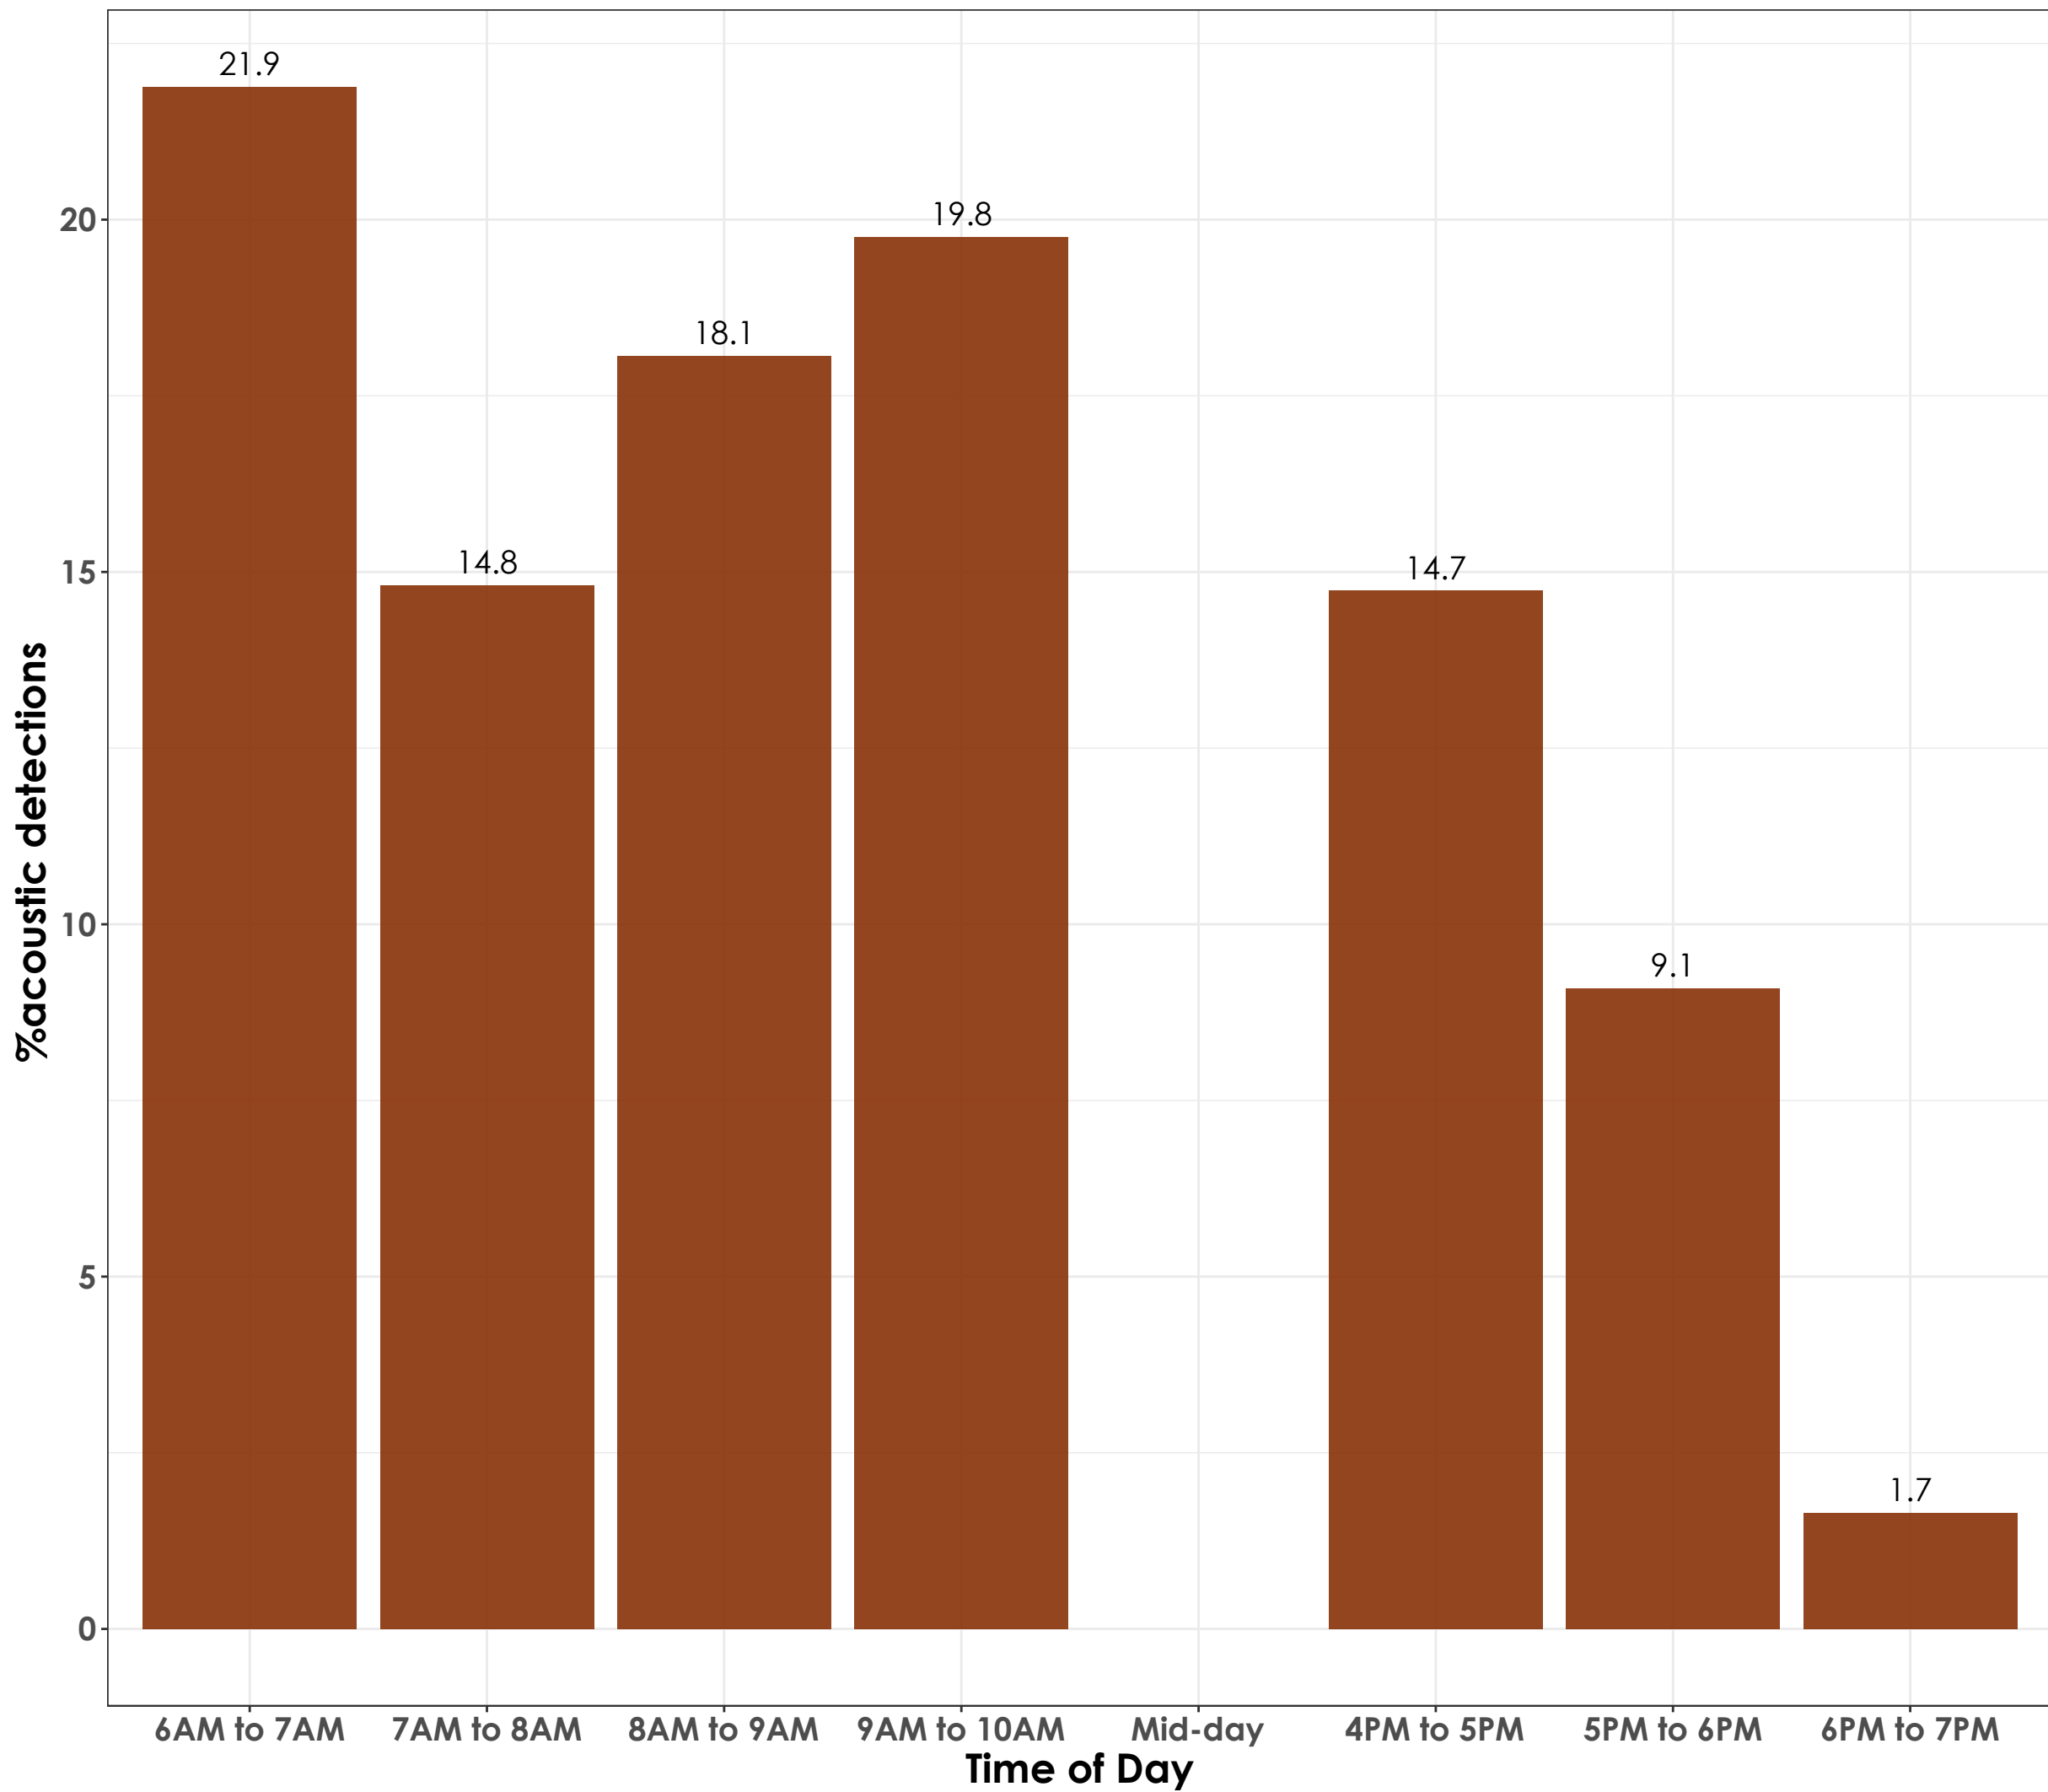

# White-bellied Treepie

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

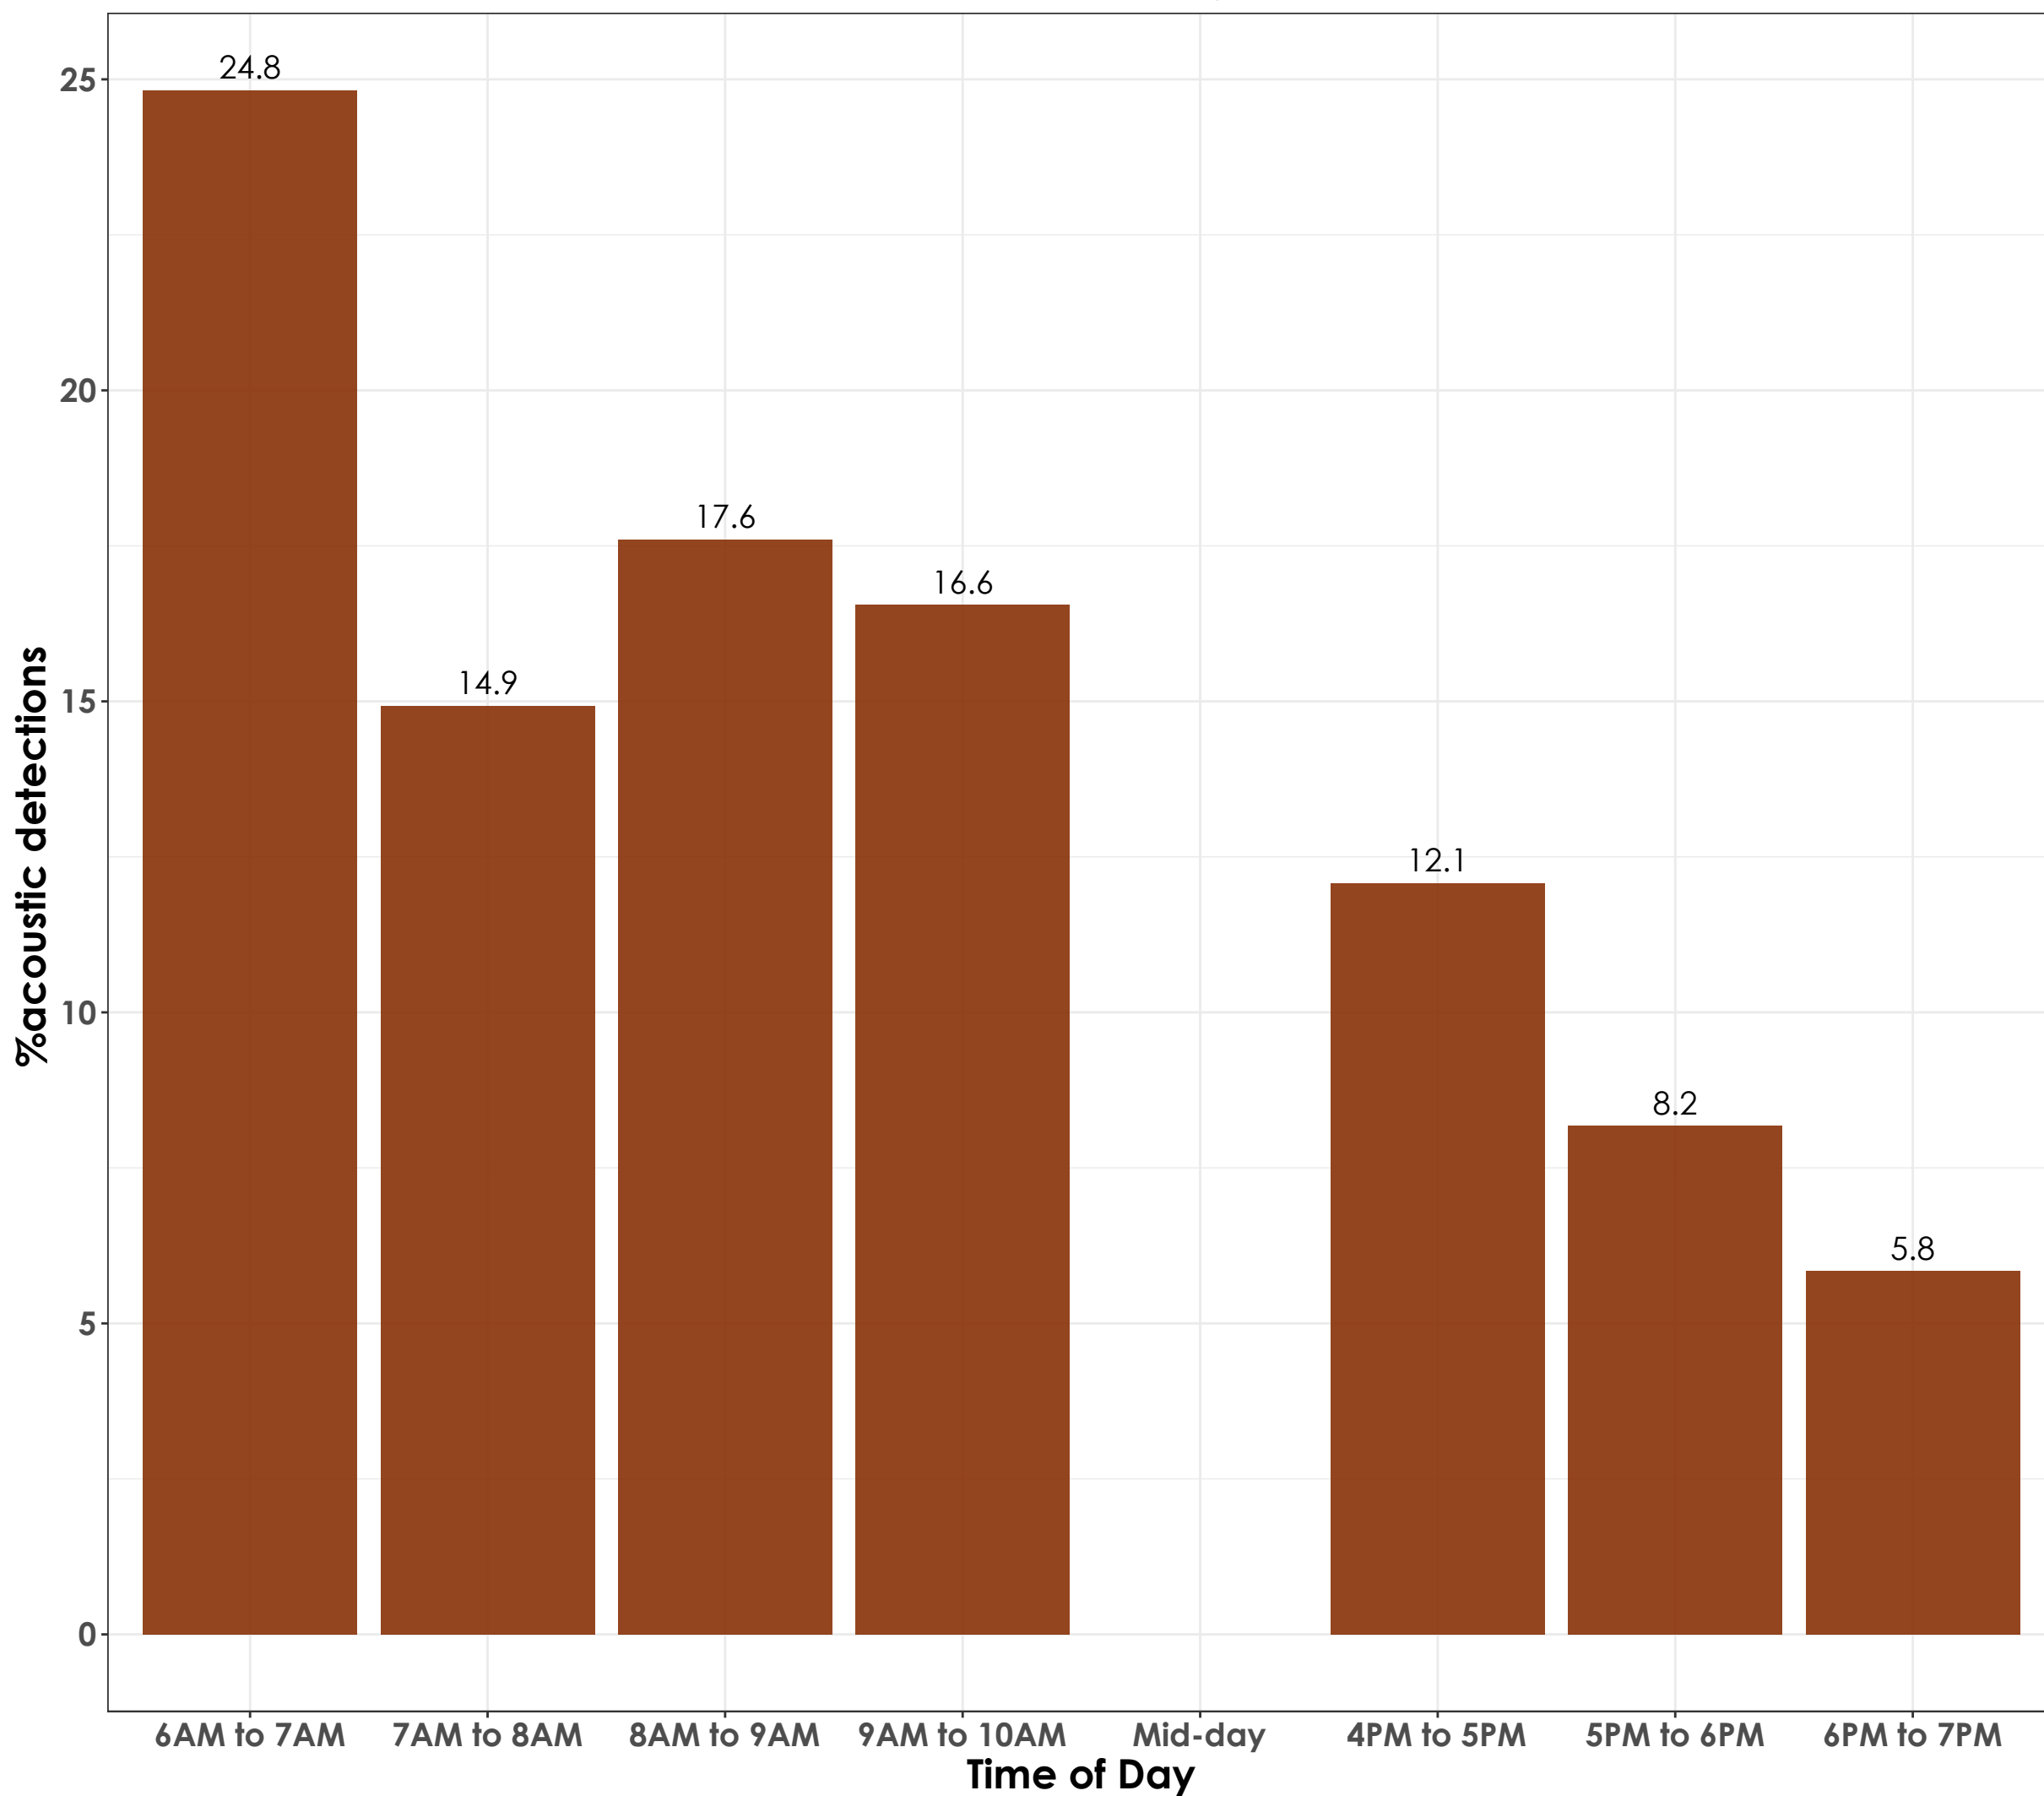

# Yellow-browed Bulbul

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

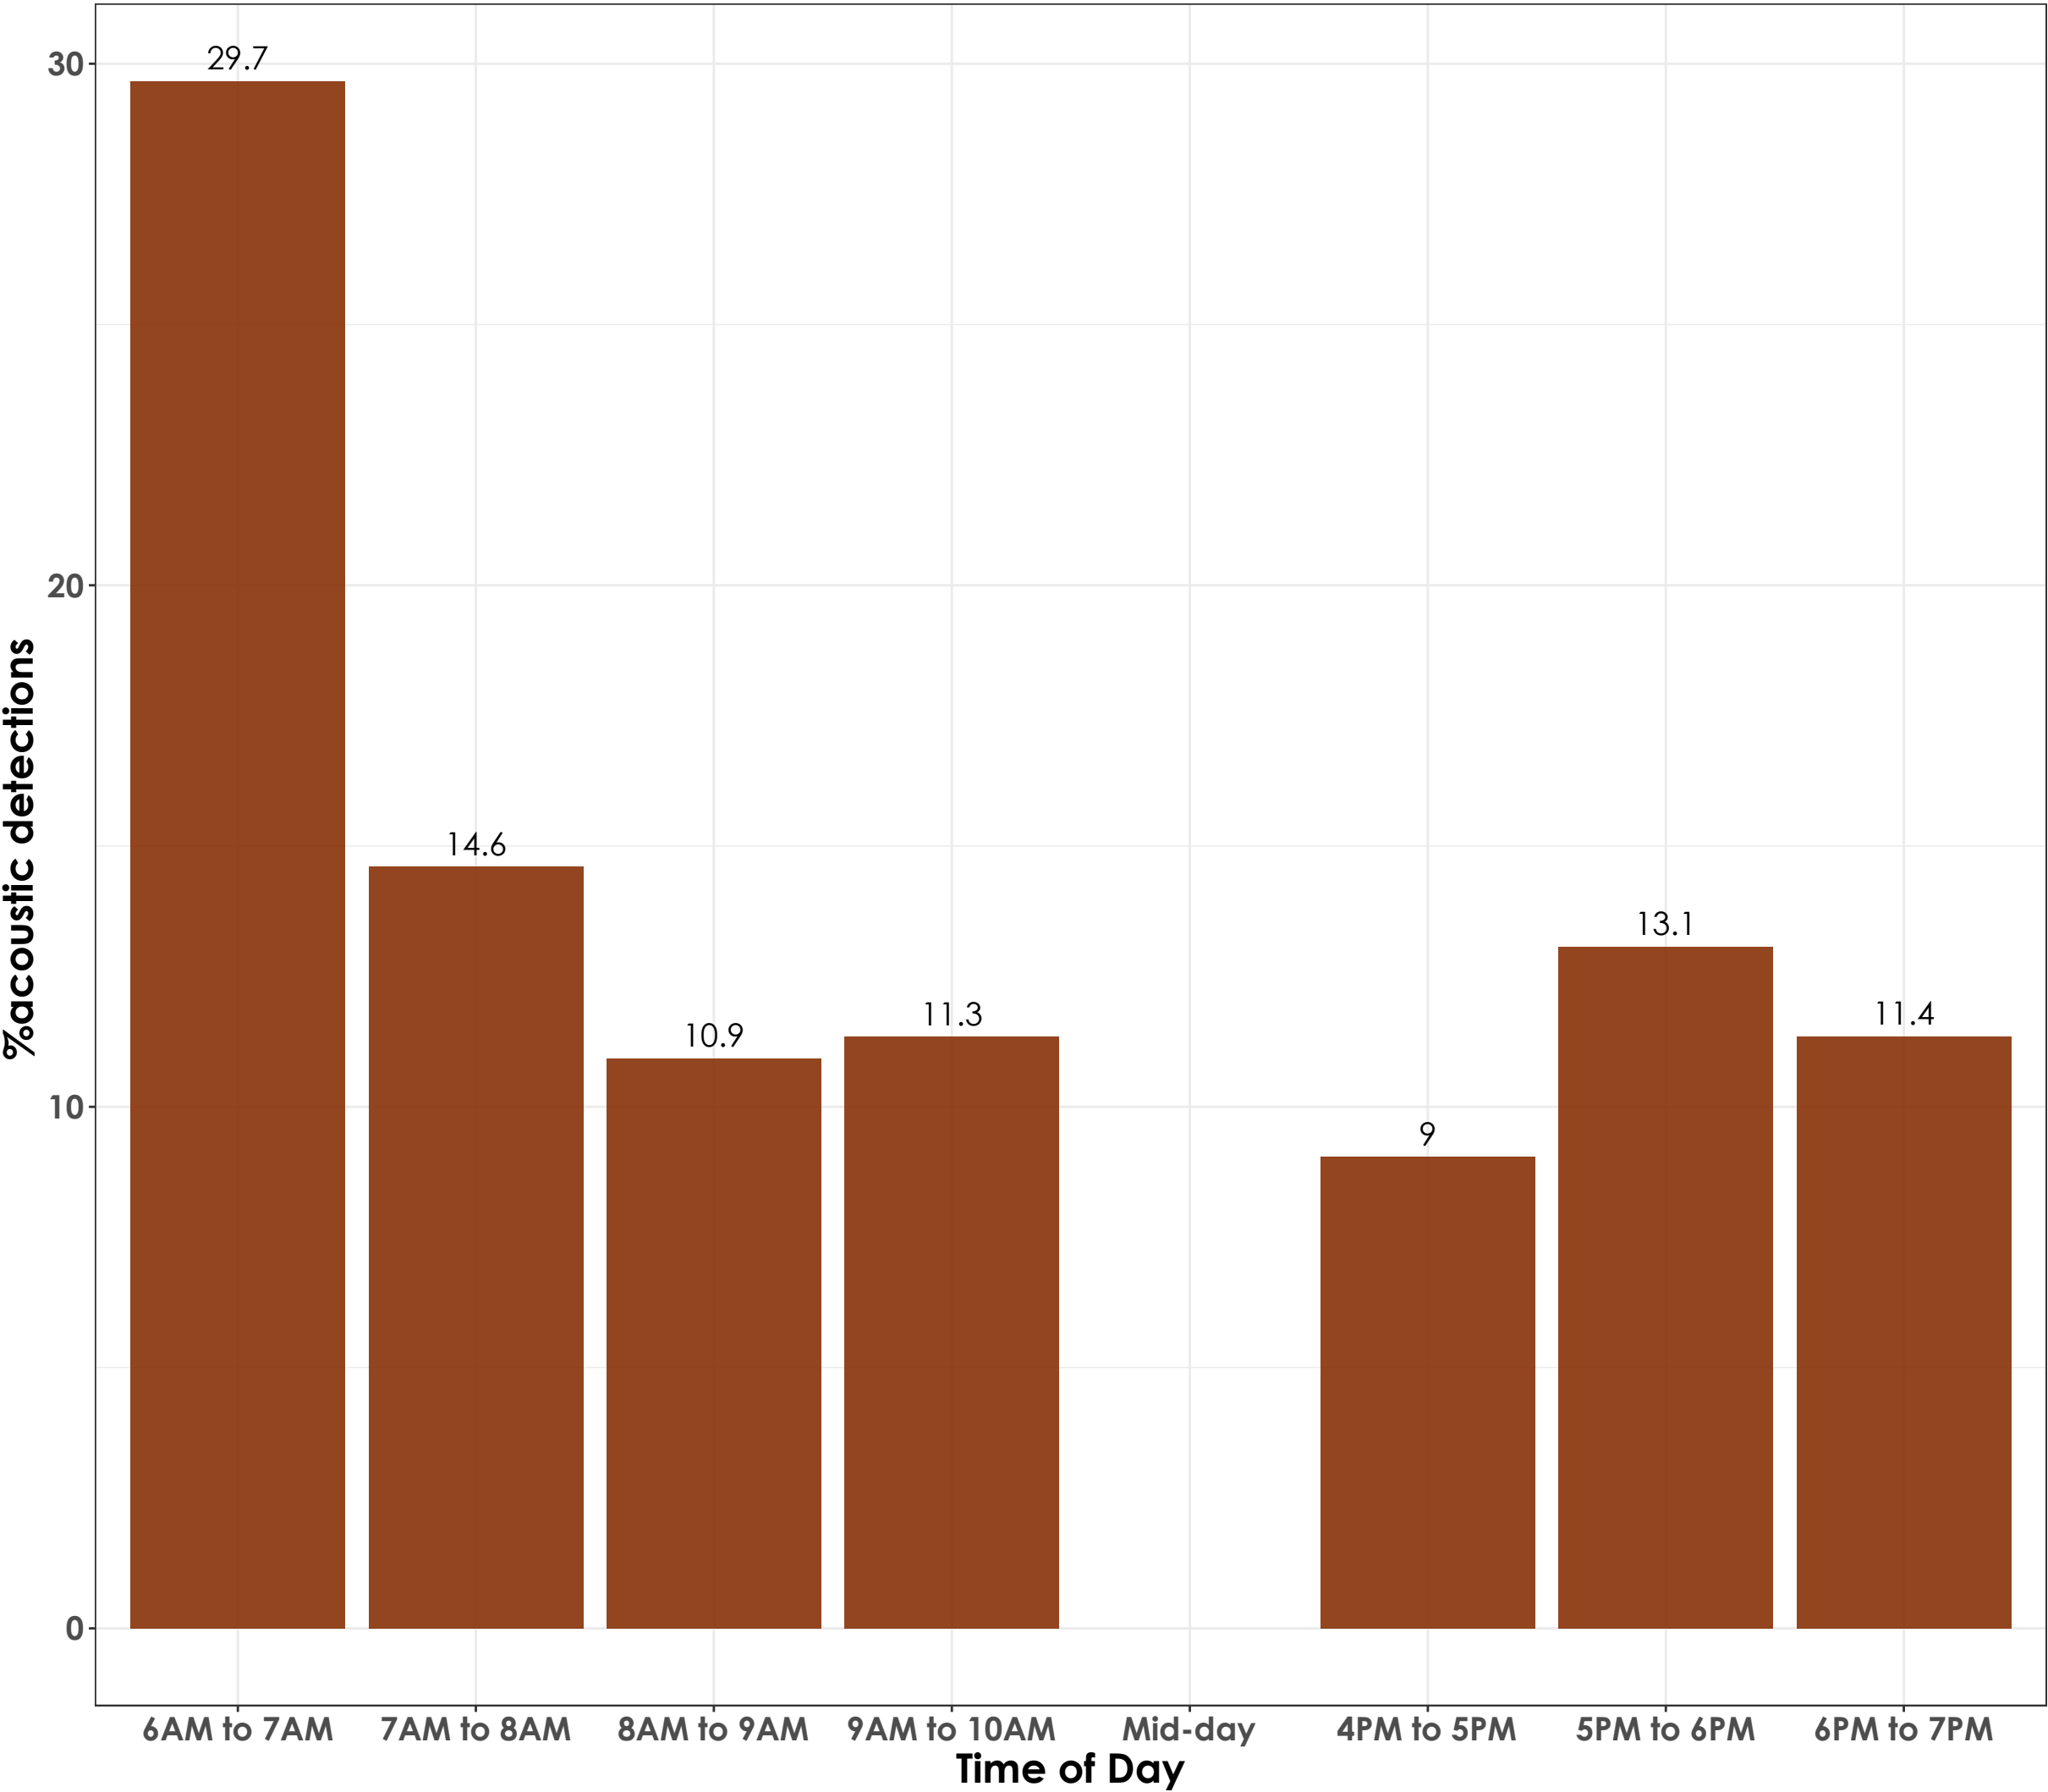

# Indian White-eye

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

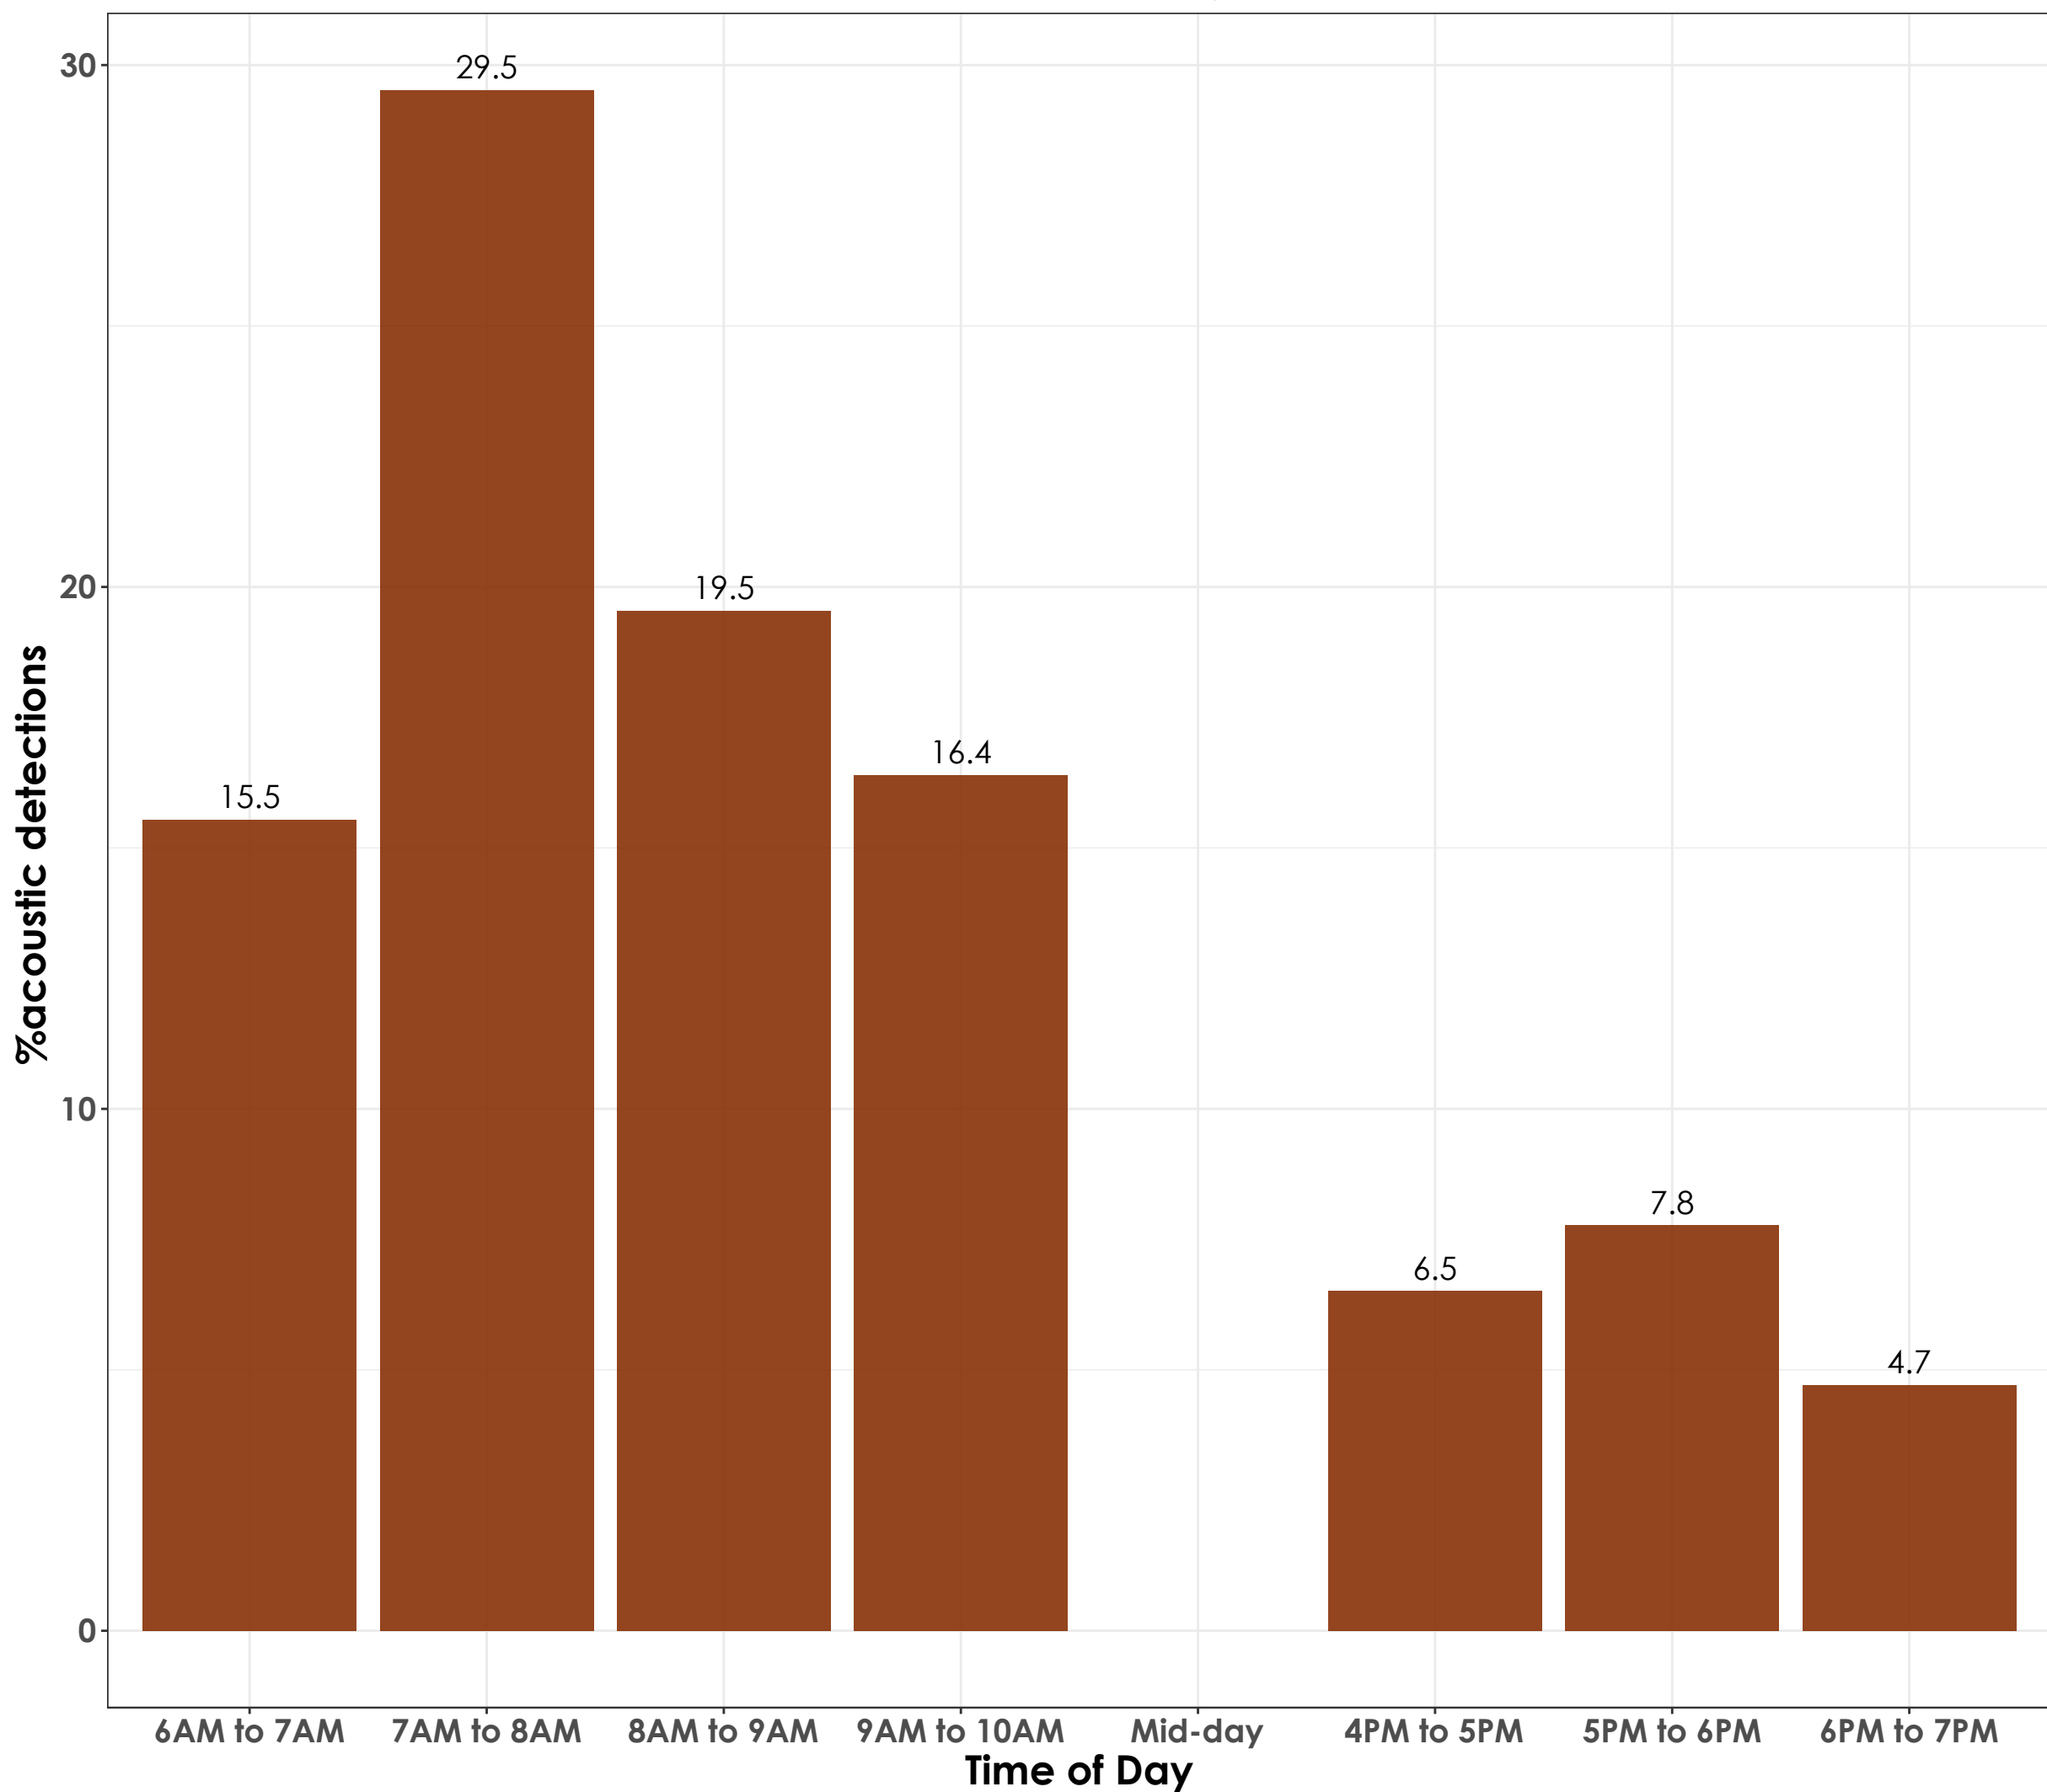

# Malabar Whistling-Thrush

Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk

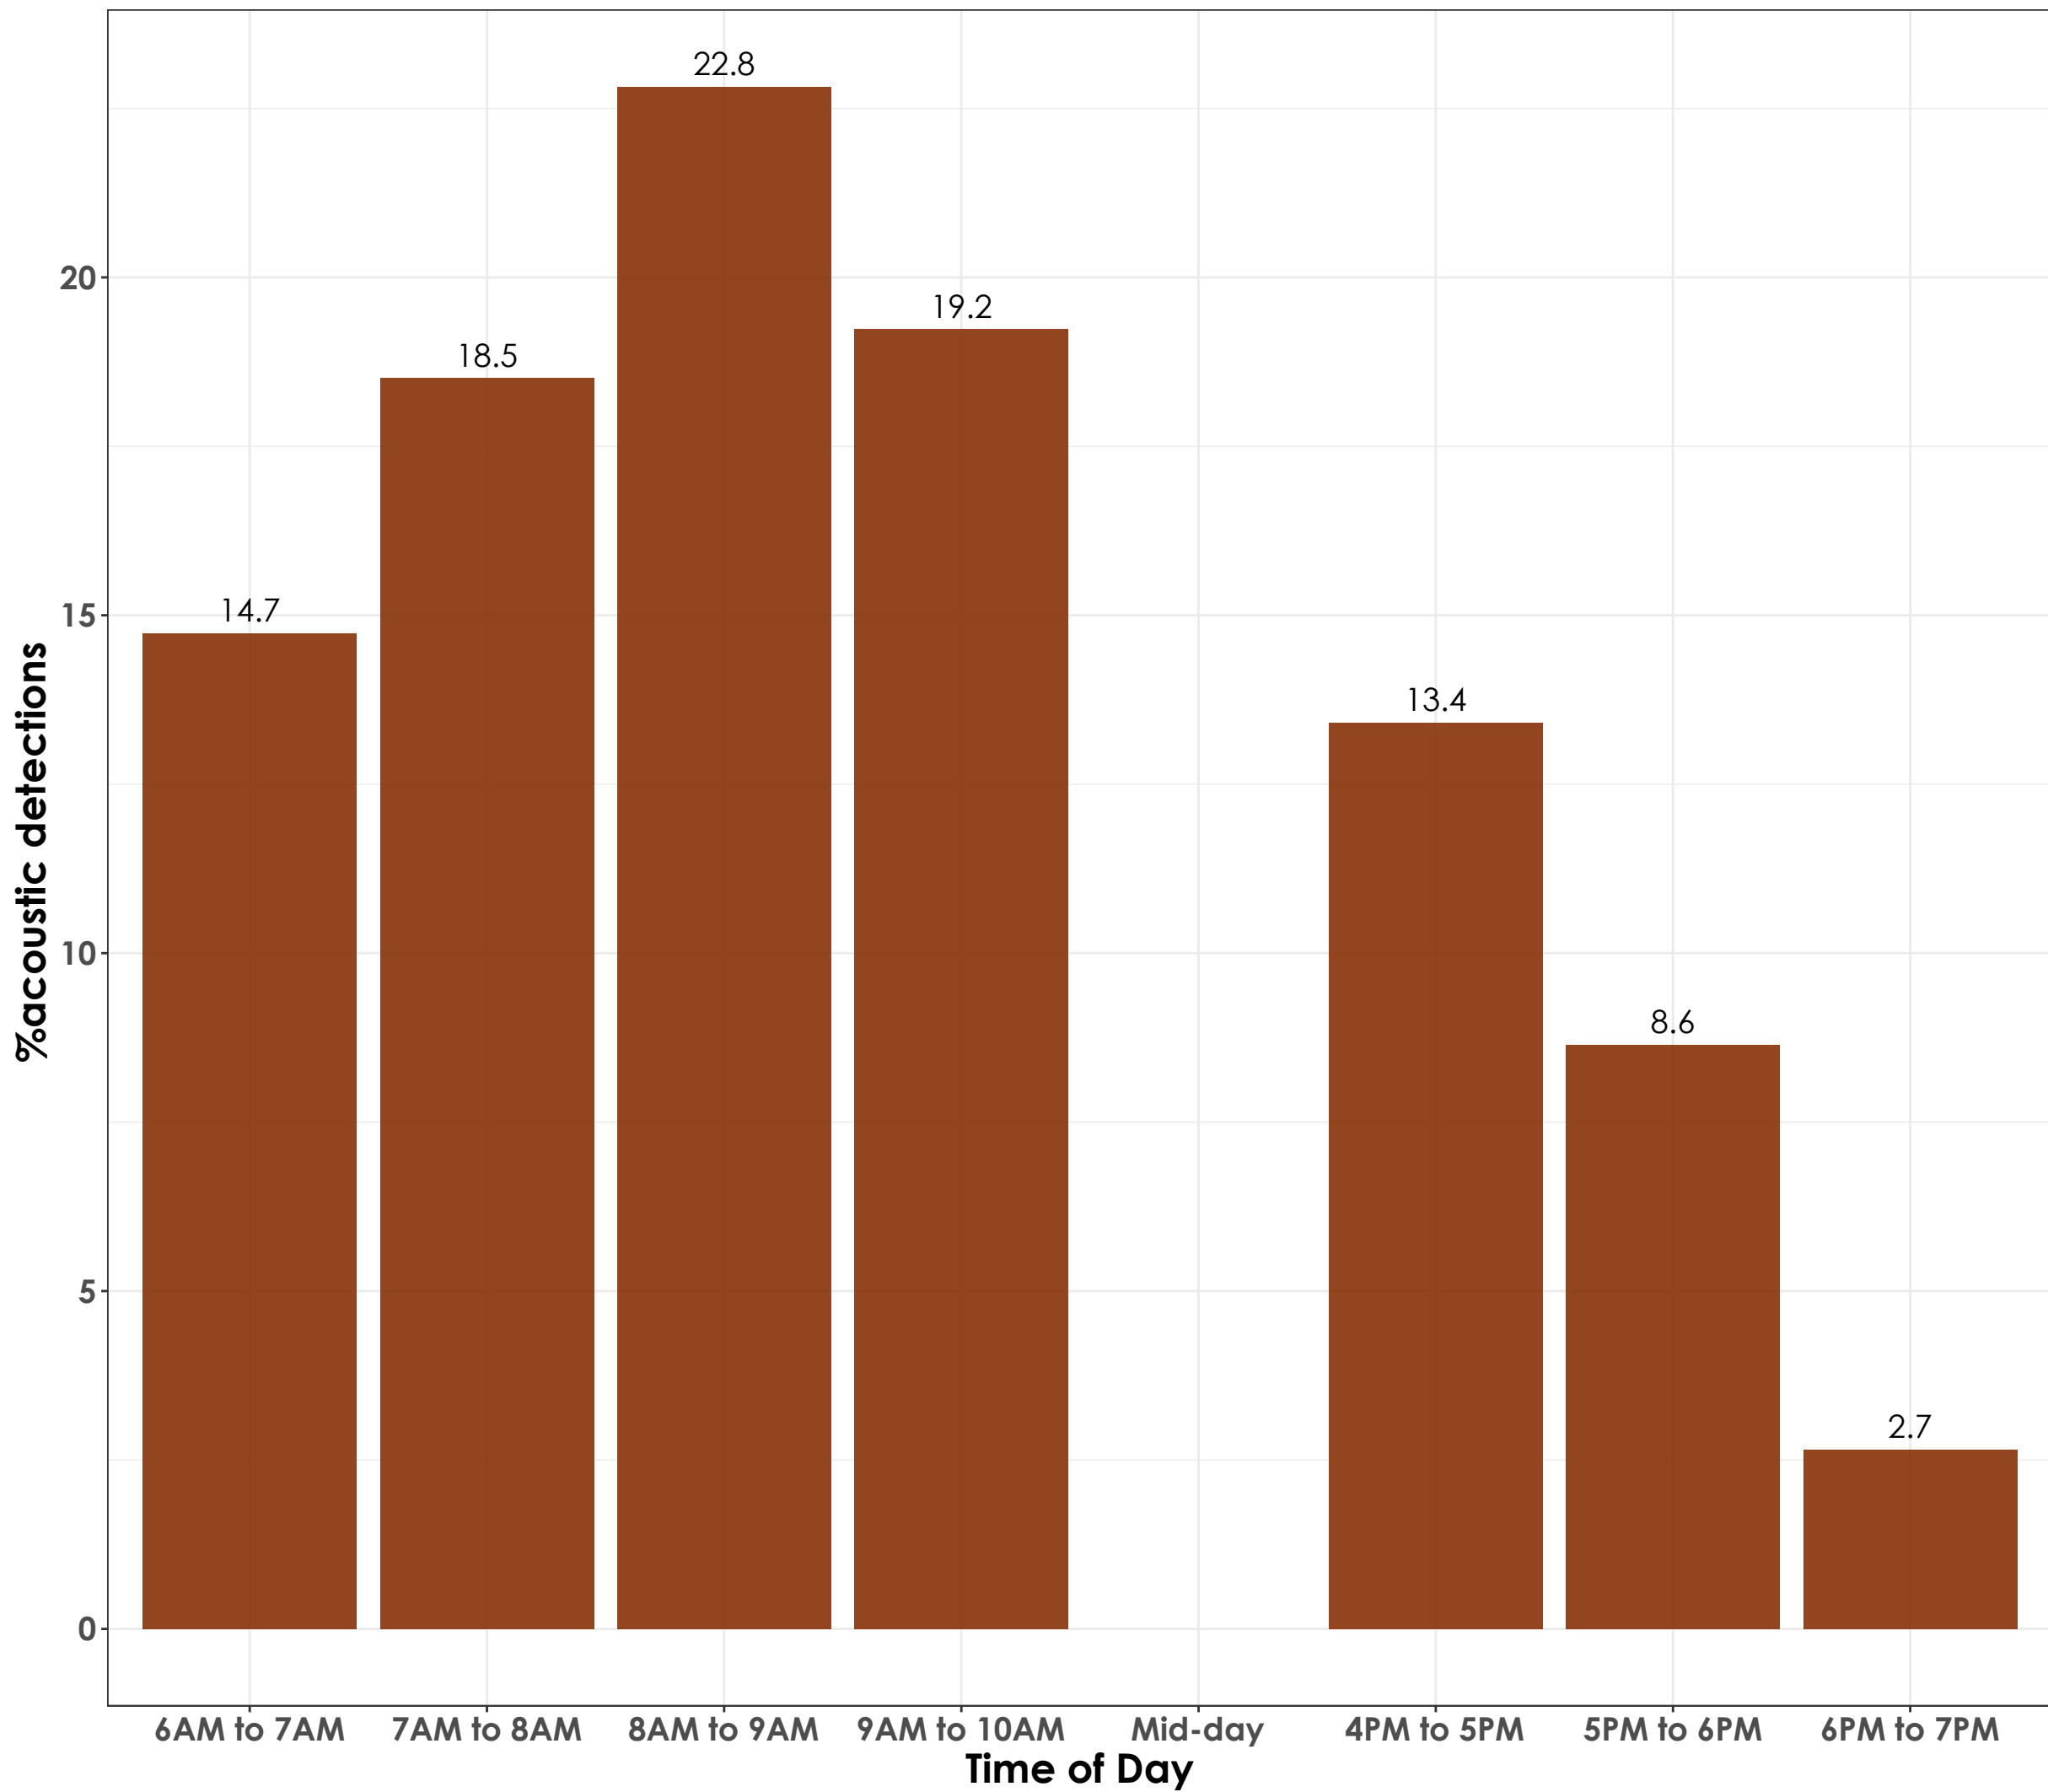

# Orange-headed Thrush

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

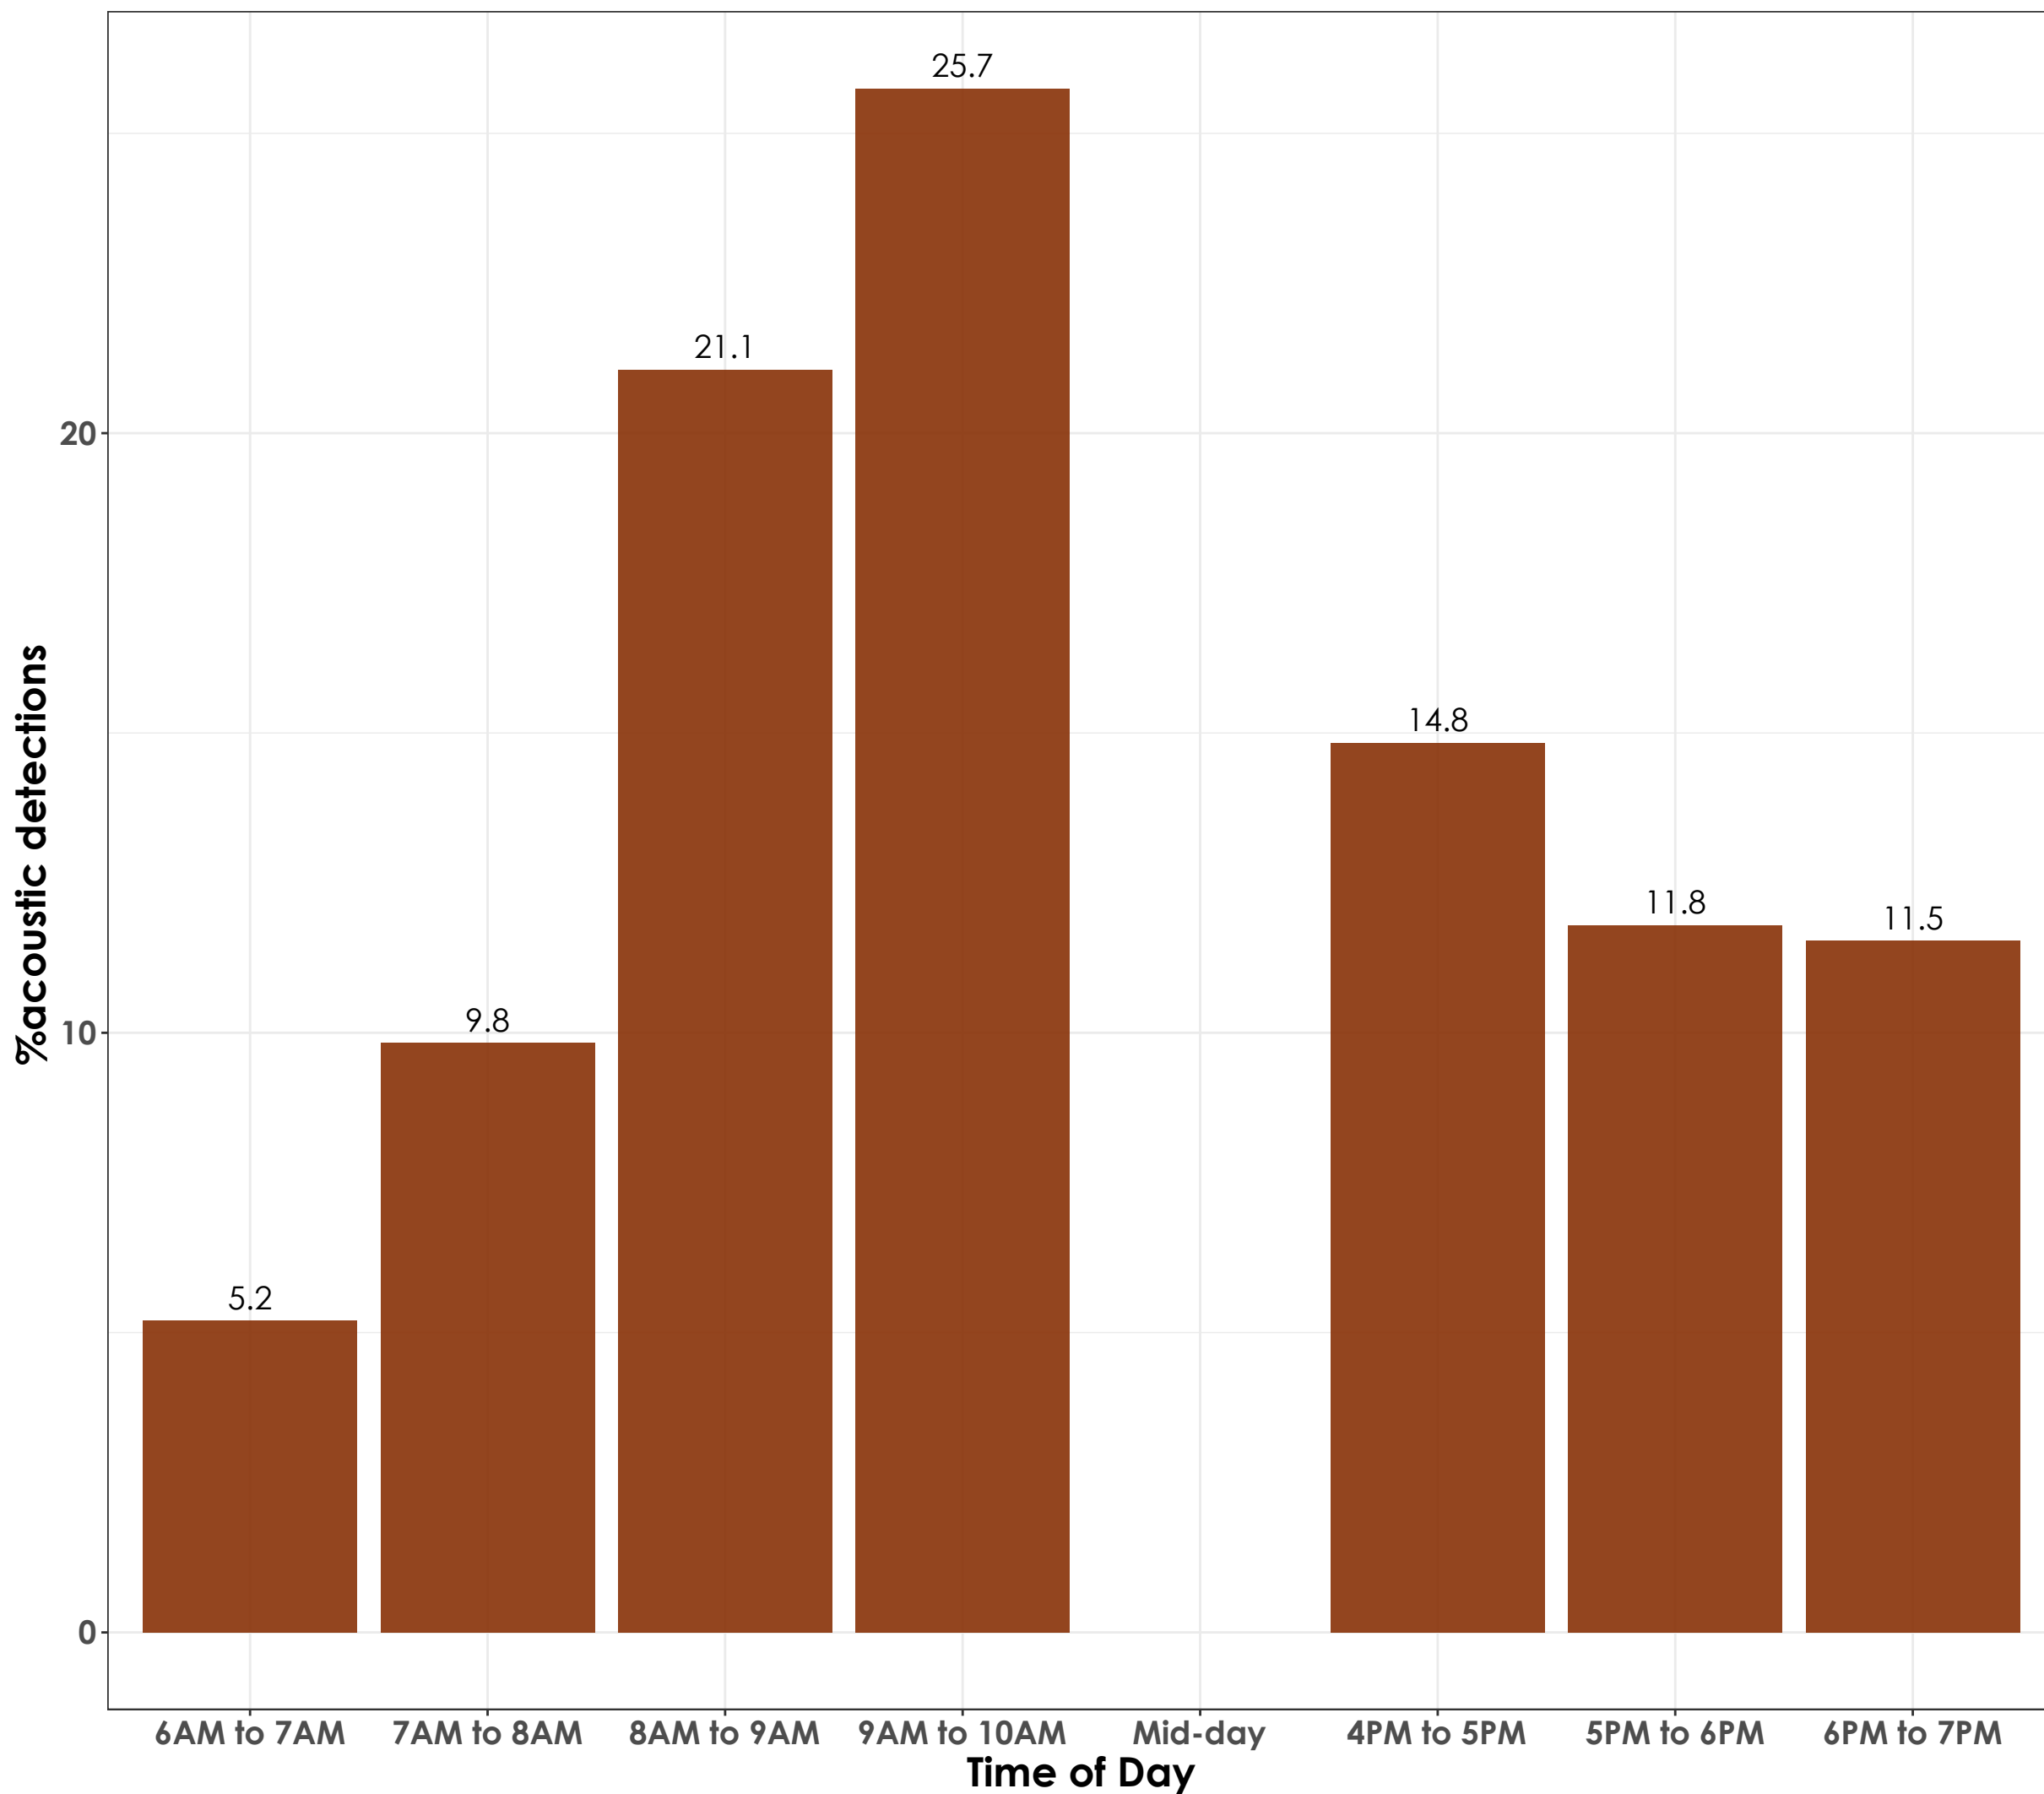

# Red-whiskered Bulbul

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

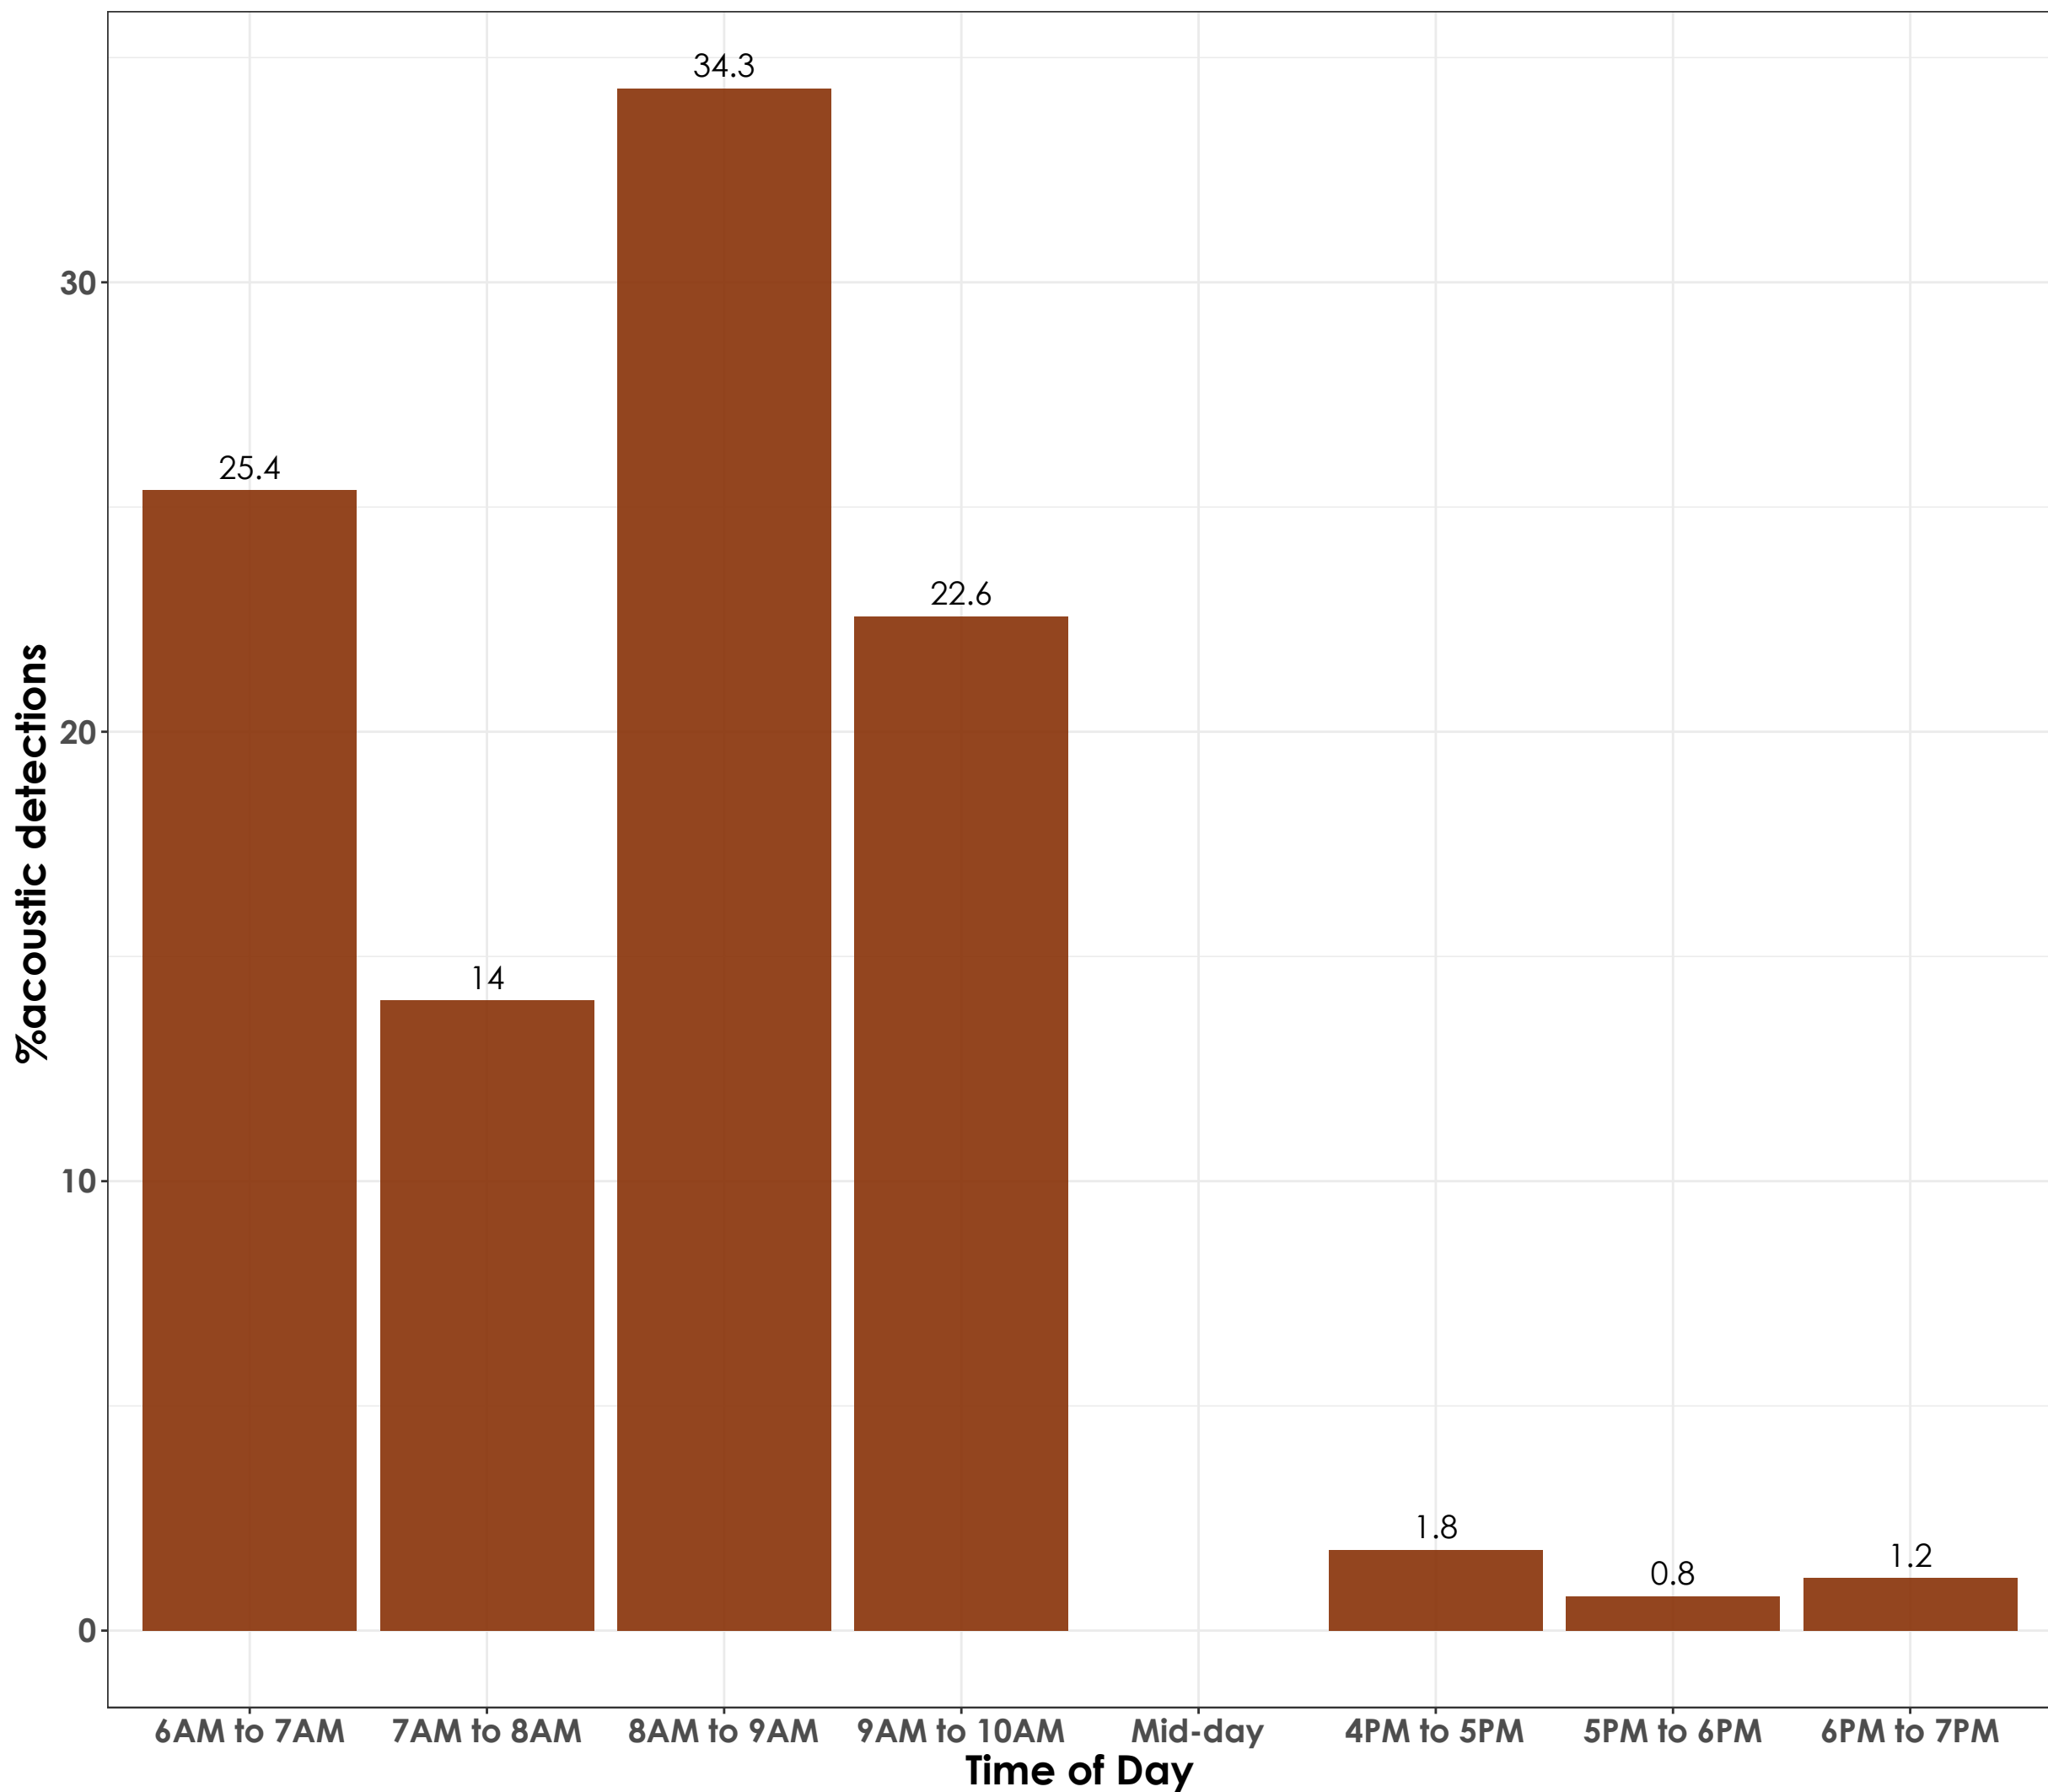

