

**Ashy Drongo**  
*Each bar represents the normalized detections across dawn and dusk*

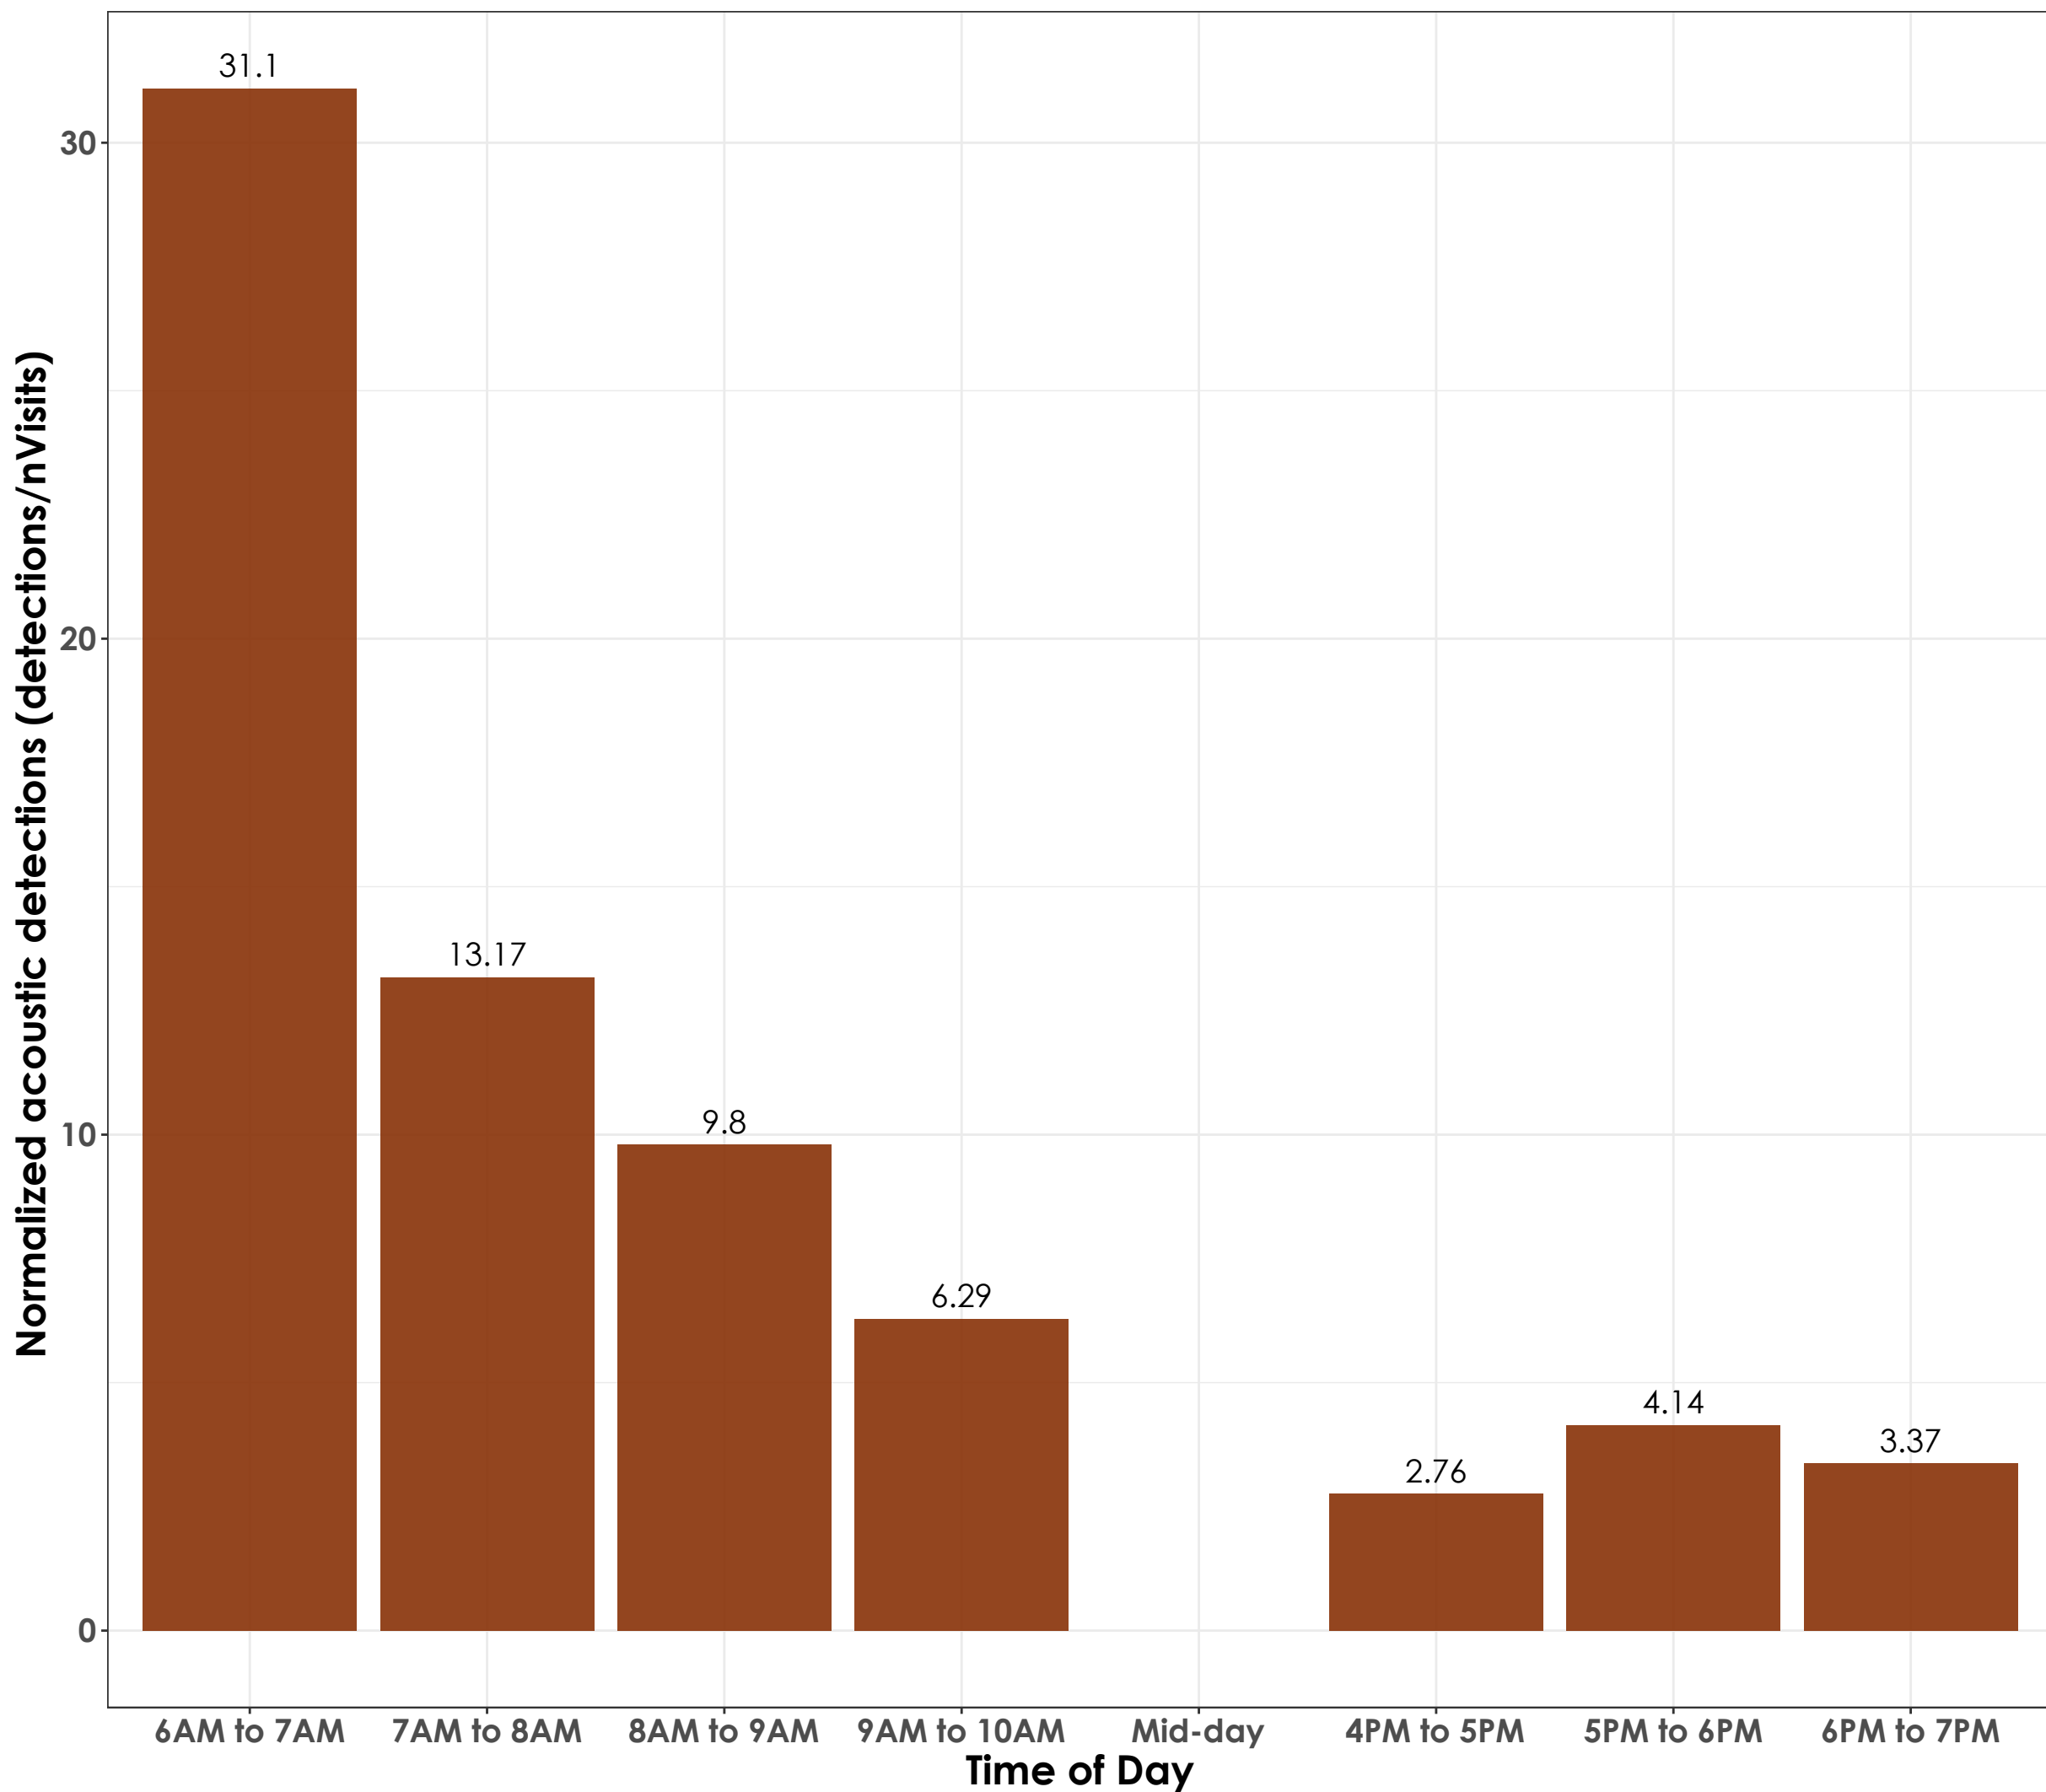

# Crimson-backed Sunbird

Each bar represents the normalized detections across dawn and dusk

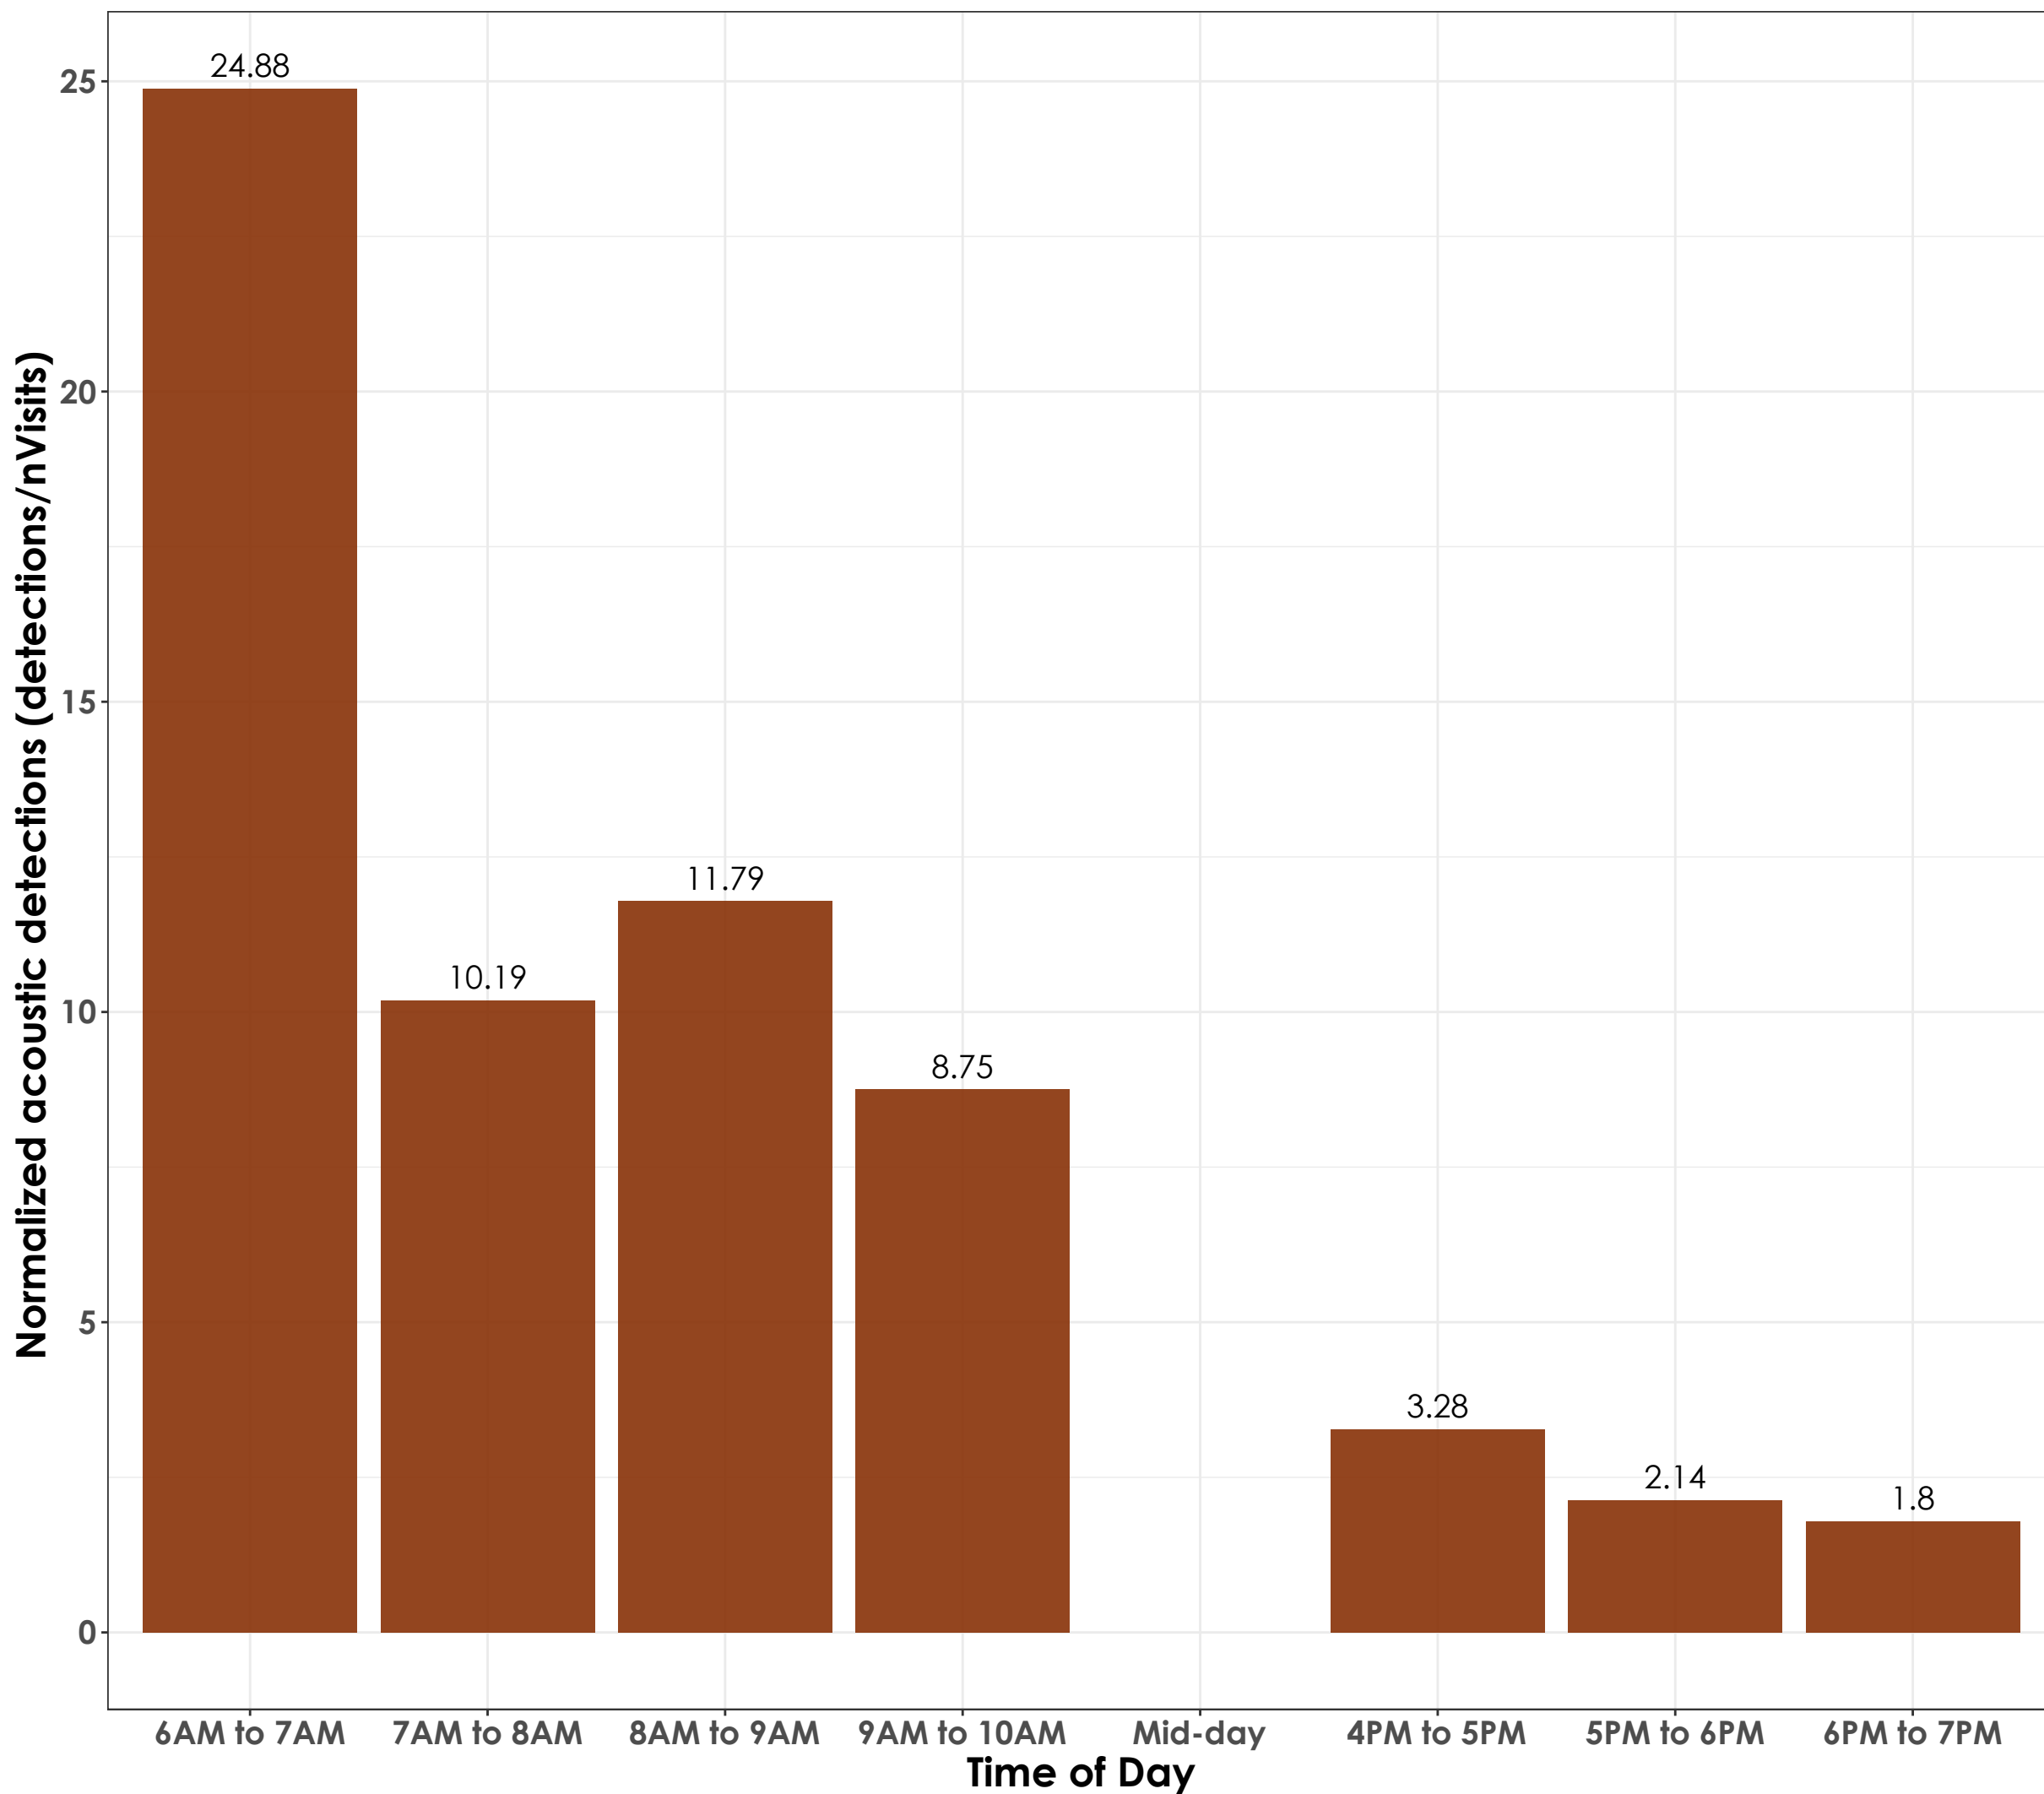

# Gray Junglefowl

*Each bar represents the normalized detections across dawn and dusk*

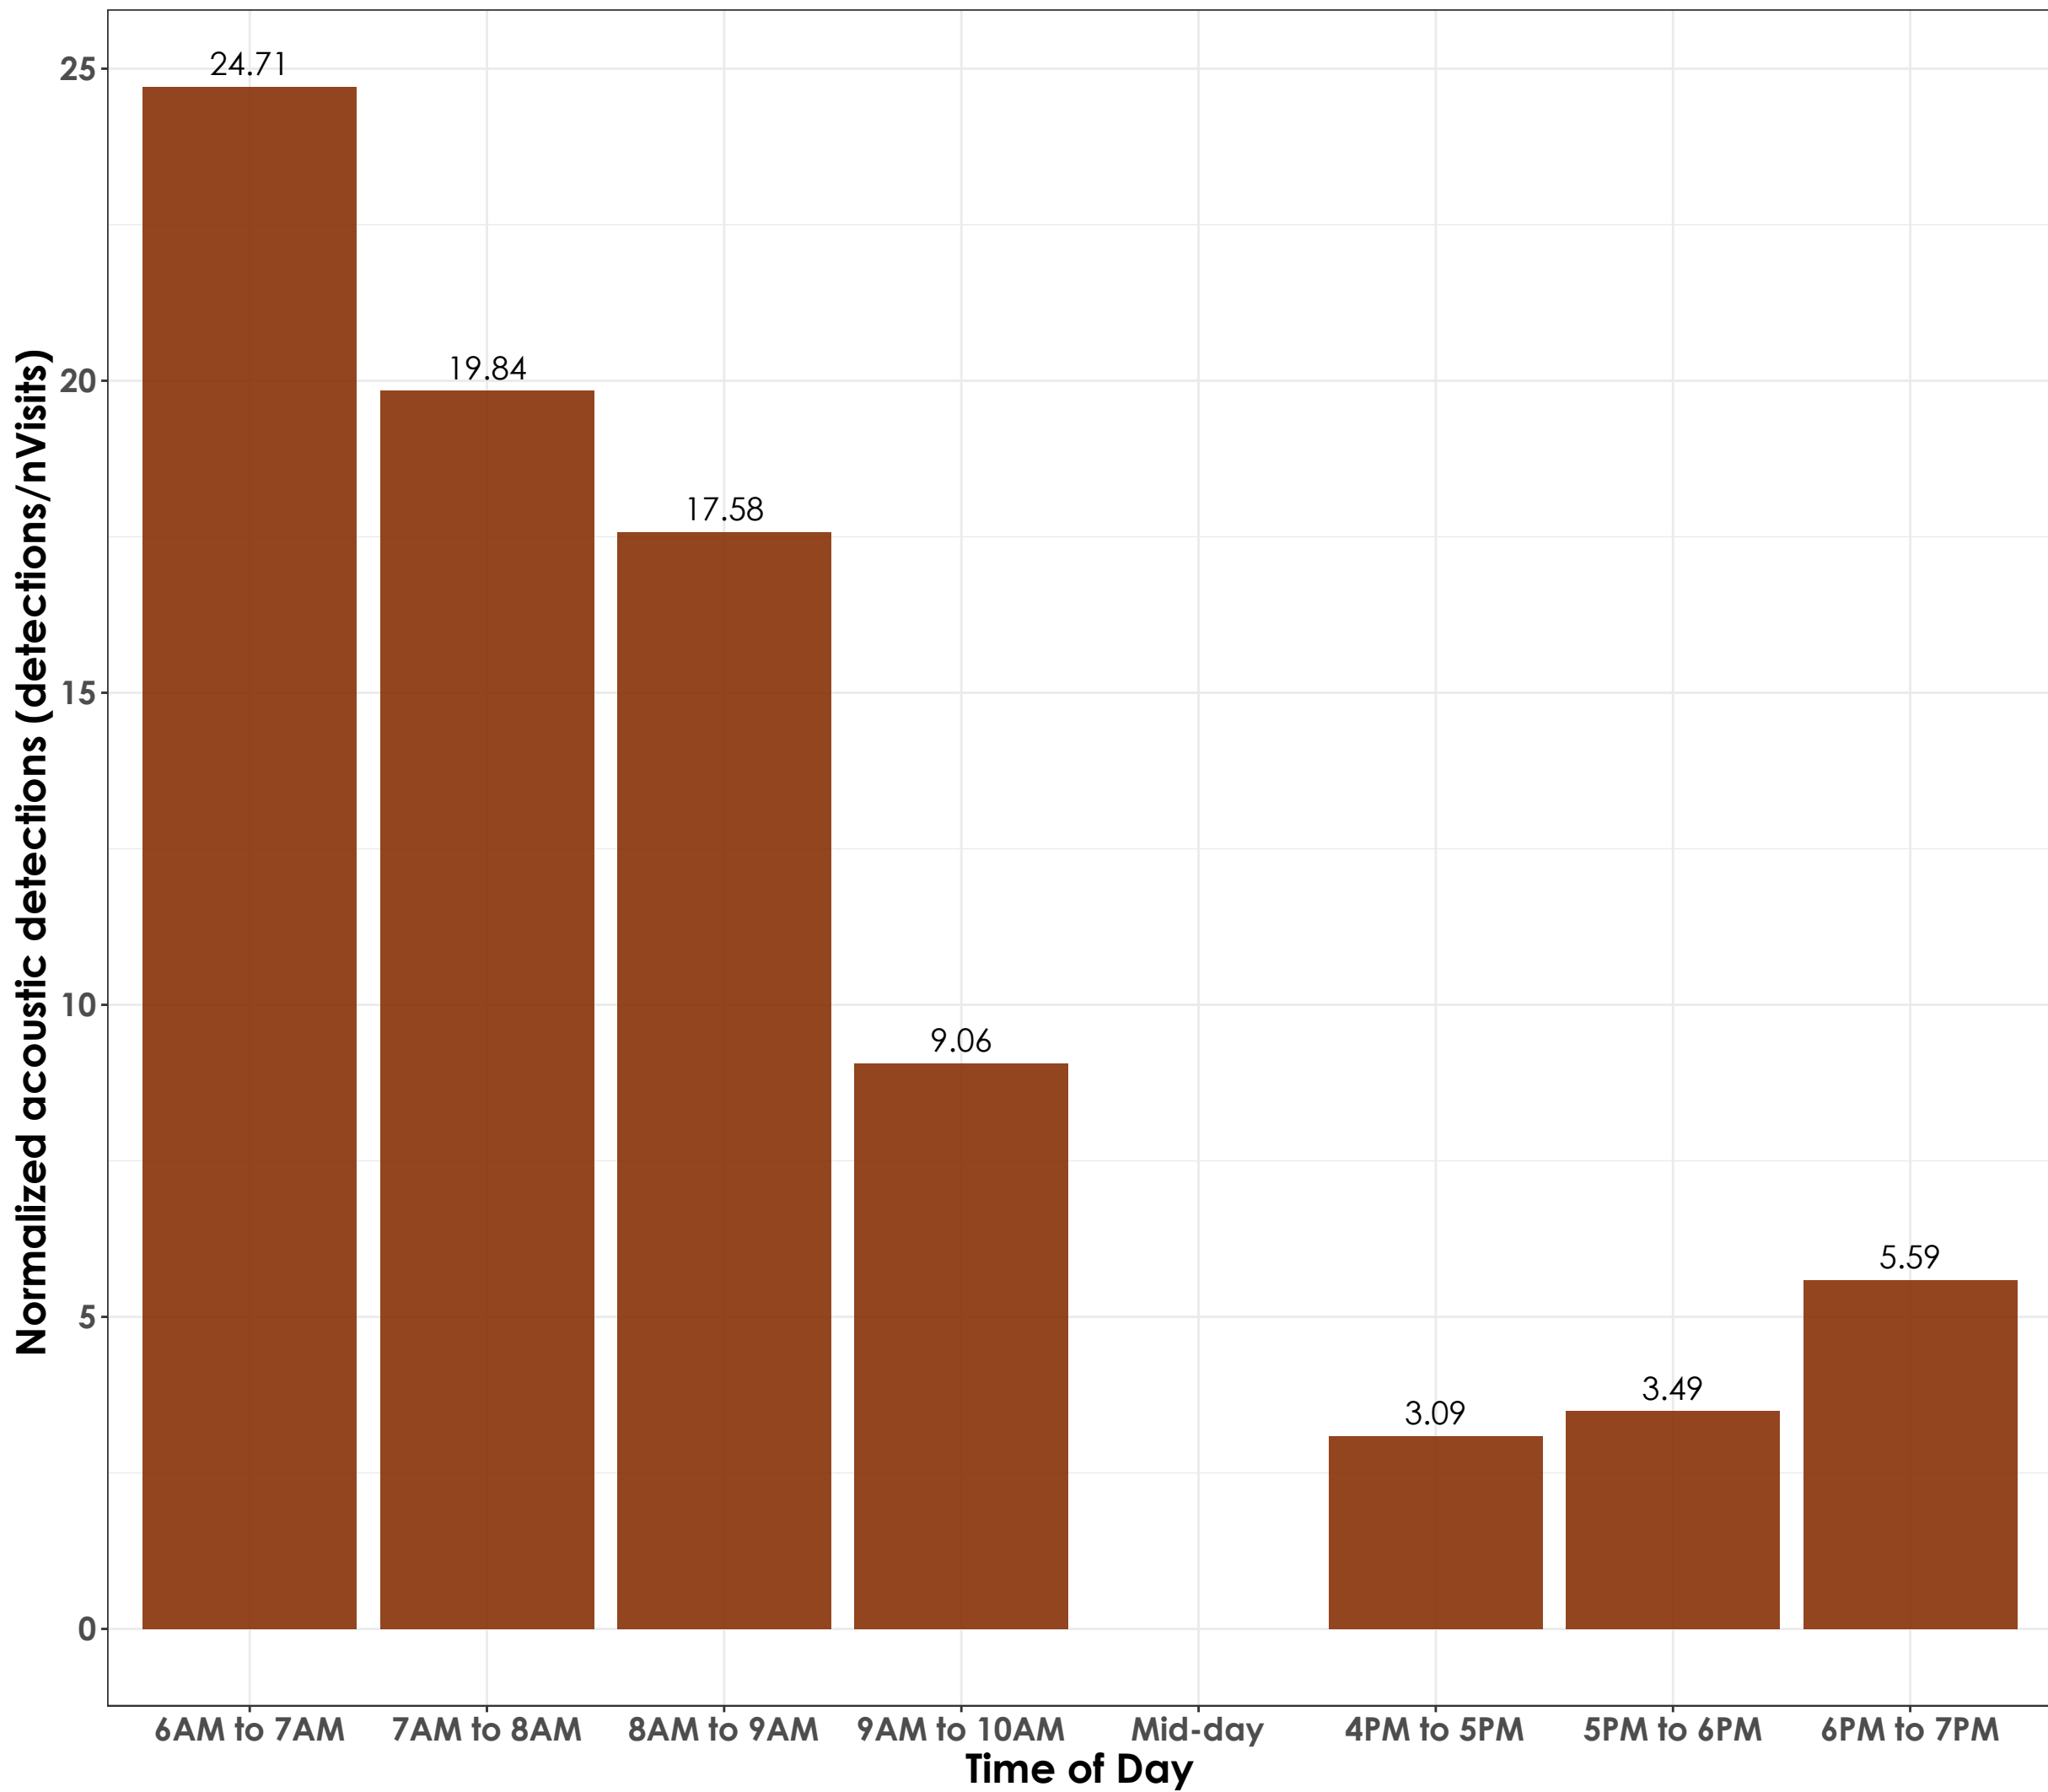

# Greater Racket-tailed Drongo

*Each bar represents the normalized detections across dawn and dusk*

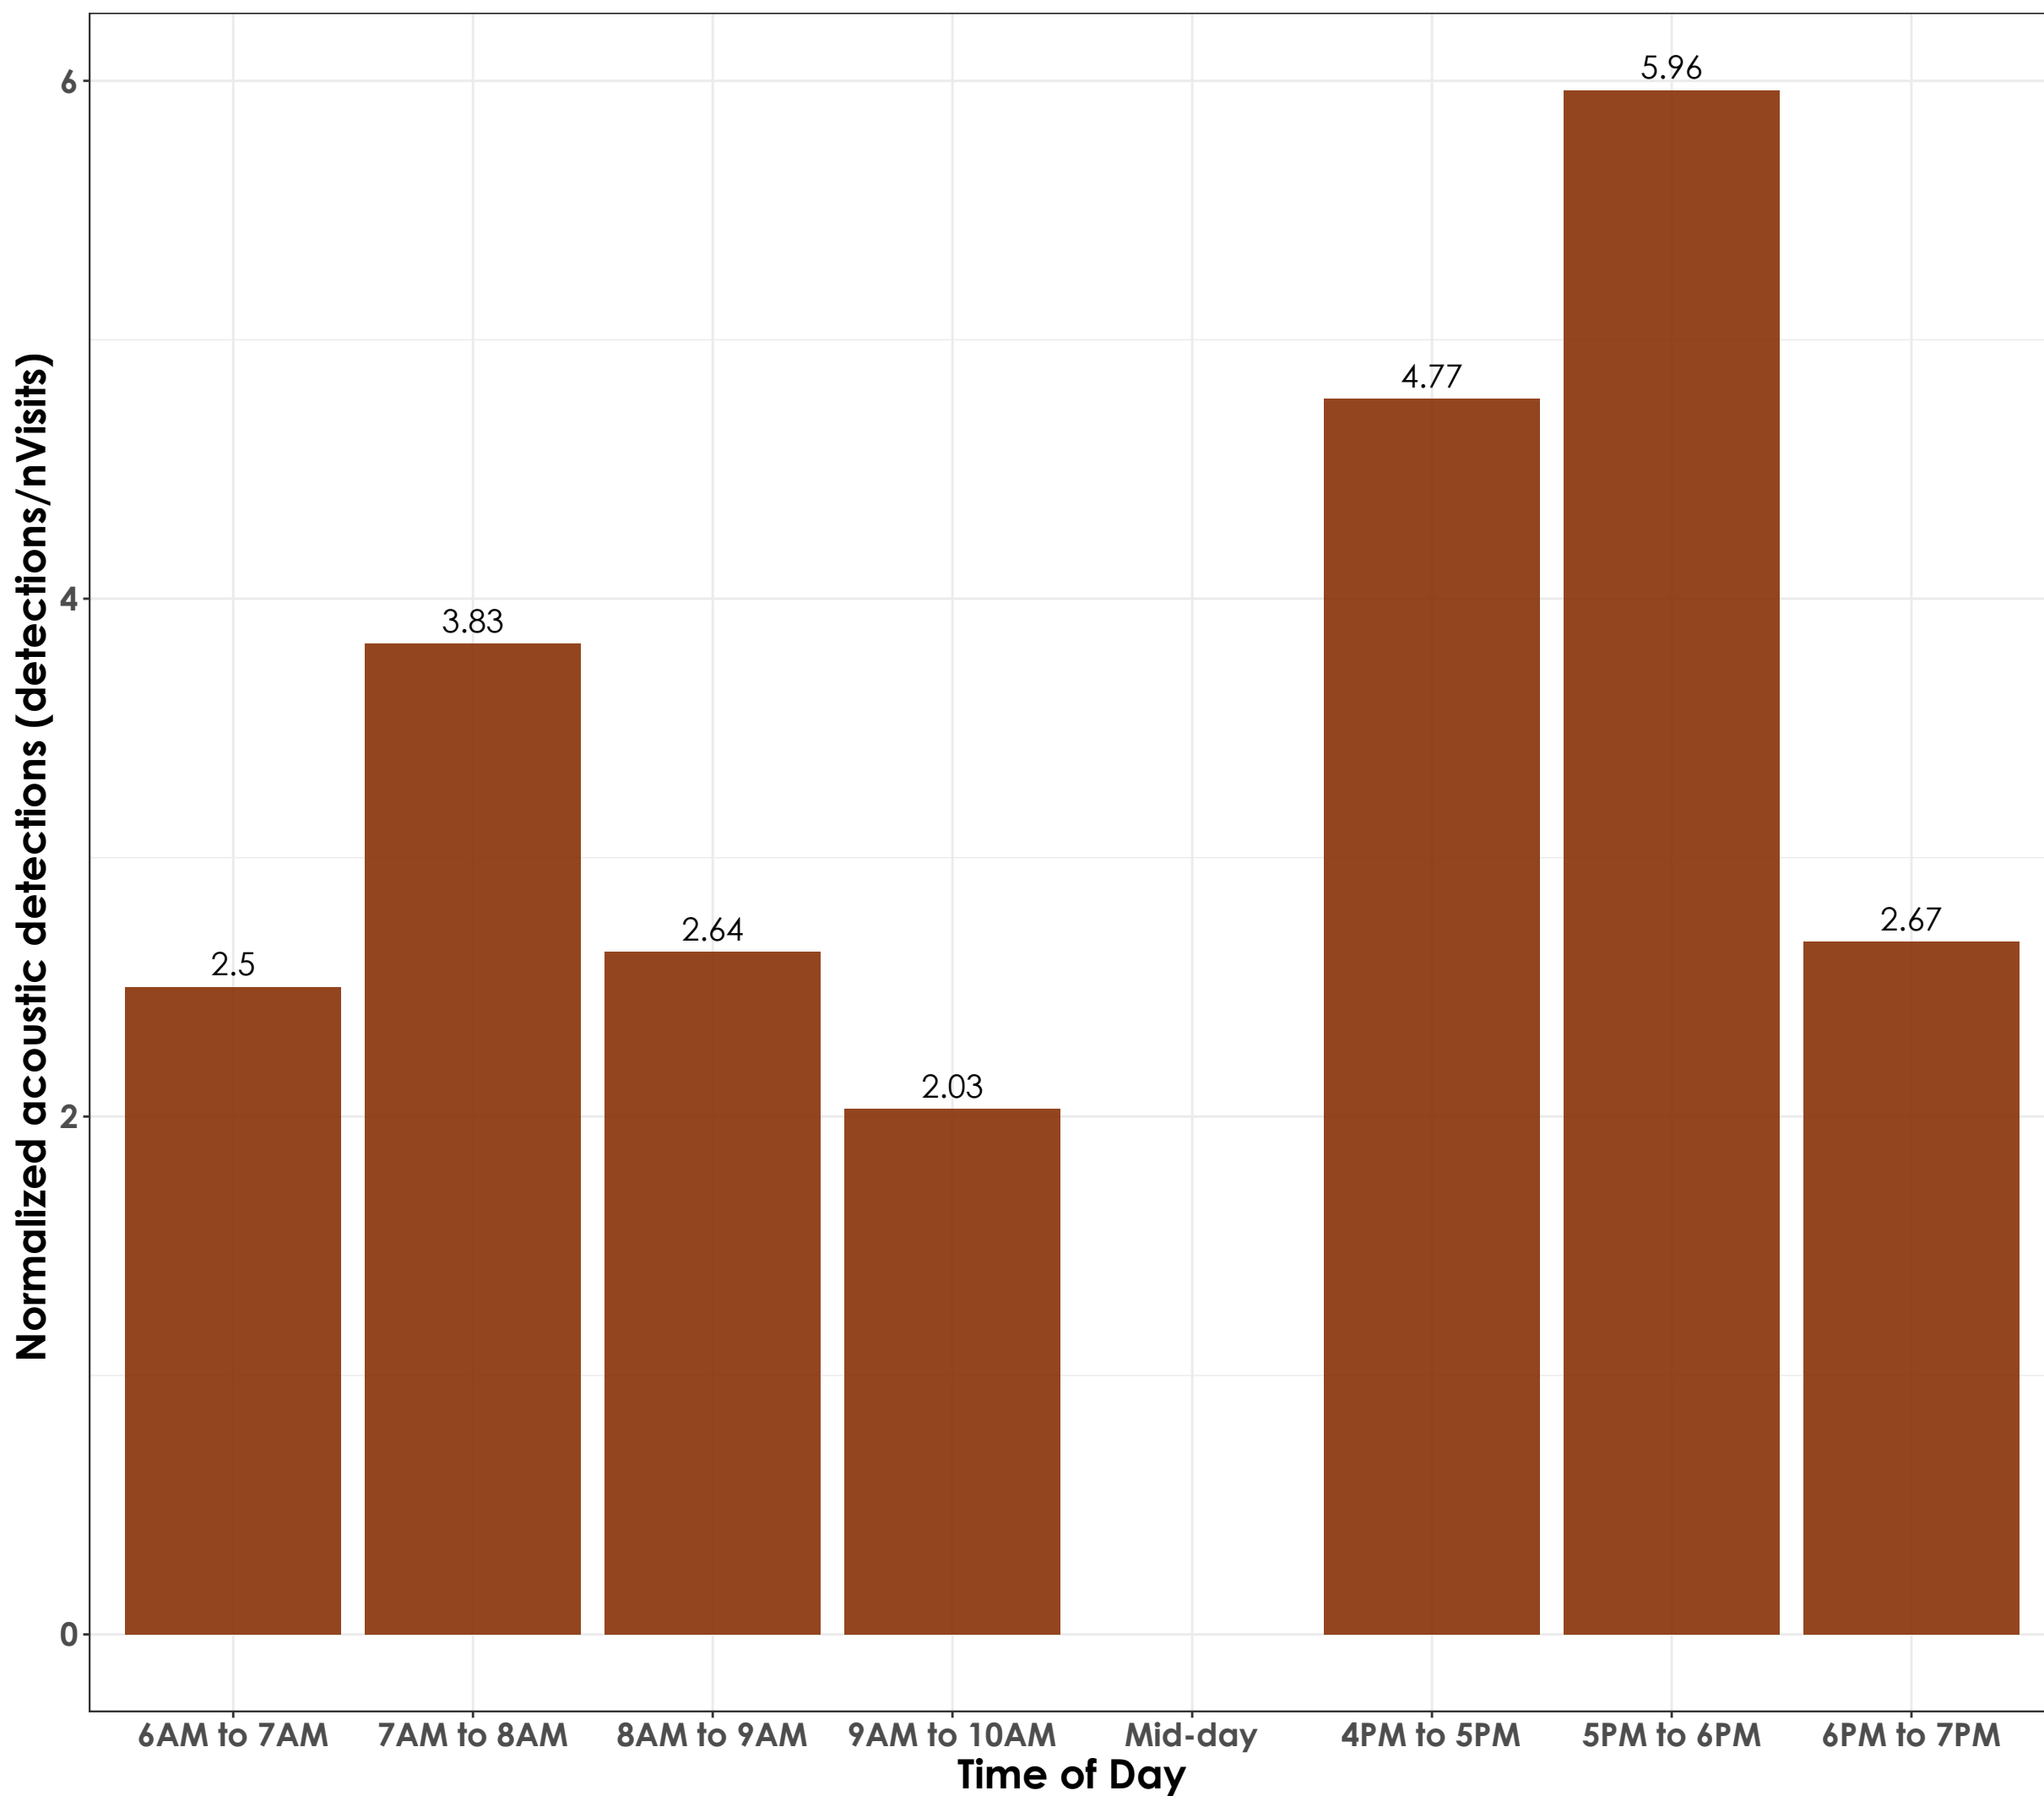

# Indian Scimitar-Babbler

*Each bar represents the normalized detections across dawn and dusk*

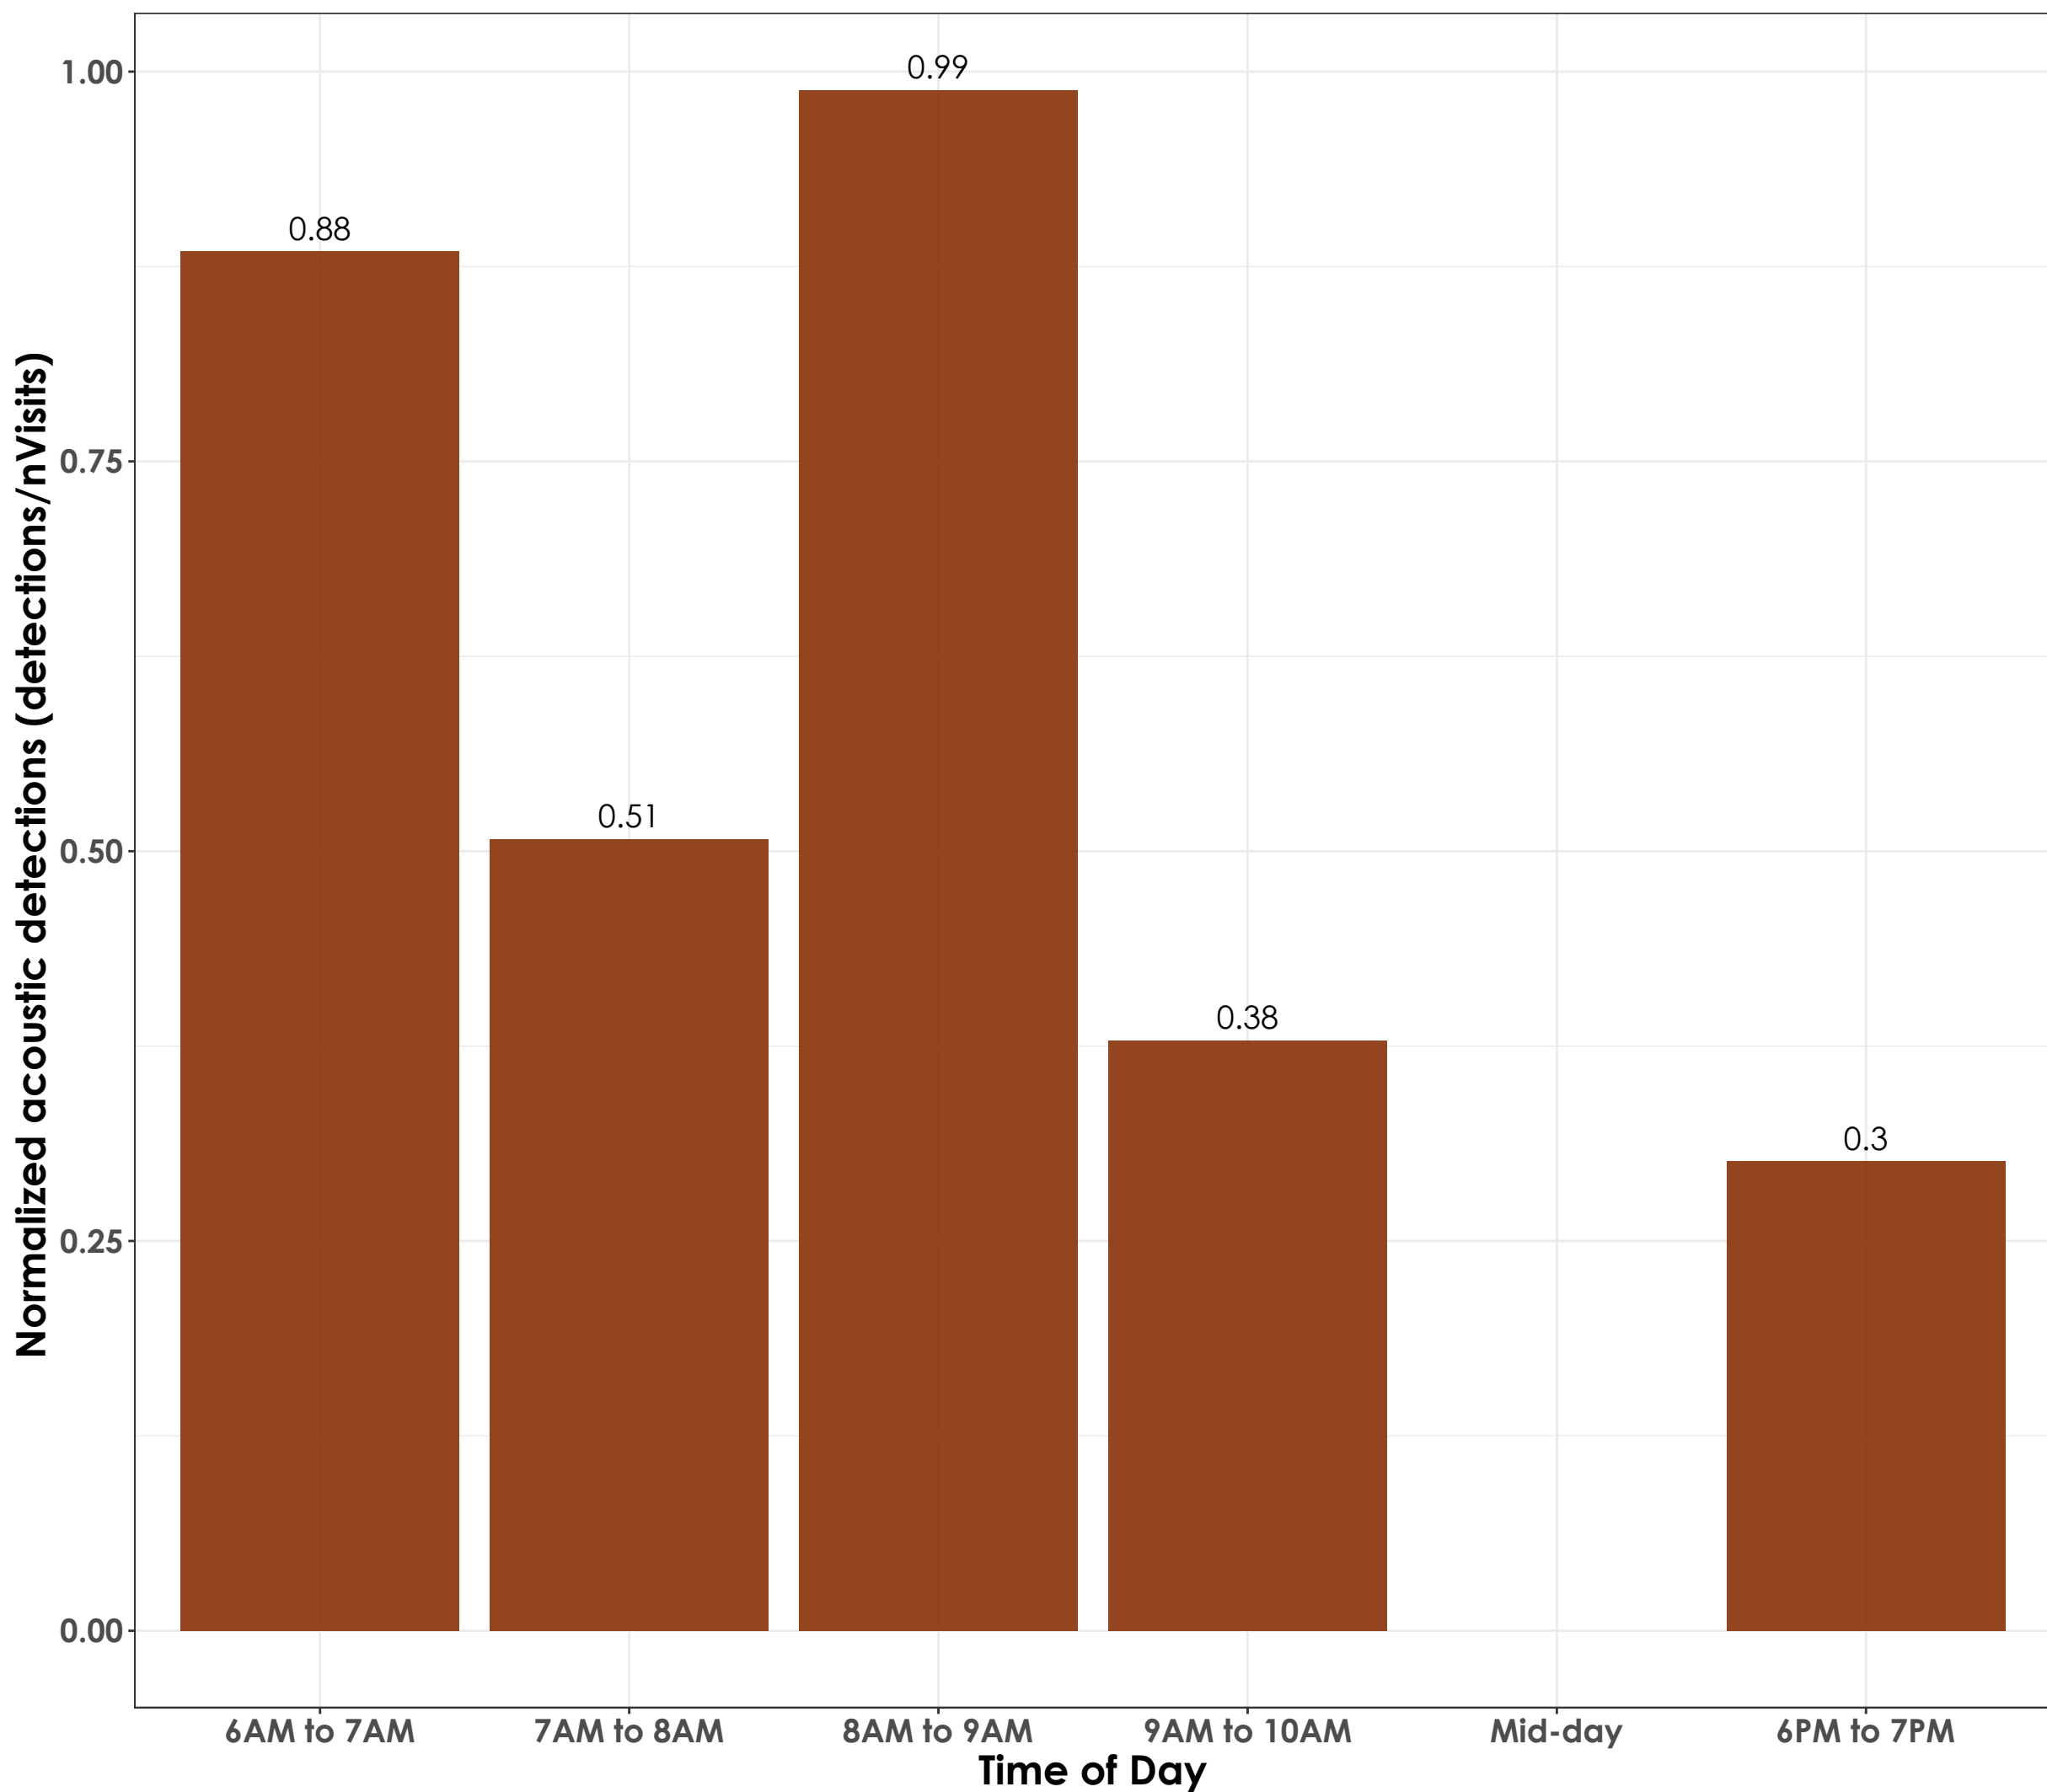

# Malabar Gray Hornbill

*Each bar represents the normalized detections across dawn and dusk*

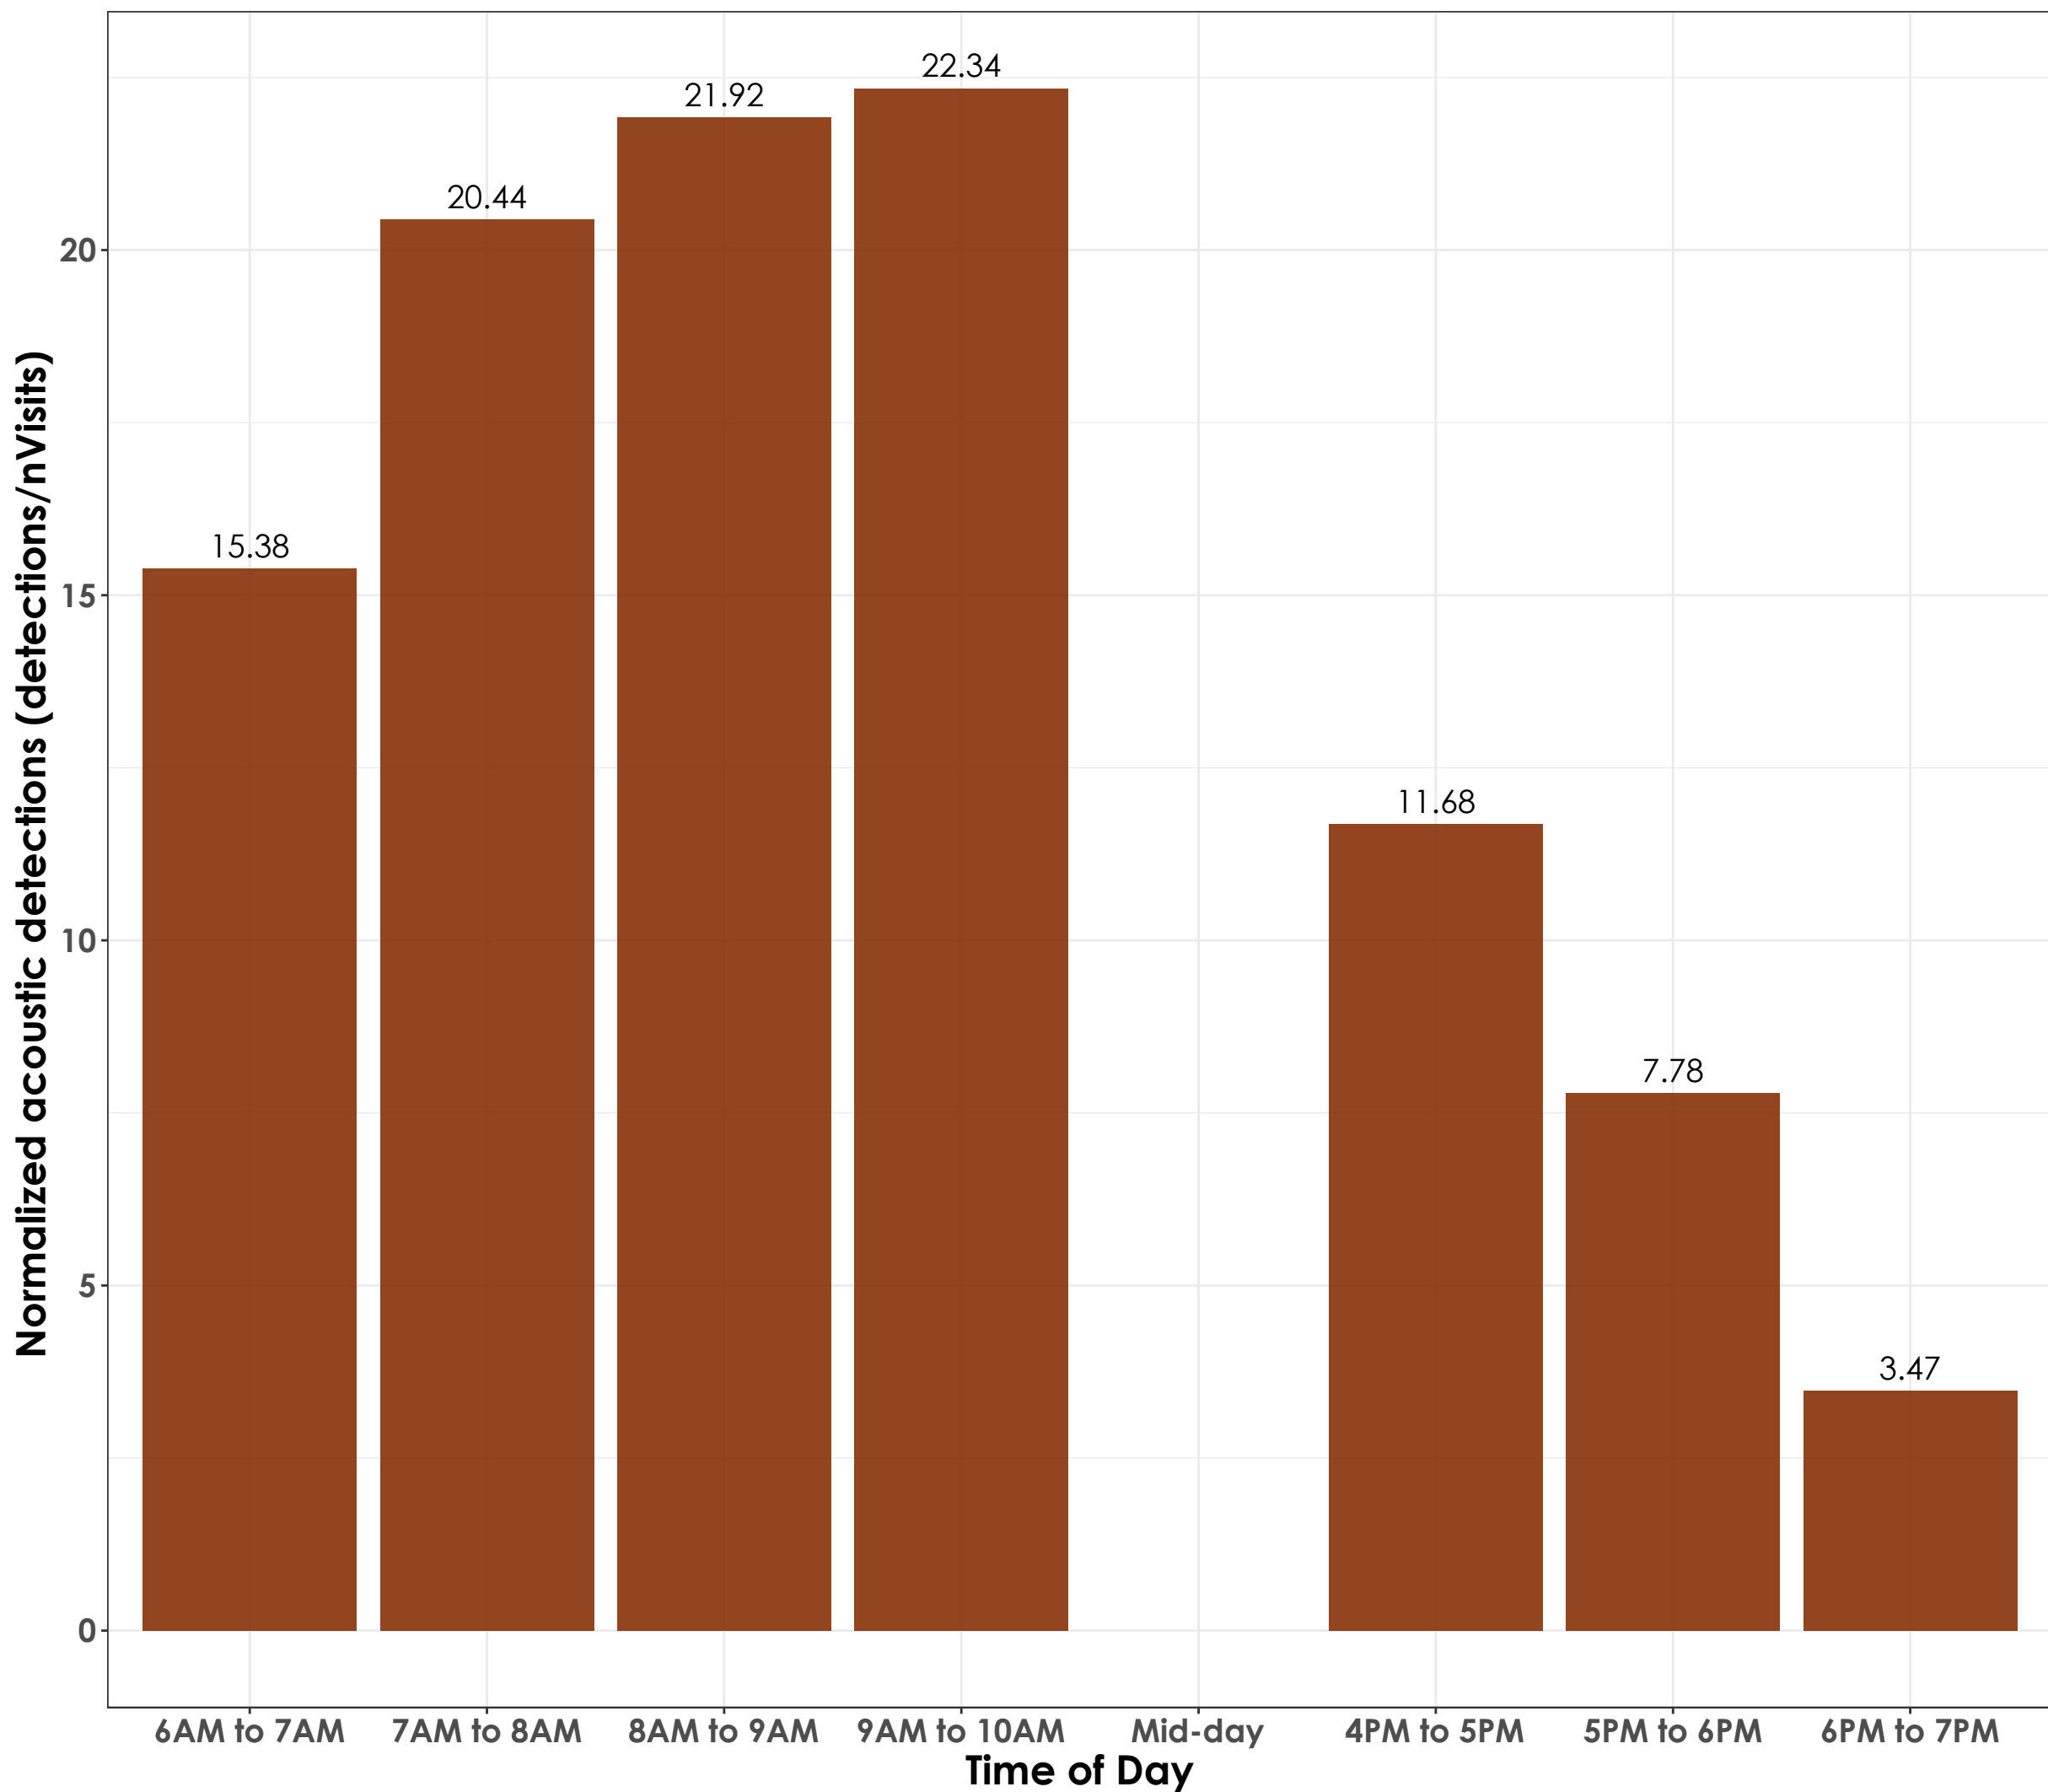

# Oriental Magpie-Robin

*Each bar represents the normalized detections across dawn and dusk*

# Nilgiri Flowerpecker

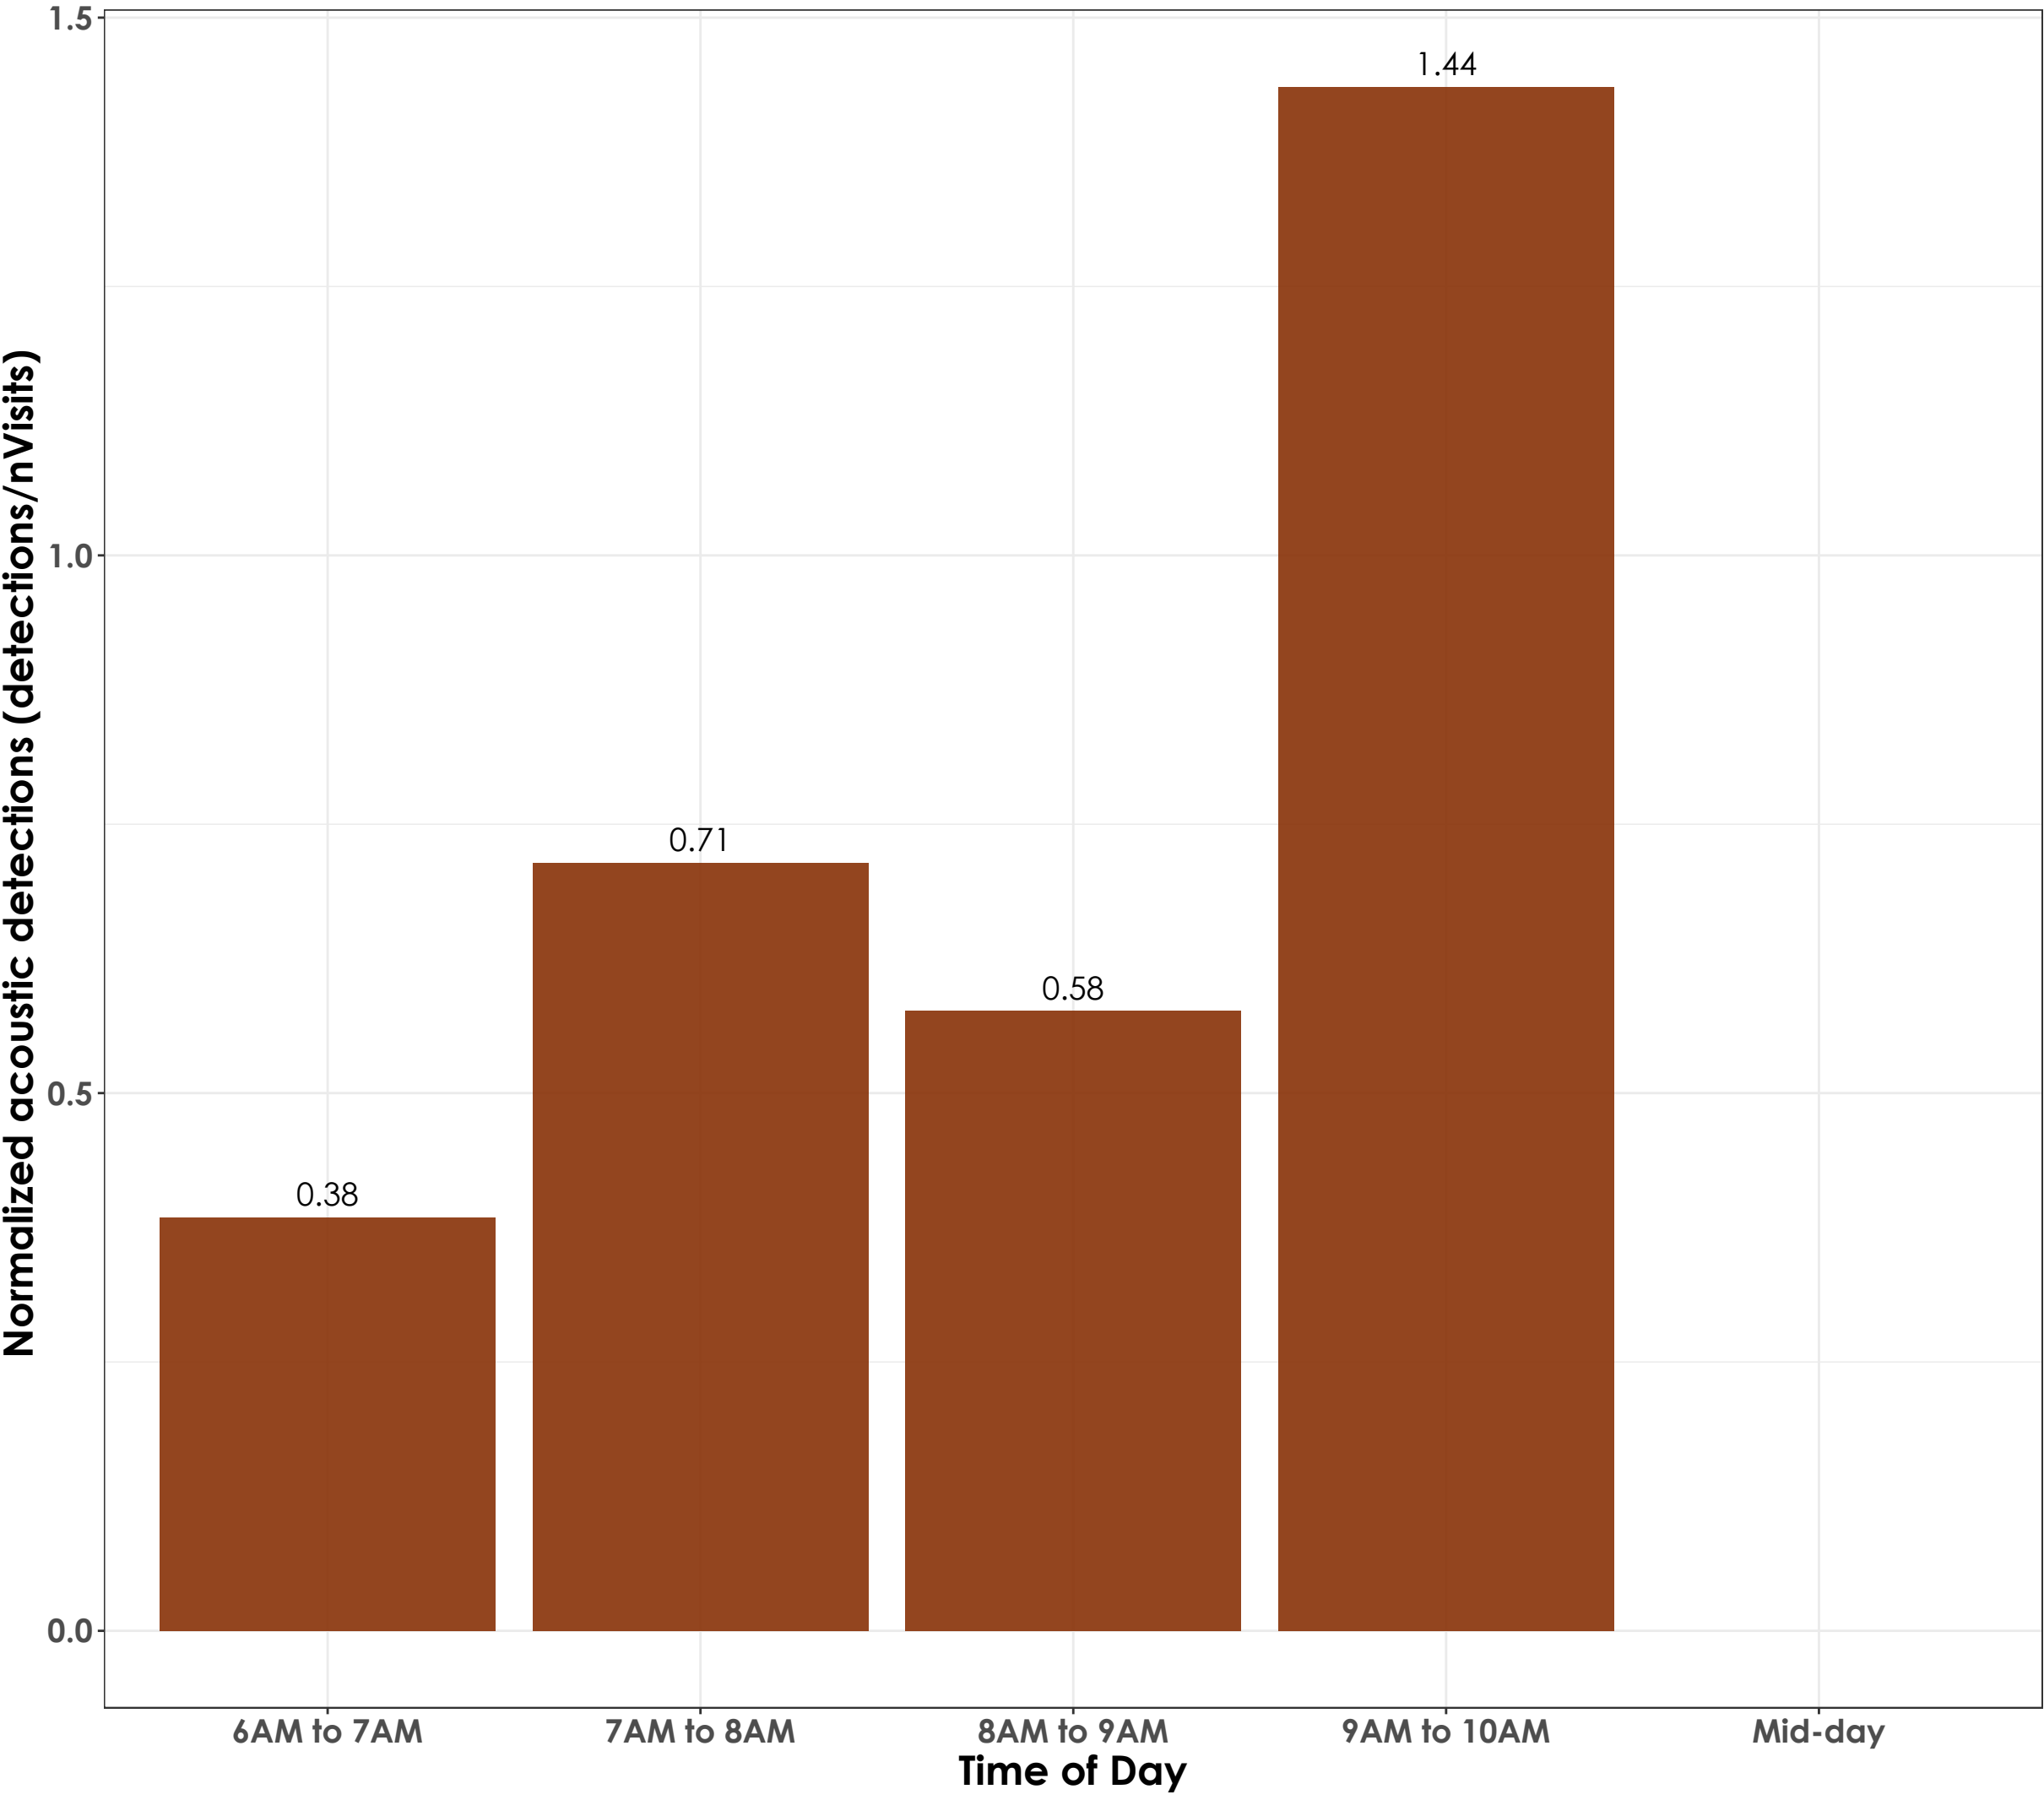

*Each bar represents the normalized detections across dawn and dusk*

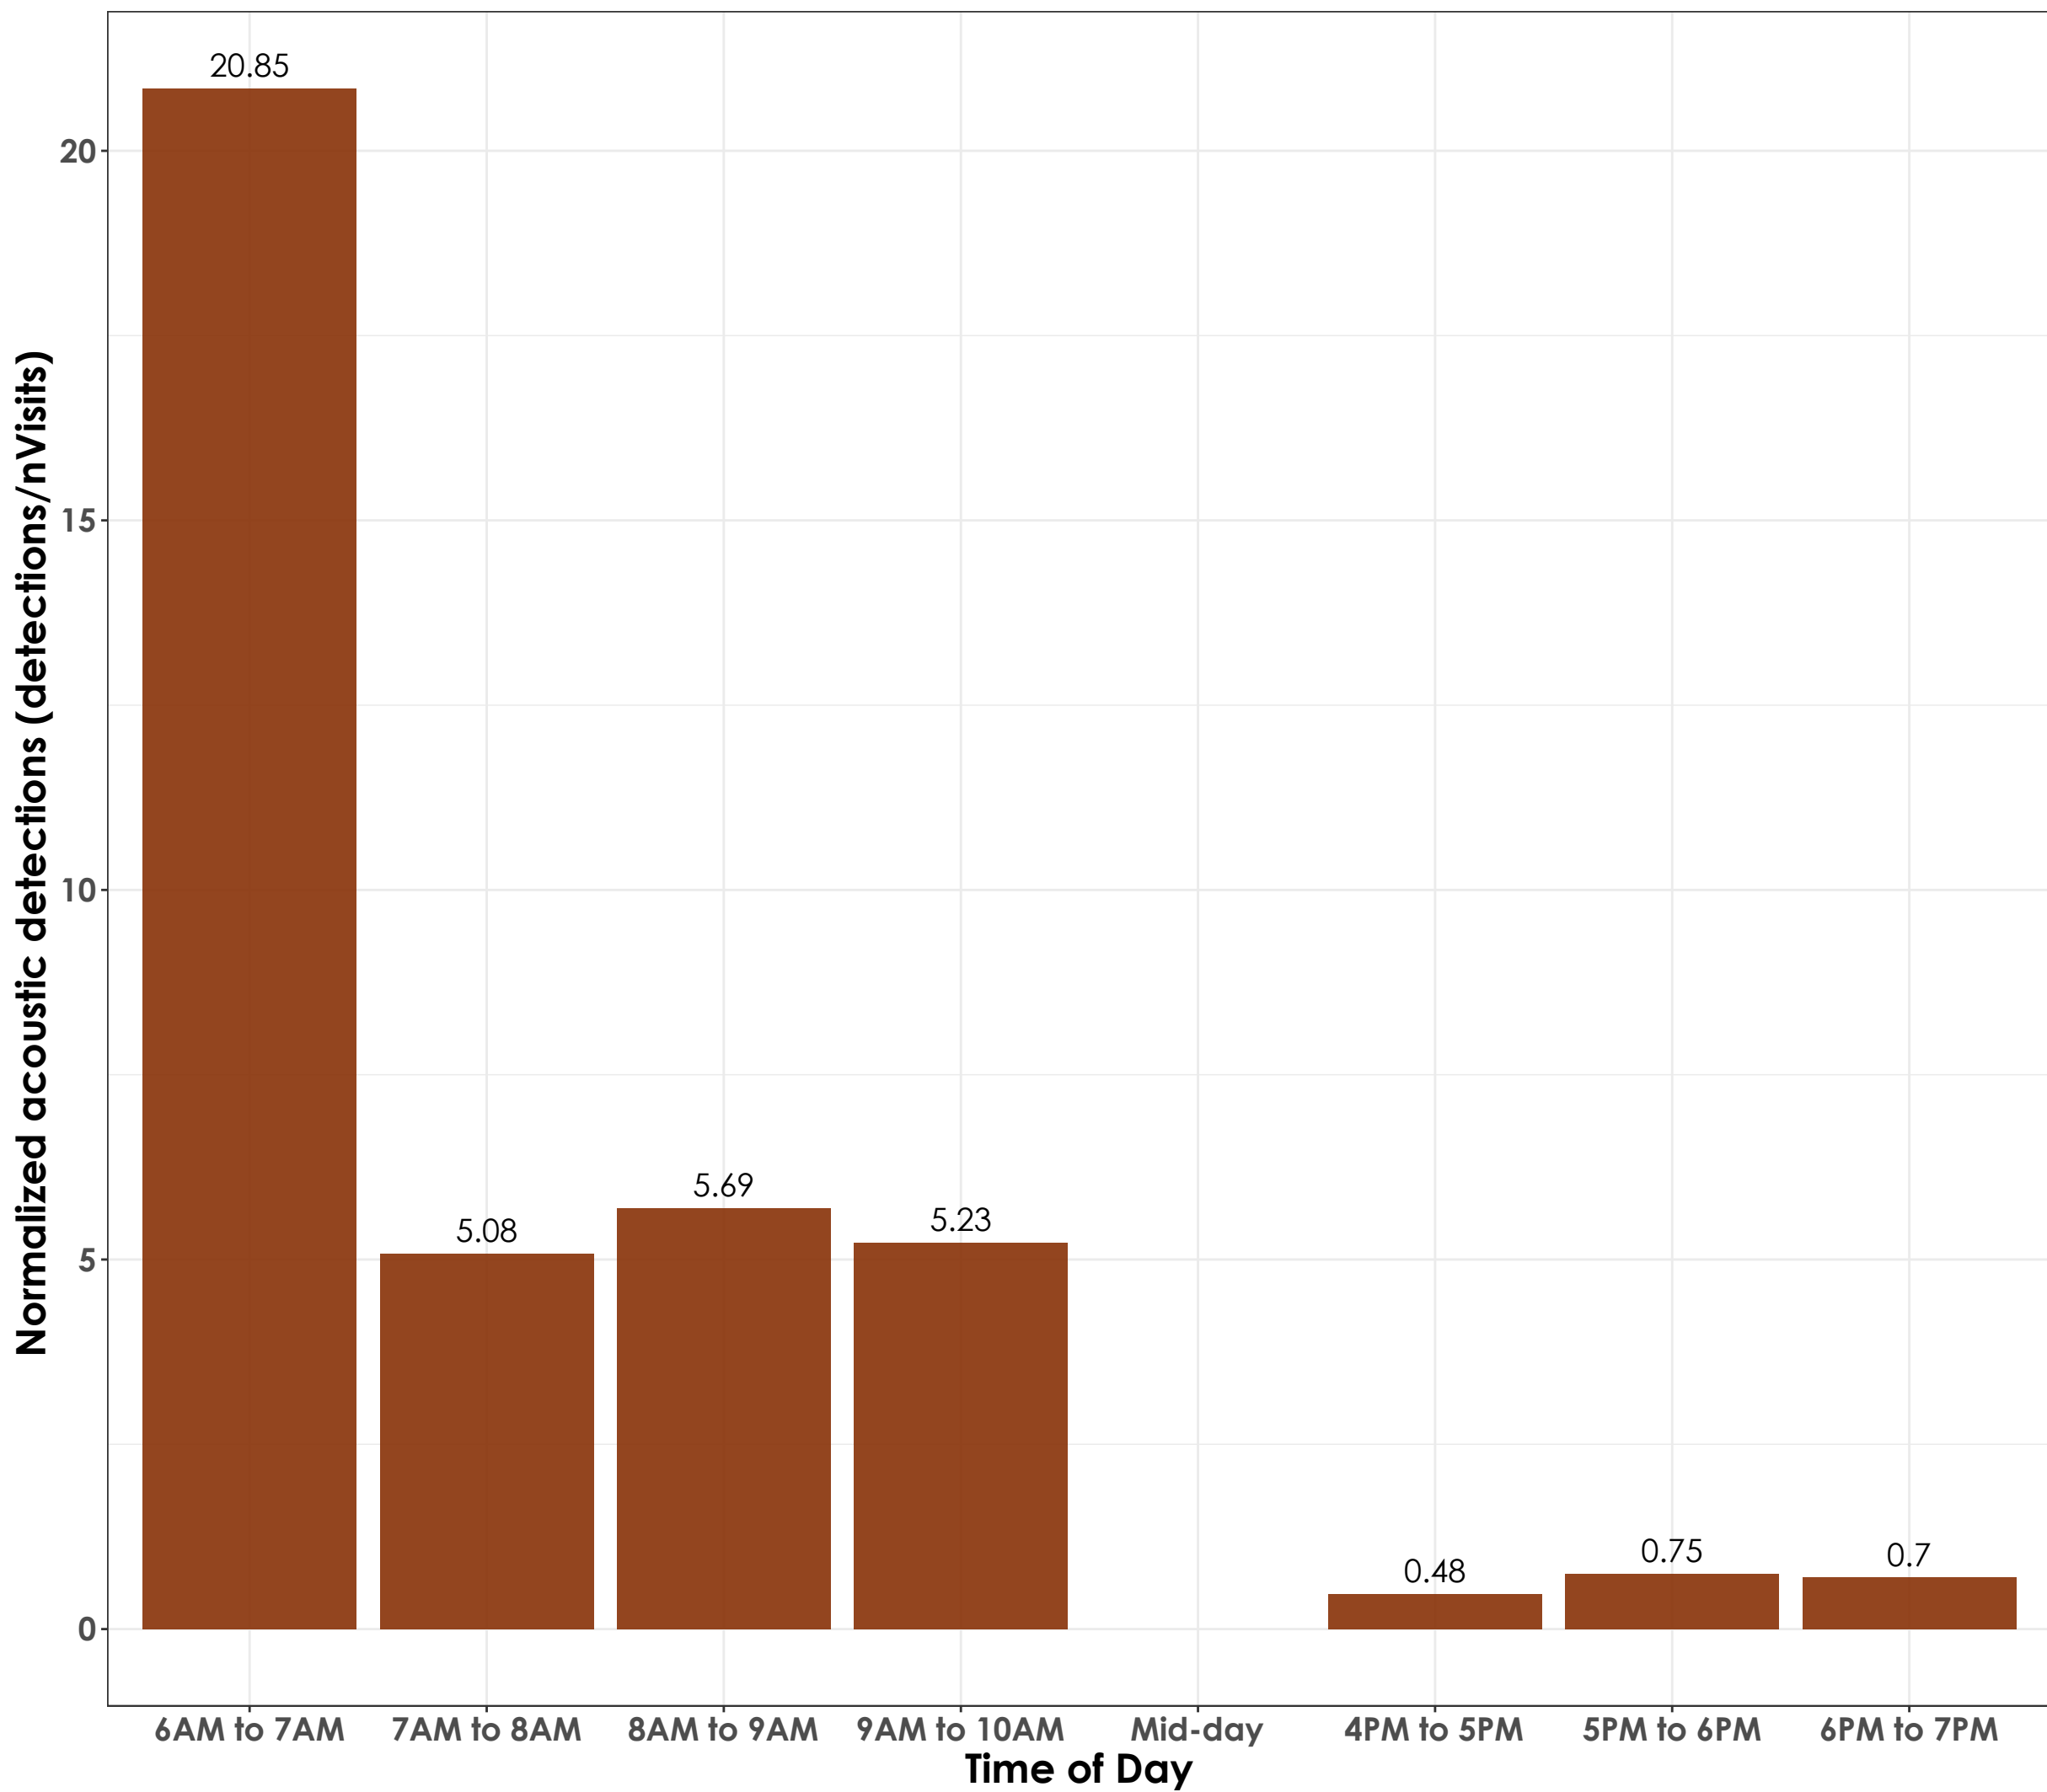

**Purple Sunbird**

*Each bar represents the normalized detections across dawn and dusk*