# Vernal Hanging-Parrot

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Greater Coucal

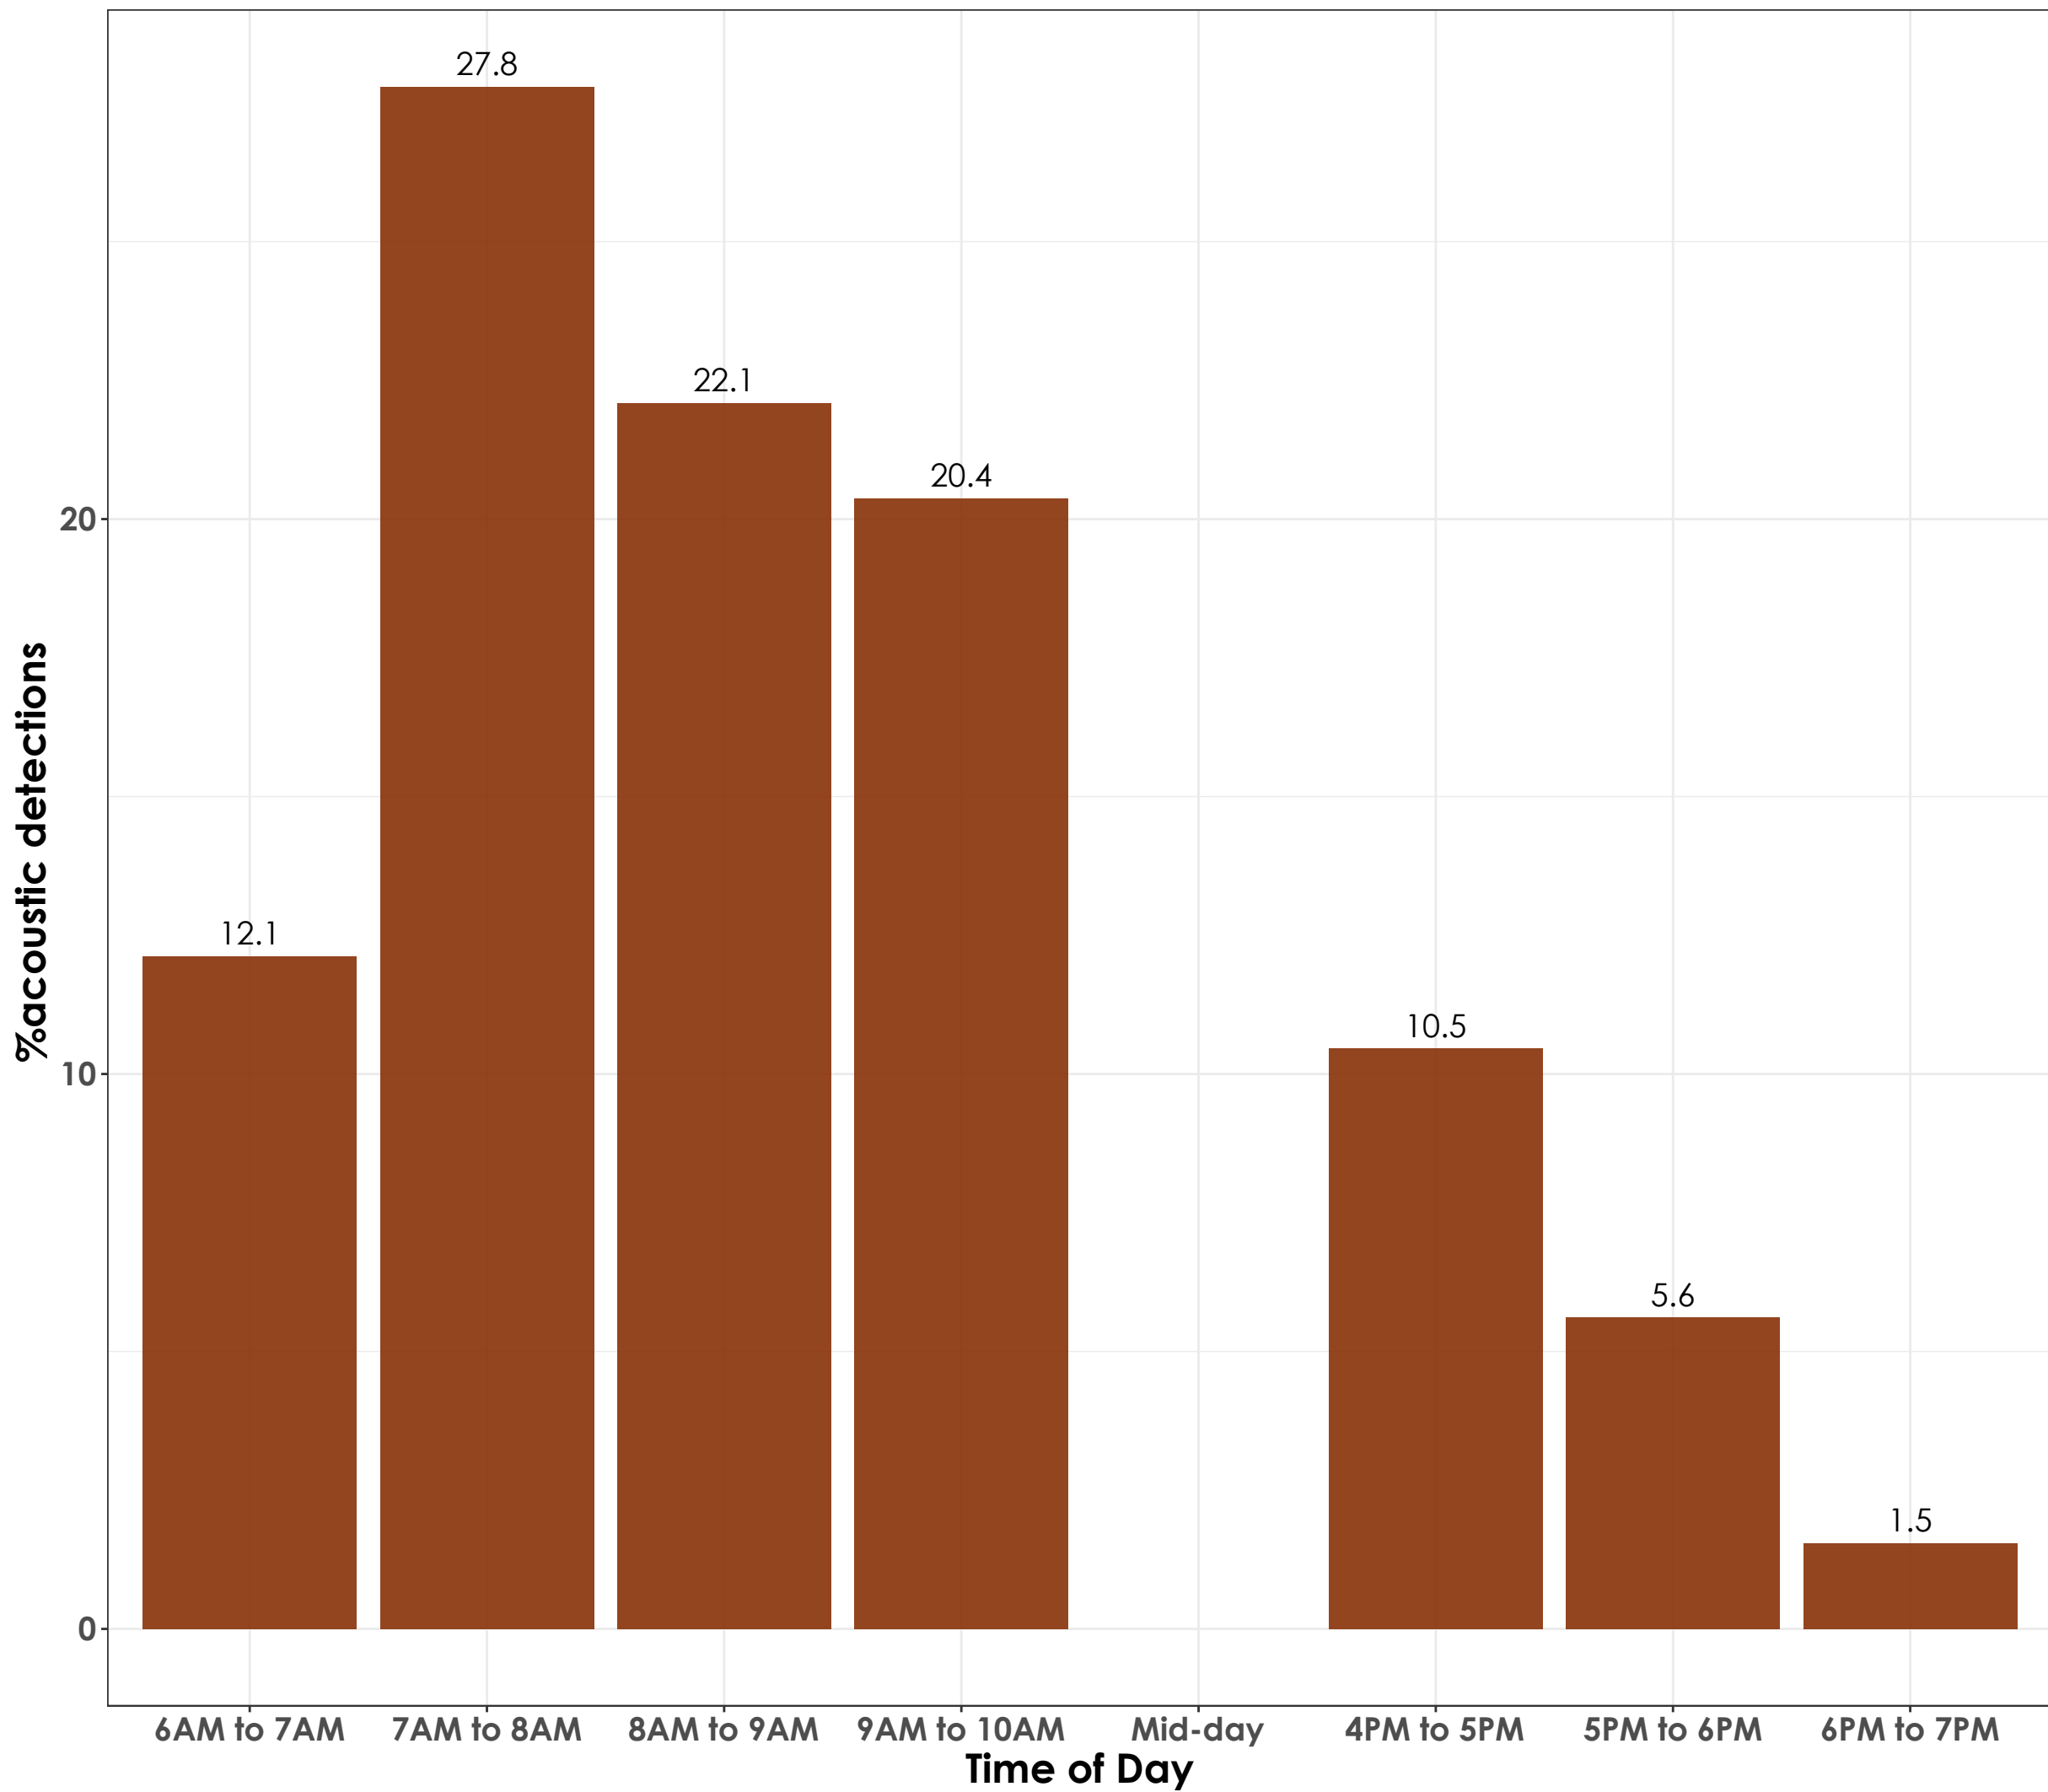

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

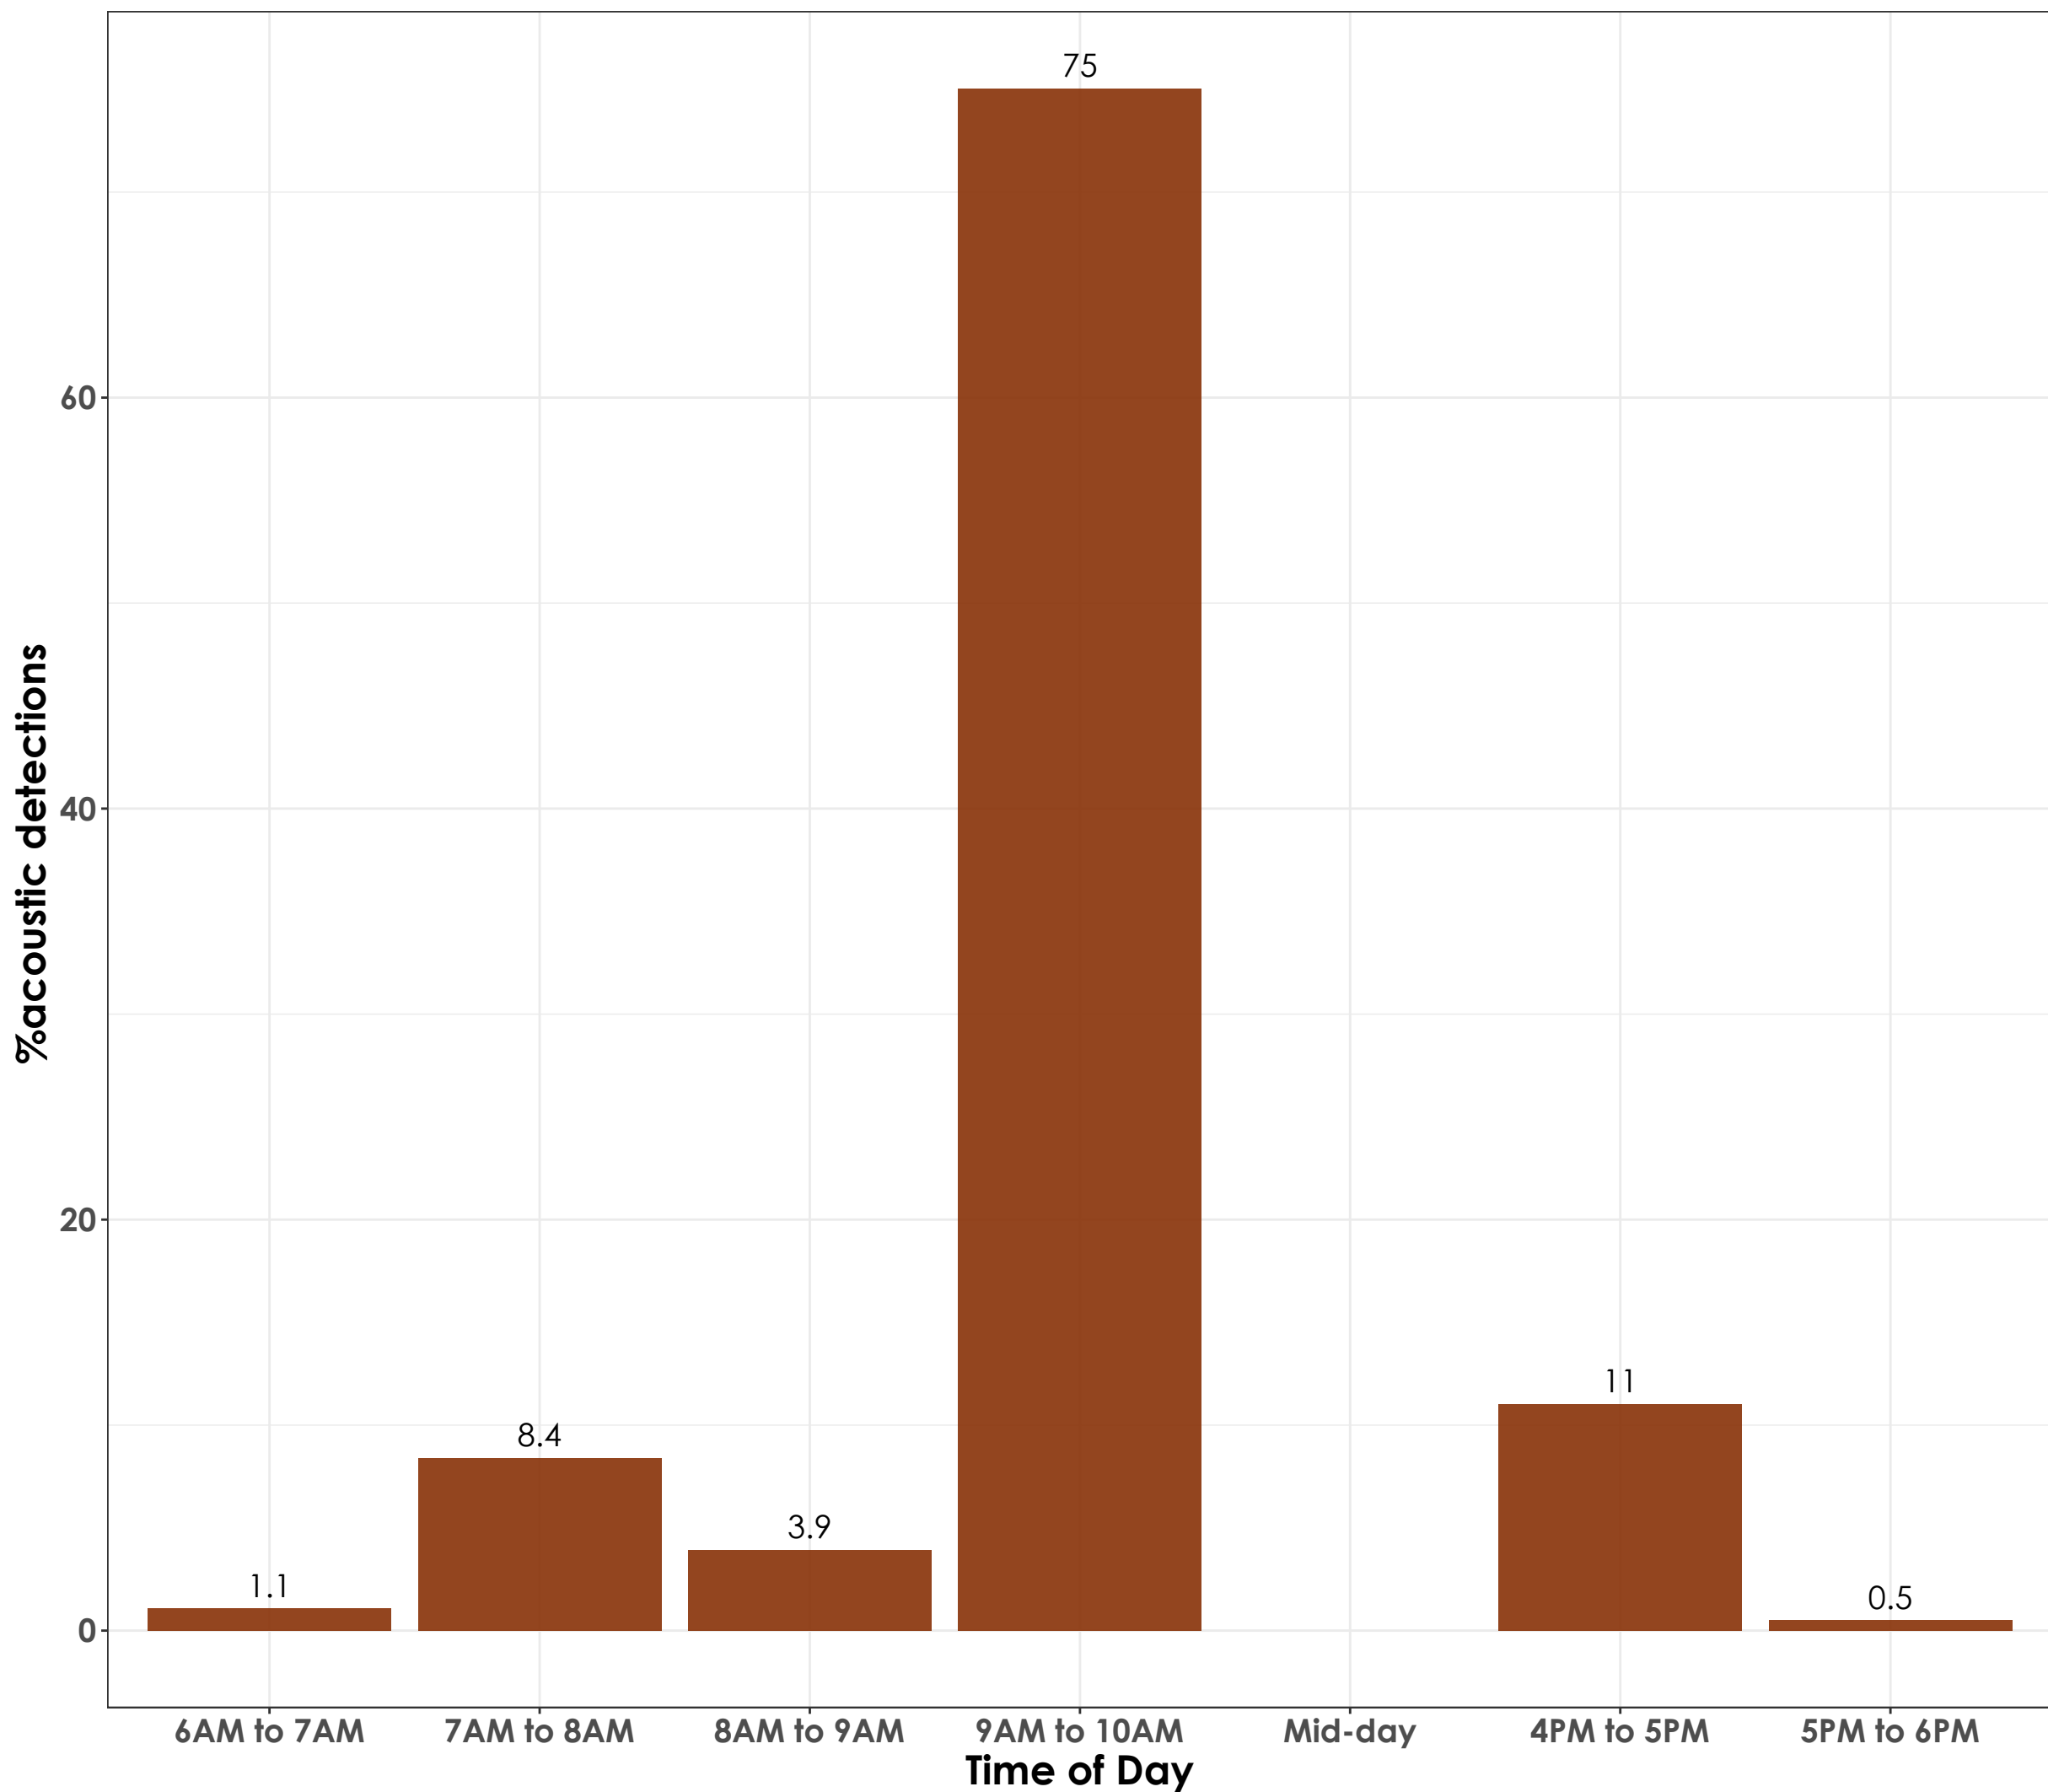

# Greenish Warbler

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

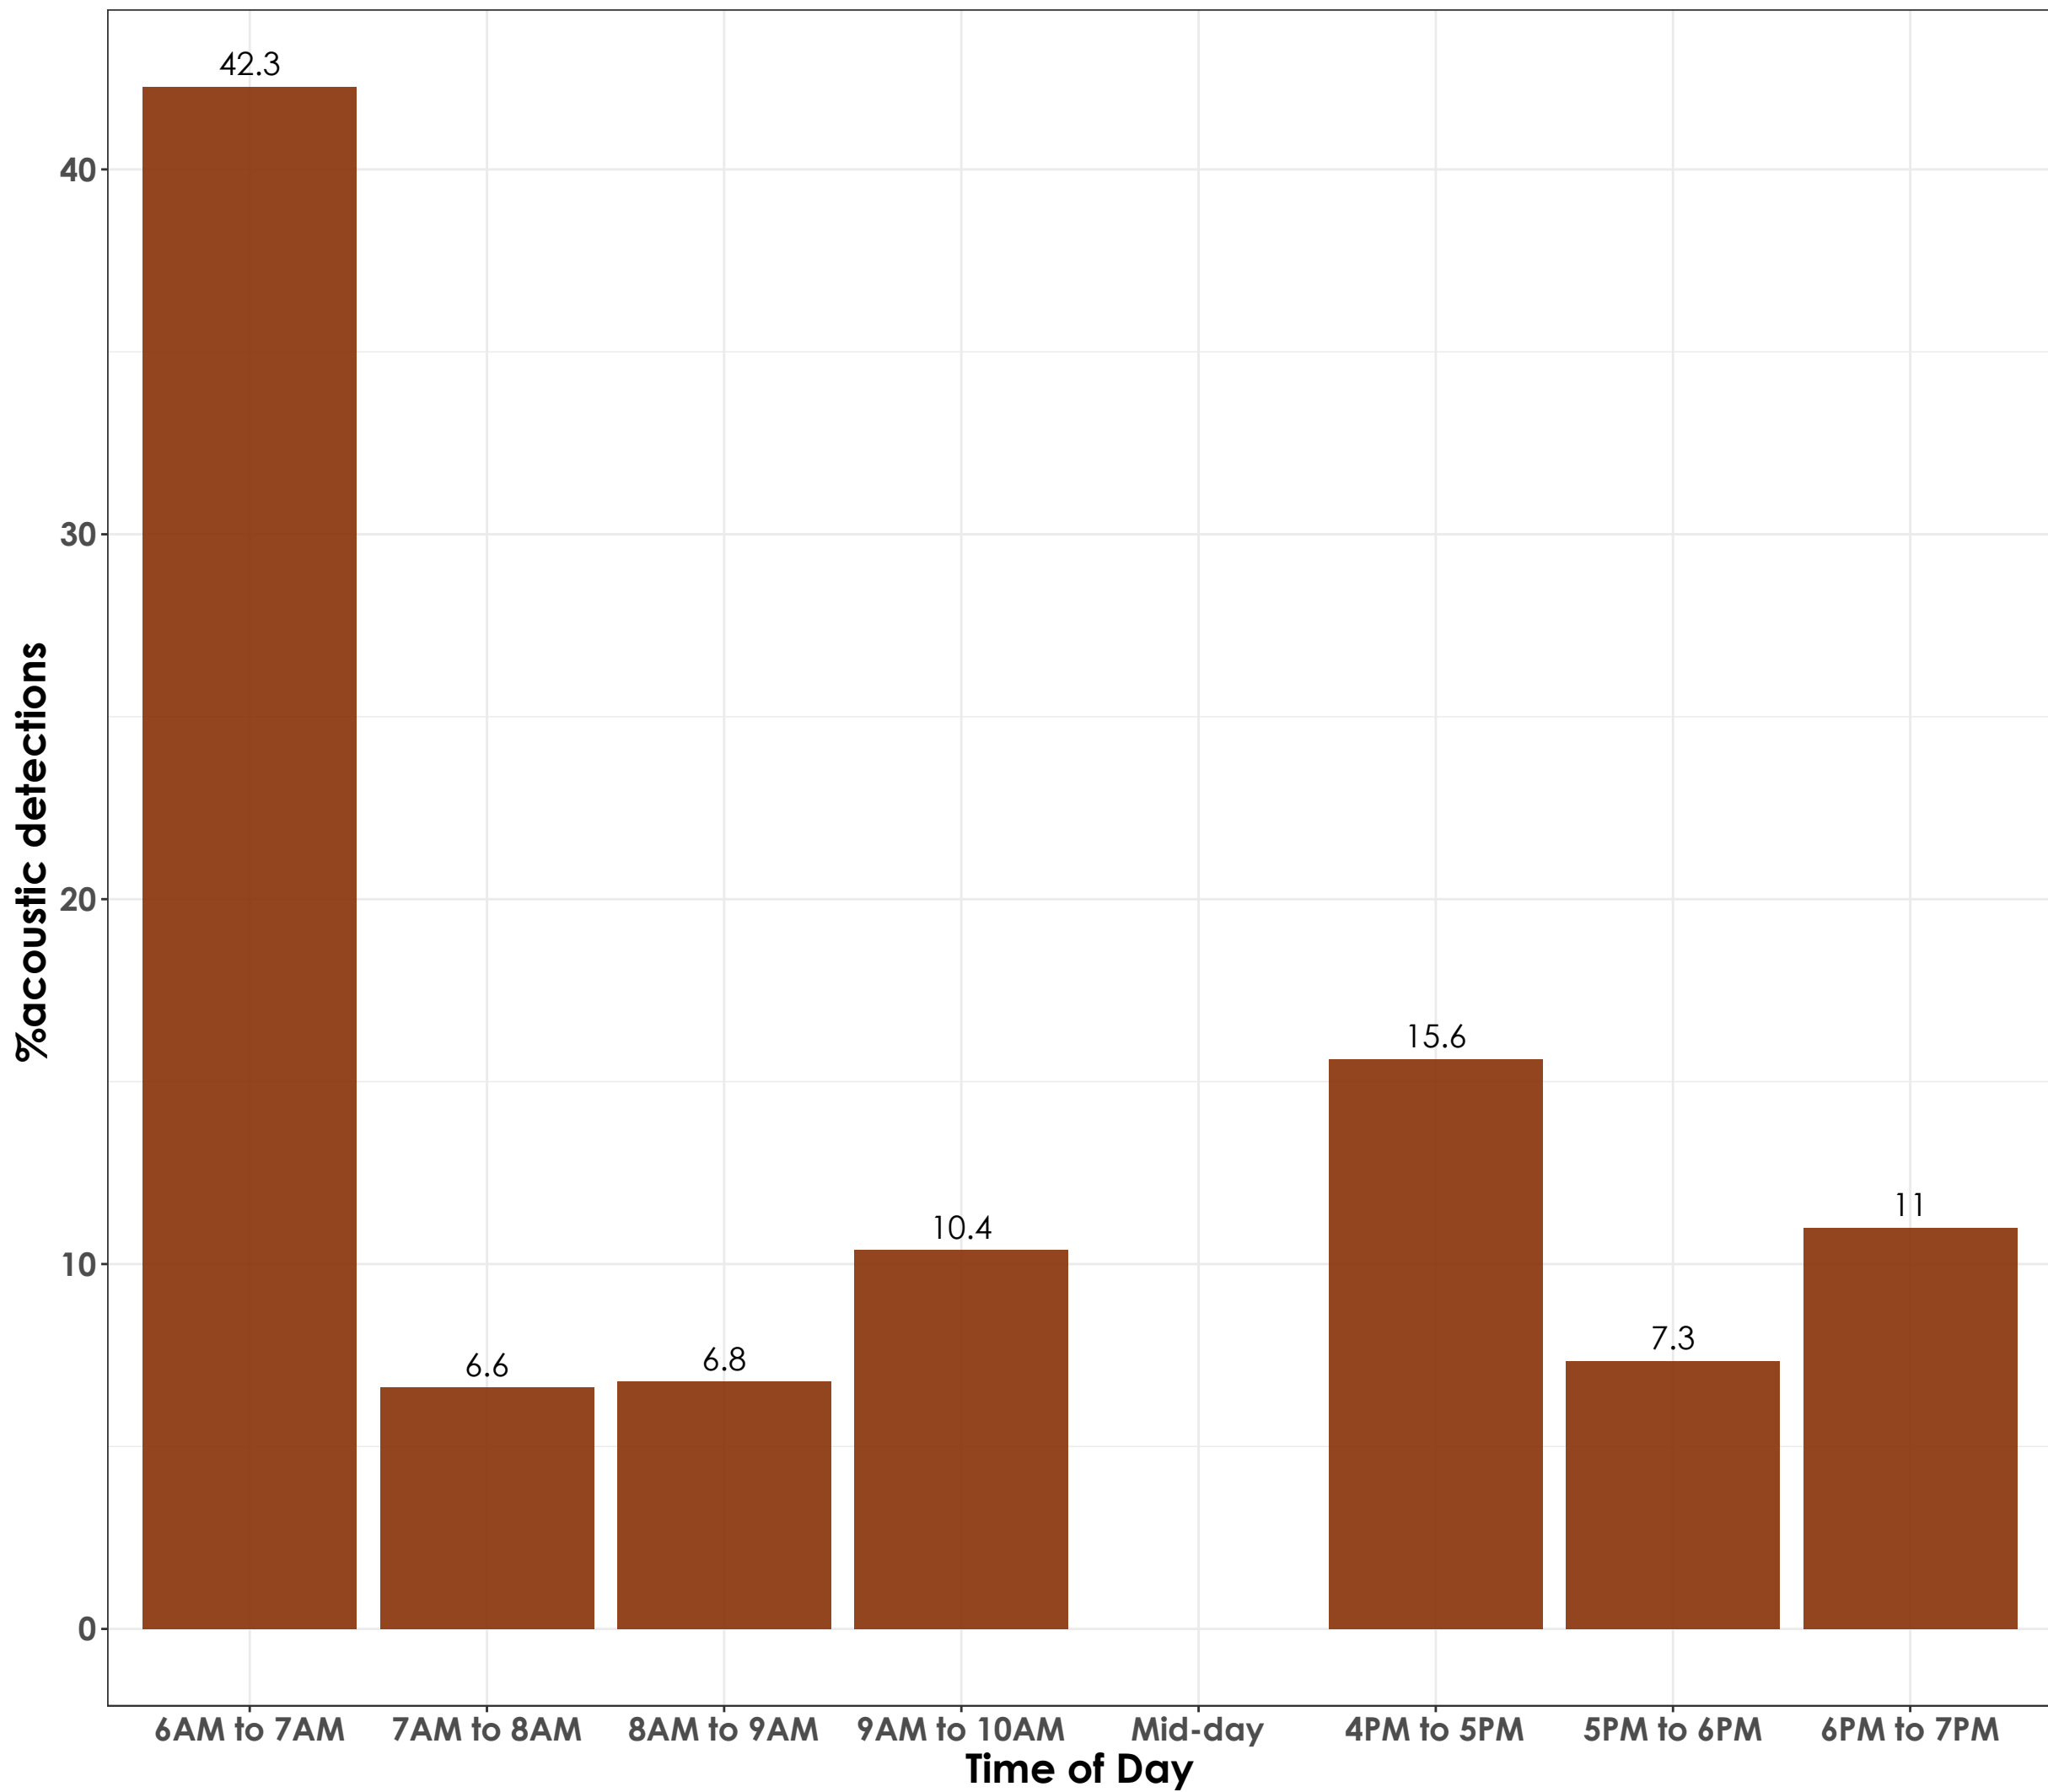

# Crested Serpent-Eagle

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

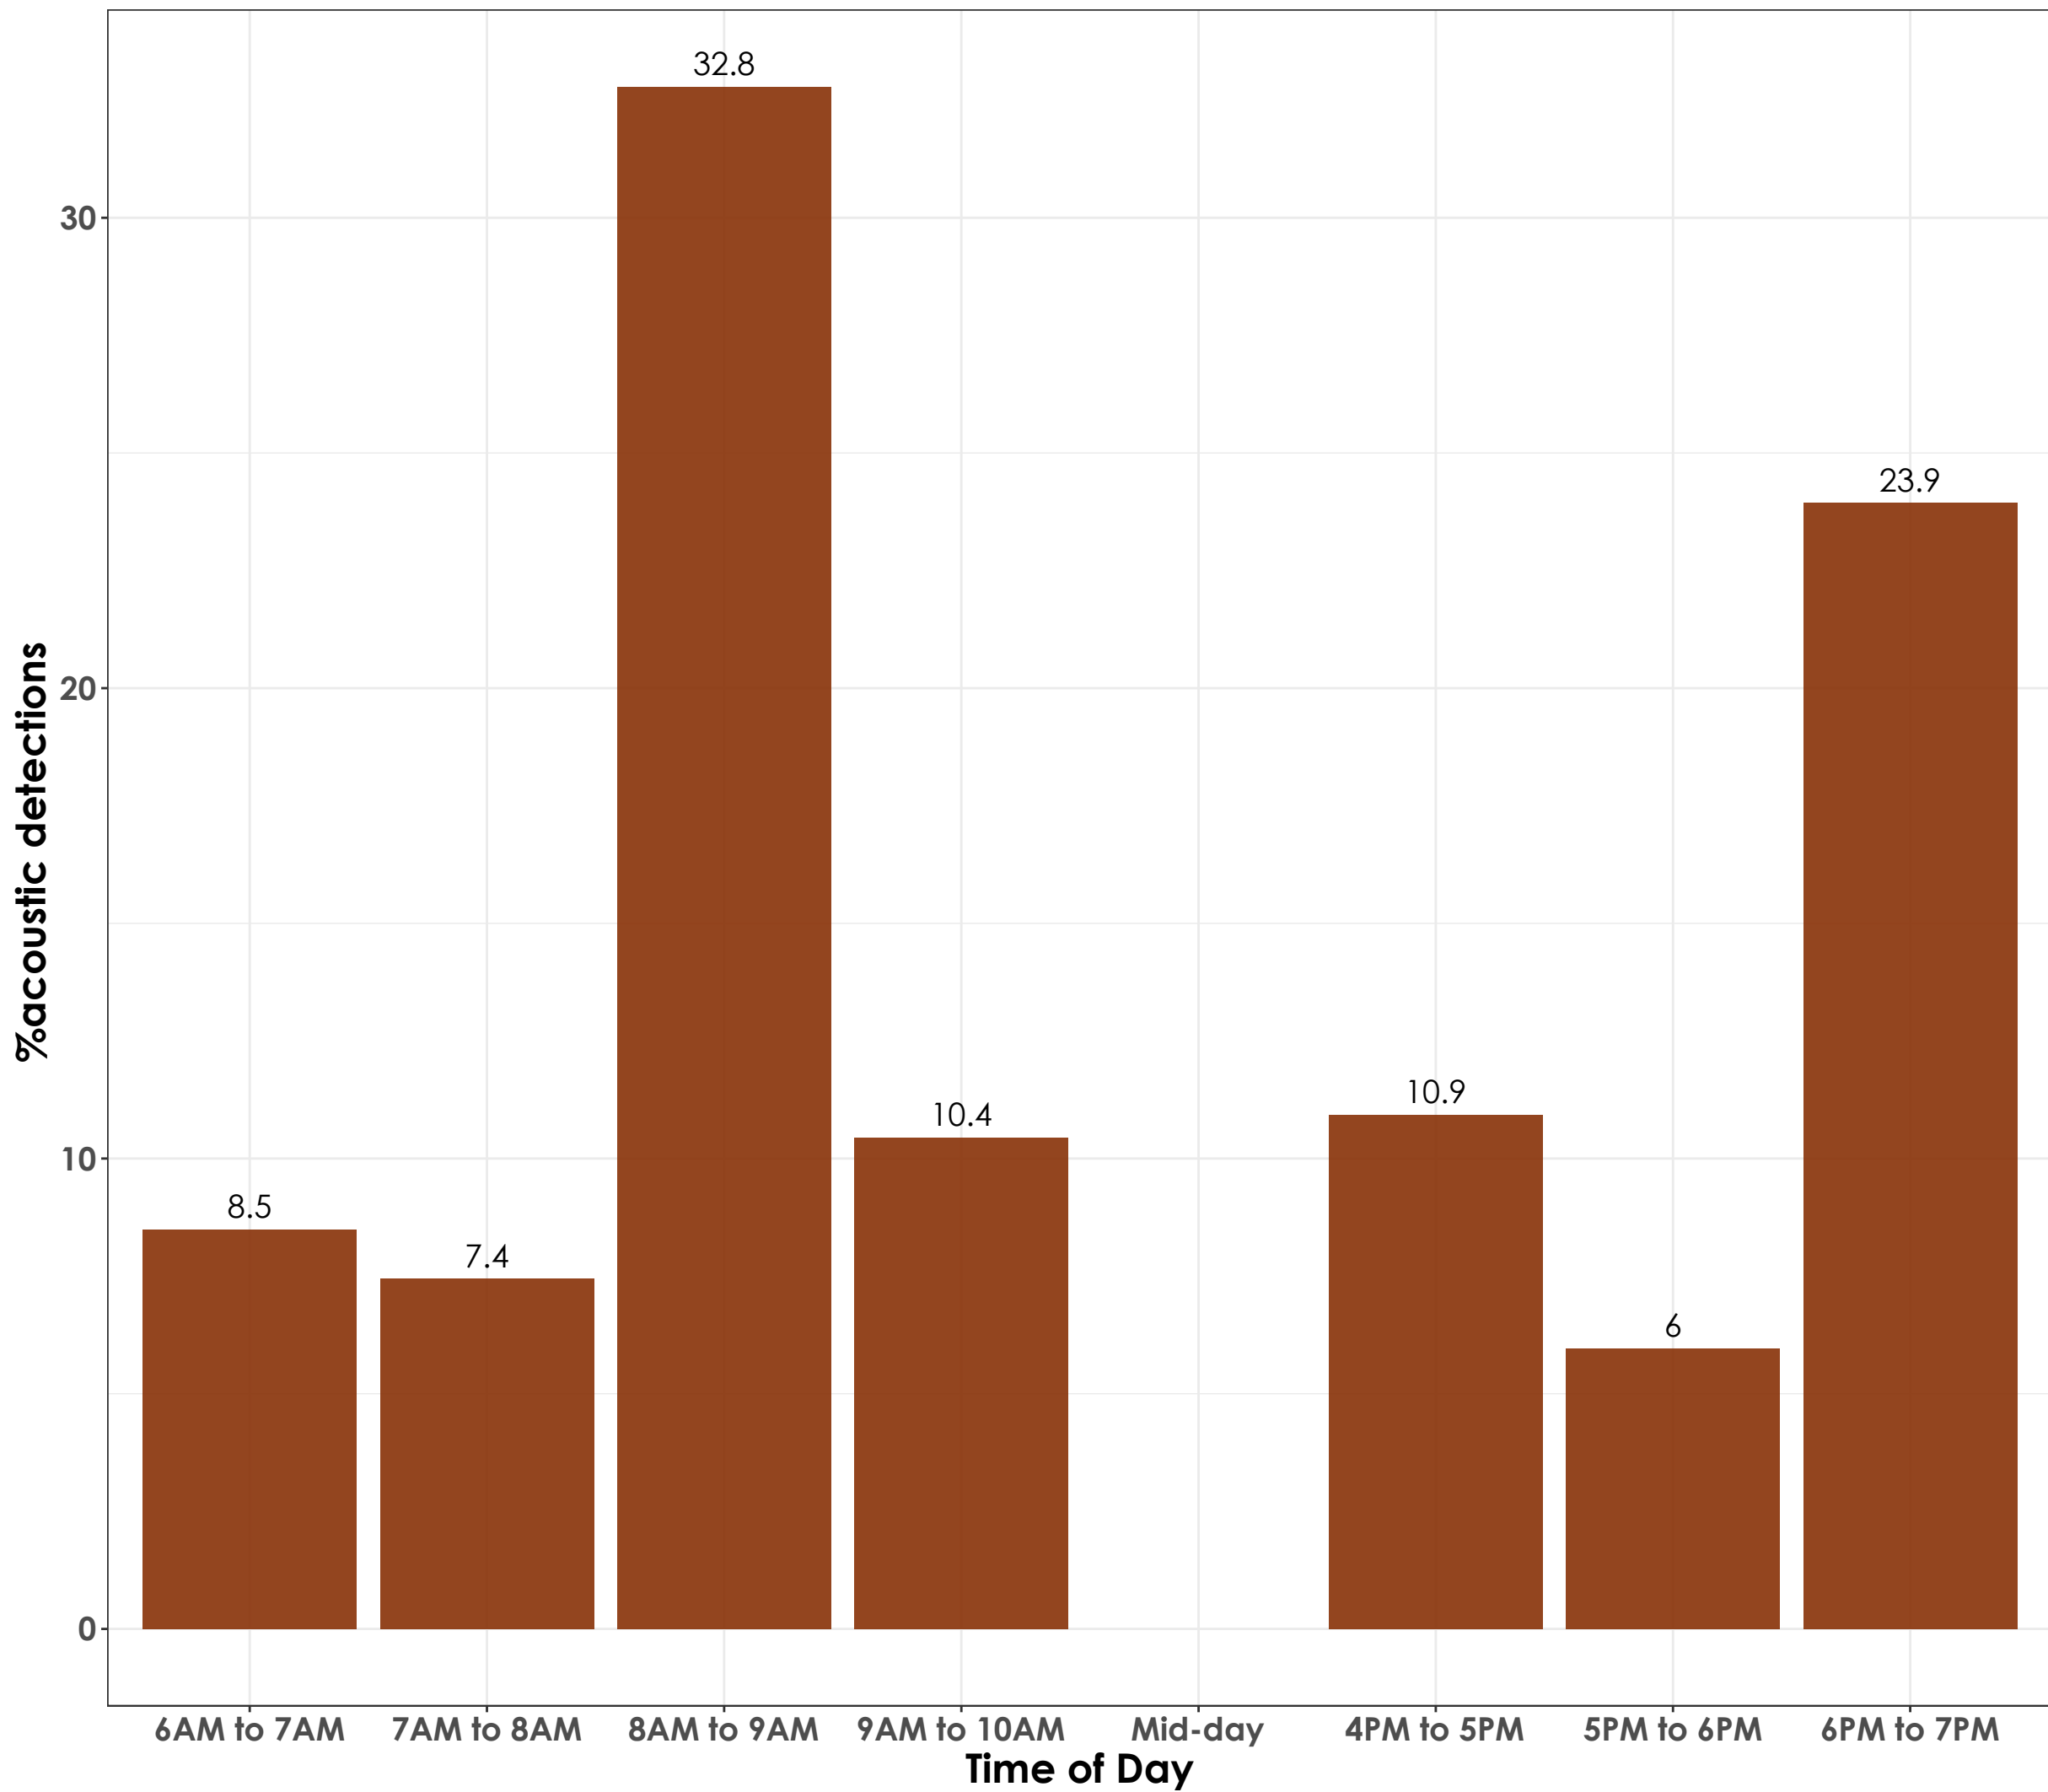

# White-bellied Blue Flycatcher

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

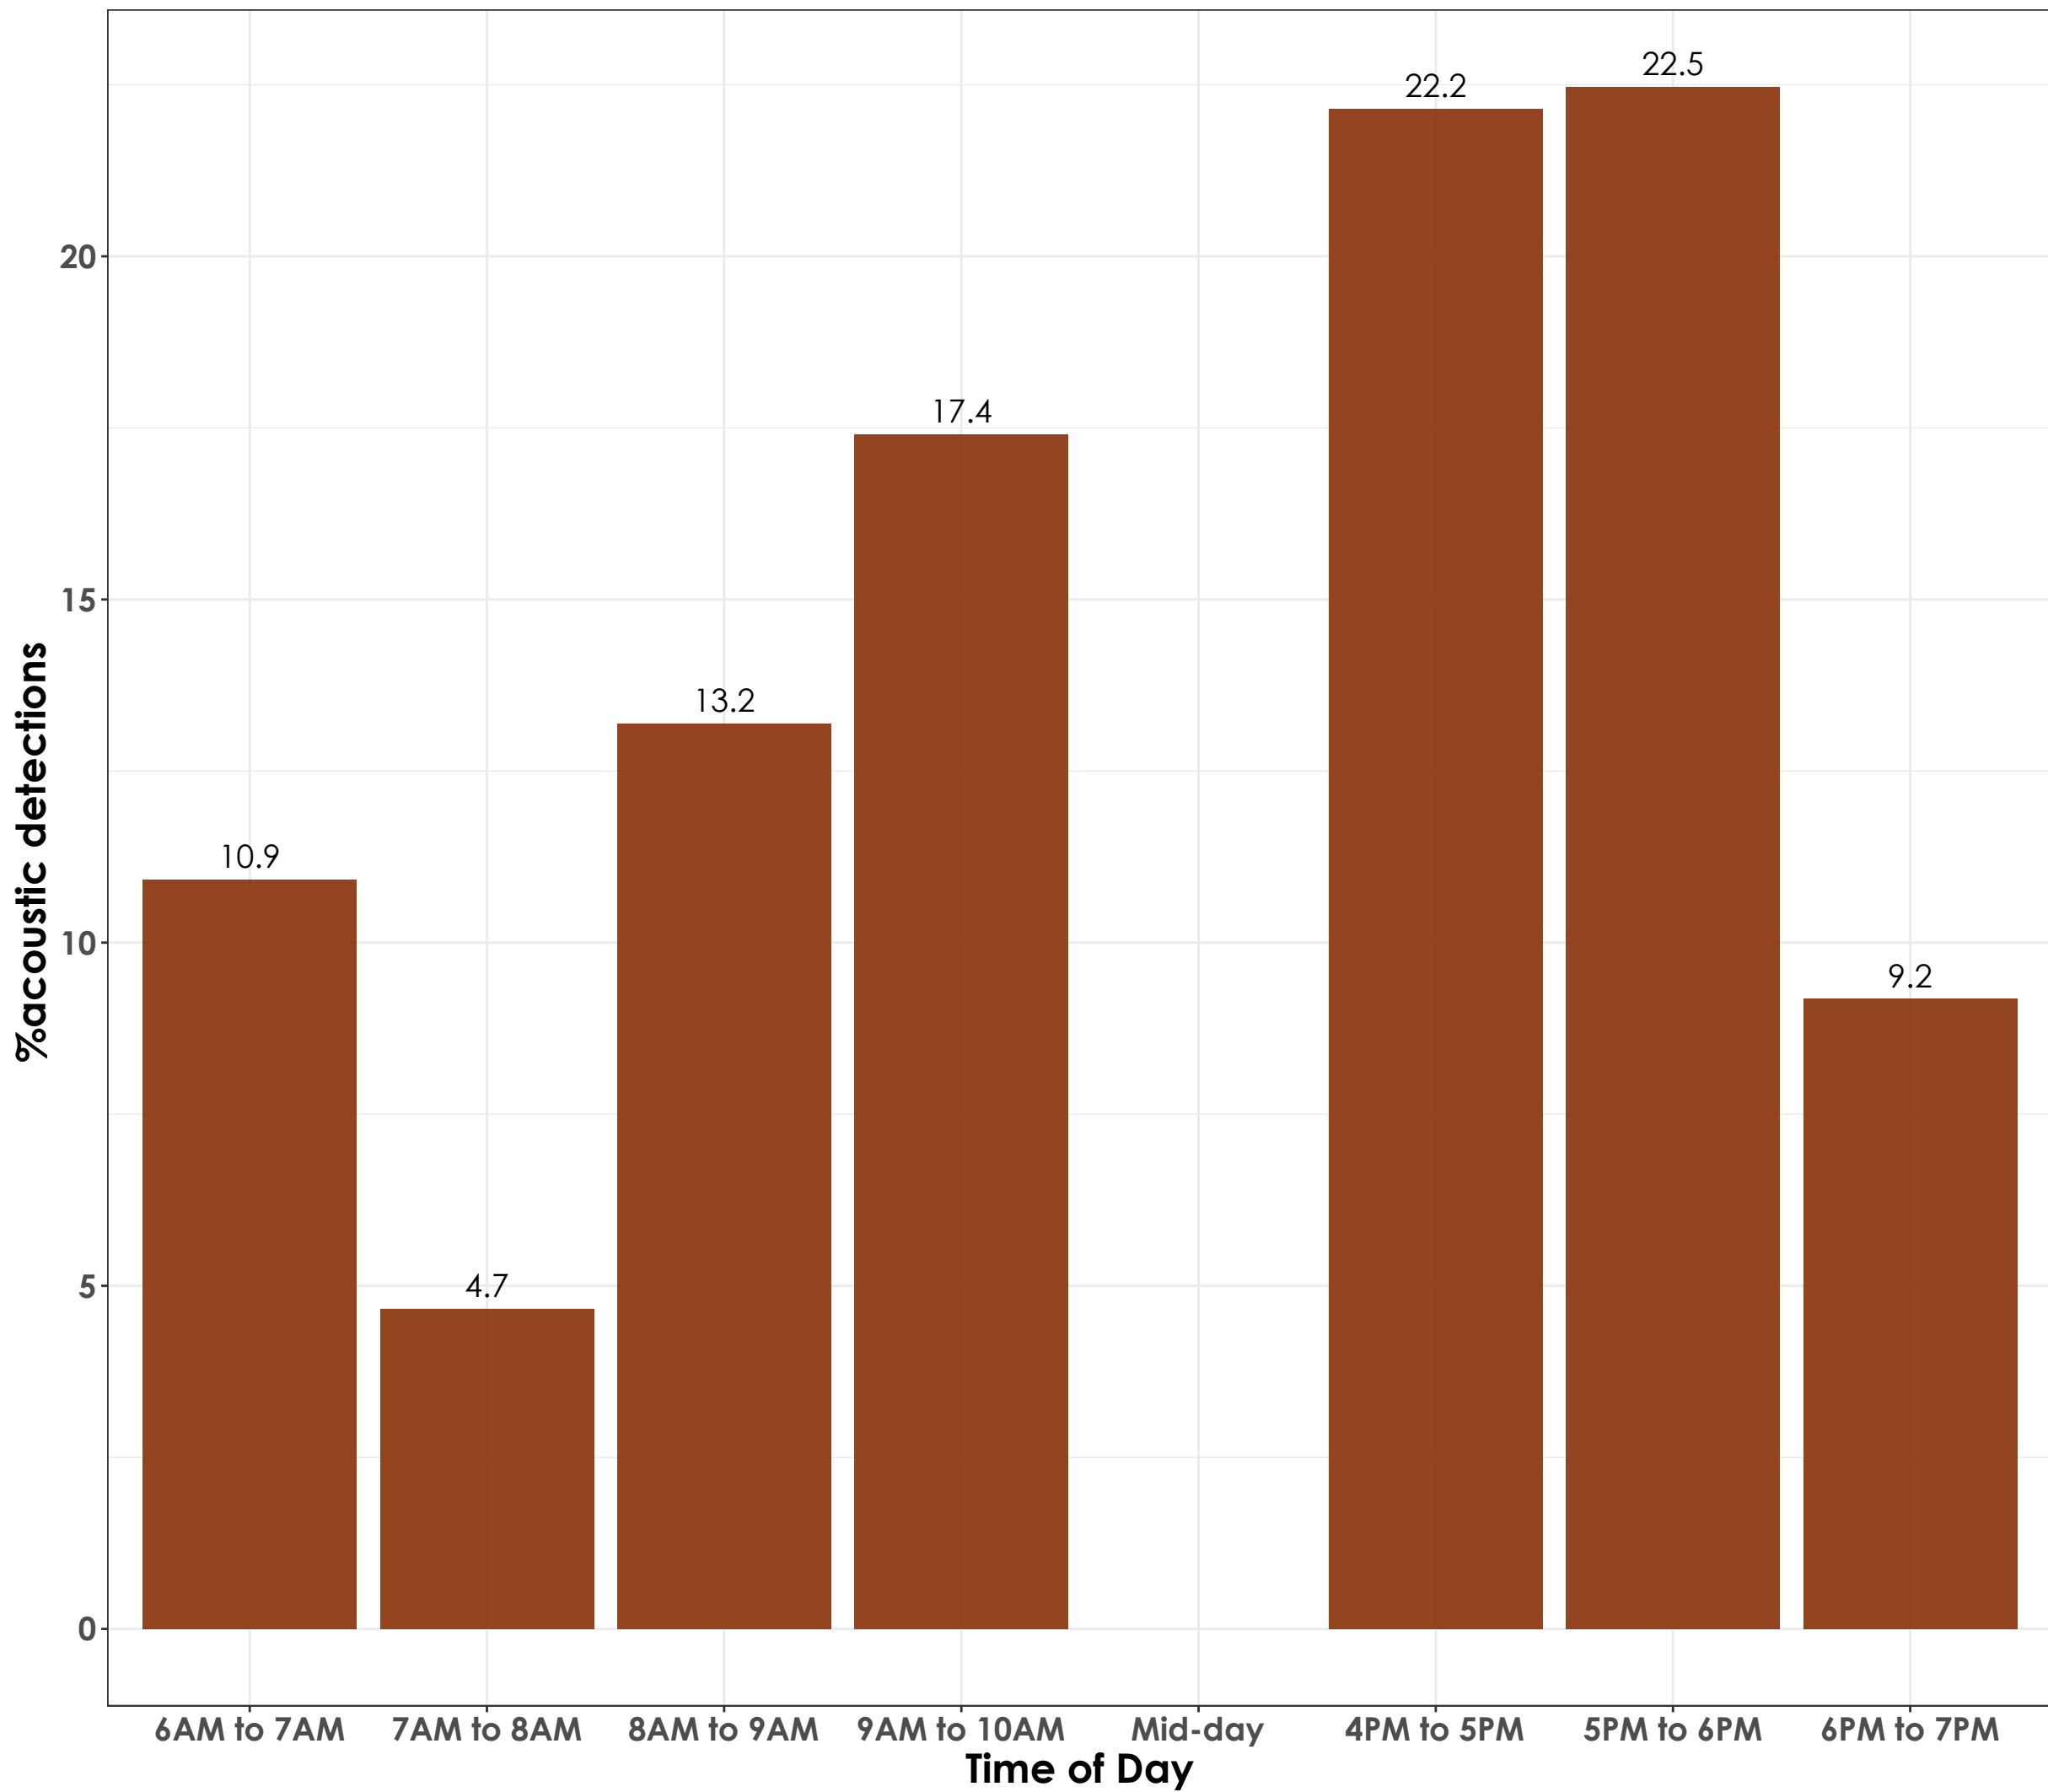

# Indian Peafowl

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

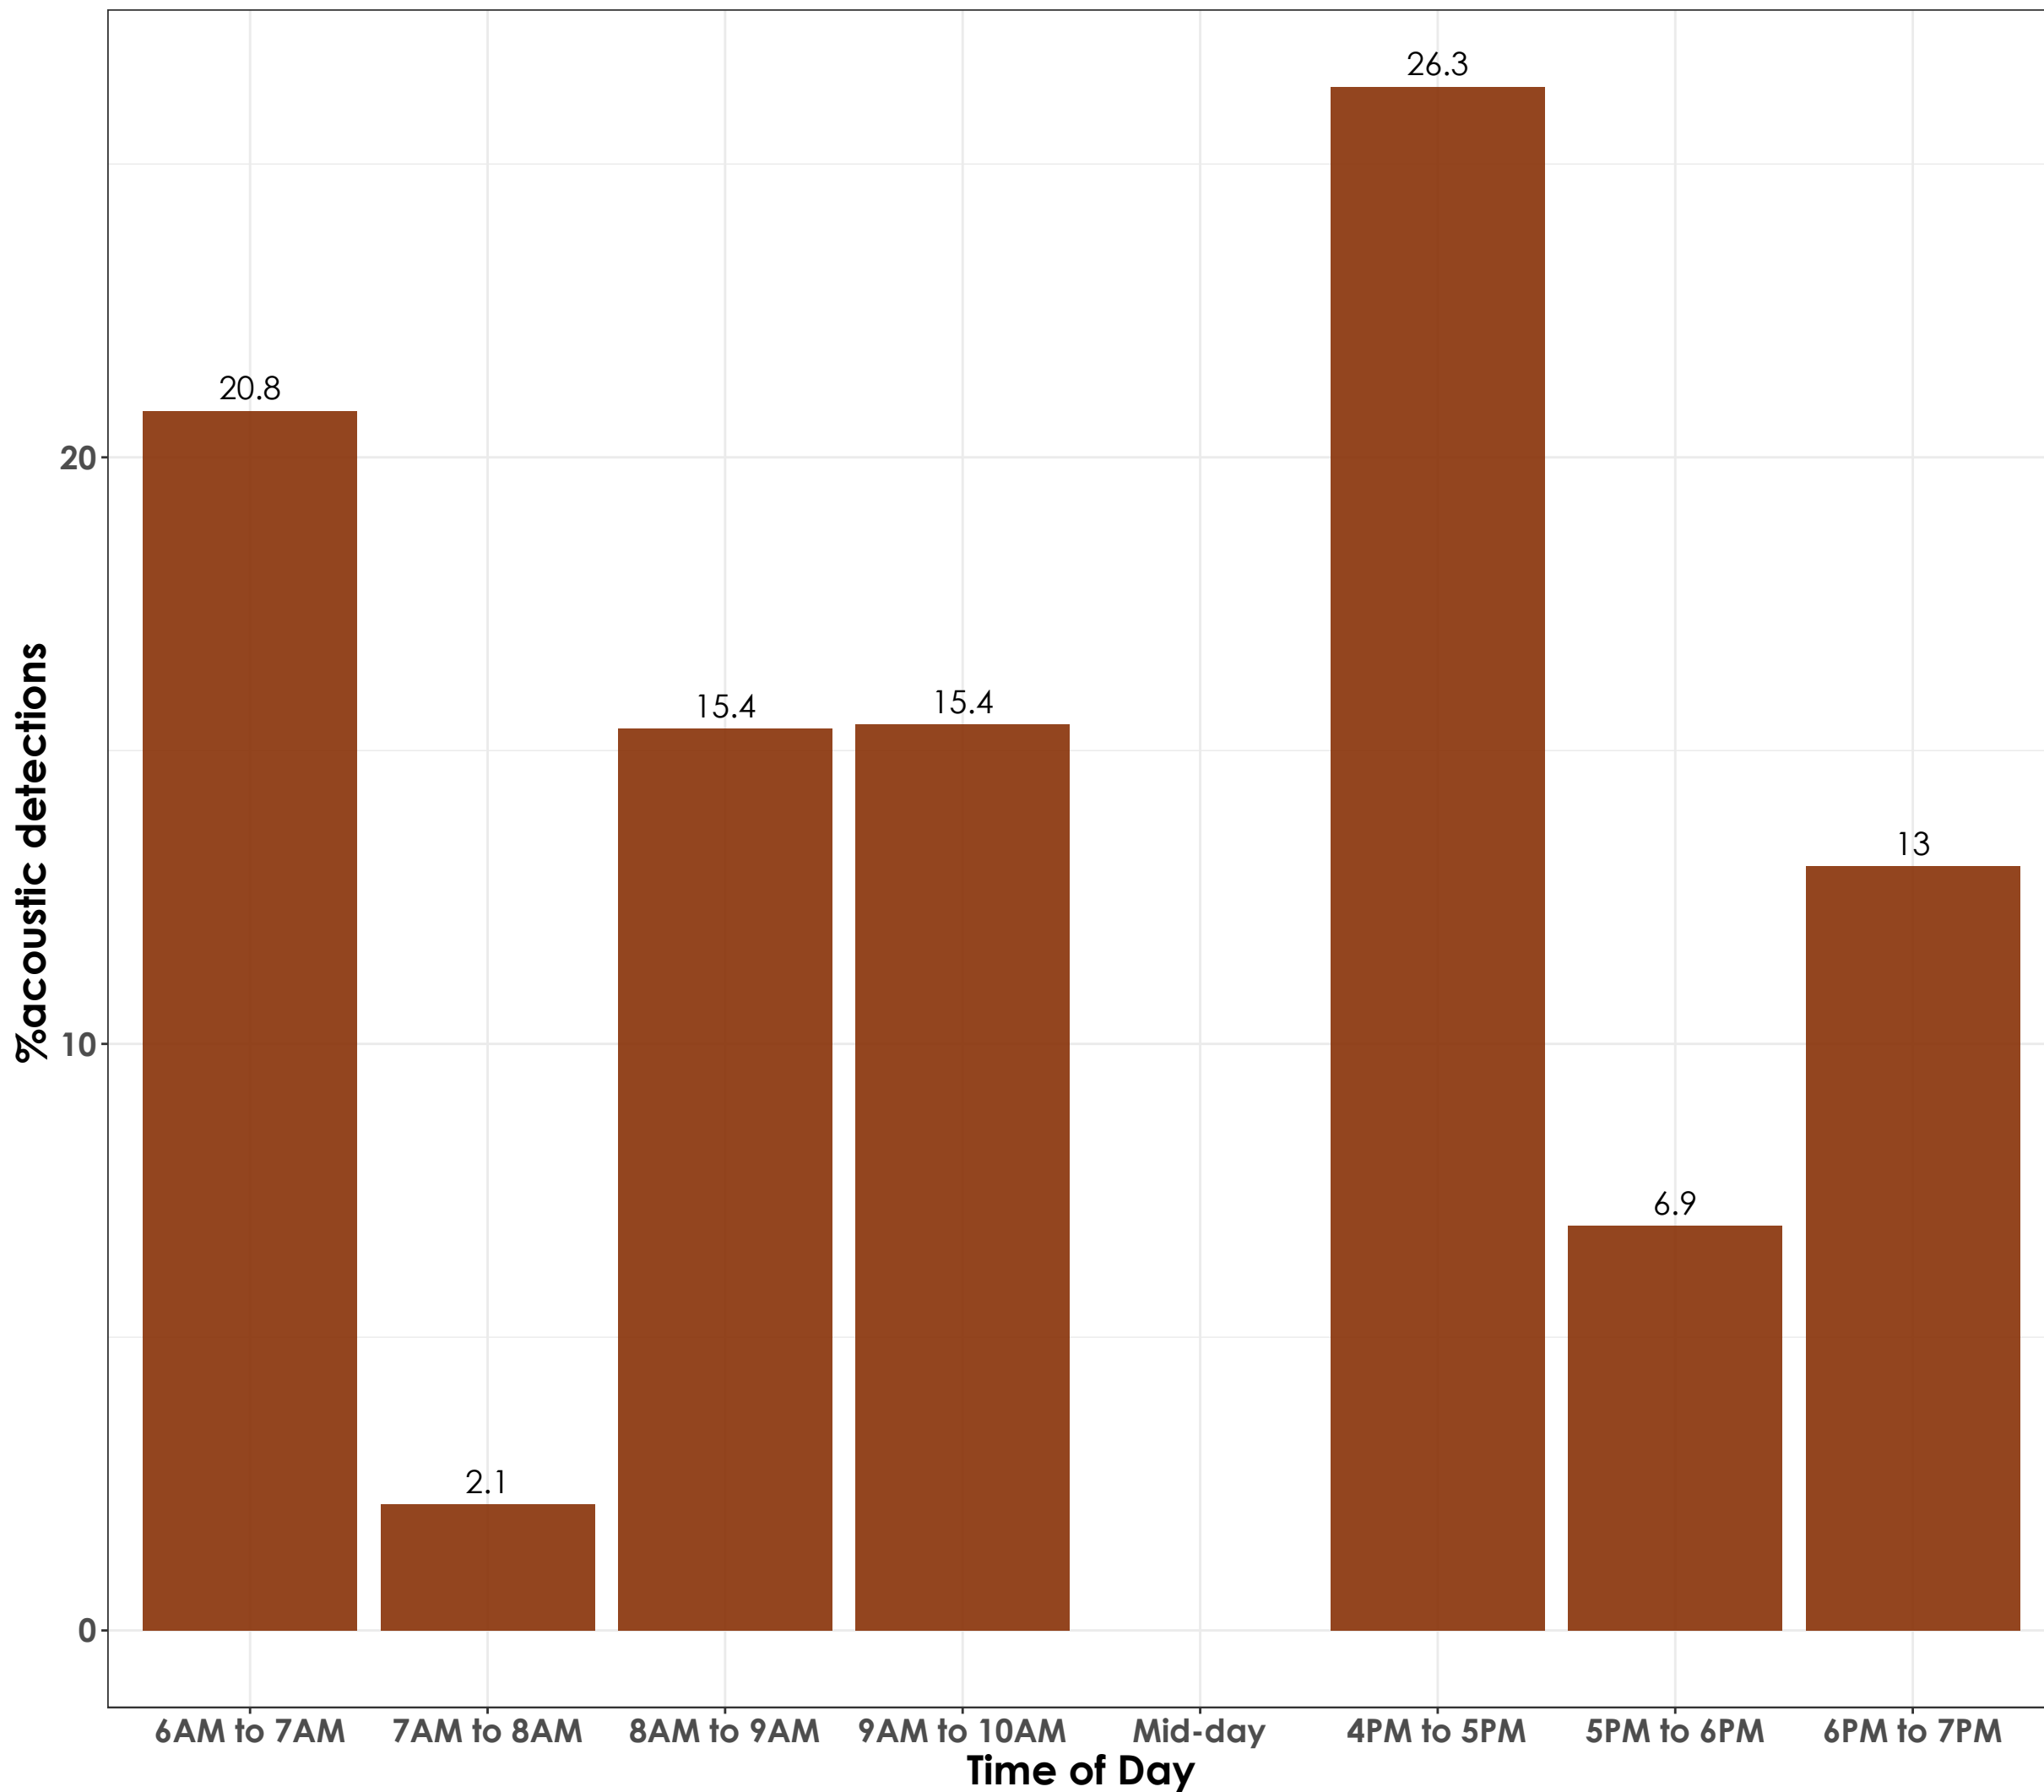

# Malabar Barbet

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

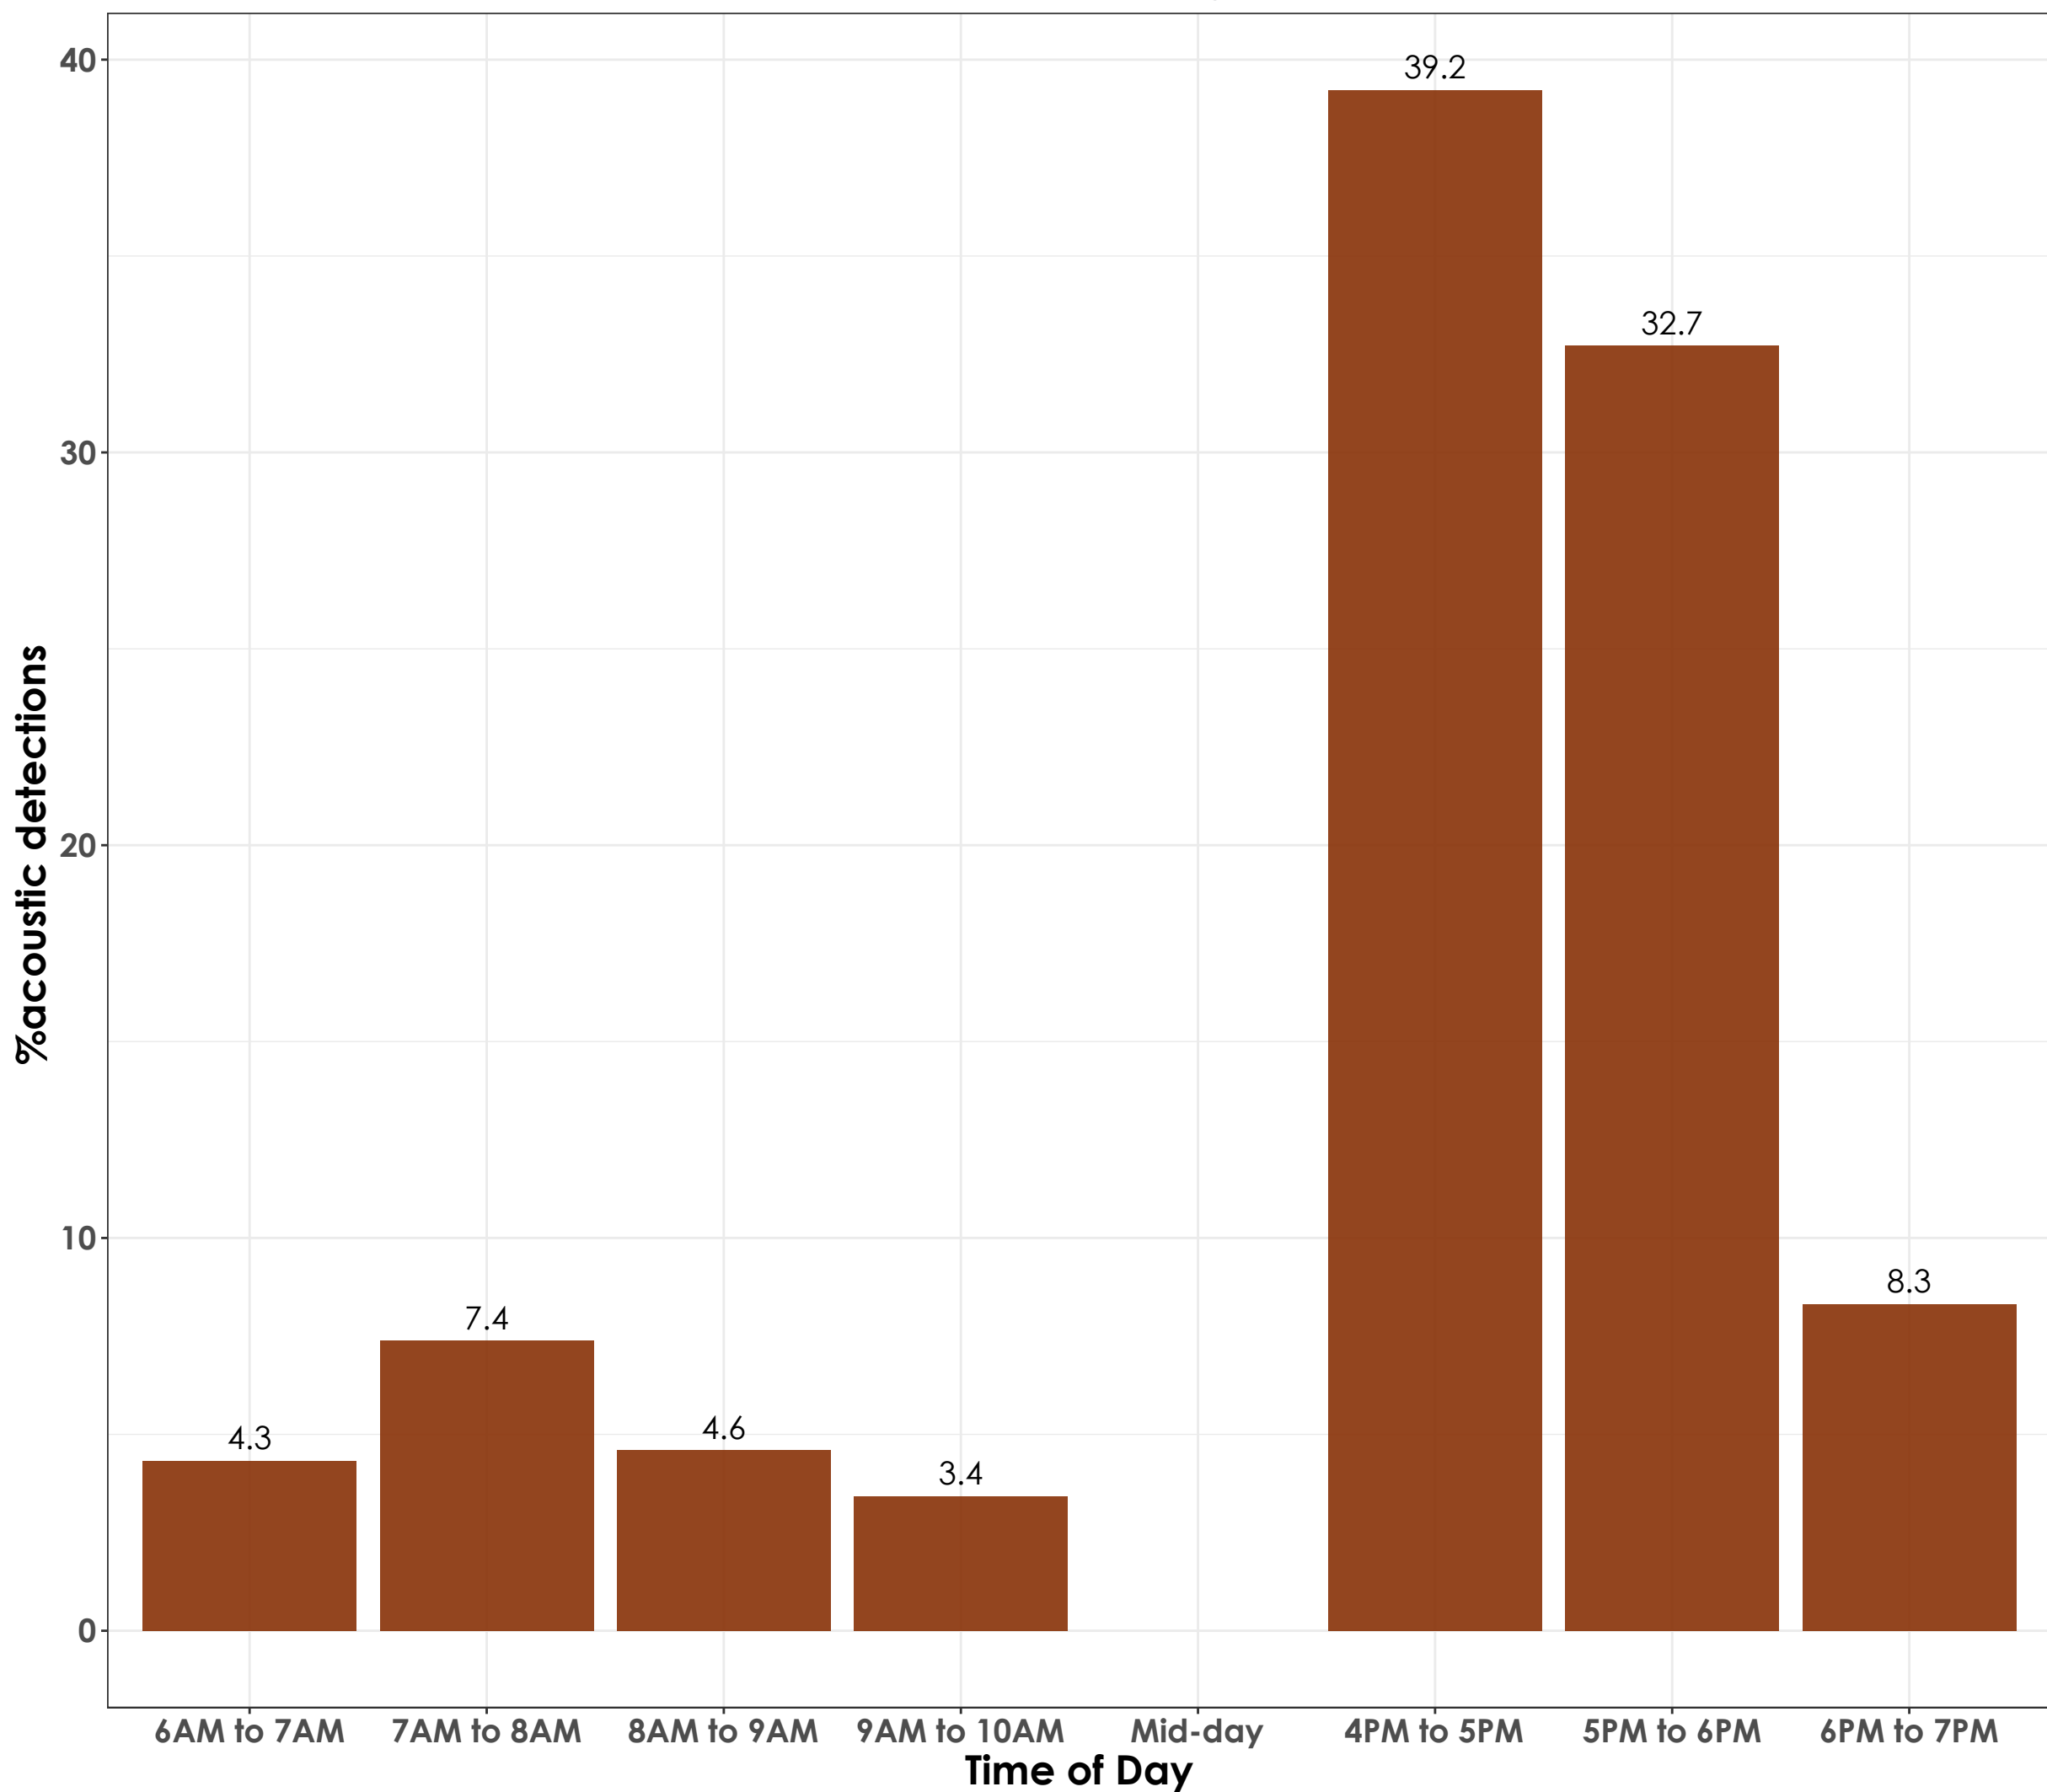

# Bronzed Drongo

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

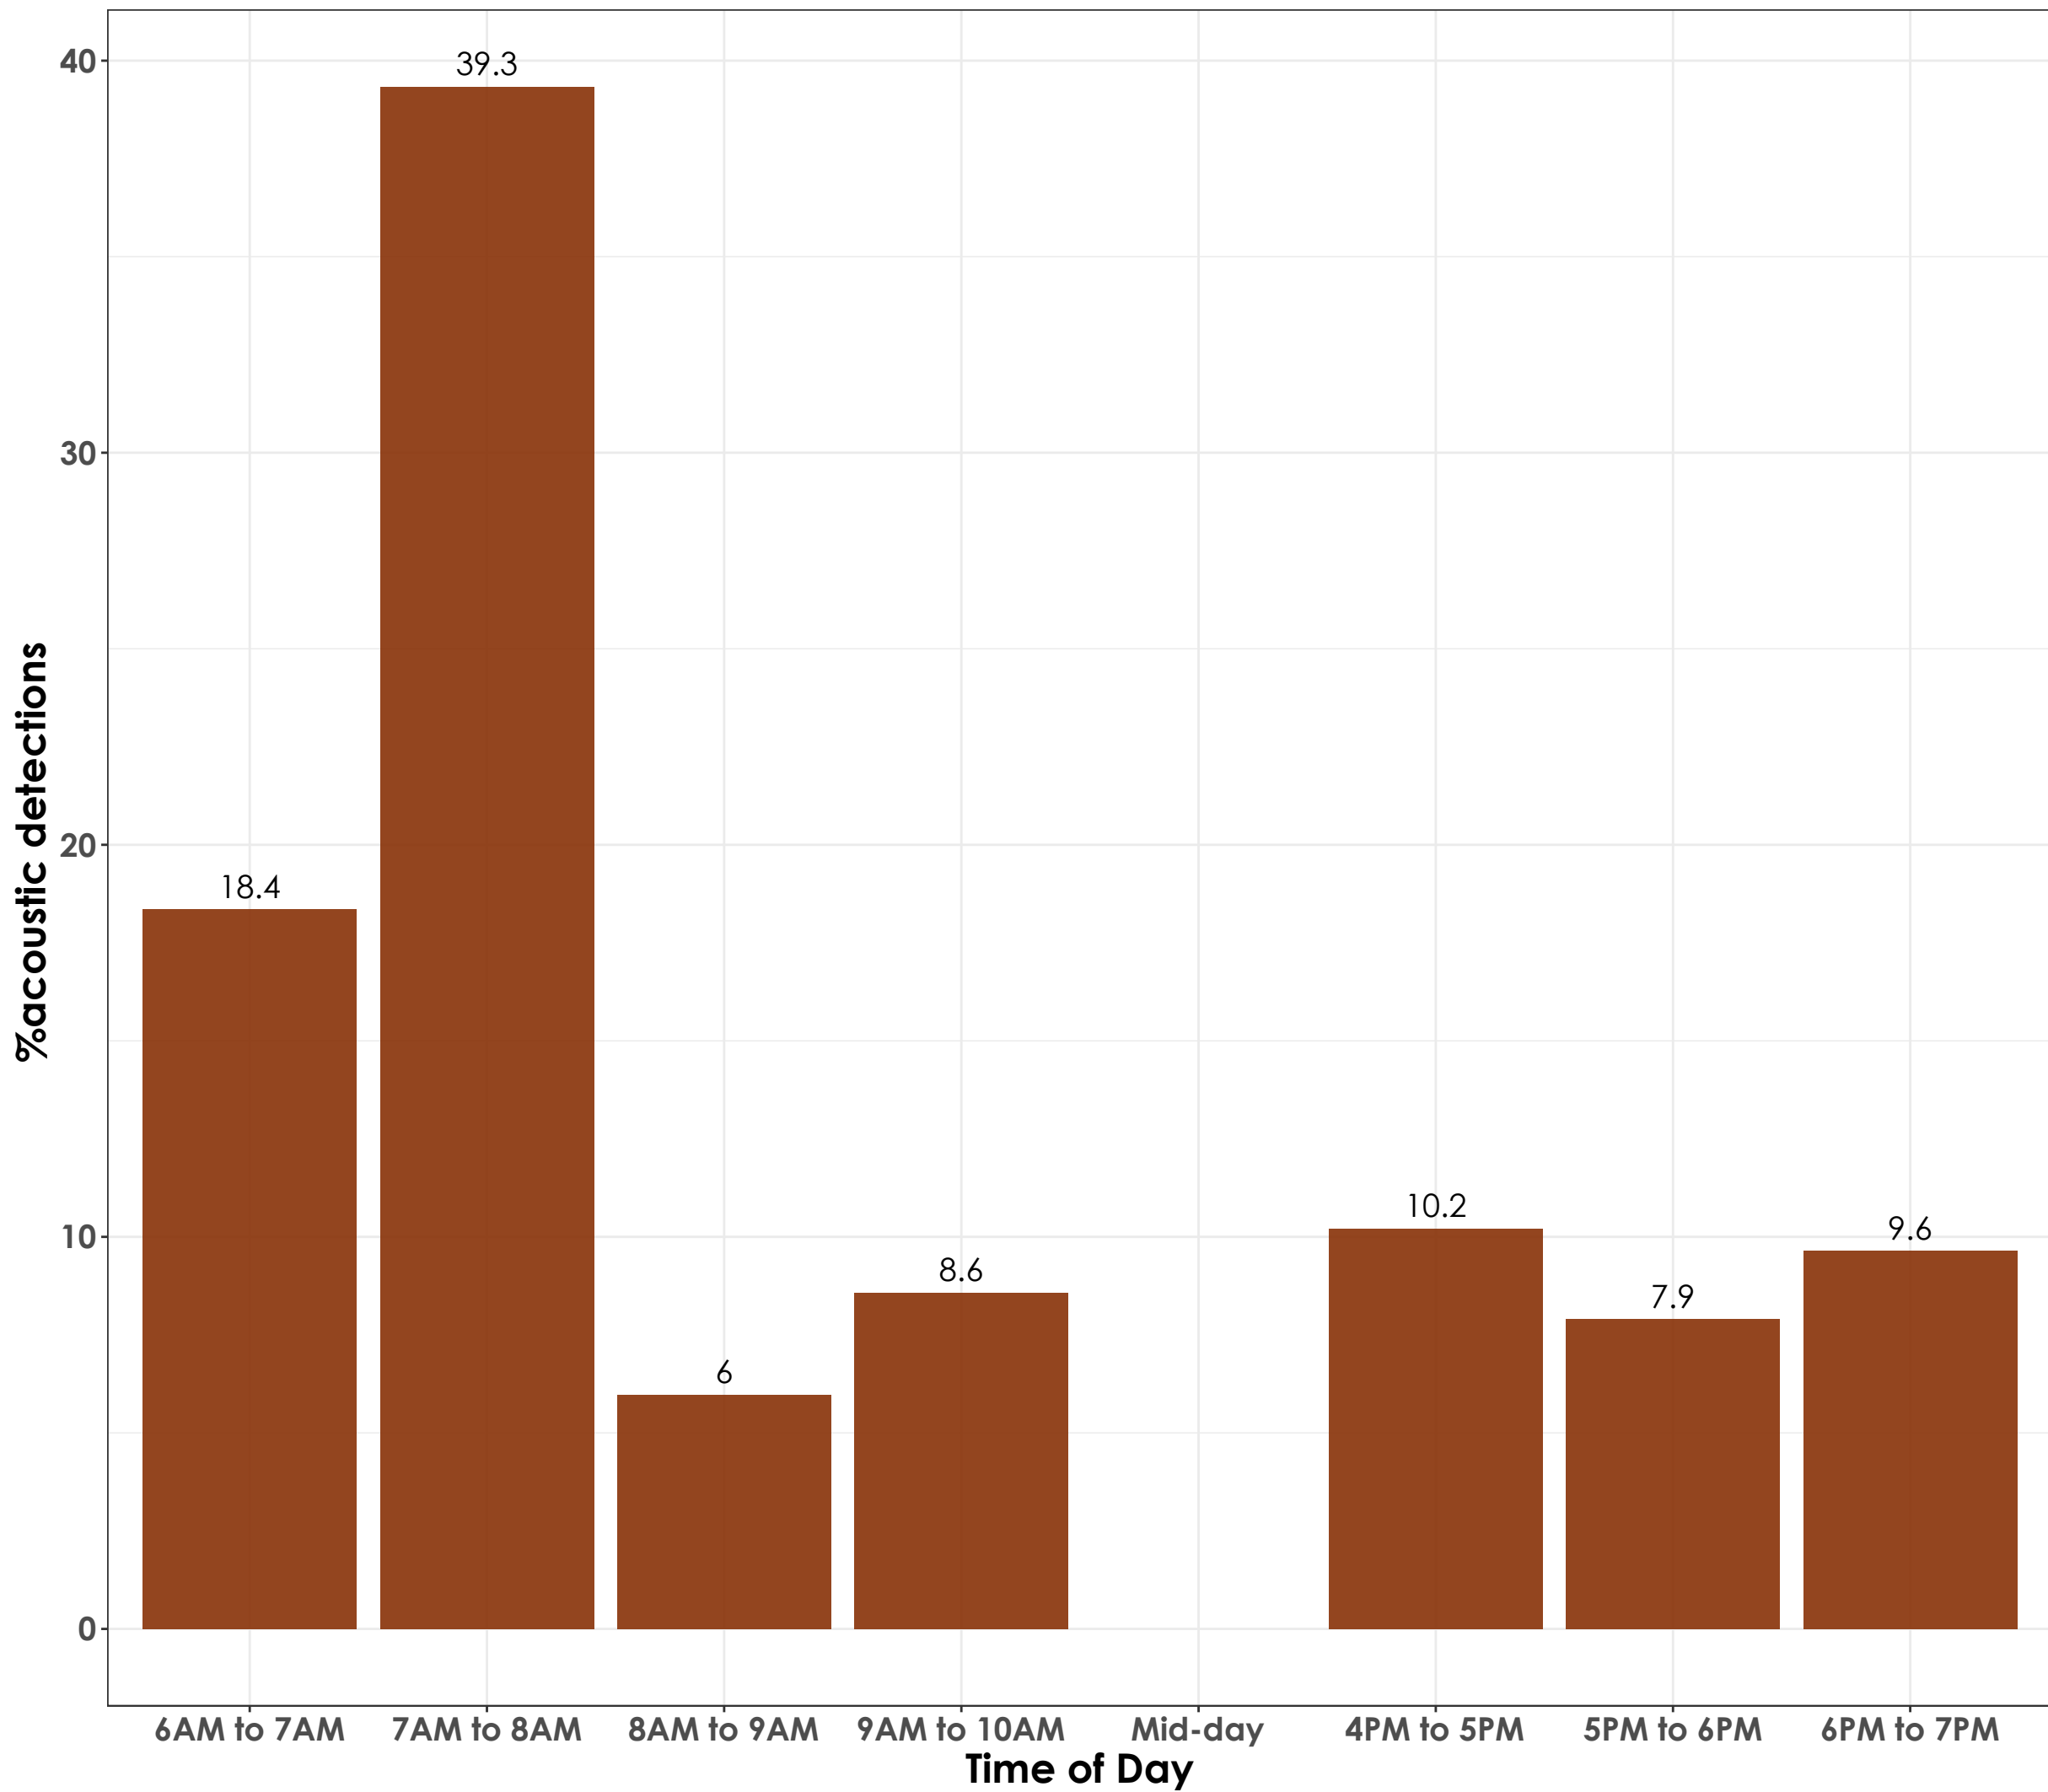

# Dark-fronted Babbler

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Great Hornbill

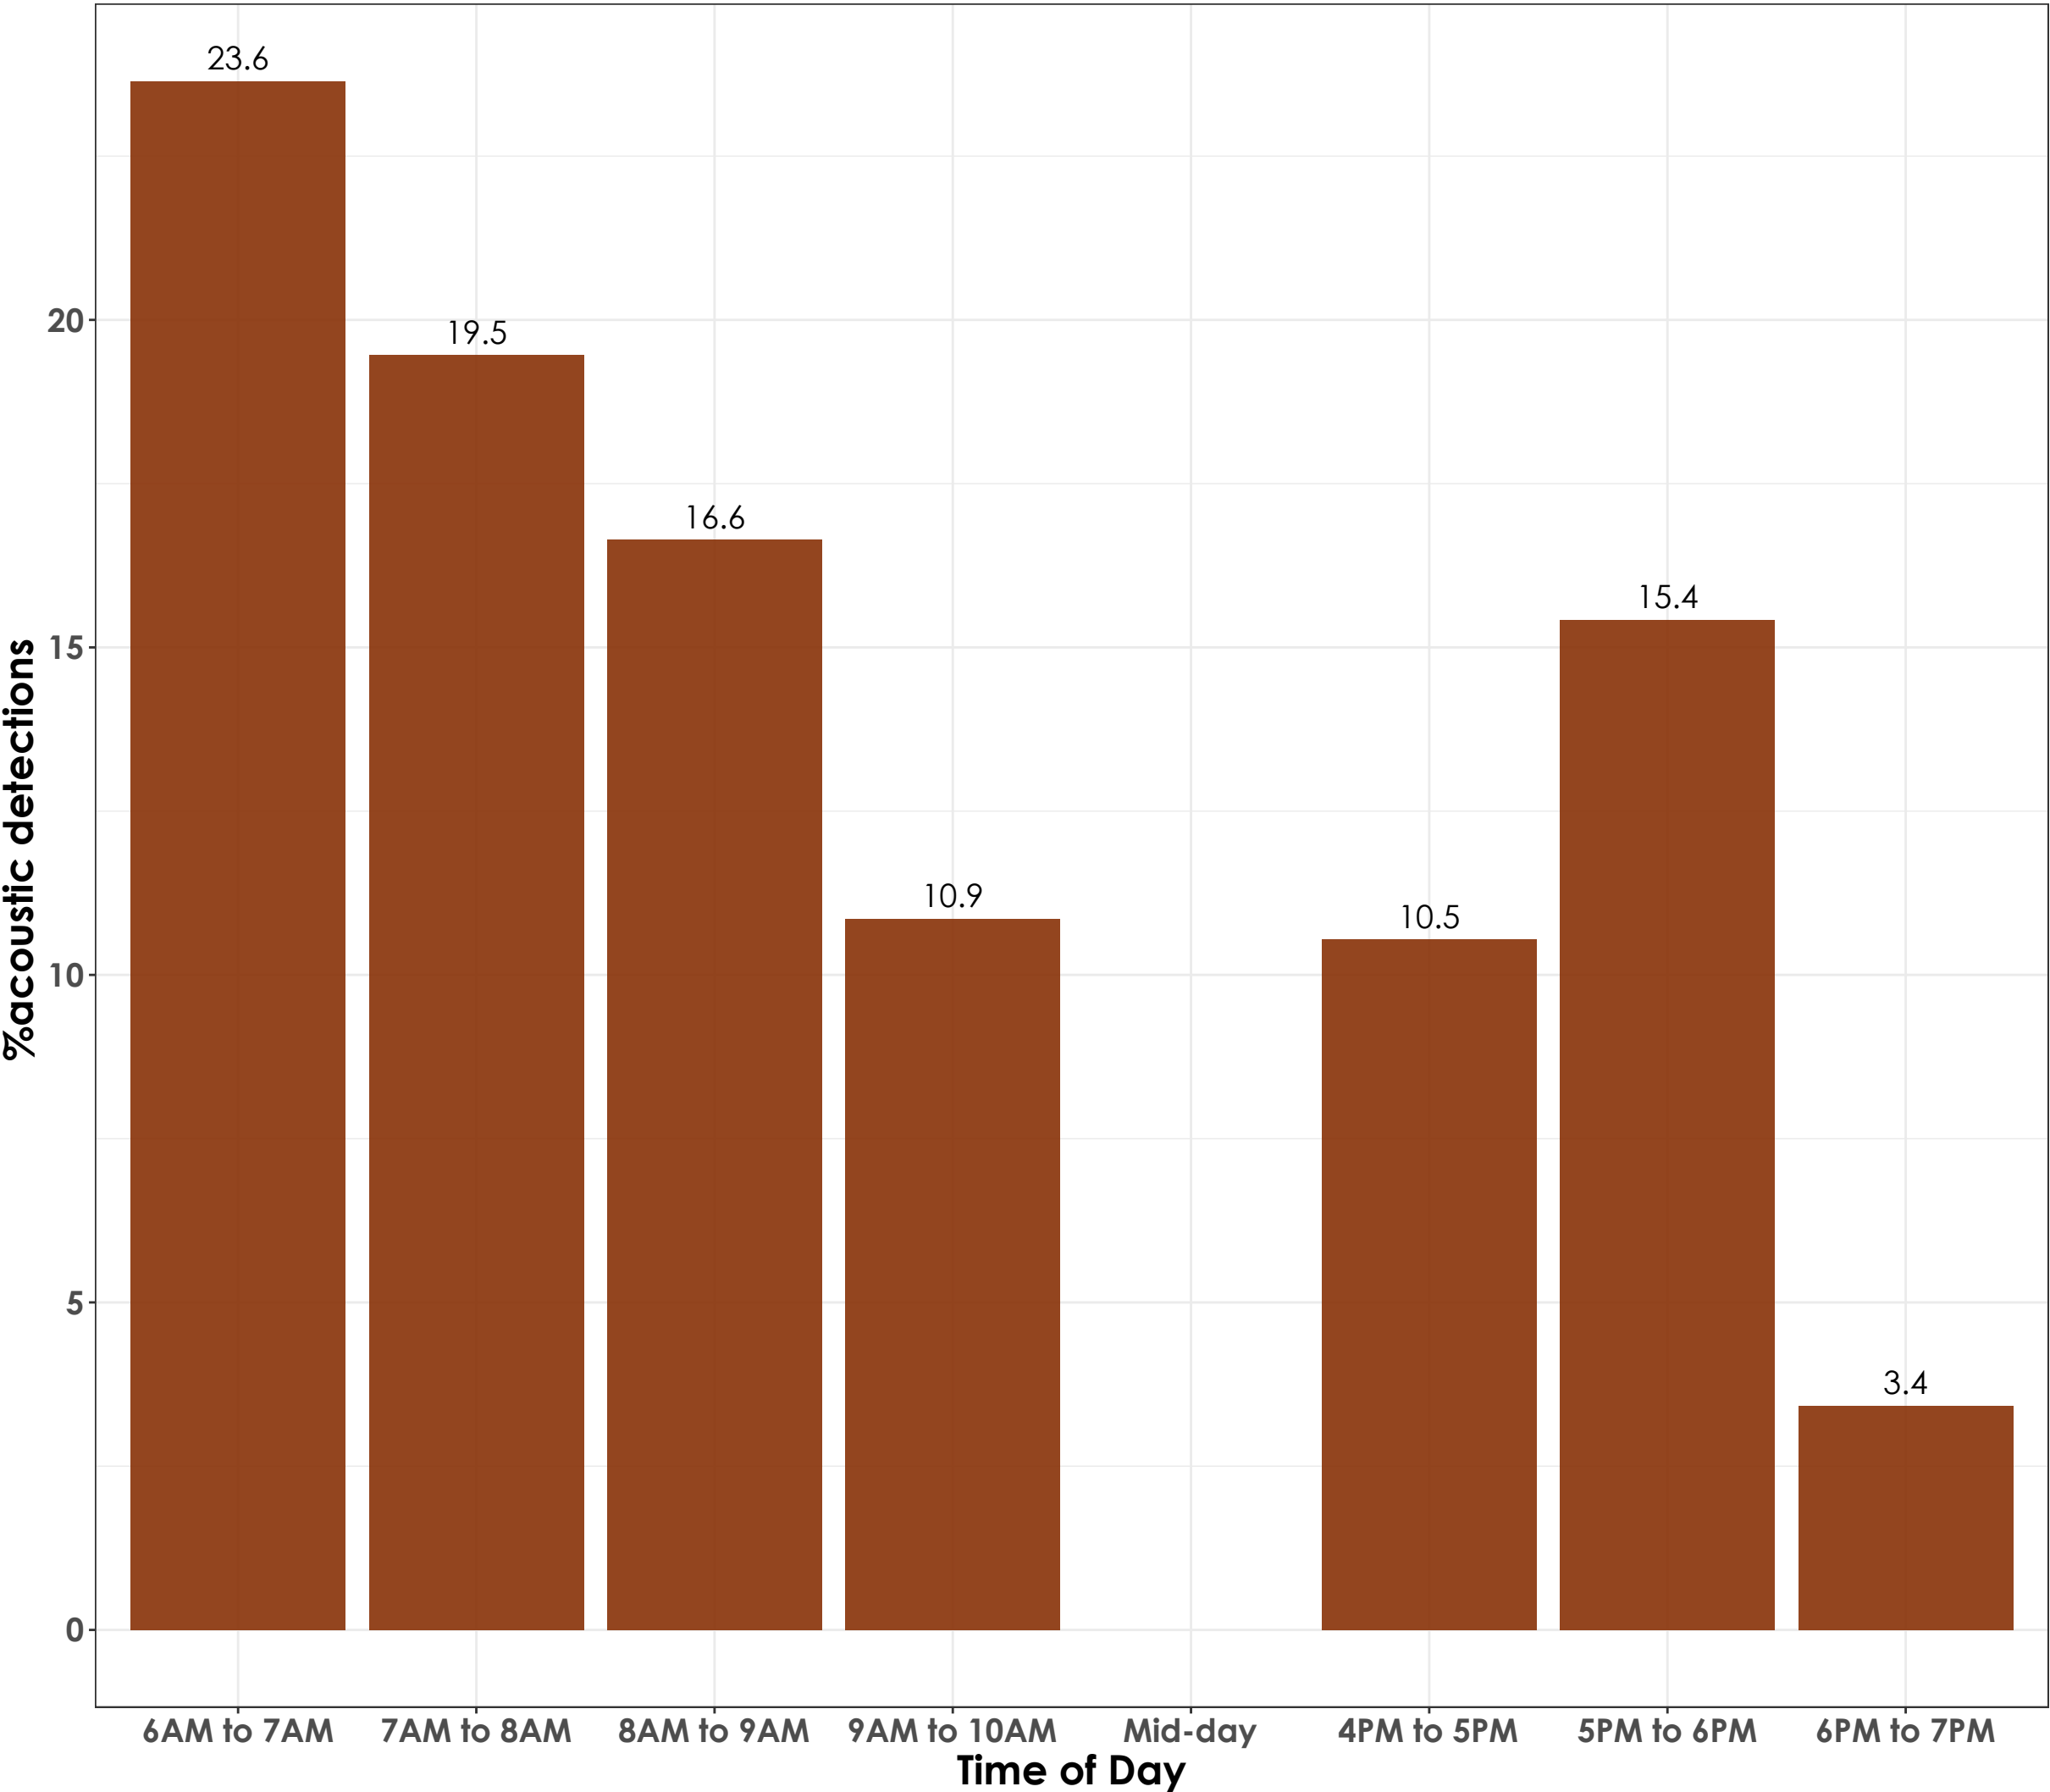

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

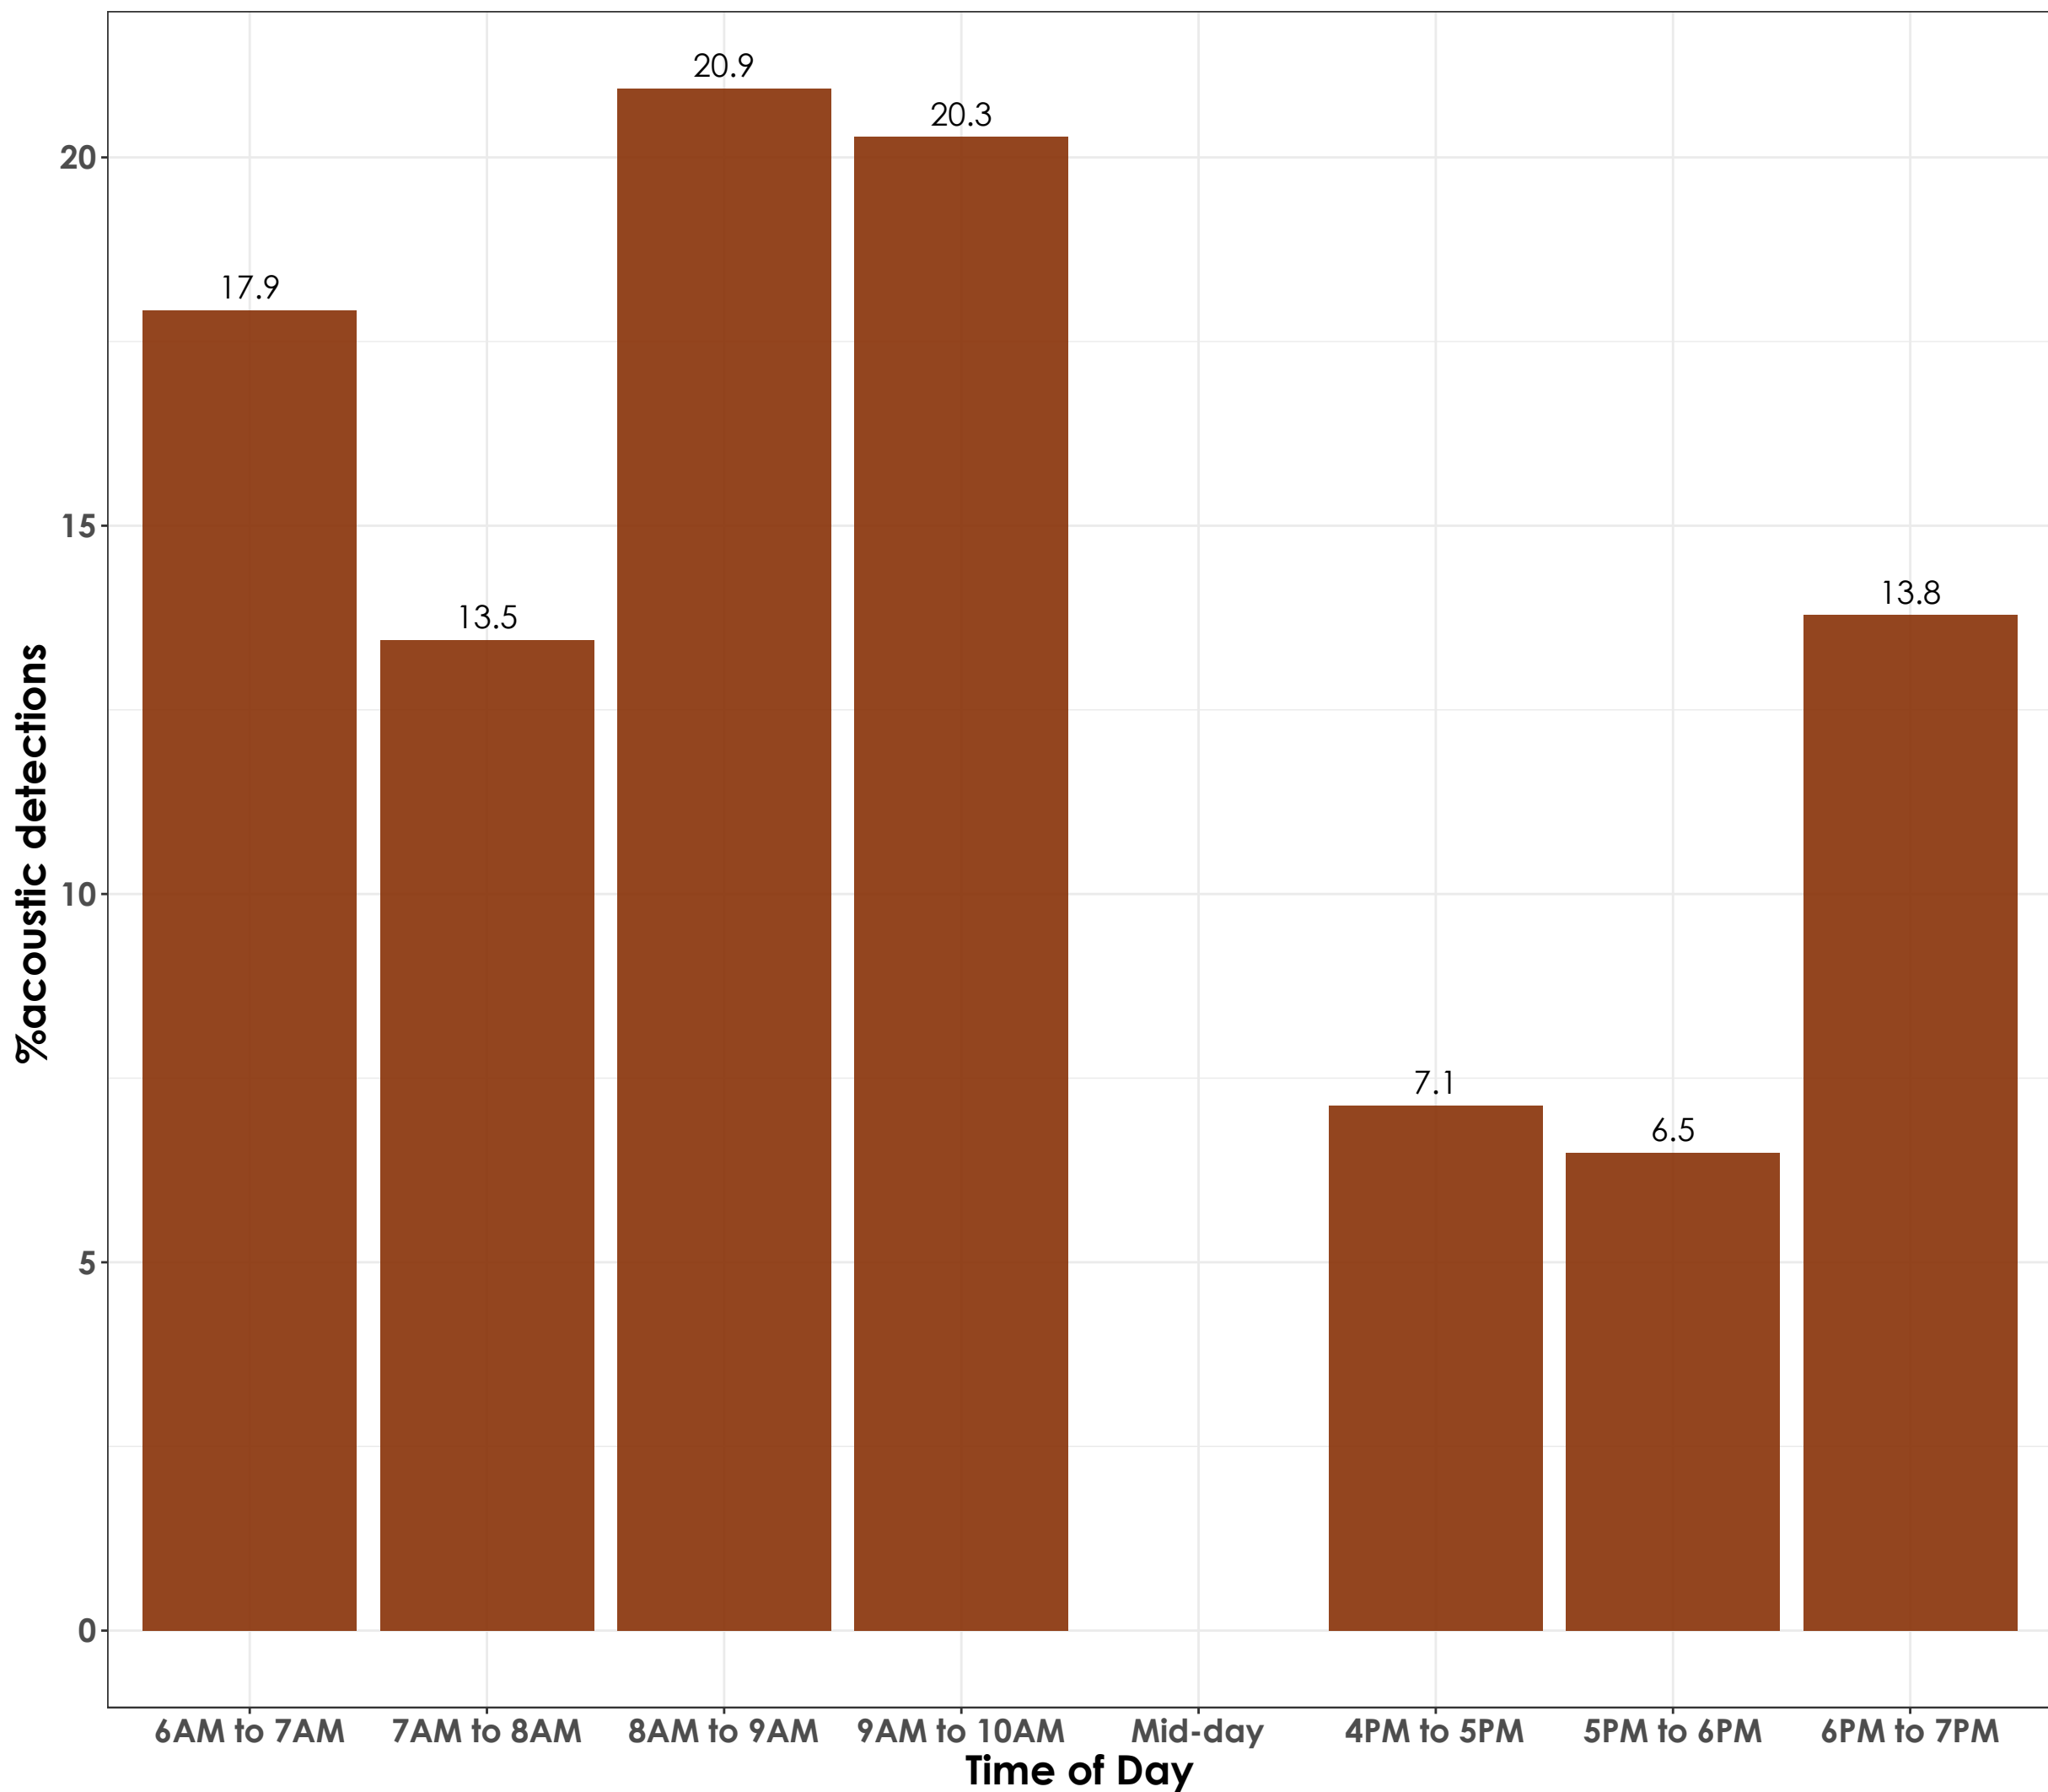

# Mountain Imperial-Pigeon

Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk

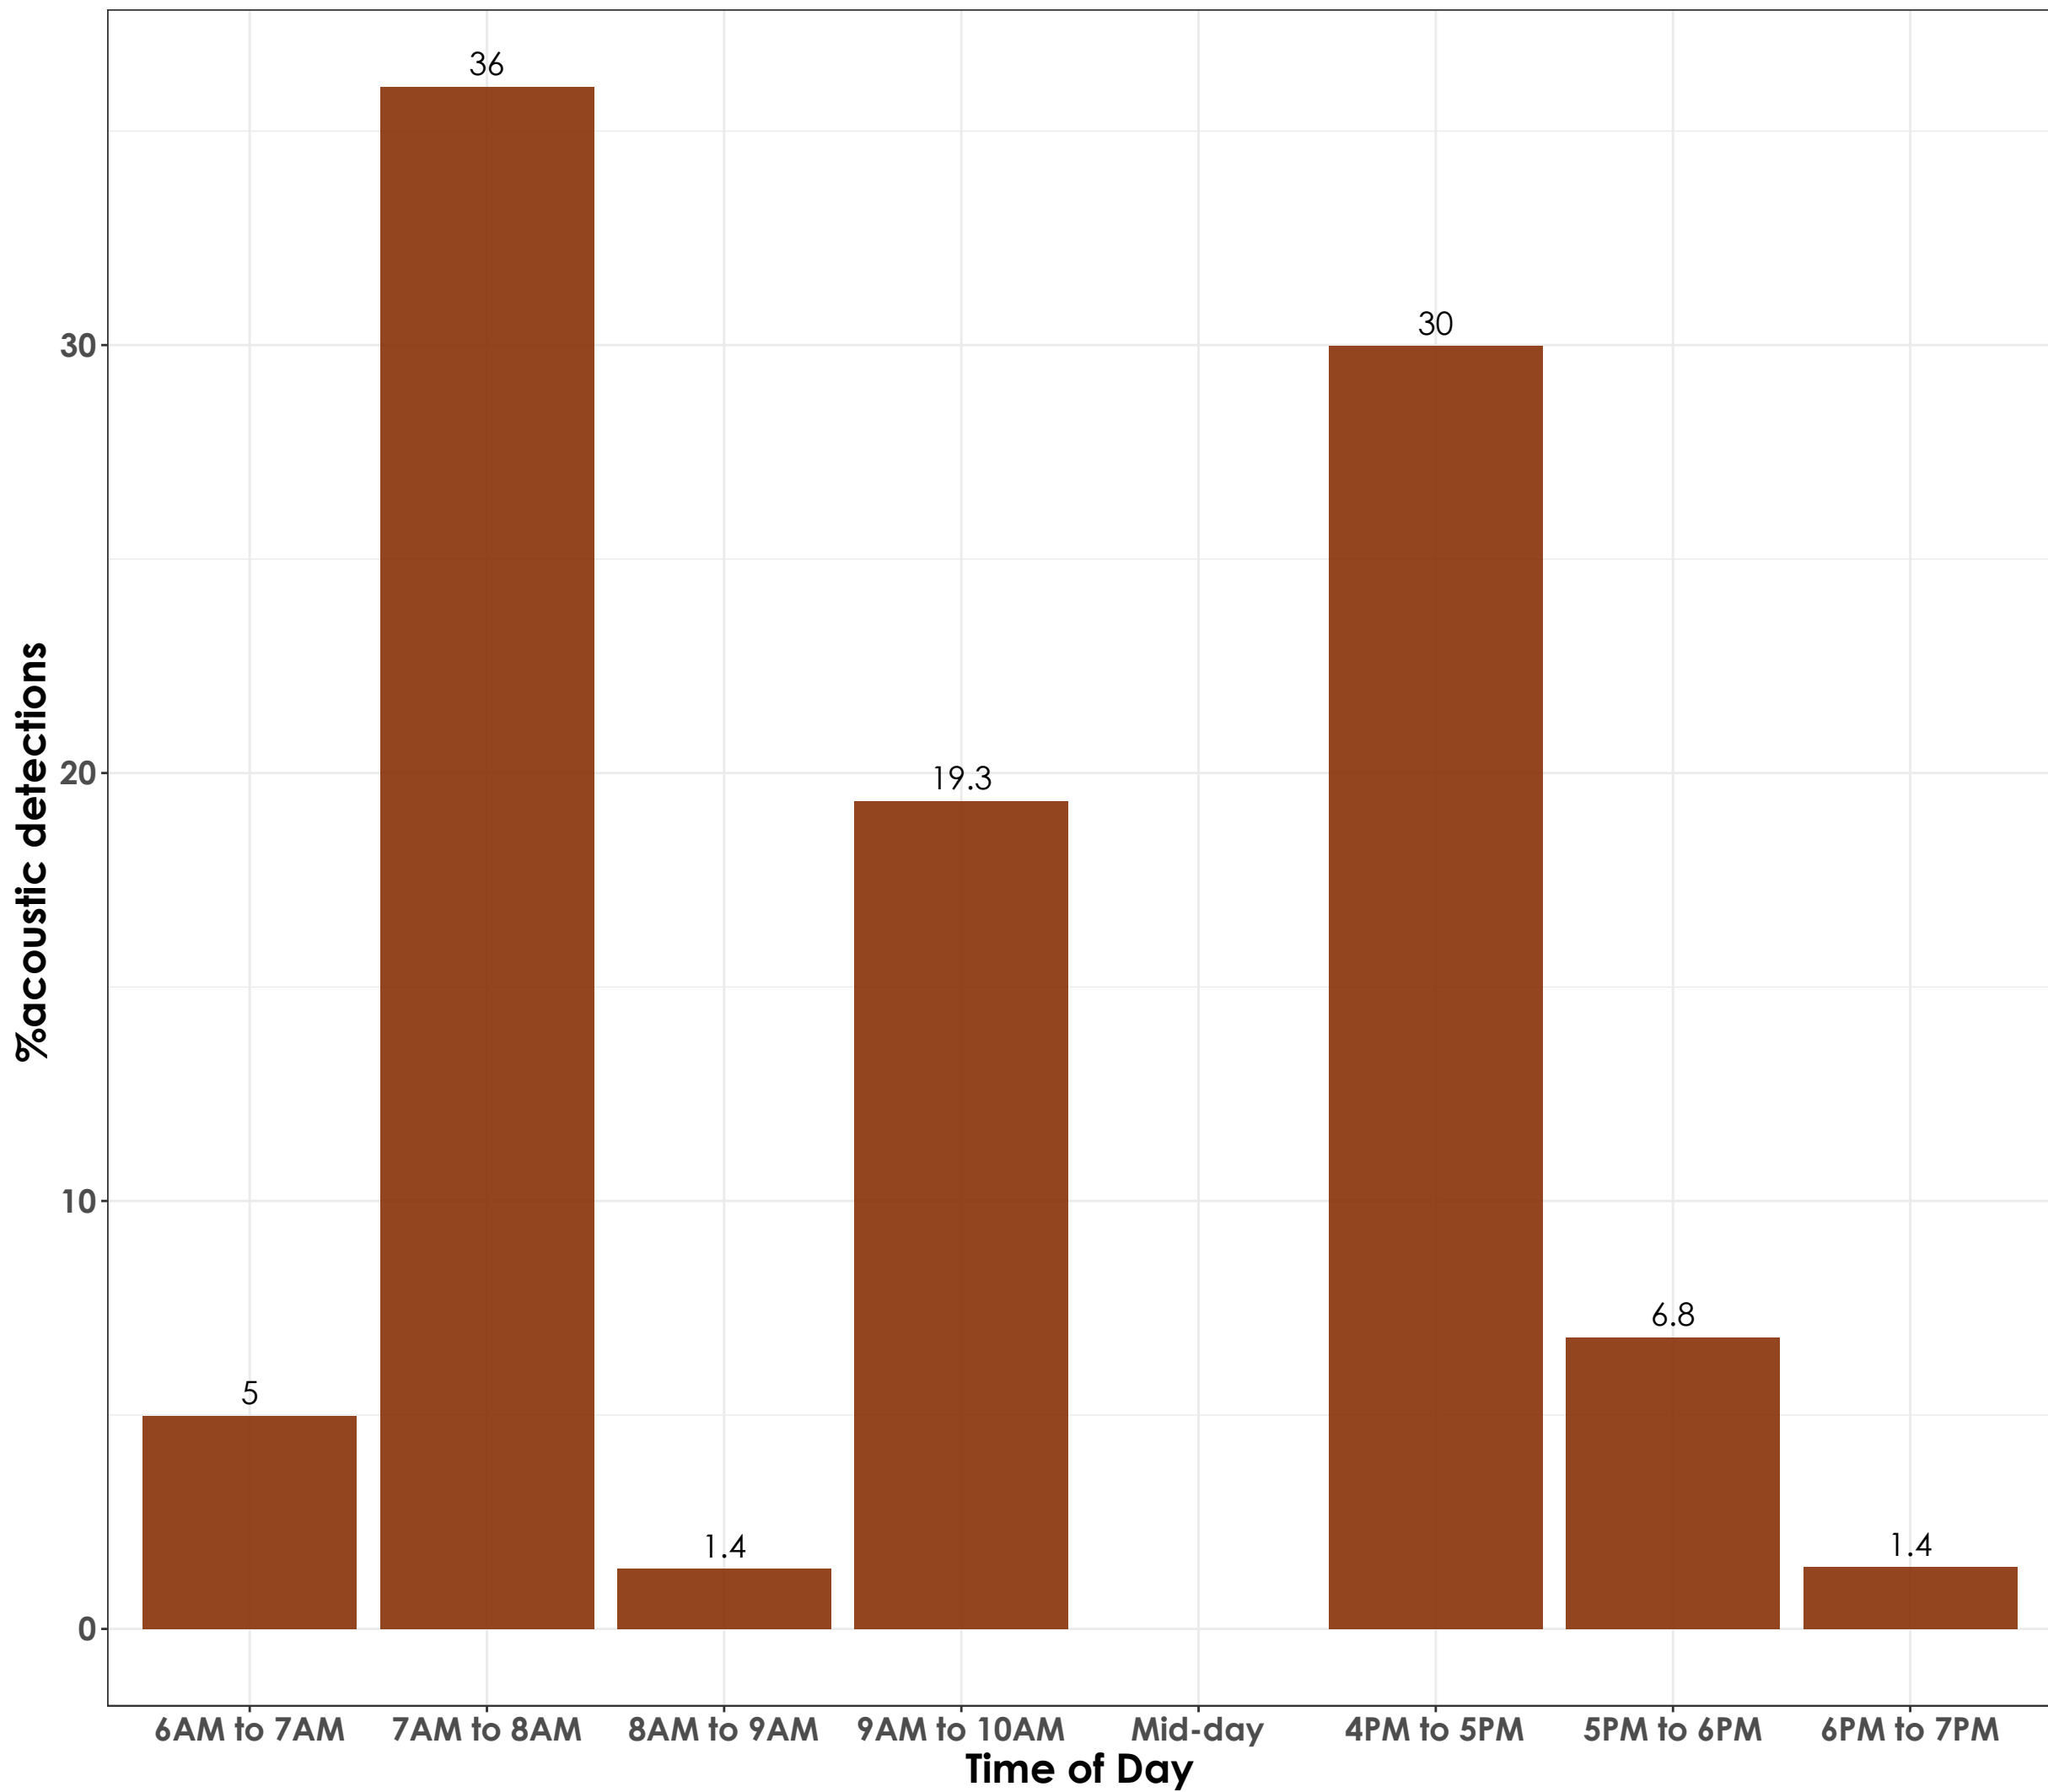

# Speckled Piculet

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

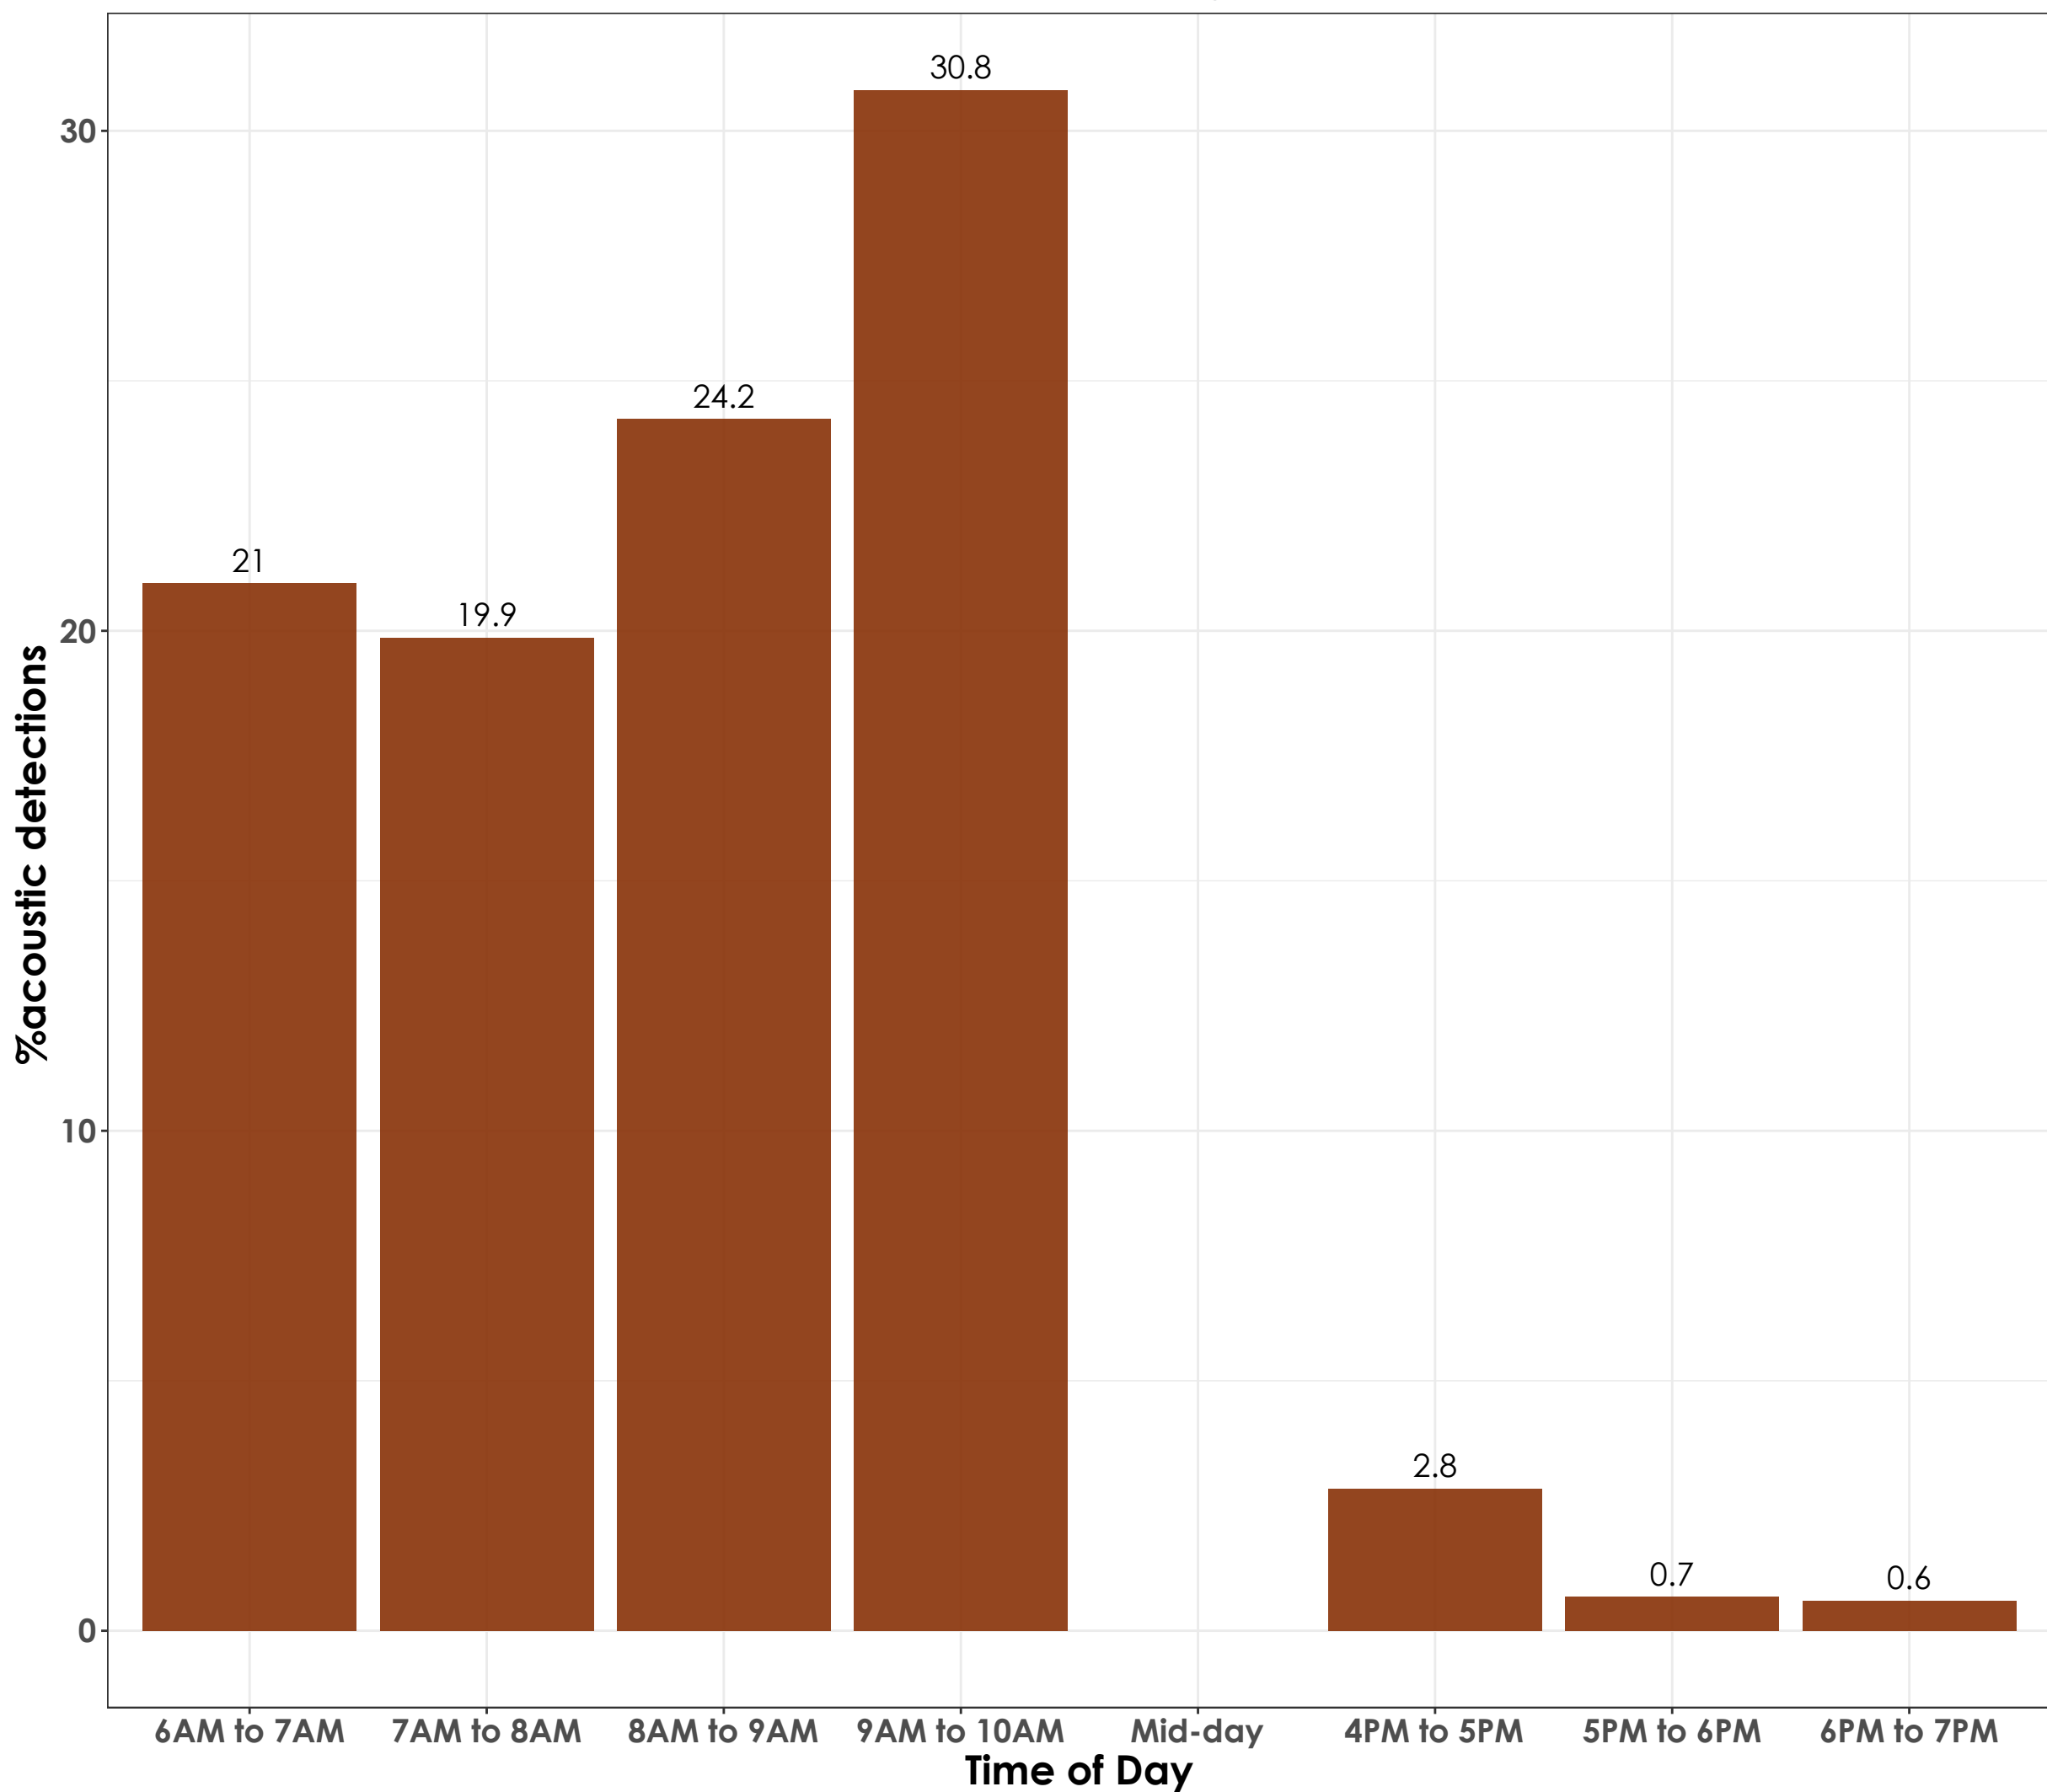

# Brown-breasted Flycatcher

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

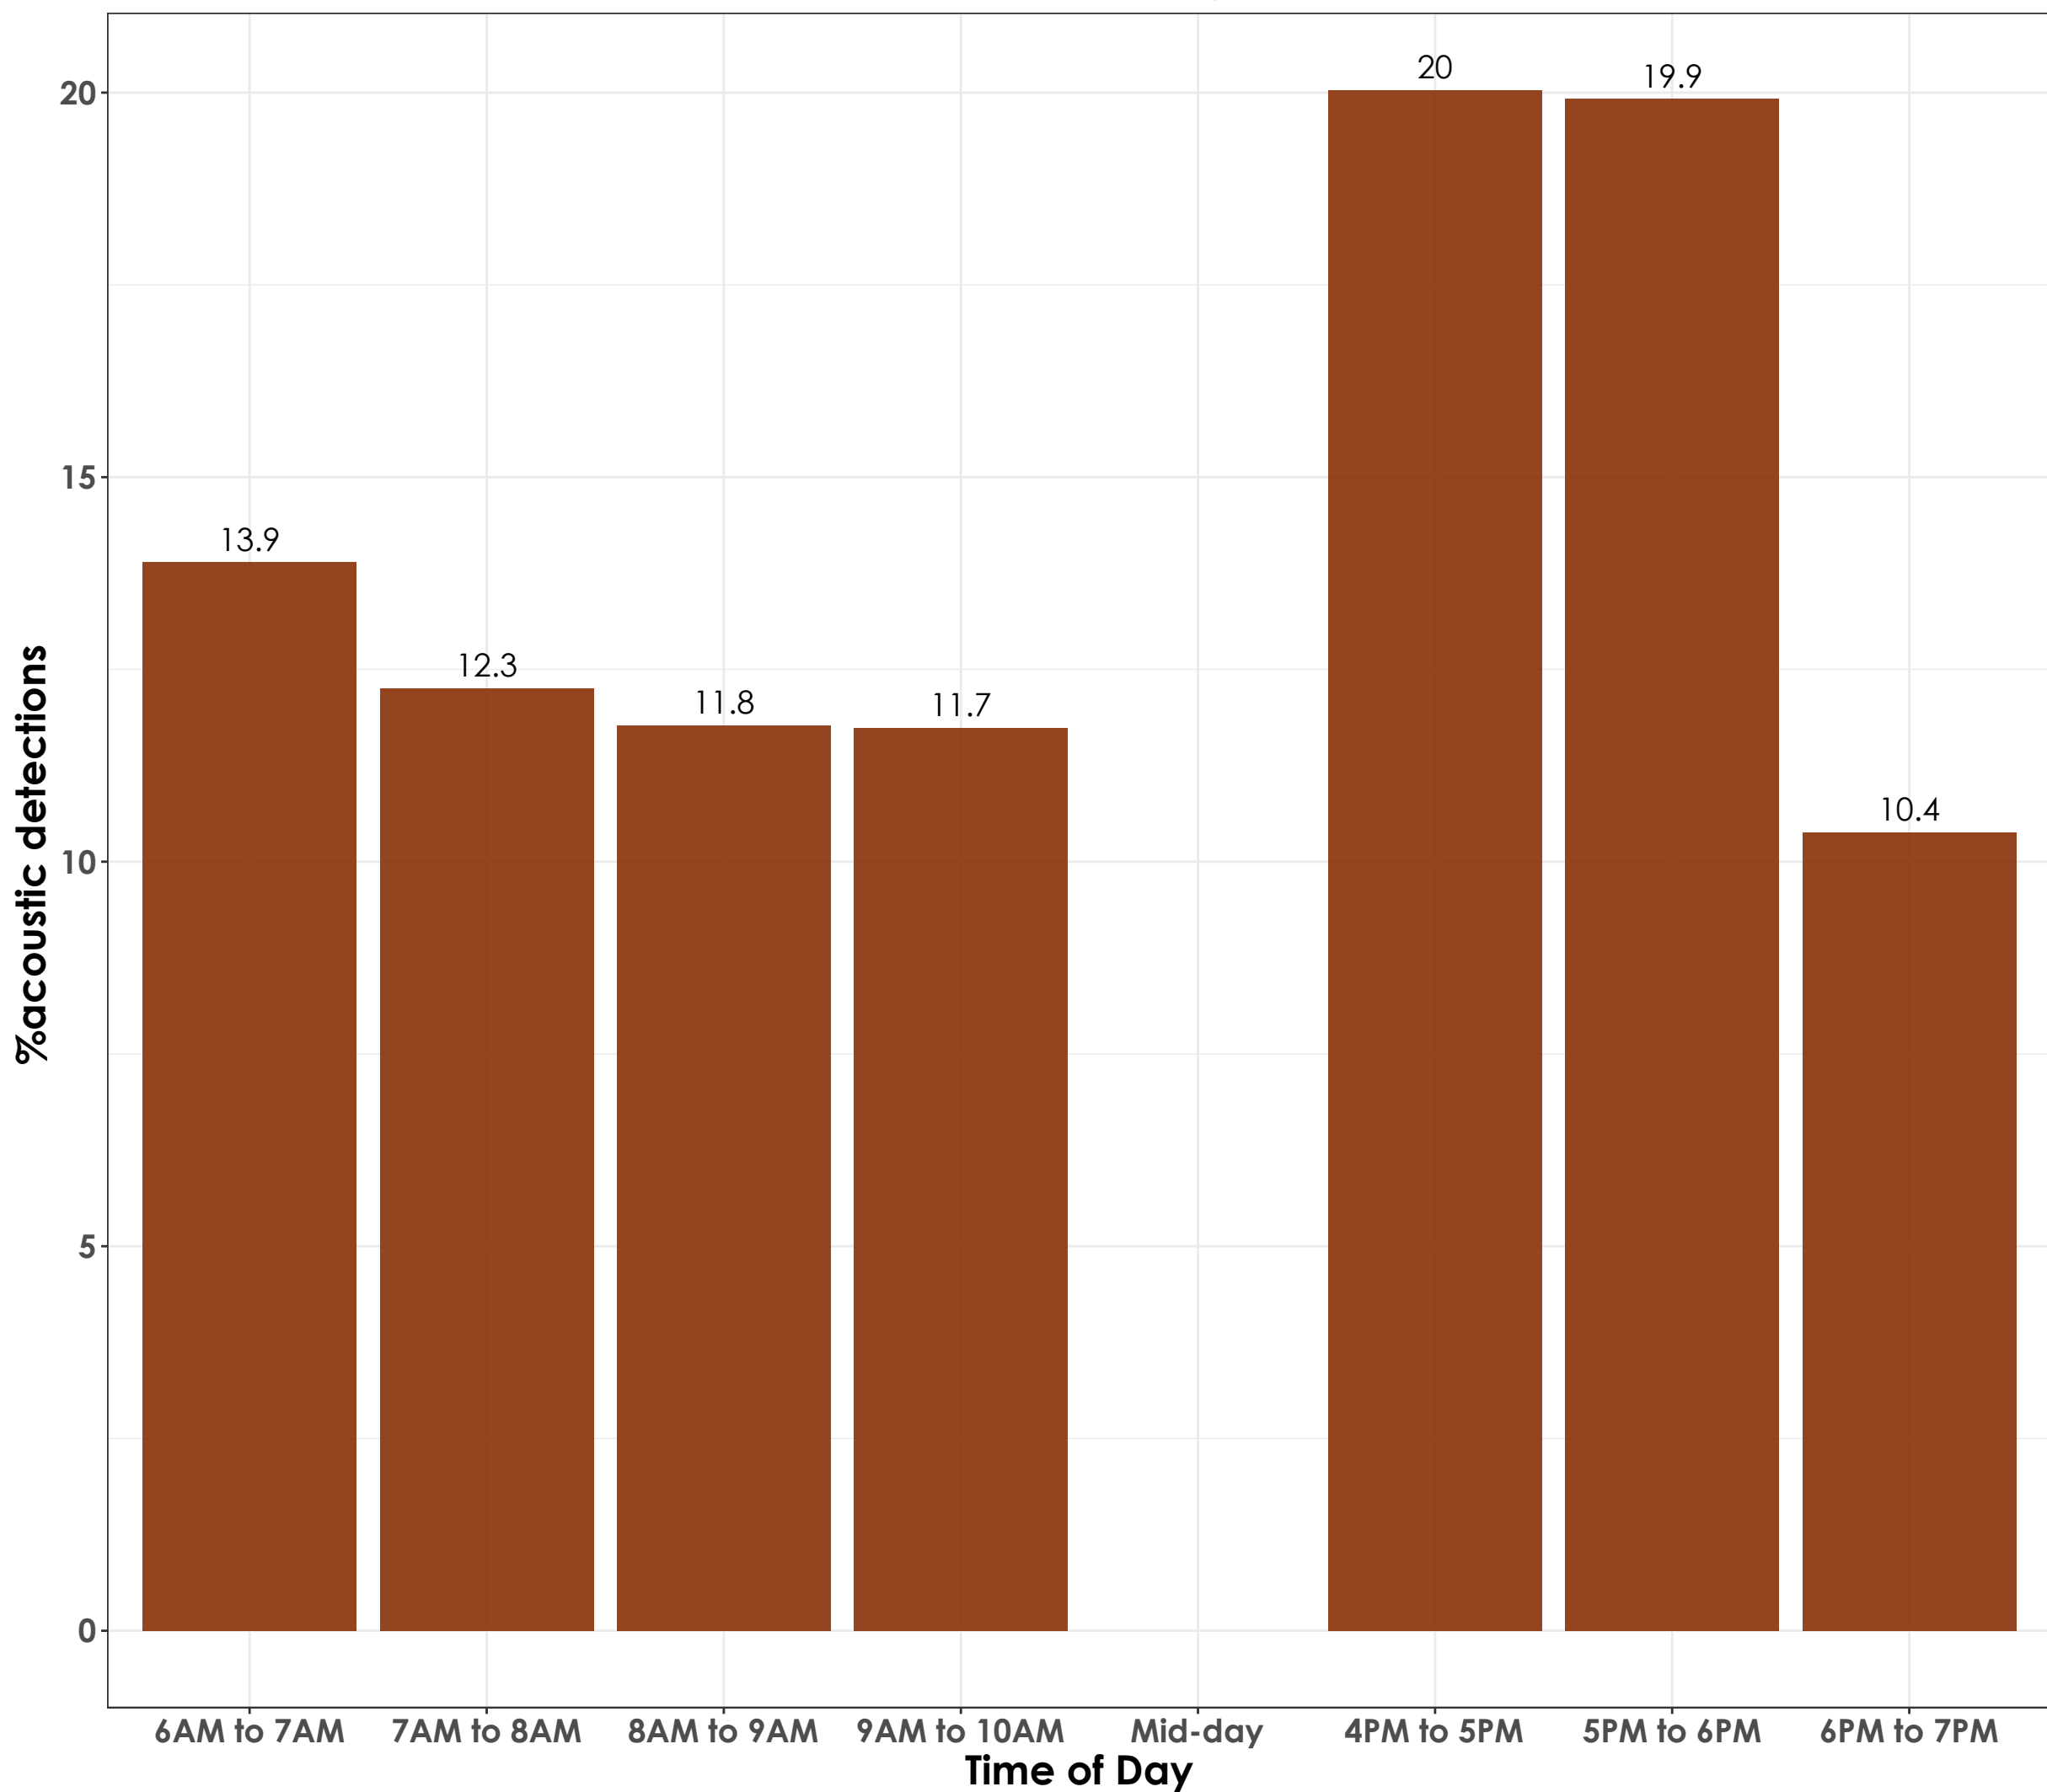