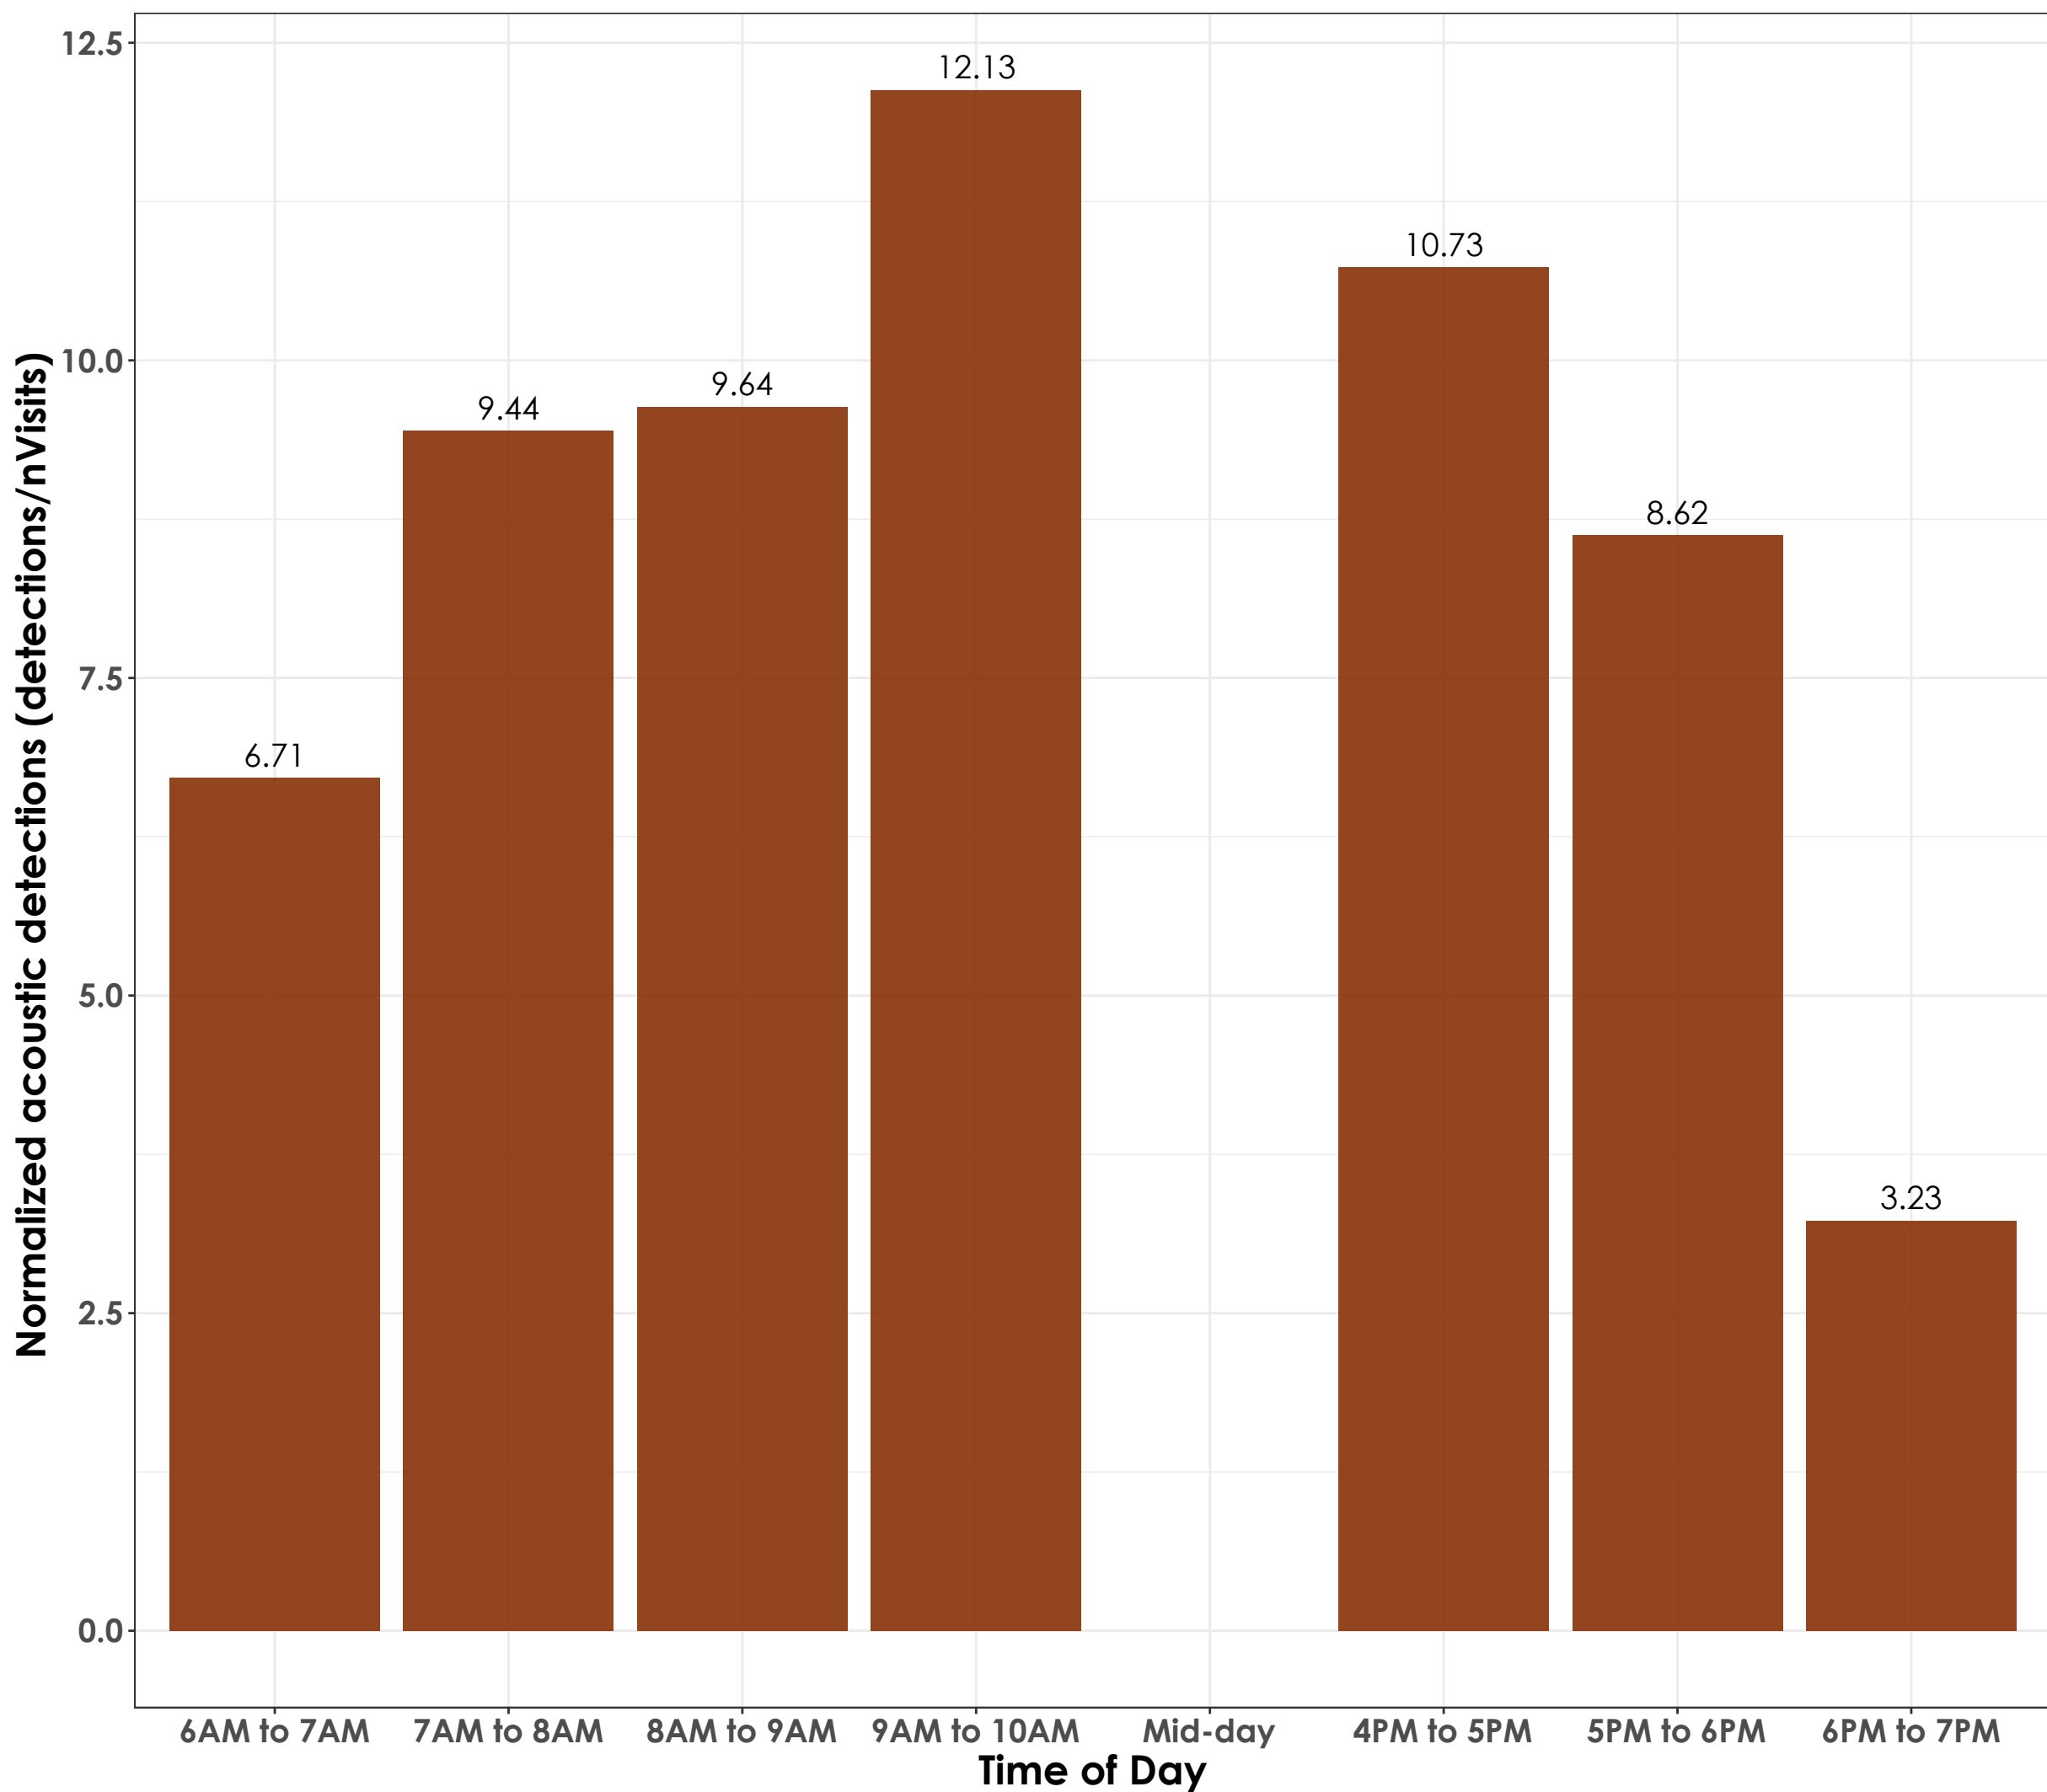

# Puff-throated Babbler

*Each bar represents the normalized detections across dawn and dusk*

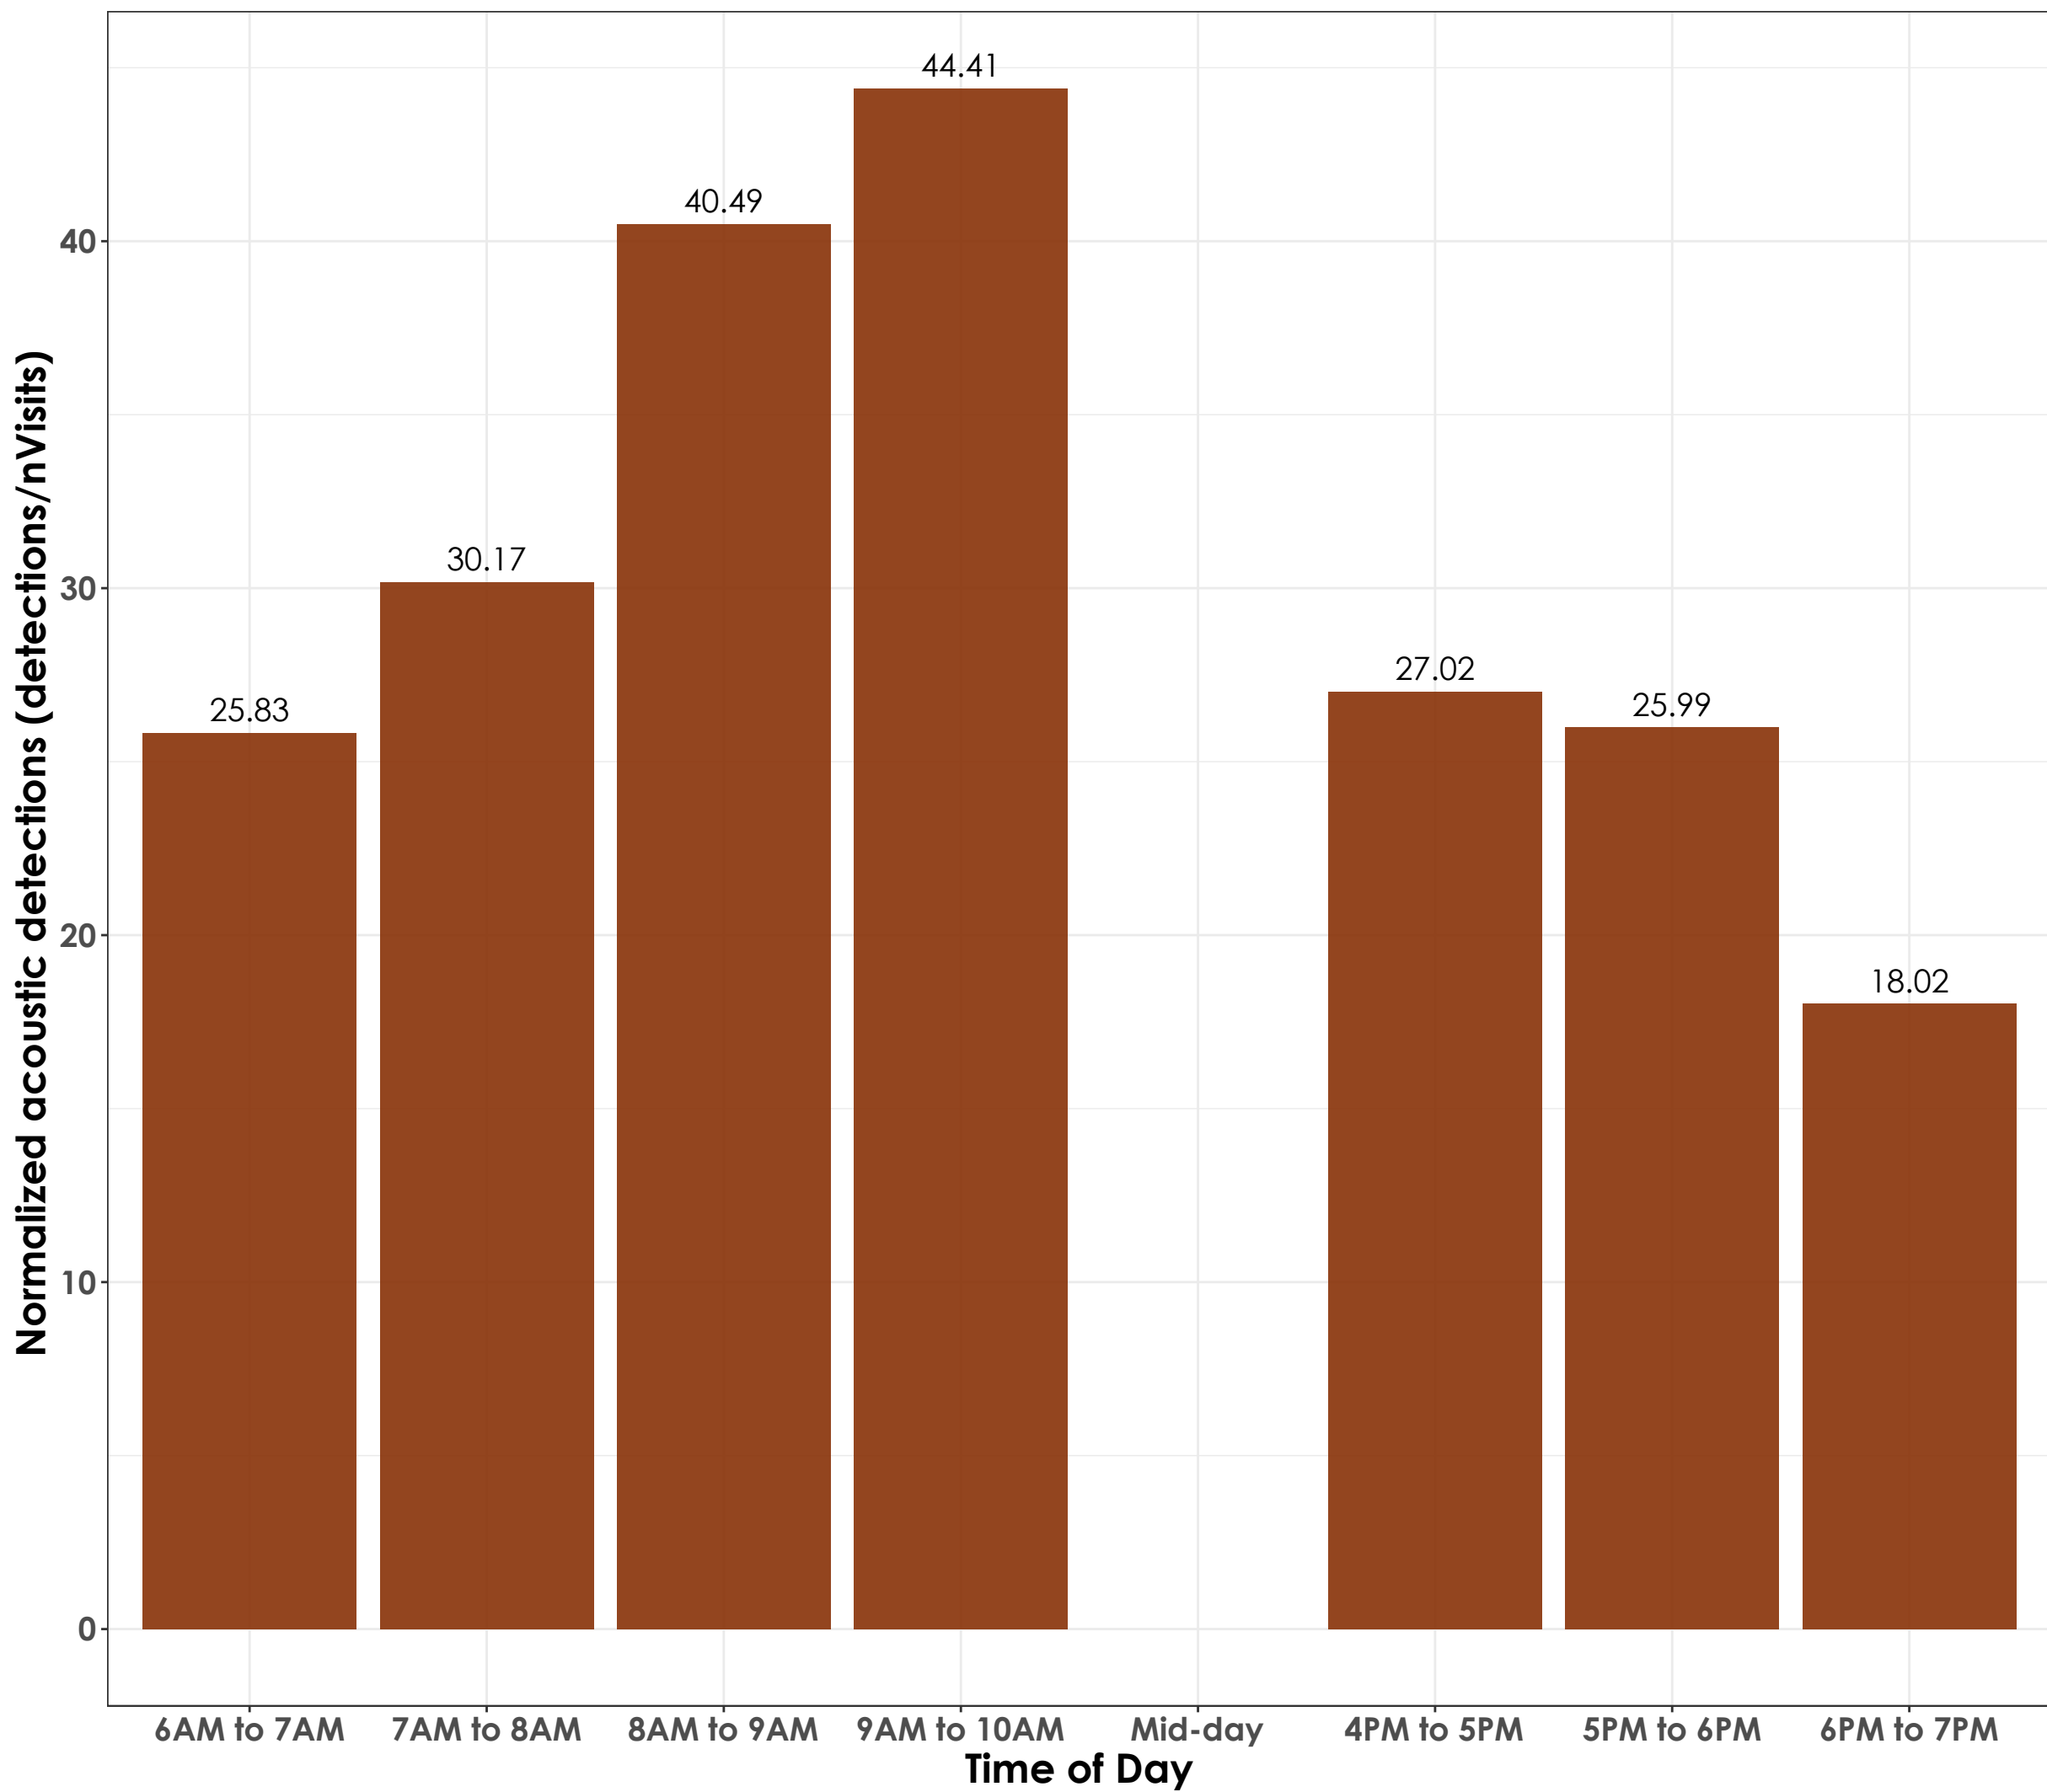

# Square-tailed Bulbul

*Each bar represents the normalized detections across dawn and dusk*

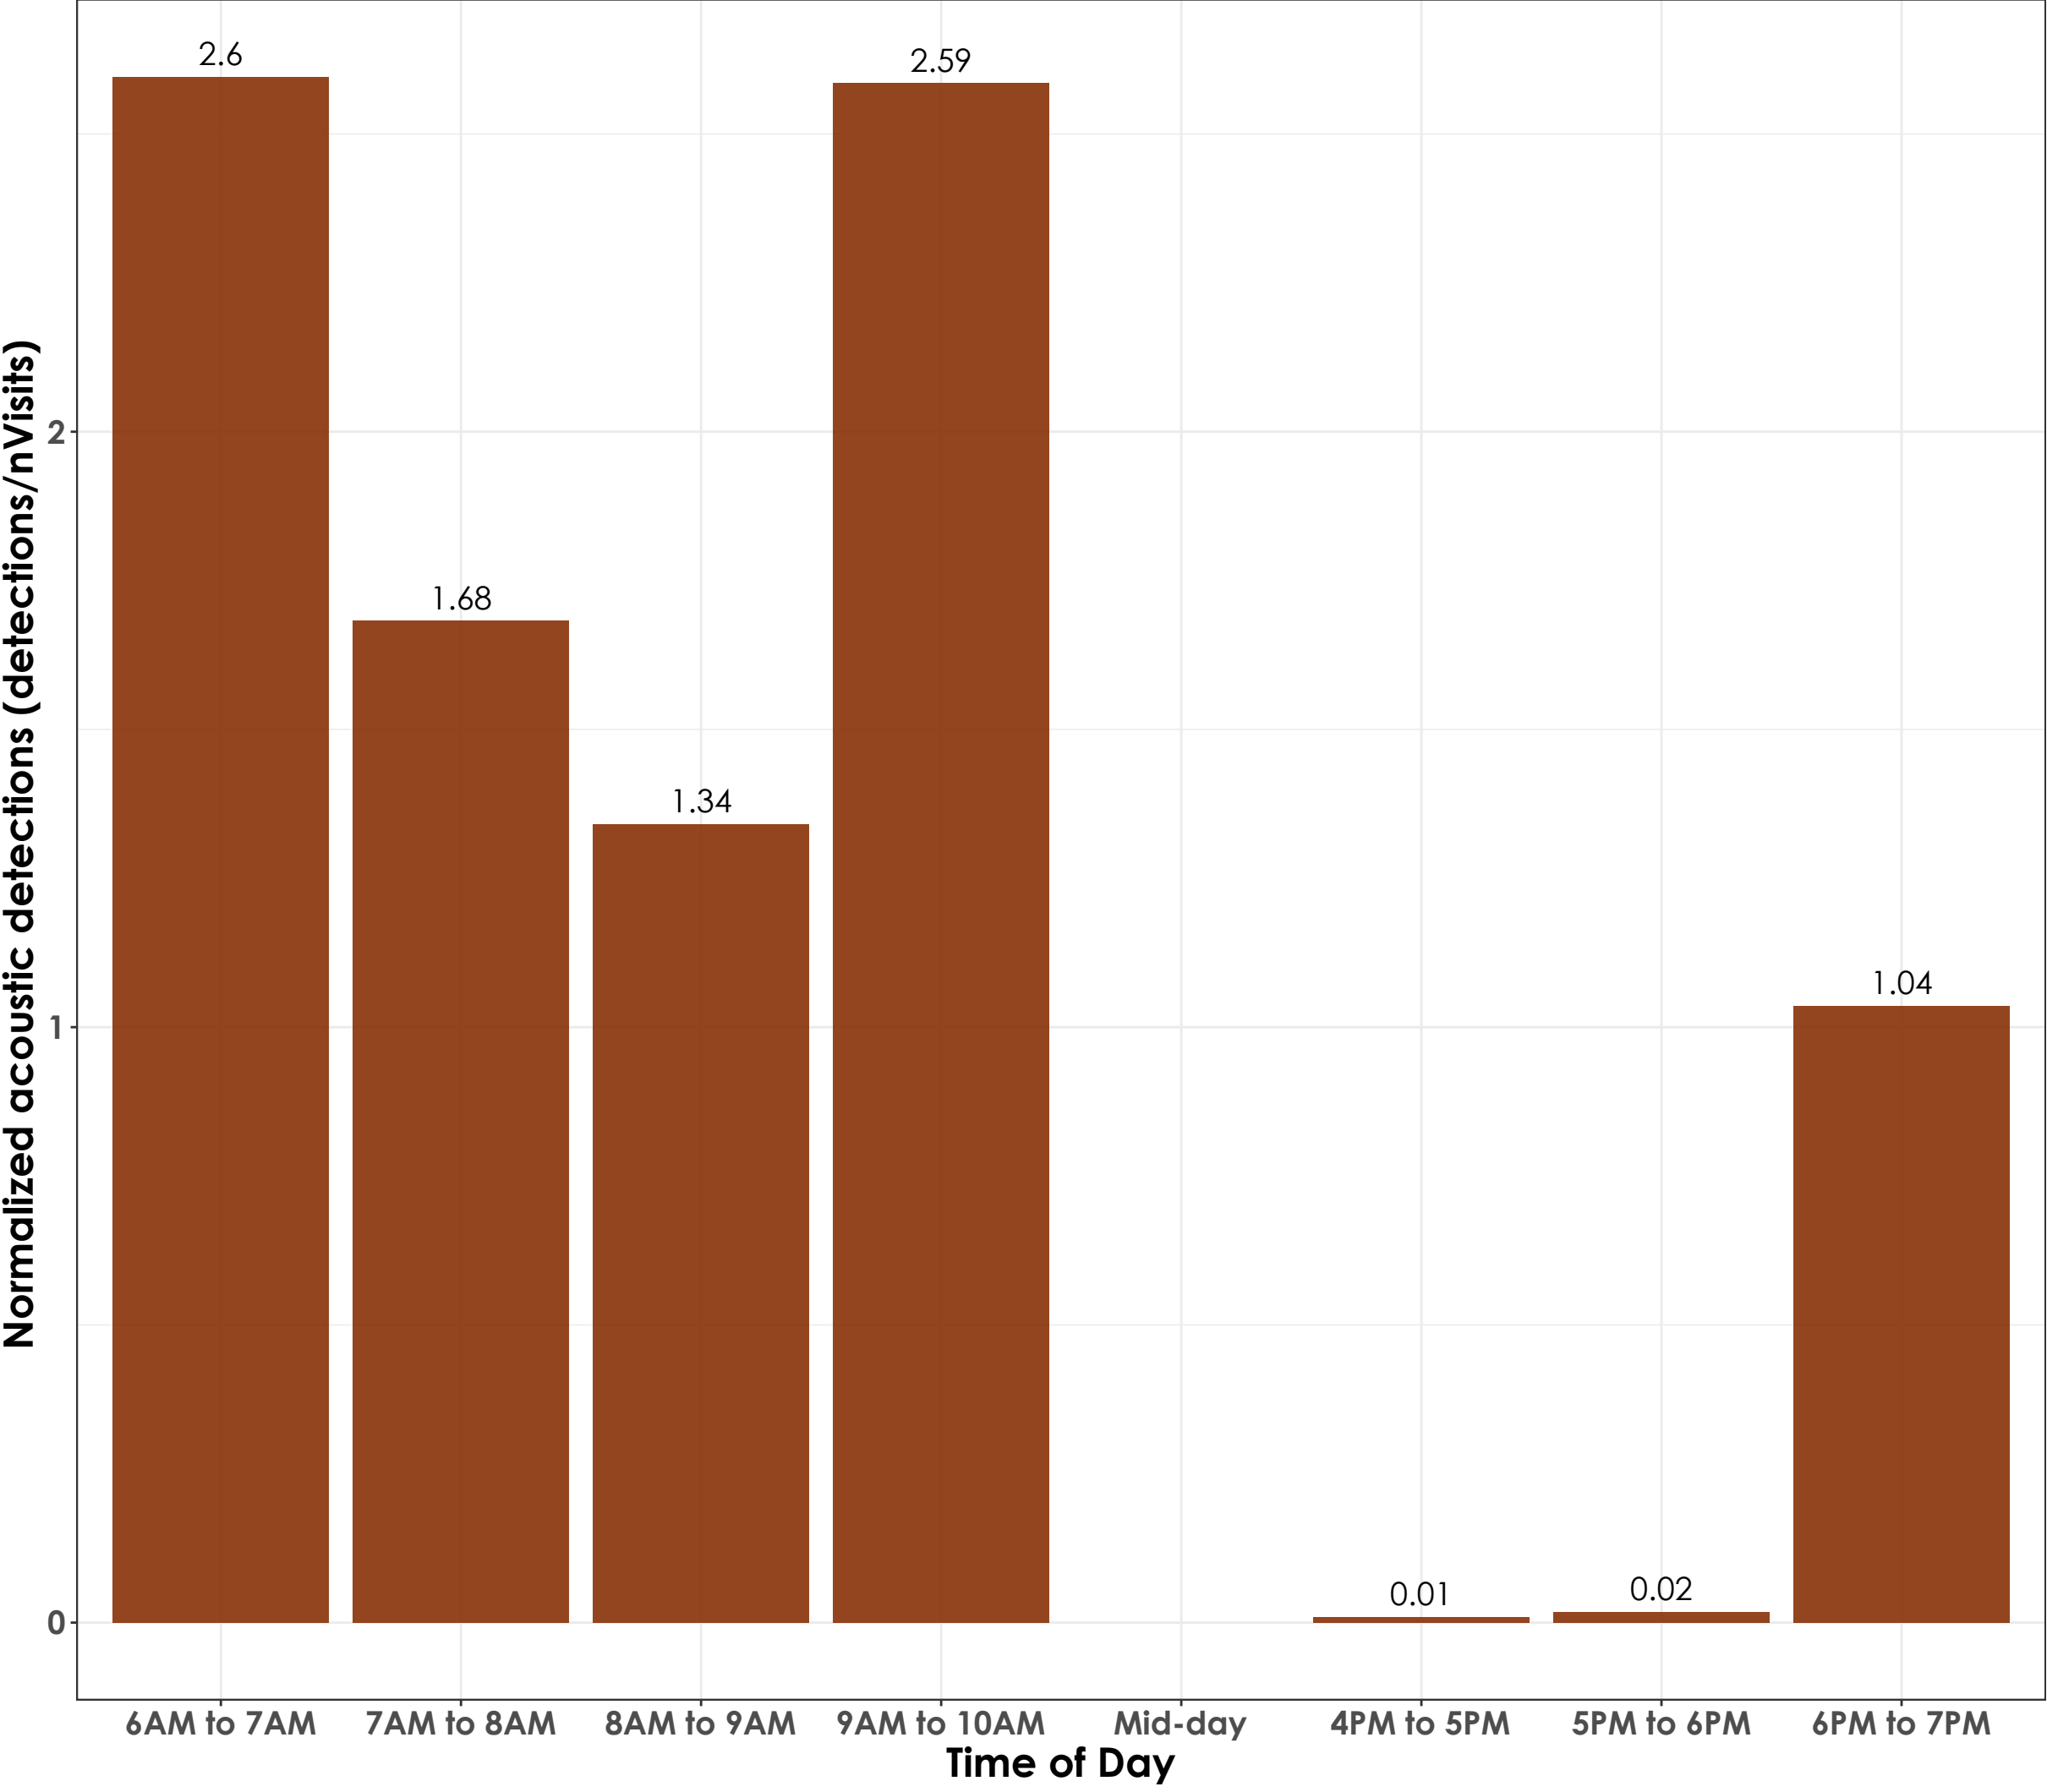

# White-cheeked Barbet

*Each bar represents the normalized detections across dawn and dusk*

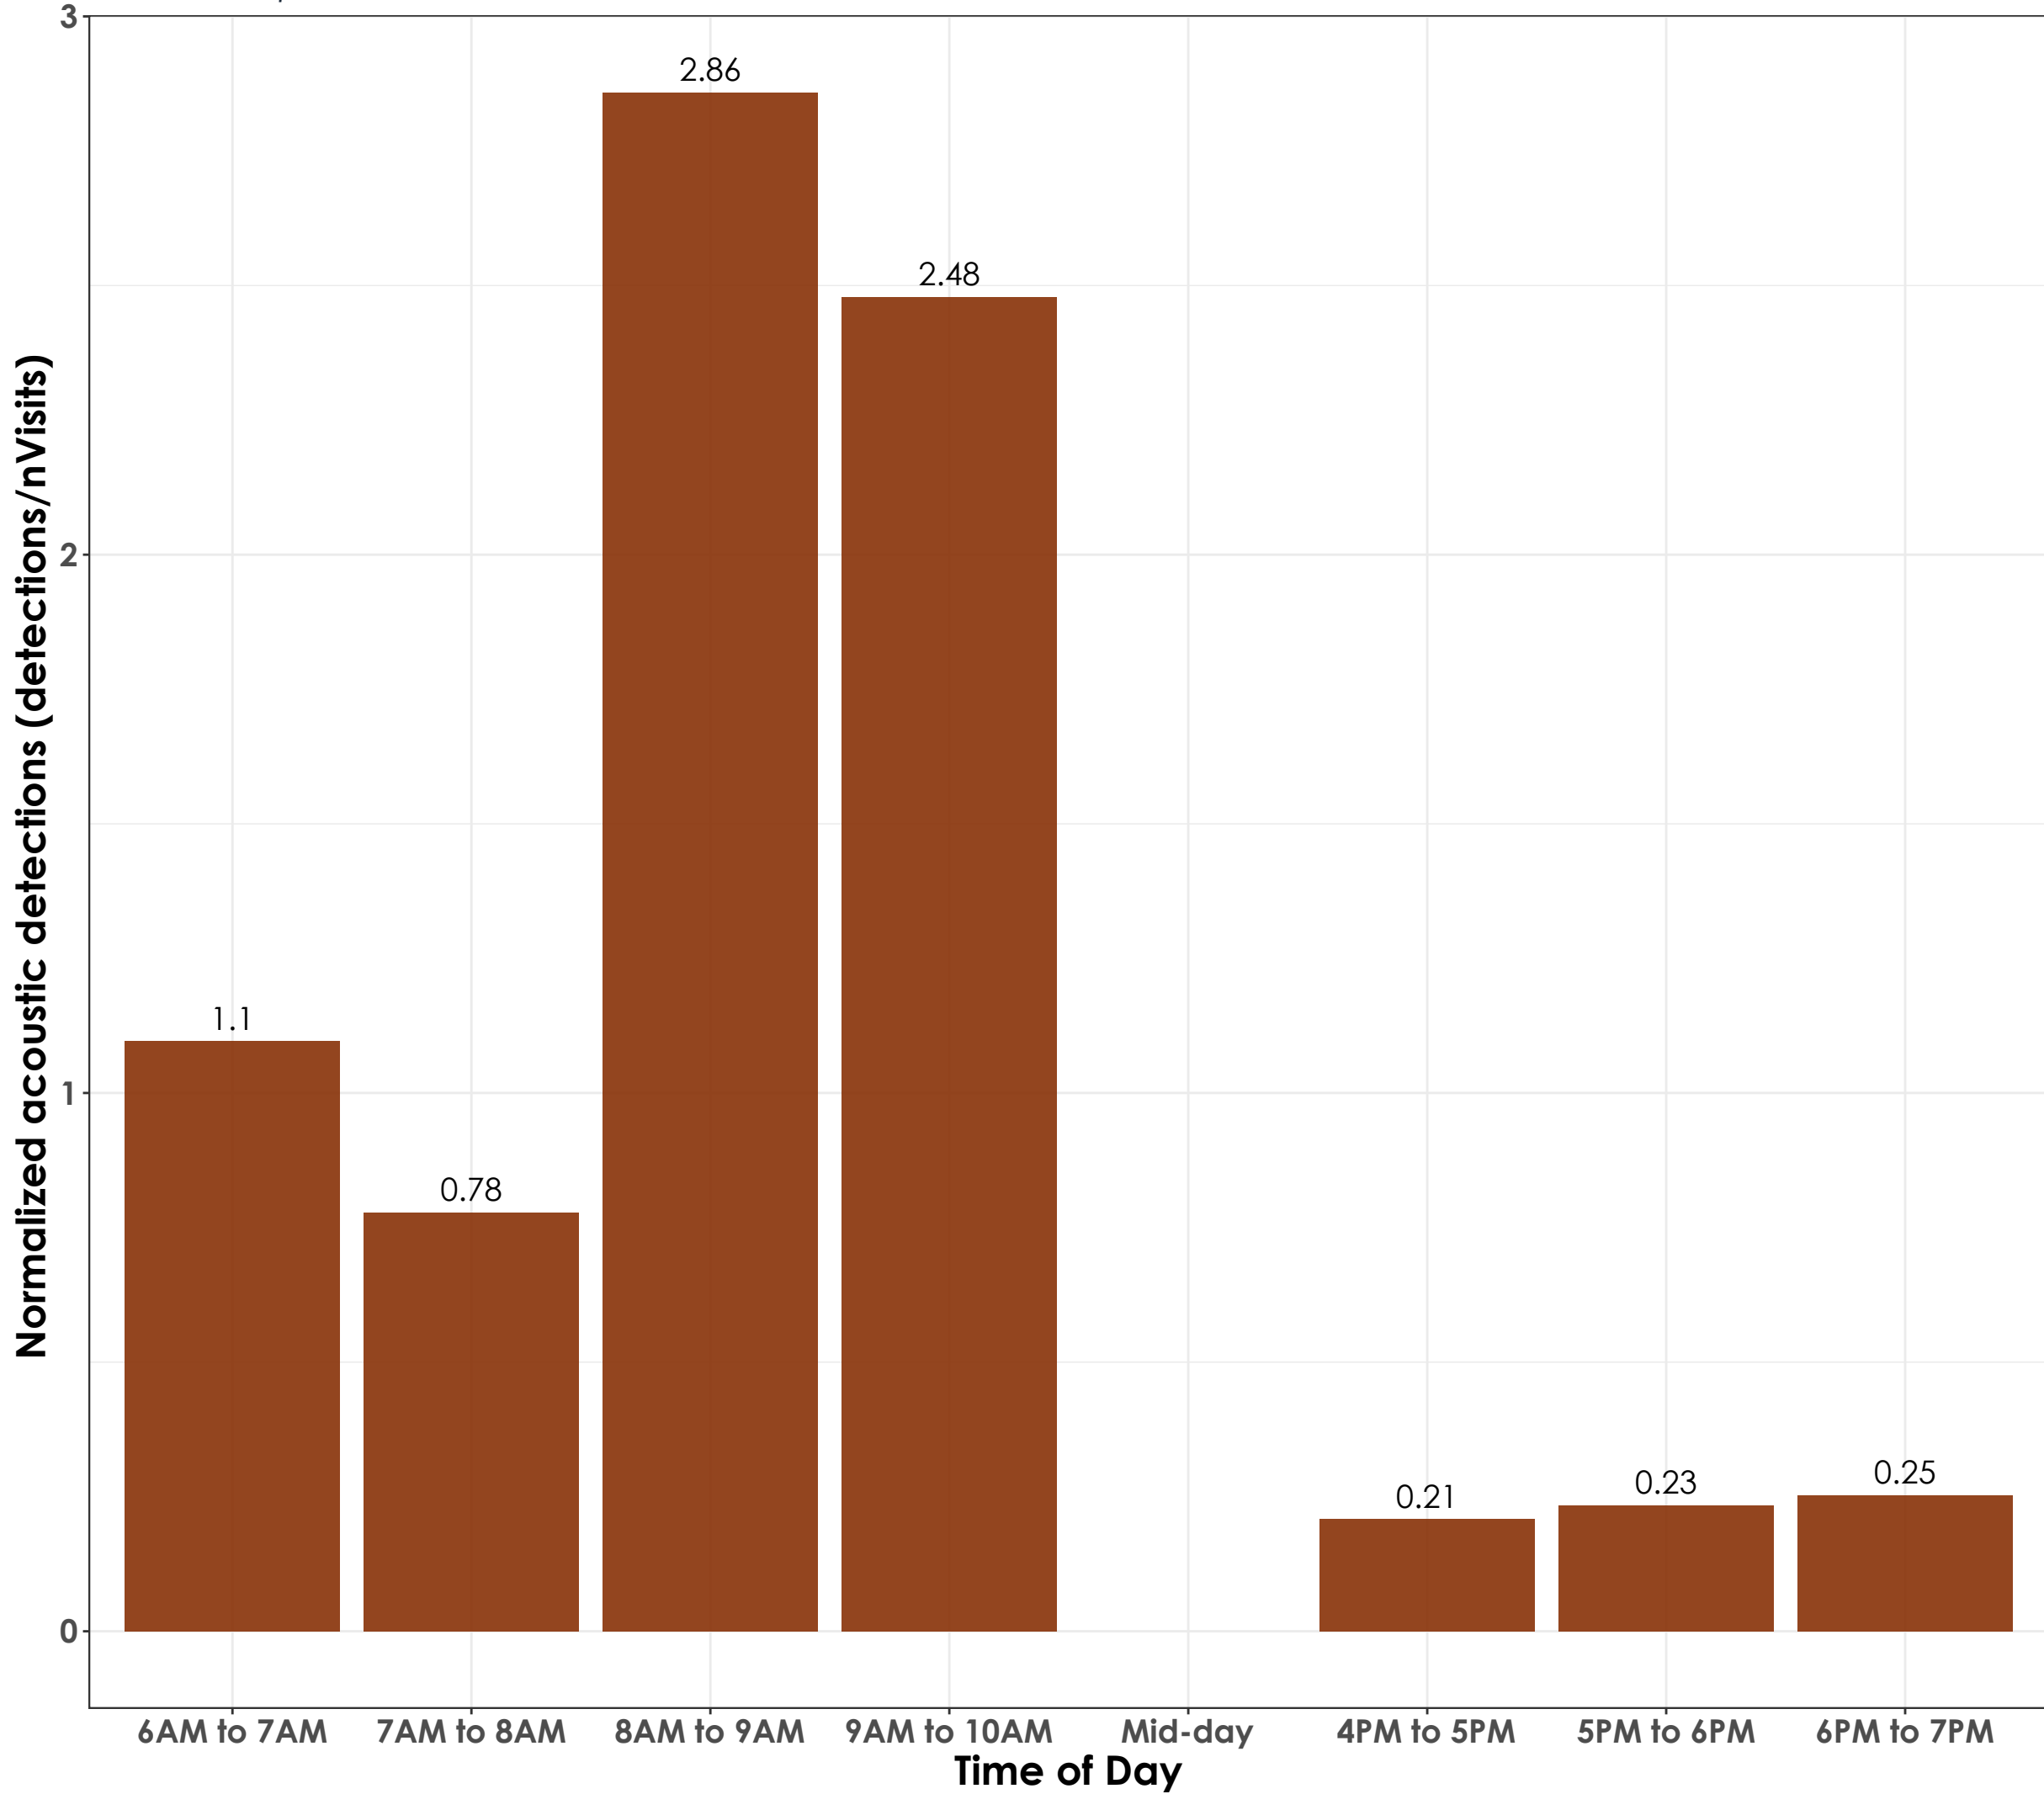

# Common lora

Each bar represents the normalized detections across dawn and dusk

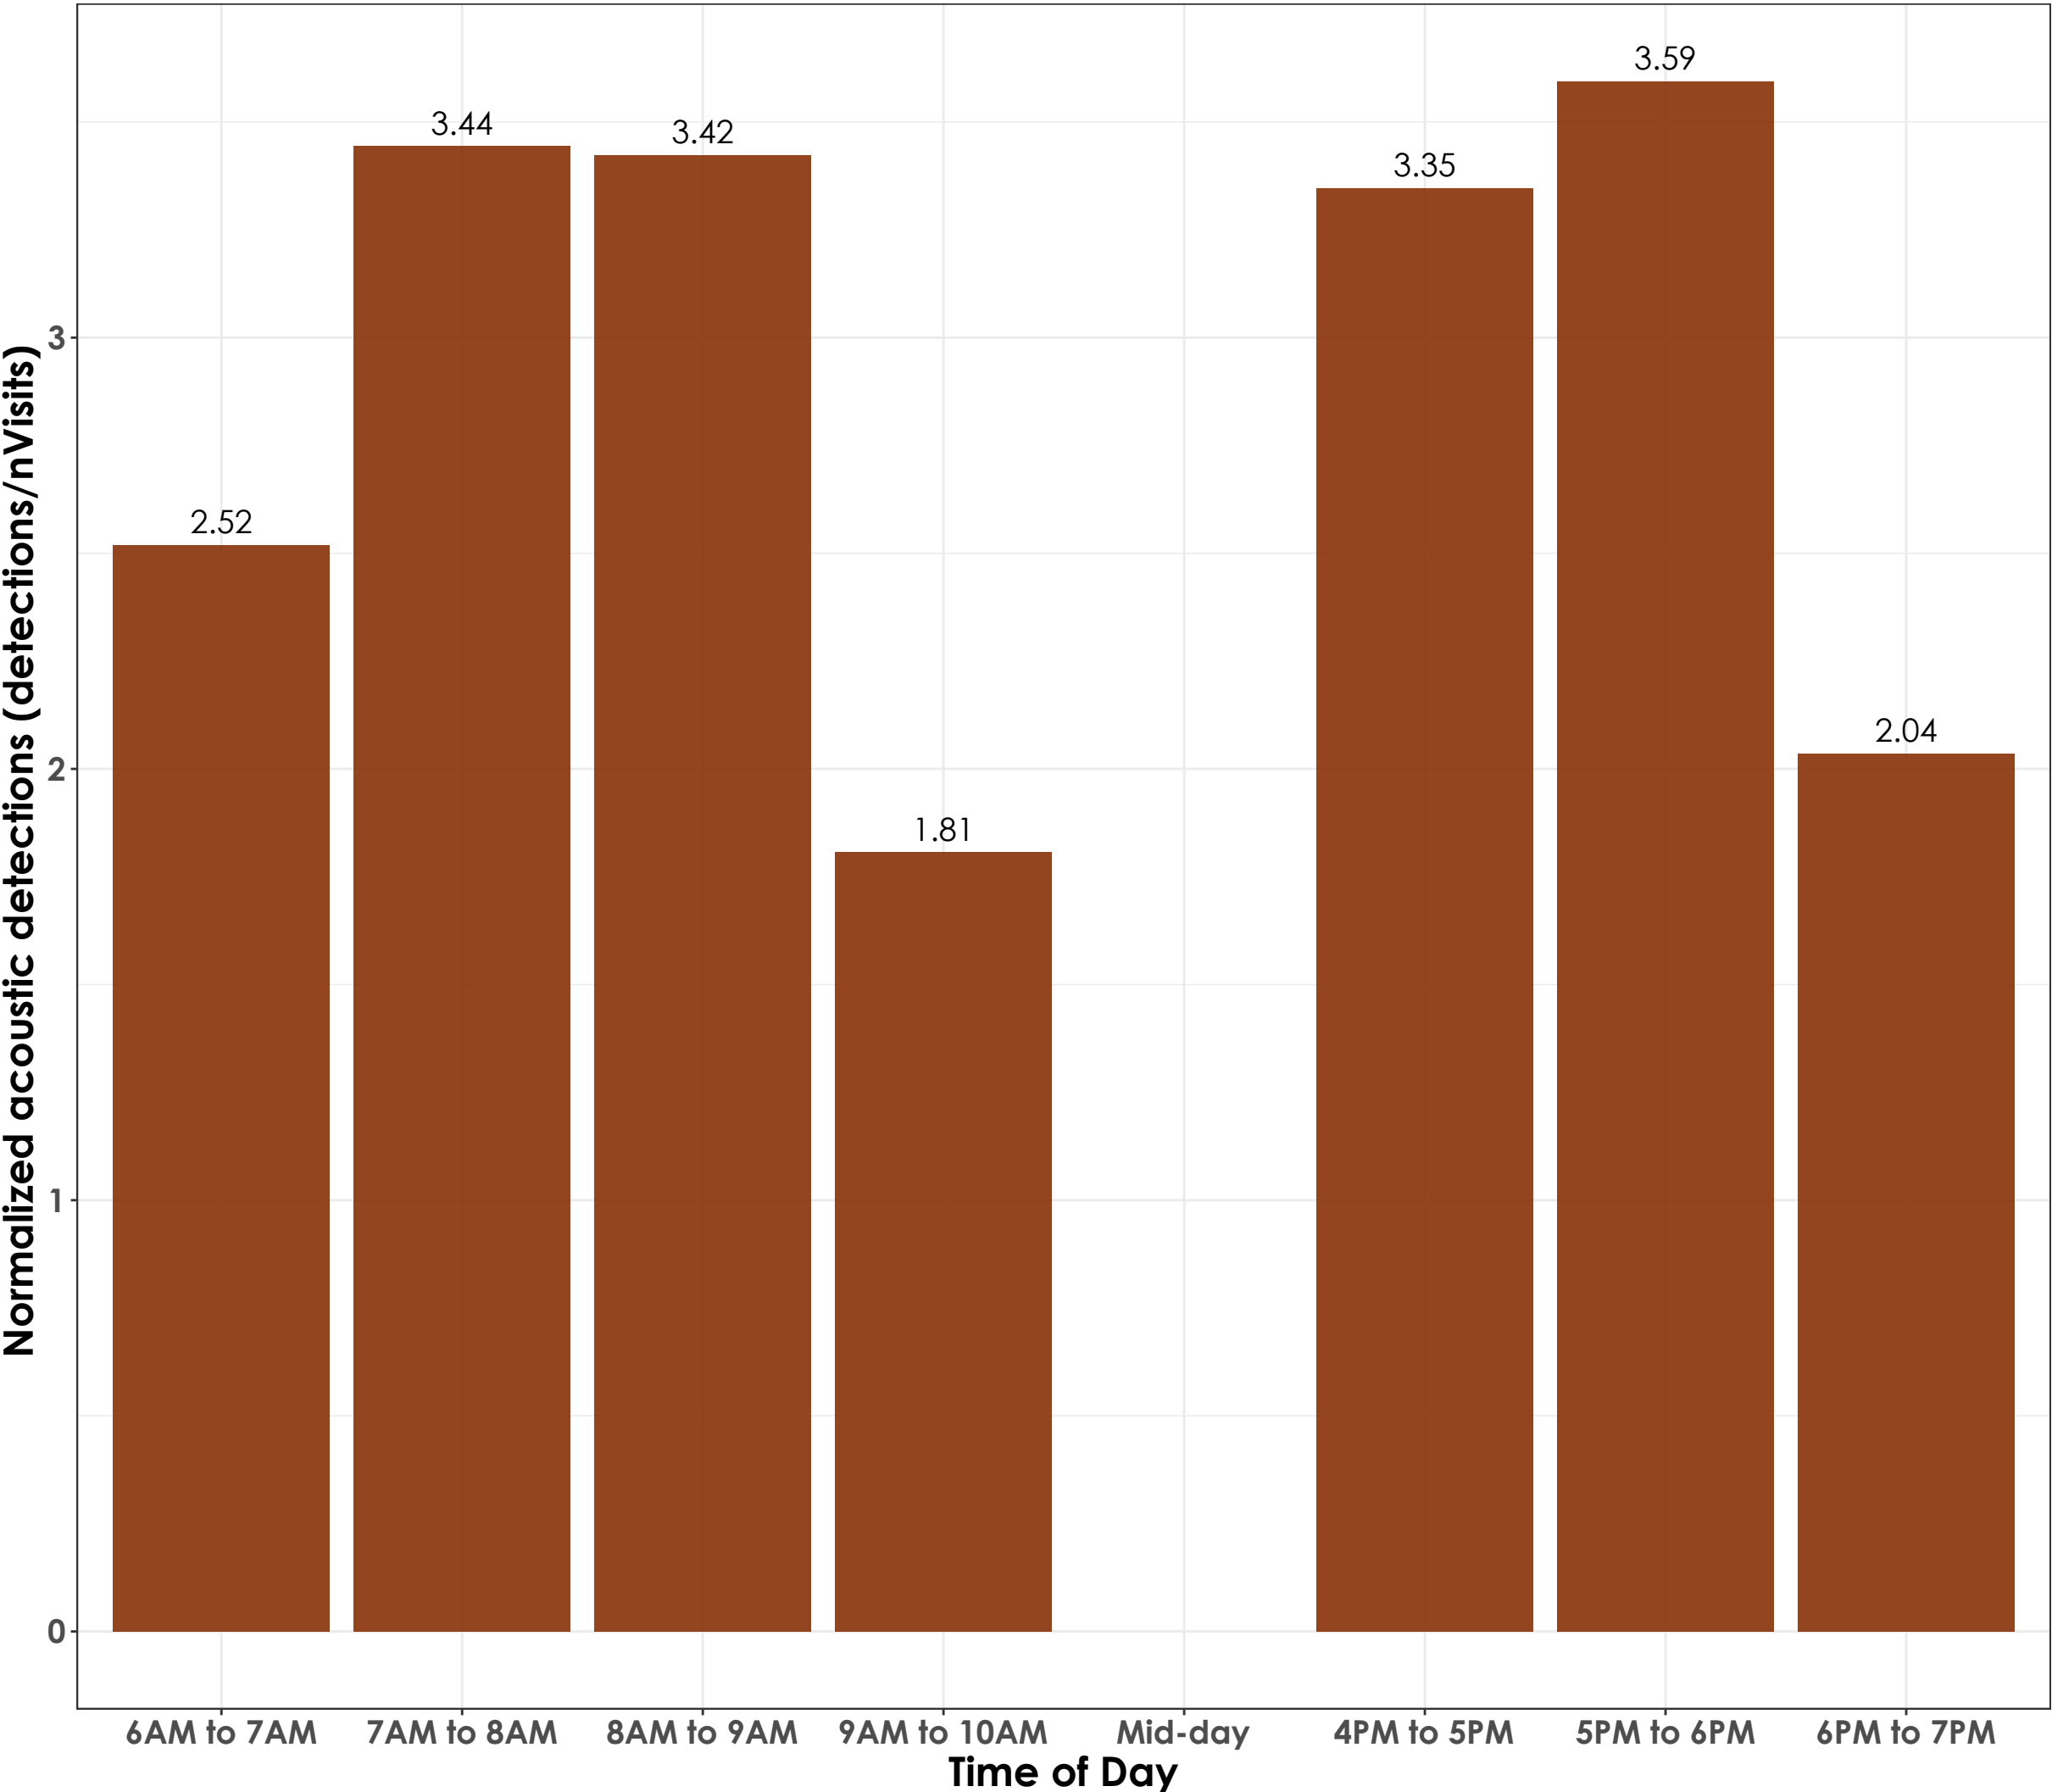

# Common Tailorbird

Each bar represents the normalized detections across dawn and dusk

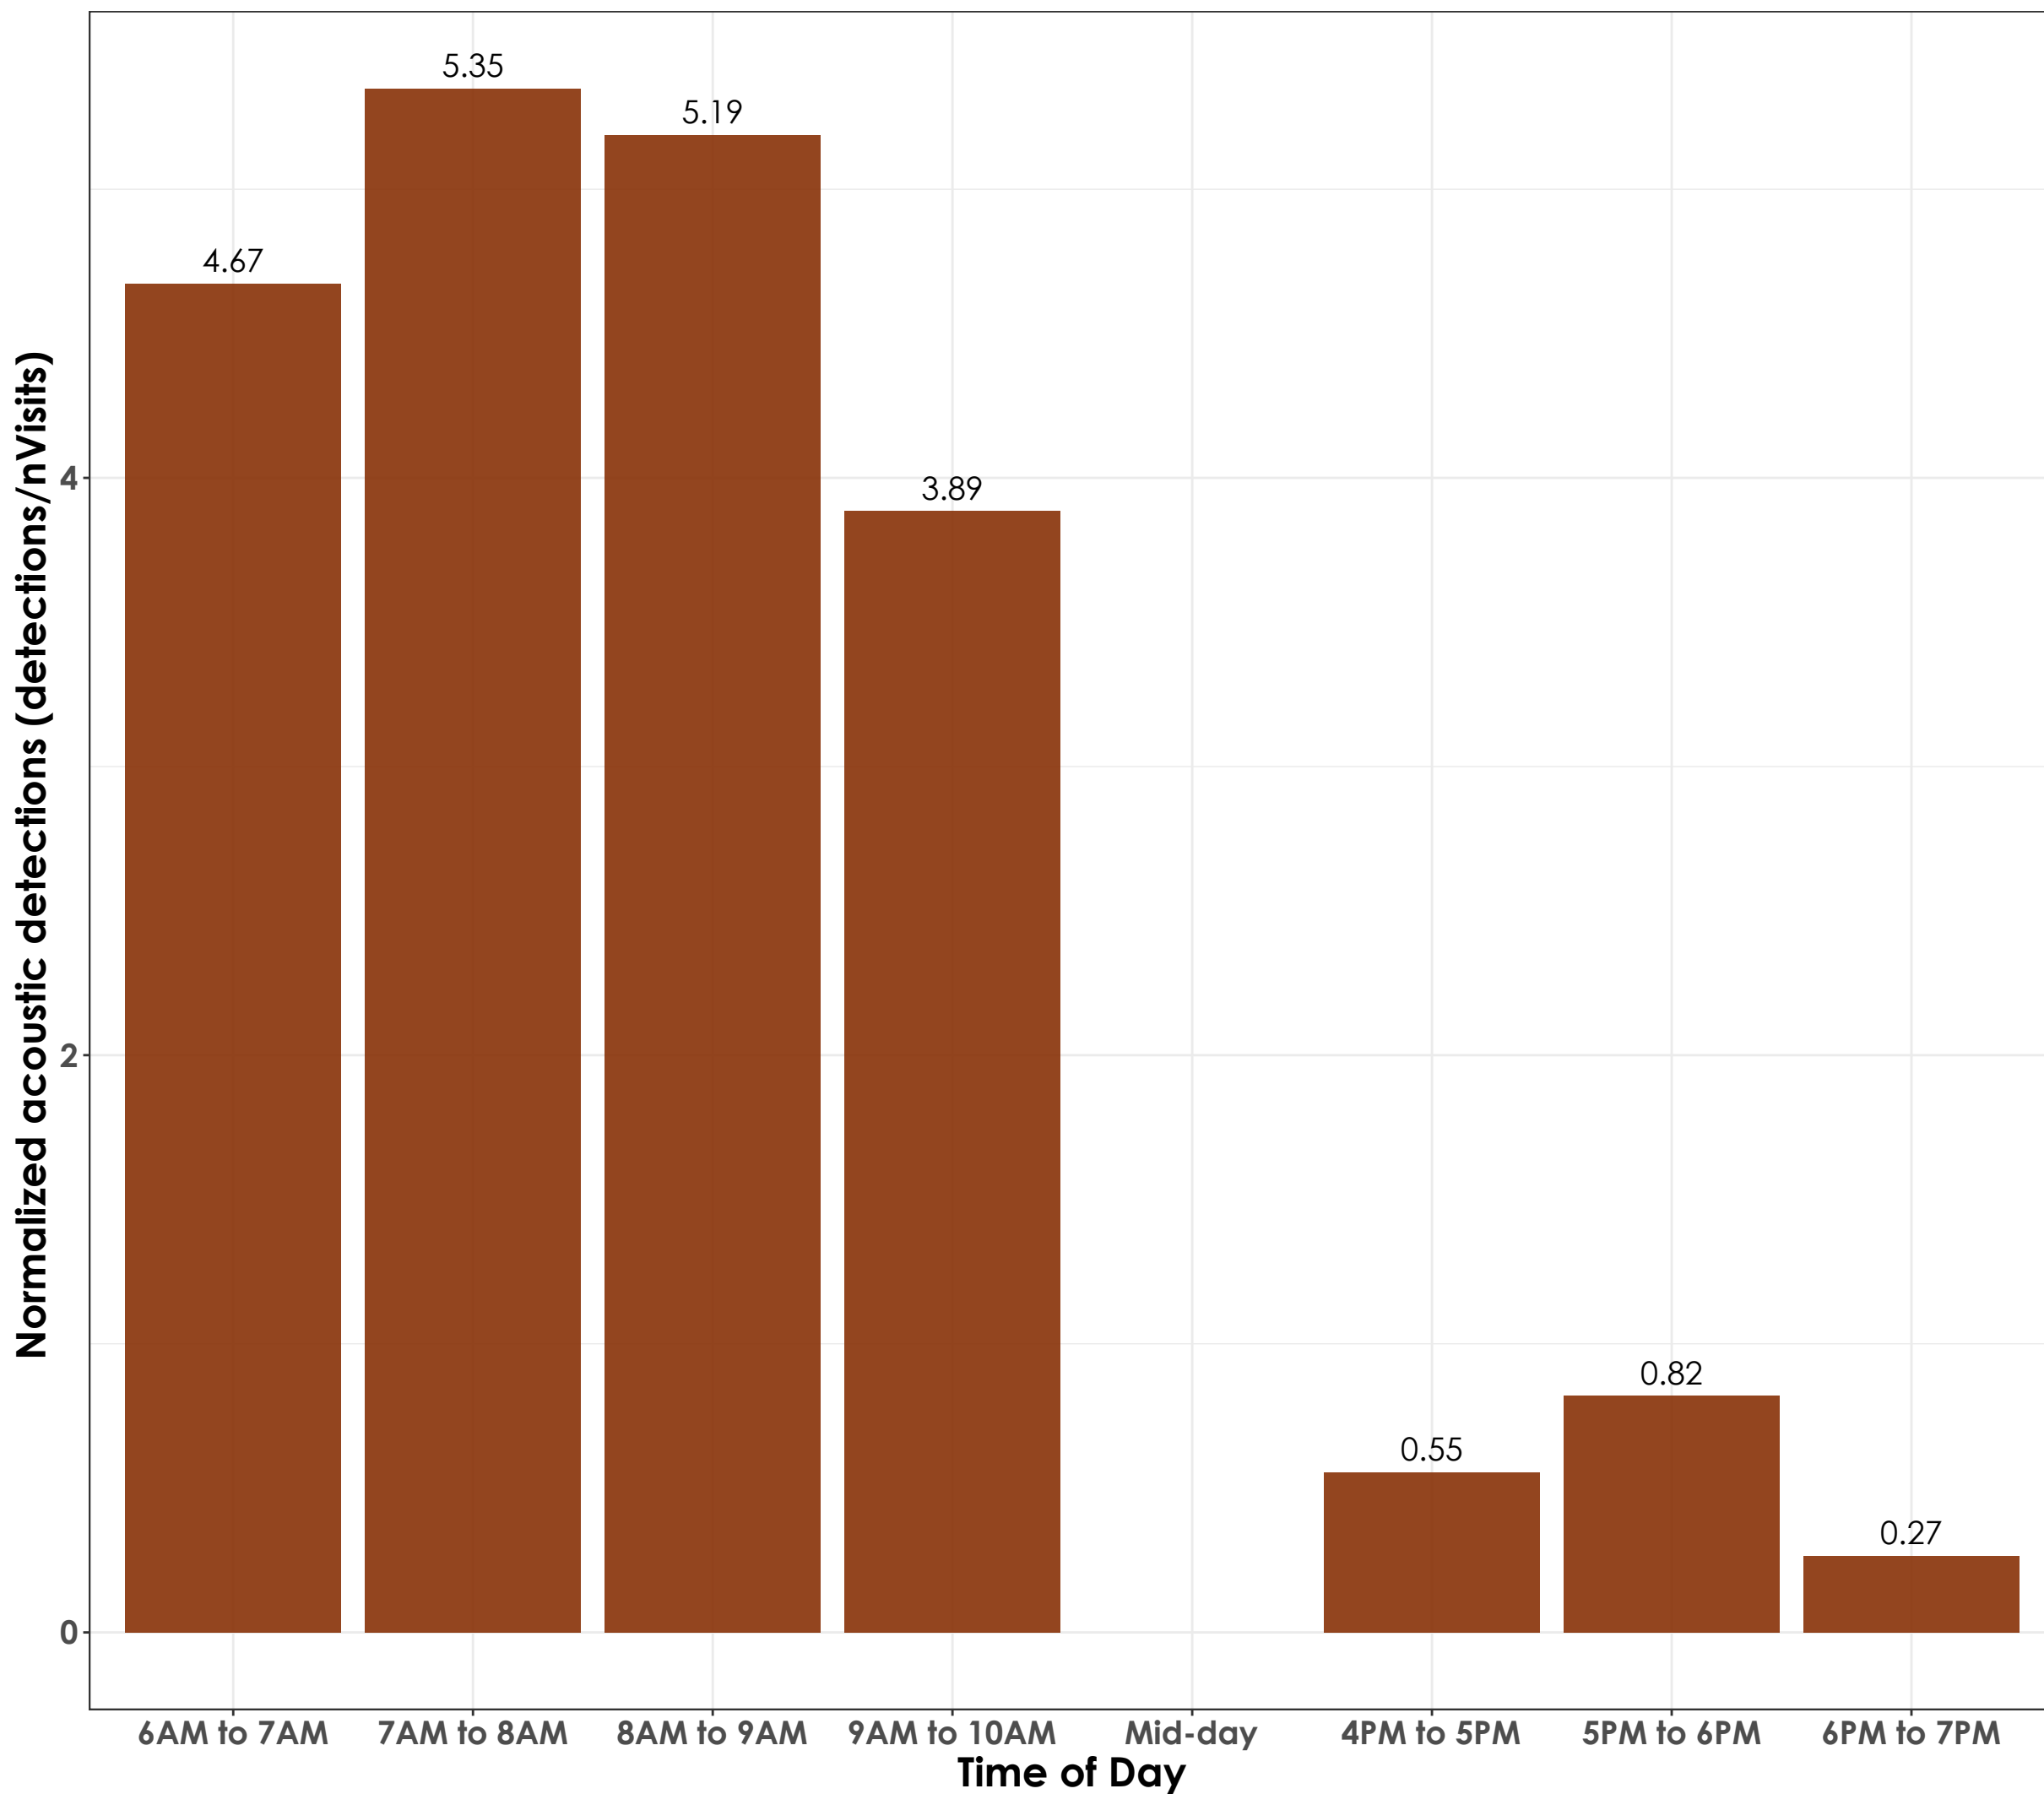

# Large-billed Crow

Each bar represents the normalized detections across dawn and dusk

# Velvet-fronted Nuthatch

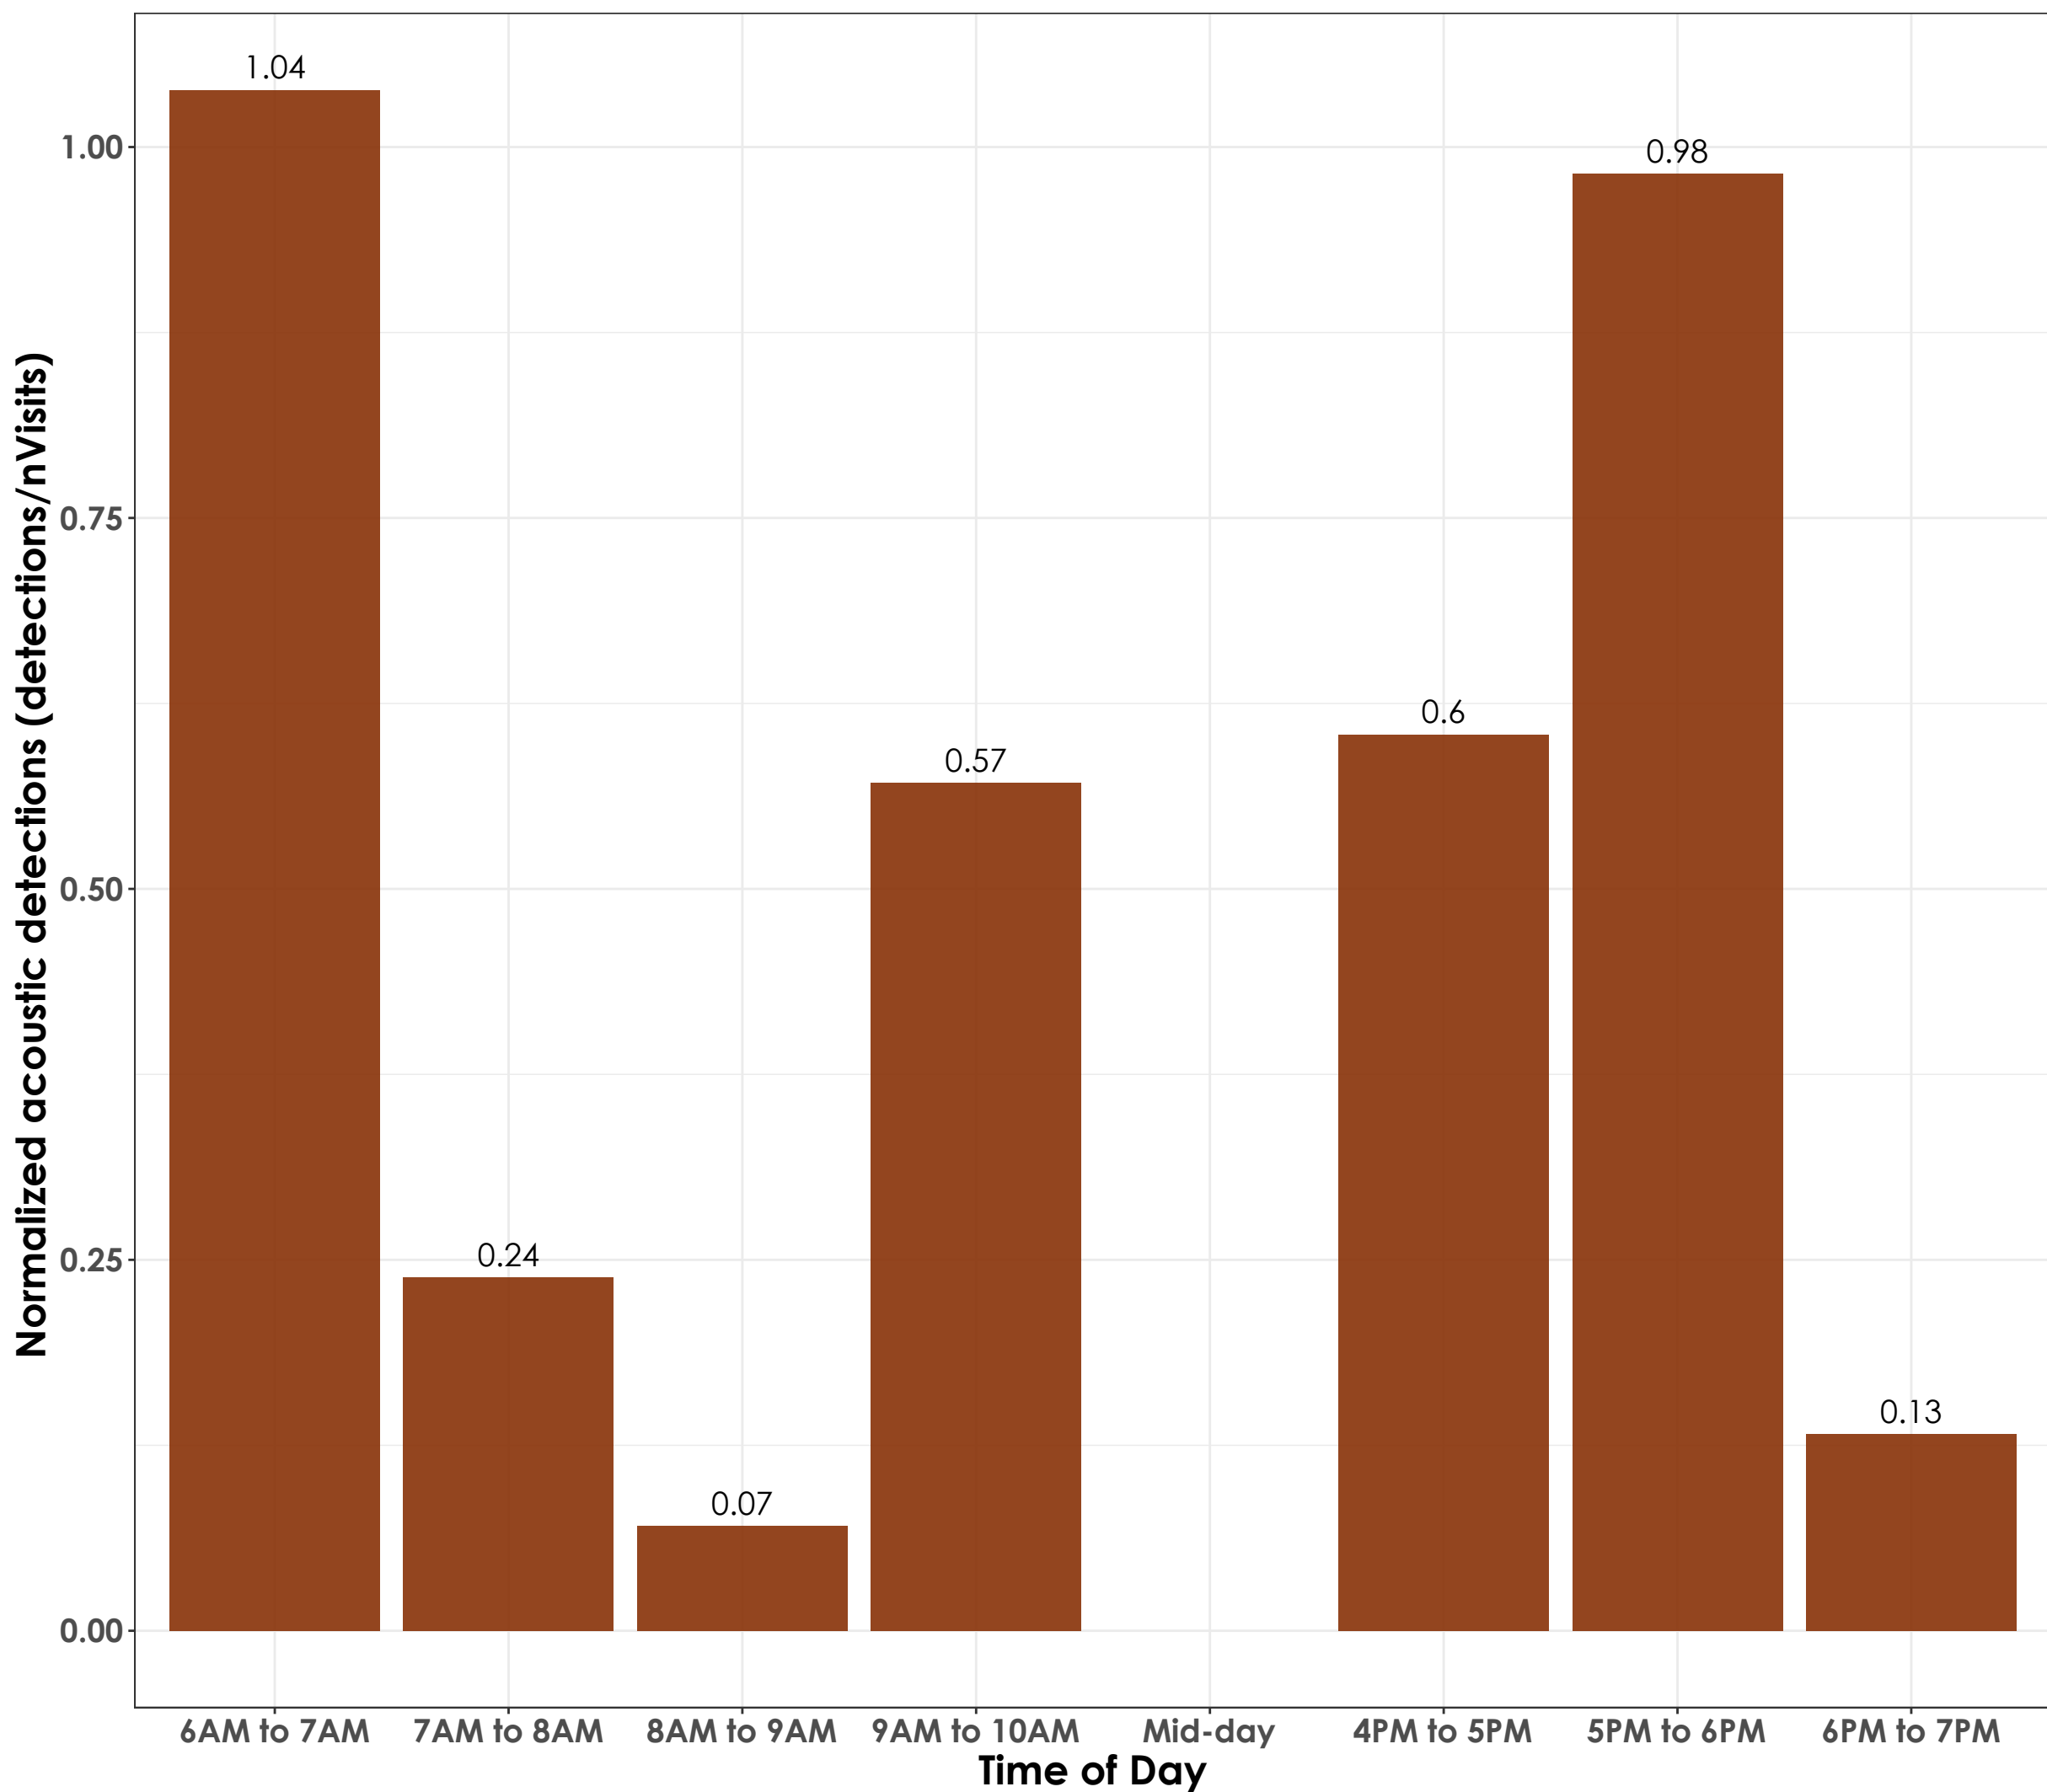

*Each bar represents the normalized detections across dawn and dusk*

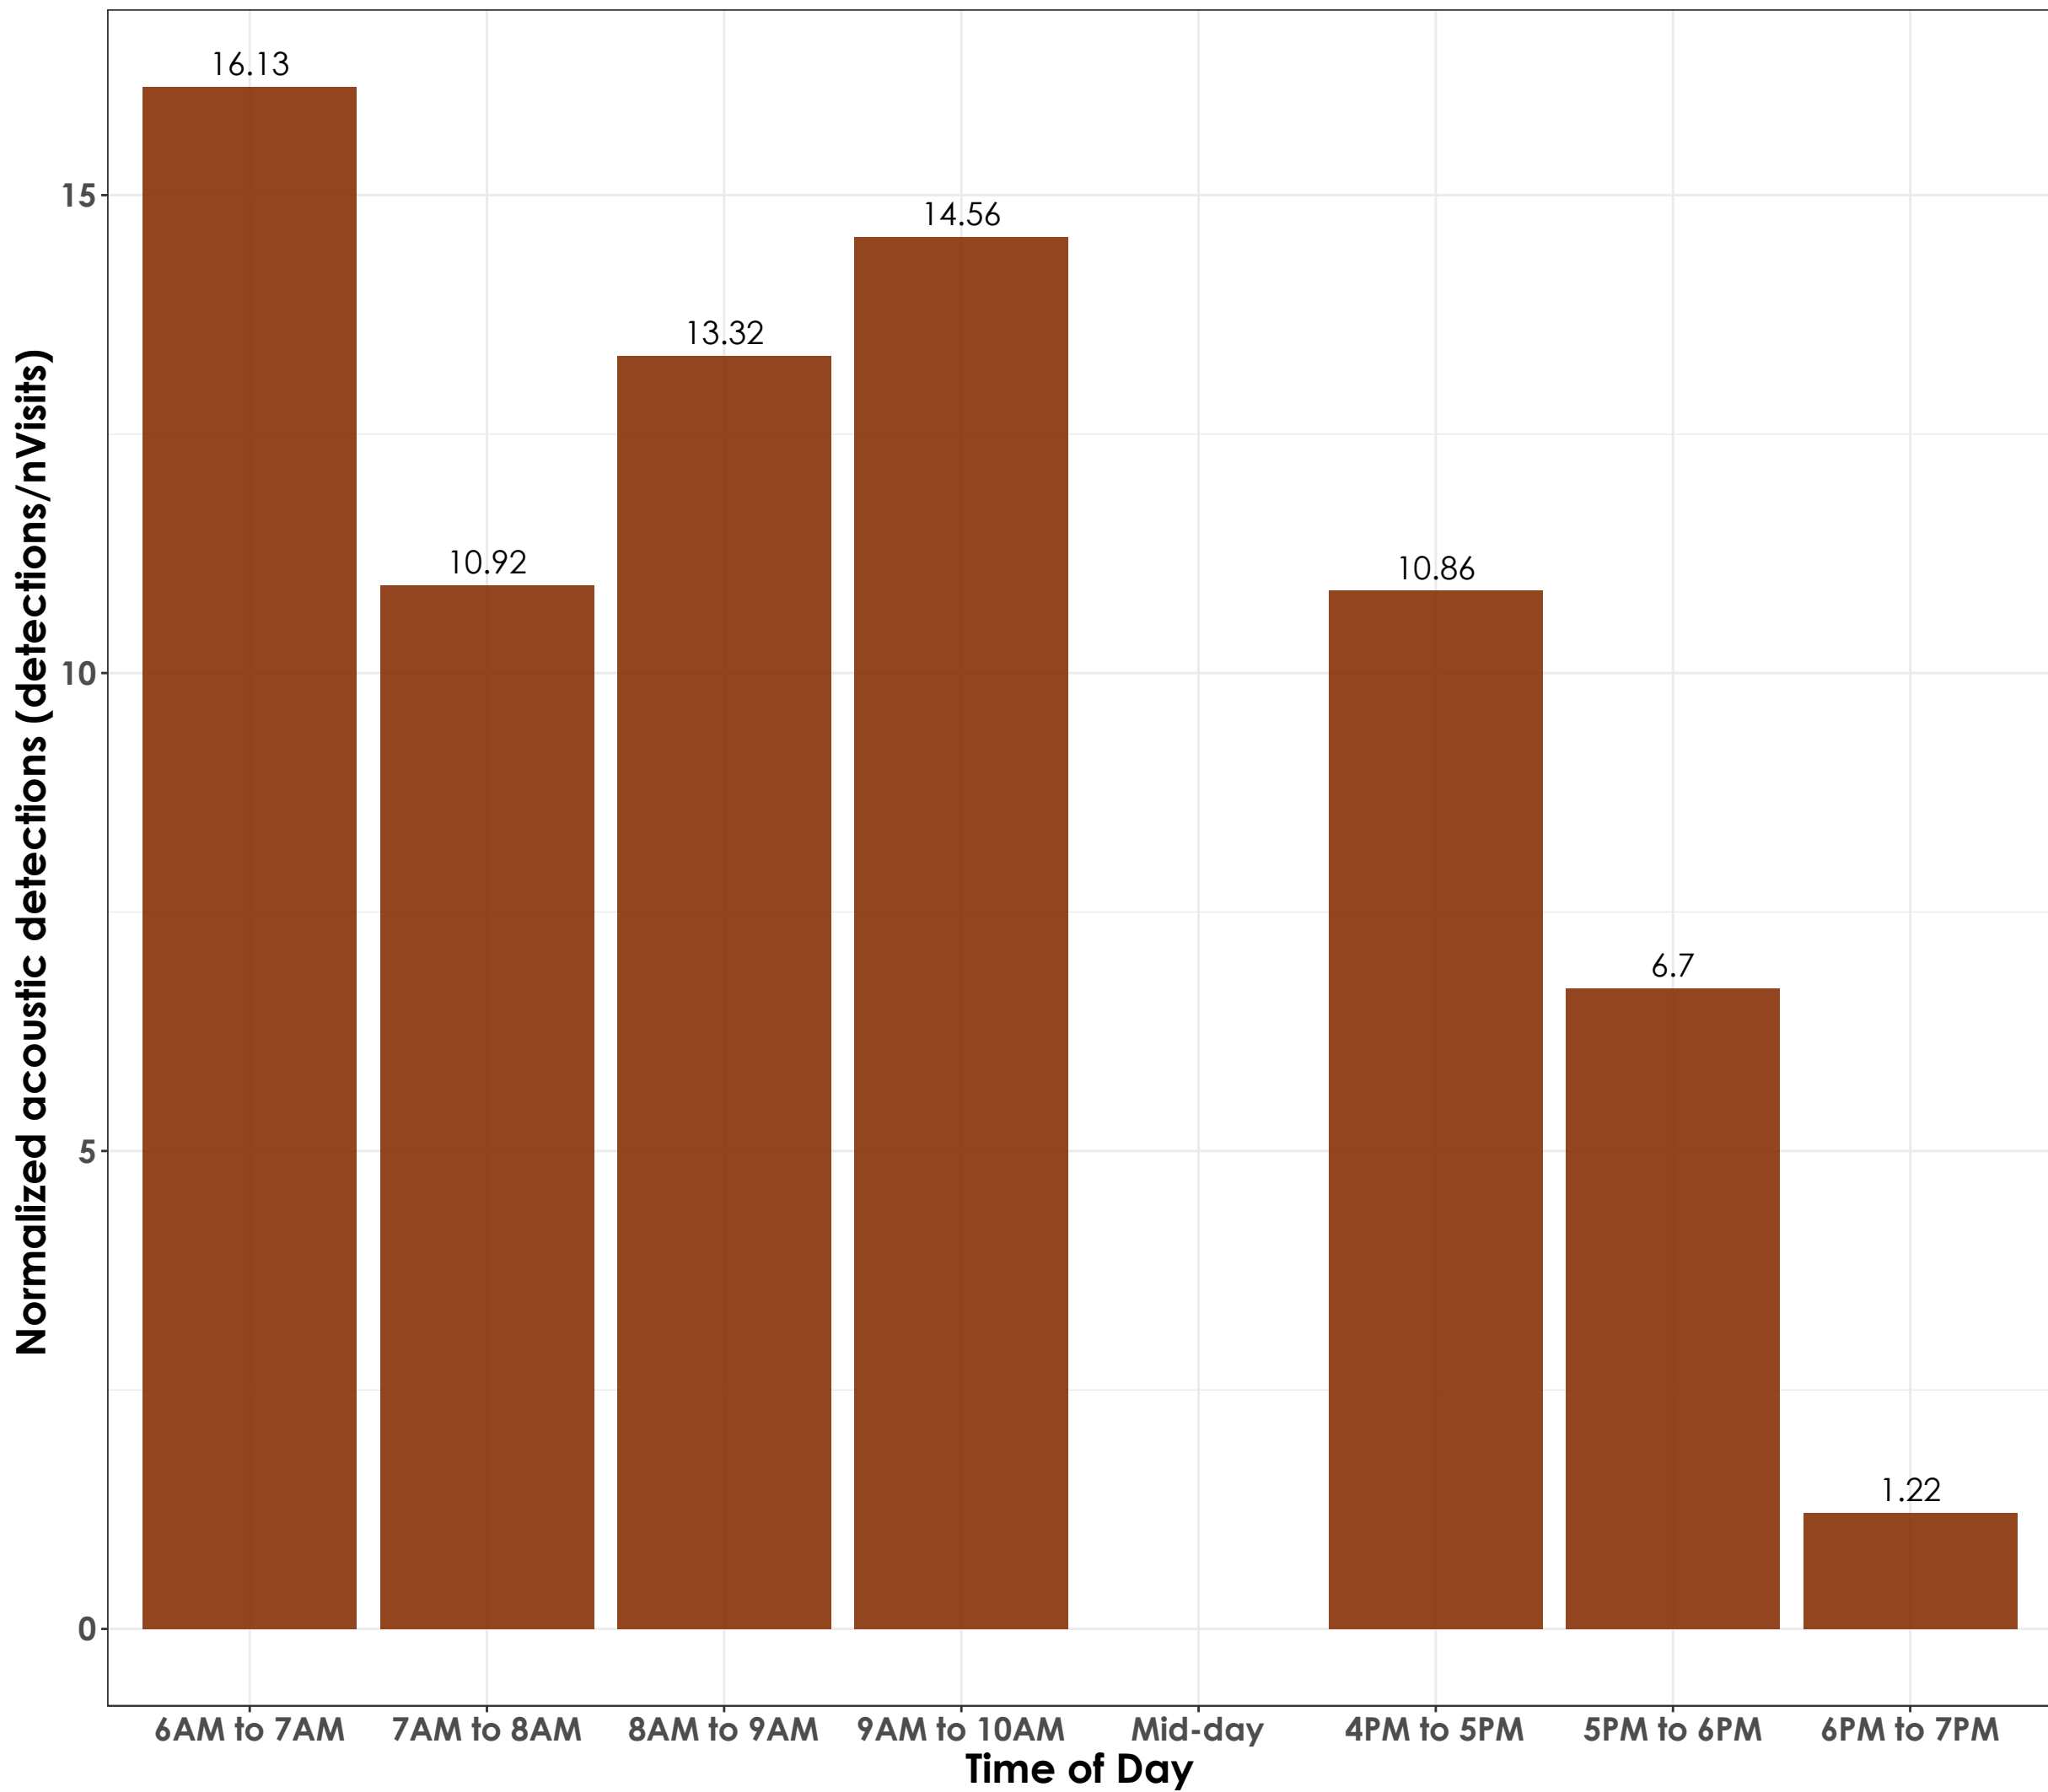

# White-bellied Treepie

*Each bar represents the normalized detections across dawn and dusk*

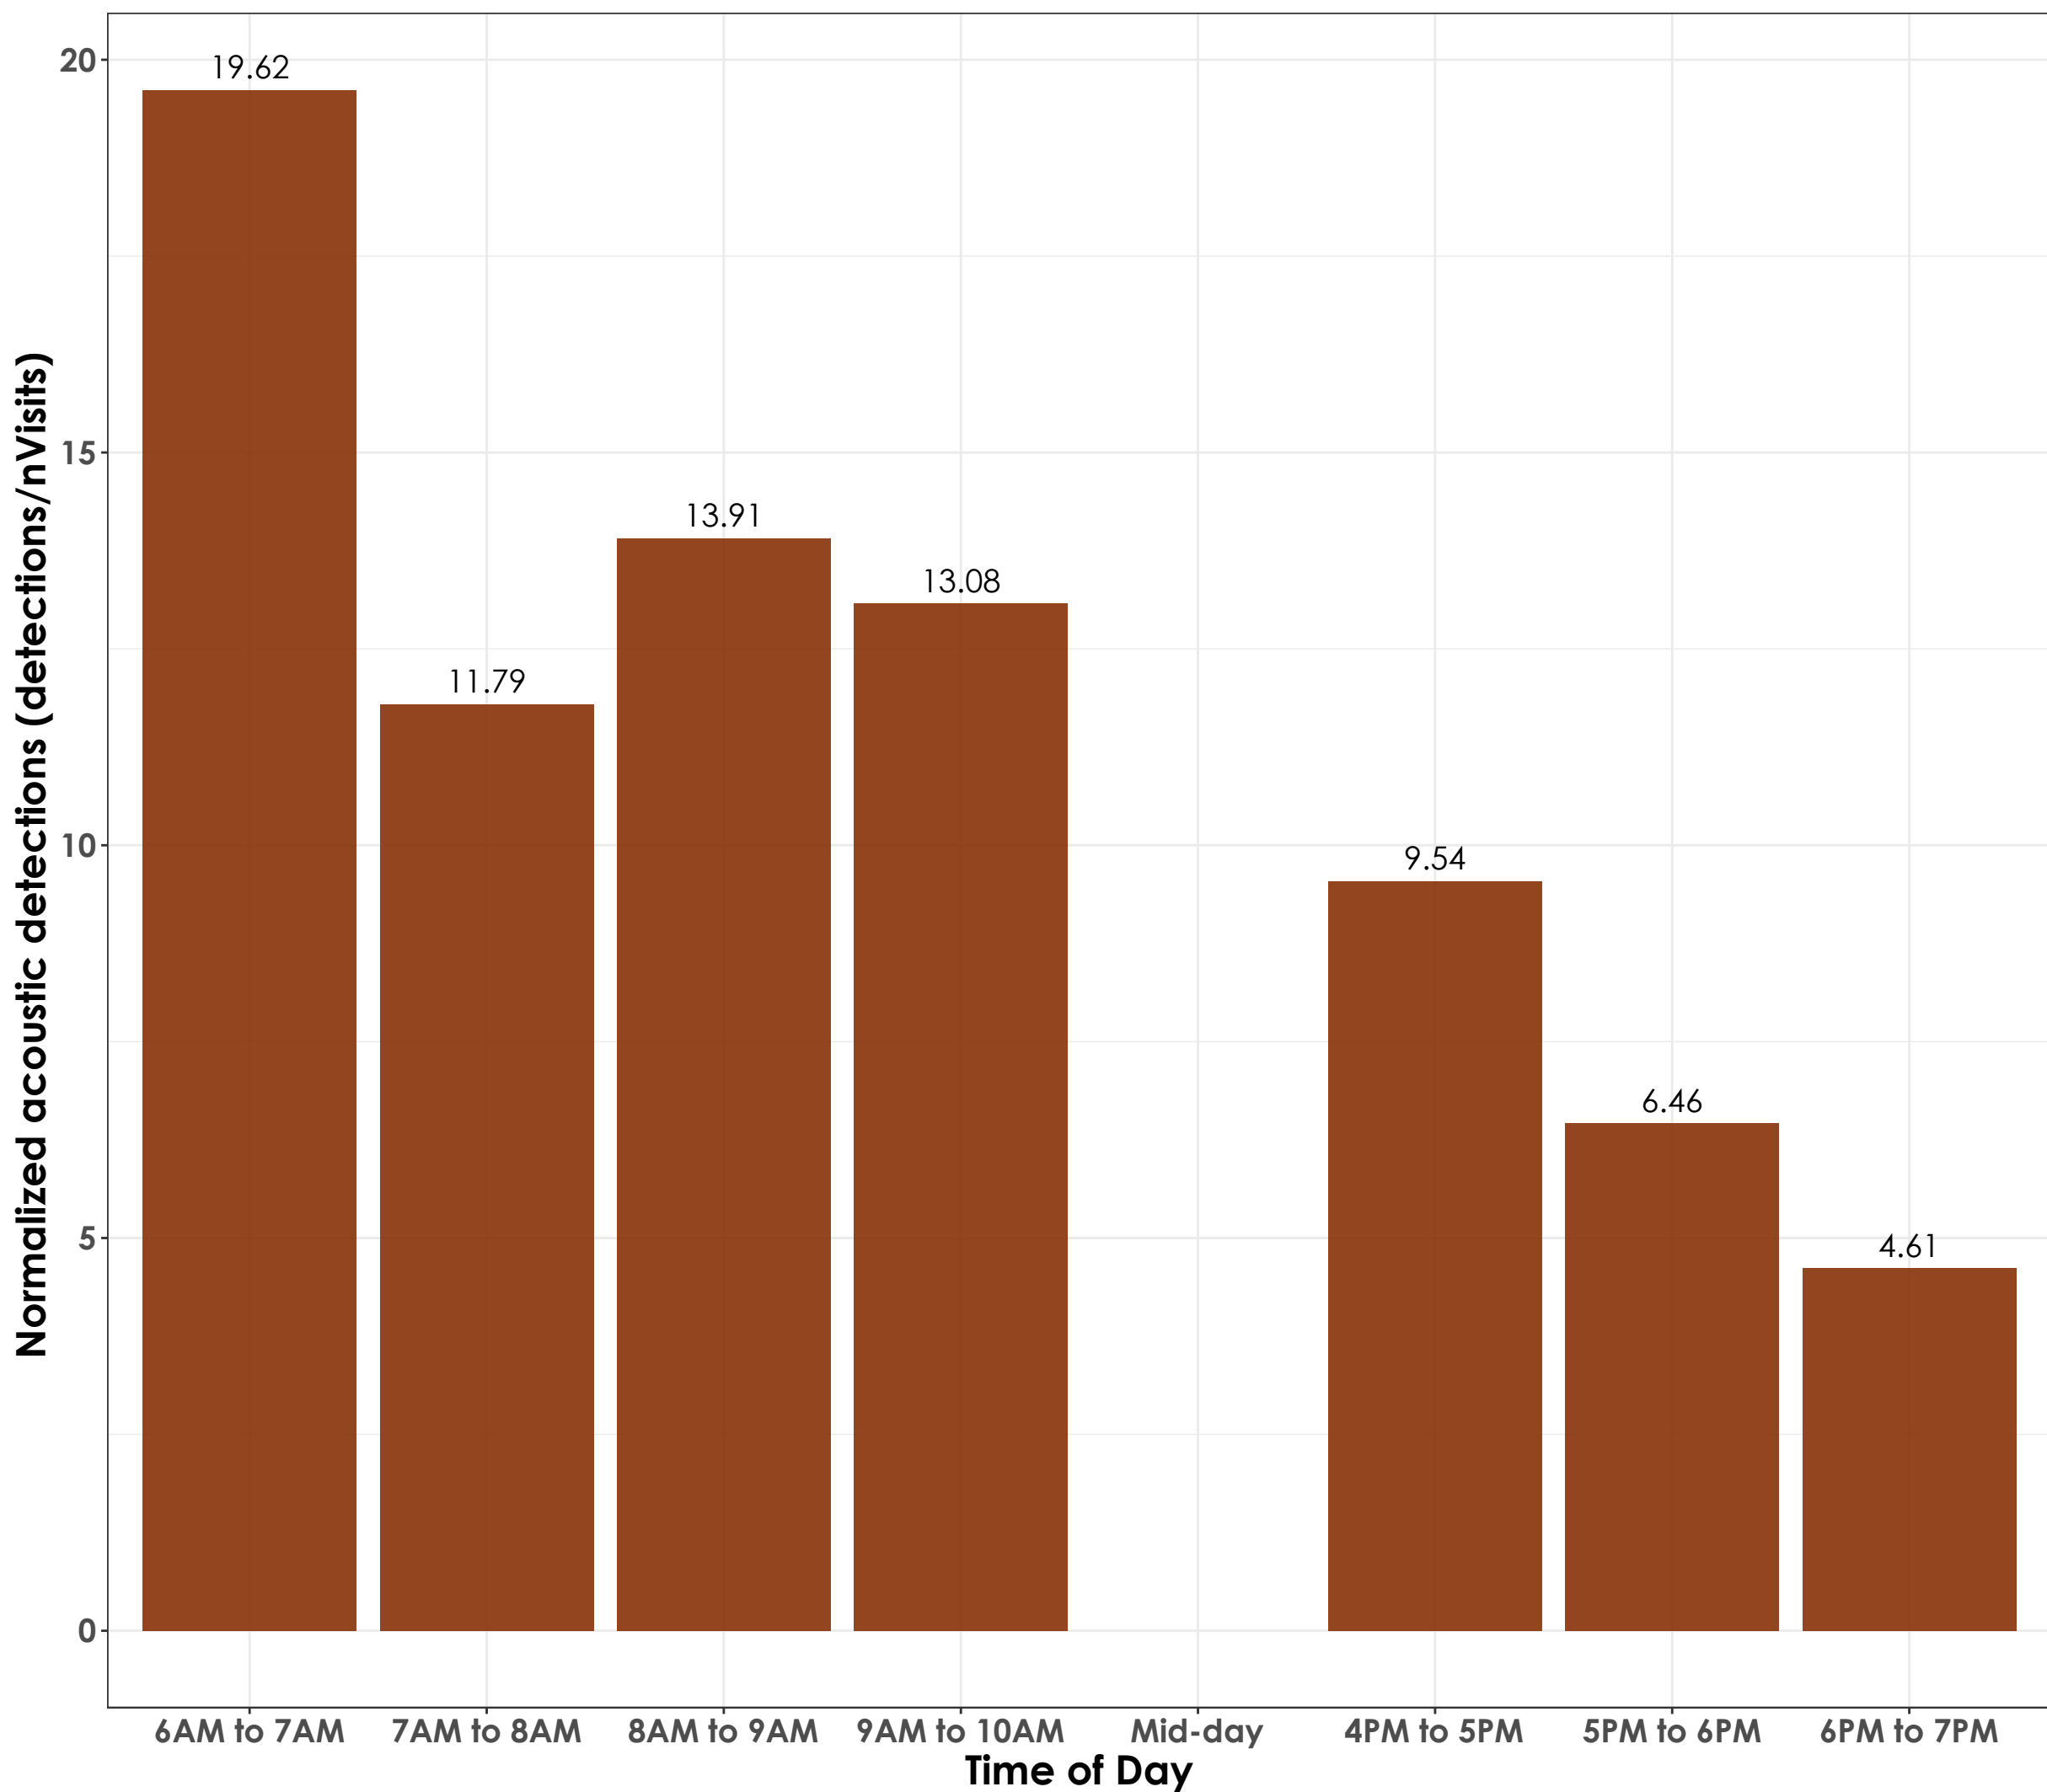