# Large-billed Leaf Warbler

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

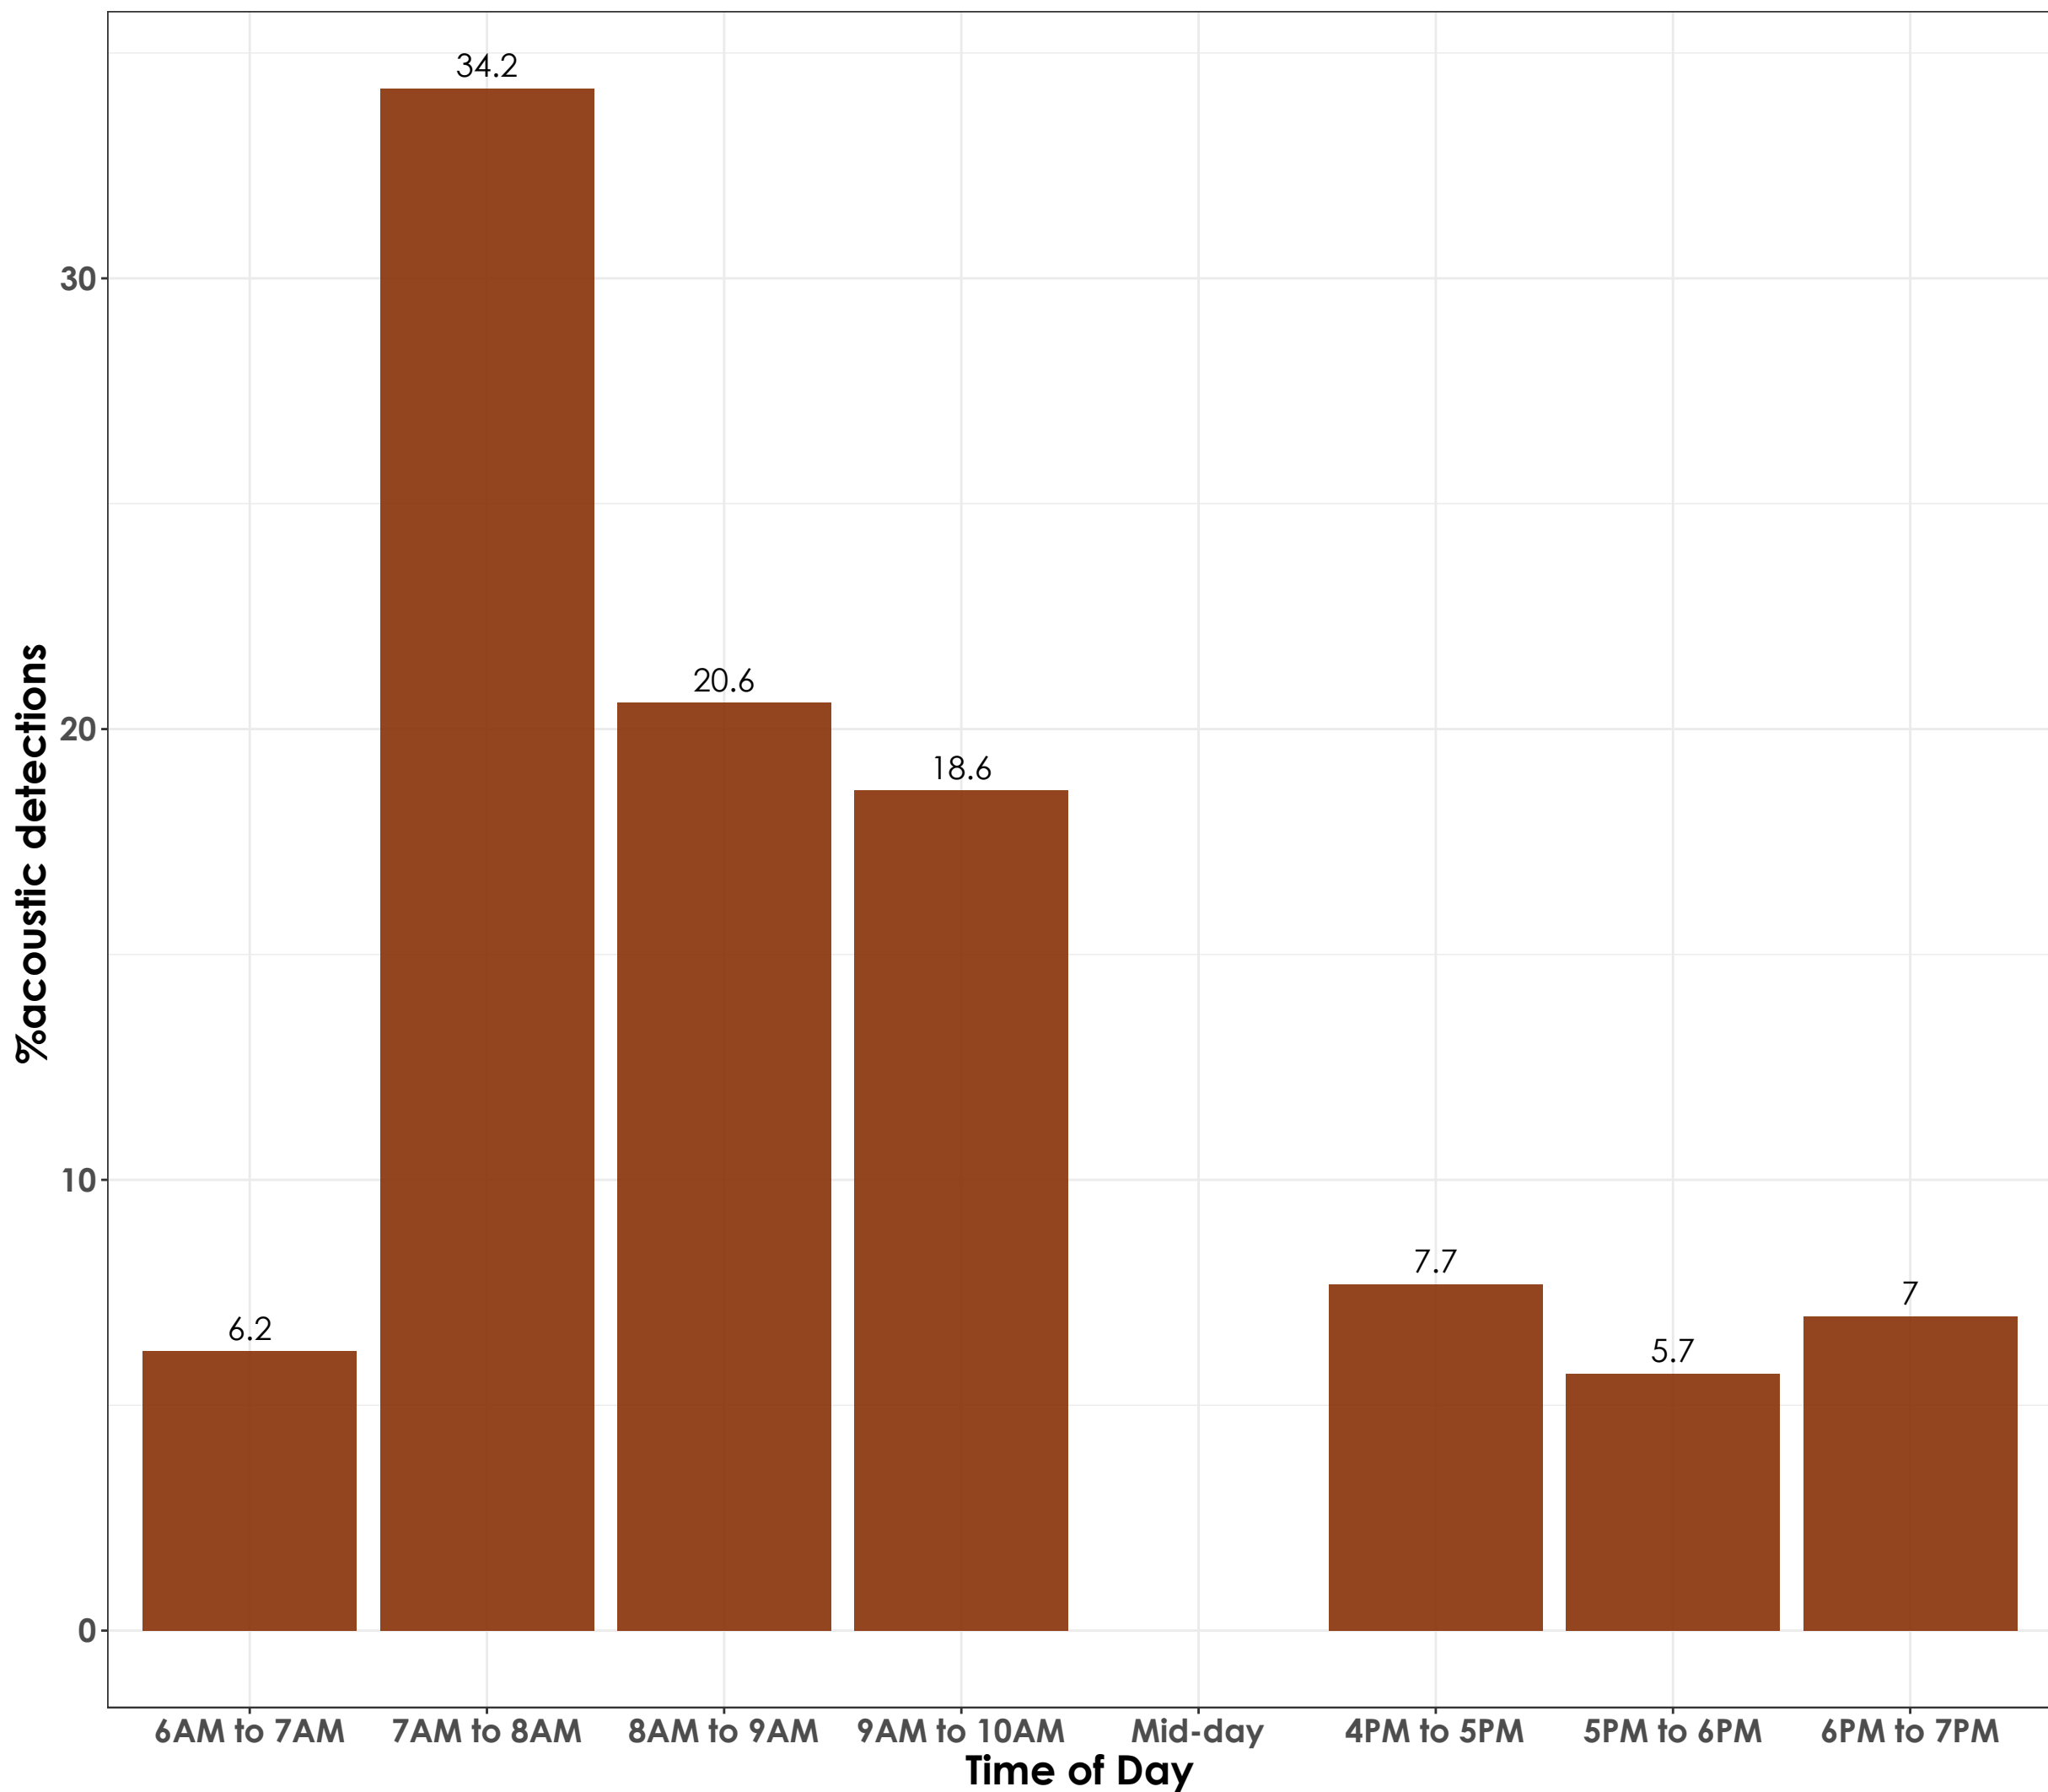

# Southern Hill Myna

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

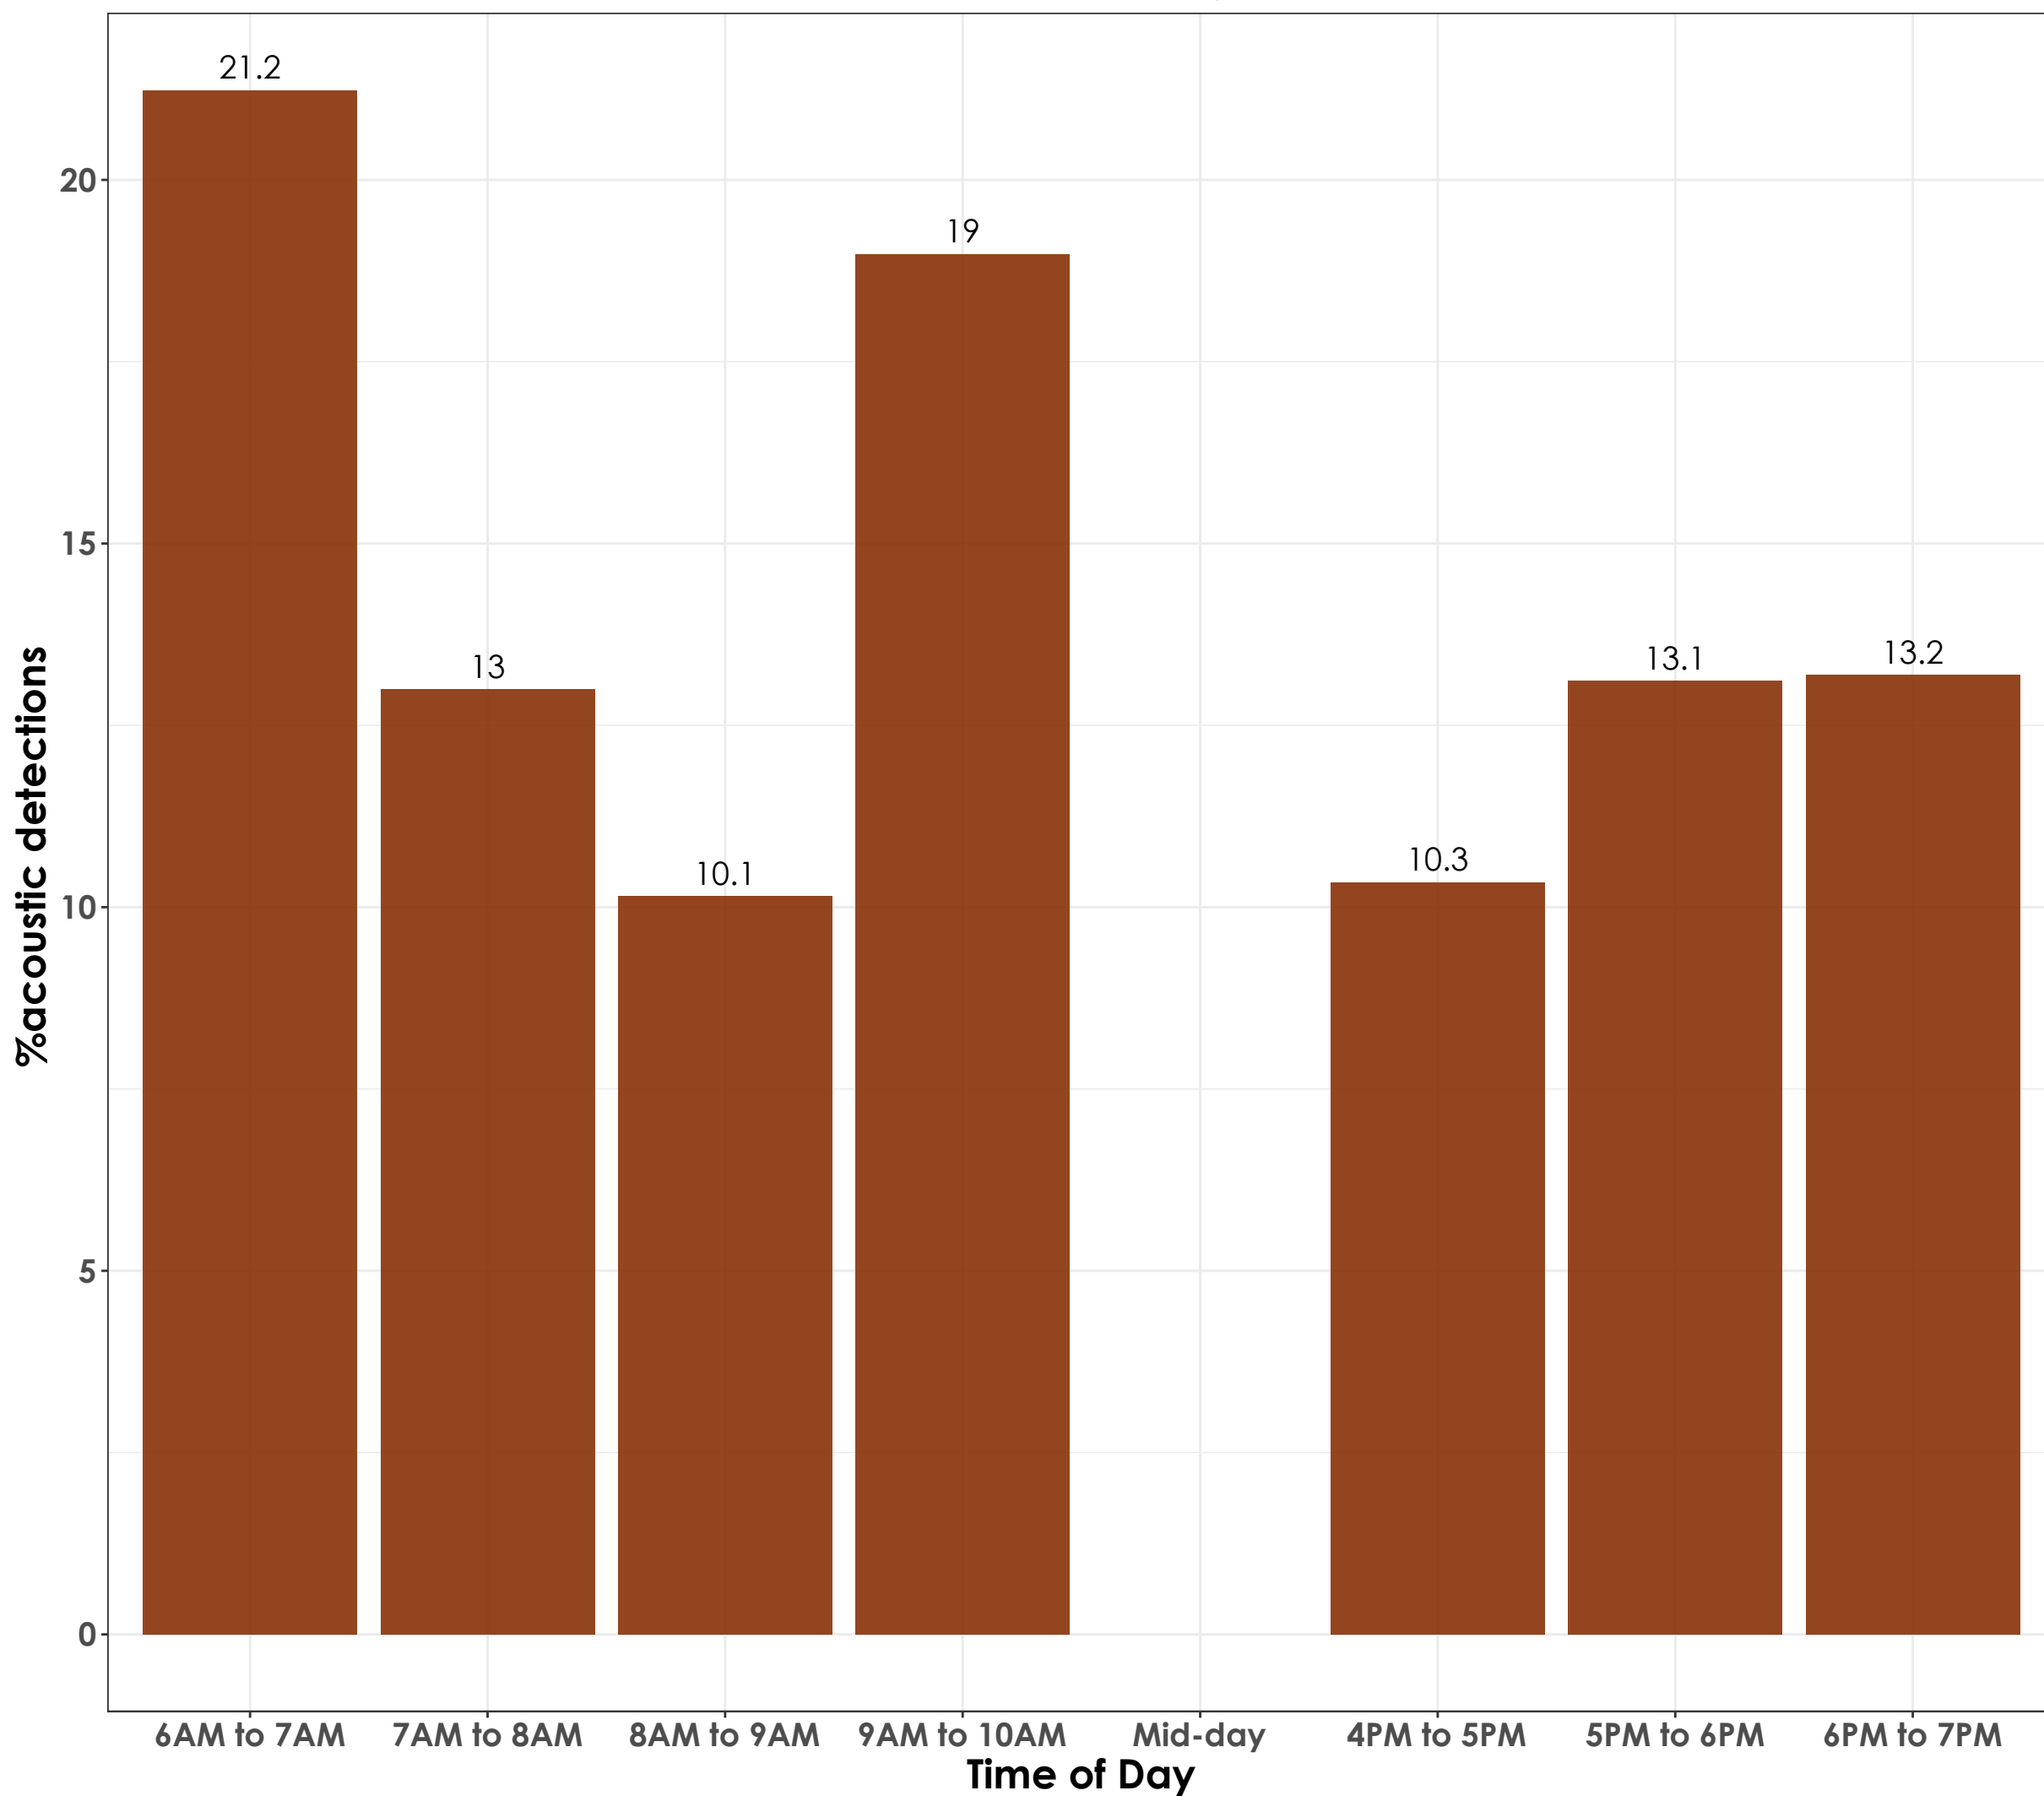

# Spotted Dove

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

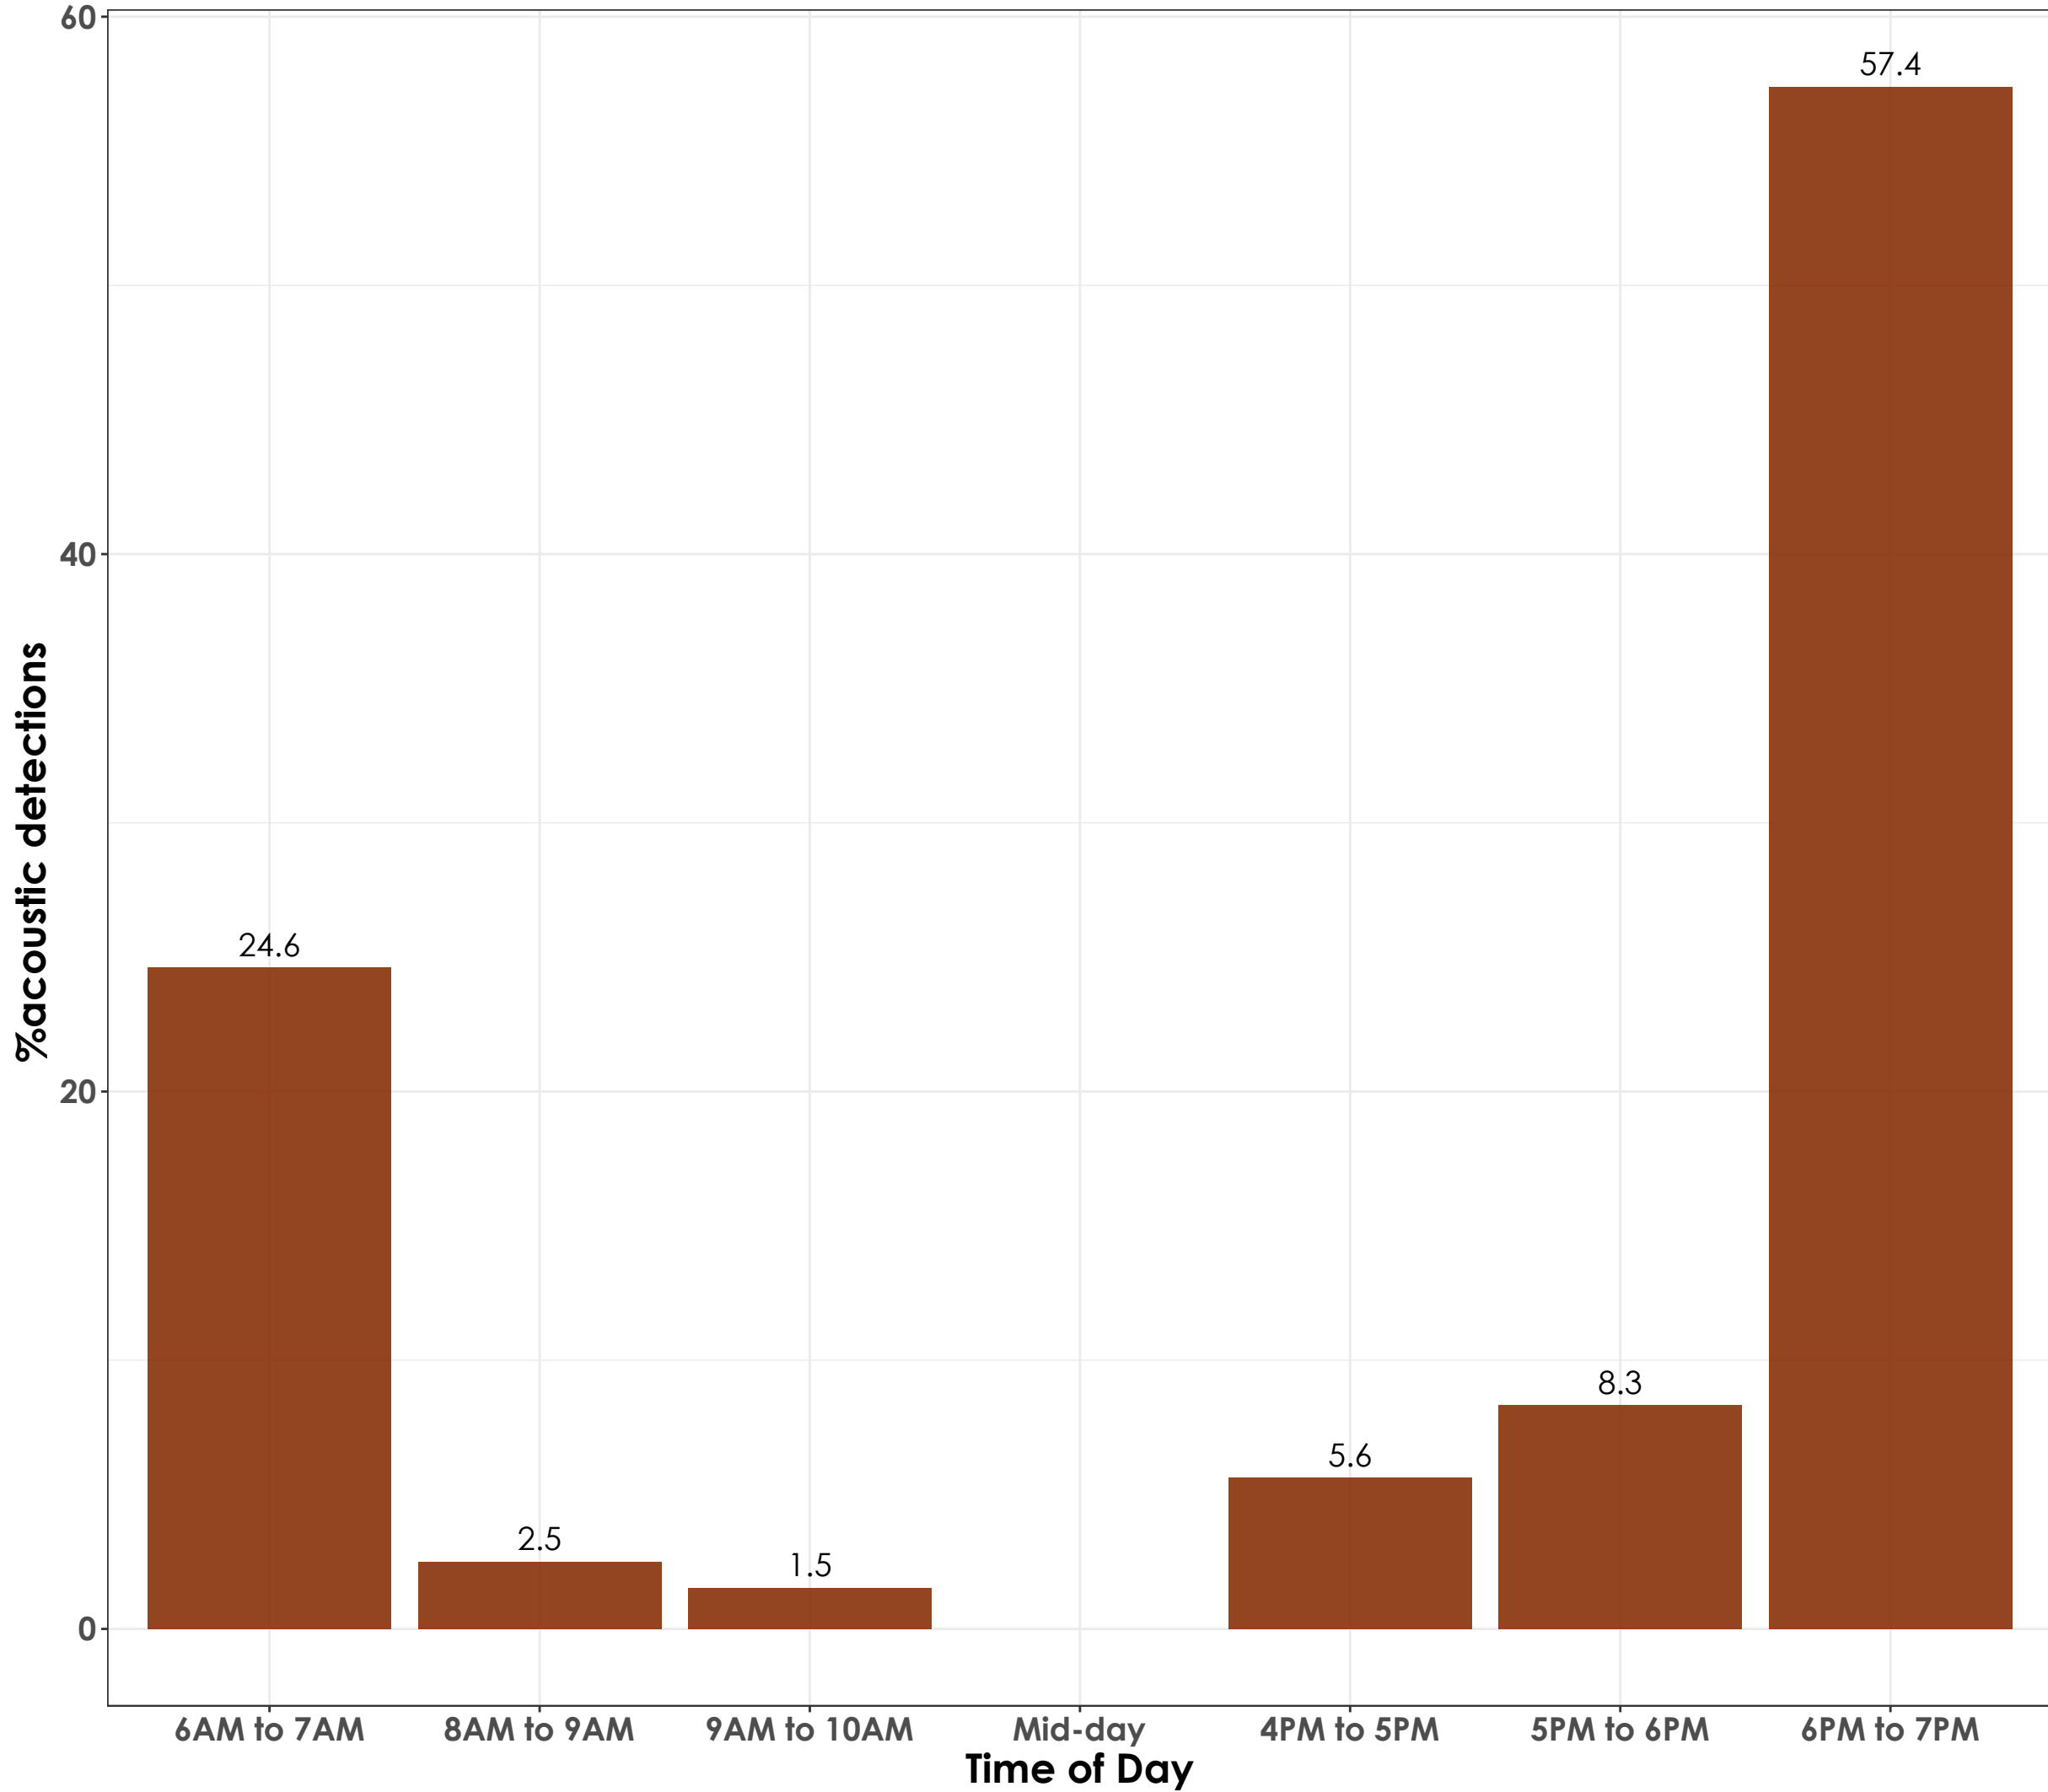

# Asian Fairy-bluebird

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Indian Pitta

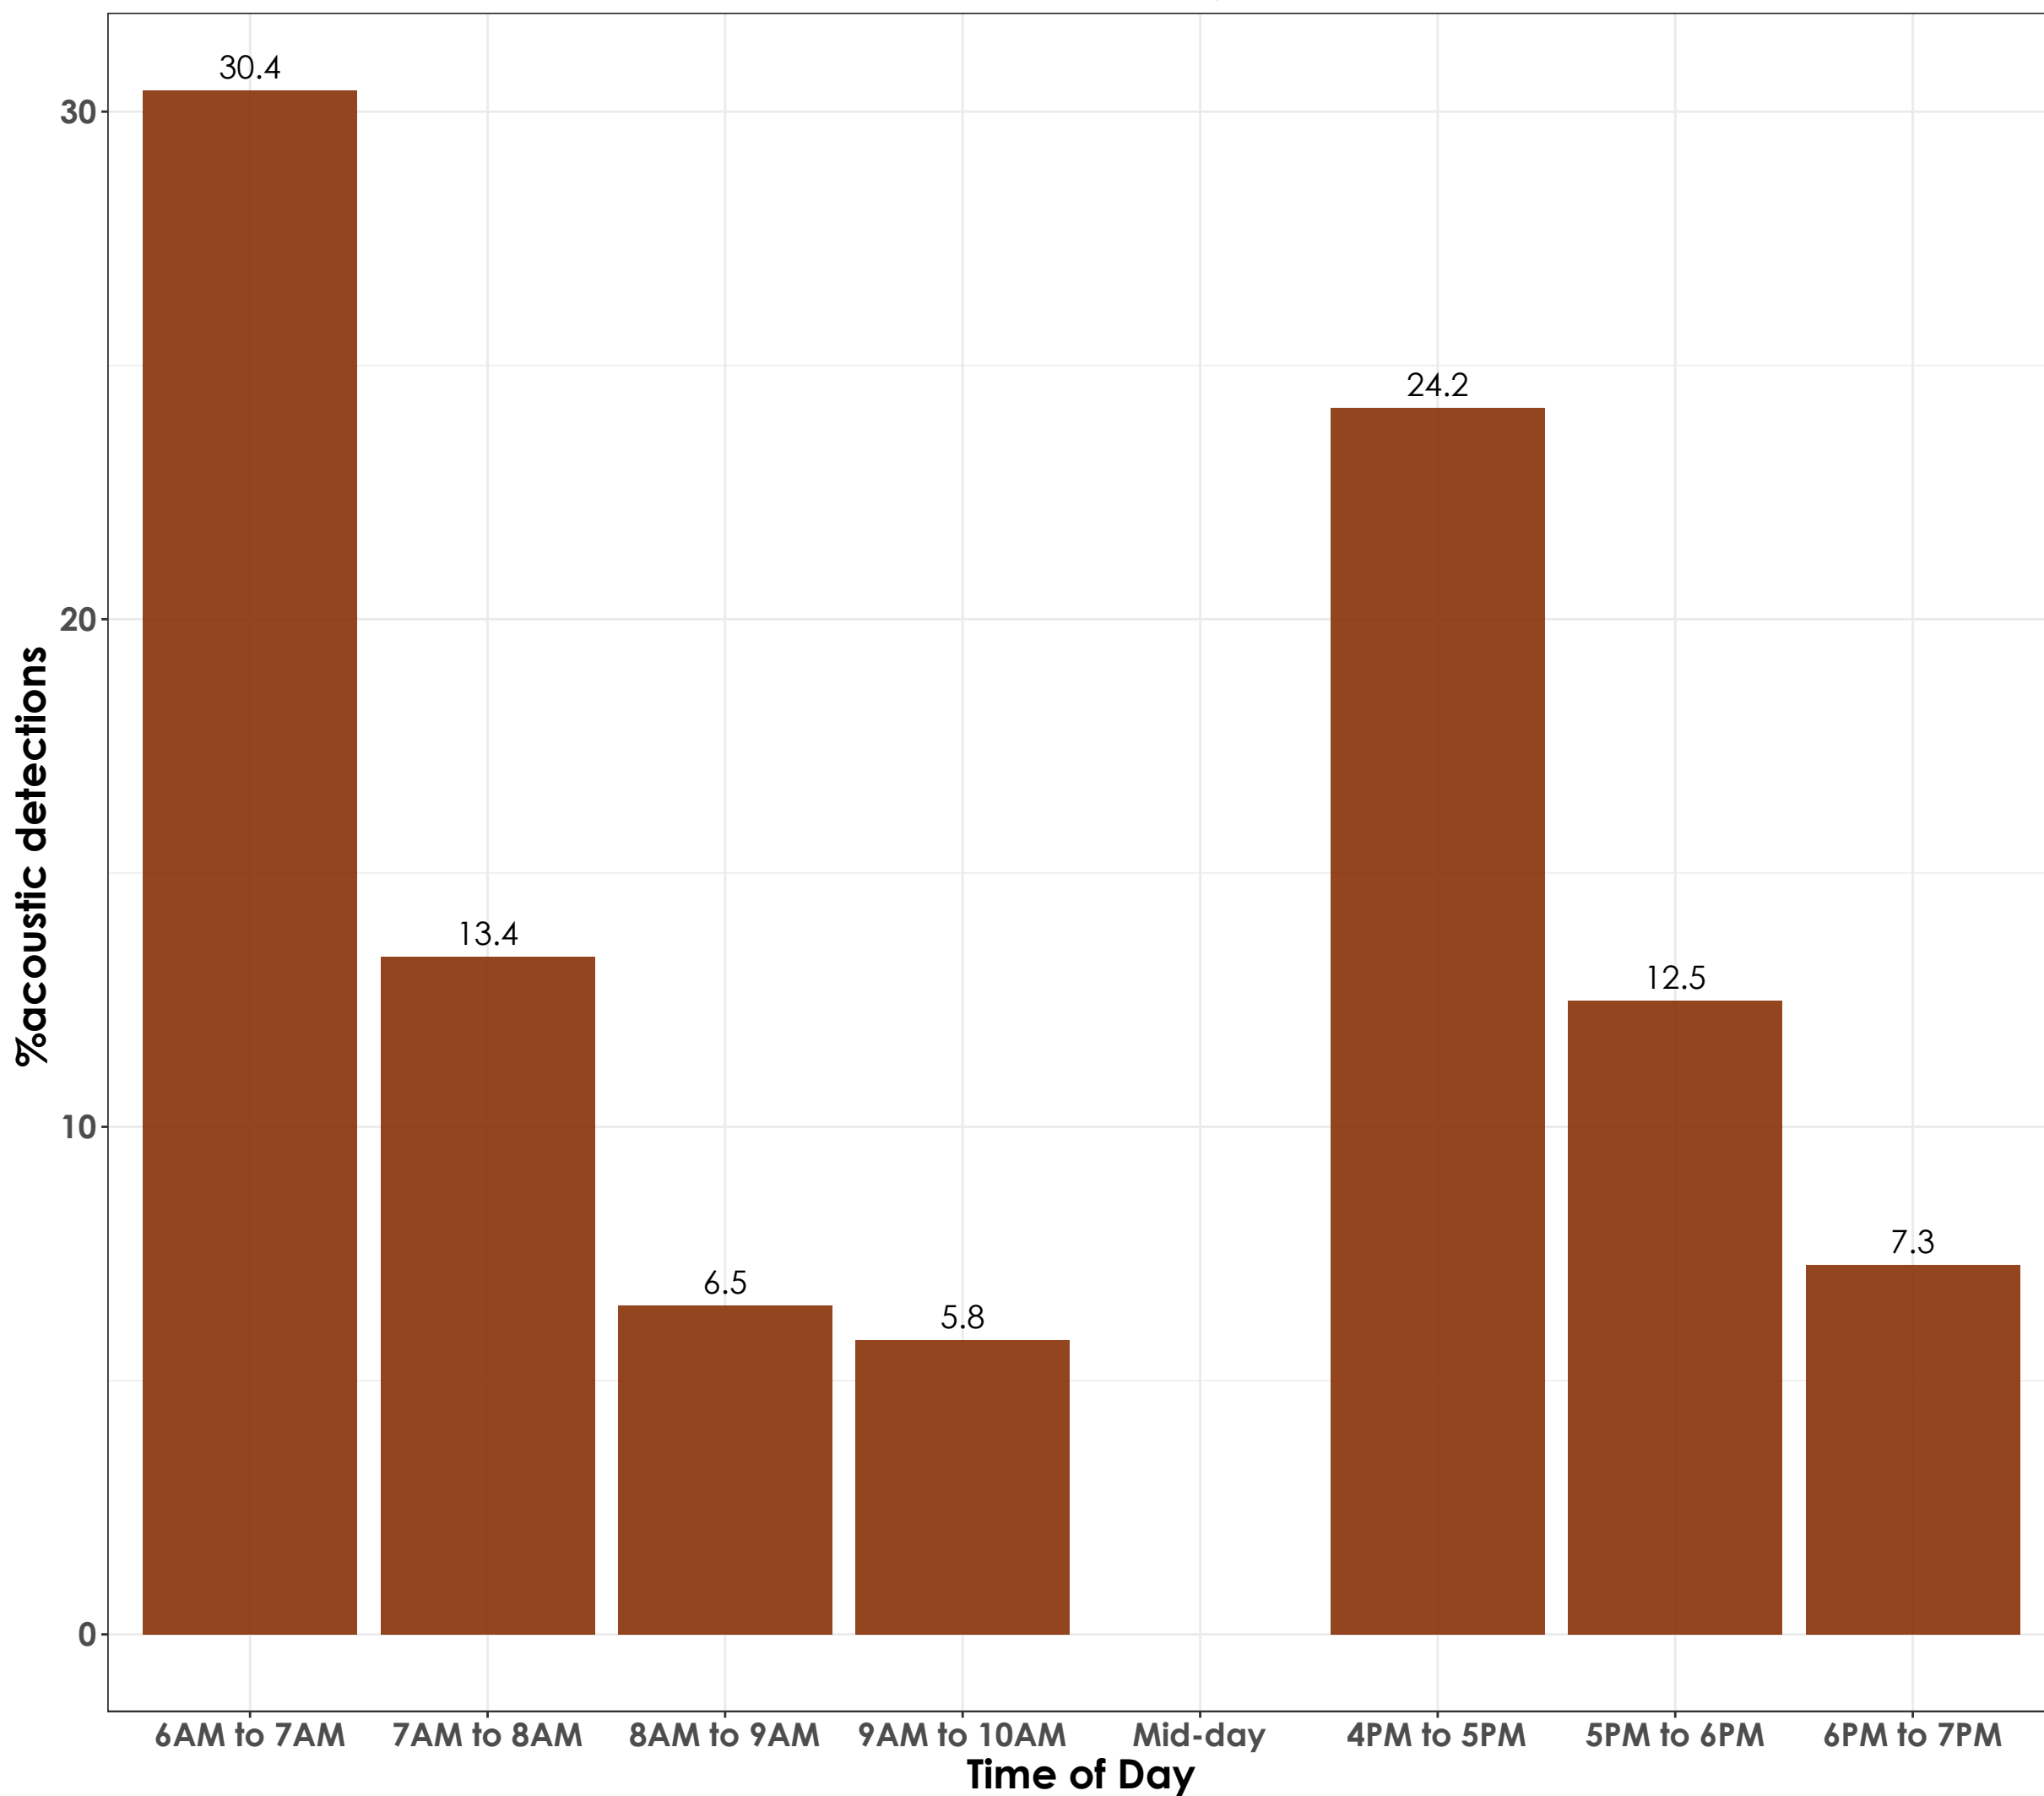

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

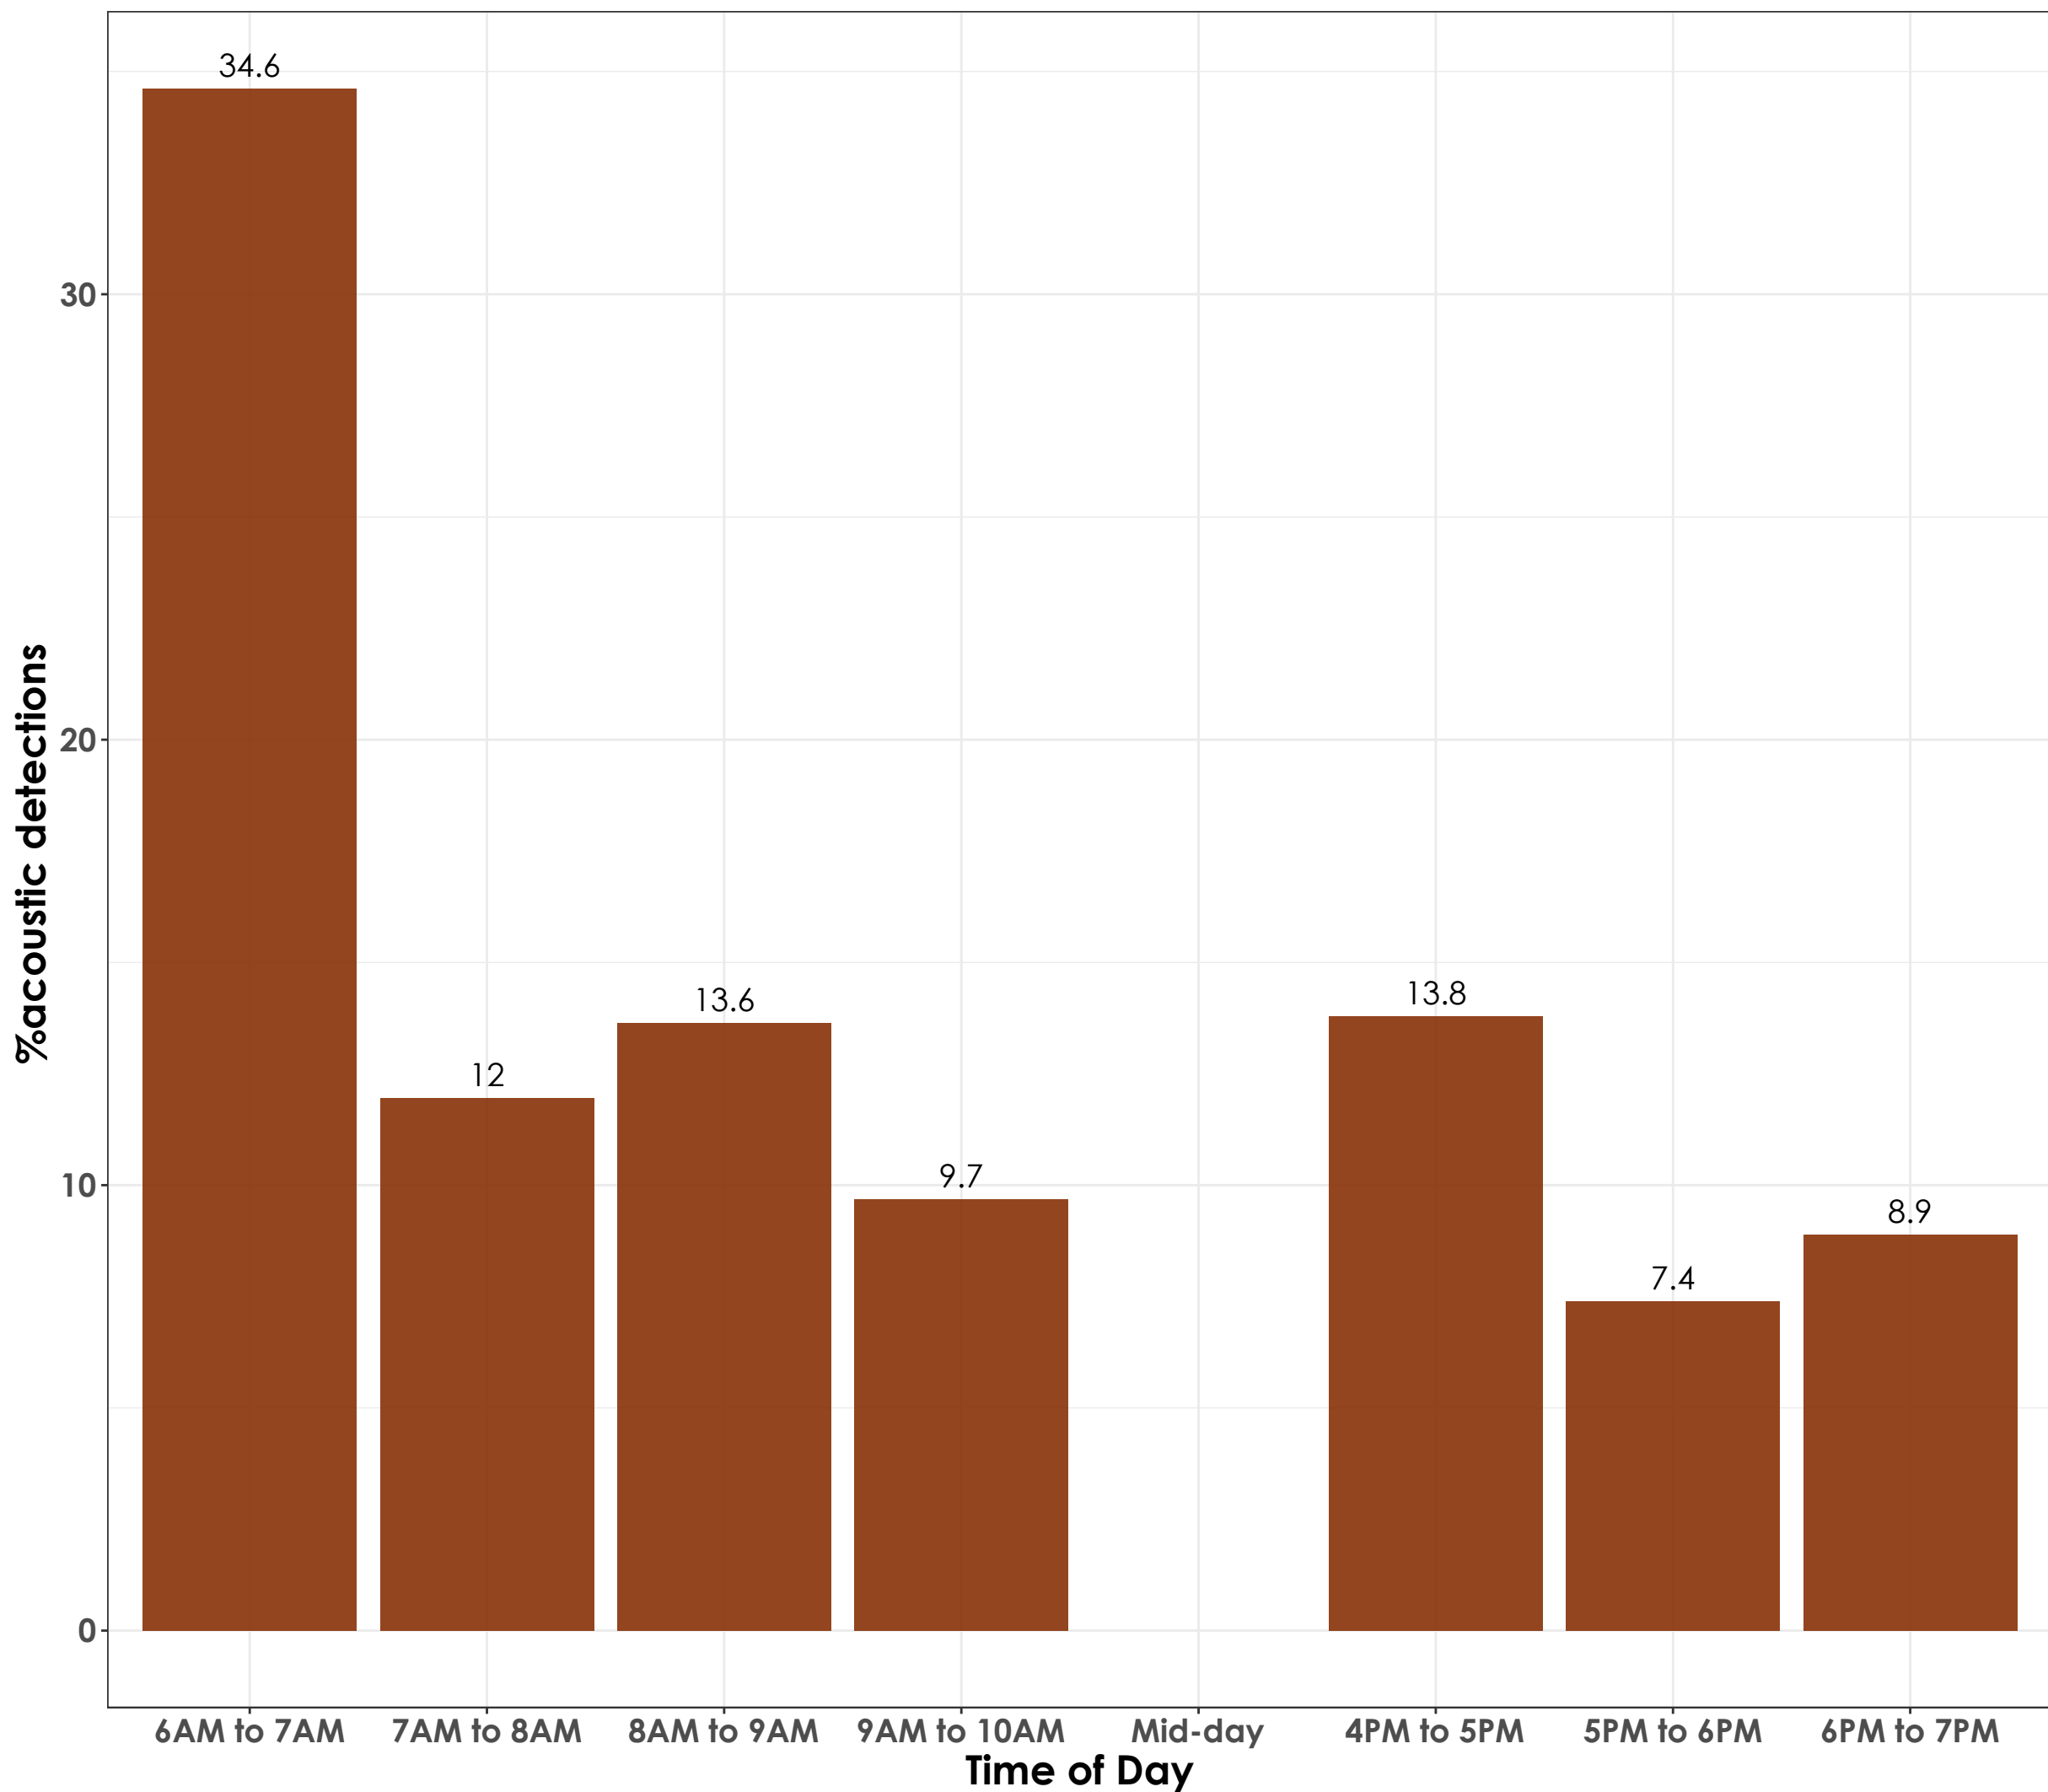

# Asian Emerald Dove

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

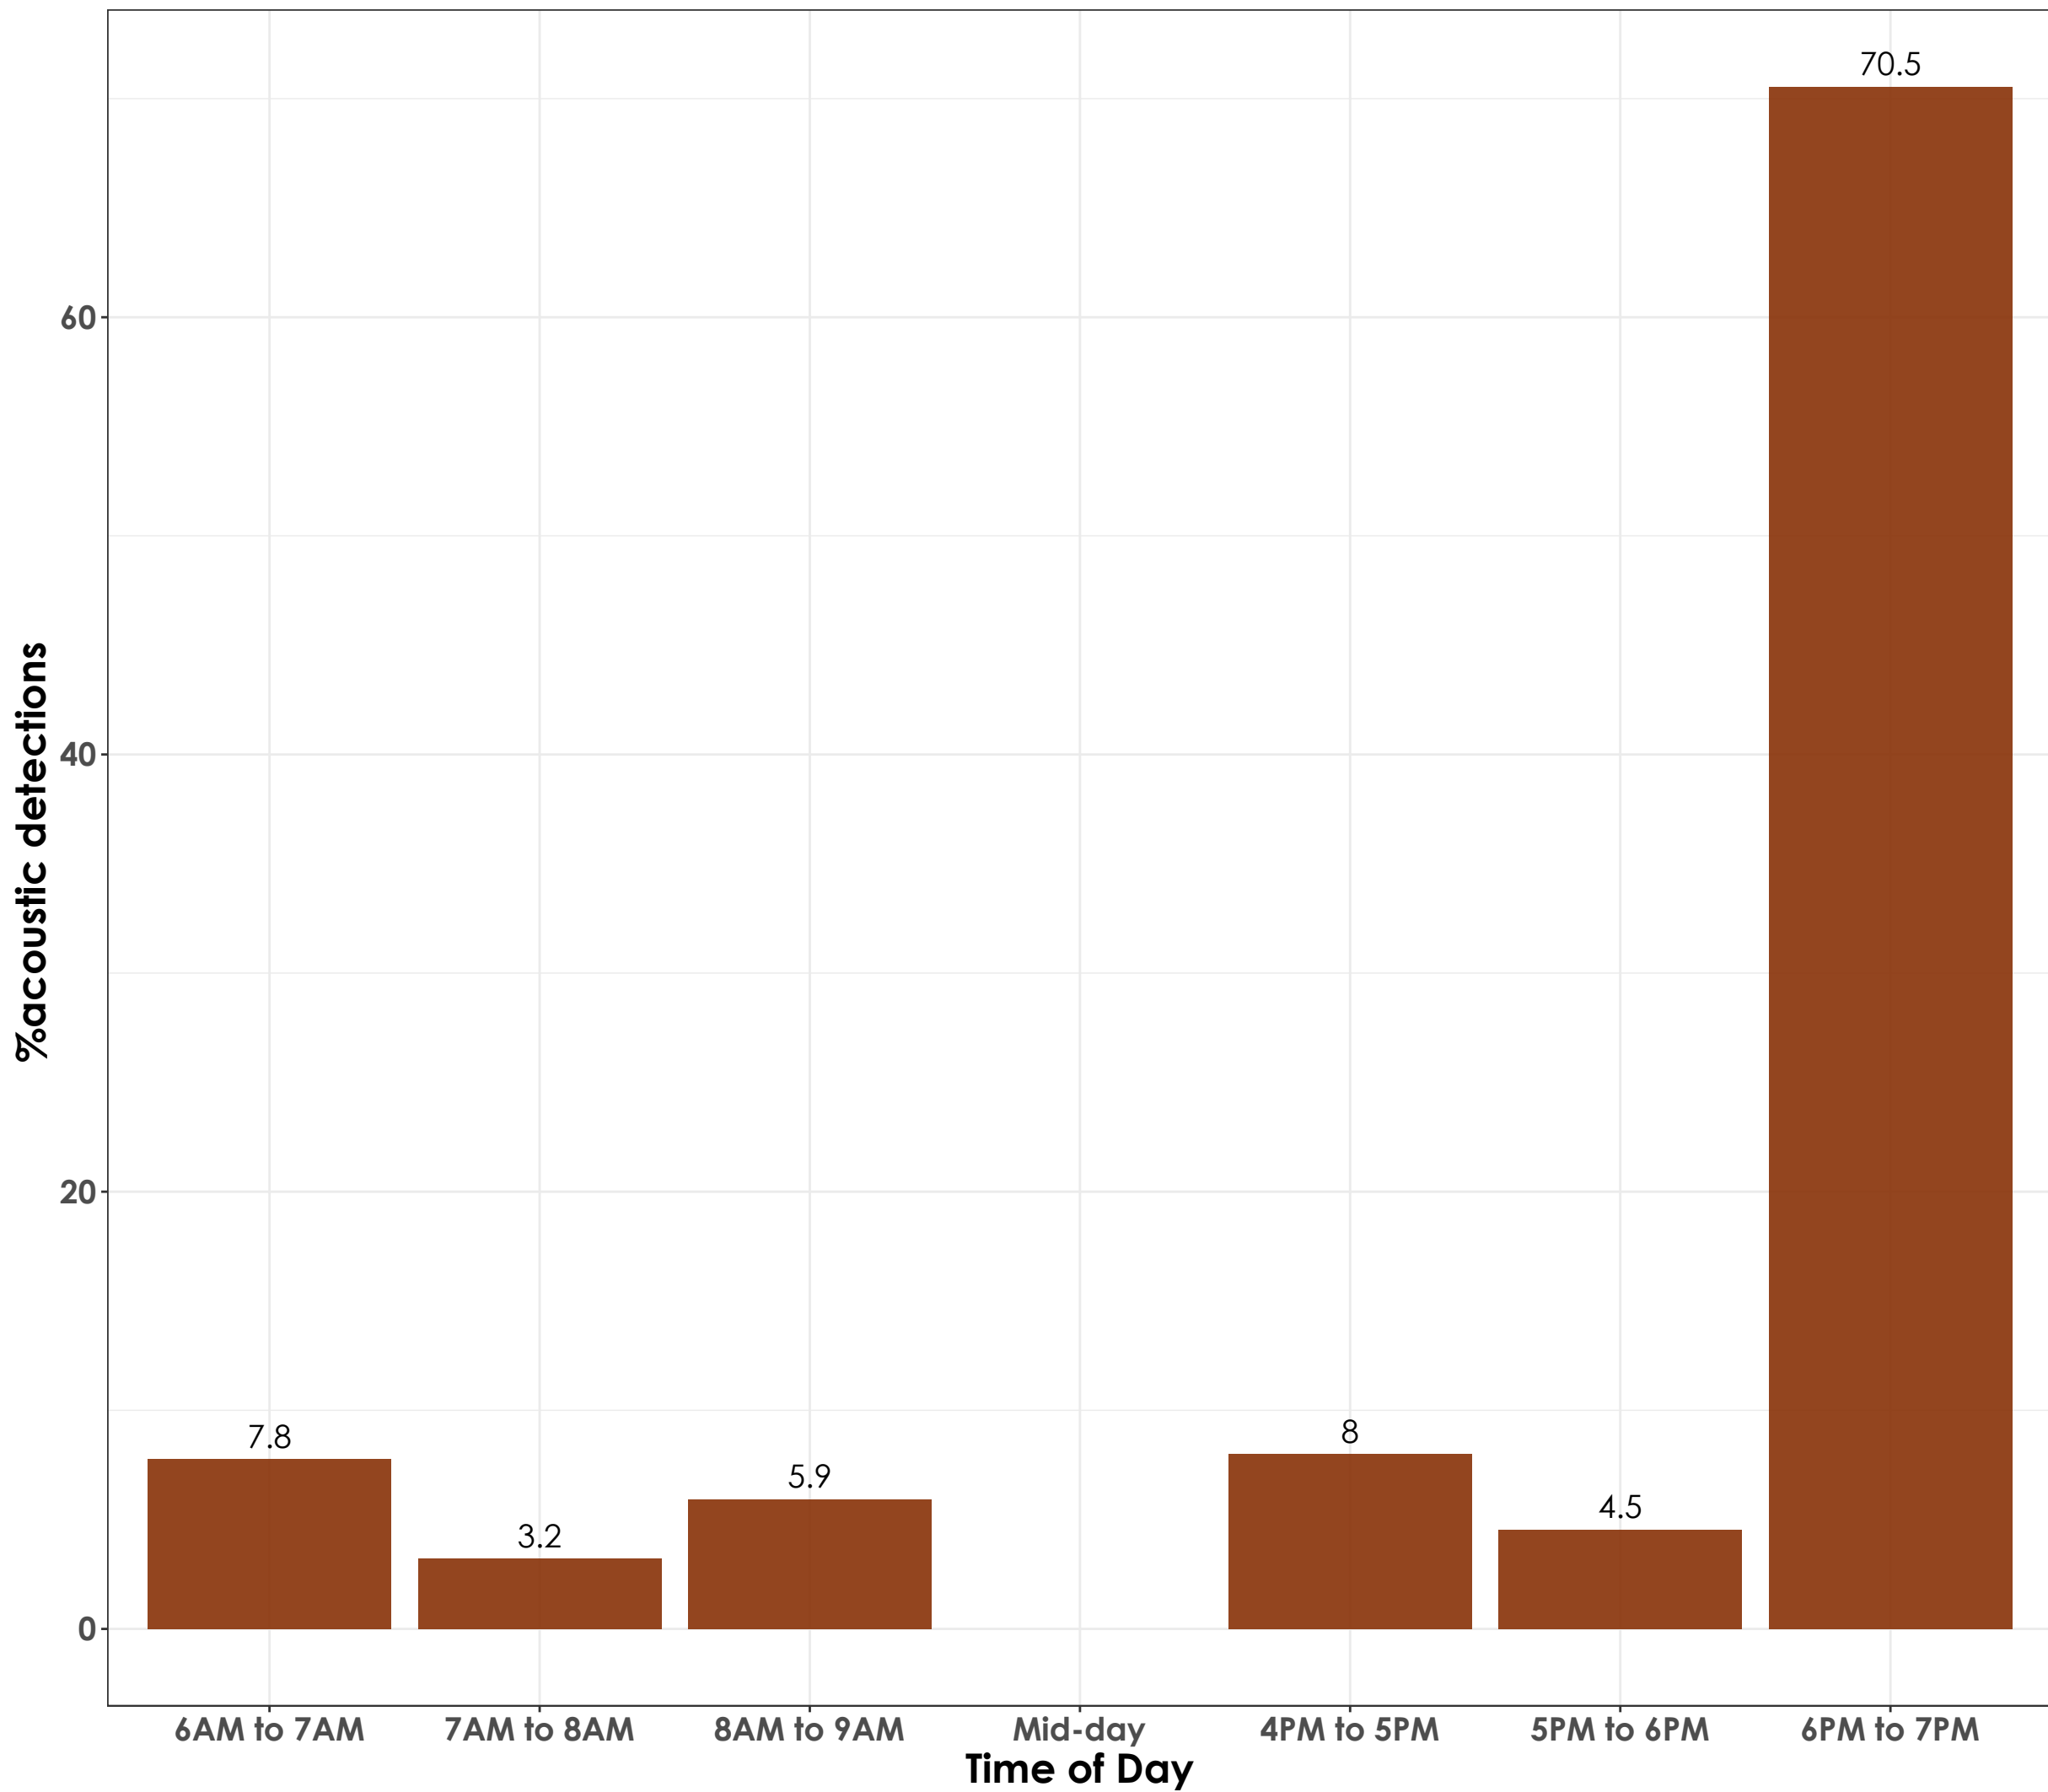

# Black-naped Monarch

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

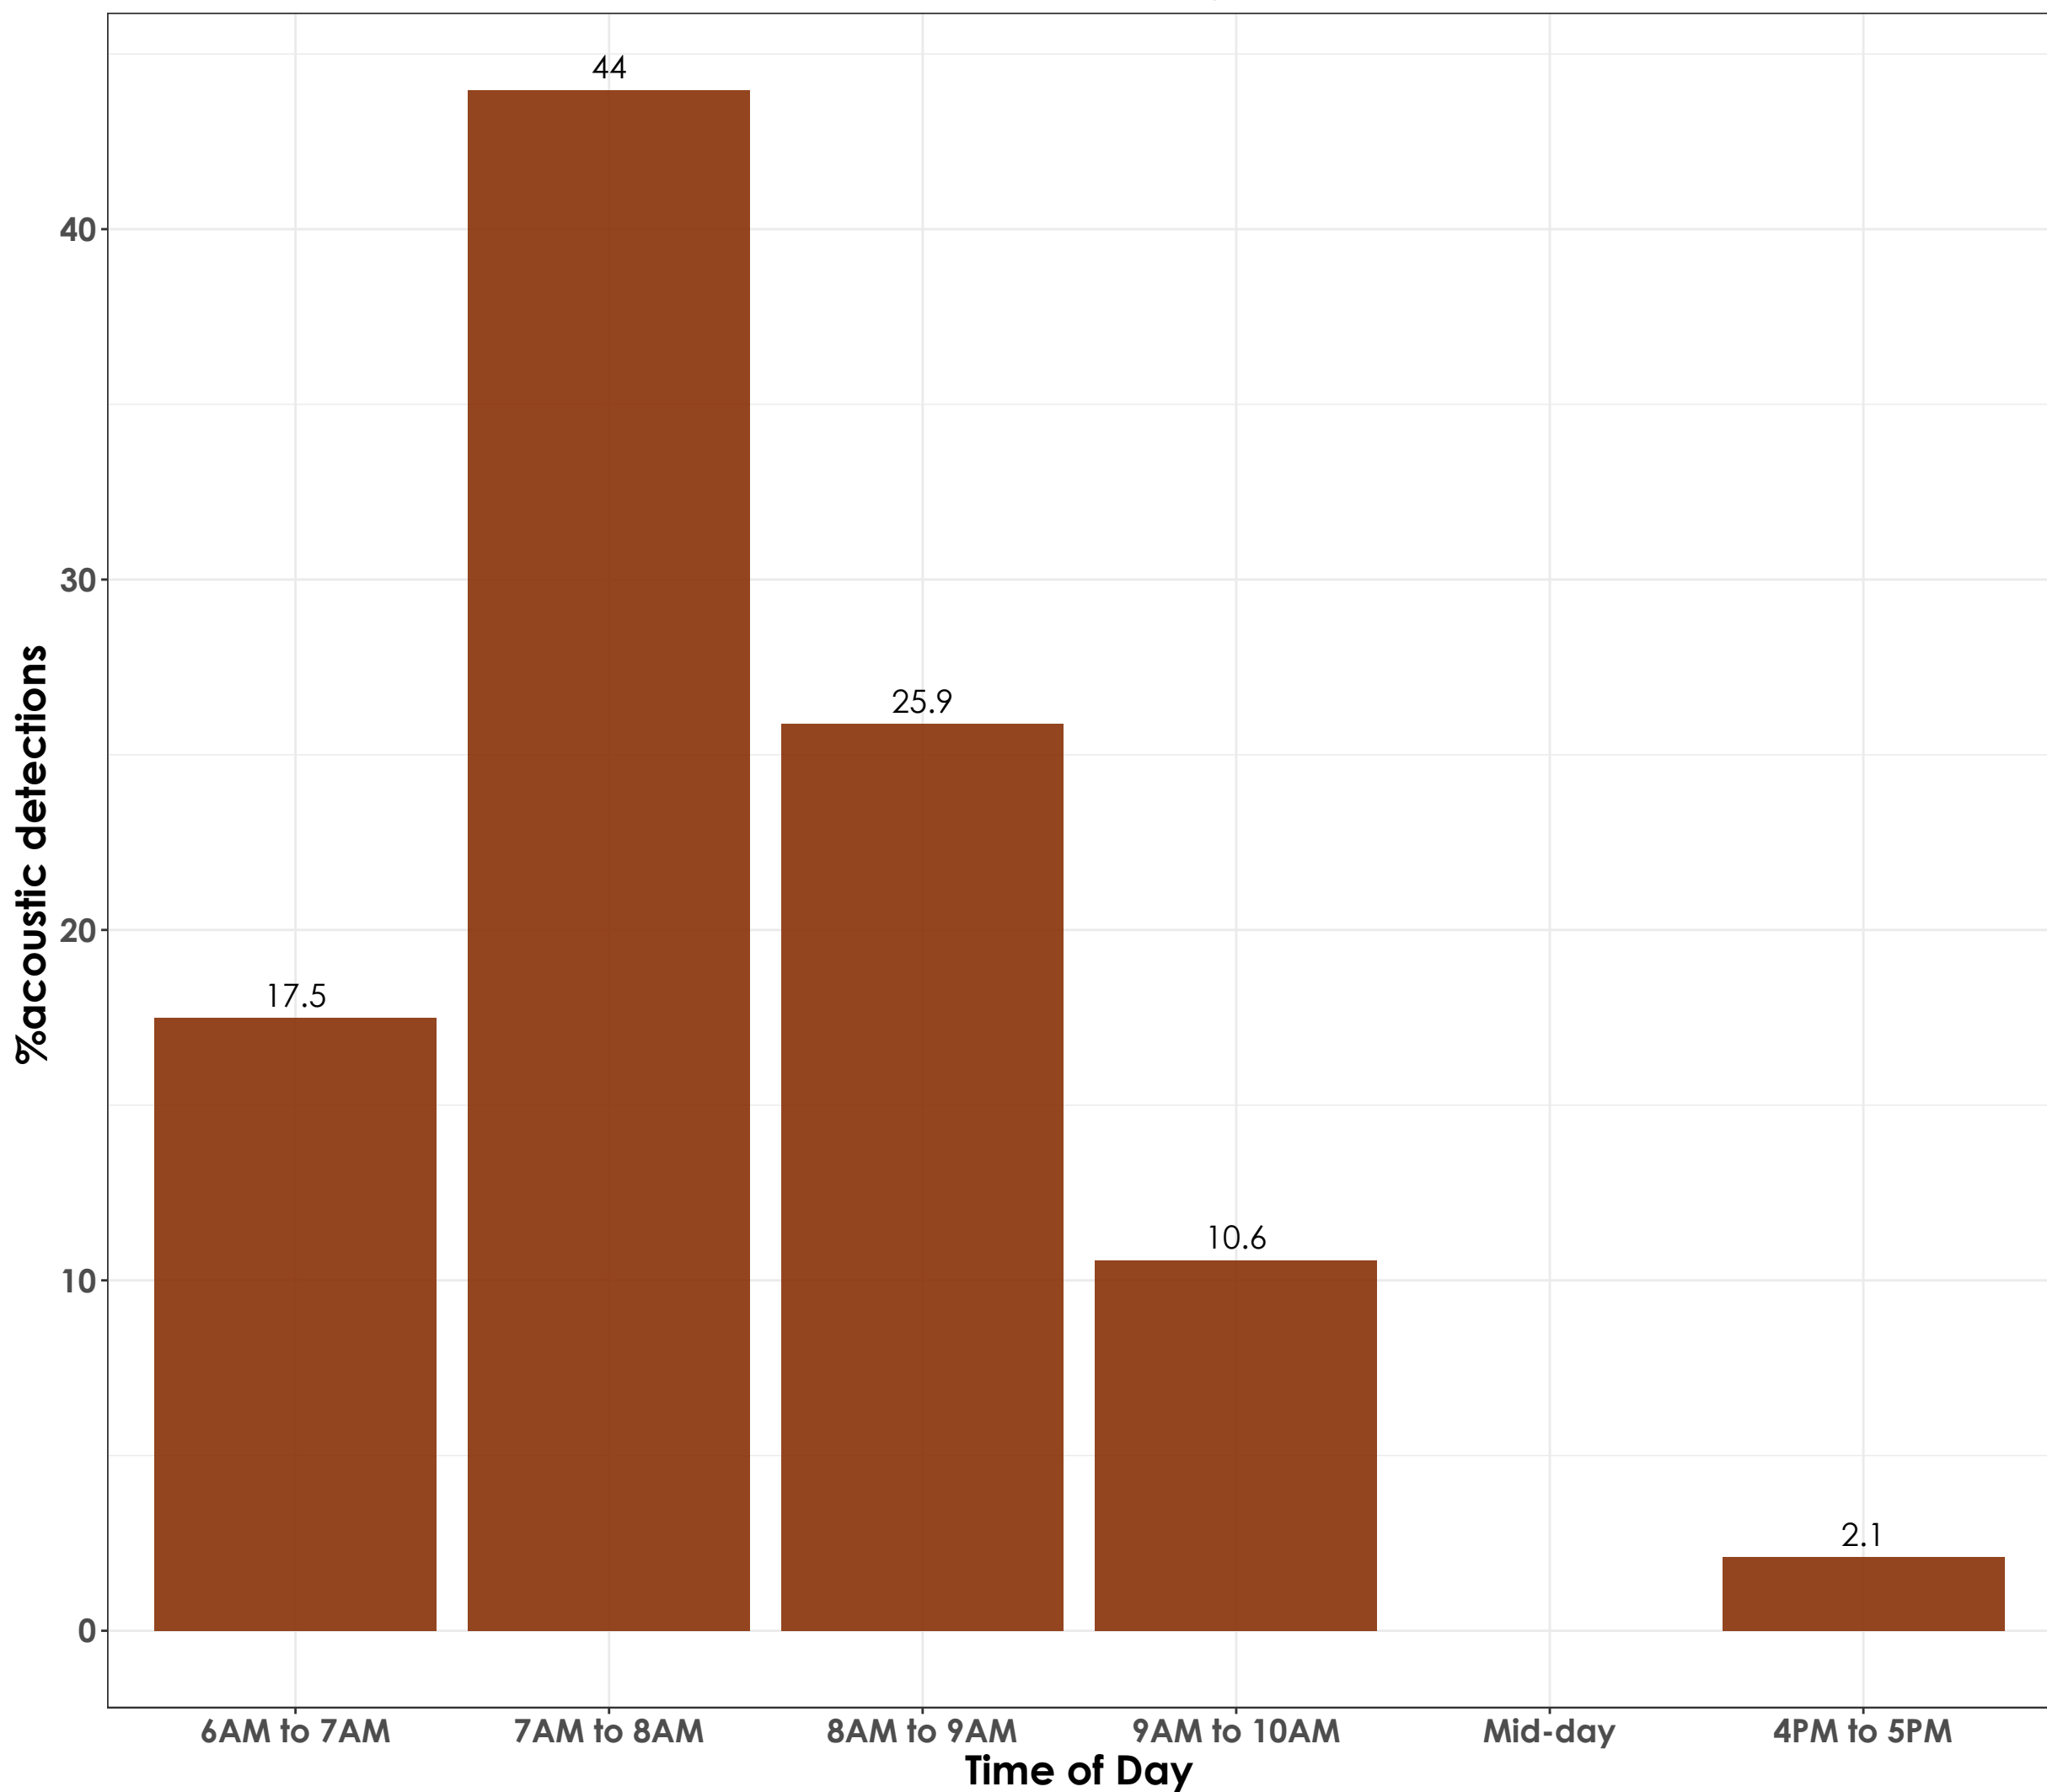

# Spot-bellied Eagle-Owl

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

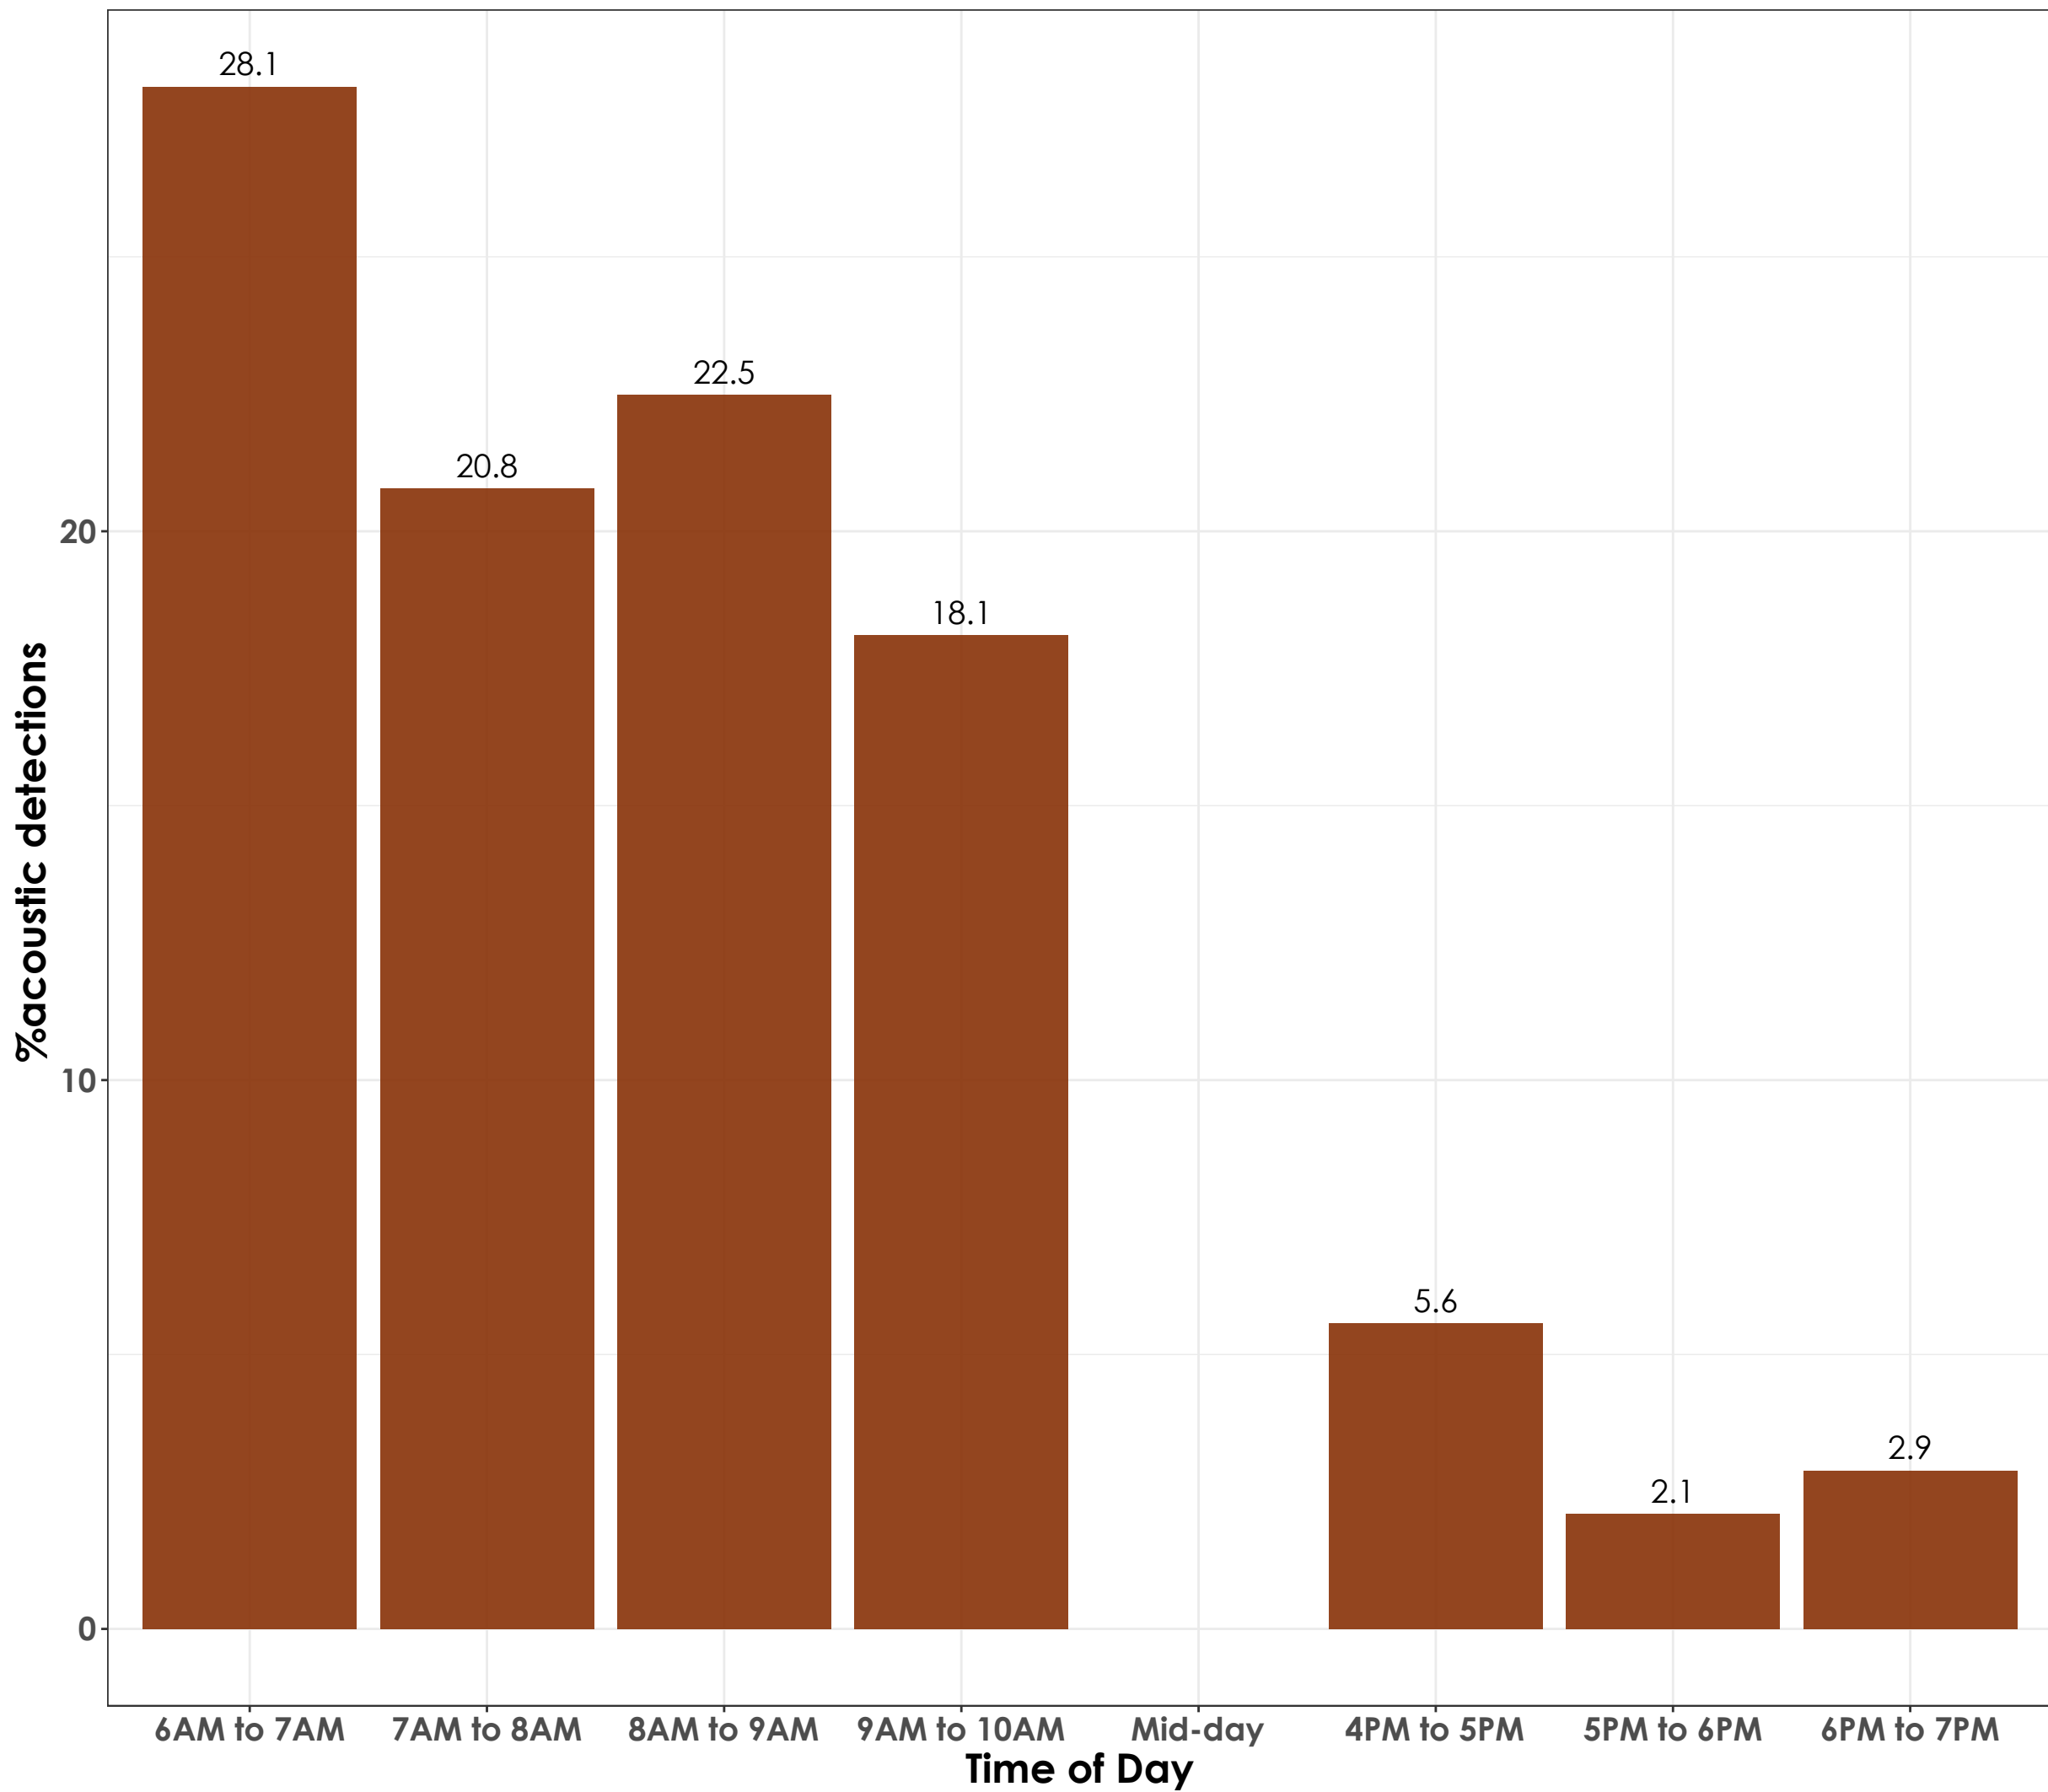

# White-throated Kingfisher

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

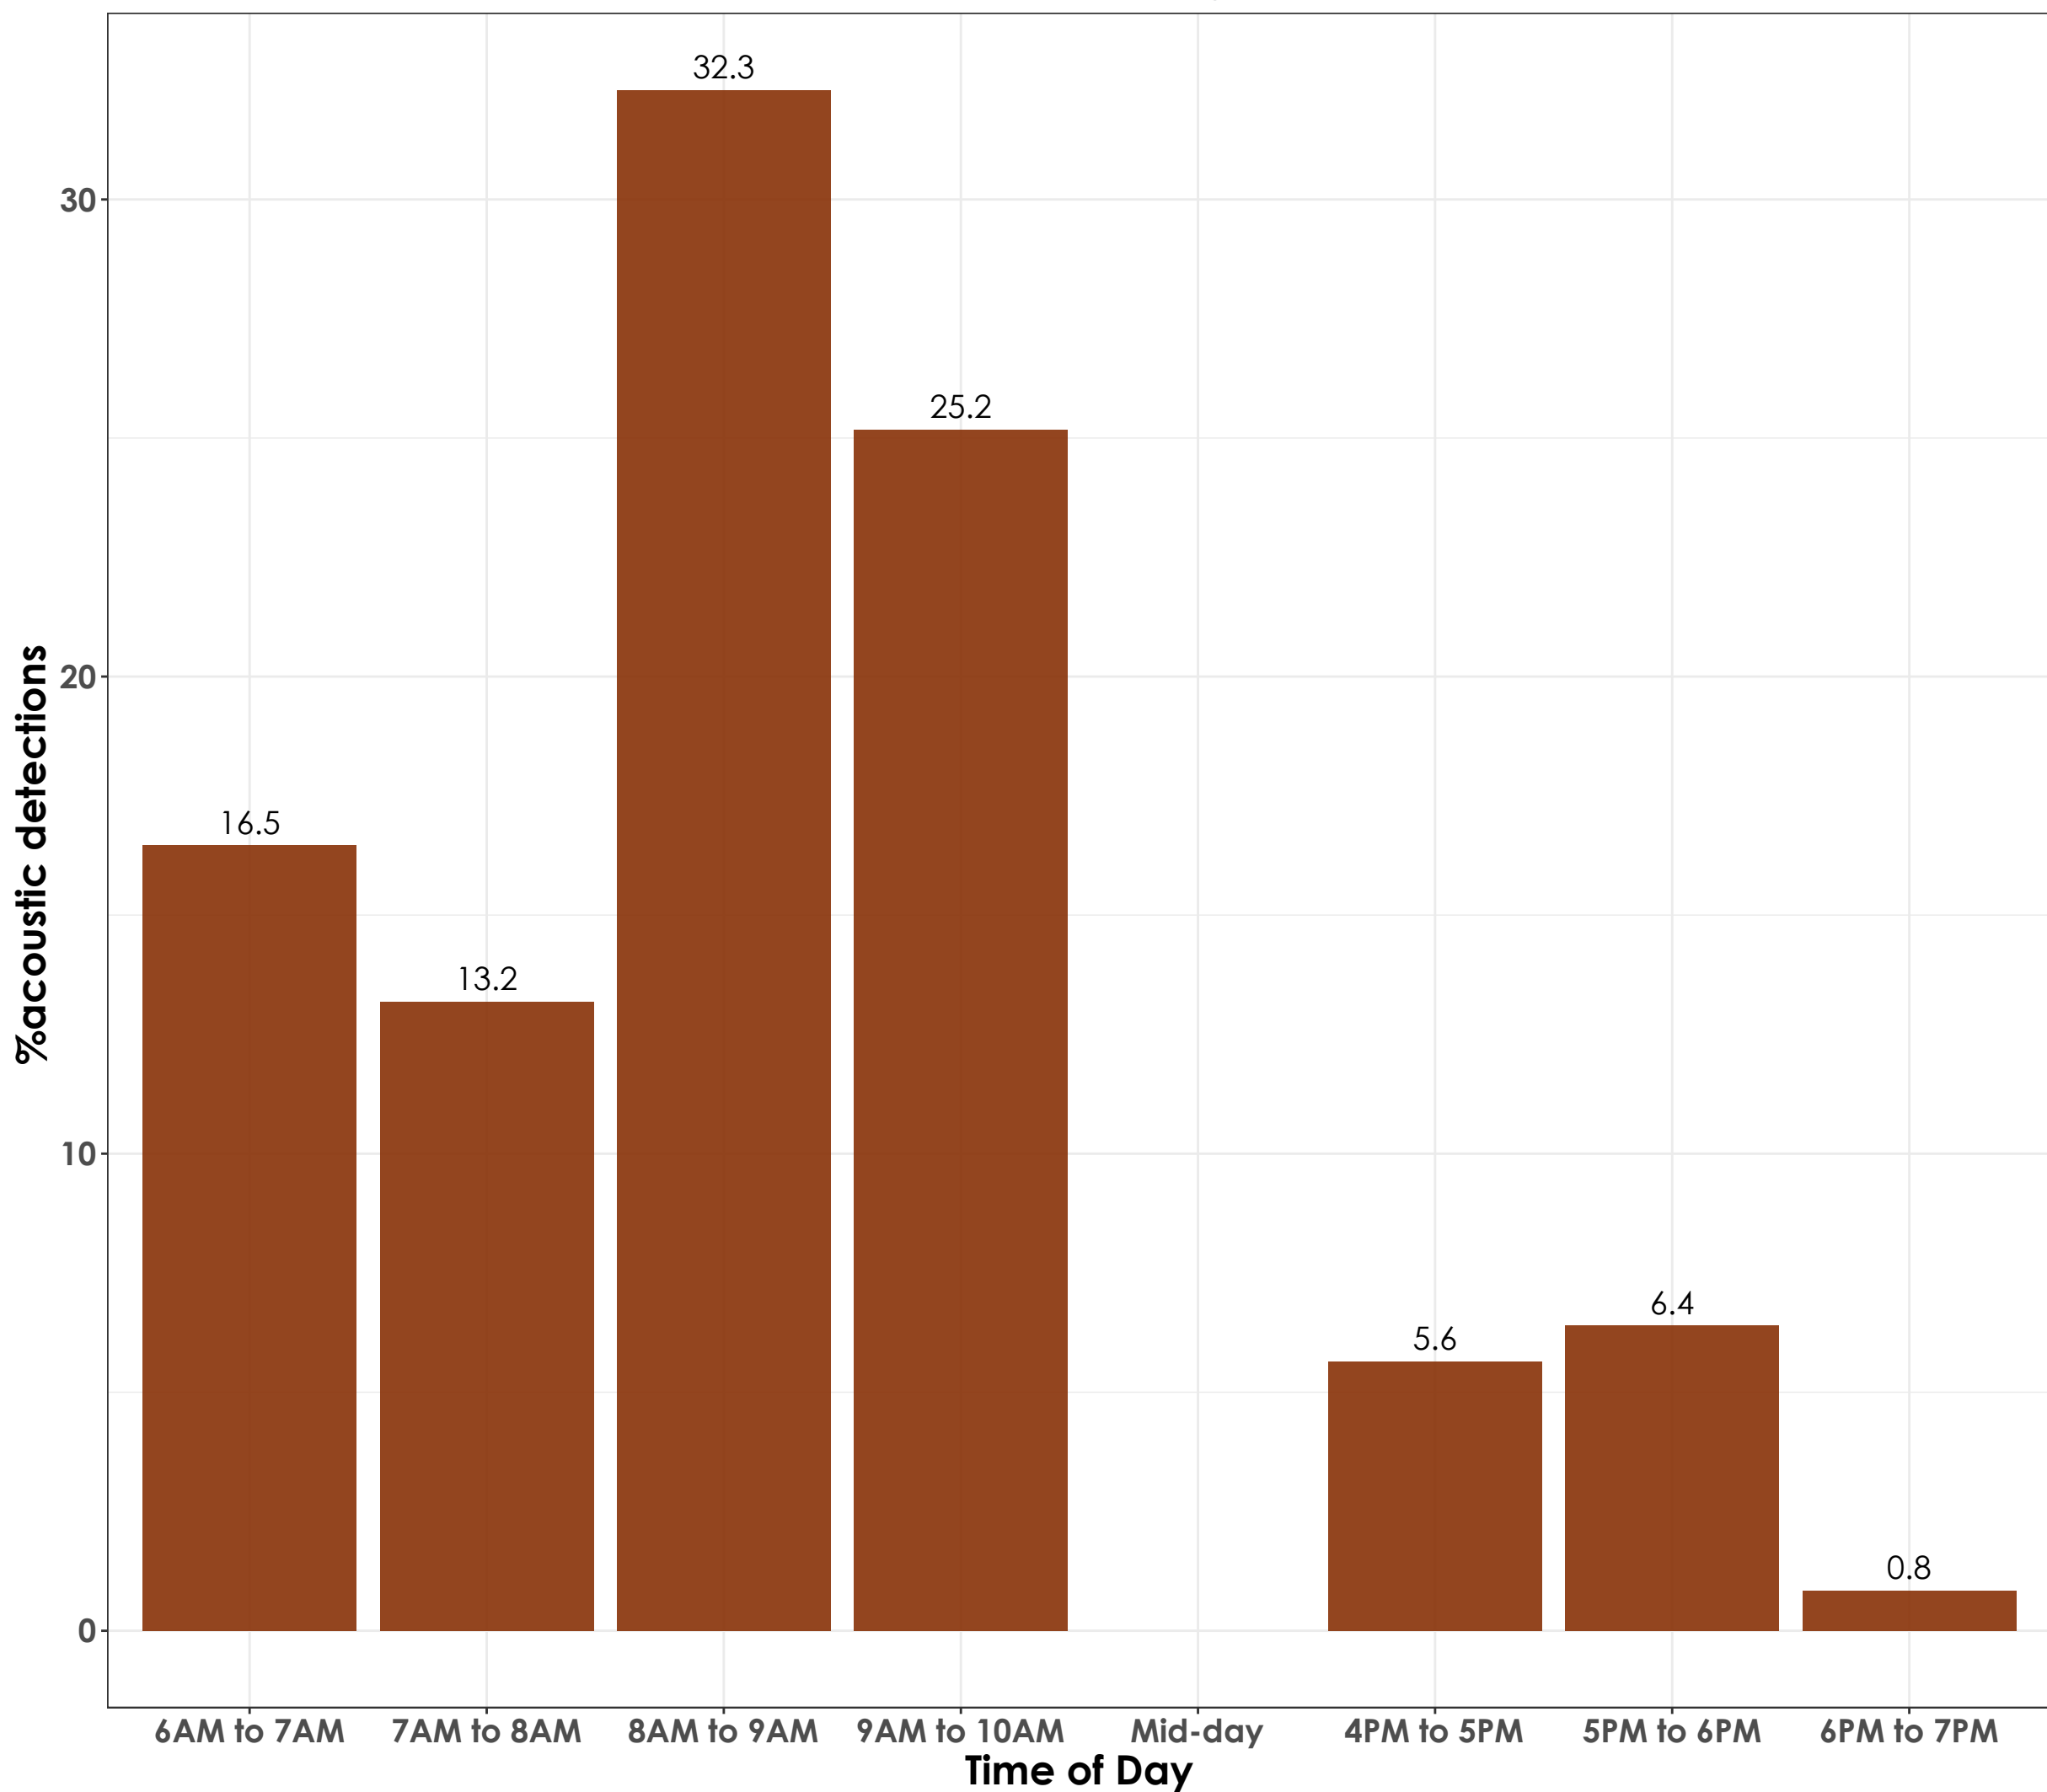

# Brown-cheeked Fulvetta

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

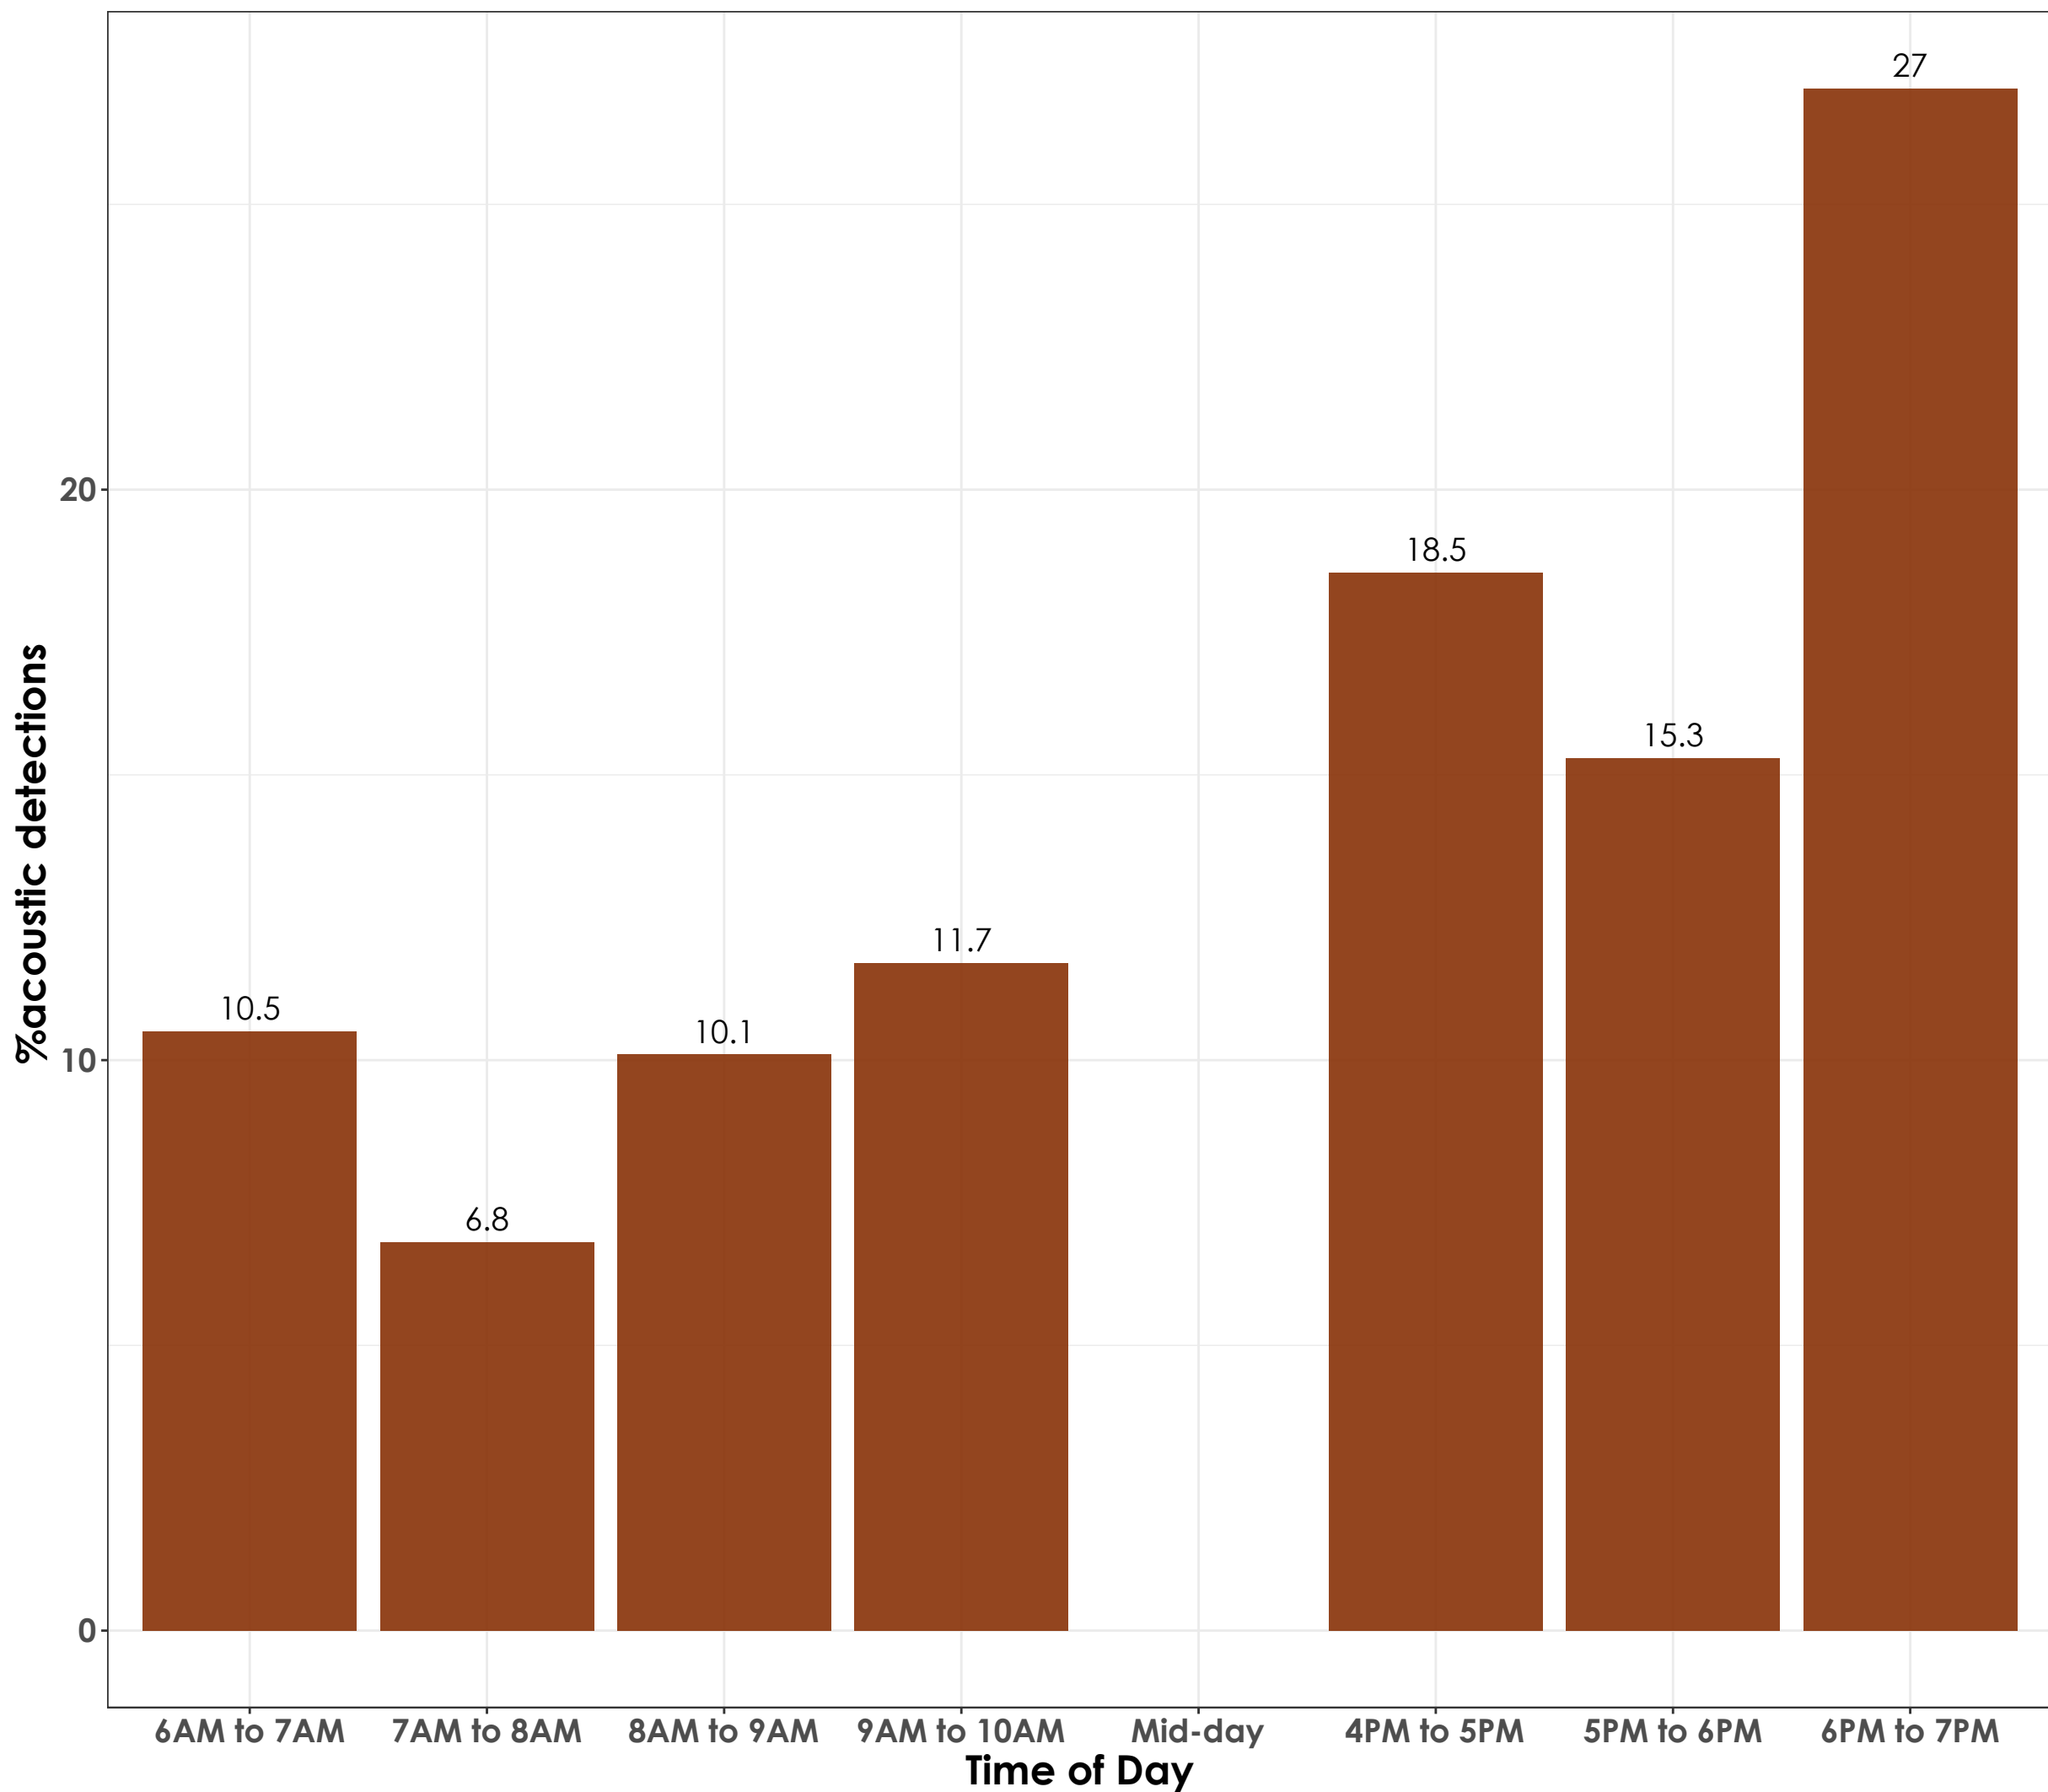

# Orange Minivet

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

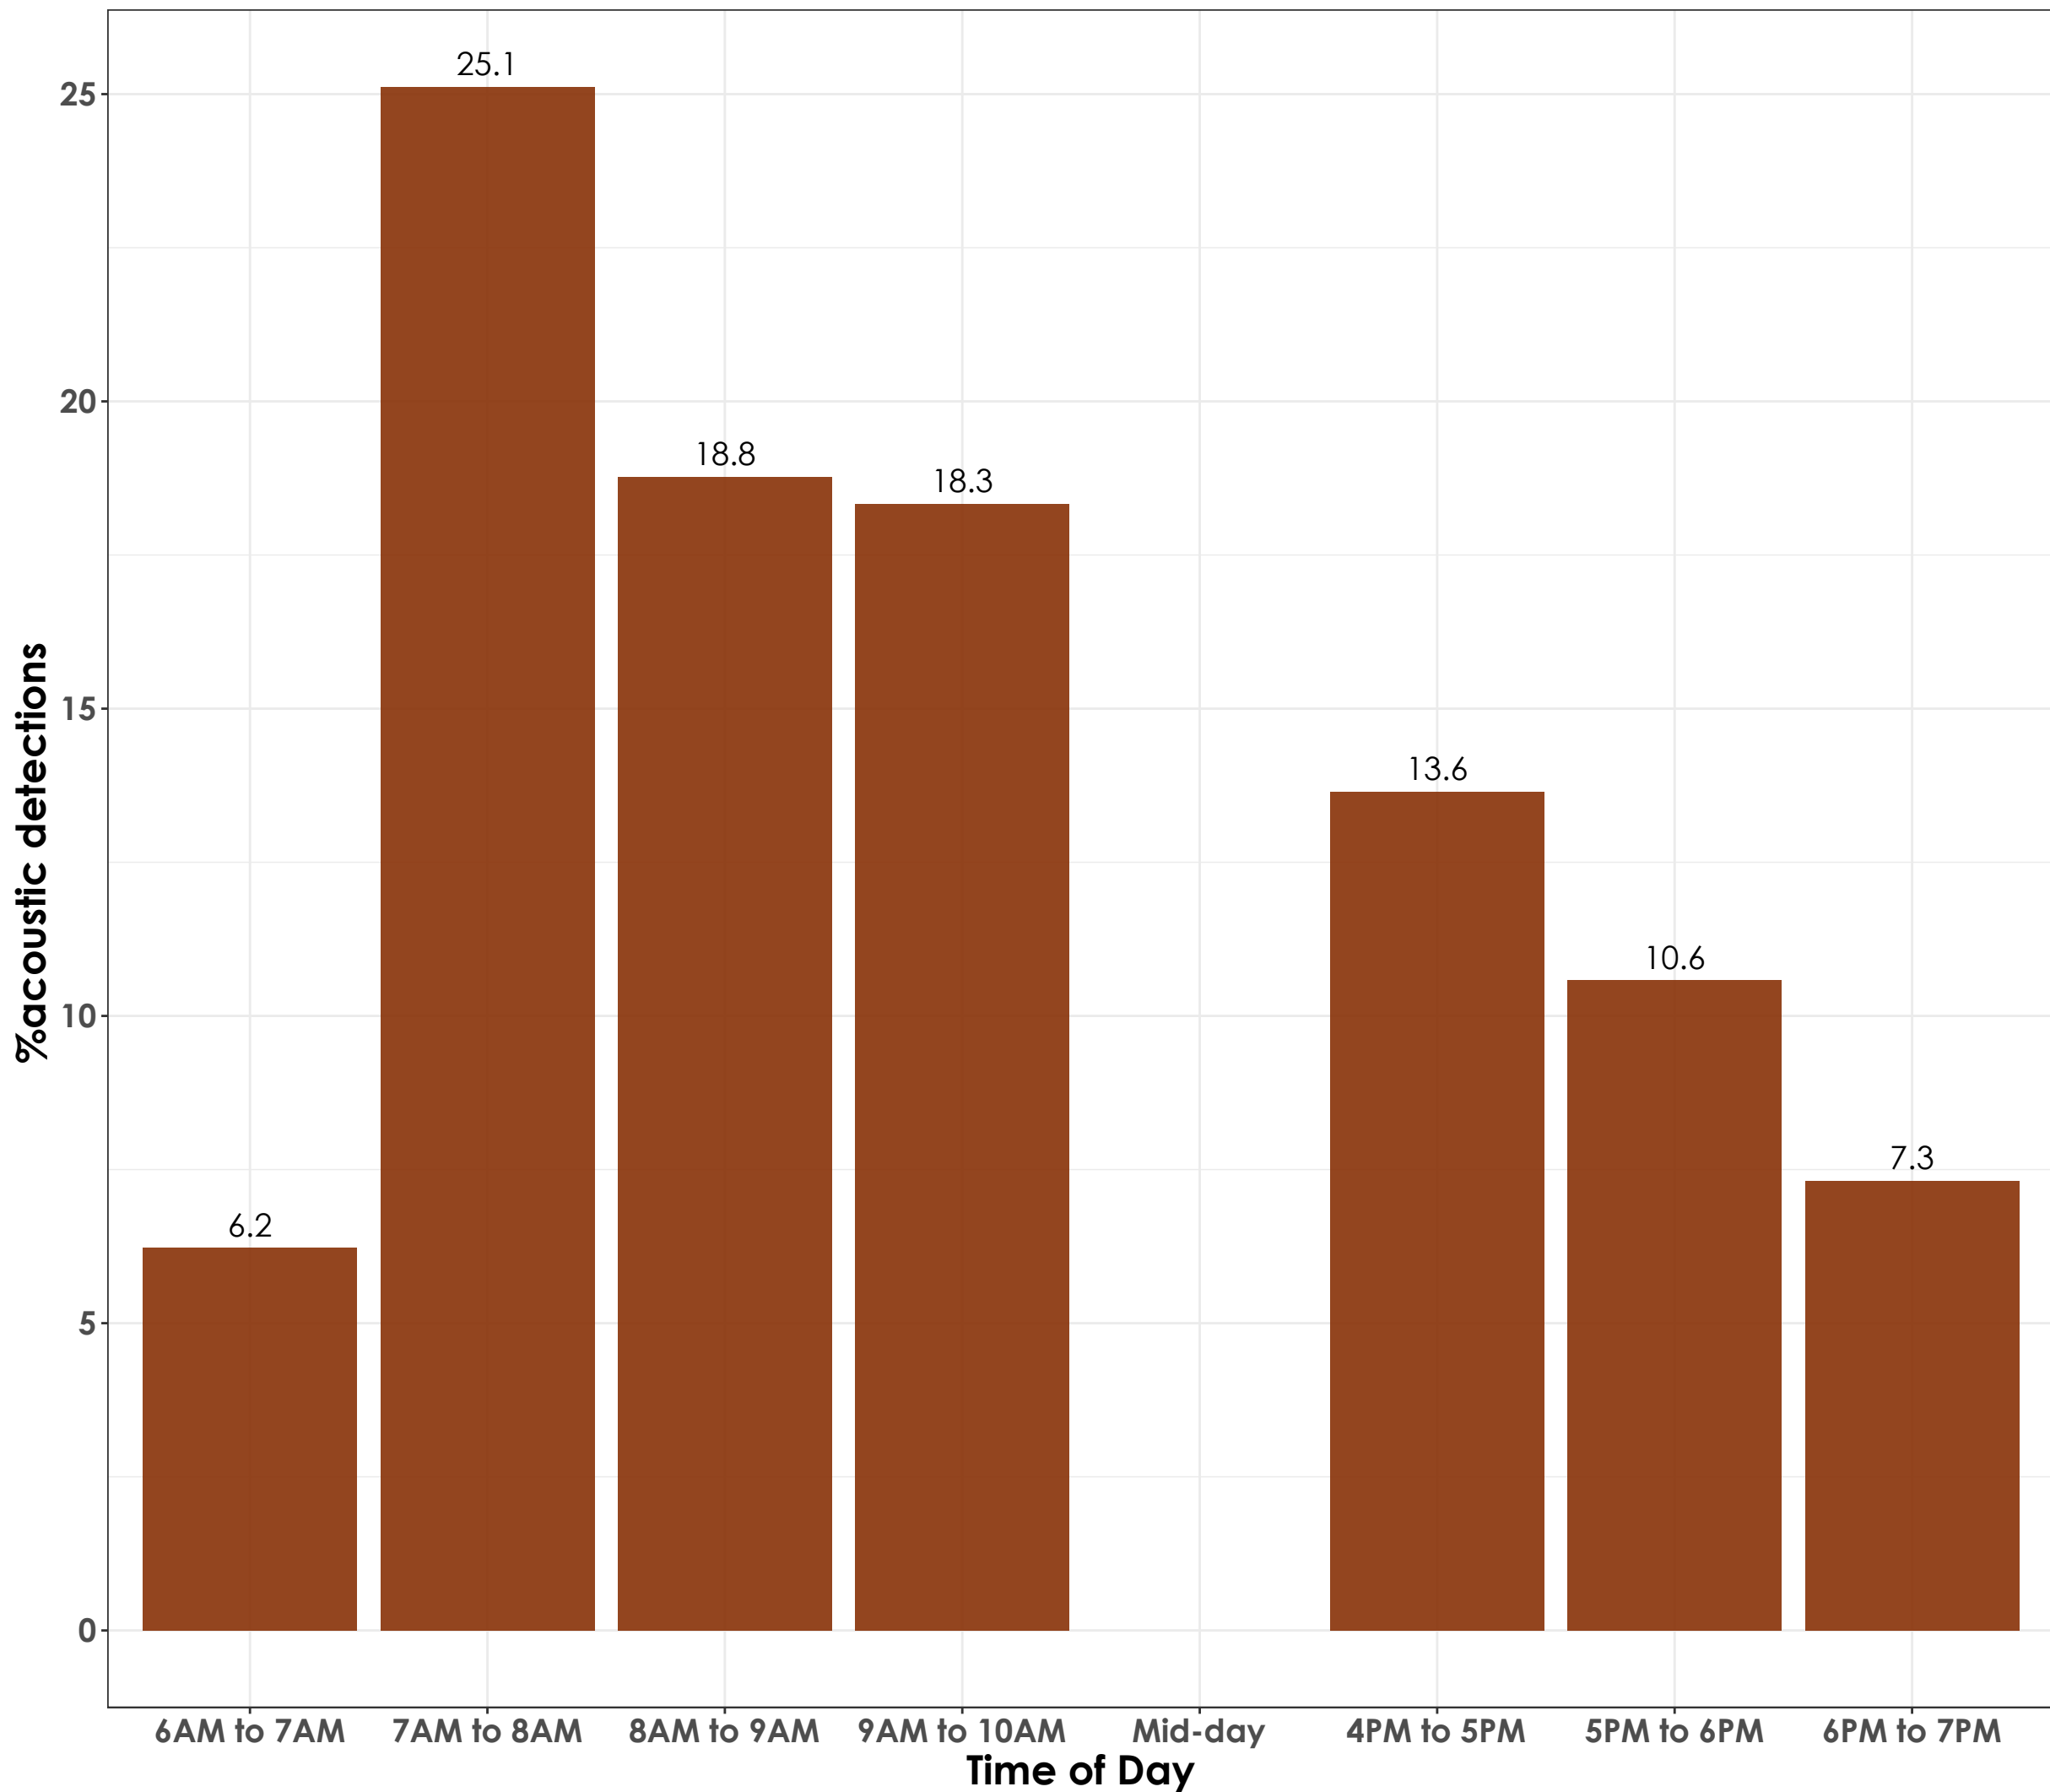

# Greater Flameback

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Blyth's Reed Warbler

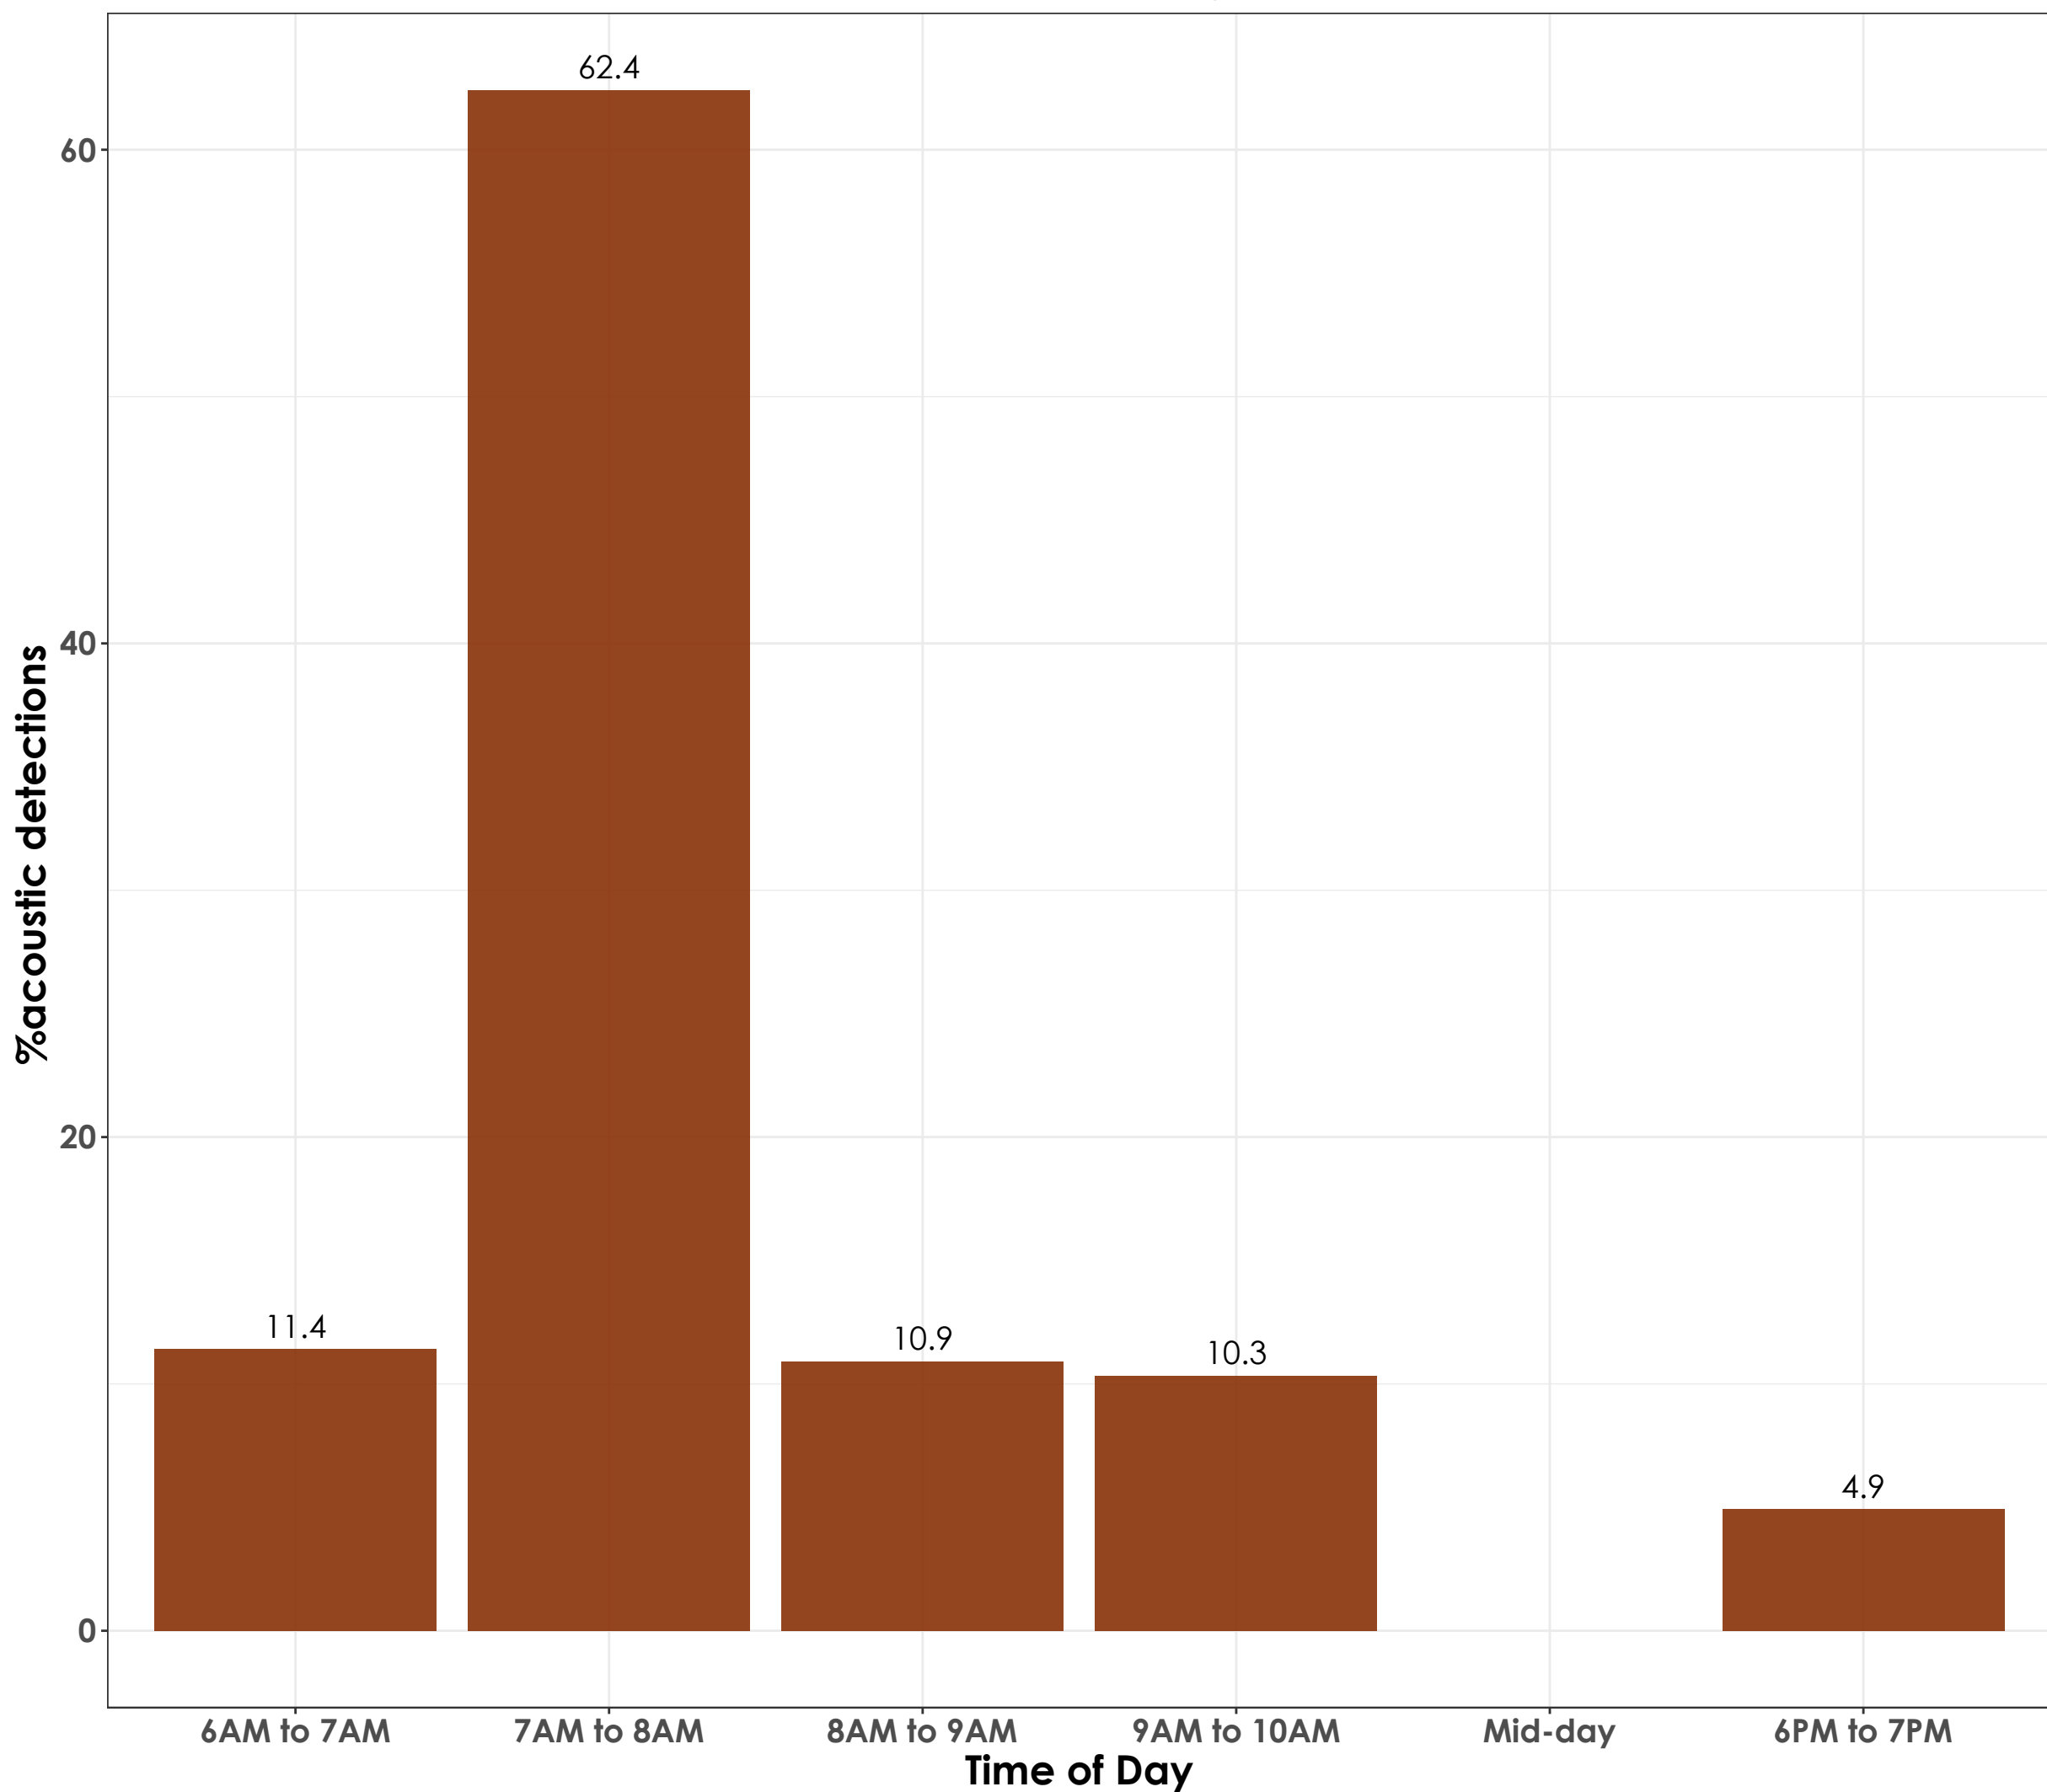

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

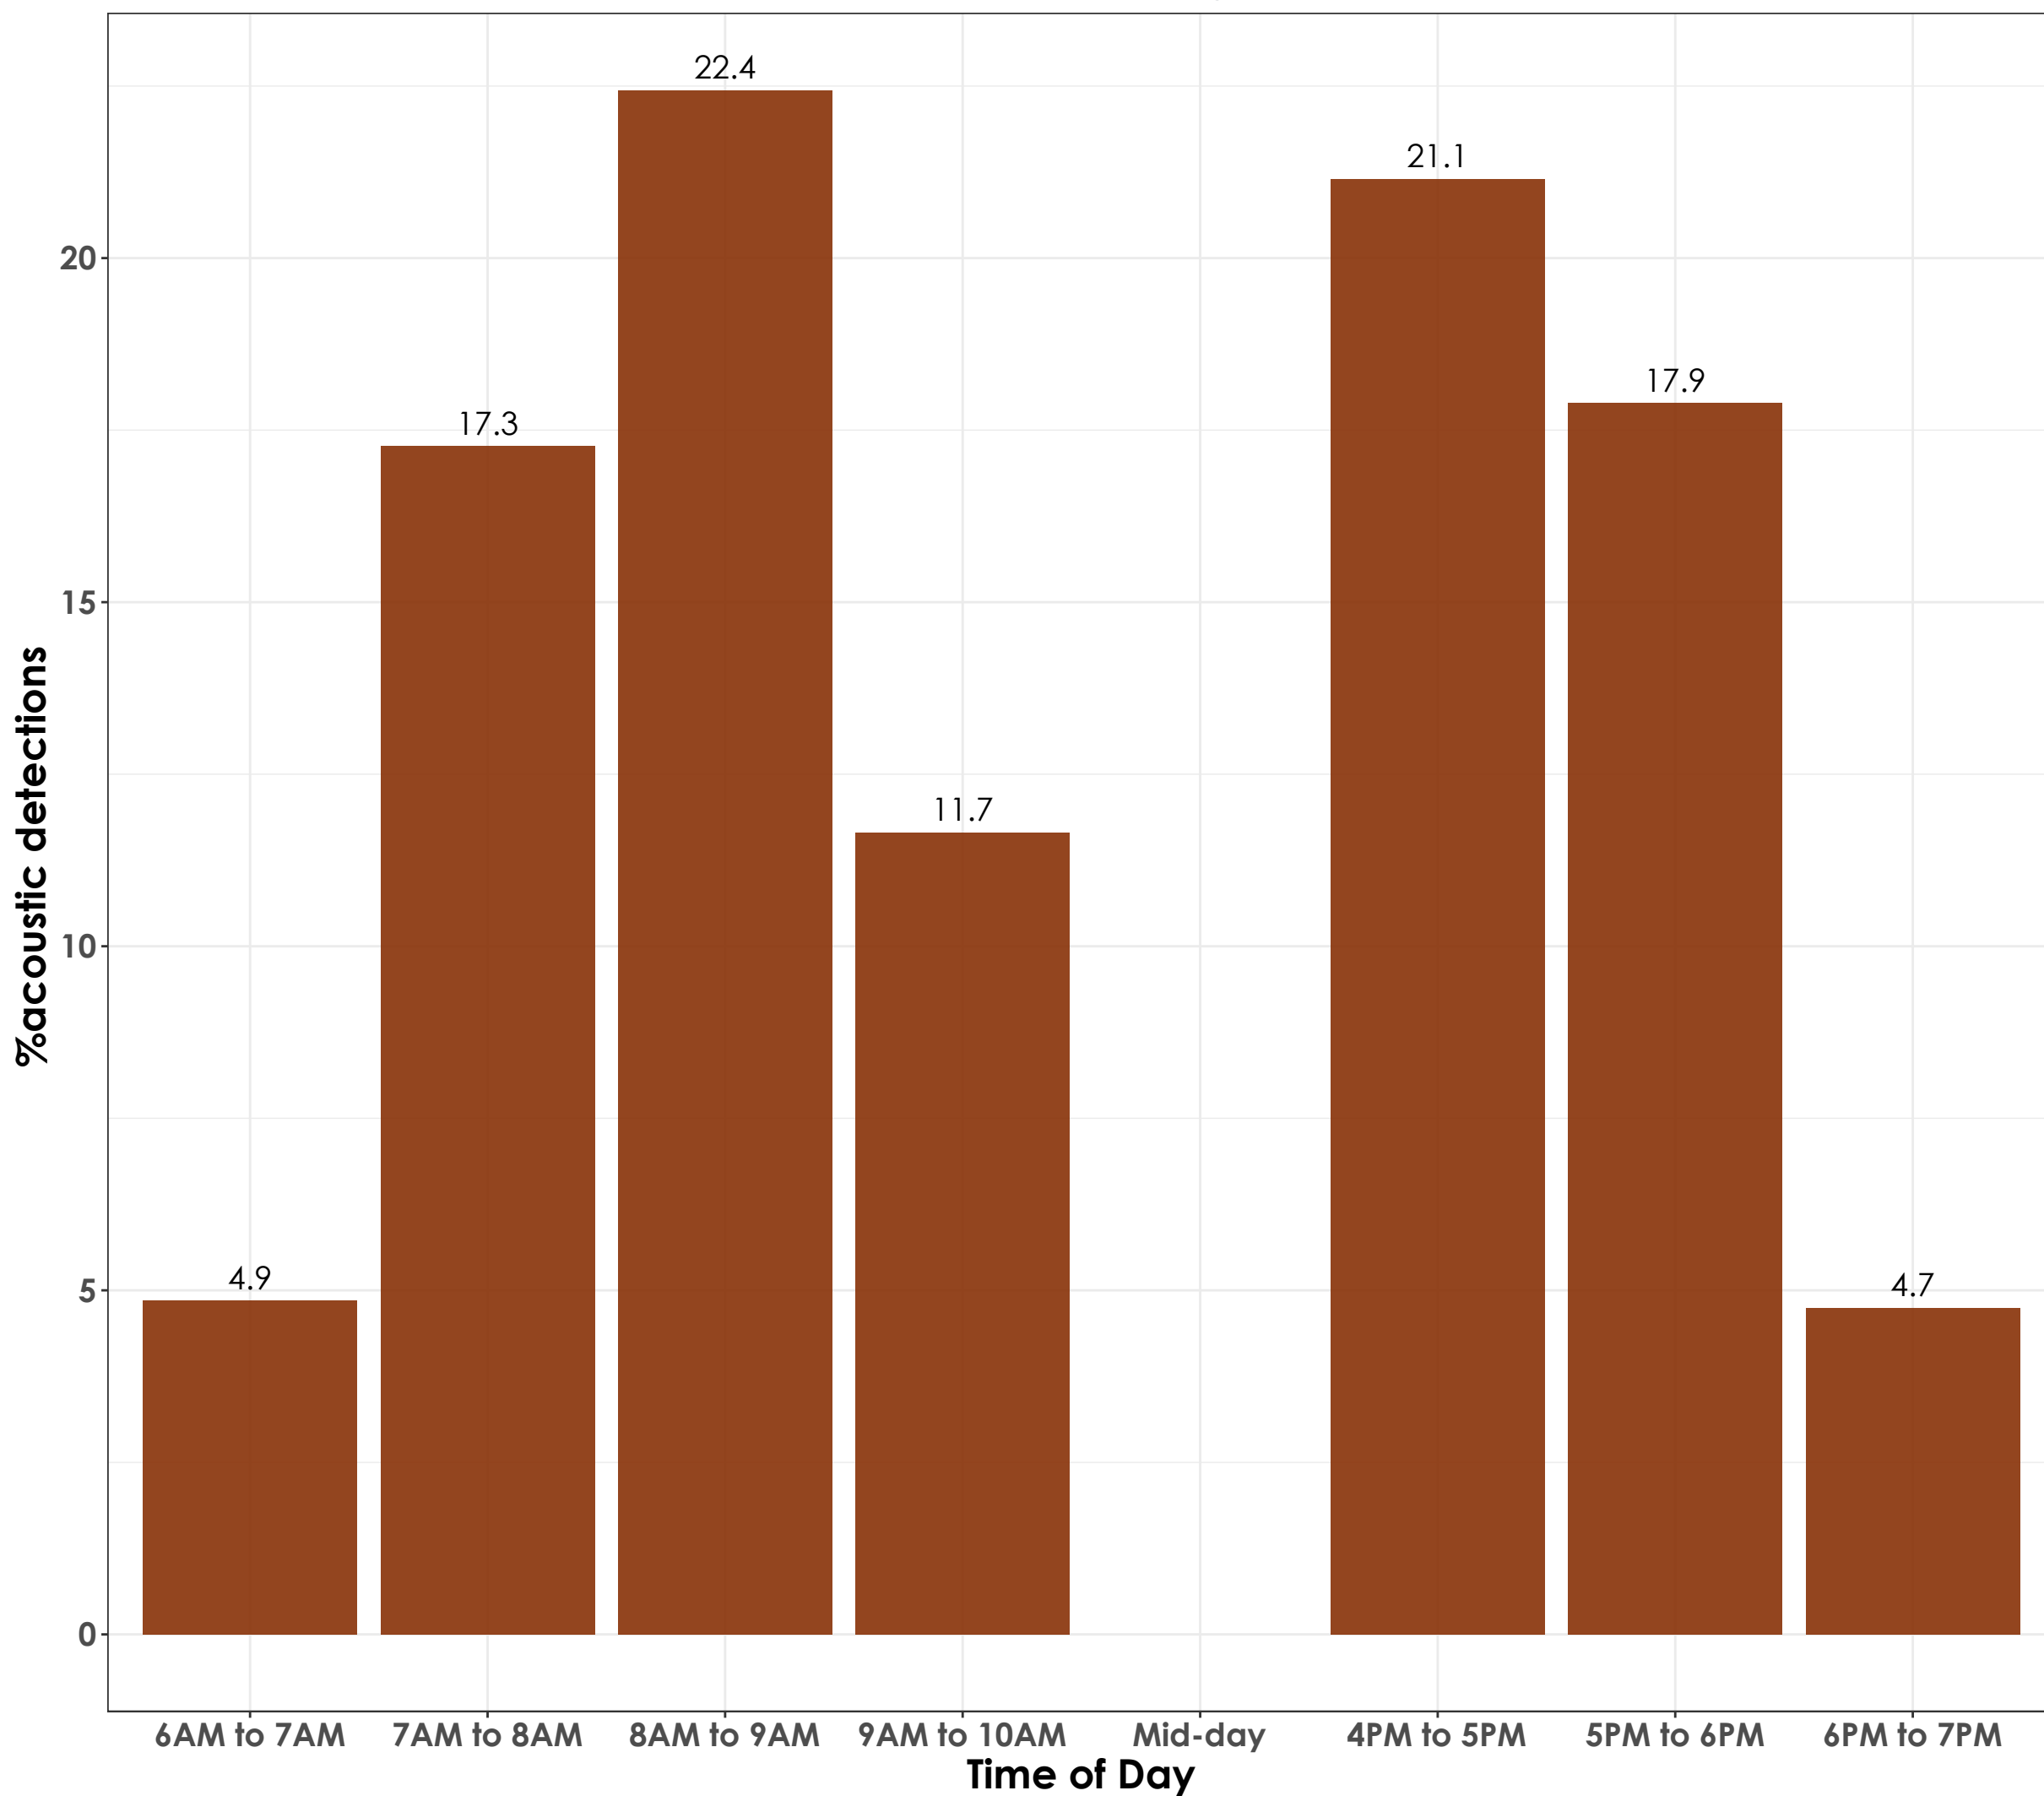

# Malabar Trogon

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