# Yellow-browed Bulbul

*Each bar represents the normalized detections across dawn and dusk*

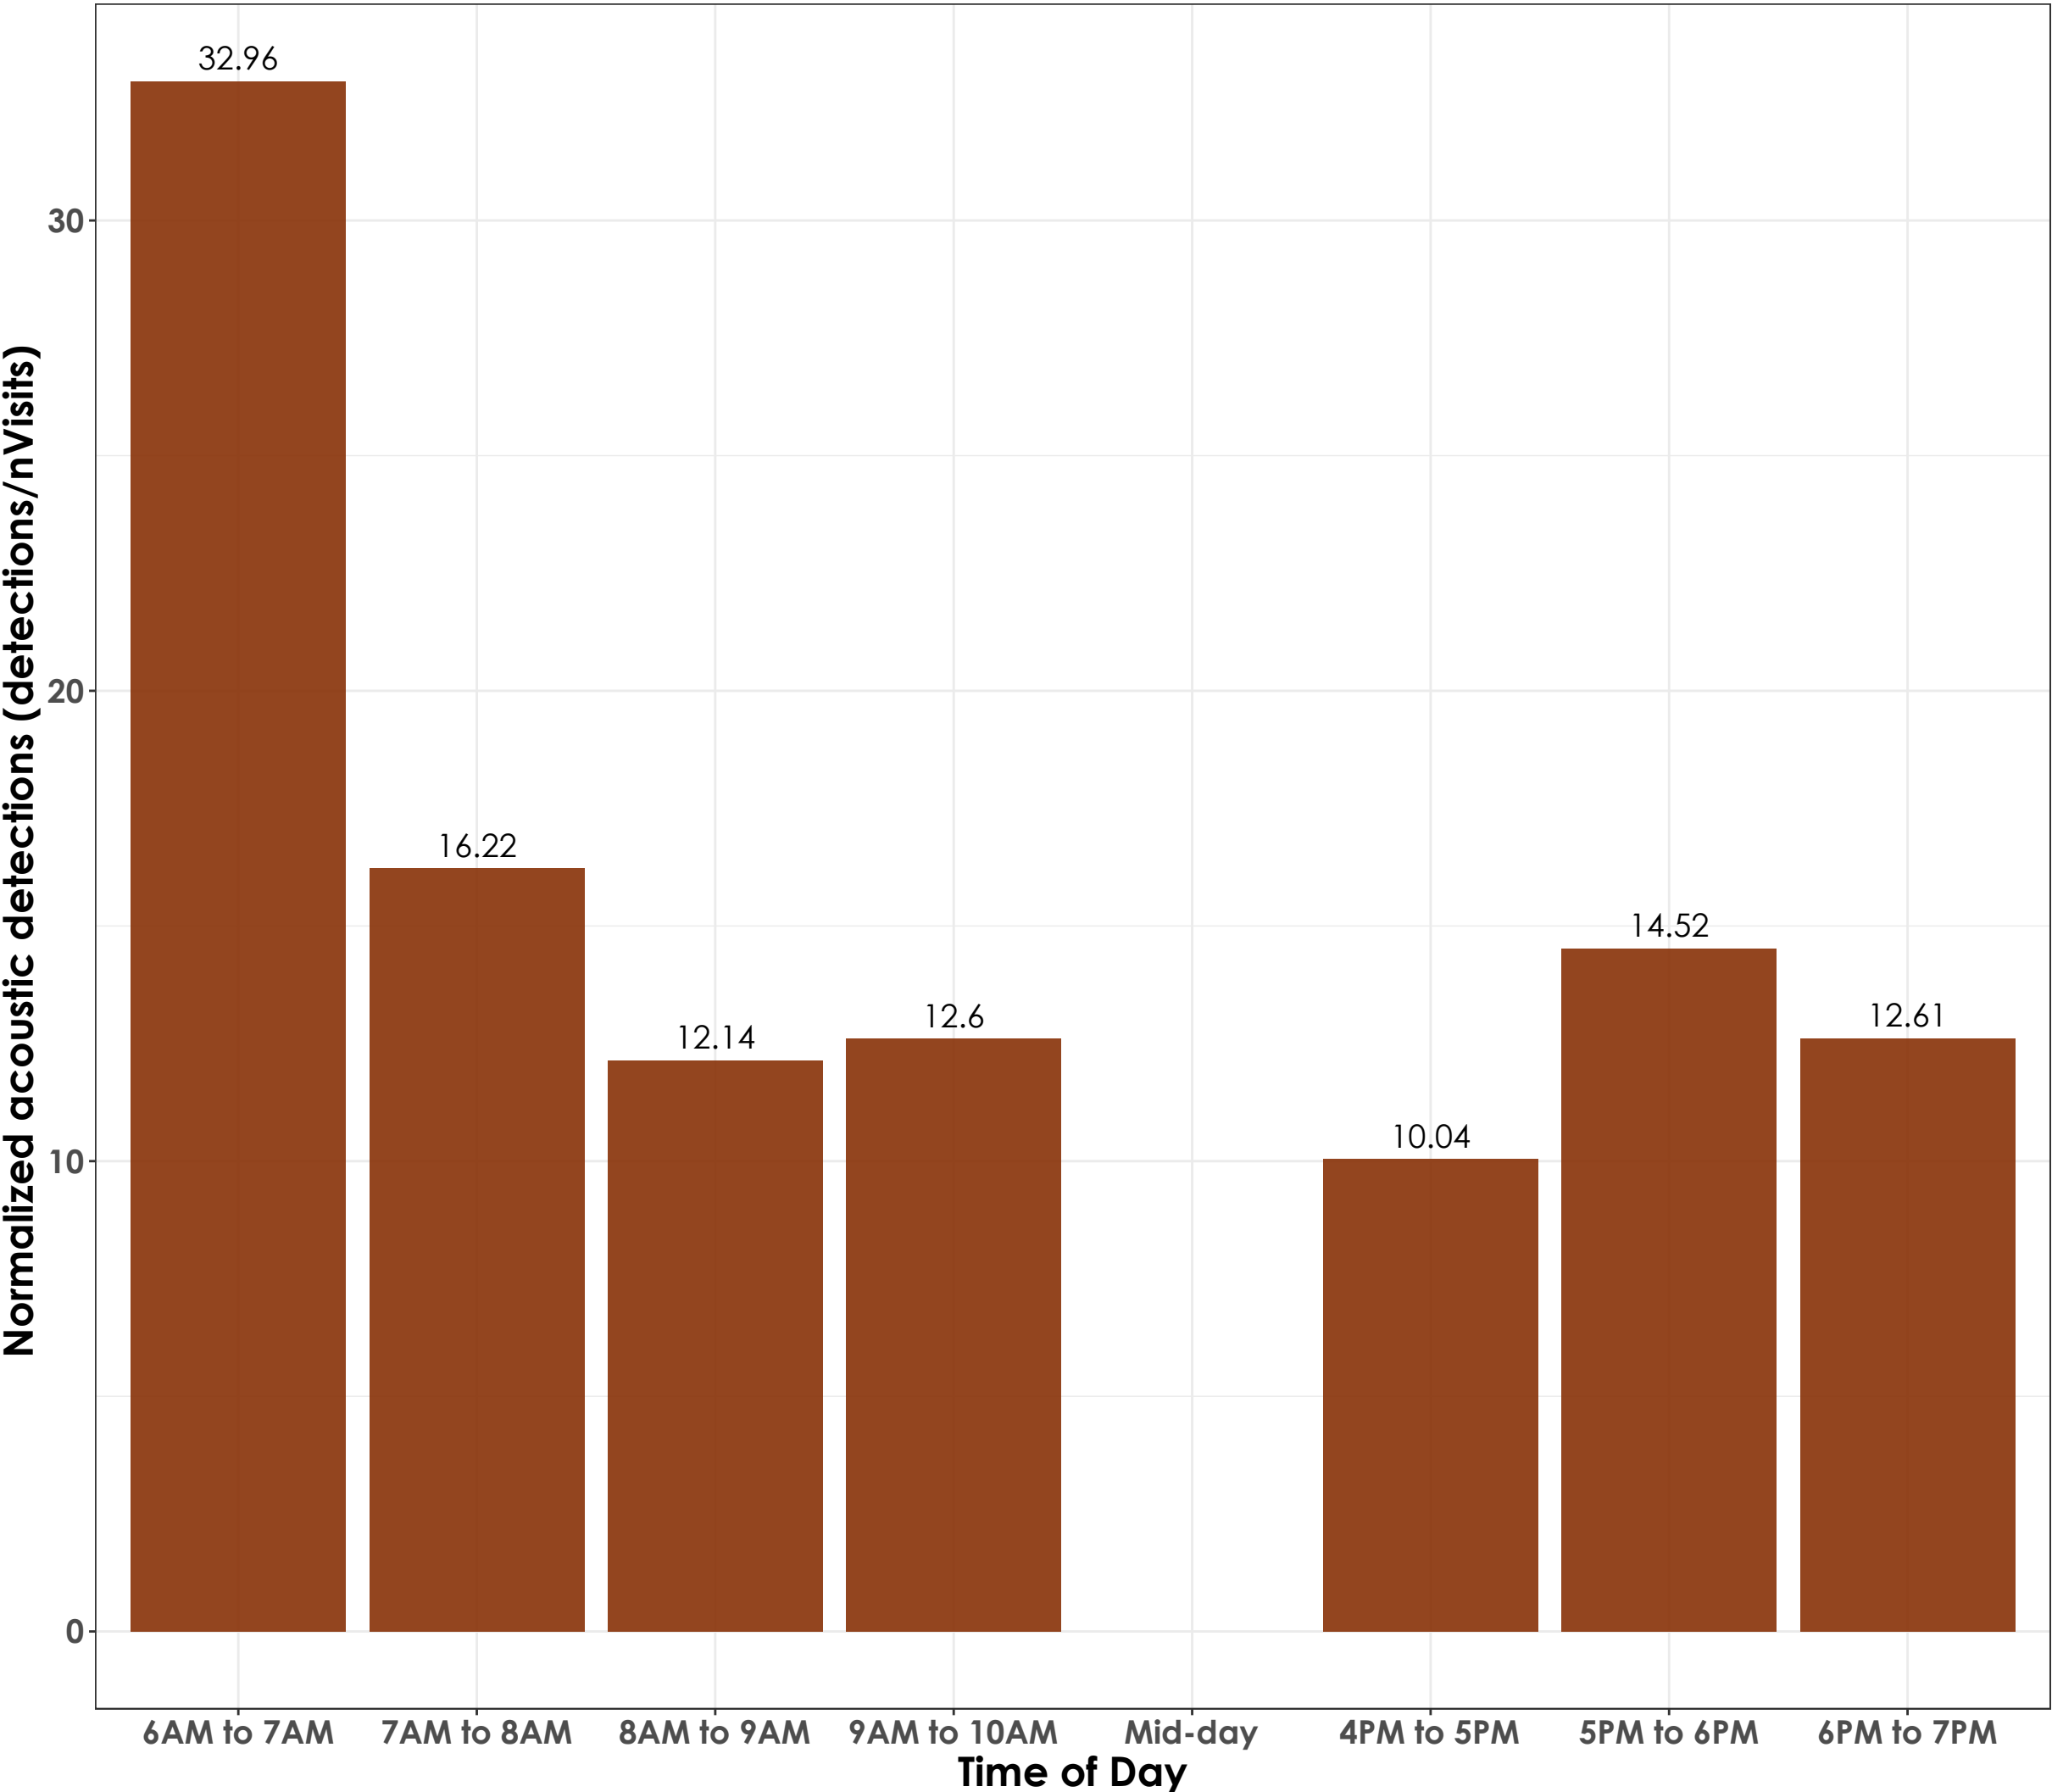

# Indian White-eye

*Each bar represents the normalized detections across dawn and dusk*

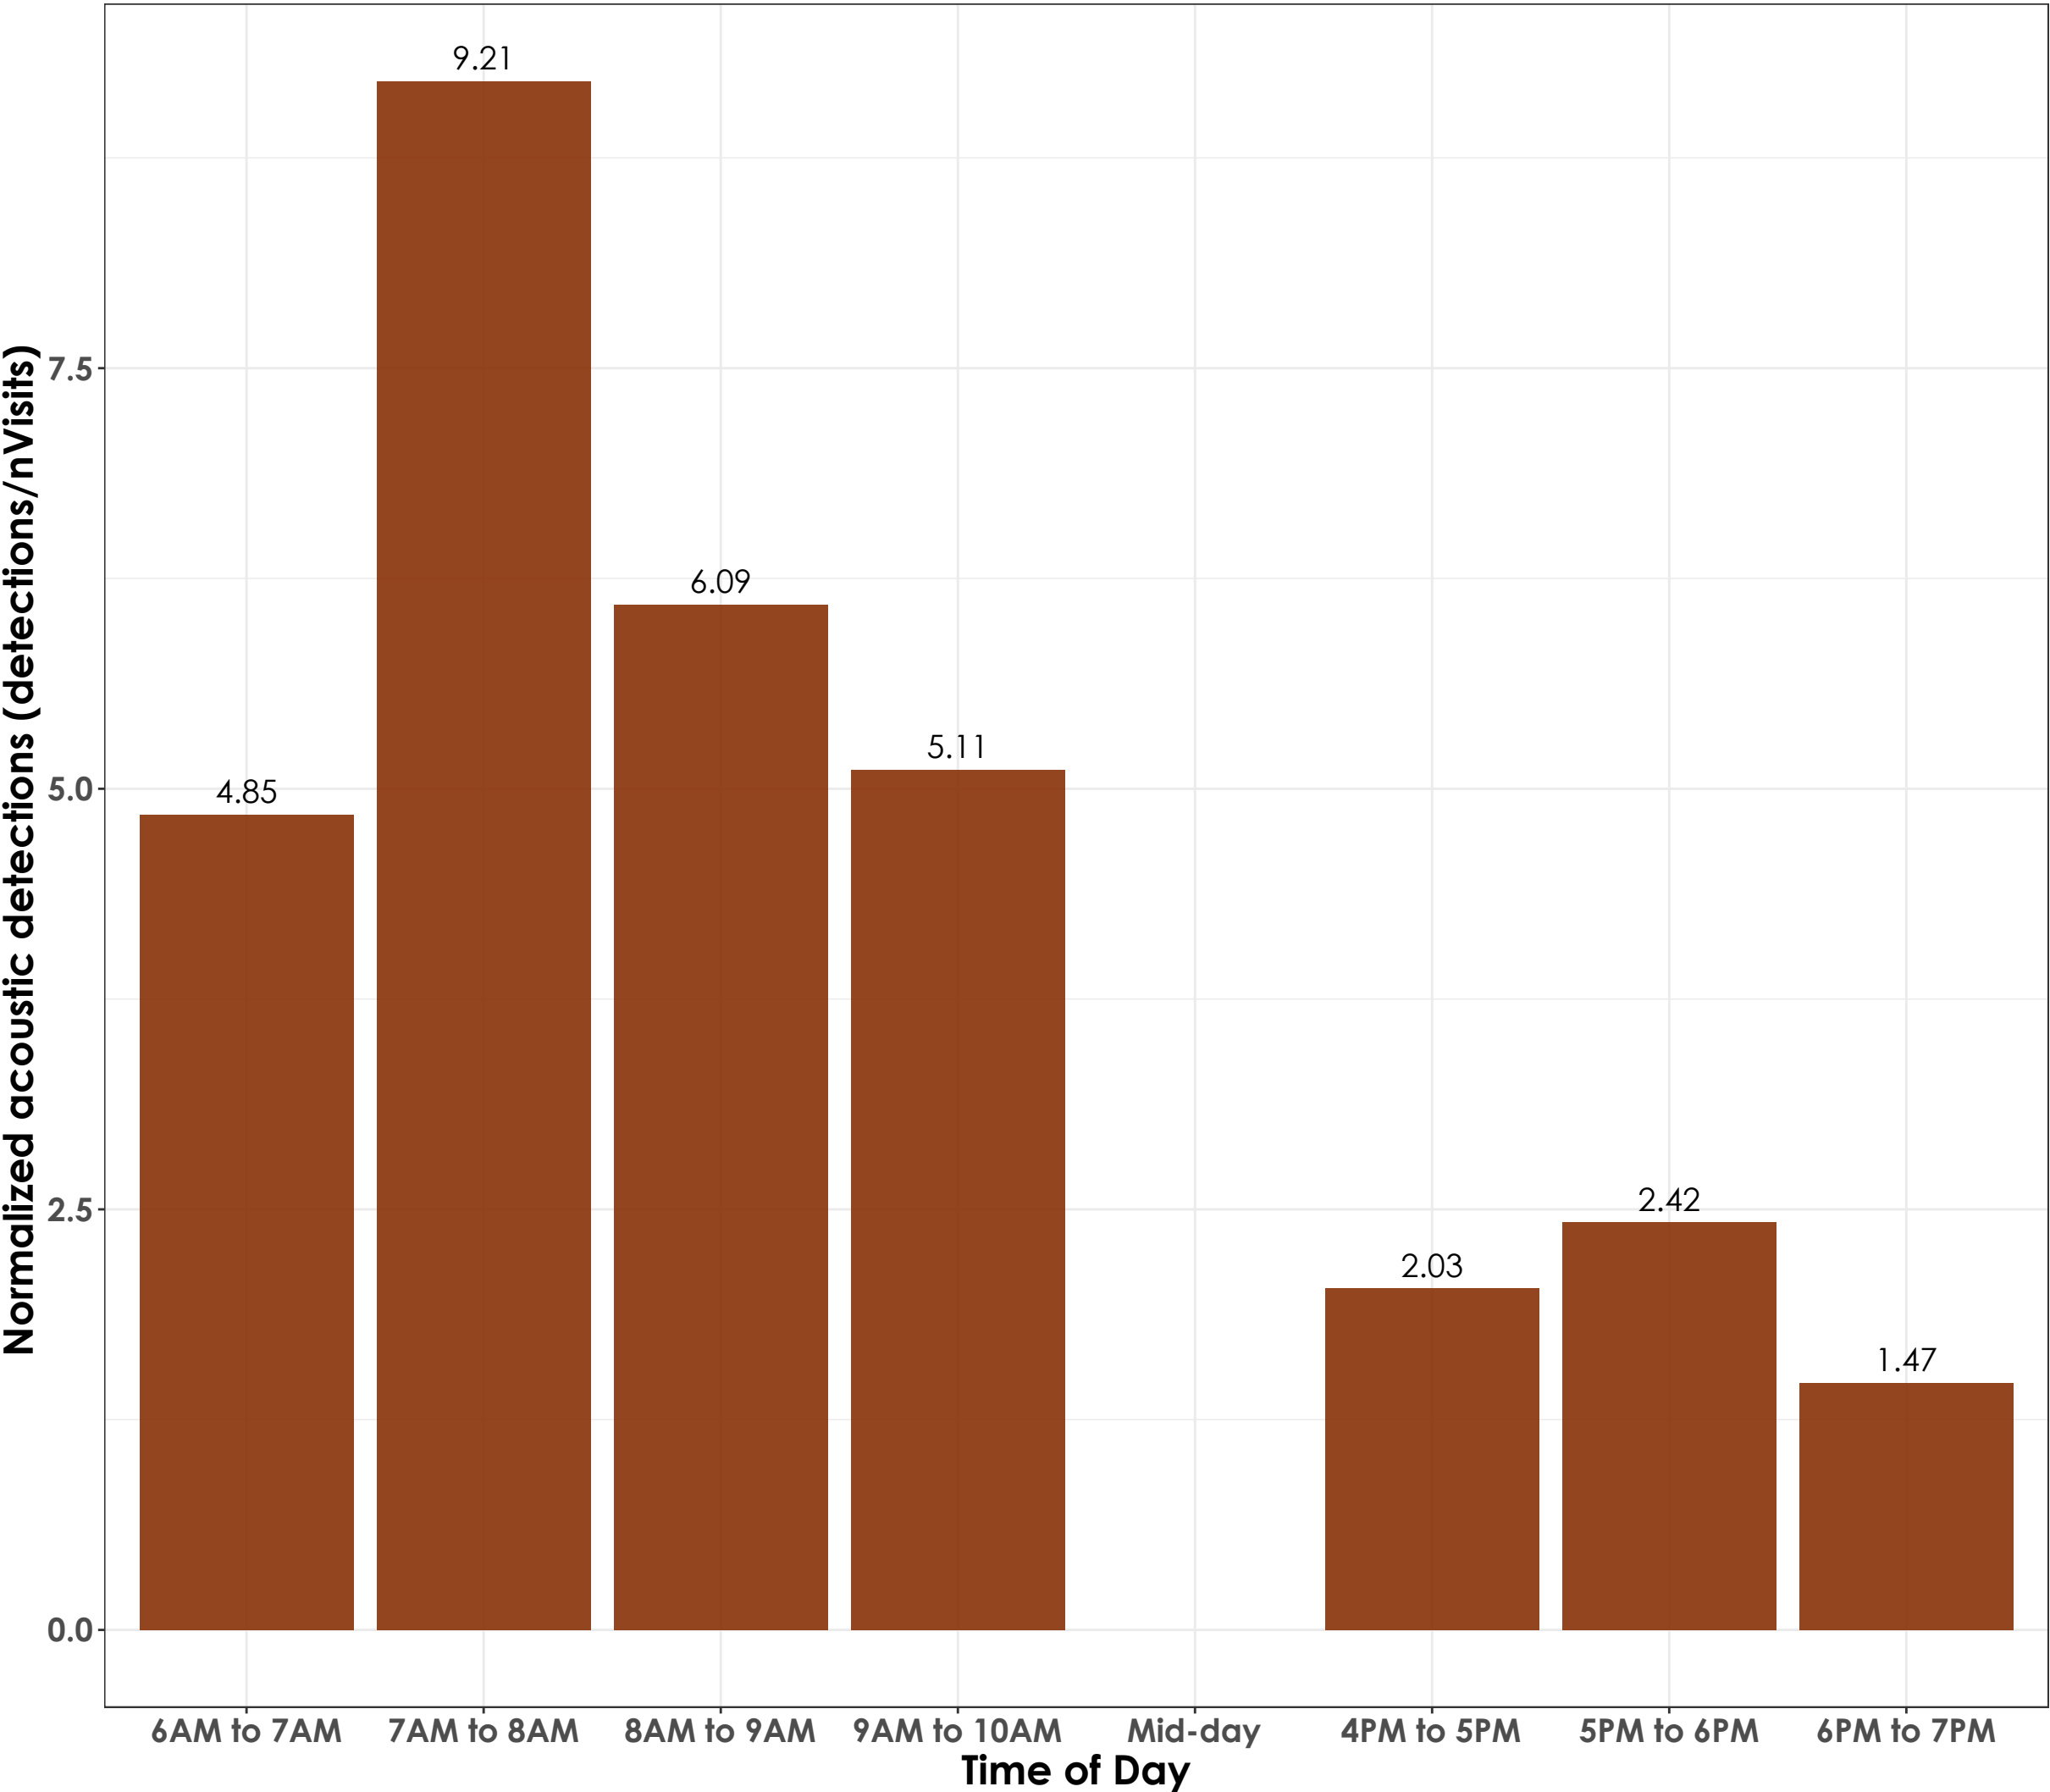

# Malabar Whistling-Thrush

Each bar represents the normalized detections across dawn and dusk

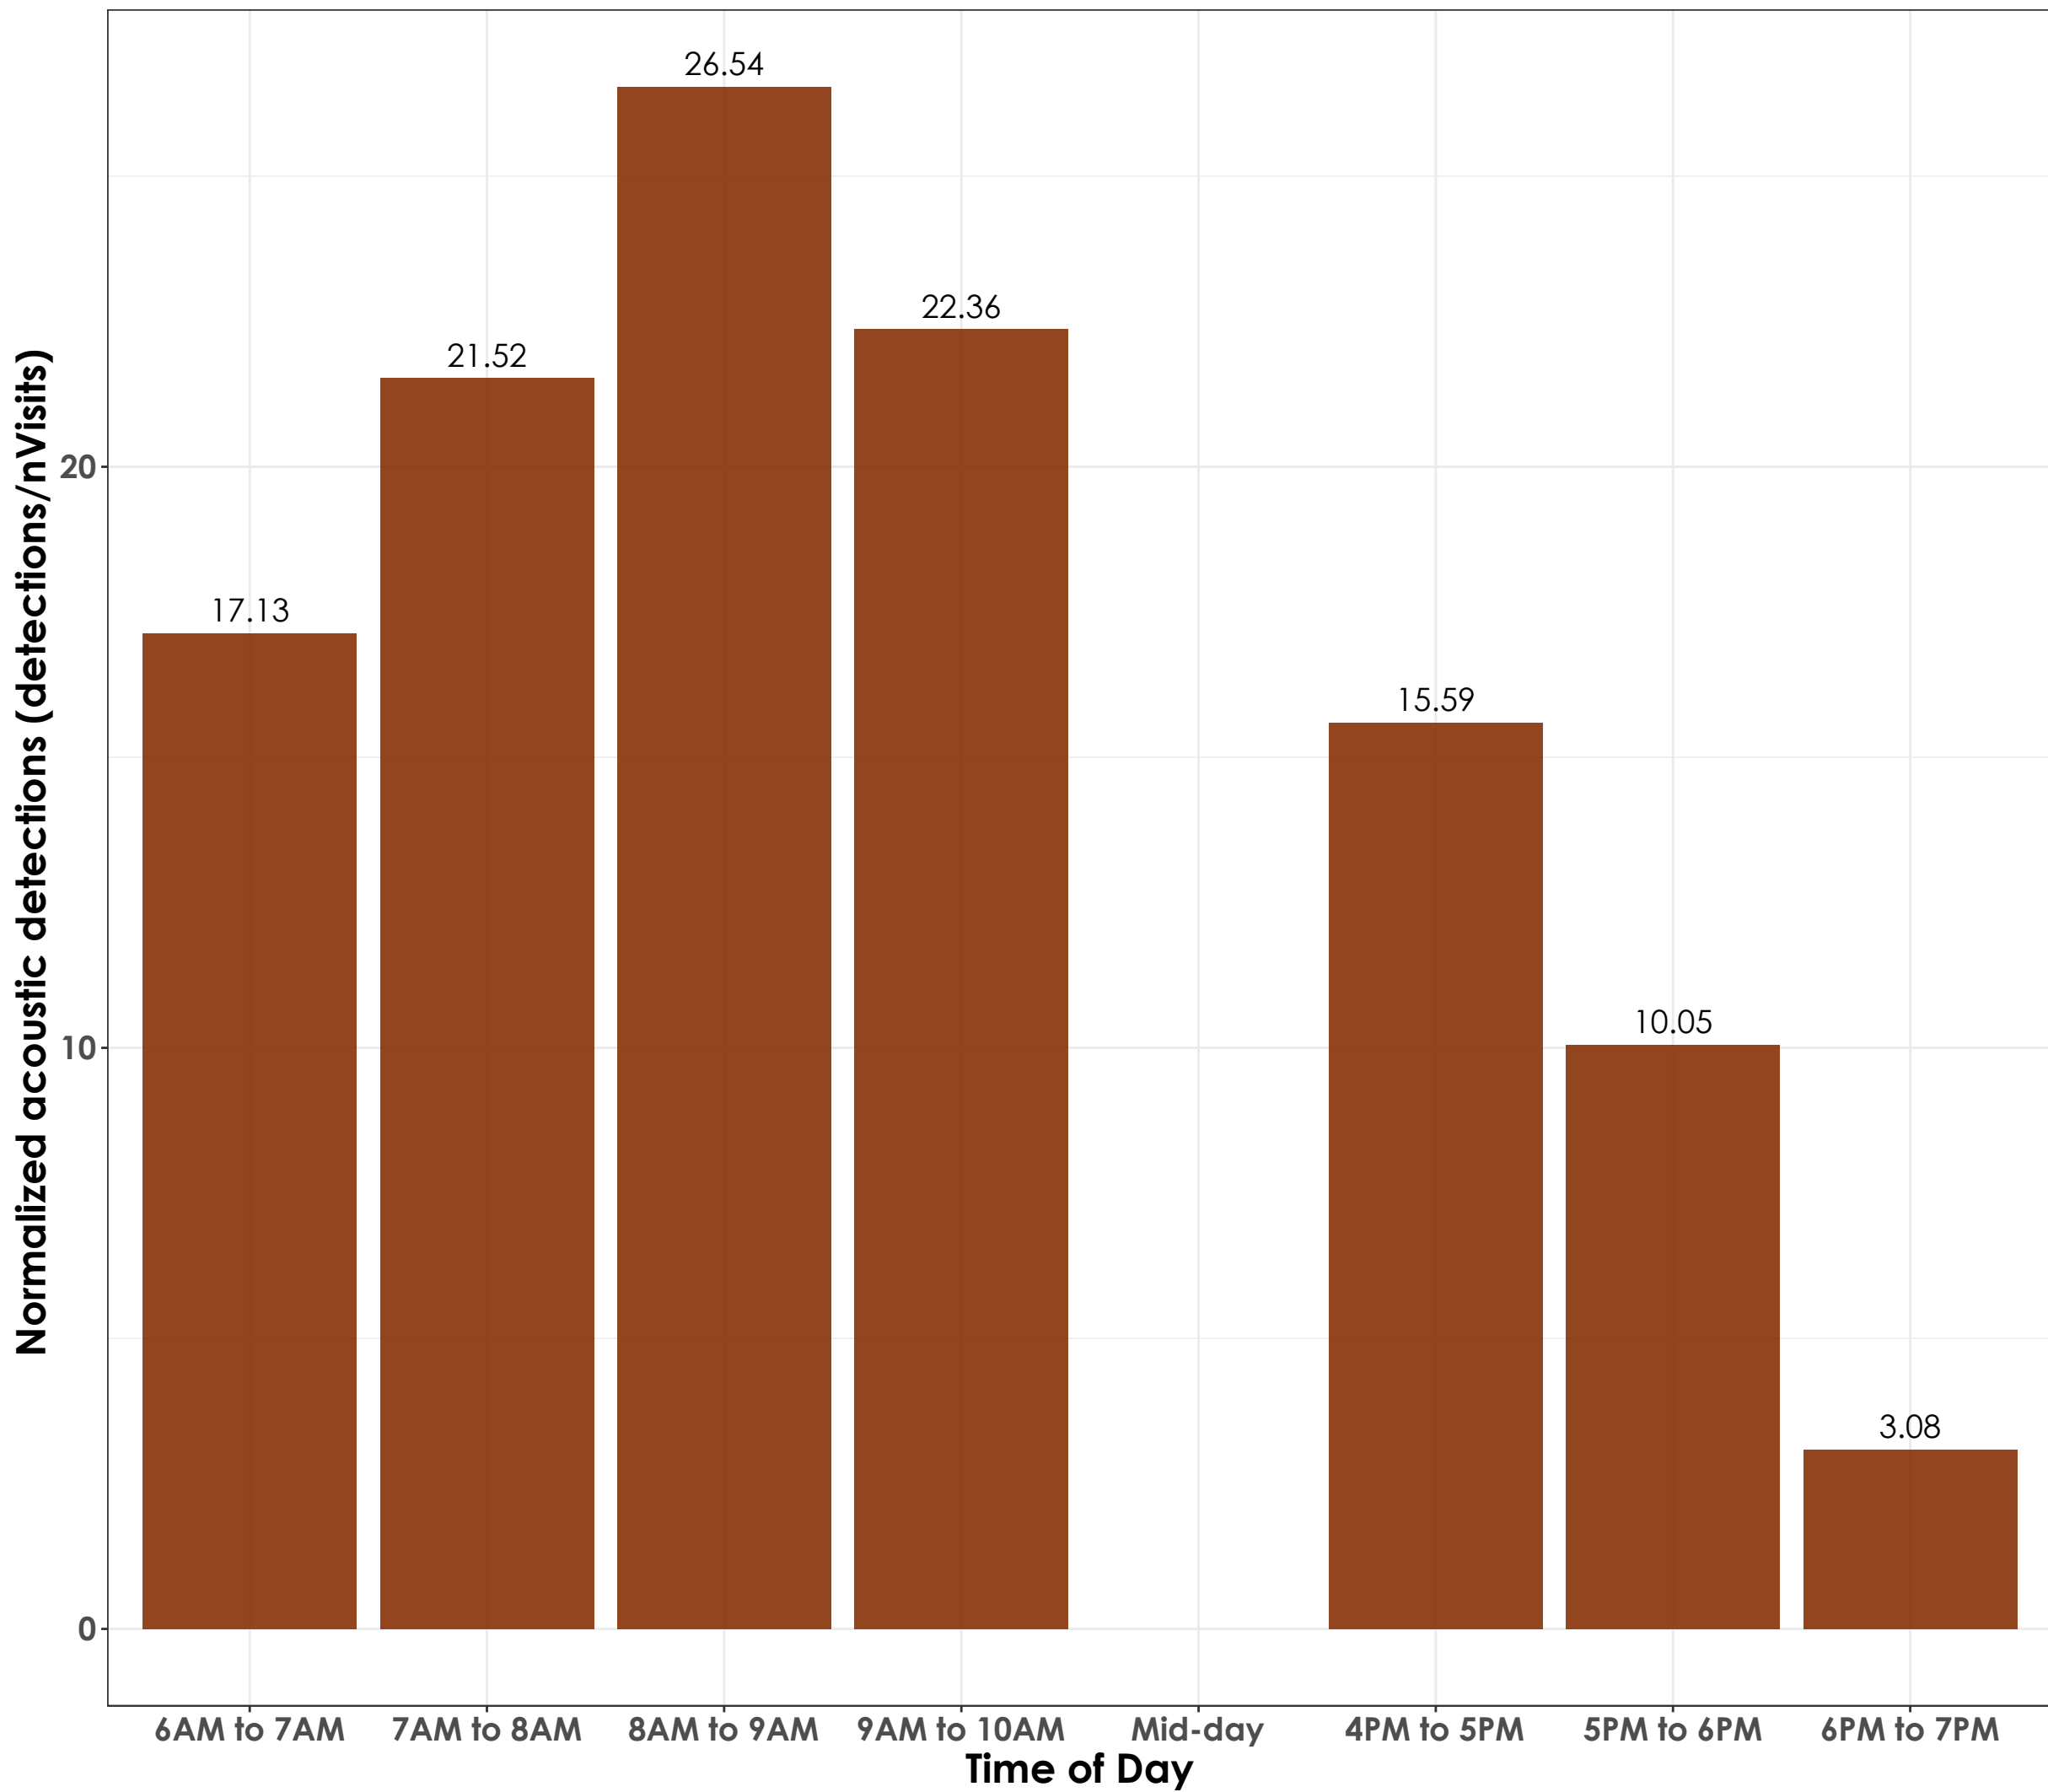

# Orange-headed Thrush

Each bar represents the normalized detections across dawn and dusk

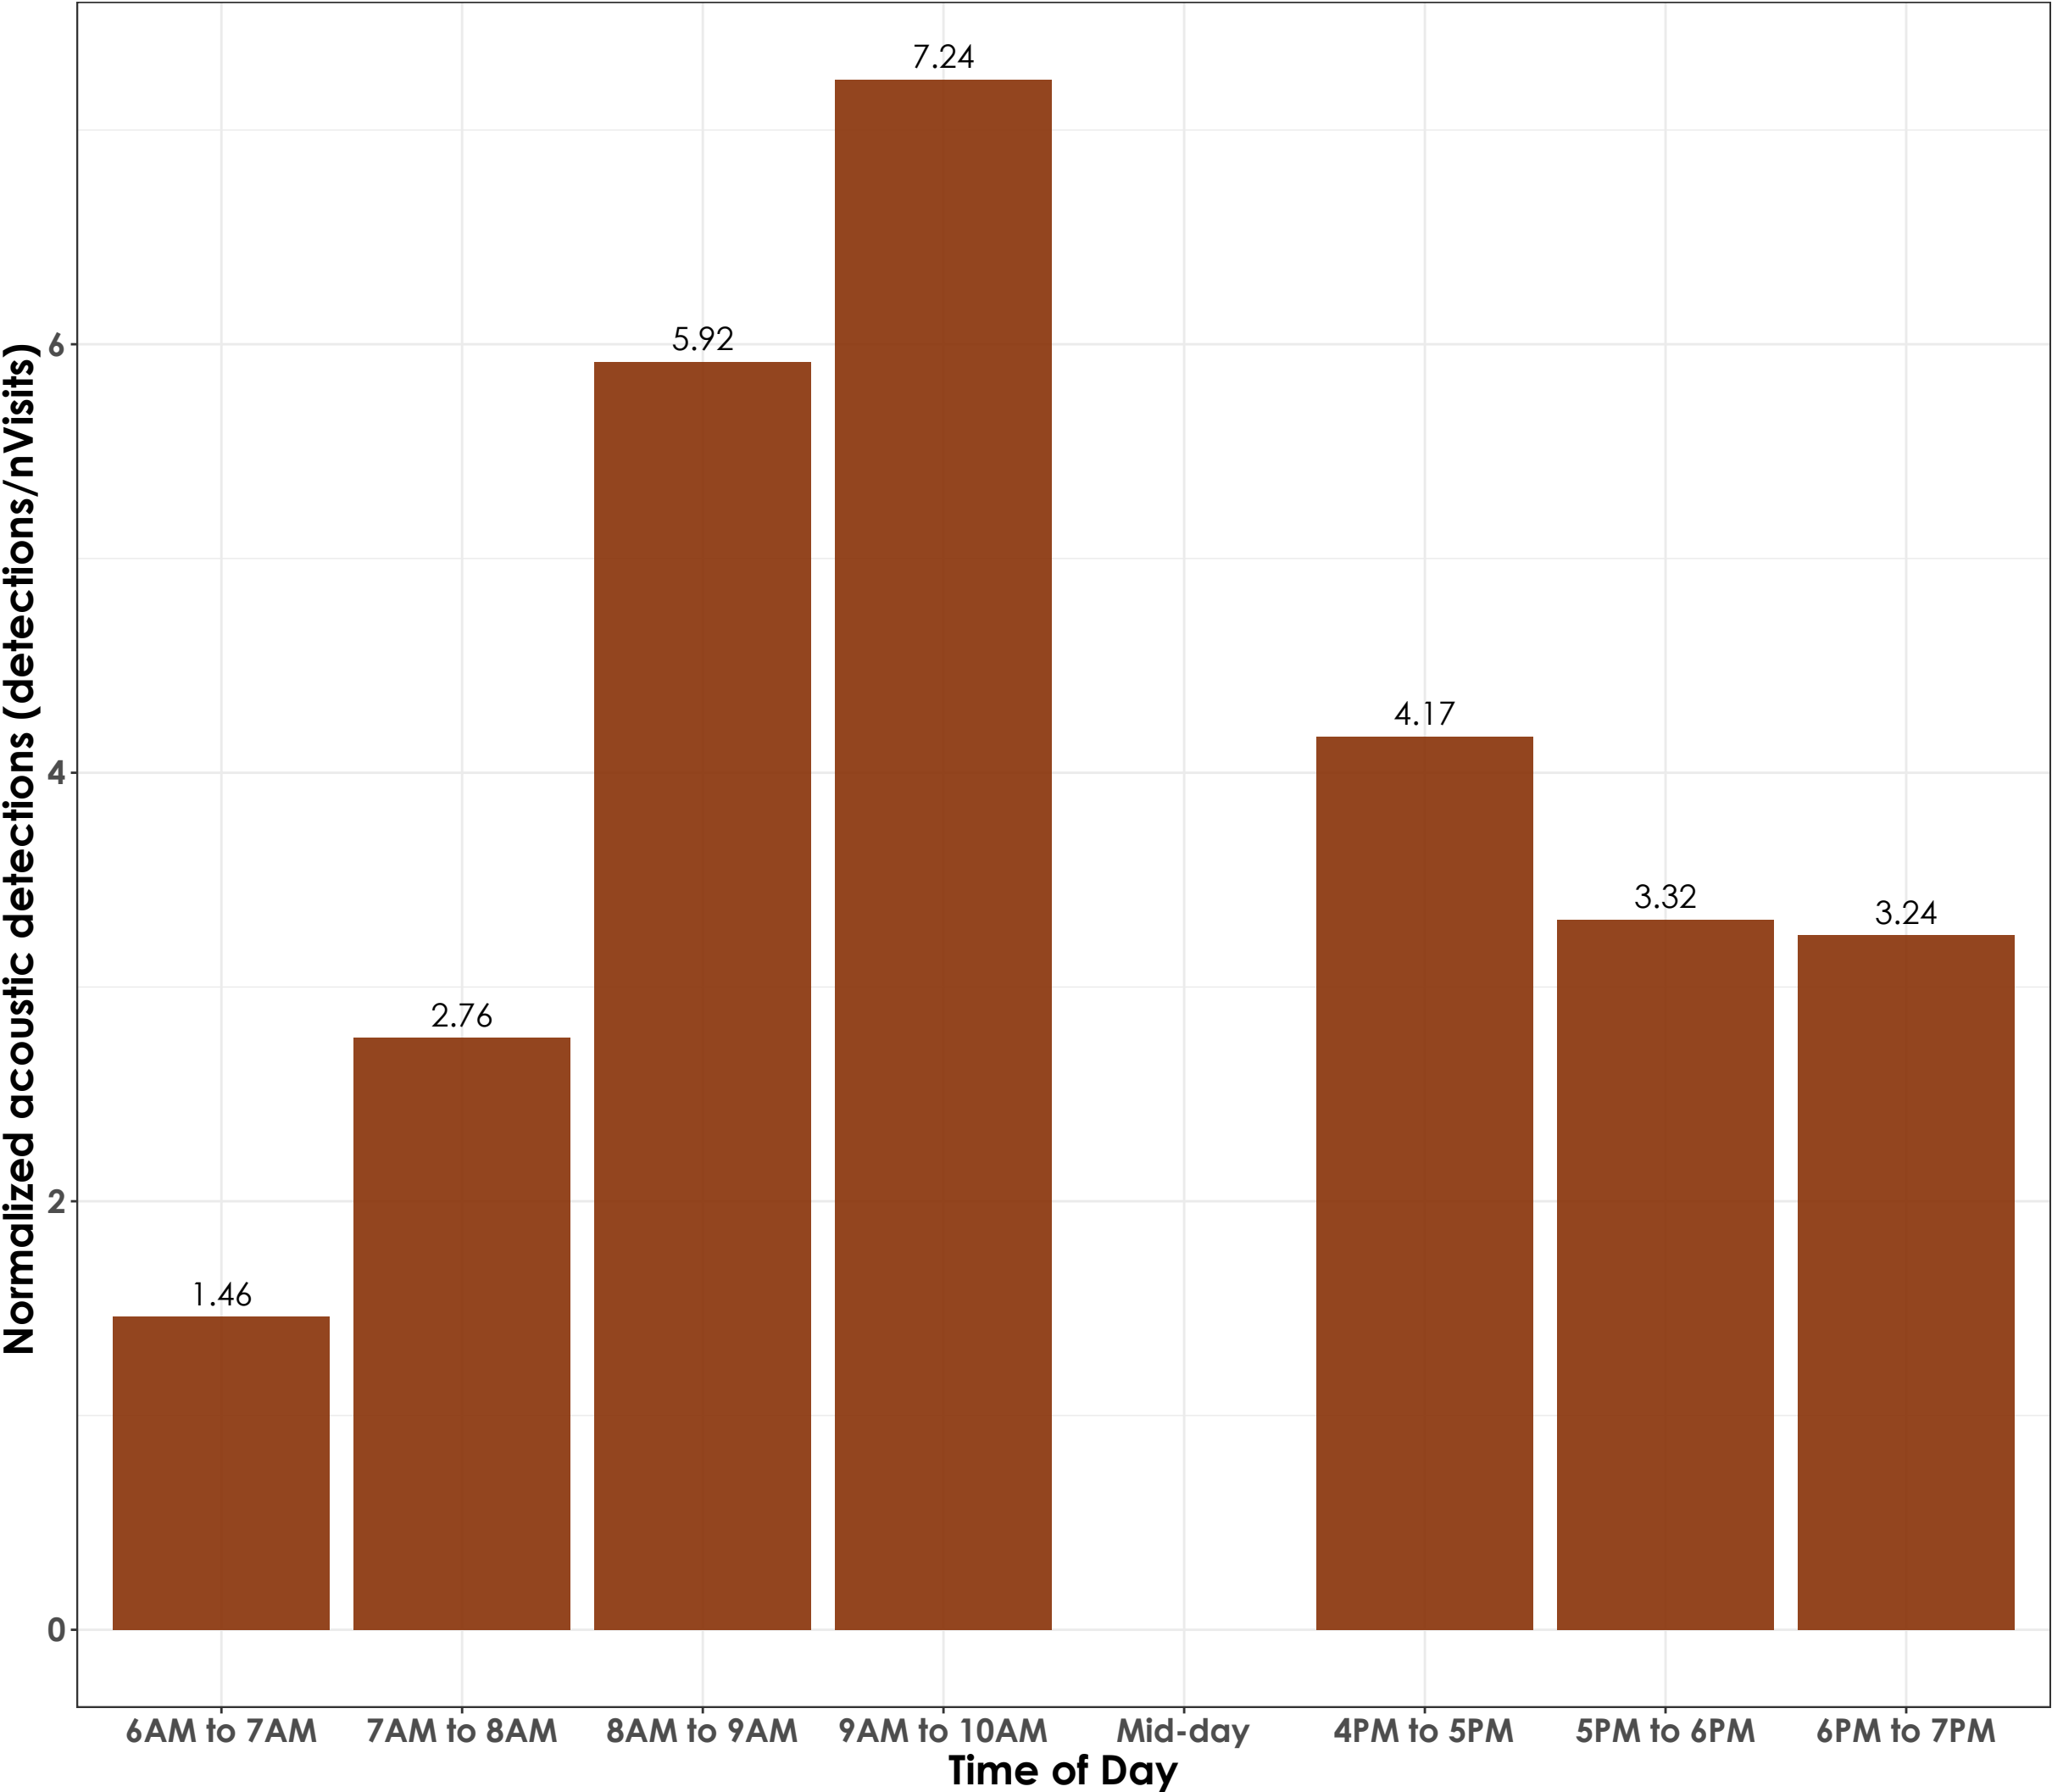

# Red-whiskered Bulbul

*Each bar represents the normalized detections across dawn and dusk*

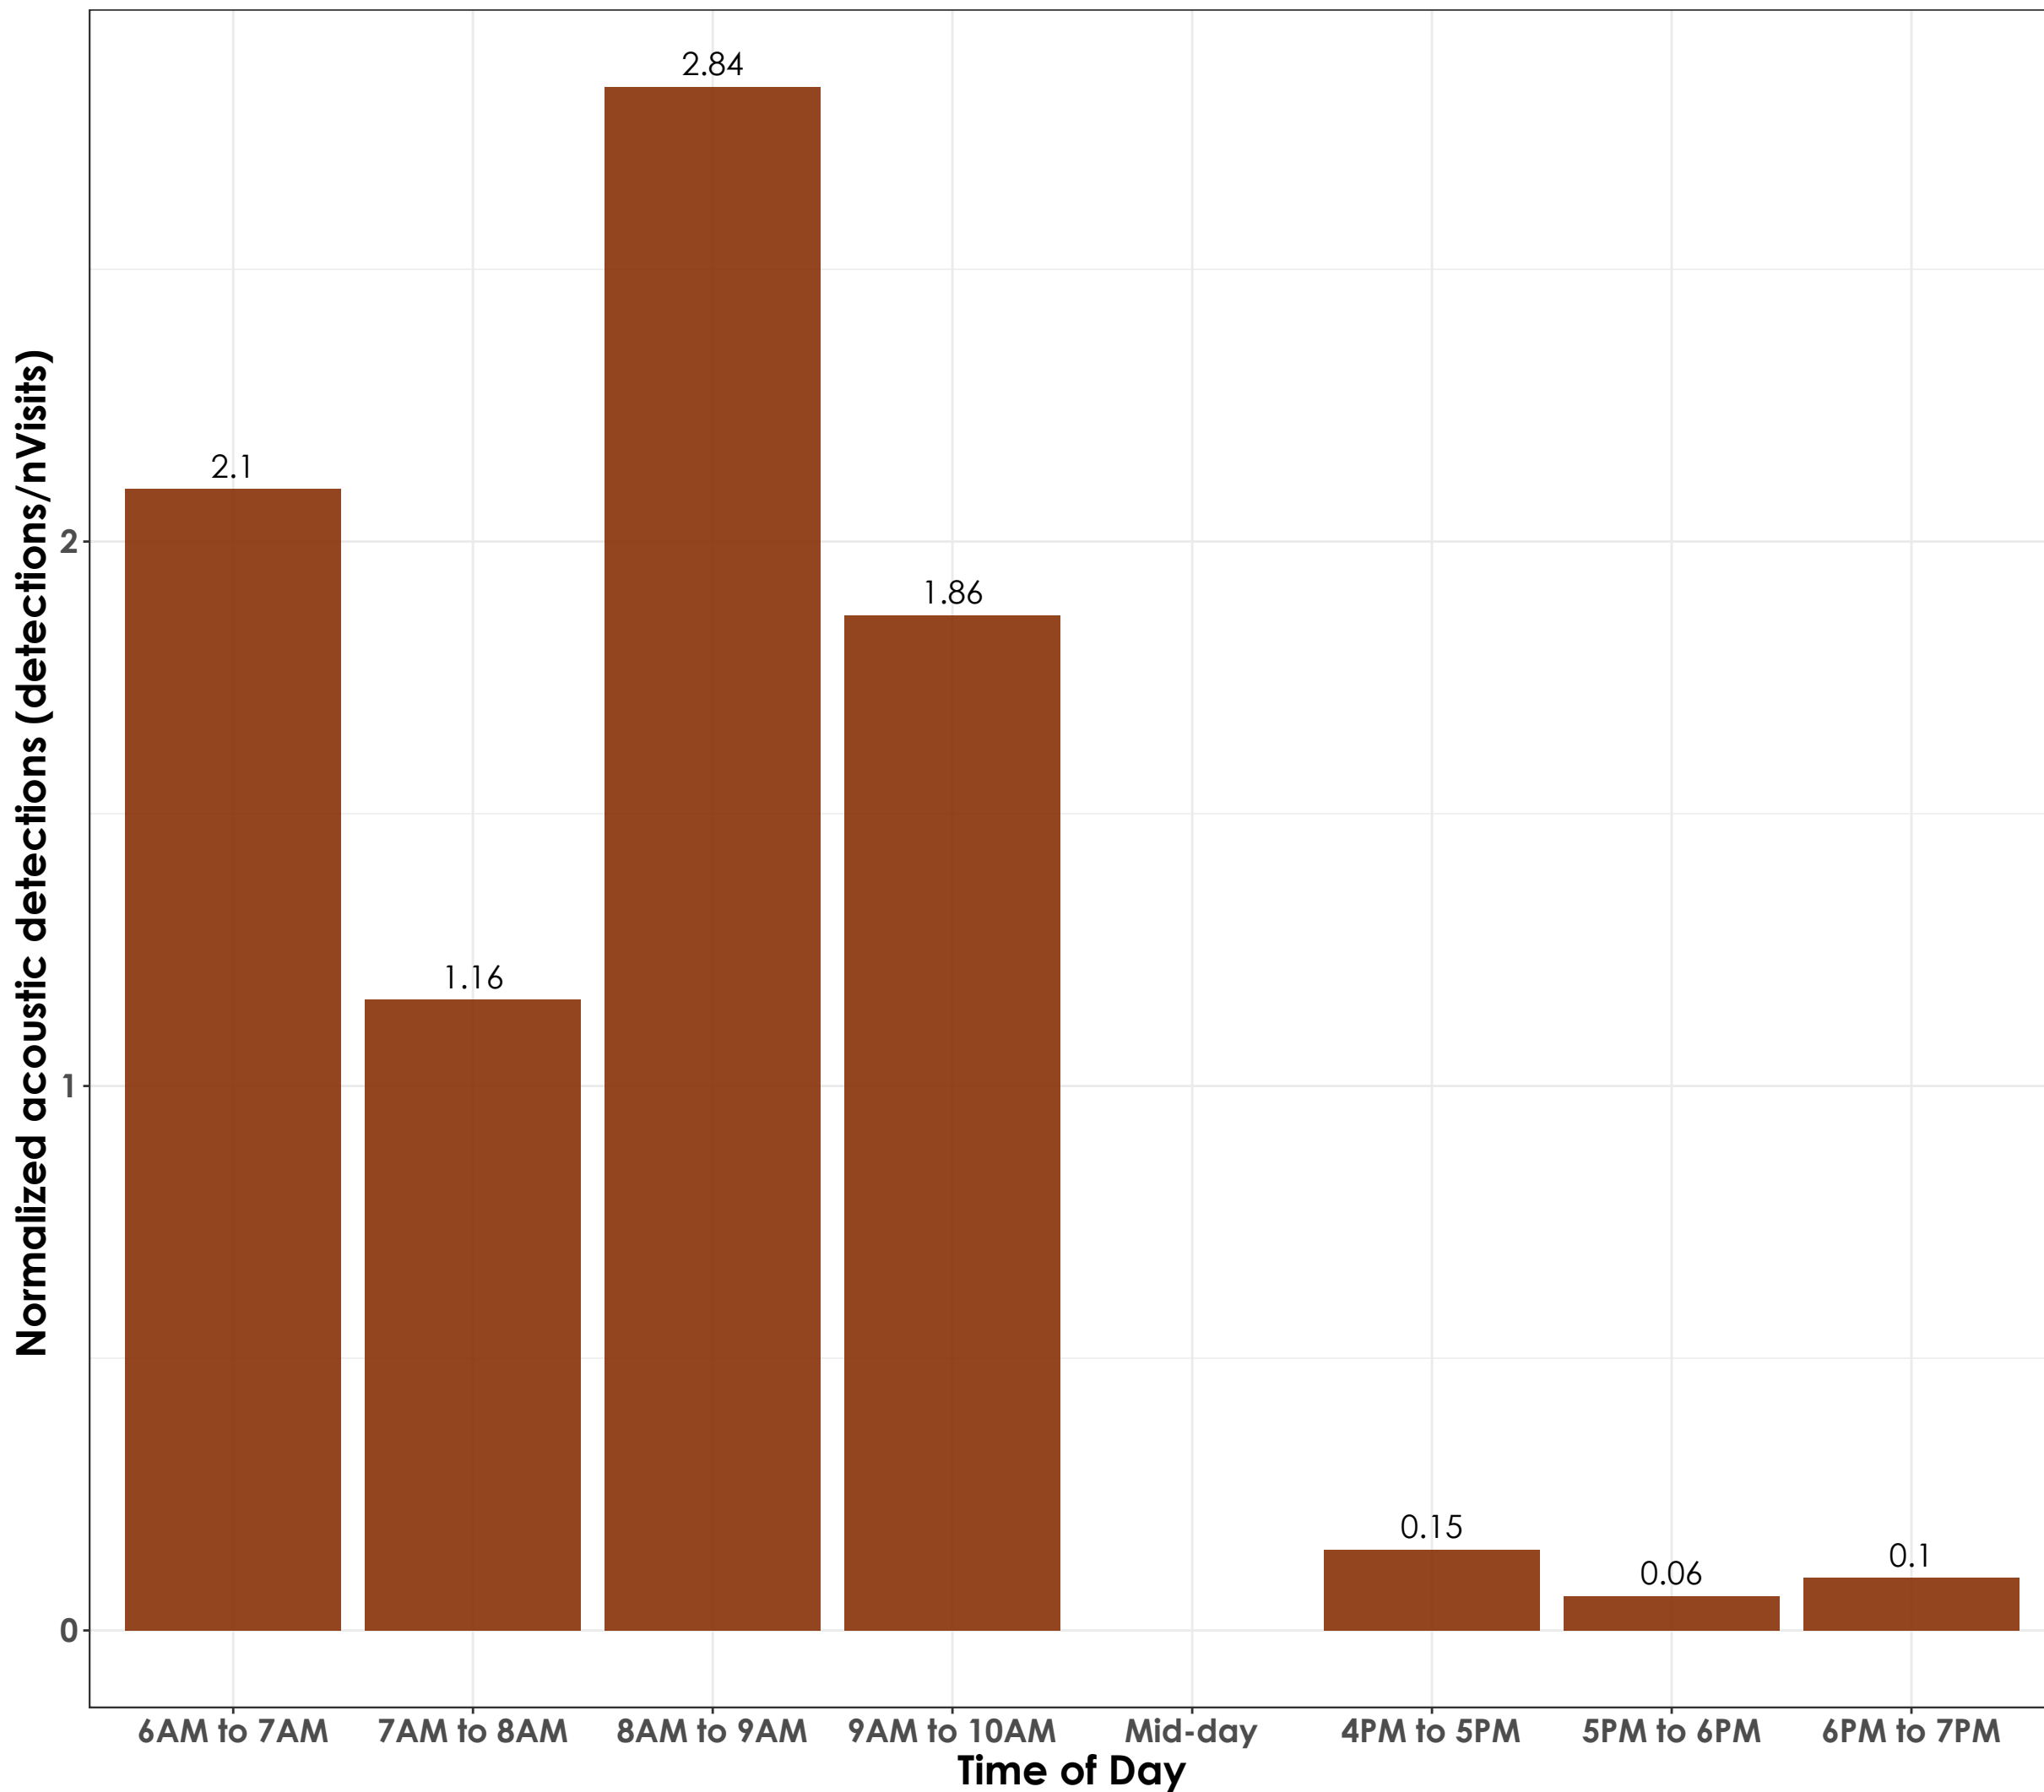

# Vernal Hanging-Parrot

Each bar represents the normalized detections across dawn and dusk

# Greater Coucal

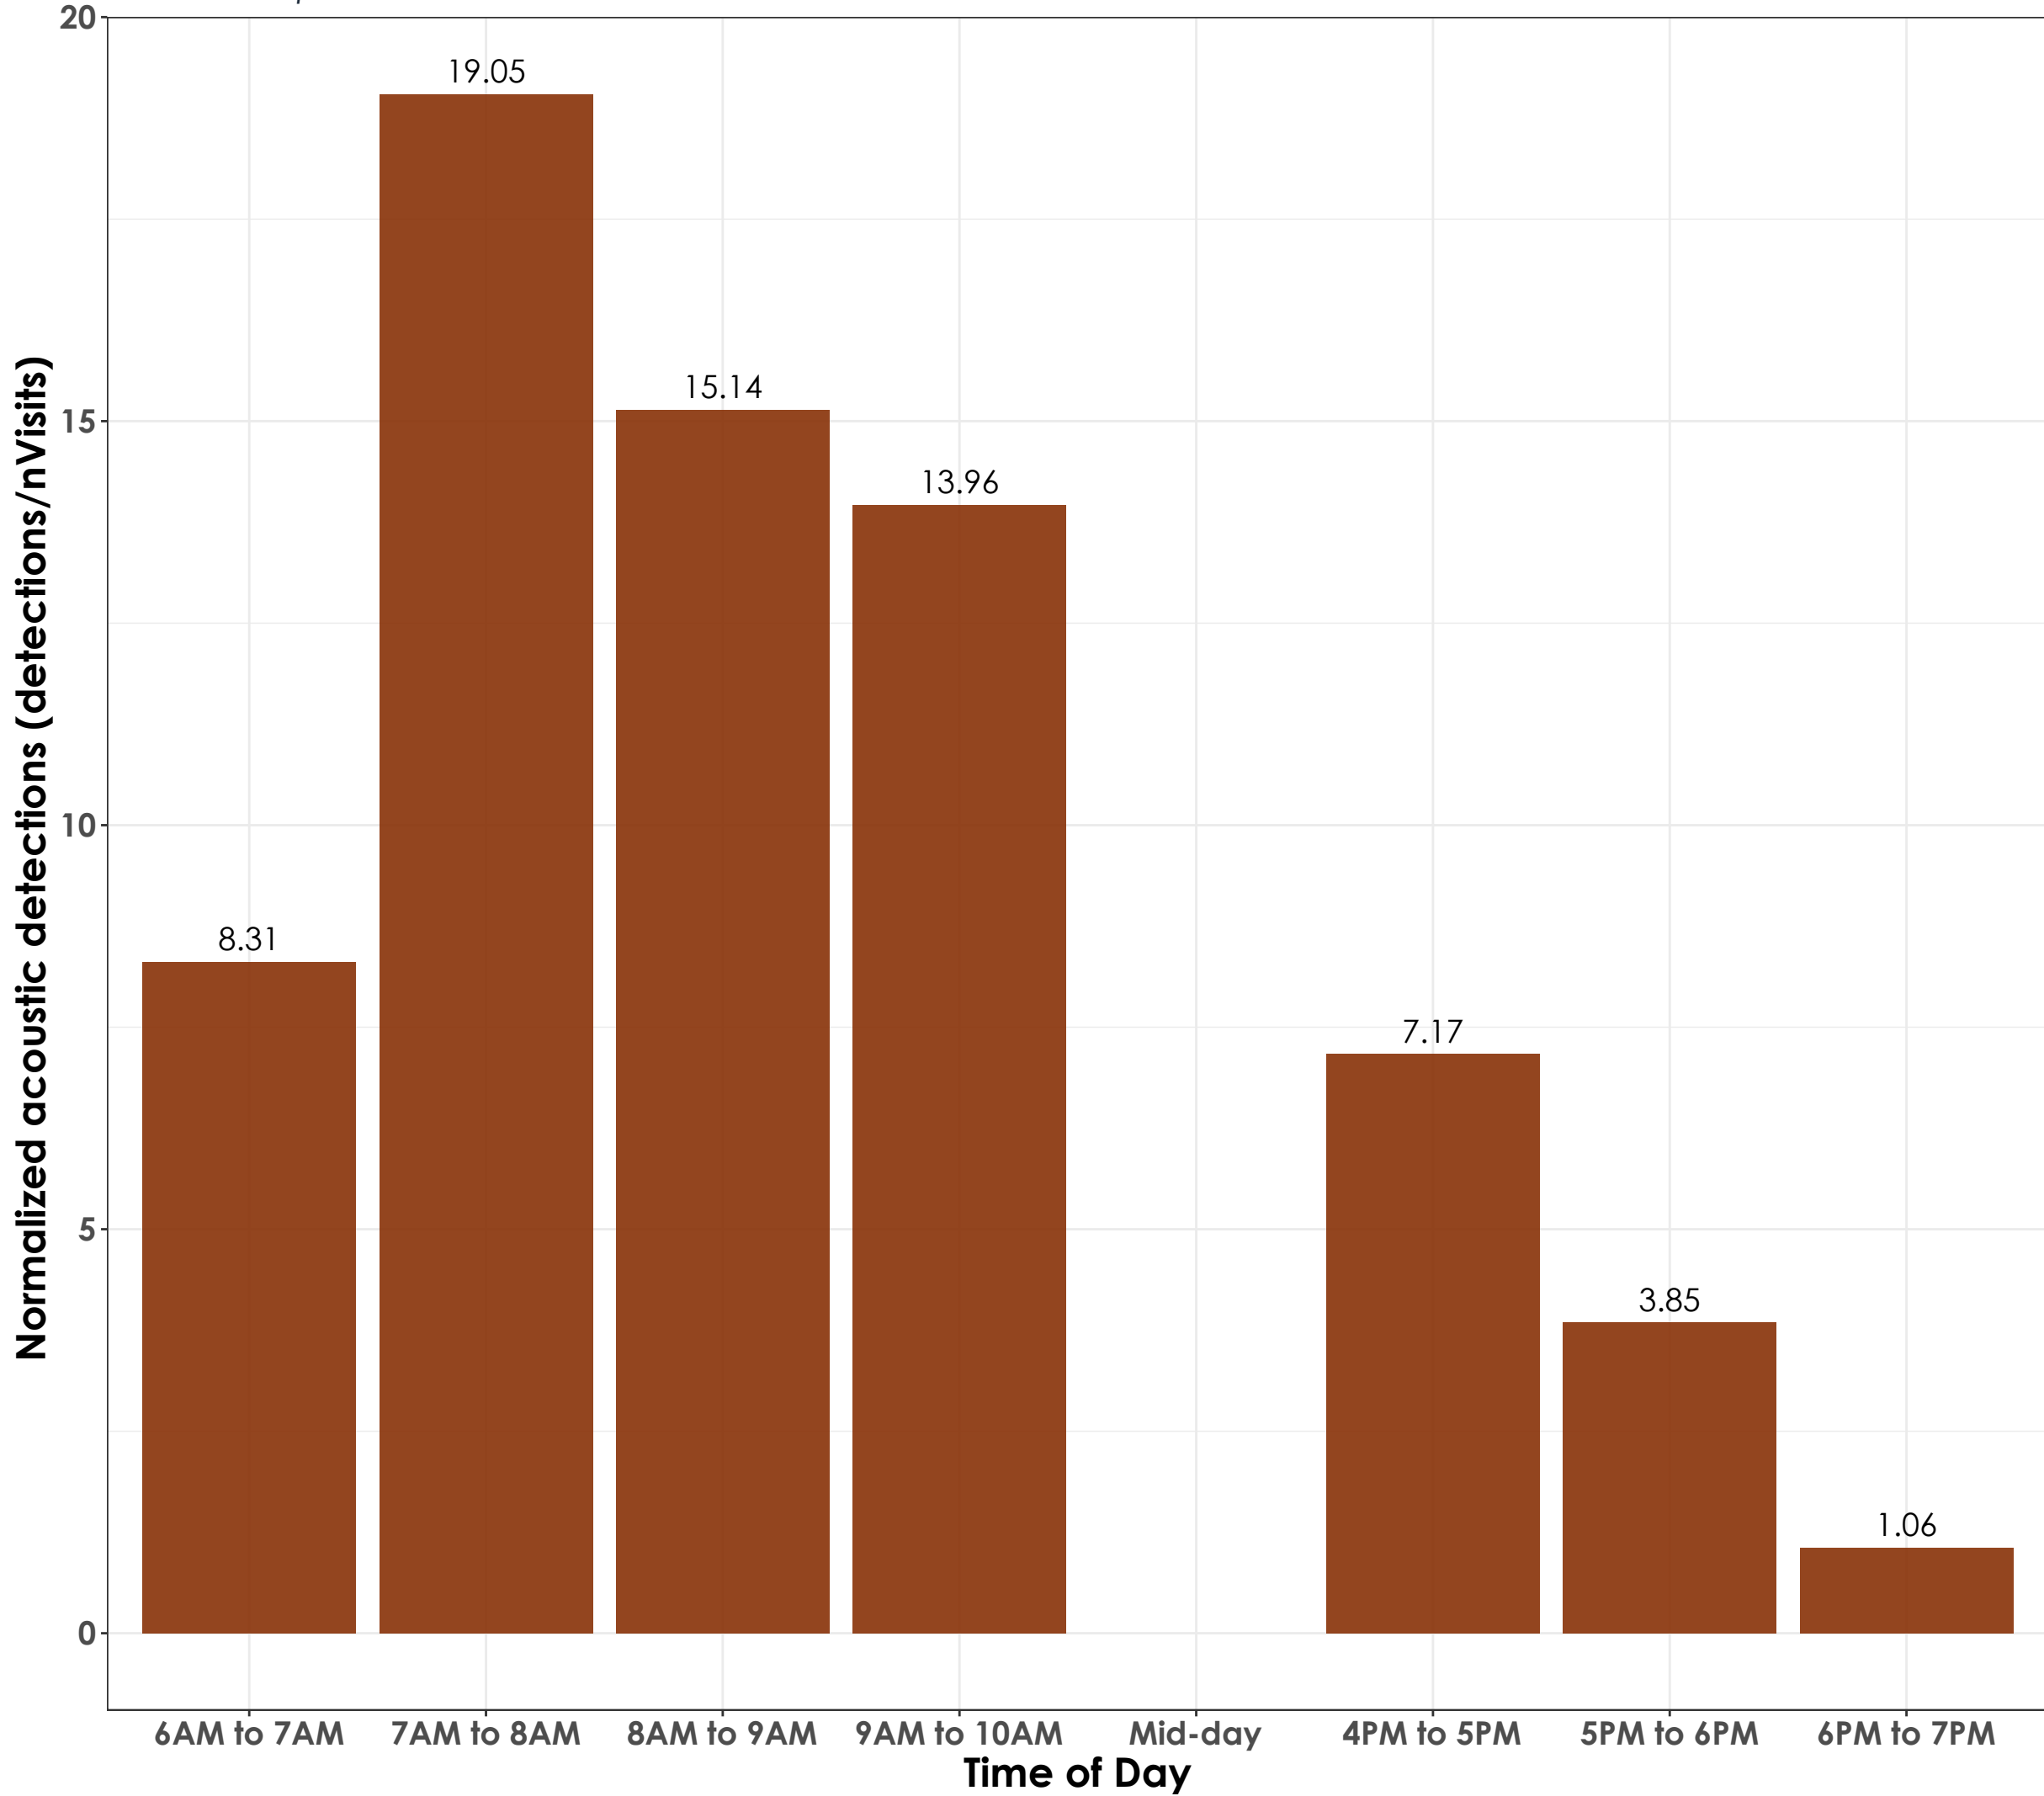

Each bar represents the normalized detections across dawn and dusk

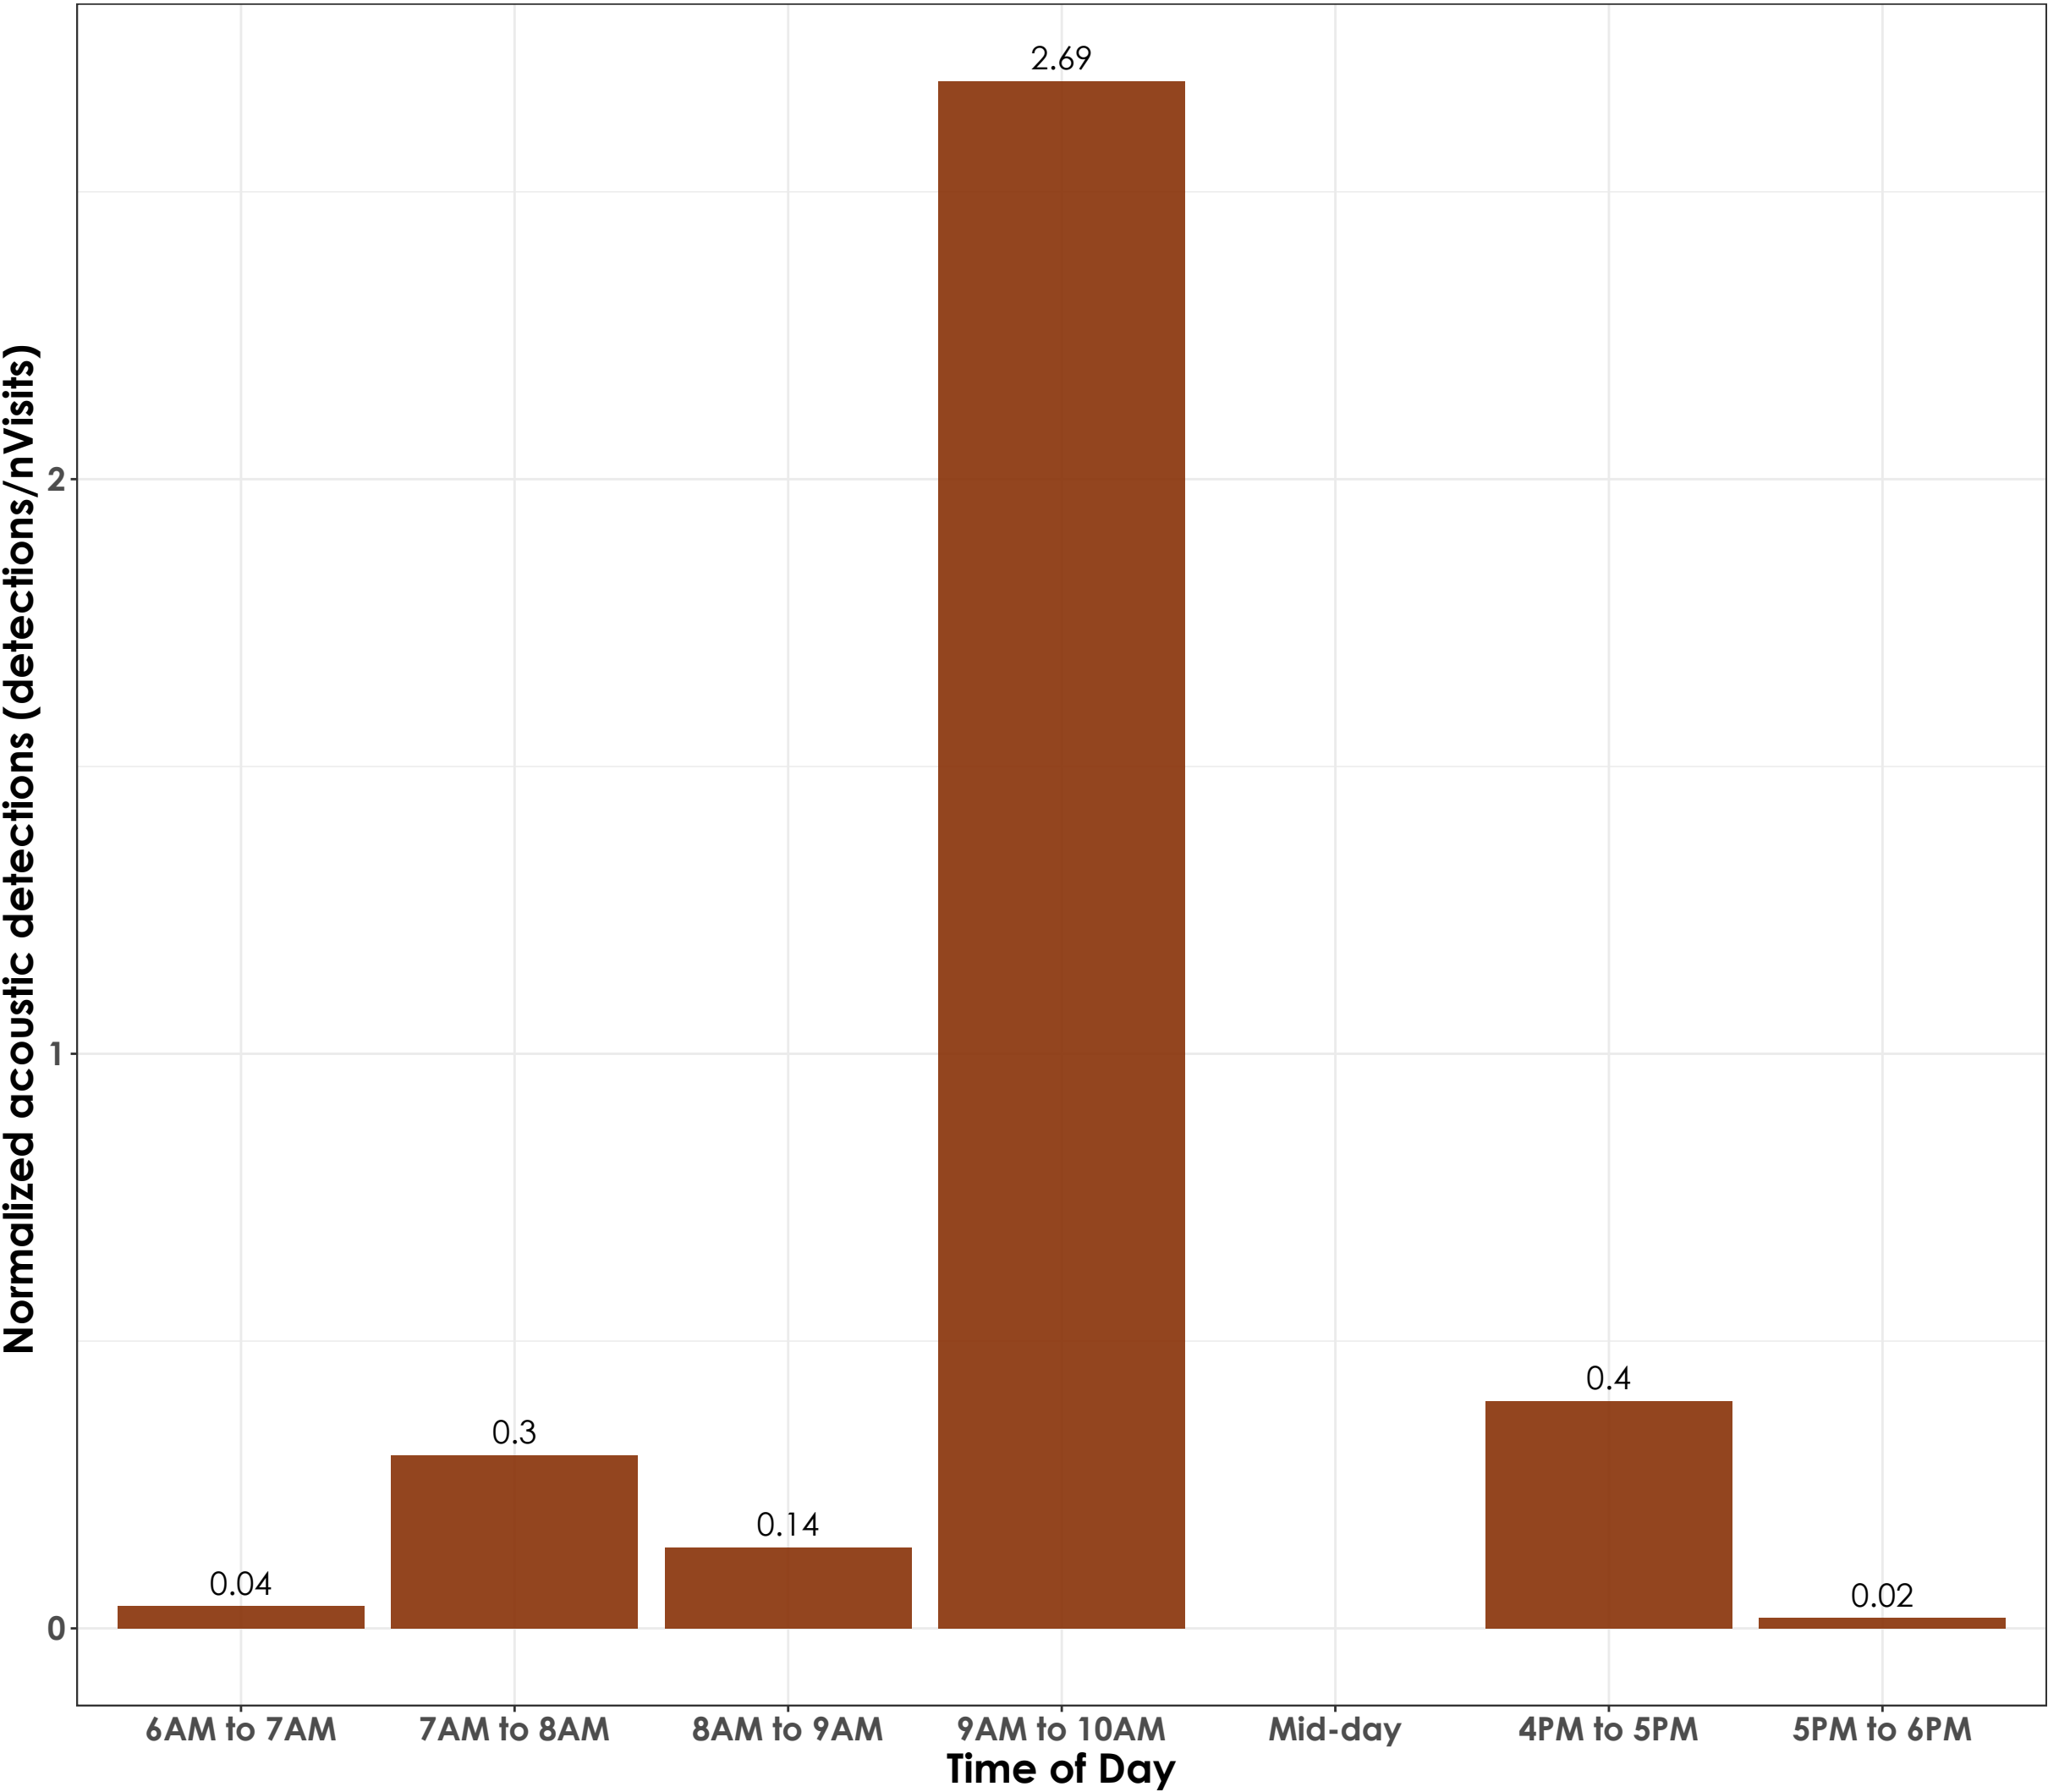

# Greenish Warbler

*Each bar represents the normalized detections across dawn and dusk*

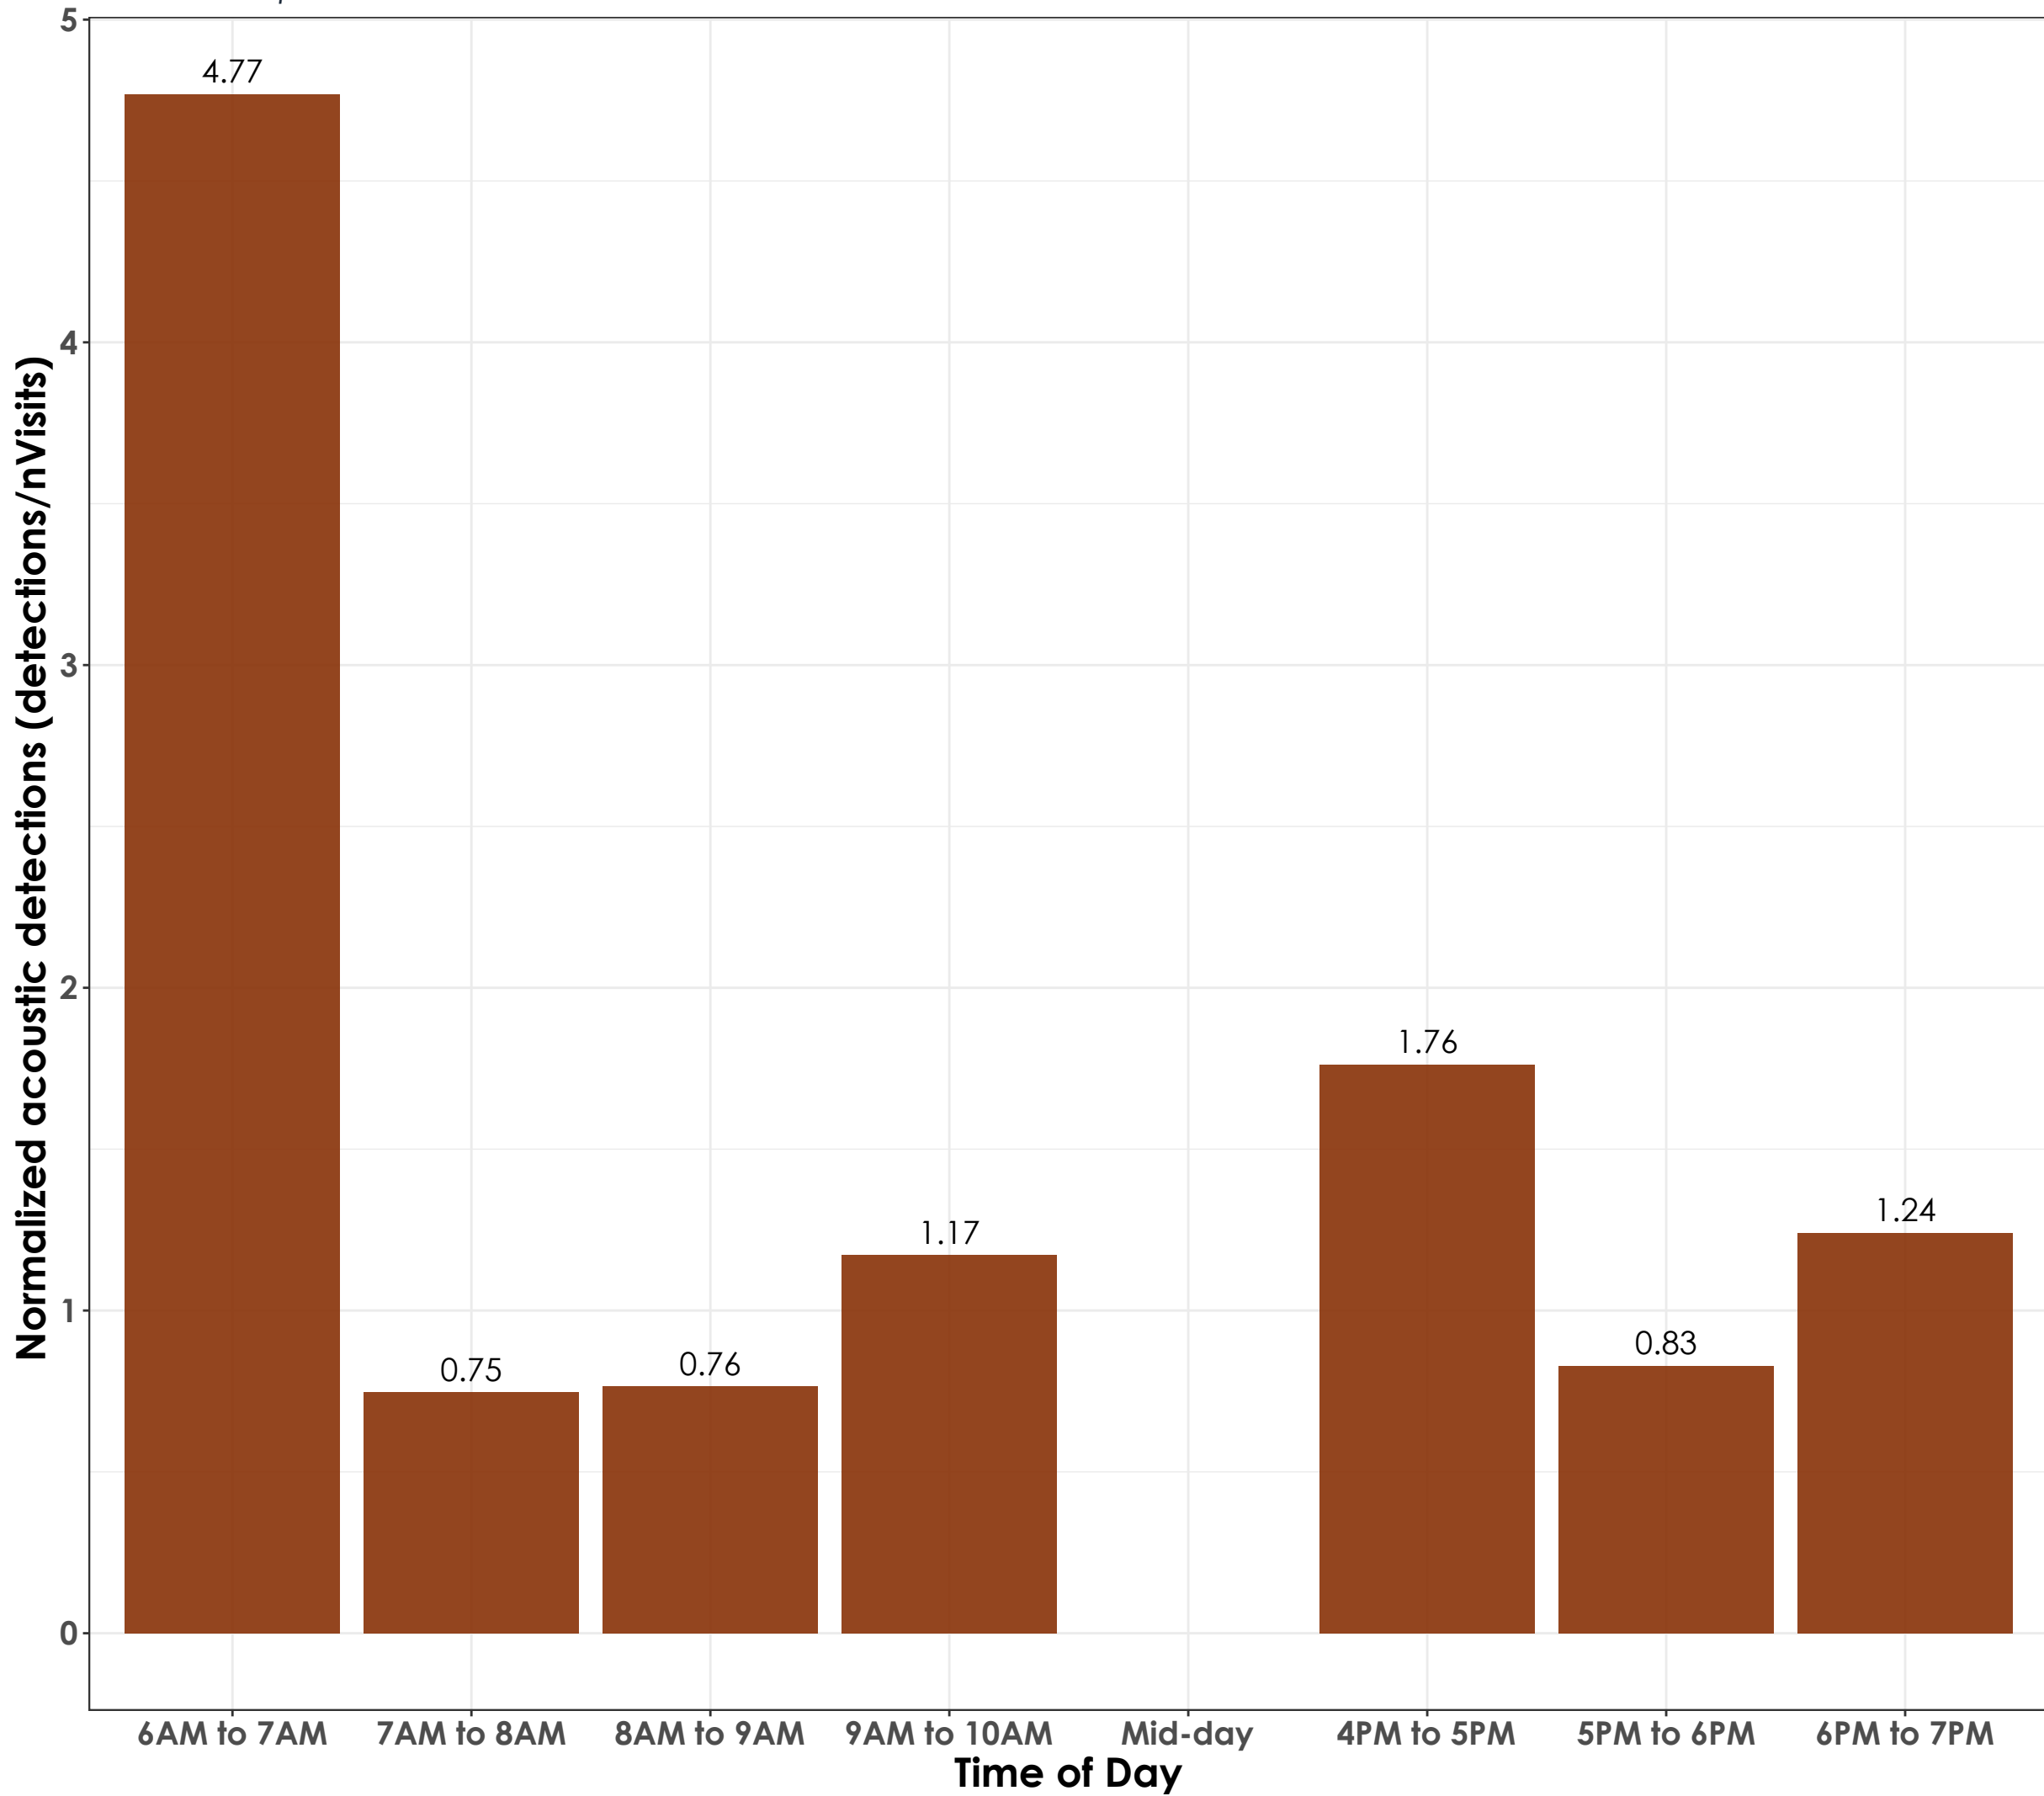

# Crested Serpent-Eagle

Each bar represents the normalized detections across dawn and dusk

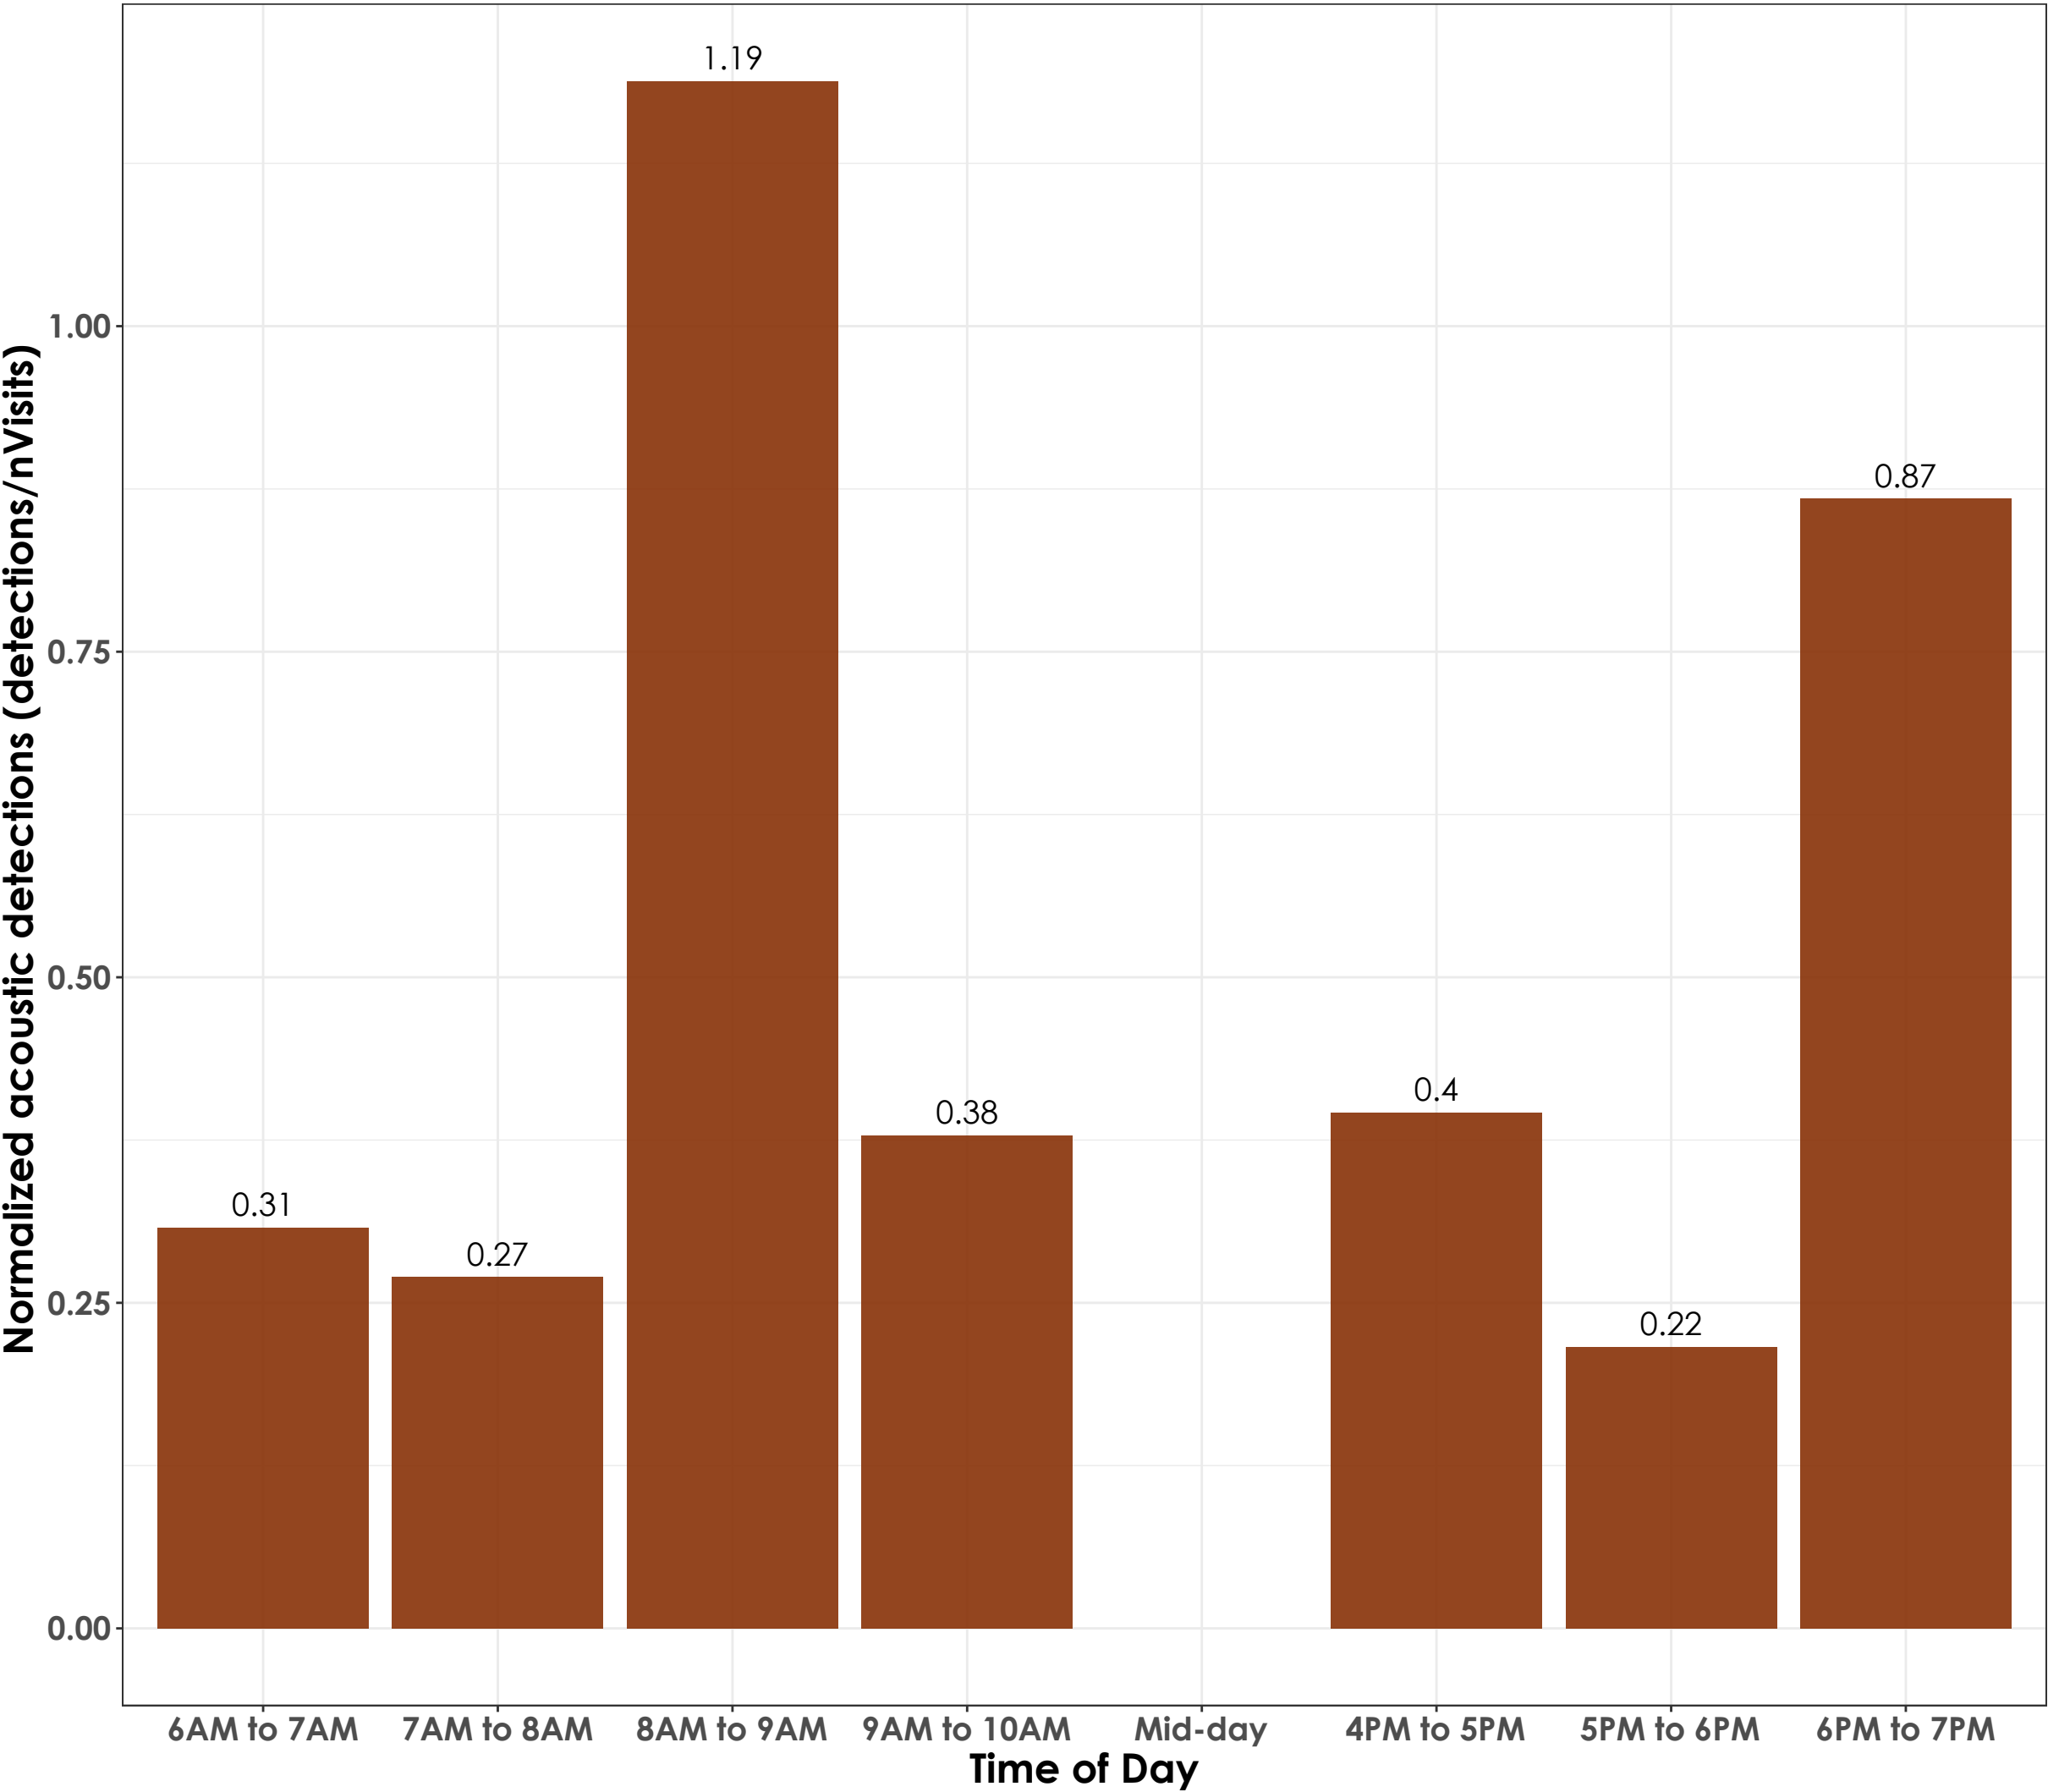

# White-bellied Blue Flycatcher

*Each bar represents the normalized detections across dawn and dusk*

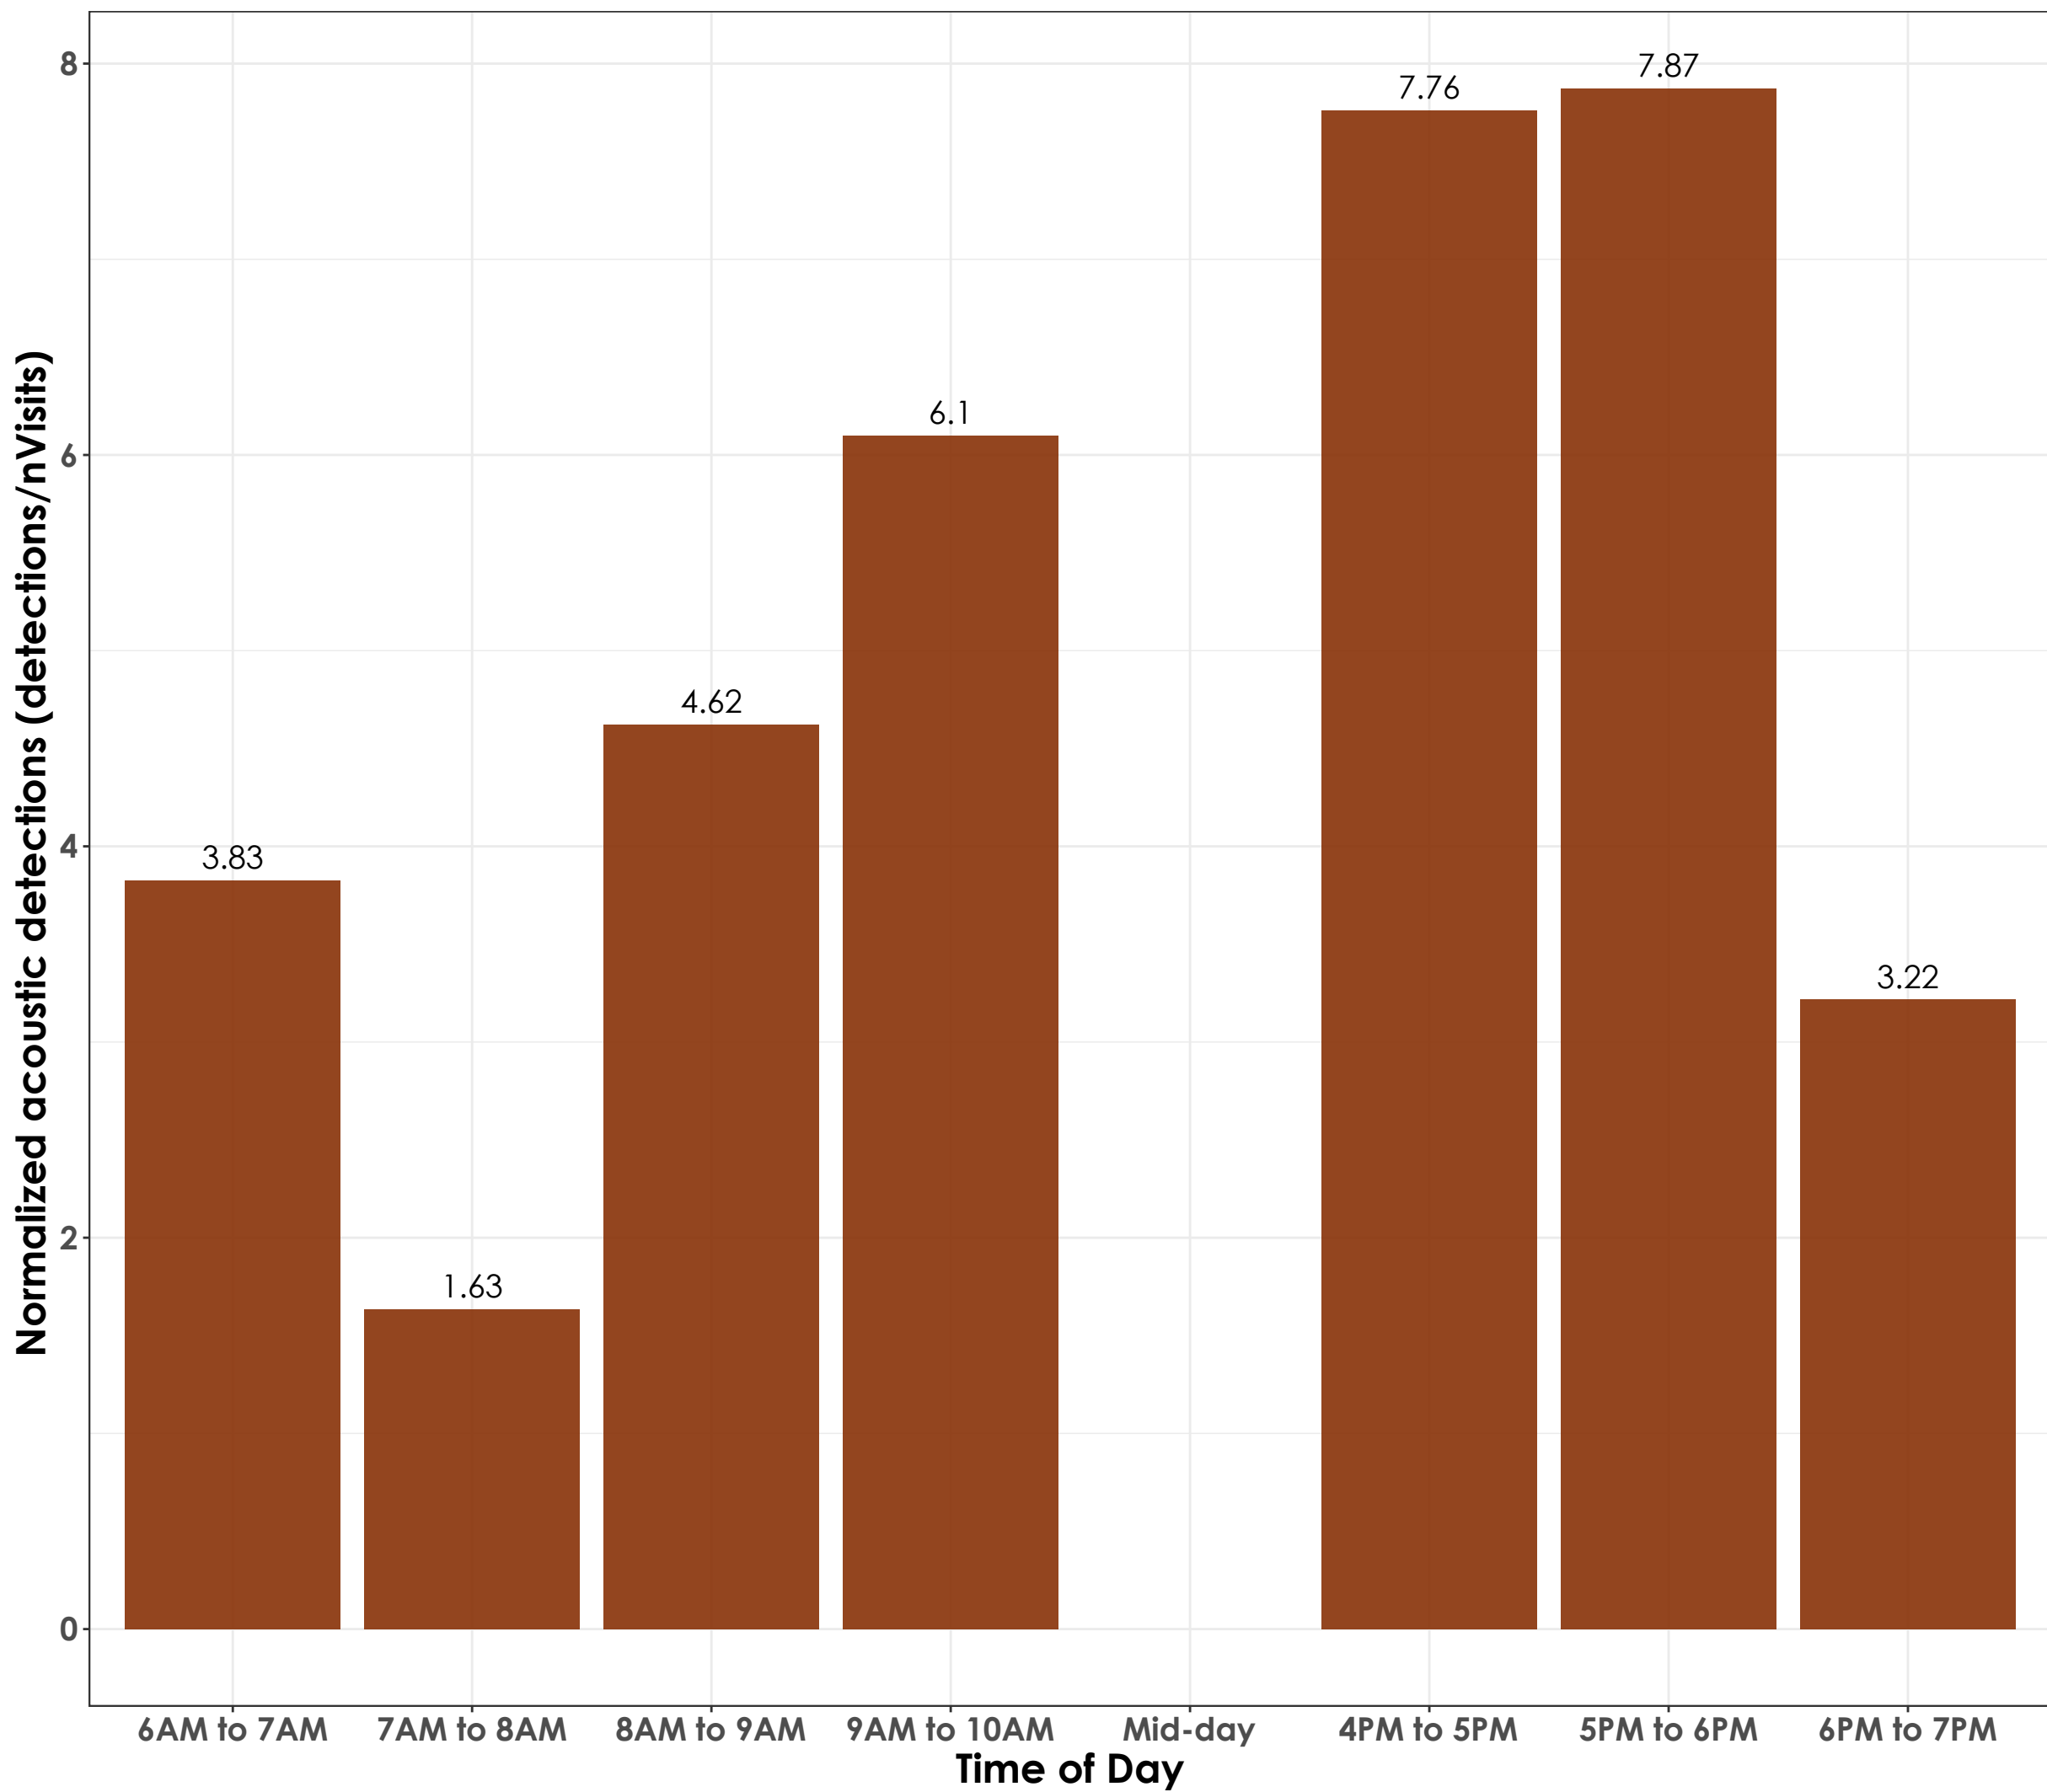

# Indian Peafowl

Each bar represents the normalized detections across dawn and dusk

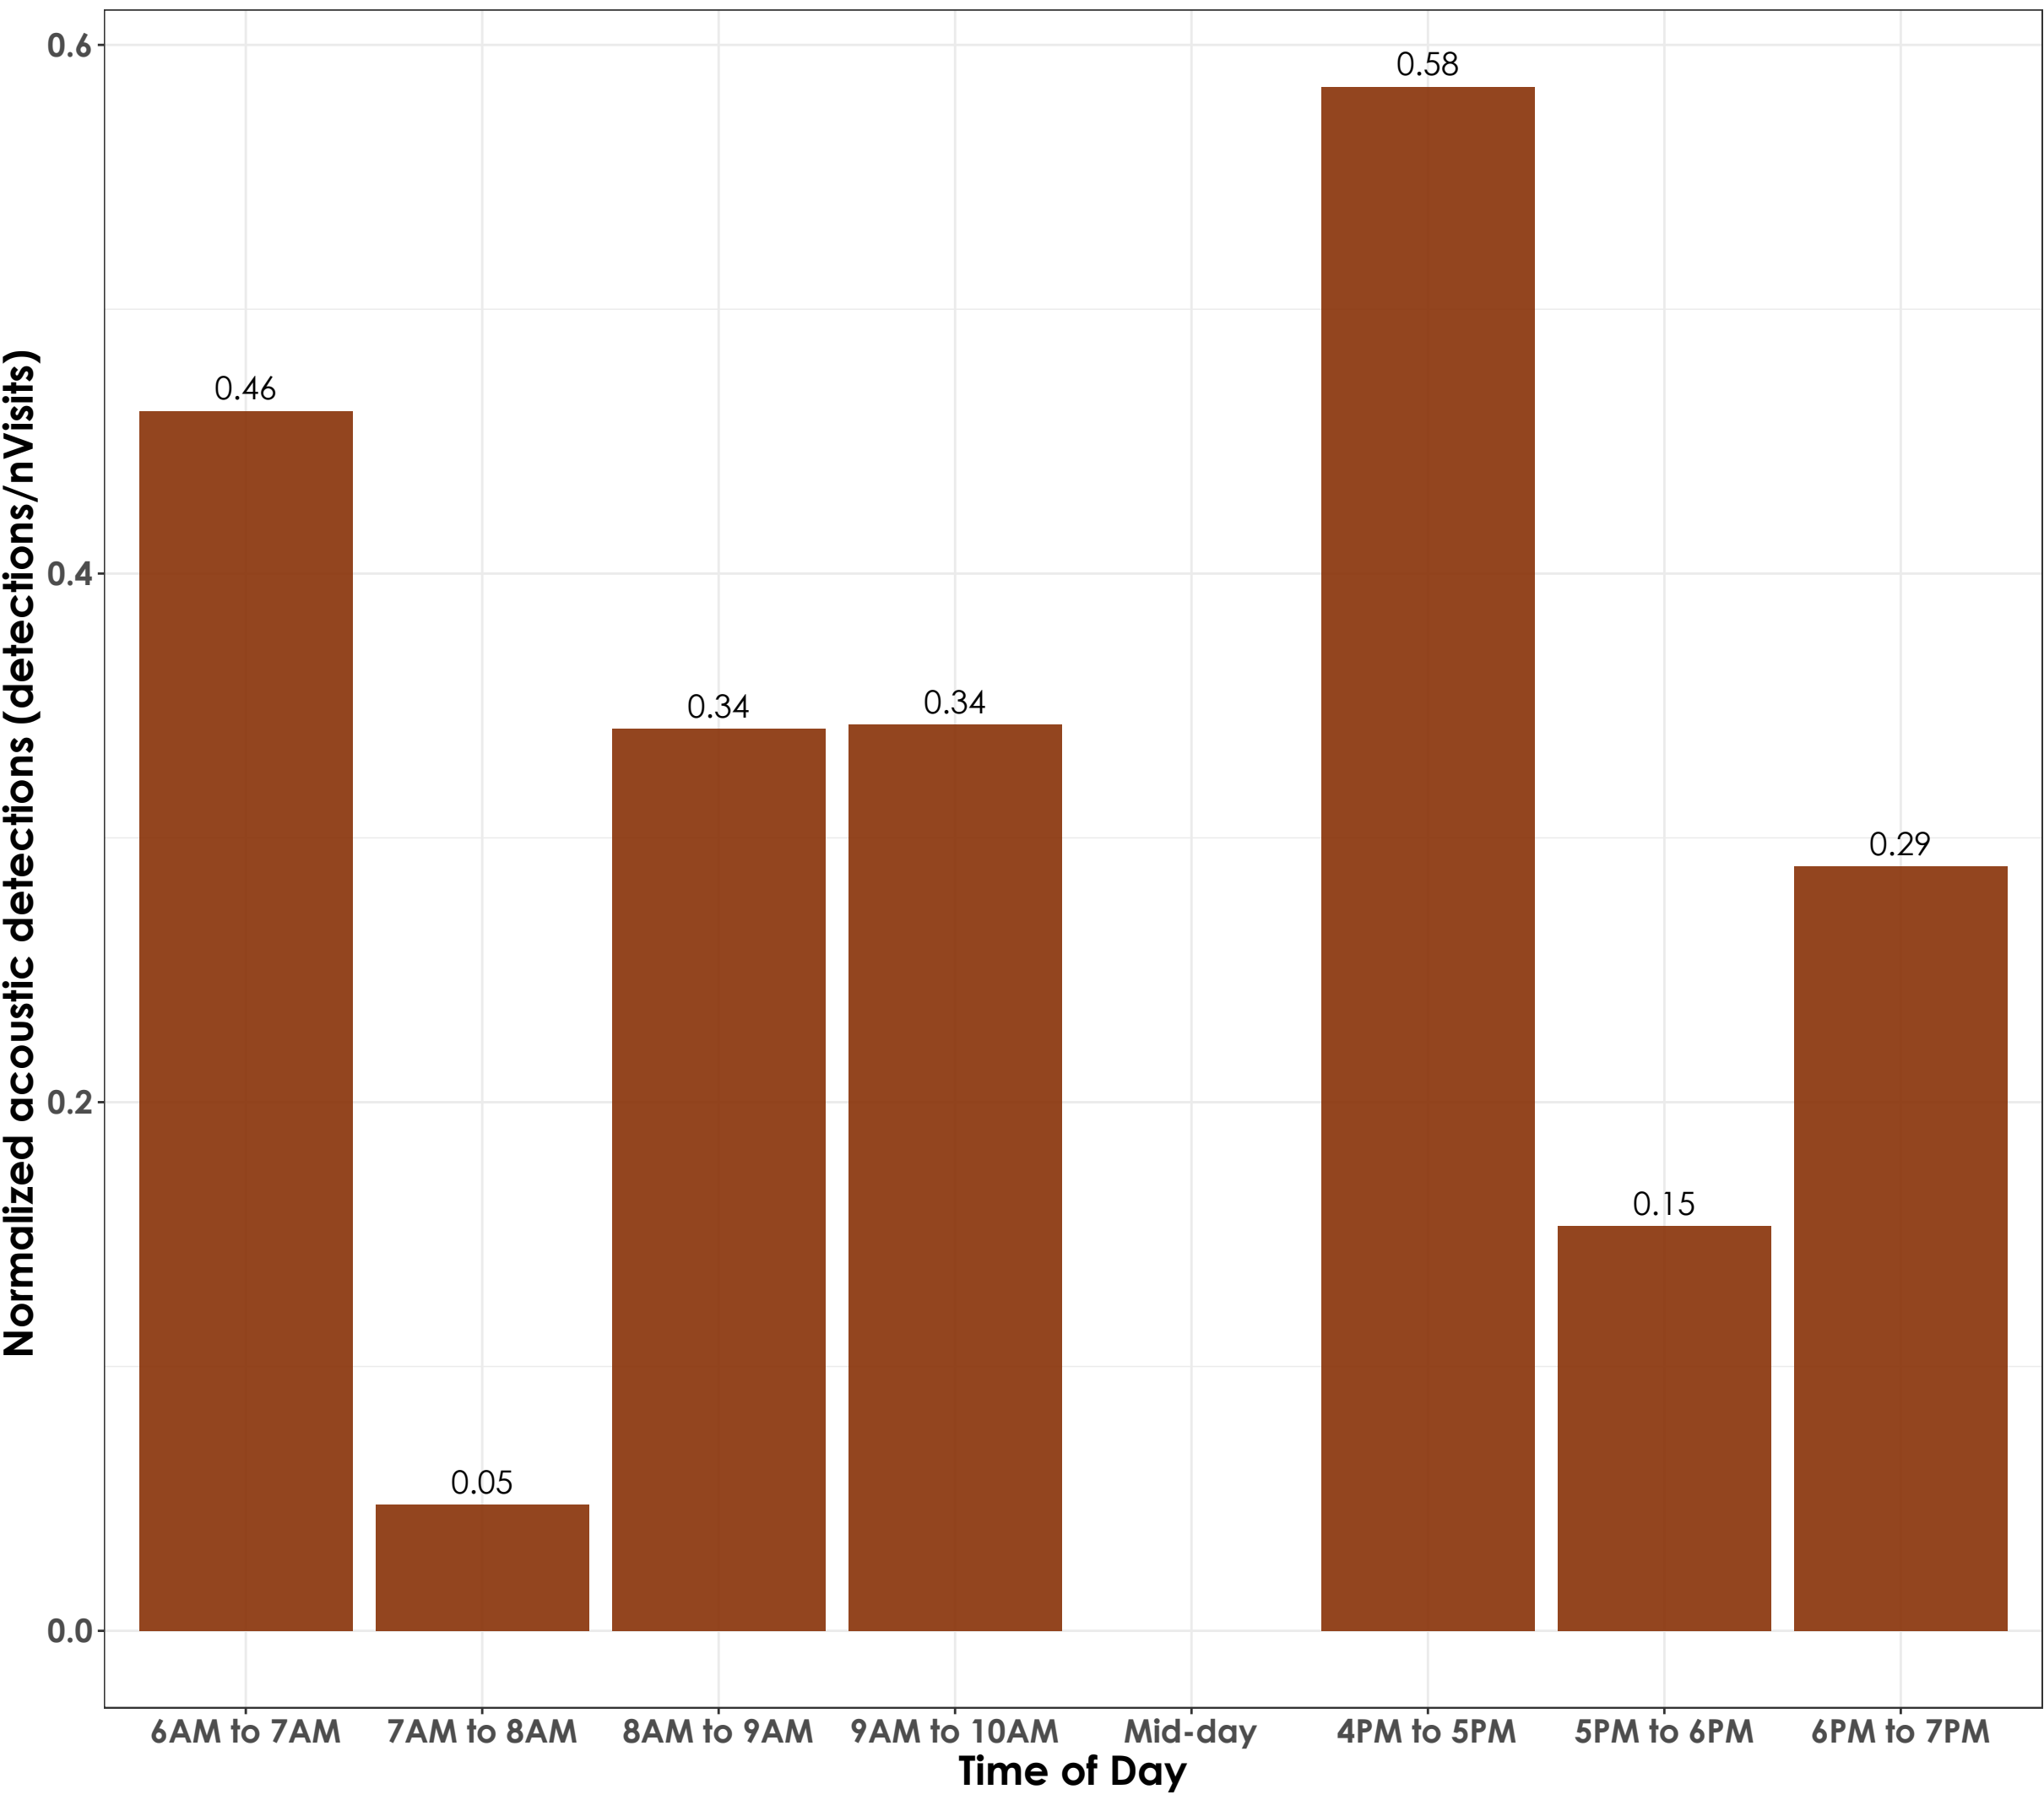

# Malabar Barbet

Each bar represents the normalized detections across dawn and dusk

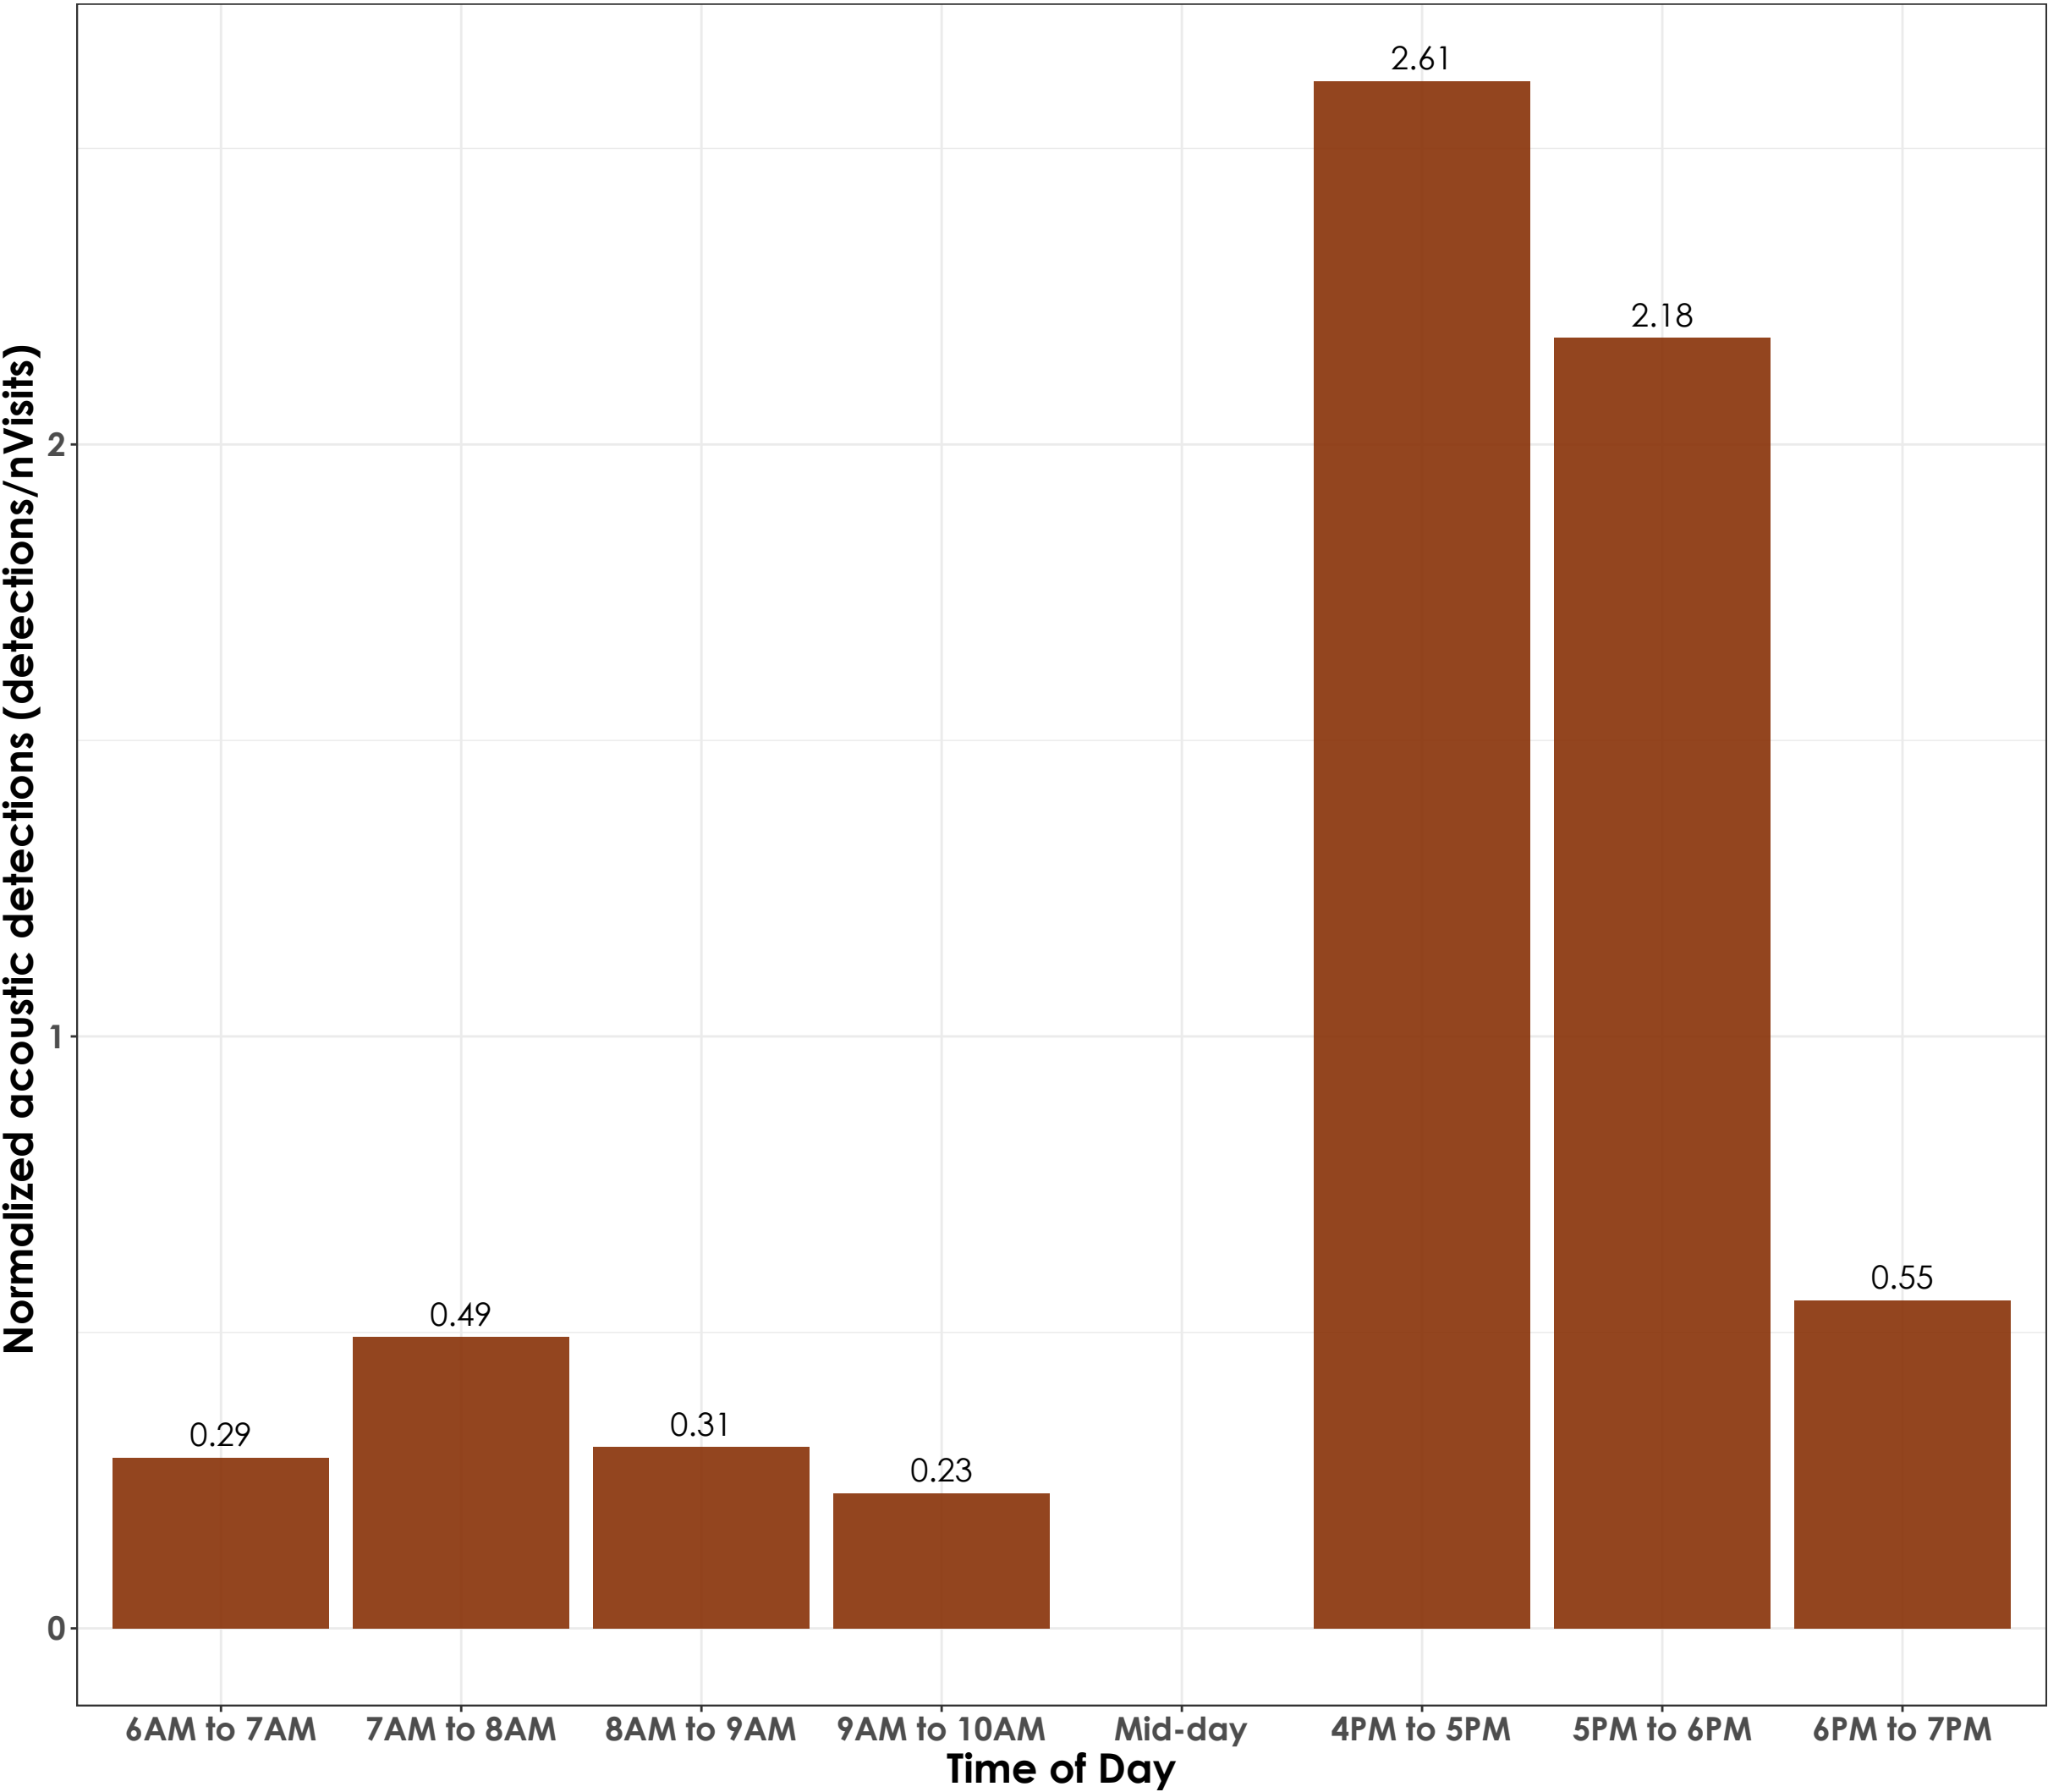

**Bronzed Drongo**

*Each bar represents the normalized detections across dawn and dusk*

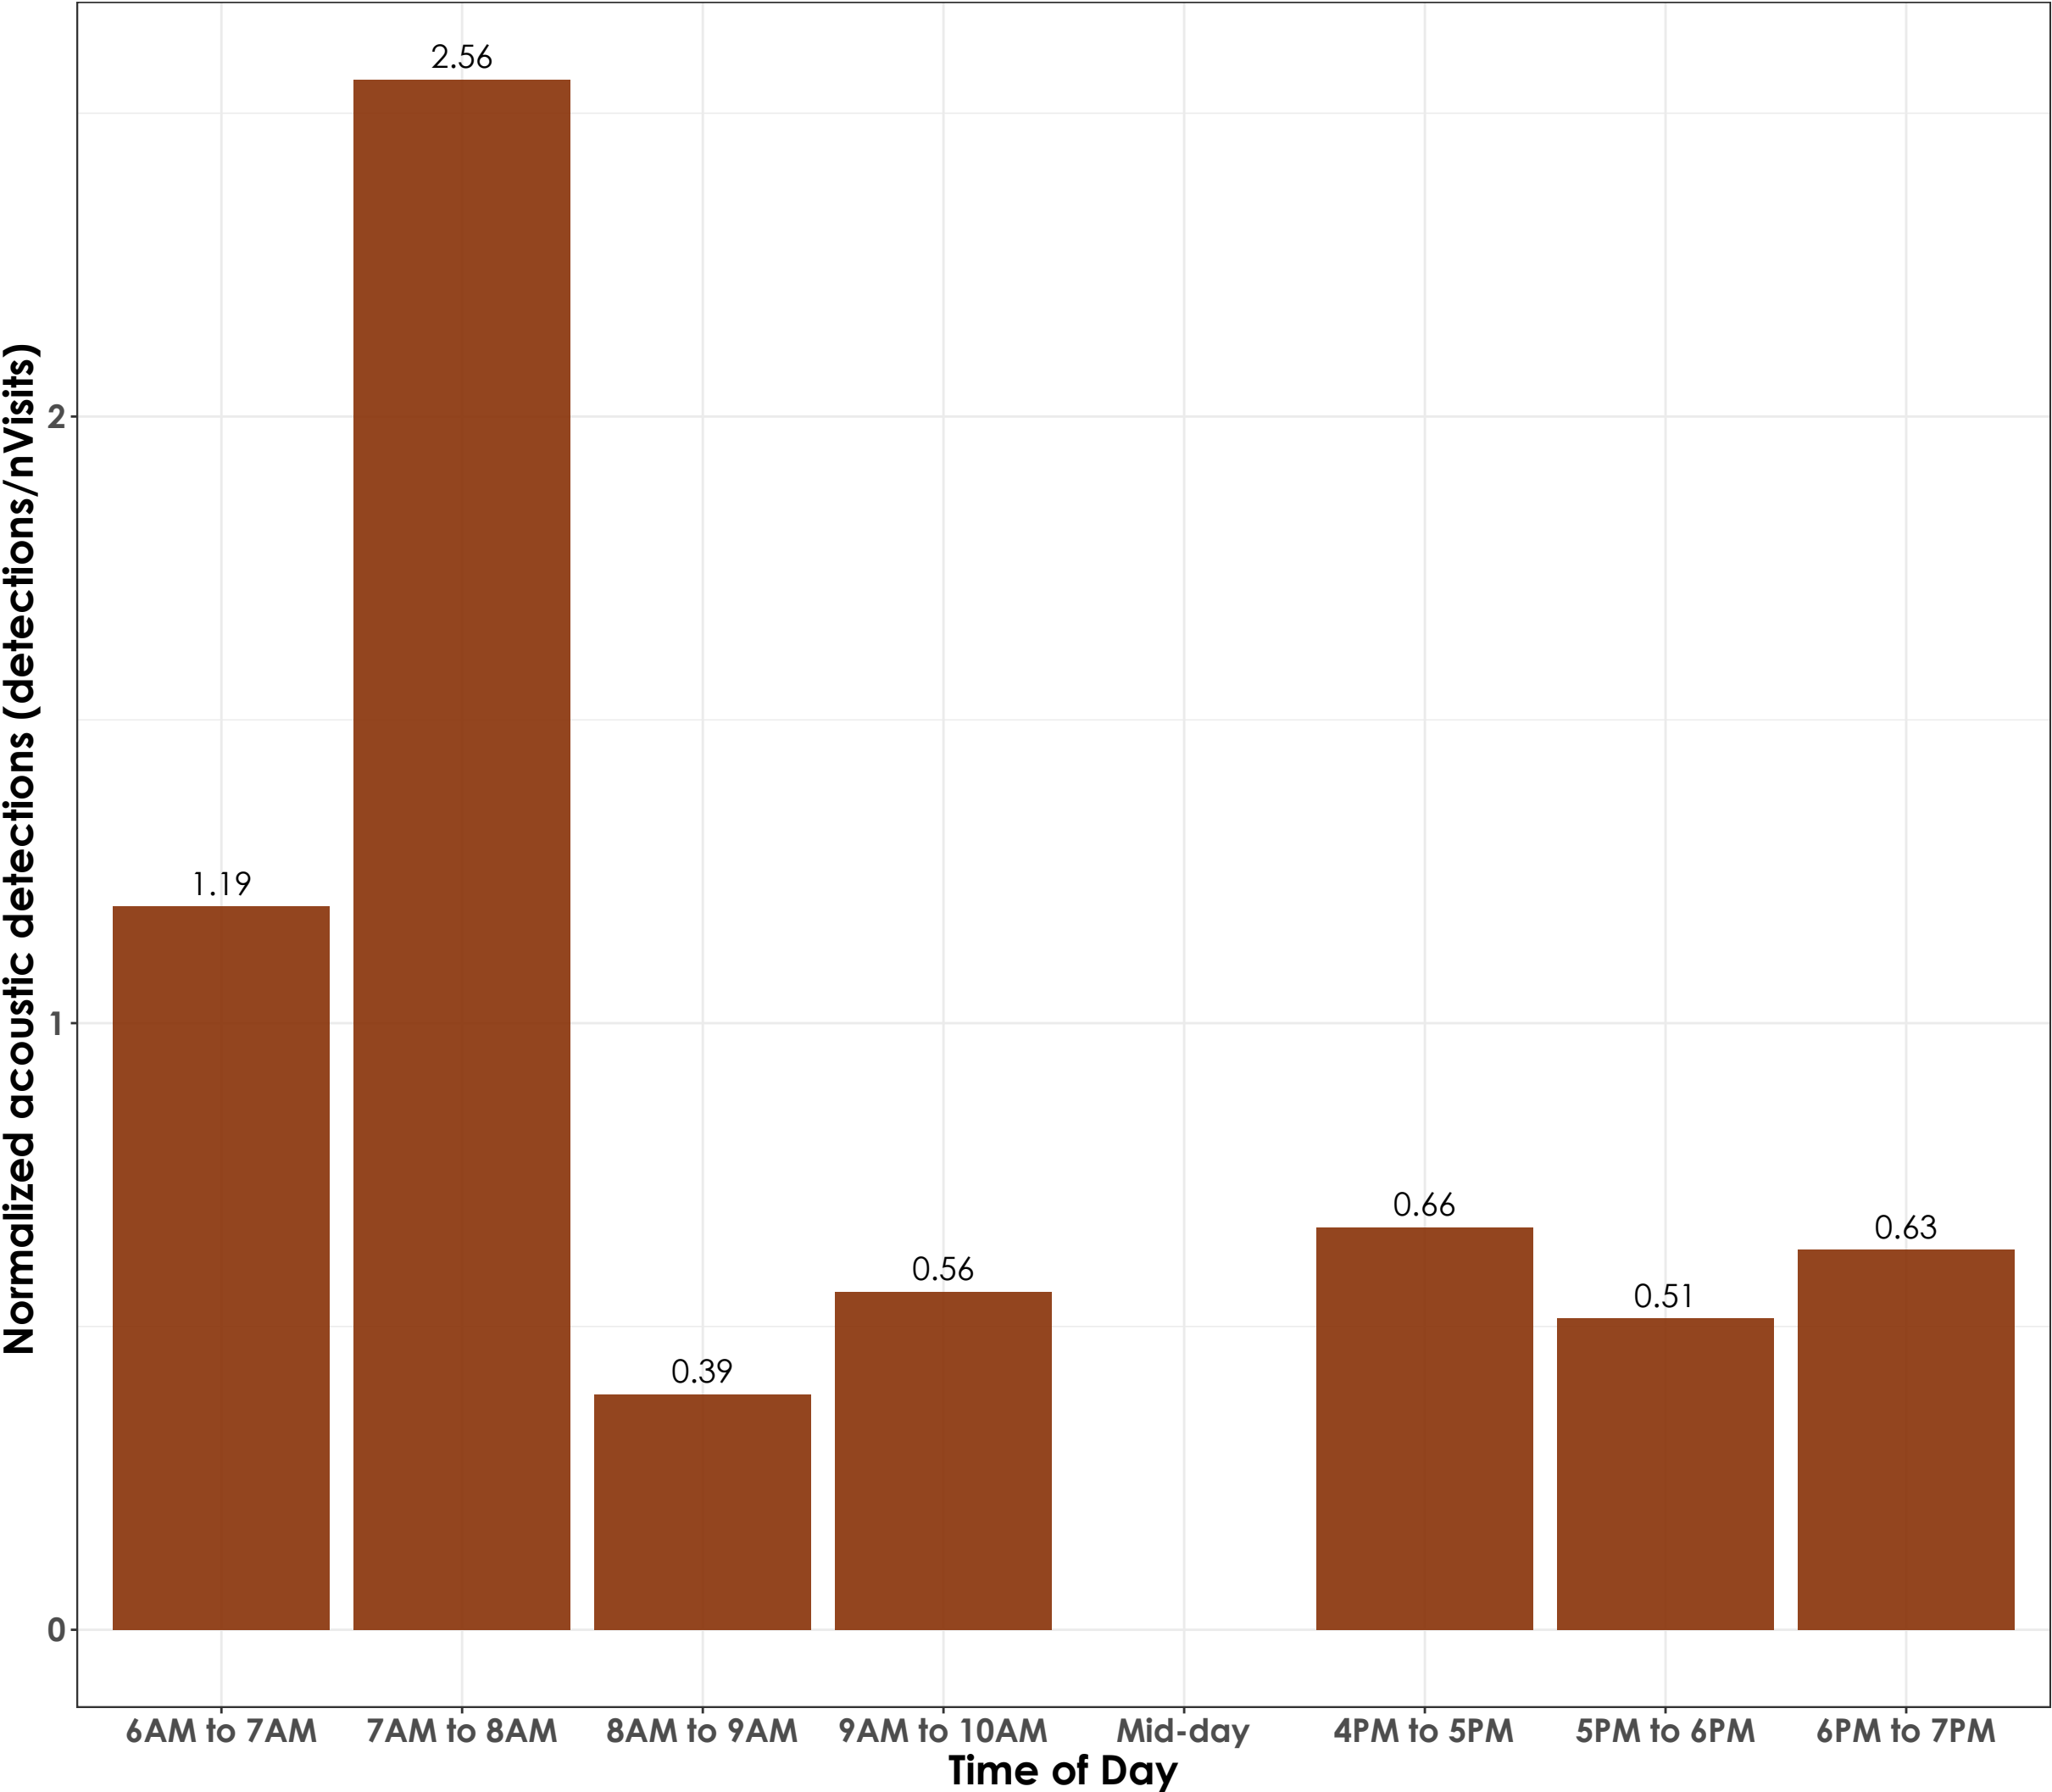

**Dark-fronted Babbler**

*Each bar represents the normalized detections across dawn and dusk*

# Great Hornbill

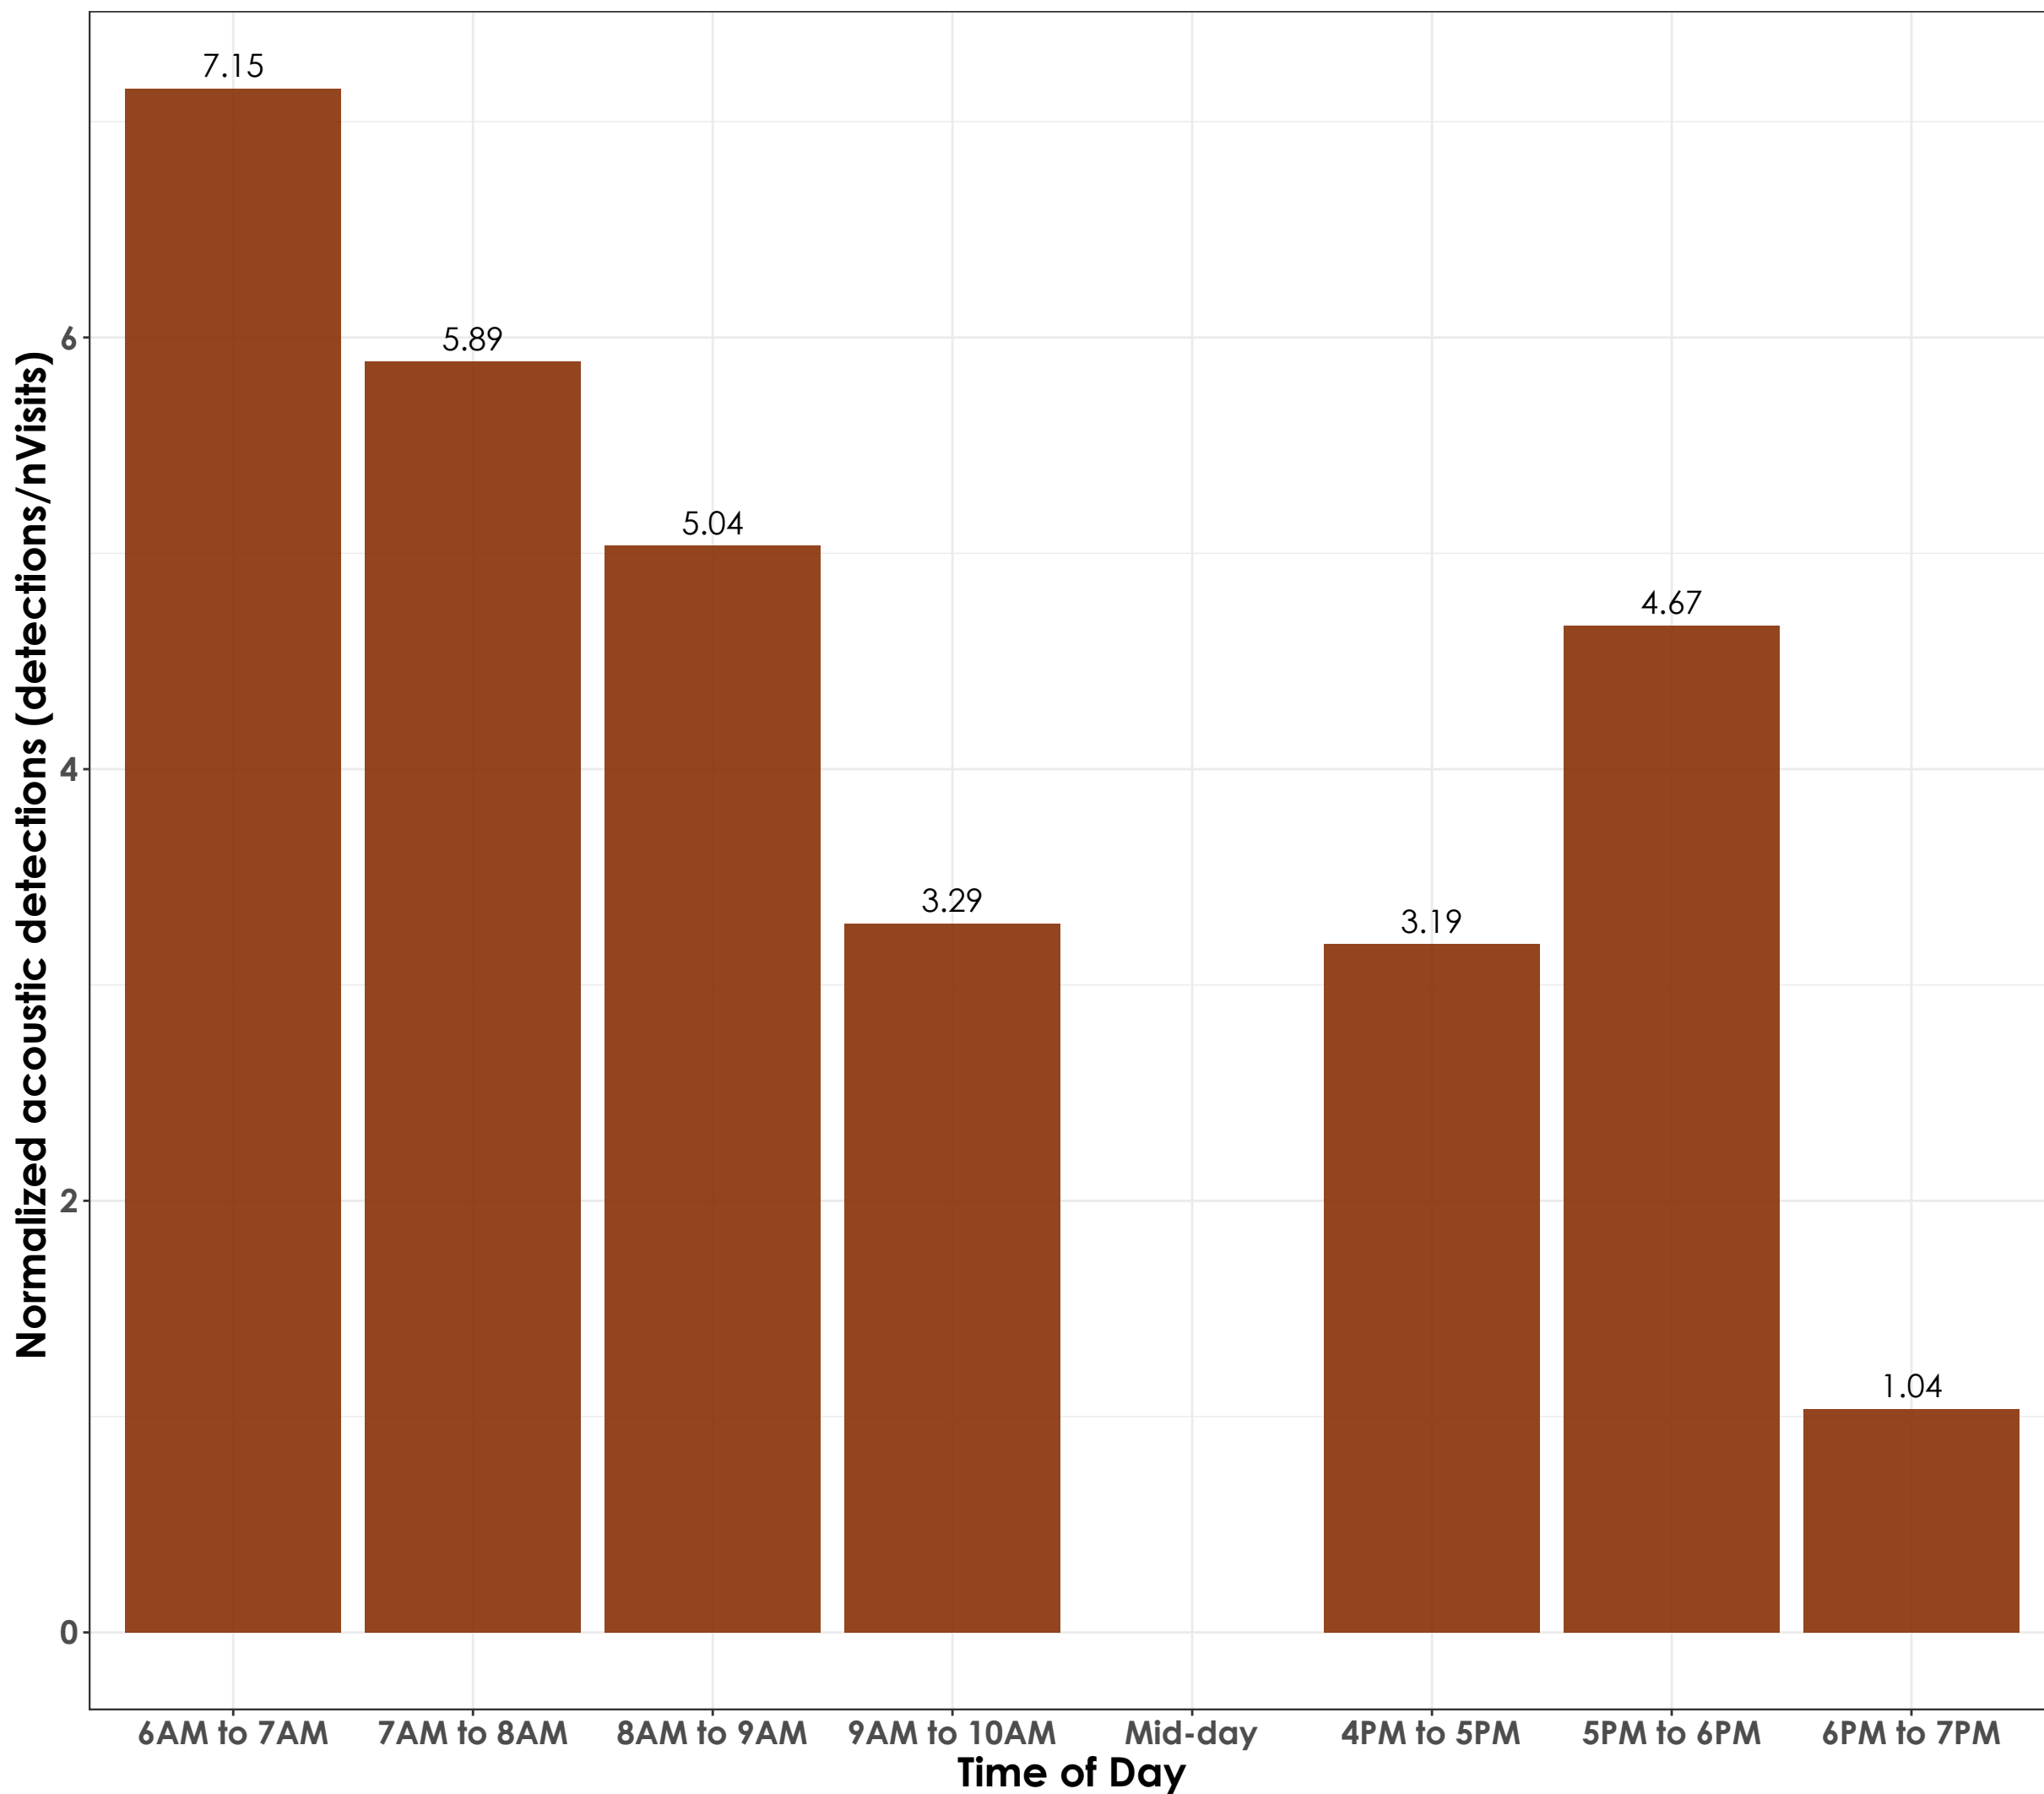

Each bar represents the normalized detections across dawn and dusk

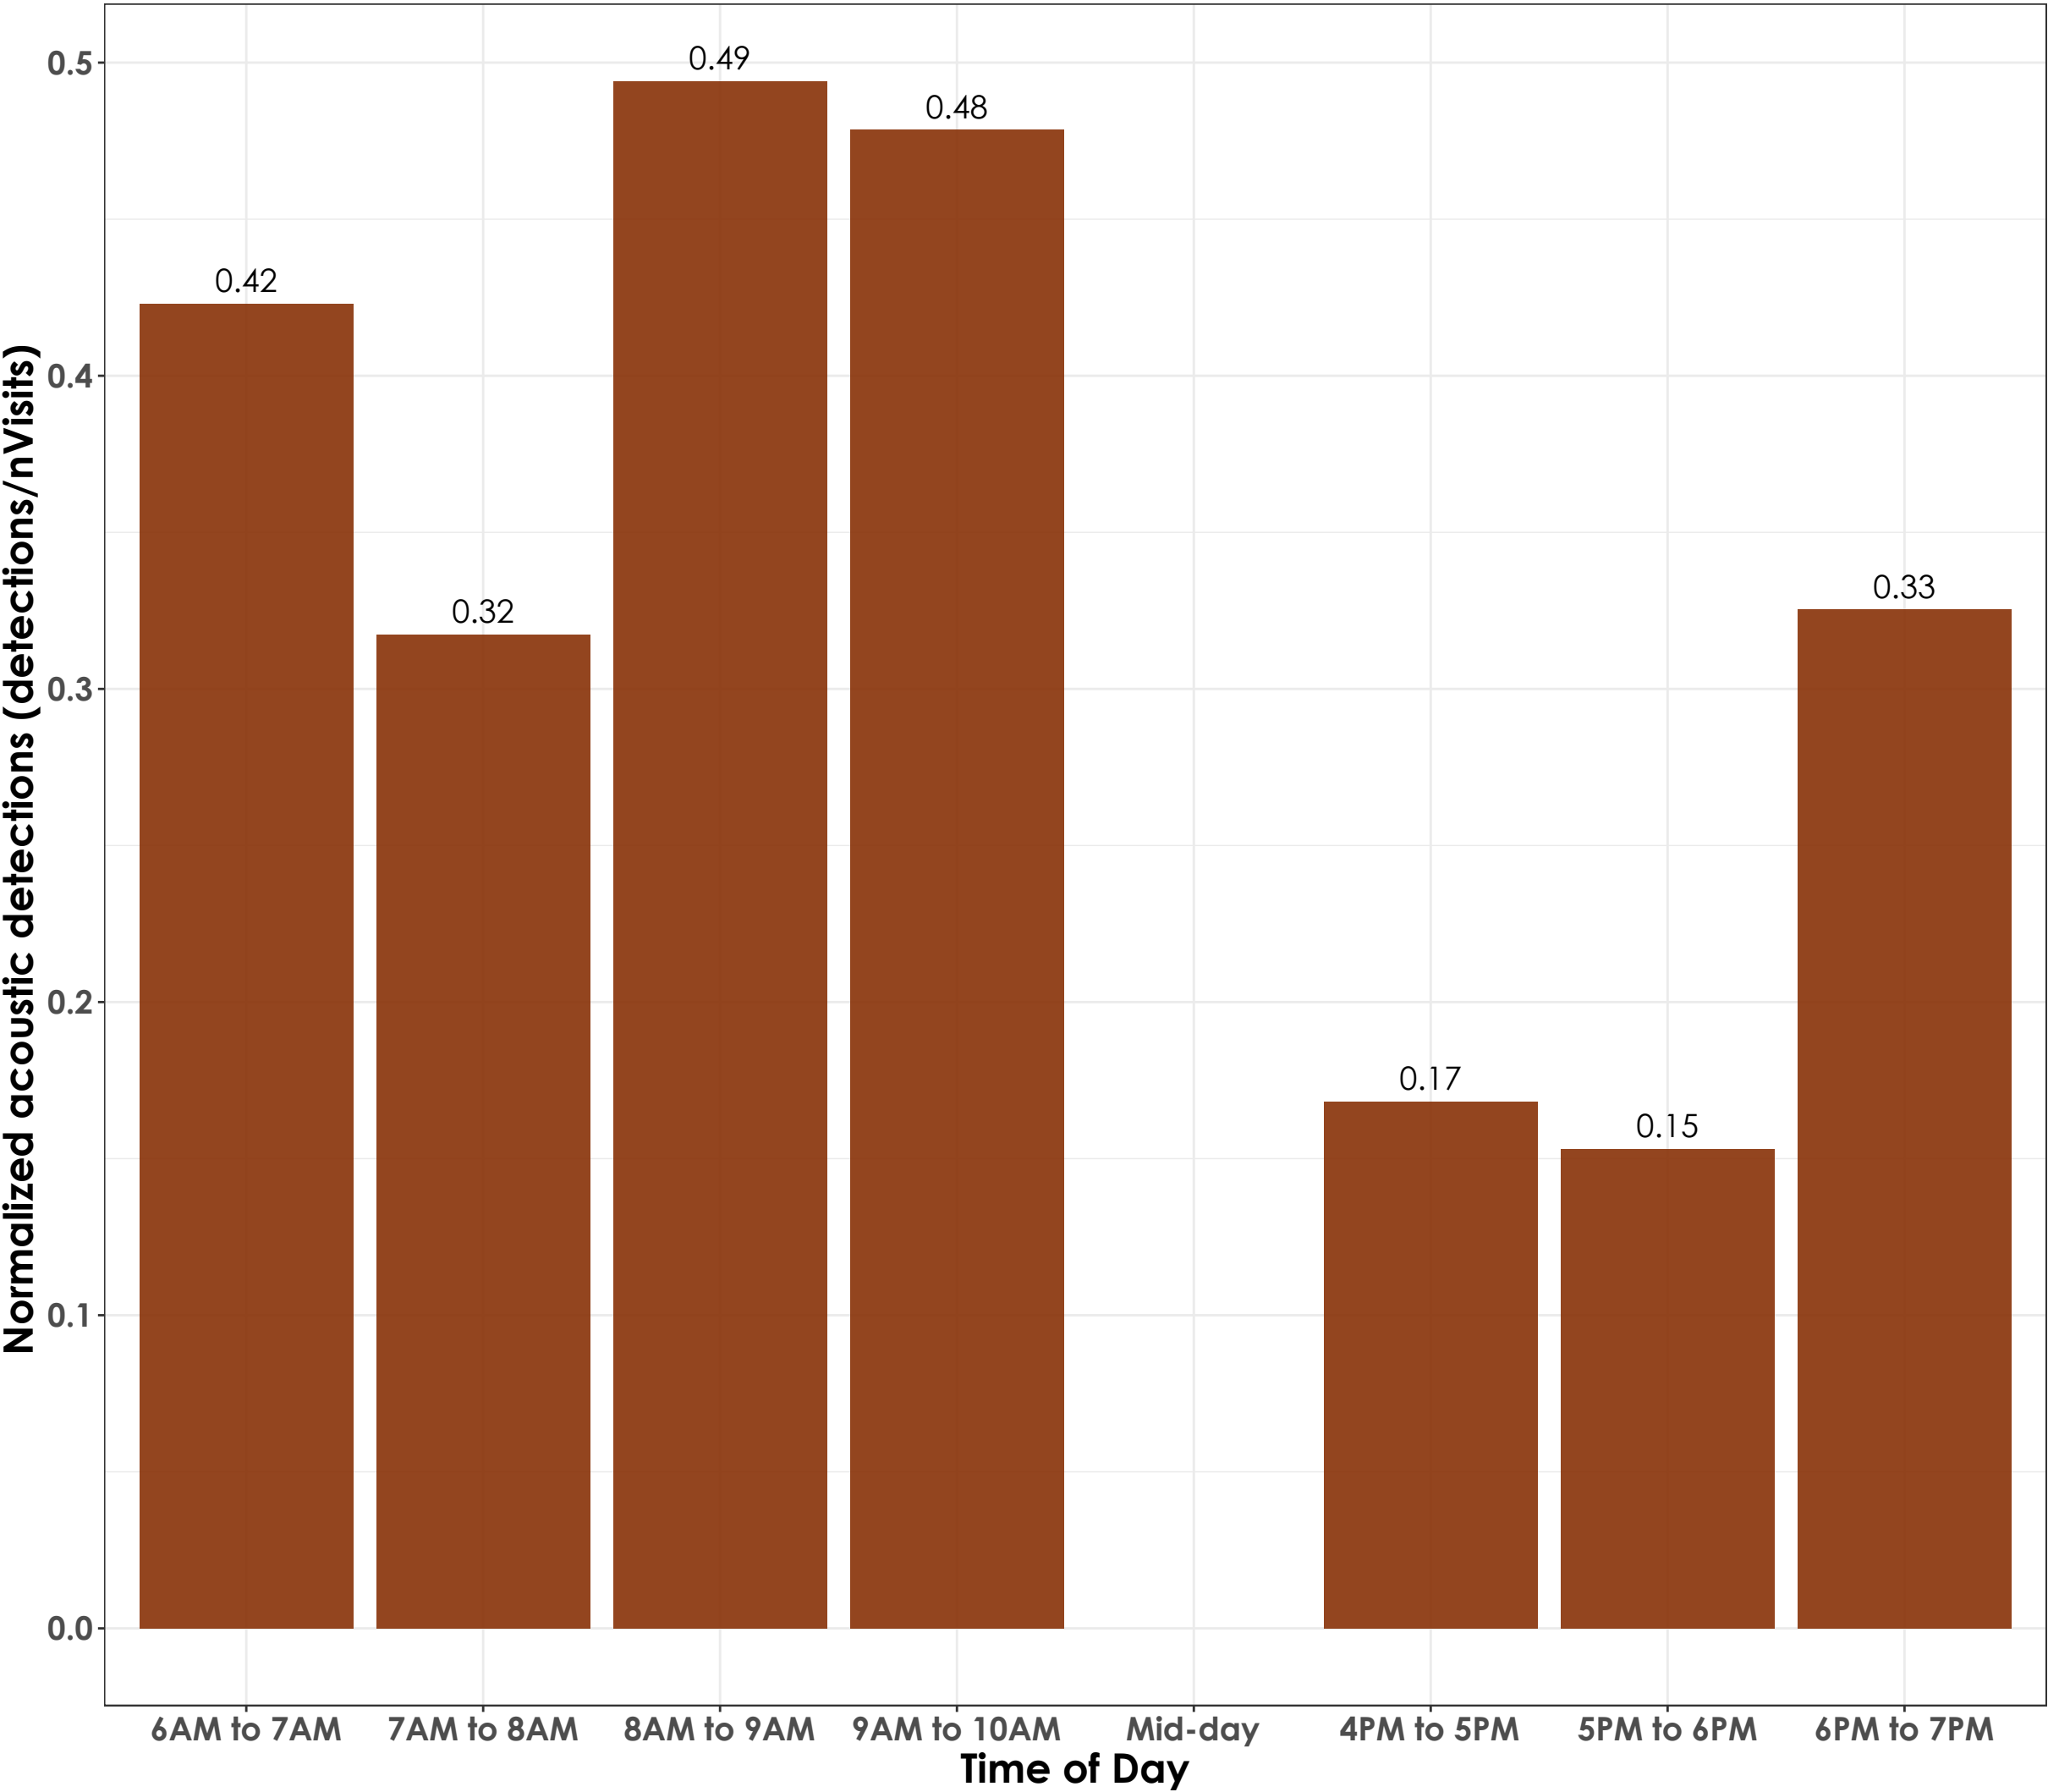

# Mountain Imperial-Pigeon

*Each bar represents the normalized detections across dawn and dusk*

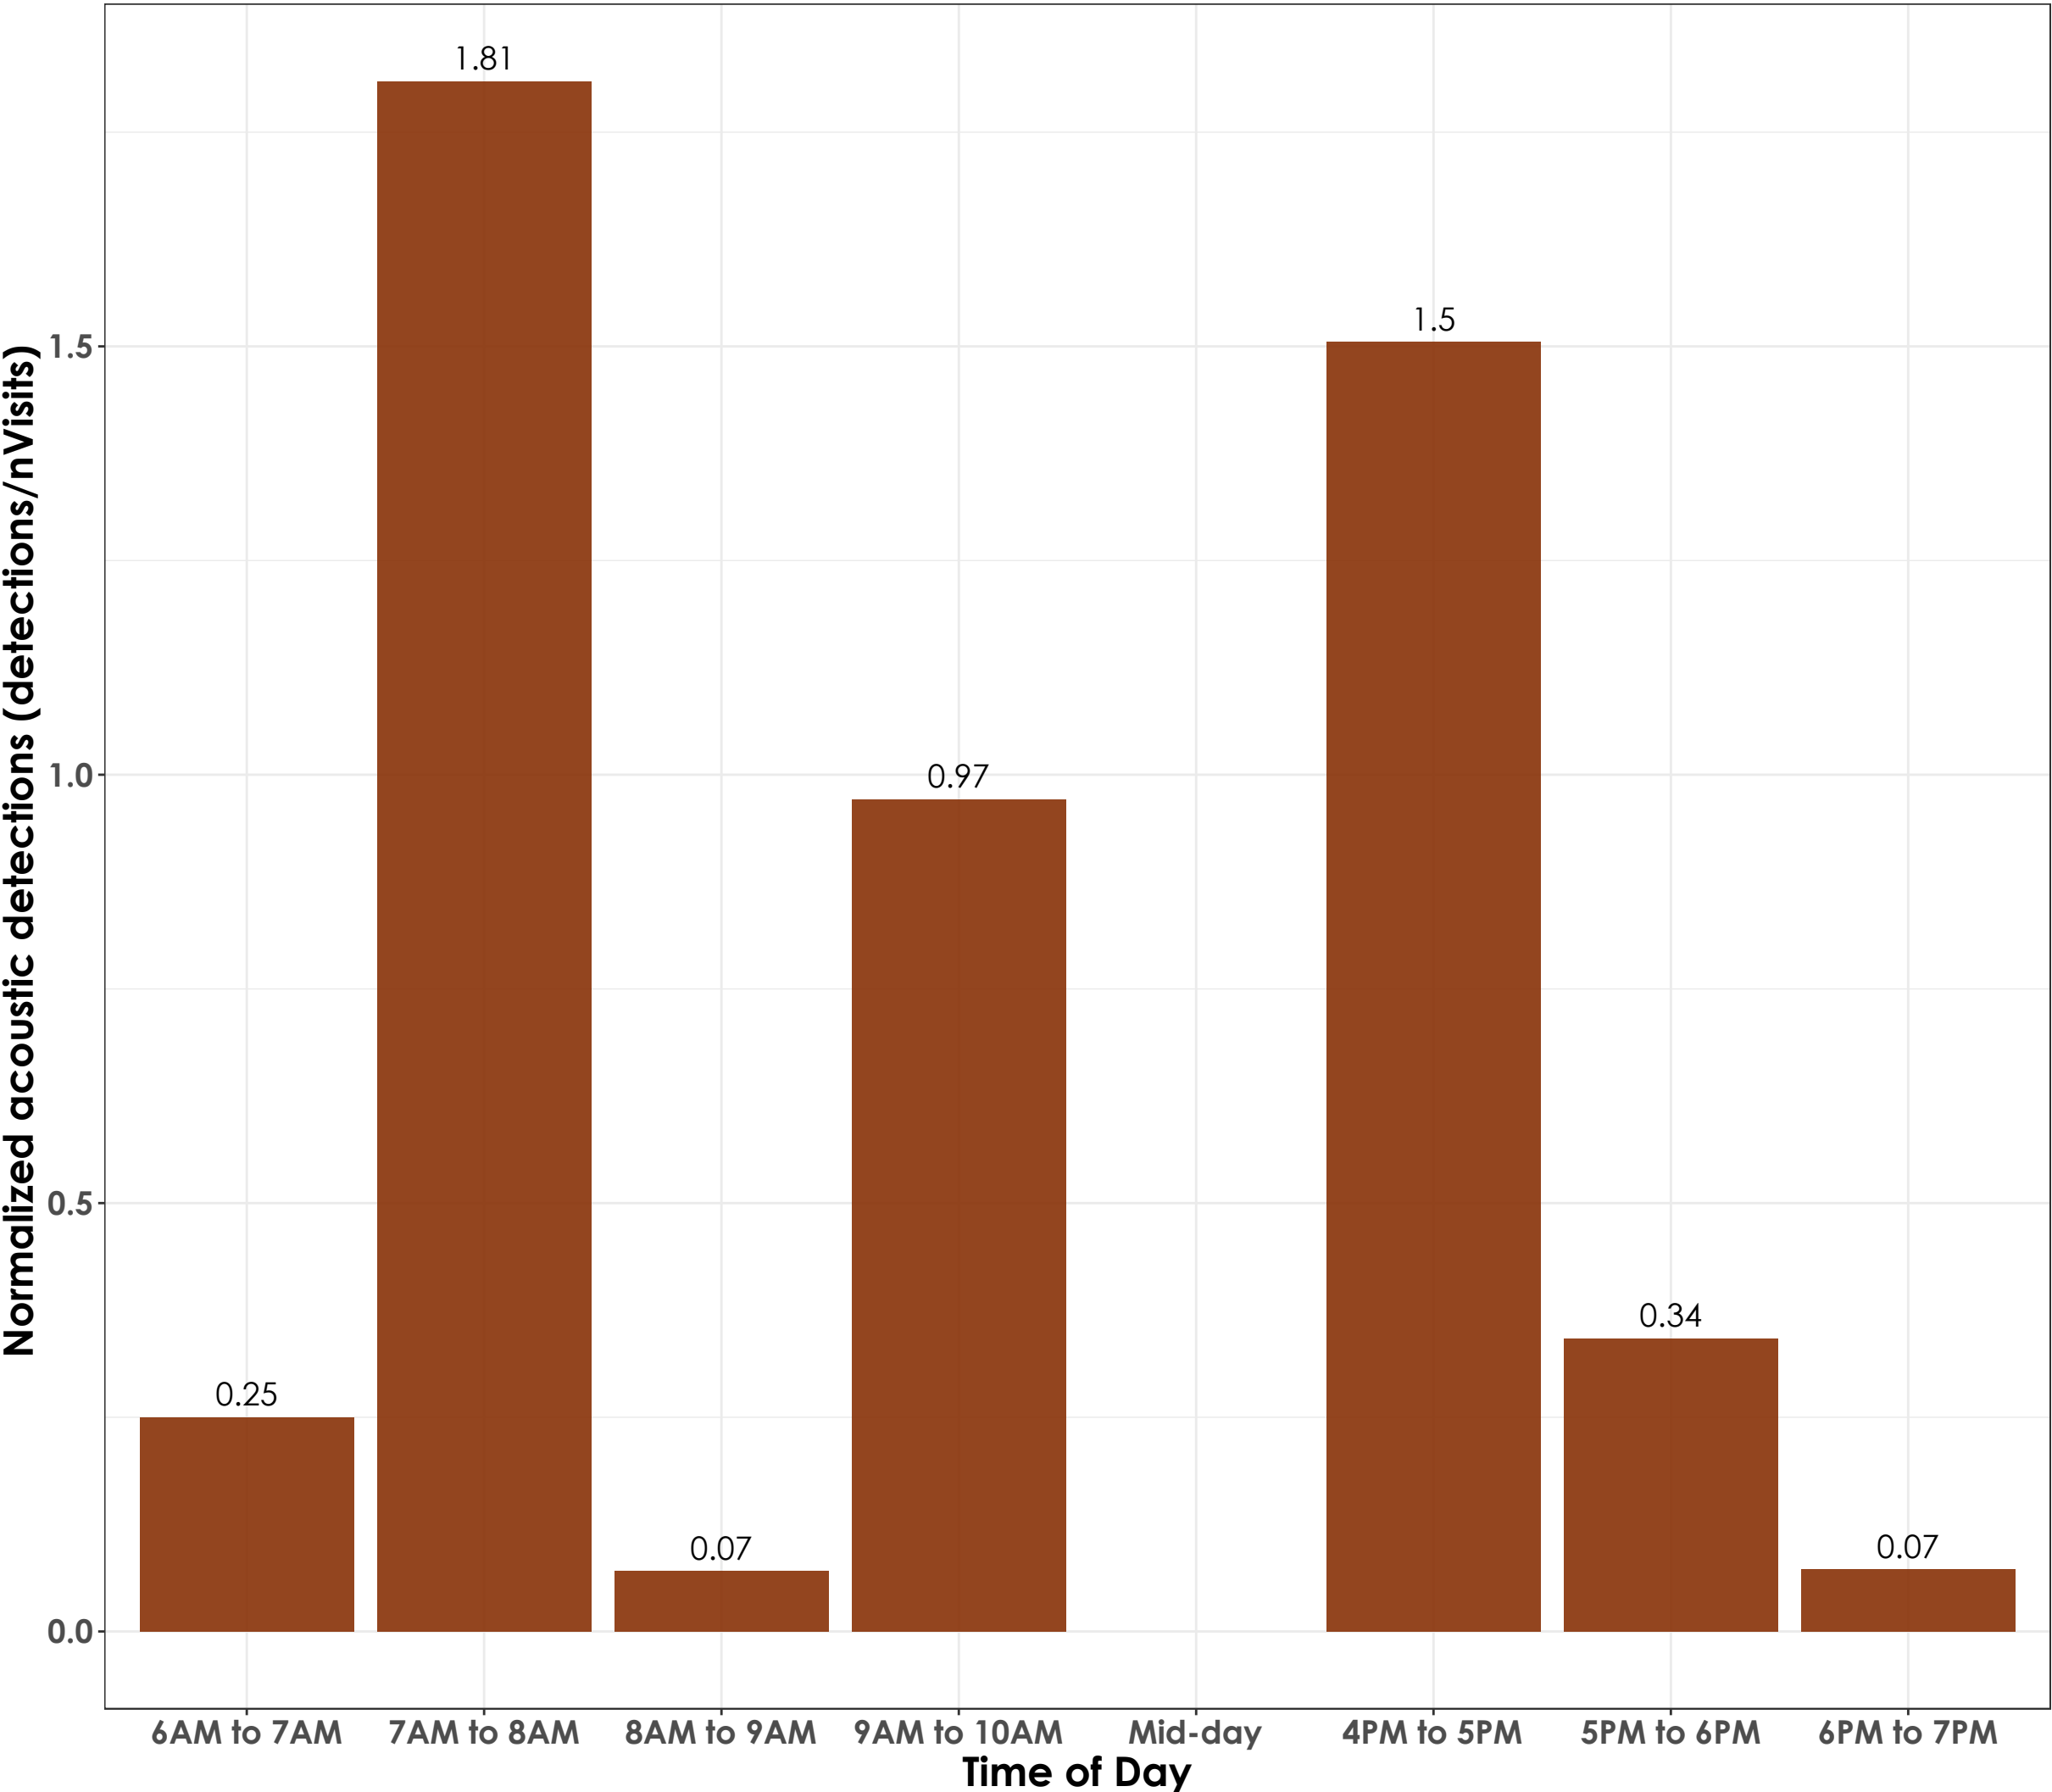

# Speckled Piculet

Each bar represents the normalized detections across dawn and dusk

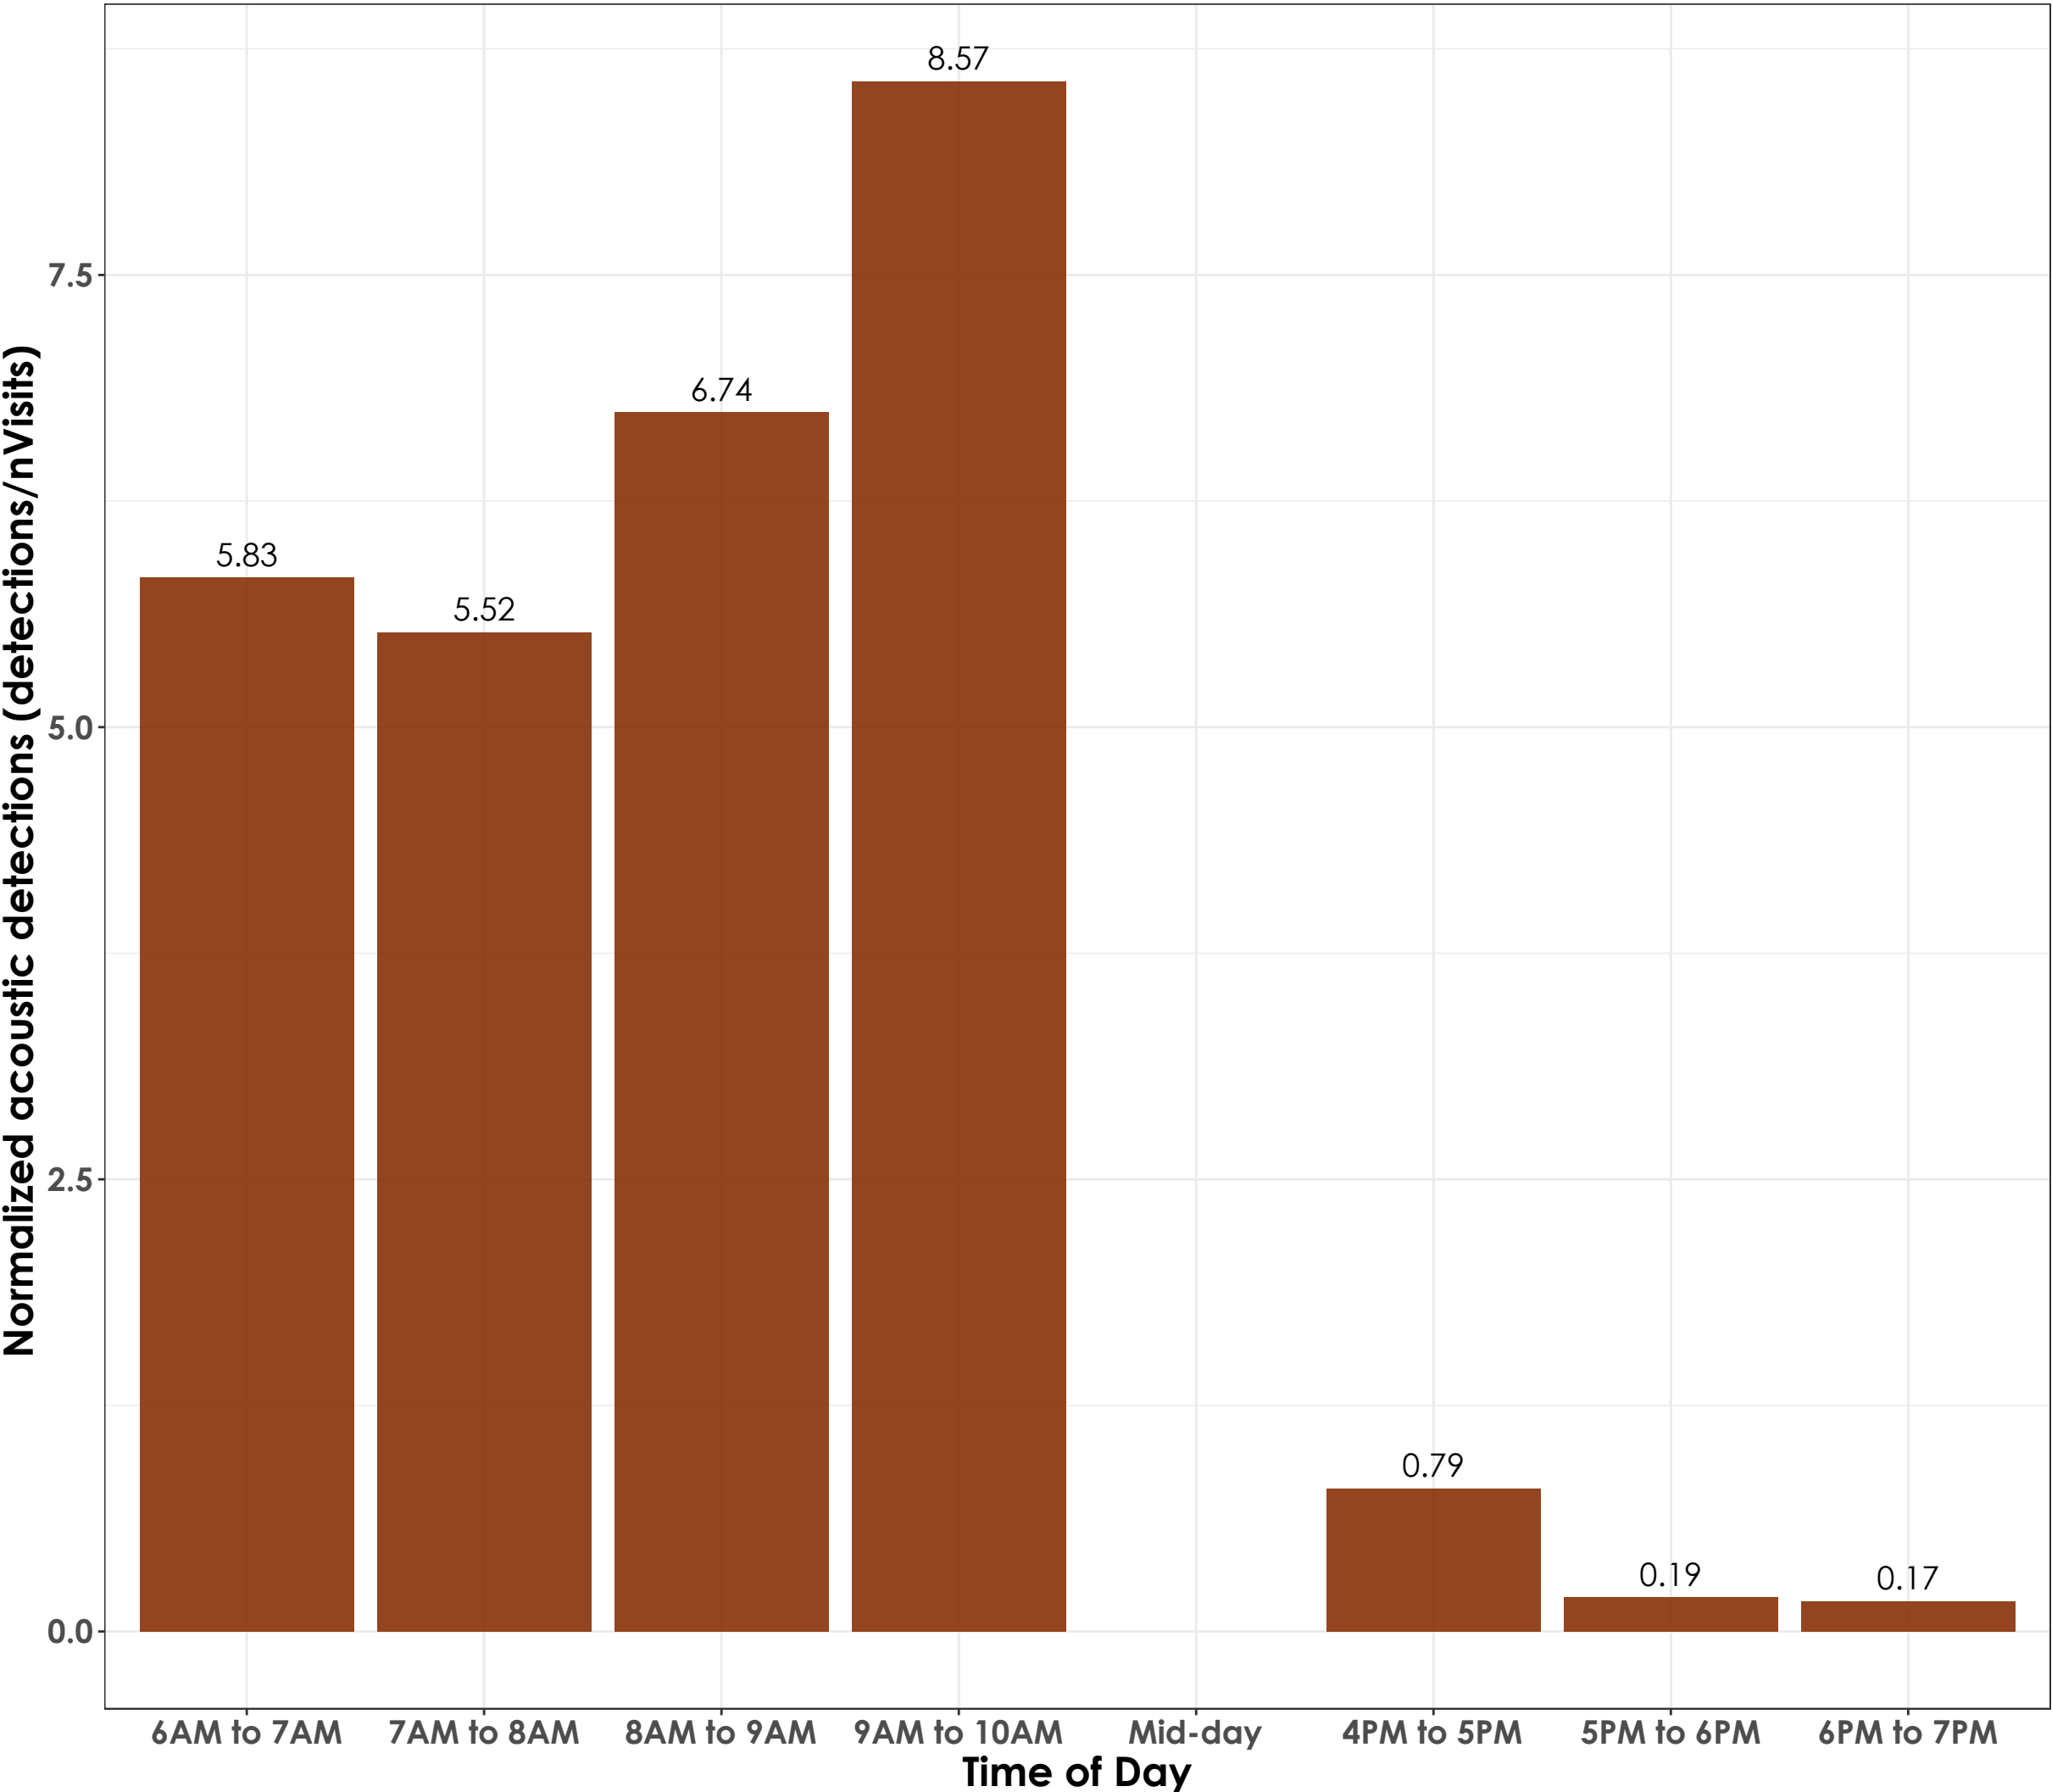