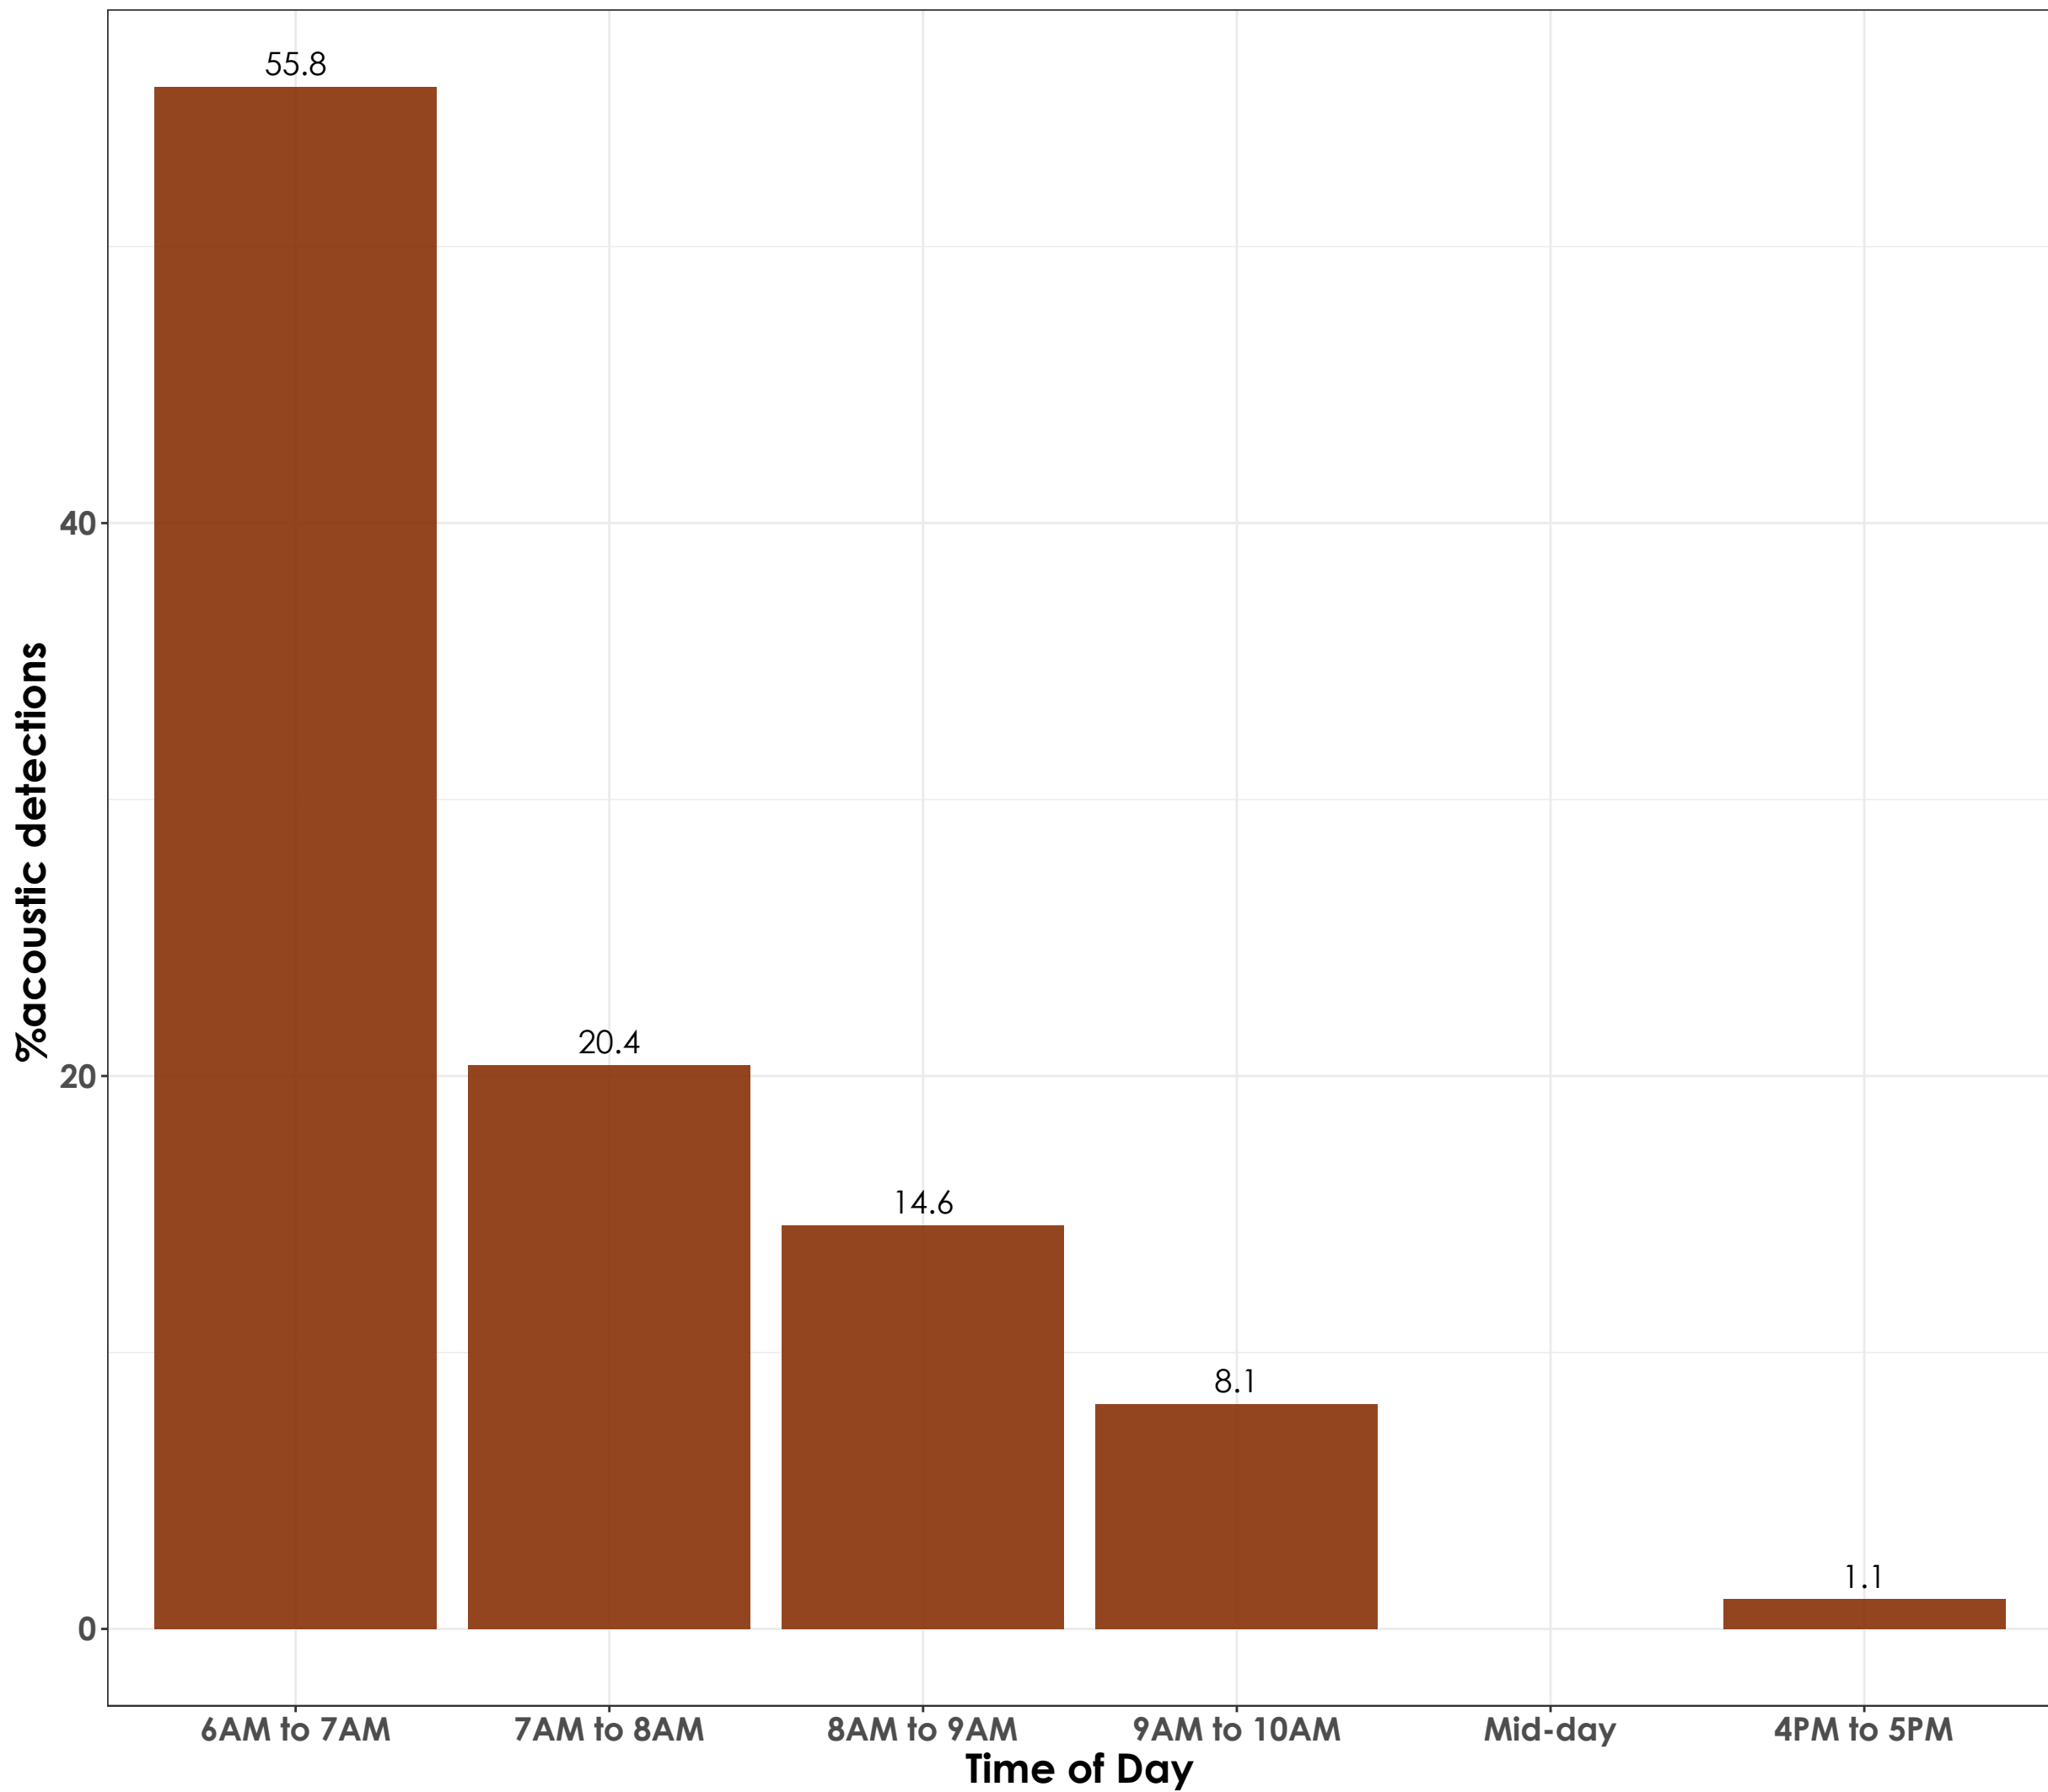

# Plum-headed Parakeet

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

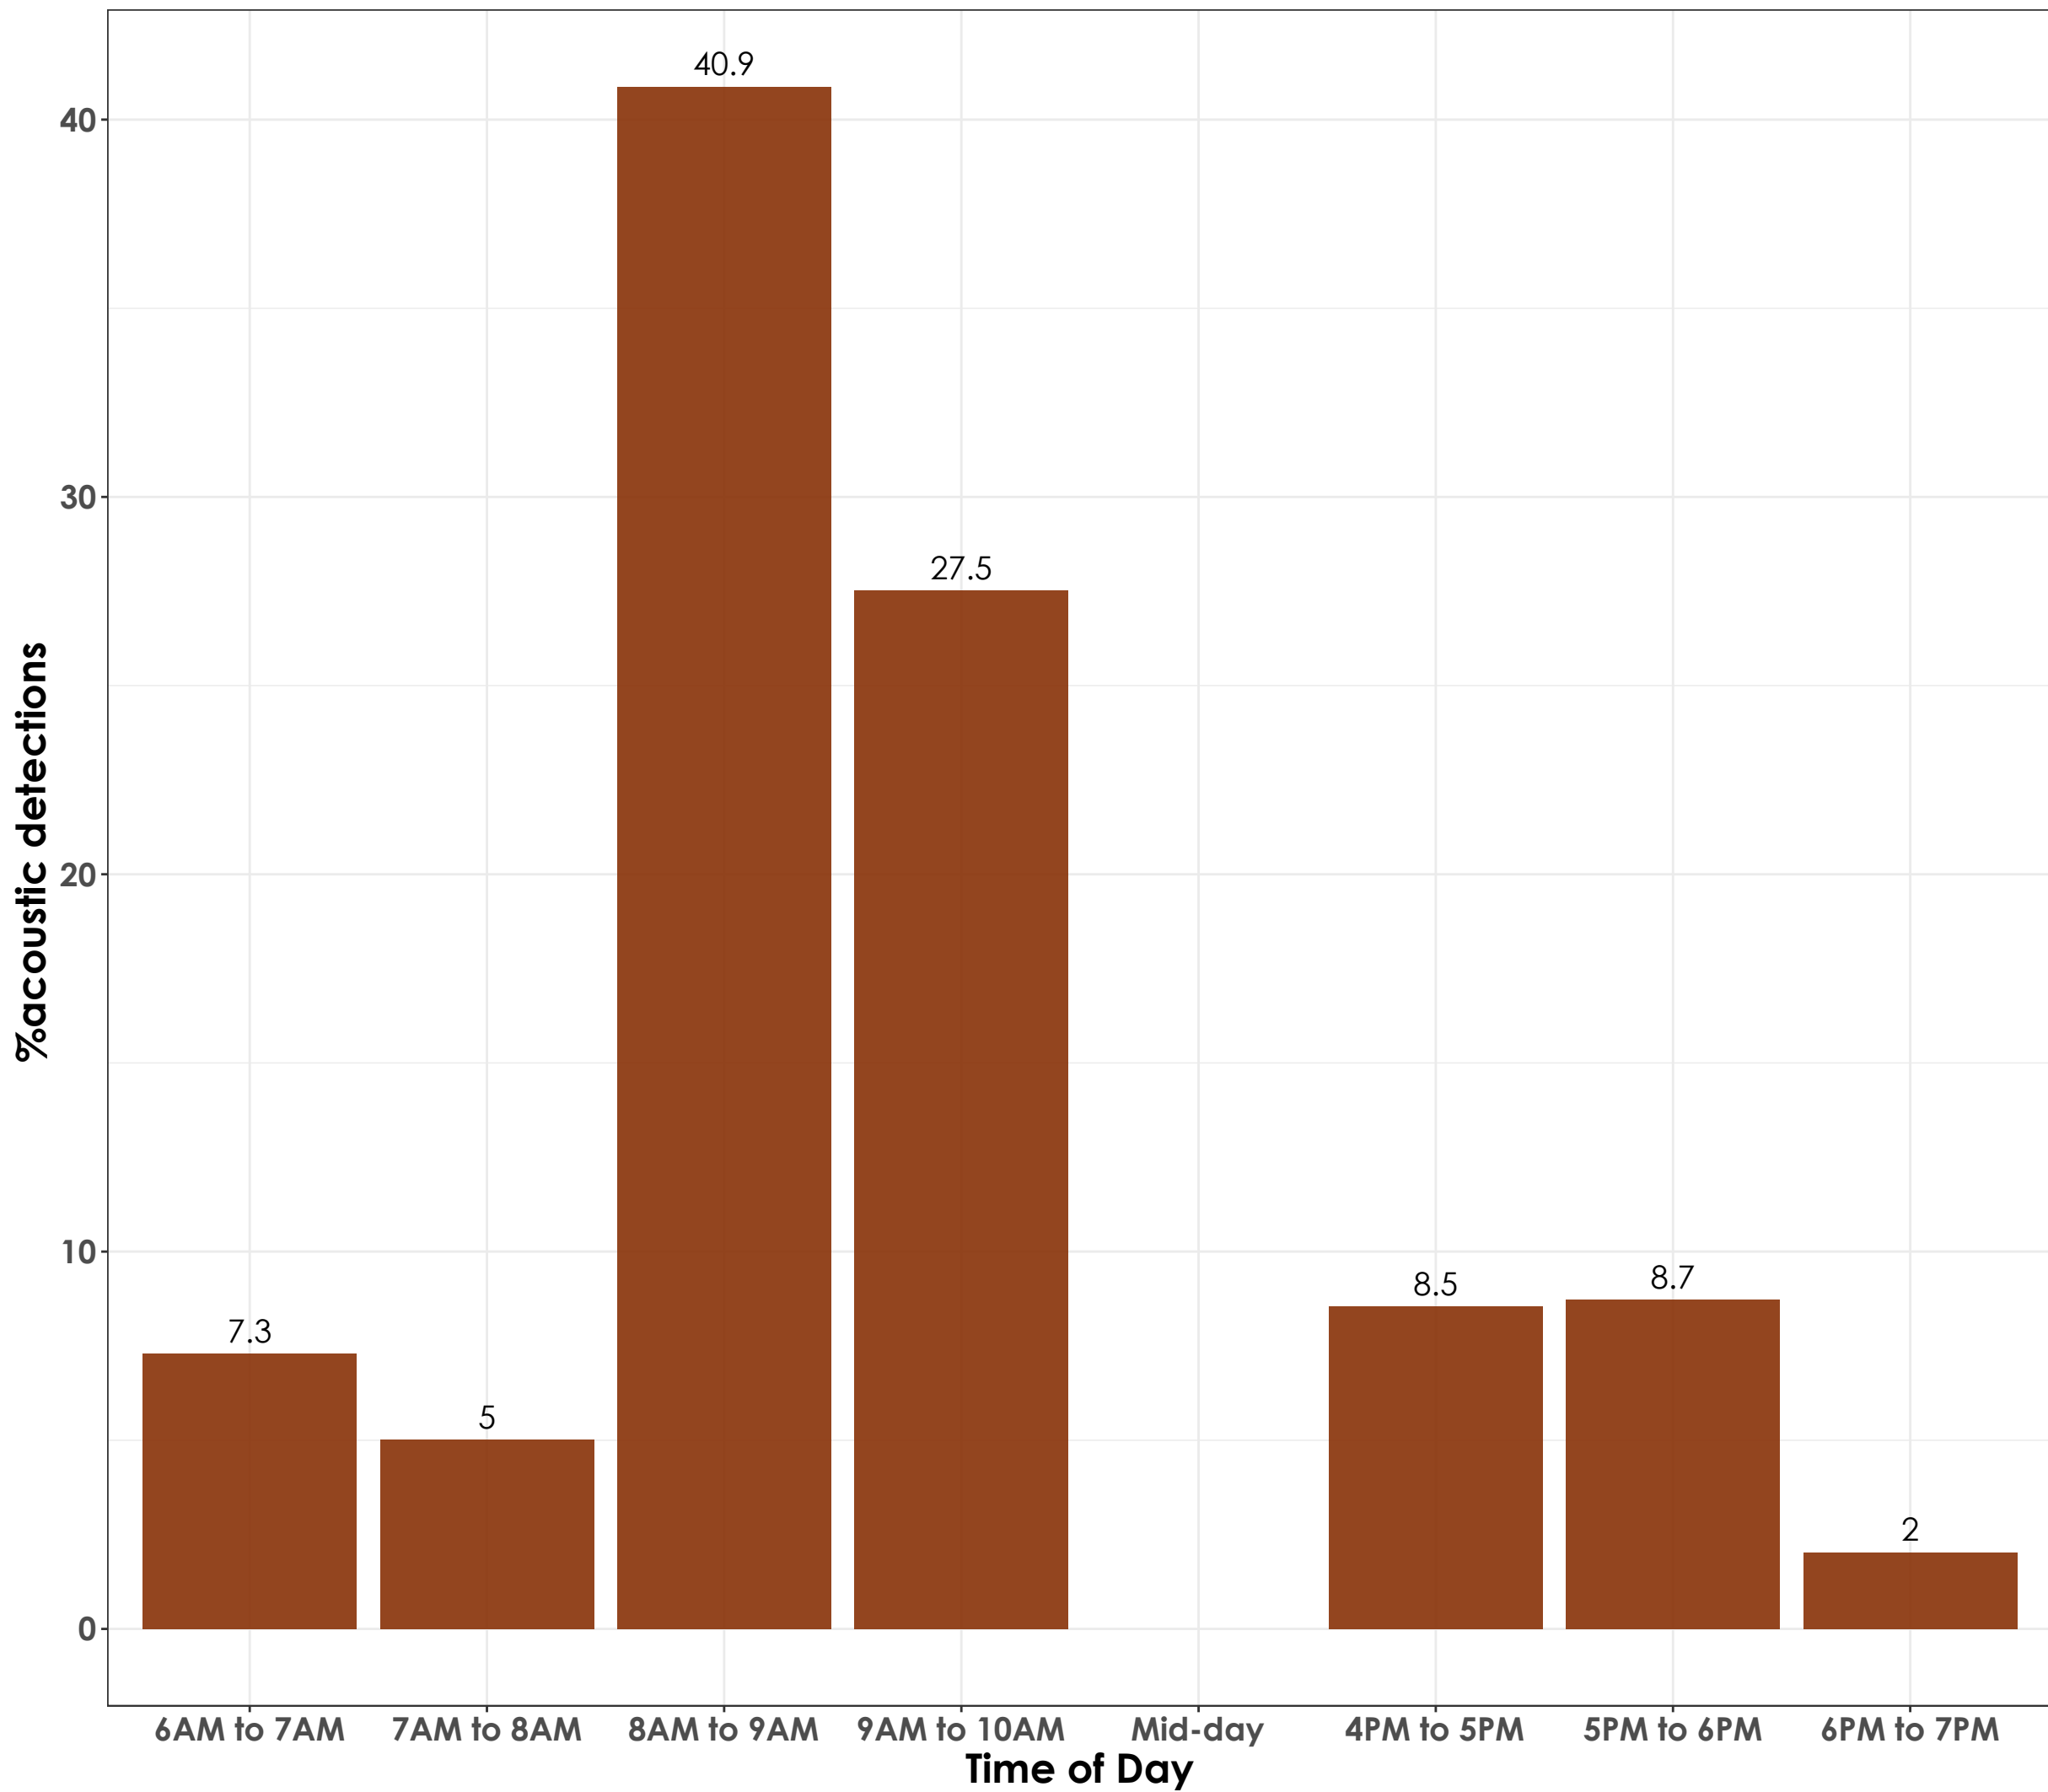

# Gray-headed Canary-Flycatcher

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

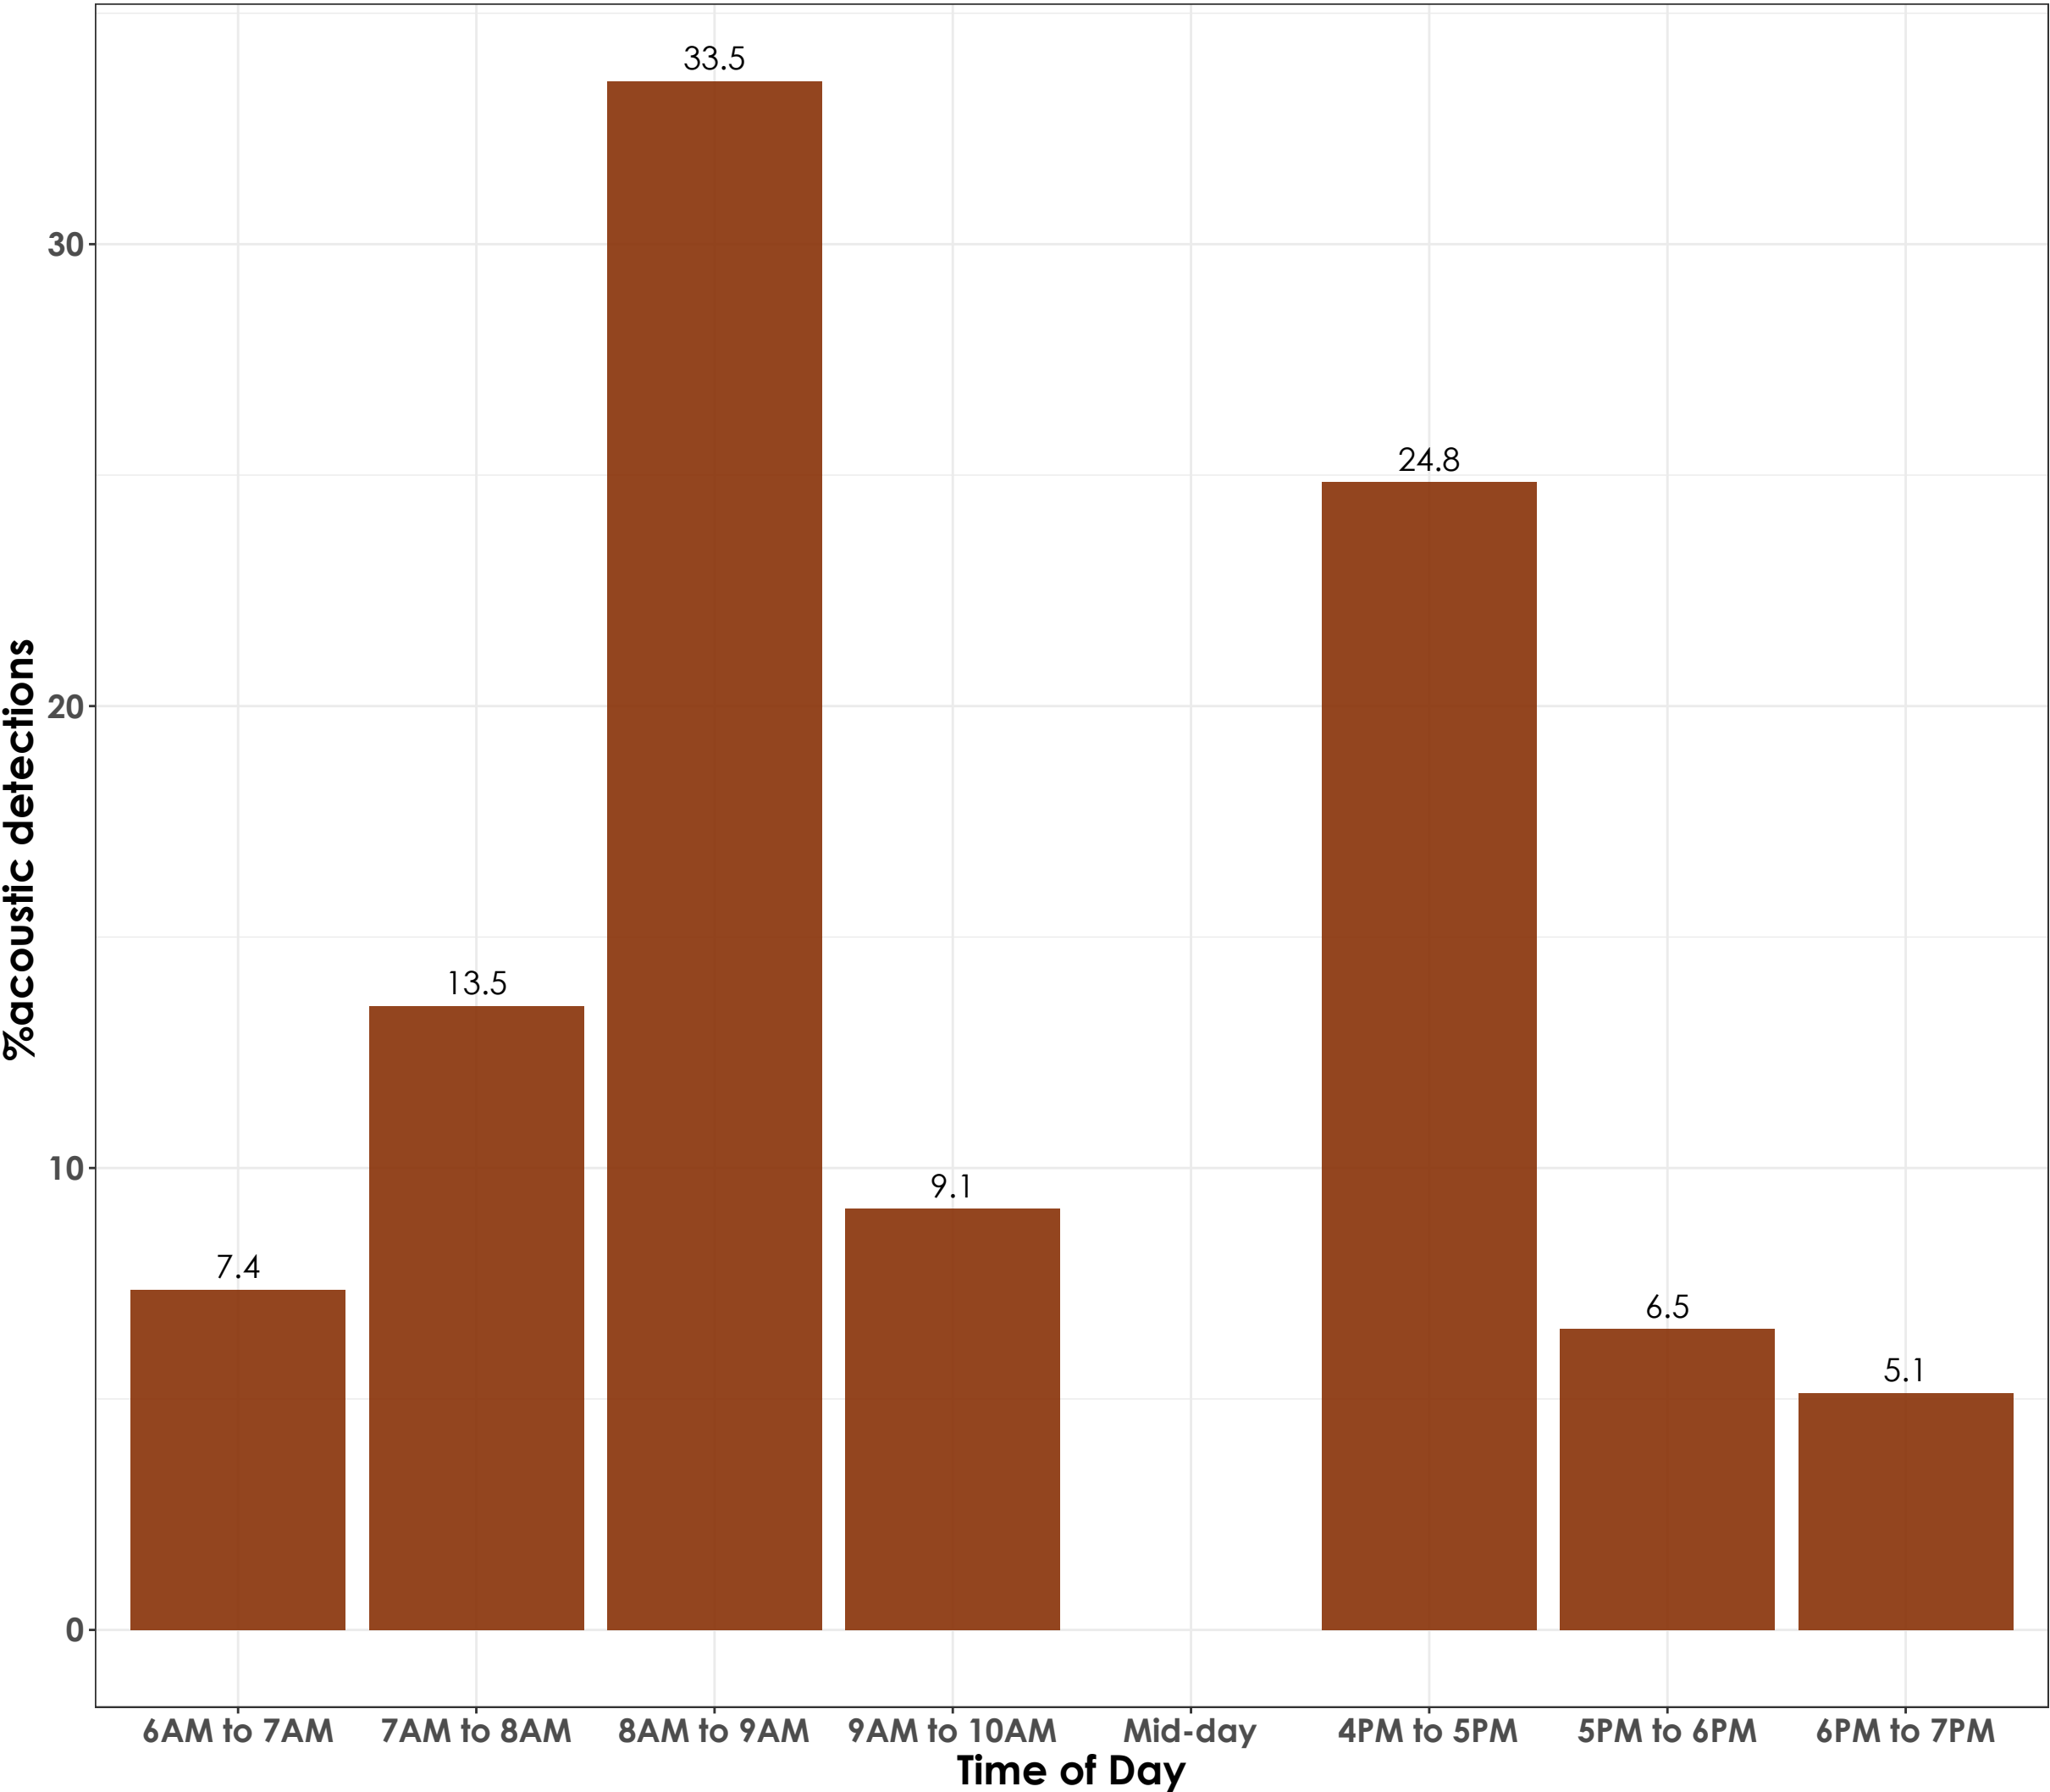

# Malabar Parakeet

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

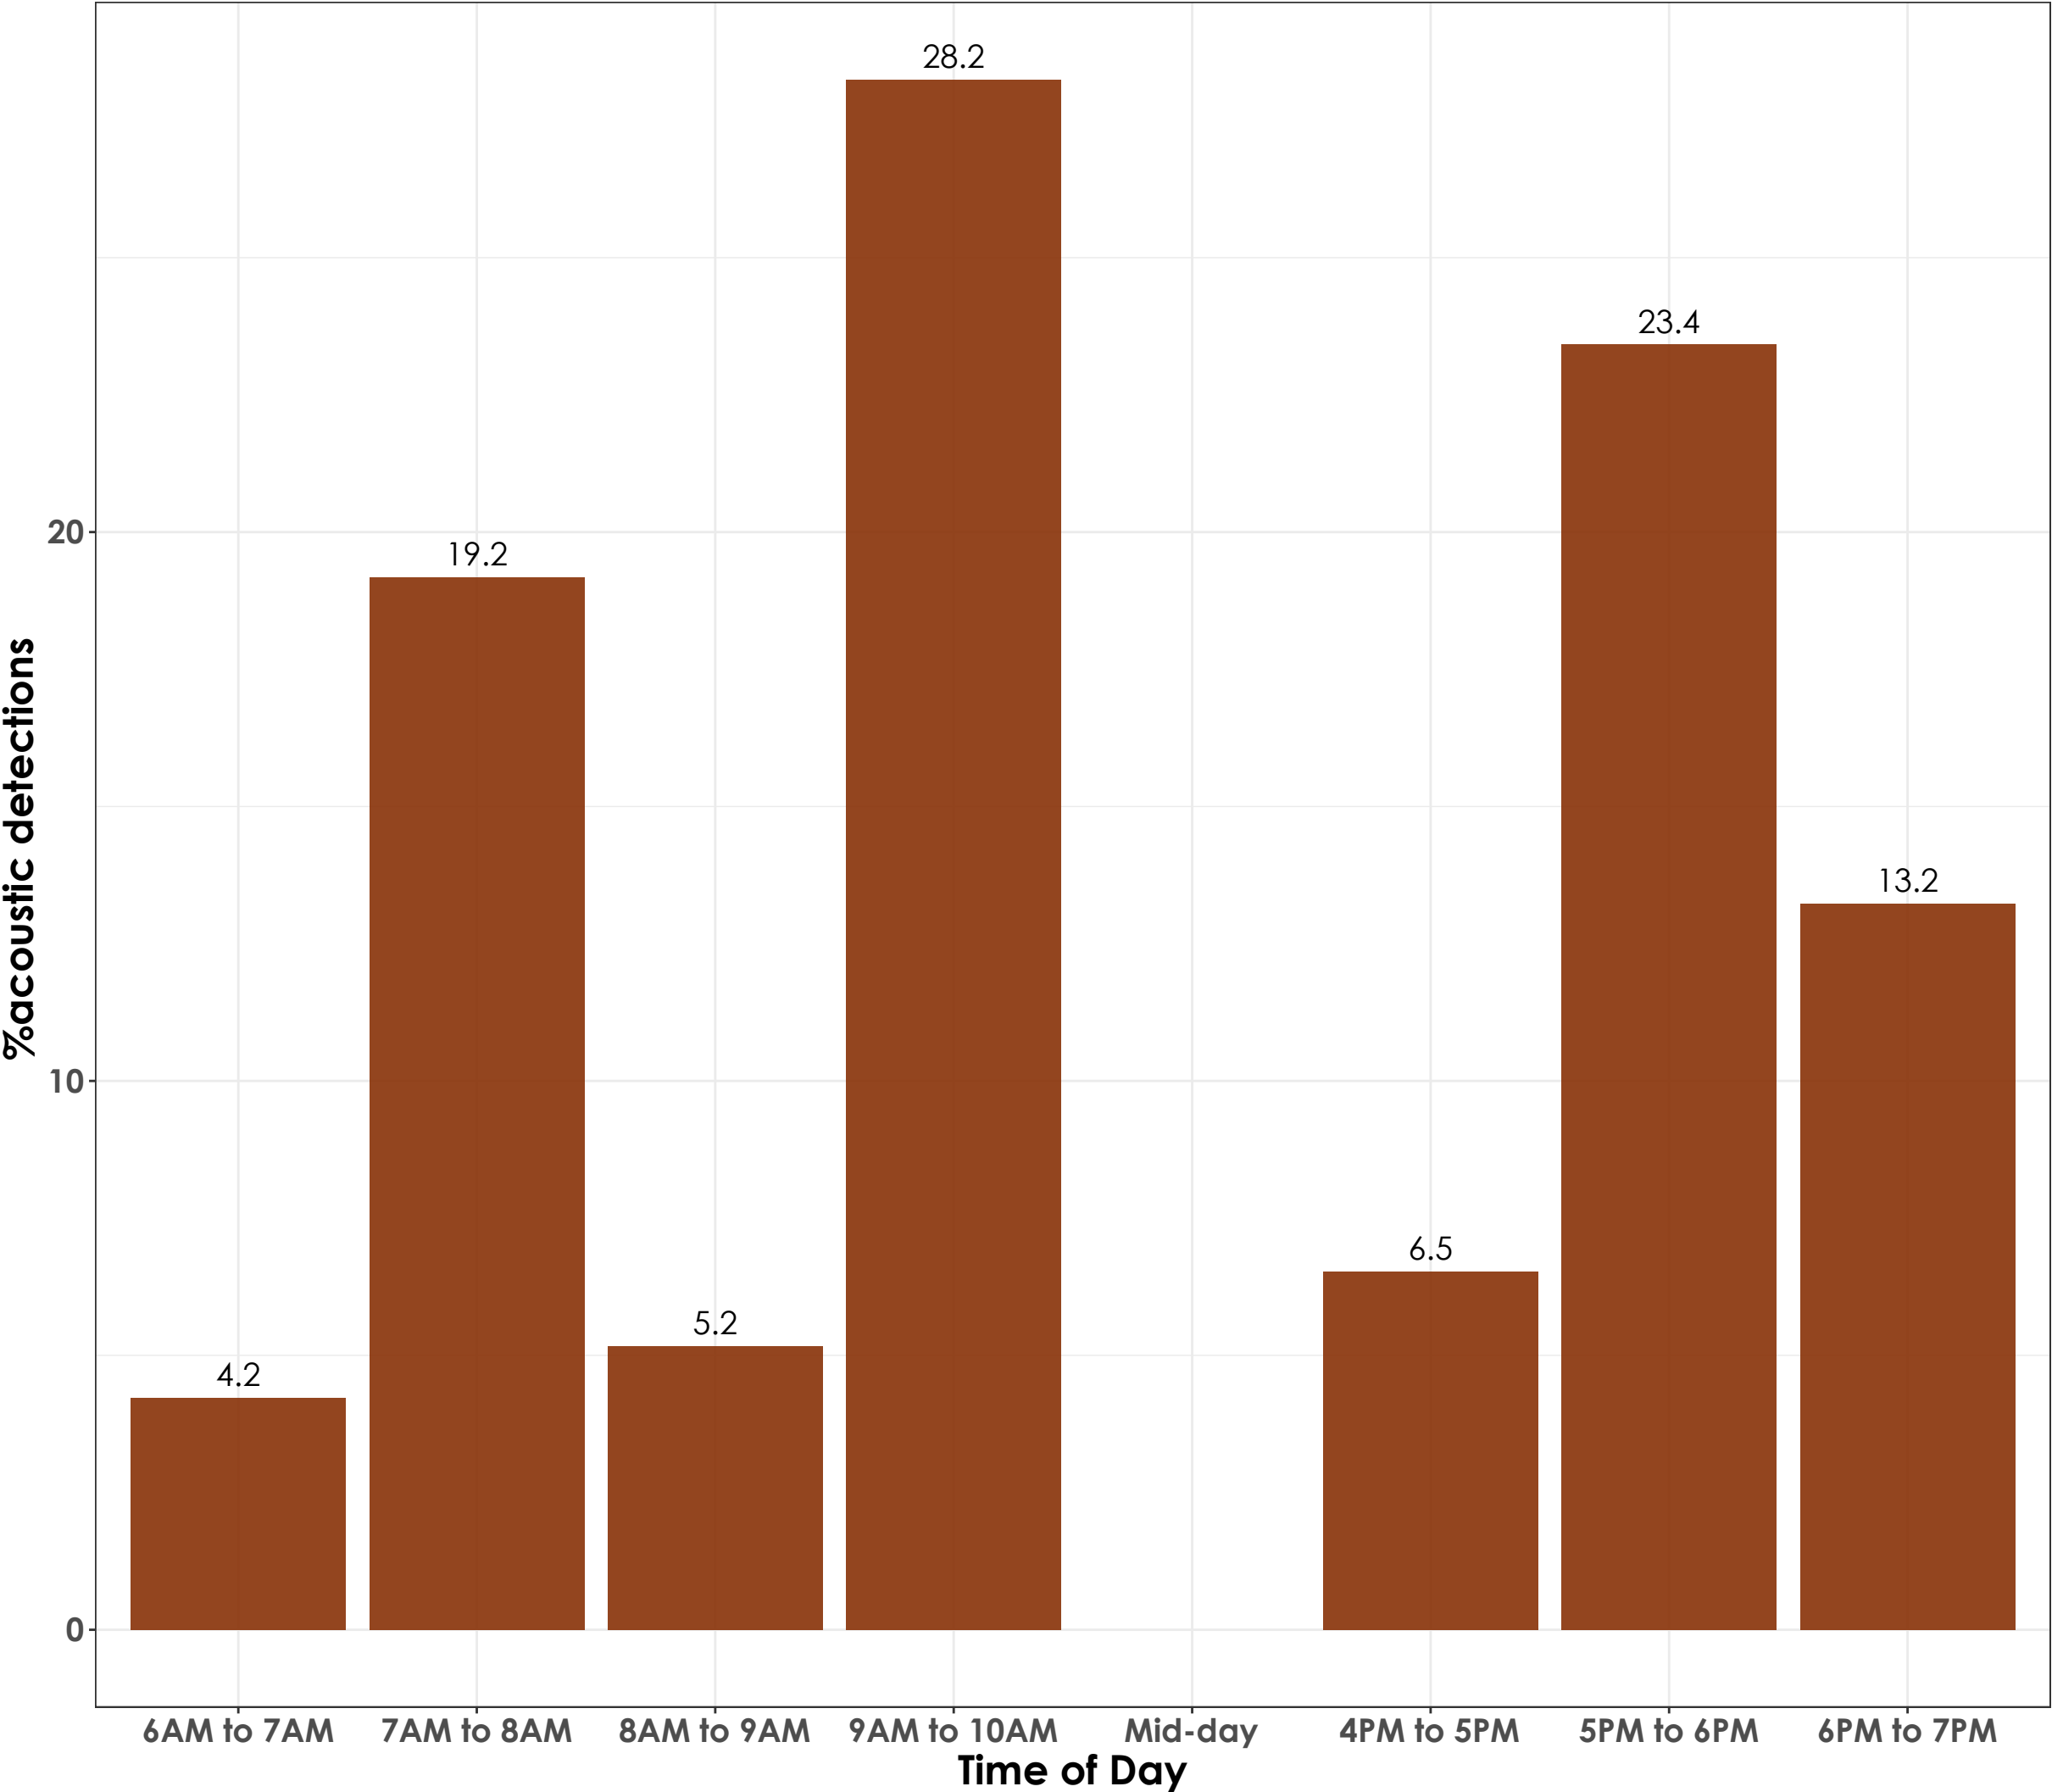

# Streak-throated Woodpecker

Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk

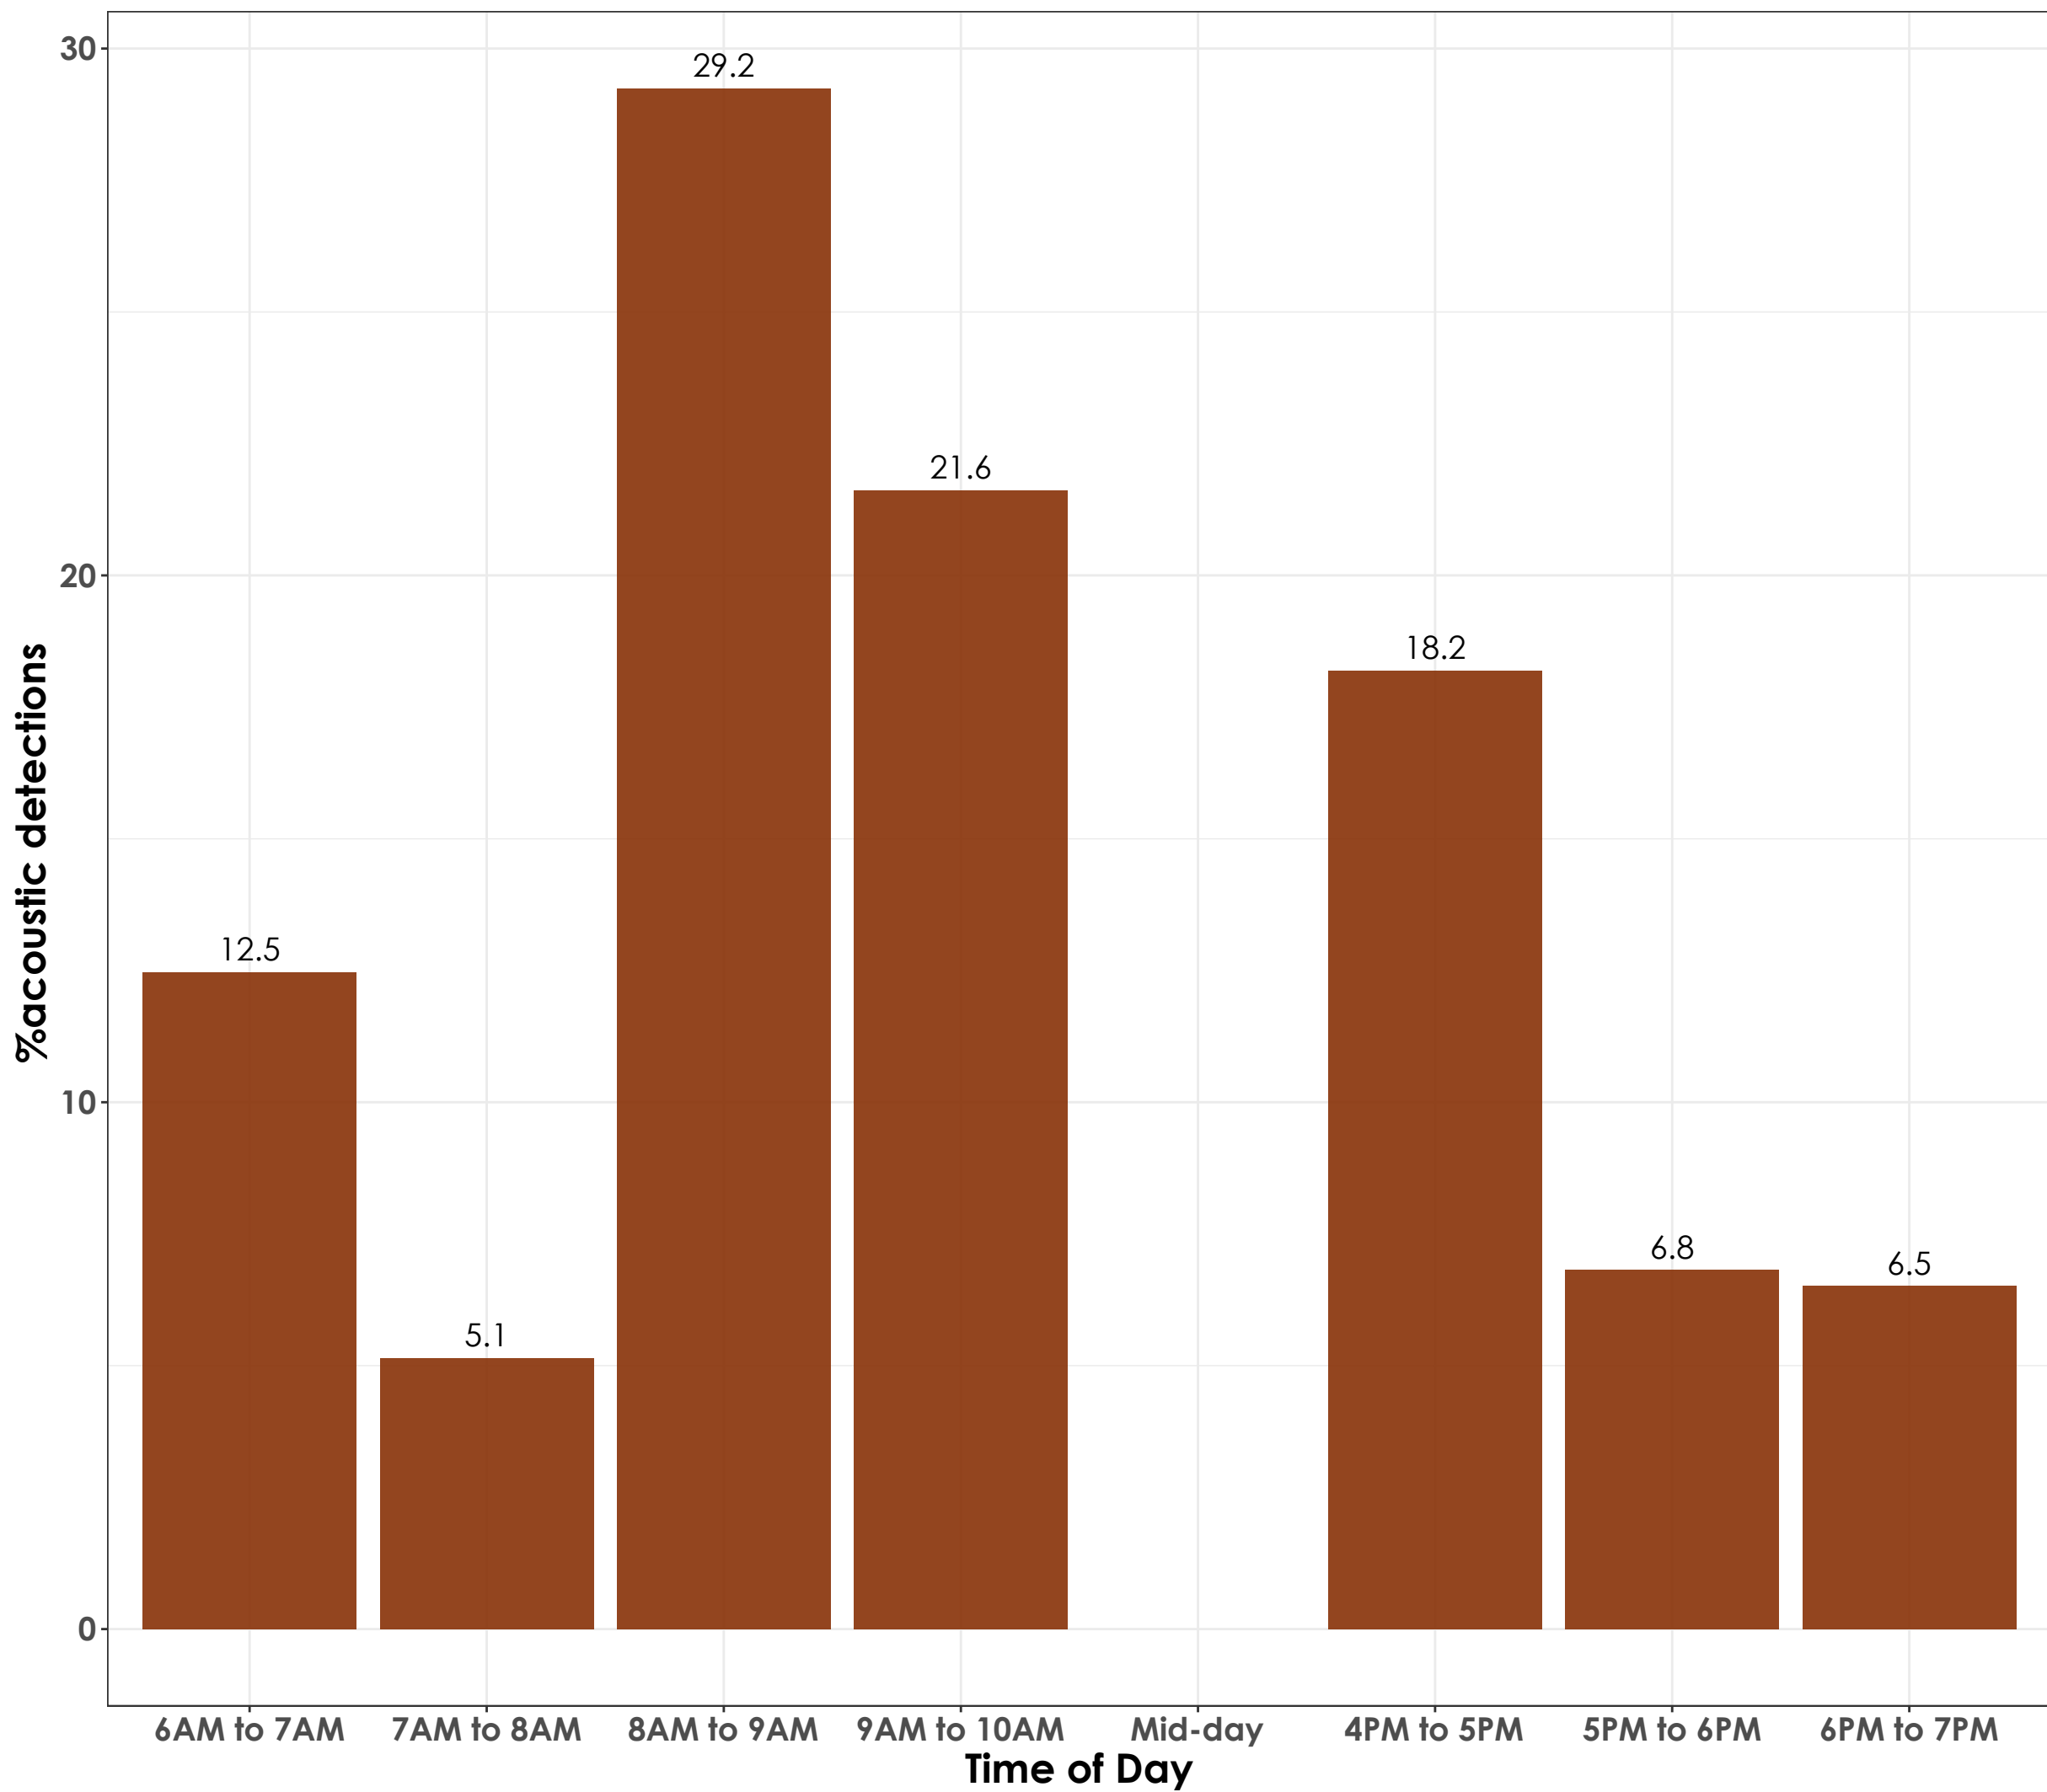

# Indian Yellow Tit

Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk

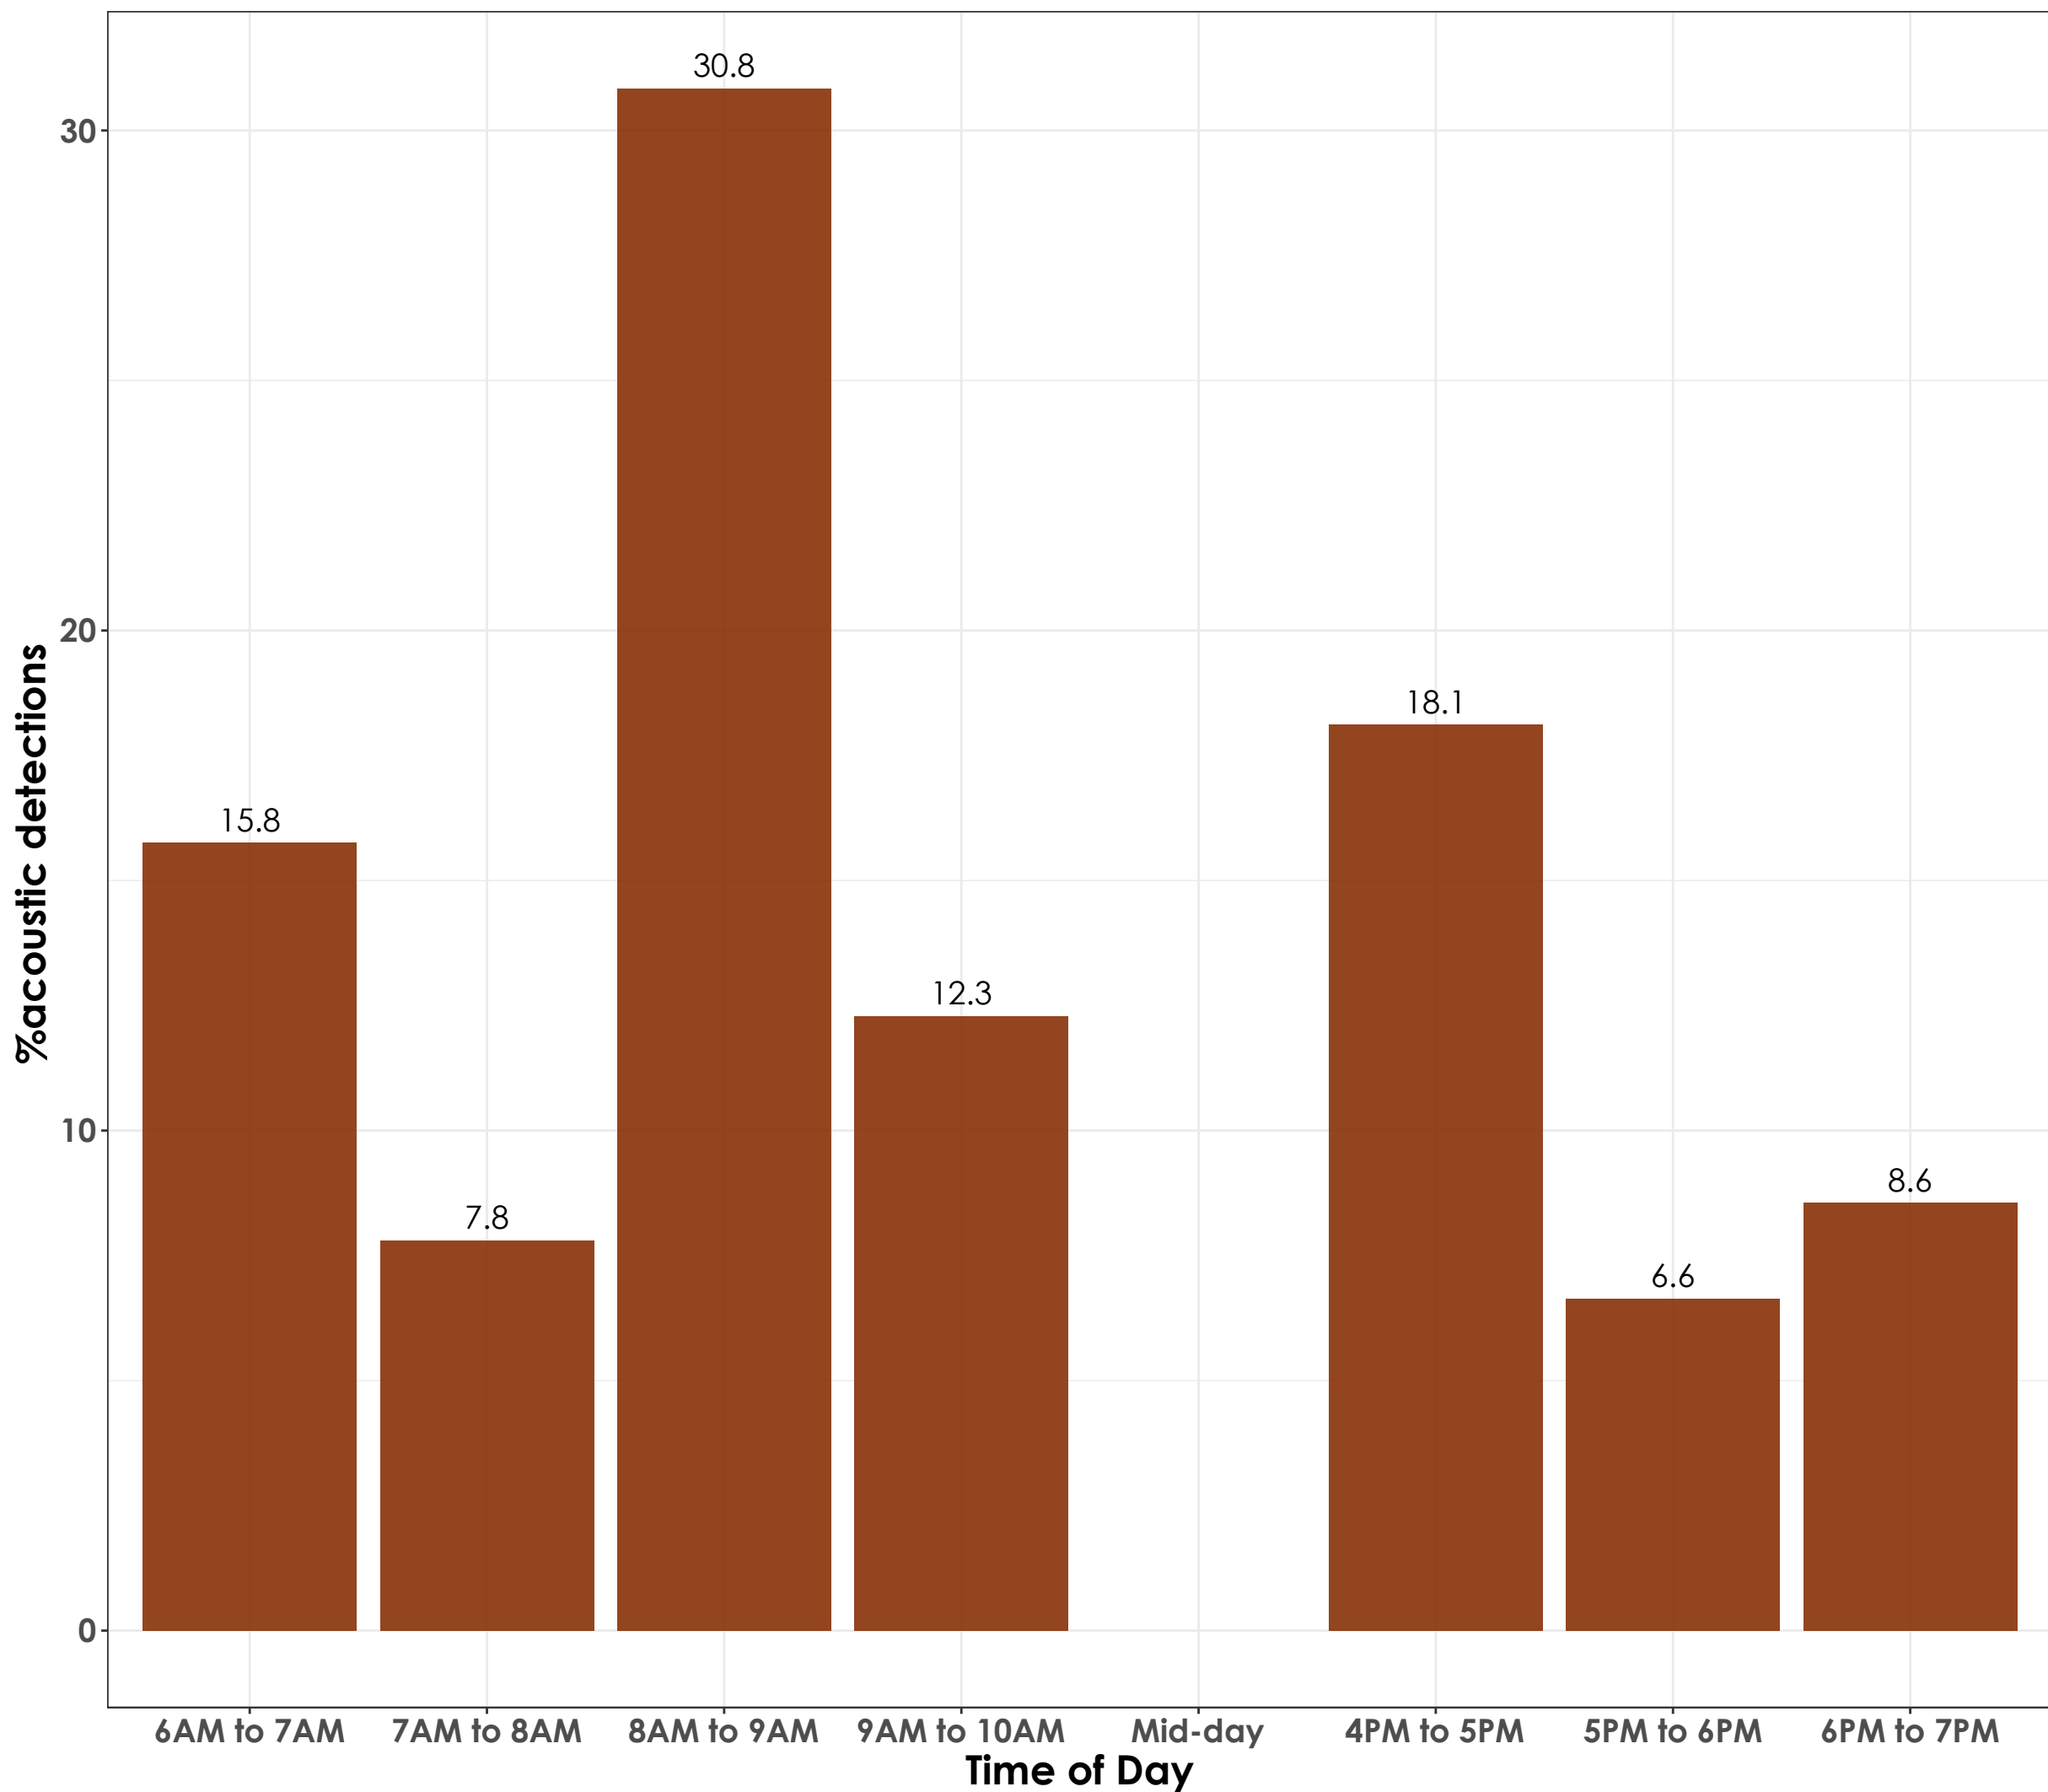

# Indian Paradise-Flycatcher

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Bar-winged Flycatcher-shrike