# Brown-breasted Flycatcher

Each bar represents the normalized detections across dawn and dusk

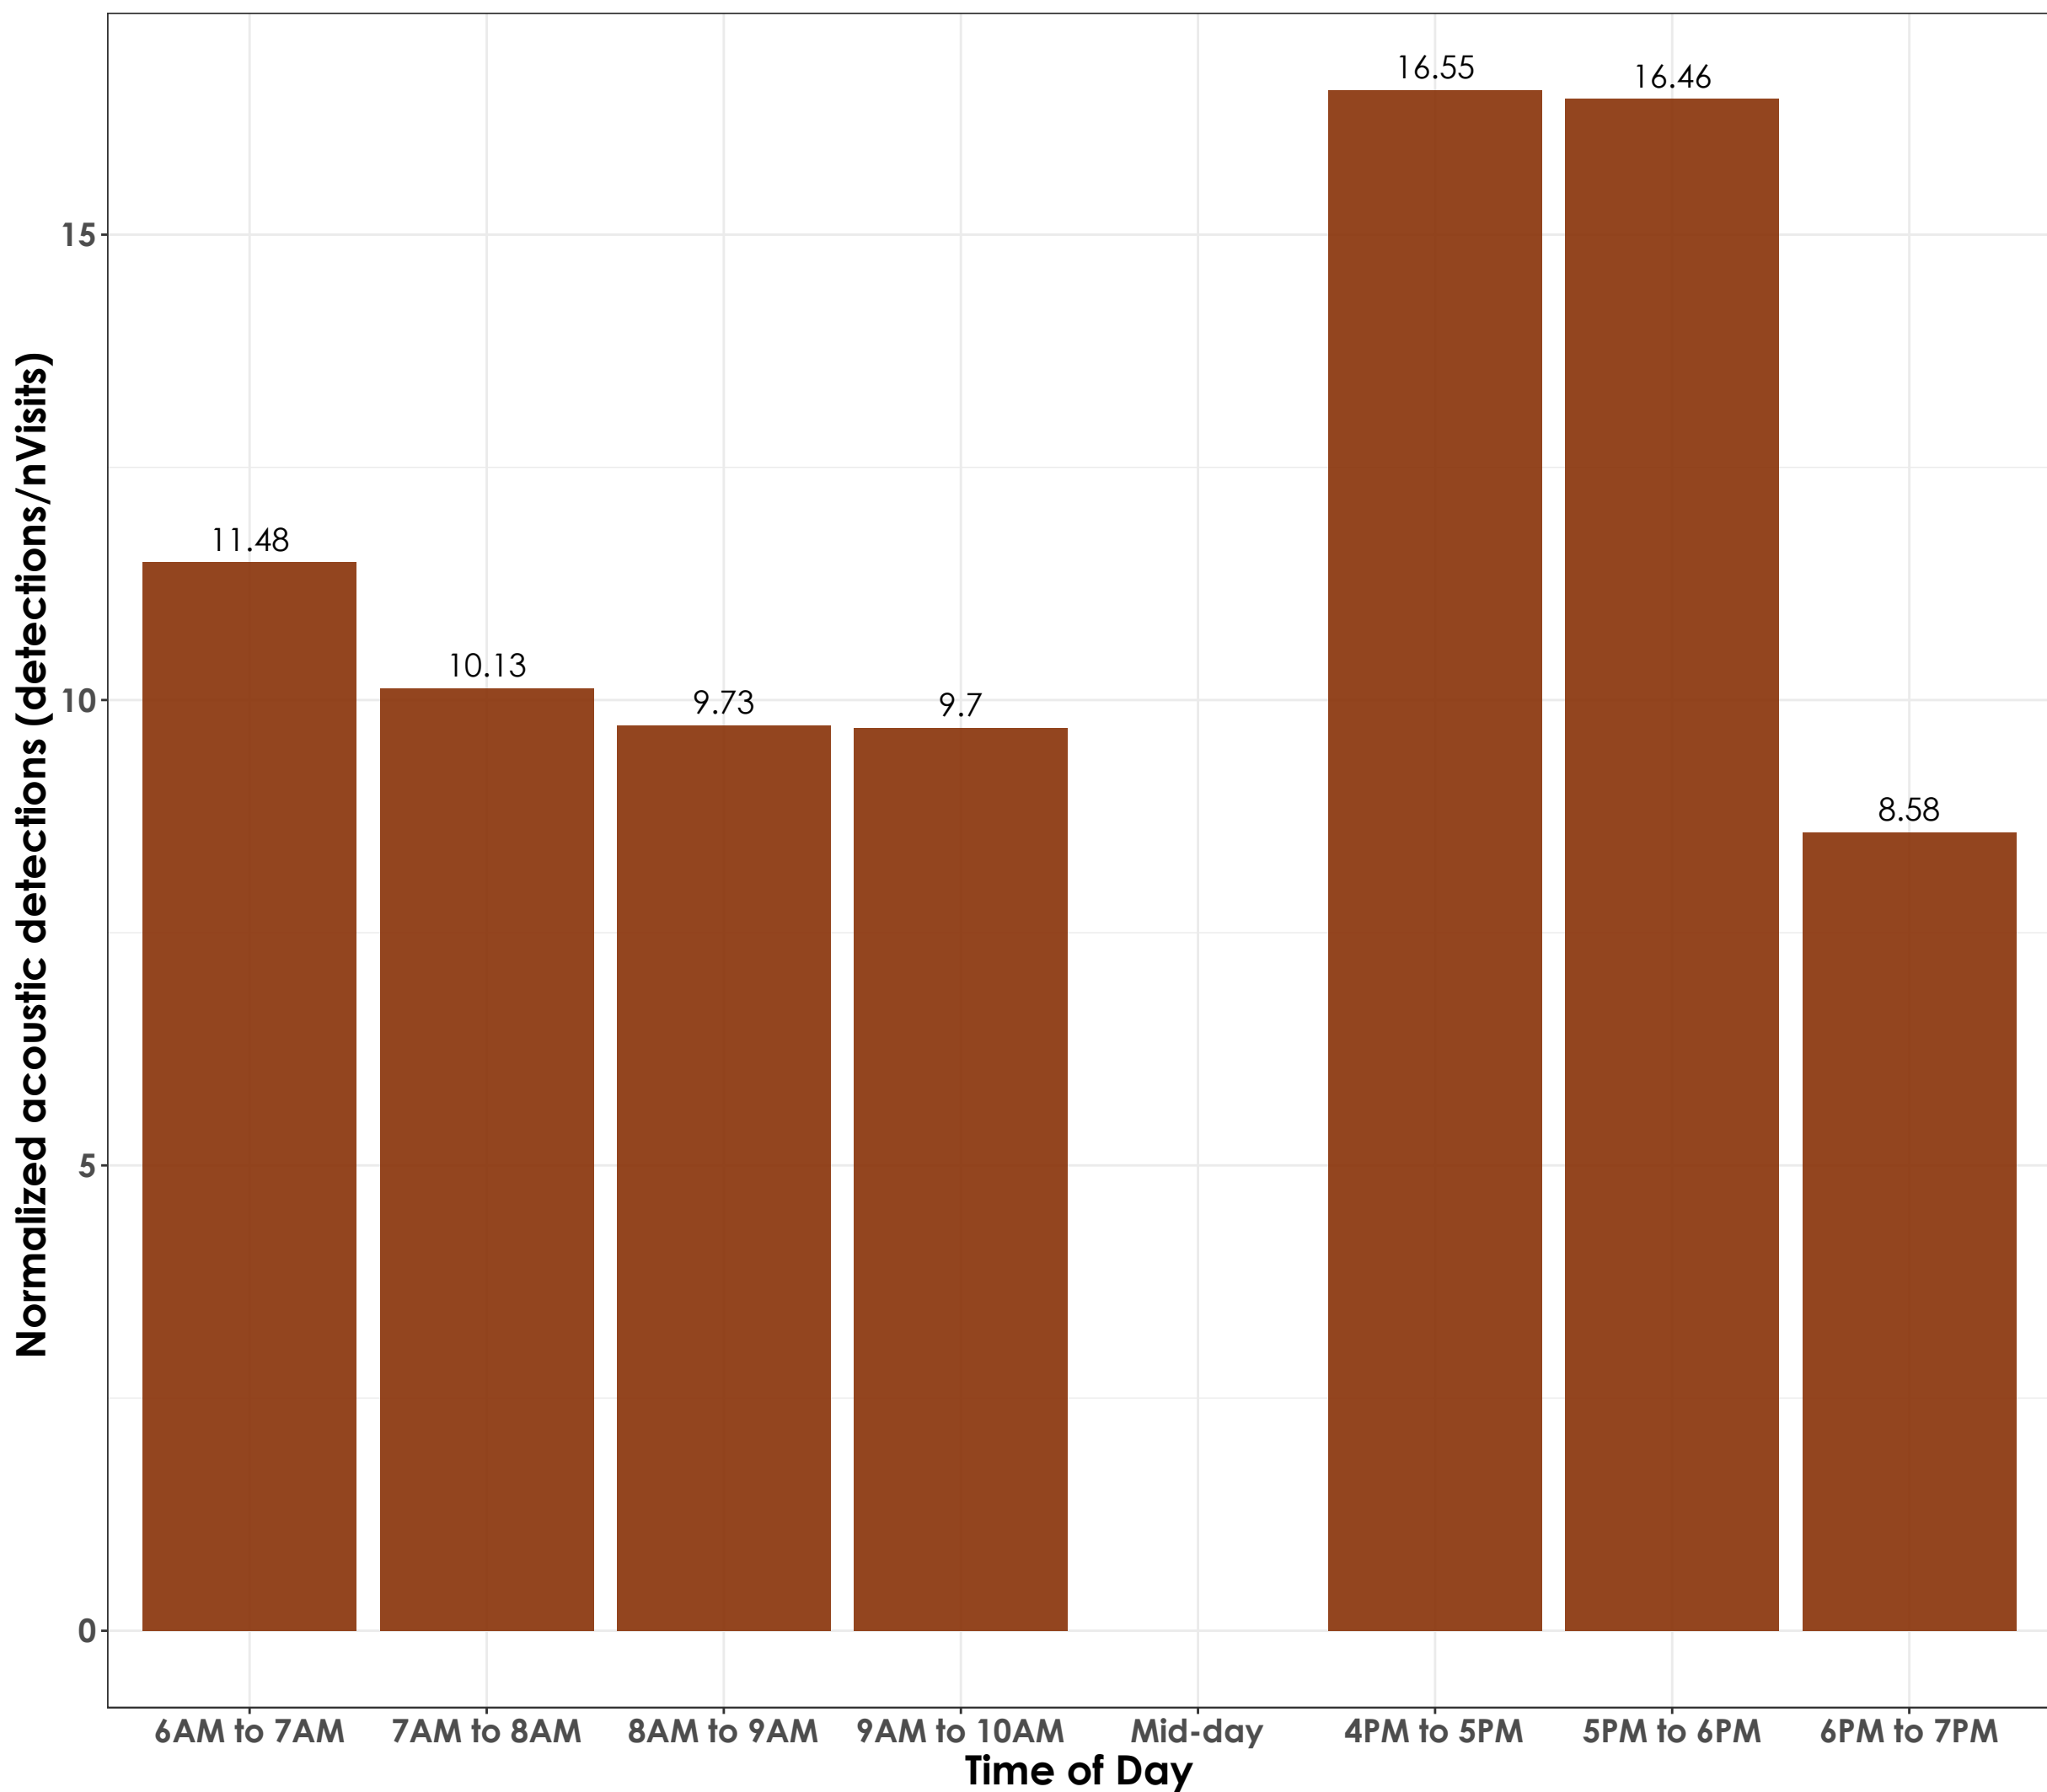

# Large-billed Leaf Warbler

Each bar represents the normalized detections across dawn and dusk

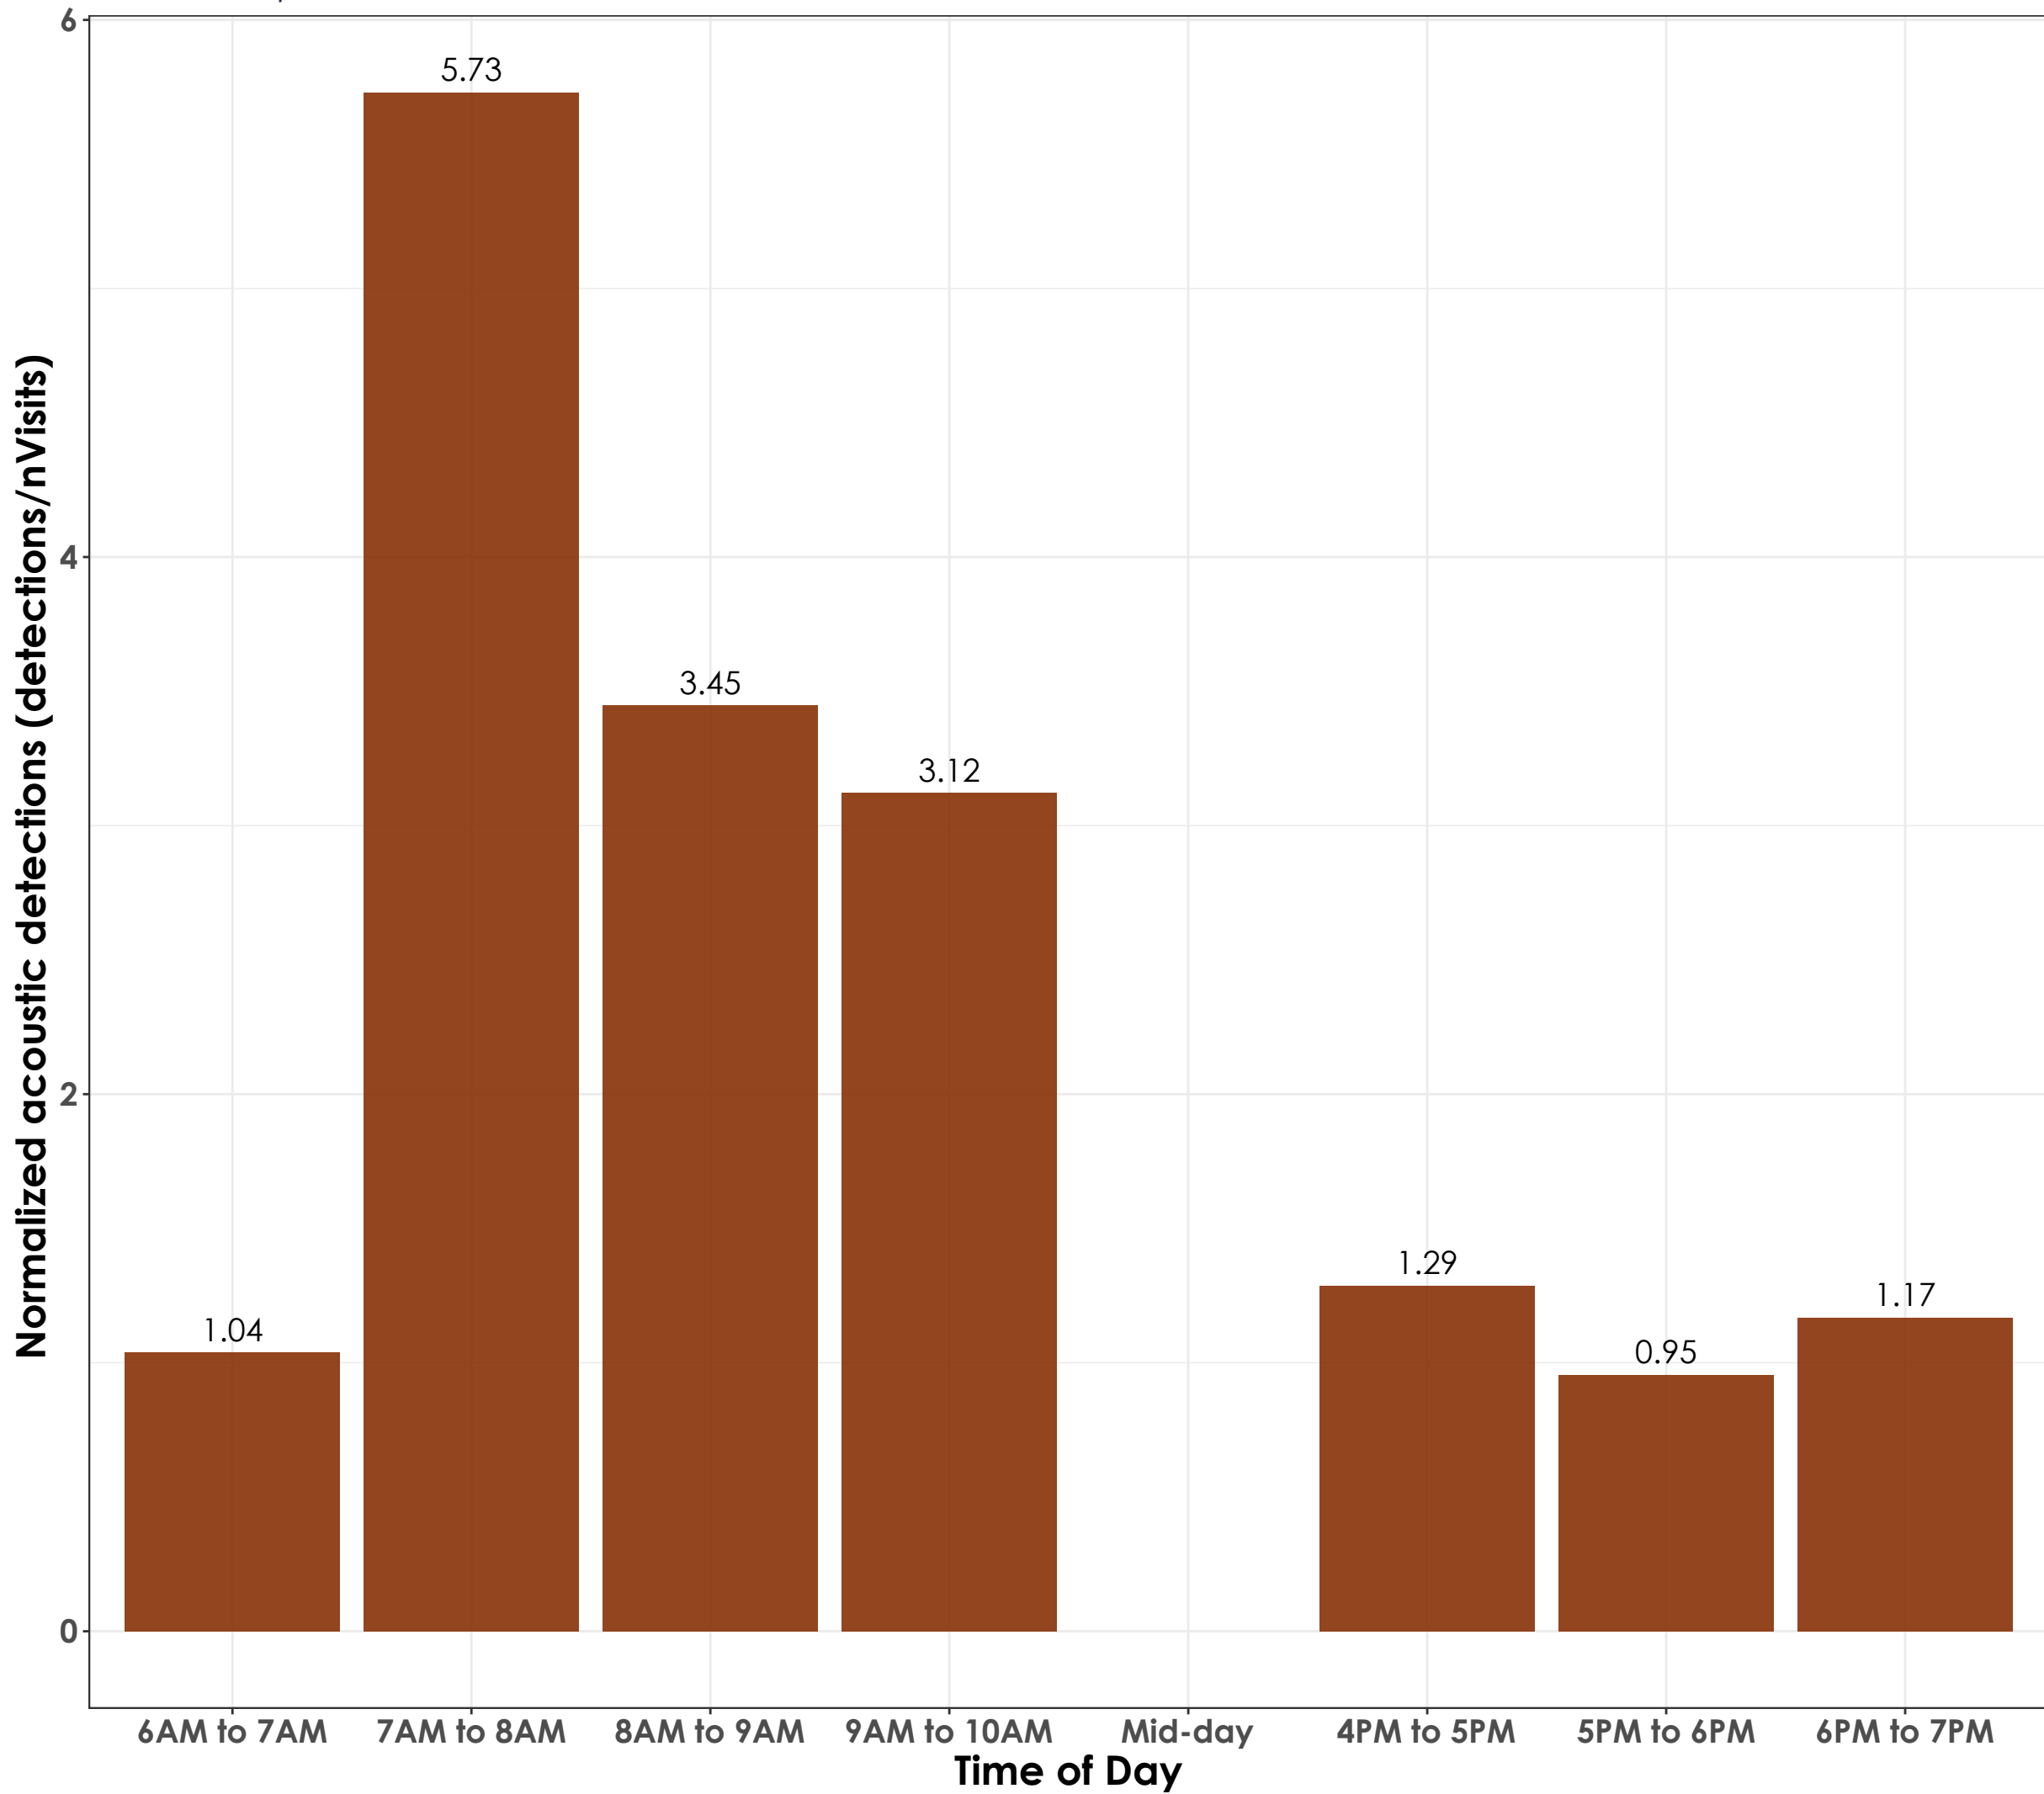

# Southern Hill Myna

*Each bar represents the normalized detections across dawn and dusk*

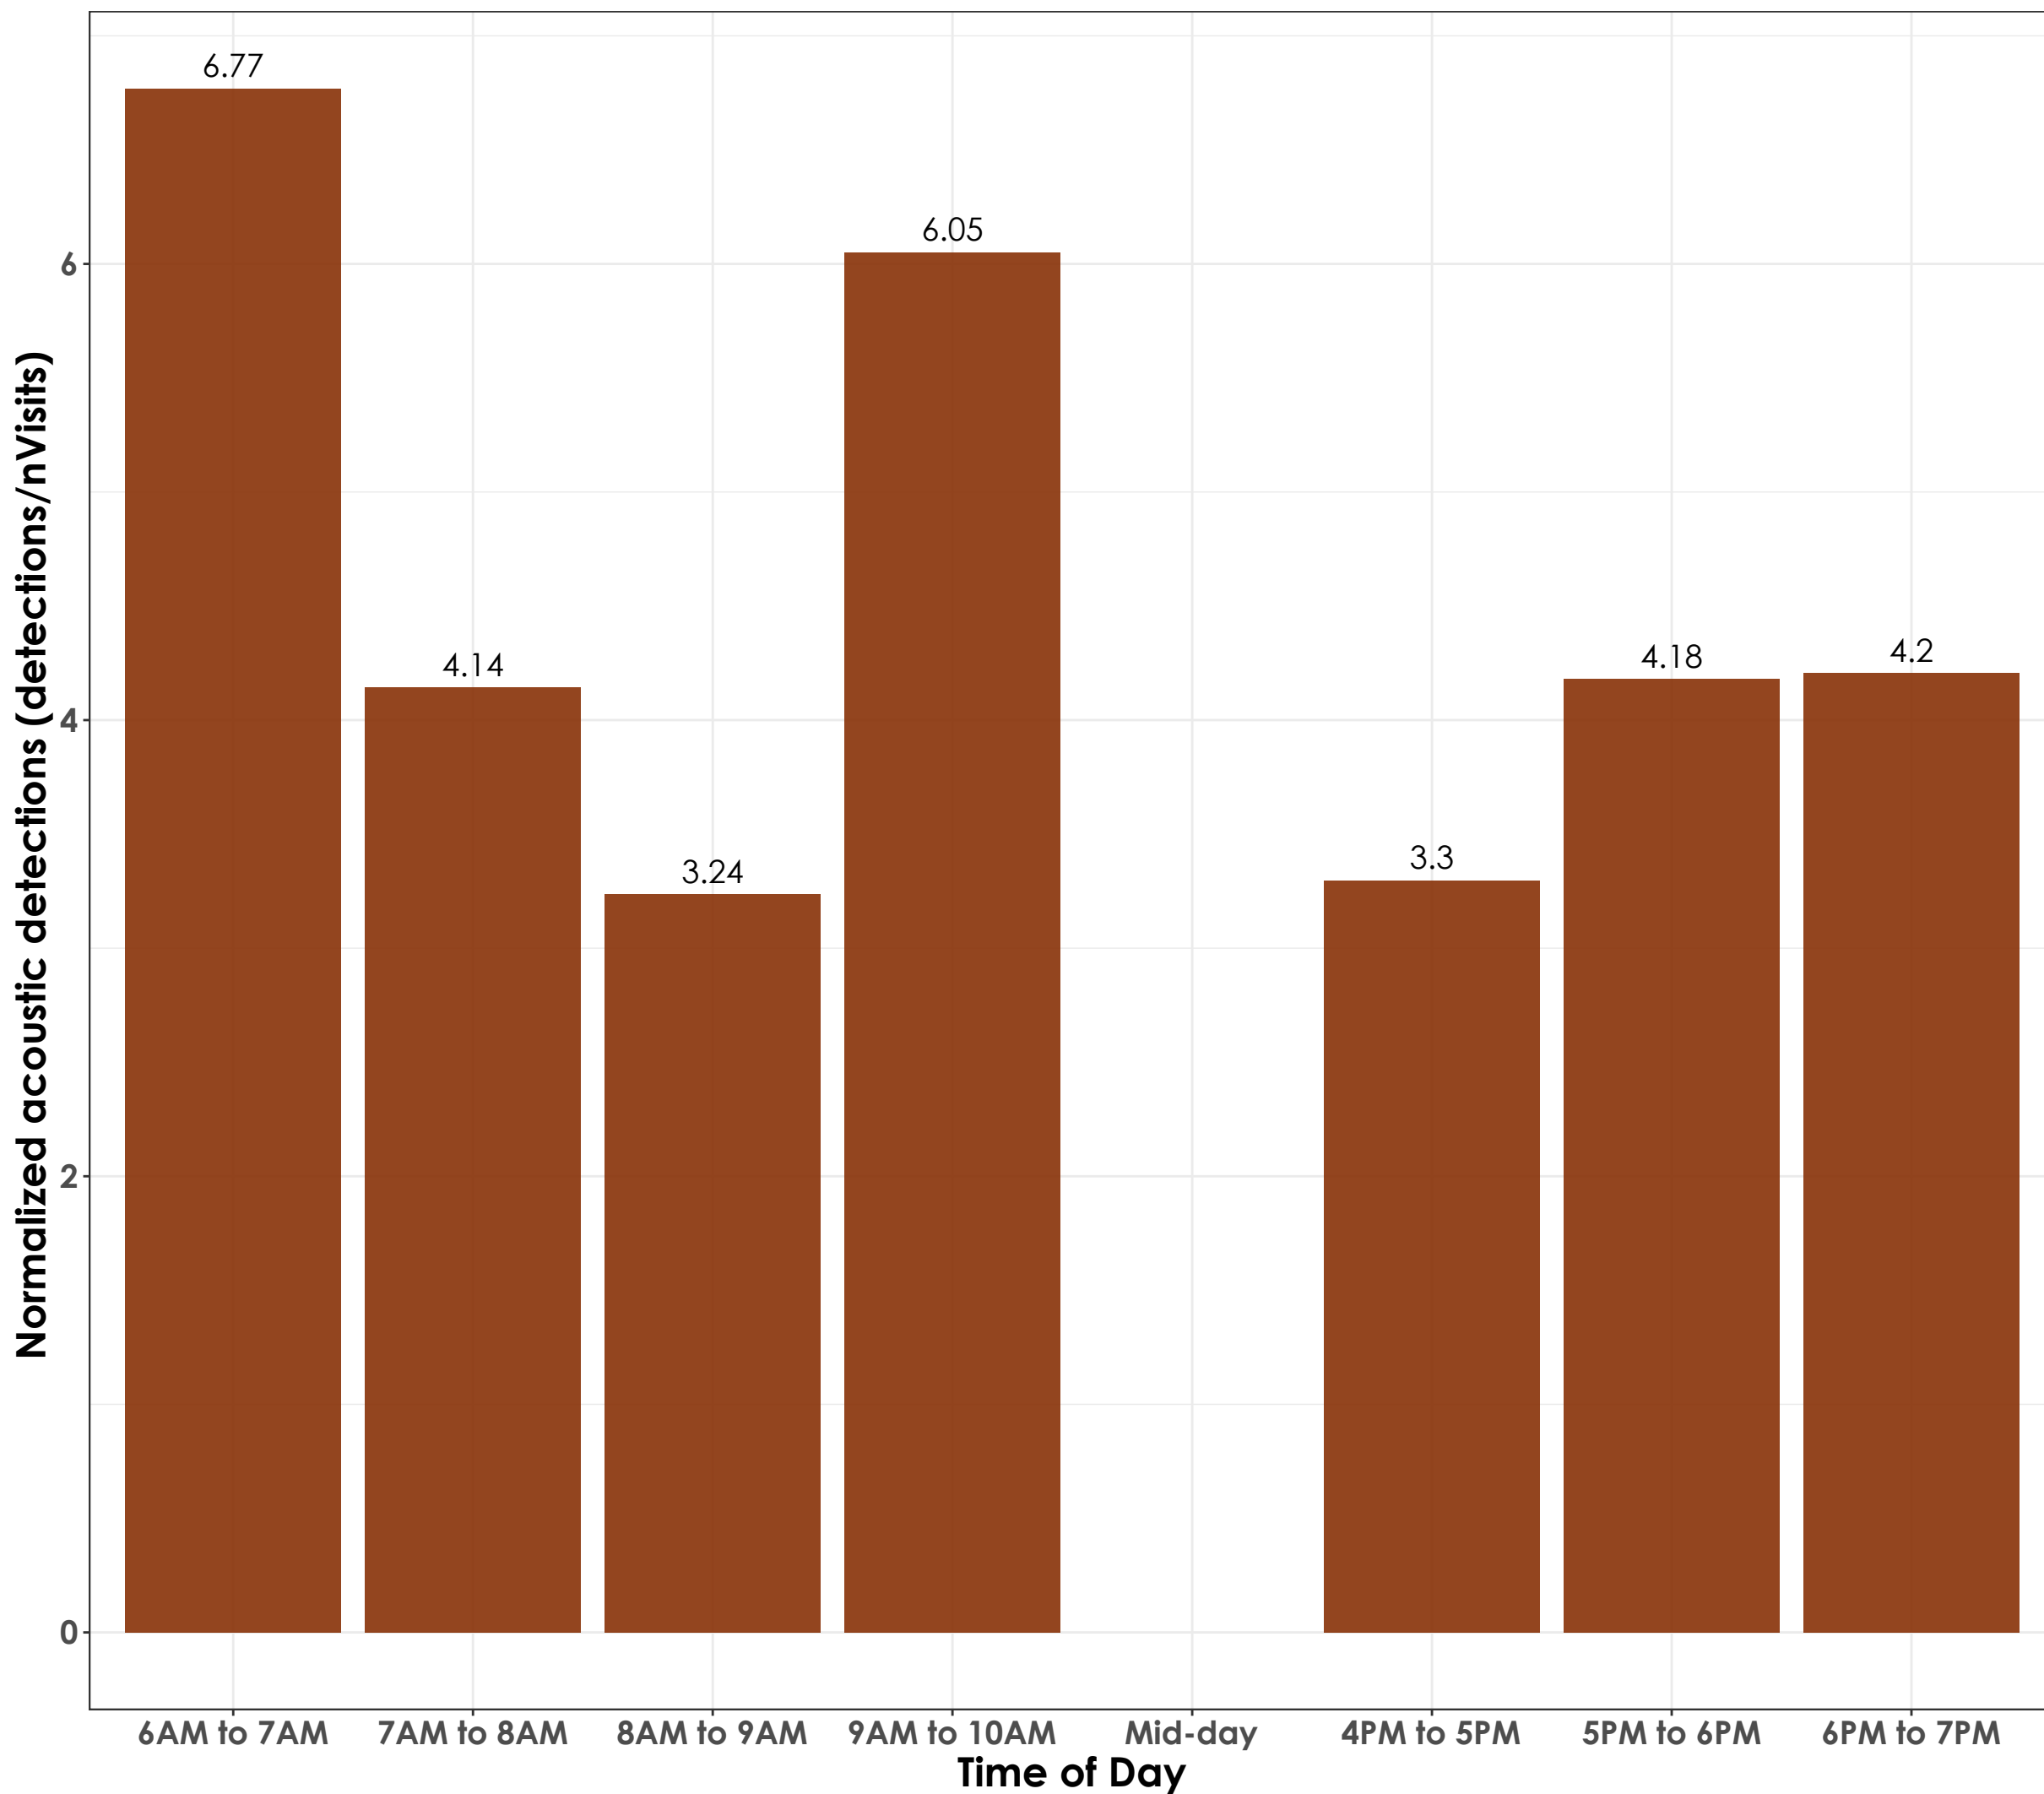

# Spotted Dove

Each bar represents the normalized detections across dawn and dusk

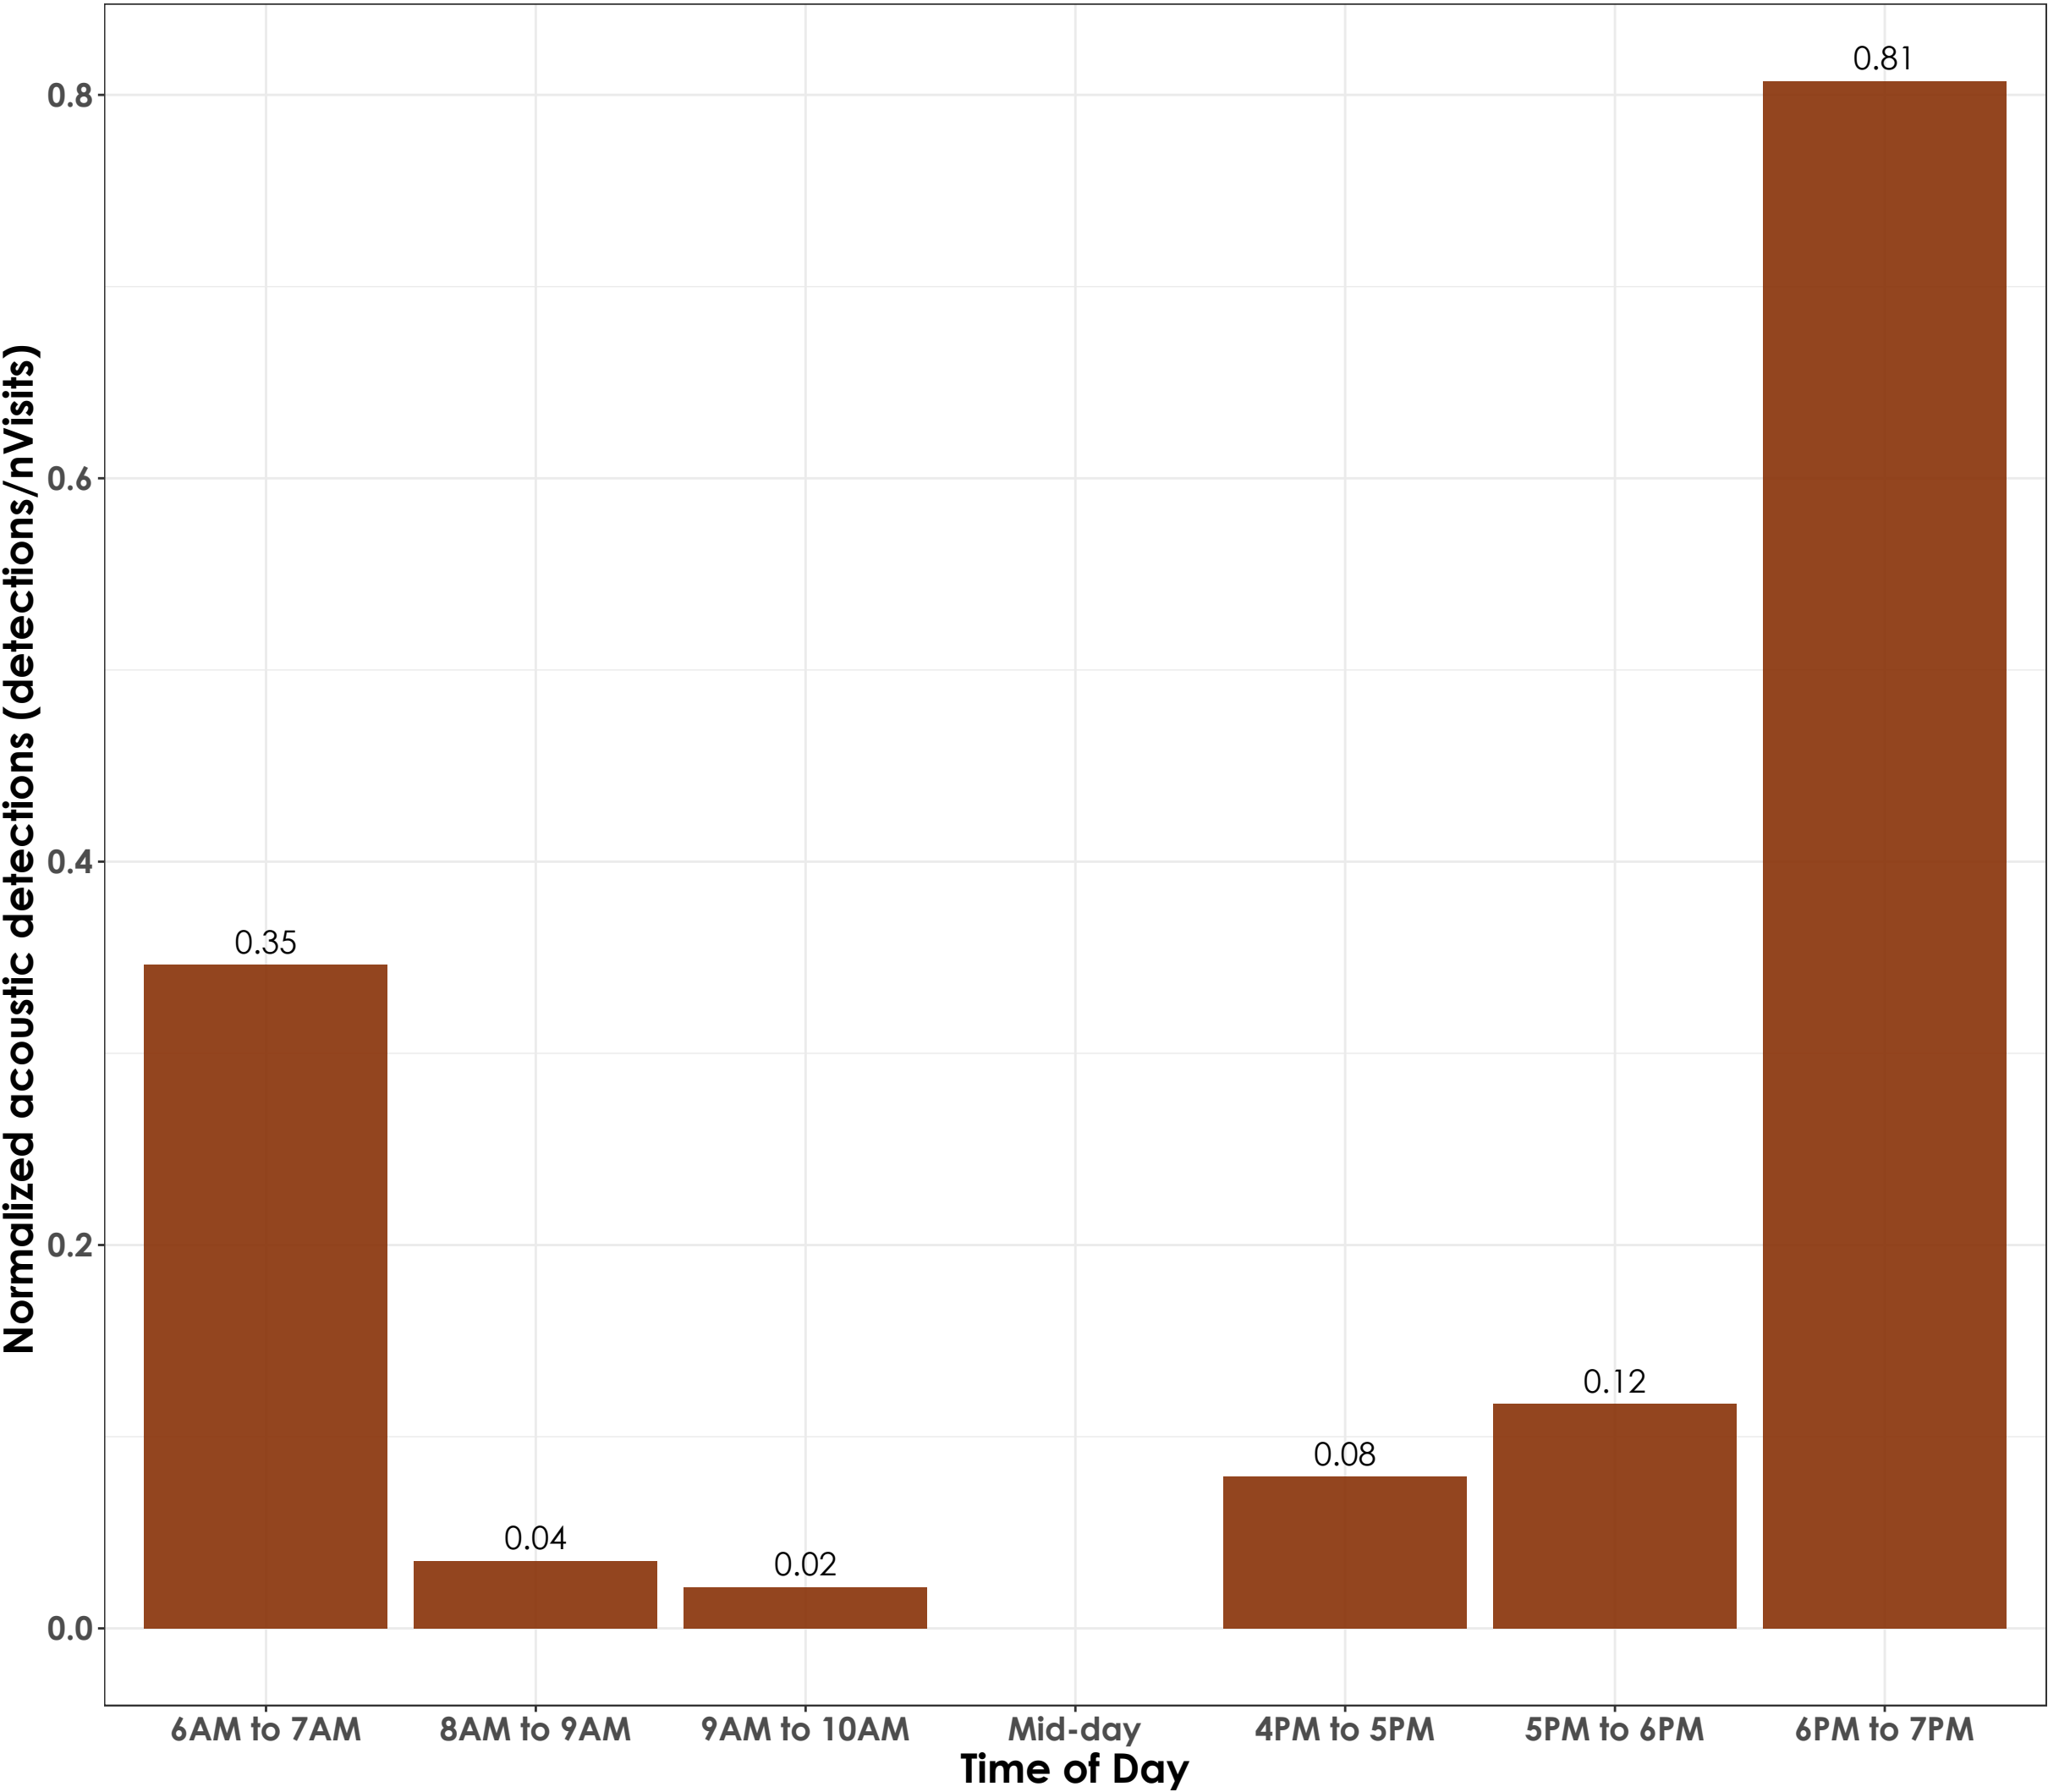

# Asian Fairy-bluebird

*Each bar represents the normalized detections across dawn and dusk*

**Indian Pitta**

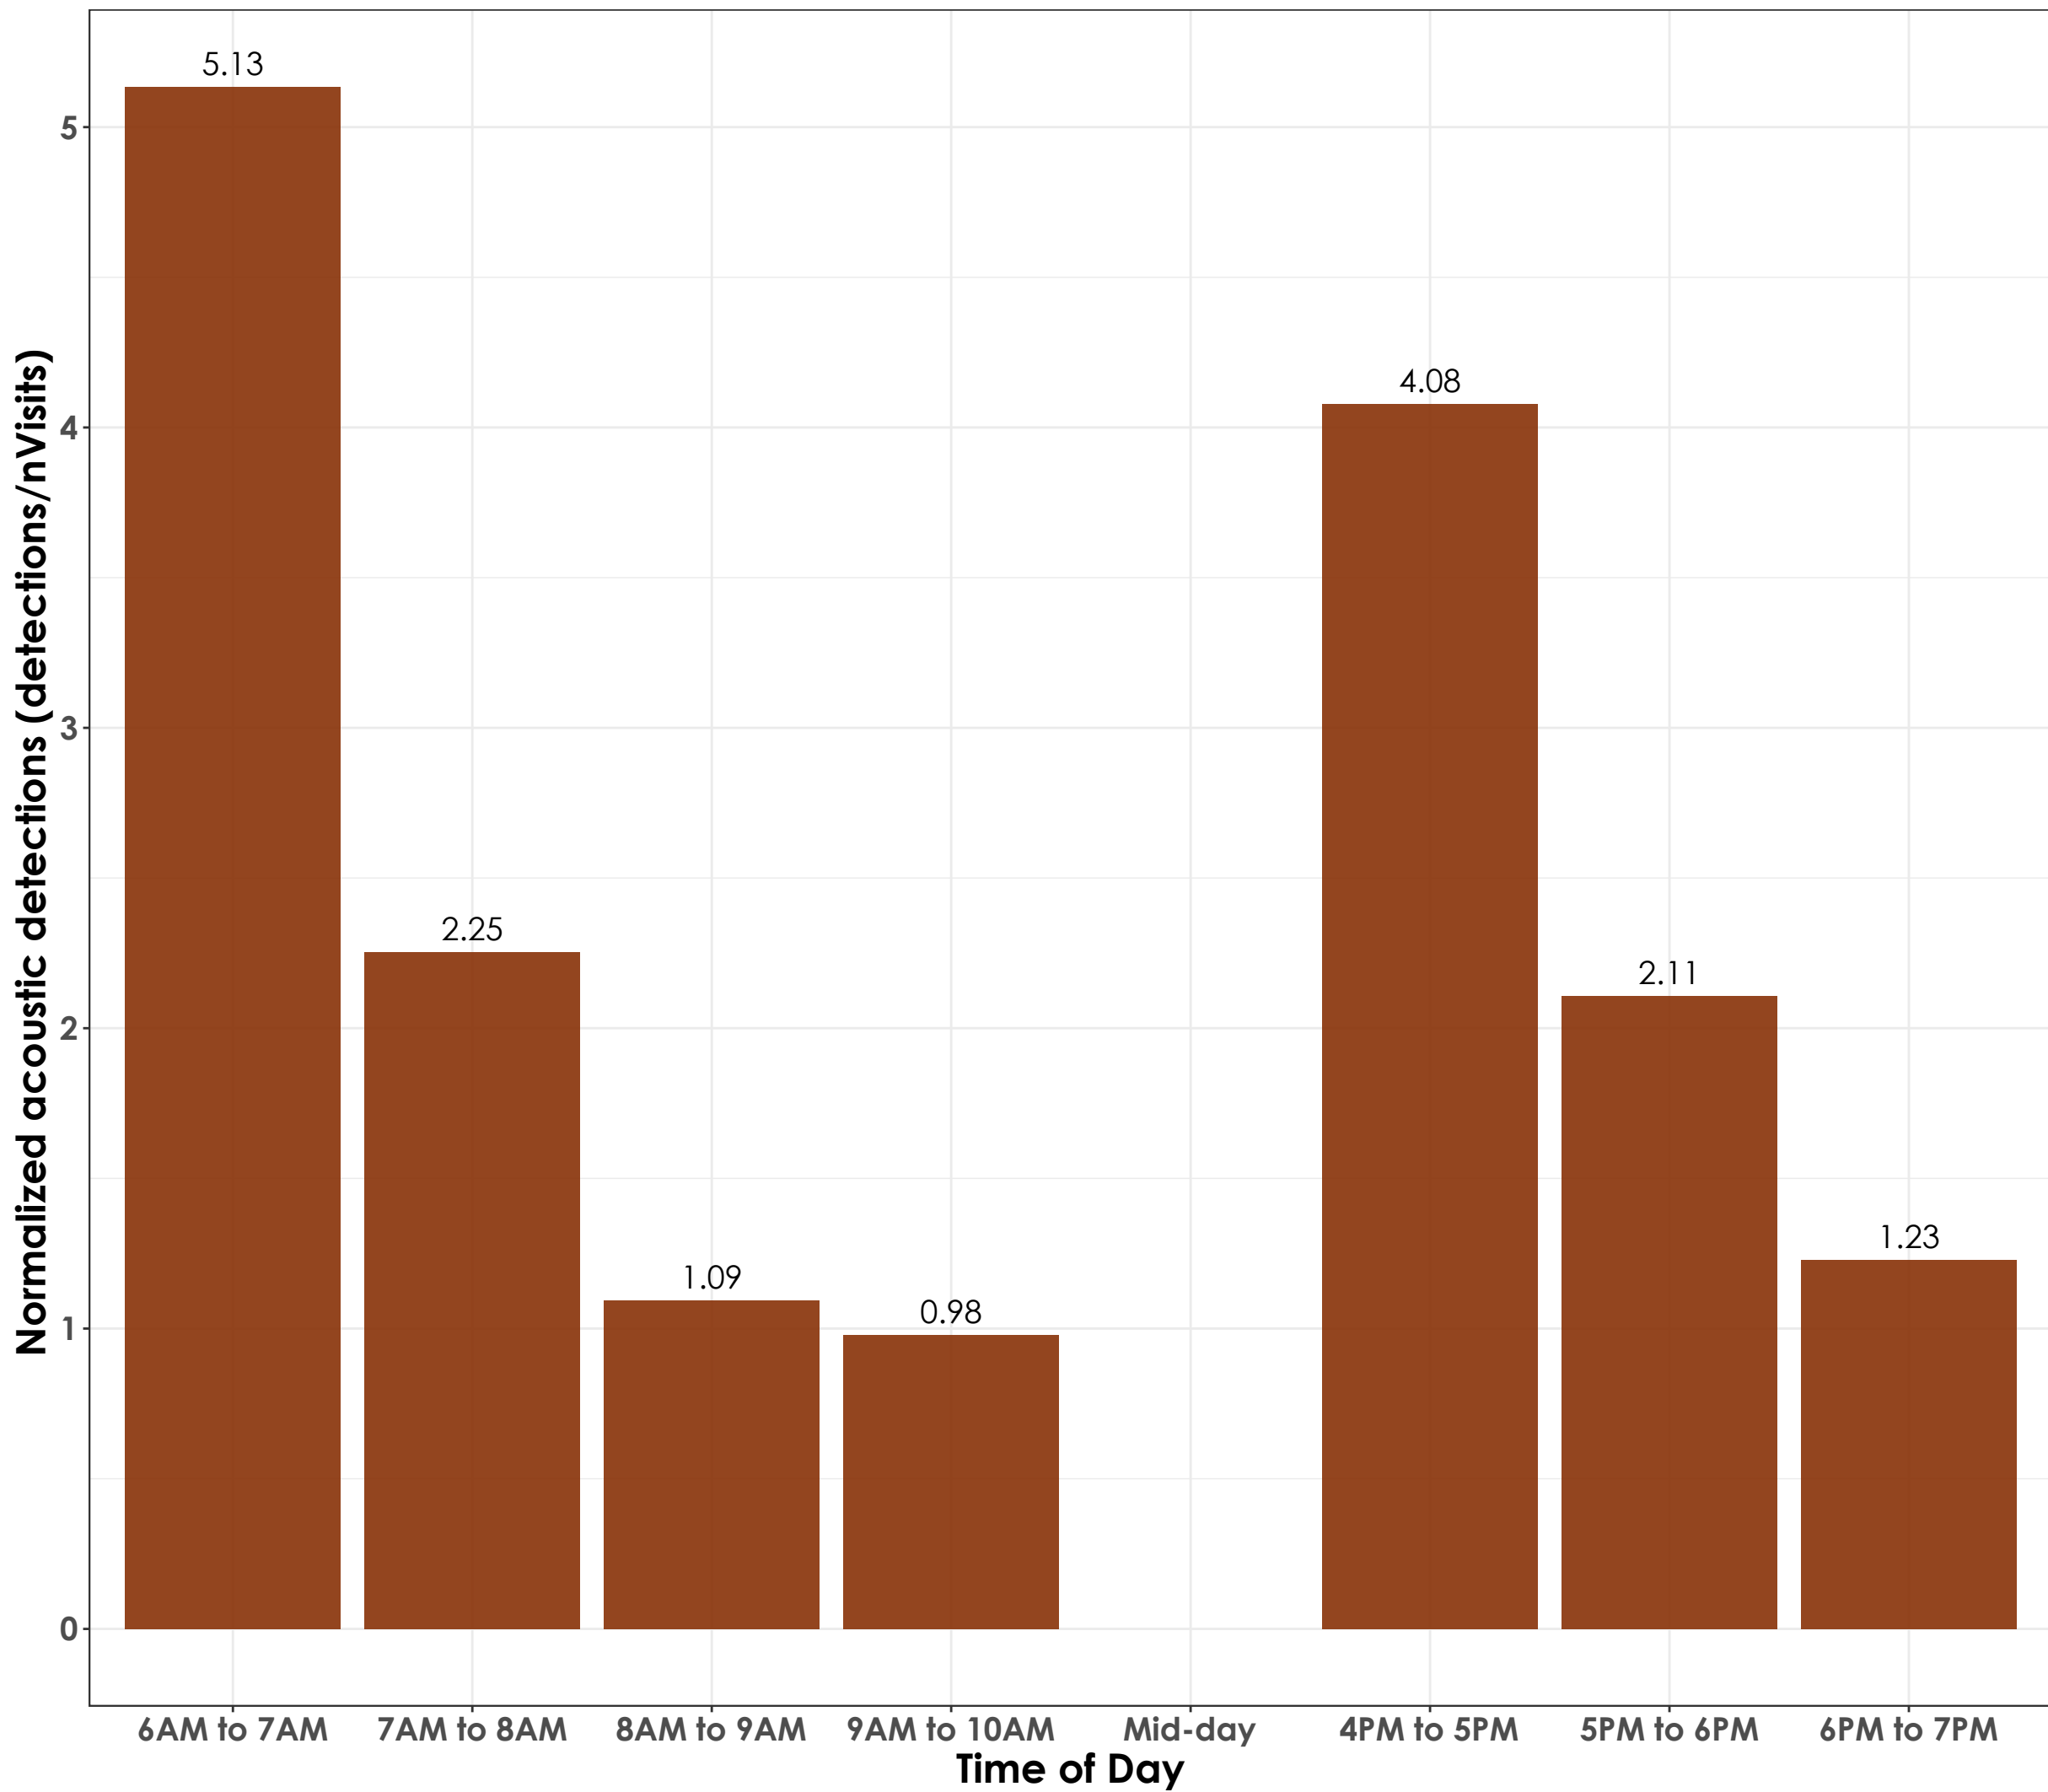

*Each bar represents the normalized detections across dawn and dusk*

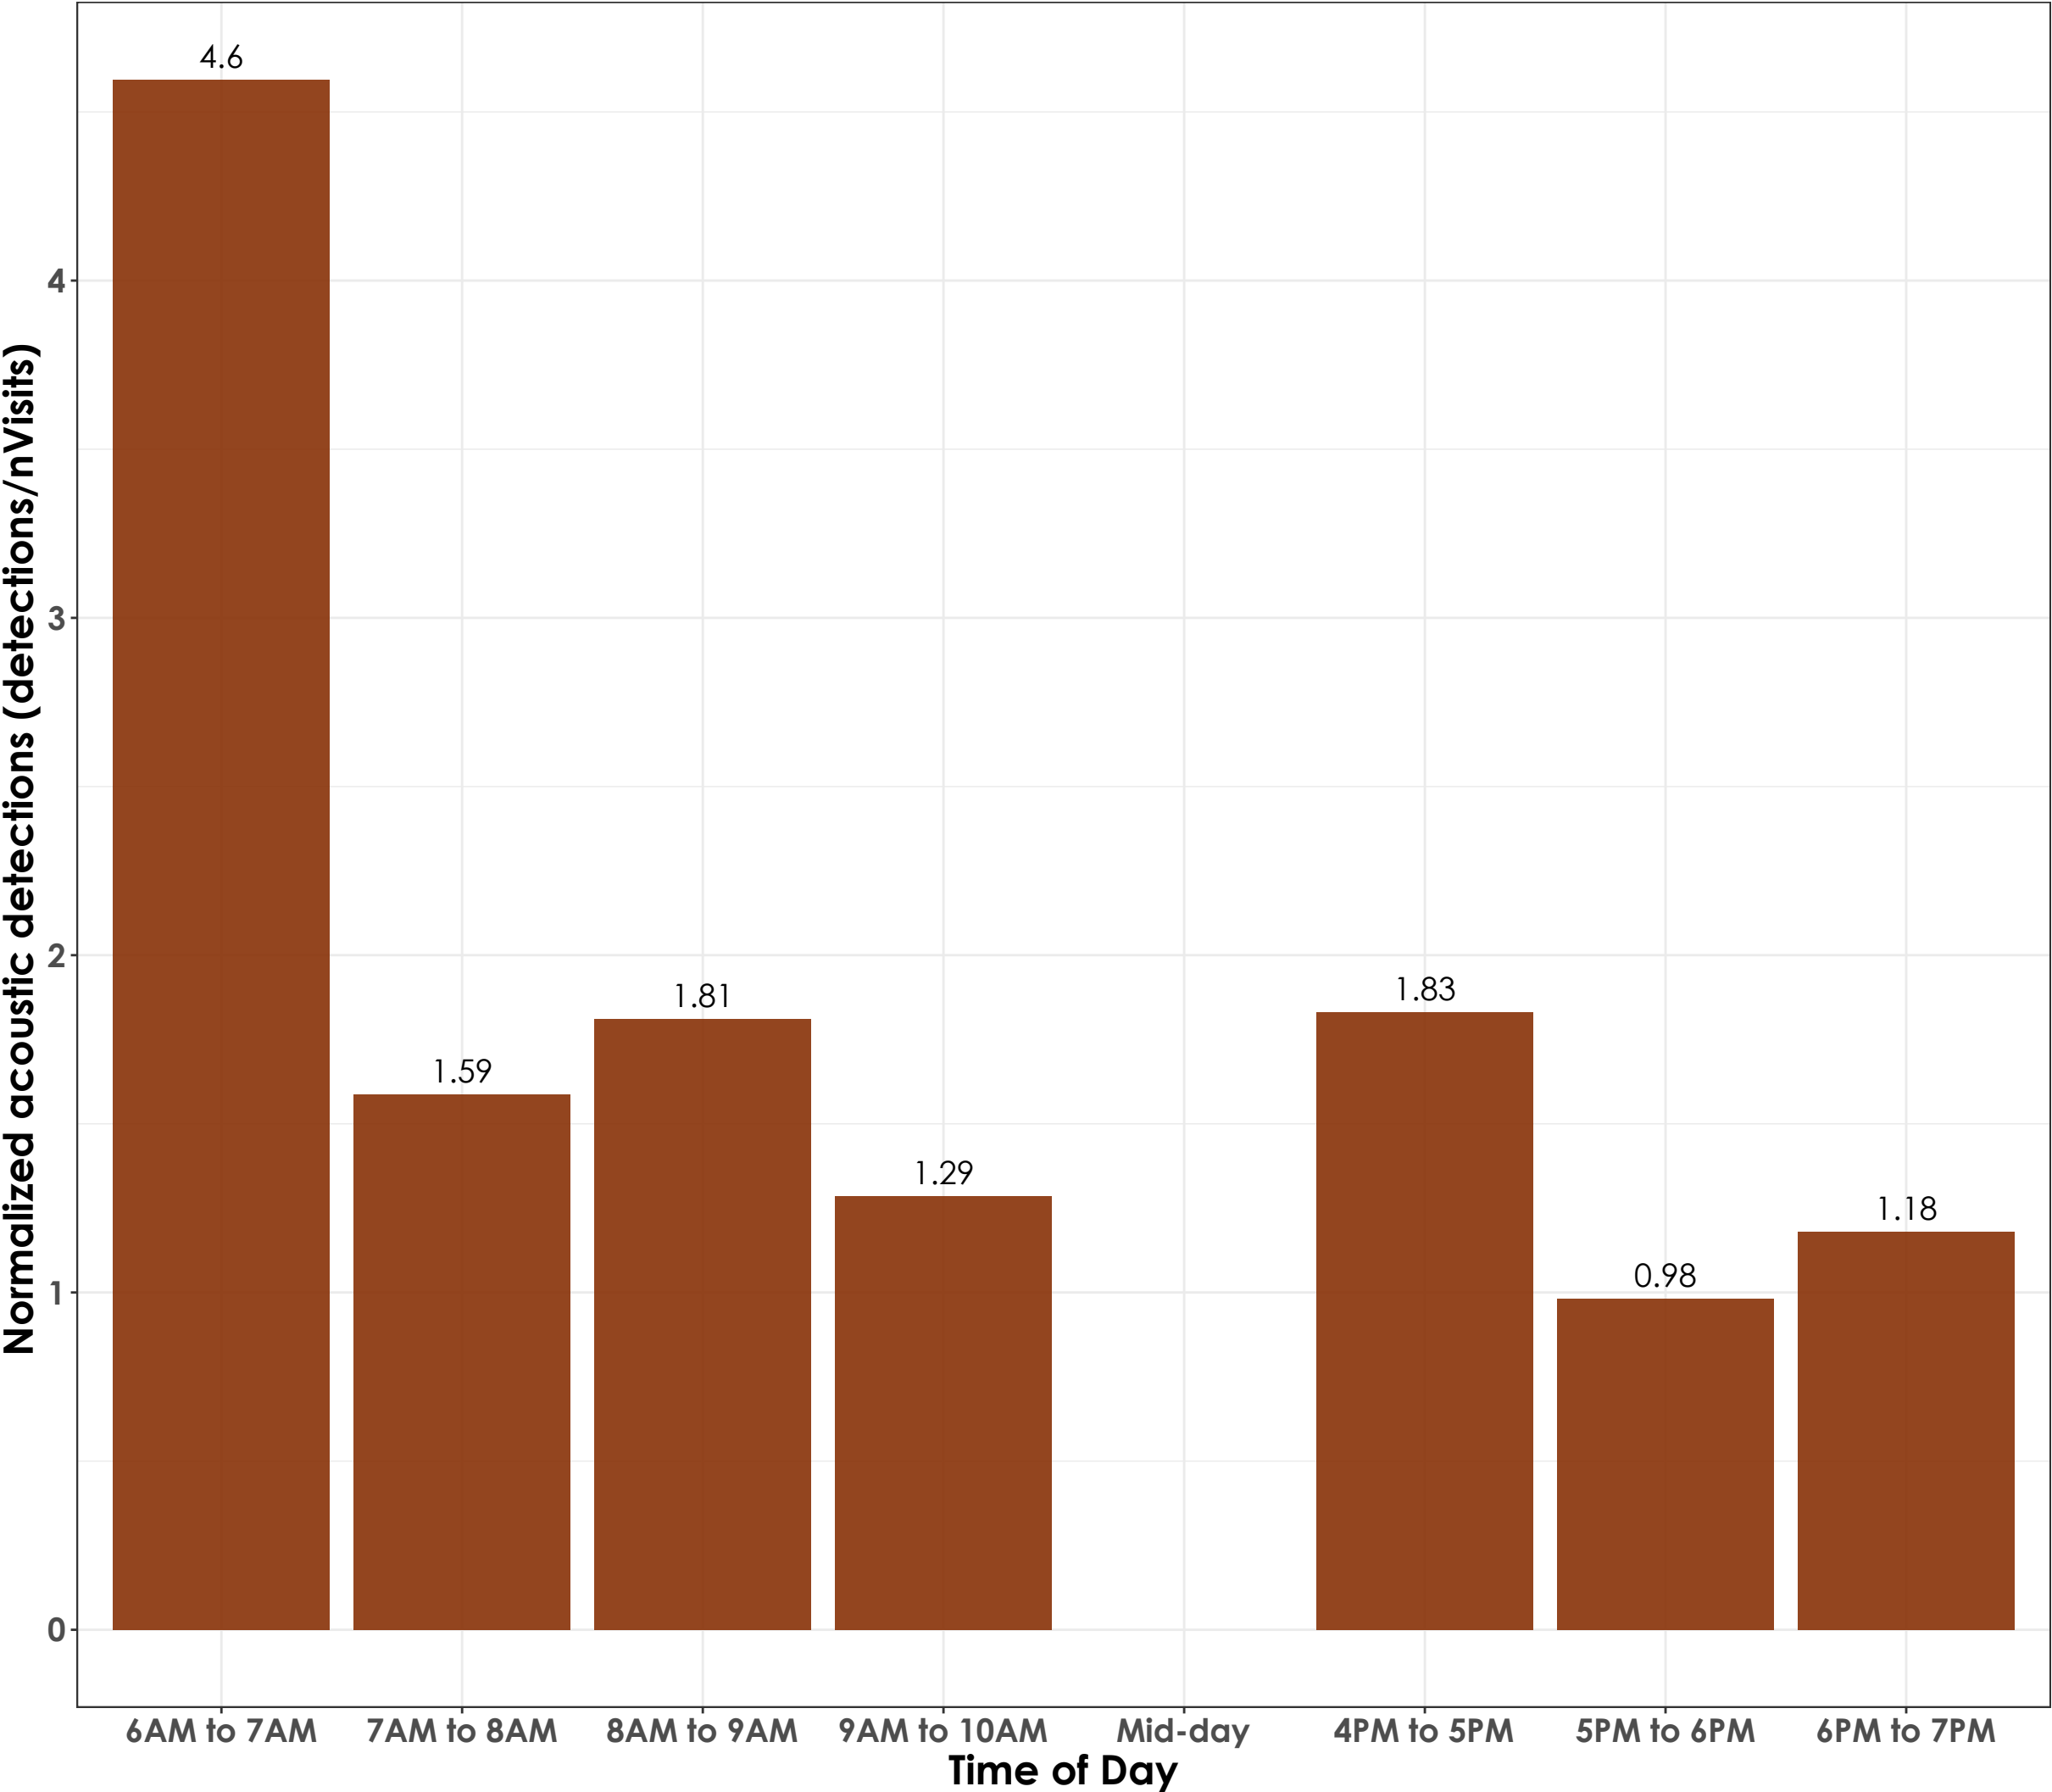

# Asian Emerald Dove

*Each bar represents the normalized detections across dawn and dusk*

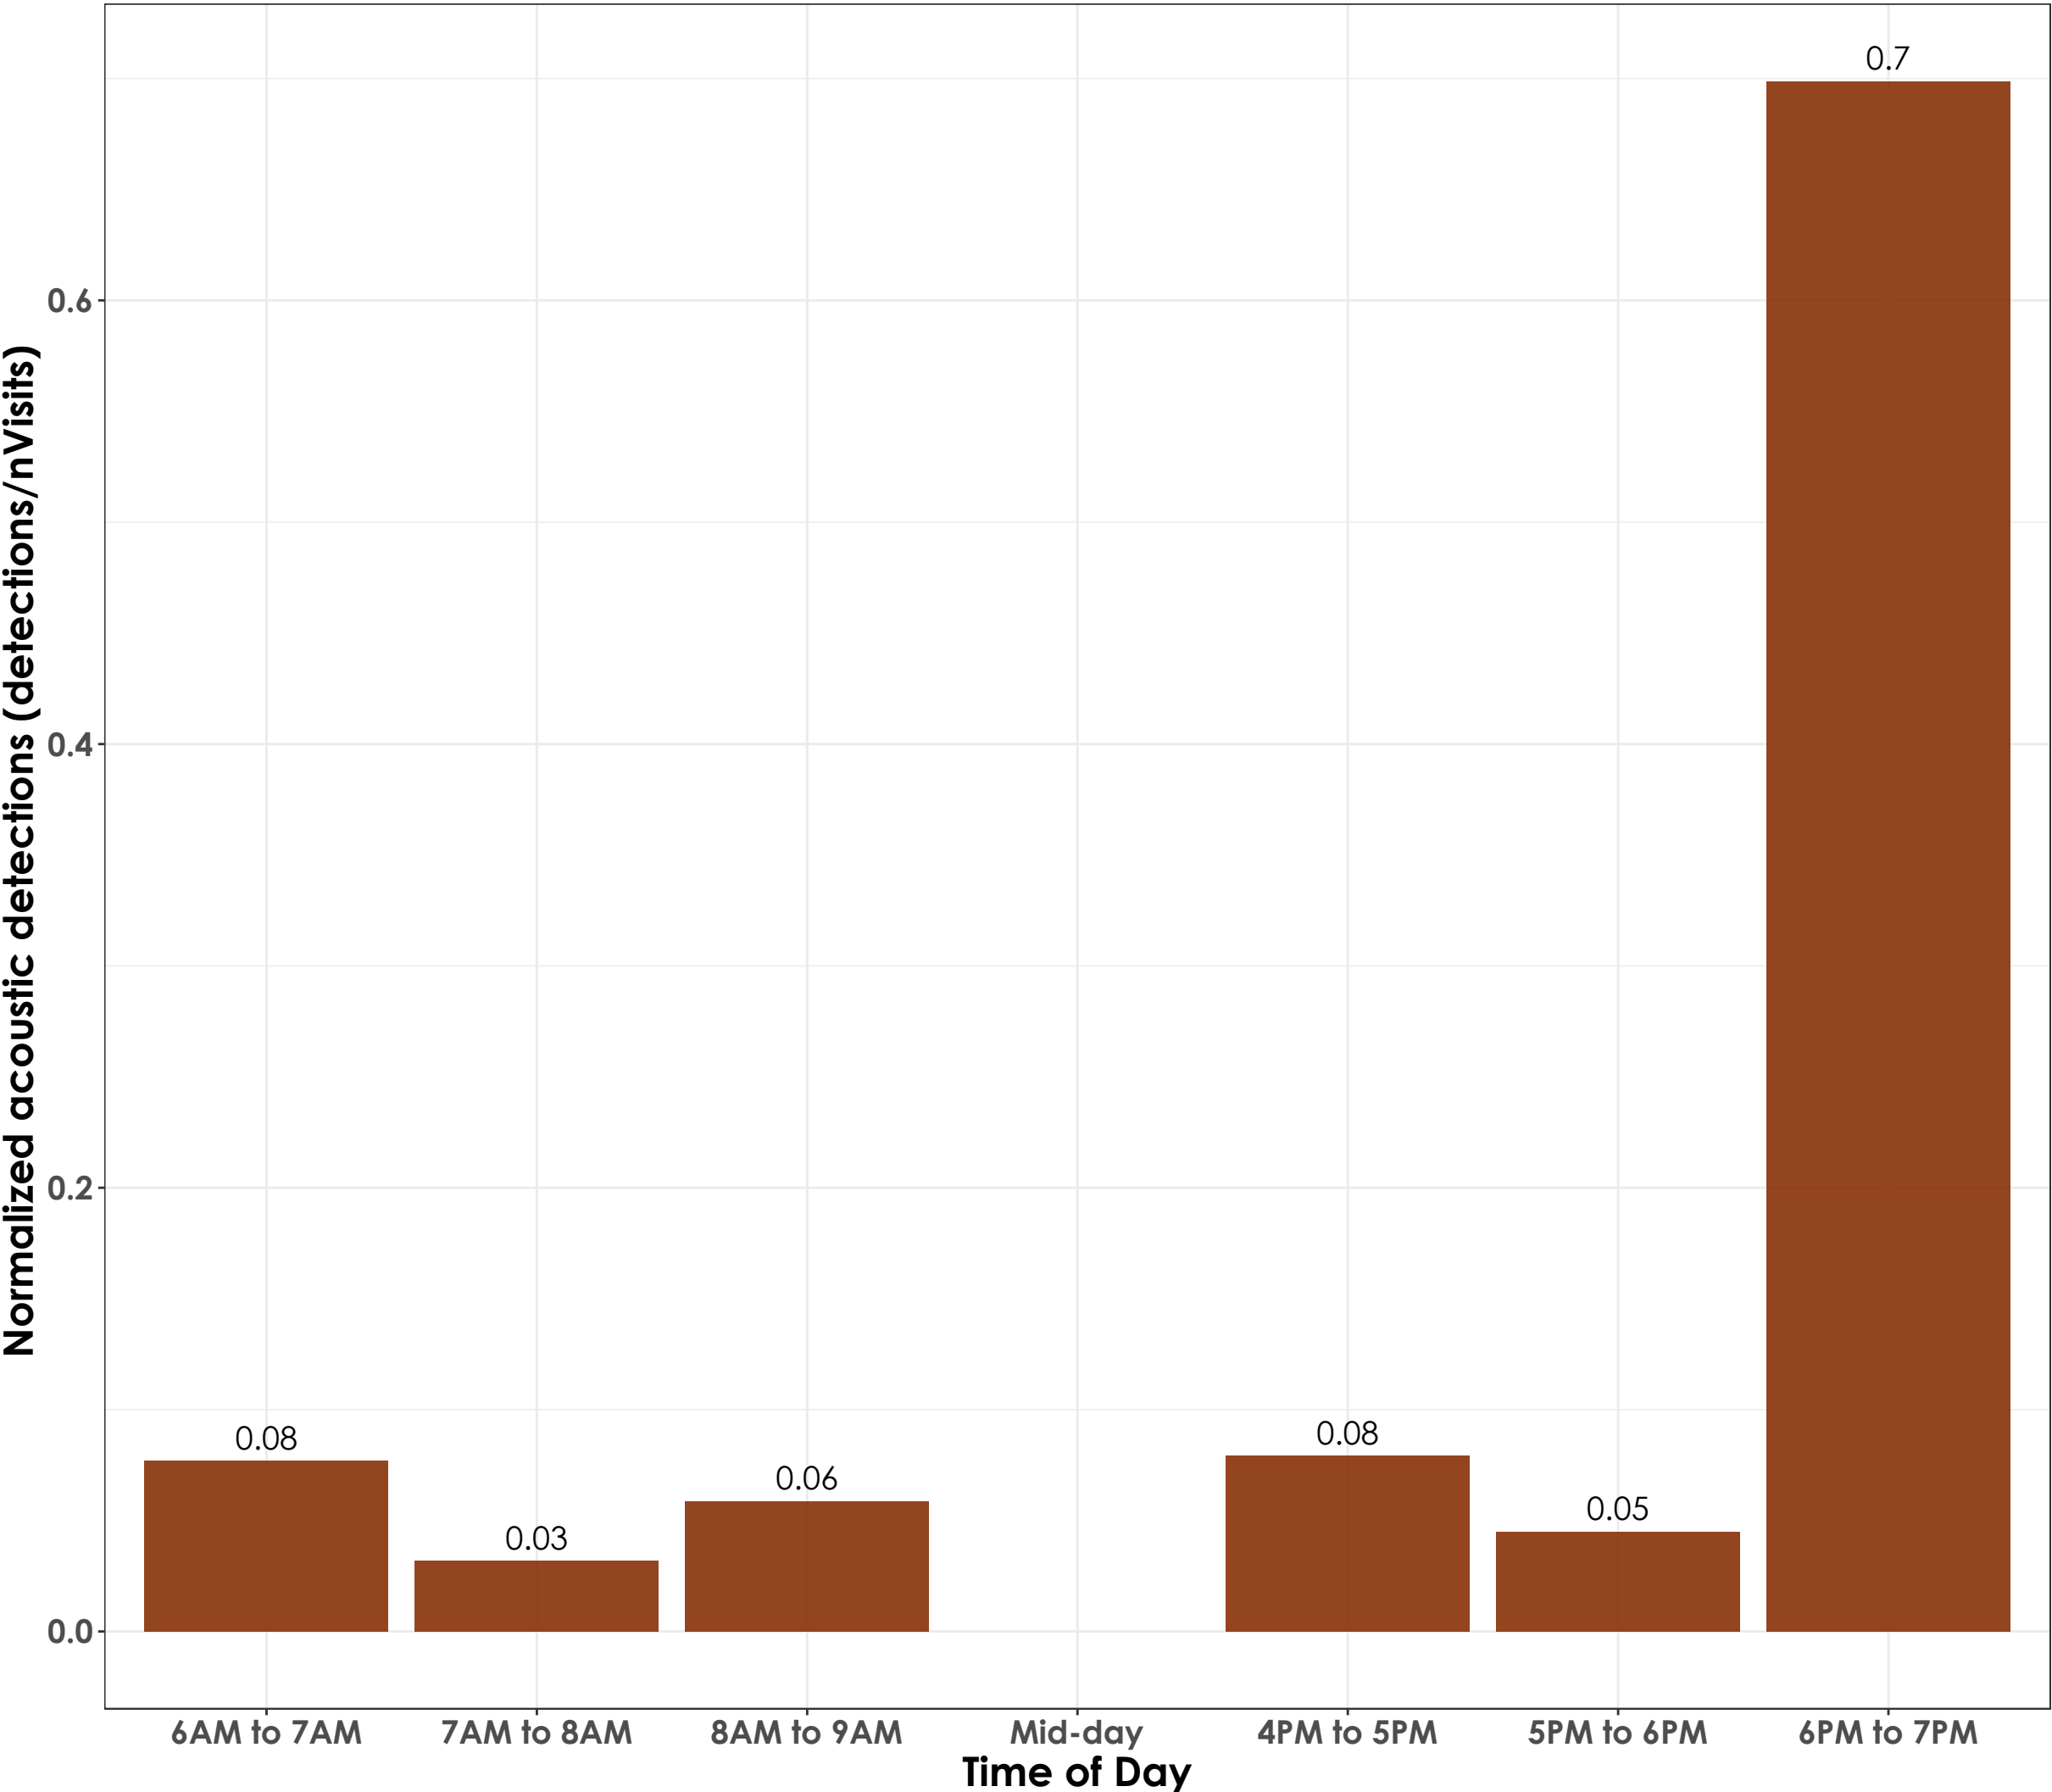

# Black-naped Monarch

Each bar represents the normalized detections across dawn and dusk

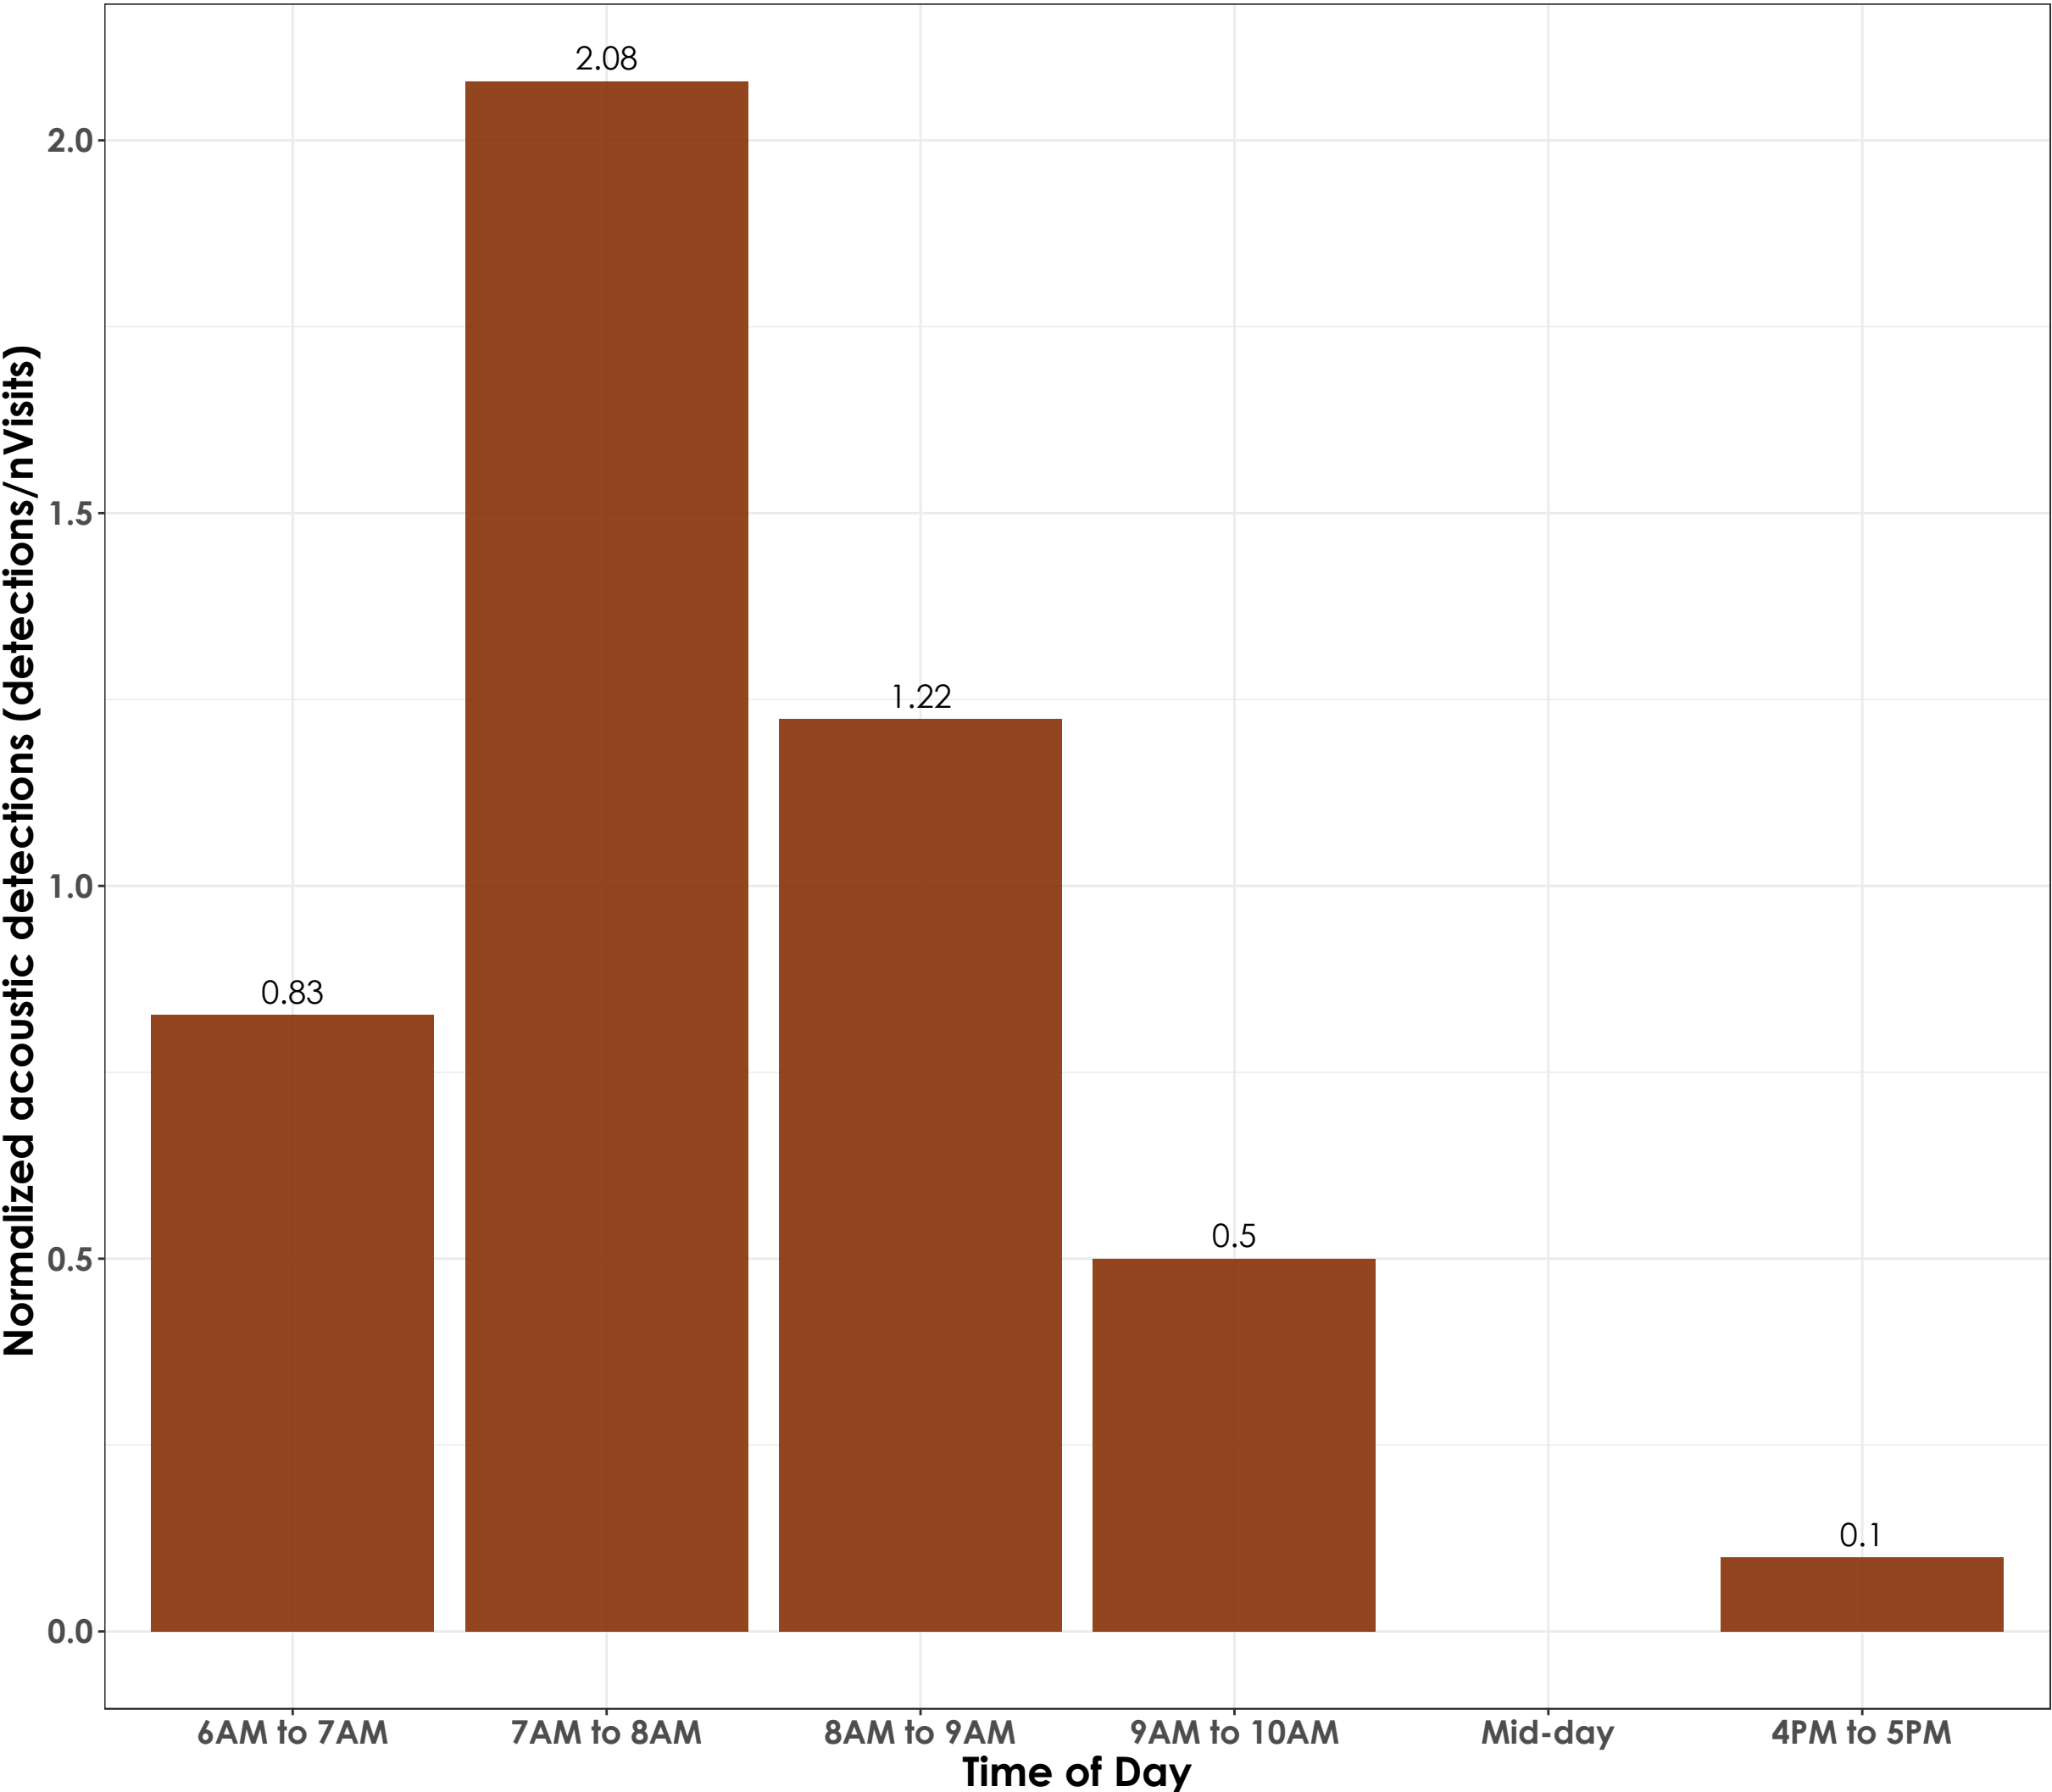

# Spot-bellied Eagle-Owl

Each bar represents the normalized detections across dawn and dusk

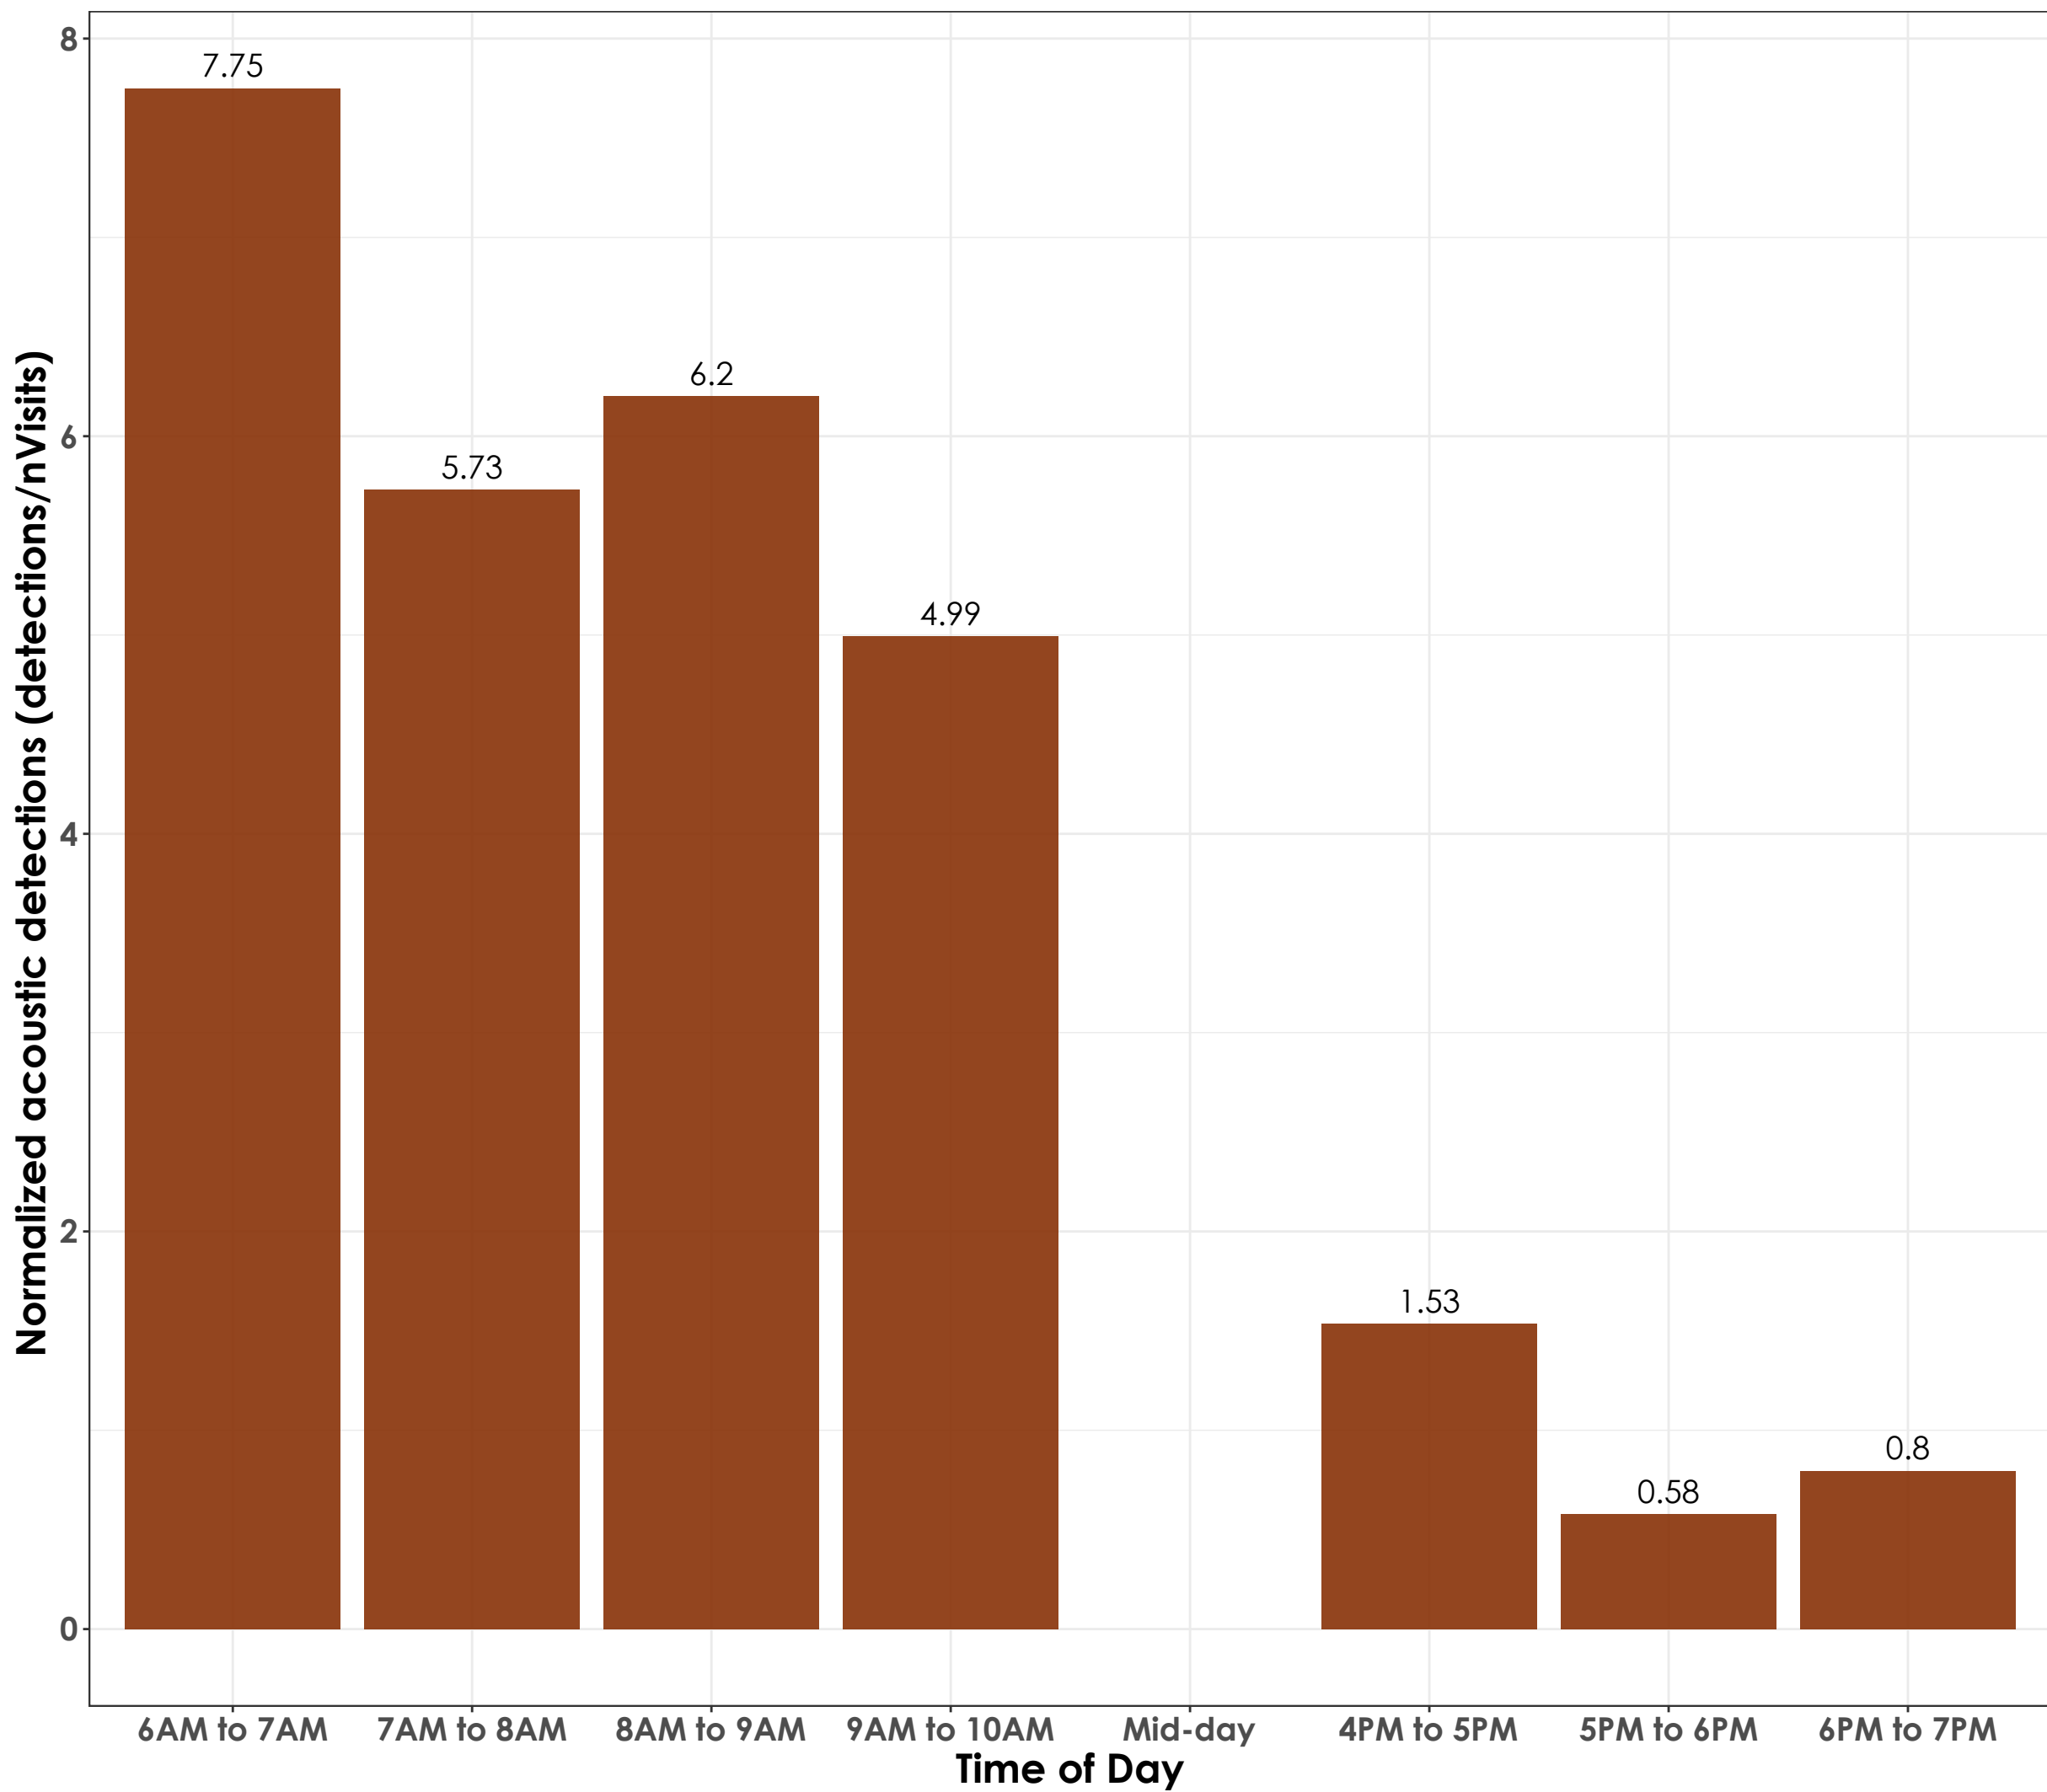

# White-throated Kingfisher

Each bar represents the normalized detections across dawn and dusk

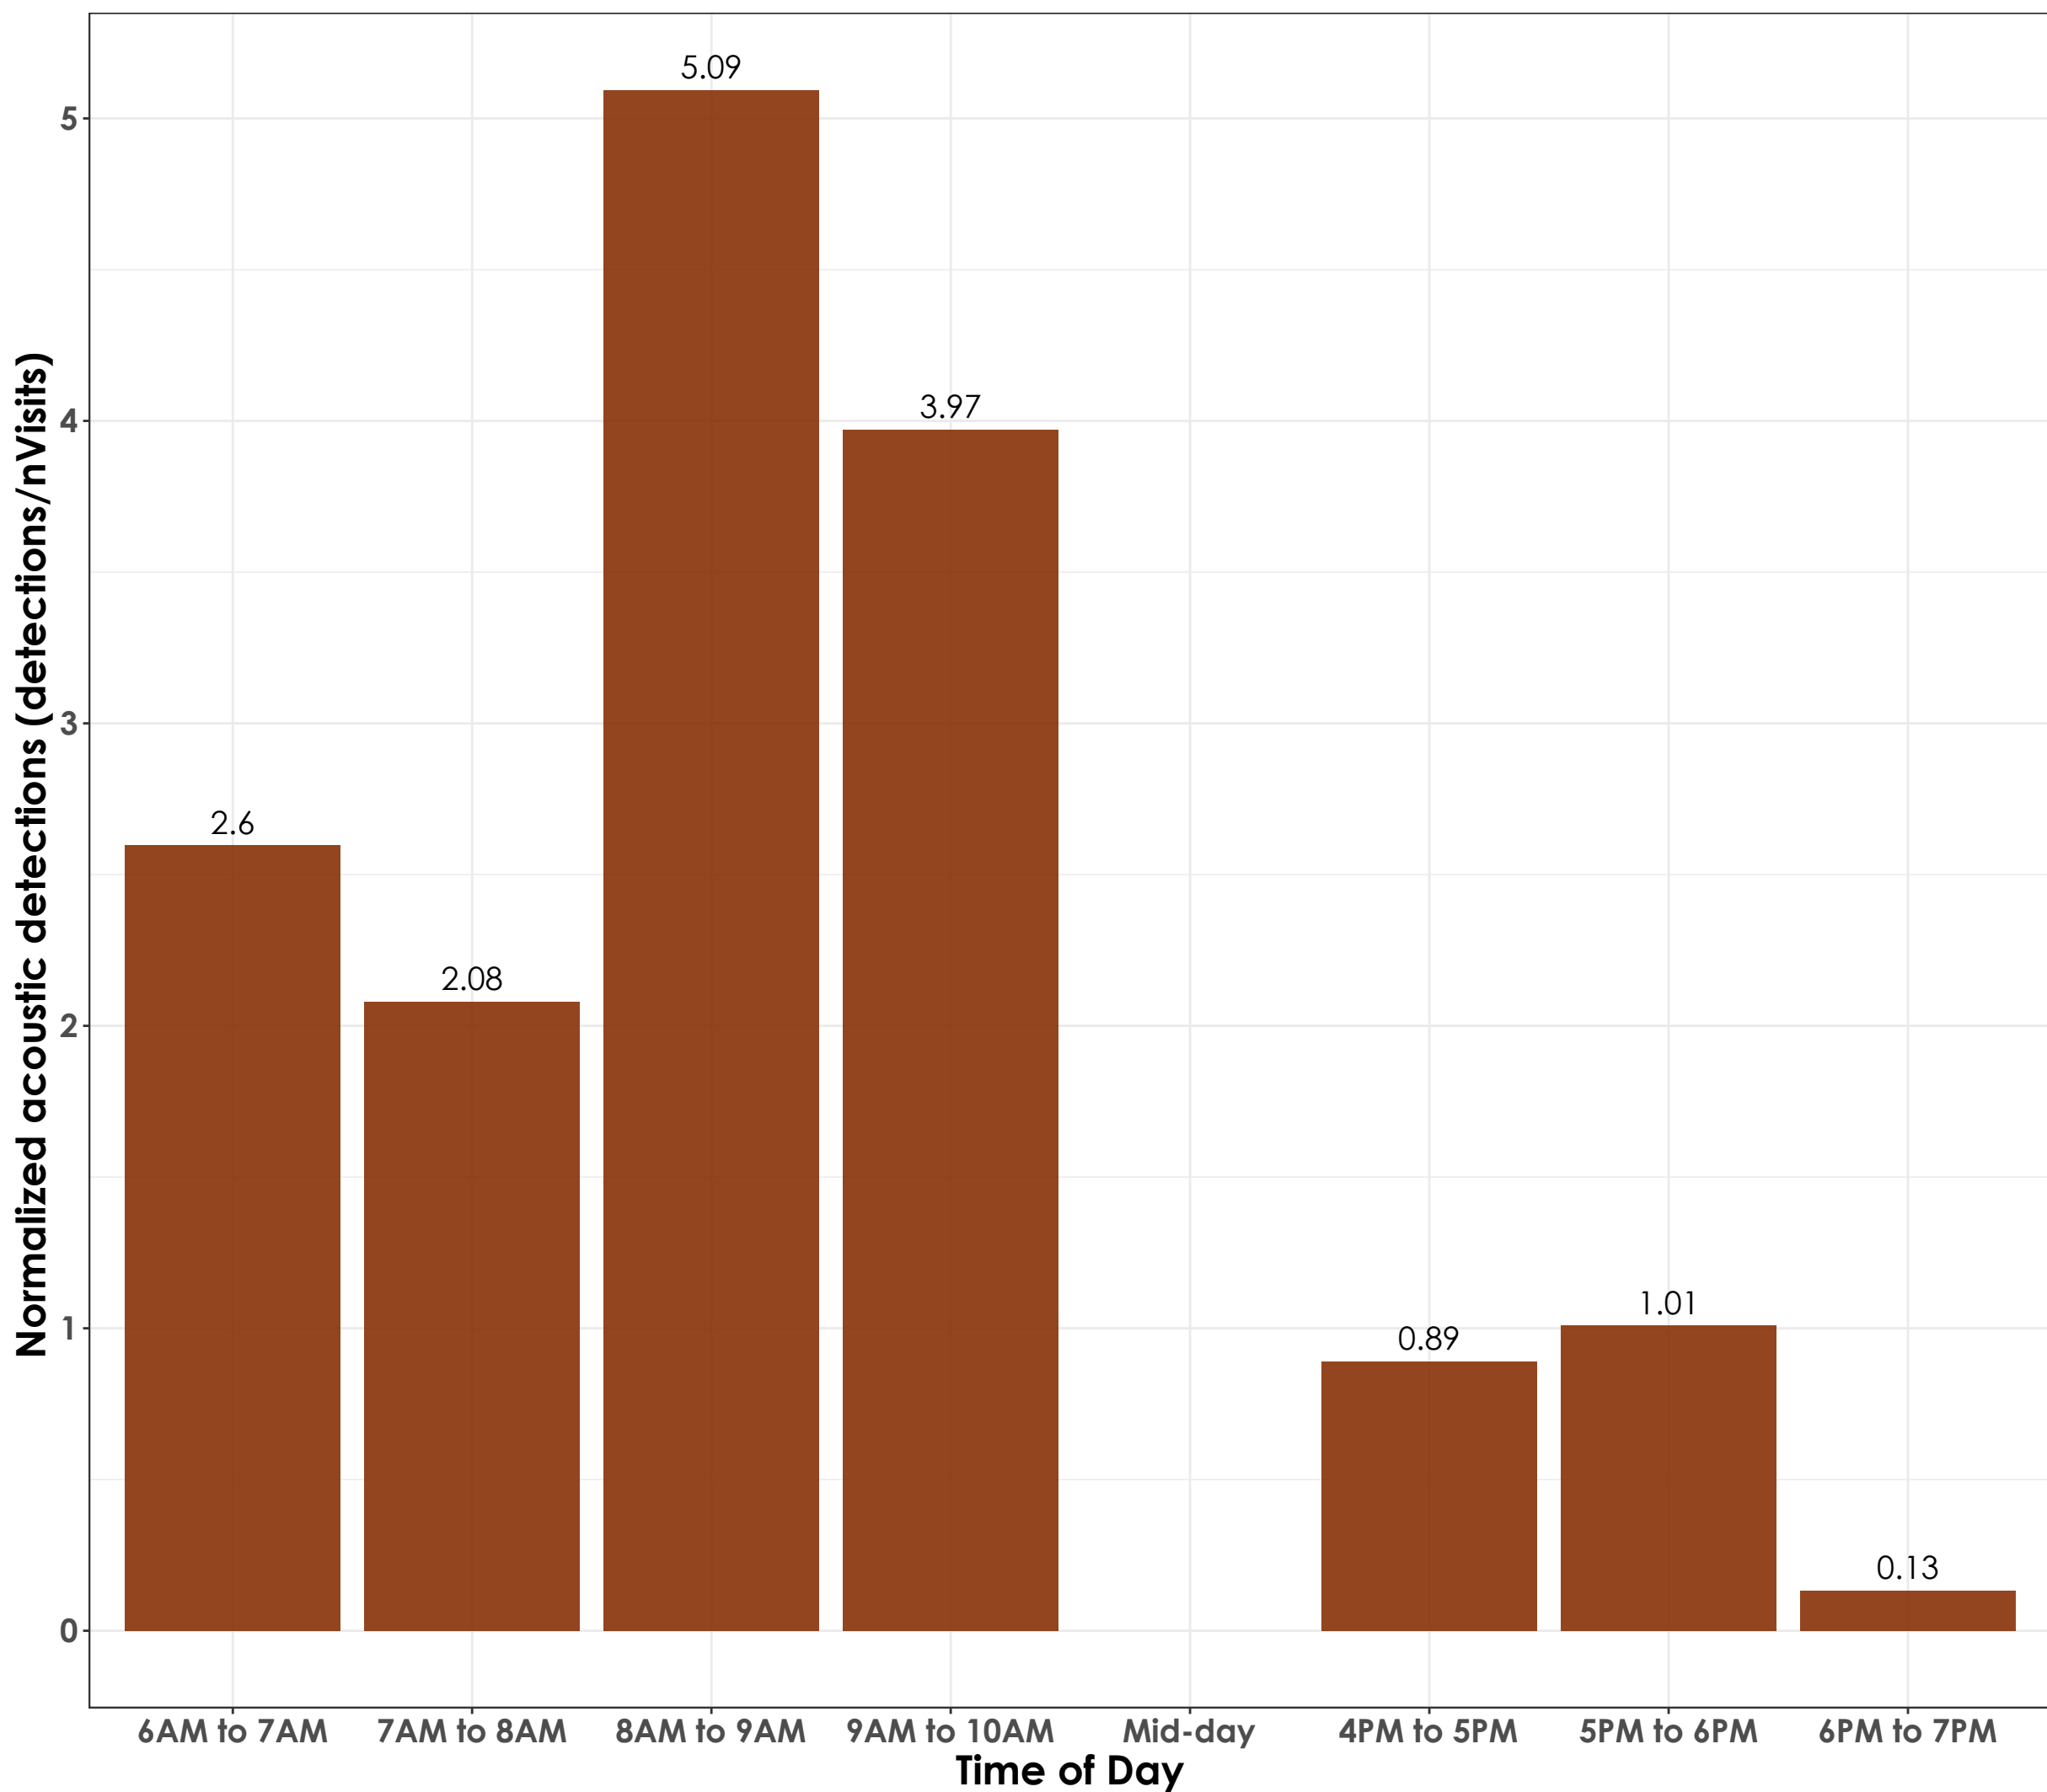

# Brown-cheeked Fulvetta

*Each bar represents the normalized detections across dawn and dusk*

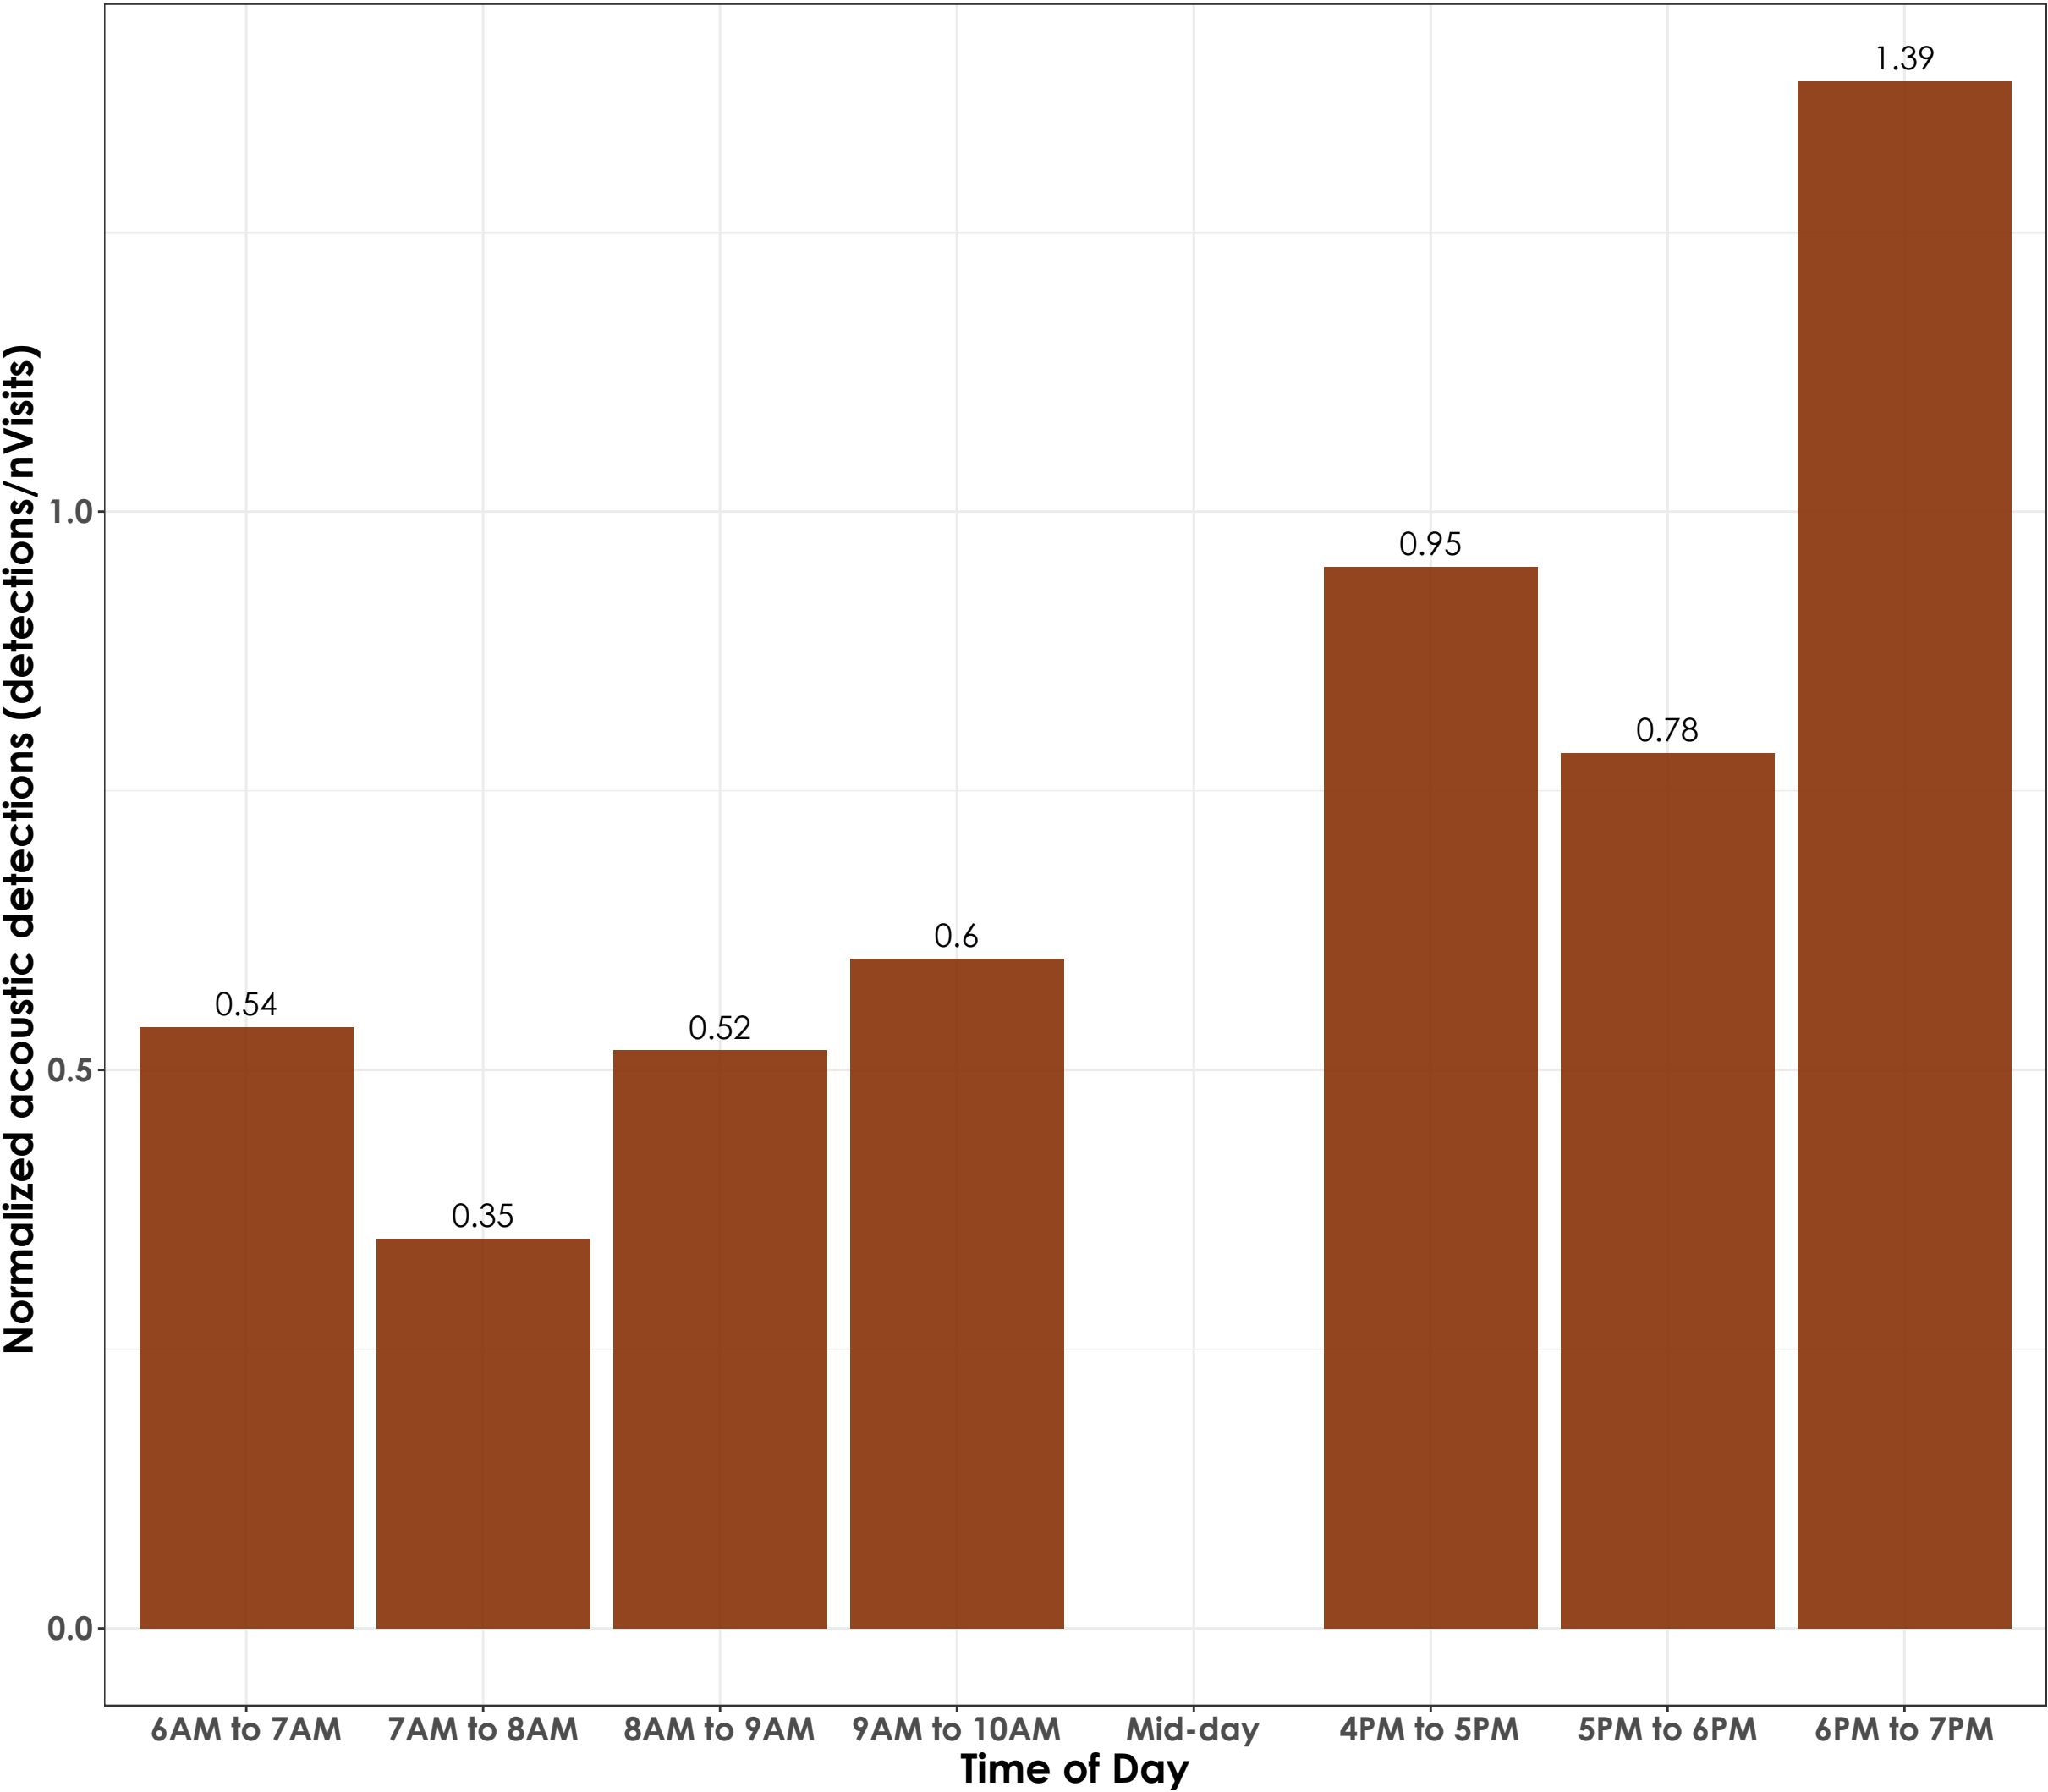

# Orange Minivet

*Each bar represents the normalized detections across dawn and dusk*

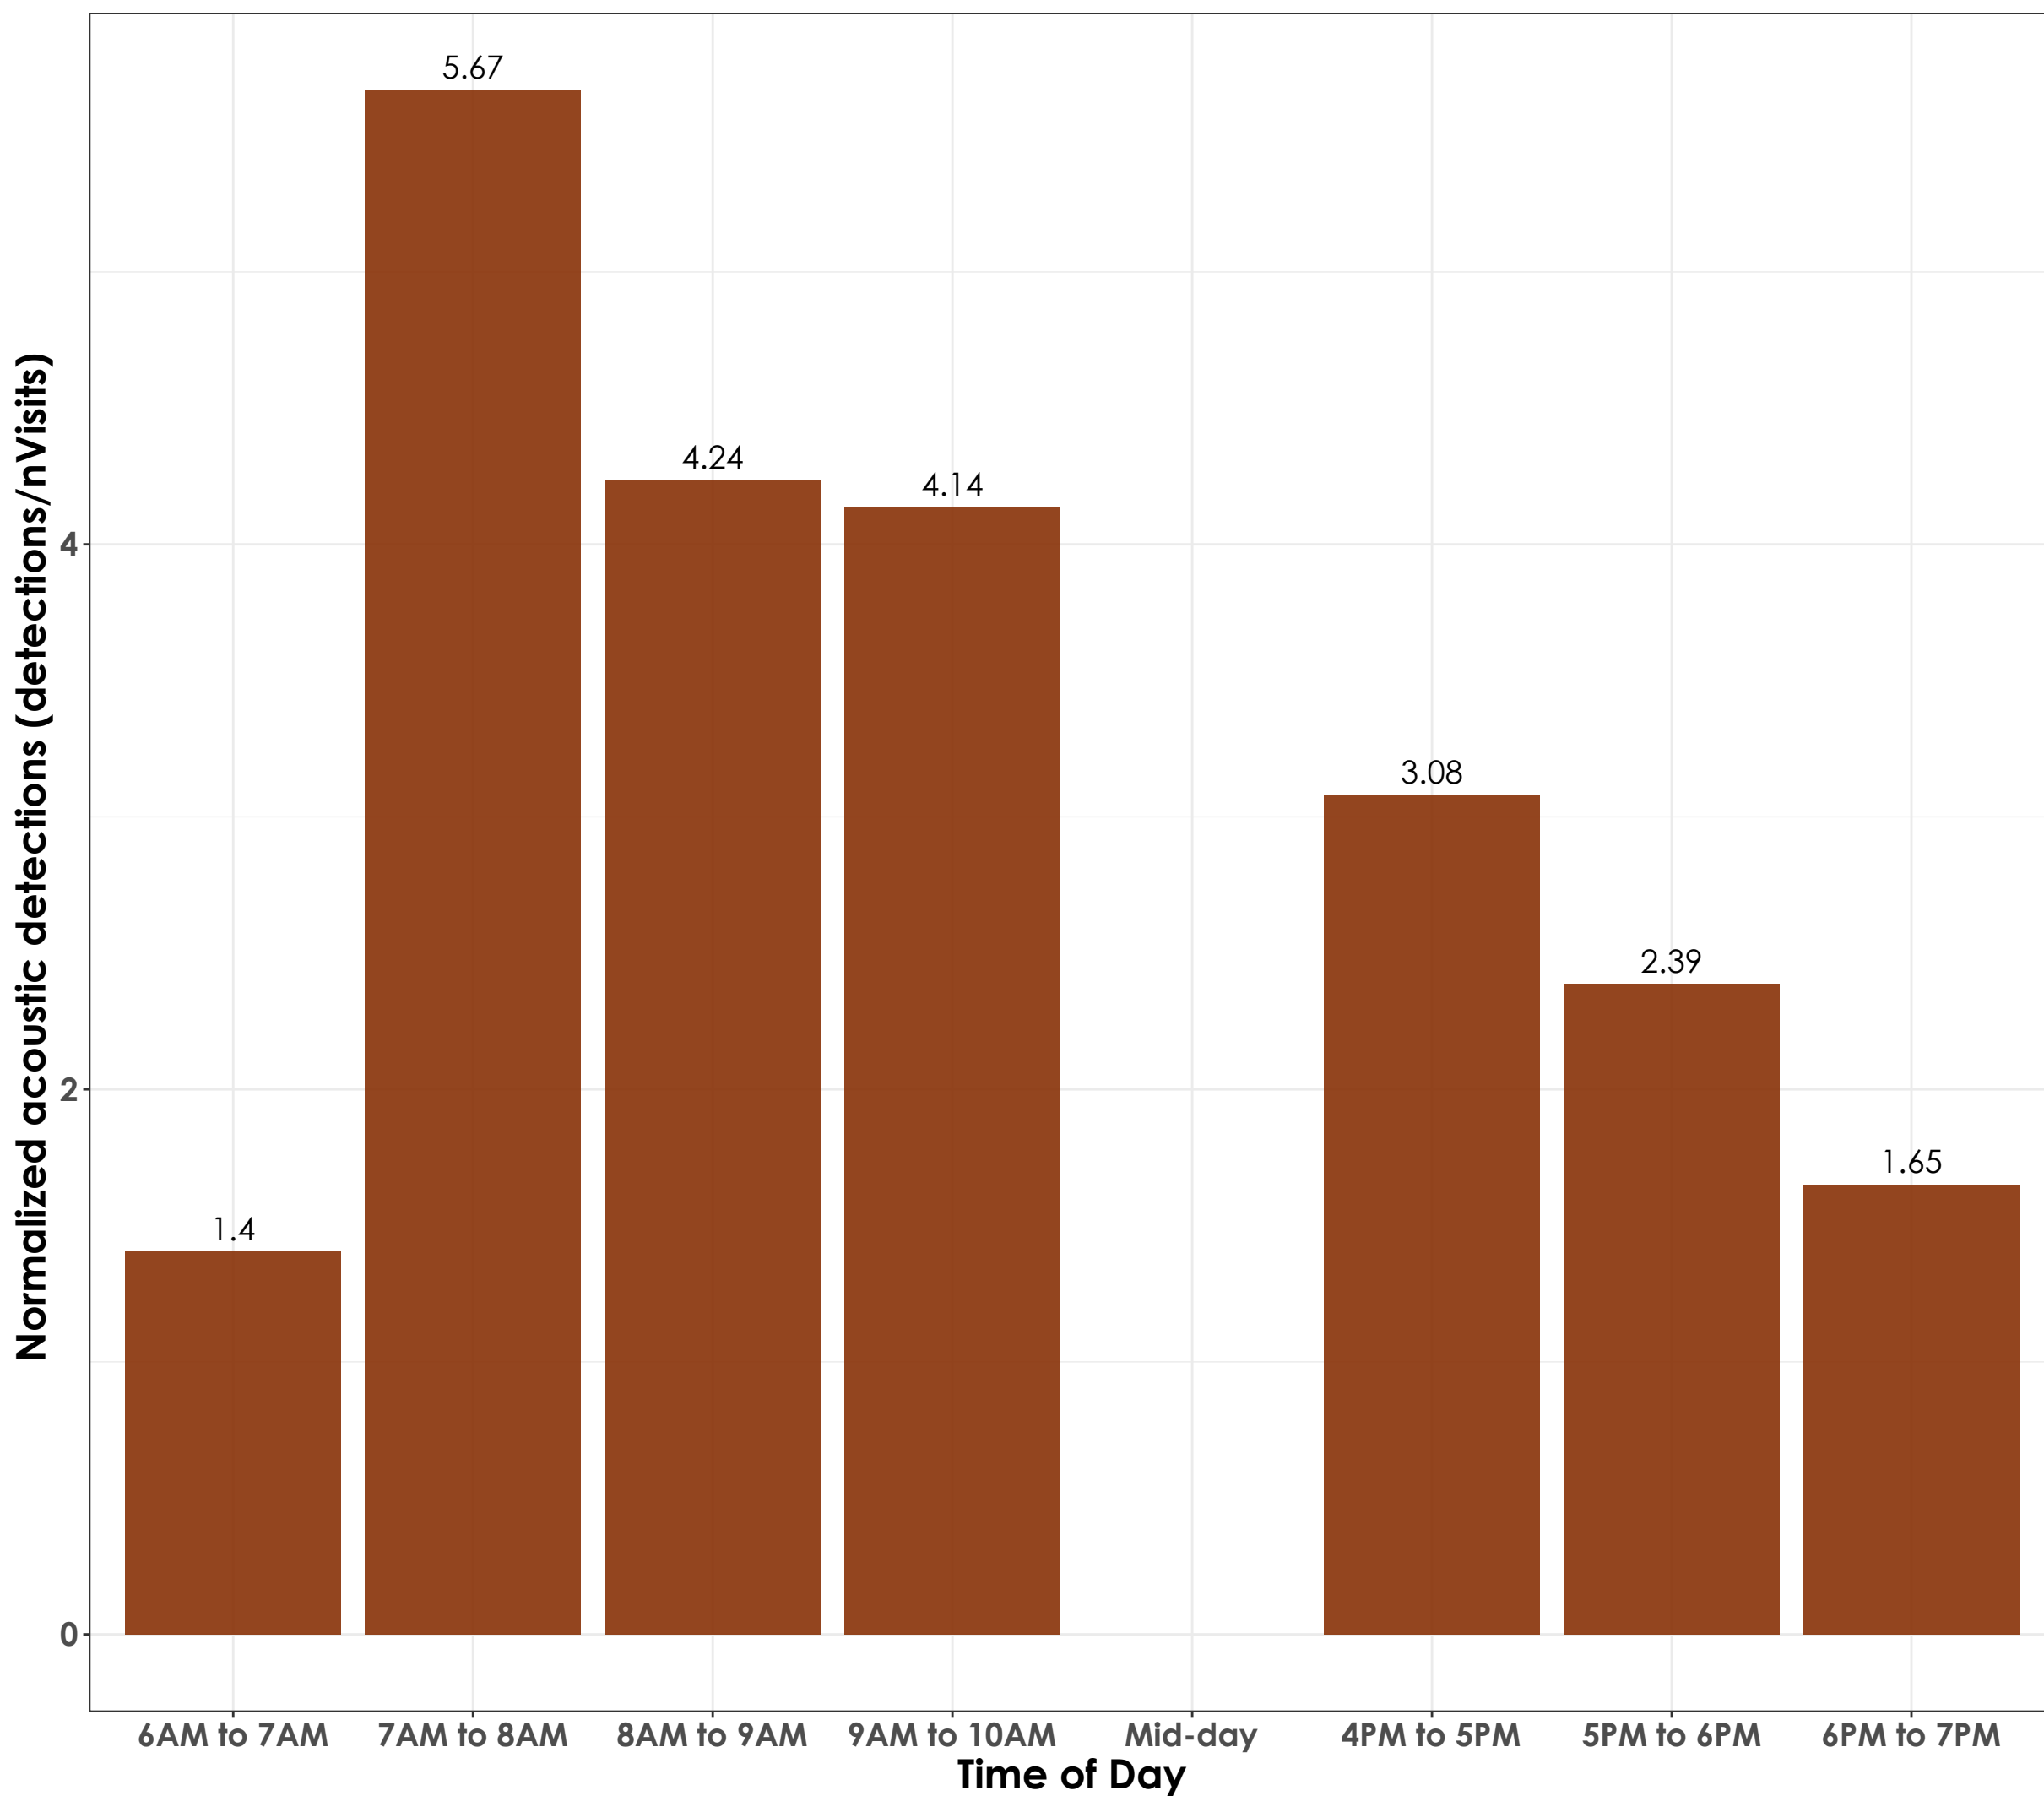

# Greater Flameback

Each bar represents the normalized detections across dawn and dusk

# Blyth's Reed Warbler

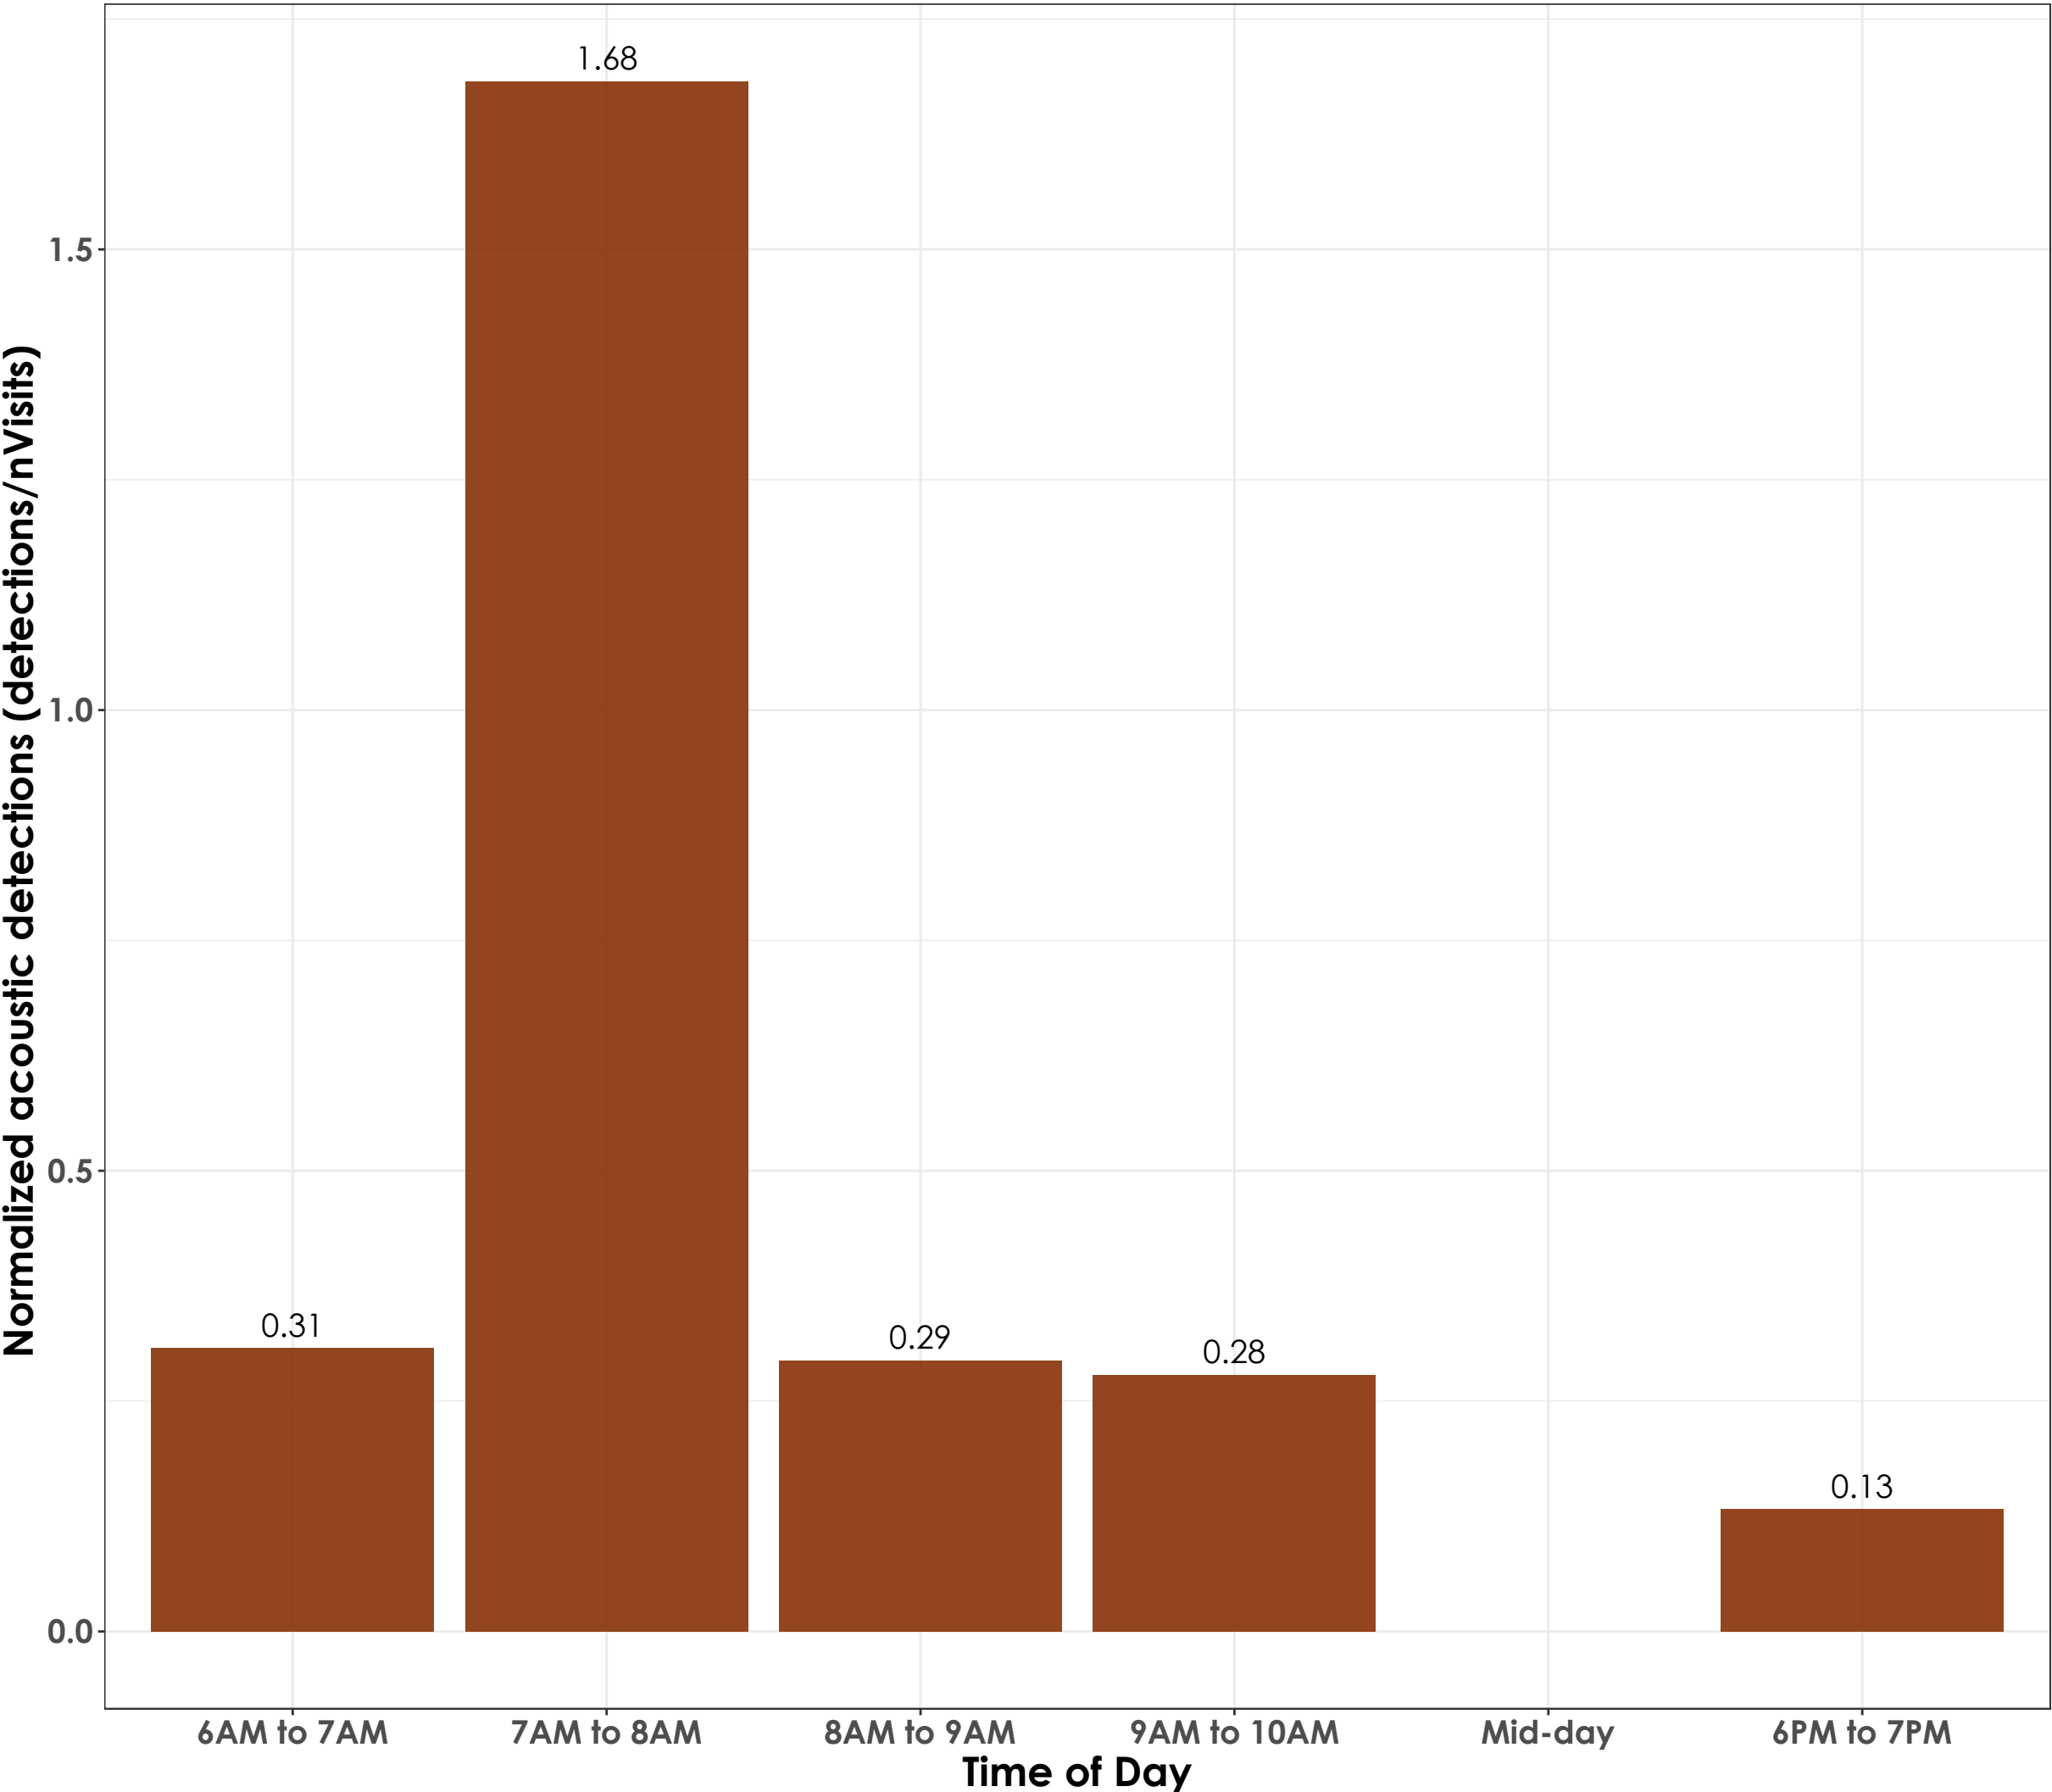

Each bar represents the normalized detections across dawn and dusk

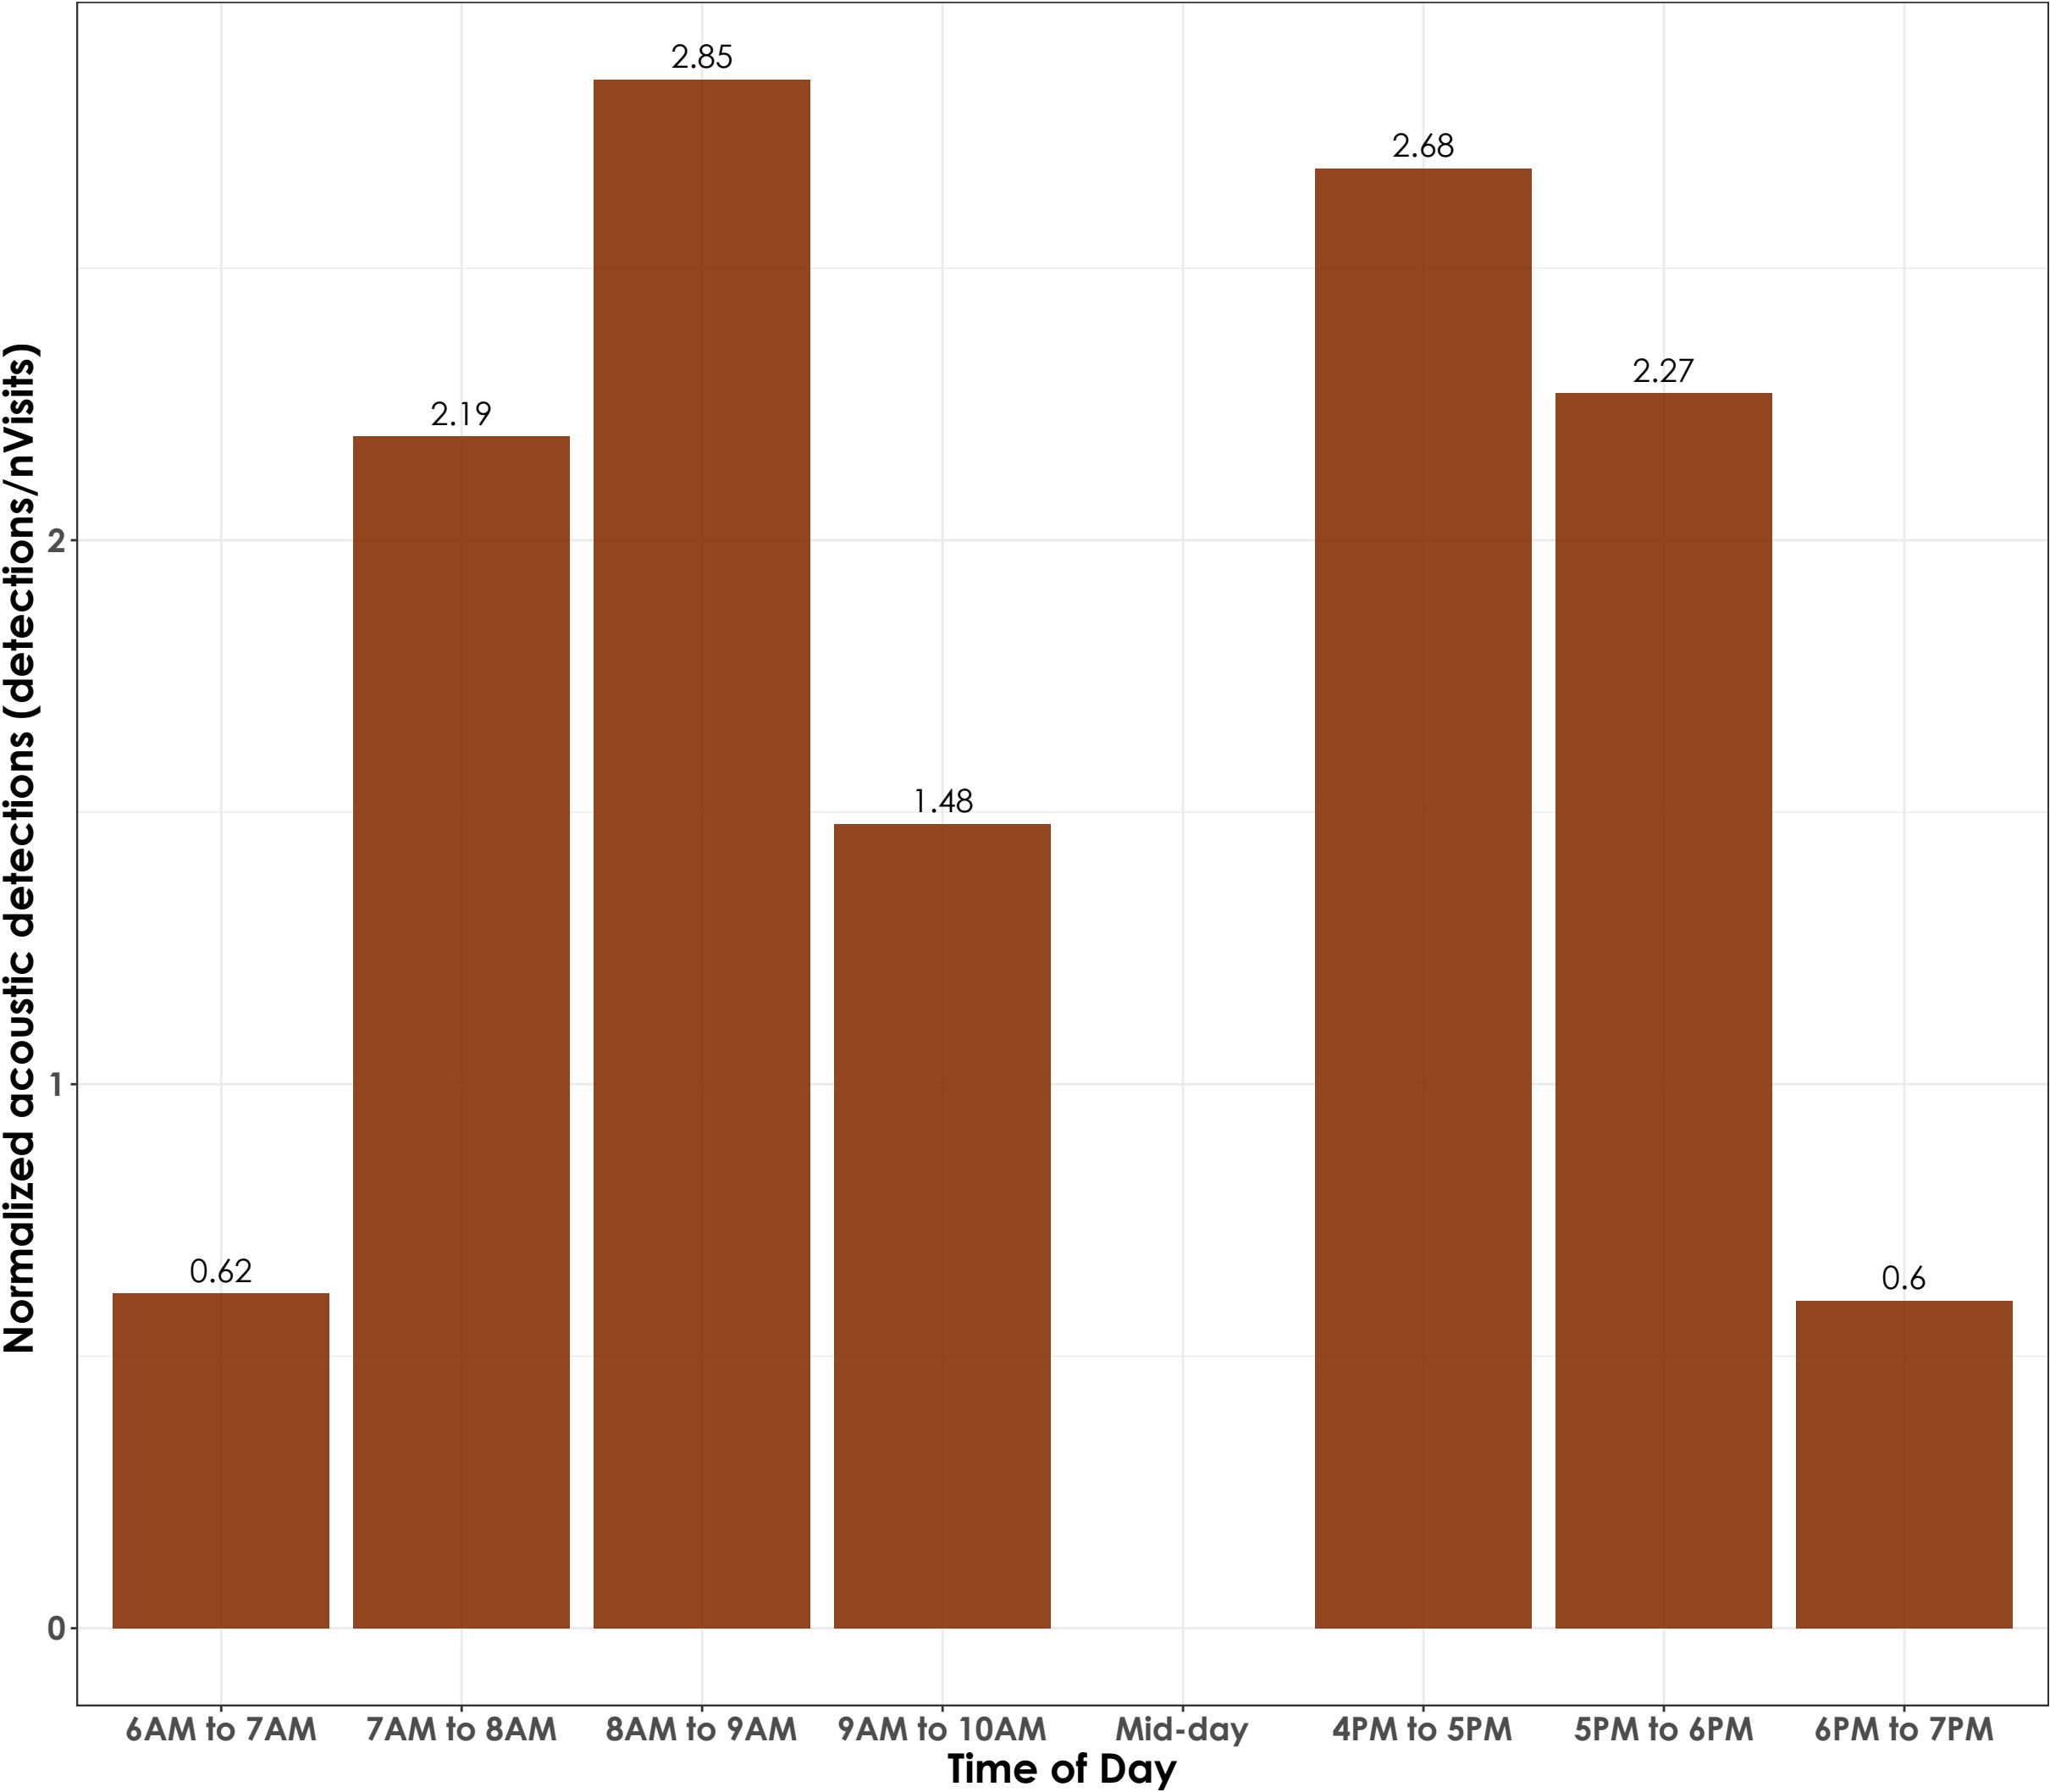

**Malabar Trogon**

*Each bar represents the normalized detections across dawn and dusk*

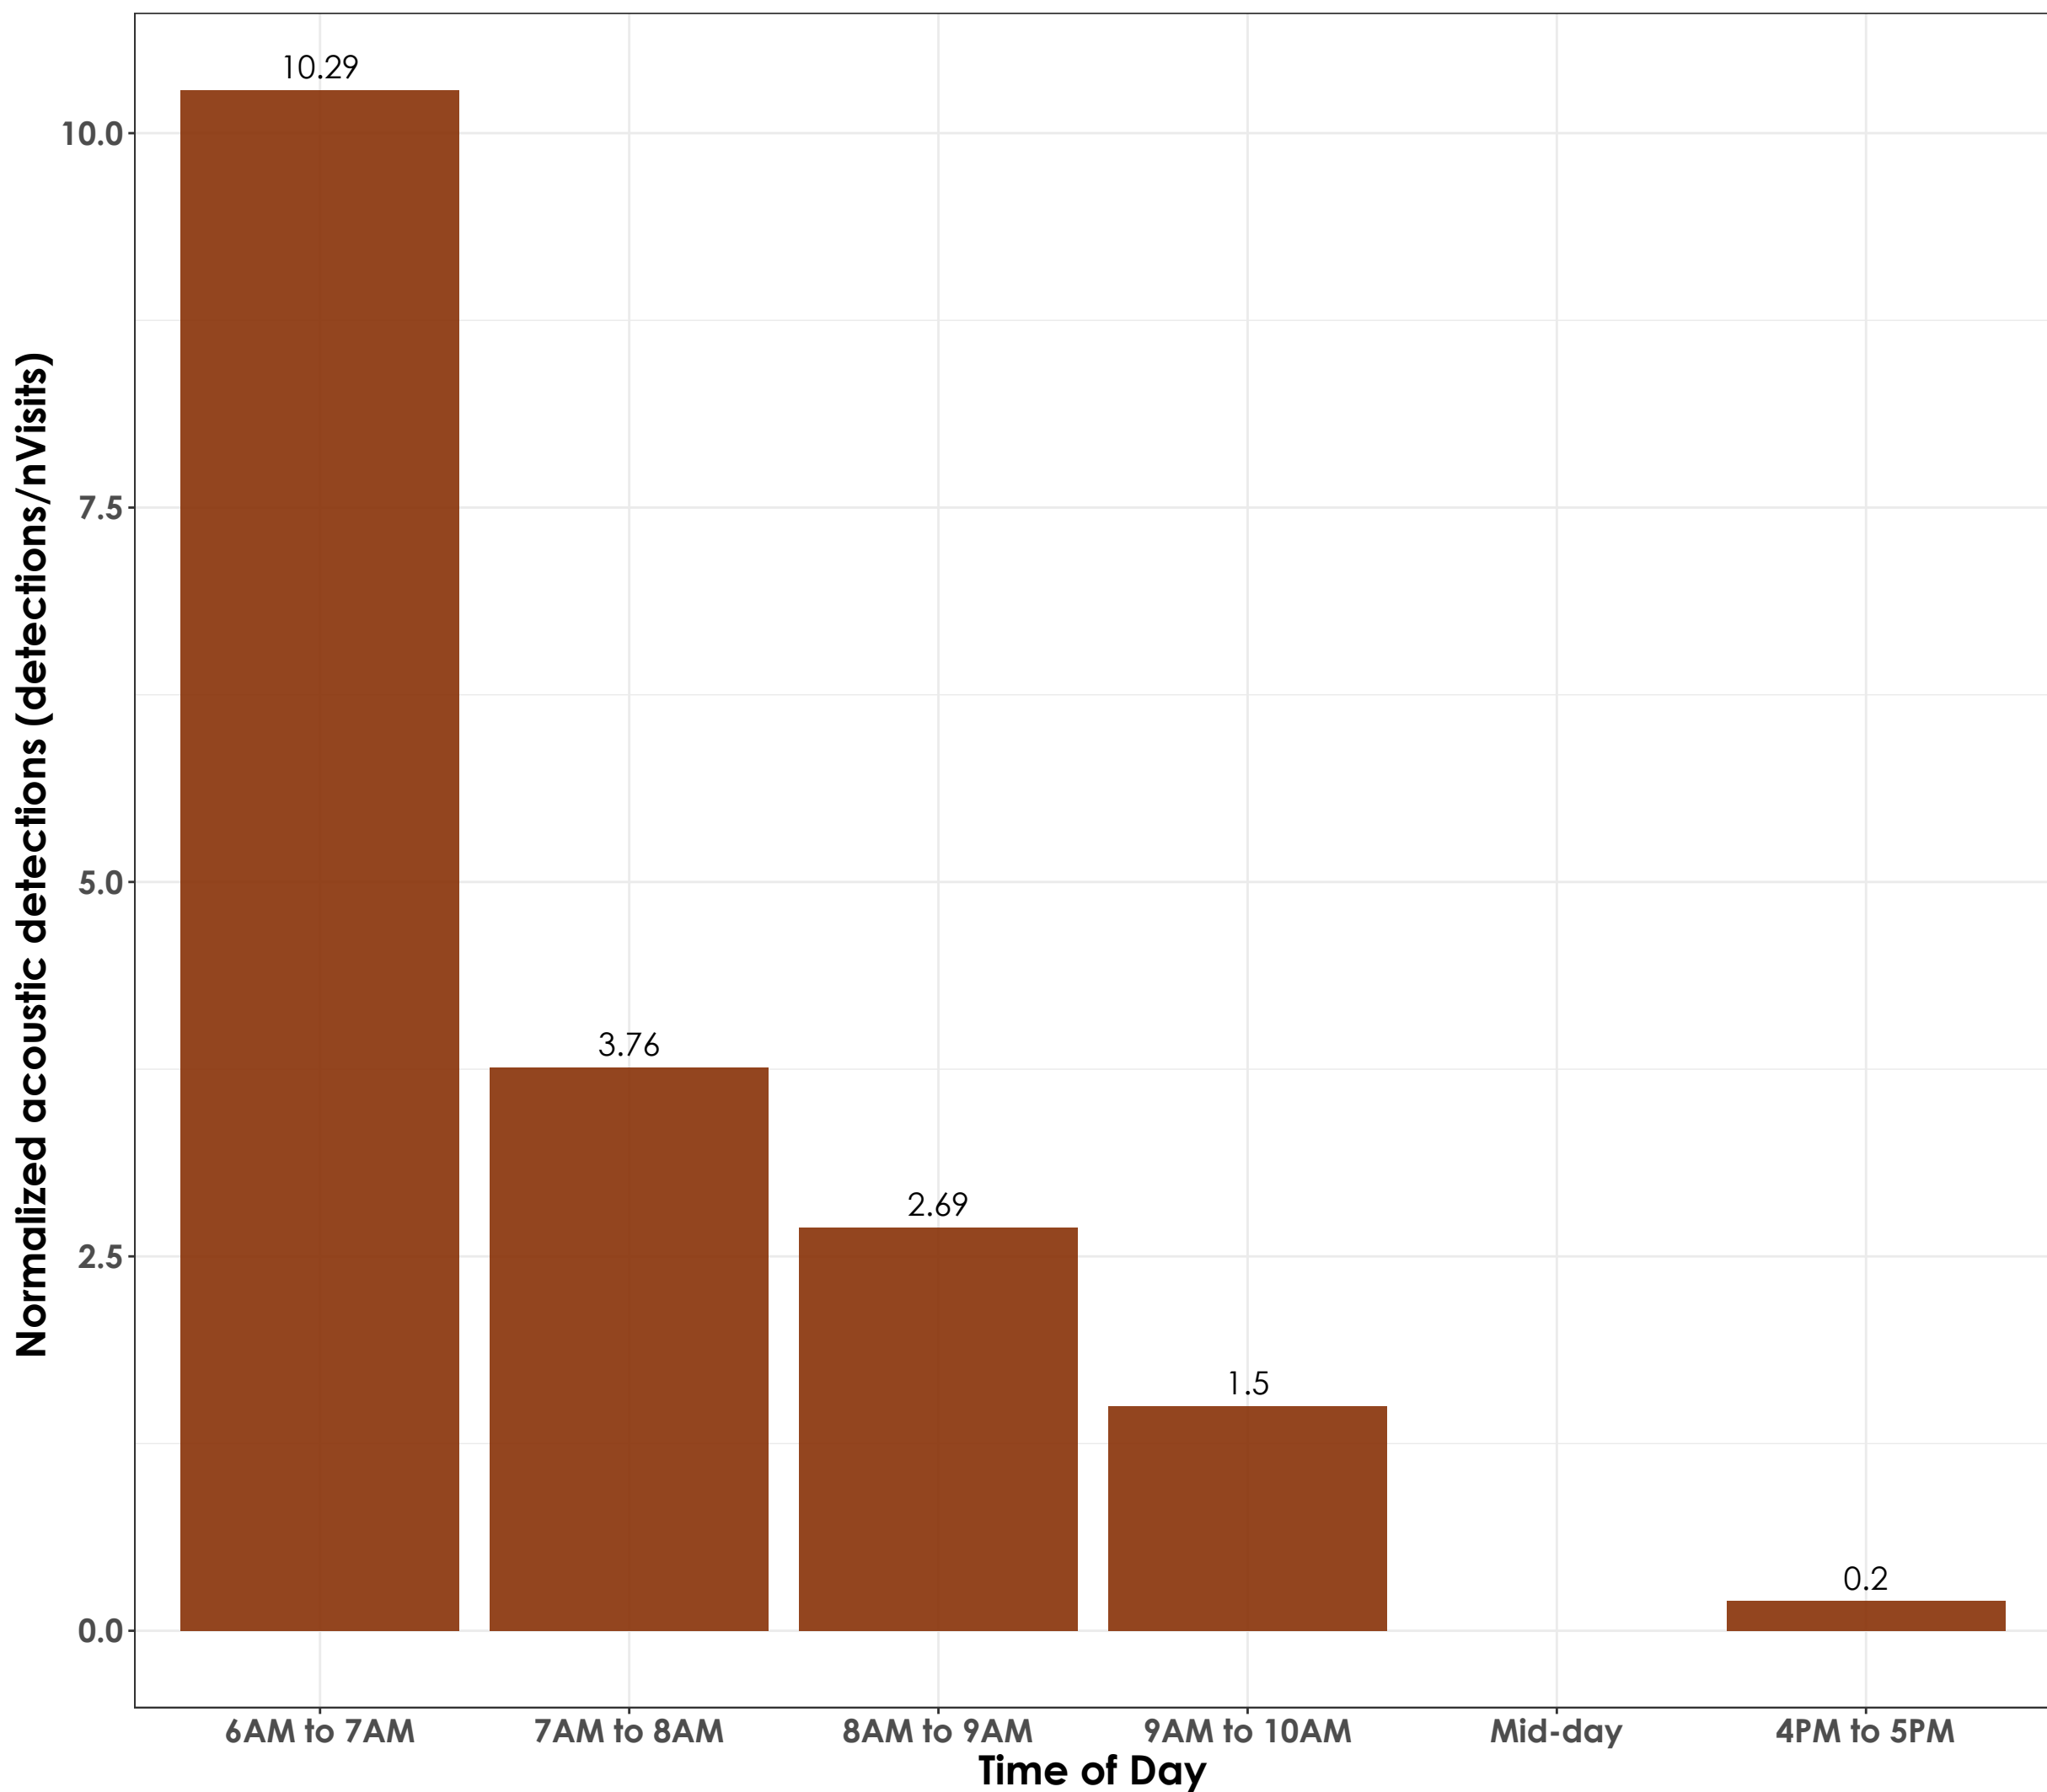

# Plum-headed Parakeet

Each bar represents the normalized detections across dawn and dusk

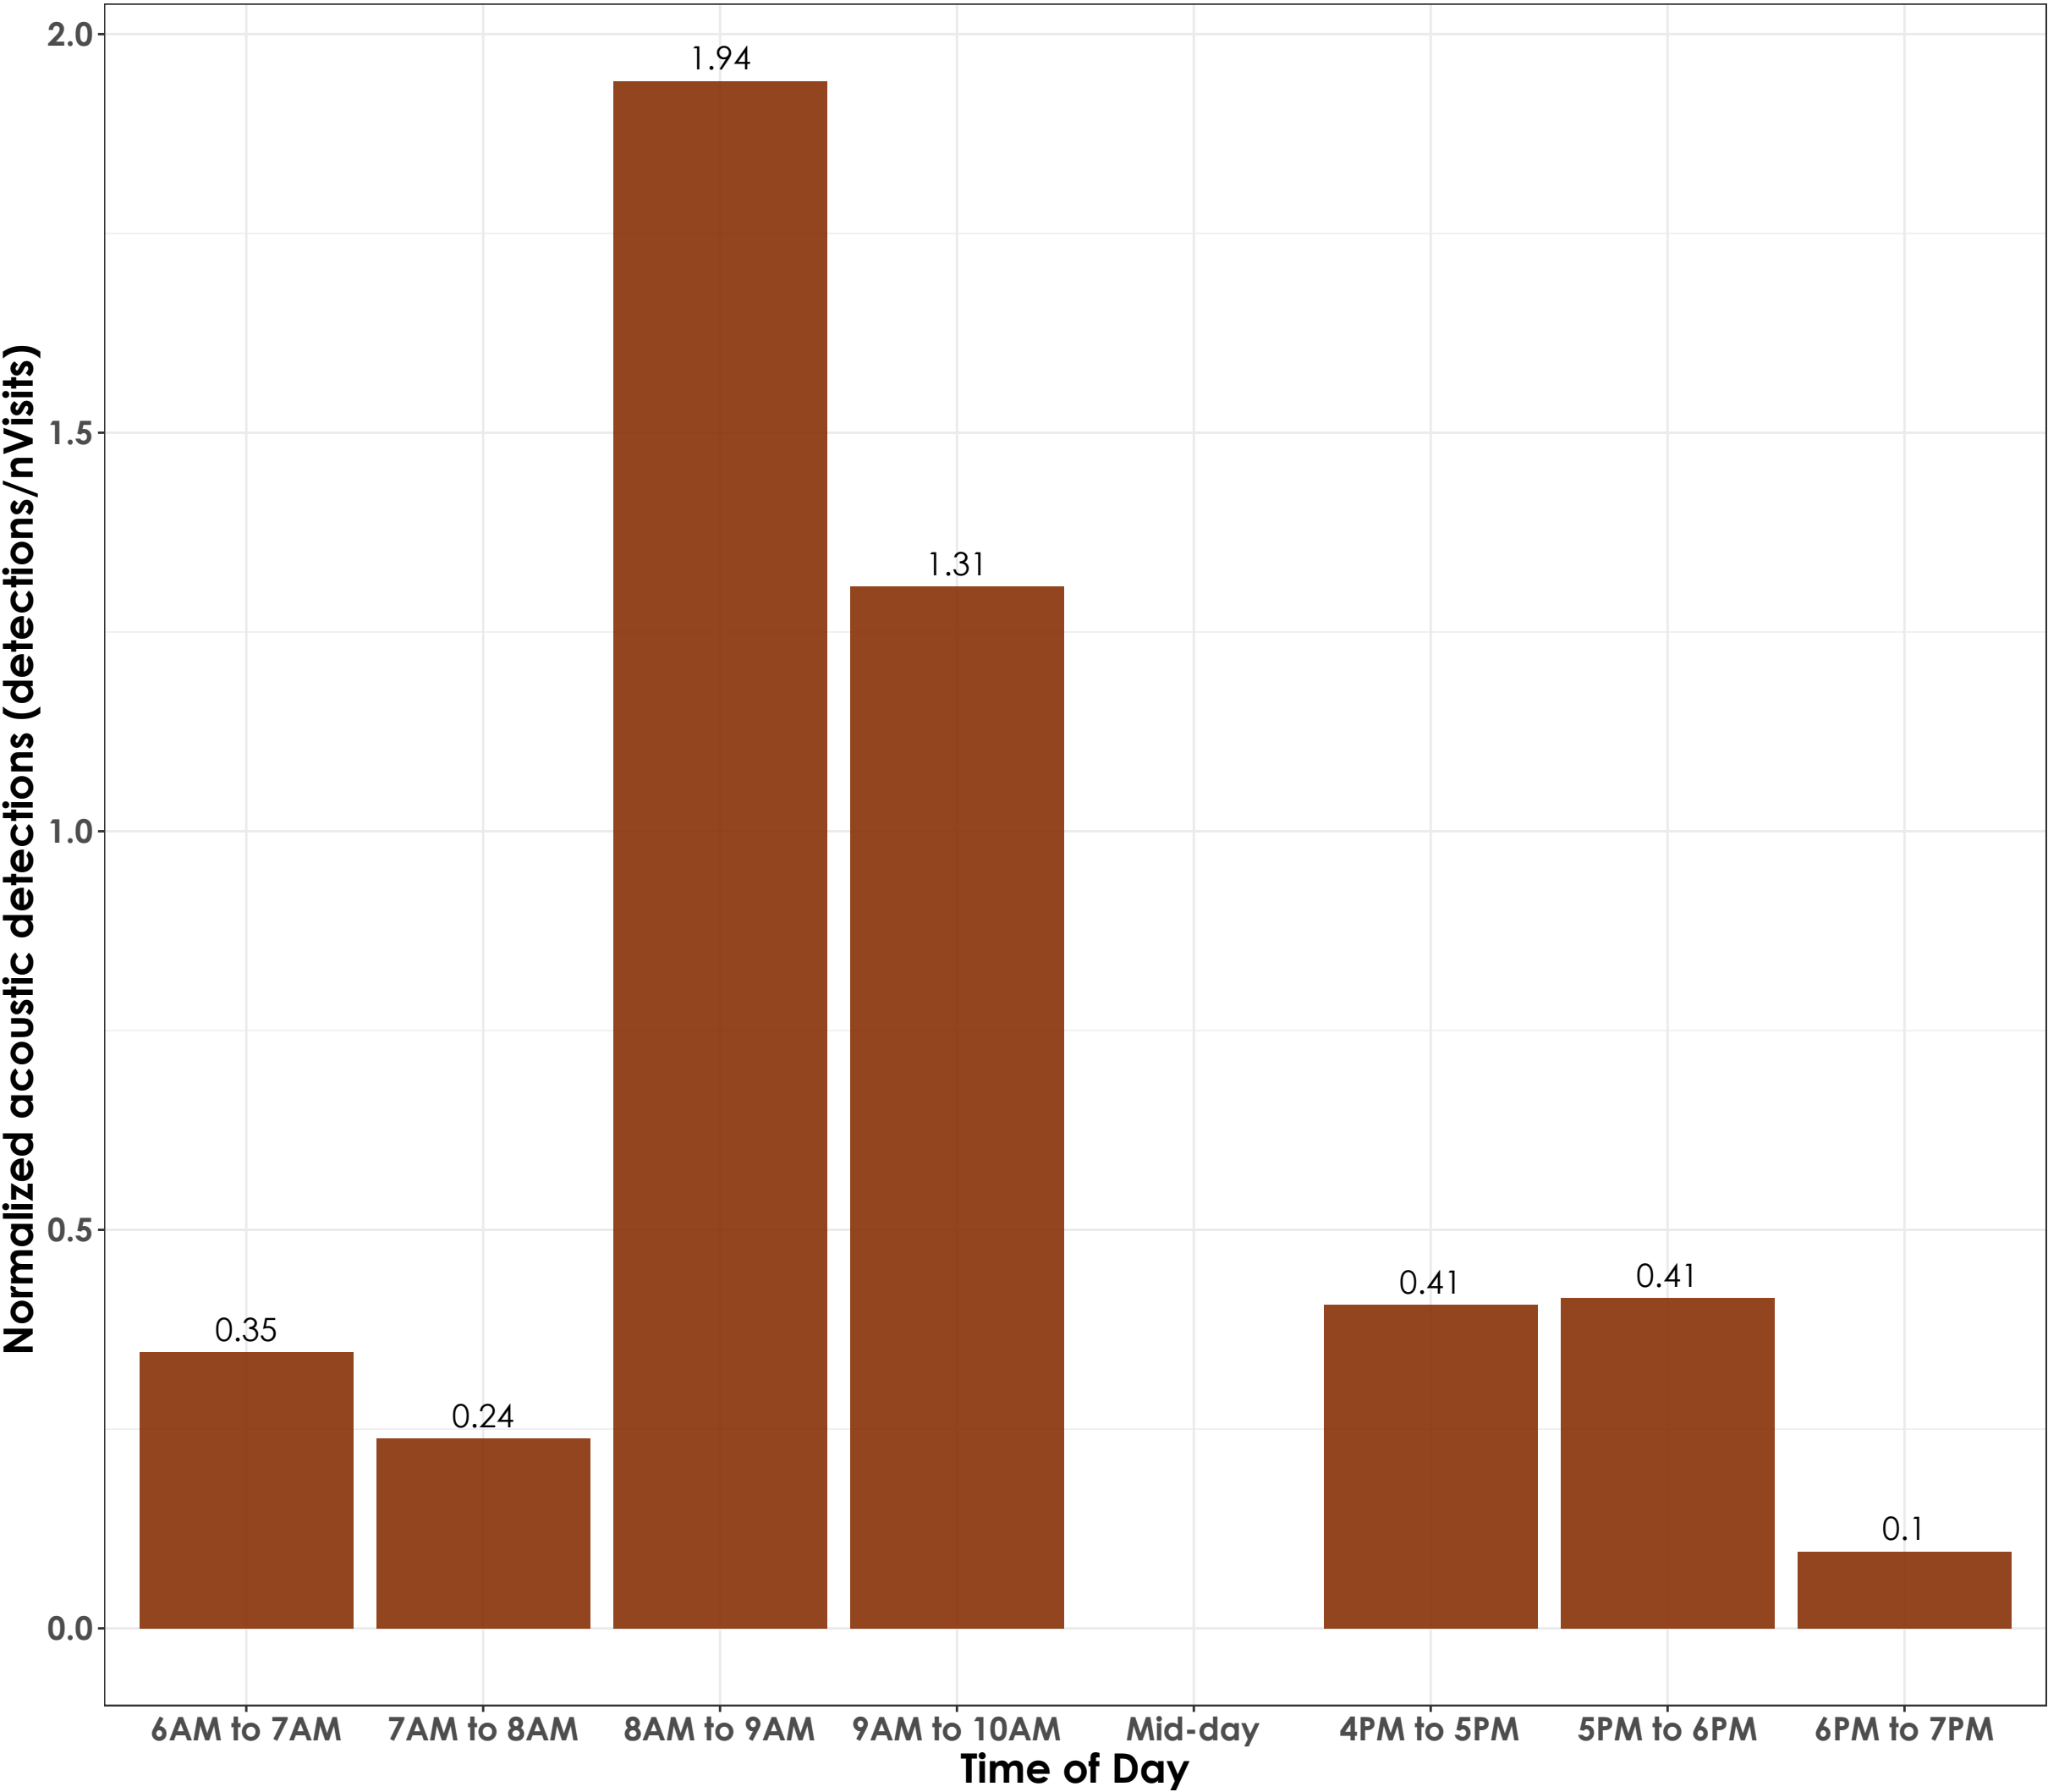

# Gray-headed Canary-Flycatcher

*Each bar represents the normalized detections across dawn and dusk*

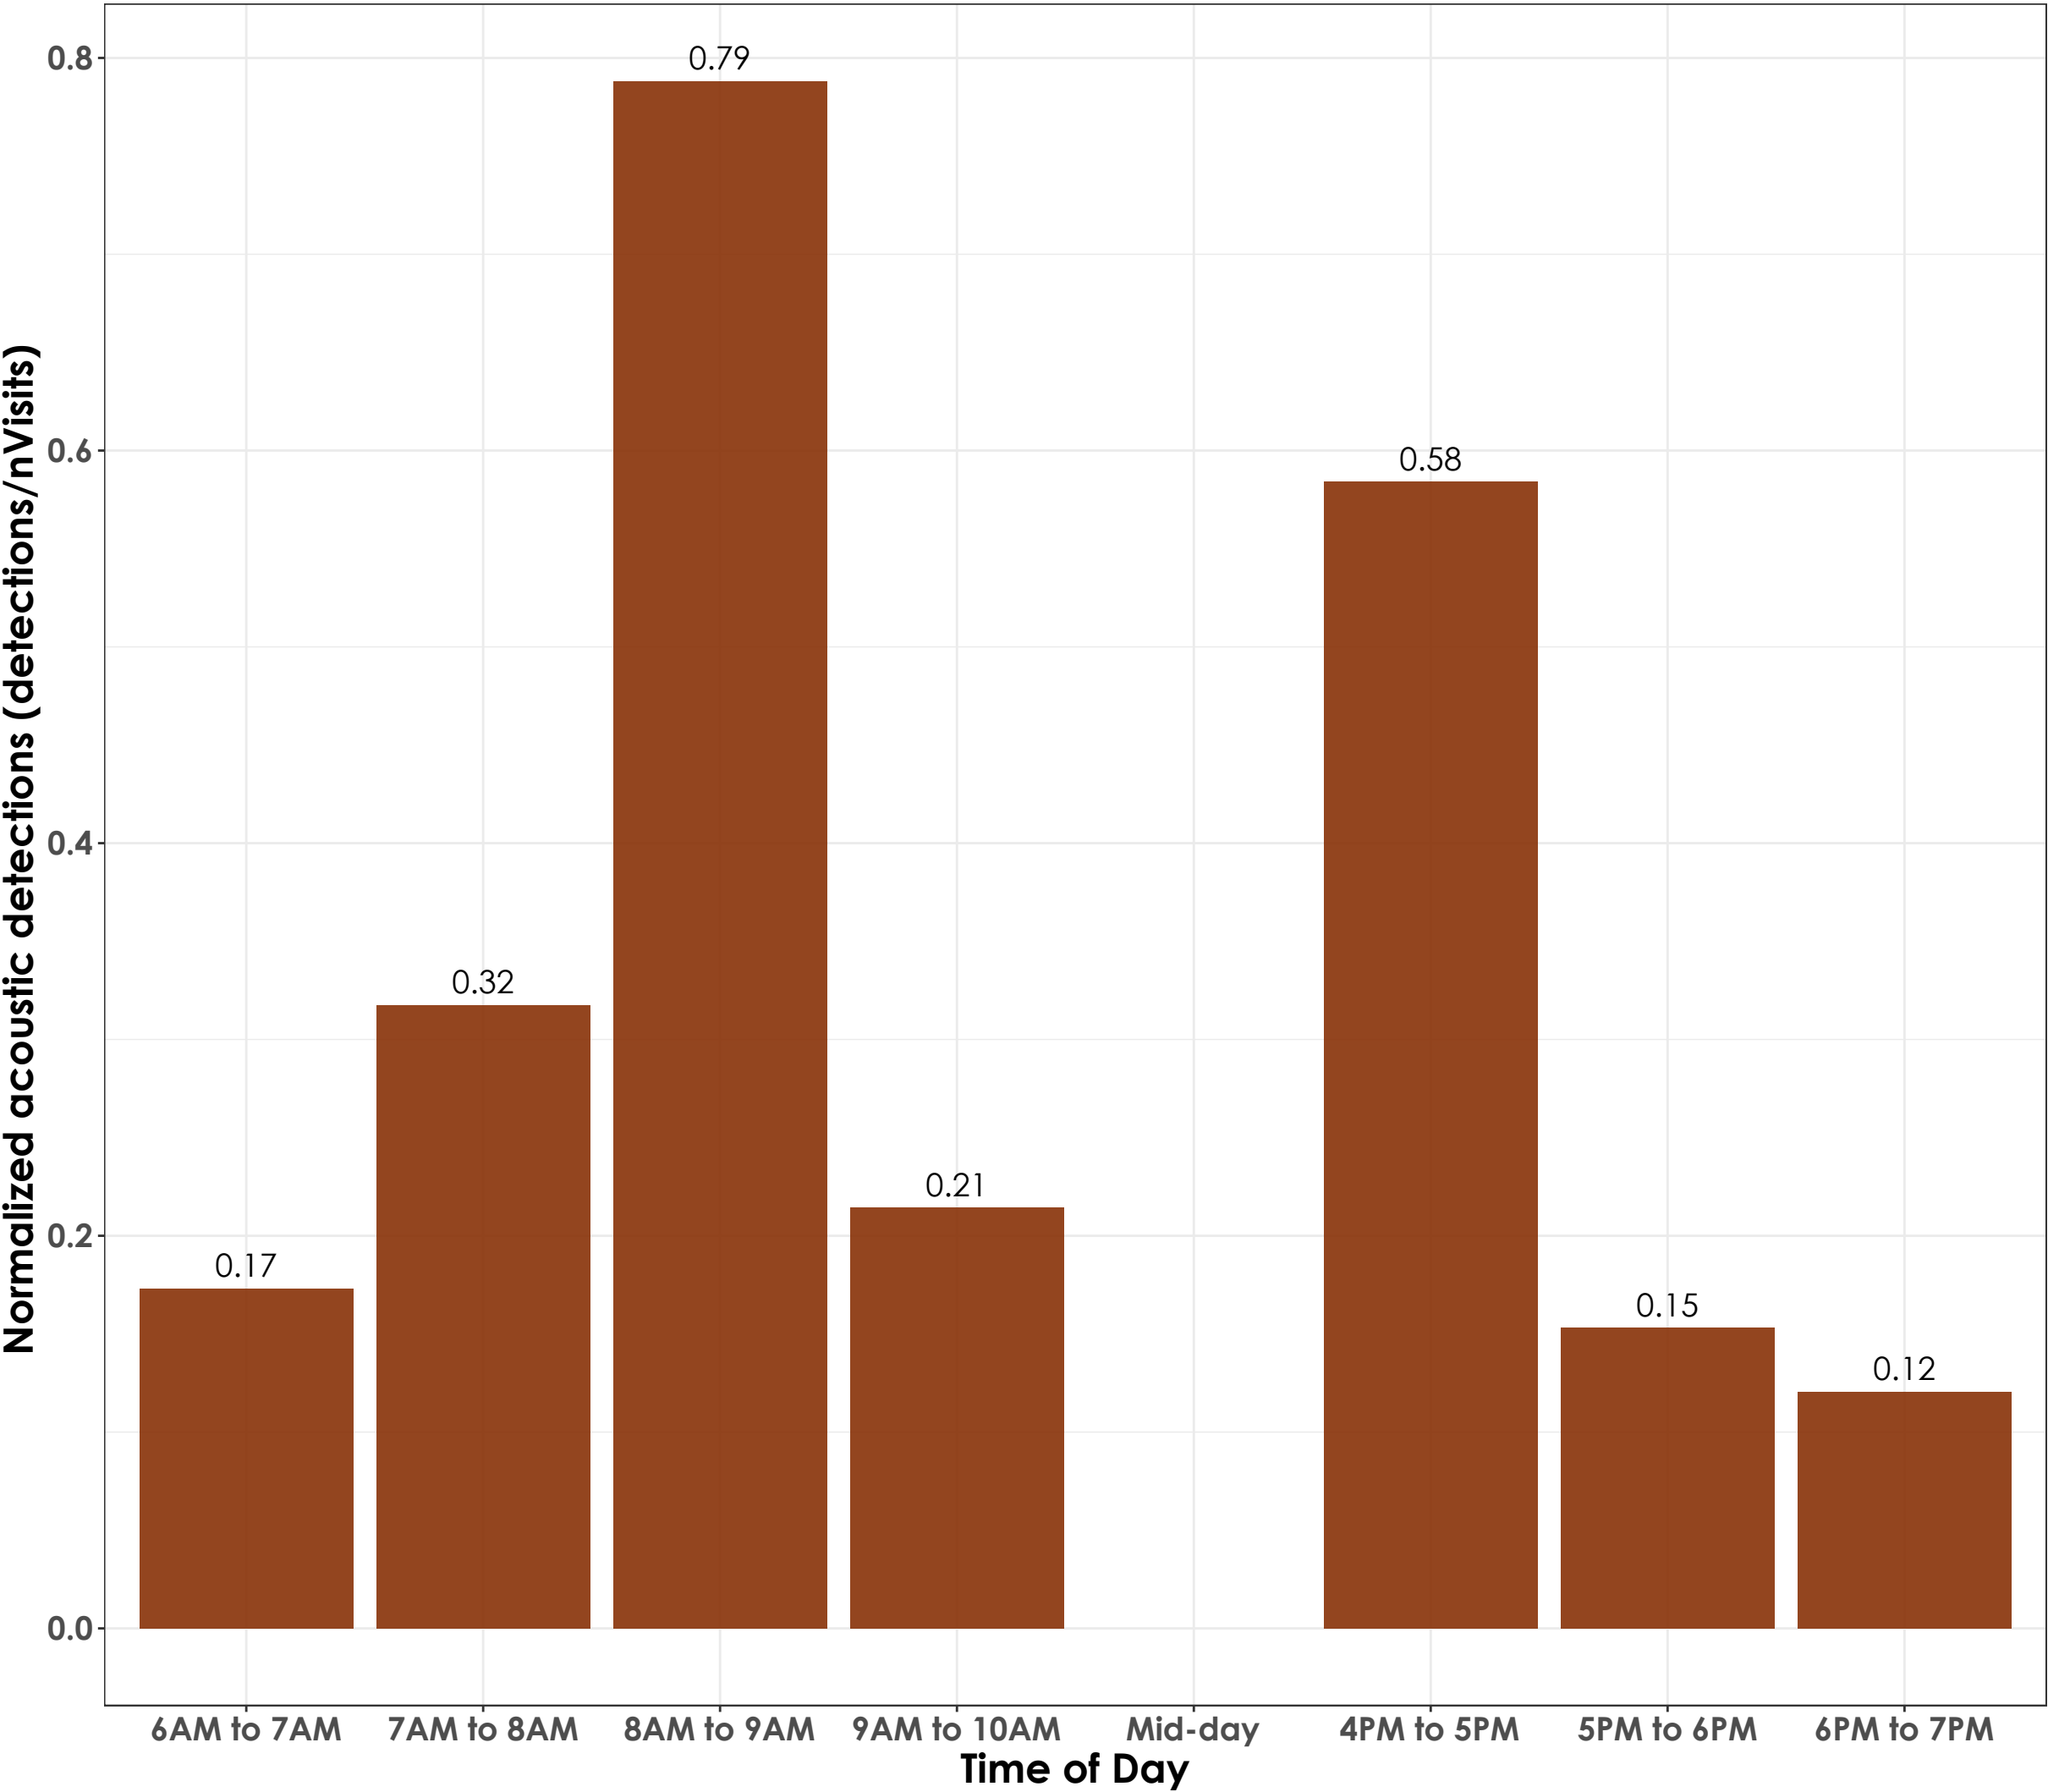