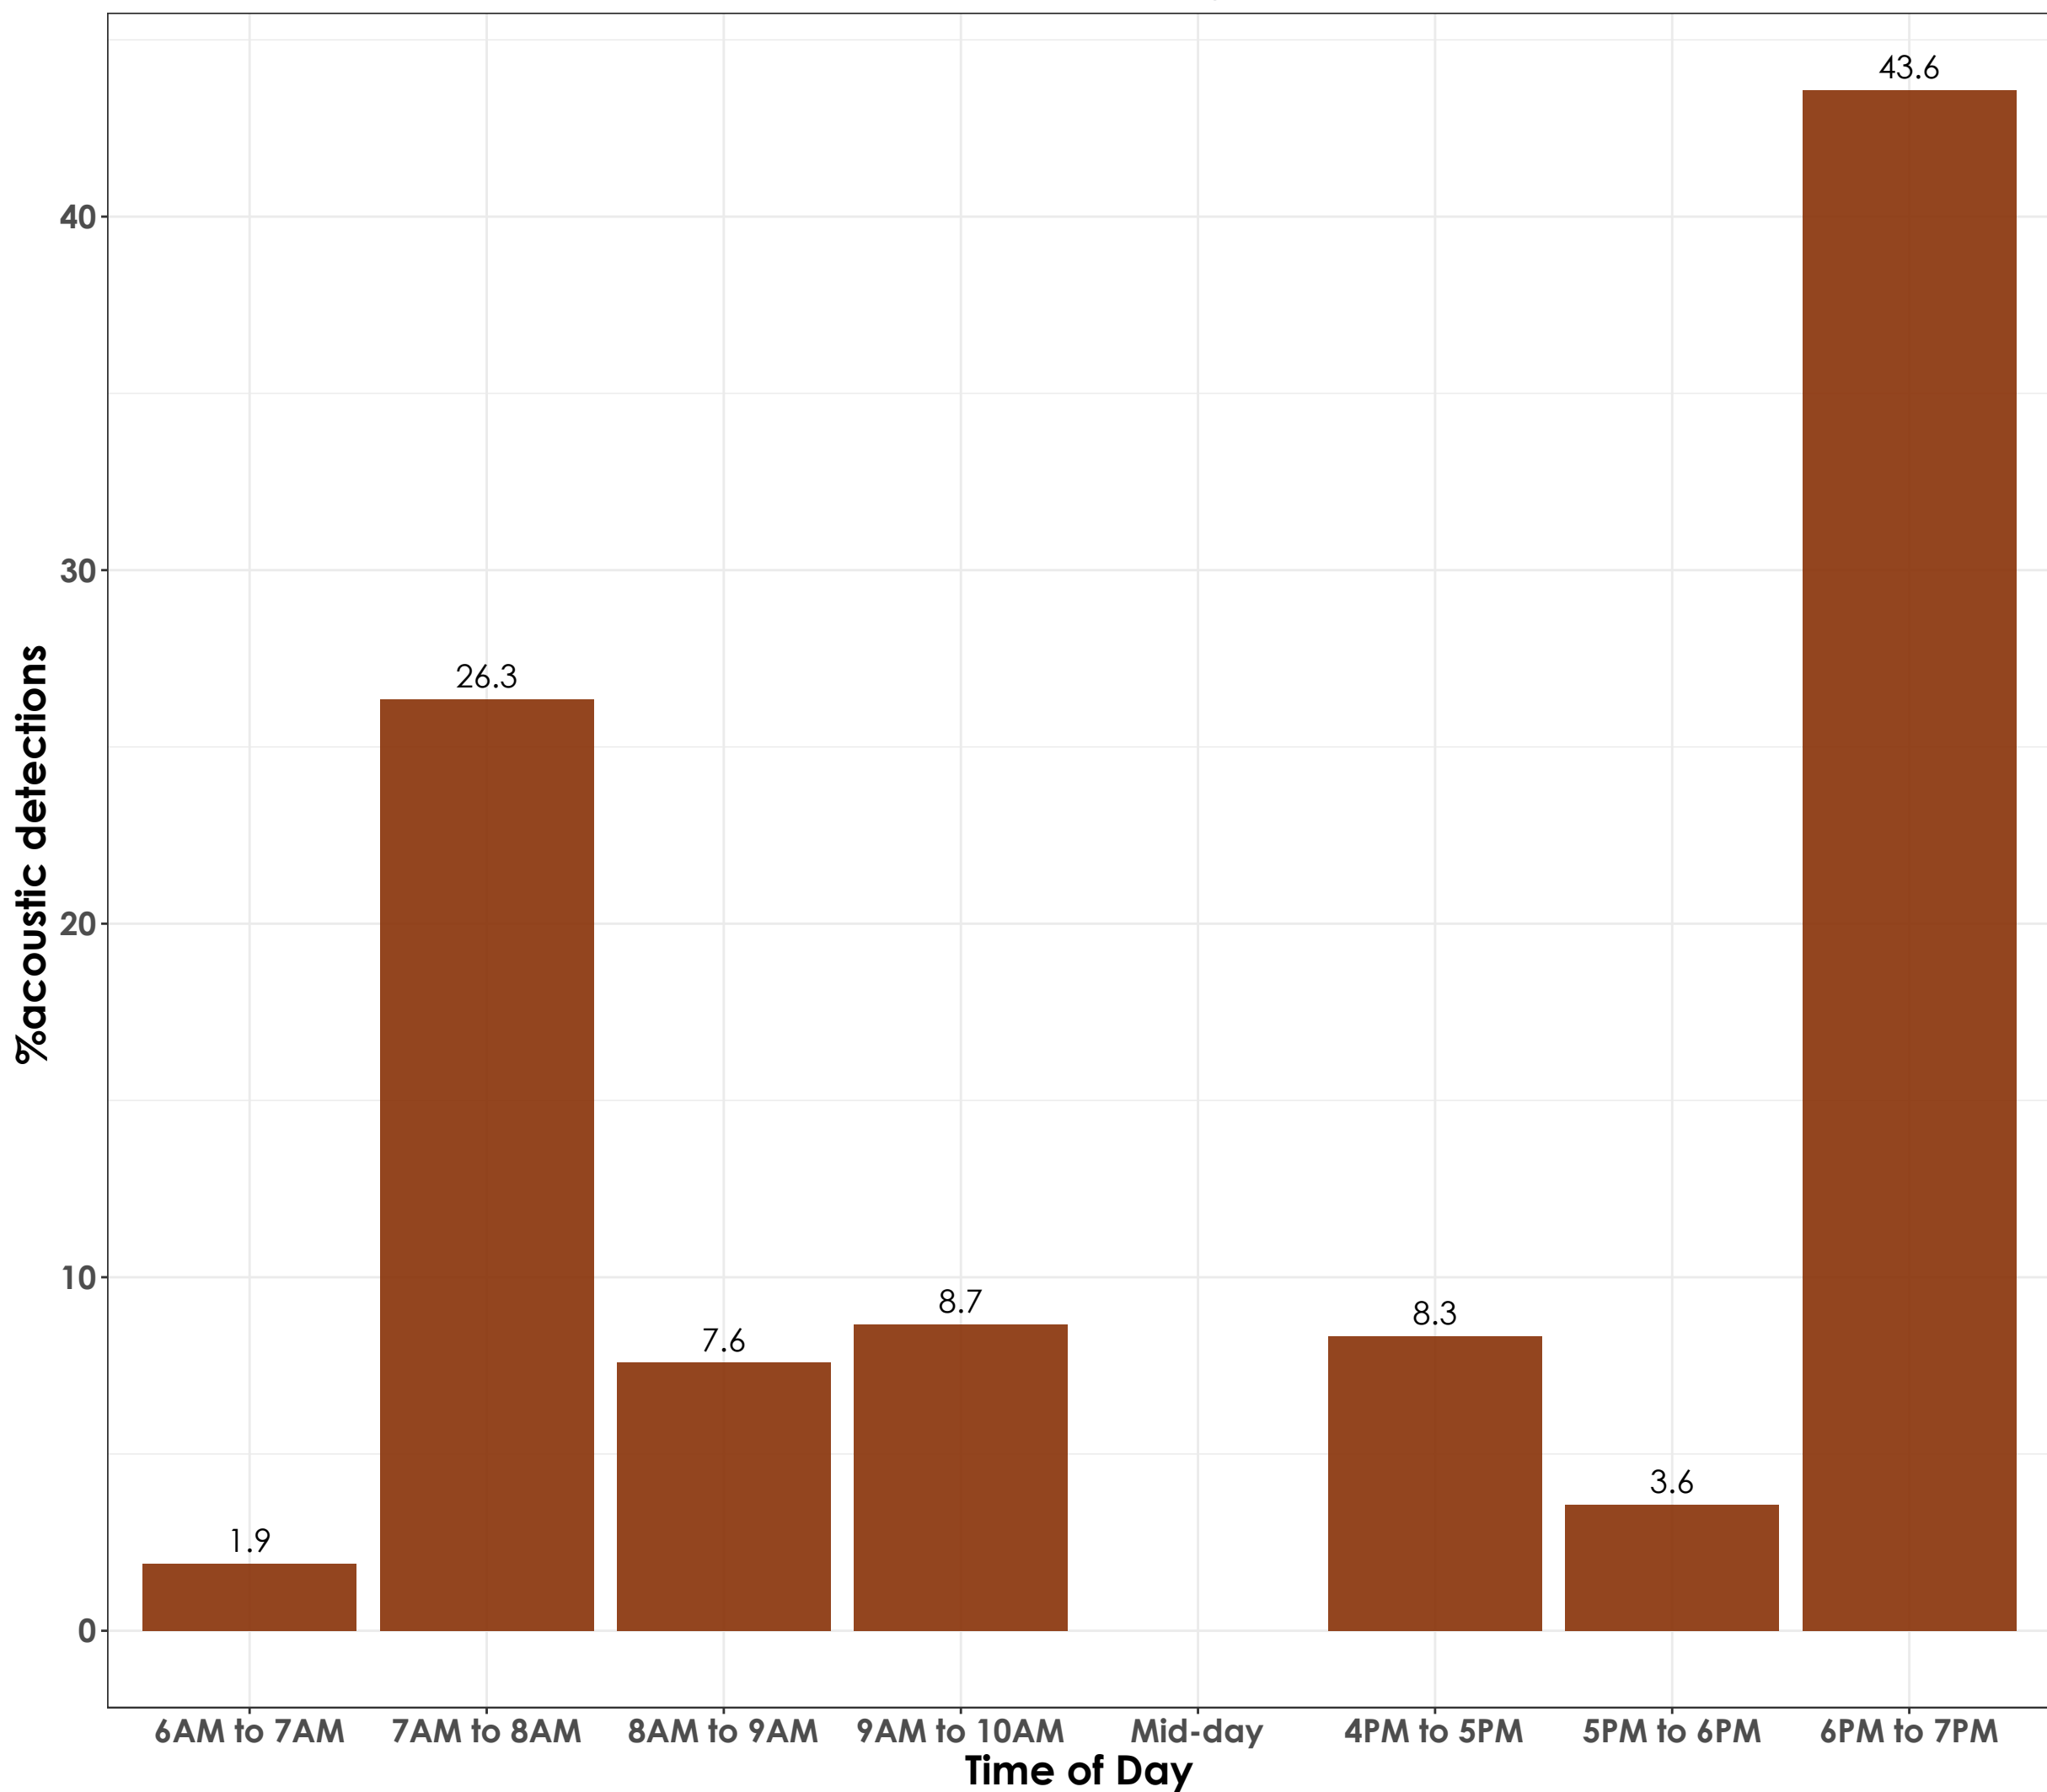

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

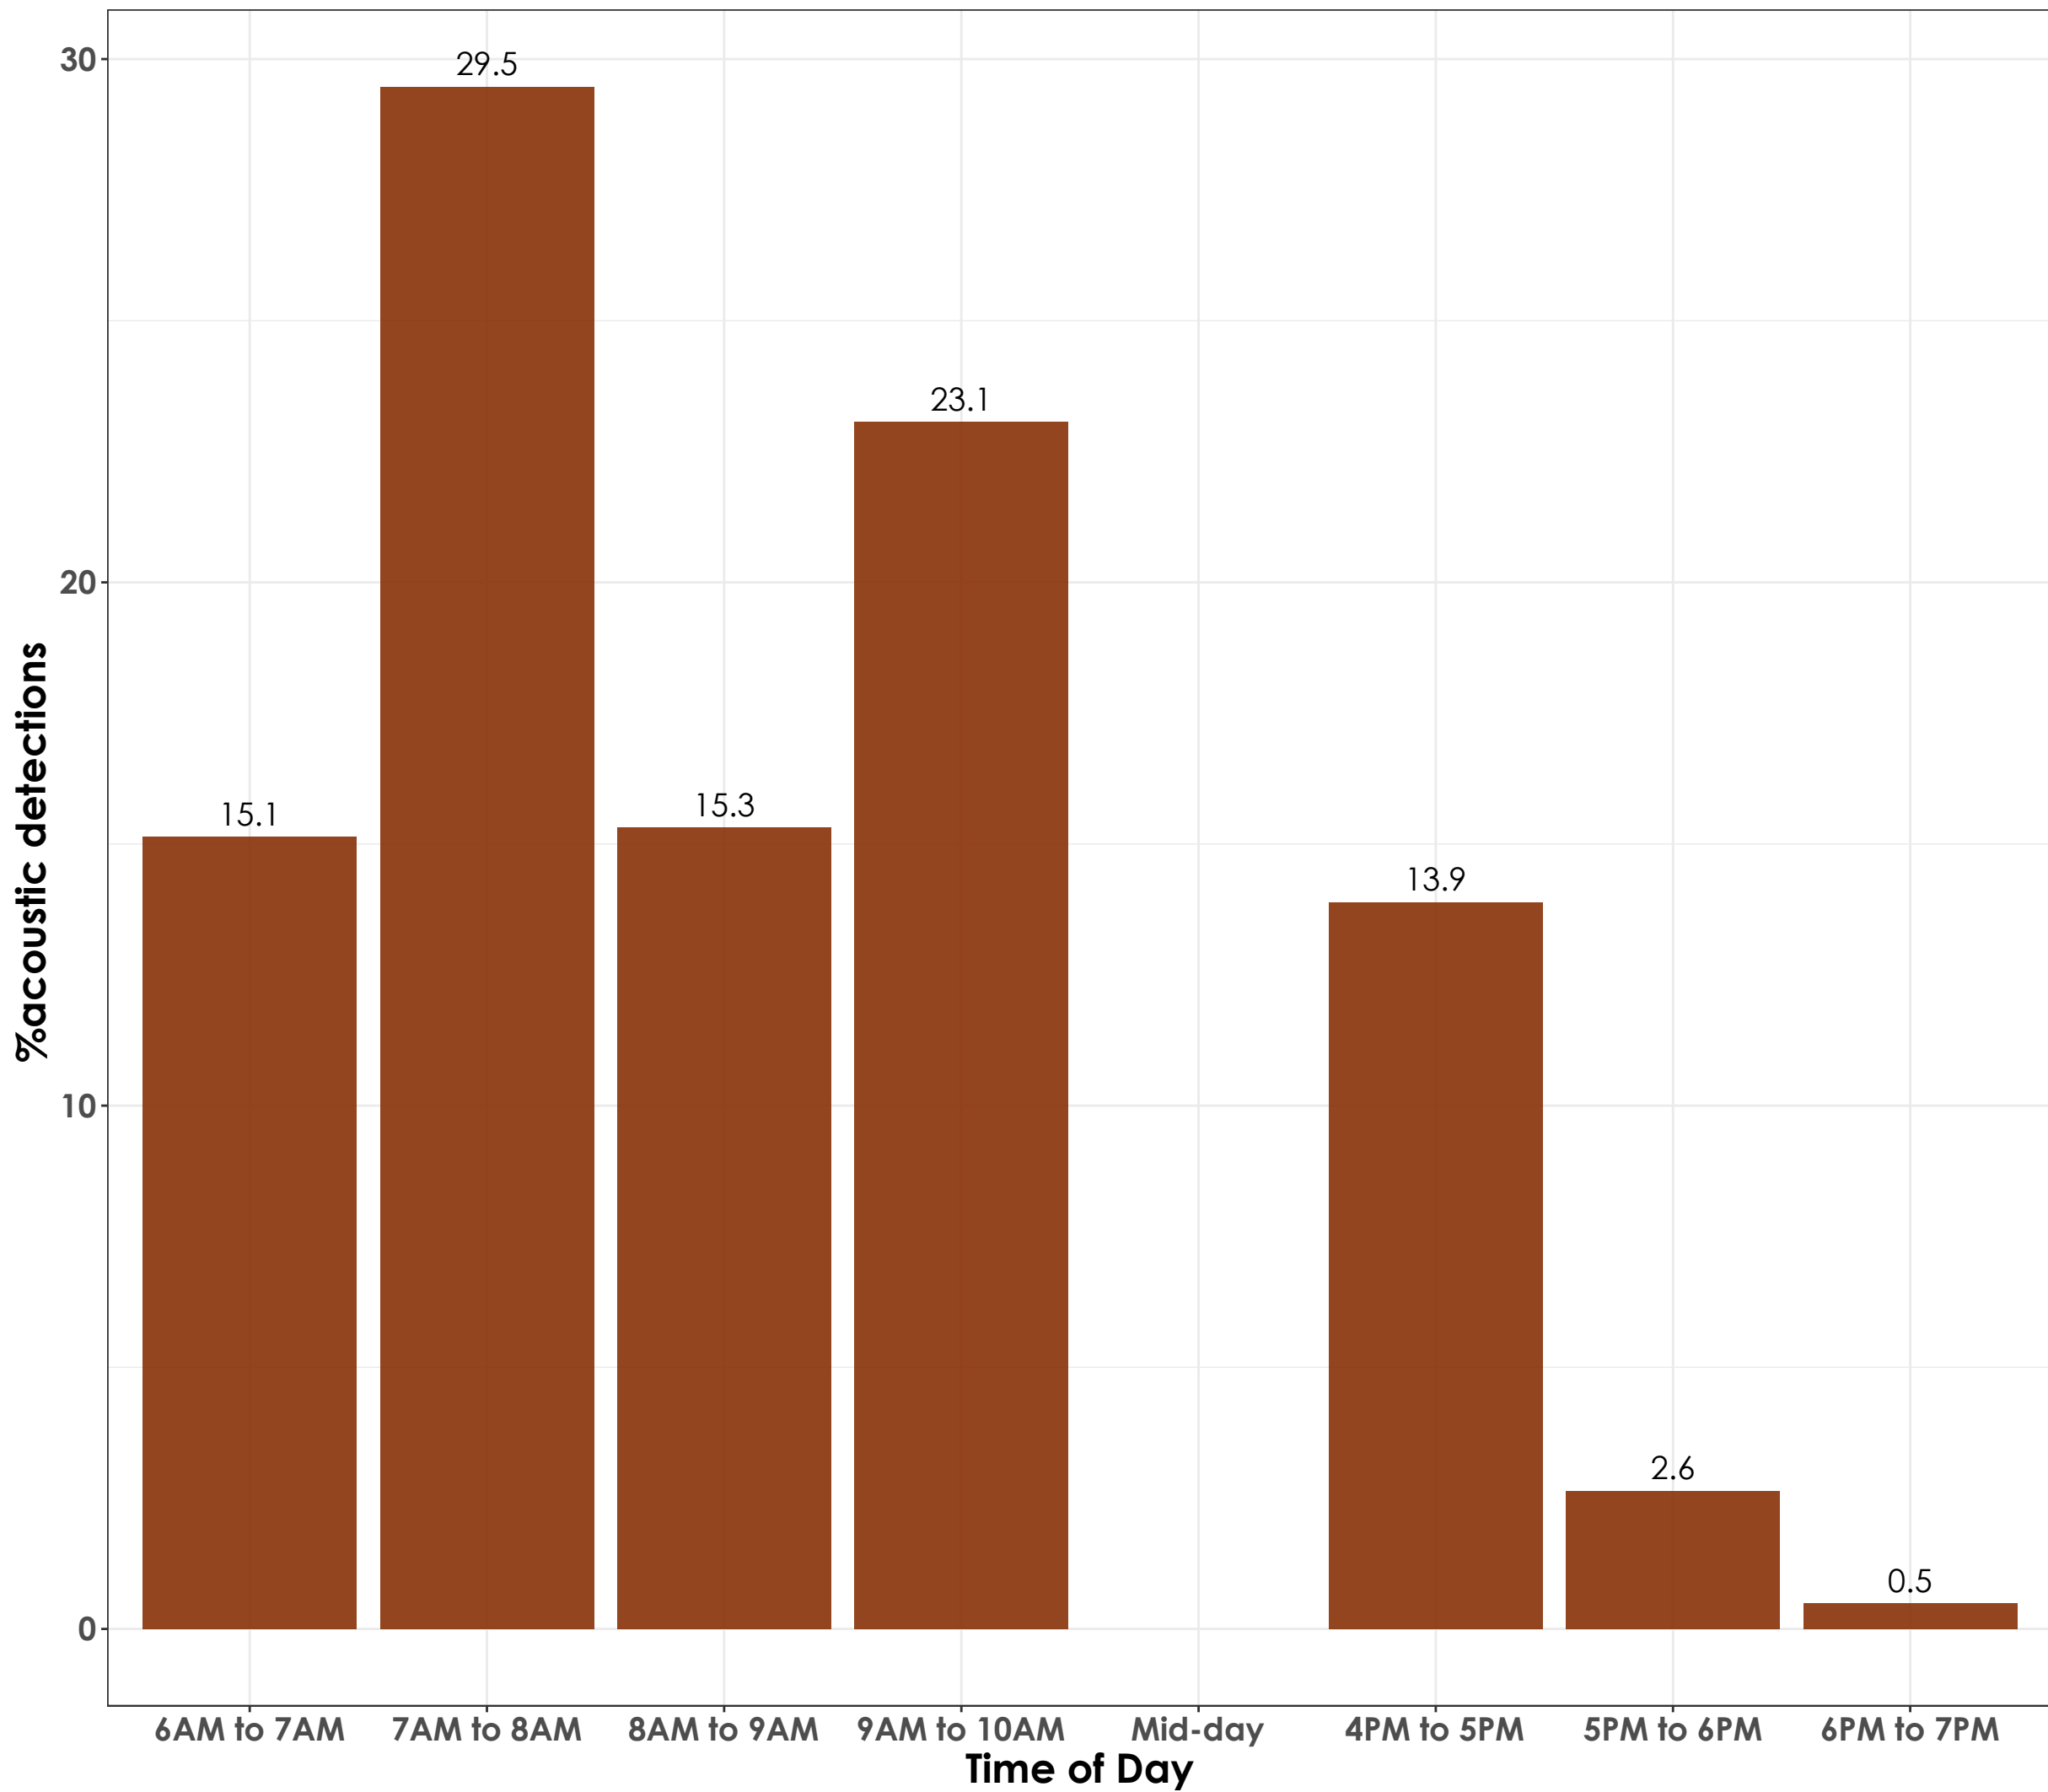

# Black-and-orange Flycatcher

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

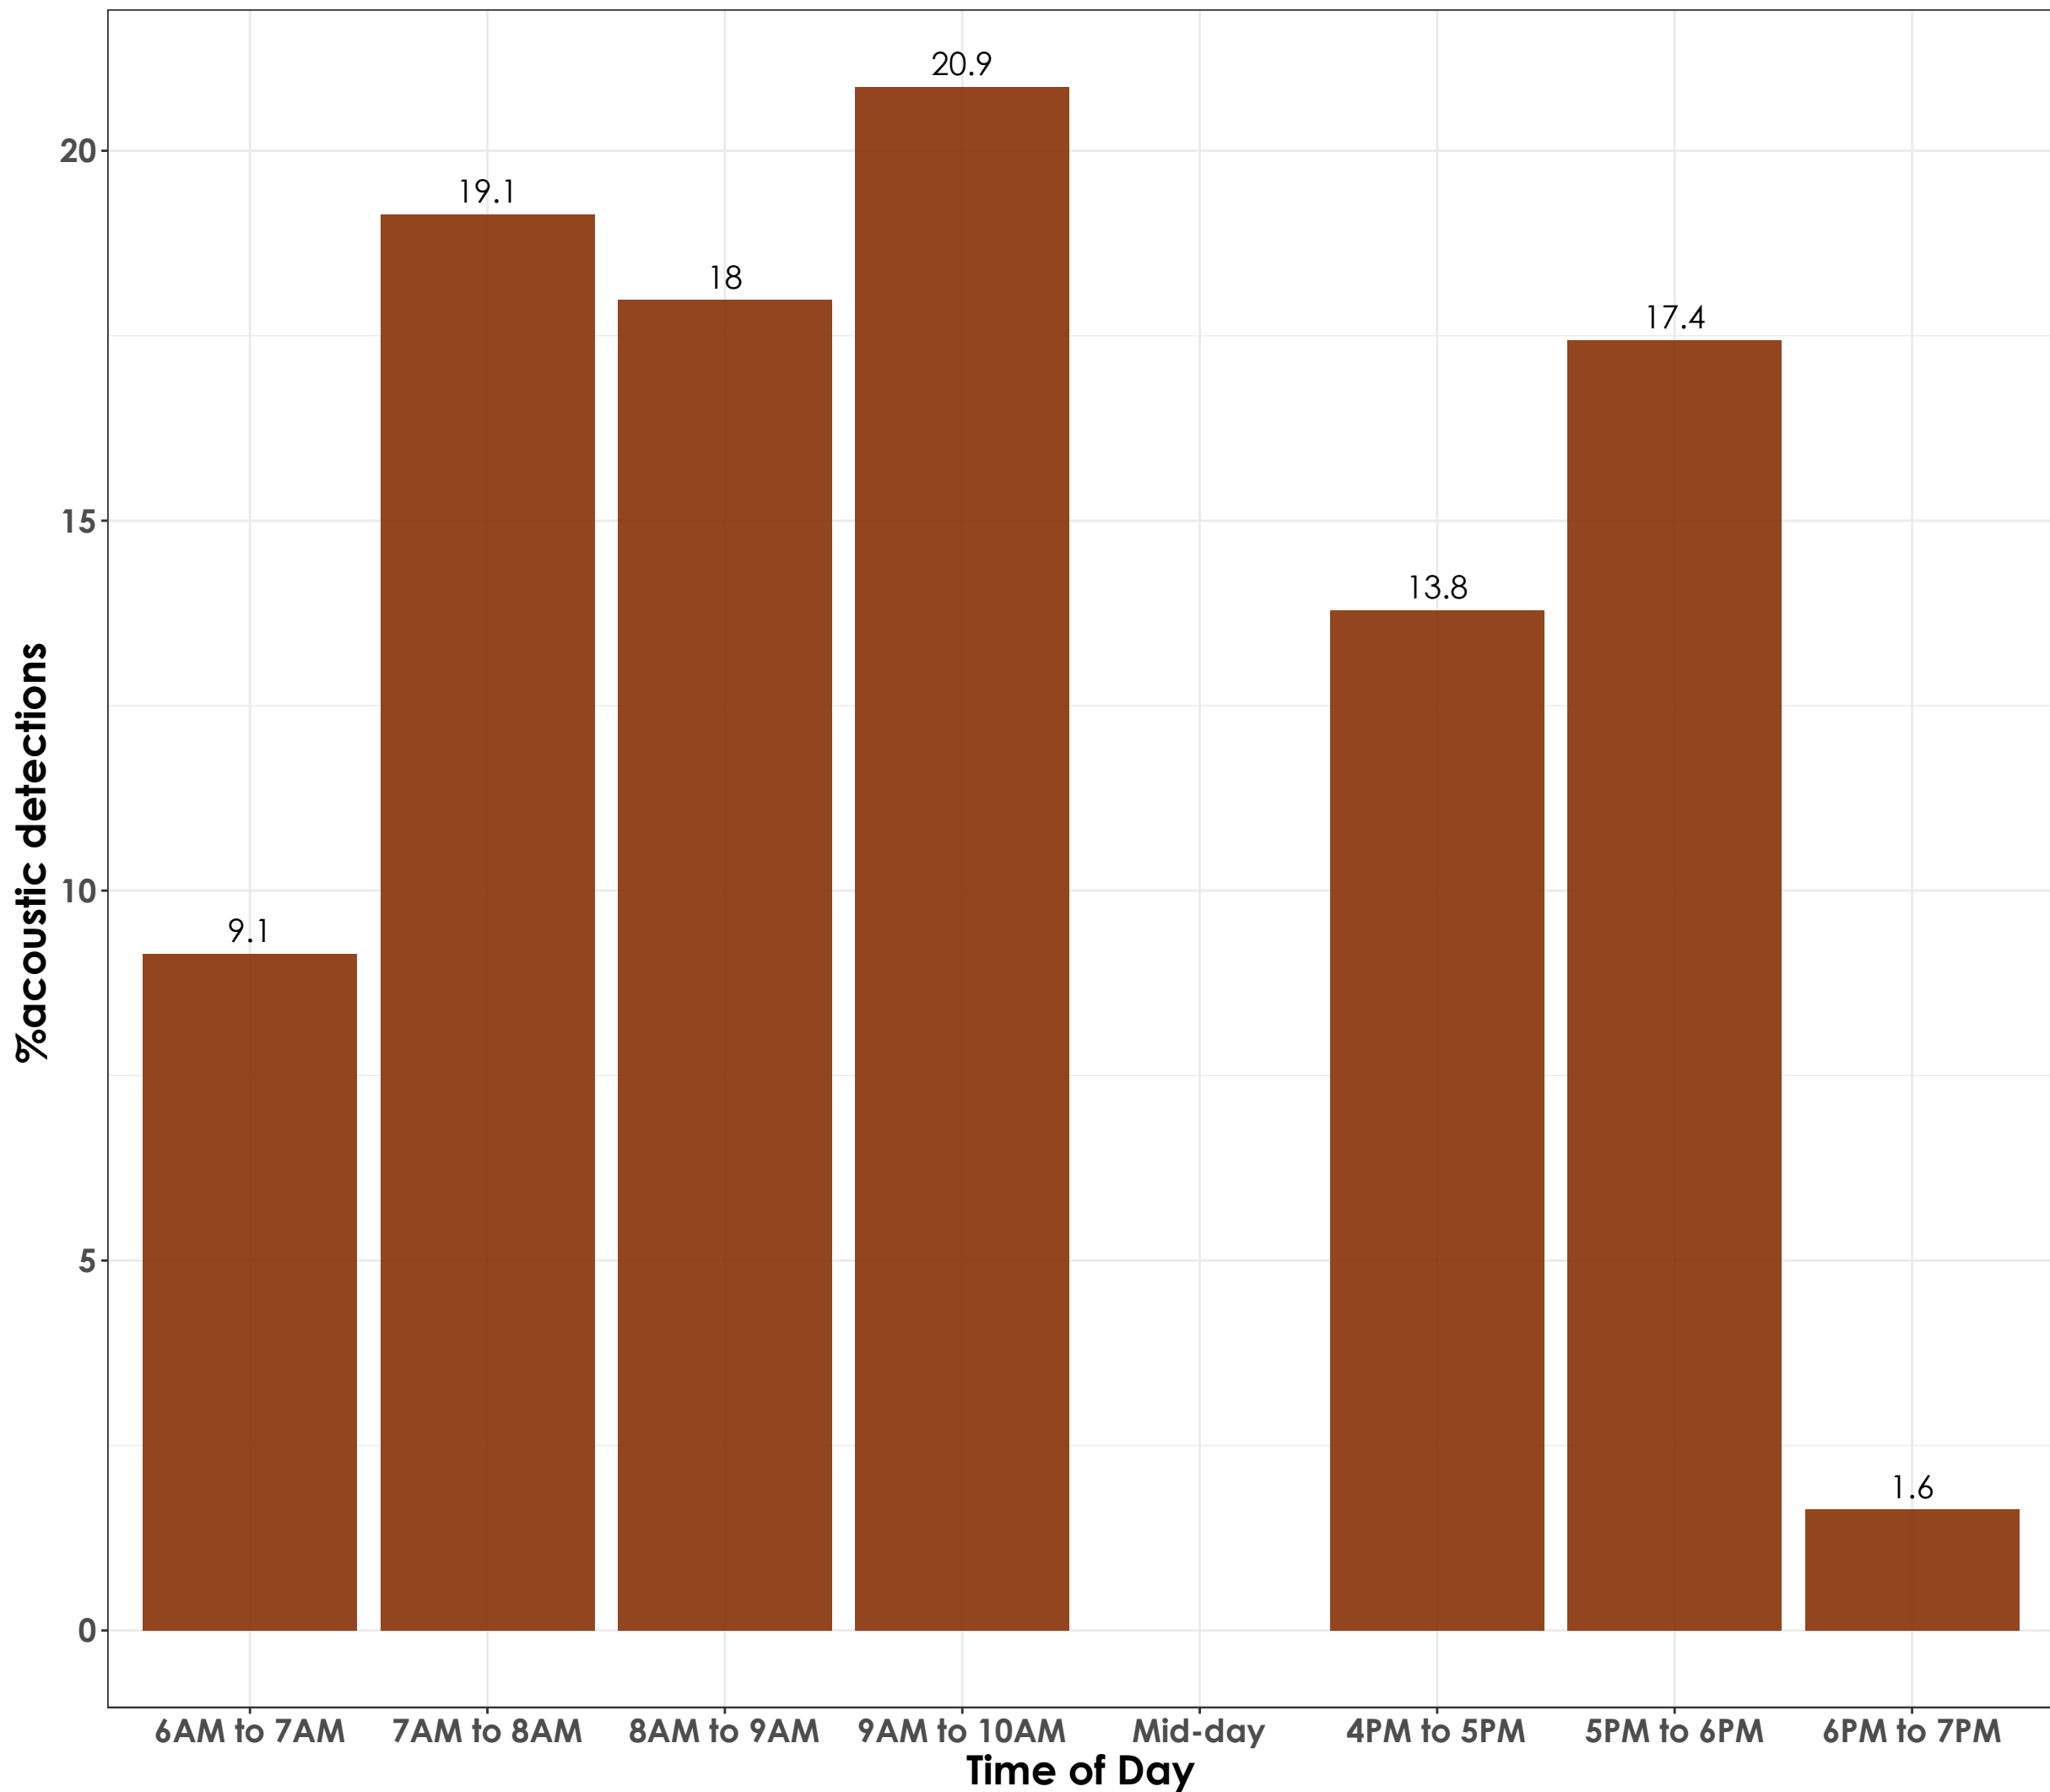

# Green Warbler

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

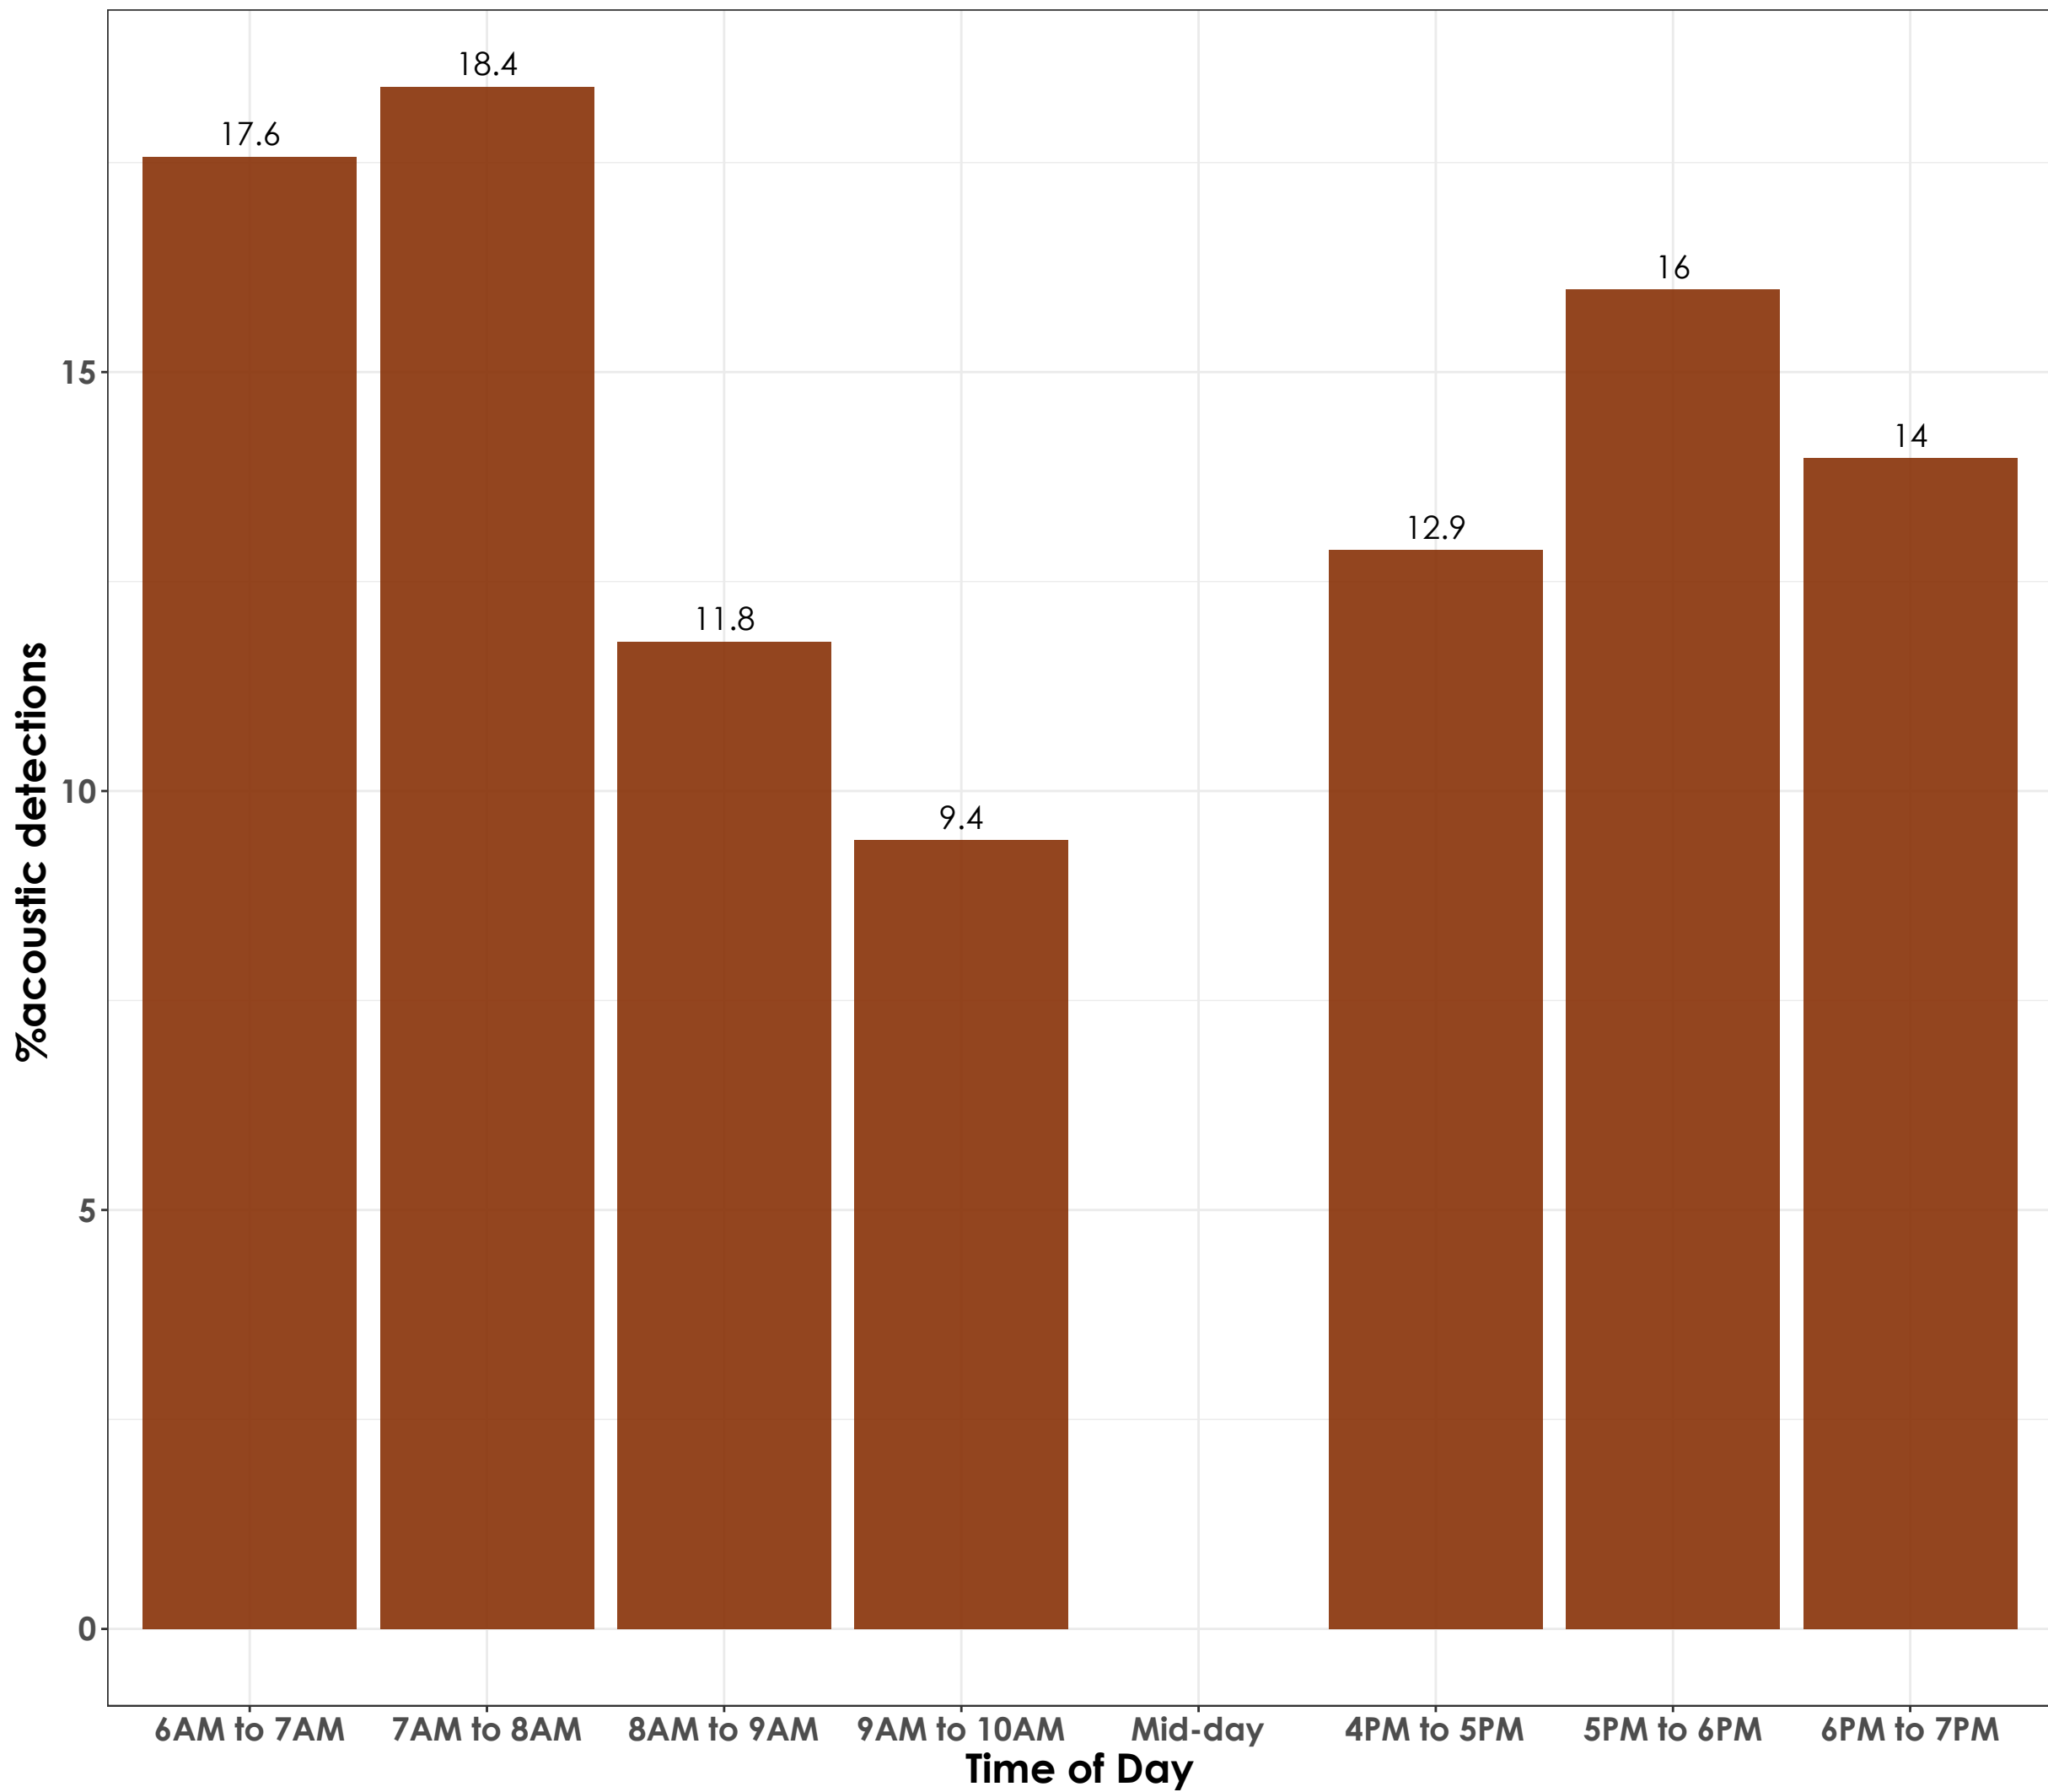

# Chestnut-headed Bee-eater

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

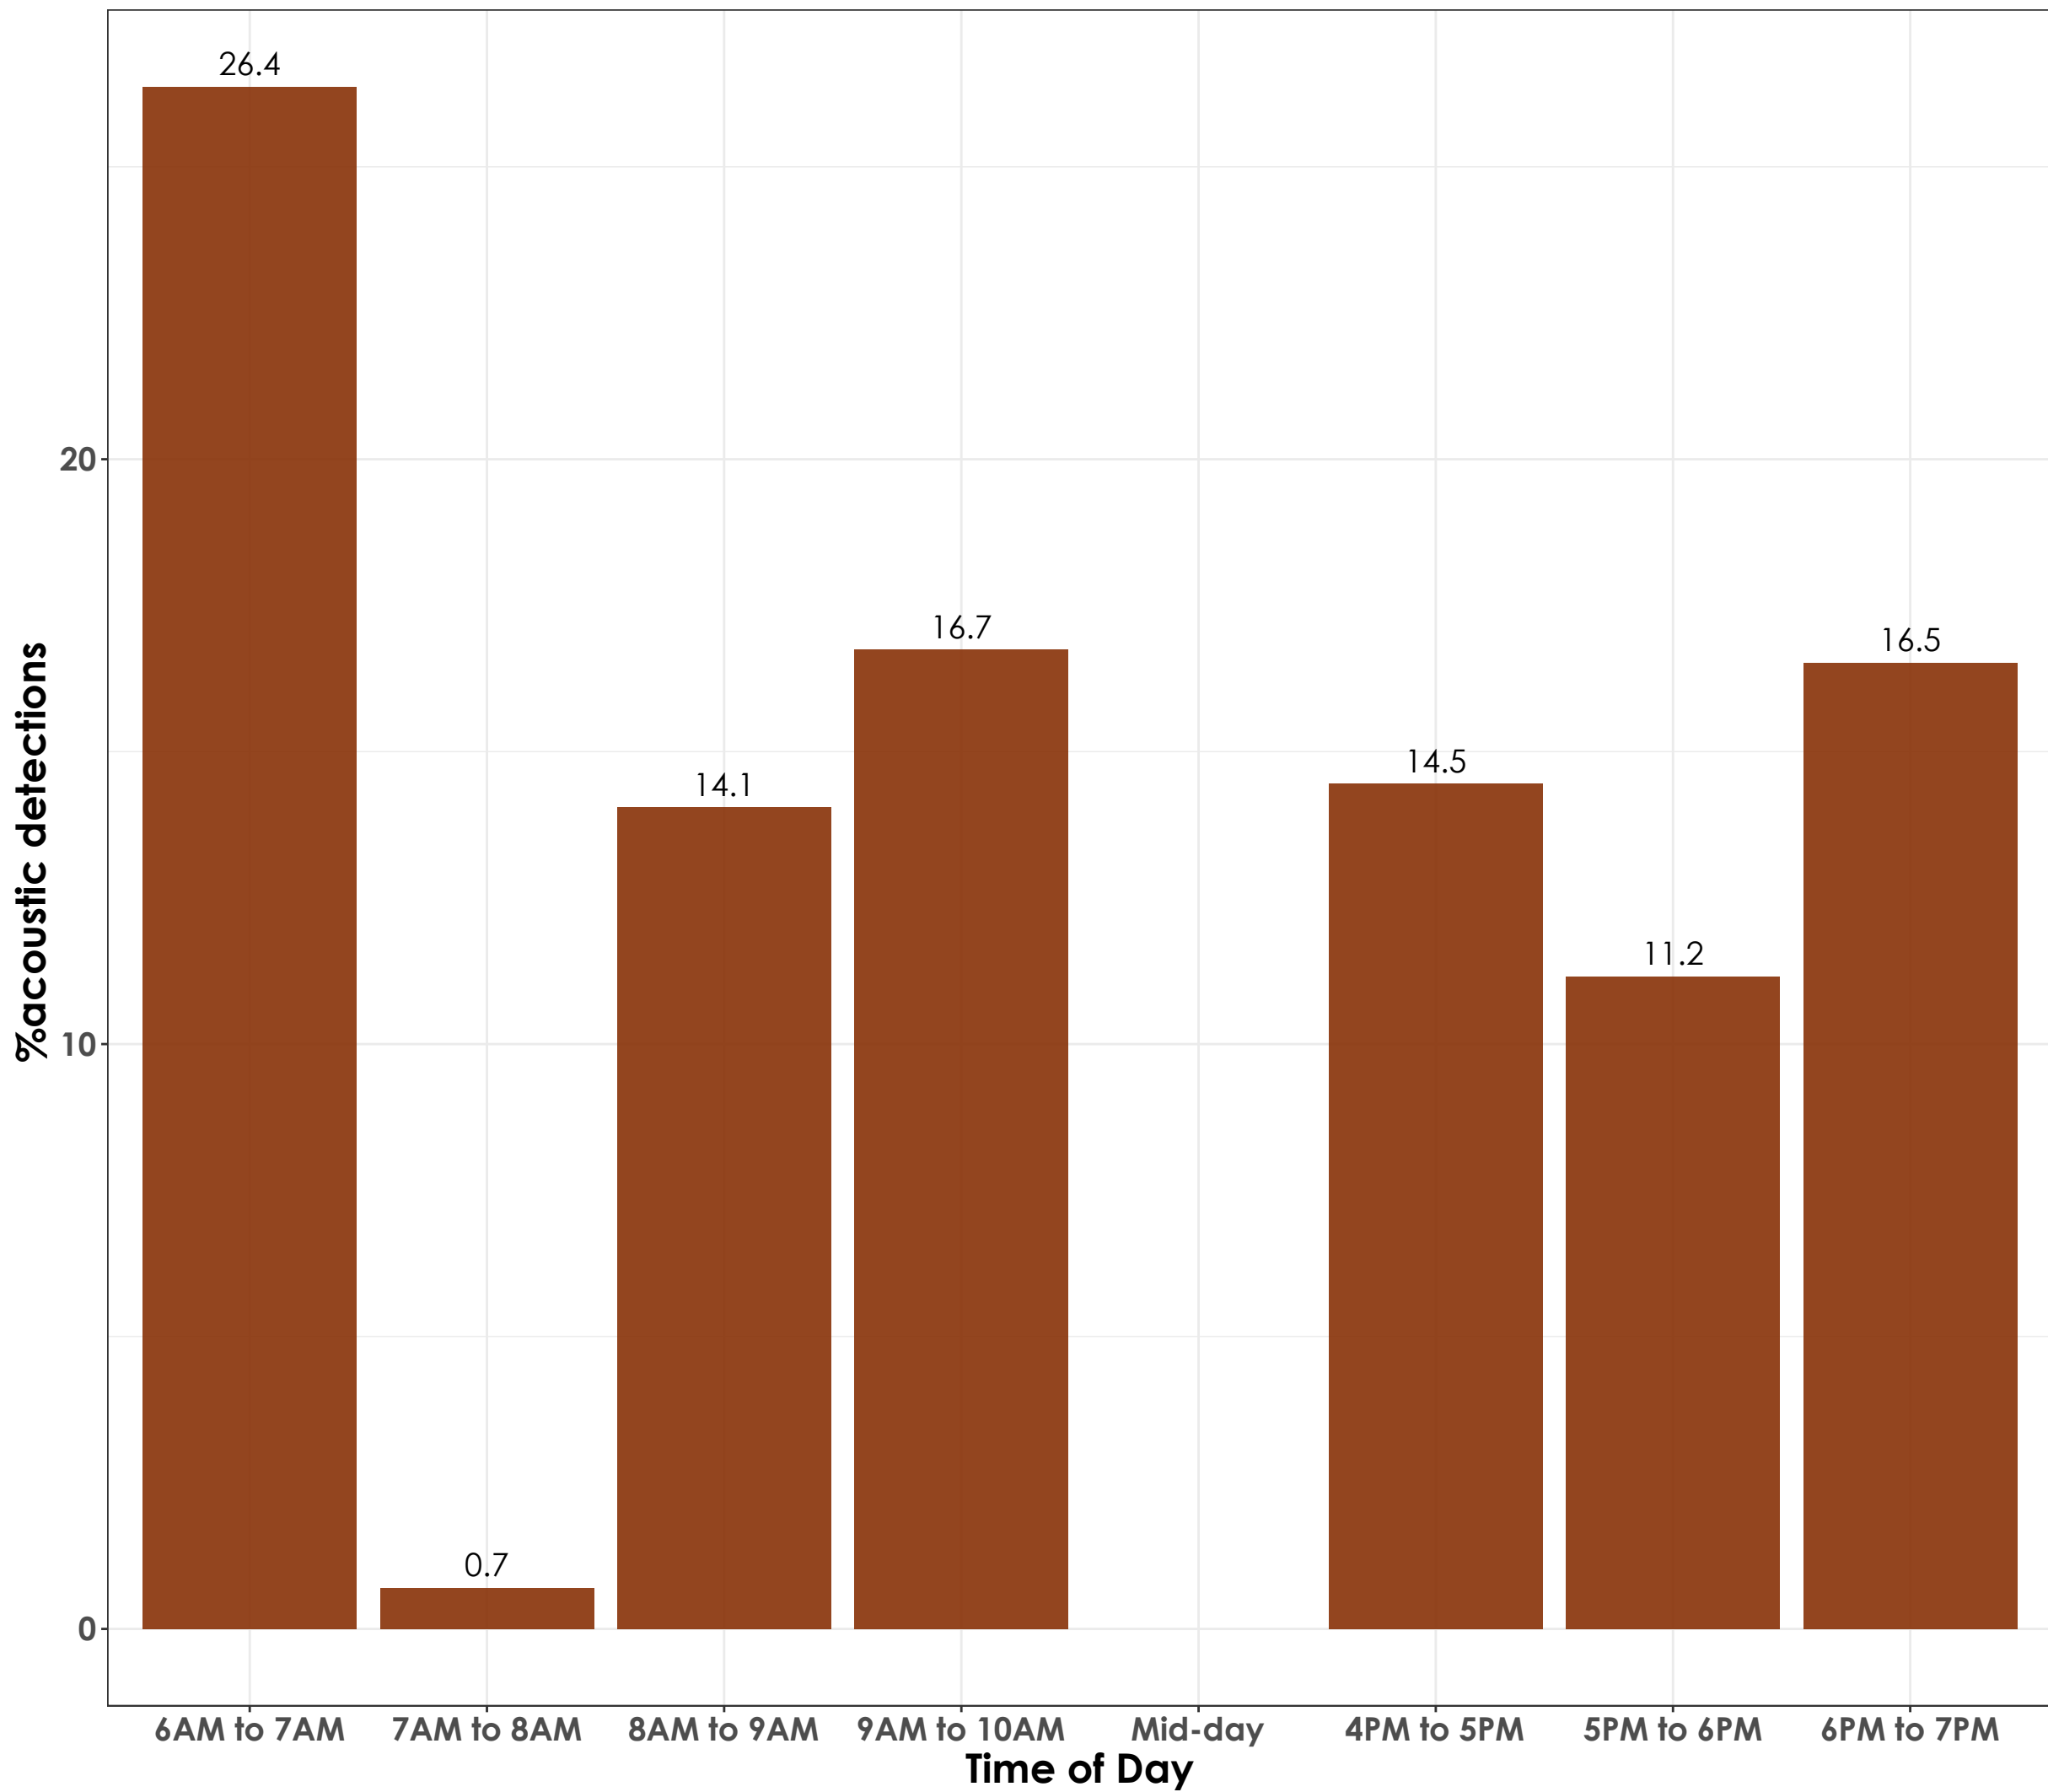

# Indian Blue Robin

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

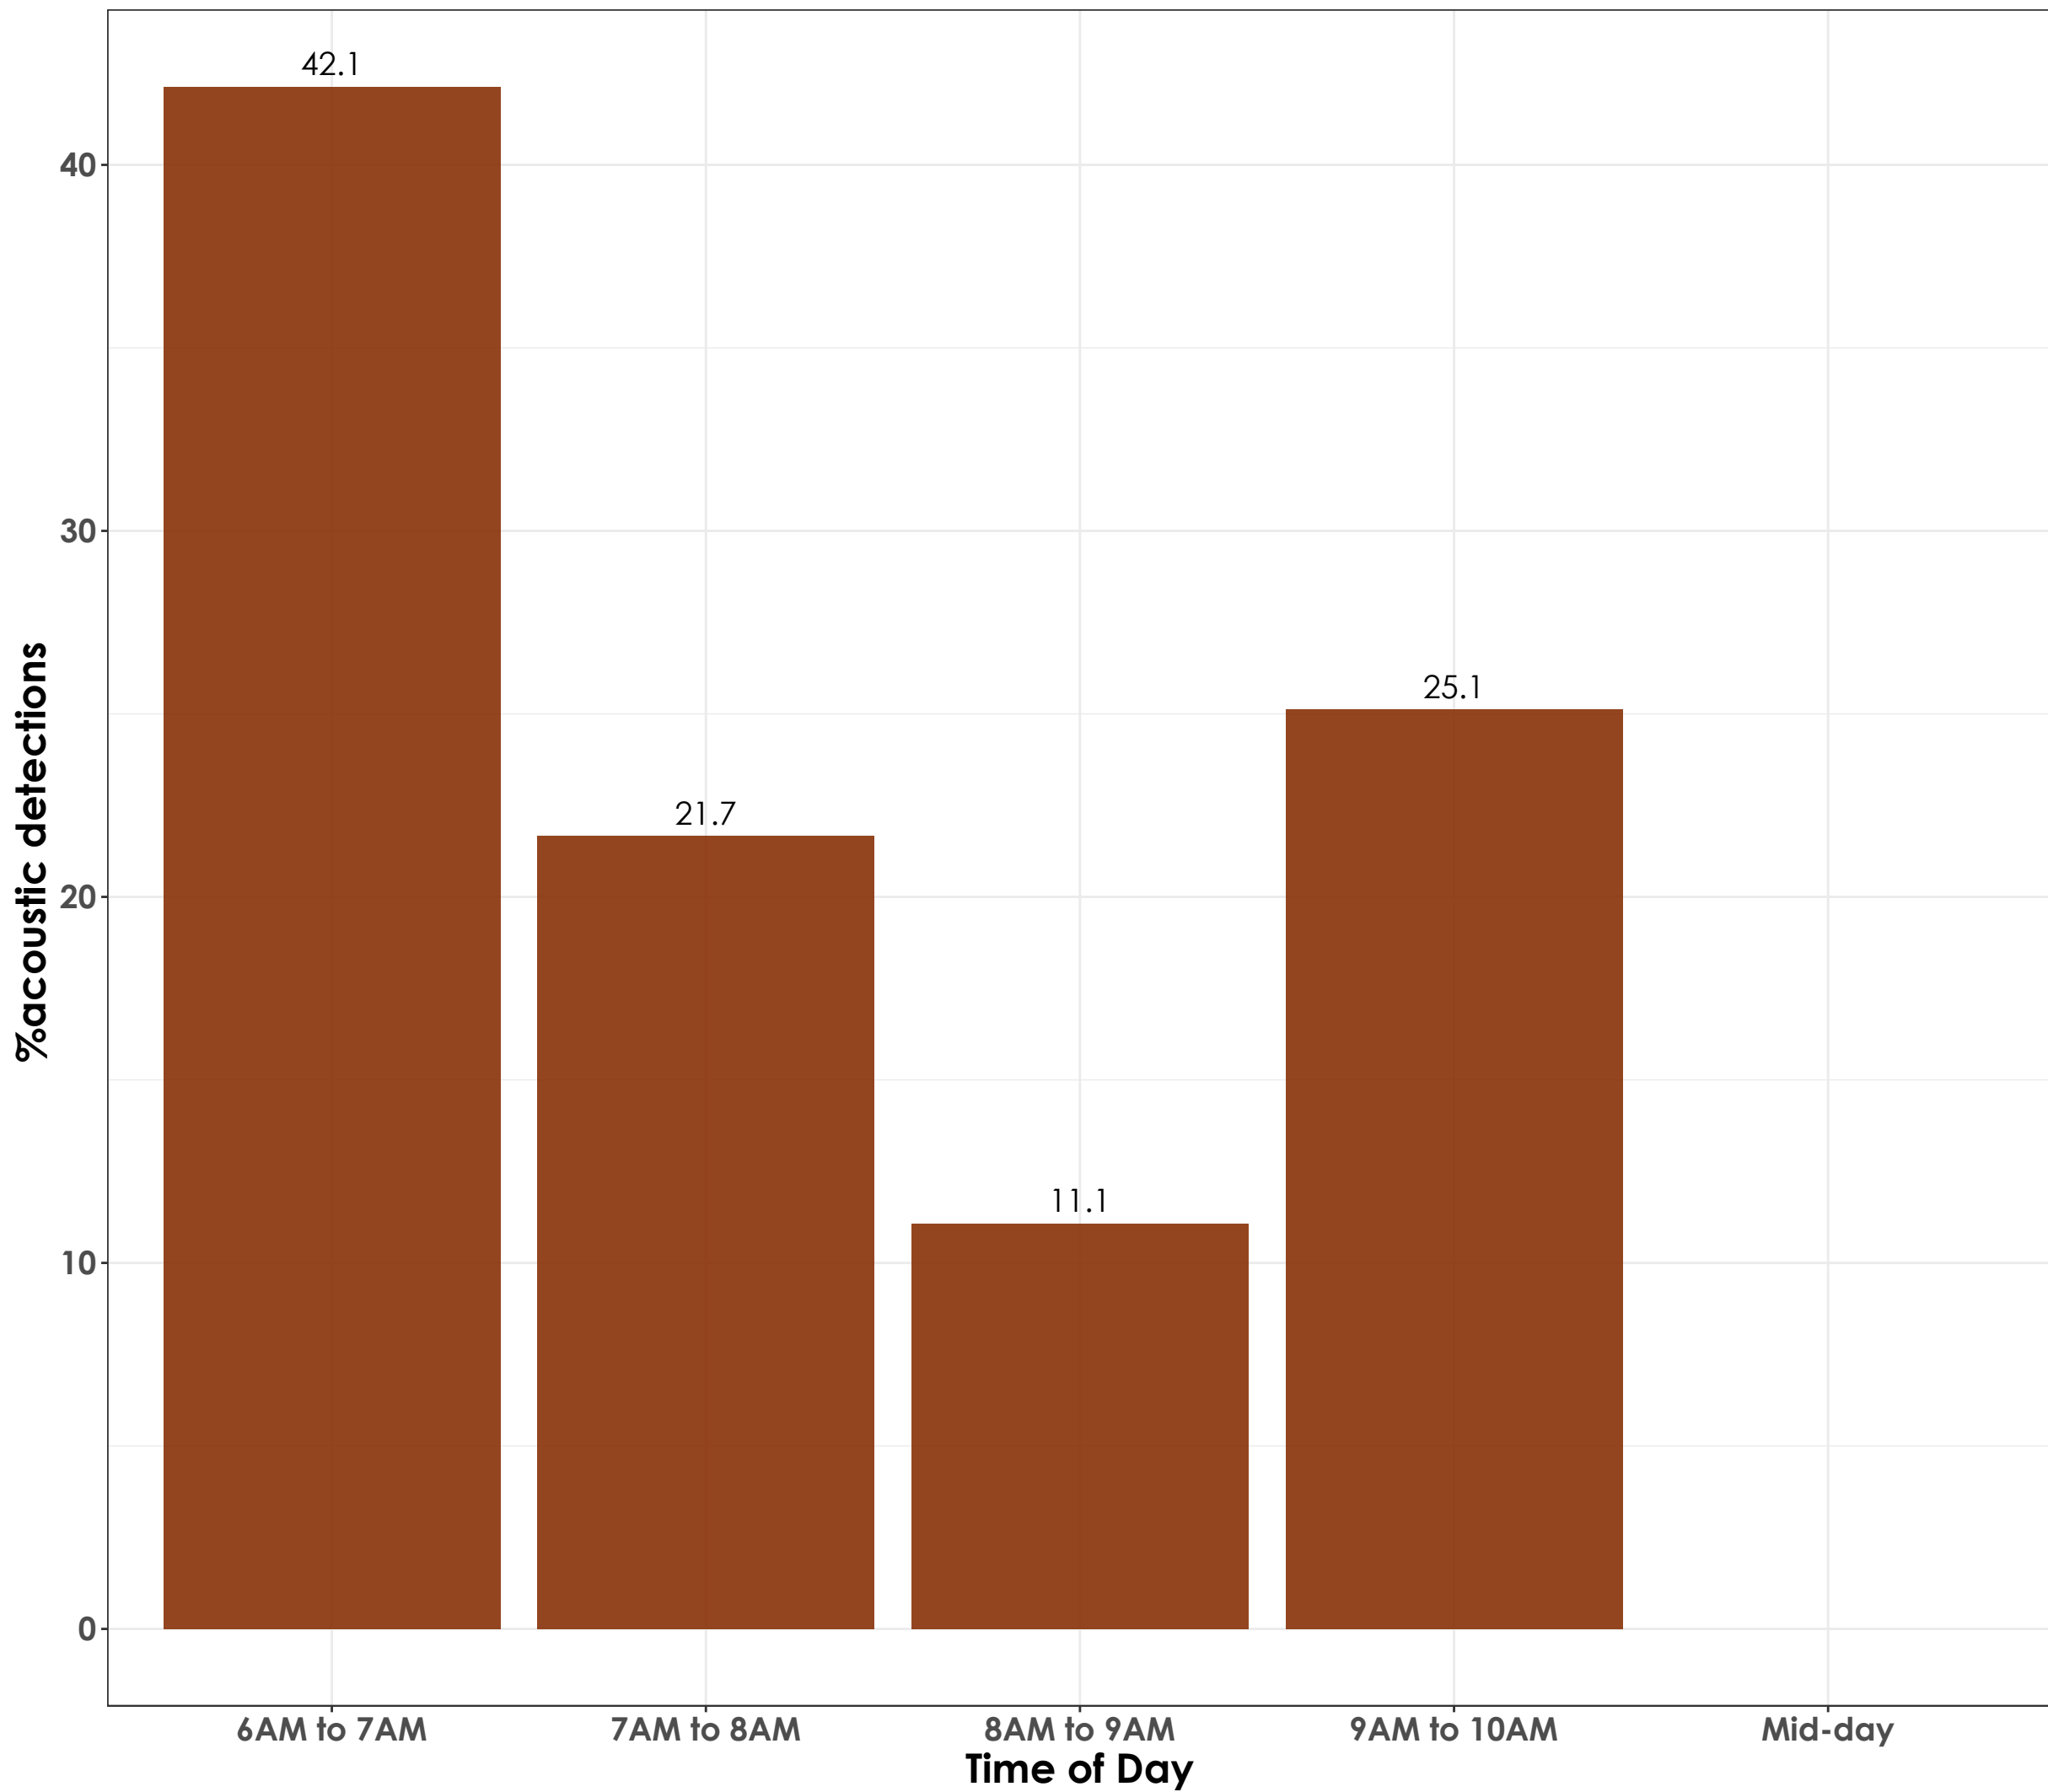

# Asian Brown Flycatcher

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

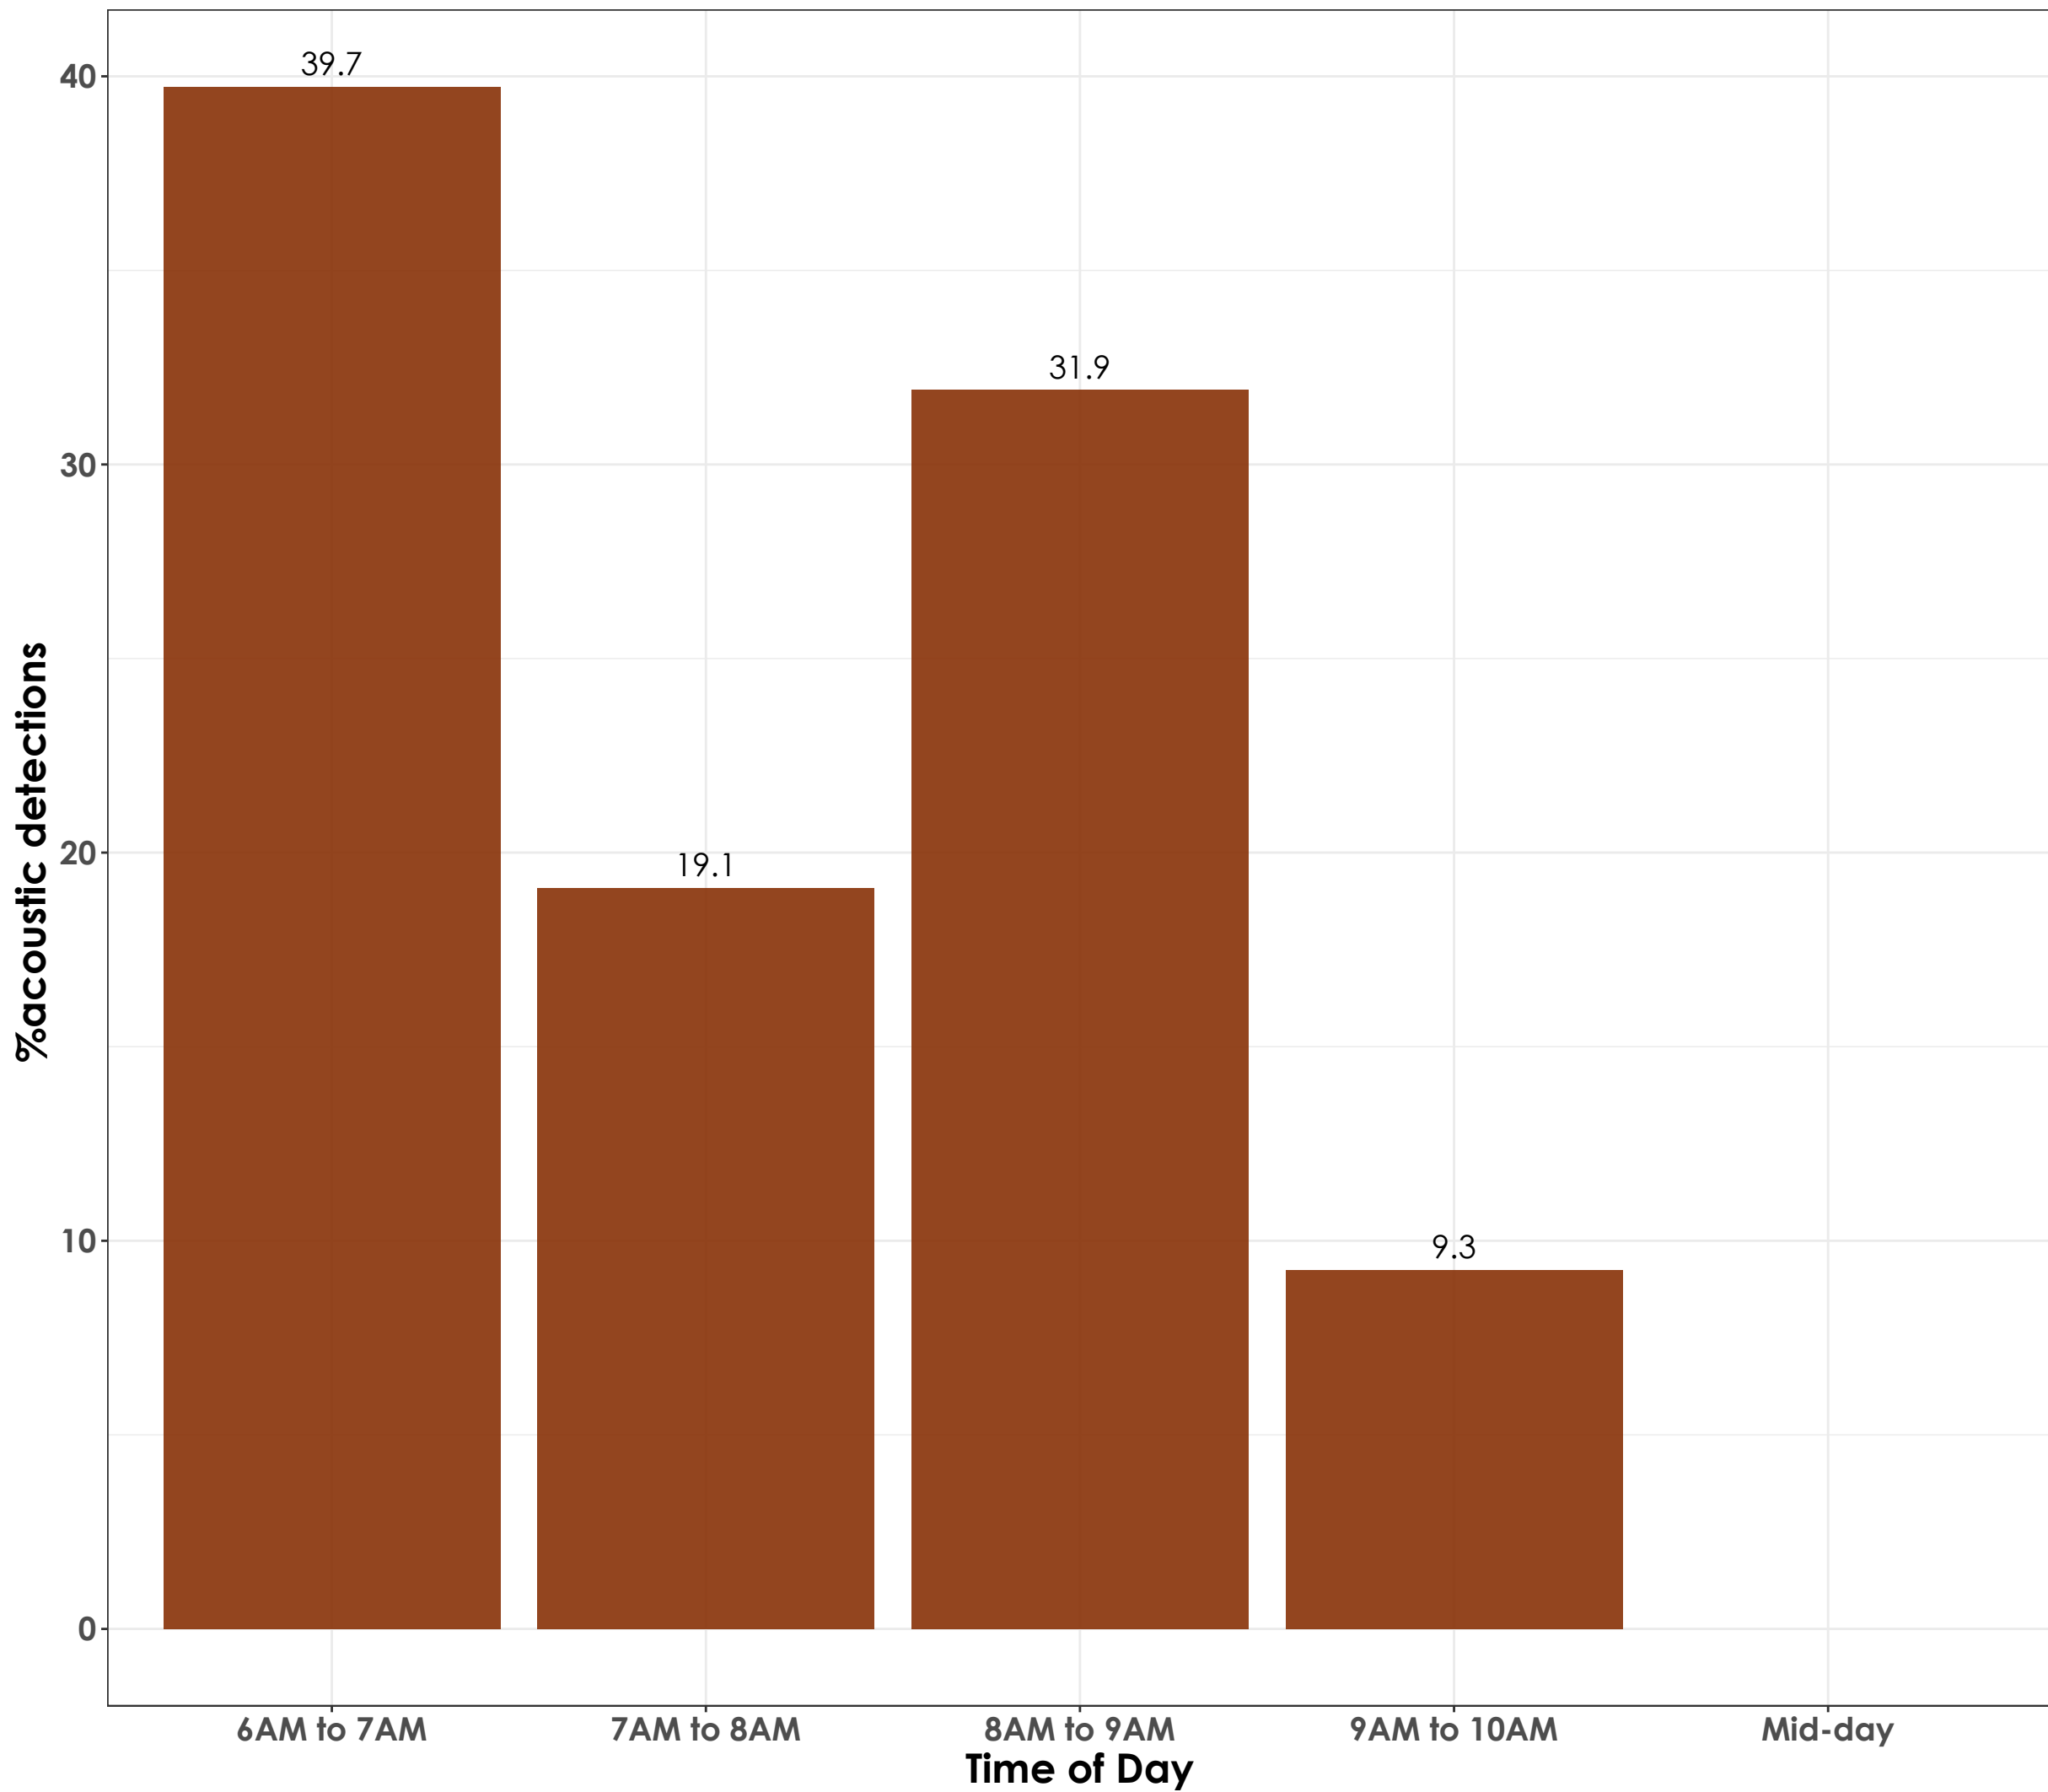

# Little Spiderhunter

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

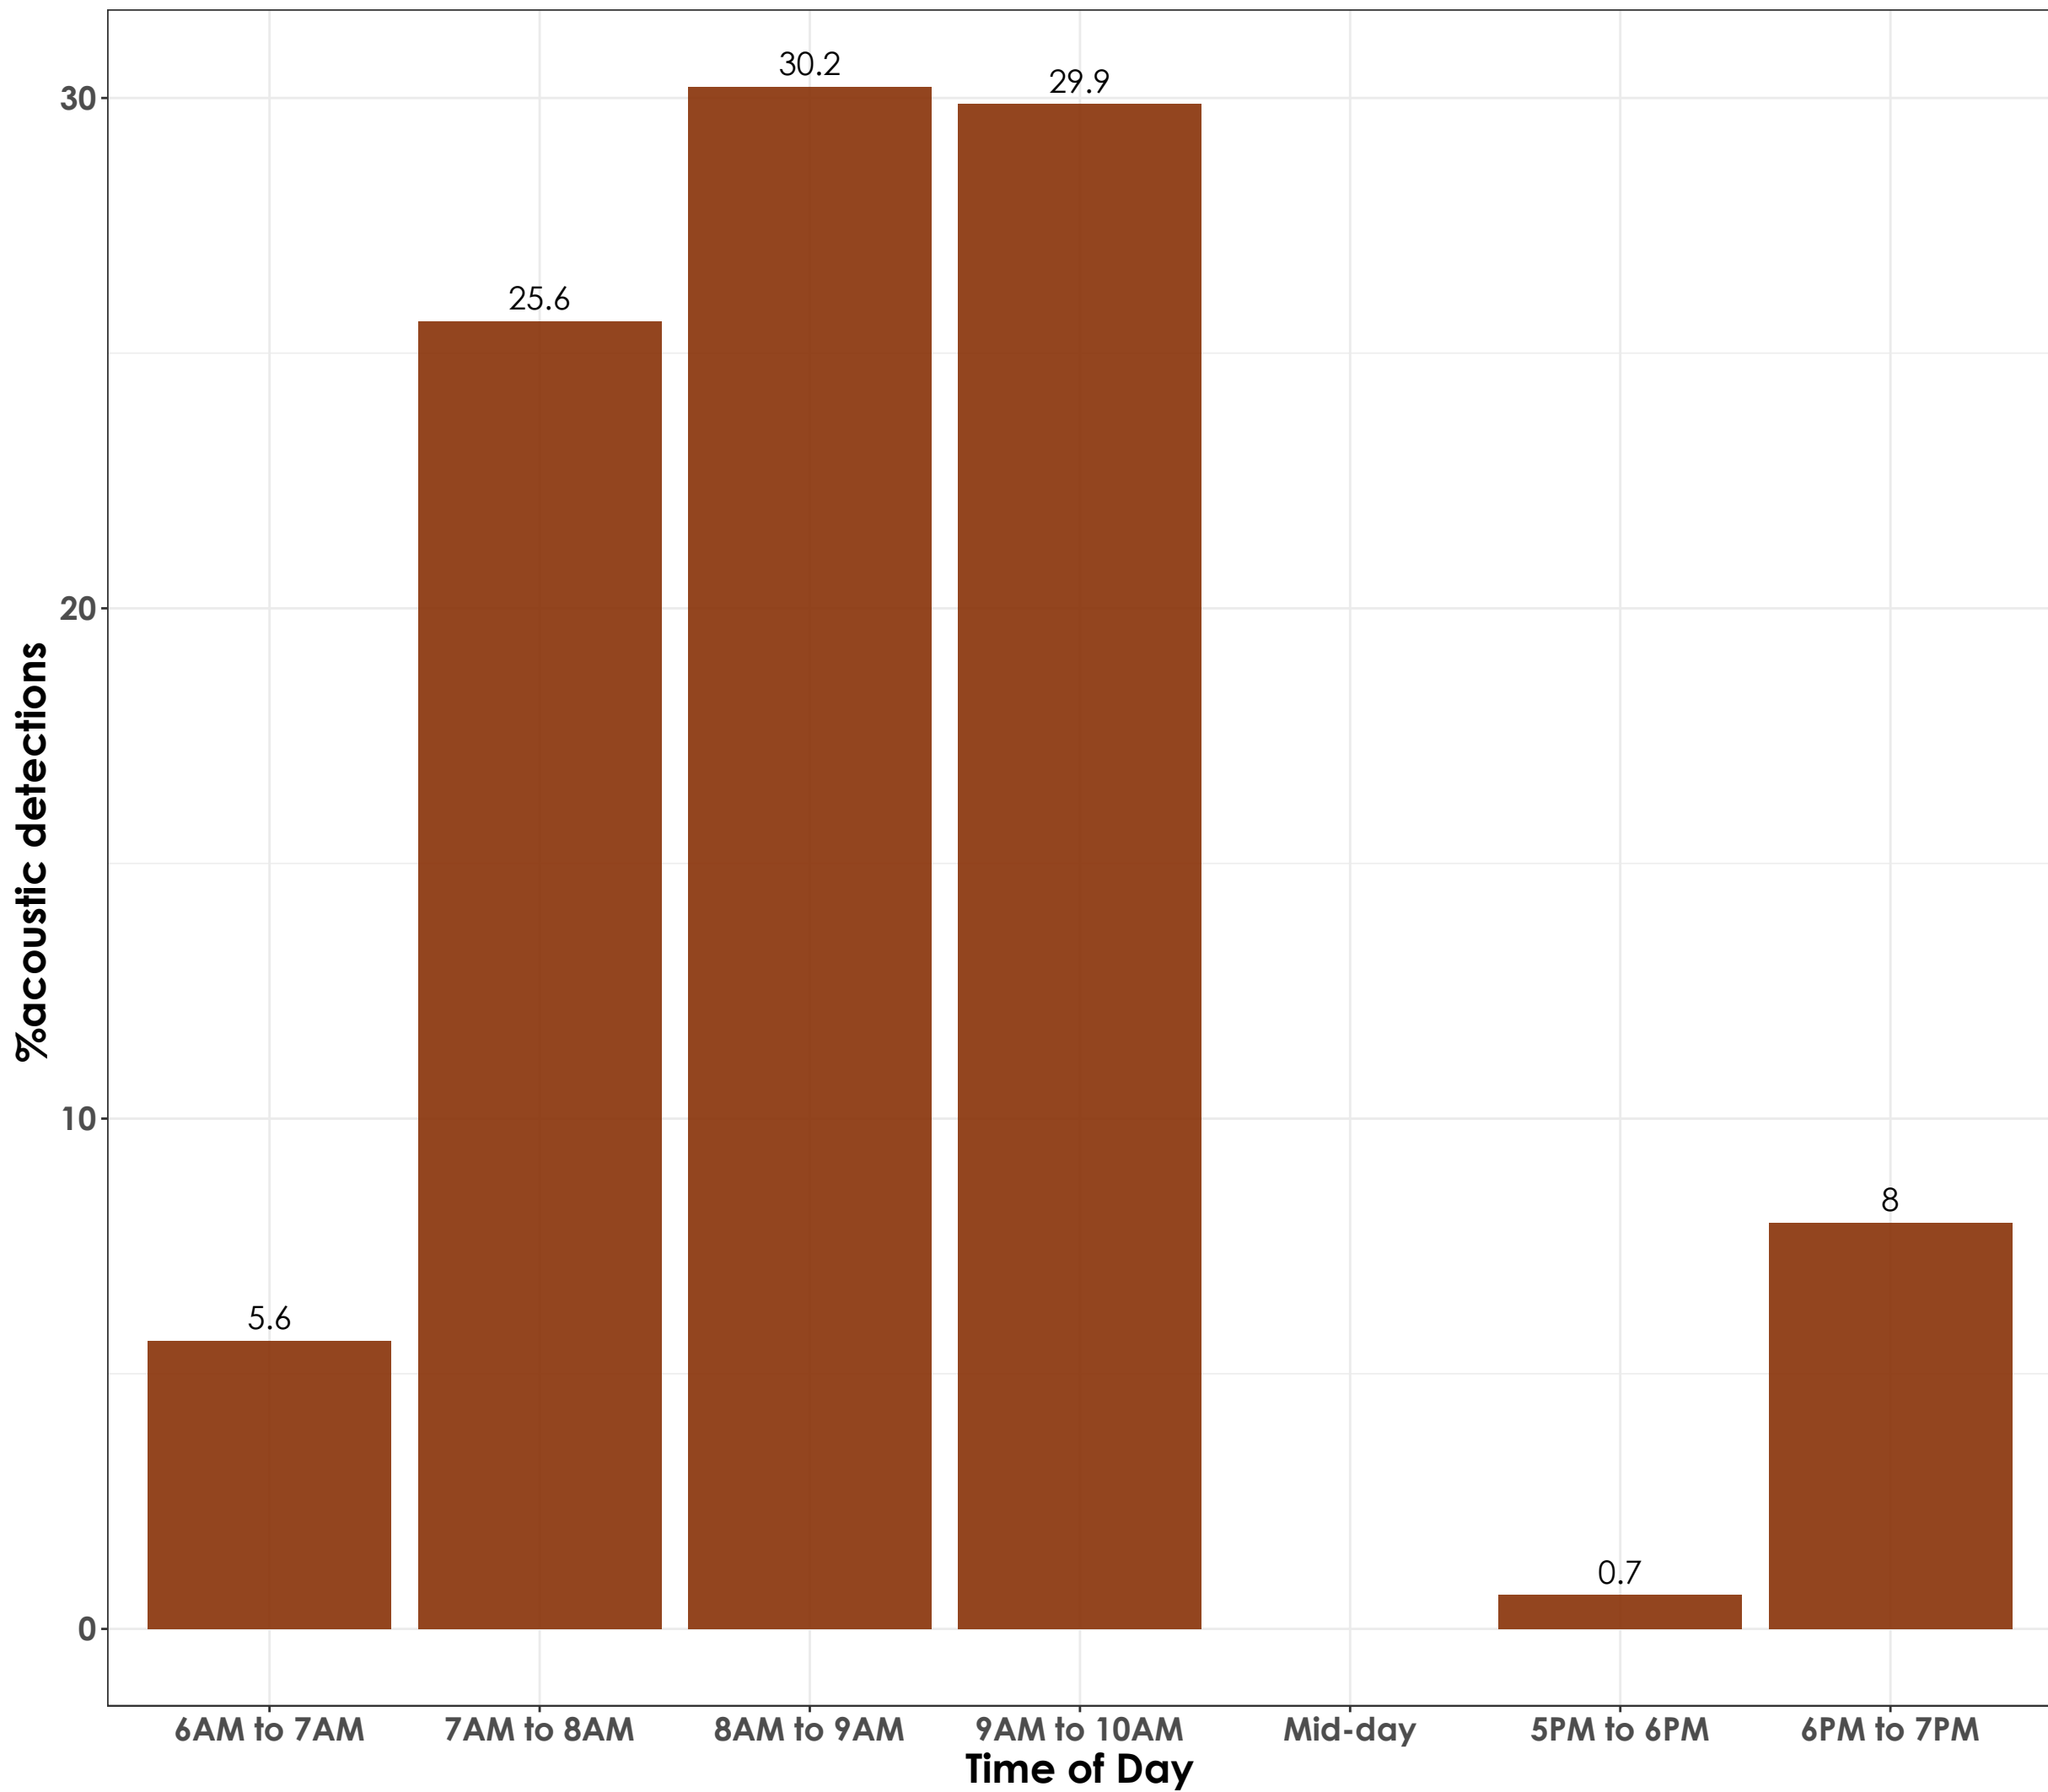

# Indian Blackbird

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Rufous Babbler

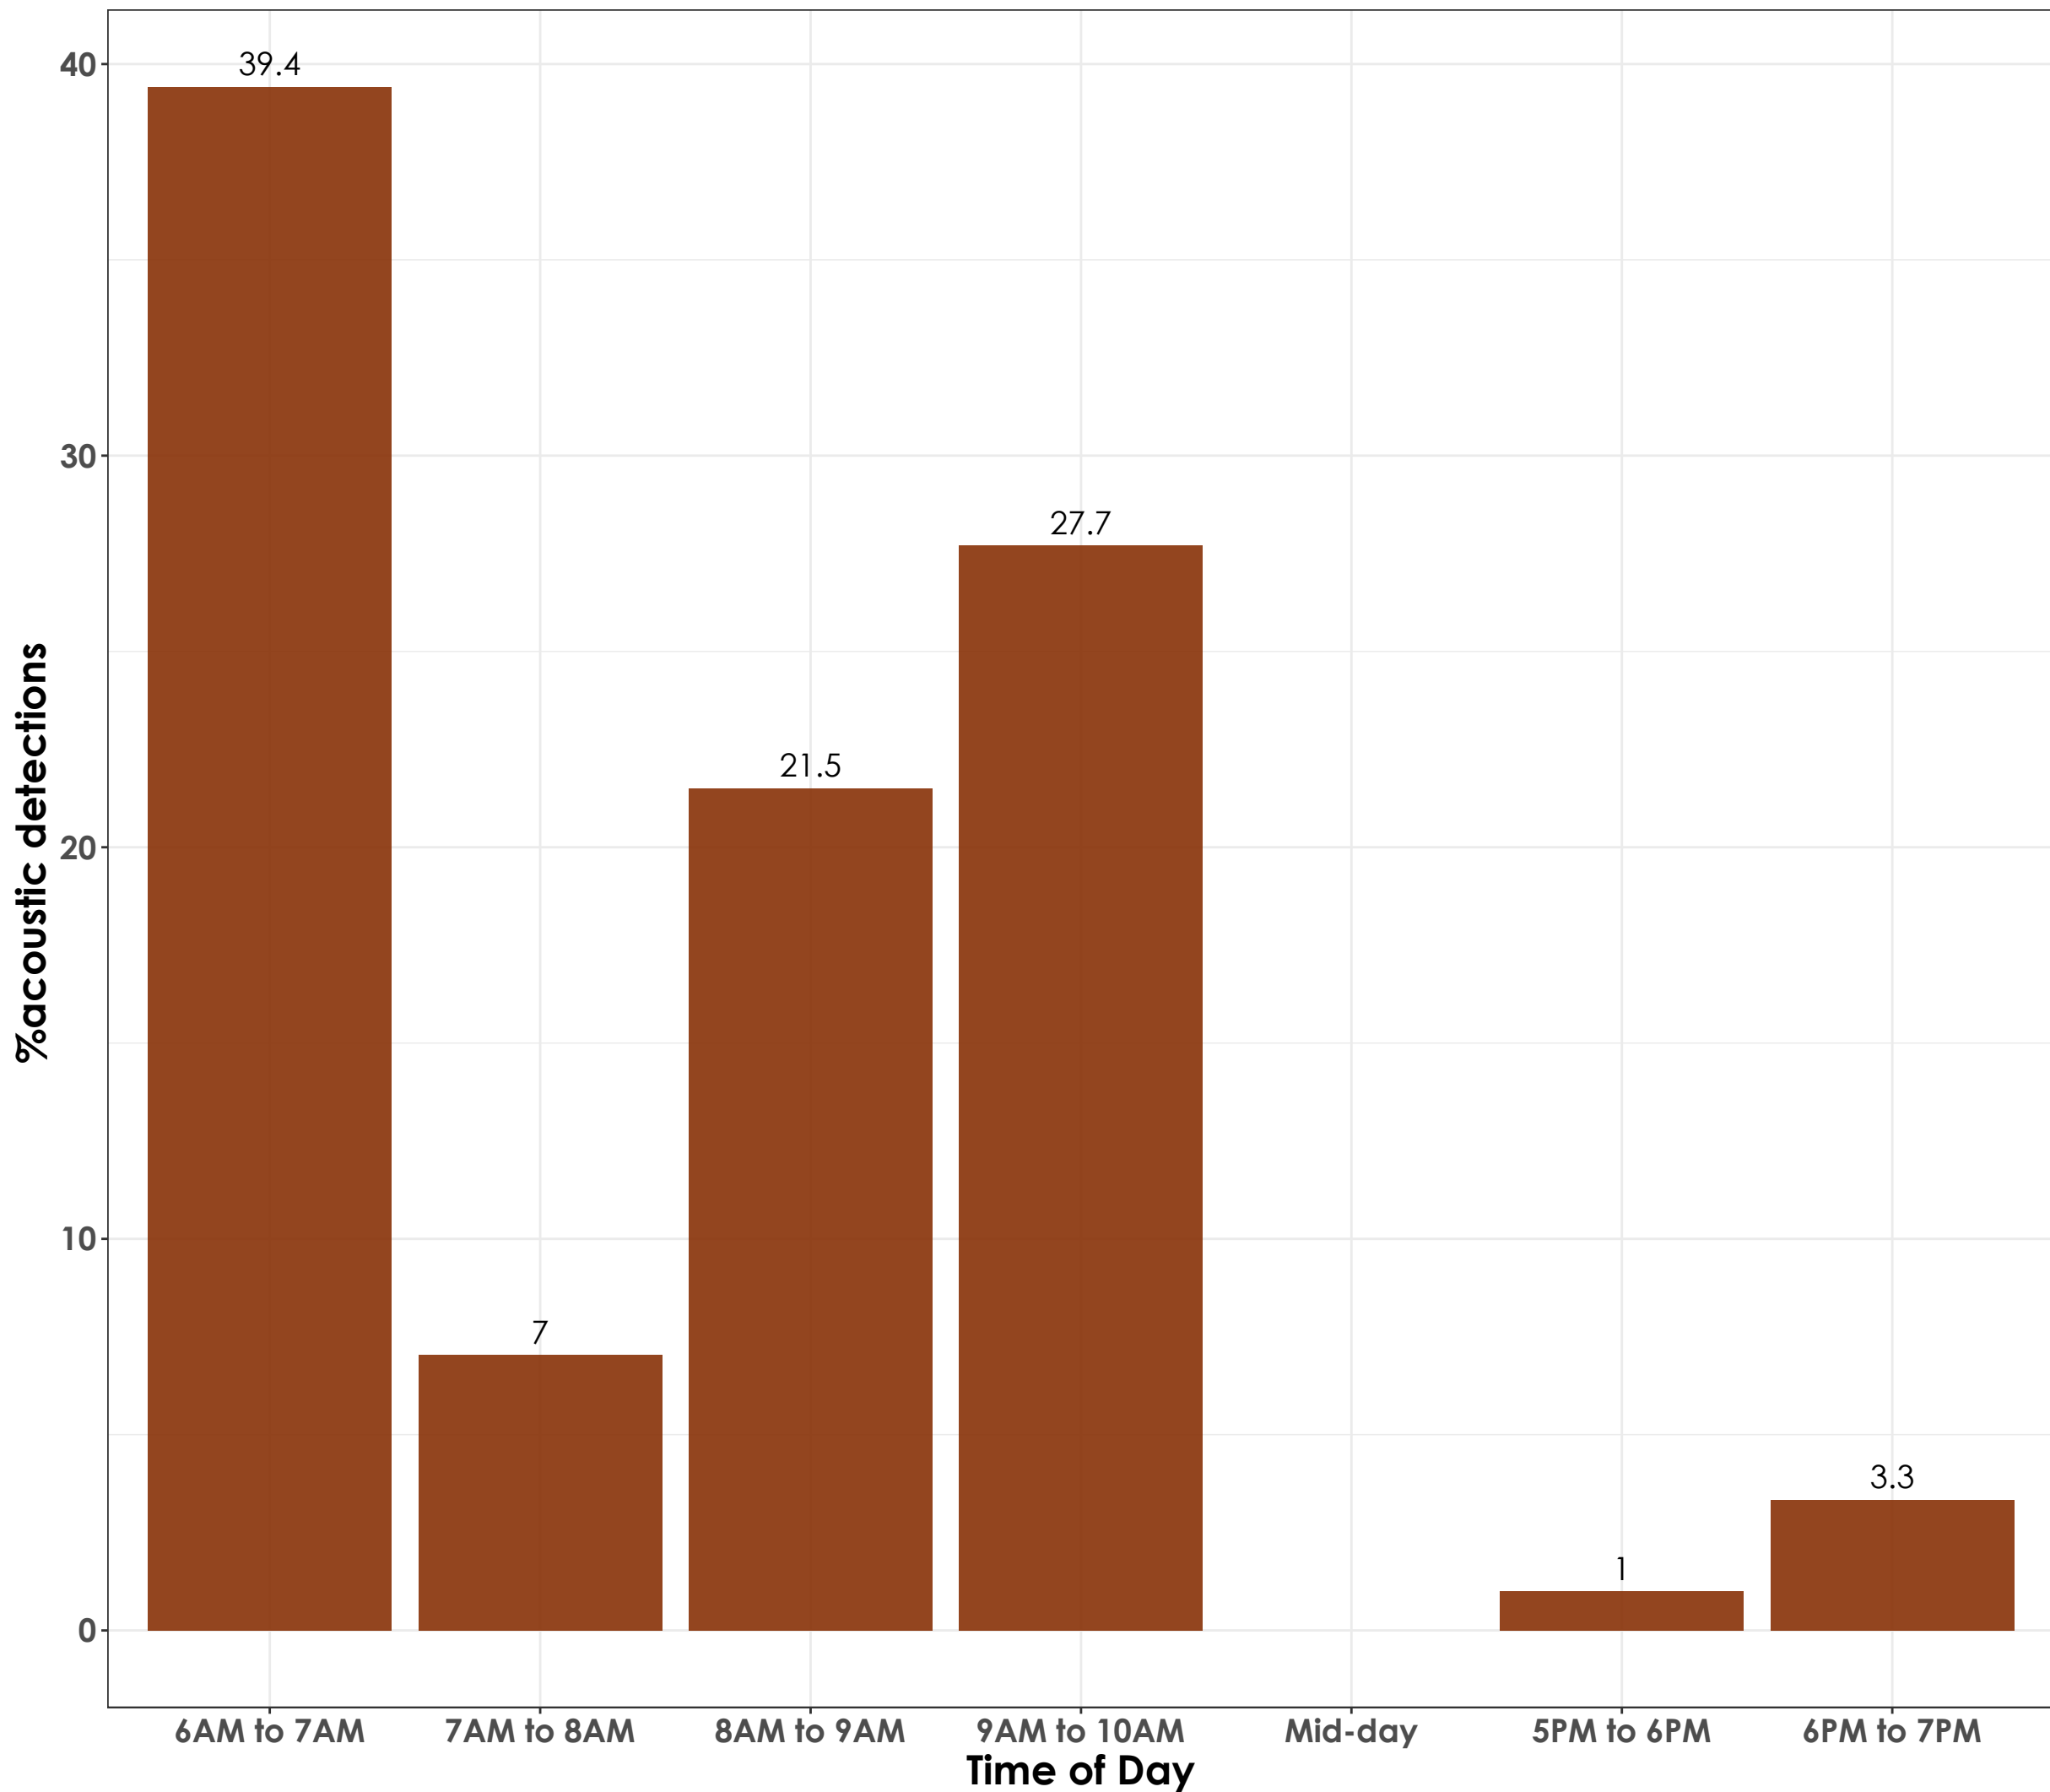

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

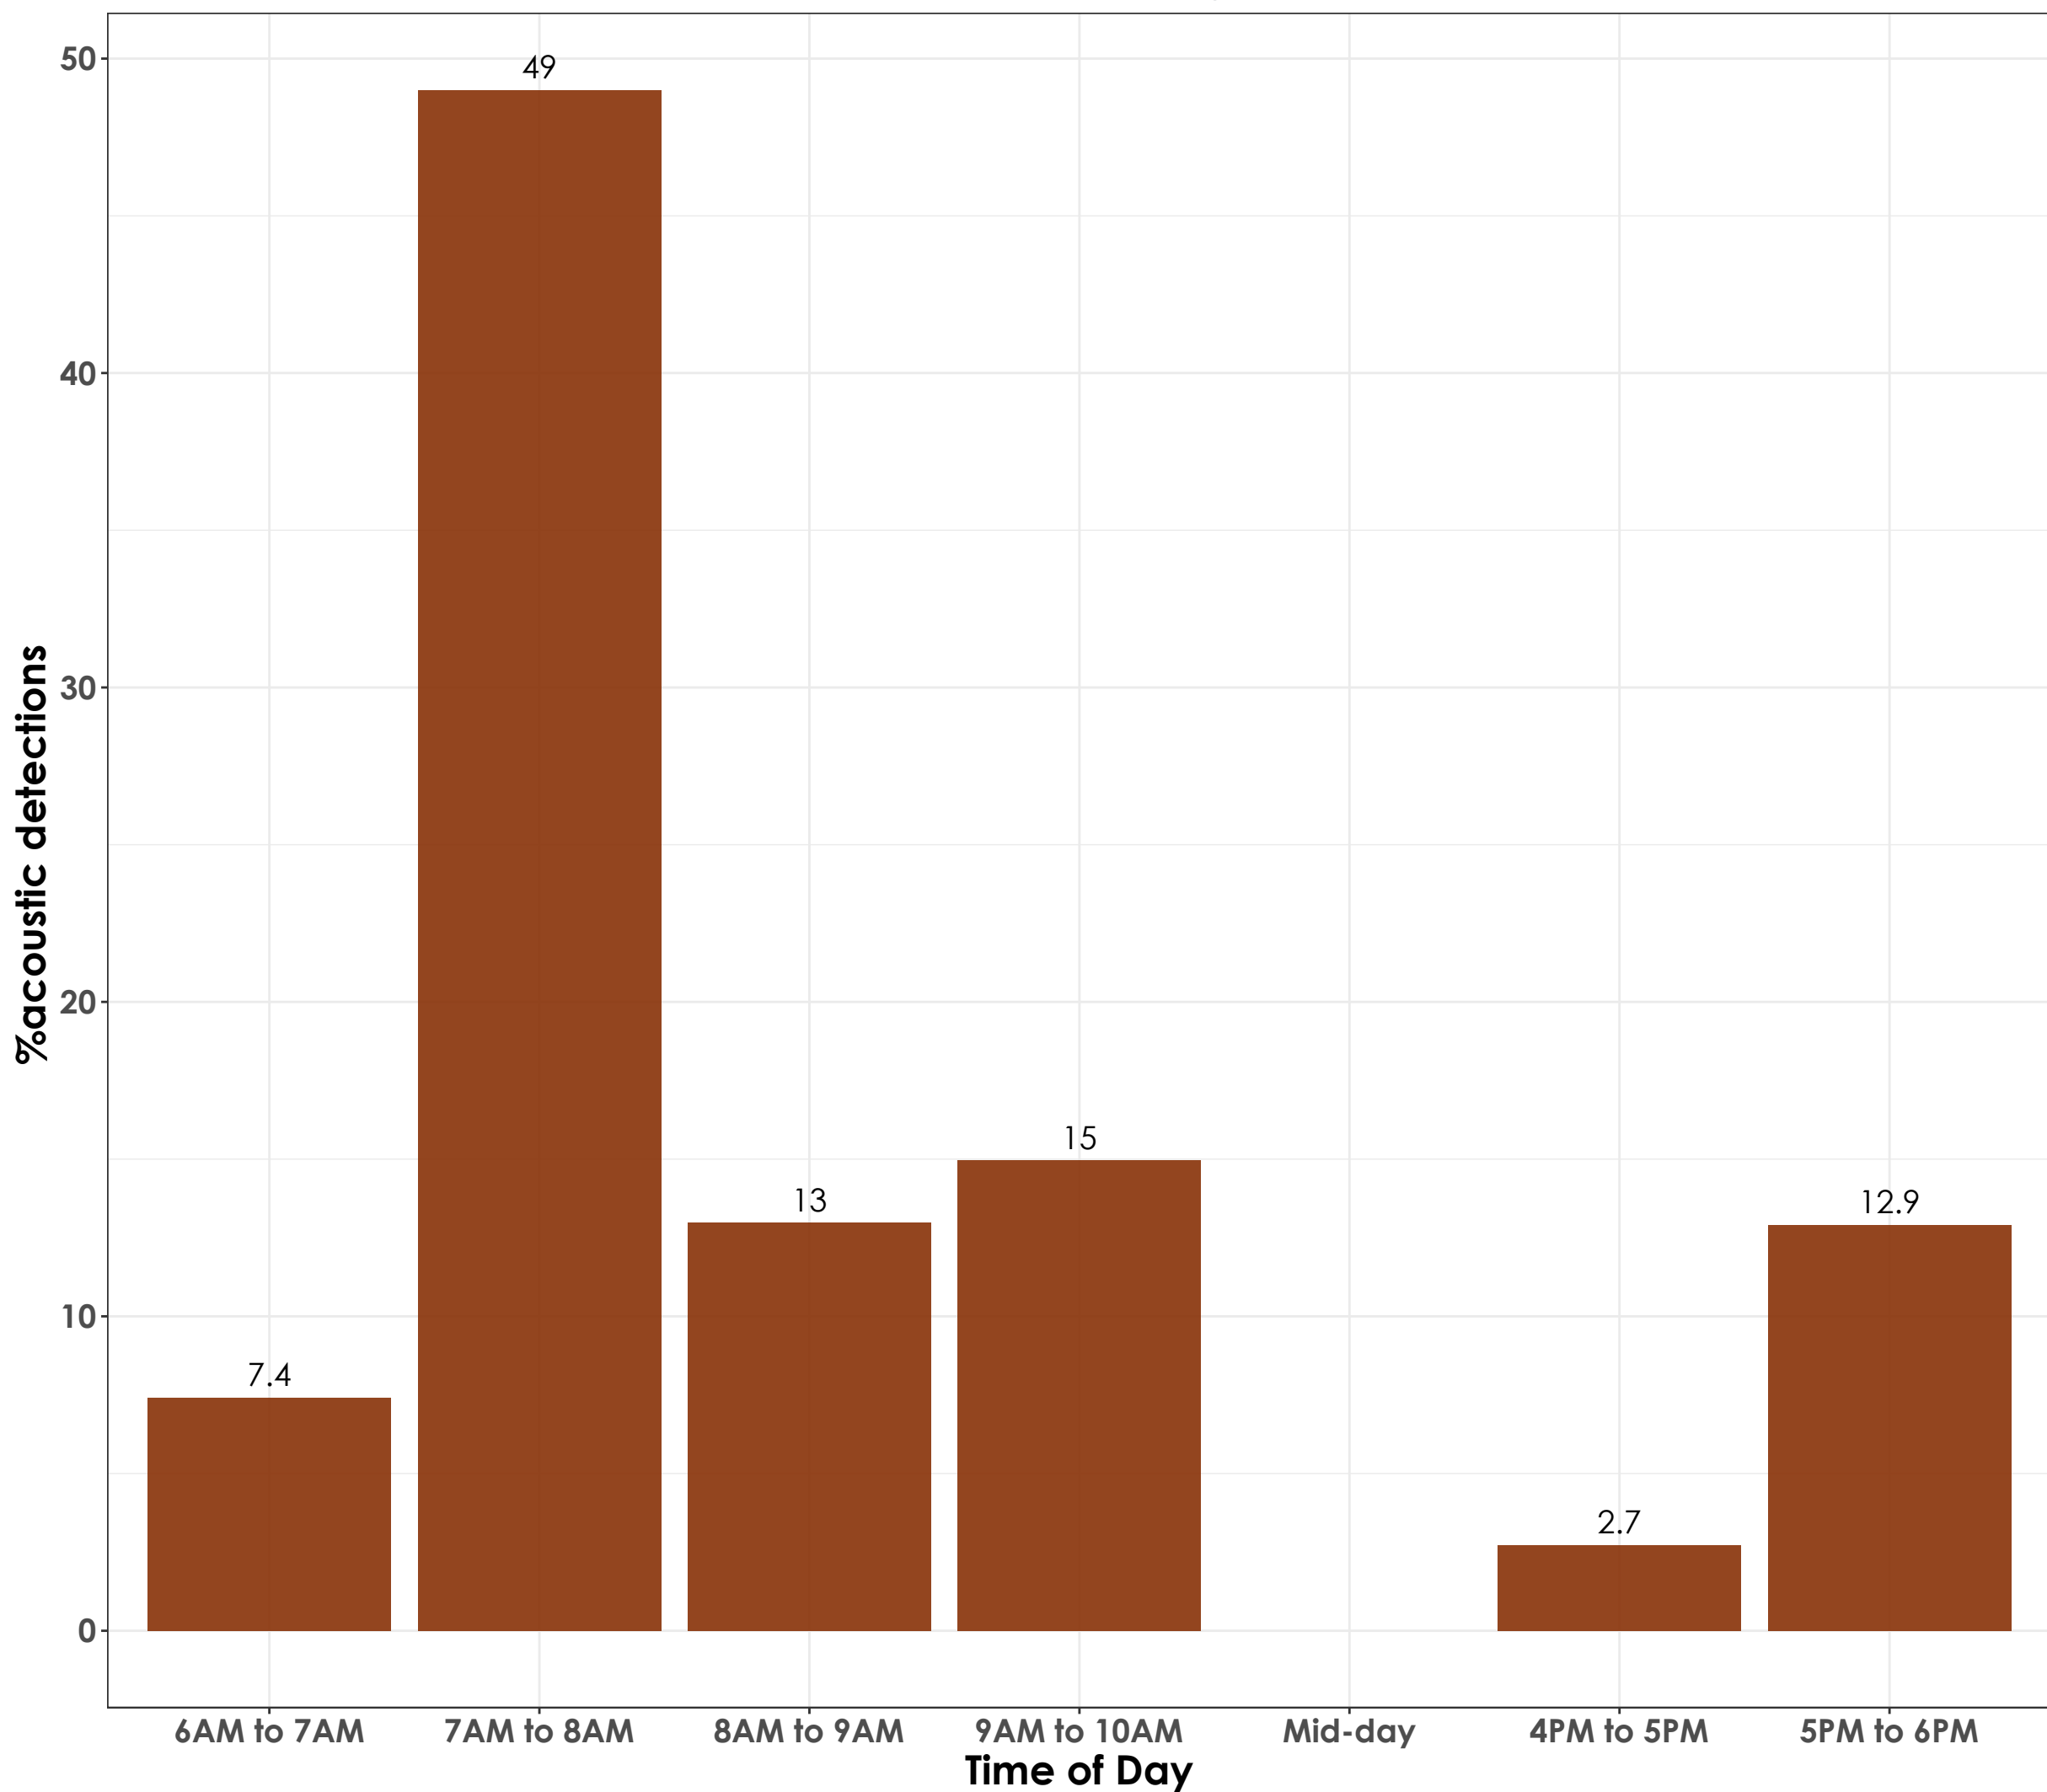

# Malabar Woodshrike

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

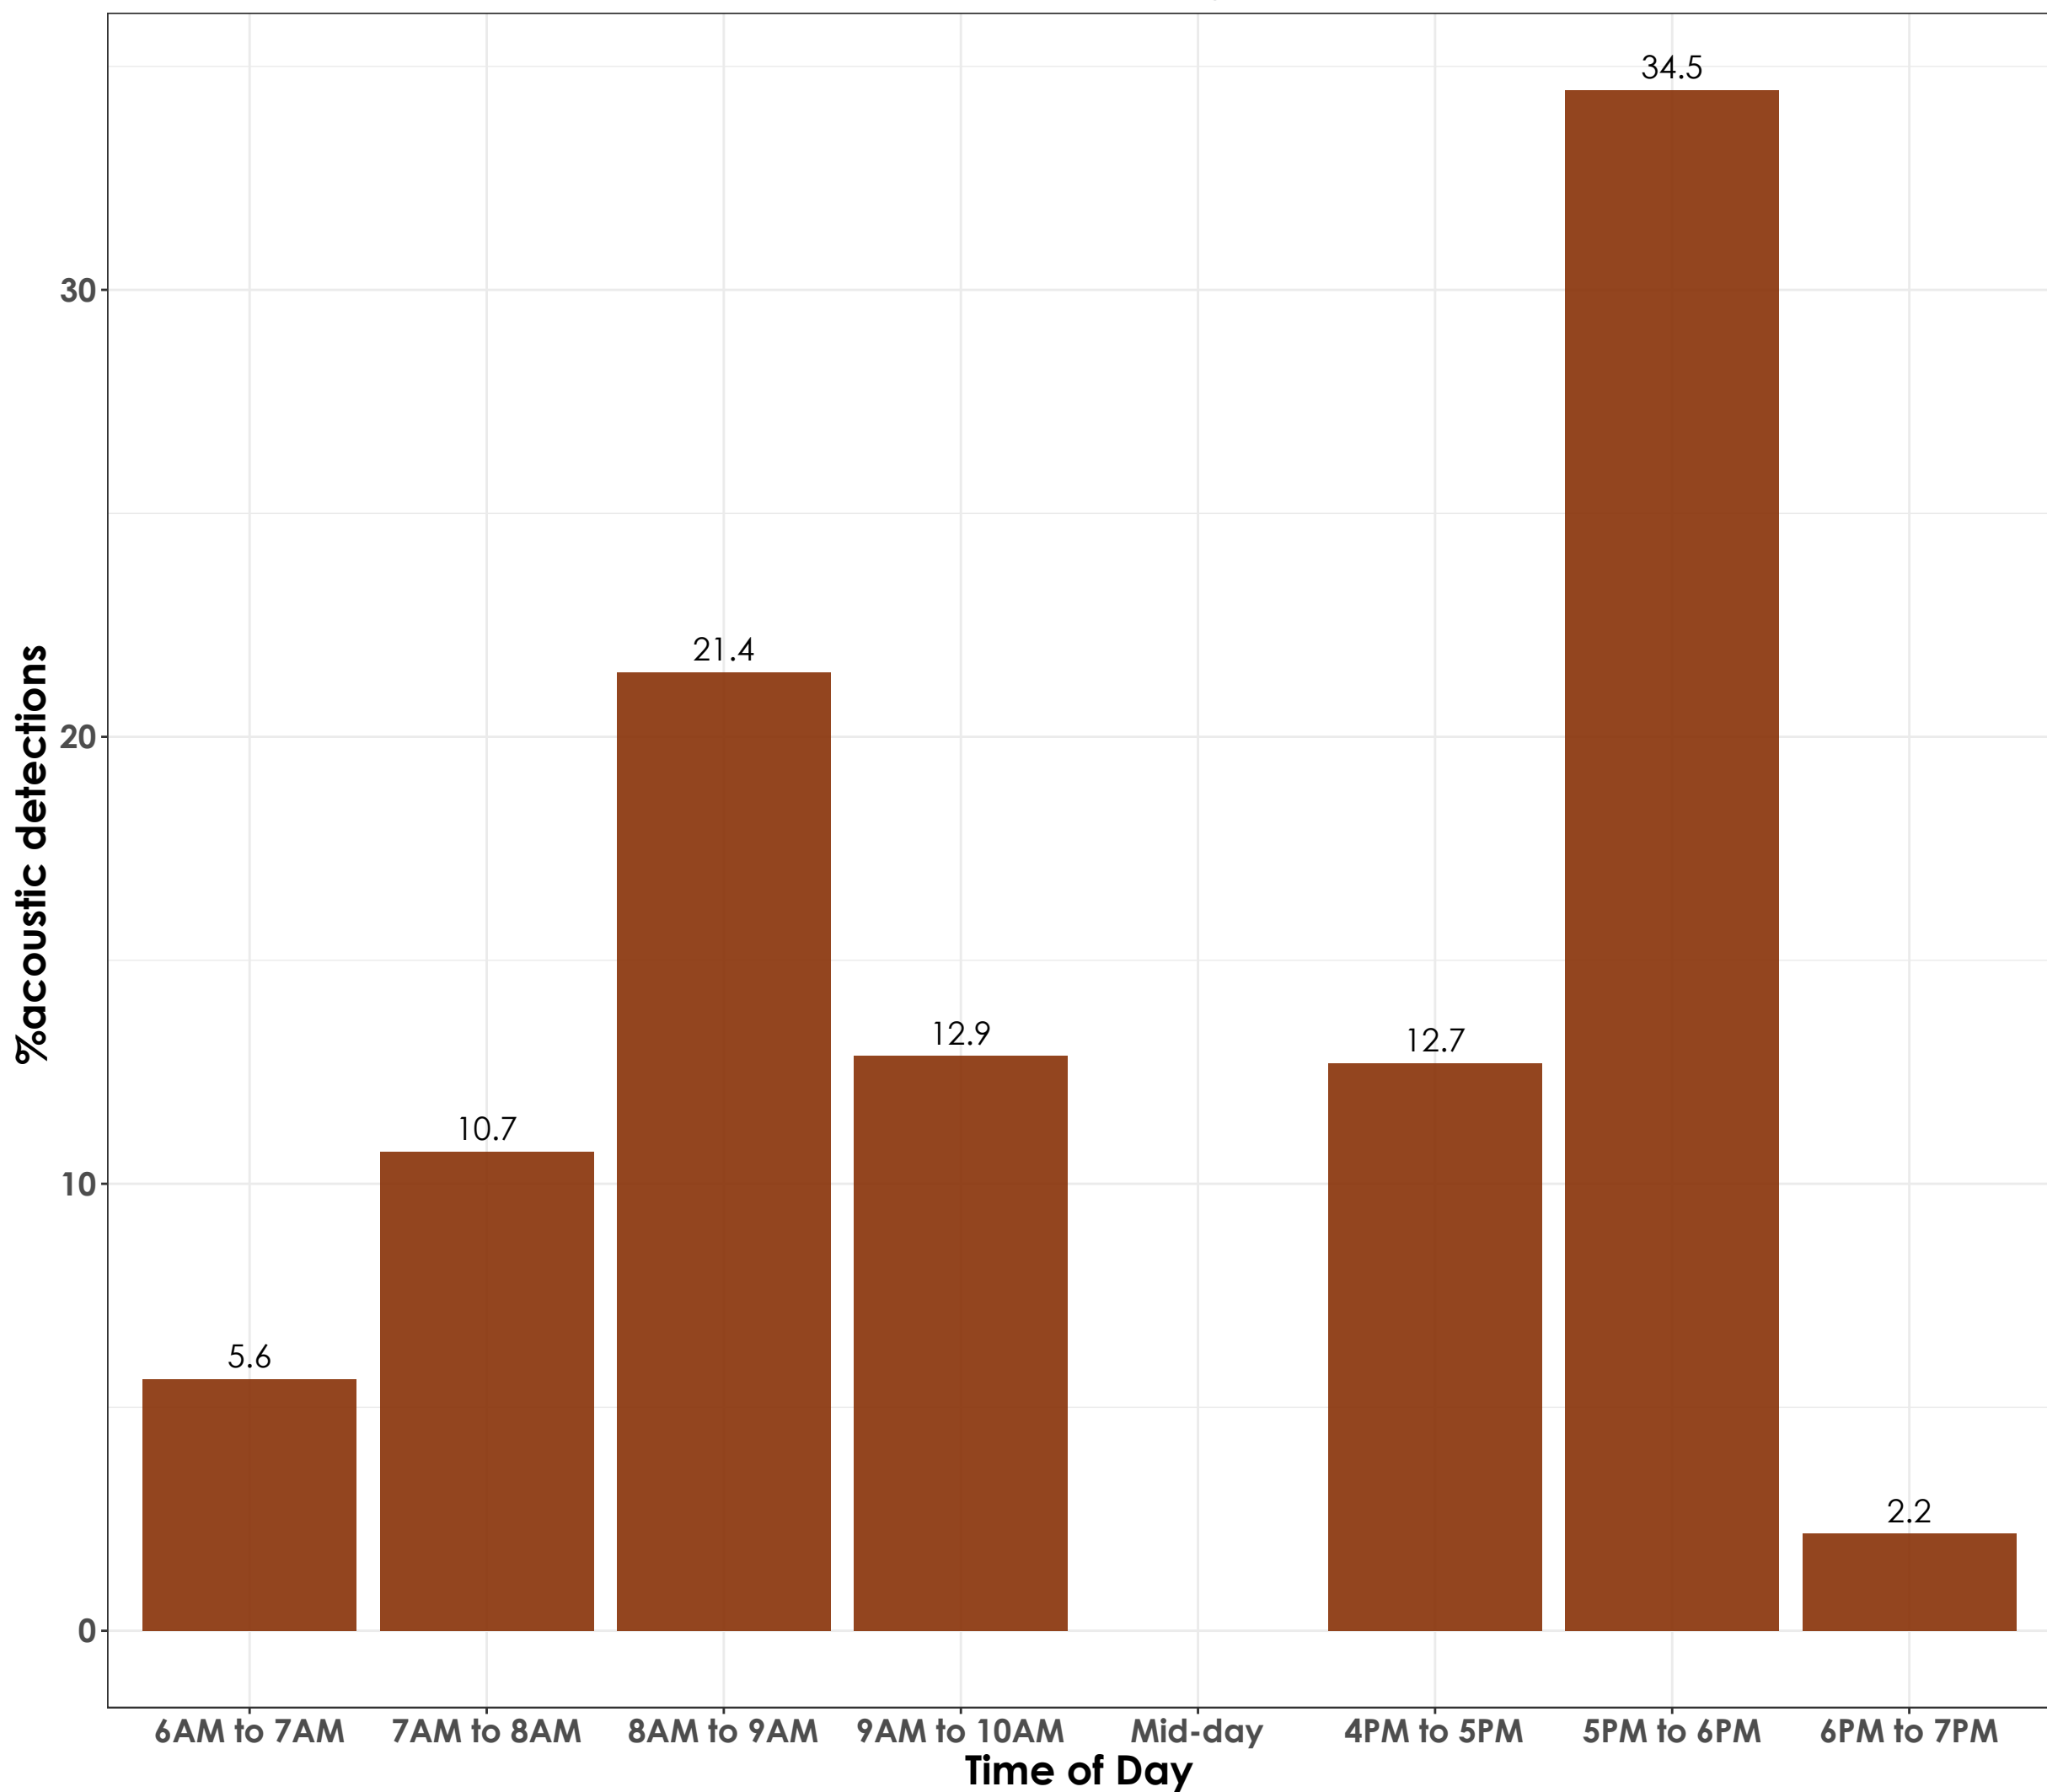

# Black-rumped Flameback

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

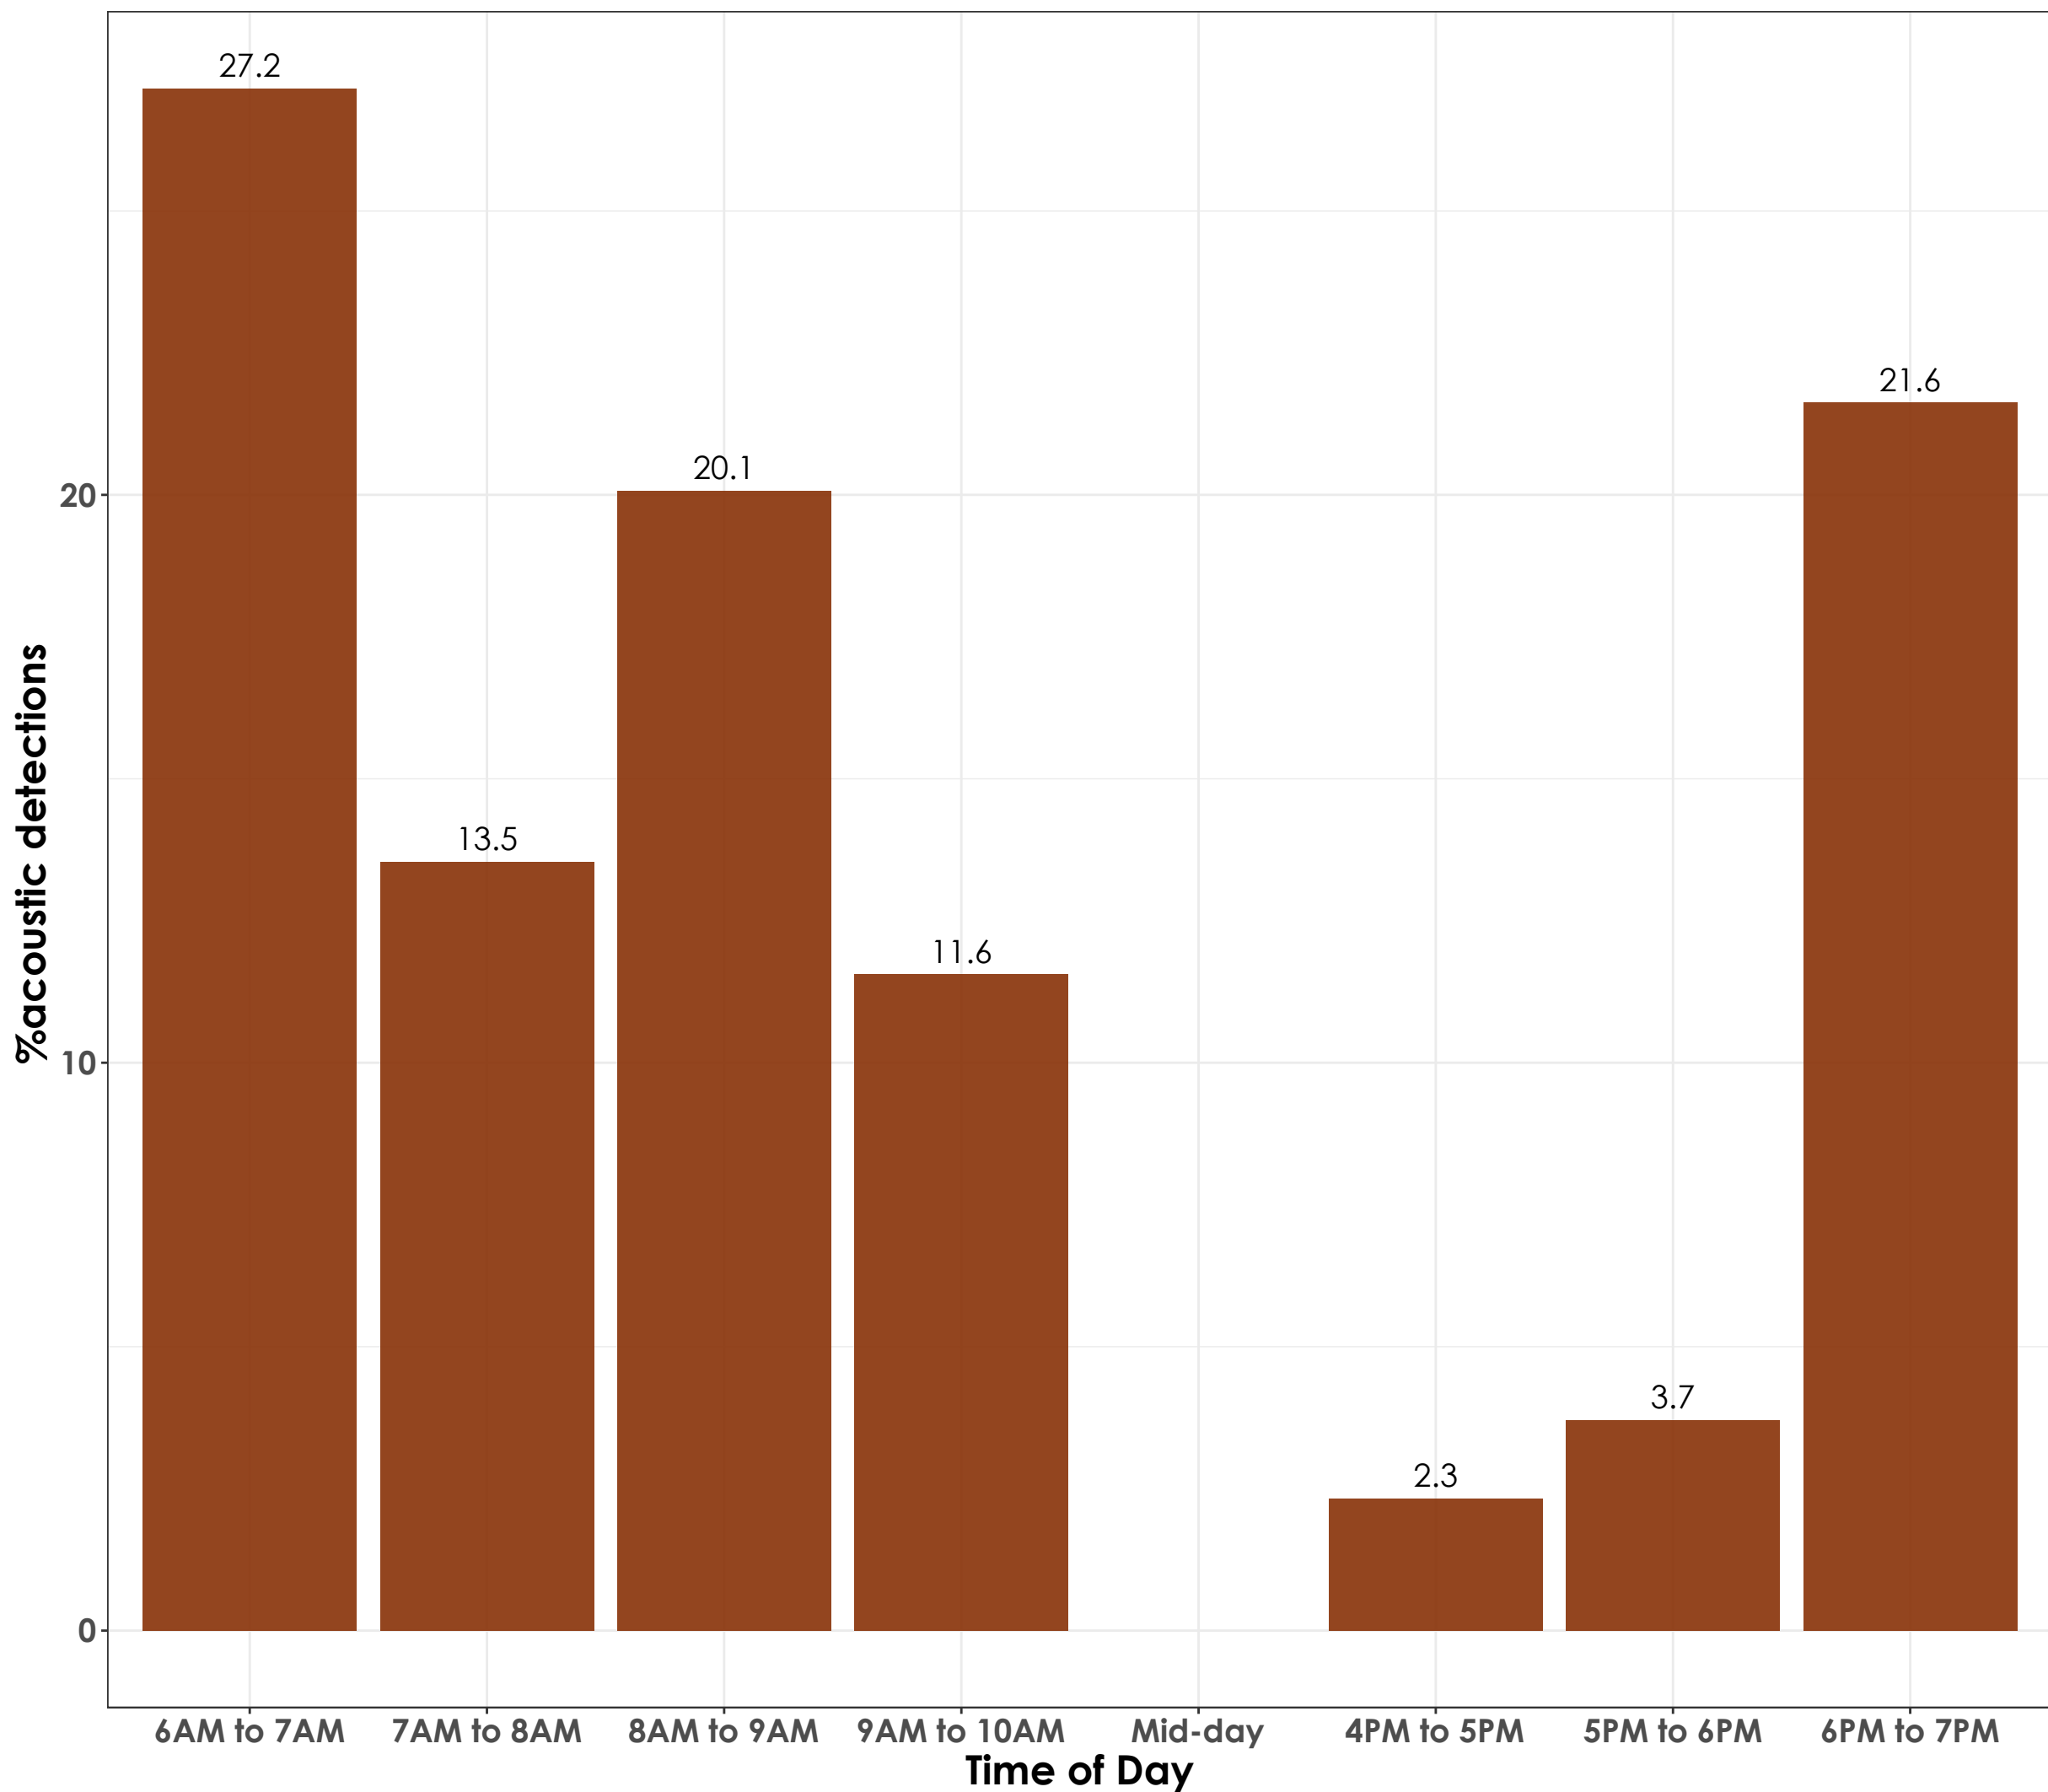

# House Crow

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Golden-fronted Leafbird

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*

# Red Spurfowl

*Each bar represents the percent detections (normalized for sampling effort) across dawn and dusk*