# Malabar Parakeet

Each bar represents the normalized detections across dawn and dusk

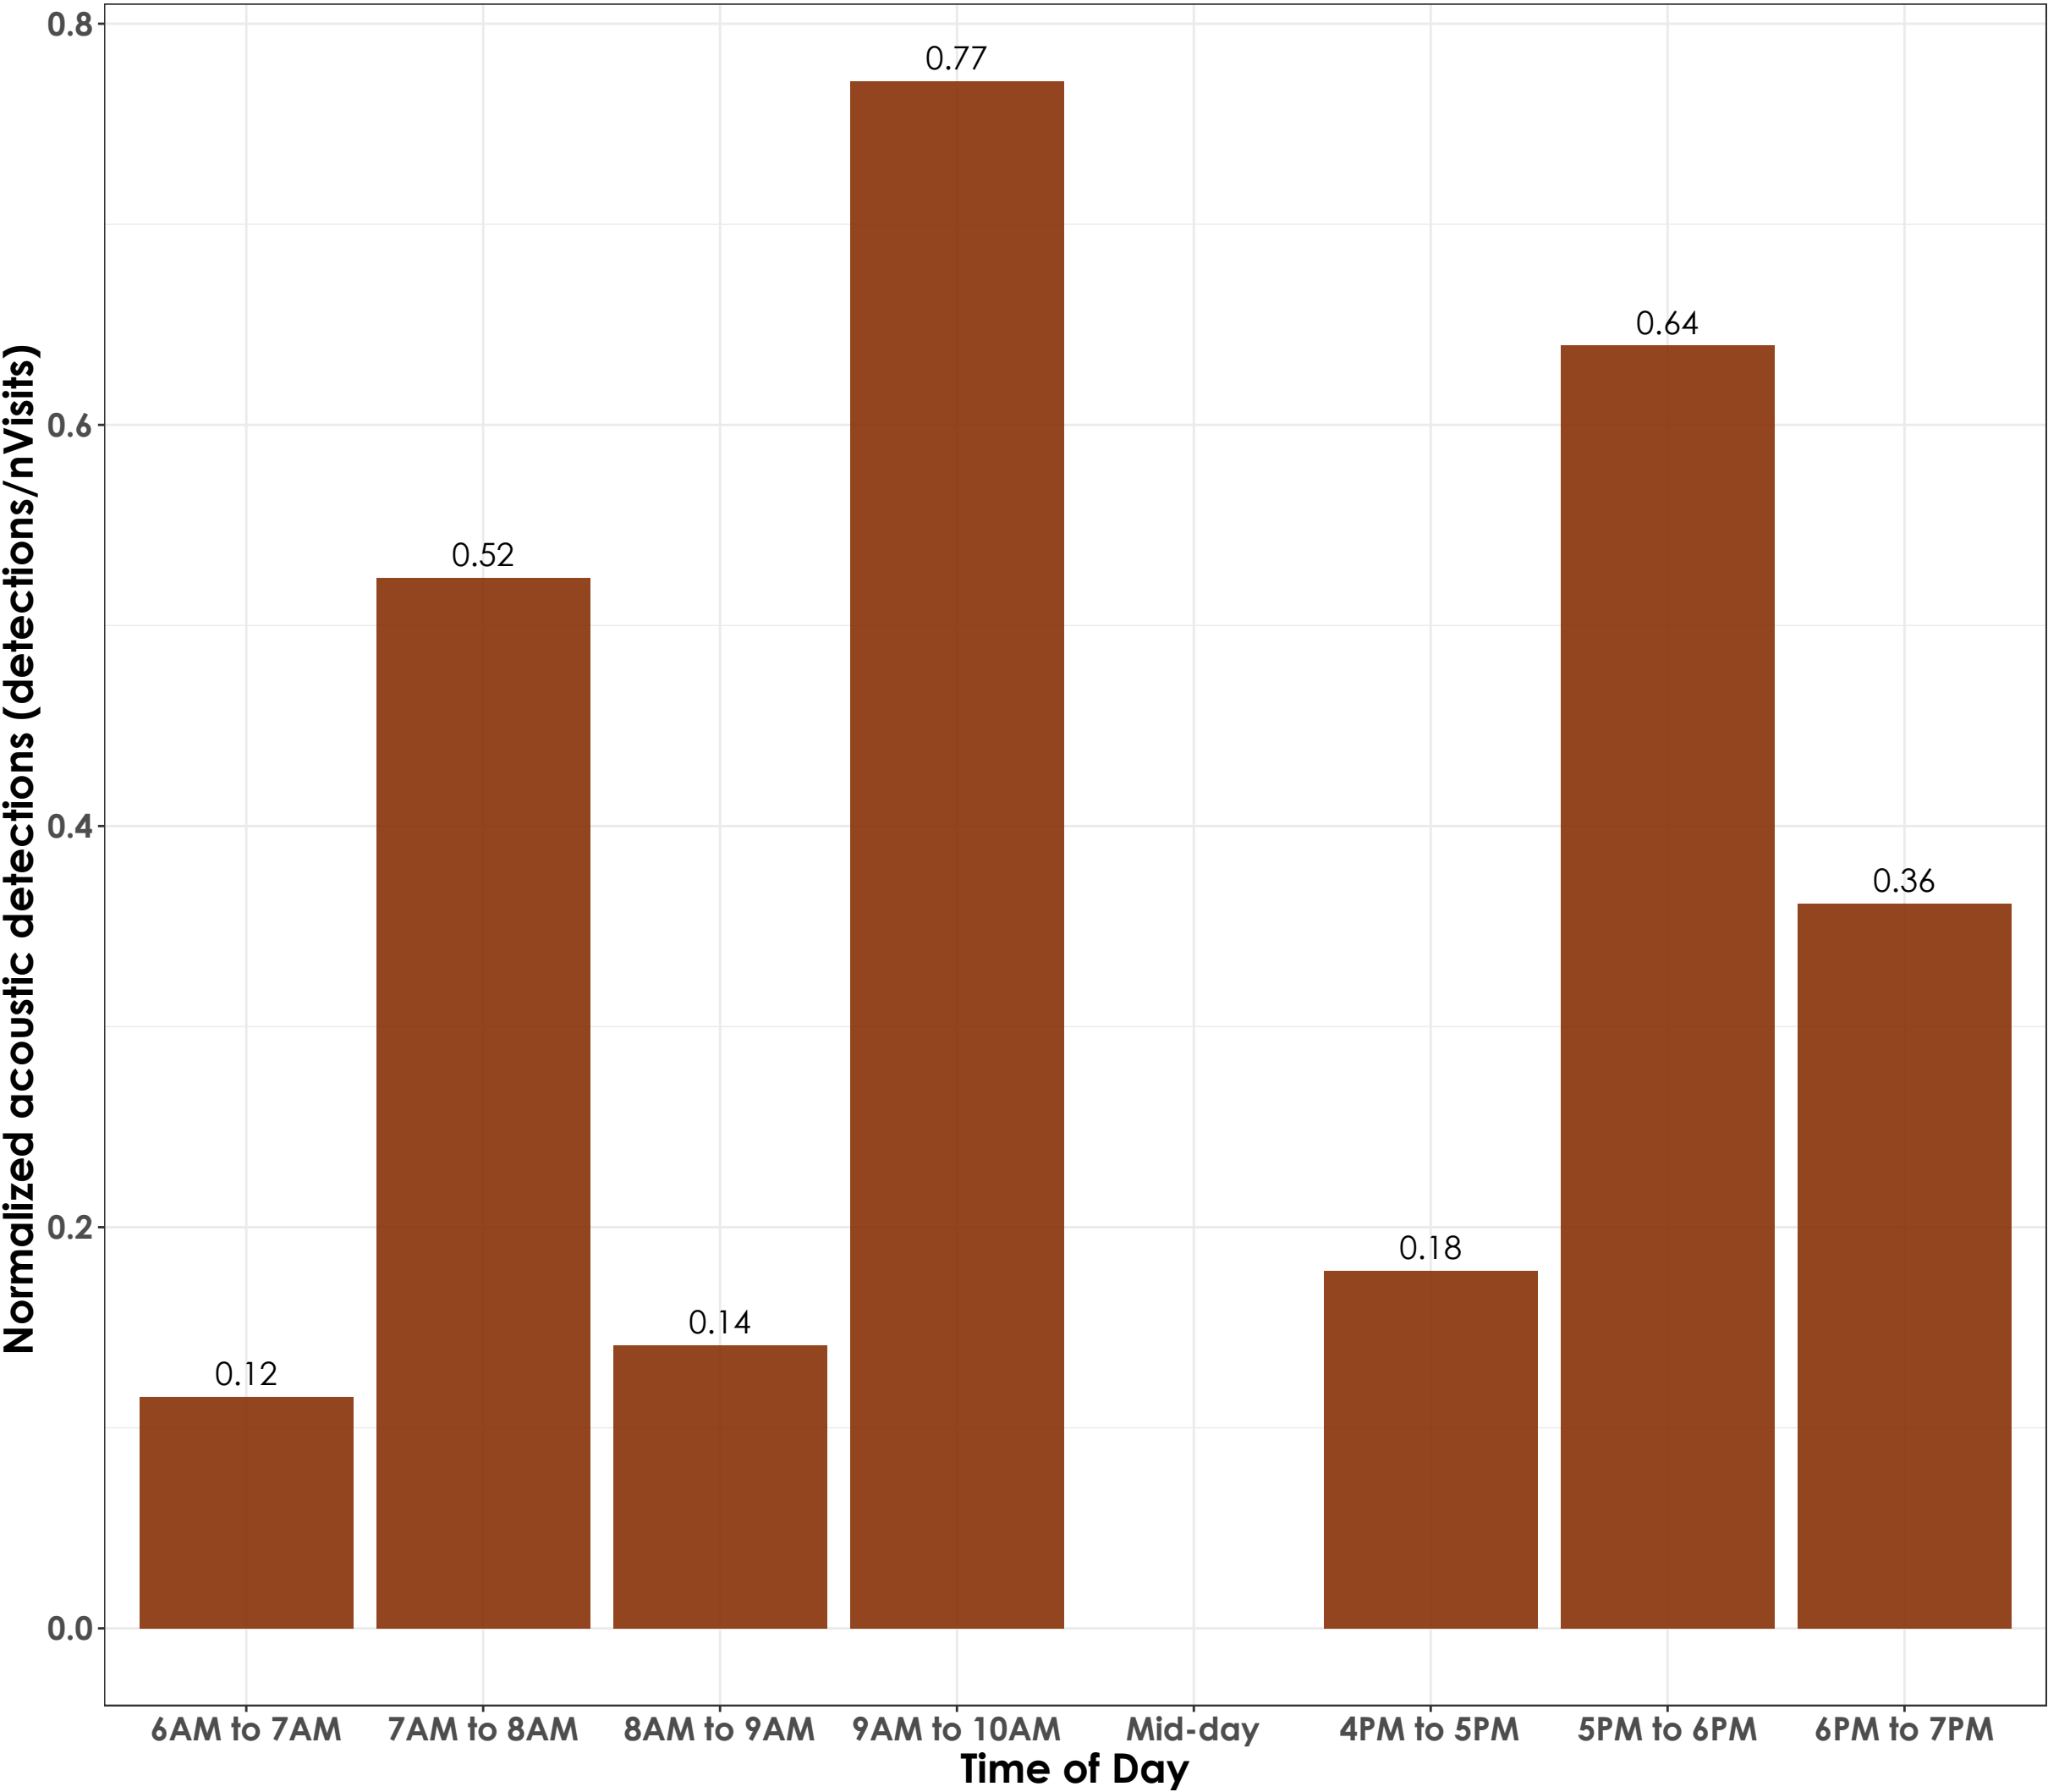

# Streak-throated Woodpecker

Each bar represents the normalized detections across dawn and dusk

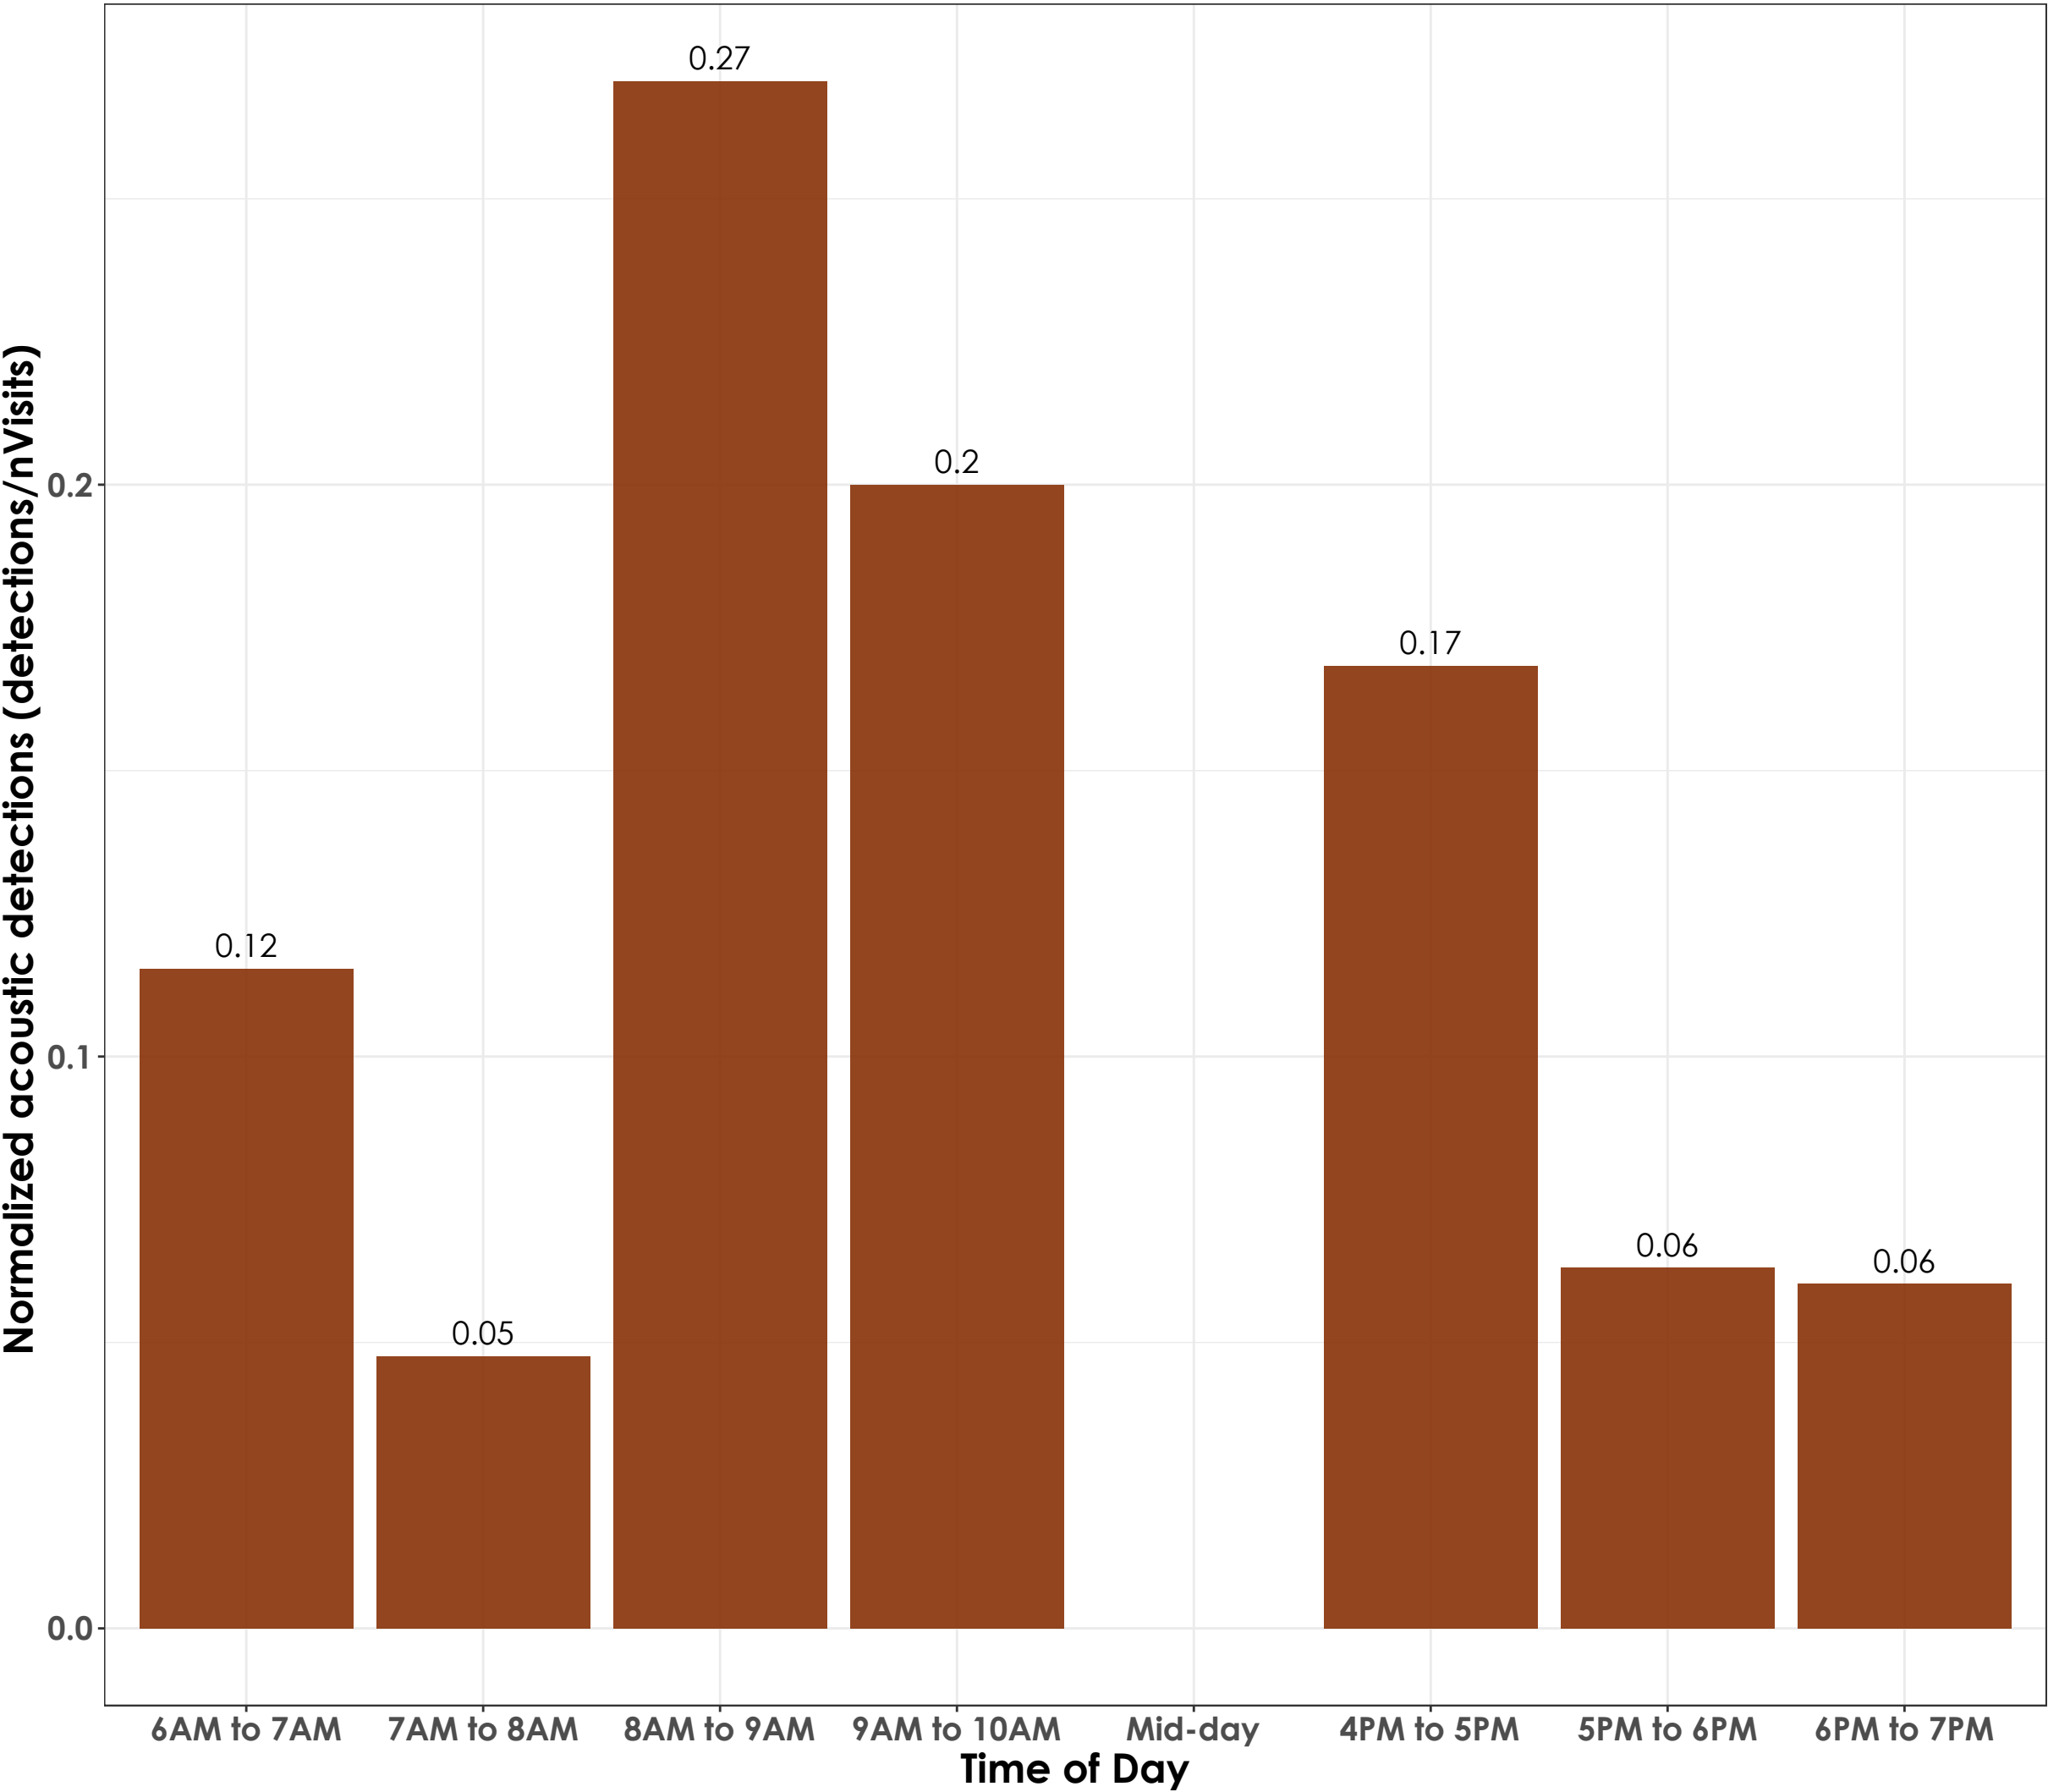

# Indian Yellow Tit

Each bar represents the normalized detections across dawn and dusk

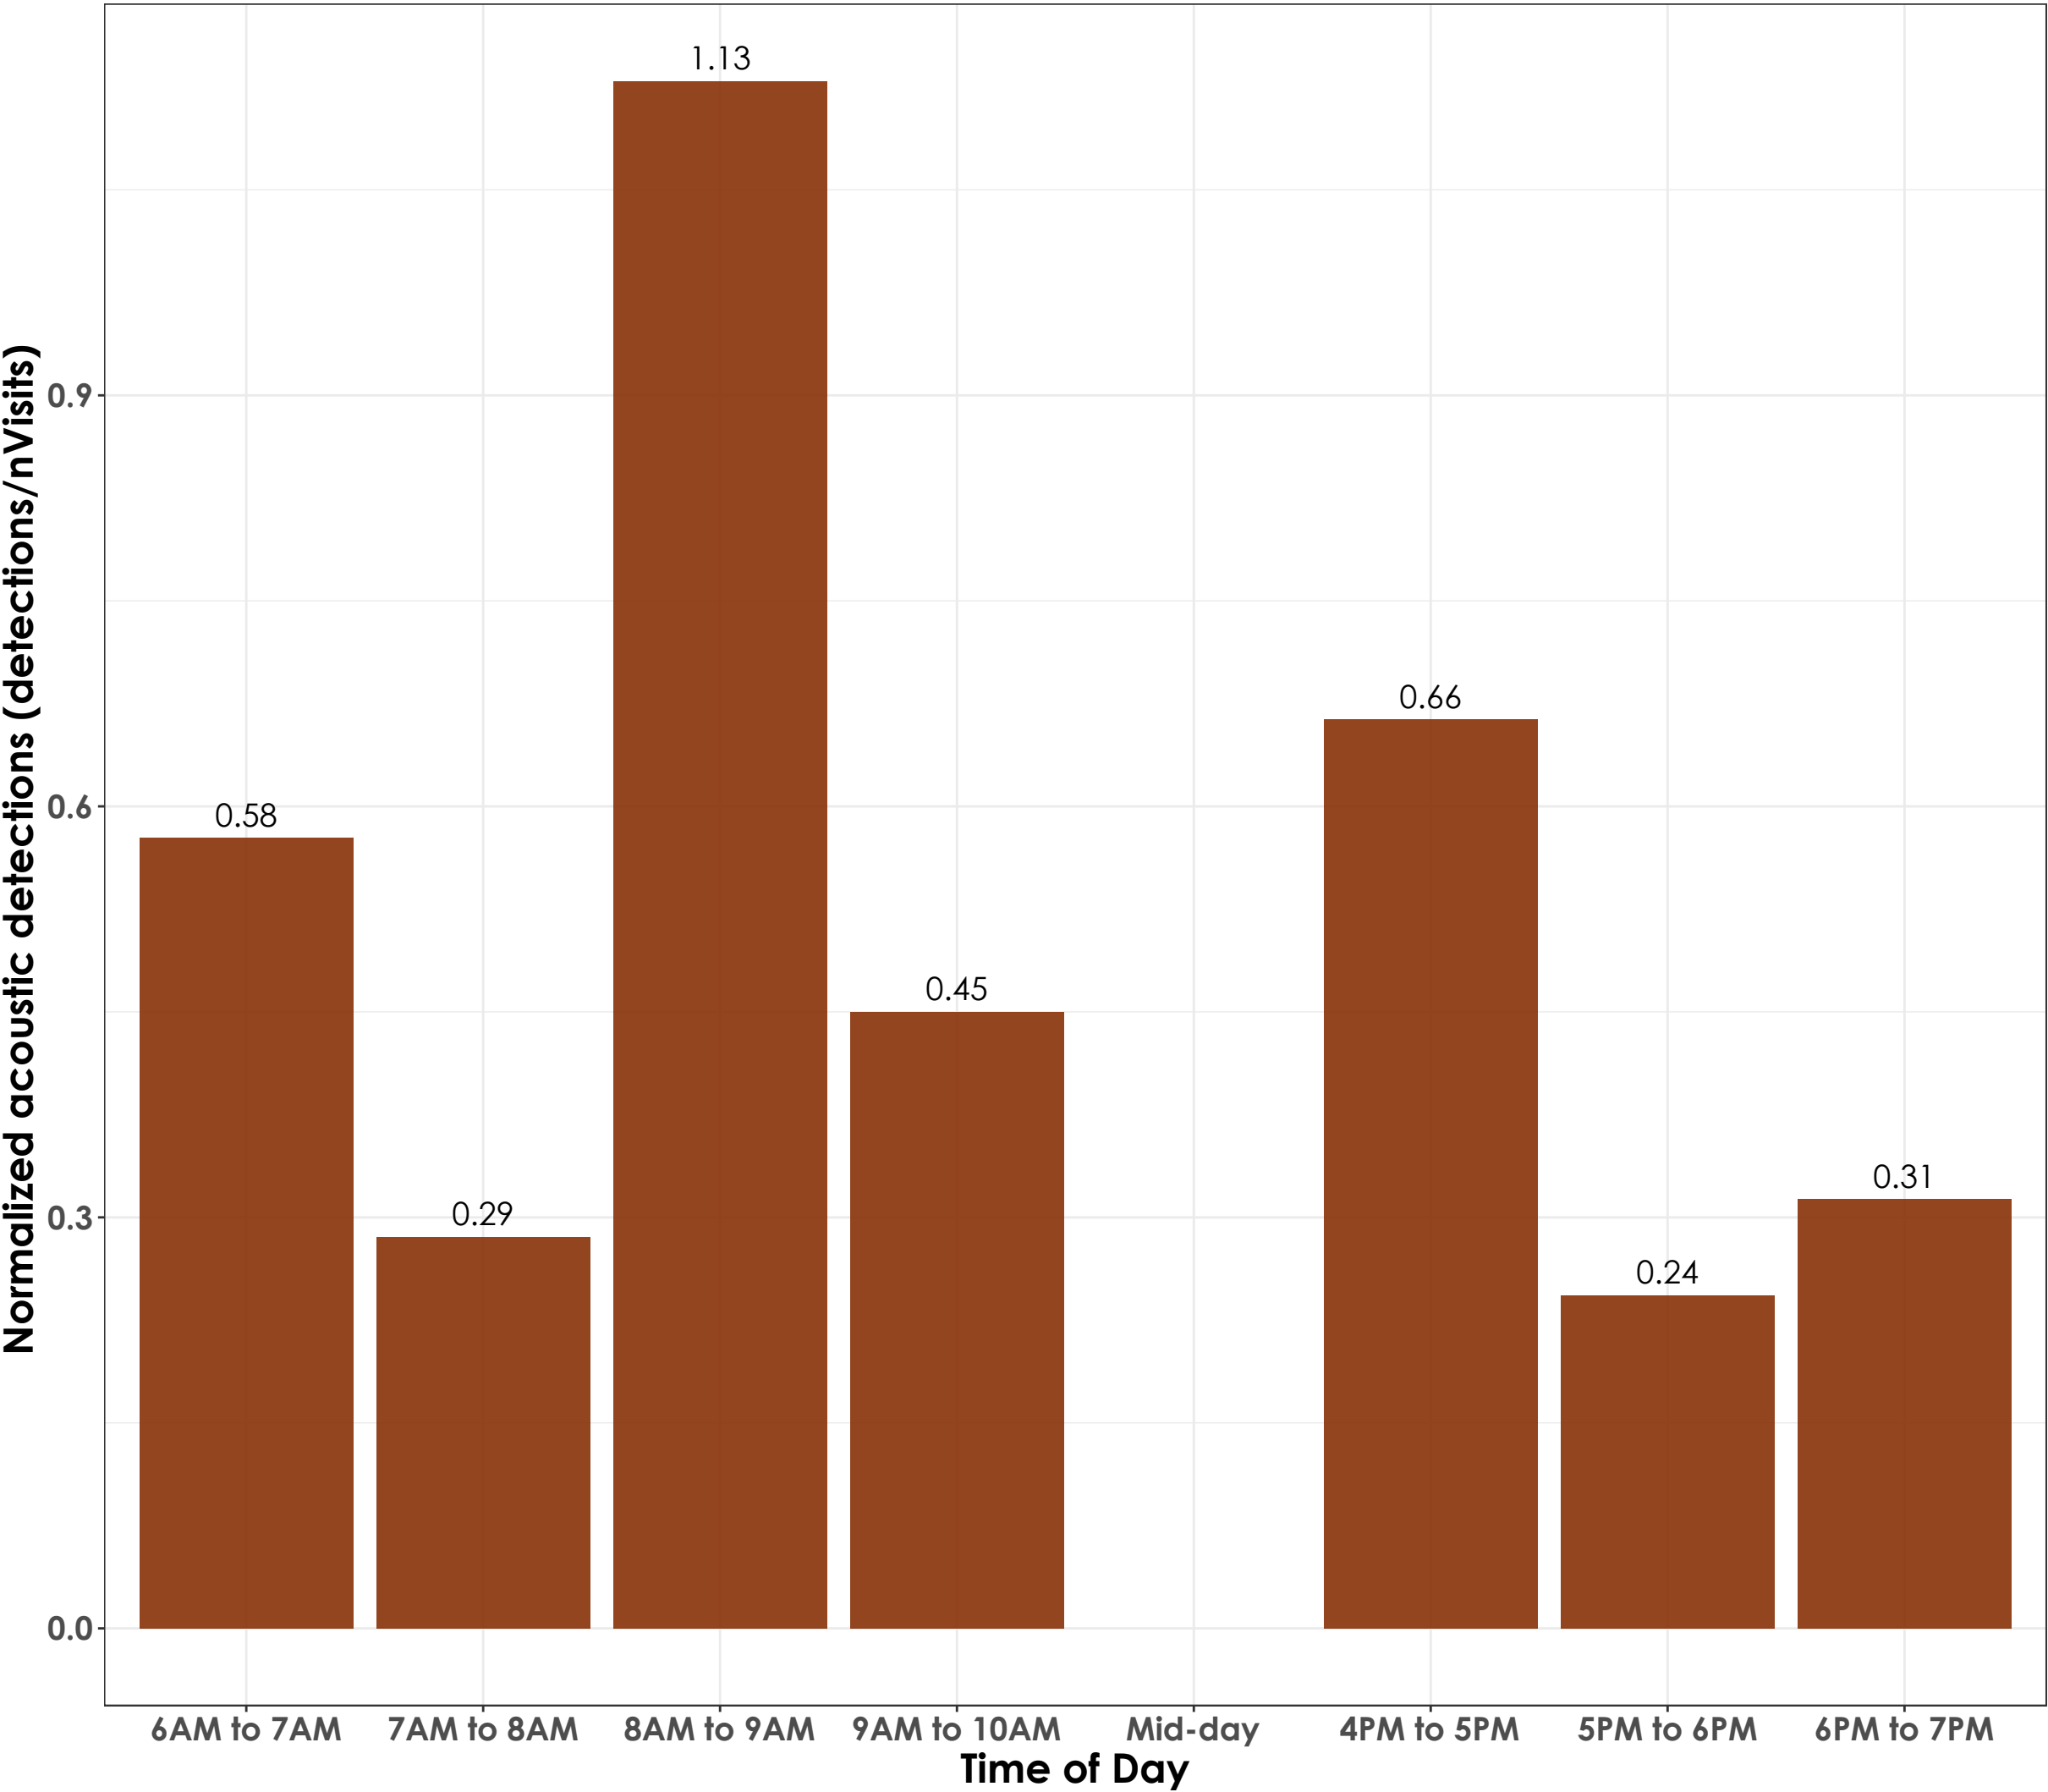

# Indian Paradise-Flycatcher

Each bar represents the normalized detections across dawn and dusk

**Bar-winged Flycatcher-shrike**

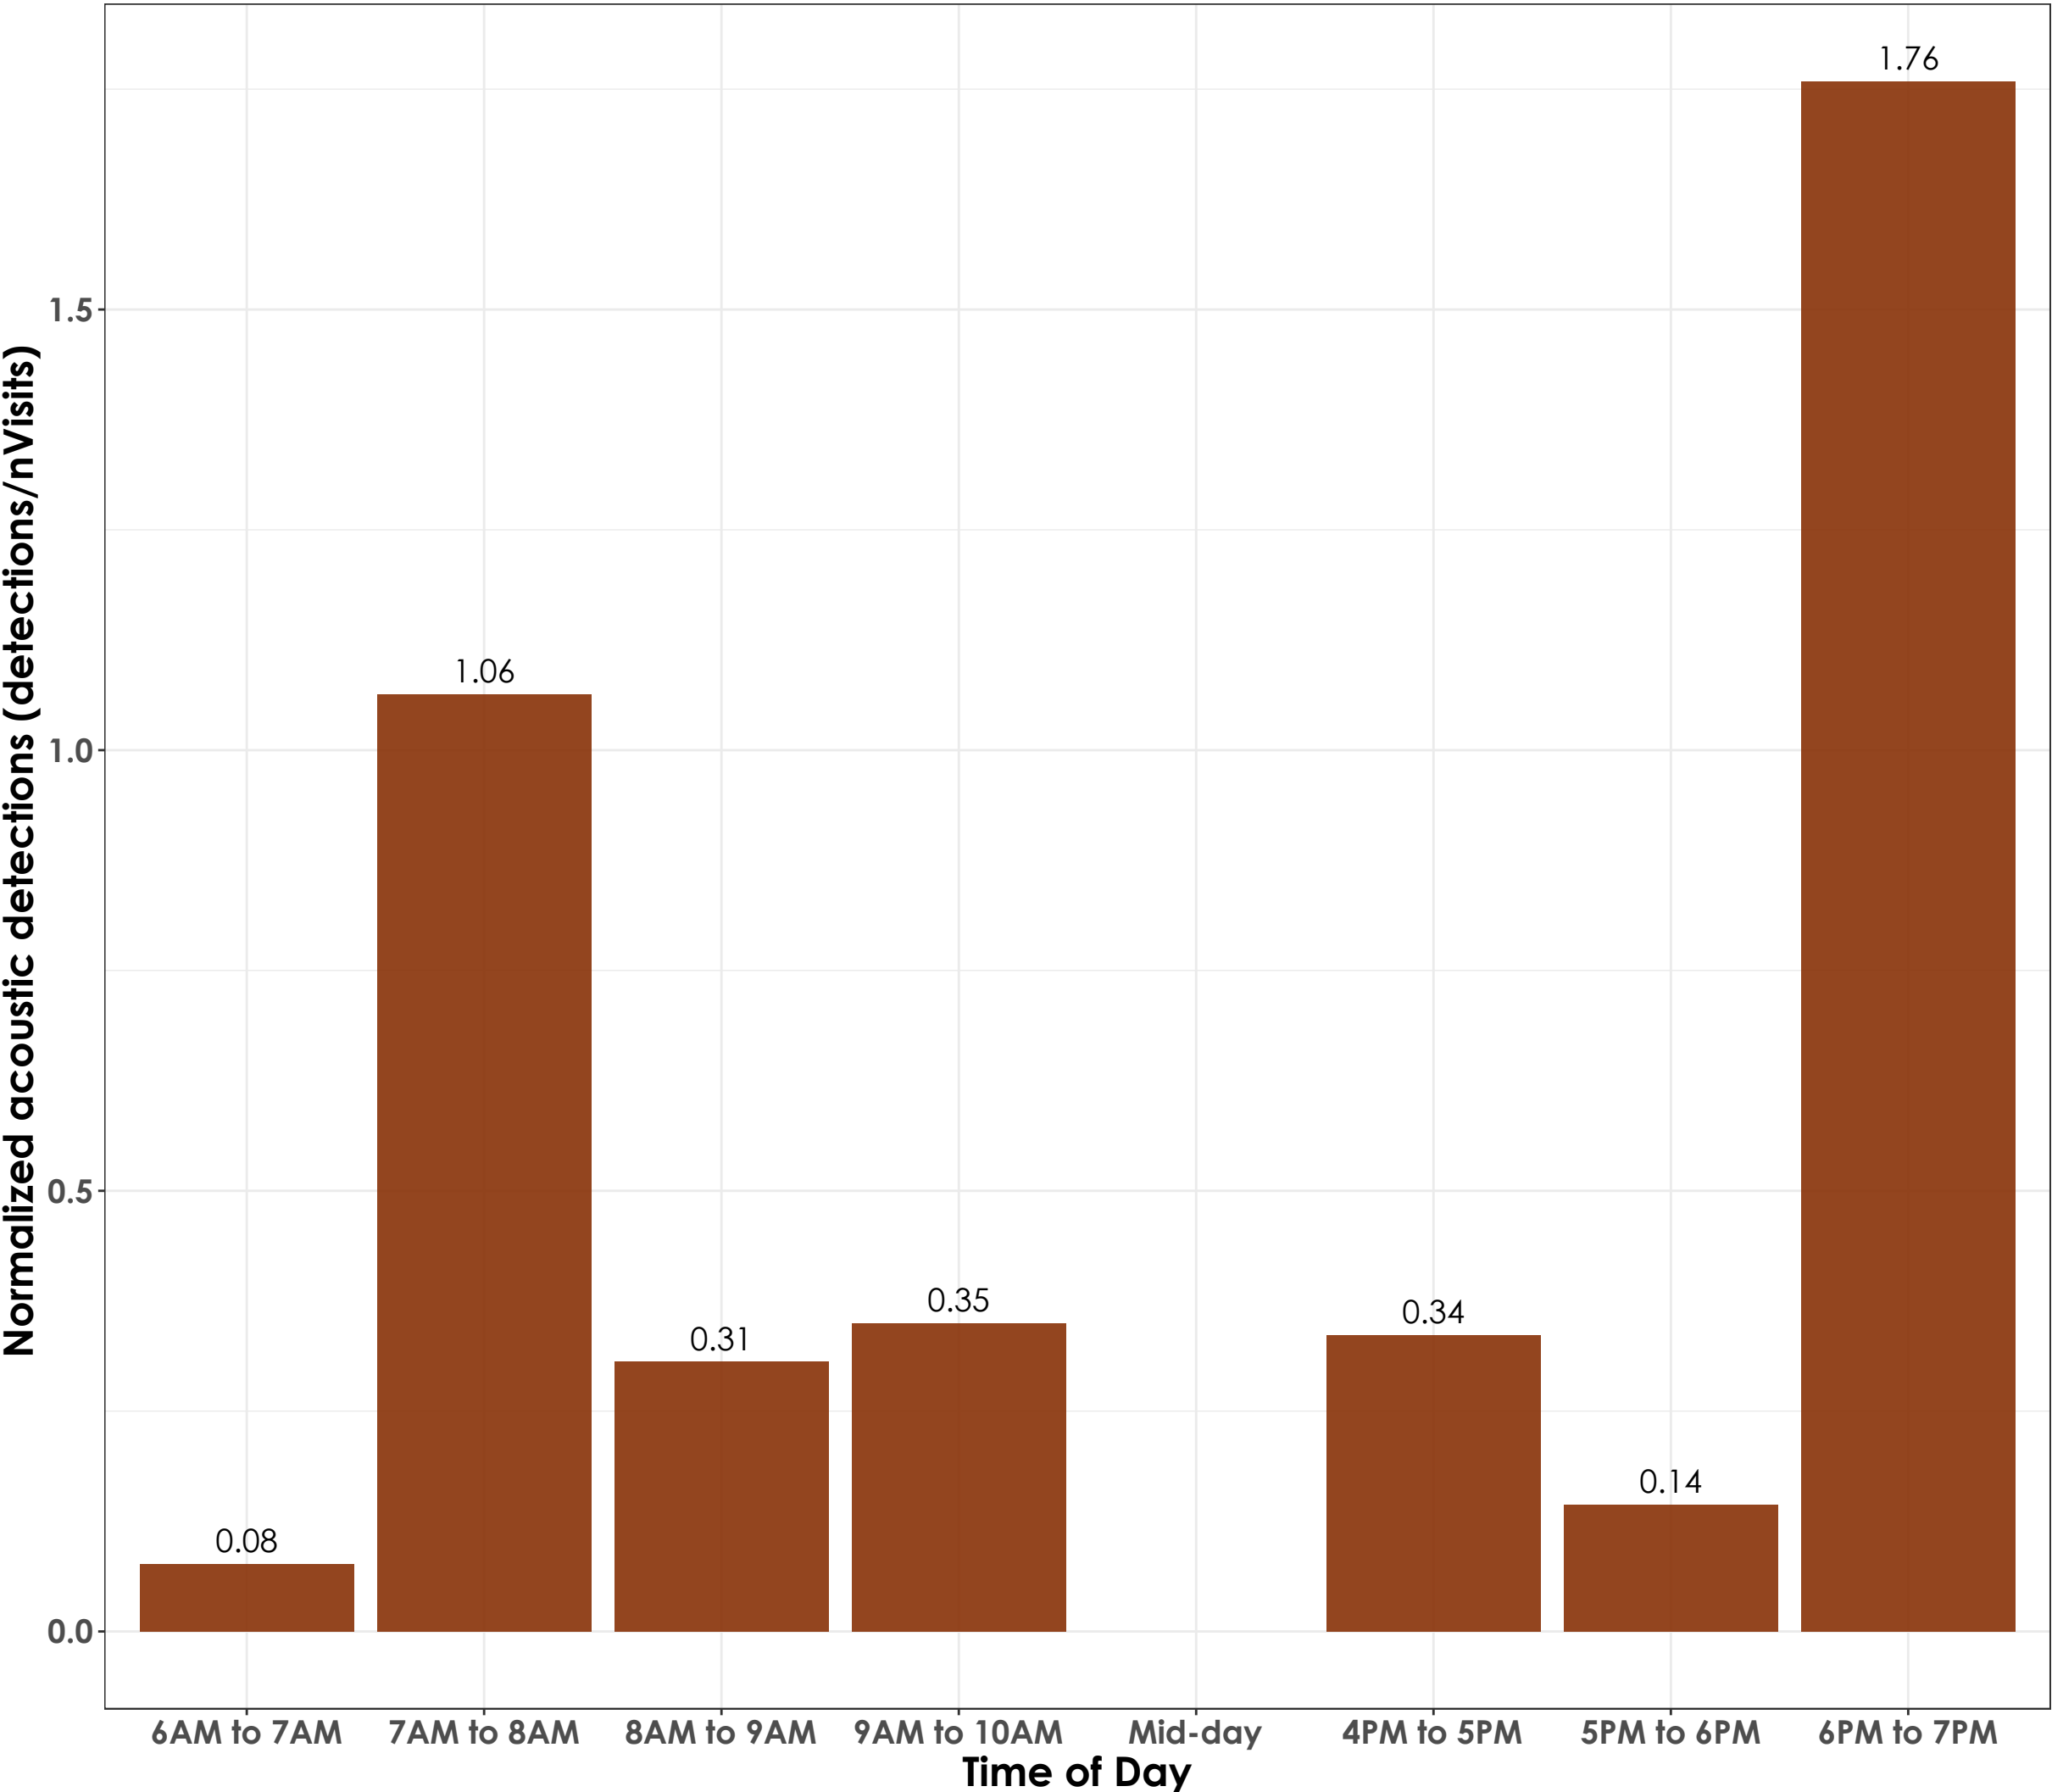

*Each bar represents the normalized detections across dawn and dusk*

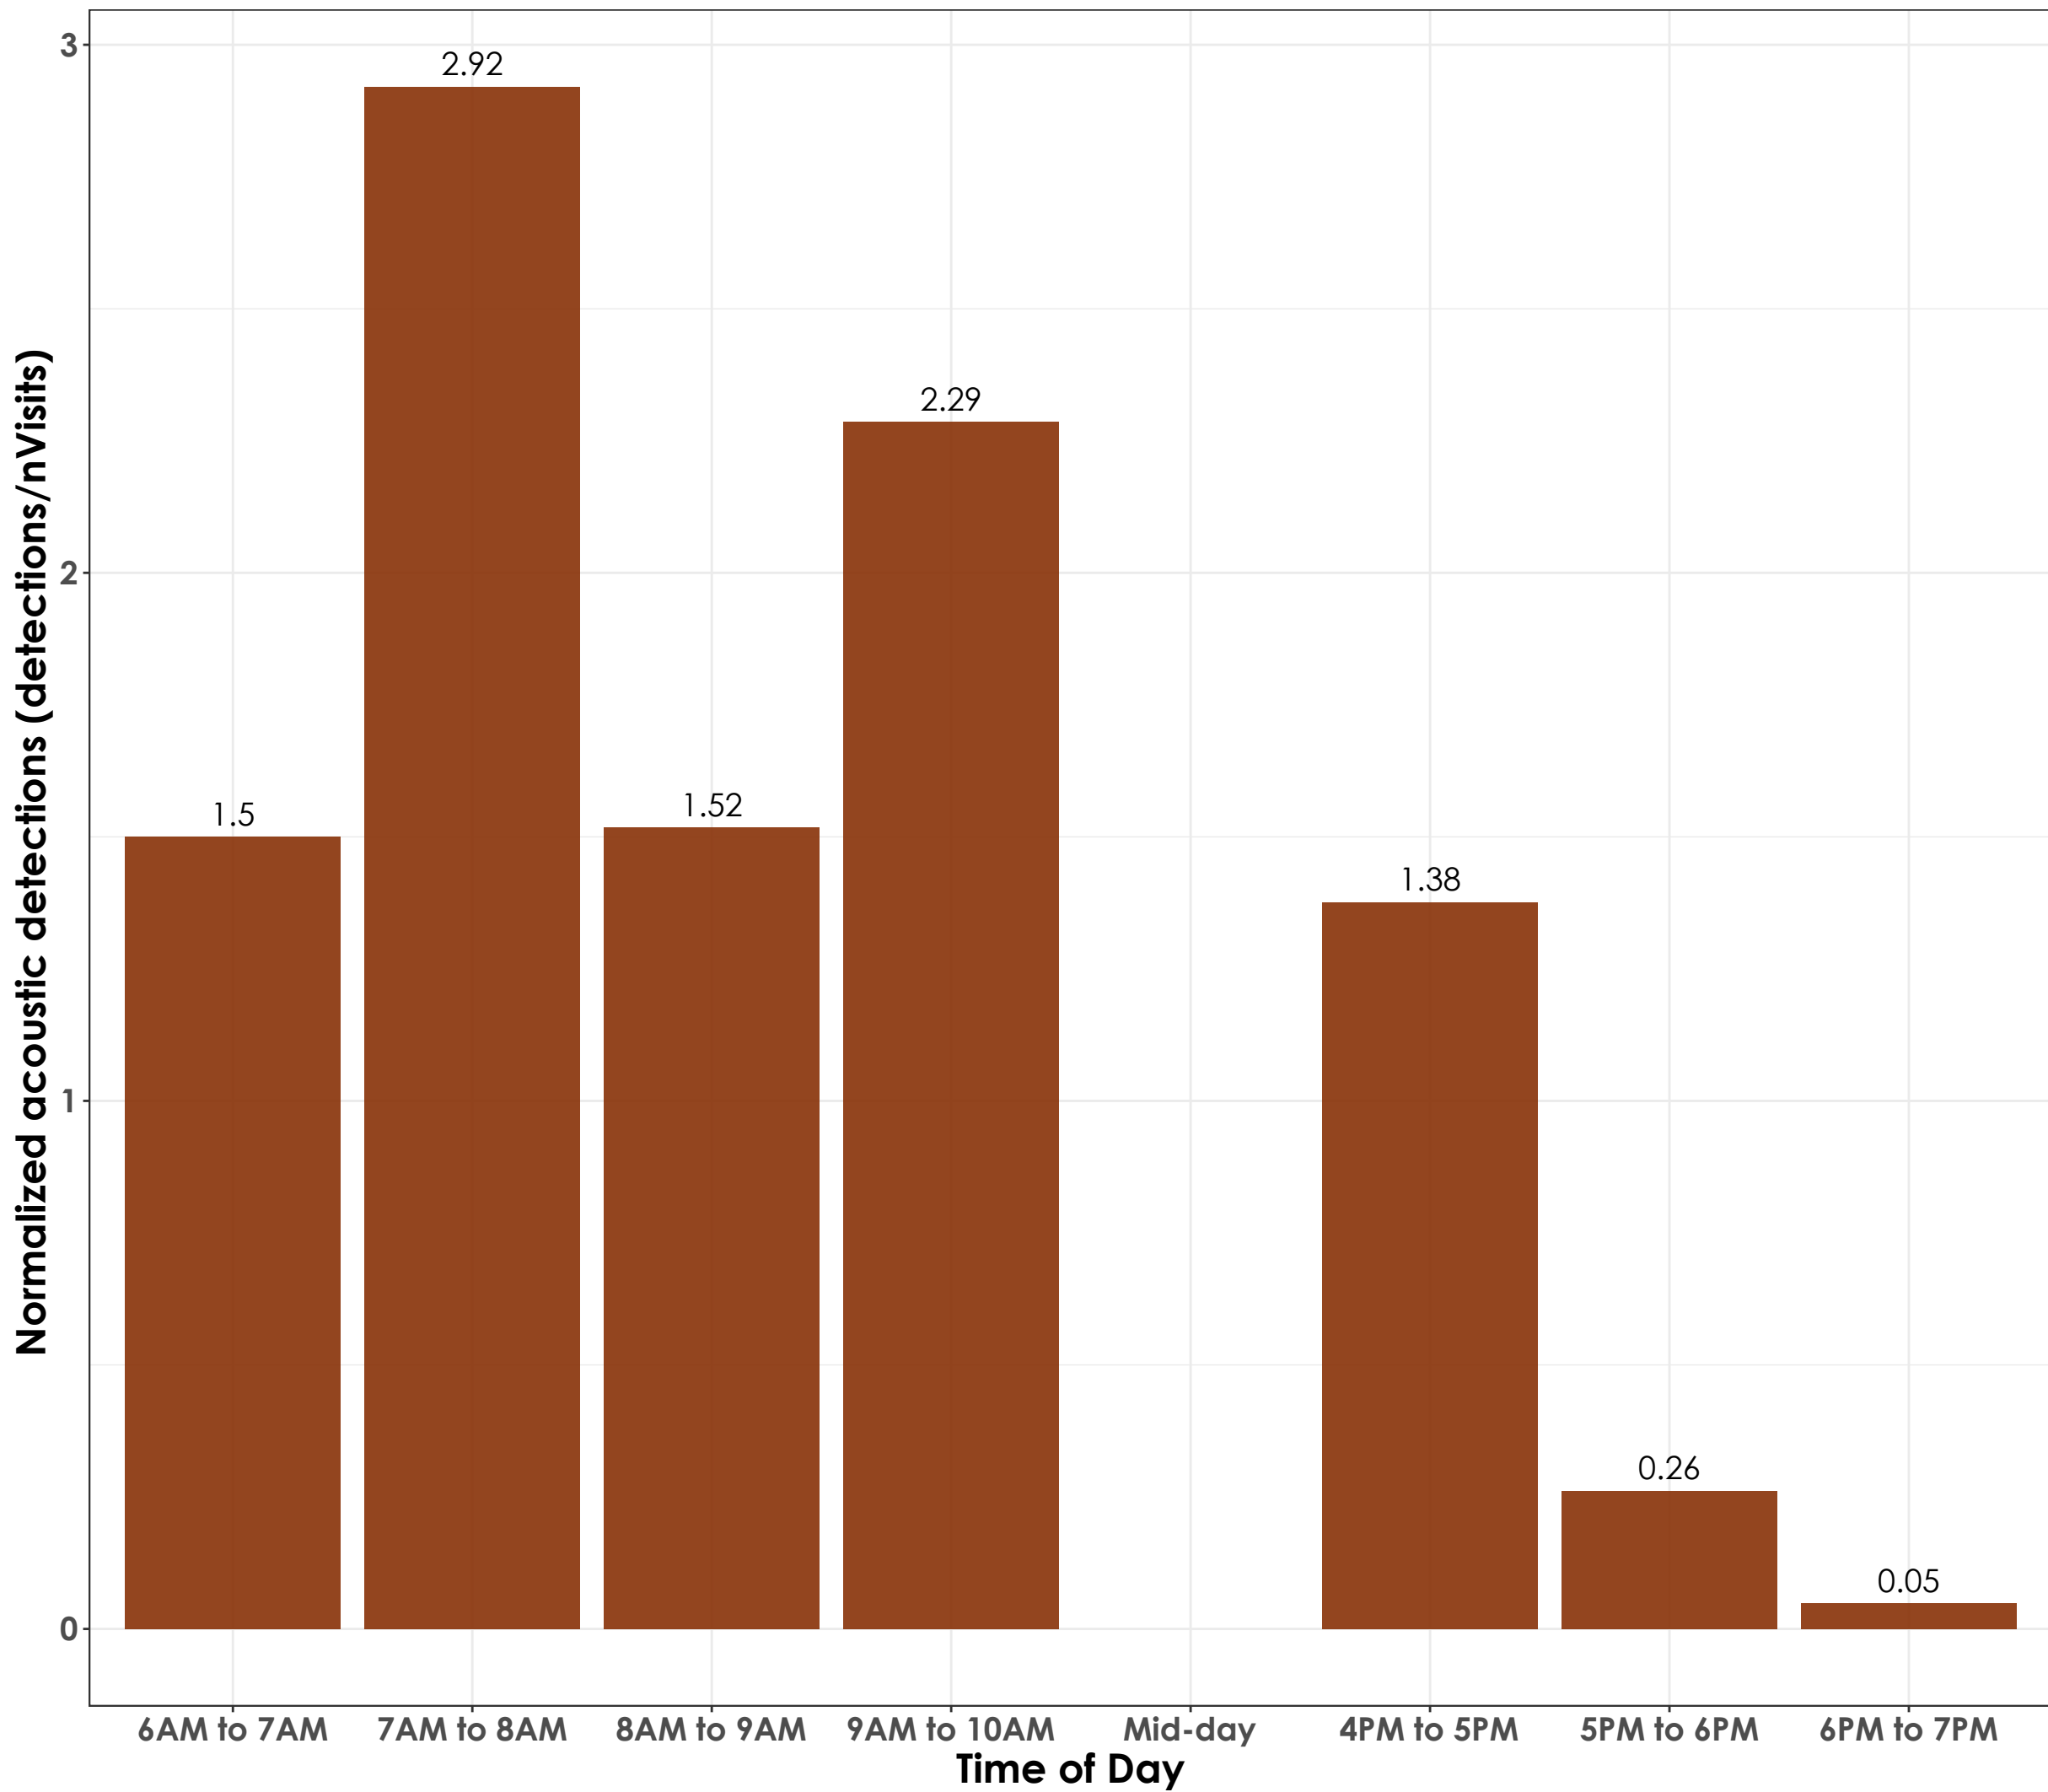

# Black-and-orange Flycatcher

Each bar represents the normalized detections across dawn and dusk

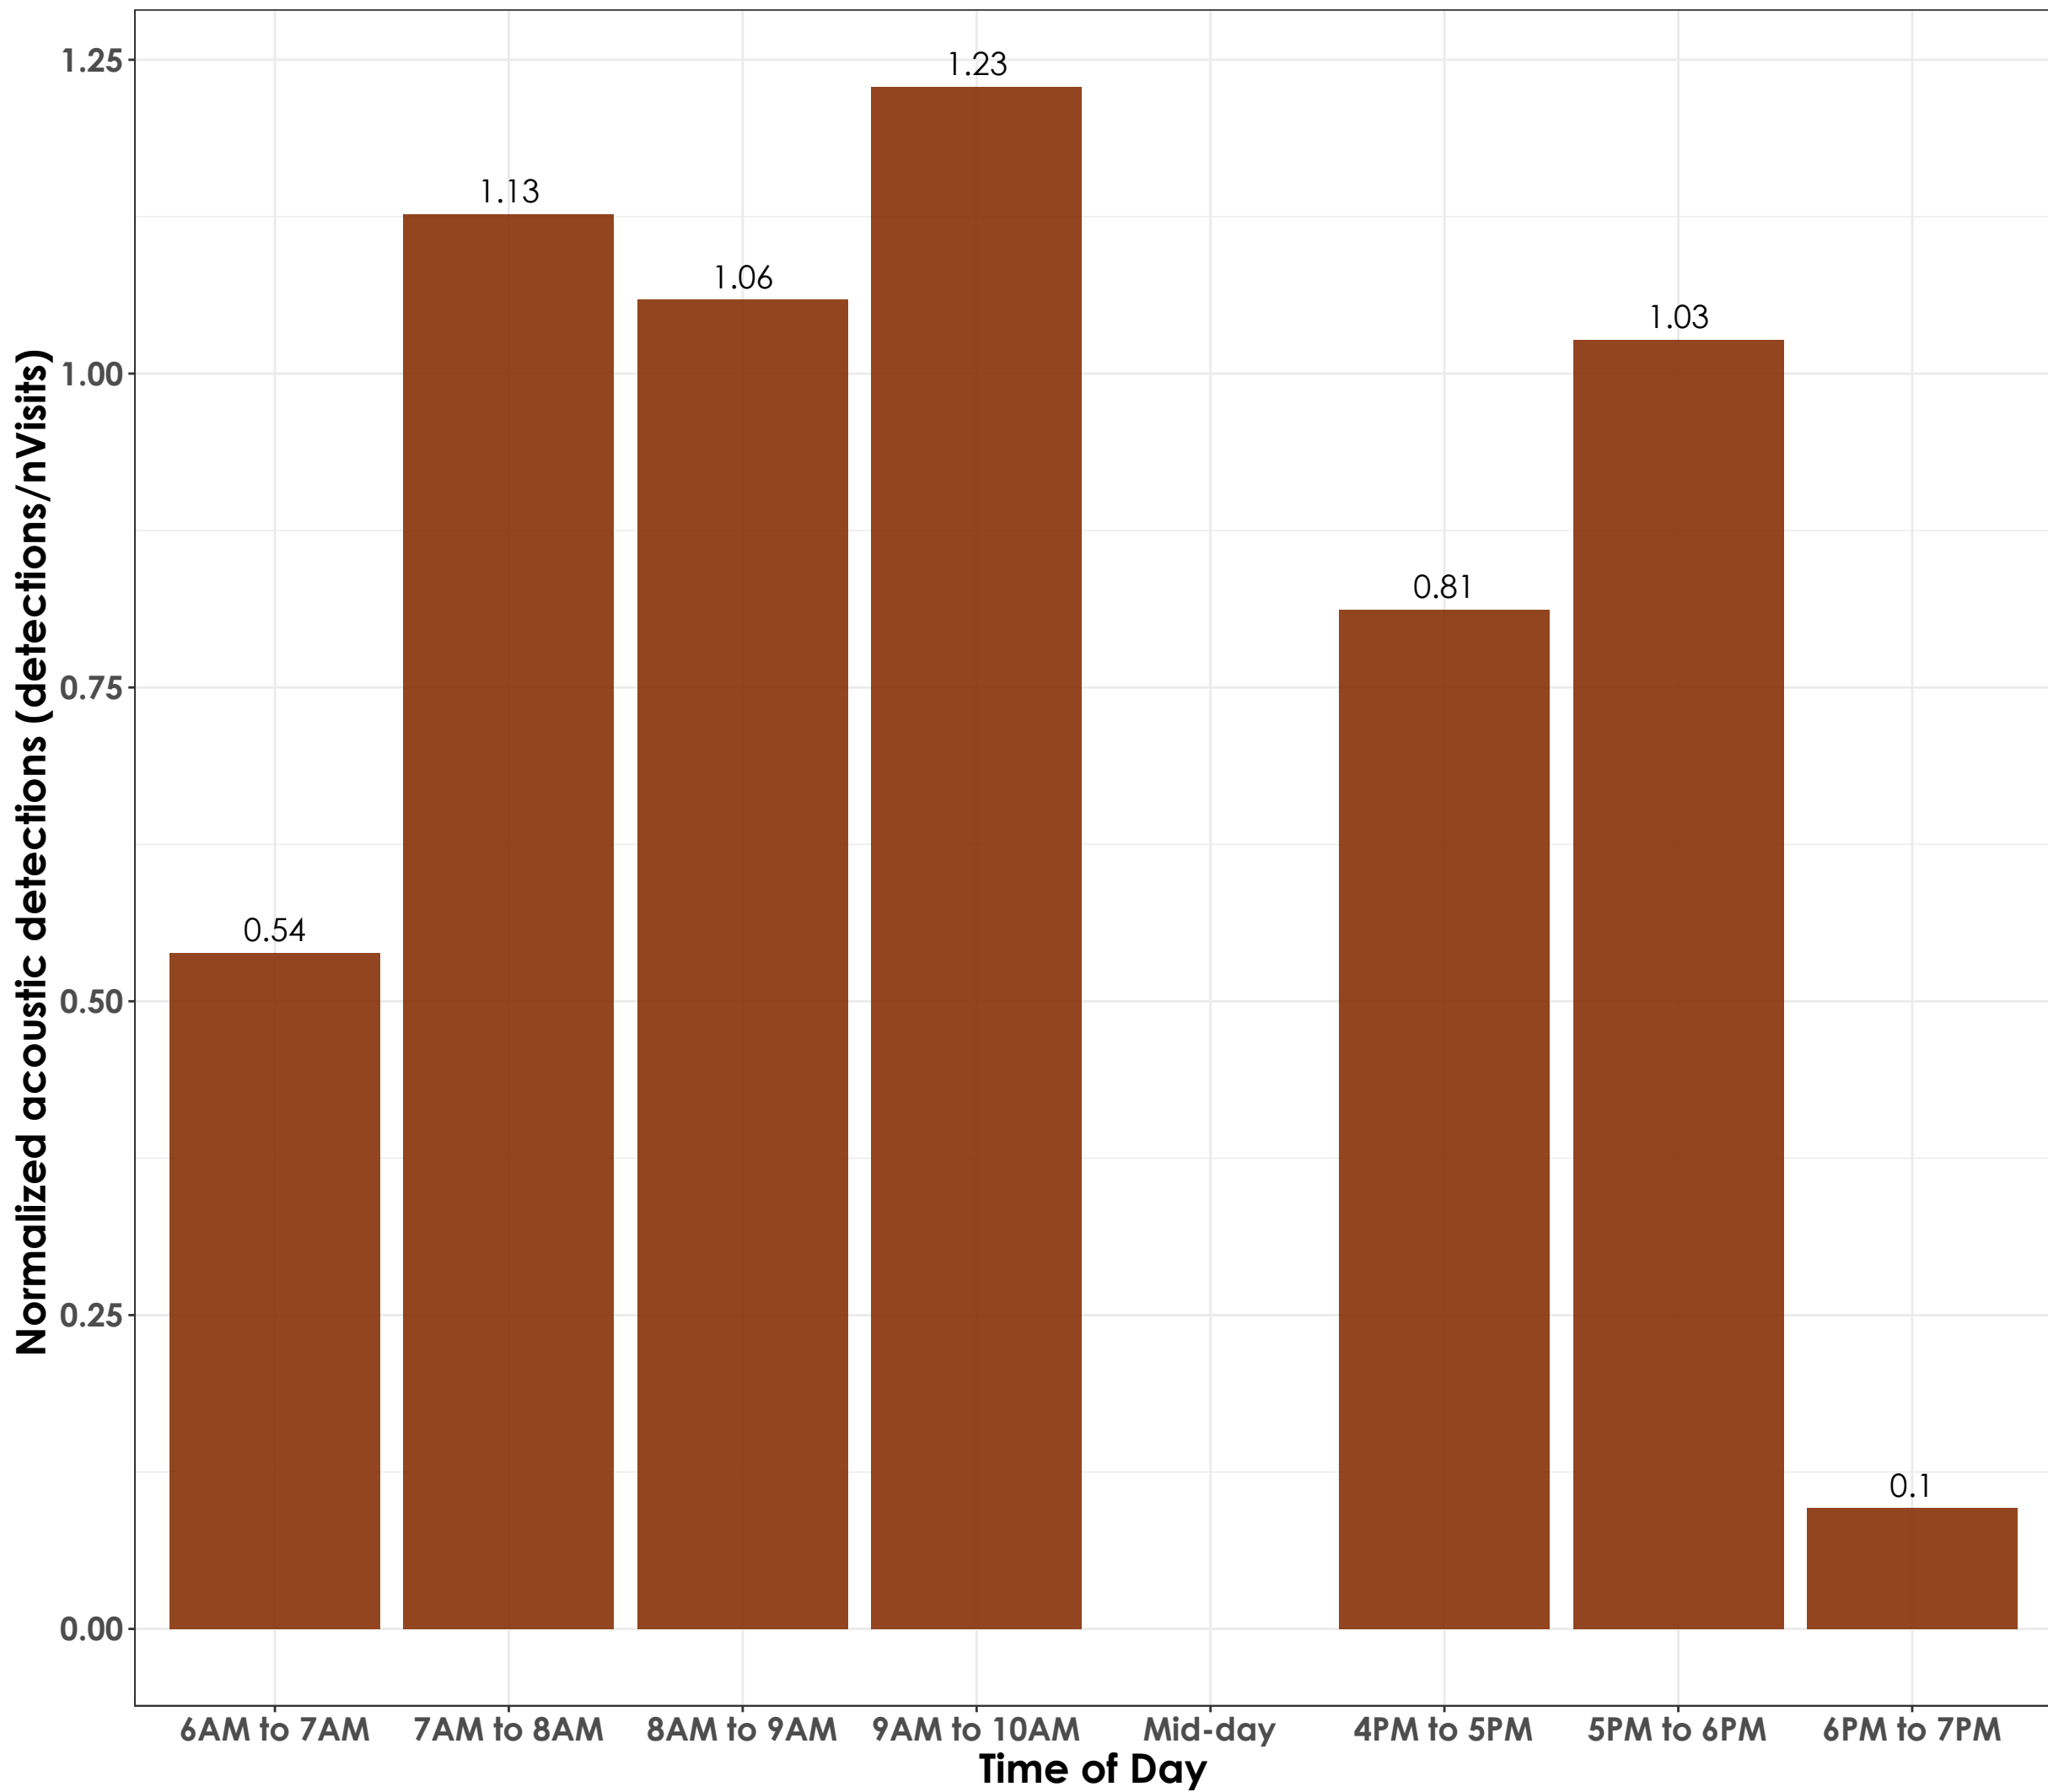

# Green Warbler

Each bar represents the normalized detections across dawn and dusk

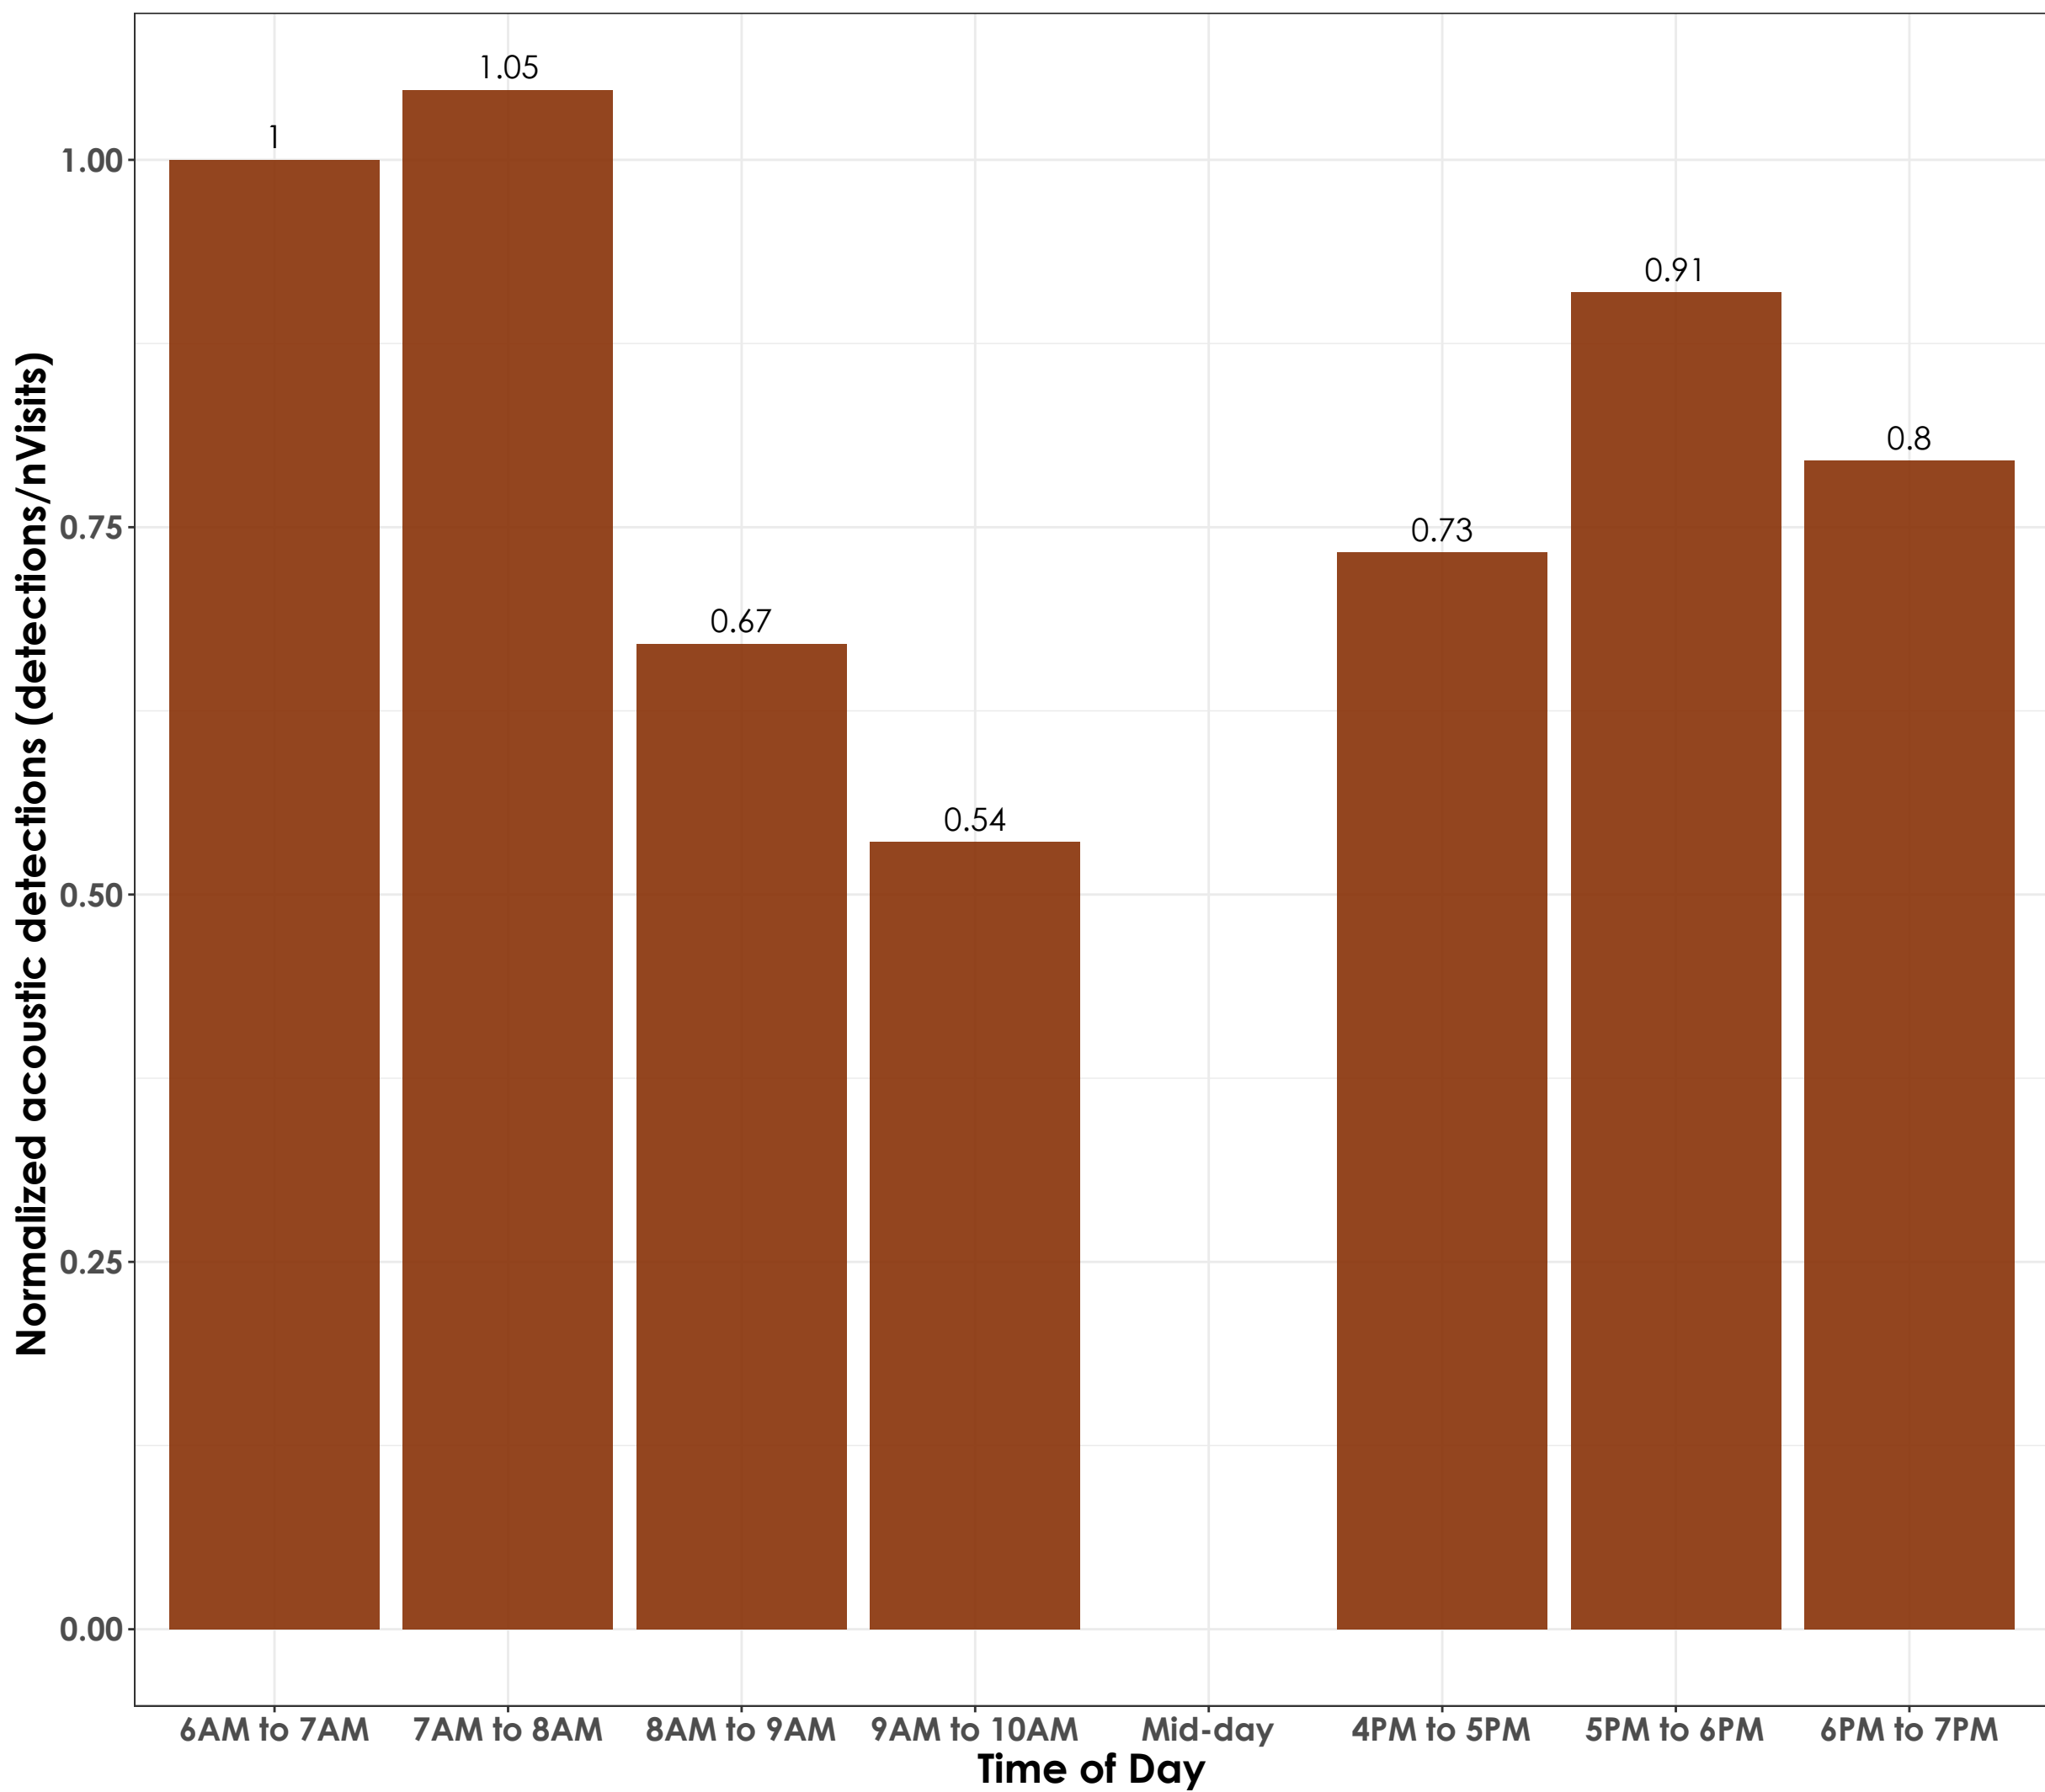

# Chestnut-headed Bee-eater

*Each bar represents the normalized detections across dawn and dusk*

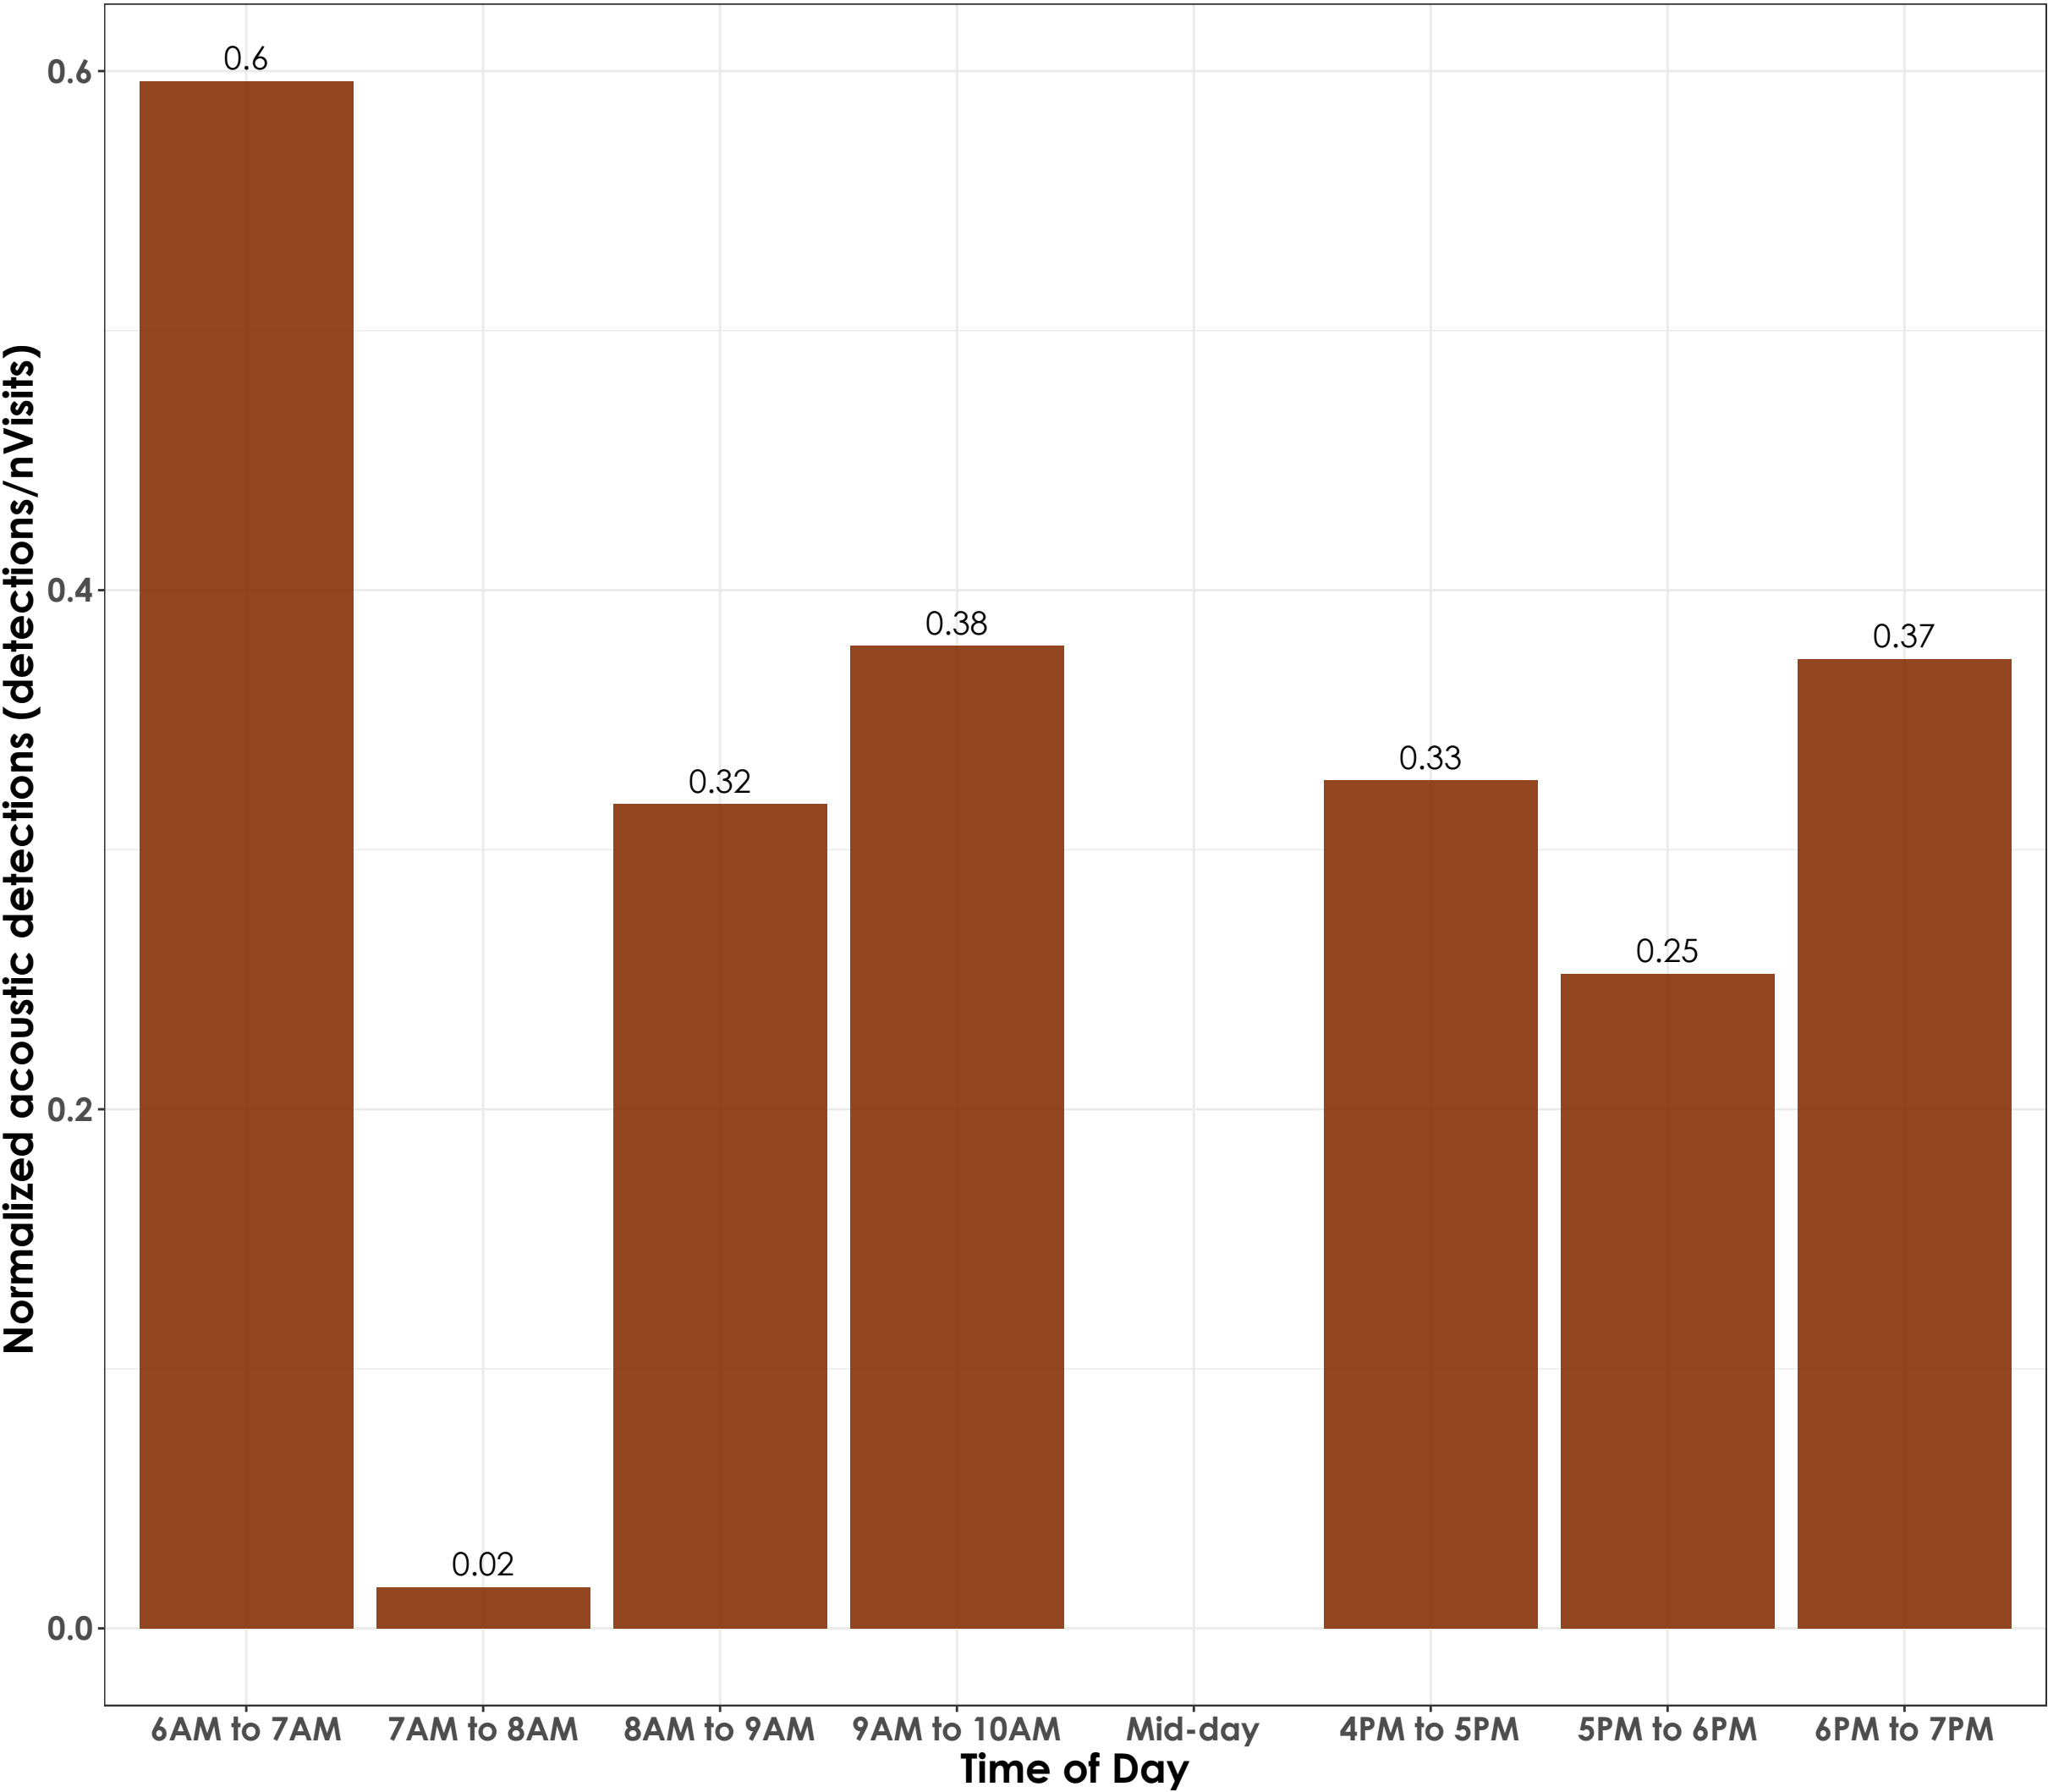

# Indian Blue Robin

*Each bar represents the normalized detections across dawn and dusk*

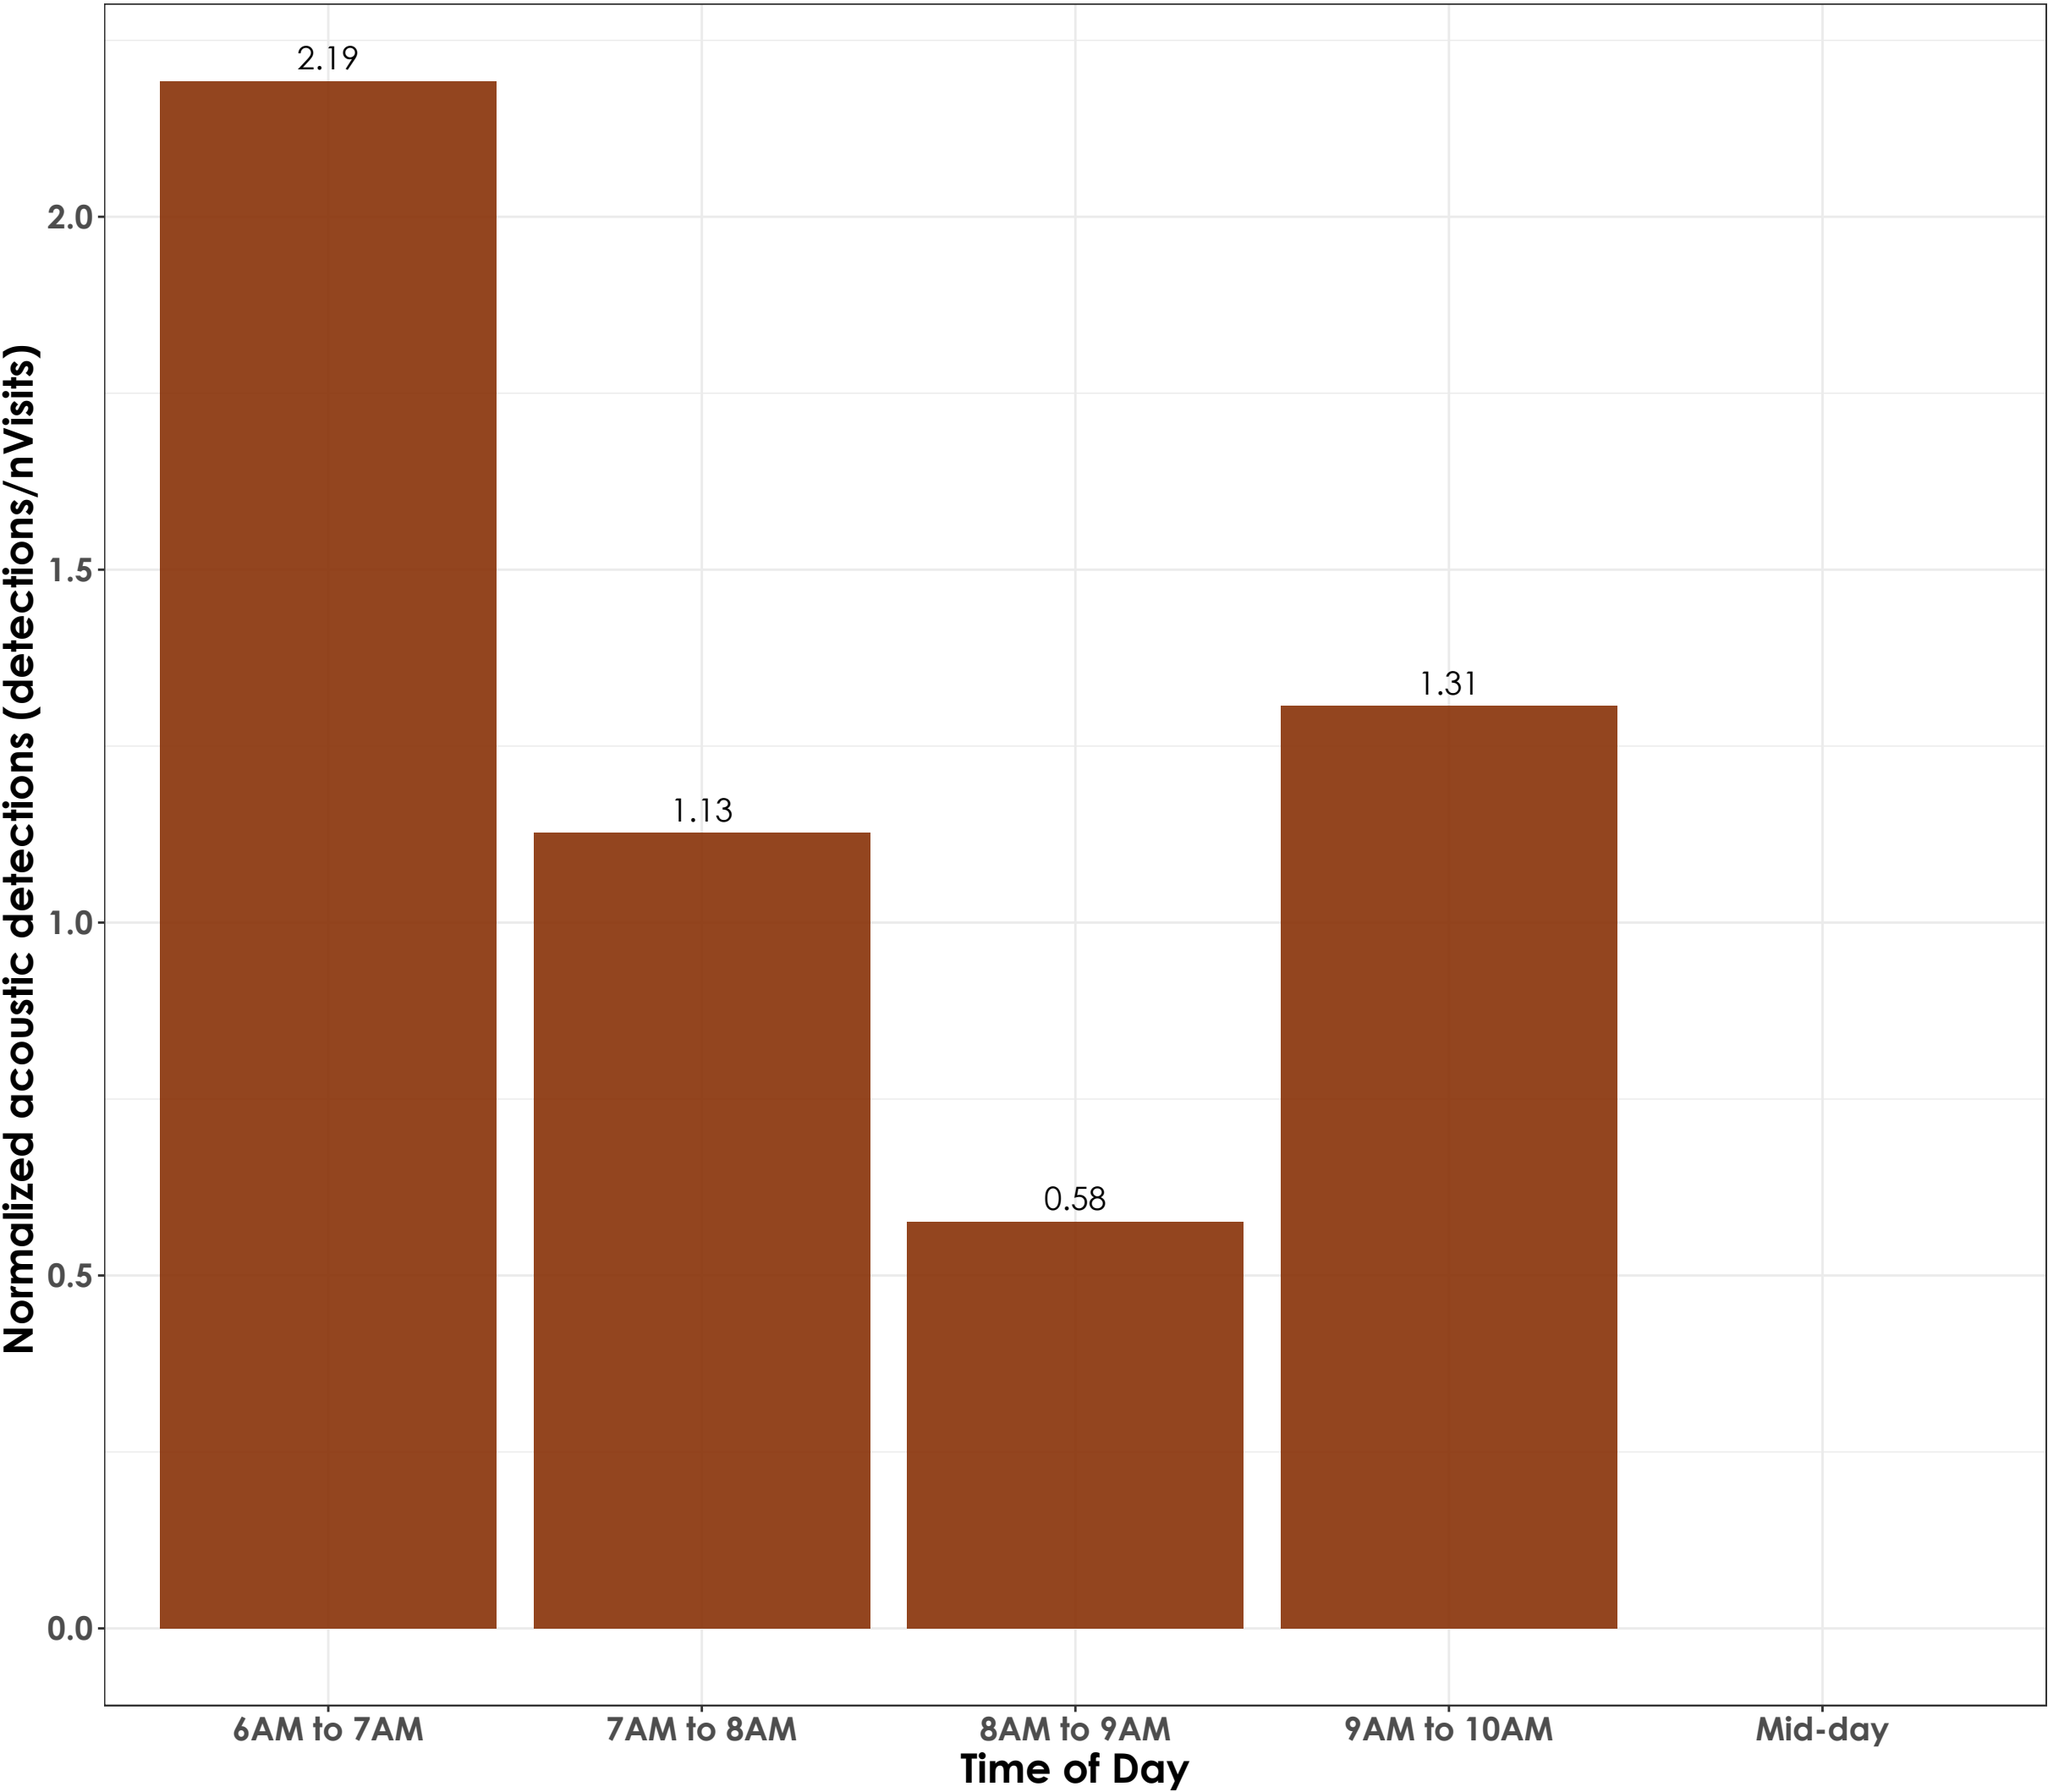

# Asian Brown Flycatcher

Each bar represents the normalized detections across dawn and dusk

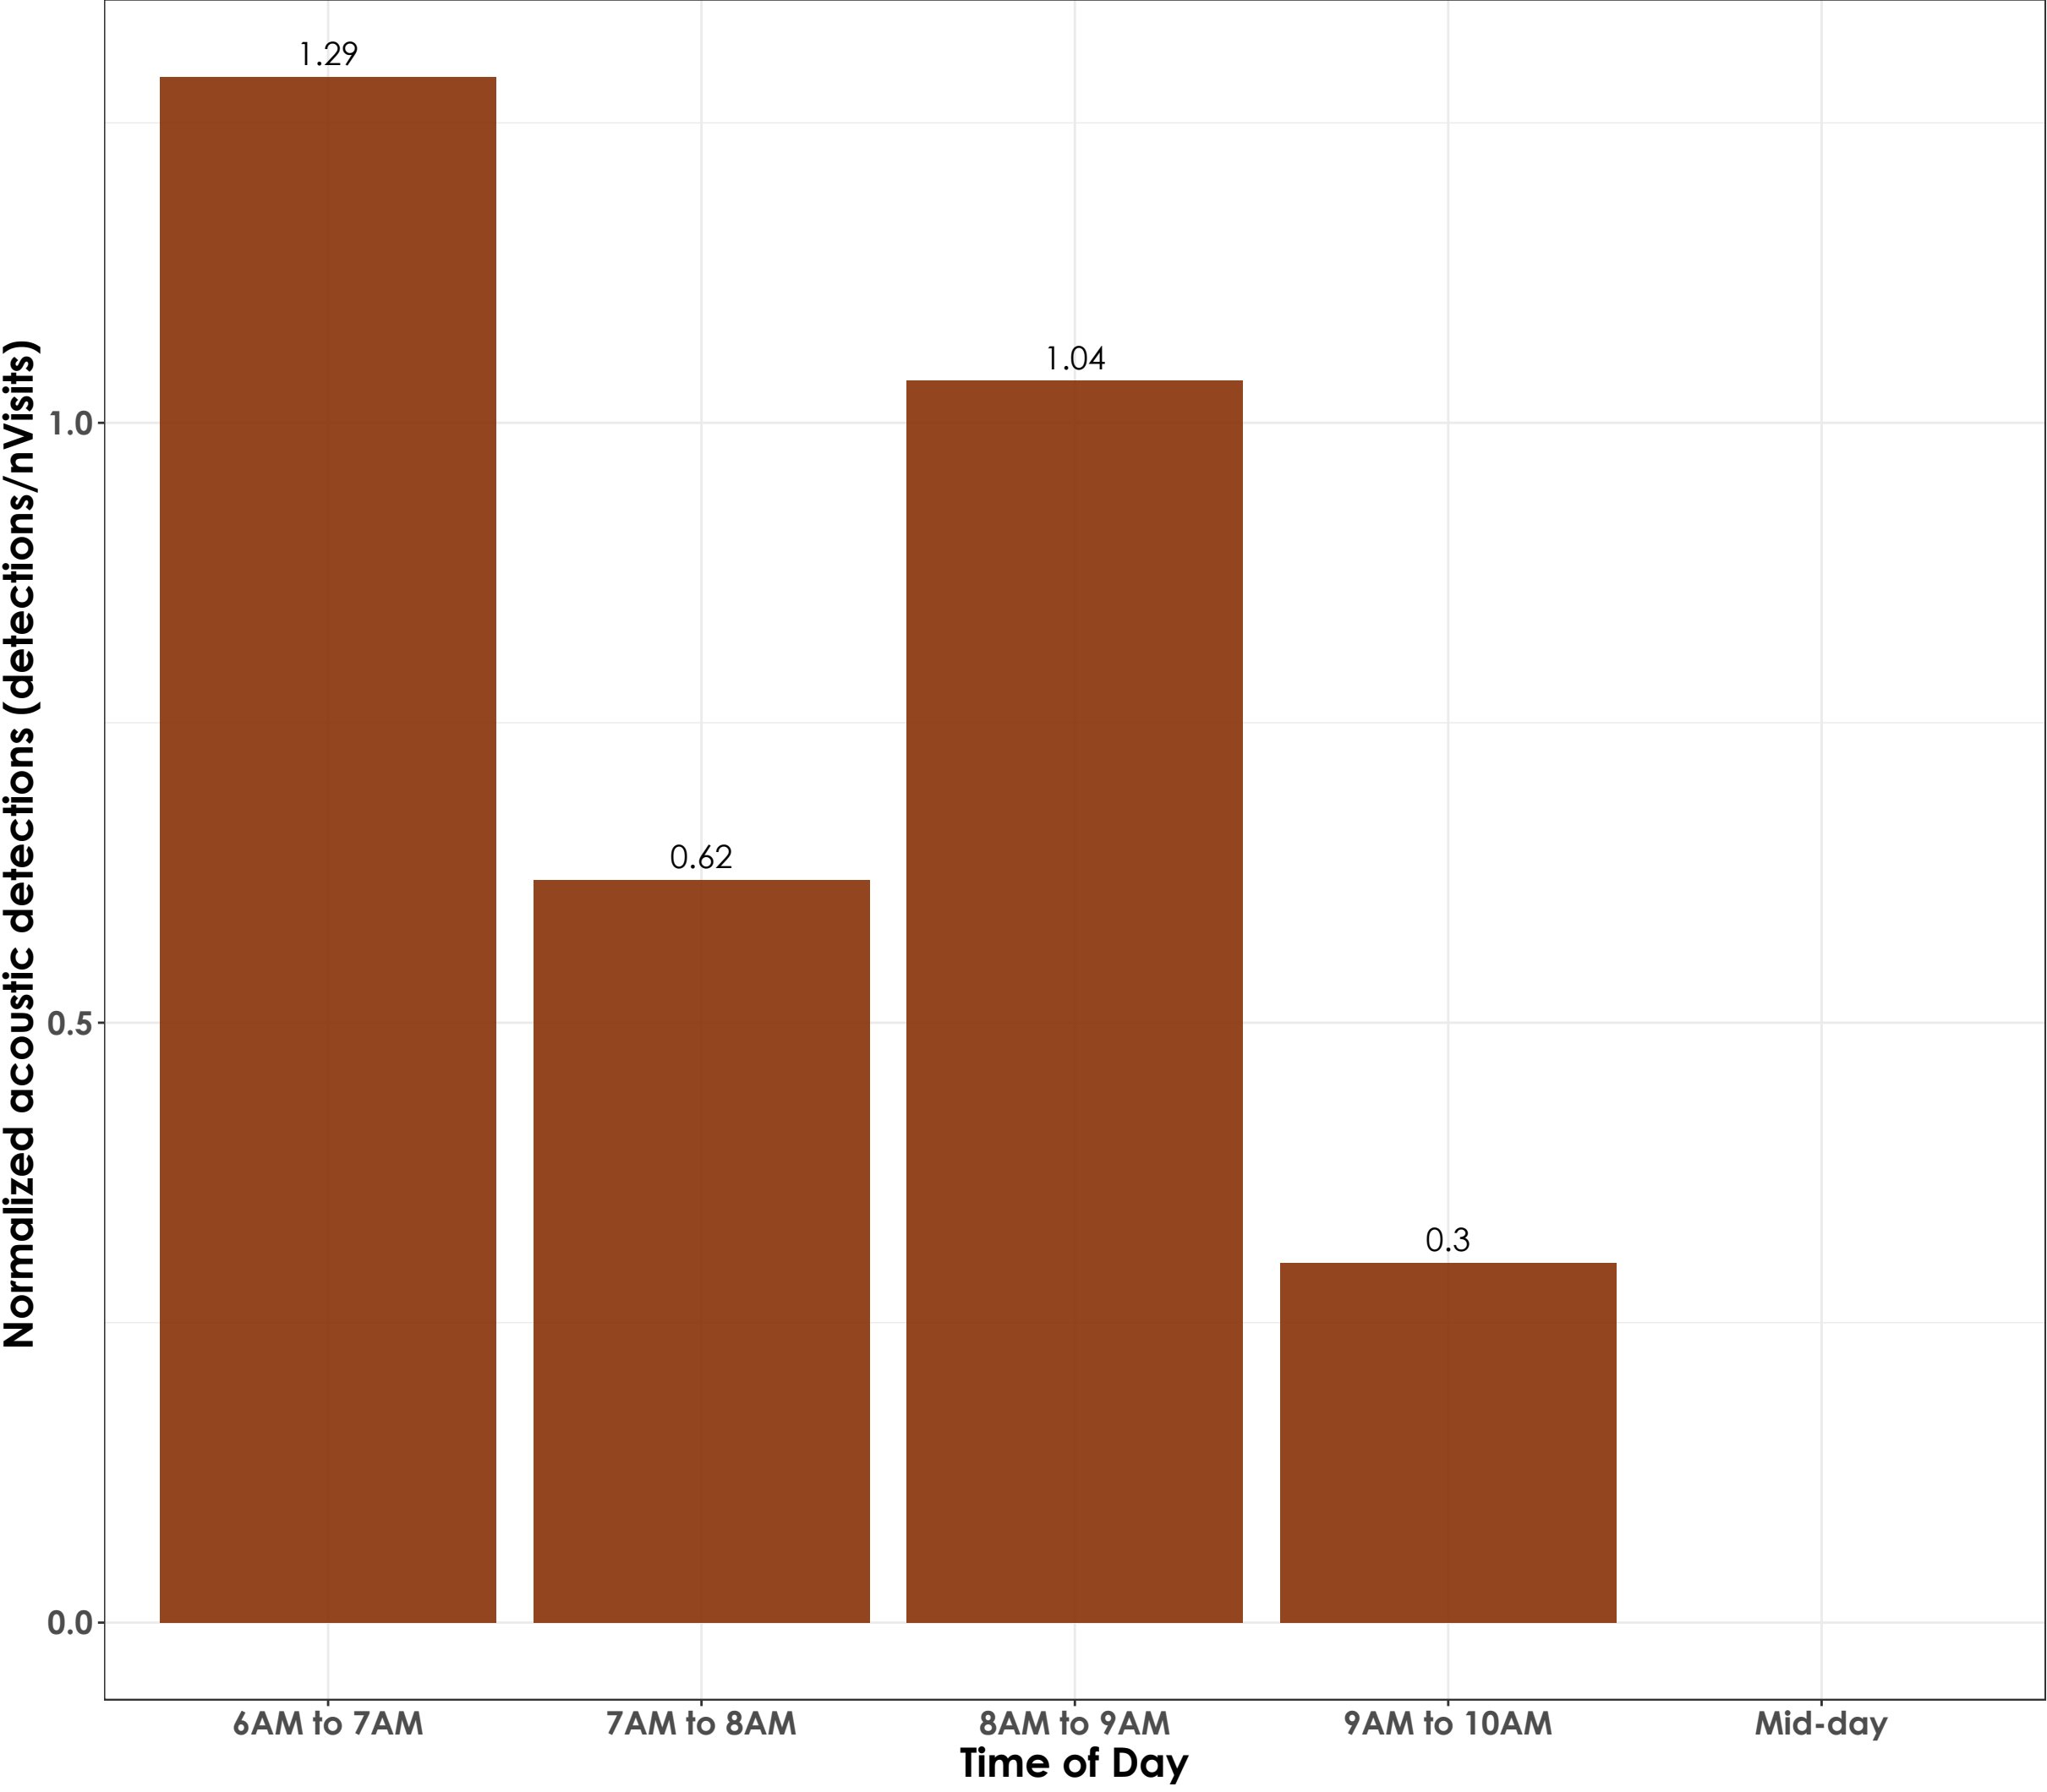

**Little Spiderhunter**

*Each bar represents the normalized detections across dawn and dusk*

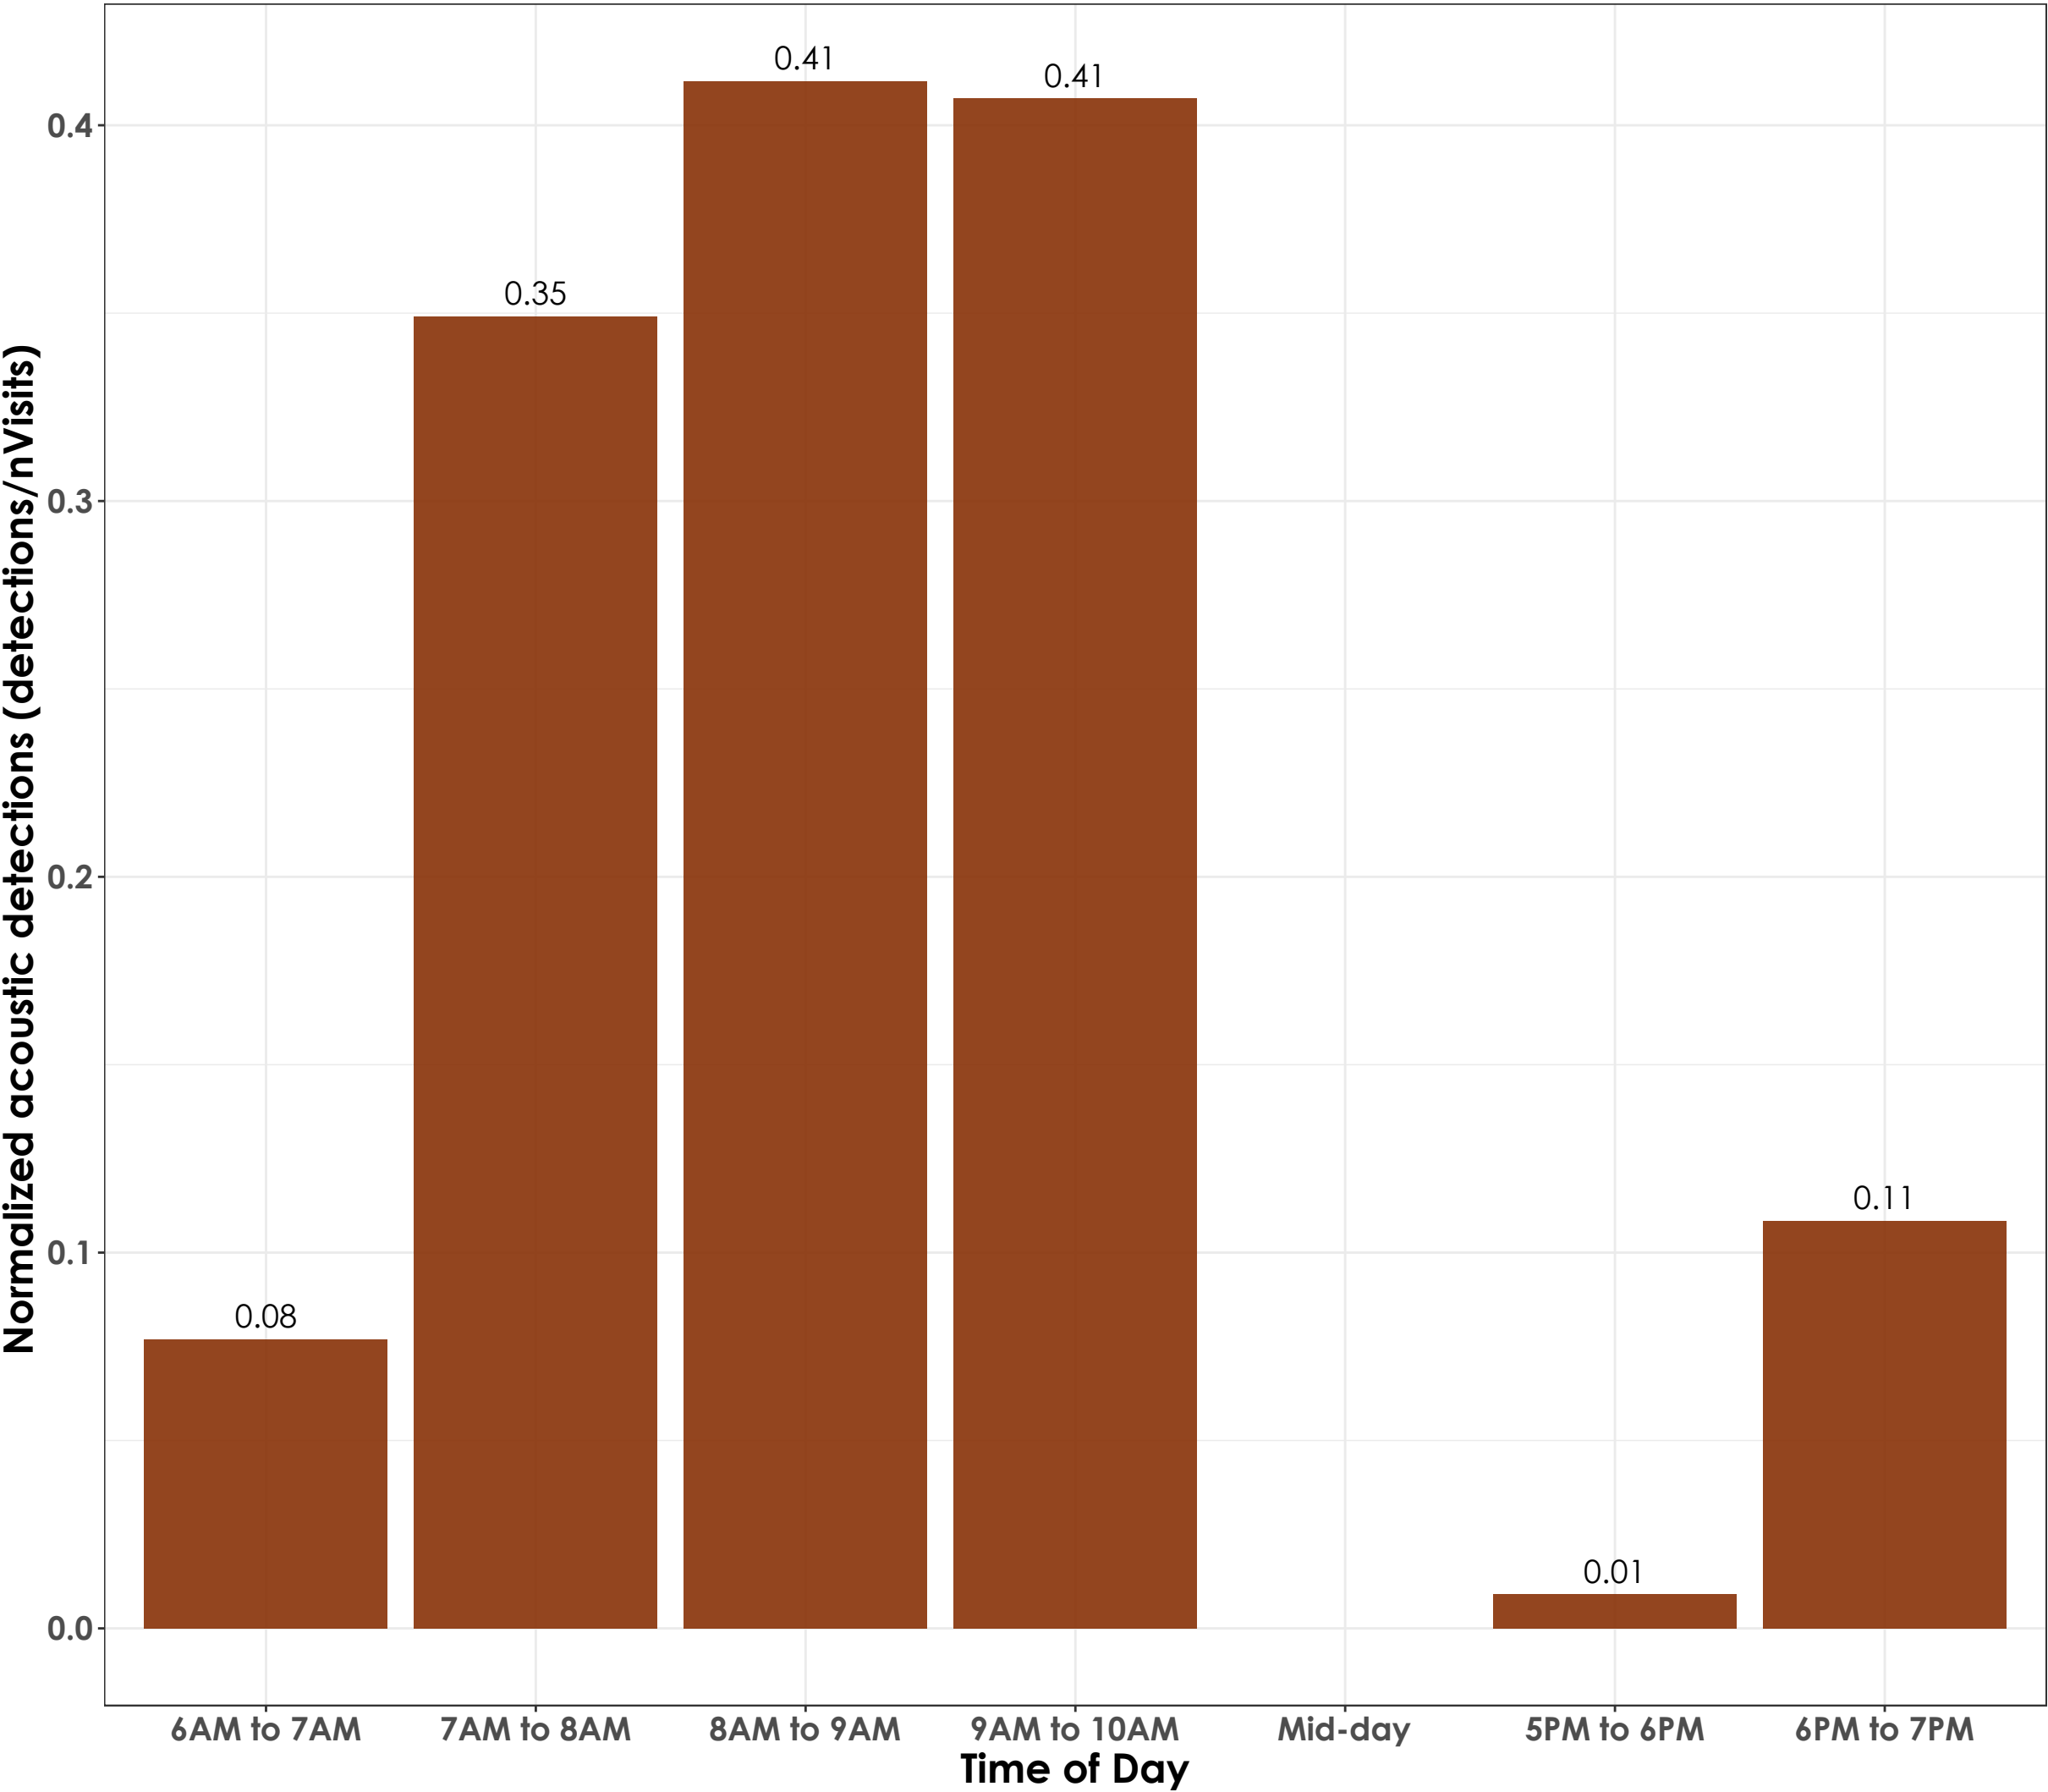

# Indian Blackbird

Each bar represents the normalized detections across dawn and dusk

# Rufous Babbler

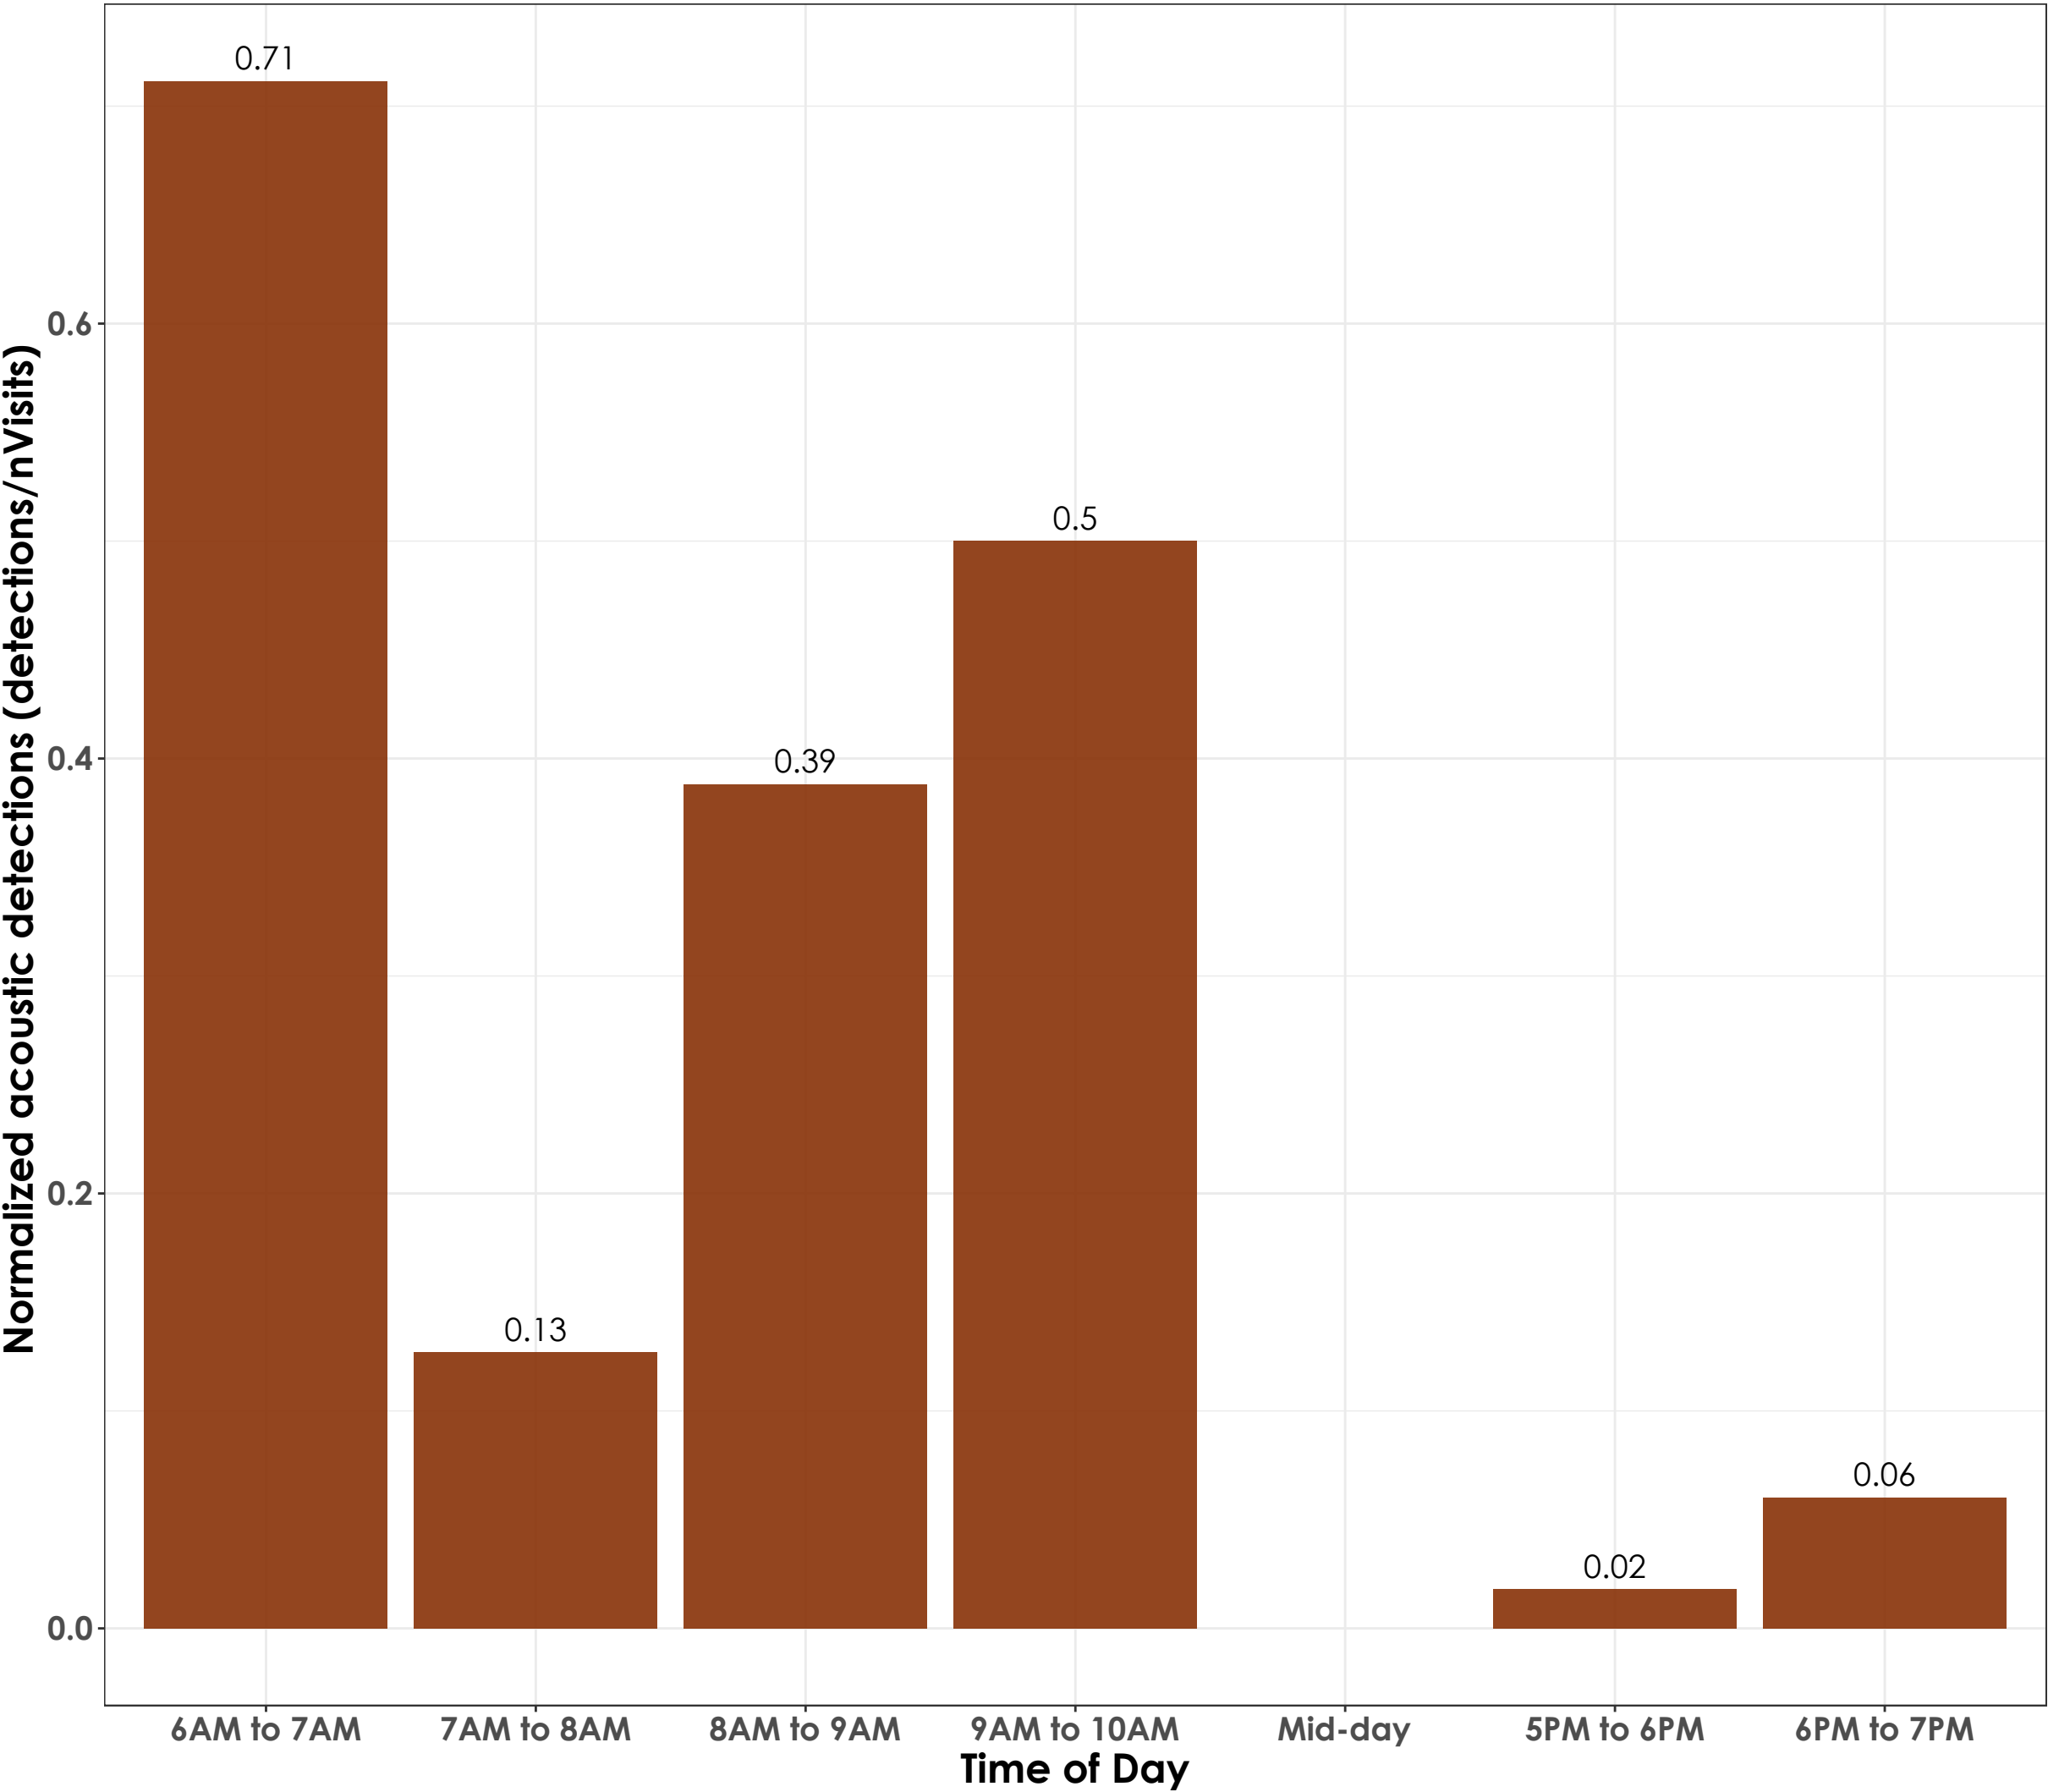

Each bar represents the normalized detections across dawn and dusk

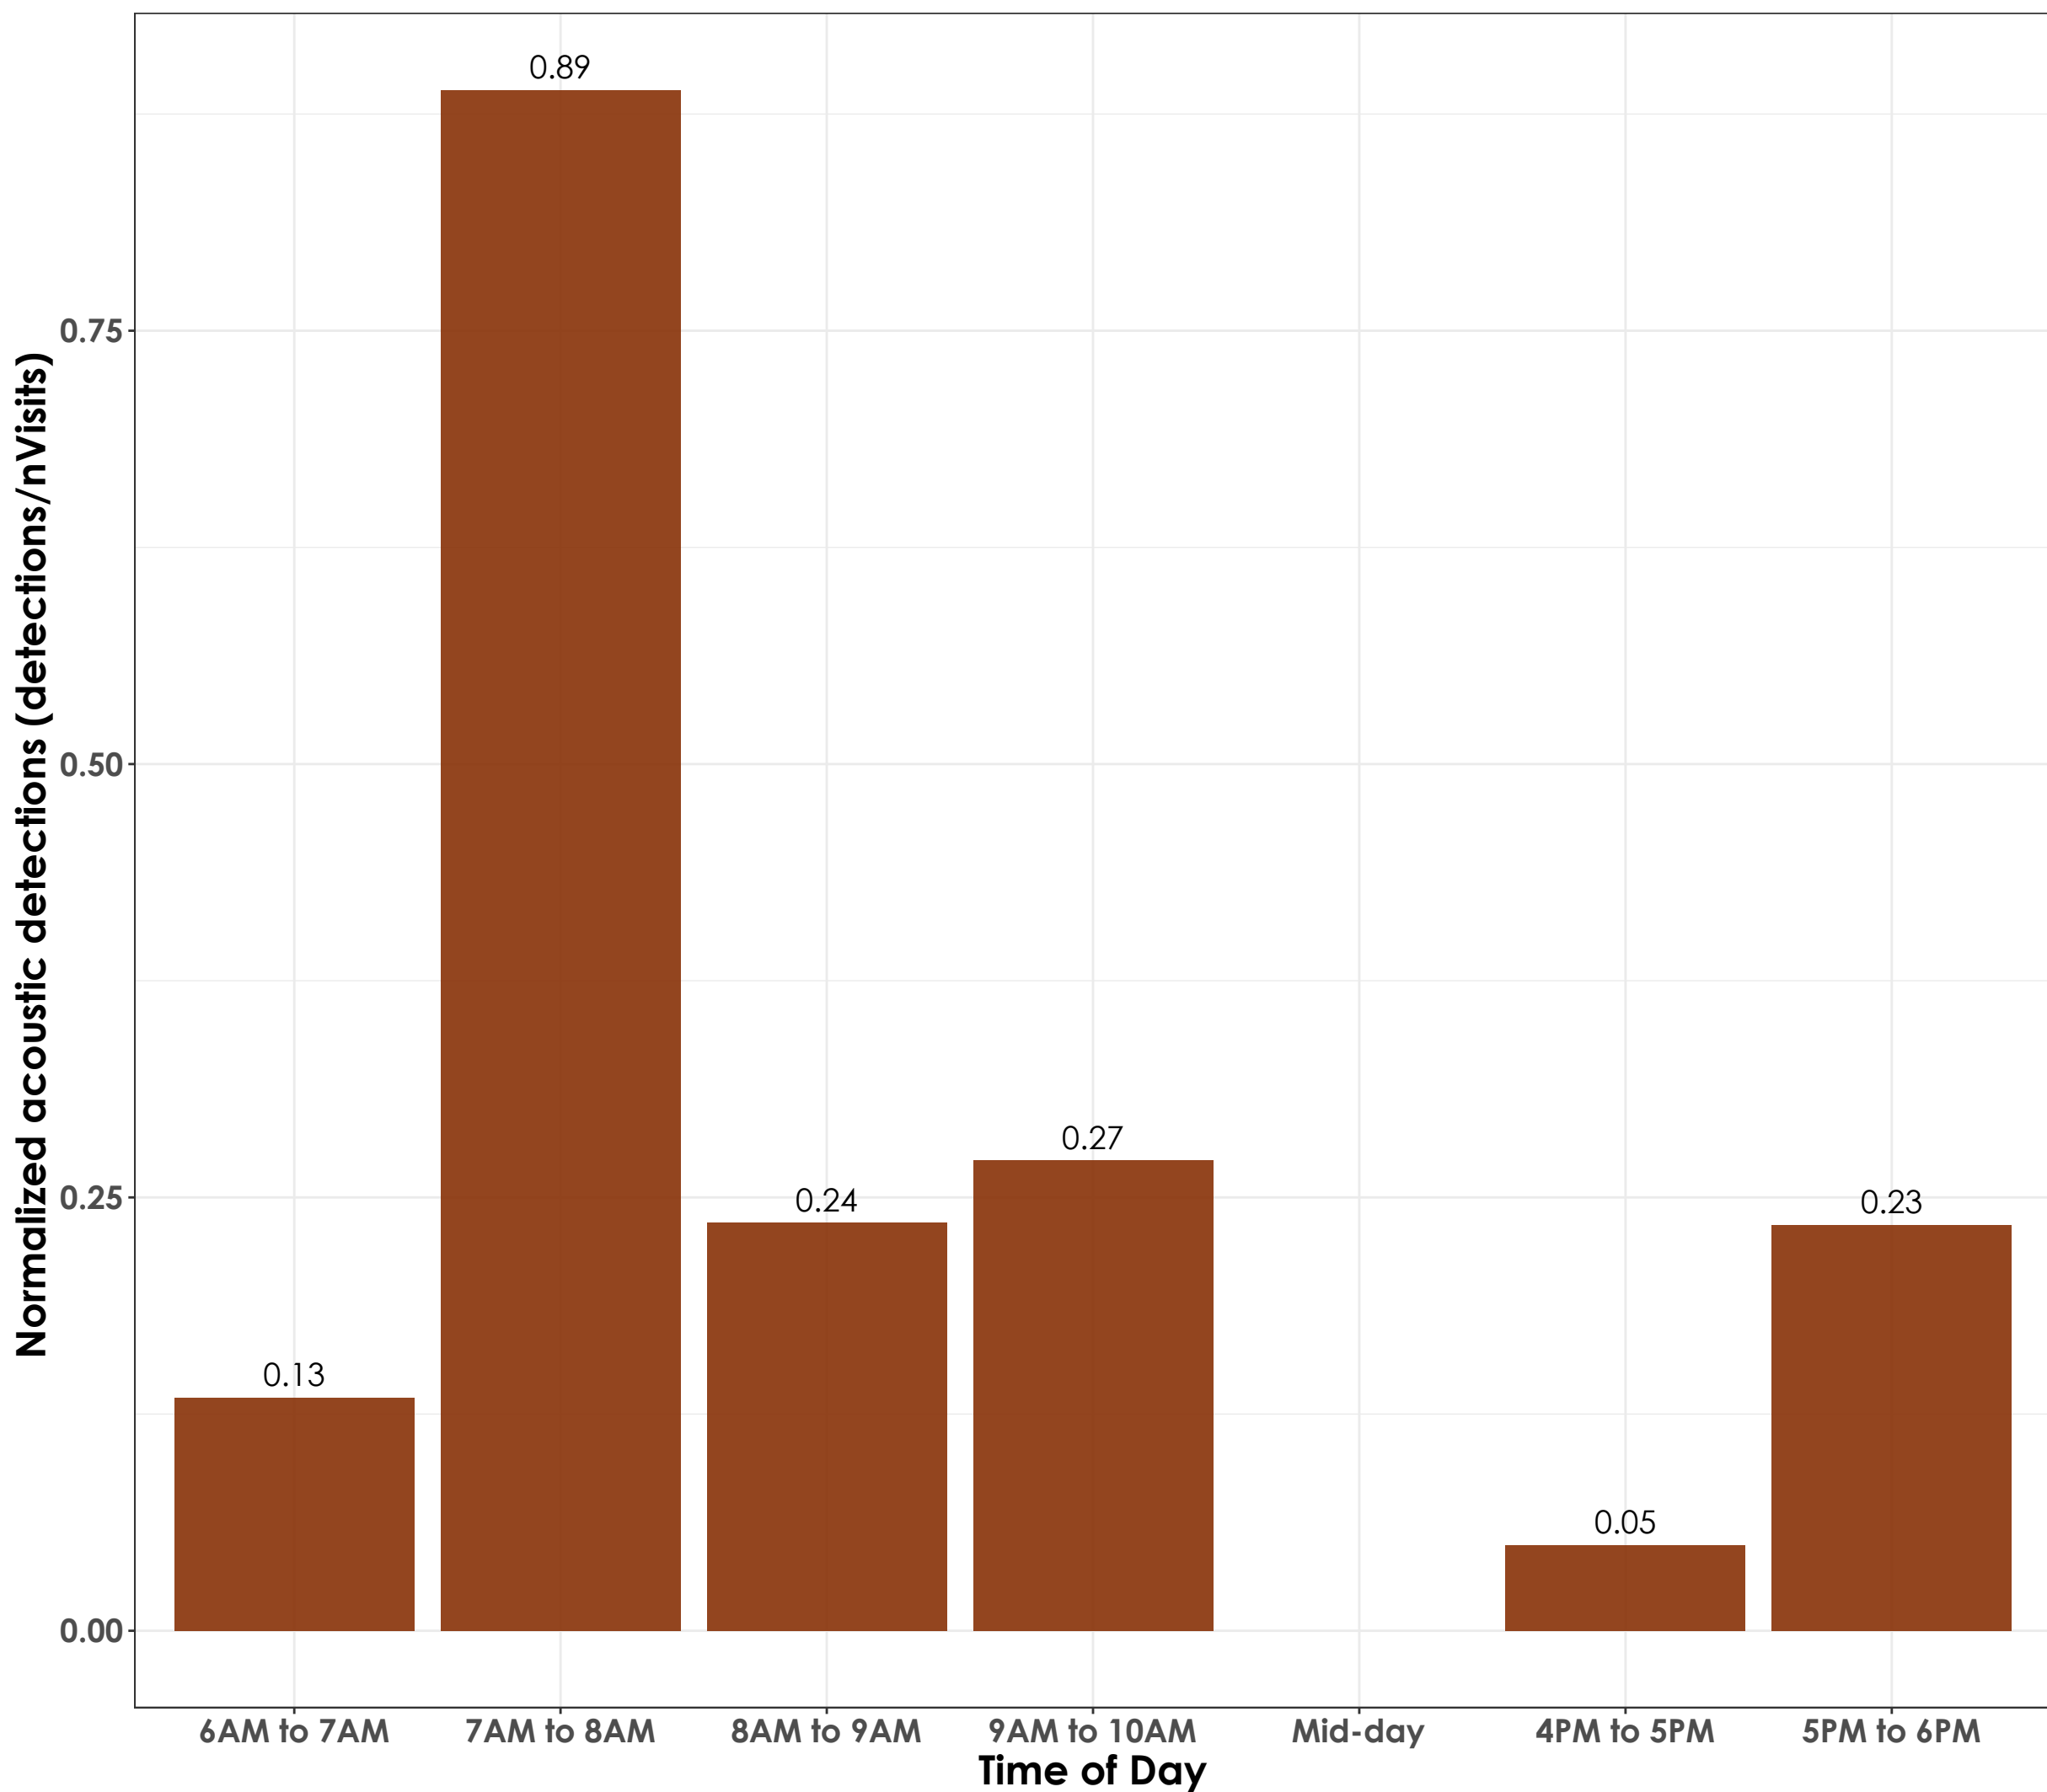

# Malabar Woodshrike

Each bar represents the normalized detections across dawn and dusk

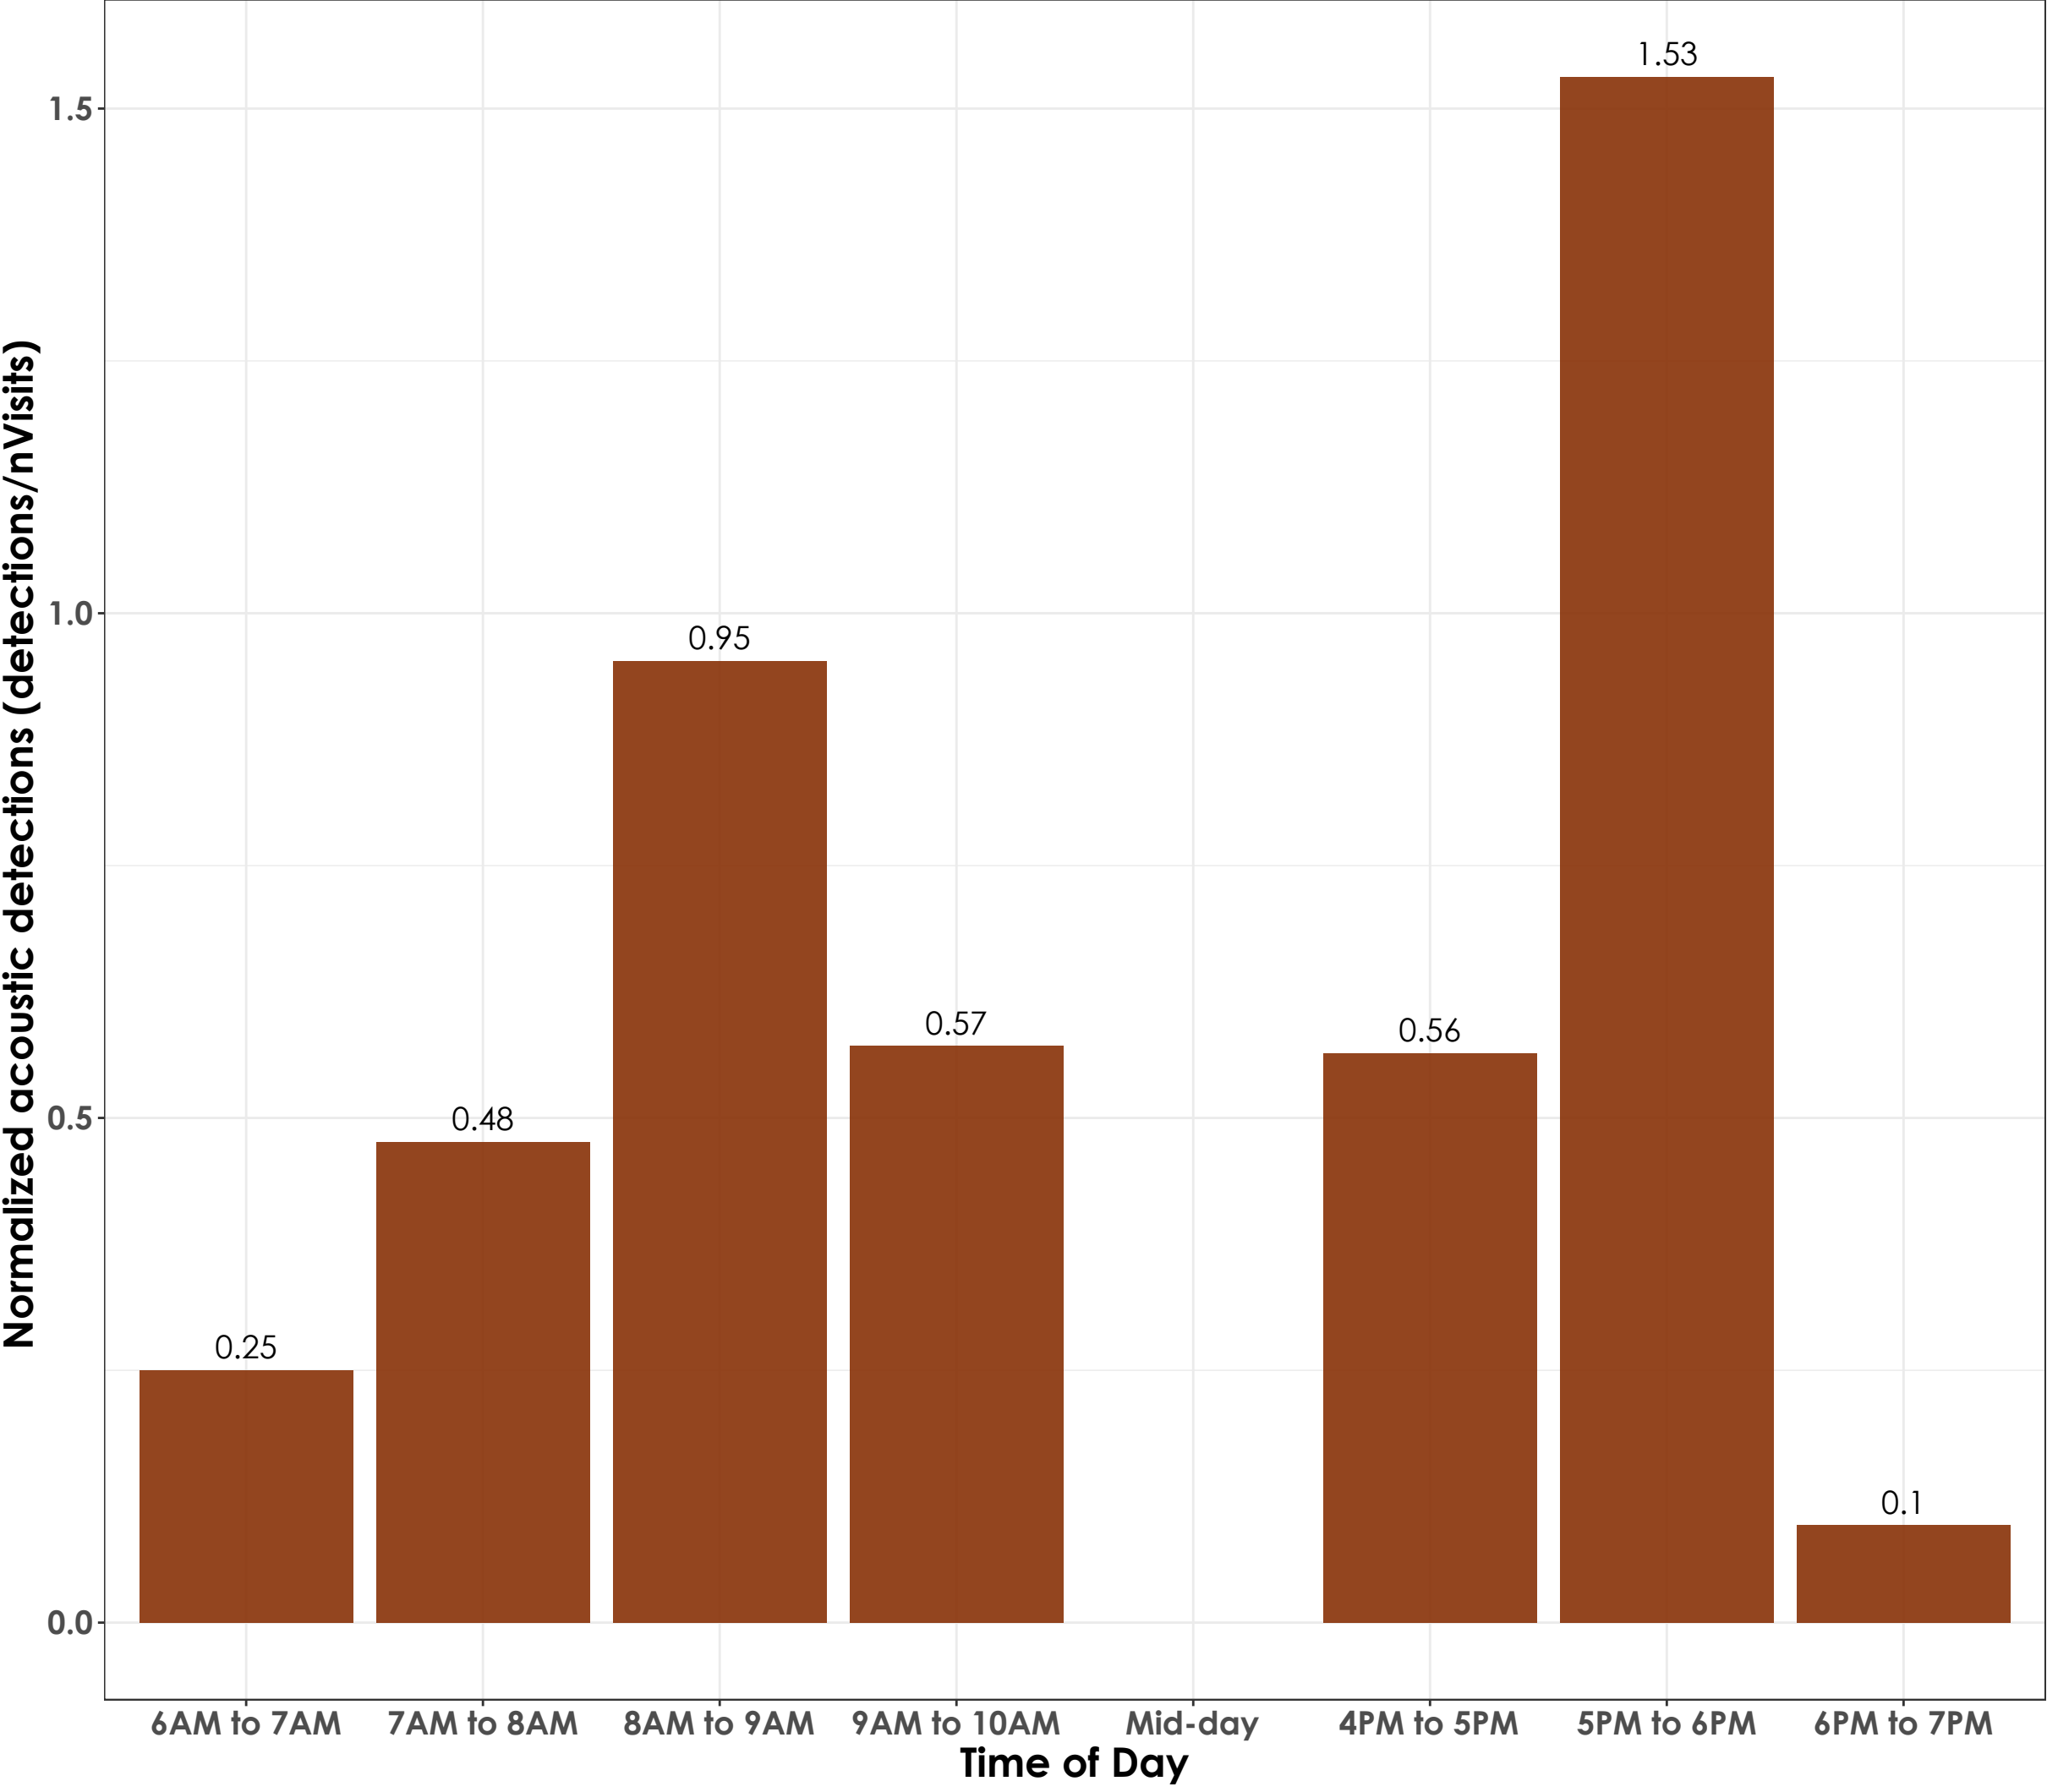

# Black-rumped Flameback

*Each bar represents the normalized detections across dawn and dusk*

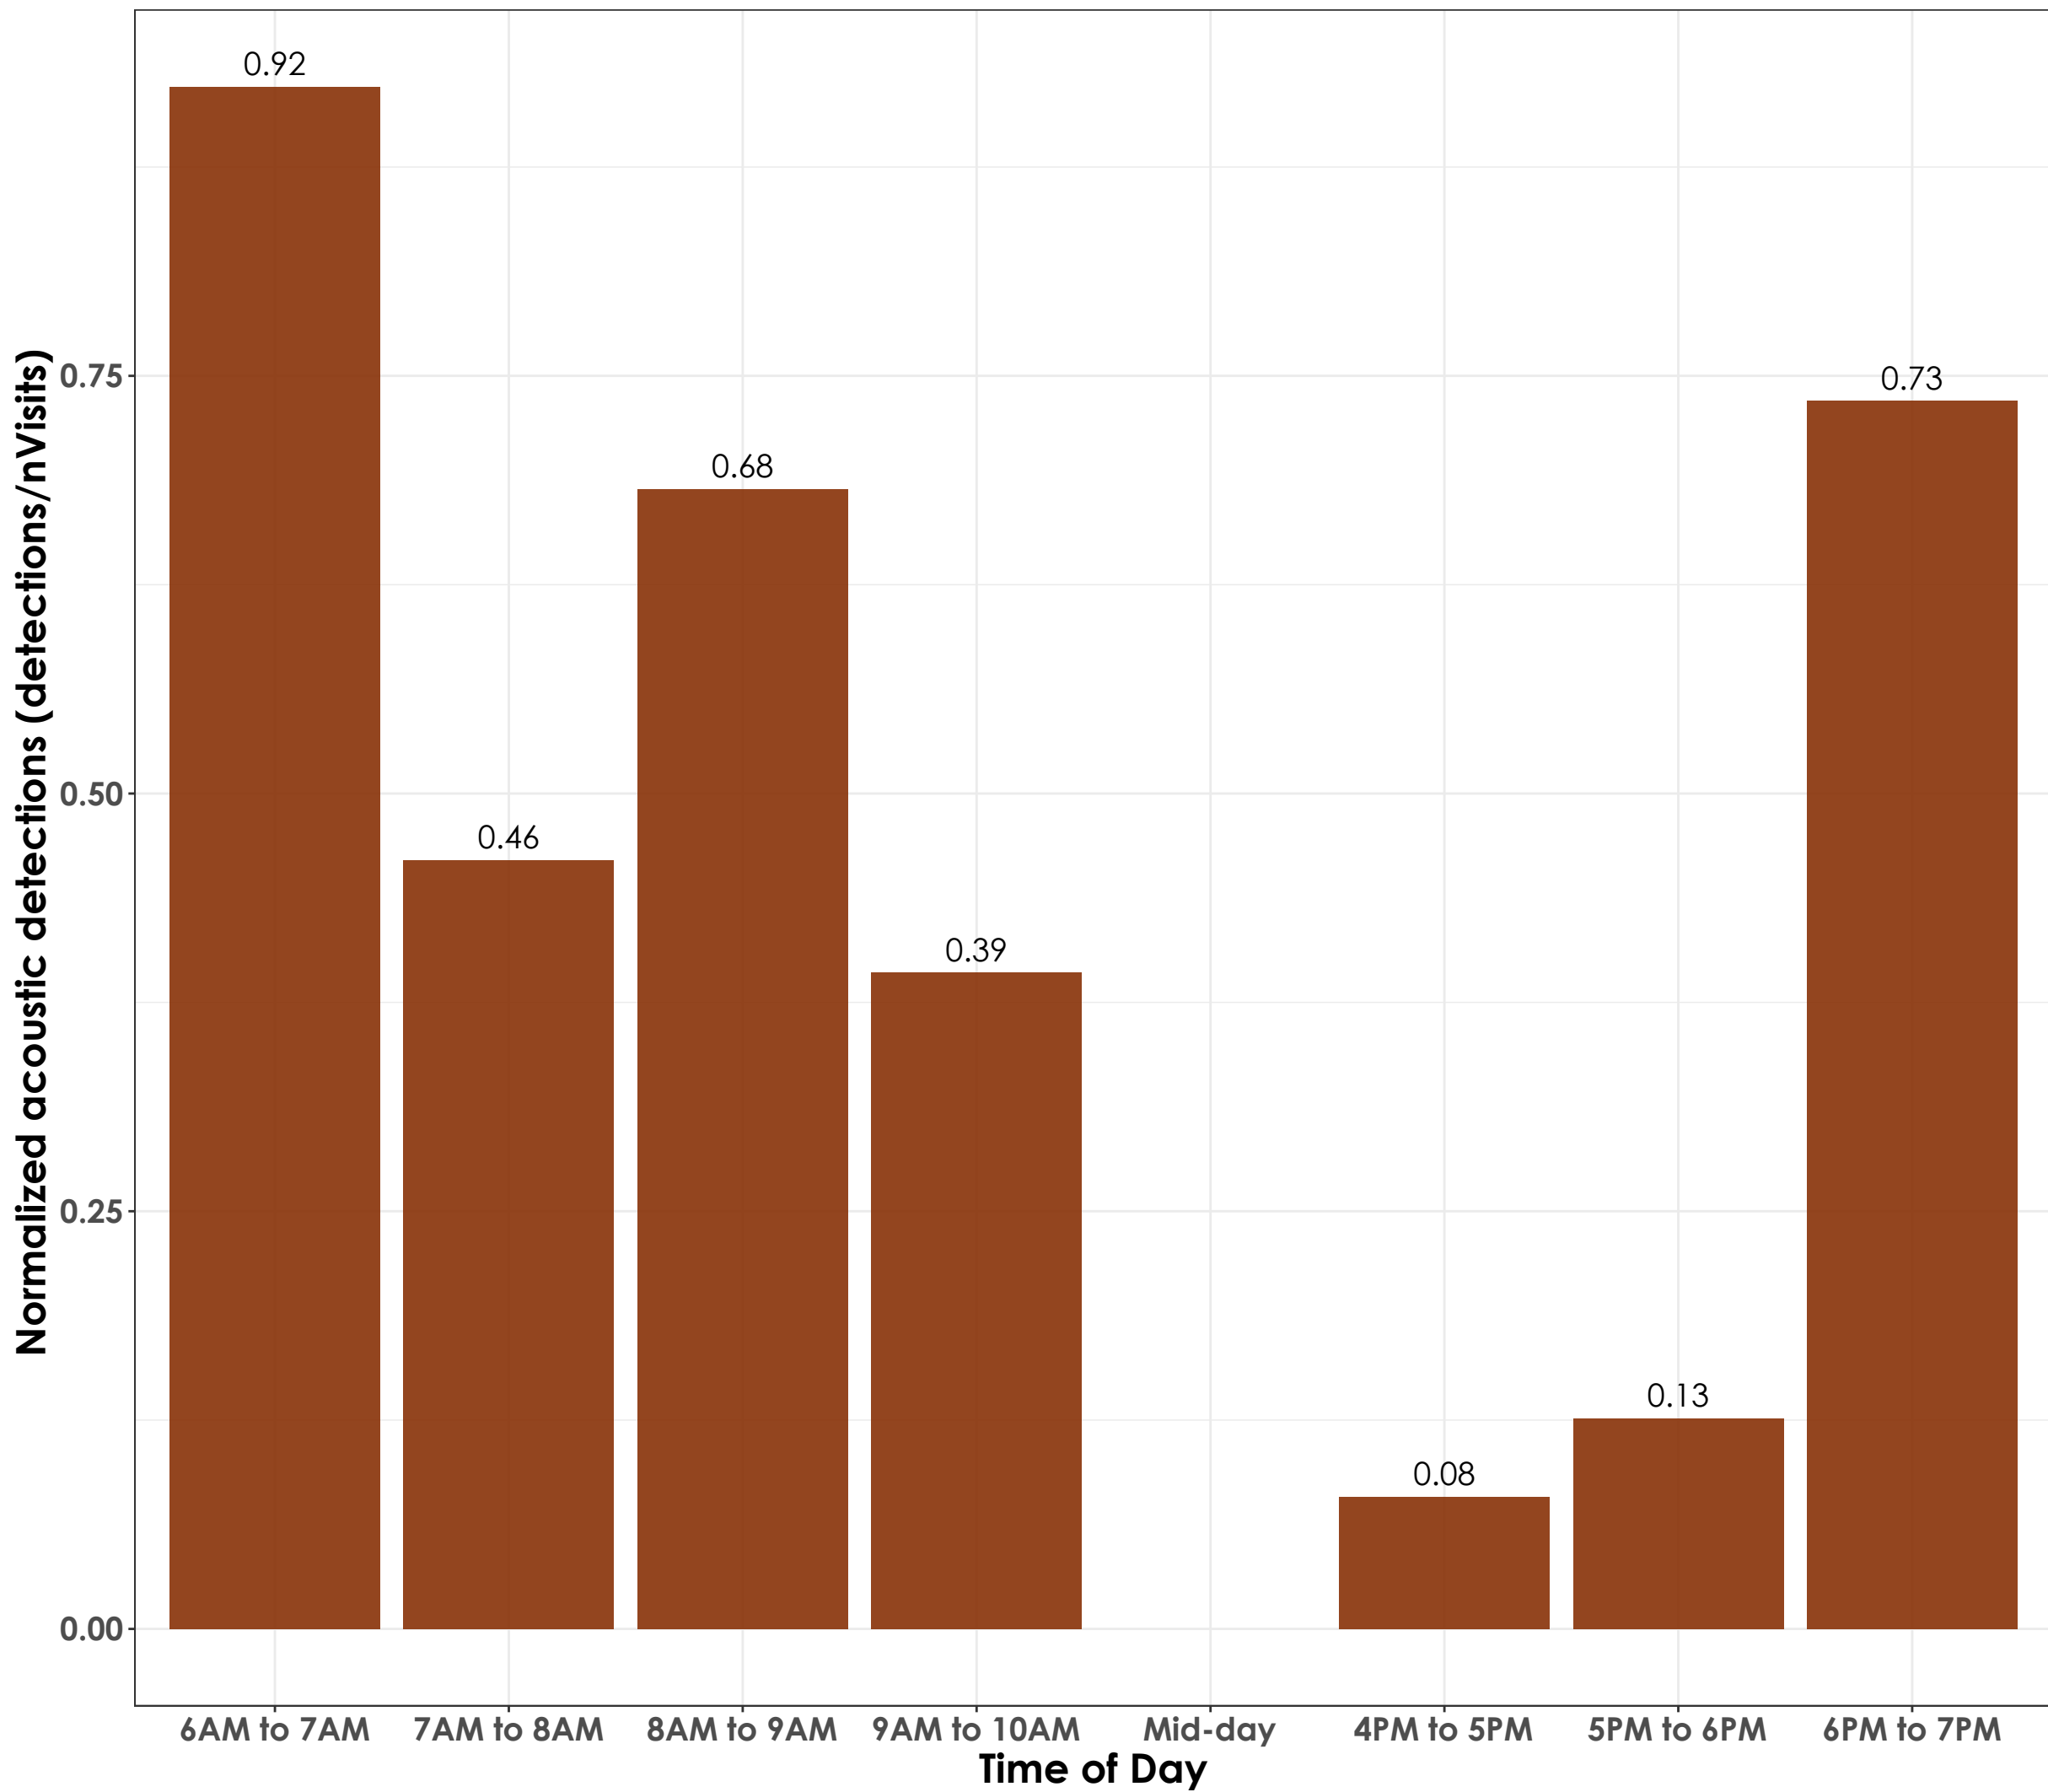

# House Crow

Each bar represents the normalized detections across dawn and dusk

# Golden-fronted Leafbird

*Each bar represents the normalized detections across dawn and dusk*

**Red Spurfowl**  
*Each bar represents the normalized detections across dawn and dusk*
